OPEN SCHOOLS TO MARRIED WOMEN IS REQUEST MADE

Commissioner of Education Seeks Repeal of Rule Barring Married Teachers from our Schools

WASHINGTON, August 16.—"Repeal of the rule barring married teachers from our schools," was the advice Commissioner of Education Clinton sent broadcast today.

His action follows receipt of the following letter, signature of which is withheld: "As you know, most of the large cities will not employ married women as teachers in the high schools. As you also know, the war department has placed in class 1, all men who were educated to earn a living. Many of these women were teachers in the larger high schools. These positions are now closed to us and we must teach in a small town, at a small wage, all because we have husbands who are giving themselves in answer to their country's call. Is this fair? Kansas City, Mo., Kansas City, Kan., Topeka, Kan., and many other cities have courteously returned all applications saying they employ no married women."

It is deemed necessary at this time in view of the demand for men of class one.

The registration of August 24 is to take place on that day between the hours of 7 o'clock a. m. and 9 o'clock p. m.

HUN HOSPITALITY

There seems to be at least one similarity between Kultur and advanced civilization in America.

Our standards, in public society, require that within the hearing of our host, we speak in highly complimentary terms. The Huns are applying this well recognized principle to those of our boys who happen to be obliged to partake of their hospitality.

When the boys write letters to the folks at home it is quite necessary, in order to avoid delay in transmission, that they refer to the excellence of the treatment accorded them, and assure the home folks that they are having a delightful time.

That the German prison authorities should insist upon the observation of these nice points of etiquette is quite reassuring to those who feared that our boys were not in just the right atmosphere.

STARTED SOMETHING ELSE

Prince Liechowsky, former German ambassador to Great Britain, thinks Germany started the war. Firm in his conviction, he has had the courage to tell the German people so in a series of memoranda.

The Prince was a member in the Prussian upper house.

He is now.

OUTLINES FARM BUREAU MEMBERSHIP CAMPAIGN

Federal Director Beck's Advice of State and County Leaders on Plan

Request for an expression of his opinion as to the details of a plan for inaugurating in Idaho a campaign to augment the membership of farm bureau organizations made by W. F. Loyal, administrator of agriculture, agriculturist in charge of county work, has been referred by H. W. Hochbaum of Boise, state leader of county agents, to the several county agents of the state.

The principal purpose of such a campaign would be, according to Mr. Loyal, encouragement of increased food production by means of recognized federal, state and county extension agencies. It would result also, he suggests, in fixing in the public mind the purpose and value of these agencies as they are at present existing and functioning.

A similar campaign in the state of Connecticut in November, Mr. Loyal advised, was conducted under plans embodying many of the features of Loyal's Loan and War Savings Stamp drives, with the result that an average increase in membership of 2000 in each county was secured.

FARMERS FAVOR UNION OF LABOR

Farm Bureau Executive Committee Declares for Organization of Employees

In resolutions adopted at a meeting in the farm bureau offices here, Thursday evening, to be submitted at a special meeting of the state farm bureau convention in Pocatello Saturday, the Twin Falls county farm bureau executive committee declared against restrictive action in the existing farm labor wage scale adopted by the farm bureau, recommended the organization of a representative and reliable farm laborers' union with which the farmer employers might deal in fixing the wage scale for next year, and requested the state farm bureau organization to exert its influence to secure the reinstatement of the \$10,000 item in the agricultural appropriations bill before congress for combating animal pests.

Would Not Change Now The executive committee in its discussion prior to the adoption of the resolutions, expressed the opinion that the purpose of the farm bureau wage scale, that of stabilizing the farm labor market, would not be served by alterations at this time. Regardless of the wage figure set, members of the committee argued, there are some farmer employers who would attempt to gain an advantage by paying higher wages, and there are some laborers who would demand more. The committee took the position that any alteration in the wage scale should be made at a conference of the farmer employers through the farm bureau with representatives of the farm laborers' union which they declared should be organized.

Protection Is Needed Citing the need for federal appropriation for combating animal pests, members of the committee declared that one farmer in the vicinity of Hansen this year had killed more than 12,000 rabbits with poison furnished through this means, and that the poison had been used in several sections of the county with beneficial results. Seven out of the nine members of the committee were in attendance at this meeting.

JEFFERSON CLUB FAVORS MARTIN

Twin Falls county Democrats Express Preference Between Candidates

Members of the Twin Falls County Jefferson club at a meeting Thursday evening in the entertainers' room at the county court house addressed by Martin Boise, adopted resolutions endorsing and pledging their support to his candidacy on the Democratic ticket for governor of Idaho, thereby expressing preference for his candidacy over that of E. A. VanSickle of Weiser. The meeting was called and presided over by Thomas M. Robertson, president of the club. The resolutions in support of Mr. Martin's candidacy, which were offered by Thomas Robertson, editor of the Twin Falls Chronicle, are as follows:

Resolved, That the Democrats here assembled extend to General F. P. Martin our thanks for his splendid, instructive address;

Further, that we endorse General Martin as the party standard bearer in the present state campaign and pledge ourselves to do all in our power to bring about his nomination and election as governor of Idaho;

Further, that we urge the Democrats of the state to align themselves behind one set of candidates for state officers.

SAY WEEDS TAKE EXPENSIVE TOLL

W. L. Leslie, Boosting Farm Bureau Campaign, Figures Losses

Weeds in grain fields are taking a toll conservatively estimated at \$500,000 from Twin Falls county farmers this year, according to W. L. Leslie, manager of the Darrow Brothers Seed & Supply company, Twin Falls. Mr. Leslie is an ardent advocate of the farm bureau campaign for the eradication of various weeds and of the movement under way to create a weed district under the provisions of a state law, to include all of the lands under the Twin Falls canal system.

"It is safe to figure that one-fourth of the wheat fields in the county are infested with wild oats," Mr. Leslie said. "This weed will cut the yield at least 10 bushels per acre and 10 bushels of wheat is worth \$20."

Saving Would Pay Taxes Elimination of the weeds along the fences, ditch banks and fields of Twin Falls county farms, Mr. Leslie argued, would result in a saving sufficient to more than pay taxes and maintenance charges.

Declaring that the weed pest is a serious menace, Mr. Leslie expressed the opinion that his seriousness is not fully realized or the farmers would of their own accord employ more diligent effort to eradicate it. The country districts are not alone confronted with the necessity for combating the weed, Mr. Leslie points out, declaring that all of the noxious weeds are to be found along the ditch banks and in vacant lots within the limits of incorporated cities and towns of the county, and that the spread of weeds from this source is a serious matter.

ALL RUSSIA IS FERMENTED

(Continued from Page One)

Czecho-Slovaks are battling along the Volga river.

Hard Fighting Anticipated British troops, reported to have landed and seized the other defenses of Baku, were being made out of the night before natives there give up this price which the Germans have had their crafty eyes on for some time.

Military officials today applauded the feat of the valiant British troops which was compelling the fight to "over a mountainous country of north Persia from Bagdad, 700 miles away." Turkish troops at Baku are preparing to advance on Baku, according to reports here and German communications probably will accompany them.

From Baku the allies, if opportunely afforded, can operate in southern Russia; joining forces with the Don Cossacks who have been fighting the Bolsheviks.

Under the Brest-Litovsk treaty, much territory in the region of Baku was ceded to the Turks. Armenians however, resisted bitterly and the city changed hands several times during the spring and summer. Both Germany and Turkey want Baku for its oil and also because of its proximity to the Indian frontier.

Bolshakovi on the Run "Bolshakovi in northern Russia are fleeing before the expedition organized out of Archangel. Marching along the railroad to Vladivostok, allied troops have progressed 100 miles or more fighting Lenin's troops all along the way.

Czecho-Slovak troops stationed thinly along the 4,000 mile stretch of Siberia railway in Manchuria, are being driven back as pressed by the Bolsheviks. The force is poorly armed and short of food and equipment. Early Siberian winter which is now approaching the Czecho-Slovaks on the march are to their objective and join their comrades in eastern Siberia.

To Open Communication Japanese forces are expected to move on Lake Baikal and seize the railroad there and open up communication to the stranded Czecho-Slovaks. Japanese news in Manchuria, it is said here, are in a position to take this step. Japanese regulars landed at Vladivostok yesterday may also go to the rescue of the Czecho-Slovaks, as one of America's stated intentions in Siberia is to give direct aid to the Czecho-Slovaks.

While it is hoped that the United States troops will not be called upon to invade Siberia, officials are believed to be ready at any minute to order them into the interior if this contingency arises. Meanwhile they are to guard military supplies and ammunition at Vladivostok.

U. OF I. TRAINING MEN FOR ARMY

Adjutant General McCain Authorizes Announcement of Unit Organization

(Special to The News)

MOSCOW, Idaho, August 16.—President E. H. Lindley of the University of Idaho, has just received the following telegram from McCain, adjutant general of the United States army: "You have expressed your wish to operate during the war under the students army training corps plan. You are authorized to announce that a unit of the students army training corps will be established at your institution next month. Additional offers, and forms and other equipment will be provided so far as necessary. Students registered under the draft,

we have advised, may be inducted into the students' army training corps upon making application to the commandant at the university. Final word, however, has not been received from the war department covering this detail. Further information will be published as soon as received from the war department.

Since it is the stated purpose of the war department to provide through the colleges and universities of the nation trained men as officers, engineers, doctors, chemists, economists, agriculturists, administrators, etc., and since the immediate means selected for this accomplishment is the students' army training corps, the rules and regulations covering enlistment therein are certain to be very favorable to all students.

OUTLINES PLAN FOR VOLUNTARY SUBSCRIPTION

Chairman C. D. Thomas Announces Method to Be Pursued Here in Disposition of Liberty Loan Quota

WOMEN TAKE BIG PART IN CAMPAIGN

Efficient Drive Organization Held in Reserve Until Full Opportunity Is Given Volunteer War Investors

Having built up probably the most efficient organization for the waging of war fund campaigns in the country, Twin Falls county proposes in the forthcoming fourth Liberty Loan bond subscription campaign to raise its quota by voluntary subscriptions, setting out the first ten days of the campaign for this purpose, and holding the drive organization in reserve.

Recognizes Necessity
"I am of the opinion that people of this county have reached a point in appreciation of the necessity for the aggressive prosecution of the war and of their part in winning it, that they will subscribe voluntarily and without solicitation of any kind the full amount of the quota," C. D. Thomas, chairman of the Liberty Loan campaign in Twin Falls county, said today.

Preparations for the campaign in this county are already well advanced. Women leaders in each block in cities and towns and in each school district in the rural districts are being appointed to check up and record the card systems in which the name of every resident of the county are filed. By using the first ten days of the campaign, which opens September 23, and continues until October 10, these women will accept voluntary subscriptions to Liberty Loan bonds of the fourth issue.

Organization in Reserve
At the close of this period, if necessary to fulfill the quota, the organization which pushed the third Liberty Loan campaign to a successful conclusion in this county under direction of C. D. Thomas will be sent into the field to solicit subscriptions from those who have not already made voluntary subscriptions through the women campaign leaders.

"We hope, through holding the organization in reserve and in the event that their services in this campaign are not required to effect a considerable saving of the time and effort of the men of the organization, who may be, if necessary arises, employed during the campaign in the harvesting of crops," Mr. Thomas points out, "those who object to personal solicitation in the matter of their war subscriptions will be permitted to make their investments without that procedure for the part of the women of the county are to take in the forthcoming Liberty Loan campaign. Mr. Thomas has enlisted the assistance of Mrs. H. W. Gloubeck, county chairman for the national council defense women's division, and Mrs. R. W. Alfred of Buhl, for the west end. The appointment of women block and school district leaders is to be made through the women's clubs and by Miss Gertrude Deacons, county home demonstration agent, for the rural districts.

Quota Double Last One
The total amount of the third Liberty Loan bond drive issue last spring was \$3,000,000,000. The total amount of the forthcoming fourth Liberty Loan bond issue is double the amount, or \$6,000,000,000. Twin Falls county's quota for the third issue was \$550,000. It will be probably double that amount or \$1,100,000 for the fourth issue.

ADVISES FEEDING HAY ON FARMS

County Agent Gathers Information on Outside Crop and Stock Situation

That there is a ready market at high prices for between 5,000 and 6,000 tons of Twin Falls hay in the districts of north Idaho, Oregon, Washington and Montana which have suffered from drought, this season, but that it is better policy for Twin Falls hay growers to buy livestock in these districts where hay is short and feed it on their own farms than to ship out their alfalfa, is the statement of County Agent Donald McLean.

Has Requests for Hay
Mr. McLean has in the farm bureau offices here, several letters from county agents in the districts where the hay crop is short asking for quotations on Twin Falls hay in considerable quantities. He has also a letter from E. J. Hildings, dean and director of the state university agricultural college, sent from by H. W. Hochbaum, state leader of county agents, suggesting the purchase of Twin Falls hay growers of livestock and stock in the drought stricken districts, and feeding it here.

Dean Hildings's Suggestion
Following are quotations from Dean Hildings' letter:
"Conditions in north Idaho are such that a great deal of livestock there is starved and not many farmers desire to purchase. I know that crop conditions are good in the south and though some of the county agents might know men who want to buy livestock, I have a letter from animal husbandry people at Hoxman, indicating that quite a bit of good livestock will be for sale in Montana due to drought and feed shortage. That cattle are principally Hereford and Shorthorn breed and in sheep Hambleton blood predominates.

COURT ADDS CHAPTER TO MARITAL EXPERIENCE

Decree Released Mrs. Mary L. Harkelroad from Bonds to Spouse Who Disappeared

Another chapter in the marital experience of Mrs. Mary L. Harkelroad of Buhl was written Thursday when District Judge W. A. Babcock granted her petition for divorce from her husband, Albert Harkelroad, on the grounds of desertion. Mrs. Harkelroad was the central figure in an unofficial investigation about two years ago into the disappearance of her husband some six months before that time, and it was ascertained in some quarters that Mrs. Harkelroad was implicated in suspected foul play with which it was supposed her husband had met. The farm home of the Harkelroads was searched with the idea of discovering there the remains of Harkelroad. No word has been heard from Harkelroad since his mysterious disappearance. Prior to his marriage to Mrs. Harkelroad in Grand Junction, Colorado, in June, 1906, he had been for a number of years a mining prospector and was regarded as an eccentric character.
