FOCH DRIVES WEDGE BETWEEN PICARDY AND VESLE FRONTS

NOYON THREATENED ON THREE SIDES; GERMANS WITHDRAWING ARTILLERY

Lassigny Occupied—Railway Station a Mile South of Roye Captured by French—Allies Aim to Force a General Retirement of the Enemy

DOUBLE FLANKING OPERATION MAY PROVE DISASTROUS TO GERMANS

Smashing, northeastward between Oise and the Aisne the French are rapidly developing a double flanking operation which may prove the most serious to the Germans since the counter-offensive began a month ago.

This fighting which has gained an average of three miles on a front of more than fifteen miles since Sunday evening, is expected to compel simultaneous evacuation of the whole southern portion of the German positions in Picardy and the western portion of their holdings along the Aisne. This retirement would be almost certain to extend as far north as Roye and as far east as the confluence of the Aisne and the Vesle—a front of more than 40 miles, as constituted at present.

MAN POWER BILL MAY BE ENACTED BY END OF WEEK

House Committee Expects to Report Bill Today or Wednesday—Probably Are No Changes from Original Plan

WASHINGTON, August 20.—The man power bill making the draft age 16 to 45 will be reported to the house today or tomorrow. House leaders hope to get the measure through before the end of the week.

Members of the house military affairs committee today believed that men of 18 will be taken into the army when necessary and after older men have been drafted, swept away the last vestige of opposition to the war department's plan.

Chief of Staff March's statement that 33 divisions "put into France by June 30 can end the war in 1919 will also help hurry the bill out of committee and through the house.

The house committee met today to start what will likely be final consideration of the bill and to hear Frank Morrison, secretary of the American Federation of Labor, who is opposed to the Thomas' work or fight amendment put in by the senate military committee.

Committee members said today the Thomas amendment will in all probability, be left out of the measure when it is reported to the house, leaving the bill in exactly the form it came from the war department.

Won't Endorse Amendment

Since Secretary Baker has refused to come out flatly for the amendment, committee men believe the man power bill will go through the house faster if the amendment is left out, because it will not have to encounter the opposition of members who have branded the Thomas plan as labor conscription.

Opposite of the amendment today claimed they could easily defeat any attempt to put it in while the bill is being debated in the house.

Senate Meets Thursday

With an agreement reached to re-open the senate Thursday to consider the man power bill many senators today believed the measure can be disposed of by Saturday night.

Even if no vote is obtained by that time, the bill, in all probability will have the right of way the following Monday.

Prohibitioners are unlikely to insist the "bone dry" measure be considered first, although that is the unfinished business by agreement.

One of the "bone dry" proponents of the "dry" leaders today said he would be willing to set aside the amendment temporarily to insure the quick passage of the man power bill.

His views are believed to represent those of the majority of the prohibitionists.

Liverpool Cheers American Arrivals

LONDON, August 20.—Another contingent of American troops has arrived at Liverpool, it was announced today. They were cordially received.

FRENCH FORGE AHEAD FOUR MILES

LONDON, Aug. 20 (4:30 p. m.)—The French have advanced an average depth of four miles on the 15-mile front between Tracy-Le-Val and Osly-Courtil since Saturday morning, it was learned this afternoon. They have also made further progress southeast of Beuvraignes, between Roye and Lassigny. Tracy-Le-Val is three miles east and south of Ribecourt. Osly-Courtil is four miles west of Soissons.

Lassigny line by direct pressure from the west, together with the flanking movement by the French between the Oise and the Aisne is making the Germans hold on their present positions hourly more precarious. The French already are in Lassigny and are reported to dominate the town.

The Roye railway station, less than a mile southwest of the village, has been occupied. French troops have won the important heights on both sides of the Oise between Ribecourt and Noyon.

Between the Oise and the Aisne, where the French struck suddenly Sunday evening, on a front of nearly ten miles, the enemy has been pushed back to Adzignicourt and Morein. This not only constitutes a serious threat to the German lines north of the Oise, but may compel an immediate retirement of the Germans in the Soissons region to the eastward.

Whole Line Endangered The whole German line on the 30-mile front between Roye and Focny-sur-Somme thus seems about to give way and the enemy positions may be effected, eight or ten miles farther east to beyond Soissons.

The 3,000 prisoners captured by the allies on the Picardy and Flanders front Sunday, apparently were greatly added to yesterday. The majority of these were taken in Picardy.

The Germans are holding well from the eastward.

FARM BUREAU OF STATE FOR PLAN OF LABOR UNION

Pocatello Meeting Adopts Recommendations of Twin Falls Executive Committee—The Wage Scale is Unaltered

A special meeting of the Idaho state farm bureau, attended by the county farm bureau presidents and county agents of the state, together with M. J. Kerr, state director of the United States employment service; L. W. Fluharty, director of agricultural extension work in Idaho; Dr. E. A. Bryan, president of the state and county chairmen of the state council of defense, and several of the county food administrators, at Pocatello Saturday afternoon, adopted resolutions previously formulated and recommended by the Twin Falls county farm bureau executive committee declaring against alteration at this time in the farm bureau wage scale and in favor of the organization of a farm laborers' union and asking for reinstatement of provisions in the agricultural appropriations bill of \$250,000 to the department of agriculture for distributing farm labor and of \$100,000 for combating rodent pests.

Little Demand for Change The meeting was presided over by W. F. Alworth of Twin Falls, president of the state and Twin Falls county farm bureau organizations. In discussion of the results of the meeting, Mr. Alworth says that only one or two Idaho points sought a change in the farm bureau wage scale at this time. The wage scale is in effect throughout the state. It is being adhered to strictly generally and is proving satisfactory, Mr. Alworth states.

The matter of alteration in the wage scale will be taken up at the annual meeting of the state farm bureau, which will convene in January, probably at Twin Falls, Mr. Alworth advises.

SHRAPNEL GIVES PLACE TO ROSES FOR G. A. R. MEN

Veterans of '63 to the Number of 5,000 Lead Huge Parade at Annual Reunion in Portland of Dwindling Army

PORTLAND, Ore., August 20.—Barly 5,000 men in blue tramped over a carpet of rose petals through Portland streets today in the annual grand army parade.

Invited by the bright and bracing northwest air and inspired by "Marching Through Georgia," they threw back feeble shoulders and stretched stiffened limbs for the long march. The veterans appreciated the novelty of the shower of rose petals that greeted them. Pretty girls flung flowers of the world as though they were sending sweethearts off to a new war.

There was the accustomed crush of people along the line of march, but the cheering an demies were marked by a new sentiment. There was the thought that these parades, shortening rapidly in length, would be succeeded soon by monster columns of victorious Yanks.

Ambulances Hardly Needed Closely following the column of Civil war comrades came a unit of ambulances ready to aid any soldier who had over-estimated his strength. But the cool air was their best friend and surprisingly few of the men of 80 years dropped from the line.

The scarcity of veterans was camouflaged by a swarm of camp followers from allied organizations, together with regiments of the spruce division and Home Guards. Twenty thousand people marched. A fire and drum corps from Wisconsin was a decided hit.

Huns Prepare for Long Distance Siege of Paris

Sixty-Foot Guns Mounted on Railway Trucks to Be Rushed Forward

PARIS, August 20.—The Germans, when they started their last offensive operation, were prepared for a siege of Paris from a range of 25 miles, the "Petit Parisien" declared today.

A number of sixty foot guns, firing shells weighing three-quarters of a ton each, were ready on railway trucks, to be pushed forward behind the advancing armies, the newspaper said.

PRO-GERMANS GIVEN COAT OF YELLOW IN IOWA TOWN

Stores Owned by Hun Sympathizers Decorated with Paint and Brush by Angry Mob

CLARENCE, Iowa, August 20.—Angry because the local phone company is alleged to have permitted use of the German language over its wires, a crowd last night dubbed the building with yellow paint.

After casting the phone building the crowd, said to have been composed of leading citizens, applied the brush and bucket to a restaurant owned by Alsace-Huns and a garage belonging to "Hilford." From the Hilford building the crowd went to a furniture store owned by Henry Engleking and gave it a coat of the yellow.

Hoffner and Engleking are accused of being pro-Germans.

United States officials are enroute to learn this morning and a cleanup of alleged pro-Germans is expected.

Prisoners Declare Six Thousand Hurt in Krupp Explosion

PARIS, August 20.—Six thousand persons were killed or injured in an explosion at the Krupp works in June, according to letters taken from prisoners captured on the Picardy front, it was learned here today.

Huns Rush Plans for Protection from East

WASHINGTON, August 20.—Germany now recognizes the Ukrainian and Finland as fields of military operation and is rushing plans for the re-establishment of the entire battle line, advice to eastern diplomats and military authorities here today indicated.

Poland Anxious to Discard Hun Yoke

WASHINGTON, August 20.—Poland will be ready to join in the re-establishment of the eastern battle front when the influence of the allied penetration becomes strong enough for her to throw off the Austro-German yoke, authoritative diplomatic advice indicate.

Diplomats from Zurich report a growing unrest at Warsaw, Cracow and throughout Russian Poland. The Zurich Zeitung states that the streets of the Polish capital are filled with alert German guards.

Passenger's Report Ship Ablaze at Sea

AN ATLANTIC PORT, August 20.—A South American steamship reaching this port reported a tank ship ablaze off the Virginia cape, according to the ship's report, it was burning several days ago. One was aboard, passengers said, and there were no life boats afloat.

ENEMY U-BOAT IS RAMMED AND BELIEVED SUNK

American Steamer Gets German Submarine Off the Virginia Coast—Latter Left in Sinking Condition

WASHINGTON, August 20.—A German submarine was rammed and probably sunk by an American steamer off the Virginia coast, near the Waterpocket shoals off the Virginia coast, the navy department announced today.

The captain of the steamer reported to the navy department that the submarine was struck on her port bow, bringing her alongside the vessel. The crew of the submarine hailed his ship, saying that they were "friends."

The voices from the submarine had a strong German accent however, the captain said. He said that they were no friends of his and the captain said he left on his course. The steamer is in port with a badly damaged bow and a quantity of water in her hold. The captain is of the opinion that the U-boat was so damaged that it sank.

The navy department is not advised as to whether the ramming was intentional or accidental.

158,011 MEN EXPECTED TO REGISTER SATURDAY

Estimate Made by General Crowder on Number of Men Reaching 21 Years of Age

WASHINGTON, August 20.—Provost Marshal General Crowder today estimated 158,011 men who have reached their twenty-first birthday since June 5, 1918, and on or before August 24, will register next Saturday. Of these, it is believed about 50 per cent of the registrants or approximately 79,000 men will be available for class 1.

HUNS TELL ALLIES WAR MUST BE WON IN WEST

Emperor Doubtful Whether People Will Submit to Demands of Germans—Gave Kaiser Conditional Promise

ZURICH, August 20.—Emperor or Karl has refused to send Austria troops to the western front, according to rumors received in Vienna, dispatches declared today.

Unconfirmed reports received recently that one Austrian division had been ordered to the German lines on the west front. The minimum said to have been demanded by the Kaiser was fifteen divisions.

(By WELLS ATTLIER)

PARIS, August 20.—The serious inroads the allies' persistent hammering is making into the German reserves which Ludendorff was holding for a supreme effort are shown by two significant facts—appearance of several Austrian divisions on the west front, and a number of boys of the 1914 class among the latest prisoners.

The proportion of boys taken in recent weeks are indicating that practically all of the class of 1914 have been sent to the front.

Short of "Gun Powder"

Reliable reports from Switzerland assert that the recent conference at main headquarters in which the Kaiser and Emperor Karl participated was concerned chiefly with the crisis in ammunition, resulting from the turn of affairs on the west front. It is reported that Karl reluctantly agreed to lend Ludendorff "cannon fodder" if public opinion would stand the strain. The emperor pointed out that the war would be won or lost on the west front, and that Austria would be beaten there simultaneously with Germany in case the latter were defeated.

Country Debellous

Government organs in Austria, already are preparing the public for the fact and are explaining the closer military union with Germany was necessitated by events at the front. The National Zeitung warns the emperor against allowing the Germans to use the Austrian army.

Emperor Karl if he allows himself to be bullied into sending Austrians into the shambles," the newspaper declares.

"It will chain his destiny to Ludendorff and will seal the fate of himself and the people's future."

Yvon Vissiere it is reported that Karl is worried and doubtful whether the people and the army will submit tamely to German demands.

The Germans are now slipping up, every man possible in the back areas for fighting, replacing battle-weary units in auxiliary work by gifts.

Russia's Betrayers Seek Hun Protection

WASHINGTON, August 20.—Lenina and Trotsky, betrayers of Russia, are on board a war ship in the Black Sea at Kronstadt under the protection of the German fleet and holding themselves ready to flee to Germany at the proper moment, Stockholm cables report.

It is declared to be hardly likely that the Bolshevik chief, Leonid Breshnev will again without the protection of a German military force. Stockholm advises that Petrograd is in the grip of a reign of terror.

UNSTABILITY OF GERMAN LINE IS CLEARLY SHOWN

Foch's Sudden Thrust Between Lassigny and Soissons Indicates Growing Weakness of Hun Forces in West

IS IMPORTANT SECTOR FOR VON HINDENBURG

Relentless Allied Initiative Carries All Before It—Kaiser's Men Unable to Stem the Tide at Any Point

By J. W. T. MASON, (United Press War Expert)

NEW YORK, August 20.—The instability of the German front in the west is again demonstrated by Marshal Foch's sudden thrust between Lassigny and Soissons in the French line. This is one of the most important sectors to which Von Hindenburg must cling if he is resolved upon preserving his present position in Picardy and along the Vesle.

Meanwhile Marshal Foch's easily accomplished lunge means that Von Hindenburg cannot count on holding any single area in the west, and in fact, has entered strategically well into the grip of the allies' relentless initiative.

Menace to Germans

The new advance made by the French is highly dangerous for Von Hindenburg because it marks the beginning of a wedge which threatens to make a new pocket in Picardy and at the same time create another salient north of Soissons on top of the old Marne pocket.

Thin Position Hopeless

Marshal Foch is pushing Von Hindenburg backing into an increasingly hopeless position. It is impossible for Von Hindenburg to retain possession of his present trench mileage, while Marshal Foch continues his increase local drive and at the same time creates reserves to serve against America's forthcoming major offensive.

Remove Varnish

When going over an old piece of furniture all old varnish may be quickly removed by washing with a solution of one part water glass (silicate of soda) and seven parts water. Use mixture generously, as it is cheap, and you will soon find the wood looking fresh and clean as new. Wipe dry, stain and wax.

POLAND LIKELY TO BE PROBLEM TO PRUSSIANISM

Grave Political Difficulties Are Foreseen Between Kaiser and Ruler of Austria-Hungary Over Division of Rights

By G. E. W. BEAN, (Official War Correspondent for the Australian Government)

WAR CORRESPONDENTS' HEADQUARTERS IN FRANCE.—Many of the details of the fighting by which Hlmsel was captured by Australian and Americans on July 4, resulting great credit upon the assaulting troops, have not been related publicly.

When our barrage came down and the infantry advanced in the gray morning light towards Hlmsel, the wind continually carried a drifting mist from the smoke of the barrage across the front. This made the dawn far darker than it should otherwise have been.

The haste of our movement was most difficult to see through the mist about Hlmsel, many of whom have followed a barrage like this many times before, could often only tell where the barrage was by seeing our own sharp-shooters bursting overhead.

Watched Australians

"We just looked out to see that we kept in line with them," said one of their officers. "So long as we kept going, while they were going, we knew we were all right." At the beginning of the fight one American platoon, for example, was pushing straight on into our barrage. The Australian commander saw this and pulled back.

Those Trouble Feared

It is held that even though the Austrian monarch has been compelled to accept the German terms at the conference as a substitute for the announced Austrian aim to annex Russian Poland to Galicia, his Magyar and German subjects will refuse to bow to the arrangements when the emperor returns to Vienna.

Take Dugout Full of Men

An Australian full of men Americans who spoke German, were detailed to search for dugouts. Working by themselves, immediately after the attack had passed, they found a dugout which they realized was important. The Australian platoon commander and three other officers and 23 men surrounded it.

Many Americans are still wearing the colors of Australian battalions to which they were attached. Many others who should not have been in this fight hid themselves successfully when orders came to go out. Indeed, some Americans lost their lives fighting beside Australian in Hlmsel who by rights should have been many miles away.

Private Works Alone

At the same part of the fight an Australian private found himself isolated except for a few scattered men belonging to other companies. He immediately organized a party of 10, cleared dugouts in the village and captured on German officer and 20 men, and sent them off to the rear under an escort. At the opposite corner of the village an Australian corporal found in a house which was burning from shellfire a dump of rifle ammunition and bombs.

One company commander in the dense smoke drifting through the wood lost touch with his main body. Later he found it again. It had gone on exactly as planned.

THIS YEAR'S POLITICS

In all human likelihood the best men in the race will be nominated and elected this year both in Idaho and elsewhere.

Any condition which tends toward the elimination of the professional politician is a distinct step in the right direction.

It is not essential that a candidate be a Democrat, or a Republican, all that is necessary is that he be a man who has commanded public confidence in the past.

And this is a condition which is going to impart a higher tone to current politics over the country as a whole.

It is going to make for a sner and truer expression of the will of the public in the matter of choosing public officials.

In a broader sense it is going to make for efficiency in office, efficiency in the work of winning the race, efficiency in the business of running the country.

WOMEN AND WAR TRADE

Already the war employment of women in the United States is an economic factor to be reckoned with.

LOCAL OIL MAN LIKES OUTLOOK

George D. Aiken, Secretary of Twin Falls Company, Discusses Trip to Wyoming

Enthusiastic over the possibilities of development of newly opened Wyoming oil fields and quoting the statements of other men who have investigated the territory, George D. Aiken, secretary of the Twin Falls Oil and Development company, who returned Friday evening from a visit to the holdings of his company and other properties in the State Creek and Grosventre fields, declares that actual development work will be the best part of the claims that have been made for the district, and states that such work is being prosecuted vigorously by his company.

"In the State Creek field we have put down one bore to a depth of 500 feet and have stopped drilling there upon the advice of drillers to set the casing before proceeding farther," Mr. Aiken stated.

"In the same field a Kemmerer company has sunk a well to a depth of 600 feet."

Lincoln Idaho Brings in Well

"In the Grosventre field a well sunk by the Lincoln-Idaho Oil company struck a flow of gas and oil when it reached the oil sands. It was decided before drilling into the sands proper it would be necessary to install additional casing, and the work is temporarily held up."

"Stanley Morlan, superintendent of the Utah Oil and Refining company, with his father, who was for 20 years connected with the Standard Oil company, and Ira Lambing of Pocatello, a director of the Chemical Oil and Development company, whom I met in the State Creek field, backed their expressions of favorable impression with the field by securing property there as near as possible to our holdings, for which they paid a bonus. Mr. Morlan stated that he had never seen a well in better shape than ours."

Driller Enthusiastic

"Our driller, Mr. Stephens, has followed the drilling game for 20 years. He worked in the Salt Creek, Wyoming field, and says that the State Creek formations are similar to those of that famous district. He is the most optimistic man about the prospect that I have seen. He has himself obtained property in and around our oil property in the State Creek field."

"The Oasin Oil company is validating its property in the State Creek field."

"While our company can not yet show oil as a result of the preliminary development work that has been done, in unproven territory, I am confident that there were never more favorable prospects for success. Eminent geologists who have investigated the field restate glowing reports."

Extending Holdings

"Attorney W. P. Guthrie, general attorney for our company is now in Wyoming, closing the deal for the transfer to us of additional property on the Sunshine Anticline in the vicinity of the Hawes and Gooseberry fields in northern Wyoming. This transaction will secure to us a standard well drilling rig, erected and fully equipped and ready to start operation. The report made by F. A. V. Kerschbatt, well known geologist on the Sunshine Anticline, is a most satisfactory one."

BIG DIFFERENCE IN SAVINGS OF VARIOUS STATES

Thrift Stamps and Baby Bonds
 Net Government Large Sum But Vast Discrepancy Shown in Some Localities

WASHINGTON, August 20.—American citizens have struck nearly 100,000,000 down in their jeans by way of war savings and thrift stamps, the treasury department reported today. On August 1, the campaign for the sale of savings stickers had netted the government a loan of \$372,439,737.91 and the campaign has continued with increasing momentum since.

The per capita savings of the country as shown by figures given out here have increased by 45.74 as a result of the thrift stamp idea, but there is a wide variation in the per capita savings by states which treasury officials have not been able to explain.

Nebbraska, with an average of \$17.85 is by far the leader. Her nearest competitor, Iowa, has been able to offer stamps sufficient to make the per capita savings average \$9.46. Alabama, with a thrift stamp investment of \$2.68 per person, is the lowest in the list. Two other southern states, Georgia, with a per capita of \$2.00, and South Carolina, with \$2.23 per person, have only recently climbed from the lowest depth.

State purchases by state include:

State	Total	Per Cap.
Nebbraska	\$23,743,342.42	\$17.85
Iowa	\$2,904,103.92	9.46

Drastic Measures To Curb Rioting Apparently Succeed

TOKIO, August 19.—The rice riots have caused police in Tokio to exercise the utmost vigilance, but the city is comparatively free from disturbances. Lights in the main streets have been extinguished since Thursday. The streets are deserted with the exception of police. Newspapers have been forbidden to publish news of the riots. The police have stopped the tramways, closed the motion picture theatres, the parks and other theatres. Geisha houses are closed.

The imperial ordinance authorizes the government to regulate private rice stores for the market.

In many cities the police have shown sympathy with the rioters and have not moved against them.

The rioters are charging that the farmers are responsible for the rice shortage to a great extent, declaring that 120,000,000 bushels of grain are hoarded by the producers.

The minister of marine has announced that the provincial governors report the disturbances subsiding.

Advance In Flanders
 In Flanders the British continued their advance on the western edge of the salient, making appreciable progress on a front of about six miles and entering the important village of Meriville.

Continued progress in Flanders was reported by Field Marshal Haig. Four German attacks were repulsed south of the provincial governors report. "We carried out successful minor operations between Vaux-Berquin and Osterreuten last night," the statement said.

In our recent advance there, our line was brought forward to the neighborhood of Vaux-Berquin-Osterreuten road. One hundred and eighty-two additional prisoners were taken.

French War Report
 French troops advanced further between the Oise and the Aisne last night capturing the village of Vassens, the war office announced today. Artillery fighting on the six mile front between Lasaigny and Breilincourt, was reported.

"In the Lasaigny-Dreulincourt region there was artillery fighting," the communique said.

"Northwest of Mormal the French occupied Vassens.

"West of Maison-De-Champagne, a German raid was unsuccessful.

There is considerable artillery fight-

ing at intervals, but there are no infantry operations of importance.

Explain Marine Disaster
 While there is no question that the German disaster on the Marne was due partly to the staff's underestimate of the new allied strength, leading it virtually to advertise its intentions and allowing the allies time to prepare to meet them, the crisis of "betrayal" filling the German press are all the more interesting in view of the present German army order regarding the necessity for secrecy.

Whereas, there has been considerable agitation for the raising of the present wage schedule of the farm bureau of Idaho, and

Whereas, we believe that if it were raised there are as many farmers who would raise the new scale a trifle to serve their own selfish ends, and probably as many laborers who would say that as they were able to get more money by this agitation, they could probably boost the scale a little more by more agitation

Therefore, be it Resolved, That

It is the sense of the Twin Falls county farm bureau that we maintain the present wage scale as has been established for the present season, but that we are immediately in favor of farm labor organizing into a responsible and representative farm labor union so that the state farm bureau will have someone to trust with in re-considering the wage scale for another year.

Also, that we petition the Idaho delegation in congress to use all their influence to re-establish the appropriation for farm labor for the department of agriculture for farm labor; also the \$100,000 for animal pests.

U-BOAT CREWS ENJOY SIGHTS OF NEW YORK

Warning Issued by Officials Against Talking Too Freely—Point to Ease of Landing German Agents

IMPOSSIBLE TO PREVENT MEN FROM COMING ASHORE

Officers of Torpedoed Ship Report They Saw Submarine Commander in Saloon in New York City

WASHINGTON, August 20.—Warning that German U-boats may be landing agents on shore was given today.

Crews from U-boats are believed to have visited New York, Philadelphia and even Washington with their ears attuned to any bit of information that would be useful to Germany.

The extreme length of the American coast line makes it almost impossible to prevent landings at night from the collapsible boats carried by submarines. It would be possible for enemy agents to move about for days and be picked up again at some deserted point by a pre-arranged plan.

Necessity therefore for careful guarding of America's sea secrets is even greater now, officials say.

Cannot Get Transport

The navy department, however, is rapidly increasing its activities against the U-boats and the fact that no outward bound transport has been sunk, despite the efforts of the U-boats, is taken here as proof that the navy is "in the job."

While it has long been expected that the U-boat crews would attempt to land on this side, first evidence that they had reached shore was seen in the report of officers of a torpedoed ship who reported to navy officials that they saw in a New York saloon the U-boat commander who sank their vessel.

Officials here are at a loss, however, to explain why the submarine officer was permitted to escape.

At least three of the large type submarines which sailed from the Atlantic, it is believed. They are about 300 feet long and carry two guns and a score of torpedoes. One was equipped to cut cables. These submarines are believed to have a cruising radius of 17,000 miles and are probably able to stay out longer by taking supplies from vessels they attack.

Scatter Mines

Mines scattered by the U-boats are believed to have sunk the armored cruiser San Diego and several merchant vessels.

President Puts On Some Extra Pounds

Executive Health Never Better in Opinion of Personal Physician, Dr. Grayson

MAGNOLIA, Mass., August 20.—President Wilson has gained weight on his vacation. Declaring it unusual for a man of the president's age to put on weight in so short a time, Rear Admiral Cary T. Grayson, the president's physician has expressed himself as delighted at the change since President Wilson came here.

There is no doubt that the president and Mrs. Wilson have enjoyed every minute here.

Magnolia residents today amused themselves by making up a statistical table showing how the president has spent his time. Up till this morning he had been here 108 hours.

Automobileing, 24 hours; walking 3 hours; working, 10 hours; with 7 hours he has walked only about 10 miles.

The idle hours include time spent on the veranda after meals, talking with Colonel House and other friends. One of the things the president has enjoyed mostly is the sea food. Fresh fish have been served at the president's table at almost every meal.

Boaters have been barred from the president's table as being too rich.

The president and Dr. Grayson are expected to make a second round on the Myopia Hunt club golf course today. They played a tie score three Friday.

Bolsheviks Consent to German Invasion

ZURICH, August 20.—A German force is occupying Vitebsk and Smolensk, with the approval of the Bolsheviks, a Warsaw dispatch declares today.

Smolensk is on the Dnieper river 2550 miles west and south of Moscow.

Vitebsk is 75 miles west and north of Smolensk, on the Duna river. Both are important cities.

Norwegian Bark Sunk by German Submarine

WASHINGTON, August 20.—Sinking of the Norwegian bark, Nordhav, off Cape Henry, was reported by the navy department.

The crew of 30 was picked up by a naval vessel. The bark was shelled and torpedoed about 100 miles southeast of Cape Henry.

Tangled Ropes Cause of Aviator's Death

LOS ANGELES, Calif., August 20.—A tangled rope prevented a parachute from opening and caused Leon Molas, well known aviator to fall to his death was the belief expressed by experts here today.

Molas was killed into yesterday when he attempted to jump in a parachute from an airplane at a 2,300 foot altitude at Venice.

Marseilles Plans to Honor Pres. Wilson

WASHINGTON, August 20.—Marseilles has decided to do homage to President Wilson by naming a harbor in its new harbor plan in his honor, a Paris cable announces.

The action was taken by the French government at the request of the Marseilles chamber of commerce.

Too Easy

Two children were trying to decide on a game with which to amuse themselves, one summer afternoon. "Oh, no, let's not play that," said one in answer to a suggestion, "it's too easy." And the child who had suggested the game at once expressed agreement.

"Yes, it's no easy that, it isn't any fun." It even small children realize that a thing comes to be interesting when it is too easy, older girls, surely, should not grumble if something a little difficult is asked of them. The fun of life comes from doing things that are not easy.—Pennysylvania Girl.

Another to Be Found.

A tracer sent to locate the old-fashioned watch chain, reported from Clearfield, Pa.: "Located my man. He also carries a combination gun, pistol, pocket, and rubber stamp. Any instructions?" Gas Brings War Home to Senator

The war, 3,000 miles away, still he was gassed while sitting on his own front porch. It is a new picture of U. S. Senator Nathan I. Scott. While U. S. engineers were experimenting with German mustard gas near Washington, D. C., and the wind changed suddenly and carried the fumes toward suburban residences. Many birds and small animals were killed by gas.

Yank Sailors Succumb to Powderless French Arms

"Another reason" has been added into the lives of many American sailors, as to why the Kaiser must and will be whipped. In each case it is the obedient trust and confidence of little French orphans who have been adopted by the Yank seamen, after having received the permission to do so by the French government. These children were made fatherless, motherless and homeless by the war and were cared for by the French government until the Yanks asked to adopt them. This new photo shows the refugees and orphan children with their foster daddies.

BULGARIAN KING HELD BY HUNS AS SAFEGUARD

Czar Ferdinand Spirited to Germany, Say Official Advises—"Resting" Say German Papers

WASHINGTON, August 20.—Czar Ferdinand of Bulgaria is being held by Germany virtually as a hostage according to advices through official channels today. That Germany may be taking this means of insuring Bulgaria's loyalty to the cause of the central empire is thought here.

Ferdinand according to authoritative information, left Bulgaria suddenly after rumors of Bulgarian efforts toward peace appeared. He is now in seclusion in Germany, "resting," German papers say.

Surrounded by German Guards

Others familiar with conditions in Bulgaria declare that Ferdinand has long been surrounded in the Bulgarian court with German officers and guards. When conditions became threatening in Bulgaria it was suddenly announced that Czar Ferdinand would leave the country because of "mental strain."

His movements at first were kept secret but later it was learned that he was in Germany.

Not at Conference

Rumors immediately following Ferdinand's disappearance from Sofia said he was going to Switzerland, presumably to attempt negotiations with the allies.

What induced him to go into seclusion in Germany is not known. It is significant, however, that he was not taken into the recent conference of the kings of Germany and Austria-Hungary.

FOREST FIRES RAGING IN NORTHEAST MINNESOTA

Virginia and Villages of Ely and Biwabik Threatened by Advance of Fire Wall

VIRGINIA, Minn., August 20.—Sweeping forward on two fronts totaling 77 miles in width, forest fires today threatened homes in the villages of Ely and Biwabik, and were approaching the very outskirts of this city.

Miners, forestry employes and fire departments of Virginia, Ely and Biwabik are fighting to prevent the fires entering the cities.

The fire is burning on a 40-mile front along the Virginia-Territorial highway. Hundreds of acres of valuable timber have been lost. Near Ely, a fire on a ten-mile front is sweeping the vastations from the section. Near Biwabik, Great Northern Railroad property is threatened. On the Iron Mountain road another fire on a 35-mile front is burning.

New Dyak Fashions

Dyak is a word which conveys to most folk the idea of a people whose tribal pastime consists in cutting off the heads of their neighbors and preserving the dried skulls as ornaments for their homes. When the first missionaries went to Borneo, where the Dyaks live, they were fortunate if they kept their heads on their shoulders. Today the Dyaks have ceased head hunting, have given themselves to farming and have taken on clothes and other evidences of civilization.

Instead of news coming once a month, as it did when missionaries first went to Borneo, it is now received by wireless.

Would Not Tolerate Sedition.

By the act of the New York legislature of March 30, 1781, provision was made to punish more effectively adherents to the king. It was stated that anyone who preached, taught, spoke, wrote, or printed that the king of Great Britain had dominion in New York or who secured the allegiance of anyone in the state was guilty of a felony without benefit of clergy, though the court could commute the sentence from death to service for three years in the navy of the United States.

Berlin Dispatches Say Starving Workmen Battle With Guards

AMSTERDAM, August 20.—Hundreds of persons have been killed and wounded in terrible food riots which are under way in Petrograd, according to dispatches received from Berlin today.

Workmen who had been without bread for two days paraded the streets shouting "Bread with the Germans." They encountered a detachment of Lottish guards in front of Smolny Institute, a regular battle ensuing in which hundreds were killed and wounded on both sides.

Martial law has been proclaimed.

Shad Easily Taken.
The habits of the shad lead charac-
teristically to the extermination
of the fish. They approach the shores
in immense schools, actually choos-
ing one another in their efforts to reach
the head of the fresh-water streams,
where the water is deposited. Fishes
return hurriedly quickly how to intercept
the fry by nets in the bays and in the
broad mouths of rivers, and the market-
able shad are now nearly all caught
in this way.

Miss Jessie Warrington of
Twin Falls is Drafted into
War Work

On Friday evening Miss Jessie Warrington left on a trip through eastern Idaho and southwestern Idaho on recruiting work for the Y. W. C. A. She expects to be gone some three or four weeks after which she will return to Twin Falls for a few weeks and will probably assist in publicity work for the Y. W. C. A. in the coming big campaign.

Miss Warrington has accepted the position of assistant state director of the war work council of the Y. W. C. A. The position was offered her through Miss Alice H. Collier of Portland, state director for Idaho. Miss Warrington's first intimation of the proposition was received in a telegram about July 20, asking her to attend a conference of national workers in Spokane July 23-24, her name having been given by Y. W. C. A. workers by prominent women of Boise. She was unable to attend so the state director wired last week asking for an interview in Twin Falls which resulted in Miss Warrington's accepting the position. She receives her expenses and a modest salary.

Qualifications Bring Call

The work of Miss Warrington as a newspaper woman, her wide acquaintance and interest in civic work are responsible for the call for service that came to her unsolicited. She has been spending the summer at Blue Lakes recuperating from a nervous breakdown and did not plan to enter war work before October.

Her position of resident state director includes work also as recruiting officer, the immediate work being in connection with the speakers conference to be held in three cities of the state, namely, Lewiston, Pocatello and Boise at the end of the month. Explaining this work, Miss Warrington says:

Work Little Understood

"The Y. W. C. A. and the great work the organization is doing in this war are so little known and understood in this and other states that a campaign of education to precede the great financial campaign of the Y. W. C. A. is necessary. It is in the fall season absolutely imperative. This step was decided upon in an important conference of the national board of the Y. W. C. A. and prominent women from all over the nation which was held recently in New York. To this end a large number of women were given intensive training in the work to prepare them to conduct conferences in the other states. They were taken through munitions and garment or uniform factories where thousands of women and girls are employed; through hostess houses which are established in practically every training camp in Europe and are conducted by the Y. W. C. A. where the soldiers may meet their mothers, sisters, wives and sweethearts; they listened to thrilling accounts of the work of the organization in Europe and there were sent out to tell the story and present the work of the Y. W. C. A."

Wants Workers' Names

Miss Collier has gone to the northern part of the state and is taking the eastern and southeastern part. We are recruiting women from every community who will attend the conference here at Lewiston, Pocatello or Boise and then return home and present the subject in their respective communities at every opportunity, speaking at public gatherings, securing places on speakers' programs and acting as four-minute speakers at picture shows and other places. It is a most important war work for women and they are showing much interest everywhere and responding to the call for service.

"The course of training is free, lasts only two days and presents a rare privilege in every way. The conference at Pocatello will probably be held August 29-30. That in Boise probably the 3-4 of September."

W. E. Bush Swears to Complaint Against Alleged Offender on Grade

The statement of W. E. Bush that on Sunday afternoon on the Blue Lakes grade, John Doe Donohue ran into his automobile, called him vile names and threatened to do him great bodily harm is the basis for a criminal complaint charging Donohue with disturbance of the peace, which was issued Monday afternoon by Probate Judge O. P. Duvall. With Bush in the car at the time of the alleged offense were Mrs. Bush and Mrs. Anna Johnson.

Juvenile Court on Trail of Seven Suspected Offenders, Reported

Because several small boys Sunday evening, gaining admission into the Adam's Groceries company warehouse through a window from which they pried off the bars, took out and demolished nearly a ton of watermelons, according to the complaint of the warehouse superintendent, Probate Judge P. Duvall was busy Monday afternoon today rendering up the answers with a view to holding them to the offense. A list of the names of seven boys, suspected of having had a part in the escapade, was handed to the juvenile court for investigation.
