

HUN PRESS IS STILL ABLE TO FOOL READERS

Glittering Generalities and Downright Lies Fed to German People by Military Clique Instead of Facts

DEFEAT OF FOCH IS FREQUENTLY CLAIMED

One Victory Boasted of Consisted of Being Driven Back Two Miles on Ten-Mile Front

LONDON, Aug. 24.—The German press generally gives ample evidence that the general staff so far has been fairly successful in concealing the all-wise successes.

"Foch suffered a decisive defeat Tuesday despite small initial successes," is a typical comment by the military critic of the Deutsche Zeitung.

"We must await further developments, but we are already certain that our vigorous offensive policy has gained a signal victory, the significance of which lies in strategic grounds."

The German "victory" Tuesday consists of being driven back two miles on a ten mile front, between the Oise and the "Aisne, losing important heights dominating the Aisne and Ailette, and thousands of prisoners.

Strike Threatens to Tie Up Transportation

Men and Women Conductors in London Go Out—Trouble Is Serious

LONDON, August 24.—Traffic in London has been entirely stopped today as the result of the strike of both men and women conductors.

Service in other tubes is greatly restricted. The strike is spreading hourly.

AND THE WOMEN WILL WIN

LONDON, August 10. (By Mail)—Englishmen object to ambitions of women who wish to become lawyers because they say the fair sex is never "without prejudice."

Englishwomen claim that there is nothing they have attempted in which they haven't made good.

The men are convinced that even if women do become lawyers they will never get any clients, so they are nonchalantly assuming the "let-them-go-with-it" attitude and a goodly number of English women are studying law.

Quick Action

Quick action has become the byword of commerce. Fortune has been made and lost and remade in the twinkling of an eye.

Train your mind to act quickly. Plunge forward or draw backward, but don't stand hithering in the middle for you stand in danger of being laid low by indolence.

A Few Good Investments on North Side

120 Acres, 100 ft crop, all fenced women wire, good location, 3 miles from O. S. L. Station, small buildings. Price \$125.00 per acre, good terms.

DEVIL DOG GETS REWARD IN RANKING

...Uncle Sam is not slow in rewarding duty well done. Here is Major-General John A. Latham, United States Marine, to testify to the fact. General Latham was the brigadier-general in charge of the Devil Dog machine, who first made the Germans believe that he had been promoted to his new rank through the display of superior fighting qualities at the time.

EACH DIVISION BEST IN FRANCE

By LOWELL MELET (United Press Staff Correspondent)
WITH THE AMERICAN ARMY IN FRANCE, August 12. (By Mail)—The general never lifted an eye as he pronounced this verdict on his own division:

"They're the best division in France, Sir!"

His smile didn't raise his voice and he didn't hang the tattle with his fist—he gave his men credit for having won the keener competition of his kind that France has seen. This is the competition between the divisions of the American army.

Which we did. Several companies of them were passing the general's house at the moment. They tramped along easily under the pack that some soldiers consider so heavy. They were cheerful and unweary.

Americans All Right

"When do we go from here?" asked one of another.

The other replied that the captain had called for volunteers to storm the brewery in the next town. He didn't smile and the others who heard enjoyed it without smiling.

They looked just as good as the general said they were. But when the division was ordered to march half an hour later the first man to whom we were introduced bore a name as German as Lundenloaf.

On a hill-slope close by, target practice with machineguns was under way. Every now and then there came a burst of excited cheering. It sounded like a ball game.

"The classified page throws out a drag net for your lost articles."

"Out of many hundreds of these ads annually printed, scarcely ten per cent of the finders claim rewards."

"There are many honest people in the world."

"Don't mourn your loss until you have tried the one best chance for its recovery."

Good At Yelling Too

The yell of decision and delight confused from the hill slope. They forecasted a new experience for German troops when they met that bit of civil righteousness known as the rebel yell.

6 "Y" MEN ARE HEROES TOO WHEN UNDER FIRE

By WEBB MILLER (United Press Staff Correspondent)
PARIS, August 14. (By Mail)—Many soldiers and civilians are disposed to sneer at Y. M. C. A. men as "hollow-doggers" and "soakers of 'bomb-proof' jobs." But since the last big German push the "Y" men have gained a heap of respect among soldiers. Scores of Y. M. C. A. workers were under fire and stood the test equally as well as soldiers in the front lines.

Here are a few of the incidents to show that the Y. M. C. A. worker's job is far from bullet-proof.

H. Johnston, East Orange, N. J., was cut off by German barrage 6 hours, and finally broke through with a small squad of soldiers and worked all day bringing in wounded and assisting surgeons in advance dressing stations.

G. A. Crippin, Charleston, Ill., and Rev. F. A. Cunningham, Providence, R. I., served as stretcher bearers and cared for wounded in hospitals until ordered to leave.

All Y. M. C. A. supplies were given to soldiers who had lost their rations. W. H. Danforth, 17 Kingsbury Place, St. Louis and Richard Shorey, 127 Boardman St., Rochester, N. Y., stuck to their posts throughout the night helping ambulance men and tending wounded.

Mark Strong, Selma, Ala., and W. J. Symons, Whittier, Cal., were under shell-fire for 9 hours in the cellar of a canteen, while one was killed and wounded all around them.

HEAVY AIRPLANE TOLL

ROME, August 24.—British and Italian planes have shot down 302 German airplanes from June to August 20. It was officially announced today.

DEMAND IMMEDIATE ACTION

WASHINGTON, August 26.—Immediate action on woman suffrage was demanded today by Senate Republicans after a caucus. The caucus adopted a resolution calling for a vote on suffrage immediately after prohibition is disposed of.

Another Best Unit

"Did you ever see a crowd look quite as much at home?" asked a Pennsylvania major. "I tell you they were just made for this. Of course, it doesn't reflect any particular credit on us, for we had certain natural advantages, but as a matter of old fact, it's the best division in France."

New England offers, who once used argument somewhat akin to that of the general of the tar-babies, now simply smile and remark, "Can't say."

And the commander of the troops who stopped the German push at Chateau Thierry, will, if pressed, recall what the French army commander said of his organization, pointing out that the French general specifically named this division when he said it.

So it goes. The effort of becoming less and less to prove to the French and the British the kind of stuff Americans are made of; that has officers well demonstrated, most happily feel. The effort of each division is to prove to the others that good as they are, there is one a little better.

Thrive by thrift—buy W. B. S.

Austrian Offensive in Albania Renewed

Enemy Makes Some Progress But Sustains Heavy Losses in Mon

ROME, August 24.—The Austrian counter-offensive in Albania was resumed yesterday, the enemy making some progress but losing heavily, the Italian war office announced today. Artillery fighting was reported on the whole Italian front.

Austria Claims Advance
VIENNA, via London, August 24.—Claim of advances in the Albanian theater was claimed by the Austrian war office. Charges were also made that the Italians are bombing Bosen and Oriz from airplanes struck a hospital. Several inhabitants of the towns are said to have been killed.

KAISERIN IS STRICKEN WITH HEART TROUBLE

Disease Due to Nervous Strain and Complete Quiet Recommended

AMSTERDAM, August 24.—Kaiserin Augusta Victoria is suffering from heart trouble, aggravated temporarily by nervous strain, according to a bulletin issued by her physician at Wilhelmshohe, a dispatch from that city said today. The bulletin added that the empress have complete quiet.

Thackeray Always Late
An external stimulus sometimes is necessary to bring a writer's mind to a focus. It was the custom with Thackeray never to do today what could be put off until tomorrow. He was, therefore, frequently behind with his copy and it was no uncommon thing for him to keep the messenger from his publisher waiting at the door while he wrote the last pages of the book.

Shrines to Foxes
There are numberless shrines in Japan dedicated to foxes. The ancestor is another animal found by the superstitious Japanese mind. It is believed to have power to annoy people, and to be able to turn into a priest at will. The crying of waxes and the baying of dogs are considered evil omens, and such insignificant appendages send a shudder through the believers.

The Important Question
It is all right to say that a bug of sand tied to a mole's tail will stop his baying, but who will do the tying?

EARL OF BEAUCHAMP

LONDON, August 24.—British casualties in official lists published during the week totalled 9,370. They were divided as follows:

Officers	390	745	93
Men	1,514	5,799	898

Killed Wounded Mfg.

HAL NARROW ESCAPE
ROME, August 26.—An Austrian airplane recently dropped a bomb within a yard of Captain Gabrielle D'Annunzio's sleeping quarters. It failed to explode.

The Angry Tree
In Abruzzo there grows a species of acacia commonly called the "angry tree." It reaches the height of 80 feet, after a rapid growth, and its outward appearance somewhat resembles a gigantic century plant. When the sun sets the leaves fold up and the tender twigs curl tightly, and if the shoots are handled the leaves rustle and move uneasily for a time.

Needs Trained Muscles
The capacity to exert will power, to make firm resolutions, to decide and to judge propositions accurately on their merits calls for well-cultivated and trained muscles. A weakly-muscled man is apt to be a weak-willed one.—Dr. Leonard Hillenburgh.

Do Your Best
If your ambition is just to do your best, there is no reason why you should ever be disappointed. Remember, nothing is more certain to weaken the mind than the habit of inattention.

The Earl of Beauchamp has been elected president of an organization formed in English towns for the purpose of "adopting" American towns so as to give the arriving American soldier all the comforts of home. The people of Worcester have "adopted" Worcester, Mass., and will do everything possible to attend to the wants of our boys passing from the American city. Newport has "adopted" Newport, R. I., and it is said that London may "adopt" New York.

The Allied Sugar Bowl

The burden of keeping the Allied sugar bowl full, falls on America or rather on the individual citizens of America.

No sugar comes from Central Europe, none from Java; from Hawaii and West Indies less than usual.

French sugar territory is overrun by German armies; French sugar mills are taken and destroyed.

Submarine sinkings and losses by battle have cost us great stores; shortage of labor impedes production.

For England the allowance is two pounds per person a month, for France, one pound; for Italy, one pound; for America, two pounds.

America seeks to share equally with all who sit at the common table, joined in the common defense.

OUR SOLDIERS must have SUGAR—it is not a luxury, but a necessity. Their sugar bowls must be filled and kept full through the savings each American citizen makes in his daily consumption of sugar.

SAVE A TEASPOONFUL A DAY FOR A FIGHTER
Eat less pastry and other sweets made of sugar.

Use more corn syrups and honey.

Use as little as possible now in canning—add more later when the sugar situation improves.

THE FOOD ADMINISTRATION PLACES YOU ON YOUR HONOR NOT TO USE MORE THAN TWO POUNDS PER PERSON A MONTH AND LESS IF POSSIBLE.

UNITED STATES FOOD ADMINISTRATION OF IDAHO

SETTLERS WILL ASK IRRIGATION DISTRICT VOTE

Land-Owners of Salmon River Tract File Notice of Intention to Submit Petition to Commissioners

Notice of intention to file a petition for the creation of the Salmon River irrigation district, to include all of the lands to be retained within the project in accordance with the recommendations of the committee on the subject, was filed last January by W. C. Whitfin, state land commissioner, was filed with the county commissioners here Saturday by Judge James R. Botwell, attorney for the Salmon River Settlers' association.

The petition, bearing the signatures of 100 landowners of the proposed district, will be presented before the commissioners on Tuesday, September 10. The commissioners will thereafter set a date for a public hearing on the petition, and if favored will call a meeting for the creation of the district.

To Take Over System

It is the purpose of the petitioners, according to the notice filed Saturday, in the event the district is voted, to secure by condemnation or purchase the main works of diversion, canals, laterals and distribution system, built by the Salmon River Land & Water company for the irrigation of the project, together with water rights appurtenant to an appurtenant to the lands included within it.

In pursuance of this plan, if the district is voted, the directors of the district, will take over the irrigation system and its operation from the hands of the landholders, who have been in charge of the project since the financial failure of the construction company.

To Treat on Damage Claim

They expect also to treat with the owners of lands to be excluded from the project relative to an agreement upon a basis upon which restitution will be made for the loss of their holdings.

TOWNLEY TALKS ON NEW ISSUES

Says Line of Cleavage Is on Public Ownership and Payment of War Debt

According to A. C. Townley, president and founder of the Nonpartisan league, who spoke here Saturday evening and is speaking this afternoon at Paul, there will be just two political issues in the United States after the war. The first issue is the question of the continuation of federalization of industries, and the second the consideration of wealth for payment of the national war debt.

In an interview here Sunday Townley said: "The rich, as a means of preserving the nation, have consented to the adoption of measures for which the common people have struggled for years. It is our purpose now to go to the farmers that we are to show the government has assumed control shall not be returned to private ownership, and that in this regard true democracy for which we are fighting, that is established in the United States."

For Conservation of Wealth

"It is entirely wrong to expect the men who have gone to do our fighting, giving all that they have, to assume the cost of the war after they return. We propose as the alternative the conservation of war profits and by such means interests now existing a national debt from the government and from the public, and if that is not enough we will take from those interests the profits that they have taken in the past."

"I am trying wherever I go to show the farmers that it is not the use of the smaller towns who are the profiteers. For the most part these merchants are no better off financially than many of the farmers, and if their own farmers succeed in getting their own holdings, as they expect to, it is likely that many of the smaller merchants will find it to their advantage to quit their shops and engage in farming."

Peoples Understand War Now

Townley said that before the entrance of the United States into the war there was considerable misunderstanding, standing in the way of the conflict.

"While there were a good many anti-war people, I believe there were and are very few pro-Germans," he said.

"Now the people understand the purpose and the reasons for the war and everywhere they are solidly back of the administration and the war program," he declared.

Townley gave the number of members of the Nonpartisan league in Idaho as being between 30,000 and 40,000.

CLUB WOMEN DISCUSS THEIR WORK IN WAR

Mrs. O. H. Brown and Mrs. Carrie Harper White Address Members of Salmon Social Club

Various phases of women's work in the winning of the war were discussed the meeting Thursday afternoon of the Salmon Social club at the home of Mrs. Robert Ray. The principal speakers were Mrs. O. H. Brown, representative of the state university extension department and acting county home demonstration agent, and Mrs. Carrie Harper White of Twin Falls. Mrs. Brown discussed the desirability of conservation of time, energy, food and clothing, and of home and community consciousness. Mrs. White spoke on subjects of public health and the necessity for meeting the tuberculosis problem after the war.

Thirty-five members of the club were in attendance at this meeting. Several refreshment recipes were exchanged. Refreshments consisting of cake, ice cream and fruit punch were served. Syrup and honey were used in place of sugar in the preparation of refreshments.

NOTICE OF ELECTION FOR RURAL HIGH SCHOOL DISTRICT NO. 1 OF TWIN FALLS COUNTY, IDAHO

Notice is hereby given that on Tuesday, September 3, 1918, an election will be held in the City Clerk's office in Elmer, Idaho, for the purpose of electing one trustee for a term of five years, Rural High School District No. 1, F. C. Graves, Clerk.

Modern Glasses Are Becoming

They frequently add to, instead of detract from facial expression. This is due to the expertness with which our glasses are fitted.

Perfect fitting with us is a hobby—a distinction of modernness.

REFLECTION (Continued)

You have given me riches and ease,
You have given me joys through the years;
I have sat in the shade of your trees,
With the song of your birds in my ears;
I have drunk of your homelike wine,
And done as I've chosen to do—
But, oh, wonderful country of mine,
How little I have done for you!

You give me safe harbor from harm,
Untroubled I've slept through the nights,
And have waked to the new morning's charm,
And elated as my own self-delights;
I have taken the finest of mine—
From your orchards and fields where it grew—
But, oh, wonderful country of mine,
How little I've given to you!

You have given me a home and a place—
Where in safety my babies may play—
Health blooms on each bright, dimpled face,
And laughter is theirs every day.
You have guarded from danger the shrine—
Where I worship when toiling is through—
But, oh, wonderful country of mine,
How little I have done for you!

I have taken your gifts without thought,
I have revelled in joys that you gave
That I see now with blood have been bought,
The blood of your earlier brave;
I have lived without making one sign
That the source of my riches I knew,
Now, oh, wonderful country of mine,
I am here to do something for you!

TROPHIES BRING WAR CLOSE HOME

Lieutenant Jack Thorpe Sends Him Helmet and Buttons from Chateau-Thierry

Some interesting trophies from the battlefields of France are on display in the show windows of the Booth Mercantile store, bringing the reality of war a little closer to Twin Falls. Miss Nolle Bates is the recipient of a German helmet, three buttons and a piece of shrapnel taken from a German prisoner captured by Lieutenant Jack Thorpe, leader of the Regimental band of the 100th Field Artillery, during the battle of Chateau-Thierry, in which the Idaho boys took part on July 28. The buttons are marked with the Hohenzollern coat of arms, while the shrapnel appears to have been picked up from a battle ground.

NEW BOOKS AT LIBRARY

The following juvenile books have been added to the Twin Falls public library:

Heart of Ishai Carleton (Ashmun).
Handbook for Boys.
Men of Iron (Zylo).
Clean Peter (Adelberg).
Jemima Puddle-Deck (Potter).
Book of Cheerful Days (Frankel).
Jolly and Bolly (Lindsay).
Pot of Gold (Wilkins).
Seashore Book (Smith).
Bear Stories (Cartier).
Stories of Brave Dogs (Cartier).
Tommy Trot's Visit to Santa Claus (Page).
Nights with Uncle James (Harris).
Story of Gretter the Strong (Allen).
Roy and Ray in Mexico (Plummer).
Dorymats (Munroe).
Gypelle's Year at the Golden Crest (Phegley).
Story of Sonny Sahih (Duncan).
In Sunny Spain (Dates).
Katrian (Deland).
Two College Girls (Browe).

THERE WILL BE A MEETING OF THE PARENTS OF SCHOOL CHILDREN IN THE CURRY DISTRICT AT THE CURRY SCHOOL HOUSE TUESDAY EVENING, AUGUST 27, FROM 8:30 TO 10.—Adv.

"La Camille"

The function of the corset is more than to shape a fashionable figure. It is to strengthen and support the figure and give it poise as well. Whether you are stout or thin or well proportioned, there is a "La Camille" model exactly right for you. Carefully selected and properly fitted by our Corsetiers.

Prices Range From \$2.25 to \$8.50

HART'S

GRAIN STANDARD FIXED IN IDAHO

State Director of Farm Markets Issues Circular of Notice and Instructions

United States grain standards for the state of Idaho will become effective September 1. Establishment of official wheat grade has been announced by Harry Alfred, director of the farm markets bureau, and copies of the grain standards and regulations have been sent out and will be placed on display at all wheat buying points. R. J. Leth of Boise, has been appointed state grain inspector for Idaho.

Director James Ottenlar

Mr. Alfred has issued the following: "Because of conditions now governing the sale and purchase of wheat in Idaho, the state director of farm markets has hereby established and promulgated the official standard of the state of Idaho, said standard to take effect and be in force on and after September 1, 1918.

For the purpose of aiding the producer, seller, and buyer in determining grades of wheat, the undersigned, state director of farm markets, have appointed and do hereby designate R. J. Leth, state grain inspector for Idaho, to begin his duties on September 1, 1918. Any person wishing to submit wheat for grading must comply with the following regulations:

Rules For Grading

Grades and rules will be provided and placed on display at principal buying points throughout the state on or before September 1, 1918, the date on which they will become effective in Idaho.

Samples for grading must be sent to the state grain inspector, R. J. Leth, at Boise, Idaho, delivery charges prepaid.

Grading is compulsory only an element of the buyer or seller. It will be done on request and payment of fee. If the request be mutual on the part of buyer and seller, they will together pay the fee. If on demand of the buyer or seller, the one demanding inspection must pay the fee.

The grade determined by the state grain inspector becomes the official grade of the lot of wheat represented by the given sample and settlement must be made on that basis. On demand and payment of fee, a sample will be regraded.

The following must be observed in submitting samples for grading:

A. Buyer and seller must agree on sample.

B. Must contain not less than three pints.

C. If moisture test wanted, 1 1/2 pint additional must be submitted in airtight container.

D. Must be labelled to correspond to duplicate form sent for each sample.

E. Inspection fee of \$1.00 must be paid in advance; stamps not accepted.

MAN POWER IS LIKELY TO BE PASSED TODAY

Senate is Expected to Make Quick Work of Measure Put Through House on Saturday—Minor Changes Likely

WASHINGTON, August 25.—With a big fight brewing on the work or fight measure, the committee today began its first work on the man power bill.

The measure as passed last Saturday by the house giving the war department exactly what it wanted, is expected to emerge from the senate in much the same form.

It is possible, however, the work or fight provision, broken in the house, may be voted on by the senate.

All other important amendments, such as placing the 18 year old youths in a separate class, will likely be defeated in the senate as in the house.

Passage of the bill in the upper branch may come late today, certainly it is not likely to be deferred long or than tomorrow.

The senate military committee met today to substitute the house bill for the senate measure, and arrange for other less important amendments.

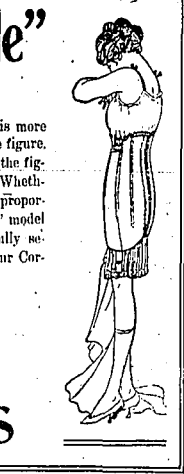

General Mangin Continues Advance

(By WEBB MILLER)
(United Press Staff Correspondent)

PAIS, August 25.—While French artillery is smashing up the new German defensive positions, preparatory to a crossing of the Oise, east of Noyon, General Mangin is pushing on methodically toward Coudry-Le-Chateau in the face of fierce resistance.

The Germans have fortified the north bank of the Oise from Noyon to Chaunoy.

STRIKE WATER AT 44 FEET AT ROCK CREEK

Canal Company Big Drills Through 30 Feet of Rock to Afford School Supply

(Special to The News)

ROCK SPRING.—The Twin Falls Land and Water company has completed the school well and moved on. Water was reached at a depth of 44 feet after passing through more than 30 feet of rock. They also bored a well for Magnus Larsen at his home while they were here.

Mrs. J. A. Collier and sister, Miss Alice Terrill of Twin Falls, accompanied by their cousin, Fred Hagar of Albion, visited with her aunt, Mrs. A. P. Murray Friday.

Mr. and Mrs. L. P. Larsen have gone to Deep Creek to put up their second crop of hay, and Mrs. Larsen will also can some vegetables from the garden which Mr. Weighall, the caretaker, has donated. They were accompanied by Gladys Dourson.

B. M. Van Eaton, L. M. Van Eaton and Bert Van Eaton expect to begin thrashing Monday.

Mrs. A. P. Murray, A. P. Murray, Jr., and the Ed Dourson family have been on the sick list this week with something which seems to be an epidemic, as a number of other families have suffered in the same way during the summer.
