General Mangin's Army Attacking Northwest of Soissons with Yankees in Co-operation

MOVEMENT SUCCEEDING—ALL ALONG THE LINE

Paris Newspaper Declares One of Bastions Now in Defense of Noyon Captured and City Will Fall

PARIS, August 22.—American troops are reported to be participating in the great Picardy battle. General Mangin's army with American co-operation is attacking northwest of Soissons, between that city and Chavigny (three miles northward) according to battle front dispatches received here today.

French Capture Chavigny

LONDON, August 22. (AP)—French troops attacking northwest of Soissons have captured Chavigny, and reached the western outskirts of Noyon, it was learned here this afternoon.

Drawing Freely on Reserves

WITH THE BRITISH ARMIES IN FRANCE, August 22.—The German in their desperate efforts to stay the British advance, are steadily increasing their front line forces by recklessly drawing on Zeppel's reserves.

Many German Prisoners Taken

WASHINGTON, August 22.—German prisoners taken from July 1 to date number about 118,000, and the heavy guns captured number 1,200, Chief of Staff Marsh said yesterday in a conference with newspaper men.

Occupied City South of Roye

LONDON, August 22.—The French have occupied Compiègne, south of Roye, taking several thousand additional prisoners, according to a British dispatch from the French front.

DO CONTINUE ATTACK ON FRONT OF NEARLY ONE HUNDRED MILES FRENCH OCCUPY CHAULNES AND TAKE THIRTY VILLAGES SINCE START

The British and French are attacking on a front of nearly one hundred miles from north of the Scarpe to the Aisne. In continuous fighting since yesterday the French made enormous gains between the Somme and the Oise, advancing more than seven miles on a 25 mile front and capturing 30 villages. They occupied Chaules and swept five miles beyond to within a mile and a half of the Somme. They reached Nesle, which was to have formed one of the principal bulwarks of the new German "Somme line."

The British captured Foucaourt and Trones-wood, two strong defensive posts which had held up the advance on both sides of the Somme. Along the Scarpe the British advanced down the Arras-Cambrai road, reaching the Sensee river at a point three miles beyond the Hindenburg line, which has been penetrated on a nine-mile front in that region.

On the Flanders front British troops advanced on a four-mile front along the main highway between Neuf-Berquin and Estafres.

BOCHE ATTACK ON FISMETTE IS REPULSED

American Troops Engage Germans in Fierce Infantry Actions and Advance Lines in Region of Bazoches

WITH THE AMERICAN ARMIES IN FRANCE, August 22.—Americans and Germans engaged in sharp infantry fighting and violent artillery battles throughout today from the region of Casoches to considerable distance east of Plesnes, a front of about 5 miles. Both Americans and Boches attacked and captured Fismette, respectively. The Americans advanced their lines in the region of Bazoches and French street fighting raged in the outskirts of the town. At the same time, the Boche attacks on Fismette, however, were entirely repulsed.

Fighting Is Bitter

Although comparatively small numbers were engaged in this fighting, it was very hot and the boches showed some reluctance to give up any ground. They sent reinforcements pell-mell down the side of a hill north of the Vesle in plain view of our artillery and machine gun observers. A heavy fire was poured into the boche reinforcements, which were broken up with heavy losses before they reached the main line.

Meanwhile in the fighting around Bazoches the Americans rushed and smashed several machine gun nests. Boches and allied airplanes worked the American flight immediately overhead, as the enemy siren sought to hinder their aerial operations and attack the American infantry with machine guns from a low altitude. The fighting broke out everywhere at 6:40 in the morning and continued all day. At Plesnes the boches tried to work their way into the town, spraying liquid fire toward the doughboys but with little success.

First Rush Violent

The first rush forced the Americans to withdraw somewhat. One officer and 25 men held a bridge crossing the Vesle, while the others sought cover. All attempts of the Germans to reach the Vesle were beaten off. As far as a boche appeared near the bridge he was cut down by rifles and machine gun fire.

Absolves Enemy and Turns Allies Loose

Gothic Priest Has Respect for Souls of Germans if Not for Huns Themselves

NEW YORK, August 23.—Just before a detachment of United States marines were to go over the top recently, the Rev. Father John J. Brady of New York was moving along the trench, according to a story reaching here today.

"Just a moment, boys," the priest said, and turning toward the German line, gave the enemy absolution.

"Now go get 'em," he cried. They did.

THREE KILLED, SCORE HIT, IN BORDER RAID

Americans and Mexicans Battle with Fatal Results on Both Sides—Order Believed to Have Been Restored

NOGALAS, Ariz., August 22.—Two soldiers and one civilian killed, and a score wounded was the toll of American in last night's battle with Mexican bandits at the border opposite here.

This morning, the American and Mexican commander opened a parley as 8 o'clock which resulted in definite frontier events. Hostilities ceased last night under an agreement by the American evacuated the towns of Nogales, Sonora, which they had captured from the Mexicans operating east to first before 7 o'clock this morning.

Captain Henry Clayton of Sikeston Springs, N. Y.; Lieutenant Lake W. Loftus and Lieutenant Lockwood, were also wounded. Two civilians were struck by stray bullets.

Many Mexicans Dead

Mexican casualties could not be established but indications were that close to 100 were dead and may be twice that number wounded.

When 7 o'clock arrived the Mexicans were not belligerent and arrangements for the parley an hour later were made. In the meantime General Cabral arrived from Douglas with American reinforcements. Other American troops arrived from Fort Huachuca. Mexican federal troops were enroute from the interior of Mexico to assist in restoring order.

During the fighting, Lieutenant Colonel Sherman, commanding the troops at Douglas, was severely wounded in the side. He went to the rear for first aid, returned to the field and in a few minutes directed his troops in the occupation of Nogales, Sonora.

Governor Calls Is Expected

PHOENIX, Ariz., August 22.—General Gallo, governor of the state of Sonora, will arrive in Nogales this afternoon to assist in restoring order, according to a telephone message from Nogales, Mexican government troops.

Henry Ford Is the Democrats' Choice

Wins Majority on Bourbon Ticket But Is Repealably Behind with Republicans

DETROIT, Mich., August 22.—Henry Ford won the Democratic nomination for United States senator in yesterday's primaries by a good majority, but lost the Republican nomination for the same office. Although Ford made no personal campaign he was one of the leading candidates on both Republican and Democratic tickets.

FRENCH CAVALRY THREATENS NOYON ROAD COMMUNICATIONS TO SOUTH

By JOHN DE GAUNDI (United Press Staff Correspondent) PARIS, August 22. (4 p. m.)—The German line is cracking along the whole fifty-mile front from Lassigny to north of Arras. The enemy is falling back insistently on the Somme, the center of which is marked by Peronne and Ham. The allies are pursuing them so closely it is doubtful if they can establish a strong defense in those positions.

NO LIMIT FUNDS AND CUT PROFITS

Capital Issues Committee Takes Drastic Steps to Assist National Economics

WASHINGTON, August 22.—Drastic steps have been taken by the capital issues committee of the treasury department to thwart profiteering in war materials and to help traffic, it was learned here today. At the same time, it was learned measures were under consideration which will check exorbitant profits in other lines by limiting funds which could be borrowed.

Regulations of rates of hotels and apartment houses in half a dozen cities including the national capital has been refused by the committee because the corporations seeking funds would not submit schedules of prices to be charged.

Numerous small propositions have had to await the way preliminary because funds were not available. Although no official confirmation could be had, it was reported the committee soon might withhold its approval of bonds to finance the handling of foodstuffs in large quantities unless information is provided on profits to be gained. The committee had no power to check the profiteering except through its refusal to approve loans.

Say Copper Interests Are After Newspapers

Bulle Bulletin Unable to Get Print Paper, Wires Government for Help

HITTE, Mont., August 22.—The Bulle Bulletin today wired Frank P. Walsh, labor chairman of the war labor board, declaring that "the copper interests are trying to put that newspaper out of business."

It is said that the Bulle Paper company had refused to sell paper to the company, saying it had such instructions from Thomas E. Donnelly, chief of the mine and paper section of the war industries board. This paper supports the government and has done so ever since it has been in existence, the telegram to Walsh stated.

"We have run Liberty Loan ads, government W. R. S. and all publicity absolutely without cost to anybody except ourselves and we are the only paper here which does this."

Copper politicians and publication opposed to Wilsonian ideals, are trying to shut us out of business. The Bulletin charged from a weekly to a daily paper within the past two weeks. On August 12, the Montana Defense council issued an order prohibiting the circulation of weekly publications in this state during the war. The Bulletin had announced its intention to start previous to that time.

HUNS FORCED TO RETIRE ON WHOLE FRONT

Hindenburg Unable to Withstand Foch's Pressure and Compelled to Shorten Road to Belgian Frontier

GERMANY MUST CREATE FURTHER RESERVE ARMY

Retreat Towards the Somme Significant of Desperate Strains of Hindenburg's Troops as a Whole

By J. W. T. MASON (United Press Staff Correspondent) NEW YORK, August 22.—Von Hindenburg was being unable to withstand Marshal Foch's attack along the whole of the light held German front any longer, and has been forced to make another partial retreat on his way back to the Belgian frontier. The retreat toward the Somme reported today is the result of Von Hindenburg's urgent necessity for creating a new reserve force to meet America's forthcoming major offensive. There will be many more of these retreats conducted in the same manner, until Von Hindenburg has succeeded in absorbing his line and has completed from 4,000 to 5,000 men for every mile eliminated from the west front.

Must Halt Again The next halt of the Germans will probably be the east bank of the Somme, but their stay there will be comparatively short. They are bound now for the old Hindenburg line, and thence to the Meuse and the Rhine. This, too, will prove to be but a temporary resting place. The German general staff will have no rest in its plans for retreat until the German army has been cut off from the east and before being swept into German territory.

Platoons Counter Attacks

The German counter-attacks against the British are being developed with unusual ferocity because of this fact. The retreat before the French armies cannot be conducted simultaneously with a successful retreat further north, because the mileage is far more extensive than Von Hindenburg's. The retreat before the French armies cannot be conducted simultaneously with a successful retreat further north, because the mileage is far more extensive than Von Hindenburg's.

Shipyards Workers Are Given Increase

Addition to Wages Won't Be Substantial But Won't Reach \$1 an Hour

WASHINGTON, August 22.—Skillful workmen in the ship yards of the United States will be granted an increase in wages, it was learned authoritatively here today. Demands for a country-wide standard wage of \$1 an hour, however, will not be met.

Announcement of the advance and the amount will be made probably on labor day. As a result of the conference with the general labor union committee, the shipyard labor adjustment committee also worked out a wage scale, which, it was said, would be accepted by the union leaders. None of them would divulge the nature of the agreement, however.

The present wage controversy, which originated among Pacific coast workmen, now includes all ship yards. Previous decisions of the labor committees would indicate that four wage schedules would be adopted, making the wages general.

MARINE REFUSES TO RETRACT HIS WORDS AT BOISE

Sergeant W. B. McCracken Says Attempt of George L. West to Influence Him Failed from Start

WELCOMES THREAT OF TRANSFER TO FRANCE

Declares His Statements Regarding A. O. Townley Stand Until Evidence Proves His Opinion Erroneous

An attempt at coercion here Monday night on the part of George L. West, Boise, to secure from Sergeant W. B. McCracken, in charge of the local marine corps recruiting station, a retraction of his statements in connection with the appearance in Boise Saturday evening of William, the "fat man fly," who denounced A. O. Townley, president of the Nonpartisan League, as a pro-German, not with dissent, according to Sergeant McCracken's account of the affair.

QUOTATIONS IN QUESTION

According to the Idaho Statesman, published at Boise Monday night, the appearance there where he climbed the Overland building, in a preliminary talk addressed to a crowd of several thousand people that "when the United States, a little over a year ago, declared war on Germany, A. O. Townley, who was then in Indiana, told an audience that any man who enlisted in the United States army was a murderer."

NEW TRUSTEES TO BE NAMED Twin Falls School District Election To Be Held September 3 On the day of the primary election, Tuesday, September 3, electors of the Twin Falls independent school district are called upon to select two trustees to succeed C. H. Hemplman and W. W. Parish, whose terms expire at that time. Mr. Parish, who is completing his second year as a member of the board, probably will be a candidate for reelection. Mr. Hemplman states that he will not be a candidate. The name of George W. Bice, farmer, residing three miles west of Twin Falls, is the only one mentioned so far to succeed Mr. Hemplman. Mr. Bice with his parents, Mr. and Mrs. J. M. Bice, is at the present time visiting at the home of a sister in Washington, having gone there from Portland, where he attended the national convention of the Sons of Veterans. It is understood that he will accept the position of trustee of the school district, if elected to it. The polls for the school district election will be open between the hours of 1 and 5 o'clock p. m. in the high school building.

For Re-Election to the Office of Attorney General, on Democratic Ticket. He has made office of real service to the people as a whole by going out and assisting prosecuting attorneys in the prosecution of criminal cases of more than local importance. He has used his ability and the influence of his office to suppress the K. W. W. menace. He has had two cases in the Supreme Court of the United States and won both, one of which was the famous liquor case which definitely settled the liquor question in Idaho. His interpretation of the Workmen's Compensation Act breathes a spirit of justice and fairness. 'T. A.' Gasoline Shortage Leads to Drastic Action by United States Fuel Administration—Few Exceptions Allowed

SITUATION NOT SERIOUS BUT MIGHT BECOME SO

Physicians' Autos, Ambulances, Fire and Police Patrols Allowed to Continue to Operate When Required

WASHINGTON, August 28.—The United States fuel administration has janned the use of pleasure automobiles, motorcycles and motor boats east of the Mississippi river on Sunday to permit replacement of diminished gasoline stores.

It will remain in effect, until stocks are built up.

Fuel officials say the shortage of gasoline is not serious but that demands for overseas shipments and for domestic use are now at their highest point and some precautionary measure must be taken to assure a continuous flow for war purposes.

Tractor and motor trucks engaged in the actual transportation of freight are exempted, also physicians' automobiles, ambulances, fire and police patrol, and machines used for repair work by public utilities.

Batal Residents Exempt

Persons living in rural districts where other transportation is not available may use automobiles.

GOVERNMENT MEN INVESTIGATING CROPS

Inquire into Fruit Production and Potato Marketing Prospects

H. C. Waterbury of the bureau of farm markets, and F. C. Folger of the bureau of crop estimates, with headquarters in Washington, D. C., arrived here Monday to spend some time investigating the local crop and market situation. Mr. Waterbury is especially interested in plans for the marketing of the potato crop, while Mr. Folger is paying particular attention to the fruit and apple prospects. They are making their headquarters while here at the county farm bureau offices, although they are spending most of their time in the field.

TO CARRY WAR HOME TO HUNS

Persistent Air Raids on German Industrial Centers Is Part of General Plan

By OABLD. GROAT (United Press Staff Correspondent) WASHINGTON, August 28.—Persistent air raids against German industrial cities are manifestly planned by America and her allies. The recent outbreak of such activity, particularly as demonstrated by the attacks against Mannheim, Frankfurt, and Cologne is only part of the program of carrying the war directly home to Germany.

The American-baited plan of retribution for German air atrocities has been reached only after long deliberation, after Germany carried the war into unpopulated cities of France. The population demoralized there has no fine observance of international law against such an enemy.

American Planes Help

The growing American airplane force combats with the increased production by the allies. It is possible for the allies to undertake this counter movement. America's purpose is to cripple as much as possible the output of important war materials. For instance the Manhattan mills, though unable under difficulties to produce all the chemical works in that city. Perhaps even more important, on the whole, is the psychological effect of the raids. Germany is waiting over them. Germany is scared. She shows every sign of not liking her own machine.

Defend Motor Production

American officers who have worked on the airplane program are beginning to reflect a certain displeasure with some of the anatomical conclusions as to the aircraft situation. They point out that the source of much of the expenditure of \$400,000,000 with no places to show for it. In answer the authorities say that airplanes cannot be purchased like groceries—that more of this vast sum went for personnel and training. The liberty motor is being produced in big daily quantities and should reach the peak before long. While there are hitches still, the program is on the mend constantly and no output before long will be all that is needed.

"INTOLERANCE" COMING
One of the most important attractions of the current season is D. W. Griffith's colossal spectacle "Intolerance," which will appear at the Orpheum theatre soon.

In every respect this amazing work is absolutely different from anything ever before shown on any stage. Paris of the Middle Ages, Babylon of the reign of Belshazzar, the magnificent Judea of the time of Christ; are depicted with such realism that one finds it difficult not to believe one is actually witnessing the picturesque life of these historic periods.

To convey the idea of the immensity or splendor of the Babylonian scenes is impossible by written words. This thrilling epic, which has a plot as gripping as a novel, is a spectacle of even greater magnitude than Mr. Griffith's former famous work, "The Birth of a Nation." And mighty Babylon is but one-fourth of

Fans known to have attended games regularly this summer will have the first chance at choice seats.

ROBINSON'S

There is perhaps no one thing in connection with the selling of goods that affords me so much pleasure as a satisfied customer. And there is no one thing that I desire more than that the customers of this store be satisfied with their purchases.

It would be almost too much to expect that every one who makes purchases in the store should be satisfied with each and every purchase, but I have a feeling that nearly all leave the store with a satisfied feeling. I am led to this belief from the fact that so many of the customers of the store bring their friends or send them here to trade and many new customers are coming here and our old customers come back.

This, of course, tells you why the sales of the store continue to grow, and this month has proved no exception to the earlier ones and again the sales of the first half of the month were greater in amount than those for the entire month of August last year. It seems that to me this tells you better than anything else why I feel as I do about the customers of the store feeling satisfied.

When prices began to advance rapidly there was a tendency on the part of many merchants to buy lower grade goods than formerly to make it appear that they were not advancing prices to any considerable extent, but their customers have found out that they have been getting poorer quality and the merchandise they have bought has not proved satisfactory. Some who had been buying at this store went elsewhere, thinking that they could save money, but have come back where they can get dependable merchandise and while the prices may be some higher than formerly, the values are good and in the end it is real economy.

Suits for Boys—The Worth-While Kind

There is a tendency on the part of some merchants and some parents to believe that most any kind of a suit will answer for the boy as he does not take care of his clothes. I think that this is poor economy in the end as most boys will take better care of a good suit than an ordinary one.

THE BOYS' SUITS that you will find here are not only made of good outside material, but the linings and other trimmings are of good quality. The Coat has many of those little features that not only add to its appearance but appeal to the boy.

THE PANTS are cut full, have taped seams that prevent ripping and are lined throughout. No Cottonoid, Satinet or Shoddy Material is used, but the good strong kind that wears well.

You will be both pleased and surprised to find how reasonable the prices are for such very splendid Boys' Suits.

Men's Shoes, Women's Shoes, Children's Shoes

THE SHOE SALES of this Store have grown to such an extent that at first thought one might think why advertise Shoes, but the splendid results that have been accomplished causes me to feel ambitions for still better results. The remarkable values you will find here tells you why this part of this business has become such an important one. Perhaps the following will illustrate—

Boys' Good Grade School Shoes
Leather soles, heels and laces stay, good quality lining, good looking, at the same time strong and well made and will wear well. Sizes 9 to 13-12 at \$2.50.

Men's Black Leather Shoes
Extra strong. Good looking and well made. A Shoe that will wear well and made for comfort. Compare them with Shoes sold elsewhere for \$4.50, but you buy them here for \$3.85 a pair.

A Special Line of Women's Shoes
In all-leather and cloth tops, Black, Brown, Tan and Gray. Cuban and Military heels. New styles and good style. Good looking and comfortable. Compare them with Shoes shown elsewhere at a dollar and a dollar fifty more. I make a Specialty of this line at \$5.00 a pair.
