British Occupy Entire Drocourt-Quant Front—Fall of Lens Confirmed—British-American Advance in Flanders Takes in Wulverghem

DOMINATING POSITIONS AND VALUABLE COAL MINES AGAIN IN ALLIES' HANDS

The Germans have abandoned the famous Drocourt-Quant switch line to the British. Quant, at the other extremity of the line has been captured, and Lens, further north, is also in British possession.

AMERICANS AND FRENCH ADVANCE TOWARDS LAON

Coucy-Le-Chateau Being Outflanked—French Push Across Du Nord Canal—Allies in Coucy Forest

By JOHN DE GANDT (United Press Staff Correspondent) PARIS, Sept. 2.—Coucy-Le-Chateau is being outflanked by the Franco-American troops of the Allies from Coucy-au-Mont, simultaneously with the French having registered an advance of a mile and a quarter beyond the canal Du Nord in the region of Nele.

Prisoners Bay Withdrawal Planned German prisoners declare provisions being made for a general withdrawal to St. Quentin.

Move on Outscud North and west of this area, the French have gained new ground in the direction of Outscud, having carried their lines more than a mile across the canal Du Nord. In the region of Ham, the roads behind the enemy lines are reported obstructed with transport and troops moving northward.

Quarter Million More Yankees' On Big Job London, Sept. 3.—More than 250,000 Americans were transported to France during August, it was learned this afternoon.

CAMBRAI IN RANGE OF BRITISH GUNS

LONDON, Sept. 3.—(5:35 p. m.)—The present German retreat to positions behind the canal Du Nord and continuing northward will place Cambrai under long range fire and will make Douai practically useless to the enemy, it was learned authoritatively this afternoon.

The enemy has practically no fresh divisions available for fighting.

FURTHER ADVANCES ON TWO FRONTS

LONDON, Sept. 3. (4:30 p. m.)—A further advance by the British in Flanders, was registered today when it was learned authoritatively that Richebourg-St. Vaast, two miles west of Neve-Chapelle, had been occupied.

The British have also occupied Hamblin, at the northern end of the Drocourt-Quant front. It is within range of Arras, just south of the Scarpe river.

WEDGE FORWARD NORTH OF SOISSONS

FRAUD CHARGED IN OPERATION OF LAND PROJECT

Secretary D. B. Moorman Brings Action for Appointment of Receiver for Milner Land & Water Company.

Minneapolis office of \$425,000 worth of securities is one of the allegations made by D. B. Moorman of Twin Falls, secretary and treasurer of the Milner-Twin Falls Land & Water company and president of the Milner-Twin Falls Canal company.

Settlers' Obligations Involved The securities in question are notes and mortgages given by settlers through the Canal company to the Land & Water company, in payment for water rights under an irrigation pumping system which the Land & Water company contracted to construct to reclaim approximately 40,000 acres of high lands lying between Hansen and Mortuagh, about 15 miles east of Twin Falls.

Serves in Dual Capacity The officers and directors of the Land & Water company, besides Moorman, are I. H. Porrie of Twin Falls, president, and L. E. Palmer, late of Twin Falls, general manager. Palmer is also the general manager of the Daniel Hayes company of Rock Island, Illinois, which was constituted by the Land & Water company, its fiscal agent, and to which, according to the complaint filed Saturday, the officers

BREAK IN HINDENBURG LINE EXCEEDS 7 MILES; ENEMY HURRIES RETIREMENT

French and Americans Undertake Difficult Task in Clearing Wooded and Cut-Up Area of the Enemy—Flames Behind the Hun Lines Indicate the Intent to Withdraw

LONDON, Sept. 3.—The British advanced four miles on a twenty-mile front in the region of Duisy this morning. It was learned authoritatively.

Having smashed their way across the vital Drocourt-Quant line on a front of from four to five miles, British troops are following up their advantage and striking hard at enemy positions at both ends of the break.

The break in the Hindenburg line above Quant now exceeds seven miles, extending beyond Elzing to the north. This line, which was designed to be a supplementary defense to the Hindenburg line is of almost impervious to the enemy.

Fighting Progresses Favorably The enemy is hurriedly retreating southward in an effort to get behind the Wotan line, or such of it as is left. Fighting all along the Drocourt-Quant line continues favorable to the British today, according to all reports received at headquarters.

Advances Astride Isan The British are progressing southeast of Gagnacourt. They are astride of the railway west of Quant and east of Reimcourt. The enemy is offering fierce resistance west and northeast of Quant.

Field Marshal Haig announced Canadian and British troops have occupied Dury, Villers-les-Gagnacourt, Gagnacourt and Reimcourt. The Canadian positions on both sides of the Arras-Cambrai road. These positions protect the Drocourt-Quant line at its most vital point.

Canadians in Fight The Canadians have stormed the Drocourt-Quant line, Field Marshal Haig announced in his communique today. He also announced British troops have entered Prouville, Polignies and Beilincourt and that 10,000 prisoners were taken in this vicinity yesterday.

Further south, the British advance continued also. The enemy resistance has stiffened considerably, however, Hindenburg is throwing in reserves with great freedom in an effort to check Haig.

Flanders Advance Continues In Flanders the British are steadily advancing, having occupied Es-

ALLIES ADVANCE IN ARCHANGEL

Bolshevik Troops Forced to Give Up Important Positions

BUHL BOY DIES IN RUNAWAY

Ralph Patrick, 12-Year-Old Son of A. A. Patrick, Fatally Hurt in Barbed Wire

Ralph Patrick, 12-year-old son of Mr. and Mrs. A. H. Patrick, formerly of Twin Falls, was the victim of a fatal accident at his home four miles west of Buhl Monday afternoon when he was thrown under a hay rake in a runaway and dragged into a barbed wire fence. His bicycle was wrecked and one arm was nearly cut off.

Working in Wheat Field The boy was out work raking wheat in a wheat stubble field which had been harvested. He was driving a team which was believed to be gentle. One of the horses was his own pony.

Funeral services were held at 8:30 o'clock this afternoon from the Buhl Christian church, and interment will be in the Twin Falls cemetery this afternoon.

MAY USE GLASS FIVE MEN FOR SPECIAL DUTY

Provost Marshal General Calls For Examination Records of Registrants Unfitted for Military Duty.

Pressing calls for registrants who have been finally classified in class five as persons totally and permanently unfitted for military service to serve in some capacity for which they may be qualified, an order has been issued by the provost marshal general directing each local board to report at once and monthly thereafter, as they accumulate, the records of its physical examinations of all registrants in class five.

Keep Back Draft Medicine

The war department is requesting its local registrars to forward the papers of applicants for appointment in the military reserve corps to indicate whether or not the applicant is a member of a local draft board. Every effort will be made to carry out the wishes of the provost marshal general and attention is invited to the necessity of adopting some method of examining drafted men that will be more economical in the use of physicians. The present arrangement will render unavailable for military service some 18,000 men who would otherwise be available for commissarial service. This is the reply of the surgeon general of the army to the request of Provost Marshal General Crowder asking that the commissioning of medical members of draft boards be discontinued.

Rules on Disqualified Men

The provost marshal general has ruled, in orders transmitted to the local boards through the adjutant general's office, that the practice with some local boards of sending men who are rejected for physical disability at one camp to another camp on subsequent call is a violation of the selective service regulations, to be investigated in the future with a view to instituting appropriate proceedings against the offending local board members.

not negligible were taken. The new line thus formed bulged eastward from the Aras-Cambrai road to Bulser, thence south to Dolgines, curving south and west until it joins the line south-east of Depanne.

Lens Loss Heavy Blow

The capture of Lens by the British will prove a hard blow to the Germans, not only for sentimental reasons but because it is the junction of a number of railways. Lens is nine miles north and slightly east of Arras.

Lens is also the dominating city in a large coal region, which has proved of immense value to the enemy.

Gains In Flanders

The occupation of Wulverghem registers a further advance of one mile in Flanders. The town is six miles north and slightly west of Arras.

The developments in the Quant-Berthincourt sector overshadowed those further south where the French and Americans were operating. The French war office announced only artillery and minor raids.

TWO ELECTIONS ARE ON TODAY

Voters Selecting School Directors and State and County Nominees

Two elections are in progress today in Twin Falls and elsewhere throughout the county and state. Popular attention centers on the primary elections for the nomination of the Republicans and Democratic tickets of candidates for the state and county offices and of Nonpartisan candidates for the supreme and district courts. But less important are the elections for school directors in the several school districts.

In Twin Falls two school directors are to be named. The voting place for this purpose is in the basement of the high school building and the polls are to be open between the hours of 1 and 3 o'clock this afternoon. W. W. Parish is a candidate for reelection and George W. Rice is the candidate generally favored as successor to G. H. Hempelman.

Tolling places in the several Twin Falls precincts for the primary elections to continue open between the hours of 9 o'clock a. m. and 8 o'clock p. m. have been established as follows: Twin Falls No. 1—Rogerus hotel; sample rooms.

Twin Falls No. 2—Commissioner's room at the court house.

Twin Falls No. 3—Office of the Gopling Motor company, 313 Main avenue west.

Twin Falls No. 4—Office of Police Judge W. J. Smith, 329 Main avenue south.

Twin Falls No. 5—Residence of J. J. Pilgerrim, 553 Second avenue east.

Twin Falls No. 6—Lincoln school.

Twin Falls No. 7—Washington school.

to roll back the Hinderburg line which they have already overrun to a depth of two to three miles.

Runs Burn Towns

Further south, between Peronne and St. Quentin and in the direction of Noyon, flames riddled the sky by night and great columns of smoke visible by day, marking the Germans' work of destruction in their continued retreatment.

The enemy is burning as much towns as time will permit. Evidence is that he hopes to get off his straggle out and to fortify the country between Cambrai and La Fere in the hope of preventing its capture by the allies.

Enemy Fights Stubbornly

Between Noyon and the Soissons the Germans are fighting most stubbornly, but are going and surely the French and Americans are battering their way forward. American troops are threatening the enemy positions north of the Aisne. If their progress continues the German crown prince will be compelled to withdraw from the Vesle positions. General Mangin's left is advancing northeastward toward St. Gobain, further impelling the Crown Prince's rear in this region. All along the front from Tynes to Rheims the British, French and Americans continue to play a tune to which Lestodorf must dance.

POLICE SEARCH IN MANY CITIES

Theatrical Man Wanted on Murder Charge—19-Year-Old Daughter Involved

CHICAGO, Sept. 3.—The search for J. Norman Cook, in connection with the murder of William E. Bradley here, spread today to St. Paul where he is said to have seen him Saturday.

Bradley died Friday night of a stab wound. In a dying statement he declared that Cook was his assailant. Cook is alleged to have opposed Bradley's friendship with his 19-year-old daughter, Norma.

Bradley's relatives told the police that Cook had written him threatening letters. The police intended to open to Bradley's safety deposit box which is said to hold the letters.

Letters said to have been written Bradley, who was about 60 years old, by the girl are in the hands of the police. Many of them were written in censoring terms. One was addressed to "my own darling Billy" and another to "my dearest, dearest Billy." They expressed undying affection for Bradley.

Girl in Retirement

Miss Cook remained today at Columbus, Kansas, with her mother. Further search was being made for Cook at Indianapolis, where he was said to have gone with a theatrical company. Various reports that he still is in Chicago were being run down. His description was sent to practically every city in the country.

Bradley was well known in Chicago as a successful business man and club man. He was reputed to be wealthy. He was the divorced husband of Charlotte Mae Smith, daughter of J. W. Smith, discoverer of Goldfield, Nevada, mine.

WHOM WILL YOU SUPPORT?

Today we're engaged in a wedding... are falling by the wayside—or rather being felled.

The first and foremost qualification is, of course, Americanism.

Any man who cannot qualify fully in this respect is not deserving of the vote of a single self-respecting American citizen.

Humanism isn't wanted at home—in any form. It doesn't follow because the youth of the land and the flower of the country is across the seas stamping out this curse that there aren't enough red-blooded Americans left behind to level out the first symptom of it in the home lines.

A son in the service is not, in itself, conclusive evidence of Americanism on the part of the father, although some politicians seem to think so.

The selective service process is sufficiently well understood so that that sort of luck doesn't get far.

Further, the sort of Americans to be voted for this fall should be the sort who do not have to be subjected to a microscopic examination to make sure they have red corpuscles in their veins.

The kind the Council of Defense have to examine to find out whether they are true blue or not are the type to steer clear of.

The present is no time for experiments. Labelling isn't going to fool real Americans. They want the genuine product this year.

Americans are not going to support candidates this fall who have at any time prior to the present preached the overthrow of our system of government.

It is one thing to point out its evils, and to seek to remedy them. It is quite another thing to endeavor to saddle a new form of government upon the country while those who should have the most to say about it are away offering their lives to sustain the form of government we now have.

Any fundamental changes in the scheme of things will have to be passed upon by those who have volunteered for the supreme sacrifice!

No one will oppose progress—war or no war, and no one will oppose the correction of abuses—war or no war, except those who are profiting by the abuses and lack of progress. But there is a distinct jumping off point between an attempt to give every man an equal chance, between an effort to make properly a less concentrated and more widely spread commodity—there is a distinct difference between these very meritorious objects—and an effort to harness the country with an entirely new set of governmental principles.

Every American voting this fall, regardless of prior political affiliations, should keep this thought in mind, and should remember too, that a tree is better known by the fruit it bears than by the label it wears.

WINNING THE WAR

During the past few days a distinct tendency is noticeable on the part of Congress to guard against the possibilities of the American people becoming too optimistic over the war outlook.

what the gains of the past few weeks are of the highest importance it must be remembered that the Allied armies have many hundreds of miles of fighting ahead of them and that with such time as the fighting is actually transferred to German soil, Germany has all the best of the argument should matters come to a question of settlement at the present stage of the proceedings.

TRY PROPAGANDA STUNT ON YANKS

Hun Airman Seeks to Convert American Forces With Pamphlets

By FRANK J. MATLO (United Press Staff Correspondent)

WITH THE AMERICAN TROOPS IN FRANCE, Sept. 2—The laborer is apparently trying to transfer his influence propaganda straight into the American trenches, but to no avail. Copies of "America in Europe," a propaganda sheet, printed by the Germans for the benefit of the Americans were dropped over the American lines by German airmen. The paper contained "the usual indeliberate statements designed to prove Germany's innocence in the war and stupid attacks on the British. The material in general proved amusing to the Yanks.

Some military objectives American airmen have dropped two tons of bombs on German military objectives at Audun Le Roman and Longuyon, the two squadrons of airmen returning safely. Three hostile machines were downed by American aviators in the air and several bombers, attempting to raid American positions were repulsed.

PLAYTHINGS COMING TO THE LAVERING

The thrill of full-blooded drama pervades the play which will be at the Lavering Theatre Friday, September 4. It is called "Playthings," and it has created a veritable sensation...

The playwright has written what is frankly a melodrama, that is to say, in fillet to the boldest of bold action, it has situations that startle and surprise, and a climax that veritably brings its auditors up clenching their seats...

Every person interested in one of the most vital problems of modern society will wish to see this play; it is the duty of every mother, every parent, with a daughter, to see it.

ed with \$5,000 a subscription list to raise \$12,043 for the purchase of two pumps and motors suggested for by I. P. Perry, from the Allis-Chalmers company of Milwaukee. These pumps are capable of delivering 90 second feet of water, or sufficient to irrigate 7,600 acres of land. It is claimed, and the Moorman plan is to purchase and install these pumps for the reclamation of the lands under approximately 10 miles of irrigation ditches already partly constructed by the Land & Water company. The manufacturer is holding the pumps subject to order received prior to October 1. The machinery is to be the property of the signers of the subscription list until payment to them of the same so advanced is made by the Miller Canal company.

Provides for Property Sale In addition to the appointment of a receiver for the Land & Water company with power to collect from the Daniel Hayes company the notes and mortgages wrongfully held by it, and the award of judgment to him against the Land & Water company in the aggregate sum of \$4,000.25, there will be \$200 attorneys' fees and the costs of the action, Moorman in his complaint filed Saturday, asks that all creditors and other persons be enjoined from in-

BRITISH PLANES HARASS FLEEING GERMAN FORCES

Hun Transports, Bridges and Railway Connections Subject to Gallling Fire by English Flyers on Northern Front

OVER ONE THOUSAND PHOTOGRAPHS TAKEN

Eight Enemy Machines Destroyed and Four More Driven Down Out of Control in One Day's Fighting

LONDON, Sept. 2.—Law flying British airplanes are shattering the retreating enemy troops, bombing German transports, bridges and railway connections and generally assisting Field Marshal Haig's columns in their advance in France.

This is shown by the latest aviation communique issued by Haig.

"Despite the opposition of enemy machines," says the statement, "more than 1,000 photographs were taken by our airmen Sunday and many valuable notes were affected. Contact with our advancing troops was closely maintained. Our observation balloons were constantly pushed forward, and these, with our artillery patrols kept our batteries informed of numerous targets which were successfully engaged. Throughout the day the area into which the Germans were retreating was searched by our low-flying airmen, who everywhere attacked enemy troops and transports with bombs and machine guns, their fire causing heavy casualties and much confusion. Bridges and railway connections were heavily bombed in the enemy rear areas.

Enemy Machines Destroyed

In the air fighting, eight enemy machines were destroyed and four were driven down out of control. Six of the balloons were brought down in flames by our airplanes. Eight of our machines were missing.

On the following night bombing was continued in the zone beyond the battle line and further east. The German airframe above St. Quentin was heavily attacked and direct hits were observed. We lost one night bombing machine.

During the 24 hours over 34 tons of bombs were dropped on different targets.

On the following night bombing was continued in the zone beyond the battle line and further east. The German airframe above St. Quentin was heavily attacked and direct hits were observed. We lost one night bombing machine.

Attorney Makes Proposal

Prior to the filing of the complaint Saturday, Attorney Wise, on August 28, submitted to the Daniel Hayes company its proposition, to avoid litigation, that the Hayes company relinquish all its rights in the Land & Water company, that it pay \$4,000 down from the Land & Water company to the Twin Falls Bank & Trust company. That it return all of the notes and mortgages mentioned in the complaint, and that the money invested by the Hayes company in the Land & Water company should be returned out of payments for water rights to be made to the Land & Water company.

In reply to this proposal the Daniel had forwarded the message of Attorney Wise to B. H. Hayes of Boise, attorney for the Land & Water company, and would report upon receiving his answer.

Hayes Company to Accept

Within a few moments after the filing of the complaint her Saturday, J. C. Moore of Twin Falls, formerly secretary to I. B. Perrin, received from the Daniel Hayes company a telegram stating that it would accept the proposals made by Attorney Wise. These matters are to be taken up at a conference between the two companies and representatives of the Hayes company, the Land & Water company and the Canal company.

Leads Action in Interim

In the meantime, Moorman has head under these circumstances, the intervention of a court of equity is required for the protection of the plaintiff and all other creditors and parties in interest, especially for the appointment of a receiver to take charge of the property of the defendant, recovering possession of the notes and mortgages held in the hands and possession of the Daniel Hayes company, a corporation, and collect and convey the property and properly appropriate the income thereof until the final decree of the court in the premises.

lines. They pushed a mile beyond the village.

At the southern end of the battle front, the French and Americans are making slow but steady progress. The different work of clearing the wooded country in the vicinity of Comblanchien is proceeding satisfactorily. Stubbard enemy resistance was encountered east of Crepy-Aux-Monts, east of Nevele, the French have cleared the road and gained a footing on the western slopes of hill 77, taking prisoners. The German war office admits the British capture of Peronne.

Americans in North

In the northern part of the battle line American troops are sitting in trenches on both sides of Ypres. Signs are every where visible in that region that the Germans in the north are preparing to make the best of a situation that is rapidly growing worse. Fires were observed last night at Armentieres, Waruon and smaller towns in Flanders, lighting up the eastern sky.

Enemy Casualties Heavy

In the fighting on the Quant front enemy casualties were heavy, in addition to the prisoners captured.

We are advancing and are reported to have entered Pronville, Delignies and Berthincourt. Field Marshal Haig reported today. "The Canadians stormed the Drocourt-Quant line. The enemy had reinforced his defenses to such a degree that on a front of 8,000 yards, eleven divisions, have been identified." Haig also announced that Quant had been occupied last night.
