### ENEMY PREPARES TO MAKE A STAND FARTHER IN REAR

American Wings Straightening Out Positions—Stiff Infantry Fighting and Air Activity Reported

By FRANK J. TAYLOR  
WITH THE AMERICANS ON THE METZ FRONT, Sept. 16.—Both American wings are reported to be straightening out and consolidating their positions across the late St. Mihiel salient. Our patrols now control the area between the American lines and the Hindenburg reserve defenses.

**Dig In Far Back**  
The Germans are digging in far to the rear, rather than attempting to dispute the American gains effectively. Aerial fighting is intense; battle planes are forcing the boches to remain more than five kilometers, about three miles, behind positions which otherwise would constitute their forward lines while artillery-Liaison units operate undisturbed.

**Increased Air Fighting**  
The number of German aircraft has suddenly increased tremendously but is insufficient to meet the British and American forces. That of both are being dropped on the German military positions far in the rear. There was stiff infantry fighting during the night along the Moselle, where Americans stormed fortified quarters.

### INHABITANTS OF ST. MIHEL GET FREEDOM AGAIN

Years of Virtual Imprisonment Brought to End by Yankee Victory—Tender Scenes Thanking Rescuers

By FRANK J. TAYLOR  
ST. MIHEL, France, Sept. 16.—The attack of the Marshalleis today ring in the streets of St. Mihiel—louder today than ever before. Children who had been kept prisoners indoors for four years by brutal German orders ran up and down the streets shouting and waving tricolors, wildly enjoying their first freedom in the sunshine since September, 1914. More than 20 little ones were piled by a captain into a staff car and toured the city singing the Marshalleis at the top of their lungs. Every one of the youngsters had been too young to talk when the Germans captured St. Mihiel and had been forbidden for four years to stand, yet they knew the words of every verse and were ready for the day of deliverance.

**Town Not Badly Damaged**  
St. Mihiel is not greatly damaged, although a number of buildings were battered by German grenades, which were thrown without any pretext. The streets are now decked with flags and full of people thrilled by their sudden liberty.

I saw one lot strutting for home, which is now a mass of brick and stone. An American passed. The youngster asked her mother "What's that man?" The woman replied "An American soldier." The little girl, shouting "Vive L'Americain," ran and clung to the dogboy, embracing him. Mayor Jean Mandard, representing 2,500 women in St. Mihiel, told me the Germans had vandalized everything in the town, and had forbidden the inhabitants to leave their homes except by special permit. Mandard's secretary showed me a lease on life, which the Germans issued (Continued on page eight)

### GL. IN'S FALL BACK BETWEEN THE MOSELLE AND MAD RIVERS

Yesterday's Advance Along Whole of New 33 Mile Front Followed Up Today With Gains on Eight Mile Front—Bring Metz Within Range Artillery

### FRENCH FORCES CAPTURE VAILLY; BRITISH ADVANCE ON 2 MILE FRONT

LONDON, Sept. 16.—The Germans are apparently withdrawing along the whole thirty-three mile front between Abbeccourt and the Moselle in an effort to improve the protection of communications in the vicinity of Metz. The Americans advanced from two to three miles on this front, and in some places their patrols pushed forward an additional two miles.

Six German divisions, totalling about sixty thousand men, were operating in the St. Mihiel salient, when the Americans began their attack, it was learned: Of these fully a fourth were taken prisoner. The British have captured Maiseuse, four and a half miles northwest of St. Quentin, thus wiping out a small salient which had its apex at Vermand. In their recent local operations, the French have taken 6,500 prisoners.

**Shooting at Metz**  
Metz is under long range bombardment, it is learned here today. Metz is about ten miles from the farthest known advance of the Americans.

### British Progress On 2 Mile Front

LONDON, Sept. 16.—British troops advanced their lines on a front of more than two miles along both sides of the Ypres-Comines canal last night, capturing a number of prisoners and machine guns, Field Marshal Haig reported today.

### Vailly Taken By French Forces

PARIS, Sept. 16.—French troops captured Vailly, on the northern bank of the Aisne, eleven miles south of Leans last night, the French war office announced today. They also took Mont des Hinges, together with 200 prisoners. "Between the Oise and the Aisne last night we continued to progress," the communications said. "We captured Mont des Hinges with 200 prisoners and also captured Vailly."

### AMERICANS ARE MOVING UP ON HUN FRONTIER

German Withdrawal in Center of Line Accepted as Evidence of Growing Weakness of Fighting Strength

NEW YORK, Sept. 16.—Fearing that General Pershing is trying to create another pocket along the St. Mihiel salient, the Germans have given up in the center of the line for a distance of three miles more. Abandonment of territory tends to straighten the German front before Metz. The Americans, however, have begun a new movement at Doncourt to drive another wedge in the line. If the operation succeeds, it will create two pockets, the first in the center of the front once more and the second about the important town of Fresnes. The salient formations are now playing an important part in General Pershing's strategy as they have done for the last two months in General Pershing's plan.

**Move Nearer Hun Frontier**  
By this process, the Americans are moving closer and closer to the German frontier. General Pershing has between two and twelve miles to cover (Continued on page four)

### HEADED HOME, TROOPS HAPPY

Germans in St. Mihiel Salient Express Grim Satisfaction On Eve of Departure

By FRID S. PREGGUSON

WITH THE AMERICANS ON THE METZ FRONT, Sept. 16.—The American positions on the eight-mile front between Jaulny on the Moselle river, and the Moselle were markedly improved today, the Germans further retreating in that region.

### Clean Up Artillery Park

A certain American division captured an entire artillery park near Jaulny, taking 72 cannon, and making its total 90 for the drive, having been repulsed, the Boches apparently are giving their full attention to strengthening their withdrawal positions. The Americans are being heavily bombarded, but continue to improve their positions. Their morale is at the highest and they are anxious to press on while the Boche morale is correspondingly low. Prisoners say they have no hope of winning the war. The Austrians are bitter toward the Germans, saying they were left to shift for themselves and that repeated requests for more ammunition were ignored.

### German Towns Bombard

Aerial activity is steadily increasing. Several tons of bombs were dropped on Coucellen, Ehrbrange, Saarbrücken, Boulay and Buhl. American day bombers attacked the bridges at Corny, six miles southwest of Metz, and Anankille, two miles south of Corny. Many hits were made with the four tons of explosives used.

In view of the Austrian peace proposal, the temper of the Boches in this region is extremely interesting. Headed for "Home" Villagers within the salient say that as the enemy moved out the soldiers declared they did not know exactly where they were going but were "headed for home, which is all that matters."

### SAYS CASUALTIES ARE EXCEEDINGLY SMALL

Secretary of War Baker Says Losses in American Offensive Light in Comparison

LONDON, Sept. 16.—Secretary Baker, in an interview today declared that the American casualties in the St. Mihiel salient were surprisingly small, considering the scope of the operations. Very few men were seriously injured, he said. The majority of the wounded were only slightly hurt and will quickly recover. The war secretary personally visited American hospitals, and declared that the work of the surgeons and nurses was at the highest efficiency. All prisoners are treated well, he said. He described the American morale as "superb."

### SUPREME COURT DENIES MOONEY WRIT OF ERROR

Appeal Must Be Taken to Supreme Court of the United States

SAN FRANCISCO, Sept. 16.—The supreme court of California today denied the application of Thomas Mooney for a writ of error for the purpose of appealing the case to the supreme court of the United States.

The opinion handed down today says the court cannot review its own judgment and the only method remaining is a direct appeal to the United States supreme court for a writ of error.

### BEST KNOWN STARS OF MOVIE WORLD TO HELP LIBERTY LOAN TO BE HELPED OUT BY DISPLAY OF TALENT UNIQUE IN FILM HISTORY

WASHINGTON, Sept. 16.—A million and a half feet of highly paid movie talent will be shown in the nation's forthcoming appeal for liberty loan billions. Thirty-five stars, ranging from the rosiest "Patty" Arbuckle to the petite Mary Pickford and Marguerite Clark and including Charlie Chaplin and the violent "Doc" Fairbanks, have produced a film for the government at their own expense.

It figured the scenery alone for these pictures cost \$125,000, and estimating the time spent in salaries paid the stars, a million dollars more was contributed, loan officials declared today. The government is having 4,000 prints made of the films at a cost of \$50,000 and this will enable every copy of the 27,000 movie theatres to have a new feature every third night while the loan campaign is on.

### WAR INDUSTRIES BOARD PLANS WAR ON HIGH PRICES

Consider Proposal of Having Wholesale Price Stamped on All Articles—Would Reveal War Profiteers

WASHINGTON, Sept. 16.—The war industries board is about to determine what is a fair profit for the retailer. Moved by the flood of complaints on profiteering, the board has under consideration regulations to force the stamping of wholesale prices on all merchandise sold in the United States. If the consumers may check the blood money makers individually, they will know when he inspects any article of merchandise just how much profit the retailer gets. This, members of the board believe, will be sufficient to stop most price boosting.

### Ask Trade Board's Aid

The federal trade commission's aid has been enlisted in the plan it was learned here today. That body's work will be to prevent stamping of prices above actual selling figures. It will protect the wholesalers and the manufacturers who attempt to undertake restrictive measures.

The war industries board undertakes to form enforce such a program through its power of industrial classification and its hold on materials and transportation.

## NO PEACE CONFERENCE UNTIL HUNS WITHDRAW FROM STOLEN TERRITORY

### AUSTRIAN ATTEMPT DOOMED TO FAILURE

COPY OF AUSTRIAN PEACE NOTE ON WAY TO STATE DEPARTMENT—Boches Seek to Place Responsibility for Continuance of War on Shoulders of Allies Without Renouncing Their Claims to Spoils

By CARL D. BRADT  
WASHINGTON, Sept. 16.—The United States government drawing along the whole thirty-three mile front between peace conference it was stated on high authority today.

"It was declared to be perfectly safe to assume the professor would not be approved." This course will be followed by the entente government.

According to all indications here. The state department had not received a copy of the Austrian note this forenoon and consequently withheld all formal comment.

Despite this silence, it developed that the Austrian proffer is not acceptable.

**Peace Drive Expected**  
A confidential state department dispatch dated the twelfth, from an unnamed source gave warning of Germany's great peace drive.

This message stated the allied diplomatic consensus of opinion was that the governments should be ready in the next few weeks for the "most desperate" peace propaganda yet undertaken by the Teutons.

It may be said that the Austrian note is considered adroit, that it aims to place the burden on the allies for obtaining peace previously.

It was noted that Germany has generally stated a peace offensive at the (Continued on Page Eight)

### NEW YORK PRESS DUBIOUS ABOUT TALKING PEACE

Times Would Enter Discussion—Others Say Central Powers Couldn't Be Believed Regardless What Was Agreed

NEW YORK, Sept. 16.—The New York Times, in an editorial today, urged that the allies accept the Austrian proposal for an "unbinding discussion" looking toward peace. The newspaper, however, declared peace conditions must throttle German militarism and insure that there be no repetition of the war.

Pointing out that the peace offer comes from the quarter where for three years the allies have felt it would come the Times says:

**Declares Allies Can Accept**  
"It comes in a form which the allies may honorably accept in the confident belief that it will lead to the end of the war."

"The custom and practice of nations," the editorial continued, "demands that this invitation to enter upon the preliminaries of peace receive the most serious and respectful attention of the governments to which it is addressed."

Commenting on causes for the proposal it said: "For the actual and moving cause of the proposals we must look to the battle fields of France. The French and American troops under the command of Marshal Foch, the advancing and victorious legions directed by Haig, by Petain and by Pershing, have (Continued on Page Eight)

### Enemy Burns Large Stores But Much Comes Into Possession of Americans—French Premier Visits Headquarters

## INFANTRY FIGHTING ON ENDS OF FRONT

### German Counter Attacks Break Down Under Bliff Fire of Yankee Artillery—Boches Preparing New Line

By FRED B. FERGUSON  
WITH THE AMERICANS ON THE WEST FRONT, Sept. 16.—The extent of the new line paralleling Hindenburg's is surprising in the light of the present activity. To the left of the Meuse, the boches attempted a raid Saturday night, as a result of which the Americans took six prisoners. Late yesterday afternoon the enemy made a counter attack at the same region.

### Break Up Assault

They were seen heading for the front. The American artillery opened up on them. They were cut to pieces before they could start. The boches is doing considerable work in the rear of the Hindenburg line. The operations in the past 24 hours, though small, have resulted in additional prisoners and material. Where there is a comparative lull on the ground, aside from artillery fighting, the battle in the air is becoming constantly more bitter. The boches airplanes are being refueled and are becoming more daring.

### Keep Airplanes Out

Although some have succeeded in crossing the allied line, not an enemy plane has been able to proceed more than seven kilometers, 3 miles, behind the allied lines. A great number of German machines were brought down in aerial battles yesterday. The enemy's observation balloons also are being constantly attacked and many have been destroyed. British, Italian and American bombing planes are busy in the rear areas day and night.

### Premier Clemenceau a Victory

Premier Clemenceau visited American headquarters yesterday and congratulated the staff. In spite of the fact that the enemy burned large stores, examination of the battle field shows that great quantities of ammunition, telegraph and railroad material, rolling stock, clothing and equipment and abandoned holdings were left in the conquered region.

# Capay Rancho Holds Wonderful Promise for Farmers

## \$175 an Acre for as Fine Land as Lies Out of Doors in California—With an Individual Pumping Plant on Every 80 Acres—Included in the Price

The magnificent crops in every section of the Capay Rancho district tell a story that is more eloquent than words. Every condition here seems to be scientifically right for profitable farming.

As fine yields of barley and other grain as you ever saw are growing here now. Many of the crops are grown without irrigation, although there is an abundance of water.

The United States government is urging the growing of grain. It is a patriotic duty, and incidentally a very profitable pastime.

An industrious farmer should be able to pay for his land at Capay Rancho out of his barley and wheat alone in two or three years at the most. Purchasers of land here may have the advantages of dry farming as well as of irrigation.

There is no pioneering. You go on your land and start producing at once. In many cases volunteer crops of hay, running from one to two tons to the acre are waiting for you to harvest.

This is a great country for oranges, lemons, prunes, almonds, walnuts, figs and other fruits. Dairying and hog raising are carried on very profitably. The farmer who gets hold of some of this land at today's prices is bound to make money.

It will pay you to buy all you can swing, even at the liberal terms. But you will have to act now. There is very little yet to sell. Use the coupon below to get fullest information.

SETTLING A STRIKE

No exit could be obtained for exact justice contained in the letter of President Wilson to the striking machinists of Bridgeport. The remedy applied is a drastic one but not more so than the exigencies of the occasion demand.

The Smith and Wesson company of Springfield, Mass., engaged in government work, has refused to accept the mediation of the national war labor board and has flouted its power of decision approved by Presidential proclamation.

With my consent the war department has taken over the plant and business of the company to secure continuity in production and to prevent internal disturbance.

It is of the highest importance to secure compliance with reasonable rules and procedure for the settlement of industrial disputes. Having exercised a drastic remedy with recalcitrant employers, it is my duty to use means equally well adapted to that end with lawless and faithless employees.

Therefore, I desire that you return to work and abide by the award. If you refuse, each of you will be barred from employment in any war industry in the community to which the strike occurred for a period of one year.

NOTICE TO CONTRACTORS

Notice is hereby given that the Mayor and Council of the City of Twin Falls, Idaho, on Monday, the 23rd day of September, 1918, at the hour of eight o'clock in the evening of said day, at the City Clerk's office in the Perrine Hotel Building, will receive and open sealed bids and proposals and award a contract to the lowest and best bidder complying with the provisions of this notice for the construction and com-

pletion of all cement sidewalks, authorized to be constructed by and the location of which are described in Ordinance No. 236 of the said City of Twin Falls and which ordinance is found on page 267, book 4, of the council proceedings of said city, and which ordinance creates Local Sidewalk Improvement District No. 32 of the said City of Twin Falls, and also for the construction of sidewalks, intersections and cross walks made necessary by the construction of sidewalks described and mentioned in said Ordinance No. 236; said sidewalks to be constructed along the property front or side as described in said Ordinance No. 236 and upon the grade and in the manner specified in the plan and specifications for a two course sidewalk, as determined by the City Engineer and now on file in the office of the City Clerk of the City of Twin Falls.

Proposals showing the estimated amount of work to be done and the class thereof can be obtained by applying at the office of the City Clerk of the said City of Twin Falls.

The said work will be paid for as follows:

Ninety per cent of the cost of construction, based upon the City Engineer's estimate thereof, found to be earned and due at the end of each calendar month; the whole thereof within sixty days after the completion of the whole of the said work and the acceptance thereof shall be evidence by the certificate of the City Engineer that the said work is completed in all ways in compliance with the terms and conditions of the contract. The payment of the construction of the sidewalks shall be made in warrants of the City of Twin Falls, Idaho, issued to the contractor, and issued against the special fund created by the assessing of sidewalk intersections and cross walks will be paid in cash at the times hereinafter mentioned.

There must accompany each bid a certified check upon some bank located in the City of Twin Falls, Idaho, drawn to the order of the City of Twin Falls, Idaho, in an amount equal to ten per cent of the amount bid; said check to be forfeited to the City of Twin Falls, Idaho, in the event that the successful bidder does not enter into a contract for the performance of the work. A satisfactory surety bond in an amount equal to sixty per cent of the amount of the contract conditioned for the faithful performance of the terms and conditions of the contract to be performed by the contractor, must be given to the City of Twin Falls, Idaho, by the successful bidder at the time of the execution and delivery of the contract.

The Mayor and Council reserve the right to reject any and all bids.

AMERICANS ARE MOVING UP

before his army is drawn up along the boundary directly facing Metz. The fortress itself will then be subjected to its first intensive bombardment of the war. Meanwhile, the Americans have begun to progress along the principal railway running from Verdun to Metz. They have about 18 miles to go along this line before they will hit it at Conflans-en-Dardrie, where it begins to feed the German front. Once Conflans is reached Metz' usefulness as a supply station for the Germans in France will be gravely compromised.

Peace Boche Objectives

In the midst of these promises of large American successes the Central Powers have begun their long anticipated peace offensive. Austria-Hungary's purpose in suggesting a non-binding conference is to prevent the attainment of a democratic peace. A democratic peace is one brought about by public confession of defeat by the military cannibals of Germany. A reactionary peace is one arranged at a private conference by a handful of men who will therefore be encouraged to continue using the people of the world as pawns in the bloody game of secret diplomacy.

Subtle Play Falls

The most subtle play yet made in the game is Germany's tentative offer to evacuate Belgium in the near future if Belgium remains neutral to the end of the war. Van Hilsenborg now sees that he has got to get out of Belgium any way to shorten his front and defend German territory against America's millions. If, therefore, he can make a bargain with the allies to evacuate without disturbance it will be a big military victory for him. At the same time, he can pledge Belgium to remain neutral thereafter, the allies can not use eastern Belgium as a base for invading Germany. This program shows the kind of a peace the Austrian peace maneuver with neutrality and dispatch today.

Five Out of Fourteen Declare They Pay for no Advertising in Campaign

Out of 20 Republican and 18 Democratic candidates for legislative and county offices in this county, eight Republicans and six Democrats Saturday filed sworn statements of the expense to which they had been put in securing or influencing in any way their nominations to office.

George W. Wilcox, Republican candidate for county assessor, paid more than any of the other candidates whose expense accounts have been filed for his campaign.

George W. Wilcox, Republican candidate for county assessor, paid more than any of the other candidates whose expense accounts have been filed for his campaign. He entered the campaign early and paid \$44.25 for announcements published in five county newspapers, according to his statement. The expense in addition to the filing fees of the other Republican candidates on record were as follows: Mrs. Carrin Harper White, \$25.25; O. P. Davall, \$38; Miss Britton Wolfe, \$39.35; W. W. Parish, \$11.25; A. N. Sprague, \$12; Expense accounts of other Democratic candidates on record, for advertising, were as follows: W. F. Brown, \$33.25; C. H. Taylor, \$28.50; Frank DeKlotz, \$5.

If You Want to Send Your Home Paper to Your Boy in France, SAY SO—It Will Cost You Nothing

Twin Falls County boys in France are hungry for the home news—give it to them. There is no expense to the boys or their relatives at home. The expense of the service has been provided in other ways.

Twin Falls County "Home Paper" Service

As a further means of letting the boys "Over There" know we are with them, a plan has been arranged by which all the boys in the service, Army, Navy, U. S. C. A., Red Cross, K. C. and all other war workers from this county, will receive regularly a copy of a home paper, so he will know what is going on "over here."

To carry this out, a committee is now working to get the names and address of every one from Twin Falls County who is in the service and to find out the preference as to paper. The committee then proposes to subscribe for enough county newspapers so that every man may have the pleasure of reading his home news. We possibly cannot go far enough to send EVERY man an individual paper, but we plan on placing a number of the county papers in every canteen, camp, headquarters where any Twin Falls county men are stationed.

Enough funds are already provided to start this plan and all we want from the people of the County is the names and addresses of the boys and their preference as to paper.

We are asking that the next of kin to every boy in service fill out the coupon below and send it in, at once, so that we may get the boys started to the boys without further delay. We want EVERY BOY possible to see a "Home Paper," so it up to the relatives of these boys to get the information to us.

The purchase of one Thrift Stamp represents an investment of 25 cents. The purchase of one War Savings Certificate in July represented an investment of \$4.18, and in August, \$4.12.

## CARDINAL-FARLEY

### CLOSE TO DEATH

"Close to Death" is an Authorized Statement as to His Condition

MAMARONOK, N. H., Sept. 16.—The condition of Cardinal Farley is very grave. His heart is failing and while we hope for his recovery, we realize that he is very close to death, said Monsignor Carroll, secretary to the cardinal today. No bulletin was issued by physicians. Last rites of the church have been given the cardinal.

## Fiendish Fritz Gas Fumes Futile

This fiendish Hun helped the kaiser add to the horrors of broken international warfare rules. It is Privy Councilor Haber of Berlin, chemist, who is responsible for most of the deadly gases which the Hunz were first to use. But like all unfair and cowardly methods and those who employ them—the Hun is being beaten at his own game. Yank war gas now being manufactured has several new wrinkles for the boob—while the Yank mask and the uncomparable Yank spirit back of all gas Fritz disgusted with his "tuffie fumes."

## ENEMY KEEPS YANK GUNNERS CHASING HIM

Sergeant John H. Sinema of Twin Falls, Says Artillery Moves Constantly to Maintain Contact With Hun

American artillery, of which the unit that was D. Company of the Second Idaho regiment and is now headquarters company of the One Hundred Forty-sixth field artillery regiment is a part, is experiencing difficulty in keeping up with the retreating Germans, according to word from Sergeant John H. Sinema, quartermaster for the unit, received by his parents, Mr. and Mrs. L. Sinema, 229 Second avenue north. Under date of August 6, when the company returned to the front, Sergeant Sinema says that the guns of the regiment were brought within range of the Germans one evening, but that under cover of darkness the enemy retired and the next morning the American gunners had to move forward without firing a shot. He declares that he did not know how far ahead of the artillery the American infantry had advanced. The One Hundred Forty-sixth artillery regiment has been cited on account of meritorious services rendered in laying a barrage fire before the advancing Germans at Chateau-Thierry, Sergeant Sinema says.

To Battle Gipsy Moth. Human effort to exterminate the gipsy moth have failed and the United States government is now importing insect parasites of this pest to aid in the war of extermination. In order to destroy the injurious moth the government is going to provide a home and encourage the development of an insect that makes a specialty of fighting the moth.

Mark of the Beast. It is most true that a natural and secret hatred and aversion gipsy society, in any man, hath somewhat of the savage beast.—Bacon.

Turtle's Instinct

It has long ago been ascertained that the eggs of the loggerhead turtle are laid in the sand at some distance from the sea. As soon as the young are hatched, however, they move with unerring instinct to the water. It is found that newly hatched loggerhead turtles move away from red, orange and green, but are attracted by blue. Under normal conditions, then, the blue gleam of the sea may be supposed to attract them, while they will turn away from the reds and greens of the land.

Saline Plants

Saline plants are plants such as saltworts, sea pursues, grasses, and other plants which grow on the seashore, or by the side of salt lakes, or in the beds of lakes which have dried up. They are rich in saline constituents, and when burnt their ashes were formerly used in the production of barilla, an impure carbonate of soda. This used to be employed in the manufacture of soap, glass and other products.

like a passport. When they left the Germans took away all men between 16 and 45, locking others in a church. They told them they would shoot any one who came out before Thursday noon. The Americans arrived and rescued them before the time set by the Boches in their intransigent captivity.

How Count Spunky

I visited a captured German count who rose up and stood dignified at attention. Although I could not express my pleasure at seeing the count there, since the army permitted no conversation, I learned that he had positions of considerable importance before the war. He is tall, slender, blond, and showed considerable book.

Although the count showed no worry at being captured, he is now greatly depressed because he is not allowed an outlet.

The American officials rule that he must shine his own shoes and clean his own clothes, just to learn a few democratic ideas, as the general expressed it.

Comments Americans

The count is still hopeful of a German victory, but expressed admiration for the American troops. "I have been much impressed by the military bearing of the Americans," he said. "They conduct themselves like veterans."

The count admitted the American attack was a surprise, coming at the time it did, although he and other captured officers say they told the German command that a large attack was imminent outside the St. Mihiel salient. But the German commanders scoffed at the idea of "an American attack."

close of a military campaign. He had to advance the date this time it was remarked, dryly. When the note comes it will be carefully studied. Some answer will be made, according to present indications. This answer may state an irreducible minimum of the terms and it may make a bid to the Tuleo people to overthrow their rulers.

However, a government official to a very high place informed the press gallery that it was perfectly safe to assume that the Austrian offer would not be accepted. This position is such that he speaks with entire authority. The Austrian note is considered based on military exigencies.

Tried-Out Belgian At the same time the allied diplomats must take cognizance of Germany's offer of a separate peace to Belgium.

Germany put forward the following terms: Belgium to remain neutral until the end of the war; reconstruction of Belgium, and political and economic independence for her after the war; reestablishment of German Belgium commercial treaties existing before the war; Belgium to aid by moral sanction in restoration of German colonies; the Flemish question to be considered and the Flemish minority, which aided the German invaders to go unimpeded.

The London morning papers pointed an Austria's personal as follows:

Sancti Comment Express—"The proposal brings peace no nearer. It is true that all peoples long for a speedy end to the struggle."

The allies have stated their preliminary conditions. They are: withdrawal from Belgium and France; abrogation of the Brest-Litovsk and Bucharest treaties; there is not the faintest suggestion that the central powers will agree to these conditions. It is just an invitation to a secret conference at which bargains can be struck and the destruction of military presented. Henderson wants time to pull his armies together. Negotiations mean a practical armistice. Germany's note to Belgium is another Brest-Litovsk scheme."

Trying to Shift Blame Chronicle—"Two motives inspire the

Most First Show Good Faith Goughy and Austria have shown no signs of accepting the cardinal principles for they have practiced annexations and indignities, with a vengeance.

President Wilson's dictum of "peace without a victor" which "Chief of Staff March" says "We are going through with it" talk Saturday are held to be the surest proofs of the American spirit.

The most forceful argument ever heard every time the Tuleo has heard a peace message, has been: "If we quit now it is a German victory."

"Home Consumption" Propaganda This same call was heard today. Germany is still an foreign slave. Her industry is in a worse position tactically and economically than ever before a peace now would leave her in better shape than ever to start new world domination. Her hand, in her hand. How ludicrous this latest peace drive is may be gathered from the fact that a direct proposal of peace is reported to have been made to Belgium. This places no blame on Germany and falls far short of the terms the Austrians would have to accept. But the German intention, as seen here, is to convince the small pacifist group of the Tuleo nations that a sincere peace desire now abides in Germany.

Seek Breathing Spell Another point emphasized here is the fact that Austria proposed a "non-binding" peace discussion. In other words, the peace conference would act as a brake on the war and the war spirit and thus give a bit of breathing space and then give the Austrians, or if they staged some sort of a comeback they could leave the get-together conference.

Germany is considered the dictator of the Austrian note. Austria says she and her allies are in accord. It is held here to be doubtless true that Germany would like to strike the best possible bargain at this time to save the Hohenzollerns. But it is regarded fully true that the best bargain at this time would be to accept the enormous sacrifices the allies have made without making the world safe from German war threat in the future.

note—First, the desire to embarrass the entente by throwing upon it the odium of the war, second, a genuine longing for peace. Berlin and Vienna now realize for the first time that the central powers can not win the war. Instead they are fearful with the dread of a total disaster. They do not want to continue the war a day longer than necessary but the entente are not going to be fooled with a German peace.

Use Austria as Dummy In Wilson's language, "no general peace, no peace worth infinite sacrifices of these years of tragical suffering" can be arrived at under the old method of hector and coercion."

The Times—"Germany is employing Austria to peace proposals and cover their efforts to gain time while Hindenburg organizes his forces. This is one of the oldest and subtlest tricks of diplomacy. What the central empire really hopes is acceptance of the proposal so that they can again present to their disheartened peoples their reasons for continuing the war. They also hope to break the entente's solid front."

Says to Push War Manchester Guardian—"It would be a monstrous feat if the proposal, as such should be flouted as heretofore. It would also be unwarranted to lay down definite military conditions as a pre-condition to any discussion of peace."

On the other hand, we fear peace will be delayed if we enter confidential discussions without some suggestion of the enemy's approach to our well known proposals. We think the allies should request an expression of desire to the lines laid down by Wilson and Lloyd George. Let us, above all things, avoid replying in such terms as to give the wavering French resolution. It is no use making any discussion of the peoples of the Central Empire really want peace, but their governments seek to sway them and enmesh the content, thus dodging the blows of the masses against continuing the war.

Belgian Attempt Doesn't Help What benefit Austria might have obtained from the proposal undoubtedly has been lessened by publication of Germany's effort for a separate peace with Belgium, which is self-evident of the Hun's bad faith.

The Daily News favors Austria's proposal for a conference, declaring: "The actual discussion can prove whether discussion at this stage can lead the world nearer peace. Austria's dominating motive hardly can be doubted."

There is no doubt that for her, more than any other belligerent, an early peace is imperative. Such a conference would not compromise the allies' fundamental principles. On the other hand there is more than a reasonable prospect that the discussion is not clear yet whether Berlin wants to come to terms."

Mirror—"Stand by our public declaration of war aims, being in no mood to enter secret diplomacy with any peace negotiator from Germany."

Post—"The proposal is an impudent statement. Wilson in advance disposed of the proposal when January 8 he said, 'None but open convulsions of peace would arrive at, can be considered.'"

Calls It First Definite Attempt Post—"We are dealing with the first peace offer from Germany, which, in substance, is an appeal to conclude an armistice. There can be but one answer. To pause now would be to throw away the fruits of France's, in ultimate forces the hope of victory; to betray the common cause of civilization."

Regarding Germany's note to Belgium the Post said: "It is an impudent, shameless proposal which is put forward not to benefit Belgium or satisfy the allies, but to provide propaganda for the defuncts."

CHOIR GIVES FAREWELL TO SOPRANO LEAVING About seventy-five present and members of the Methodist choir met at the church last Thursday evening in a farewell to Mrs. J. H. Van Tassel, who has been the leading soprano of that organization since the pioneer days of the church in this city. A hostess supper in which the traditional Methodist fried chicken largely predominated was enjoyed by all. This was followed by several musical selections by Mrs. Van Tassel, Mrs. W. E. Douglas, J. C. Porterfield and a quartet by the old standards, Dr. C. D. Weaver, Mrs. Van Tassel, Mrs. T. J. Douglas and J. O. White. Several addresses of commendation were given by Miss Thelma Banks and Mrs. Puckett. As a testimonial of the high regard in which Mrs. Van Tassel is held by all members of the choir, they presented her with a beautiful ivory set. She responded graciously to the occasion speech which was made by Mrs. A. A. Baker.

brought about this complete change in the minds and in the attitude toward the war of old Vienna and of Potsdam. The reflux current that began to bear the German back from the Marne on July 18, and has since been steadily and relentlessly sweeping, extinguishing its last hopes of victory; St. Mihiel comes as an admonition of impending and irretrievable disaster."

Peace Must End Autocracy The Times declared all belligerents desire the end of the war but said "it would be the worst of blunders for us or any of the entente allies to end preparation now."

"A peace that left Germany master of the east would be a crime against ourselves and our posterity. Control of vast regions where she could renew her now diminished might, she must once and for all time renounce. The restrictions and reparations to be decreed in the west are equally indispensable, but restoration has made them fatal."

World Spurn Proposal Other New York newspapers declared the proposal must be spurned as they now stand.

"No one but a German or a vassal of Germany could imagine that with the

responsible leaders of Prussian militarism almost as false and boastful as ever a peace negotiation is possible. The world said: "The awful tragedy of this war is not to be thus adjudged. No one is to come triumphant from the fields where so many brave men have perished."

"Don't Trust Them" Says Tribune The Tribune asked: "Do we believe what we say about this German thing—that it is frightful beyond conception, that it has no faith to pledge, that it has betrayed the very principles of civilization, that it can not be lived with, and that it must be utterly destroyed?" and then pointed to the crimes which have been committed. "Germany has lost the war," it continued. "The peace offensive is now her most dangerous weapon. Let it break itself upon the text 'that length into captivity shall go into captivity; so that kill with the sword must be killed with the sword.'"
