Factory Hit in Metz Bombardment—Direct Hit Reported on Big Hun Gun—Enemy Dumps Blown Up

By FRED S. FERGUSON WITH THE AMERICANS ON THE METZ FRONT, Sept. 19.—American soldiers reported shells from our heavy artillery dropping in the center of Metz. A big factory has been struck and direct hits have been scored on the fortifications.

The Americans are steadily pushing their line forward, following up the patrols and their advanced positions are now directly in front of the new Hindenburg line which the Germans established in this region last February.

Advance is Met An even week since the start of the American drive in this region finds our army thoroughly at home fifteen miles within the line which the Germans held for four years. The new line has been thoroughly consolidated, roads repaired and the country generally cleaned up.

Refugees are returning to villages between the Meuse and the Moselle which had been under shell fire since 1914.

Location on New Line Our patrols have reconnoitered this section of the Hindenburg line several times and returned with reports concerning conditions. The American main line runs through Rouvaux, Manville, Pintheville, St. Hilaire, Doucourt, Meul, Hamont, between Jandry and Bismont, north of Vandieres and south of Champy to the old line. Patrol encounters are frequent.

ESTIMATE SHOWS HUGE SAVING IN ROAD OPERATION

Railroads of Eastern Region Run for First Year Under Government Control With Good Financial Results

WASHINGTON, Sept. 10.—A saving of approximately \$45,000,000 in operation of railroads in the eastern region for the first year of government control is estimated in a report to the director general today. In a resume of conditions of eastern railroads, A. H. Smith, regional director, shows a saving of \$45,000,000 in the operation of passenger service. His report also shows a decrease in the cost of handling freight of \$5,400,000. The principal saving has been brought

Allies Press Ahead On Many Distant Sectors

The allied offensives in both Picardy and Macedonia were progressing favorably today. After tearing to pieces a series of strong German counter attacks yesterday afternoon and evening the British resumed their drive between Cambrai and St. Quentin shortly before midnight. The latest reports showed the British in possession of the Hindenburg line outposts on an eleven mile front extending from Gouzeaucourt southeast of Pontreuet, while the main defenses have been penetrated at two points within that sector.

The French, operating on the right flank of the British, have moved forward to within about two miles of the western outskirts of St. Quentin.

In the Balkans, the Serbians, French and Greeks apparently have completely broken down the Bulgarian resistance on the offensive front east of Monastir. The Serbian war office reported the Bulgarians retiring in confusion burning villages and supplies.

The Germans and Austrians are said to have turned down Sofia's appeals for reinforcements and to have ordered the dispatch of several Turkish regiments to that front as a substitute.

Evacuation of Baku, the important Caspian oil center by British troops which occupied that city last month was reported in unofficial London dispatches today.

YANKS SELECT FIRST TARGET ON HUN FRONT

Fort Kron Prinz, Just Within the German Border, Will Be First Permanent Fortification to Go

By J. W. T. MASON NEW YORK, Sept. 19.—The American front is now only ten miles away from Fort Kron Prinz, the farthest surviving redoubt protecting Metz on the western side of the Moselle river, where General Pershing is now operating. Fort Kron Prinz is probably destined to be the first of the Metz strongholds to fall to the American siege guns. It stands seven miles southwest of Metz in a wooded, rolling country, where the hills reach a height of a thousand feet and more. The hill is three miles inside of the German boundary and about two miles from Gorze, on the Hindenburg line. The Americans are

Detachment Balks When Orders Come

AMSTERDAM, Sept. 18.—A big detachment of German soldiers refused to leave Aix-la-Chapelle for the front last week, according to information obtained from the frontier today. The escort is reported to have fired on the engineers, killing eight and wounding many. The remainder were driven aboard trains but are said to have thrown their rifles out the windows.

Hun Officer Suggests Further Retirement

ROTTERDAM, Sept. 19.—Evidently preparing the public for another retreat, General Arden in the Berlin Tagblatt emphasizes the difficulties caused by the fact that the German west front forms a "censer" which can be attacked from the west and south. Foch undoubtedly will use the advantages which the general situation offers him, he adds.

Mulhausen Inhabitants Prepare to Evacuate

DASLE, Sept. 19.—The wealthy inhabitants of Mulhausen are evacuating the city, the Nachrichten declare. The rest of the population are preparing to leave with the military order to have. A similar exodus from other Rhine towns is reported to be under way through fear of a Franco-American push in Alsace.

GERM OFFENSIVE MAY ACCOUNT FOR RAGING EPIDEMIC

Widespread Appearance of the Dread Disease Follows Visit of German U-Boats to American Waters

WASHINGTON, Sept. 19.—Widespread appearance of Spanish influenza along the Atlantic coast recalls warning of naval officers some weeks ago that German submarines may be responsible. Lieutenant Colonel F. S. Doane, of the health section of the shipping board, today reiterated the warning. He declared: "It is quite possible the epidemic was started by Huns sent ashore by U-boats submarine commanders. We know that Huns have been sent ashore from German submarines and it would be quite for these agents to turn loose the germs in theaters and other places where large numbers of people are assembled."

HUNS DISREGARD COST IN EFFORT TO RETAKE LINE

Launch Terrific Artillery and Infantry Attacks on British Positions in Vain Attempt to Occupy Old Positions

LONDON, Sept. 19.—A German attack in great force on a front of more than eight miles west and southwest of Cambrai yesterday afternoon was completely repulsed with heavy enemy losses, Field Marshal Haig reported today.

Another strong attack shortly afterward, north of Mouvaux, was also driven off with heavy German losses. In certain localities bodies of the enemy succeeded in reaching and entering our trenches, where they were overwhelmed by counter attacks. In all such localities our line was re-established intact. Many prisoners were taken, a great number of German dead are lying before the positions of the whole front of the enemy's attacks. The German counter attacks began about 5 p. m., on an eight mile front between Gouzeaucourt and Tressaint, following a terrific bombardment. They were smothered by the British fire, Field Marshal Haig reported today. A few elements entered the British trenches but were annihilated by counter attacks.

Take Hindenburg Line

The British drive was resumed shortly before midnight. Australian troops pushed forward and occupied practically the whole of the outposts of the Hindenburg line from Pontreuet northward to Gouzeaucourt. South of Gouzeaucourt, the operations of the Fourth British army continued successfully yesterday evening and last night. English troops progressed north of Pontreuet, four miles north and west of St. Quentin, reaching the outposts of the Hindenburg line in this sector. To the left of the fourth army an Australian division renewed its attack at 11 p. m. and carried the outposts of the Hindenburg line after heavy fighting. Many prisoners and

British Doggedly Holding to Great Gains While Germans Launch Massed Divisions in Repeated Attempts to Retake Lost Positions—Fighting Around Havrincourt, Fiercest of Battles—Casualties Both Sides Run High

PRISONERS TAKEN IN BRITISH DRIVE EXCEED 8,000; CAPTURE MANY GUNS

By LOWELL MELLETT WITH THE BRITISH ARMIES IN FRANCE, Sept. 19.—The British and German armies swung back and forth in a titanic struggle today for possession of the Hindenburg line between Cambrai and St. Quentin.

Reports of the fighting indicate the British are doggedly holding to their great gains, while the Germans' desperate efforts to bent back the elements of General Byng's army, that are too many—some are beyond the Hindenburg line—are entirely unsuccessful.

The enemy's counter efforts centered about Havrincourt. The fighting here has been the fiercest of the whole battle. The Germans launched six divisions at one point, gaining a temporary success only to lose ground later.

Prisoners taken in yesterday's fighting totalled 8,000, while more than 60 guns were captured.

Adopt Small Tactics Suddenly dropping the "positional" methods by which they had been edging gradually nearer the Hindenburg line, the British, sweeping aside German opposition, have moved up to the verge of the formidable trench system.

The outposts of the Hindenburg line have been occupied on a wide front between Cambrai and St. Quentin region, while in some places the main defenses of the system itself have been conquered.

Hinging its movement on the French forces at Bary Wood, west of St. Quentin, the British line swung forward, irresistibly keeping a pace set by the Australians in the middle.

When I met the Australians' headquarters their influence and bombers attack were pouring into the German's fanjans trench system and 5,746 of the defenders were in prison cages or marching toward the cages. The prisoners included 114 officers, among them being regimental commanders and their staffs. Twenty-seven guns were captured together with their crews and horses. This may be regarded as a great success.

MURDER SHOCKS OAKLEY PEOPLE

John Smith Dead and Henry Halverson Accused of Killing

John Smith, 55, is dead, and Henry Halverson, familiarly known as "Waggy," is a prisoner in the jail at Oakley charged with his murder as a result of a "shootout" which took place at the Horseshoe ranch here last Wednesday afternoon, according to word received here today by the sheriff's office. Both men are employees of Twin Falls. Smith was employed for several years by the Owyhee Sheep & Land company. Search is being made for his relatives. Halverson has lost his arm.

Shooting Follows Argument The shooting followed an argument as to the division of property decided upon after Smith and Halverson, leaving here last week, had pitched camp in the hills south of Oakley on a trapping trip. According to reports received here, Smith, becoming dissatisfied with the division after it was effected, went to Halverson's camp. Hot words were passed. Smith left and went to the Horseshoe ranch. He was standing beside his horse when Halverson, who had followed him, rode up without a word, Halverson leveled a sawed off shot gun and fired it at Smith. Most of the shot entered the body of the horse, but one or more shot entered Smith's eye, penetrating the brain.

BULGARIANS IN COMPLETE ROUT BEING PURSUED

Retreat So Precipitate Great Quantities of Materials and Guns Being Abandoned—Many Prisoners Captured

LONDON, Sept. 19.—The Bulgarians completely beaten in the new Franco-Serbian offensive, are being pursued by day and night, by the victorious allied forces, the Serbian war office declared in a statement received here today.

Seven additional towns have been captured and the allied advance has now reached a total depth of 12 to 15 miles. Bulgarian reinforcements, brought from neighboring sectors to stem the Franco-Serbian advance have also been beaten and are retreating. The enemy is burning villages and supplies, but the allied advance is so rapid that considerable quantities of materials have been captured.

Bulgaria Seeks Aid Of Allies

AMSTERDAM, Sept. 19.—Bulgaria asked Germany and Austria to send reinforcements into Macedonia to aid in repulsing the present allied offensive a dispatch from Cologne stated today. The Central Powers replied they would consider the request, but feared they would be unable to comply at present. They informed Bulgaria, however, that negotiations are going on for the dispatch of several Turkish army corps into Macedonia.

SERBIANS SMASH UP BULGAR FRONT

LONDON, Sept. 19.—Serbian cavalry, operating on the Salonika front has achieved a penetration of the Bulgarian lines of nearly 20 miles, it was learned tonight. The Serbians broke entirely through the Bulgarian front and their horsemen reached as far as Polishko.

FIELD OF HOME SERVICE WORK IS OUTLINED

Representatives of Red Cross Organizations of District Attend Three Days Institute Here on New Phase Relief

Twenty-two representatives of 11 Red Cross branches within the jurisdiction of the Twin Falls county chapter attended the sessions of the chapter home service institute which opened here Monday in the business rooms of the First Baptist church to continue for three days. As a result of the institute the Red Cross organization of the county and district, which is one of the first in the state to perfect the formation of a home service section, will be in position to proceed with this branch of its work with the highest degree of efficiency in every community in which it is represented.

Gives Case in Point

The institute opened Monday afternoon with a lecture on "The Field of Home Service," by Mrs. E. L. Macvicar, who is in active charge of this phase of the work for the Twin Falls county chapter, with headquarters in the Power building. Mrs. Macvicar set forth the need for assistance and care for the relatives left behind by the men leaving to fight the battles of our country. An illustration of this point is a man leaving to fight the battles of our country who underwent a needed surgical operation at a local hospital at the expense of the home service section, which not only defrays all of the expenses but carries on the correspondence, and adds other personal touches to the care of the patient.

Medical Men to Help

In connection with his discussion of "The Home Service," before the institute Tuesday afternoon, Dr. H. W. Wilson, chairman of the Twin Falls county chapter, announced that arrangements were being made whereby Twin Falls hospitals and physicians would be included in the cause of caring for the health requirements of the families of soldiers. Mrs. Macvicar also discussed home service methods, office systems, reports, etc.

Talks on Law and War

At the institute Wednesday, Judge E. A. Walters, who has been appointed attorney and legal advisor for the chapter home service organization, discussed the subject, "The Law," which explained the soldiers' allotment plan, the military liability insurance and the soldiers and sailors civil rights bill. Wednesday afternoon, Mrs. Austin D. Thomas lectured on "Community Resources to Be Used by Home Service Workers," and Mrs. W. F. Pike discussed child welfare.

Representatives in Attendance

The representation of the several Red Cross branches at the institute is as follows: Filer—W. A. Shear, Mrs. H. H. Schlidman. Kimberly—Mrs. E. H. Deaton, Mrs. Pomroy, Mrs. W. M. VanHouten. Murtagh—Mrs. Edna Hunt. Eden—Mrs. Joe Day.

DUMMY BOMBS FOR AVIATORS

Probation Officer John B. Ault

Assesses Tax of \$2.50 Against Offenders

Bearing a list of the names of 23 boys and two girls, Probation Officer John B. Ault is visiting the several schools of the city today on an ominous mission for the 25 children most directly concerned. Each of the young persons whose name is on this list is one who has stolen recently a watermelon patch without the formality of awaiting the invitation of the grower, and has reaped himself or herself more or less with the product of the patch. In consideration of these unwarranted visits, the young people listed now are called upon each to contribute to the amount of \$2.50 to the reimbursement of the watermelon grower, both for the melons missed and for the damage done to the vines, and that is the mission on which the probation officer is bent today.

SAYS TRAINING IS SAFEGUARD OF THE SOLDIER

First Sergeant W. H. Abendroth U. of I. Military Instructor, Talks on Students' Army Training Corps

Discussing the work of the American fighting men in the war for human rights and illustrating his address by means of an exhibit of the trench equipment of the Yankee infantryman, First Sergeant W. H. Abendroth, assistant military instructor at the University of Idaho, spoke in the high school auditorium Wednesday evening to an audience made up of practically the entire enrollment of boy students, their parents and others interested in the subject of the government plan for the technical training of prospective soldiers.

His talk had to do principally with the students army training corps, which is being organized in this state at the University of Idaho, under instructions from the war department. Idaho is expected to train as many men as can be accommodated in this corps and at least 500, Sergeant Abendroth said.

Preparedness and the Individual

In reply to a mother, in another Idaho city who had suggested that the training course was to teach men to kill others, Sergeant Abendroth related what he had replied that the object was far different. It was, he said, to teach men to take care of themselves and prevent others from killing them. The trench equipment of the American infantryman, including rifle, bayonet, trenching tool, pack, etc., weighs 72 pounds. A mother in Boise asked if her boy would be expected to carry this load, Sergeant Abendroth said. "Madam," he replied, "whether your boy is developed to a point where this equipment will be given him to carry, he will not be a boy any longer—he will be a man."

Impressions Respected Due

Sergeant Abendroth visited the high school Wednesday afternoon. While there he asked that the students, accompanied by the orchestra, which was rehearsing, sing "The Star Spangled Banner." He did this, he explained, in order that he might point out to the students the proper manner of standing and behavior while the national air was being played. In conclusion, he was addressing the organization with his address in the even-

HANSEN WOMEN HEAR MISSIONARY'S ADDRESS

Miss Gregg Gives Interesting Incident From Her Experiences in China

(Special to The News)

HANSEN.—A pleasing surprise awaited the members of the Hansen Missionary and Aid society at their meeting last Thursday when Miss Gregg, for several years a missionary in this country and in China, addressed them on her travels in the Orient.

Miss Gregg, mother of Mrs. E. E. Pierce, who has spent the summer with relatives here, returned Sunday, September 8, to her home in Goldenrod, Washington.

Mrs. Jay L. Downing and Miss Meral L. Course spent Tuesday in Kimberly with Miss Marie Turner.

Charles Guiner, A. E. Pettigrove, and N. A. Pettigrove motored to Albion and Burley Wednesday, for the purpose of buying sheep.

One hundred and sixty-four men between the ages 18 and 21, 31, 45, registered in Hansen Thursday. Hansen was quite the busy little city on that day.

Registration is very ill at present in Hammet. Signs of rapid recovery were not yet appeared.

Mr. and Mrs. David Totto left for a visit on the Pacific coast, after which they will return to their home in Illinois.

Mrs. Louise S. Smith conducted the dance given in the Hansen Hall Friday evening. A large crowd attended, all reporting a pleasant evening.

Word has been received by Mr. and Mrs. Stimmler, that their son Lyman is "doing his bit" in France in driving supplies to the front line trenches.

Mrs. Stinson McCoy is teaching the second grade in school. Until a permanent instructor can be procured to fill the vacancy caused by Miss Cayford's resignation.

Mr. and Mrs. E. T. Provost of Twin Falls spent Sunday in Hansen visiting with friends and relatives.

WENDELL CHEESE SCORES HIGHEST IN CONTEST

State University Extension Department Reports on Results of Dairy Products Judging

Samples of cheese entered by the Wendell Cooperative Creamery, Wendell, Idaho, scored first with 95 points in the fifth educational dairy products scoring contest conducted by the extension department at the University of Idaho. The samples of both cheese and butter entered in this contest were scored by W. F. Gerholtz, assistant dairy manufacturing specialist, and F. B. Cammack, field dairyman. The final scoring will be held during fair week, after which the prize winners and prizes offered will be announced. Following is the report on the results of the fifth contest:

The cheese samples exhibited were of a higher grade than those sent to the two previous contests. The final scores for most of these were very high. The Wendell cheese was of excellent quality being uniformly good in flavor and texture.

Two of the samples fell down in flavor while two others had poor texture.

The following is the score of those totaling over 90:

Wendell Cooperative, Wendell, Idaho, 95; Clover Leaf, Bush, Idaho, 93-100; Kistler, Georgetown, Idaho, 93-100; Nelson Dick, Driggs, Idaho, 93-100; Mutual, Paris, Idaho, 93.

The butter samples also showed improvement. The worst defects in flavor were old cream and curdy, while cloudy brine or leaky were a criticism given. The following exhibited better scoring above 90:

Farmers Cooperative, Fayette, Idaho, 93-100; Fond d'Oreille Cry, Sandpoint, Idaho, 93; Farms Dairy Producers, Parma, Idaho, 92-100; Boise Cooperative, Boise, Idaho, 92.

CURRY SCHOOL OPENS WITH 76 ON ROLLS

Four Wagons are Used to Carry Pupils of District to and From Studies

(Special to The News)

CURRY.—Curry school commenced Monday, September 8, with an enrollment of 76 scholars, with the following teachers in charge: Mrs. G. Patton and Gail Myster of Filer, and Mary Howe of Twin Falls. This district has four wagons, the drivers being Ruth Harvey, J. N. Hoffmann, Mrs. O. Bremer and Harry Schmidt.

Mrs. Herbert Menke of Parlatto is visiting her sister, Mrs. Darwin Harvey.

F. E. Howard and wife, old time Iowa friends of the Bonwells, spent Monday and Tuesday at Curry. Mr. Howard is well known in Twin Falls as he has been a teacher in the Albion Normal for the past seven years.

Miss Helen Houston will begin her last year's work in Idaho State college September 16. She is taking a special training in mathematics.

Mrs. Elsie Warrington's daughter, Mrs. Williams, from Null, is making her home with her people at Curry.

Mrs. Lewis Des Rosiers is on the sick list.

M. B. Gabbart has moved to Twin Falls where he has been employed in the Idaho Department store.

L. J. Hammond has moved to the Henry Miller place which was farmed last year by M. B. Gabbart.

A. C. Jesson has rented the J. B. Norris farm for another year.

A. N. Bonwell and family spent Sunday at Kimberly with E. M. Arnold and family.

Miss Ruth Warrington commenced work at Jerome September 8. She has charge of the domestic science department. The Saturday before going to Jerome she secured a call from Washington for work at home or overseas in that line of work but owing to her mother's poor health decided not to go.

MURTAUGH.—A number of Murtaugh people motored to Golden Valley Friday evening to attend the dedication of the new school building. Mrs. E. E. Stansell and Miss Blondevan Recs of Murtaugh, furnished several vocal selections.

Ellnor Crook, who is teaching at the Dixie school in the Hazelton district, and daughter, Muriel Edwards, spent the week end visiting in Murtaugh.

W. S. Vaughan has opened a cafe in the Worrell building. Mrs. Vaughan has had much experience in the hotel business and will serve good, home cooked meals and short orders.

Epworth League will be held at the M. E. church next Sunday evening at 7 o'clock and church will convene at 8 o'clock sharp instead of 8:30 as heretofore.

Thomas Costello Claims Property Extending to Water's Edge Is Invaded

Shut has been instituted in district court here by Thomas Costello, through his attorneys, Walters & Holgin, against Thomas Lyle and two brothers of the defendant, whom he accuses of trespassing upon certain lands which he claims are appurtenant to his farm northwest of Twin Falls. The Costello farm is situated at the edge of Snake river canyon and the premises in dispute are situated on a bench in the canyon. The plaintiff claims that his property holdings extend to the edge of the waters of Snake river.

The Branch House Man

This is one of the Swift & Company Branch House Men.

They are all pretty much alike in the way they feel toward their work—and that is what this ad is about.

They know that most people couldn't get such good meat promptly and in good condition if it weren't for the branch houses of which they are in charge.

They know that the branch house is one of the most important links in the chain of preparing and distributing meat for a nation.

They know that Swift & Company must have its branch houses run at the highest notch of usefulness; that even a Swift & Company branch house won't run itself, and that it is up to the branch house man to run it properly.

Any branch house man who doesn't see his work in this light is transferred to some other place with Swift & Company where he is better adapted.

They are picked men, these branch house men. Every time you sit down to a steak or chop, or cut of roast, you can give a grateful thought to the whole crew of them.

And remember, in a general way, that everything that makes life smoother and more convenient for you, is the result of the thoughtfulness and effort of a lot of people of whom you have never heard.

Pioneer Stockman Brings Back Bride

Miss Estelle Champlin and James B. Steele Arranged in St. Louis

James B. Steele, pioneer southern Idaho cattlemen, returned Saturday to Twin Falls with his bride who was Miss Estelle Champlin of Little Rock, Arkansas.

The bride is a native of Kentucky, but for several years past has lived with her mother at Little Rock.

Mr. Steele has been for 25 years a resident of southern Idaho, owning large livestock and property interests.

In October, 1916, the Metropolitan Magazine offered this paragraph as a part of an interview with the Detroit manufacturer.

I don't believe in boundaries. I think nations are silly, and flags are silly too.

These things would appear to put Mr. Ford in the position of an unknown quantity.

In 1916, in an impassioned burst of eloquence Mr. Ford declared that of the word "murderer" should be embroidered on the breast of every soldier and every naval sailor.

However, it is passing strange that a man as prominently successful in industrial pursuits as Mr. Ford should be making a mental twist so utterly at variance with the ideas of 99 per cent of the rest of the men and women of America.

PLAN IMPROVEMENTS AT ARTESIAN NATATORIUM

New and Larger Pool and Ball Room to be Added to Attraction of Popular Resort

F. J. Marshall, who has been manager this year of the artesian at Artesian City owned by his son-in-law, P. M. Simpson, in Twin Falls, Wednesday, showed features of the plans for adding to the attractions of this popular resort.

Between the two pools there will be situated, according to Mr. Marshall, a dance hall with a 24x38 foot floor, which is a new and larger pool, 50x20 feet, which also will be covered with a substantial building.

The water for the natatorium pools is piped from artesian fountains of hot water.

The cotton amendment proposed by Representative McNair of Pennsylvania would put a tax of \$25 on every bale of cotton sold.

Congressmen from the big manufacturing states declare that while profits of steel men and manufacturers have been limited during the war, the cotton boll and its hold is paying only a small fraction of the war taxes, while it is reaping huge profits from war conditions.

Southern members declare cotton is the most important of war crops and before the war and that the crop is threatened with a short crop this year.

Will Fight to Finish

While expectations today were that the cotton tax will be defeated, southern members were ready to battle every inch in fear that a combination of Republicans and northern Democrats may attempt to pass the bill.

HOUSE FACING HOT FIGHT ON REVENUE BILL

Cotton and Child Labor Amendments Likely to Arouse Storm of Opposition By Members From South

WAYS AND MEANS DRAFT. TO BE BITTERLY FOUGHT

Many Who Favor Child Labor Clause Question Propriety of Attaching it to the War Finance Measure

WASHINGTON, Sept. 10.—The first important effort to clean the way and means committee draft of the revenue bill was under way today with cotton and child labor tax amendments in the house.

Despite the threat of prolonged debate, the amendments met legislative action later in the day of a third amendment providing for a congressional committee to supervise war expenditures, war leaders hoped to rush the big tax bill to a vote before adjournment.

The child labor amendment, sponsored by Representative Green, Iowa, would put a tax of five per cent on the products of any mine, quarry, cannery or factory employing children under 14 or working children between 14 and 16 more than 8 hours a day or six days a week or using children between these ages for night work.

The amendment is designed to replace the federal child labor law recently held unconstitutional by the supreme court, and like the cotton tax amendment, will likely meet opposition from southern congressmen.

Its passage as a part of a revenue act is regarded as doubtful even by congressmen who favor it.

BABY DROWNS IN WATERS OF DITCH

Body of Two-Year-Old Daughter of R. L. Fox Is Found in Stream

(Special to The News)

HAZELTON.—Funeral services were held Wednesday afternoon here for Lettie Fox, two years old daughter of Mr. and Mrs. Robert L. Fox, residing one mile east of Hazelton, who was drowned Tuesday afternoon in an irrigation ditch within 200 yards of the family home. The child was missed by the mother at about 2 o'clock in the afternoon. The baby's footprints were traced to a bridge across the ditch. Water was turned out of the ditch and search was instituted by the family and neighbors. The body was found by a ditcher at about 5 o'clock in the afternoon, lodged against a logjam in the ditch, about two miles from the bridge where the child had fallen into the stream.

Dr. C. C. Bahblidge, pastor of the Hazelton Presbyterian church, conducted the funeral services, and interment was in the Twin Falls cemetery.

MORAL EFFECT EXTRAORDINARY

Every Branch of Military Service Inspired to New Deeds of Daring By Victory

WITH THE AMERICANS ON THE MESE, Sept. 10.—"Men, supplies and equipment now reaching the front are better than ever before. The St. Mihiel operations left the American forces in this region as strong as before the attack. In addition, it gave experience to some green troops and brought new confidence and aggressive spirit to the entire army."

Against this, the Germans suffered losses of valuable ground, more than a full division in prisoners, quantities of supplies and sustained a severe loss to their constantly sinking morale.

The army regards its artillery, infantry, machine guns, etc., as speaking the same language the enemy understands.

now slowly progressing toward Gorze to the west of the Mad river. Fort Kron Prinz will not come under the direct bombardment of the destructive mortar guns until the Americans are near, if not actually at, the German border.

The long range shells which can be sent into Fort Kron Prinz from the present American positions, ten miles away, have not the enormous explosive power necessary to crumple the structure. It will be necessary, therefore, for the Americans to push forward some 5 miles or more before they can secure maximum results from an intensive bombardment. The Hindenburg line itself is well within the necessary range to give the American guns a full opportunity for their dead-ly work.

Is Important Point

Fort Kron Prinz from its hill commands the most important influence upon the western terrain bordering the Moselle to the point where the Moselle touches French territory. For this reason it must be put out of action before the Americans can advance along the Moselle more than three or four miles beyond their present positions on the west bank. The allies have not demolished a single modern, permanent German fortification along the west bank since the war began. The Americans may be destined to win that honor for the allied cause at Fort Kron Prinz.

about by the movement of heavy traffic of similar kinds in world traffic. By co-ordinating all lines a great saving has been made in the transportation of railroad material, Smith asserts. In this report shows physical connections which have been established at various points have played an important part.

Use Inland Waterways

The last phase of government operations touched on by the report and by which it is claimed greater speed in movement of freight was accomplished, is the utilization of inland waterways. This co-ordination between the rail and water lines has permitted the dispatching of thousands of freight cars for general use from one to ten days sooner than if the shipments had been continued by rail.

This Is Styleplus Week Throughout the Nation

See our exhibit. This is the time for showing men what the Styleplus idea means—

- for showing why the makers, by concentrating a great volume on a few grades, get down costs.
- how this makes it possible to have a known price policy.
- how each grade has to be exceptional quality to meet competition the nation over.
- how these clothes excel in appearance because the models are designed by a great fashion artist.

Styleplus Clothes are exceptional clothing values. They have always been made under the policy of concentration—the policy now being practised in nearly every industry as a win-the-war measure.

Get the Styleplus habit. You will enjoy the clothes and make your dollars do their utmost duty.

A number of machine guns were taken. "In the successful operation this division and the first Austrian division now hold the outpost positions of the Hindenburg line on the whole of their respective fronts."

Yesterday afternoon a violent bombardment by a number of guns was opened by the enemy on the northern portion of the battle front between Gouzenourt and the Aras-Cambrai road, a front of about eleven miles," the statement said.

"Telephone communication with our division in the line was rapidly cut by the intensity of the hostile fire."

German Infantry Attack

At 5 p. m. German infantry attacked on a wide front in Trecault, three miles north of Gouzenourt, northward. At all points they were completely repulsed with great loss by the guards and the third and thirty-seventh divisions."

At Gauche wood, repeated enemy attacks were made yesterday afternoon and evening. In each case they were repulsed.

A successful local operation carried out yesterday afternoon improved our positions south and east of Ploegsteert."

There was severe fighting east of Rossey, three and a half miles west of Le Catelot, and Ephy, two miles northeast of Rossey. We are in possession of Pemprie, adjoining Rossey on the southeast.

"We have beaten off determined counter attacks in the Villers-Gadain sector, a mile and a half southeast of Gouzenourt. The seventh and thirty-seventh divisions with great loss by the enemy captured Gauche wood, just west of Villers-Gadain, which the enemy had regained by a counter attack. Later in the afternoon a strong counter-attack pushed with heavy loss."

by the patrols, are being mopped up by the slower moving main body.

Constant Contact Maintained

Constant contact is maintained with the hoche rear guards which have now been cleared from the territory below the Hindenburg line. The enemy has now taken up his main positions along the line on the whole front from the Meuse and the Moselle. An American patrol was reported today to have penetrated 200 yards beyond Pagny-sur-Moselle, two miles north of Van-Dyck and just across the river from the German frontier.

A certain American division has now established a record of capturing 600 prisoners. Additional prisoners are constantly being brought in.

Huns Well Fed

The Germans in this region apparently were well fed. Quantities of candy, cheese and other delicacies have been found in enemy dugouts.

The Germans are now dropping propaganda over the American lines from toy balloons to Americans of German ancestry to join them and asserting they will find greater liberty and opportunities in the "fatherland." One propaganda sheet asserts that President Wilson is more English than American and pictures Germany as defending herself against the world. The effect is laughable, as the German-Americans are the most bitter toward the enemy of any men in our army.

Artillery Duels Violent

A captured German wrote a note which he asked to be sent to the German lines, declaring the stories told there regarding Americans slaughtering prisoners are untrue. He said many of his comrades are tired of fighting and would surrender but for fear of being killed. It is evident from this that the German command is conducting propaganda among its own troops in an effort to instill the fear of capture, thus hoping to bolster up their weakening morale.

Artillery duels and riding continues in the Vosges sector. One American patrol penetrated the German lines a great distance and brought back a number of prisoners.

Austria has attempted to clarify the Catholic conference by invoking the pope's intervention, the Secolo says, but the great majority of Catholics favor a peace according to justice.

The People Italia refuses to publish the note to the pope, stating the only way to hasten peace is to "bite hard like Foch."

ASKS AGGRESSIVE CAMPAIGN IN THE SALE OF W. S. S.

Director A. Guilbert Says County Is Likely to Fall Short of Quota By Wide Margin, Unless Action Is Taken

Twin Falls county is likely to fall short by \$305,675, or 25 per cent, of fulfilling its War Savings Stamp quota this year, according to the statement of A. Guilbert, county War Savings Stamp director, before the council of defense in an argument for provision for a vigorous and persistent campaign to make good the deficiency.

Up to the month of June, Mr. Guilbert stated, the investments in War Savings Stamps in this county had reached the total of \$135,170. In the month of June of county-wide campaign was waged to secure the signing of individual pledges to purchase these securities, with the result that the investment of \$259,440 additional was pledged, making the total for the county \$394,610. The quota is \$600,000. Mr. Guilbert estimates that without a campaign such as he proposes, there will be a loss of 10 per cent in fulfillment on the pledges.

He asks that provision be made for the opening of a centrally located War Savings Stamps campaign headquarters for the county, to be maintained until the end of the campaign on January 1, and that a secretary be employed.

Mr. Guilbert announced that he had completed arrangements for conducting a War Savings Stamps booth and sale at Filer among Twin Falls county fair visitors.

SOLDIER WANTS RECEIVER TO CLOSE SHEEP DEAL

Edward Henderson Believes Woolles Will Die of Old Age Before His Return

The appointment of a receiver to complete for him the details of a transaction in respect to his purchase of sheep—a matter which is now involved in litigation—is asked by Edward Henderson, a member of the army at a technical training camp at Fort Omaha, Nebraska, in an action brought by him through his attorney, P. E. Hackman, in district court here. The defendant named in the complaint are H. O. Brown and H. E. Brown, doing business as Brown Brothers, who own to Henderson the sheep in question and who hold a mortgage in the sum of \$12,000 against them; the First National bank of Filer which is alleged to have an interest in the Brown Brothers' mortgage; and William Chase, who also holds a mortgage in the sum of \$1,000 secured by the sheep in question.

Henderson sets out in his complaint, that he expects to be called soon into foreign service; that already 250 or 300 of the sheep in question have died of old age and that it is likely that all that 25 of the remainder are so aged that they cannot be held until his return from the war.

In the litigation involving the purchase of the sheep Henderson charges that the Brown Brothers used fraud and deception.

Responsibility for Good Service

IT IS tremendously important in these days of stress that the public be given good telephone service. It is vital to the Government's progress.

The responsibility for telephone facilities rests with the company; but the public has a partnership in the responsibility for good telephone service.

There are three human factors involved in a telephone call, represented by the person calling, the operator and the person called. The quality of the service depends upon the cooperation of all three.

The operator can make the connection but no words can be heard at one end of the line if they are not properly spoken into the transmitter at the other end of the line; if they are not spoken distinctly to an attentive listener.

The public can serve the service by answering promptly, speaking distinctly into the transmitter, and listening attentively.

Does Pershing Speak for You?

"The German army can be beaten; the German army will be beaten; the German army must be beaten."

Pershing counted on every man, woman and child in America to back him up when he said that—back him up with their souls, their flesh, their pocketbooks—to the last drop of blood, to the last dollar.

Our young men are backing him with their blood. Every one of us at home must back him with our dollars—our last dollars—our future dollars.

NOTICE TO CONTRACTORS
Notice is hereby given that the Mayor and Council of the City of Twin Falls, Idaho, on Monday, the 23rd day of September, 1918, at the hour of eight o'clock in the evening of said day at the City Clerk's office in the Perrine Hotel building, will receive and open sealed bids and proposals and award a contract to the lowest and best bidder complying with the provisions of this notice for the construction and completion of all cement sidewalks, authorized by all cement sidewalks, authorized to be constructed by and the location of which are specified in Ordinance No. 236 of said City of Twin Falls and which ordinance is found on page 225, book 4, of the council proceedings of said city, and which ordinance creates Local Sidewalk Improvement District No. 32 of the said City of Twin Falls, and also for the construction of sidewalks described and mentioned in said Ordinance No. 236, said sidewalks to be constructed along the property front or side as described in said Ordinance No. 236 and upon the terms and in the manner specified in the plans and specifications for a two course sidewalk, as determined by the City Engineer and now on file in the office of the City Clerk of the City of Twin Falls.

Proposals showing the estimated amount of work to be done and the class thereof can be obtained by applying at the office of the City Clerk of the said City of Twin Falls.

The said work will be paid for as follows:

Ninety per cent. of the cost of construction, based upon the City Engineer's estimate thereof, found to be correct and due at the end of each calendar month; the whole thereof within sixty days after the completion of the whole of the said work and the acceptance thereof shall be evidence by the certificate of the City Engineer that the said work is completed in all ways in compliance with the terms and conditions of the contract. The payment of the construction of the sidewalks shall be made in warrants of the City of Twin Falls, Idaho, issued to the contractor, and issued against the special fund created by the assessing the property benefited by the construction of the said sidewalks, and which warrants shall in no way pledge the credit of the City of Twin Falls, Idaho, for the payment of the said warrants.

The cost for the construction of sidewalk intersections and cross walks will be paid in cash at the times heretofore mentioned.

There must accompany each bid a certified check upon some bank located in the City of Twin Falls, Idaho, drawn to the order of the City of Twin Falls, Idaho, in an amount equal to ten per cent of the amount bid; said check to be forfeited to the City of Twin Falls, Idaho, in the event that the successful bidder does not enter into a contract for the performance of the work.

A satisfactory surety bond in an amount equal to sixty per cent of the amount of the contract conditioned for the faithful performance of the terms and conditions of the contract to be performed by the contractor, must be given to the City of Twin Falls, Idaho by a successful bidder at the time of the execution and delivery of the contract.

The Mayor and Council reserve the right to reject any and all bids.

Dated September 10, 1918.

W. A. MINNICK,
City Clerk of the City of Twin Falls, Idaho.

CALLS TO PROTEST AND IS ARRESTED

Man Accused of Theft of Furnishings Removed Under Search Warrant

Calling at the prosecuting attorney's office Wednesday to protest against the removal under search warrant of the household furnishings from his home at 342 Fourth avenue north during his absence, James Rateliff found himself detained under a criminal warrant for his arrest...

According to the prosecuting attorney's office, Rateliff resided for a time at a household adjoining that of the Wilsons, and during their absence, he made himself the possessor of their household goods...

HUNG AND ALLIES IN TERRIFIC GLASH

(Continued From Page One) The advance started in depth from 2 1/2 miles to 4 miles. Nowhere did it fail to clean up the Hindenburg out-post line.

At some points the Germans fought fiercely, such as at Leveghout, Belgium, where many prisoners were taken. While the tanks played an important part in the fighting, lunged English and Australian troops mostly overcame the wire entanglements and machine guns...

They carried the Germans off their feet by the very dash of their attack. The exploit was remarkable because among five divisions opposite their lesser number was one entirely fresh, the 10th, identified prisoners represent at least 22 battalions. These men in the cages are multi-colored and weary but cheerful. All are husky and well-fed. Thirteen lieutenants in one group, when questioned, were surprised at the news of Austria's peace proposals. They unanimously declared it was a "good idea" and said there surely should be some way of getting to other. Reminded of the Russian treaty, they said that Russia is "old hat, Germany is acting in Russia's best interests."

Officers Change Minds The lieutenants were the first prisoners so far taken on this front who had heard of the result of the St. Hillier attack, though they knew nothing of the details. They admitted that the Germans underestimated the Americans, holding the opinion that the "Yanks" are good patrol fighters, but had not yet learned how to handle a big attack. The Germans threw in great masses about Havrincourt and as far south as Gueuche wood, southeast of Gourcourt, in front of the Hindenburg line. As a result General Byng gathered by 12 officers and 1,438 men to aid General Rawlinson's 5,399 prisoners. He also took the complete battery of eleven German 77's including crews and horses.

Reputed Time and Again The first counter attack came at Gueuche wood. Enemy masses came pouring out of Villers Gueulain after an artillery barrage splitting the wood and holding it for a brief time before they were driven back. They again assayed to attack and again were repulsed. In the meantime, southeast of Havrincourt six enemy divisions came from behind the Hindenburg line and attempted to crush the British, who had advanced there earlier in the day. Forty batteries participated in the enemy's preliminary bombardment. The attack was broken up with heavy losses.

Take Glory Avenue Northeast of Havrincourt, beyond the canal and the main defenses where the British had installed themselves a few days ago, the Germans also attacked, gaining the well remembered sunken canal and, the long trench known as "Cherch avenue." But it was for only a brief period as the British soon closed them and were holding safely at the last reports.

AERONAUT FOR FAIR SECURED

Secretary J. M. Markel Promises Plenty of Thrills at County Fair Show

Twin Falls county fair directors at October 14 are assured of plenty of thrills in the balloon ascensions and a variety of parachute drops, according to word received today from Secretary J. M. Markel, announcing that negotiations with Barnhill for this attraction had been closed.

Two new buildings for fair purposes are completed and others are to be put up next week, Mr. Markel says. There will be no collecting seat out for exhibits this year, the secretary advises, and all exhibits must be brought or sent to the secretary's office. Entrance blanks and premium lists are to be had for the asking.

SHERIFF TAKES BACK STAR FROM HIS DEPUTY

J. L. Young, toll housekeeper at Bliss Lake, quit his job as deputy sheriff of Sheriff Kennell of the Star last week as a deputy sheriff, and is to be tried before Justice of the Peace W. J. Smith here at 10 o'clock Friday morning on a charge of disturbing the peace. The charge against Young is supported by Prosecuting Attorney Stephan at the instance of a party of hunters, including Probate Judge O. P. Davall, County Assessor George W. Wilson, Deputy Sheriff John M. Beck, and A. Barrett, local manager of the Studebaker Brothers company, who declare that Young detained them at the toll gate for nearly one-half hour, meantime cursing and swearing at them, about midnight Thursday. Young pleaded not guilty to the charge when arraigned Wednesday.

FULLILLS WISH TO SERVE AT FRONT

Sergeant W. B. McCracken Receives Orders to Report for Duty

Fulfillment of his wish for assignment to active duty in foreign service came to Sergeant William B. McCracken, here June 23, 1917, in charge of the local marine corps recruiting station, who has been ordered to report for duty at Mare Island navy yard, California, and who will leave here Tuesday morning for that purpose. He will be relieved here by Sergeant Ashby, of the Salt Lake station, who arrived here last night. Mrs. McCracken, who was Miss Maud Egan, who became the wife of Sergeant McCracken in June of this year, will accompany him as far as Salt Lake, where she will remain for some time before returning to Twin Falls.

During the period of his duty as recruiting officer here, more than 200 young men of the county have entered the marine corps through Sergeant McCracken's office. He is regarded as one of the most capable recruiting officers in the marine corps service, and has been assigned to duty temporarily in this capacity to other districts than his own. He also has taken an active part in community affairs, especially those having a relation to the military, serving as a member of the council of defense committees to arrange fire drill demonstrations for recruits containing here, volunteering his services in conducting physical drills and exercises for business men as well as for school boys, and in other ways. He has been assigned to duty with the affairs of the community.

Sergeant McCracken has been a member of the marine corps since 1912, when he called from Rupert, where his mother, Mrs. Maggie McCracken, still resides. He has seen active service in the Philippine Islands, China, Japan and the South Sea Islands, and came here almost immediately at the end of a year's service in the Dominican revolution.

It is an interesting coincidence that Sergeant McCracken and Sergeant Ashby, who relieves him here, were members of the same company of marines on duty in the Philippine Islands in 1913.

How this clothing business can serve IT'S only natural that every business man should want to keep his business going; it's important that he should. But there's a far greater consideration than just selling. This war has got to be won, and in this business of ours, we feel that any clothes selling that stands in the way of that outcome is decidedly unpatriotic. That's why we say "take care of the clothes you have" make them wear longer. That's why we say "when you do need clothes, get only those that last long; those that save resources for the country because you buy less often." In Hart Schaffner & Marx clothes we feel that we're offering the greatest clothes saving because they give the most month by month wear for every dollar invested. Eldridge Clothing Co. The home of Hart Schaffner & Marx clothes.
