Penetration in Places Reaches 15 and 17 Miles—Greeks and British Advancing on 10 Mile Front

BRITISH RETAIN GAINS ON HINDENBURG LINE

Prisoners Taken by British Now Exceed 10,000—Many Captured as Counter Assaults Are Repulsed

LONDON, Sept. 20.—Allied troops are advancing on a 35 mile front in Macedonia, according to dispatches received from the Salonika battlefield today.

The Serbians have crossed the Czerna river between Rasinbey and Godiyah, capturing Mrewhoko. The fighting front has been widened until it extends 25 miles east of the Czerna, where the allies have advanced between 15 and 17 miles. Near Lake Doiran, the British and Greeks are moving forward on a 10 mile front.

The British official communication from Salonika declares that the Bulgarian trench system in the Lake Doiran region has been captured and the city of Doiran is now safely held.

British Cling to Their Claims

By RAYMOND CLAPPER WITH THE BRITISH ARMIES IN FRANCE, Sept. 20.—The British have made the extraordinary successes of the past two days complete.

German who held the outposts of the Hindenburg line in spots between Cambrai and St. Quentin have been cleared out, while in other places the British have recaptured outposts' positions, temporarily recaptured by the Germans.

This is especially true on each side of the Donny, a mile and a quarter southwest of the important town of Letelotte, where the dry bed of the St. Quentin canal running just east of the village forms one of the main defenses of the Hindenburg line.

Fighting Most Sanguinary

LONDON, Sept. 20.—The Germans' desperate stand on the Hindenburg line between Cambrai and St. Quentin is developing some of the most sanguinary fighting of the war.

The whole region from a point northwest of Cambrai to southward of St. Quentin has been the scene of an alternating series of attacks and counter-attacks.

VON HINDENBURG FORGED TO SPLIT RESERVE FORCES

Threatening Breaks at Several Vital Points Cause German Chief of Staff Anxious—Offensive Power Crushed

NEXT FEW WEEKS MAY MARK BEGINNING OF END

French and British Slowly Move to Surround St. Quentin—Famous Defense System in Danger of Crumbling

By WILLIAM PHILLIP BING PARIS, Sept. 20.—Von Hindenburg has begun to hit back.

With his main line defenses everywhere menaced and facing a possible retreat far more disastrous than the first, he is being forced to sacrifice part of his precious reserves in an effort to save himself. The latest news in this regard is that the German armies have everywhere been repulsed in their counter attacks, while piles of dead bodies lie before the British lines. Between Cambrai and St. Quentin.

Encircling St. Quentin

Meantime General Byng, Rawlinson and Delany are encircling St. Quentin, one of the most important pivotal points of the Hindenburg line which is exactly what Hindenburg had hoped to prevent. With the regularity of the swing of a pendulum, Marshal Foch is hitting the Germans hard all along the line. The news are reported mainly digging themselves in from the sea to Swindon.

Not knowing where the next blow will fall, they are expecting it to fall everywhere. Fearing for Lille and Douai, Von Hindenburg has been forced to concentrate a part of his available reserves there. Douai and St. Quentin are threatened so another mass of men is required in this region.

General Mangin's menace toward the keystone positions northeast of Rheims necessitates a third batch of reserves.

Hum Outlook Growing Worse

General Forth's drive towards Metz and the new forces to destroy his self calls for a fourth group while the fear that the allies will strike toward the Rhine through Alsace is keeping the hum worried there. Thus Marshal Foch's strategy is to split up the Hindenburg's forces until it is impractical if the German leader will be able to put much punch into a blow any where, even if he should have more troops in reserve.

It is generally believed here that the next few weeks ought to write history.

MARINES MAY ENLIST MEN

New Recruiting Sergeant Predicts Early Reopening of Station to Registrants

Quitting from the current issue of the Army and Navy Journal, Sergeant B. F. Ashby, who arrived here Thursday to take charge of the local marine corps recruiting station, stated that it is apparent that the marine corps and the navy will be within the next three or four weeks respond to enlistment of recruits from among the men who registered September 12 and previously under the selective military draft regulations. His quotation from the Army and Navy Journal was that beginning October 1, provision would be made for a period of four months for the enlistment each month of 15,000 men in the navy and 5,000 men in the marine corps.

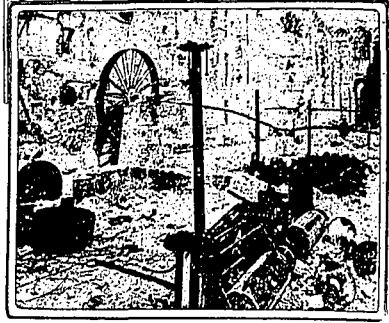

Sergeant Ashby returns from recruiting duty here Sergeant William R. McCracken, who has been in charge of the local marine corps recruiting station since he opened it on June 23, 1917, and who left Friday morning to report at Mare Island navy yard, California, for active service with the fighting forces. Sergeant Ashby and Sergeant McCracken were members of the same company of marines stationed in the Philippine Islands in 1912. Sergeant Ashby also was one of the United States marines who landed at Vera Cruz, Mexico, in 1914, when war with Mexico seemed imminent. He wears the medal of an expert rifleman.

French Sugar Mills Destroyed

France must import sugar, today, most of it from this side of the ocean, because the largest portion of French sugar beet land is in German hands. As a result, the French people have been placed on a sugar ration of about 18 pounds a year for domestic use; a pound and a half a month. This photograph shows how the German troops destroyed French sugar mills, most of them from this side of the ocean. Thanks to the French rationing system the annual consumption has been cut to 600,000 tons, according to reports reaching the United States Food Administration. Before the war France had an average sugar crop of about 750,000 tons of sugar and had some left over for export.

SAFETY WINS FOR LOWER CLASSMEN

Sophomores Defeat Juniors on Gridiron and Will Play Seniors for Title

A safety counting three points was the only score made in the football game played Wednesday on the Lincoln school field between the Sophomore and Junior class teams, and that was the score which gave the victory to the lower classmen. By reason of its victory, the Sophomore eleven is pitted against the Senior class team in a game to determine the high school inter-scholastic championship which is to be played Friday afternoon on the Lincoln school field. The organization of the varsity team is to be effected early next week and regular practices for a series of games against the Buhl, Burley, Rupert and other high school teams is to be instituted at once. The Freshmen who were to have entered a team in the contest against the Sophomores eleven Wednesday evening, did not qualify and the match for the Sophomores against the Juniors was arranged instead.

Line-Up for Game. Following was the line-up for the Sophomore-Junior game: Sophomores: Babcock, Brown, Foss, Porterfield, Husley, DeRubeaux, King, Taylor, Thomas, Wilkinson, Woods, Shade, Yechem, Hasseberg, Epler, Schwarz, Philpps, Denton, Stewart, Micklewait, Carter, King.

Players on Seniors' Team. The probable line-up of the Seniors' eleven for the game against the Sophomores this afternoon is as follows: center, Cole; guards, Reed and Fitzsimmons; tackles, Wyland and N. Parsons; ends, R. Parsons and Swift; quarter, Neumann; right half, Edwards; left half, Flix; full back, Glasgow.

SPUDS CROPS YIELDING HEAVY AND EARLIER

R. H. Young Discusses Potato Prospects—Digging Tubers Making 270 Sacks

Not only are potato crops in the Twin Falls district maturing three and four weeks earlier this year than last, but the yields per acre, on account of the cool nights of the past month, promise to be exceptionally large, according to R. H. Young, local manager for the Bayle Commission company, who has begun to harvest the crop from his own 60 acre potato field four and one-half miles northwest of Twin Falls. The crop already dug has yielded 270 sacks per acre, Mr. Young says. He expects that other portions of the field will return a yield of 500 sacks per acre.

A. Hamilton, owner of a 75 acre potato field adjoining that of Mr. Young is digging a crop now yielding at the rate of 300 sacks per acre. Advantage in the earlier maturing of potatoes is seen by Mr. Young in that fact that a considerable portion of the crop will be marketed and out of the way before the bulk of the apple crop comes in with its claim for care.

ALL QUESTION OF INCREASED TAXES SETTLED

McAdoo Declares That \$8,000,000,000 Will Be the Limit to Be Raised During This Fiscal Year

COMING CONDITIONS WILL DETERMINE FUTURE NEEDS

Everything in Readiness for Liberty Bond Campaign—Amount Will Probably Be About \$8,000,000,000

WASHINGTON, Sept. 20.—Secretary of the Treasury McAdoo today put the question on fears that the nation must bear a greater tax than \$8,000,000,000 for the fiscal year to carry on the war. In an official announcement issued as congressional leaders were floundering in confusion as to how best to meet the added \$7,000,000,000 demanded this week by the war department, McAdoo declared "it would be unwise to go further in taxation at the present time."

"Conditions which might develop in the future," he added, "will determine the question of further increase in taxation. For the present fiscal year it is our plan to ask for \$8,000,000,000 in taxes."

McAdoo probably will announce the amount of the Fourth Liberty Loan this week. Final determination of the amount may be made before congress disposes of the pending bill to extend tax exemptions on Liberty Bonds. After a conference today with his treasury advisers, Secretary McAdoo said there being four loans this fiscal year he would ask congressional leaders for

Small amounts of bonds of the Fourth loan will be in the hands of the district committees on the opening day of the campaign. The bureau of engraving and printing is ready to begin printing out finished bonds within an hour after a decision on the terms is reached. McAdoo's statement today reaffirms the position he took before the house ways and means committee, when he said that as the program was outlined, three loans would be necessary to raise funds sufficient to meet the outlay. May Be Four Loans. Treasury officials, however, today were speculating on the probability of the Idaho State College at Albion, where she will complete her four year course. It was listed today that the size of course.

The Fighting Arm of Industry!

OPPOSED to the "matted fist" is the mighty arm of industry. Behind the Yankee machine-gunner, the man bucking a scolding riveter, the back of the belching blast-furnace, the roaring din of high-powered industry at peak load, the food supply, the farmer at the plow, —STANDS TRANSPORTATION! Underlying the whole scheme, the carriers must bear the burden of the piling workers. Railways, waterways strain and tug at the load. Both are primarily and directly dependent upon the highways.

The present uncertain condition of our highways makes it impossible for them to meet the burdens which they should bear. Their neglect is serious and because of it we are paying a heavy penalty. It is just as necessary to build permanent highways as it is to increase the efficiency of our railways and waterways. No ONE of these great transportation forces is effective without the aid of the others. ALL are allied in a common cause—the winning of the war and the meeting of conditions which will face our country afterwards.

German, talked with the sentry, gradu-
ally closing closer. Then he jumped
the fence. They continued and met
another sentry. He dove into a dugout.
The Americans battered down the door,
capturing the sentry and three other
Germans. The patrol returned with its
prisoners and important papers.

"Because it was getting daylight, it was
a little dangerous to continue on
into Germany," it was explained. Not
a single shot was fired during the whole
operation.

Women Follow Infantry
Just before the attack began one
general called on 11 Salvation army
doughnut makers and four Y. W. C. A.
women to organize auxiliary hospital
units. The girls, working directly be-
hind the line, followed the infantry
through and moved up past the front
lines, giving the wounded first aid.

One American outfit captured an en-
tire German regimental band.
They made it march back playing the
French war song "The Mallette,"
"Moss-Mates."

Top Up in German Duds
When they finally turned the Boches
over to the prison chief they demanded
a receipt for "one Saengerland com-
plete." Infantry returning from 150
front lines present a grotesque sight.
They wear German helmets, stove pipe
hats and iron crosses and carry German

here based on the alleged fact that
thousands of draft evaders had been
given jobs at Hog Island. Plans gave
the committee all the facts he had on
this matter. The committee therefore
strengthened its plans to investigate for-
mally.

Grave Charges Made
According to charges laid before com-
mittee members, thousands of the sixty
thousand employees of the ward who
are exempted are ball players, actors,
batters, pugilists and other workers in
non-essential industries. The com-
mittee was told that some of "these
ship builders" appeared at work each
morning wearing gloves and flowers
in their button holes. Some of them
are listed as "chick senators" whose
chief duties, according to the charges,
consist in getting friends jobs where
they will be safe from the draft.
Piez told the committee that the pro-
posed martial government that exempted
shipyard workers who absent them-
selves from work more than three days
a month without a good reason for
their exemption.

ASKS DAMAGES IN HEAVY SUM

D. M. Denton, Plaintiff in Ac-
tion Alleging Injury to
Character

Crediting D. H. Moorman of Twin
Falls, president of the Miller-Twin
Falls "Cant" company, with untrue
statements alleged to reflect upon his
reputation, D. M. Denton, real estate
dealer and owner of the Twin Falls
Times, through his attorney, T. K.
Hackman, this morning filed an action
in district court here to recover dam-
ages in the sum of \$20,000 from Moor-
man.

It is alleged in the complaint Moor-
man, on September 14, 1918, in the pre-
sence of Fred Keller and other witness-
es in Denton's office, said with respect
to Denton, "You are a d— thief.
You are a d— liar. You are a
d— test thief and crook in this town
and everybody knows it. If I had a gun
I would kill you." Whereby the plain-
tiff was injured in his reputation to the
damage in the sum of \$10,000.

For his second count, on which he
takes an additional \$10,000, Denton al-
leged in his complaint that Moorman
repeated the remarks above quoted on
the same day on Main street in front
of Denton's office in the presence of
Denton and "many good and worthy
persons."

ter attacks which have been carried
out with great ferocity.

Casualties Mount High
The fighting has resulted favorably
for the British and French, the com-
pany's center flows only adding to
the already staggering casualties.

Several hundred have been added
to this by the French operations on
the British right flank, west and
west southwest of St. Quentin.

Line Changes But Little
Little change was noted in the lat-
est line yesterday owing to the nature
of the fighting. The British conso-
lidated their gains northwest of St.
Quentin while the French pushed for-
ward slightly south of that place, reach-
ing the outskirts of Reims.

British troops have entered the Ma-
cedonian fighting on a big scale, strik-
ing northward in the lake Doiran re-
gion, which now forms the right flank
of the allied offensive. The French
and Serbians are pressing the fleeing
Bulgarians in the Cornay valley. They
have already captured 45 villages. The
Greeks are fighting alongside the Brit-
ish.

French Take Essigny

PARIS, Sept. 20—French troops yester-
day captured Essigny Le Grand, four
miles directly south of St. Quentin, the
war office announced today.
"In the region of St. Quentin French
troops yesterday evening captured Es-
signy-Le-Grand and took additional
prisoners," the communique said.

Repulse Counter Attacks
"In the vicinity of the night was
marked by violent enemy reactions.
Five different counter attacks were
broken up before our new positions
north of Allentant and east of Molsay
farm. The enemy suffered very heavy
losses without obtaining the least re-
sult.

"On the Aisne we occupied territory
west of Aley and northeast of Vally.
An enemy attempt to cross the
Vally at Jambury was broken up."

Freshmen Elect Officers—The Fresh- man class of the Twin Falls high school, at its organization meeting Thursday afternoon, elected the following offi- cers: President, Robert Patscher; sec- retary and treasurer, Vera Cooke. Miss Nell Jones, was chosen from among the members of the faculty as the Prishman class counsellor.

Few Prisoners Taken
"On the northern part of the battle
front we attacked last night and re-
captured Mesures. Here also the en-
emy's resistance was obstinate. The
fighting is still continuing.
"A few prisoners were taken in lo-
cal engagements in other parts of the
battle front and also north of Hulloch.
"North of Lens a hostile raiding
party was repulsed."

HUN RESERVE DWINDES TO MILLION MEN

German Military Heads Finding it Difficult to Conserve Man Power — Fighting Slows Down on Metz Front

WITH THE AMERICANS ON THE METZ FRONT, Sept. 20.—Diminishing of German effective fighting forces as a result of the allies' hammering this summer is shown in authoritative information received at American headquarters. The enemy has 87 divisions, about a million men, in reserve not counting three Austrian divisions which probably are in the Metz region. Thirteen of the divisions have had more than a month's rest and are regarded as fit for immediate service. Twenty have rested three months. Then there are the totally rested divisions which include three first class, six second class, two third class, and two fourth class. All the others were engaged in the attack July 15, or in the allied counter offensive.

Conserving Man Power

The quality of the rested reserves may be shown by the fact that they have not been used in serious fighting. The German command is making re- placements from other divisions less rested but apparently regarded as pos- sessed better fighting qualities.

Aside from artillery and aviation ac- tivity, the Metz front continues com- paratively quiet. The heaviest attack yesterday morning following an hour's bombardment but were repulsed before they reached our lines.

BACK ON THE HINDENBURG LINE

Falling back onto the Hinden- burg line, which is already under way at many points on the west- ern front, means that the third, low-spirited Hunns can make a stand there in their concrete pill box dugouts and fortified trenches.

But that Foch and his allied war- riors will blast their way through — is shown as possible by this ex-

ceptional photo of the explosion of a "whiz-bang" — (Big shells) in a first line trench and the big hole it tears through. The soldiers have all raced to the dugouts in such bombardments — shrapnel falling every "lace."

POINTS OUT REASON OF CESSATION OF RAIDS

German Flyers Too Busy at Front to Find Time to "Bomb Port of London"

LONDON, Sept. 20.—With the announcement here today that Sir Hugh Trenchard, formerly one of the air corps chiefs, had been commanding the independent air force, the Daily Ex- press pointed out that this was the real reason why London had been free from air raids for some time.

"Since the beginning of May," the newspaper said, "London has been 'raided' only once. The inference to be drawn from this seems to be that Ger- many is concentrating her air forces for the sole purpose of combatting the independent air forces, which do not al- low the Germans to take the initiative."

Propaganda Might Help, Huns Think

AMSTERDAM, Sept. 20.—The Rheinisch Westfalische Zeitung of Essen is urging that Germany adopt the method of spreading prop- aganda among allied troops now used by Allied aviators—dropping pamphlets into the lines from air- planes.

The Anglo-Americans, the news- paper comments, would not be af- fected by such methods, but the French would.

PACKING FIRST OF APPLE CROP

Earl Fruit Company Has First Carload From District Ready to Ship

Packing of the first carload of ap- ples harvested and prepared for ship- ment in the Twin Falls district this year was completed Wednesday at the local packing plant of the Earl Fruit Company of the Northwest. This com- pany also has begun packing apples at Idaho. In one day's operation at this company's local plant, 500 boxes of apples were packed, according to the statement of Superintendent L. M. Campbell. The apples being packed were of the Jonathan variety and come from the orchards of the Co-op- erative Orchard company, J. H. Day, E. L. MacVicar and W. Witch.

Defects in Spraying

The apples coming in now are of bet- ter quality than the fruit received last year, Mr. Campbell says. The excep- tions this year are in the cases where some worms are found. Mr. Campbell advises that worms in apples result fre- quently in this district in the erro- neous practice of some growers in spray- ing all varieties at one time to erad- icate worms. The proper period for spraying apples for this purpose, he believes, is dependent upon the develop- ment of fruit cells, and varies in the different varieties.

Use Mechanical Grader

The work of packing apples this year is effected more expeditiously and economically by the Earl Fruit company at its plant in Twin Falls, through the operation of a mechanical slicing device installed this fall. Through the use of this machine, the superintendent states, the labor required is reduced from one-third to one-half, and a better job is

NOTICE TO CONTRACTORS

Notice is hereby given that the Mayor
 and Council of the City of
 Twin Falls, Idaho, on Monday,
 the 22nd day of September, 1918,
 at the hour of eight o'clock,
 in the evening of said day, at the City
 Clerk's office in the Perrine Hotel
 building, will receive and open sealed
 bids and proposals and award a contract
 to the lowest and best bidder
 complying with the provisions of this
 notice for the construction and com-
 pletion of all cement sidewalks, author-
 ized to be constructed by and the lo-
 cation of which are described in Ordinance
 No. 236 of the said City of Twin
 Falls and which ordinance is found on
 page 225, book 4, of the council pro-
 ceedings of said city, and which ordi-

Proposals showing the estimated
 amount of work to be done and the
 class thereof can be obtained by ap-
 plying at the office of the City Clerk
 of the said City of Twin Falls.

The said work will be paid for as
 follows:

Ninety per cent of the cost of con-
 struction, based upon the City Engi-
 neer's estimate thereof, found to be
 correct and at the end of each cal-
 endar month; the whole thereof within
 thirty days after the completion of the
 whole of the said work and the ac-
 ceptance thereof shall be evidence by
 the certificate of the City Engineer
 that the said work is completed in ac-
 cordance with the terms and con-
 ditions of the contract. The pay-
 ment of the construction of the side-
 walks shall be made in warrants of the
 City of Twin Falls, Idaho, issued to the
 contractor, and issued against the spe-
 cial fund created by the assessing the
 property benefited by the construction
 of the said sidewalks, and which
 warrants shall in no way pledge the
 credit of the City of Twin Falls, Idaho,
 for the payment of the said warrants.

The cost for the construction of side-
 walk intersections and cross walks will
 be paid in cash at the times hereinaf-
 ter mentioned.

There must accompany each bid a
 certified check upon some bank located
 in the City of Twin Falls, Idaho, drawn
 to the order of the City of Twin Falls,
 Idaho, in an amount equal to ten per
 cent of the amount bid; said check to
 be forfeited to the City of Twin Falls,
 Idaho, in the event that the successful
 bidder does not enter into a contract
 for the performance of the work.
 A satisfactory surety bond in an
 amount equal to fifty per cent of the
 amount of the contract conditioned for
 the faithful performance of the terms
 and conditions of the contract to be
 performed by the contractor, must be
 given to the City of Twin Falls, Idaho,
 by the successful bidder at the time of
 the execution and delivery of the con-
 tract.

The Mayor and Council reserve the
 right to reject any and all bids.
 Dated September 1, 1918.

MONEY PROGRAM OF NATION NOT EASY TO HANDLE

Congress Confronted With an Enormous Task in Raising of Necessary Funds to Care for Appropriations

COUNTRY'S EFFICIENCY MUST BE MAINTAINED

Total of Sums Authorized for Use This Year Will Reach \$30,000,000,000 and the Claims Growing Pressing

By L. C. MARTIN

WASHINGTON, Sept. 29.—The nation's war finance program has assumed an aspect over which congressional leaders today were frankly concerned. Confronted by the staggering task of providing money to meet appropriations for this year, which will total over \$30,000,000,000, they are also faced with the necessity of preserving the country's business at high efficiency and protecting credit.

So puzzling has the problem become that Senator Simmons, chairman of the senate finance committee; Senator Martin, chairman of the senate appropriations committee; and Representative Sherry, chairman of the house appropriations committee will see Secretary of the Treasury McAdoo today.

An Immediate Concern

They will tell McAdoo that the immediate phase of the question over which they are concerned is the provision of money to meet the \$7,000,000,000 just asked by the war department for the support of the great Victory army.

Sherry believes it will be necessary to add \$2,000,000,000 in taxes to the \$5,000,000,000 war tax bill now pending. If the necessary revenue is to be provided.

But the task of getting \$2,000,000,000 more in taxes out of the country in addition to the six or eight billion in liberty bonds this year, looks well nigh unattainable to the finance leaders, unless they hit business even harder than the rates imposed in the war and excess profits and income tax schedules proposed last fall.

May Explore New Plan

One alternative is to go into new fields of taxation. This admittedly means imposition of consumption taxes on the consumer to an extent not heretofore considered.

That, it is feared, might hurt the liberty bond. The problem thus becomes one of getting the maximum amount of revenue out of both taxes and loans, without impeding the country's ability to absorb the loans and pay the taxes.

As a result congress wants to be convinced of the war department's ability to spend all the vast sums appropriated for it and the additional fund now available.

Sherry declared today between four and five billion dollars already appropriated have not been spent, simply because it has been impossible to spend it.

QUEEN ALEXANDRA

IN AIRCRAFT FILM

It is not often that a motion picture producer can call to his aid the services of a queen and women of the most exclusive nobility of England. But David Griffith, producer of the famous "Birth of a Nation," "Intolerance" and "Hearts of the World," has succeeded in accomplishing this in "The Great Love," his first photoplay for Aircraft, which will be shown at the Idaho theatre soon.

In this photoplay Queen Alexandra and many titles, ladies are seen engaged at their various duties in hospitals and on their estates—some scrubbing, some mopping floors, others engaged in attending convalescent soldiers while others do manual work, but which they do not deem degrading, because it is necessary for them to do their bit in order that the cause of world democracy may triumph.

This is a remarkable photoplay and Manager Magri is preparing to handle record-breaking crowds at the premier showing of "The Great Love" at his playhouse.

NEW FEDERAL BUILDING IS NEARING COMPLETION

Contractor R. E. Campbell Says Post-office May Enter New Quarters December 1

Twin Falls' new \$50,000 federal building, upon which construction was started April 1, 1918, will be completed and ready for occupancy by December 1, according to the statement of Contractor R. E. Campbell of Salt Lake, who has been here constantly supervising the work since it was inaugurated. Already the winter's supply of coal has been stored away in the basement of the new building, and Mr. Campbell states that as the finishing touch is to the work under the contract, he has ordered from the D. H. Peck Nursery company, more than 200 trees and shrubs which will be set out on the grounds surrounding the building this fall.

Mr. Campbell declares that out of nearly 200 federal buildings in course of construction throughout the United States, the record in point of time consumed in the construction of the Twin Falls building has been equaled by none.

Deaths

F. M. Prothero
