## MENACING WEDGE DRIVEN INTO BULGARIAN DEFENSES

### FRENCH AND BRITISH CONTINUE DRIVING AT HINDENBURG LINE

Below St. Quentin French Are Pushing Eastward of City While British Launch Drive North of City—Balkan Offensive Grows Apace With Advance on Wide Front—Salonica Railway Objective

### BRITISH WITHIN MILE OF LECATELET IMPORTANT RAILWAY JUNCTION POINT

The Allies in their Macedonian offensive, are driving a great wedge into the Bulgarian front between the Cerna and Vardar rivers, that has a double menace. Apparently the allies are seeking to cut the Uskup-Salonica railway, which supplies the Bulgarians in the Lake Doiran region and to capture the important center of Prilep, 22 miles north and east of Monastir.

### UNCERTAINTY IS HARD ON NERVES OF HUN TROOPS

### Germans Along Metz Front Badly Torn By Anxiety as to What Americans Will Do Next

WITH THE AMERICANS ON THE METZ FRONT, Sept. 21.—The Germans on the Metz front are jumpy because of their anxiety regarding American plans for the immediate future. This state of mind was responsible for two heavy raids on our positions northwest of Thiaucourt yesterday. The Boches attempted to gain the same position in both attacks, but were driven back each time with heavy losses.

### Smashing Attack East of Ephey

### Rear Areas Cleaned Up

The rear areas have now been practically cleaned up. Huge boxes of captured German clothing, guns, ammunition and other supplies are being hauled to the rear. Refugees are returning to their homes in abandoned villages after four years' captivity, attempting to find their homes among the ruins which have been left everywhere. The doughboys are assisting in this work of rehabilitation. The Americans are more than sea high with the inhabitants. Monsieur Mercier sent his wife and two daughters to Nancy when the Boches invaded Thiaucourt in 1914. His story is a bitter one for their homes, expecting the enemy would soon be driven out. For four years the Germans made him quarry officers in his home, and slave for them.

### City of Cologne Is Suffering Badly for Lack of Foodstuffs

### City Council Passes Resolutions Asking for Increased Production

THE HAGUE, Sept. 21.—Resolutions asking for the population of Cologne is suffering from lack of food and asking that production be increased and means of distribution made better were recently adopted by the Cologne city council, dispatches from that city received here today.

### Approach Railway

The Serbian communique detailing the operations of yesterday stated the allied forces had advanced an additional ten miles and reached Krivevo only ten miles from where the important railway passes through Demitropac on the Vardar.

### Meantime, the British today began an attack on a three mile front north of the important railway junction of Lecatelet.

At the same time, other allied troops were advancing rapidly northward in the Cerna, Iggh toward Prilep. The Cerna passes northeast of Lake Ohrid, Serbo-Grecian frontier, southeast of Monastir, where it turns sharply northward, covering with the Vardar about midway between Uskup and Skopje. All of this country is mountainous and extremely difficult because of the lack of good roads.

### Progress Difficult

Spurs leading from the outpost ridge and trench masses about Le Petit Prieu farm and Le Catelet topped made the going hard, but between 300 and 400 prisoners were taken.

### Part of Forces Refuse to Oppose Allies—Bolsheviks Are Badly Beaten

### LETISH TROOPS WOULDN'T FIGHT

AMSTERDAM, Sept. 21.—The Algemeen Zeitung of Essen charges that the recent defeat of Bolshevik troops on the German coast was due to a mutiny of Lettish troops who refused to fight the Allies.

### AMERICAN CHAIRMAN OF G. O. P. CAMPAIGN COMMITTEE

### WASHINGTON, Sept. 21.—Senator Smoot, Utah, today was selected by the senate Republicans, as chairman of the senatorial Republican campaign committee, succeeding the late Senator Gifford.

### WASHINGTON, Sept. 21.—Senator Hughes said that the American yet from whom the enemy could get a grain of information, we are certain.

### Prisoners Easily Kept

German prisoners of war are distributed in the coast France, Capt. Hughes said. They make no effort

### Allies Driving at Central Powers on Four Fronts In Greatest Concentrated Effort of the War

The allies are striking simultaneously on four fronts—the greatest concerted effort since the beginning of the war. Every one of the enemy powers and even the Russian Bolsheviks are being kept busy by this demonstration of allied unity. The British, French and Americans still retain the initiative on the west front; Serbians, British, French, Italians and Greeks are on the offensive in Macedonia; British and French are making great gains in Palestine, while British, Japanese, Americans, Czech-Slovaks and anti-Bolsheviks are waging a successful warfare against the Bolsheviks in various parts of Russia. Opposed to these allied forces are the Germans and a

few Austrians on the west front; Bulgarians and Austrians in the Balkans; German-led Turks in Palestine and German-led Bolsheviks in Russia. The British and French are still battling for possession of the Hindenburg line between Cambrai and St. Quentin, while the Americans, by artillery, aerial and patrol activity are keeping the Germans in cold sweat before Metz. In the Balkans the allied offensive front has been extended to about 70 miles and threatens to embroil the whole line from the Aegean to the Adriatic. The new Anglo-French offensive in Palestine involves a fighting front of nearly 50 miles, extending from the Jordan river to the Mediterranean. The greatest gains have been along the sea coast.

### YANKEE "PEP" GREAT MYSTERY TO THE FRENCH

Captain Arthur D. Hughes, Back From Front, Discusses Achievements of American Fighting Men

### SAYS CAPTIVES HAVE NO WISH TO GET AWAY

United States Army Nations Make Remarkable Difference in Appearance of Prisoners

That the quality known as "pep," which the American fighting men are thoroughly imbued with, makes them an enduring mystery to the French people, is the word brought back from France by Captain Arthur D. Hughes, of Twin Falls, an officer of the army quartermaster corps, who is here until Thursday next, after more than six months' service abroad; on route to Camp Kearney, California, where he has been assigned as an instructor.

### Achievements Remarkable

Declaring that the Americans in France in less than one year's time have built miles upon miles of wharves and docks, hundreds of miles of railroads and equipped them with American locomotives and cars and performed many other wonderful feats, Captain Hughes gives as a specific instance the work involved in supplying the daily ration of one pound of fresh meat to each soldier. "It was necessary," he says, "in order to provide cold storage, for the Americans to go into the forests, fell the trees, saw out the lumber and build the enormous buildings required for this purpose. This they have done, and they are handling now about two million pounds of fresh meat daily."

### Demonstrate Spud Culture

"The Americans ridicule the French potatoes—they tubers about the size of marbles, which are harvested before the tops have died down," Captain Hughes said. "But the Americans have not contented themselves with ridicule. They have constructed an irrigation system and are growing big crops of spuds that make the eyes of our allies pop out."

### Huns Out of Savage

Reports of mistreatment of American and allied prisoners at the hands of the Germans are undoubtedly true, according to Captain Hughes. "There can be no doubt but that American prisoners who refuse to give information asked by the Germans are subjected to torture more fiendish than ever perpetrated by the savage American Indians," he said, "and there has not been an American yet from whom the enemy could get a grain of information, we are certain."

### Prisoners Easily Kept

German prisoners of war are distributed in the coast France, Capt. Hughes said. They make no effort

### Bolshevik Slaughter Americans Is Charge

STOCKHOLM, Sept. 21.—Subjects of the allied countries and citizens of the United States, particularly the latter, have been slaughtered in Petrograd, travelers reaching here today declared. The massacre it was stated, followed a German-inspired meeting in which resolutions were adopted demanding an alliance with Germany for the purpose of sending troops to the Russian coast, where allied troops are operating.

### American Fighters Turned Tide of War

AN ATLANTIC PORT, Sept. 21.—American fighters turned the tide of war, broke Germany's spirit and "wonder and terror," Senator James Hamilton Lewis of Illinois, declared upon his arrival here from France. America's fresh troops, he asserted have annihilated the German army. The submarine is a complete failure in everything it attempted.

### Investigate Deaths in Balloon Explosion

ARMY BALLOON SCHOOL, AROADIA, Cal., Sept. 21.—Military investigation into the deaths of Private Guy Westland, 55th balloon company and Balley Thompson, 52nd company, was opened here today. The two men were killed and one other injured last yesterday when a "smoke bomb" suddenly exploded.

### 1,750,000 Yanks Have Left for "Over There"

WASHINGTON, Sept. 21.—More than 1,750,000 American troops have been embarked for "over there," Chief of Staff March announced today. This is 100,000 more than his last announcement carried.

### President Insists on Passage Power Bill

WASHINGTON, Sept. 21.—President Wilson today demanded passage of the emergency power bill before congress takes the three-day adjournment.

### Archbishop Ireland's Condition Very Grave

ST. PAUL, Minn., Sept. 21.—The condition of Archbishop Ireland of the St. Paul diocese was reported very grave late today.

### GEM STATE'S HONOR ROLL

- Killed with Canadians W. B. WRIGHT Wallace
- Killed with Canadians E. B. HUNTINGDON Bomber Ferry
- Killed with Canadians J. TURNER TAPPAY

### Turks Busy in Palestine; Cannot Help Bulgarians

Marshal Foch Extends Scope of Fighting to Engage All Enemy Forces—Bulgaria Left to Shift for Self

### AMERICAN MAN POWER TURNS TIDE ABRUPTLY

Will Soon Outnumber Huns—Finger Points to Be Tried on Great Metz Fortifications

### By CARL D. OBOAT

WASHINGTON, Sept. 21.—General Foch has broadened the scope of his plan for keeping the Hun busy everywhere, war authorities pointed out today. For some time he operated this method mainly on the west front. But the past week's developments show that his scheme has been extended until now it passes into the east. And it may become more inclusive with an Italian offensive.

### Take Many Prisoners

As for the British situation, March announced the capture of over 10,000 prisoners in the "GEMMEL" district and noted steady progress despite strong counter attacks.

### Man Power Turns Tide

American man power has a direct bearing on this situation, never ceasing warfare. With the United States expeditionary forces ever scarce approaching the 2,000,000 mark it is now possible for Foch to strike continually and at widely separated points so as to keep the boche guessing and his forces more than busy.

### Peace Dove Finds Quarters With Potsdam Gang—Up-hold Own Virtues

AMSTERDAM, Sept. 21.—Germany has accepted Austria's proposal for a non-binding discussion of peace. The Berlin government sent Vienna a note in which it declared: "Austria-Hungary's summons to the belligerents to enter into a confidential discussion in a neutral country of the fundamental principles for the conclusion of peace corresponds with the spirit of peace, readiness and conciliatoriness which the responsible alliance has again and again announced."

### Metz American Objective

With the United States force growing steadily larger with developments are meeting the attacking Prussians

### ALLIES BATTER AGAINST GATES OF THE EMPIRE

Cambrai, St. Quentin and Soissons Center of Most Stubborn Fighting Seen in Many Weeks

### By WILLIAM PHILLIP SIMON

PARIS, Sept. 21.—The most stubborn fighting seen in weeks is taking place in the regions of Cambrai, St. Quentin and Soissons, where the armies of General Byng, Rawlinson, Dobson and Mangin are battering against the very gates of Germany.

With a desperation bordering on panic Crown Prince Rupprecht, General von Boehm and the German crown prince are throwing troops into the melee with orders to hold or die, retreat or be killed.

Field Marshal von Hindenburg realizes the menace to his far flung frontier, behind which lies the Hun front and is thus attacking. The all-out material with the boche constantly weaker, General March's declaration of a military victory is brought closer to fulfillment. The development of material is going forward amazingly well. That the artillery situation is improved is evident from the known American hammering at Metz with nine inch and large caliber guns.

### HUNS AGREE TO AUSTRIA'S OFFER

Metz is the American objective. But its fall is distant, for it is a stronghold harder to crack than Verdun, before which Germany

### AMSTERDAM, Sept. 21.—Germany has accepted Austria's proposal for a non-binding discussion of peace.

The Berlin government sent Vienna a note in which it declared: "Austria-Hungary's summons to the belligerents to enter into a confidential discussion in a neutral country of the fundamental principles for the conclusion of peace corresponds with the spirit of peace, readiness and conciliatoriness which the responsible alliance has again and again announced."

"The acceptance which previous similar steps met with from our enemies was not encouraging. Germany is ready to participate in the proposed exchange of ideas."

# CLASH OF IDEAS PREVENTS EARLY PASSAGE OF BILL

House Alternative Plan Will Not Be Accepted By Senate—Upper House Will Proceed to Write Own Bill

## BORAH WANTS 80 PER CENT OF WAR PROBLEMS

House Luxury Tax Provisions Satisfy Senators—Doubtful Whether Bill Can Be Passed Before Election

By L. C. MARTIN

WASHINGTON, Sept. 21.—Announcing a determination to get the \$8,000,000,000 war tax bill through before the November election, if possible, the senate finance committee today began revision of the measure which passed the house late yesterday 350 to 0. Radical changes in some of its chief provisions are in prospect. Senator Borah's recent characterization of the bill as an "absurdity" is construed in by the senate committee members. They determined today to re-write the entire bill.

### Propose to Re-write House Bill

The clash of house and senate ideas may prevent final enactment of the bill until after election. House leaders frankly favor a congressional recess in November and the postponement of action on the tax bill until December 1. Senate leaders are extremely hostile to this program and will agree to it only if it becomes apparent that the measure can't pass before election any way. The chief battle ground between the houses probably will be the 35 per cent profits. The senate committee is wholly out of sympathy with the house alternative war and excess profits tax plan.

Under this plan the treasury department is to levy whichever tax will produce more revenue—either a war profits tax of 30 per cent, on purely war profits, or an excess-profits tax ranging from 35 per cent of profits of between 8 and 15 per cent of invested capital, to 70 per cent of profits in excess of 20 per cent on invested capital.

### Opposed by Senate Committee

The alternative feature of this plan is roundly condemned by most members of the senate committee, who declare that if the plan is legislated into a bill, a dozen or thirty could just as well be provided.

Up to this point the senate committee is almost unanimous but when it comes to substituting a plan for the house provision every member has a different idea. Among suggestions for provisions are:

War profits 80 to 100 per cent, and excess profits 60, and concern that made both war and excess profits to pay both taxes while those not making war profits pay only the excess profits tax.

### Senate Plan

Put a flat tax of from 8 to 16 per cent on all business regardless of whether profits are due the war or not, the rate of taxation to be determined by the percentage of profits in the taxable year as compared with profits in three pre-war years; no bul-

# FOCH, MARSHAL OF FRANCE, AND GEN. PERSHING

"At the hour when the enemy counted upon toppling a German peace upon us, General Foch and his admirable troops vanquished him."

These were the words with which Premier Clemenceau, the "Tiger of France," accompanied the bestowal upon General Foch of the ancient and honorable title of Marshal of France in recognition of the halting of the German drive by the allied chief commander.

All the world knows of the gallant conduct of American troops, distributed along the front line under the orders of General Pershing, in the great battle which ended the Hun advance.

The next German drive will be toward the Rhine. YOU can have a share in it by buying Fourth Liberty Loan Bonds.

## SPAIN TOLD NEW ENEMIES MAKE NO DIFFERENCE

Senator Borah, leader of the wealth reclamation group who's last session urged congressional action on the luxury tax, predicted today that whatever law is finally agreed on the 80 per cent tax on war profits would be in its still as finally enacted.

The luxury taxes seem likely to remain largely as fixed in the house bills. They range from 10 to 20 per cent on various articles.

The reduction of the liquor tax of \$5 a gallon to \$4 on the ground that higher tax will make withdrawal of whiskey from bond for sale prohibitive and will produce less revenue than the lower tax.

## IS GLAD HE CAN STILL BUILD SHIPS

James E. Boward, Injured in Service and Discharged, Returns to Vancouver

James E. Boward, who enlisted in April this year in the army engineers' corps at Vancouver, Washington, where he was employed in the shipyards, and who has been honorably discharged on account of injuries received in the service at Washington, D. C., is spending a few days here after which he will return to Vancouver to resume his employment in the shipyards. Mr. Boward was a resident of Twin Falls for several years, being employed in farming and on the railroad.

On account of his injury, Mr. Boward was unable to accompany his company to France. His company embarked just two hours after the accident in which he was disabled. He regrets deeply his inability to serve at the front but consoles himself in the thought that he can still render assistance in the shipyards.

Returns to Parish Home—Rev. L. B. Frack, rector of Ascension Episcopal church, returned Friday from Camp Gordon, Georgia, where he has been engaged for six months past in army work.

# STARTS COUNTER ATTACK AGAINST DISEASES OF BEAN

Entomologist Ralph H. Smith Advises Growers on Means Stamping Out Costly Plague in South Idaho Fields

## TACTICS IN DRIVE ON BEAN DISEASES

No method of spraying will control these diseases. No treatment of seed will certainly kill the causal organisms. On account of the wide distribution of these diseases it is advisable to practice two-year rotations, beginning next year.

Three serious bean diseases have done widespread injury to field and garden beans in southern Idaho this summer. The loss caused to garden beans has been estimated at from 50 to 70 per cent, and the damage to field crops from 5 to 15 per cent. The injury has been so common that there is hardly a gardener or farmer but who is acquainted with the symptoms of one or more of these diseases.

Ralph H. Smith, associate entomologist of the University of Idaho, stationed here in charge of aphid control investigations, in the following article, discusses these diseases and the methods to be pursued in eradicating them: Stemrot or Rootrot.

This was the first disease to appear in the spring and caused the least damage. It first affected the stems and, or just below the surface of the ground, causing a brown rot which later spread up and down the stem. If the plants were young they soon withered and died. Older plants remained sickly for a week or two before finally dying. The stems of the older plants sometimes become hollow and this led many people to suppose that a worm was boring in the stem.

Stemrot is caused by two kinds of parasitic fungi, one of which lives over the winter in the soil of infected fields.

# Why Pour \$50 a Year Down the Sink?

If a man had to scrub the clothes on a washboard he would have an Eden the next day. Let us do a washing for you.

FREE DEMONSTRATION EASY TERMS

## Citizens Electric Supply Co.

plants have grown and the other is carried over within the seed.

### Bean Blight

This disease, appearing later and the one causing the greatest damage, is capable of completely ruining the bean industry in Idaho. At least 50 per cent of the fields in the Twin Falls tract had from 15 to 60 per cent of infected plants. The most conspicuous effect of the disease was on the leaves where irregular wilted spots occurred which soon dried up and turned brown. The leaf spots in time spread over large areas of the leaf and, by breaking out, gave the leaf a ragged appearance. Pods failed to set on badly affected plants. Where pods formed they were marked more or less conspicuously with small irregular brown spots.

Bean blight is caused by a bacterium which is carried over within the seed of affected plants. It may also remain over winter in the soil of infected fields.

Bean Mosaic

This disease has been prevalent throughout Oregon and Idaho this year. In Southern Idaho it has been more widely distributed than blight, and the loss from it has been nearly as great. Only rarely have fields been found that were entirely free from diseased plants. Some fields have been damaged 75 per cent. Diseased plants are readily recognized by the stunted growth, the greatly gnarled and crumpled leaves, the blighted blossoms and the absence of pods. Plants usually become affected after well leaved out, the youngest leaves being the first to become gnarled. Diseased leaves do not dry up and turn brown as with blight but remain green.

Bean mosaic was first reported from New York in 1915. It is doubtless carried over in the seed of affected plants.

### How to Control These Diseases

Destroying diseased plants: When

(Continued on page six)

## Germans Decline to Consider Proposal to Replace Sunken Spanish Ships With German Boats in Spain

## SPAIN HANGS ON BRINK OF WAR WITH GERMANY

Spanish Cabinet Said to Have Determined Upon Course That Will Mean War Unless Huns Back Down

LONDON, Sept. 21.—Germany has flatly rejected Spain's proposal for cancellation of interned German ships to replace torpedoed Spanish vessels, according to the Skandinavisk correspondent of the Times. The correspondent reported that the German ambassador, in the course of the conversation said: "We will never consent to allow our ships to be taken. After all, if the worst happens and another country is against us, it makes little difference."

### Defers Germany

The Corriere D'Italia of Rome, published an interview with Don Gabriele Palmeri, King Alfonso's chaplain, in which he is quoted as saying:

"The Spanish cabinet has fully determined on a course of action, in which they will insist on her rights. Spain declined to remain neutral, but is afraid of no country."

## FORMER RESIDENTS OF SUCKER STATE PICK

Illinois Association Elects New Officers After Lunch and Program in Park

The annual picnic of the Illinois association, formed here three years ago, held Friday afternoon in the Twin Falls city park, was attended by about 50 former residents of the Sucker state. Following the picnic luncheon, addresses were made by O. G. Zuck of Kimberly, and J. M. Merkel of Elmer. Mrs. Herman Schurzer of Twin Falls, gave several readings. Harry S. Cowling of Twin Falls, retiring secretary, acted as master of ceremonies, and informal talks were made by a number of the picnicers. Officers for the ensuing year were elected as follows: resident, O. G. Zuck; vice president, Mrs. A. D. Koster, Twin Falls; secretary, Mrs. H. J. Young, Twin Falls.

## CALLS SEVEN MORE MEN FROM COUNTY

One Hundred-ninety Idaho Limited Service Registrants to Go to Jefferson

Twin Falls county is called upon to send seven men under the adjutant general's appointment of a selective service call upon the state for 190 Idaho registrants qualified for special or limited service to train September 30 for Jefferson barracks, Missouri.

"It is resolved that it is our plan to produce out those automobiles during the period of the war as necessary to clear out the stock on hand and contracted for, which we estimate will be accomplished not later than January 1, 1919, and that thereafter our plant resources and our entire manufacturing energy are to be devoted to war work."

Board of Directors of the Hudson Motor Car Company August 25th, 1918.

# We Would Not Have It Otherwise

Winning the war is the one big job that confronts every man, woman and child in America.

To our good friends and customers our message now is one of congratulation and reassurance.

Everything else must be sacrificed to that one great end. Hudson has for some time been devoting part of its large factory to war work, and while the decision to go on a 100-per cent basis affects no one more seriously than the Hudson dealer, it commands only our heartiest approval.

Although the manufacture of Hudson cars will soon cease, the supply of replacement parts now on hand is adequate to meet all needs over a long period of time.

Under present circumstances we would not have it otherwise. We rejoice that the Hudson factory can and will play its full part in carrying the banner of liberty forward to victory.

We know it is no longer necessary to suggest prompt action to prospective owners of Super-Sixes. Everyone must realize now, if never before, that for each Hudson Super-Six still to be made before production ceases entirely there will be a dozen buyers.

Our hope is that it will not be many months before we can have the pleasure of making another announcement—a post-war announcement—saying we are ready again to take orders for the new Super-Six—a car as worthy of your confidence as its predecessor.

We hope that it will not be many months before we can have the pleasure of making another announcement—a post-war announcement—saying we are ready again to take orders for the new Super-Six—a car as worthy of your confidence as its predecessor.

So far as we are concerned we are proud to bear our share of the sacrifice.

We can make immediate delivery of one seven passenger Phaeton and expect to receive one four passenger Phaeton very soon.

## JOHNSON AUTO SALES COMPANY

PHONE 50 TWIN FALLS, IDAHO

Take good care of your Ford. The war is reducing the output of motor cars, therefore see that your present Ford is kept in smooth running condition that you may get the full satisfactory service it is built to give. Entered as second-class matter April 8, 1918, at the postoffice at Twin Falls, Idaho, under the Act of March 3, 1879.

THE FACT OF THE MATTER

According to schedule, the constitutional amendment granting the franchise to women will come up for passage in the Senate on September 23. The House has already passed it.

For 40 years now, Congress has been confronted with the settlement of the question as to whether women should or should not have the ballot. Today far more than half of the men who compose the House and Senate are unqualifiedly in favor of the amendment.

Senator Borah has stated his reasons for opposing the amendment. The grounds which he sets up are not unreasonable, in fact, Mr. Borah's argument is by no means unsonant, but having voiced his own personal objections to the measure, there is still something to be said in favor of the theory that a Senator owes some consideration to the people who elected him, even in those cases where the views of the people run contrary to his own.

There is no more purely democratic institution than the proposition of an unfettered electorate. The right of suffrage to all men, in many countries monarchical in form, is sufficient to turn a kingdom into a Democracy. Slowly but surely down through the ages the tendency has been in the direction of an enlarged right of franchise. Men have been given the untrammeled privilege of a voice in the affairs of nations, sometimes at the cost of a revolution. Centuries have been consumed in the process, but today there are but few countries remaining where the men do not vote.

The proposition of the right of women to vote is merely an extension of the democratic principle of the right of the people as a whole to a share in the councils of the nation. There are no arguments tending to prove that it is not the case but argument falls to the ground in the face of the facts of the history of the world's development.

Women should be given the ballot. American women have been kept waiting 40 years.

GETS CHANCE TO WIN COMMISSION

Ernest H. Suhr Is Sent From Camp Lewis to Officers' Training Course

Ernest H. Suhr of Twin Falls, who entered the military service September 4, leading the party of 39 men who were trained for this county for Camp Lewis at that time, is enroute now to Camp Grant, Rockford, Illinois, where he is being sent for special training to prepare for an officers' training camp. As a corporal of the Twin Falls unit, Private Suhr served with the Second Idaho regiment on the Mexican border in 1916. He also had been a member of the Illinois national guard, and qualified as an expert rifleman in the national guard rifle target course. Private Suhr had been since 1915 linotype operator on the Twin Falls News. In entering the military service at this time, he waived deferred classification. He was married upon his return from the Mexican border in February, 1917, to Miss Fannie Evans, daughter of Dr. and Mrs. J. T. Evans of Twin Falls.

BUHL OFFICER AT HOME ON FURLOUGH PROMOTED

Lieutenant Stephens of U. S. Army Post at Honolulu Wins Silver Bar

(Special to The News)

BUHL.—Lieutenant Stephens, son of H. C. Stephens, who has been here for several days visiting at the home of his parents, received word Tuesday that he had been promoted to the rank of first lieutenant. Lieutenant Stephens is here from Honolulu to visit his father, who has been sick at the Twin Falls county general hospital, but who returned to his home on Friday.

Mr. and Mrs. Charles Hatfield and children of Los Angeles, Cal., are visiting for a few days at the home of Mr. Hatfield's parents, Mr. and Mrs. Henry Hatfield, near Buhl.

T. W. Porter and George Lillibridge left Monday evening for Mr. Porter's ranch near Yellowstone Park. Mr. Lillibridge is looking over the land in view to buy.

A. W. Hart, manager of the Studebaker company, left this week for a few week's hunting trip at Wood river.

Mr. and Mrs. Frank Seeling of Gooding visited Sunday with friends in Buhl.

Misses Fern Wallick and Ruth Fisher and Dr. Condon motored to Shoshone Falls last Sunday.

Mr. and Mrs. Delap, former residents of Buhl, are here for a few weeks from San Diego, Cal., where they have built a home. Mr. Delap is selling his ranch before returning. They made the trip by auto.

Miss Hazel Moore and John Durkin were united in marriage Sunday afternoon at four o'clock at the home of the bride's parents, Mr. and Mrs. W. F. Moore. Several friends and relatives were present. The ceremony was performed by Rev. W. M. Van Patton. The couple left Monday afternoon for Washington where they will spend their honeymoon. Their many friends wish them happiness.

Miss Helen Harlan of Gooding is visiting with relatives in Buhl this week.

John A. Brown returned from Moscow, where he went as delegate to the Idaho Masonic Grand Lodge meeting.

Miss June Brown, who is attending school at Twin Falls, returned Sunday at the home of her parents, Mr. and Mrs. John Brown.

L. C. Washburn and daughter Cella spent Saturday and Sunday in Boise. They went over by car.

Mr. and Mrs. M. Mrs. Martini of Castleton, Monday night, a 12-pound baby boy.

Mrs. Ring and daughter Elsie leaves Monday for Seattle, Wash., where Miss Ring will attend the University of Washington in winter.

Miss Dean Smithwick expects to leave for Moscow soon, where she will attend college this winter.

A watermelon social was held at the ballroom here by the Ladies' Aid. It was one of the Christian church last Friday evening. About thirty members were present and music and games were enjoyed.

C. D. Brennan returned this week from Idaho Falls, where he has been for several weeks buying sheep.

Fred Daniels returned the latter part of last week from Washington and Oregon, where he has been visiting for several weeks.

FRUIT THIEVES SACK ORCHARDS AT FILER

Growers in Some Instances, Forestal Depredations By Harvesting Unripe Crop

FILER.—Fruit thieves are numerous in this vicinity. Several orchards have been robbed and a number of orchard owners, fearing the loss of their children, have picked their fruit green in order to save it, as fruit is a scarce article this year.

The remains of Henry Arhart, brought here Friday from Camp Fremont, California, where his death occurred Monday, were buried with military honors, following funeral services Sunday afternoon at the Drake funeral chapel. Deceased is survived by his aged parents and several brothers and sisters to whom the sympathy of the community is extended.

Mrs. Owen Young, with a bad case of typhoid fever, is a patient at the Twin Falls county hospital.

Mrs. Ray Jones, who has been ill at home for some time, was taken to a Twin Falls hospital the first of the week.

Mr. and Mrs. A. N. Nole of Aberdeen, Kansas, who have been visiting relatives here, left Tuesday for their home.

Mr. and Mrs. Otto Sealey are moving into the Patton cottage this week. Mr. and Mrs. Patton have moved to Curry, where Mrs. Patton is teaching.

Mr. and Mrs. Irving Temple left last week for Spokane, Washington, where they expect to make their home. Mrs. O. Taylor, a sister of Mrs. Harlan Flah, who has been visiting here, returned last week to her home at Sunnyside, Washington.

Miss Marie McElligott left Sunday for Detroit, Michigan, where she will enter school in dread the winter with her grandmother.

# REGISTRANTS TO LEARN TO DRILL

### Local Board Names Instructors to Familiarize Prospective Soldiers With Duties

With a view to familiarizing registrants with the duties and manner of being which they will enter upon when they are called into the military service, the local board for Twin Falls county, acting under instructions from the provost marshal general, Friday instituted a board of instruction, by appointment of the following officers: Captain, E. F. Prater; physician, Captain H. W. Wilson; chaplain, Rev. L. B. Franck.

In explanation of the purposes of the board of instruction, literature sent out by the provost marshal general addressed to registrants points out the following advantages to be gained by taking advantage of the preliminary training it affords:

- You will go to camp "wise" and not "green."
- You will learn how to get "fit" and stay "fit."
- You will be more of a soldier and less of a nookie.
- You will be better fitted for promotion.
- You will be with friends instead of strangers.

### Officers Are Experienced

The officers appointed are men with previous experience in military affairs. Captain Prater, who was with 1016 for several years second lieutenant of the Twin Falls unit of the Second Idaho regiment, reports to enlist the services of others who have had military experience in the drilling and instruction of the registrants in the "school of the soldier."

Captain Wilson was for several years an officer of the medical detachment with the Idaho regiment, and was retired from active service on account of an injury received August 1, 1916, on the Mexican border at Nogales, Arizona, when he was shot in the leg by a German snail shell. He is well informed in matters of military hygiene and sanitation and has recently passed the examinations for re-entry into active service.

Rev. L. B. Franck, who is the rector of Ascension Episcopal church, returned Friday from Camp Gordon, Georgia, where he spent six months in the army of U. S. C. A. work.

### CASUALTIES MOUNT HIGH

British losses for week total 22,702 of whom 2,100 are officers

LONDON, Sept. 21.—British casualties published in official lists during the week total 22,702, divided as follows:

Killed 1,541 1,541 152 2,100  
Men 487 1,531 152 2,100

# USES SHOVEL TO REPEL SOLDIERS

### Mitchell Johns, Syrian, Battles With Bohemian Neighbor In Under Arrest

In a complaint filed this morning by the prosecuting attorney's office, Mitchell Johns, Syrian, is charged with an assault with a deadly weapon upon Joe Stastney, Bohemian. Stastney is unconscious as a result of a blow dealt him Friday evening by Johns with an irrigation shovel at John's farm. Both principals are residents of farms south of Hansen. The trouble between them is said to have arisen over differences in regard to the distribution of irrigation water.

According to Johns, he was sitting on the porch at about 7 o'clock Friday evening by Stastney and Ray Tolly, who attacked him with clubs. Johns says that he started to run but then turned and struck Stastney with an irrigation shovel.

Johns was placed under arrest Friday night by Deputy Sheriff George P. Hoffman.

# HAS DIFFICULTY ANSWER TO MAKE

### Christian Church Minister Undertakes to Answer Questions Propounded

Sunday night, eight o'clock, is the monthly "Question Night" at the First Christian church. The pastor, W. A. Moore, has invited his audience to send in questions to be answered. Any one may send in any question.

Among the questions to be answered are the following: What is the difference between Presbyterian and Episcopacy? On what conditions will the altar make peace? What shall we do with the kaiser when we get him? How can I make more money? Will you suggest help to me in my Christian life? Which would you prefer for life: a woman like Martha of the Bible, or one like Mary? My friend and I have quarreled; how can I best settle the matter? How can I fight a crooked deal of years ago, the injured party being dead? How can young people know they love well enough to marry? Jesus healed the sick. Why don't you? Did God create the world in six days of twenty-four hours each? It is wrong for a woman to go through her husband's pockets for a husband's money? Why take holiness? How can I best overcome the temptation to live an impure life? How can one compel himself to feel the sinfulness of sin? Since Jesus was crucified, why do we baptize? What is the Holy Spirit? How may I know my sins are forgiven? Can one be saved at the eleventh hour? What is the supernatural sin? Is it possible to be a Christian without baptism?

# "EASY JOB" PATRIOTS IN FOR HEAVY JOLT

### General Crowder Takes Step to Clear Ship Yards of Draft Evaders and Slackers in General

WASHINGTON, Sept. 21.—Provost Marshal General Crowder will act promptly to rid American shipyards of draft evaders and slacker workers. On the heels of a walk out of workers at the great Grant Yards, Philadelphia, in protest against the employment in "easy jobs" of pugilists, ball players, actors and others in ship building, the provost marshal issued new regulations covering this and similar situations in other yards.

**MOVE LAUNCHED TO SAVE BABIES**  
Government Plan for Child Conservation Being Carried Out

The saving and protecting of all children is a patriotic duty today in view of the terrible waste of human life in the world war, says Mrs. W. F. Pike, who has been placed in charge in Twin Falls county of the government's plan, through the children's bureau, in cooperation with the child welfare department of the women's committee of the national council of defense, in a national campaign to save the 100,000 children under two years of age who die annually in the United States from preventable diseases.

The work starts with a house to house registration of children under two years of age. This is completed, the weighting and measuring of these children at a designated place is begun. A record card for each child is made, half of the card going back to Uncle Sam for further reference, and the other half is kept by the child's parents.

The campaign in this county, in charge of Mrs. Pike, started September 1 and is being vigorously pushed by the sub-chairmen throughout the county. Registration is going on in Twin Falls this week and the weighting and measuring will be held at the high school building on Tuesday, Wednesday, Thursday and Friday afternoon of next week between the hours of 2 and 5:30 o'clock.

All children under six, whether registered or not, will be admitted to these tests. Parents, however, who prefer, may obtain cards from Mrs. Pike, 151 Third avenue north, and do their own weighting and measuring.

**ASCENSION EPISCOPAL—Third and Second street north. Sunday morning service at 11 a. m. Sunday school at 10 a. m. The Rev. L. D. Franck will conduct the 11 o'clock service. The Rev. Franck is just home from six months war work. Come and hear him.**

# WHEAT GROWERS GET 36 CARS DURING MONTH

### Local Freight Business Report Shows Decrease in Volume But Accommodation to Grain Men Jumps

Two hundred and twelve carloads of freight were shipped out of Twin Falls during the month of August, 1918, as compared with 207 carloads shipped out during the corresponding period last year, but this year 36 of the cars forwarded were filled with wheat, whereas during August last year not wheat at all was forwarded from this point, according to the report made by Agent D. E. Sullivan covering the business of the Oregon Short Line station at Twin Falls. Six carloads of potatoes, also, were shipped from Twin Falls during August, 1917, as compared with one carload forwarded from here during the corresponding period last year. Smaller amounts of merchandise, mill stuff, and sugar were forwarded from here during August this year than during August, 1917.

According to Mr. Sullivan's report the amount of freight handled through the local station, both received and forwarded, was by 6,208 pounds during August, 1918, than the amount handled during the corresponding period of last year, and the passenger ticket sales showed a decline of \$537, being \$17,011 for August, 1918, as against \$16,058 for August, 1917.

#### Detailed Report

Following is a detailed report of the number of carloads of freight forwarded and received at the Twin Falls station for the month of August, 1918, as compared with August, 1917:

	Forwarded	Received
	1918	1917
Beans and Peas	1	2
Brick	0	0

### ATTORNEY WOULD TAKE FORMER ASSOCIATE'S HOME

B. H. Hayes Files Action to Foreclose on Note for \$2500 Given by L. E. Ferrine

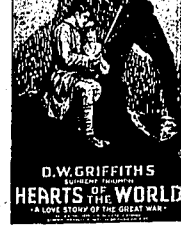

Foreclosure proceedings involving the residence of L. E. Ferrine at the corner of Sixth avenue and Shoshone street were instituted in district court here Friday by B. H. Hayes, attorney, of Boise. Hayes alleges in his complaint that he is the owner of a note given by Ferrine in August, 1916, in the sum of \$2500, which is secured by a mortgage on the Ferrine residence. He alleges that other creditors of Ferrine, who claims he asks made subscription to his own, the Illinois Steel company, H. W. Cowan, Central Trust company, Chennodish Nurseries, Ray R. Bryan, J. E. Cook, George B. Hobbs, G. J. Childs & Company, Louise B. Millson and the Oregon Short Line Railroad company.

Hayes and Ferrine have been in the past closely associated in the promotion of numerous Idaho enterprises, notably in connection with the Twin Falls-Salmon River irrigation project, and in the Twin Falls Railway company. Ferrine is president of the Twin Falls-Milner Canal company, for which Hayes has been attorney.

He has been officially credited with bringing down a number of Zeppelin airplanes and is known as a daring and courageous flyer.

### ENLIST OR BE DRAFTED

Canadian and British Recruiting Offices to be Closed on October 12

NEW YORK, Sept. 20.—The Canadian and British recruiting mission in the United States will close all of its recruiting offices October 12, it was announced here today by Brigadier-General White, commanding the mission. After that date all British and Canadian military age will become liable to draft. This applies to men in the new draft age. Those within the draft age must enlist before September 30 or be liable to draft, it was said.

### FAMOUS KORAN STOLEN FROM RUSSIAN LIBRARY

By JOSEPH SHAPIEN

NEW YORK, Sept. 20.—One of the victims of the Russian revolution is the most famous copy of the Koran in the world. It was stolen from the public library in Petrograd and its whereabouts is now an absolute mystery. The speaking of the value of the Koran, the celebrated Russian scholar Prof. F. Ollonberg said: "The stolen Koran is unquestionably one of the most famous volumes of the world. By Mussolmans throughout the world it was regarded as very holy. I personally have seen hundreds of worshippers of Allah walk into the public library and bow before the book. A beautiful legend surrounds this volume—the blood spots on its covers are said to be those of Mahomet himself. I don't know the motive that may have impelled those who stole it. I do not believe the story that Turks have stolen it, as the soviet government already has promised to return it to any properly designated body representing the Mohammedans church."

Photographic copies of the volume are to be found at the library. The volume came originally from Turkey, where it was presented to a number of Russian scholars as a gift to the Petrograd public library. A few days before the theft, a number of American collectors offered \$1,000,000 for it.

# SOUNDS CALL FOR CLOTHING FOR SUFFERERS

### Red Cross Chapter Delegates to V. H. Decker Organization of Campaigner to Secure Donations for People

The district under the jurisdiction of the Twin Falls County Red Cross chapter is called upon again to duplicate its achievement of last March when it contributed four tons of clothing for the ten millions of French and Belgian people imprisoned within the area occupied by the Hun.

The county chapter has appointed V. H. Decker of Twin Falls, chairman of the campaign which will be conducted during the week beginning Monday, September 23, to fulfill this quota. He will be assisted by Mrs. Kennedy Packard and others who carried through the March campaign.

#### Masonic Temple Commandeered

A station for the reception of clothing will be opened for the week in the Masonic temple, over the Studebaker Brothers company, at the corner of Second avenue and Second street west. Donors of clothing within Twin Falls are requested after Monday to bring their donations to this station or to telephone 230, and automobiles will be sent to receive the material. The committee in this connection, will welcome volunteers among automobile owners placing their cars at its disposal for this purpose.

Hazards and men have been instructed to send their contributions to Murtagh for shipment from that place. Hansen will send his contributions to Kimberly. Filor will ship his own donations direct, and Rogerson, Hollister and Berger will forward their contribution for shipment from Twin Falls.

#### 500,000 Tons Needed

Advice from H. P. Davison, chairman of the American Red Cross society, and from Herbert Hoover, national food administrator, is that 500,000 tons of clothing are needed by the French and Belgians in the regions occupied by the enemy.

Every sort of garment for all ages and sexes, and piece goods are desired. Shoes also are needed, and every sort of leather for repairing footwear. Clothing containing rubber, however, cannot be accepted. Since the clothing is to be subjected to the hardest sort of wear, only strong and durable clothing should be donated. The garments need not be in perfect condition. There are 100,000 destitute women in the occupied regions, the Red Cross sisters, who are eager to care a small livelihood by repairing gift clothing.

#### STARBUCKS COUNTER ATTACK AGAINST DISEASES OF BEANS

(Continued From Page Two)

one of these diseases appears in a garden first there is no known method of controlling it except by destroying diseased plants as soon as they appear. Since the disease does not produce symptoms in early stages that would be readily detected by the average grower, and since it is easily spread to healthy plants by cultivation, irrigation, and insects, the weeding out of diseased plants is not a success. Select disease-free seed and rotate crops. The only certain method of controlling these diseases is to secure seed for planting from fields which have been free from disease, and plant this seed on ground that has not grown diseased beans for at least two years previously. Egg-bean seeds sown for next year's planting from a field that you know to have been free from any disease this summer.

# OFFERS REPORT ON VALUES OF SALMON LAND

### State Land Commissioners Appraises Eliminated Area as Suggested Basis for Settlement of Damage Claims

The appraisement of the value of improvements and 21,450 acres of lands that may be excluded from the Salmon River project, made by W. C. Whitford, state land commissioner, at the instance of the state board, as a suggested basis for settlement of damage claims, fixes the total value at \$265,947.52. A copy of the appraisement in detail has been received by Judge J. R. Dethleff, attorney for the Salmon River Settlers' association.

In making his appraisement Mr. Whitford has estimated separately the value of the land, crops, improvements that may be moved or salvaged such as buildings and fences, and permanent improvements, such as ditches.

#### Basis of Appraisement

He has determined as the value of the land, the amount of the payments made by the landholder to the state and the Land & Water company for water rights.

He has fixed the value of "proving" crops at \$5 per acre; covering the cost of clearing, leveling and possibly ditching. Other crop values he classified as of two kinds, appraising one class at \$7.50 per acre and the other at \$10 per acre.

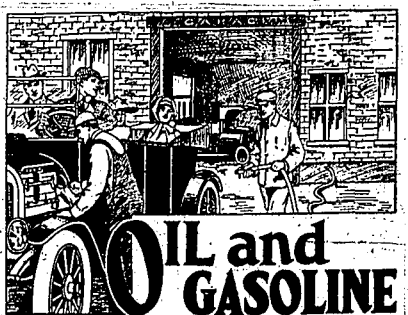

In arriving at a value of buildings and fences, Mr. Whitford has deducted from the cost price of the improvement the amount that could be realized if it were wrecked or salvaged, and has determined upon the difference as the appraisement value for the purposes of the report.

He allows the cost value for ditches and other improvements which cannot be moved or salvaged.

#### MARRIAGE LICENSES

Marriage licenses were issued in Twin Falls Friday to the following: Kenneth Maurice Smith and Lenora Shank, both of Wendell, Idaho.
