### ARMISTICE OFFERED BY BULGARIANS

Premier Malinoff Proposals Result of Hard Pressed Condition of Bulgar Forces—People Seek End of War

### GERMANY INDIGNANT AT BULGAR PREMIER

Newspapers in Germany Declare Premier Obould Be Brought Before Court Martial—First Break in Banks

WASHINGTON, Sept. 27.—The state department received official information this afternoon from an unswayed source confirming the report that Bulgaria has offered an armistice to the allies.

This government has reason to believe that the offer is insincere and only a maneuver cloaking a deceptive Turkish peace scheme.

LONDON, Sept. 27.—Bulgaria has offered an armistice, it was announced here today.

The announcement came in a dispatch from Copenhagen, stating it was officially reported from Germany that Bulgarian Premier Malinoff had proposed an armistice to the entente.

The dispatch said that Malinoff's proposal for an armistice was not supported by the other members of the cabinet or Czar Ferdinand, and caused great dissatisfaction throughout the country.

Strong measures have been taken to support the Bulgarian front, it was reported here today.

A counter move against Malinoff's proposal has already been started in Sofia. Malinoff is leader of the anti-war party in Bulgaria, and bitterly opposed Bulgaria's entrance into the war before he became head of the government.

When he was appointed premier a few months ago, it was freely predicted that he would soon move for a peace.

### Allied Commander Declines to Act

PARIS, Sept. 27.—General D'Espèry, commander-in-chief of the allied armies in the Balkans, has received at his headquarters Bulgarian plenipotentiaries, who proposed an armistice with the view of conclusion of peace, according to dispatches received here today.

The general said he could not grant an armistice, but would transmit the proposal to the government.

### Huns Accuse Premier Of Treason

AMSTERDAM, Sept. 27.—Germany intends to enter a solemn protest against Premier Malinoff's armistice by hand and pushed on without any noticeable pause.

Artillery and squadrons of airplanes bombarded the German rear areas with deadly effect, smashing long bridges and setting fire to a number of ammunition dumps.

Huns' Guns Mashed at Wrong Place. Prisoners said an American attack was expected but that it was looked for east of Verdun. As a result the Germans had great artillery guns and heavy tanks massed between Verdun and the Metz region.

Bocho artillery on the east bank was so completely gassed it scarcely fired a shot all day. The enemy resistance was affected mainly through the generous use of machine guns. These were stopped.

A strong artillery fire was kept up.

### GREATEST BATTLE OF ALL TIME BEING FOUGHT AND WON TODAY

#### WAR SUMMARY

The greatest series of battles in the history of the world is being fought today.

Practically every allied nation was involved. Progress was reported on every one of the fronts.

With the Americans and the British on the forty-mile front between the offensive on a wide front was the allied offensive front from north of Ypres to east more than 275 miles, formal military annals.

The scope of the allied offensive in Palestine was growing hourly.

The Bulgarian defeat before Ovar Ferdinand's country was forced an armistice. For several days that Bulgaria was on the verge of an armistice.

Allied forces in Sicily were enlarging their successive operations on the Italian front were necessary to bring even motion.

With the American first army offensive under command of General Pershing, which began yesterday morning, has swept the Germans seven miles behind the Hindenburg line on a 20-mile front from the Meuse westward to the Argonne forest.

The Americans continue to progress on the American left. French troops are attacking on a frontage ending westward of the Sulpe river. They have advanced to an average depth of four miles.

Take 5,000 Prisoners. Villages already occupied by the Americans include Varennes, Mont Blainville, Wauquais, Chassy, Montancourt, Behincourt, Montfaucon, Haultville and Septanges.

More than 5,000 prisoners have been captured.

The French have captured Servon, the Navarin farm, Main de Messages and Butte Dumeail. No report has been made regarding the number of prisoners taken by them.

These other towns were similarly taken by frontal attacks. The operations reflect the attacking power of the Americans better than did the St. Mihiel assault, this being our first attack over an extended front.

Flow Through Barbed Wire. The advance was far ahead of schedule all day. Several spots were considered where the artillery failed to smash the enemy's wire entanglements.

The doughboys cut these obstructions.

### DATE FIXED FOR BIG DRAWING OF REGISTERED MEN

Next Monday at Noon Selected as Time for Determining Up on Order of Liability for Military Service

WASHINGTON, Sept. 27.—Provo Marshal General Crowder announced today that America's greatest draft lottery, to determine the order of service liability of the 13,000,000 men registered September 12, will start Monday at noon.

The drawing will be in the state office building, Acting Secretary of War Crowell and Chief of Staff March will preside over the drawing.

Approximately 17,000 capitols will have to be drawn from the lottery books and it is estimated this will require at least 20 hours of uninterrupted drawing.

"Because of time and cost of figures involved," Crowder said today, "the press association of the country have united in asking me that it will be impossible for them to undertake the sending of copies of the master list to the press on the occasion of the first and second draft drawings."

"They have agreed upon and proposed to me a plan by which copies of the drawings will be sent as promptly as possible direct from the office to the available district boards which will be instructed to make copies within the receipt to the newspaper.

They will be sent to the newspaper at the time of their publication.

WASHINGTON, Sept. 27.—President Wilson left today for New York where tonight he will formally open the Fourth Liberty Loan campaign with his Metropolitan opera-house speech.

GERMAN WAR MINISTER'S RESIGNATION REPORTED

COPENHAGEN, Sept. 27.—Dispatches received here declare that a persistent reports that General von Seelein, the Prussian war minister, has resigned.

### ADVANCE AWAY AHEAD OF SCHEDULE PROGRAM

Fighting Characterized by Impetuous Daring on Part of Allies—Enemy Utterly Unable to Stem the Tide

By FRED S. FROUSON

WITH THE AMERICAN FIRST ARMY, Sept. 27.—The number of prisoners and captured guns is mounting up hourly in the American drive in the Argonne region.

Captured guns have been turned on the enemy. Among the prisoners are a number of dismounted Uhlans, rated as the flower of the German cavalry.

The retreating enemy is getting fire to munitions camp and has already destroyed a great quantity of ammunition.

WITH THE AMERICAN FIRST ARMY, Sept. 27.—The second of the American first army offensives under command of General Pershing, which began yesterday morning, has swept the Germans seven miles behind the Hindenburg line on a 20-mile front from the Meuse westward to the Argonne forest.

The Americans continue to progress on the American left. French troops are attacking on a frontage ending westward of the Sulpe river. They have advanced to an average depth of four miles.

### DIDN'T STOP TO INSPECT LINE

Yanks Kept on Going When They Came to Hindenburg's Barrier

By FRANK J. TAYLOR

WITH THE AMERICAN ARMY WEST OF VERDUN, Sept. 27.—The Americans advanced so far when they charged over the top yesterday morning that they did not even pause to examine the concrete Hindenburg line which was supposed to be impregnable and had proven a barrier to the allies for four years.

Near Varennes, fifteen miles west of Verdun, the Hindenburg line was broken.

Americans Charge Through Supposedly Impregnable Defences On Twenty Mile Front Pushing Enemy Back Seven Miles—Number of Prisoners Will Exceed 17,000—French Advance Simultaneously; Advancing Four Miles

### BRITISH CRUMBLE SEVEN MILES OF HINDENBURG LINE WEST OF CAMBRAI

LONDON, Sept. 27.—The Americans have captured Chaepentry, two miles north of Varennes, according to battle front dispatches received here this afternoon. The attack between Rheims and Verdun is progressing satisfactorily. The armies of Generals Gouraud, Berthelot and Pershing attained all their first objectives very quickly and are pushing on. The number of prisoners taken exceeds 16,000.

General Petain is in supreme command of the Allied attack in the Chateauign district, it was said today. General Gouraud is immediate director of the French operations.

### Haig Knocks Big Holes In Hindenburg Line

WITH THE BRITISH ARMIES IN FRANCE, Sept. 27.—The British, attacking at dawn in the direction of Cambrai, smashed forward on a thirteen-mile front, penetrating more than three miles at some points.

A strip of the Hindenburg line seven miles wide, including five miles of the canal due north, was crossed.

Hundreds of prisoners have been taken.

General Hing's army and some of General Horn's forces participated in the drive.

By 8 o'clock, remarkable progress had been made.

They had crossed the enormously difficult canal between Mouvaux and Havincourt, were within about 700 yards of the Hindenburg trenches and deep wire barriers beyond.

Advance Is Rapid. At 7:55, the British were advancing on Bourlon spur, four miles directly west of Cambrai. The Germans had rendered in great droves. Tanks had reached Fleopieres, five miles southwest of Cambrai, at 8:25, the infantry pouring in behind them.

The first batch of prisoners brought in numbered 200. The haul was expected to be large. The primary objectives between Mouvaux and Havincourt have been attained. The initial penetration east of Mouvaux was a distance of three miles, which, east of it, the advance was exactly a mile, since the German positions there are unusually strong.

Enemy Surprised. Following the main attack between the Arras-Cambrai road near Maroquin, northwest of Cambrai to the vicinity of Bantoulens, seven miles south of Cambrai, elements of General Rawlinson's army on the right advanced slightly to protect the flank.

It is evident that the attack was considerably of a surprise. There was little preliminary bombardment. A morning mist, preceding a perfect day, hid the opening assault.

The most critical point was the stretch of canal, which the British and Canadians negotiated successfully.

The Beaumont, Grincourt, Fontaine Notre Dame, Bourlon, Cambrai, La Vaux, Villeroy, Villers-Outils and Frenay, it is believed, cannot be held by the Germans. Bourlon-wood was in a fair way of being plucked off early today.

### Haig Reports New Progress

LONDON, Sept. 27.—British forces attacked on a wide front south of the Senne river at 5:20 this morning. It was announced by Field Marshal Haig today. He reported "satisfactory progress."

"At 9:30 this morning, we attacked on a wide front south of the Senne river. The attack was successful. The number of prisoners taken exceeds 17,000."

"Last night successful local operations were conducted by us in the neighborhood of Arras, on the Senne river, five miles south of Douai, and eight miles northeast of Cambrai. Northwest of La Basse Fleux our line was advanced in the localities of Bourlon, Fleopieres, and Fleopieres and prisoners captured."

The Senne river flows northward, crossing the battle line three miles south of the Arras-Douai highway, twelve miles northwest of Cambrai.

### ARGONNE BLOW IS REGARDED AS MASTER STROKE

Extent of America's Driving Smash Surprises Even Those Closest in Touch With Military Situation

By CARL D. OBROT

WASHINGTON, Sept. 27.—The extent of America's glorious smash in the Argonne surprises even those staff officials in closest touch with west front plans.

While General Pershing's night communications called "over 5,000 prisoners" it is likely the final count will run considerably beyond that figure.

Pennsylvania, Missouri and Kansas troops are mentioned as having had a generous share yesterday in this latest push. The troops of three states met with stiff resistance, according to General Pershing. Troops of other corps not specifically designated captured Bois de Forge and the towns of Malancourt, Behincourt, Montfaucon, Gully, Nallou, Fleopieres, and Dunceux.

Shift Divisions. This composition of the First Corps may have been altered as almost weekly shifts are made in all the corps. None of the divisions originally listed

### UNITED RUSSIA WILL RENEW WAR

Russian Embassy Makes Official Announcement of Important Development

By JOSEPH SHAPLEIN

WASHINGTON, Sept. 27.—A new all-Russian government with authority to speak and act for the whole of Russia, and whose chief aim is the renewal of war has been formed.

Official announcement of the new government was made by the Russian embassy here through the publication of a cable received from the new government whose temporary seat will be at Ufa.

Heads of States Confer. The new government was formed following a great political conference held at Ufa and attended by representatives of all political parties except the Bolsheviks and the left wing of the Social-Revolutionists.

The heads of the different states will be selected from the greatest men in their respective territories. The successful formation of the new government of 250,000 men by the Russian government will force the Allies to

# JUNIORS GET INFORMATION ON WAR BONDS

Superintendent Hal G. Blue Enlists Assistance and Support of School Children in Liberty Loan Campaign

With a view to cultivating the interest and support of the school children of the county in the fourth Liberty Loan campaign, which opens tomorrow, and explanatory of the purposes of the bond issue, Superintendent Hal G. Blue, chairman of the Twin Falls County Bond Drive, has addressed the following letter to all members of the Junior Red Cross organizations:

**Fight for Democracy**  
America is fighting for Democracy. The people have dedicated their lives and their fortunes in this undertaking, and every patriotic girl and boy is ready to help the government get the things it needs to win the war: men, money and supplies.  
The government must have a great deal of money to prosecute the war. For its expenses for the next year, June 1917-June 1918, it has already appropriated over twenty-four billion dollars. That is such a lot of money, that no one can possibly imagine how much it is. It may help you to understand it better if you know that from the time of the revolution down to the present war, during nearly one hundred and thirty years, the government has spent only a little over twenty-six billion dollars. Yet we are now going to spend twenty-four billion in one year to carry the war.

**Why the Bond Issues**  
In place where the government spends about one billion dollars a year, it gets this money by taxing the people. That means that everyone in the country gives a part of his income or wages to the government. This year the government needs twenty-four times as much money as it usually gets from taxes. There are two ways in which it can get this extra money: (1) By extra taxes, (2) by Liberty Loans. In the first case the people who are living now would give the government twenty-four times as much money as they did year after year. You see that means that the people would not have enough money left to live upon, if they did that. In the second case, the people who are living now LEND the government the extra money. The government pays them a certain sum every year (interest) for the use of the money. After the war, when the government does not have to spend so much for running expenses, it will collect enough taxes to pay back the money lent during the war. Instead of having to pay for the war all at once in a lump sum, the people can pay for it on the installment plan after the strain of actual preparation and fighting is past.

**Where Money Goes**  
You will want to know what the government spends all this money for. If you stop for a moment, you can think of many things yourselves. The money pays the salaries of men and officers in the army, navy and marines; the salaries of government officers and the wages of the people who are making the "finer" supplies the government needs. It buys food, clothing and medicine and ammunition. It buys the materials to make guns and airplanes to build ships and equip hospitals.  
Our Allies need all these things as much as we. Our government has loaned them during 1917 nearly over five billion dollars; so that they can buy what they need. These loans are of the most important part of America's expenditures.

**Germany Prepared for War**  
Germany spent fifty years preparing for this war. She built up her industries to the way that she can now get all the raw material (cotton, wheat, iron, etc.) and all the manufactured articles (guns, powder, clothes, etc.) she needs in her own country or from other Allies. On the other hand the Allies have to buy many of these things from other countries, chiefly America. We supply them with wheat, corn, cotton, wool, iron and many "finished" articles from our factories and foundries. During three years of war the Allies paid us for these things more than to our merchants and manufacturers. Their money supply was running low but they had to go on buying these supplies or they could not remain at war. We are lending them the money they need and they are spending it in our country. After the war, the Allies will pay back our loans, a little at a time. It is just as though America were a big department store. The Allies are buying what they need at the store, and "charging it" until after the war.  
These are some of the things the Allies have already bought from us and they are worth over \$10 billion dollars worth of

Equinoctial Storms Along the Rhine

Belgium and Serbia to help the people whose homes have been laid waste by the Germans.

**Confederate Forces in Annual Reunion**  
Pass Resolutions in Support of War Program  
TULSA, Okla., Sept. 27.—Zeal of the days of '61 flamed out anew here today when the Confederate Veterans, meeting in annual reunion, unanimously adopted a resolution pledging their entire resources and their lives if necessary to win the war against Germany. The Sons of Veterans adopted a similar resolution late yesterday. Selection of next year's reunion city and the election of a commander-in-chief succeeded General Harrison occupied the attention of the delegates when they met for this afternoon session.

**BANKERS WILL FIGHT TO THE LAST DOLLAR**  
President of American Association Says Financial Men Will Fight Day War Was Declared  
CHICAGO, Ill., Sept. 27.—American bankers enlisted in the war, they say, and will keep on fighting till the victory is won. This was the declaration today of Charles A. Hirsch of Cincinnati, president of the American Bankers' association, in opening the association's convention here. Sectional meetings were held hereafter.

**Refering to the relation of business and the war, Hirsch said:**  
"We are for business is not going to begin when the war ends, it has already begun. Peace, as the result of military adjustments, might be simple, but peace as a result of the settlement of commercial differences and spheres of control will be difficult or impossible without a military victory."  
Hirsch asserted that the national comparison league is an extreme manifestation of social unrest, and that its "real purpose" is political control by a class for a class.

**Barley Pancakes**  
Three cups barley flour, 1 egg, 2 cups water, 2 teaspoons baking powder.—Mr. C. E. Stevens

**Potato Bread**  
Cook and rice about 12 medium potatoes—one-half gallon when riced. While hot put in a scant cup sugar. Let stand to cool. Cook a cake of riced foam in one-half cup warm water. When potatoes are cool put in yeast and stir in a cup of flour. Let raise until morning. In morning add one-half cup warm water, salt and shortening. Thicken with flour. Let raise twice and bake.—Mrs. J. E. Egan.

**Primitive Methods of Farming**  
In Central America many primitive agricultural implements are still retained. The native farmer still uses a plow with a crooked tree-branch pointed with iron. The objection to the modern two-handled-plow is that one hand is needed for guiding the animal, hence the introduction into Honduras of a trial modern-style plow with one handle.

# TRUE JUSTICE WAR KEYNOTE

### All Honor to the Mother Country of Washington, Lincoln and Wilson

PARIS, Sept. 27.—The following statements were given to the United Press today in connection with the opening of the Fourth Liberty Loan by Emile Bostoux, head of the French Agency and Gabriel Maniotax, president of the French-American committee.

"Through liberty is the right that all human beings, individually or collectively, have for themselves," said Bostoux.

"The present war—a fight for liberty and against slavery—is the most important in the history of the world organization founded on imperial justice and the principle of a peace worthy of mankind.

"No nation in the world has better than the United States shown by her history and behavior in the war that it is her ideal and that for its triumph she is ready to sacrifice all that she possesses.

"Honor to the mother country of Washington, Lincoln and Wilson.

"One recognizes now the designs of Providence when she accumulated so early in America, all the energies and liberties.

"The American people fight for Europe, who have given her life and for the whole large human family. She saves at the same time mankind's independence an honor."

## LANE PROMISES TO GIVE BRUNEAU CONSIDERATION

### Secretary of Interior Agrees to Give Hearing on Proposal for Reclamation of Big Project

James McMillan, as chairman of the committee appointed by F. F. Brackley, chairman of the county council of defense, to attend a conference Monday at Portland to consider reclamation of arid lands for the use of returning soldiers and sailors, received Thursday from the Secretary of the Interior Franklin K. Lane, a letter thanking the committee for its promise of attendance at the conference and giving assurance that the proposal for irrigation of the Bruneau project would, at least, receive consideration.

The committee will go from the Portland conference to attend a similar gathering at Boise on Wednesday.
