Presidential Inquiry Does Not Bind America to Any Special Course—Real Answer Will Come Later On

By CARL D. GROAT

WASHINGTON, Oct. 9.—President Wilson will probably go before congress to cast further light upon the position he took in his inquiry to the German Emperor, his son as the latter replies.

Peace is up to Germany, more squarely than it ever was before as a result of President Wilson's inquiry to Prince Max, testing German sincerity.

Official Washington took this view today, holding that the president had stripped away the mask and robbed Germany of a chance to slip by people with the shrewdness plain of "Germany" in elaborate misapprehensions.

The White House viewpoint on the Wilson query was elucidated thus: The inquiry does not bind President Wilson to any special course.

Among the terms "It is distinctly an inquiry, not a reply to Prince Max's peace offers, and it will clear a way for the president to make a fitting reply as soon as he knows for certain whether Germany wants peace on his terms or is merely making an insincere peace move."

Particular attention was called to the fact that among the president's peace terms are complete freeing of Russia, Belgium, occupied French territory and reparations to the Allies.

Battle Proceeding With Great Intensity Along Entire Fighting Front—Enemy Losses in Prisoners Runs Into Thousands—Terrific Artillery Duels Rage in Only "Quiet" Sectors

By JOHN DE SANDT

PARIS, Oct. 9 (4:14 p. m.)—The battle is proceeding with great intensity along the whole fighting front.

The French and Americans are forcing back the enemy in the Champagne and consolidating their gains on the Sulpice river front.

#### DESPERATE FIGHTING ON FRONTS TOTALING OVER 110 MILES

WAR SUMMARY

THE Allied armies are battering away on all fronts which total more than 110 miles. The combined attack of the French and Americans from north of Cambrai to south of St. Quentin, is over a frontage of 30 miles.

The Franco-American drive from northwest of Rheims to north of Verdun, stretches out 30 miles.

A sector of about 55 miles separates these two active fronts. A great portion of this "quiet sector" is now the scene of a terrific artillery duel.

In the Cambrai-St. Quentin operation, the Allies are striking directly eastward, going into the base of this innermost triangle and rendering it more untenable.

The bigger operation, with its myriad of strategic objectives also is menacing the German hold on the St. Gobain and Lunon region.

The artillery fighting northwest of Rheims may presage a new attack by General Mangin, which would wipe out the minor salient below Lunon.

Americans Move Steadily Forward Through Concentration of Best Troops German Can Muster From Every Source

#### FIGHTING TWO DAYS AND STILL AT IT

Stamina of French and American Troops Wins Highest Praise of Officers—Aerial Forces Doing Splendid Work

By FRANK J. TAYLOR

WITH THE AMERICAN FIRST ARMY, Oct. 9.—French and American troops continuing their attack east of the Meuse, have advanced six kilometers, more than three miles and a half, some places.

The Americans fought day and night without sleep. Officers said they scarcely understood how men could go further, but when they were called to attack after two days of almost ceaseless fighting, they tore forward.

A corporal brought in eight prisoners after the line was established near St. Pienne.

Can't Get Away With It. Machine guns on the flank poured an infuriating fire into the American positions that caused considerable trouble.

Reporting to headquarters, the corporal said: "No boche can shoot the clothes off my helmet, and get away with it. We get these, and more will be right in."

The Germans are reported to be concentrating heavily behind Bonnage, which forms the exact center of the enemy front between the Meuse and the Argonne massif.

Their artillery is extremely dense here, and their machine guns are believed to have been drawn up in great numbers.

At the same time a great movement of German artillery is reported under way toward the rear, indicating that this concentration may be preparation for a big rear guard action, opening a further withdrawal.

Gathering Artillery. Much of the artillery now going backward is being stationed in the vicinity of Grandpre. This village guards the eastern entrance to the cut through the Argonne Forest, along which the Meuse has a railway running.

Two fokker battle planes attached to an American observation plane with in five minutes both enemy machines had been shot down.

Attack In Dark. Attacking under cover of yesterday morning's darkness, the French and Americans caught the Austro-Germans completely by surprise and advanced more than a mile and a quarter in the initial rush.

With the coming of daylight, the resistance stiffened, but the Allies ahead ahead and made great strides into the enemy lines at some points.

Progress in this sector is extremely important as it removes the danger to the American flank along the Meuse and has routed out German artillery nests which made the American positions on the river unworkable.

Germans Under Spur of Necessity Attempt the Most Desperate Resistance of the War Without Success

By WILLIAM PHILIP BIMMS

PARIS, Oct. 9.—The German armies are attempting the most desperate resistance of the war.

They have been commanded to hold or die, to give the allies the impression that they have not yet been beaten, while Berlin proceeds with its true plan.

In default of sufficient field artillery the Germans are massing all available trench mortars, howitzers and high velocity guns at critical points, to their efforts to stop the slow, ceaseless allied advances, while from Russia, the Ukraine and the east generally, every possible German soldier is being hurried into the war's bloody maw in the west.

Hospitals Asked for Men. Hospitals throughout Germany have been raked of nearly-fit convalescents. Reports have been received here that a large number would be attempted in the event that President Wilson's reply to the armistice proposal was unfavorable, as a last resort to prevent total collapse of the empire.

# LENINE'S DAYS IN RUSSIA ARE ABOUT TO END

### Regeneration of Entire Country Proceeding Rapidly—Factional Differences Laid Aside for Common Good

#### AMBASSADOR IS DAILY ADVISED OF PROGRESS

#### Bolshevik Authority Nowhere Recognized Outside of Petrograd and Will of People Gradually Uniting

By JOSEPH SHAPLIN

WASHINGTON, Oct. 9.—The conference of Russia from the disease of Bolshevism is proceeding at a remarkably rapid pace. With the exception of Chelmskoy and terrorized cities and districts of Petrograd and Moscow, there is virtually no place in Russia where the power of Lenin and Trotsky is exercised, cables to the Russian embassy indicated to-day.

All the nationalities inhabiting Russia have once more united for the cause of a free and prosperous land. Only the nationalities of the Caucasus and the Ukraine have not yet had an opportunity to offer their allegiance to the Russian government formed at Ufa.

German Interests.

This is not due to their opposition to the new government. The Ukraine is helpless for the time being due to the presence of a German army numbering nearly half a million. The Caucasus is in a similar plight, due to Turkish-German occupation. Even the people of the Baltic provinces are represented in the new Russian government, as Esthonian delegates have continued to attend the great conference at Ufa, where the new Russian government, responsible to no one but the constituent assembly and commanding the allegiance of the whole of Russia, was formed.

Ambassador Baklanoff is in constant touch with the new government which is keeping him advised of every move being made in Russia for the regeneration of Russia, its reentrance into the world and the abrogation of the Brest-Litovsk treaty and the restoration of the nation's unity and inhabitants.

All principal differences between the respective factions and regions reported in the new government have been swept away and the overwhelming majority of the Russian people is once more united in the cause of building the new free Russia under the guidance of the constituent assembly, the parliament of Russia, representing the will of all the people as against the bloody oligarchy of Danzas and Trotsky, the cables to Ambassador Baklanoff show. The ambassador himself would make no statement. He permitted the publication of the latest cables received by him, stating that they speak for themselves.

According to the cables, the national convention at Ufa, was composed of all members of the constituent assembly, representative of the temporary government of Siberia, the Ural, north of Russia and Bashonia, representatives of the Cossacks of Orenburg, Tula, Simbira, Astrakhan, Samarkand, and Astrakhan; representatives of the governments of the Baschkirs and Kirghis and Turkestan and the Tatars of Inner Russia and Siberia; representatives of the conversion of Municipalities and Zemstvos of Siberia, the Ural and the Volga; of the social revolutionary, social-democrats, socialist labor and constitutional-democratic parties of the social-democratic group "Tolstoy" and the association for the rebirth of Russia.

United in Common Cause.

This government unites the overwhelming majority of the Russian peasants, democratic, bourgeois and the intellectual classes of Russia, in the common cause of saving the country and the revolution. The chief consideration of the new government is the formation of a premature peace by the Allies and Germany before the re-entrance of Russia into the war.

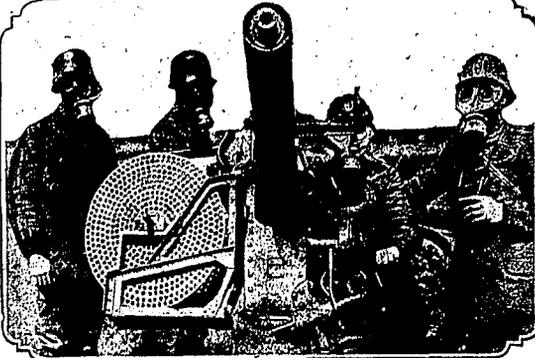

Ambassador Baklanoff is keeping the new government informed of every diplomatic move made by the United States in an effort to assure that the possibility of a premature and inconclusive peace is so remote as to be without the bounds of possibility.

The New Principles.

Cables received at the Russian embassy outlined in detail the principles on which the new government is founded, they are:

- 1—Until the moment of the convocation of the constituent assembly this government's sole possession of supreme power over the whole territory of Russia.
- 2—On order of the Russian provision-

## Fritz Loses Even With New War Weapon

That it's the heart of a fighter which wins battles—not necessarily the equipment—was never better illustrated than in the recent action on the western front. Here is shown the newest and latest in war weapons to be used by the Hun—a German machine gun which is said to fire small shells with the rapidity of the bullet firing machine. And still the Hun is whipped and is losing. For Fritz's still thinks he can spread terror and fear among the allies. Notice how he dons the hideous gas mask thinking the looks of the ally will frighten him.

## LACKS FAITH IN PEACE PROPOSAL

### British Ministry of Munitions Questions Sincerity of Hun Government

LONDON, Oct. 9.—Winston Churchill, British minister of munitions, speaking here, expressed lack of faith in the purpose of the new German government as outlined in the latest German peace proposals.

"The last proposals of peace from Germany fill me with misgivings," he said. "A new government has been formed, but is it a government of resistance or massacre?"

"We cannot accept smooth words as explanation for foul deeds. We cannot stop without a guarantee. Wilson, Clemenceau and Lloyd-George cannot be trapped."

"Owing to the shortness of the season in France and the uncertainty that our demands will receive the required recognition, we have no right to court the immediate end of the war."

Three men out of a group of seven walking up from the Short Line depot were knocked down and hurt by a Ford car driven by Joe Gregoropoulos on Shoshone street just at about 5:30 o'clock Monday afternoon. The injured men are W. A. Miller, over whose body the car passed inflicting internal injuries; M. D. Slaton and Carley Jackson, each struck by the side of the car receiving flesh wounds and bruises about the legs. All are employees of the Burnell Canning factory, which showed at Filer during fair week and which is here this week. The driver of the car explained that he was in a hurry to reach the depot to inspect the men who were coming on the train due at that time. Witness state that the men who were struck were walking toward the car on the left side of the street, and that the car swerved from its course and plunged into them.

## German U-Boats Are Still Off East Coast

### Italian Steamship Sunk by a Torpedo Within Three Hundred Miles of Land

WASHINGTON, Oct. 9.—The Italian steamship *Alberico Torres* was torpedoed October 3 about 300 miles from the American coast, the navy department announced today. Thirteen survivors have been picked up by the auxiliary *Oriska*.

Two other boats with 21 men are missing. The *Treves* was a vessel of 3338 gross tons and was owned in Genoa.

## WILL DIVIDE UP DUAL MONARCHY

### Head of New Czechoslovak Nation Says Austria-Hungary Must Be Wiped Out

CHICAGO, Oct. 9.—That Austria-Hungary must be wiped off the map, giving autonomy to its many nationalities, is the opinion expressed here today by Professor Thomas G. Masaryk, head of the new Czechoslovak nation.

"The freedom of the oppressed nation can never be guaranteed while its dual monarchy dominates them and is itself dominated by Germany," said Professor Masaryk. "Germany merely uses Austria as a bridge to Constantinople," he said.

Masaryk was here to take part in the Illinois centennial celebrations.

## Time Not Ripe For Peace

### MADRID, Oct. 9.—The latest German peace proposal has stirred officials and newspapers of Spain. The consensus of opinion is that the time for peace talk will be not until the Allies have entered German territory and vanquished the enemy.

The *Diario Universal* says: "It is clear the Allies cannot trust the Germans until they enter German territory, realizing that the Kaiser is trying to save the dynasty."

"The peace Germany has demanded is not peace," declares the *Opinion*. "Vanquished peace is not here because Germany has not accepted President Wilson's conditions without modifications."

Mrs. F. E. Cornwall of Moscow, Idaho, has advised here for an extended visit at the home of her daughter, Mrs. J. Frank Martin.

## BRISBANE AGAIN IN LIMELIGHT

### New Charges in Purchase of Washington Times by Hearst Editor

WASHINGTON, Oct. 9.—Senator Jones, Washington, author of the resolution for an investigation of the alleged purchase of the *Washington Times* for Arthur Brisbane by a group of brewers, today submitted to the committee investigating this question, additional charges relating to the brewery interests of the country.

Jones, in urging that the committee make its investigation over the widest scope, declared evidence exists to show that the liquor interests have been aiding, financially and otherwise various pro-German organizations in this country.

He declared the German-American Alliance, the National Association of Commerce of Labor and the United States Brewers' Association were all connected through various transactions. Jones advised the committee where it could obtain evidence.

## HOLD CANAL COMPANY TO BLAME FOR LOSS

### Landowners Base Action for Damages on Alleged Failure of Crops Lacking Water

Demanding damages in the sum of \$2,500 for crop failure resulting, it is alleged, from the failure of the Twin Falls Canal company to deliver adequate irrigation water throughout the season, the lands on which the crops were planted, Mary Alice Damman and Frank B. Damman, brother and sister, and their tenant, L. P. Hamilton, through their attorneys, S. T. Hamilton and T. H. Hamann, requested the action in district court here against the Canal company. The crops affected include 42 acres of wheat and alfalfa, it is alleged. The complaint recites that Edwin Damman, brother of the plaintiff Damman, requested the Canal company from certain lands owned by him which were not cultivated this year to the lands in question in the suit. It is alleged that the Canal company, upon some time in July, furnished this water.

The weekly assembly hour for the students of the Twin Falls high school in the auditorium this morning was given over to a Red Cross program, arranged by Miss Brown, instructor in public speaking. Mrs. W. F. Edwards, chairman of the Twin Falls County Red Cross chapter committee on military relief, explained the work millions of women over the country are engaged in for the relief of soldiers and sailors and exhibited sample sweaters, socks, bandages, etc. Talks were made on the Red Cross organization by Miss Gertrude Shurtlett, and on the Red Cross work by Miss Loyce Lee. Miss Berdyl Hiltner read a poem, "America, the beautiful." The high school band interspersed the program with instrumental musical selections.

## PROPAGANDISTS INFEST SPAIN IN THOUSANDS

### Germany Spending Millions in Effort to Turn Spanish People Against Allies and Allied War Aims

### TO SECURE MARKET FOR AFTER-THE-WAR GOODS

### Object of Efforts Largely With View to Establishing Outlet for German Manufacturers When Peace Comes

LONDON, September 14 (By Mail).—German gold is being spent freely in Spain in an effort to prevent that country from jumping into the war on the side of the Allies.

According to reports received here from Madrid there are 120,000 Germans in Spain. Many of them came before the war. Italy, Portugal and those south American countries which have joined the Allies, contributed most of the others. A number of fighting men from Italy and Spain are being blocked by the rigorously guarded French and Portuguese frontiers, neither interned nor un-interned could easily get away. But most of them are satisfied to stay.

At Malaga, Seville, Balboa and Barcelona, German officers, the finest villas, drive the finest horses, hunt the crabs and bull rings, belong to the most exclusive clubs and appear at the smart functions. They are the heaviest contributors to popular charities. They talk of the hardships forced upon neutrals by "the greed of the entente," and speak eloquently of the German "affection" for the Spaniards.

## Insidious Propaganda

They take especial delight in prodding the Spaniards about British possession of Gibraltar pointing out that Spain has at least an opportunity to recover her glory, and that the Kaiser desires nothing more ardently than to see her do so.

Sometimes a situation arises which is embarrassing to the Hun. This is especially true when reports of German atrocities are received or when "caricatures" submitted to a Spanish newspaper. Or when the *Washington Times* newspaper, El Sol exposes the efforts of the German Embassy in Madrid to subsidize the anarchist party in Barcelona.

Then the Hun lies low. The subtitled papers try to come to the rescue. When the scalding blows over the Germans reappear and continue their work of pushing the falsehoods.

They are looking forward to the end of the war for Spain is expected to be their best market and they are trying to make it over into a German preserve.

All Germans in Spain are plentifully supplied with cash. Those who were poor have been provided with funds by their fellow-countrymen, or by German consuls. These Germans have no scruples. When they find it desirable they pose as Dutchmen, Scandinavians or Swis.

# DECLARES FOILUS LAUD AMERICAN FIGHTING MEN

Master Signal Electrician James H. Harvey of Twin Falls Tells of Respect French Have for New Allies

"The French have lots of respect for the fighting ability of our boys up front, and lose no opportunity to tell you about it, but they can't understand our ways or the youth of most of our troops; to them we are just a bunch of kids on a 'plank,'" says Master Signal Electrician James H. Harvey, a graduate of the Twin Falls high school of the class of 1915, who is stationed now as a member of the aviation section at the radio schools at Tours, France.

"The majority of the French soldiers I have seen," he continues, "must be around 30 or 35 years of age, and most of them have such a crop of whiskers I should think it would take a special type of gas mask to accommodate it all."

### Tobacco a Passport

Henry Howe got over some three weeks ago with his company, and was sent to the headquarters in Tours on detached service. Last Sunday Henry and I walked over to an old chateau near the field here. While looking over the grounds, we met the old keeper of the garden and I gave him a can of P. A. tobacco in any form is a passport over here. He took us into his house by the gate and showed us all his guns, medals, wounds, trinkets, and, in fact, nearly everything he had. He had been a soldier for fifteen years and surely saw some active service, too. He had wounds scars all over his body and about as many medals and ribbons.

### Mixed Conversational Means

"After that, he took us over to a farm house, picked up one of his old buddies, and we went out under a tree for conversation. His friend had been a prisoner in Germany for eight months during this war, and had been exchanged and discharged. He could speak a bit of German, so by the mixture of what German I could remember from high school days, the French picked up, a sprinkling of English and 'besaucoup' arm waving and gestures, we got along fine."

## HOLD SUFFRAGE A VITAL ISSUE

Daughters of American Revolution Disagree With Federation Head

Members of the Daughters of the American Revolution of Twin Falls have gone on record as opposing the statement credited by the Christian Science Monitor, Boston, to Mrs. M. J. Giffin, president of the State Federation of Women's clubs, as follows:

Mrs. Sweeley expressed the opinion of the Republican women generally in her reply to a portion of the club women of northern Idaho who asked advice concerning what advice they should take regarding Senator Borah. She says, "As president of the Federation of Women's clubs, I cannot mingle in politics, but as a Republican I would stamp the state for Senator Borah before I would see him defeated because of his refusal to vote for woman suffrage. As women we cannot afford to be so narrow as to disregard the greatness of a man because he has not agreed with us on one particular."

A communication from the Daughters of the American Revolution of Twin Falls says, "We wish to go on record as opposing the sentiments expressed by the president of the Federation of Women's Clubs of Idaho in the Christian Science Monitor of September 16, when she states that the women of Idaho are big to oppose a great man as Senator Borah for his disagreement with them on the subject of the Susan B. Anthony amendment to the federal constitution. Rather do we hope that the women of Idaho will be behind the national issue which is necessary to complete the democratry of our country."

### FIX IS ELECTED CAPTAIN OF HIGH SCHOOL ELEVEN

Strong Football Team is Developed by Coach D. A. Hiles—Games Only Lacking

Members of the Twin Falls high school football team, at a meeting convened by Coach D. A. Hiles, Tuesday afternoon, elected Philip Fix, end, captain of the team for the coming season. Under the leadership of Coach Hiles a strong football eleven has been developed in the high school this year, and the only serious lack is for games with the teams of neighboring schools. Buhl high school will not place a team in the field this year, it is announced, but hopes are entertained of scheduling games with Rupert, Burley or Jerome.

THE WAY THE WIND BLOWS

Politics, according to Webster's, is the science and art of government. A politician, in the same sense, is one who is conversed and experienced in the science of government.

Politics have, as a matter of right, nothing to do with the larger portion of offices that are filled at elections.

As a matter of practice, however, the situation is frequently quite different. A sheriff, is elected because so happens to bear the brand of the political party that predominates in the election.

That is what makes for efficiency in a banking institution.

The best-man-for-the-job principle is what makes for efficiency in any institution.

The neglect of that principle is what makes for inefficiency and maladministration in public offices.

Failure to apply this common-sense principle is the reason that men who have conspicuously failed to do anything for themselves, their families or anybody else, frequently find themselves encoiled in a lucrative public job.

They get on the ticket. Party leaders discuss the governmental issues at stake, and the candidates ride into administrative offices for which they are wholly unfit, because a majority of the people do not or favor state owned elevators, or something else.

Twin Falls county is happily free, to quite an extent, from the evil effects of this practice. The people who have settled in this section left their stone age prejudices behind them when they immigrated to a country where things count for what they are worth-to a country where things are done for reason instead of through habit.

That is why the county offices of this county are filled today with men who are rated Republicans and others who are classified as Democrats, and the Republicans and Democrats alike, with one or two exceptions, have rendered a good account of themselves in the administration of their offices.

It isn't apparent how the assessor's office would be improved by replacing the present incumbent with a Democrat. Nor is it apparent that the sheriff's office would have been better off with a Republican in office for the past two years.

Yet there are those who profess to think so. Not so many, perhaps, but a few who manage to make their influence felt.

Webster's has a definition for them, too. Those "primarily interested in political offices of their profile," is the definition of the dictionary, and their sort of politics is defined by the same authority as "artful and dishonest management to secure the success of political candidates of parties."

The success of governmental policies and principles for which parties exist, concern them not at all. Their interest is in the by-product.

Practically all of the evils-and probably none of the benefits-of our governmental system come from this class-the professional politicians.

They are recognized by their political machines, their newspapers and their patronage.

Eliminate politics from the public offices that are administrative and not political and you have eliminated most of the things in our political system for which we now apologize.

Ignorance, indifference, neglect and constant disgust is what has perpetuated this system in the past.

Abandonment of traditions and prejudices, and the application of common sense will bring about an entirely different state of affairs. And even the blind can note the steady trend in this direction.

We take it that in this county there is not a hopeless divergence of opinion as to what general trend legislation should follow in the next legislature.

First, and foremost, of course, are necessary measures. Following these, in importance, is the enactment of legislation that will tend to bring the producer and consumer into closer touch.

We are not particularly frightened by some of the proposals along this latter line that have been made. We are not opposed to the development of the undeveloped resources of the state-by the state. It may be an experiment-but every testing, worth-while thing under the sun was at some time or another, an experiment. It may be Socialism, but our systems are becoming pretty well inundated with it, and we are still living!

On these issues, we repeat, there is no wide-divergence of opinion in this county-or between the people living in its cities or on its farms.

The difference of opinion will come as to the men and women-for we hope to see a woman among them-when we send to the legislature, or when translating this program into fruitful legislation.

Of the two candidates for the state senate, we prefer Mr. J. H. Seaver, of Caldwell. Mr. Seaver is not the creature of any political machine. He is a progressive and substantial farmer, successful, so far as we know, in everything he has undertaken. Mr. Seaver was a few years ago one of the prominent business men of Twin Falls, having for several years occupied the position of manager of the power company. At present, we understand, he is interested with other men in the promotion of a mutual electric company in this county, along lines similar to the organization of the canal company. With the development of the undeveloped power resources of the state as one of the issues of the campaign, a more competent man of unquestioned integrity could not be found in southern Idaho than Mr. Seaver. His opponent is known only as the head of a new political party in this county. The public has not been informed of any particular qualifications he may have for the office of senator.

Of the six candidates for the assembly, we are somewhat skeptical of one-perhaps without just cause-and positively opposed to another. Both have heretofore been associated with the Socialist party.

We do not wish to see Twin Falls county represented in the next assembly by a delegation two-thirds Socialist, for the simple reason that this county is not even one-third Socialist.

We feel that it would be no small misfortune, but an unsupportable crime and offense to the men we have sent overseas, to contribute to a Socialist-controlled assembly. If Twin Falls county sends a Socialist to the legislature, and as clean-cut a man as we understand Mr. E. L. Little-one of the candidates-to be, and the Socialists are represented by the assembly only in proportion to their numbers throughout the state, not only would no harm result, but much benefit might accrue. For, as we view it, Americanism is the product of the best everything has to offer, the product of the conflict of ideas where only the sterling stuff lasts.

However, Mr. Little was defeated for the state legislature two years ago. He was rejected then because of his political beliefs. His political beliefs have probably not changed since then, and while we have witnessed some progress nationally toward the ideals which that belief embraces, yet we believe

Exterminate Them

that the people, including the men who have gone overseas from this county, are not as firmly opposed to entrusting the government to Socialist control as they were two years ago. If there is to be any radical changes we are, possibly, to the boys "over there" to postpone that change until they have an opportunity to be heard. We live in peace at home while they sacrifice their lives abroad for governmental ideals of which we are justly proud-granting their defects. Should we take a single step in the direction of substituting an entirely new color at this time?

But a much more potential objection is raised to Mr. Berger, who is running on the same ticket.

In a speech at Piler not long ago, Mr. Berger offered what was, in effect, an apology for the German soldier. The German soldier, we believe, is the vandul who has committed practically every atrocity known to mankind through any of the ages. It was not the Hun War Lords who ravished the Belgian and French women, or who cut the throats of captured American soldiers. Couple with Mr. Berger's conception of the German soldier's position, the fact that Mr. Berger is himself a German citizen by birth, a former German soldier, and an American who has been affiliated with a party that has been interred to shreds because of its internal disagreements over the question of loyalty to American institutions, and our objection to Mr. Berger becomes apparent. Under all of the circumstances it is difficult to understand how Mr. Berger would consent to become a candidate for the legislature in such times as these, and having consented, it becomes all the more proper that he should be overwhelmingly rejected.

Mr. F. H. Woodruff we hope to re-elected. His standing as a citizen is of the highest grade, and Mr. Woodruff is supposedly the candidate of the labor element of the county. Organized labor is to be congratulated in having put forth so generally acceptable a man.

Mr. J. E. White has always been a tireless worker in the interests of the farmers, and with her husband, Captain White, until he joined the colors, gave most freely of her time and ability in furthering every patriotic effort which the county undertook. This is entirely aside from the consideration that, in a state where women have long exercised the right of franchise, it is only fitting that who so capable a woman as Mrs. White becomes a candidate for the legislature, she should be favorably considered by voters of all parties.

The other two candidates, Mr. J. H. Conover and Mr. Carl J. Miller, are estimable gentlemen, both having large farming interests-men whose interests are identical with the farming classes of the county. They are also men whose qualifications lend assurance that, if elected, either of them would be effective instruments in shaping intelligent legislation.

## SMYRNA SEEKS SEPARATE PEACE WITH THE ALLIES

### Governor of Turkish Province Expected at Athens to Discuss Peace

LONDON, Oct. 9.—A dispatch from Athens, dated September 26, stated that Bahri Bey, governor of the Turkish province of Smyrna, was expected to arrive in Athens that night to discuss peace.

Defection of Smyrna, the most important Turkish province in Asia Minor, is said, would completely undermine Turkish resistance in that territory, permitting the armies of General Allenby and General Marshall to move practically at will to the southern gateway of Constantinople.

## WHEAT MUST WAIT FOR MOVEMENT OF MUNITIONS

### Patience Will Pay Growers, Says Herbert Hoover, National Food Administrator

If holders will have a little patience, wheat will all be moved and the full price will be secured by every grower, says Herbert Hoover, national food administrator, announcing a temporary diversion of grain ships to transportation of military supplies and general sustenance of the grain movement. Hoover's statement is given in the following telegram received through the state food administration by County Food Administrator C. E. Hanson:

Enlarged demands by General Pershing for material resulting from progress on the western front, has necessitated temporary diversion of grain ships to this service. This temporary curtailment of the grain movement from the seaboard and has filled our seasonal and terminal elevators and thus checks the movement. It is reported that some farmers have become impatient and are selling wheat at less than the governmental price. There is no occasion for this. If the holders will have a little patience, wheat will all be moved and the full price will be secured by every grower.

## LOCAL BRIEFS

### IS BOUND FOR BERLIN

Charles Desbroux, of Twin Falls, who enlisted a year ago in the marine corps, was scheduled to embark on Tuesday of this week for overseas service, according to a letter received by Mrs. and Mrs. G. ## FLAT BROKE AND SICK

### Battling Nelson, Former Lightweight Champion, Out of Luck

CHICAGO, Oct. 9.—Battling Nelson, former champion, is in a hospital here with Spanish influenza, in flat luck.

The former lightweight champion boxer, who in his palmy days was wealthy, appealed to his friends today for aid.

"I am not asking charity," said Nelson. "All I want is the return of some of the \$25,000 I loaned friends in the days when I had plenty."

The Durbin-Dunn said his father had tied up all his property at Bogalich, Ill., and refused to aid him. He has not enough to pay his hospital bills, he said.

Nelson is threatened with pneumonia. Advertisers in the Classified columns of The News. Somebody will want it.

COUNCIL WOULD PASS ON SLAVS COMING HERE

Directs City Attorney to Draft Ordinance Embodying a License Fee

The Twin Falls city council purposes to allow level a measure of discretionary power in the granting of permits for performance here of circuses, street shows, carnivals and other amusement enterprises coming under the jurisdiction of the city administration. With this end in view the council at its meeting Monday night, last, directed City Attorney John R. Davies to draft an ordinance, embodying in it an increased schedule of license fees and providing that the terms shall be made elastic enough so that the council may exercise its discretion in the issuance of permits to such enterprises.

Labors Want Basis. The council at this meeting also tabbed for further consideration a petition of the laborers in the employ of the city asking for an increase in wages of from \$3.00 to \$4.00 per day.

The report of City Engineer E. V. Herg, estimating the cost of the proposed new sewer to serve the High School, Blue Lakes, Golden Hole, New School, Moorman and De Long additions, at \$20,510, was filed.

Warrants were ordered drawn in the total sum of \$17,532.50 in payment of the High School, as contracts for trenching and supplying of wood stave pipe for the municipal waterworks improvement work.

## PRESBYTERIANS MEET AT SYNOD IN TWIN FALLS

Rev. E. N. Murphy of Boise is Elected Moderator at Opening Business Meeting—Sessions Continued Three Days

Delegates from all over Idaho except a portion of the north end of the state which is included in another district, arrived here Tuesday afternoon to attend the sessions of the synod of the Idaho Presbyterian church, beginning Thursday evening and closing Thursday evening.

At the meeting Tuesday evening the following synodical officers were elected: Moderator, Rev. E. N. Murphy, Boise; stated clerk, Dr. C. W. Barnum, Boise; permanent clerk, Rev. W. S. Williams, M. D.; temporary clerk, Elder C. T. Hawk, Caldwell.

Dr. Hugh W. Hankin of Pocatello, for many years superintendent of Sunday school missions in Idaho, acted as presiding officer.

Rev. C. C. Babidge, D. D., of the Hazelton and Eden churches, preached the opening sermon in the place of the Rev. Wayne B. Snoddy, who recently resigned his field at Epwary to accept a call to the Presbyterian church of Moscow. Dr. Babidge spoke on "Our Duty to Others," in which he cited instances of neglected fields and individuals as well as the popular appeal for a better understanding between the United States and Japan, and showed clearly the natural love which the Japanese have for America. This feeling dates back to the time of the opening of Japan to the world through the fine work of our own Commodore Perry.

The synod will continue in session today and tomorrow. All sessions are open to the public, and the public is most heartily invited to attend. Committees reports and action on them occupies the day sessions, but many field men representing the boards of the church are present and the day sessions are interesting as well as the popular sessions in the evening at 8 o'clock. On Wednesday, at 10:30, the Presbyterian women of the synod are meeting to form a women's synodical organization.

A popular meeting will be held Wednesday night at 7:30 and board members from New York City will make the addresses. Dr. Richard Hughes of New York will give an address on "Putting the Church on a War Basis," and Dr. George T. Scott of the Foreign Mission board will give an address on "The Crusade for a World Brotherhood."

The music at the meetings is under the direction of Austin B. Thomas. Mr. Thomas gave a recital before synod last night.

On Thursday night at 8 o'clock an historical program in celebration of the nineteenth meeting of synod will be given in the auditorium. Dr. Barton of Boise will speak on "Laying the Foundation of Presbyterianism in Idaho," and Dr. Bodee, president of the College of Idaho at Caldwell, will speak on "Origins of Religious Education in Our State."

## VERDUN FREE OF GERMAN CANNON

### Menace of Domination of Hun Artillery Removed After Four Years of Effort

By FRED H. FERBURN

WITH THE AMERICAN FIRST Army, Oct. 9.—Verdun is now freed from German artillery domination, as was "Bethuns."

Success of the Franco-American attack east of the Meuse, which began yesterday, also has released the famous city from the enemy's four year grip.

Fighting over fields which had been stilled by batteries since 1916, the French and Americans have advanced more than two miles on a front of about seven miles.

This operation also has greatly strengthened the right flank of the American line west of the Meuse. Although heavy rains over the whole front have made the going difficult, pressure against the Kirembell Stellung is increasing all along the line. The Germans between the Meuse and the Argonne forest are being shoved back a considerable distance.

### FRENCH AND YANKS HAVE HUNG IN TIGHT POCKET

(Continued from Page One)

"First reports stated that rapid progress was made everywhere.

"Shortly after midnight, the Canadians attacked, north of Cambrai. Hannulles was captured and the crossing of the Escaut canal severed in the neighborhood of the village. We have entered Cambrai.

"The number of prisoners taken yesterday exceeds 8,000. Many guns also were taken.

"We made further progress yesterday evening at Soulehat in the direction of Bohain and Maretz. We reached the western outskirts of Wargemont and gained the line of the La Targete railroad road, capturing Perwezville.

### Three Miles of Enemy Front Captured

PARIS, Oct. 9.—Capture of German positions on a three-mile front southwest of St. Quentin was announced today by the French war office.

German counter-attacks were repulsed along the Arnes river. There was violent artillery fighting along the line and the Suippe.

### German Loose Heavy

During the night, in the region southwest of St. Quentin, the Germans bitterly defended German positions between Harly and Neuville-St. Armand," the communique said. "The latter village is outflanked from the north.

"There were violent artillery bombardments south of the Oise and on the Suippe front.

"North of the Arnes, the Germans unsuccessfully tried to offset our gains of yesterday. They incurred heavy losses. On the Arnes front yesterday, we took more than 600 prisoners."

### Yankees Take 3,000 Prisoners

WASHINGTON, Oct. 9.—Capture of Gornay by the Americans, liberation of four other villages and a bag of 3,000 prisoners Tuesday, was reported by General Pershing today.

French troops operating in conjunction with the Americans have driven the enemy well beyond the captured villages east of the Meuse and are continuing to pursue. The communication follows:

### Capture Gornay

"We captured Gornay and against stubborn fighting, continued our advance in the Argonne forest. East of the Meuse, French and American troops, serving with the first army, made a brilliant attack in the vicinity of the Bois Des Caures d'Haumont. The villages of Consecroy, Brabant, Haumont and Beaumont have been taken.

and the enemy has been driven well beyond them.

### Occupy Many Towns

"On both banks of the Meuse, our own troops and the French are now pushing the enemy from the zone of the desperate fighting for Verdun. The number of prisoners taken as the result of the day's operations exceeds 3,000. Of these over 1,500 were taken by French units east of the Meuse. This brings the total number captured by our command in the last few days to over 4,000. The French also captured in mortars of large calibre and other material."

### Gradually Tightening

"The Lann soldiers are gradually tightening. The British and Americans are driving one prong of the pincers deeper behind St. Quentin and Cambrai while the French and Americans are doing the same between Rheims and Verdun.

"Short of guns, ammunition, airplanes and reserves, Ludendorff is frantically shutting what he has from the point of view, that, fighting an ever increasing battle.

## PRESIDENT IS PLANNING CALL UPON CONGRESS

(Continued from Page One)

demand for evacuation as a peace preliminary. This goes farther than any demand to date and even those who criticize the form hold that the substance of that paragraph showed clearly that there is no disposition to talk peace except on our own terms.

It became known that the President's declaration for evacuation of occupied territories before an armistice did not contemplate the evacuation of invaded territory and the intention, as shown by the President's fourteen point peace terms, to leave the righting of the wrong done France, to determination in the final peace conference.

### Alsace Goes Back

It was said by a high authority that this "righting" was upon the interpretation of the return of Alsace-Lorraine to France.

Outside diplomats were plainly relieved at the method the President pursued. He designated this action as a notice to Germany that she might come around to the American-Ally viewpoint or be punished to defeat by the onward pressing United States-Ally armies.

It has long been an Allied condition that evacuation must precede any peace treaty. President Wilson includes that for the first time, and it is said today, he meant evacuation of France, Belgium, Serbia, Italy and Rumania and removal of submarines from the high seas.

Neither the Allies nor America will consider any temporary armistice. It was authoritatively stated today.

"If Germany wants to arrange the 'practical details' of the application of President Wilson's peace terms, she can do so, but she will have to arrange them and there for a permanent armistice, officials say.

### HUN'S DEFENSES

(Continued from page one)

Situation Serious

The Americans recaptured the battalion which was cut off and surrounded in the Argonne for five days and pushed on today. It is known the situation of the Germans in the northern part of the forest is serious. Further American advance will oblige withdrawal from the forest as far as Grandpre.

Along the Aisne the Americans have improved the position they captured Monday.

Our artillery has caused more than 24 fires behind the German positions.

## PRESS OF NATION PRAISES WILSON'S PEACE MANEUVER

(Continued from page one)

### kaiser's stalling horse.

### Fears Hit

The Herald said the note: "The danger is that its sending may cause the rulers of Germany a confidence in their ability to win this war by diplomacy—thereby postponing the day of their unconditional surrender—and to the peoples of Germany and Austria-Hungary received confidence in the ability of their governments to juggle the allies into a negotiated, therefore Prussian, peace; while in this capacity its sending may weaken the enthusiasm for the sending and much needed Liberty Loan."

The reply of President Wilson to the recent peace proposal of the German chancellor opens a possibility "for ending the war," declared the Staats Zeitung.

### Good Faith Questioned

The Chicago Tribune says editorially:

"The Chicago has met the direct approach of the German chancellor with unswerving skill. Maximilian's request was ambiguous but we believe it was intended to be ambiguous.

"If it was sincere, the president has now given him the opportunity to prove his sincerity by making the German offer clear. He (the president) has given the German people stern warning of the terms upon which they must seek peace."

New York Evening World: The German government can offer the United States no satisfactory explanation of what chancellor Max's peace proposals meant without effecting itself along further downward toward the point of preparation for the only kind of peace Germany is going to get."

### Nails Hun Down

Cleveland Plaindealer: "President Wilson's reply does not directly bring peace nearer. But in accordance with the Wilson way of doing things, it does nail Germany down to actuality, and thus clarifies the methods by which Germany must seek peace. Therefore, by indirection, peace is brought nearer. It will not come by the way of Maximilian; it will not come by any way that Vladimir arranges and lays out. It will come when the German people speak, and speak unmistakably their surrender to the terms civilization has fixed.

Milwaukee Sentinel: "The reply is firm and unswerving, but so arid that it puts the counterpoint war upon Germany's rulers."

Antient Thrasalolika: "British soldiers out at Salonika have little love to spare for the place. 'They say out there,' remarked a Welsh war horse on leave, 'that it dropped out of God's pocket.' Yet 18 centuries ago it had a Christian church so important that St. Paul devoted to it two of his immortal epistles.
