The German defenses on the west front are ugain crumb-ling under the fierce hammering of the Allies on various im-portant sectors from the Dutch border to Verdun. The immericans are rapidly closing the narrow gap in the Meuse region, through which the Germans must pass in their retirement south of the Ardennes. They are reported with in less than four miles of Stenay, the historic Meuse cross-ing. Seizure of this point will eventually split the German

armies.

The Germans are reported to be withdrawing their heavy artillery through Metz and great activity is discerned back of the enemy lines in the Woevre region, indicating that a new retirement is about to be effected from the front established after the St. Mihlel salient was wiped out. The important German railway line through Mexicres is now under fire from American field artillery, while naval units are rushing up their monster guns to bombard enemy positions in the whole region from Metz to Mexicres.

Military experts forecast the use of veteran Italian mountain troops in an immediate-trip through Alsace and Loraine. The British opened a now attack this morning on a wide front south of the Scheldt, where they are driving toward Maubaeuge and Mons, astride the France Belgian frontier.

The Belgians have pushed their lines nearly fifteen miles farther eastward along the Holland boundary to within twenty-six miles of Antwerp. They are unofficially reported to have captured Ghent. On the right wing of this advance, French and Americaus have crossed the Scheldt, and established bridgeheads north of Audenarde, where they are twenty-nine miles from Brussels. The British are across the Scheldt north of Tournai.

The French bombarded the German lines last night along the whole Aisne, front from Rethel to Semuy, apparently in preparation for resumption of the advance on the left of the American first army.

These statements are being made with the idea of bucking up the books soldiers. Many enomy divisions have had no relief for weeks, owing to the constant allied assults, and gramphing has broken out. The Swenty-sixth division, opposing the Americans at one point, presented a petition to the commanding general, demanding to be taken out. As evidence of the vast change in discipline, the general replied to the petition, stating that the allies of individual constant of dermany and that the troops must fight on. That the Public **May Know**

That the undersigned members of organized labor resent the letter of President Park of the Idaho State Federation of Labor, that appeared in a recent Nonpartisan League publication, that urged organized labor to vote for the candidates indorsed by the Nonpartisan League.

That the undersigned members believe President Park and the Executive Committee of the Idaho State Federation of Labor exceeded their powers in this attempt to commit organized labor to the Nonpartisan League.

That organized labor had every reason to believe President Park when in August last he told members of his organization there was no connection or alignment whatever between the Nonpartisan League and organized labor.

That the action of President Park to whip organized labor into the Nonpartisan ranks has aroused our indignation and contempt for such an endeavor upon the part of the State Federation of Labor officials.

That his effort to throw the support of organized labor to the Nonpartisan League is an insult to the intelligence of labor, and that President Park and the Executive Committee of the Idaho State Federation of Labor is not vested with any political authority, and that they never have submitted to the various unions of the state for individual votes any proposition for or against any political action, and should they have attempted such a measure it would have been turned down.

No one man, or set of men, or organization, can deliver our votes, and in justice to organized labor we want the public to know these facts and that the names attached are those of American citizens first and union men second.

THE NONPARTISAN LEAGUE OF IDAHO ANSWERS:

Answer: The Nonpartisan League president and campaign manager in Idaho, W. G. Scholts, was ELECTED TO THE POSITION HE HOLDS BY THE MEMBERS OF THE IDAHO NONPARTISAN LEAGUE. He is responsible to the membership of the League, and to no one else, and can be re moved from his position at will by the membership of the Idaho Nonpartisan League.

Answer: Ray McKair is no mere in control of the Idaho Nonpartiaan League than is Frank Gooding, D. W. Davis or S. D. Taylor. Mr. McKaig is simply one of the field workers of the Maho League, working under the direction of the management which the Idaho League members them-selves elected. It is merely because of Mr. McKaig's convincing sincerity as a speaker and his ability as a field worker that the League's opponents single him out for false and libelous attack.

Answer: The candidates endorsed by the Nonpartisan League are under no pledge whatsoever to carry cut any instructions OR EVEN SUGGESTIONS from any officer or leader of the Nonpartisan League, in Idaho OR ANY PLACE ELSE. They are simply accountable to the people of Idaho in the carrying out of the League platform.

Answer: The many thousands of loyal Idaho farmers who are members of the Monpartisan League, can make oath that THEY THEMSELVES through their conventions and chosen representatives, and NOT A. C. Townley, control and dictate the policies of the Idaho Nonpartisan League A. C. Townley is not now nor has he ever been an I. W. W. or affiliated in any way with the I. W. W. and never in his life even saw Frank Little, the Butte agitator.

Answer: Arthur Le Sneur is not now nor has he ever been national secretary of the Nonnartisan League, nor has he ever been connected with the Ronpartisan League in a capacity that would give him the slightest voice in the direction of the Idaho campaign, control over its policies, or a word of authority to the candidates endorsed by it. Arthur Le Sueur's connection with the National Monpartisan League is as a lawyer HIRED TO OREY THE LEAGUE'S INSTRUCTIONS in legal matters.

Answer: Bill Haywood is not now nor has he ever been a member of the Monpartisan League, nor has Bill Haywood or any of his crowd ever SOUGHT THE ENDORSEMENT OF THE MONPAR-TISAN LEAGUE AS DID BOTH D. W. DAVIS AND FRANK R. GOODING, the twin heads of the Gooding-Davis political machine.

Answer: The Konpartisan League has endorsed every war policy of President Wilson. North Dakota, the only state politically controlled by the Nonpartisan League, has a better war activities Dancis, the only case posters and controlled by the dupler land administration is not now opposing nor has it ever opposed the Nonpartisan League, while on the contrary it recognizes that THE IN-TERESTS WHICH THE LEAGUE IS FIGHTING AND WHICH ARE FIGHTING THE LEAGUE, are op-

Answer: H. F. Samuels, Democratic nominee for governor, and every other candidate endorsed by the Nonpartisan League, has always ACTIVELY OPPOSED THE I. W. W. And LAST YRAE, BE-CAUSE OF H. F. SAMURLS' VIGOROUS OPPOSITION TO THE I. W. W. IN NORTH DAKOTA, THE I. W. W. BURNED A THREE-THOUSAND DOLLAR BARN ON MR. SAMUELS' RANCH AT SAM-UELS, IDAHO. Need more be said?

There, voters of Idaho, is a plain and unvarnished presentation of the "case" that the Gooding Davis machine, at an expense of hundreds of thousands of dollars, has been trying to make against the Konpartisan League and the candidates on the Democratic ticket endorsed by the League and there, too, are the TRUE AND UNDENIABLE ANEWERS TO THAT ALLEGED "CASE."

We sak you to remember that in not one word has the Gooding-Davis mackine ever daved attack the program or the platform of the Nonpartisan

Not one doubt as to the loyalty of any candidate endorsed by the Nospartisan League was ever raised by the Gooding-Davis machine UNTIL PRANK R. GOODING AND D. W. DAVIS THEMSELVES FAILED TO SECURE THE ENDORSEMENT OF THE LEAGUE.

And now the Nonpartisan League asks you to consider fairly, honestly and without passion, this brief recapitulation of the program and platform unanimously adopted by the members of the League in state convention:

- "1. We declare our undying loyalty, our maniterable develors to our beloved country at this time, when the soul of the nation is being tested in the fierce fires of tloftield, and we pledge, before God and maz, all that we have, all that we are and all that we hope to be, to America in her championably of civilization, democracy and
- "We indorse, without qualification, the masterly statement of war aims that our great national leader, Woodrow Wilson, has given to the world as America's purpose and to accomplish which the people of this nation have dedicated their fortunes and thair lives.
- "2. We call attention to the inskilous influences within our own nation that would undermine the very foundations upon which is builded the temple of democracy and which solfish and unboly metives would make of no avail the sacrifices, the price in blood and treasure, the supreme effort America makes at this memont to crush for all times the
 - "3. We urge attention to the danger from the profiteers who place above patriotism, dellars and blood-dreached dividenda.
 - "4. The paramount issue is to win the war.
 - "5. The chief qualification for office is toyalty-100 percent Americanism
- "G. Greater food production and better distribution being absolutely essential toward winning the war, we therefore pledge our candidates, one and all, to the carrying out egislation for the following as fast as safe progress will permit:
 - State-owned packing plants, terminal elevators, flour mills and sugar factories.
 - "State-owned warehouses and storage plants for farm products. "Rural credit banks operated at cost

 - "7. Labor laws which will not merely protect capital, but which will amply protect labor as well, in accordance with the just demands of organized labor
 - "8. The taxation of all property upon an equitable basis.
 - "9. The taxation of idle property at a higher rate in order to force such property to more largely assist in the financing of the war.
 - "10. A workable initiative, referendum and rocall."
 - Is there anything disloyal, seditions, treasonable, or anarchistic in this program?
 - Is there anything in this program that savors of I. W. W. ism?
 - Do you not see that it is THIR program that the Gooding Davis machine is opposing?

 Before you vote, ask yourself the following question; then, as your common sense and conscience answers, the Monpartisan Lagr

WESTERN AUTO COMPANY TWIN PALLS, IDAHO

The Man Who Fights for Idaho and for You

HON, FRANK R, GOODING

RANK R. GOODING has made the greatest fight that has ever been made in any state in the Union against anarchy, treason and rebellion.

Not a single charge that he has made against Townley and his agents has been denied.

Gooding's statements are facts that are well established, some of them court records, others affidavits made by reputable citizens.

If no other charge had been proven against Townley and his agents in Idaho by Governor Gooding than the one in which he charges Ray McKaig with being a party to the employment of 103 Socialists, some of them anarchists and I. W. W.'s, some of whom have been bound over for seditious utterances, all of which has not at any time been denied, this one proof alone should be enough to satisfy the good people of Idaho. Men who have been under his direction were bound over for such seditious utterances as "the Bolshevik government is the greatest form of government the world has ever known," "the bond issue is a graft," and "the war is the rich man's war."

Court records in the state of Idaho have been before the people for some time establishing these facts; and Ray McKaig has not apologized for one of these traitors.

We feel that the people of Idaho owe much to Governor Gooding today for the splendid fight that he has made, and they should see that he is sent to Washington to continue his fight for s Idaho and Idaho's industries and a higher standard of citizenship in America.

We believe, with him, that if Townley and his agents succeed in Idaho at the coming election, our industries will become paralyzed, valuations will shrink, and labor will find no employment. We believe that if Townley and his agents win only a partial victory in the state, outside people will not consider Idaho a fit place for investment. We believe that the ballot that you will cast on next Tuesday will be the most important ballot that you have ever cast in your life. Let us fight for Idaho, for its good name and its industries—Idaho should have one man in the United States senate who knows the needs of agriculture. Gooding is a farmer.

Hint As to Germans' Terms
Pron the basis of the Austrian armistice it may be assumed that Germay will be called upon to evacaate all occupied territories, give up all

portion of her artillery and requipment
within Germany, surreader a portion
of her artillery and requipment
within Germany, surreader a portion
of her artillery and requipment
within Germany, surreader a portion
of her grand fleet, and probably permit occupation of Heligoland or Kielby United States-Allied units. This latter would be comparable to the occupation of Pola demanded by Austria.
By the Austrian armistics, the Allies
are given military and nearly privieges, within Austra, making it cealer
for them to strike at Germany's back
door, if that nation decides not to yield
to the United States-Allied demands.

Some organizations and friends of mine have seen fit to advocate my candidacy for Judge of the Fourth Judicial District coupling my name with that of other candidates for the same position, thereby erroneously giving the impression of combinations of interests.

Having served for the past four years in the position to which I now seek re-election, the endorsoment of the good citizens of the district is very gratifying to me, but I wish it clearly understood that my candidacy is entirely free of any deals, compacts or combinations of any nature whatsoever, and that the use of my name in conjunction with that of any other candidate is without my consent or approval.
