

FLAMES OF REVOLT SPREADING OVER GERMANY

Whole Northern Portion of Empire Is in the Grip of Revolutionists

ROADS JAMMED FOR MILES BY FLEEING HUNS

Enemy Motor Trucks of Men and Material Flocking Towards Metz and Conflans—Many Towns Burning

AMERICAN SOLDIERS UNABLE TO KEEP UP

Defeat Amounts to a Rout—Heavy Artillery and Machine Gun Fire Continues Peebly at Several Points

By WEBB MILLER
WITH THE AMERICAN ARMIES IN FRANCE, Nov. 8 (4:20 p. m.)—American flyers report that all the roads toward Metz and Conflans are literally jammed with enemy motor trucks filled with men and material. The Americans are pushing forward in trucks, which they have been forced to employ to keep up with the fleeing Germans.

Stenny, Mouson, and the southern part of Sedan are in fire.

Attempt Stand

The Germans are attempting to make a stand behind the Meuse. Heavy artillery firing is going on, on both of the river banks, particularly in the region of Sedan. Further south, there is considerable machine gun fighting.

PARIS, Nov. 8.—Our progress was renewed this morning on the whole front. The French war office announced today:

"Our advanced elements reached Liart, 30 kilometers (18 1/2 miles) north of Bethel.

"Further to the right we had taken Treoncs (a mile southwest of Sedan) this morning before daylight and had penetrated the suburbs of Sedan."

"Our prisoners yesterday morning numbered more than 1000. The material captured was considerably in excess."

(The above cable was filed in Paris at 12:20 p. m. today by John DeGand, a member of the staff of the United Press Paris bureau.)

Influenza Is Now On the Decline

Cases in Various Army Camps Show Marked Falling Off in Past Week

WASHINGTON, Nov. 8.—Decline of the influenza and pneumonia in the military camps was reported in the department today.

Influenza cases this week total 10,175 against 10,958 last week and 10,600 cases were 2,801 this week, 3,916 last week.

"Southern and western camps are reporting more new cases of influenza than eastern camps, but the disease is less often complicated by pneumonia."

DUTCHLAND'S CAPTAIN KILLED

COPENHAGEN, Nov. 8.—Captain Koening was killed while raising the American flag on the warship Flensburg, according to dispatches received here today.

It is probable the above cables refer to Captain Koening, who commanded the German merchant submarine Dutchland. The warship Flensburg is not listed in any available naval lists.

COMPROMISE ISSUES CALL

WASHINGTON, Nov. 8.—The controller of the currency today issued a call for a report on the condition of national banks at the close of business, Friday, November 1.

NO HALT IN DEATH

WASHINGTON, Nov. 8.—No halting of supply or draft systems has occurred because of impending armistice, Secretary Baker said today.

Armistice Terms In German Hands

Reply Must Come Before Monday at 11 O'clock, Arrangements Provide

WASHINGTON, Nov. 8.—Germany gets armistice terms.

PARIS, Nov. 8 (5:55 p. m.)—The German armistice delegates, it was reported today, asked permission to refer the conditions to their government and to send a courier to Spa to notify German grand headquarters. The British war office wireless informed Spa of the request.

The delegates remarked on the difficulties of the route, saying the journey might take some time.

Monday at 11 a. m. has been fixed as the maximum time for the German reply.

No Cessation Of Hostilities

WASHINGTON, Nov. 8.—Secretary of State Lansing was informed this afternoon that the German plenipotentiaries had formally accepted and received the Allied armistice terms.

A request for immediate cessation of hostilities was refused, the department stated. The official announcement of the news here said:

"The secretary of state is informed that Marshal Foch reported to Paris at 10:25 this morning that the German plenipotentiaries had arrived at his headquarters with full powers from the chancellor. They formally asked for an armistice. The text of the armistice was read to them and delivered to them.

"The German plenipotentiaries requested that hostilities might be stopped at once. This request was refused them."

The Germans have seventy-two hours from 11 o'clock today in which to accept or reject the terms. It was announced today.

Driving Enemy Out of France

WAR SUMMARY

WHILE the German delegates were seeking an armistice at Marshal Foch's headquarters today, the Allies' armies continued to sweep forward in the push that is rapidly driving the enemy out of France.

Reports received this afternoon indicated that General Bullard's second army has gone into action on a wide front southwest of Metz, extending the battle to a probable width of more than 175 miles from the Scheidt to the Moselle river.

Accounts stated that German troops are fleeing in motor trucks toward Metz and Conflans and that the Americans, in pursuing them, also are employing motor trucks. Conflans is midway between Metz and Verdun.

Artillery Is Active

Earlier dispatches from the front said that great artillery battles were raging on both sides of the Meuse especially in the region of Sedan, which is partly in fire.

Rheny and Mouson, on the east bank of the river, southwest of Sedan, also are in heavy battle. A machine gun firing was reported along the Meuse line south of these towns.

The French war office announced that progress was resumed this morning on the entire portion of the front, extending from east Prussia to the North Sea coast. The revolutionists are reported now to have taken Kiel, Tilsit, Schwesin, Wilhelmshaven, Bremen, Flensburg and several other minor cities. Riots also are reported in Bremen. The disturbances thus include practically all of Schleswig-Holstein and parts of Mecklenburg-Schwerin and east Prussia.

Revolutionists of the Baltic and the German navy is now said to be in the possession of the mutineers, who are reported to have put to sea from the Kiel canal under the red flag.

SIGNING UP OF ARMISTICE IS NOT CONFIRMED

Word Given Out in Good Faith and Later Qualifying Messages Delayed in Transmission

FRENCH CITIES JOIN IN BIG CELEBRATION

Best Information available Indicates That Announcement Was Premature—Armistice Not Yet Signed

ACCEPTS RESPONSIBILITY

BRESEY, FRANCE, Nov. 8.—Admiral Henry B. Wilson, U. S. N., commander of the American force in French waters, today made the following statement:

"The statement of the United Press relative to the signing of the armistice was made public from my office on the basis of what appeared to be official and authoritative information."

"I am in a position to know that the United Press and its representatives acted in perfect good faith and that the premature announcement was the result of an error for which the agency was in no wise responsible."

NEW YORK, Nov. 8.—Yesterday's announcement of the signing of the armistice between Germany and the Allies, was made by Admiral Wilson at Brest and was filed to the United Press with the admiral's approval.

This information was received by the United Press in a cablegram from Bay W. Howard shortly before noon today. Practically at the same time another message from Howard was delivered to the United Press stating that Admiral Wilson made the announcement in Brest at 4 p. m. French time, but later he was notified that it was not confirmable. This latter message filed by Howard did not show, in the form in which it was delivered, whether it was sent yesterday or how long it had been held up.

Acted in Good Faith

Howard's cablegram clearly showed that Admiral Wilson acted in good faith, stating that, should the announcement be official and therefore gave his approval to the filing of the message to the United Press in New York. The United Press today asked the government to retract this but Howard's message stating that Admiral Wilson authorized the announcement and also that he later was notified that it was unconfirmable, were held by the censor.

Messages Delayed

There was reason to believe that the message stating that the news was unconfirmable was badly delayed in view of the fact that it was not received here until almost 24 hours after the original cablegram.

ARMISTICE ASKED FOR

PARIS, Nov. 8 (3:10 p. m.)—The German delegates arrived this morning at Marshal Foch's headquarters, and are reported positively to have asked for an armistice.

The text of the Allies' conditions was read aloud and then handed to the enemy delegates. The latter asked for immediate suspension of arms, which was refused.

The Germans, it is stated, had seventy-two hours in which to reply.

DELEGATES AT HEADQUARTERS

WASHINGTON, Nov. 8.—The German delegates entered the conference at General Foch's headquarters at 9 a. m. Paris time today, the state department announced shortly before noon.

If it is found that the armistice needs to be referred to Berlin, seventy-two hours in which to make their reply will be allowed from the time that decision to refer it is reached, the department said.

DEATH CALLS GO

WASHINGTON, Nov. 8.—There is no intention whatever of withdrawing any draft calls as long as this nation is at war, it was strongly intimated by officials here.

Italian Troops Are Still Going Ahead

Official Announcement Tells of Landing at Pola on Istrian Peninsula

ROME, Nov. 8.—Italian troops have landed at Pola, on the Istrian peninsula, it was officially announced today.

King Victor Emanuel has promoted General Dina, commander-in-chief of the Italian forces, to a full general. In replying to a message of congratulations to American Ambassador Paoli, General Diaz said:

"Italians are proud and happy to have fought and won the principles of freedom. We are particularly proud to see the American flag floating alongside that of the Italians during the battle."

LONG SPELL OF FIGHTING

ROME, Nov. 7 (9:55 p. m.)—On the west front, the Italian second army has been participating in the offensive since Nov. 4. The war office announced today:

"Moving from the Sisson region, it has passed through enemy defenses between Chivres and La Rochelle, and has occupied Lu Thuai and Rosoy-Sur-Serre. On the Italian front we have entered Morago and Bolsan."

Governorship Is Still Doubtful

Both Whitman and Smith of New York Claiming Victory at the Polls

NEW YORK, Nov. 8.—Both Governor Whitman and Democrat candidate Smith were still claiming victory today in the New York governorship race. There were only six districts missing today, however, and the count gave Smith 38,212; Whitman, 37,148. The eighth vote is yet to be tallied, but Smith's adherents assert he will get the most of it.

Thomas Glynn of the Republican committee, declares his figures do not agree with the unofficial totals. He is also waiting for the complete count of the prohibition votes cast for Whitman.

Government Stops Buying of Horses

DES MOINES, Nov. 8.—Government horses buyers in this section of the country were notified this morning that all purchases were discontinued and asked that they act accordingly.

The message came from headquarters in Kansas City, Mo.

RAIDERS MAKE UNIQUE RECORD

Important German Towns Given a Taste of Bombing By British

LONDON, Nov. 8 (British admiralty wireless).—During October, despite the prevalence of fog and thick mists, throughout the Rhine valley, the British independent air force made sixty-four raids over important German towns, exclusive of numerous raids over German airbases at Freesat, Hiltzheim and Jametz.

This achievement is the more striking in view of the fact that long distance flying was only possible on twenty-five days out of the month. Of these, only seven days could be described as fair, while nine were highly unfavorable for flying operations. Hundreds of tons of bombs were dropped during the raids.

During the month, there were twenty-five raids upon Metz-Bisbon. The famous railway triangle is of exceptional importance to the enemy at present when apart from the question of supplies for his fighting lines—very large enemy forces are in rapid retreat to ward the Rhine.

Photos Show Conditions. Photograph taken during recent raids show as many as twelve or fifteen enemy troops and ammunition trains crowded into the southern arm of the triangle alone at one time.

Although it is not possible on every occasion to secure direct hits upon targets containing ammunition and other highly explosive substances, the

INTERNAL TROUBLES MAY RESULT IN DISINTEGRATION OF GERMANY

Indications Point to Grave Possibility of Outbreak of Bolshevism Which Will Spread Over Entire Nation—Warships at Kiel Reported in Hands of Revolutionists and Rioting and Disorder in Many of the Principal Cities Shows No Signs of Abatement

COPENHAGEN, Nov. 8.—The German revolution was reported today to have spread into Mecklenburg-Schwerin and east Prussia, thus extending across practically the whole northern portion of the empire.

Dispatches said the cities of Schwesin, capital of the grand duchy of Mecklenburg-Schwerin, and Tilsit, one of the principal cities of east Prussia, had joined the revolt.

The revolutionists are reported to have seized Rostock, thirteen miles northwest of Flensburg, the city between the latter city and Kiel, is said to have been destroyed.

The newspaper Politiken says it has no doubt that a majority of the extremist parties will demand unconditionally the Kaiser's abdication, which is expected today or tomorrow.

COPENHAGEN, Nov. 8.—The revolution in northern Germany which began Wednesday with a revolt of sailors at Kiel, is reported to have spread throughout Schleswig-Holstein and into Mecklenburg-Schwerin. Riots also are reported in the city of Bremen, southwest of Hamburg.

A traveler arriving here from Germany today said the revolting sailors have seized the majority of the German high sea fleet at Kiel, and that warships operated by mutinous crews were being driven out of the harbor under the red flag.

Another report said the revolution dominates Warnemunde. Early reports told of the seizure of Altona, Flensburg and other cities, and an artillery battle in the streets of Hamburg. A workmen's and soldiers' council was reported to have taken over the government of Kiel.

Wilhelmshaven and Bremenhaven, North Sea ports, are reported to have joined the revolution. The whole German navy is said to be in the hands of the red flaggers.

The progress of the revolution is declared to be comparatively peaceful. The revolutionists now completely control Flensburg.

HUNDREDS DIE OF STARVATION

Terrible Conditions in Evacuated Districts of Italy

LONDON, Nov. 7 (Delayed).—Hundreds of persons died of starvation in the evacuated districts of Italy, after the Austrians cut off their food supply just before the withdrawal. Major Lowell, of the American Red Cross army, from the war zone, told the United Press today. The situation is still critical.

"The food situation in the evacuated district is appalling," Lowell said.

"We found sick and wounded Italians and Austrians who had been three days without food. In one town more than 100 had died of starvation; in another 100.

"Towns were absolutely stripped of everything in the way of food and clothing. The first day after the enemy withdrew we shipped into the liberated districts 13 carloads of supplies and medicine. Five toll the next day. One 20 rolling kitchens are feeding 60,000 people a day. Formerly they were attached to the American brigades; now they are attending to civilians."

"We have placed ourselves at the disposal of the government for aiding in the relief of the districts and are establishing warehouses."

Germany's Bill May Reach Big Figures

Germany's bill may look like this:

For restoring Belgium, \$5,000,000,000.
For restoring Northern France, \$1,000,000,000.
For restoring Serbia, \$500,000,000.

For damage to property and compensation for those killed and injured in air raids over Great Britain \$250,000,000.

For sinking merchantmen without warning at sea and murdering passengers and crews, \$1,000,000,000.
Total, \$7,750,000,000.

Slaking of the Details. Destruction of the Rhinels cathedral. Destruction of France's vast orchards.

Partial destruction of more than 100 towns and villages in Belgium and France. Demolition of public structures and private dwellings in London and a score of other English buildings.

Sinking of the Lusitania and 20,000,000 tons more of shipping.

AMERICA'S ENTRY INTO THE WAR SOUNDS DOOM OF GERMAN HOPES

Recap of Country's Record Places United States in Unique Place Among the Nations of the World—Actual Accomplishments in Terms of Dollars and Cents Reach Staggering Total

WASHINGTON, Nov. 8.—This country's entrance to the great war in April, 1917, sounded the doom of German hopes for the conquest of the world. The crumbling of the central powers was assured in view of the dramatic efforts put forth by this nation to bring a quick and complete victory. Here are some of the things America has accomplished in her sixteen months as a war: Increased her army from 202,034 officers and men, to approximately 3,700,000 officers and men.

LANSING SAYS HUNS VICIOUS IN THEIR ACTS

State Department Resents Work of German Commanders in Belgium in Wholesale Property Destruction

WASHINGTON, Nov. 8.—In a note sent to Germany through the Swiss minister, Secretary Lansing writes: "I have the honor to request that you will bring the following to the attention of the German government: "In its note of October 20, the German government announced that the German troops were under the strictest instructions to spare private property and to exercise care for the population to the best of their ability." "Information has now reached the government of the United States to the effect that the German authorities in Belgium have given notice to the coal-mining companies that all men and animals should be brought out of the pits, that all raw materials in possession of the companies should be delivered to the Germans and that the mines will be destroyed at once.

Wanton and Malicious

Involving the destruction of vital machinery to the civil population of Belgium and the consequent suffering and loss of human life which will follow, cannot fail to impress the government and people of the United States as wilfully cruel and inhuman. If the acts in flagrant violation of the declaration of October 20, are perpetrated, it will confirm the belief that the assurances of the German government are not given in good faith. In the circumstances the government of the United States to which the declaration of October 20 was made, enters an emphatic protest of the measures contemplated by the German authorities for whose conduct the government of Germany is wholly responsible."

REPORTS ON RECRUITS ACCEPTED BY MARINES

Office at Salt Lake Station Says 10 of 11 Leaving Twin Falls This Week Mustered In

The local board has received reports from the marine corps recruiting station at Salt Lake showing that ten of the twelve recruits who left here Monday last, have been accepted for enlistment and have been mustered into the marine corps. They have been transferred from Salt Lake to the training station at Mare Island navy yard, California. Following is the list of these accepted enlistees: Fred Dones, Seely Chapman, Fred Marty, Joseph Cahlan Putnam, Charley Gates Thompson, Francis Frederick Greig, Leon Chester Martyn, Ralph Eugene Hosted, Harvey William Gandy, Jacob Carney Irwin.

Allied Troops Are In Constantinople

WASHINGTON, Nov. 8.—The Allies have entered Constantinople and are engaged in demobilizing and disarming the Turkish troops, according to military officials here today. An Allied military commission also reached Sofia, the Bulgarian capital, and is restoring order there and disarming the Bulgarian troops, it is said.

Garford MOTOR TRUCKS

2-ton Garford truck owned by Mrs. W. H. Whitmore, of Pomeroy, Wash. This truck does the work on a farm of 1000 acres. It is fitted with a five purpose body capable of being converted to serve for hauling bulk grain, or used as a hay rack, stake body, or plain platform express body for general work.

Why Garfords Are Worth More

When a farmer buys a motor truck it is a business matter. Consideration must not only be given to first cost but to final cost. Many things enter into making up final cost in a motor truck. Upkeep is an important item. Ability to render continuous and satisfactory service is still another. Economical performance must also be considered. Garfords are a trifle higher when initial cost only is considered. They cost more because they are worth more. Their superior workmanship, their sturdy construction, insures remarkable stamina and lasting dependability to do the work on the farm day after day, and year after year.

Garfords are made in varying capacities to fit different classes of work. Farmers and merchants who have once become familiar with Garford staying qualities realize that in the long service, the slight upkeep and continued economy of performance they are a good sound business bargain.

Mrs. W. H. Whitmore farms 1000 acres near Pomeroy, Washington, and uses a 2-ton Garford to handle the hauling.

As shown above, her truck is fitted with a five purpose body which is easily converted for hauling bulk grain, or changed into a hay rack, stake body for live stock, plain platform or express body for general purpose work.

We make it a point to inquire into your needs and advise the kind of motor truck equipment best suited to handle your work in a way to give permanent satisfaction and greatest economy.

See us about your trucking problems. We will carefully analyze your needs and recommend a motor truck certain to give you good results.

Garfords are giving permanent satisfaction to hundreds of others—why not you?

It is advisable to order now in view of the urgent demand for motor trucks. See us today.

USE MAILS TO COLLECT WAR SERVICE FUND

County Committee Conducts Correspondence Course in Giving for Recreation and Moral Influences

LIMITS CONTRIBUTION TO LIMIT OF ABILITY

Despite Handicap on Campaign By Health Order, Confidence is Expressed Voluntary Subscriptions Will Fill Quota

Explanatory of the United War Service drive in this country, during the week beginning November 11, the county executive committee has issued the following statement:

Twin Falls County's quota in the great 7 in 1 drive is \$45,000. A real "Twin Falls Spirit" plan is being worked out to get this money. Every head of a family will receive a letter from the committee asking him to contribute voluntarily a stated sum as a minimum. Each head of a family is expected to make a subscription on this basis and to send a check by mail to the committee headquarters using the envelope provided. No public meetings or solicitations other than this. The committee knows that we can make our quota by voluntary subscription and save all the work and effort of a drive. All subscriptions to be sent in by November 12. These subscriptions will be sorted and credited on each town's quota. Those not subscribing by November 12th will be solicited by a committee and urged to give. Don't be one of those called upon.

Form of Solicitation.
The following is a copy of the letter sent out:
Mr. One Hundred Per Cent American:
Here is another call from the boys who have gone—

THEY NEED YOUR HELP

The United War Work Campaign calls for a Drive—National wide—the week of November 11th to 18th.
Do You Want a Drive? Our County will not need a drive if you will send in the enclosed self-addressed envelope your \$10.00 to reach me by November 12th, as your part of this great work that these seven organizations are doing.

We must subscribe our quota, as it is a part of our war machine, and if it is not heard from you, a committee will call.

Yours for winning the war
W. R. PRIEBBE,
County Campaign Manager

What is My Share

Under the "mail" drive plan for the coming 7 in 1 War Relief Campaigns November 11th to 18th, each head of a house is requested to give as a minimum, the sum stated in the letter of appeal sent out by the committee. This does not limit your subscription by any means. Our quota is about double that of any previous campaign, and we must each one give more. If you have not subscribed a certain sum to the U. S. C. as a previous drive your subscription should be at least twice as large when this organization is combined with 6 other organizations, fully as worthy. Remember the work of this organization does not end with the war. The boys must and will be looked after until they reach home. If over money and help is needed it will be then. You must do your share now. The need is for a sum 70 per cent greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000.

By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved. These Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their 3600 Recreation Buildings, 1000 Miles of Movie films, 100 Leading Stage Stars, 3000 Athletic Directors, 85 Hostess Houses,

15,000 Big Brother "Secretaries", Millions of dollars of home comforts.

When you give double, you make sure that every fighter has the cheer and comfort of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theatre, a cheerful home, a store, a school, a club and an athletic field, and know—so that the folk back home are with him, heart and soul.

You have loaned your money to supply their physical needs.

Now give to maintain the morale that is winning the war.

Your share is all you can possibly give.

The people who rent their homes are now considering the problem of "moving." They are reading the classified ads.

CALUMET BAKING POWDER

Get Greater Strength Use Fewer Spoonfuls Make Bigger Savings

Calumet is the biggest value ever offered in Baking Powder. Owing to its wonderful raising force it goes further than most other brands. You use only a rounded or heaping teaspoonful, where others call for two teaspoonfuls or more.

But Baking Powder is not all you save when using Calumet. You save baking materials. The last spoonful is as good as the first. Calumet never fails. It is perfectly manufactured—keeps perfectly—and is moderate in price.

True Economy in Cost—in Use—in Time

Calumet contains only such ingredients as have been approved under the Acts of Congress concerning wholesomeness of foods. Calumet Baking Powder has been selected by the GOVERNMENT for use in the ARMY and NAVY.

Use It To Get Best Results Without Loss

The best proof of Calumet's superiority and economy is the fact that it is the biggest selling Baking Powder in the World today—manufactured in the largest, most modern and completely equipped plant in America.

NOT YET

So far as can be seen through the maze of statements, some of them conflicting, which are now being given out in connection with yesterday's dispatches as to the signing of an armistice with Germany, the first announcement was made in Brest, France, by Admiral Wilson of the United States navy.

PEACE AND INDUSTRY

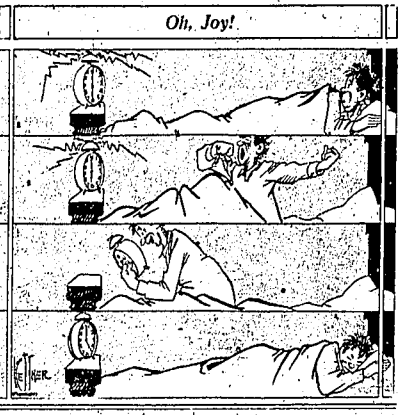

Pertinent as the statement "Closed on account of peace," which displayed on the door of a Twin Falls business house yesterday may have been to the situation when everyone forsook all other employment to celebrate the reported German surrender, this is not a statement to be applied truly to business and industrial conditions in this country after the treaty shall have been finally signed.

WHO SPEAKS FOR GERMANY

With whom can the allies deal in conducting peace negotiations? This is a question of tremendous importance in the light of recent developments in the theatres of the world war, and one upon which satisfaction should, and no doubt will be, demanded and secured.

CELEBRATE AGAIN

The Nation-wide celebration Thursday over the news of the German acceptance of the armistice terms was in its wild exuberance and abandon the sort of celebration to be expected in the first glow borne by the message. But there is another style of celebration of the auspicious event that will commend itself to every citizen who is at all appreciative of the splendid fighting men whose efforts have made peace

Oh, Joy!

possible. This letter celebration is to be indulged in by every citizen when he contributes next week to the United War Work fund.

If it is these contributions that are going to make possible the continuance of the opportunities for recreation and the moral influences available to the fighting men.

The need for these opportunities and influences is greater now than ever before during the progress of the war. While the fighting was in progress the men actively engaged in the war held their attention fixed on just one thing—the winning of the war. Everything else secondary and, in comparison with the central aim, was not to be considered.

Now the situation is radically changing. The fighting man is no longer called upon to fight, but to hold himself in readiness for the development of events, just as the American soldiers two years ago held themselves on the Mexican border.

The real test of character for the fighting man comes in times of peace. If the men who have enlisted their services for the period of the emergency were to be demobilized and returned to their homes immediately upon the signing of the armistice terms, there would not be so imperative a demand for the United War Work fund as there is at the present time.

Further than that, military authorities have stated that the work of demobilization of the fighting forces cannot be completed short of two years at the earliest possible date, and they hold that the occupation of European countries by American forces must be continued for a long time after peace is concluded.

There was need that was generally recognized for the War Work fund before hints of peace were made. There is far greater need now for this fund, and this is the situation with which the average citizen must become familiar. He can celebrate the defeat of the arch-enemy of humanity best by rallying now, when it is necessary, to the support of the men who made that defeat a reality.

Foreign Secretary Solf's statement in his note of October 27, that "The President is aware of the far-reaching changes which have been carried out in the German constitutional structure," seems to have been rather premature, to say the least. Certainly Dr. Solf did not give any of the facts to support that statement in his notes to the President, nor had such facts appeared in any dispatches published up to that date. It is true that in his note of October 20, Dr. Solf said that "a new government has been formed in complete accord with the wishes of the representatives of the people," and that "the first act of the new government has been to lay before the Reichstag a bill to alter the constitution of the empire so that the consent of the representatives of the people is required for decision on war or peace."

The Reichstag, however, has under the German constitution no competence of itself to accept in respect to the amendment of that document. Even

FINE FEATHERS By HELEN C. WHITE. (Copyright, 1918, by the McClure Newspaper Syndicate.)

At 5:30 Marilyn signed as she closed her desk. It was not because she had worked long after the other girls had gone home to get ready for the evening's fun, for she was used to doing that. When one has made up her mind to look at home until brother is through college she is glad of the chance to earn a little extra. But still she could not forget that slim pink seagorgette waist that she had tried on the other day. It had given her a new view of herself before she had allowed herself to be scooped at the other girls' preoccupation with clothes, but now she knew.

Yet I doubt if Marilyn would have thought twice of the waist had it not been for the manager's new secretary, whose genial vigor and clever hands some face had interested Marilyn as she never dreamed a young man could interest her. Yet he had said little to the shy, pretty little girl who did not know how to "carry on" with him as she had done with her father. Only she felt she spoke with an added respect when ever he addressed her.

No wonder Marilyn smiled when a laughing voice presently interrupted her thoughts. "Alas Day, I'm going to see you home, if I may have the pleasure."

"Of course you may. I'll be ready in just a moment."

For a moment Marilyn forgot her recent perplexity. Mr. Everett was so going to see her home! What would the girls say when they heard that she tucked the string under her plain little black hat. It would be extravagant, but she wanted to look pretty more than ever.

She was too excited to see the admiration in Bob Everett's eyes when she came over to his desk and all she said as they reached the door was "I guess the moon is waiting for us."

"It is a beautiful night," she murmured as they gazed up at the moon shimmering on the cold walls of the sky.

"It will be so much nicer when we get out of this bare business section," she said presently.

"I hate it here—no one can hardly breathe, not but what I like the work," she added. But she did not hear him. When she saw that he was watching her she lived! All the glow faded from her face.

"I really can't let you come any farther," she began lamely; "it's only a little way; and then she stopped, for she saw a beautiful old street with stately stone-fronts that seem full of that mellow glow of old Boston. She saw the false suggestion in her words, but to her surprise he looked troubled and sad.

"You seem just to belong here," he answered wistfully. For a moment Marilyn thought of running up to one of those aristocratic doors and bidding him good-night, but she blushed hotly at the thought of such a shame.

She was embarrassed and grieved that she did not see his relief when they turned into a humbler part of the great city. Some of the old houses still followed them, but these were given over to shops and boarding houses. With the swift transition characteristic of the great city, they were coming into a dimly, crowded, run-down section. A great lump rose in Marilyn's throat as she looked forward at the handsome face beside her.

For the moment she did not see the place where with such toil she had made her home of which she was so proud, through his eyes, used to big, handsome houses.

When they turned into the dark, narrow street at the end of which stood the tiny, weather-beaten little brown house, she could stand the agony no longer. She had made him think her a cultured, fastidious lady—what would he think now?

"You've come far enough," her voice shook, but she forced him bravely. "Besides, I don't think you'd ever want to go." She could not finish, but by the sudden jump of the arm in hers she knew he was at last understood. The night air grew hot and stifling while she waited.

"Do you really care?" His voice was shaking with joy. For a moment he stared in her bewildered face. "Marilyn, I thought you lived up there far out of the reach of a poor chap like me. So I didn't let you come cheaply on my own way home just a little farther on." The warmth in his voice sent the blood hot through Marilyn's cold veins. But all she could say sounded for the moment stupidity and irrelevance.

"In two years my brother will be through college." "In two years my college debts will all be paid." He paused. "Will you marry me?" "Take a house on B— street?" she laughed happily. When half an hour later Marilyn handed her key envelope unbroken to her mother the letter looked at her indignantly.

CORONER OPENS INVESTIGATION INTO ACCIDENT

Inquest Is Convened to Inquire into Circumstances of Death of Mrs. Amos Wright, Killed During Celebration

AUTO DRIVER HELD ON MANSLAUGHTER CHARGE

Witnesses Say Victim Was Not Struck by Car But by Pole Propping Roof Stretched Across Street to Bar Motors

An inquest to inquire into the circumstances surrounding the death of Mrs. Doll Wright, 50, wife of Amos A. Wright, laborer, 445 Third avenue west, who was almost instantly killed in an accident during the celebration here Thursday, was convened at 2 o'clock this afternoon by Coroner C. T. Crosby at the Grossman & DeWitt undertaking establishment. Several persons who witnessed the accident are to testify.

Driver Furnishes Bond

Edgar Brossman, hanger employed in the Rex barber shop, who is held on a charge of manslaughter for his part in the fatal accident, was released from custody Thursday afternoon by Probate Judge O. P. Davall upon the furnishing of \$500 bond.

Story of Witnesses

The fatal accident occurred at about 12:30 o'clock at the junction of Main avenue with Second street north and west. According to persons who witnessed it, Mrs. Wright was standing in the middle of the street, near a rope which had just been stretched across the thoroughfare to bar automobiles from a restricted district created in the center of the city where the thousands of people who congregated in the celebration. The car driven by Brossman, approached from outside the restricted area. It is probable, witnesses say, that he failed to see the rope. The car struck the rope and broke it. The rope swung around against Mrs. Wright, and she was with which it was held off the ground struck the side of her head fracturing the skull.

Word to Husband Delayed

Mrs. Wright was taken to the Boyd hospital where she died about 50 minutes after the accident without regaining consciousness. Her husband, who was participating in the celebration, was not reached with the news of her death until evening.

Mrs. Wright leaves besides her husband, one son and two daughters. The son, Fred, and daughter, Miss Ruth, live here while the married daughter is a resident of Spokane. The family here about 15 months ago from Shoshone, having lived previously in Spokane. The father is employed here by contractor William Harkins on water-works installation work.

Funeral arrangements have been deferred pending the receipt of word from the daughter in Spokane.

AMERICAN AVIATORS IN THRILLING ESCAPE

Put in Twenty-Four Days on Hike Through Germany to Holland

LONDON, Nov. 4.—Three American aviators have just arrived in London after having escaped from the Germans. They made their way to Holland after a thrilling 24 days hike through occupied territory. The Americans trapped one night and slept in the day time, except when they were in Brussels. Then, with civilian clothes covering their uniforms, they walked the streets by daylight.

The aviators are Lieutenant R. A. Anderson, of Honolulu, whose brother lives at 114 Richmond street, Plainfield, N. J.; John Donaldson, son of General Donaldson, of Washington, D. C., and T. E. Tillgham, of Westley, R. I.

Persons interested are directed to call at the local office of the employment service in room 6 of the Baugh building.

SETS ENTRAINMENT DATE

The local board has been advised by the adjutant general that Wednesday, November 13, is the date set for the entrainment for Camp Lewis, Washington, of 23 registrants from this county who are qualified for general military service. The board has previously announced the list of registrants from among those who are to go will be selected. The entrainment is to take place at 5:30 o'clock in the evening and is likely that a public farewell demonstration will be staged for the occasion.

Tracing Use of Lighthouses

The first lighthouse in the West, was first lit in England in 1725, at the mouth of the Thames. The first in this country was stationed in 1820 in Chesapeake bay, off Willoughby Spit. Sandy Hook, now Ambrose, light vessel was established in 1823. A light vessel was placed off Cape Hatteras in 1824 and was a better anchor in 1827, and a ship was not established again in this dangerous position until 1897, after unsuccessful attempts had been made to build a lighthouse on Diamond Shoals.

Great Majestic Range Bargain Week

SPECIAL DEMONSTRATION AND BARGAIN SALE OF
Majestic Ranges
At Our Store—Two Weeks Only
Nov. 11 to 24

To Be Truly Economical There Should Be a Majestic in Your Kitchen

Economy is not merely spending the least money—buying a range at too low a price is indeed false economy. The FIRST cost is not the only cost—the little additional first cost of a Majestic is nothing compared with its economy of fuel, durability and satisfactory service.

Nearly a million Majestic Ranges, now economically, scientifically and satisfactorily serving millions and millions of people, civilians and soldiers, is proof positive of their superiority over all others.

There is only one best. The public has judged. The Majestic is recognized as the standard of all ranges. The construction, material, workmanship and beauty of this wonderful range is unequalled, and it embodies important features possessed by no other range.

Your Opportunity is Here
At our store—during our Majestic Bargain Week. It's your chance to get acquainted with real facts about ranges. We assure you it will be worth your while to investigate.

The Bargain

—AND IT'S WELL WORTH YOUR WHILE!

Through special arrangements with the manufacturers, and during this Bargain Week only, a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This ware is good ware (not cheap ware)—it's worth a lot to you. Come and see for yourself.

And Remember—
The price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come, if ever, but there may be an increase soon.

Two New and Important Features

The Wonderful Unseen Riveting

Yes, it's rivet-tight, just like the old Majestic, but the rivets clinch inside of nicked parts, leaving nickel smooth as glass, and there are no big, bulky bolt-heads on the inside. And, remember, rivets hold tight; bolts with only one or two threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's a striking beauty—more than skin deep.

Oh, Joy! Top Needs No Blacking

A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt and worry of trying to keep the range looking nice—just an occasional thin coat of paraffine retains its beautiful velvet blue color.

If you haven't a MAJESTIC, avail yourself of this opportunity to get acquainted with this wonderful range—know the inside of ranges.

Don't Forget the United War Work Campaign Starts Nov. 11

The Marines would die for Old Baptist "Doc"—He almost died for them

By Sergt. ALEXANDER WOOLLCOTT
of "The Stars and Stripes," A. E. F.

YOU would turn your pockets inside out for the United War Work Campaign if you knew dear old "Doc" of the Marines, a white-haired, slow-speaking padre, who is Y. secretary with the leathernecks and so beloved by them that it's past telling. He was a preacher in Arizona—had been, I think, a missionary with the lepers when the war came, and he went from his pulpit to the Y.

They have always loved him, the Marines. I think it was because he had the genius for meeting all mankind brother-to-brother. And because he would not spare himself any hardship that the boys had to undergo.

If they hiked, he would not ride. If they had to march half-way across France as fast as their legs would carry them, Doc marched, too, and what is more, carried the full pack, lest any boy should ever say old Doc did not know what a real hike meant.

Of course, their devotion became a cult on the Marne when it was he who took the hind-end of a litter and went out through a very rain of shells to bring in and save the wounded colonel. And they did save him. Can't you picture it—the two of them creeping over the treacherous ground, with the private turning now and then and hissing back to poor old bulky Doc not to "stick up so far" in the air?

That little expedition dropped Doc unconscious with gas and shrapnel, and when he came to he found that quite mysteriously, all his Y insignia had been cut away and Marine emblems sewed on in their place.

Doc holds services now and then. I know of one a young Jew organized. It was held in a deserted church which a volunteer squad had spent three hours in cleaning for the occasion—three hours routing the dust and cobwebs and litter of fallen plaster and broken glass. Then the congregation trooped in and the service began with the distribution of rosaries fished from Doc's capacious pockets for the Catholic boys, some of whom had lost theirs in the fight.

They have a way of looping their rosary through their left shoulder strap and wearing it into battle as the knights of old wore their lady's colors into the jousts. It is an inspiring thing to see a whole company thus beautifully uniformed, but sometimes they come back with the beads torn away.

Well, Doc distributed his own supply and I doubt if a passerby at that moment would have suspected him of being a Baptist clergyman. Doc—and indeed most of the padres of the front—have to take their memories to tell what denomination was theirs before they took this great communion.

Why you should give twice as much as you ever gave before!

The need is for a sum 70% greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000.

By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved.

Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their

3600 Recreation Buildings
1000 Miles of Movie Film
100 Leading Stage Stars
2000 Athletic Directors
2500 Libraries supplying 5,000,000 books
85 Hostess Houses
15,000 Big-brother "secretaries"
Millions of dollars of home comforts

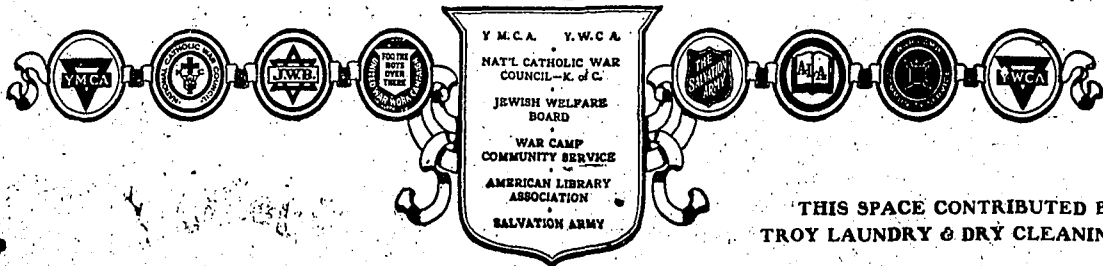

When you give double, you make sure that every fighter has the cheer and comforts of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theatre, a cheerful home, a store, a school, a club and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs.

Now give to maintain the Morale that is winning the war!

And Baptist Doc is only one of thousands who are serving your boys in the great religion of Fatherhood, whose creed and faith are Service. Keep them on the job next year! Pershing needs a thousand like them every month.

SURE! GO ON IN AND GET HER GOOD AND PEEVED. SHE'LL GET OUT AND NEVER COME BACK!
WATCH ME!
PEEVED! I NEVER SAW HER SO PEEVED IN MY LIFE!

NO CHANGE FOR ANY CHANGE IN WAR PROSPECTS

Steady Retreat of German Armies for Past Week Renders Quick Finish Inevitable

LUEDENDORFF QUIT IN THE NICK OF TIME

Outlook in the Event of a Continuation of Fighting More Gloomy for Germans Day by Day

LONDON, Nov. 8. (British admiralty wireless).—The Times war correspondent said:

"The magnitude of the victory of last week end, has become every day more apparent. For a month or more the enemy has been retreating onto the line of the Meuse, but now he has reached the last stages of his journey. The surreal sight of our victory is that his last stage has been more rapidly got through than his first."

"A month ago it seemed possible that the Germans in France might be completely enveloped from the east and west."

"It was then that General Ludendorff, who had led the continuous retreats in motion, drew back because he then thought the German armies could be extracted without disaster. "Now the prospect for the German armies has darkened again. Whereas a week ago the general would have prophesied that the Germans would escape without irretrievable disaster, ruin again stares them in the face."

Sunday school papers may be returned and church contributions left Saturday from 1 to 4 at the following places: Baptists, at Dr. Deane's office; Central building; Christians at Ward's new stand, entrance of Rogers' store; Episcopalians at the Parish House; Methodists at the Men's Classroom of the church.

THE COOPERATION OF ALL THINGS FOR GOOD OF THOSE WHO LOVE GOD

Sermon Contributed by The Rev. Elmer Grant Keith, Ph. D., of the First Methodist Episcopal Church.

Lut. Rom. XII:25. "And we know that all things work together for good to them that love God."

This message of scripture emphasizes one of the great underlying principles of Divine grace, which will be learned and constantly practiced, will bring peace of mind, and will insure certain triumphs over the difficulties which lie in the way of a complete happiness as an abiding state of the mind.

This message of scripture emphasizes one of the great underlying principles of Divine grace, which will be learned and constantly practiced, will bring peace of mind, and will insure certain triumphs over the difficulties which lie in the way of a complete happiness as an abiding state of the mind.

So far as we know, the Almighty does not interfere with the established laws in the universe, but he does say here that if a person loves God and supremely, that in things, i. e., a life's experience, taken in its entirety, will cooperate for his good.

to this plan, refusing to turn aside from it, for men or nations. It says, evidently: Intends that there shall be no cooperation between man and nature and grace, by which man shall be redeemed from their apostasy and restored to the favor of the Father.

Nature harmonizes with this plan of God. Though He made man last of all His creations, yet he made all creation to minister to man's necessities. The providence of God harmonizes with this doctrine and plan. For grace and nature work together for man's good.

"To them that love God," a significant qualification and condition in this matter. It means that all who understand that Christianity does not make the possessors thereof immune to the trials of life, but there is a vast difference right here, between the God lover and the God hater.

The dispensation said the German plenipotentiaries had received the armistice terms as well as a demand to act upon them within 72 hours.

AUSTRIAN AIRMEN ARE PRETTY WELL WHIPPED

ROME, Oct. 7. (By Mail.)—An Austrian airman captured recently on the Italian front provided some information that bears testimony to the extent to which Austrian aviators are demoralized by the enticed flying men in Italy.

He stated that before any war flight is made on his particular army area, permission must first be obtained from the "kolofit," who in turn must receive authority from the army operations branch. Hostile airplanes, craft may be flying over the aerodrome, yet it is not permissible for a scout to ascend unless permission is first obtained from army headquarters.

This prisoner said that, in six months at the front, he had flown over the lines on only five occasions. He explained that this state of affairs was due to the fear of losing pilots and machines. Statements of prisoners always are received with caution, but there is no doubt that the allies have established a very marked superiority over the Austrian airmen.

ITALY BUILDS SHIPS

ROME, Oct. 8. (By Mail.)—Italy is more than doing her bit in the matter of shipbuilding for the purpose of replacing the ships sunk by submarine and defeating the submarine warfare generally.

During the year ending Sept. 15, according to official figures given out to day, Italy has constructed 120,000 tons of shipping. Work already in progress renders it certain that this total will be exceeded during the coming year.

Since Italy's entrance into the war she has completed construction and installation of 15 new shipbuilding yards, while 7 others will be ready for service during the coming year.

ONLY SLIGHTLY HURT

Ralph Glover, 16-year-old boy employed as a messenger by the Western Union Telegraph company, who was struck down Thursday afternoon by a car driven by J. A. Sinclair at the corner of Shabone street and Second avenue east, was injured only slightly and is recovering from his wounds. He encountered the car as he rounded the corner on his bicycle. He was rendered unconscious and was reported to have been seriously hurt. He was taken by Mr. Sinclair after the accident to his home on Fourth avenue west.

Mrs. B. W. Smith Gains 35 Pounds

"I'll Praise Tanlac as Long as I Live." She Says—Was in Bed 'Ten Long Months

"I'll praise Tanlac the longest day I live for giving me back my health," said Mrs. B. W. Smith, of 2115 Burdett Street, Omaha, Neb., recently, when the special Tanlac representative, who had heard of her remarkable recovery, called to ascertain the facts.

"Eight years ago," continued Mrs. Smith, "I began suffering from stomach trouble, loss of appetite and nervousness. My head ached so at times it felt like it would jump from my shoulders. Then acute rheumatism got hold of me, and pained me so I could not sleep. My feet, knee joints and elbows would swell terribly and the pain was almost unbearable. Before I took Tanlac I had not been up and about, nor able to go down town for three long years, and was in bed for ten months, and I tried everything until the bills got so big I decided to think of them, but I never got well to be out of bed but very little.

"I suffered until I lost thirty-five pounds, but I have gotten back every ounce of it since I began taking Tanlac. Pretty soon after I started on it my appetite came back, and I got on I could get anything. My nerves got stronger, and my pain commenced to get less. After the second bottle I felt much stronger, and it wasn't long before I could get about the house and do my work. I haven't a pain of any kind, and my sleep is as sound and restful as a baby. I am full of life and energy and feel fully able to go down town when I please, as I can walk and stay on my feet all day. In fact I am life as much work as I ever could in my life. I get more and I just feel so happy over what Tanlac has done for me that I want everybody to know about it. I have told lots of people about it already and know many who are taking it on account of what it has done for me."

Tanlac is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Filer by A. B. Wood, in Hahli by C. D. Boring Brothers' Co., and in Kimberly by A. P. Stowe. (Advertisement.)
