REVOLUTION IS NOW EFFECTIVE OVER GERMANY

Berlin Dispatches Say Disorder Reduced to Minimum But Conflicting Reports Continue to Arrive

PRO-KAISER PARTY STILL FACTOR TO BE DEALT WITH

Workmen's and Soldiers' Council Formed at Front Now in Communication With Von Hindenburg

LONDON, Nov. 13.—The new German government emphasizes in wireless dispatches sent out from Berlin that the revolution is now effective practically everywhere in the country and that disorder has been reduced to a minimum.

Despite this assurance, a Copenhagen report insisted that Monday when the new government declared that all was quiet in Berlin—officers and cadets still loyal to the former kaiser, were resisting the "Red Guards" in the capital from the royal library and other public buildings.

Workmen's Council. A Hamburg dispatch received by way of Amsterdam said that German mail headquarters had notified the local headquarters as follows: "A workmen's and soldiers' council has been formed at the front without disturbance. It is entered into communication with Field Marshal von Hindenburg." "Very little bloodshed."

The dispatches followed the following Berlin dispatch: "The revolution has been completed with little bloodshed. Chancellor Ebert's cabinet comprised Scheidemann, Landberg, Kasse, Dittman and Baer."

A wireless dispatch from Berlin stated that Dr. Solf had requested officials abroad to sign recommendations as "the German legation," or "the German embassy" instead of "Imperial" as hitherto.

North Sea Controlled. The workmen and soldiers still have complete control of the North sea and Heligoland, according to Amsterdam reports.

Dispatches from Zurich announced that republics had been proclaimed both in Berlin and Vienna.

The following delayed dispatch was (Continued on Page 8)

MAY HELP SOLVE MEXICAN RIDDLE

Keen Interest Attaches to Session of Pan-American Labor Conference

LAREDO, TEX., Nov. 13.—Great significance was attached to the meeting of the Pan-American Labor Conference presided over by Samuel Compere. Problems affecting labor conditions in the United States, Mexico, South and Central American countries were to be taken up.

Many labor leaders forecast that a result of the convention would be a solution of the Mexican problem and that disorder and discontent in Mexico would be put down, through plans for improved working conditions and better pay for laboring classes.

Officers Present. Besides Compere, those attending the convention included: Secretary of Labor Wilson; John O'Leary of the Department of Labor; James P. Noonan, president of the International Electrical Workers Union; and other American labor leaders.

Kaiser Hissed By Onlookers Upon His Arrival in Holland

Efforts to Secure Photograph Frustrated By Member of His Body Guard

AMSTERDAM, Nov. 13.—Further details were available today concerning the arrival of the former kaiser in Holland. In a disorderly, hissing race, newspaper men, photographers and officials climbed on top of the station.

When the ex-emperor walked to his automobile a few cheered. He started a salute. But the cheers were drowned out by hissing and he failed to complete the salute.

Efforts to photograph him were frustrated by a German general, who stepped between him and the cameras.

SOLE'S APPEAL CHARACTERIZED AS CONTEMPTIBLE

London Times Affects to See Only Another Attempt at Mischief Making in Recent Request to President

LONDON, Nov. 13 (British Admiralty Wireless).—The Times described Dr. Solf's appeal to President Wilson regarding conditions of the armistice as affecting food of the German people as a "contemptible attempt at mischief making." "Solf has but to look at the arithmetic in order to see that the Allies and the United States contemplate the actualizing of Germany during the armistice as still he found necessary," says the Times. "That is both right and wise. It is our plain interest to do what in our lies to preserve a stabilized government in Germany, if only in order to have some responsible person with whom to deal."

The Daily Chronicle says: "Germany, who never showed mercy, has now to implore it. The Allies will no doubt, in these circumstances, take such steps as humanity dictates, so far as they can, but not contentedly with feeding their own populations."

"But that is a trivial provision and the food cargoes that Germany has criminally sent to the bottom of the sea cannot be fished up even to feed the Germans."

AMERICAN ARMY MARKING TIME

Front All But Deserted By Enemy—Doughboys in Happy Spirits Now

WITH THE AMERICAN ARMY AT THE FRONT, Nov. 13.—The American army is marking time until orders come from Marshal Foch for the next move. Very few Germans were seen along the front lines, which gave rise to the belief that plans were already under way for withdrawing back to their own border.

Cessation of hostilities has brought wonderful changes on this front.

Marching columns of troops going into battle are replaced by laughing groups of doughboys and police mingling at the success of their great efforts.

Towns in this part of France continue to celebrate with unabated joy.

BRITISH PRESS CLAMOROUS FOR KAISER'S BODY

Public Sentiment in England Favors Application of Common Law to Former Emperor and His Cohorts

By ED L. KEEN
LONDON, Nov. 13.—Joint action by the powers will be taken to send the former kaiser to Eibis or St. Helena, or to subject him to criminal prosecution, it was pointed out by the British officials today.

No anxiety is felt regarding the possibility of Wilhelm again interfering with the world peace. He is regarded as impotent for further evil, in view of the drastic armistice forced by the Allies.

The international situation in Germany is believed to be rapidly changing, any slight pro-German sentiment may linger there. Count William Hohenzollern, as he now calls himself, is helpless and hopeless, so far as any Napoleonic "return from Eibis" is concerned. The former kaiser lacks the genius to sway the people that was Bismarck's basis of power.

British newspapers are clamorous for seizure of Hohenzollern's person and his commitment to exile.

The Evening Standard hopes that immediate steps will be taken to secure possession of the former kaiser, declaring "it is the plain duty of the Allies, in their own interest as well as" (Continued on page eight)

KAISER'S STATUS WILL BE SETTLED AT PEACE TABLE

Former Emperor Now at Castle of Count Von Bentinck in Maarsen, Holland, Awaiting Action By Allies

LONDON, Nov. 13.—The whole question of the former kaiser's possible extradition will probably be discussed at the peace conference which is likely to be held in Versailles before the end of the year.

A dispatch from Amsterdam today said that Wilhelm arrived Monday afternoon in Maarsen on a special train, to take up his residence at Ount Bentinck's castle.

The conditions on which the Dutch government will permit him to stay in Holland cannot be published out of courtesy, the dispatch said, but they are equal to simple military internment. The former kaiser is not on parole, but is under moral obligation to remain in Holland and not to do anything contrary to public order or that will be likely to embarrass Holland with her neighbors or other powers.

Wilhelm, whom the correspondent saw alighting from a special train at Maarsen and entering an automobile, was very pale and appeared to be nervous and tired. He was dressed in civilian clothes as a result of a request from the military authorities. He was accompanied by his favorite dachshund.

Many Government Officials. Reports continue to arrive of the progress of the revolution in Germany and the practical metamorphosis of Austria-Hungary.

Red Flag Parade On New York Streets Is Cause of Near Riot

Socialist Demonstration Broken Up By Boys in Khaki and Blue, Flags Torn Down

NEW YORK, Nov. 13.—Several socialists were interfered with when soldiers and sailors, reinforced by civilians, protected against their parading with the red flag.

The Mooney defense league was marching to Carnegie hall, where they had a meeting in behalf of Tom Mooney, the California labor leader, now under sentence of death for alleged participation in the San Francisco preparedness day parade bomb plot.

J. Edward Morgan of San Francisco, who has made several tours of the country in the interest of Mooney, was knocked senseless in the riot, which resulted when the boys in khaki and blue stripped the banners from the marchers and tore down the red flag.

Hoover May Become World's Food Chief

Most Serious Problem in All Europe Believed to Be Feeding of People

By FRED S. FERGUSON
PARIS, Nov. 13.—Food is now a world problem. Herbert Hoover, now on route to Europe, is likely to become the world's food dictator.

Statements from Chancellor Ebert and Minister Scheidemann reveal that food is the most serious problem in Germany. The Allies probably will assume the position of shooting bread, instead of bullets, into Germany.

As great faith is placed in Ebert and Scheidemann as "revolutionists," both have been strong supporters of the kaiser throughout the war.

The question is frequently asked in Paris, "Where is Liebknecht?" Emperor Karl All For Interests of People

AMERICAN NAVY HAS FULL SHARE

Work of Yankee Ships During War Compares With That of Any Country

LONDON, Nov. 13.—Some of the accomplishments of the American navy may now be made public.

From American naval sources it is learned that the American navy so far has provided escort for 900,000 troops, which is nearly 50 per cent of the total of American troops in France. American ships also escorted 27 per cent of allied and neutral shipping, including merchantmen, supply ships, munition ships and troop ships.

A mine barrage 230 miles long—the longest in the world—has just been completed from Scotland to Norway, completely enclosing the North sea. The American navy laid 89 per cent of these mines, with about 67,000 American mines, especially designed mines. This is referred to as one of the greatest naval feats in history and was believed impossible. The mines were transported from America to gigantic American naval bases, at which they were assembled.

Reports Conflicting As to Crown Prince

One Dispatch Says Dead, Another That He Is Safe and Sound in Holland

BERNE, Nov. 13.—The body of Frederick William, former German crown prince, has been found covered with laynet and bullet wounds on a military train bound for the Dutch frontier, it was reported here today.

PARIS, Nov. 13 (1:30 p. m.).—The former crown prince arrived in Maastricht at 4 o'clock yesterday afternoon, according to a dispatch from Rotterdam yesterday.

SMOOTH RETURN TO PEACE BASIS IS PRINCIPAL AIM OF GOVERNMENT

Cessation of Hostilities Finds War Department in Full Swing on Preparations for Spring Campaign—Details of Demobilization Not Yet Taken Up But Every Effort to Be Made to Guard Against Upsetting of Financial or Industrial Conditions

SLOW DOWN WAR WORK GRADUALLY IN THE INTERESTS OF PUBLIC GOOD

WASHINGTON, Nov. 13.—Returning demobilized soldiers into industries through local draft boards is being worked out by Provost Marshal General Crowder today.

Under Crowder's plan, which is tentative and still without formal approval of the war department, soldiers will be discharged only as fast as their local boards can find jobs for them to step into.

RESTORE ORDER BEFORE PEACE CAN BE SIGNED

Meeting of World Conference Depends Entirely on Time Taken to Reorganize Central Governments

By ROBERT J. BENDER
WASHINGTON, Nov. 13.—President Wilson is ready to consider "favorably" the supplying of foodstuffs to Germany, if he can be assured order is being and will continue to be maintained there.

This reply has been sent Germany in answer to her appeal for food. The only other condition placed upon the matter was that there be a guarantee of equitable distribution.

What Germany Wants. The German appeal delivered yesterday through the Swiss minister said: "The German government urgently requests the president of the United States to inform German Chancellor Ebert, by wireless, whether he may be assured that the government of the United States is ready to send foodstuffs without delay if public order is maintained in Germany and an equitable distribution is guaranteed."

The main portion of the answer as given by this government through Secretary Lansing said: "At a joint session of the two houses of congress on November 11, the president, of the United States announced that the representatives of associated governments in the supreme war council at Versailles have by unanimous resolution assured the peoples of the central empire that everything that is possible in the circumstances will be done to supply them with food and relieve the distressing want that is in so many places threatening their very lives; and that steps are to be taken immediately to organize these efforts at relief in the same systematic manner that they were organized in the case of Belgium."

World Use German Ships. Furthermore, the president expressed the opinion that by the use of idle tonnage of the central empire it ought presently to be possible to lift the war of empty misery from their oppressed populations and set their minds and energies free for the great and hazardous tasks of political construction which now face them on every hand.

"Accordingly the president now directs me to state that he is ready to (Continued on page eight)

TO GATHER UP GERMAN CRAFT

Warships of All Kinds to Be Assembled in Port to Be Selected

WASHINGTON, Nov. 13.—The work of assembling German naval vessels in a port to be designated by the allies will start soon. "As finally amended the armistice requires Germany to surrender all her submarines, including the big air her submarines, including the big air submarines, and mine layers. It is understood that this will mean that Germany gives up about 200 U-boats instead of 100 as required in the original form.

The amended armistice made public at the state department last night changed details of time and numbers did not alter the general broad principles it is shown that 150,000 instead of 50,000 cars must be surrendered in evacuated territory; the Germans must give up 50,000 instead of 25,000 machine guns. German civil aircraft troops must evacuate, not surrender; German evacuation of Russia is delayed until such time as the allies decide it is safe, considering the internal situation. Other conditions are altered slightly and small alterations in most of the remaining of Germany in connection with the allies commanding of railroads.

FRENCH PEOPLE WILL LEND AID TO OLD ENEMY

France Will Join With United States in Offering Every Assistance Possible to German Nation

WASHINGTON, Nov. 12.—France will join with the United States in giving any relief to Germany that is along the lines of justice.

This is the stand of Premier Clemenceau as Dr. Baile's urgent plea to President Wilson, according to cables to the French high commission today.

As the situation in Germany is helpless, we will do our best to revitalize her as much as we can afford," the French premier stated.

The transport question is a vital one in relation to the food supply. Germany is going to restore all the engines and the 150,000 railway cars taken from us. This will not facilitate her own revitalization.

Germany waited until the last moment when she exhausted, to capitulate. "She is not in the normal condition which would enable her to aid herself. From the first hour we must come to her assistance. We do not make war against humanity but on behalf of humanity."

OCEAN TRAVEL NOT YET FREE

Passenger Traffic Will Probably Not Be Resumed Before Next Summer

NEW YORK, Nov. 12.—Ocean passenger traffic to Europe will be resumed by early summer, New York steamer agents declared here today.

The need of the European population for food, raw materials for industry and reconstruction will absorb all tonnage for some time, it was stated. There is no immediate prospect of the resumption of shipping being resumed.

Although some tourist traffic may be under way in several months, an official of a large American line stated that there was no chance of it assuming new passenger proportions. He said it was not merely a question of providing steamship accommodations at this end, but return journeys would have to be considered, which all accommodations from the other side would be needed for troops.

Speaker Clark Will Likely Be Leader

Kitchin Will Probably Be Reluctant to Rank in Interests of Party Harmony

WASHINGTON, Nov. 12.—Election of Speaker Clark to Democratic leadership in the next congress is practically assured. There has been considerable question as to whether Clark or Charles McNary, present Democratic floor leader, would get the place. Asked concerning minority floor leadership today, Clark said:

"The man nominated for speaker is always minority leader."

Kitchin said exactly the same thing and added that he would put up no contest for the office.

KAISER GETS BLAME FOR COURIER'S DELAY

Von Hindenburg Said to Have Assumed Responsibility of Thwarting the Royal Will

AMSTERDAM, Nov. 12.—The delay of the German courier courier, it was learned today, was due to the kaiser's attempt to prevent him from reaching the French lines.

At one point in Belgium, the courier was held up for a considerable period. Von Hindenburg assumed full responsibility and contemplated the kaiser's order and the courier proceeded.

Berger Asks For Change of Venue

Socialist Leader Alleges Federal Judge Landis Is Prejudiced Against Germans

CHICAGO, Nov. 12.—Change of venue is asked for Victor L. Berger and four other socialist leaders indicted here on charges of violating the espionage act. Seymour Steadman, attorney for the socialist leaders in asking the change requested Federal Judge Landis had expressed hatred of the Germans. This is a legal prejudice, Steadman said, would injure the chances of the defendants who are of German or Austrian extraction.

Student Army Men Are Not Interrupted

Plans for Disbanding Will Be Taken Up Later Along With Demobilization

WASHINGTON, Nov. 12.—Plans for disbanding the student army training corps inaugurated by the war department are under consideration. A commission probably will be handled in conjunction with general demobilization plans later.

It was stated at the war department today that no change would be made for the present, because the work is being carried on in many colleges for special training of volunteers, there.

CHICAGO'S CASUALTIES SURPRISINGLY LIGHT

Only Five Dead and Thirty Injured in Great Celebration of Close of War

CHICAGO, Nov. 12.—Five persons were dead and more than 30 were suffering from more or less serious injuries following celebrations here of America's victory.

Policies of the expressed surprise, considering the fact that at least a million persons took part in the ball that broke loose following the announcement that the armistice had been signed, the casualties amounted to no more.

BELGIUM MUST GET QUICK AID

Economic Chaos Can Only Be Averted By Quick Action in Matter of Supplies

WASHINGTON, Nov. 12.—Belgium must have increased food supply at once to avert economic chaos, Belgian Minister Dierckx stated today.

Machinery, building material and clothing must follow on the heels of food to put the country on its feet again, he said.

Unofficial estimates place the cost of rebuilding Belgium at \$4,000,000—a sum which Germany must ultimately pay. But Belgian diplomats say they cannot wait for the money. The allied and particularly the United States should come through at once and get the reconstruction program under way.

SAYS PRESIDENTS WITHOUT AUTHORITY

Rate Making Power of State Railroad Commissioners Cannot Be Changed

DES MOINES, Ia., Nov. 12.—Rate making power of state railroad commissioners is, no railroad commissions carrier, be nullified by President Wilson in the opinion of Dwight N. Lewis, chairman of the Iowa commission.

Lewis made this assertion in a speech before the convention of railroad commissioners in Washington today, according to word received here.

"In my opinion there is nothing in the act of congress giving the power of control, as a war measure, the power of control and regulation of carriers that repels any federal or state law requiring the rates to be just and reasonable for the services performed," said Lewis.

SOCIALIST MAJORITY AGREES TO POLICY OF GOVERNMENT

BERLIN, via London, Nov. 11.—(Delayed)—With Chancellor Ebert presiding, the majority and independent socialists agreed yesterday on the government's policy.

Former Kaiser An Unpopular Guest

Will Probably Be Interned in Holland in Interests of German People

LONDON, Nov. 12.—Dispatches strengthen the belief that the former kaiser will be interned in Holland. An official statement issued in The Hague says: "The kaiser has arrived in Holland." Pending an investigation, the queen sent an official delegation to call on him, with a view of discussing plans for the kaiser's visit.

The newspaper Telegraph urges the government to restrict Wilhelm's visit to a few hours, pointing out the danger of the new German government and Allies regarding the presence of the German court in Holland as the center of an effort to overthrow the new government and renew the war.

ASK PUNISHMENT OF KAISER AND WAR OFFICIALS

Sentiment Growing in Germany Against Former Ruler and Many of His Lesser Satellites

WASHINGTON, Nov. 12.—German factions may demand extradition of the former kaiser and his staff before a socialist court at Berlin, diplomatic cables received here today suggested.

Feeling against Wilhelm is declared to be increasing in Berlin and throughout Prussia. Strong Bavarian factions are demanding punishment of the deposed monarch and the Krupp interests. Prussian Junkers and militarists and all others within the former German empire responsible for the war, the cables said.

The Post of Munich refers to the high feeling throughout Bavaria against those who deliberately planned the world conflict, particularly Ludendorff, the Krupps and Wilhelm.

Regarding the Krupps, the paper asserts: "This enterprise will be made to answer to a court of justice for having given subsidies to general propaganda of war and thus to have systematically prepared the war slaughter and the defeat of Germany."

CHANCELLOR IS MERE CATSPAW

Former Member of Reichstag Gives Impressions of Country's Future

NEW YORK, Nov. 12.—Chancellor Ebert is too much of a "catspaw" to remain long in power, in the opinion of Daniel Blumenthal, former member of the German Reichstag and present in New York, according to the Evening World.

"Ebert is a man who has risen from the pavement," Blumenthal is quoted as saying.

"He is a man of some capabilities, but has always been a catspaw for some one higher up. The former kaiser has used him when there was some irregular end to be gained, as have others of the royal household. His ability as a statesman is negligible. That he could manage any of the situation that confronts Germany is doubtful."

"The great upheaval within Germany will not come until the men who have been in the trenches return and begin to think other thoughts than those of killing sentient soldiers. Then they may conceive the idea of another kind of killing."

"The passing of the kaiser may mean the disintegrating of the German empire and setting up of some republic. It certainly marks the end of German militarism."

RESTRICTIONS TO BE REMOVED VERY GRADUALLY

Possibility of Industrial Disturbances or Money Panic to Be Carefully Guarded Against

WASHINGTON, Nov. 12.—America hurried to the end of the war with a "firm, steady grip on all economic conditions."

All possibility of industrial disturbances or money panics was forestalled by the government's control of raw materials, labor, food, fuel, industry and trade. Chairman Harbo of the War Industries Board declared.

"After one day of rejoicing, the country immediately started contemplating that part of the war program which must keep on and began quickly to make ready for the readjustment period."

The heads of the war industries board, the food administration, the fuel administration and the war trade board reiterated statements that restrictions of trade in industry and in the consumption of food and fuel will be lifted gradually and in a manner that will not permit price fluctuations or panics. The war industries board will immediately take up the problem of readjusting the distribution of raw materials, through a list of priorities on steel and hides and leather, cotton, lumber and other materials in which there have been and still are shortages.

Must Feed All Europe The food administration, in cooperation with the war department, already is begun work on a comprehensive plan for feeding not only France and Belgium, but also the Serbs and the peoples of southern Austria and Montenegro. A mammoth food reserve will be built up in France in the hands of the Quartermaster General of the army. Shipments to this end will commence today.

When conditions in Europe become sufficiently settled, food will be sent to the needy sections from this store. The fuel administration will continue to urge conservation of gasoline and oil.

Policy Has Made Good The war trade board will continue to maintain a hold on the export trade of the nation, through the issuance of licenses, relating it only as safe economic conditions permit.

Officials of the war industries board today declared that the wisdom of the price fixing policy can now be seen. "If there had been no fixed price on steel," said an official, "the price would have been up to \$120 a ton. And with the armistice news, there would have been a terrific collapse with an indescribable panic resulting."

TRAINING CAMP CANCELLED

CAMP FREMONT, Cal., Nov. 12.—The infantry officer training camp which was to have opened here December 1, was cancelled by orders received today from the war department. SIMPLE LIVING VERY NECESSARY FOR LONG TIME

Food Administration Outlines World Situation as to Food-stuffs for Benefit of State Officials

WASHINGTON, Nov. 12.—Food Administration Hoover today states administrators yesterday that "new world situation in food" requires a change in domestic food policies.

A balance sheet of the world's food supply is apparently as follows under the most favorable conditions:

Sufficient supplies, with economy in consumption, of wheat and rye, and shortage of dairy animals. Sufficient supplies, with economy in consumption, of starchy foods, beans, peas and rice; a shortage of about 3,000,000 tons in pork products, dairy products and vegetable oils; sufficient beef to load all refrigerating ships available; sufficient beef to load all refrigerating ships available; sufficient sugar for our own normal consumption, but shortage if we keep short rations, but shortage if we increase their rations.

"This being the new world food situation, created by the collapse of the war, Hoover summarizes the prime changes in our food policies on today's outlook as follows:

Economy Still Necessary

That we may now advantageously abandon the use of substitutes in our wheat bread, but that we would still require economy and elimination of waste in its consumption. That for the present, we need conservation in butter and condensed milk. That we must extend this to all fats.

Simple Living Urged

"These are special features in changes of policy, but the shifting of the wheel from one commodity to another is not the whole policy. There is one policy which cannot change and that is the vital very simple living, of economic consumption of all commodities more or less substituted for each other. The most essential of these are bread no wheat haunts the abundance of our table at home."

BAN ON OUTPUT IS BEING LIFTED BY GOVERNMENT

Manufacturing Restrictions Are Gradually Relaxing—Building Operations to Be Given Free Hand at Once

WASHINGTON, Nov. 12.—The transition from war to peace in industries is being made gradually and in order. The war industries board has made its priorities list and has annulled certain restrictions so that many lines can begin to resume peace output at once.

The automobile industry is running on a 50 per cent basis as regards passenger cars, and can make a 25 per cent increase this month. A number of other industries are permitted to sell in half the restrictions now applying. Building projects can increase at once. Restrictions are lifted entirely on lumber, cement, brick and the production, transportation can go ahead with all improvements, cities can make increased improvements.

Contracts are decreased with respect to farm machinery, stores, electrical household equipment, sewing machines, talking machines, corsets, beds, holsters and radiators.

Houses costing less than \$10,000 can be erected without reference to the non-war construction branch. Materials will be expedited for various businesses, particularly shipbuilding.

VICTORY BOYS AND GIRLS FOR WAR WORK FUND

Future Citizenship of County Is Recruited Into Organizations With Purpose of Supplying Cheer and Comfort

The future citizenship of Twin Falls county is being recruited into organizations known as the Victory Boys and the Victory Girls, which have for their common purpose the raising of subscriptions for the United War Work fund. Each member signs an official pledge whereby he agrees that the money subscribed by him be earned or will be paid from money which has been earned and it is understood that money will not be solicited from others as gifts in payment of this pledge.

Each member of the Victory Boys and the Victory Girls, a red button, Miss Britton-Wolfe, county superintendent, has sent out supplies of both pledges and buttons to every school district in the county. She anticipates a handsome contribution from the future citizens as a result of this campaign in this county.

Indignia of Membership

A boy enrolls in the Victory Boys as one of "a million boys behind a million fighters," or a girl will enroll in the Victory Girls under the slogan, "every girl pulling for victory," by pledging to earn money to support the United War Work Campaign fund.

A special victory button and a victory banner to be hung in the home window are given when the subscription pledge is made. When the payment is fully made a certificate is given.

Honors will be awarded to schools or places of employment where 15 or more boys or girls enroll, provided the number enrolled is 100 per cent of the total population.

WE CAN'T QUIT NOW

No more humiliating spectacle could be conceived than of a great nation quailing in the first blush of a military victory, deserting the men who in battle have brought about this victory, and leaving a stricken and destitute world to work out its own salvation.

The United States is not going to furnish this spectacle. The United States, called upon in the language of its President, to 'make the world safe for democracy,' has only begun this task when the force of her arm and her voice added to that of her allies has brought about the military defeat of the enemy.

With the signature of the peace treaty, which in all probability will crowd close upon the German acceptance of the armistice terms, the work of reconstruction begins. It is a task not less important nor less arduous than the business of war. The feeding of the world, for a time, depending almost entirely upon the United States, is but one item in this program. It is a work in which the military forces of the United States must be called as an army of construction.

Many more sacrifices will have to be made by the American people before this end is attained. More Liberty Loan issues will have to be subscribed, heavy war taxes will have to be made for a long time, the food conservation program is one that will have to be adhered to even more rigidly than it has been in the past.

All these things have got to be done, and the American people will rise as splendidly as they have in the past, to the necessity as the occasion is presented.

The present task before the American people is the subscription of the United War Work Campaign fund. Even the shallowest intellect cannot fail to grasp the importance and urgency of the demand for continued maintenance of avenues supplying comforts and aid—in the present hour when they need it most—to America's fighting men who have played so great a role in preparing the ground for a new world and who are called now in this greater work of building that new world.

The test of America's sincerity in her expressed purpose is at hand in the present occasion for standing with her agents on the field of war. That sincerity can and will be proven beyond peradventure of a doubt, when the results of the United War Work Campaign are tallied up next Saturday.

Retiring Sheriff of Twin Falls County And the Man Who Succeeds to the Office

FRANK M. KENDALL

The resignation of Frank M. Kendall, twice elected sheriff of Twin Falls county, which was filed with the county commissioners some weeks prior to the election, became effective on Monday, November 11. A. N. (Dob) Sprague, the Republican candidate, elected sheriff by a handsome majority of the voters cast at the last election, has been named to fill the vacancy.

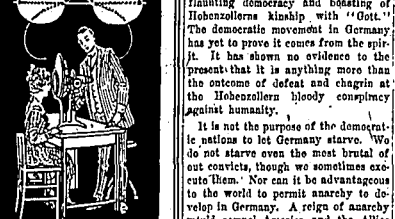

A. N. (DOB) SPRAGUE

He was re-elected to this position two years ago. In his administration of the sheriff's office Mr. Kendall has been both fearless and efficient. No valid complaints against his administration in either of these respects have ever been made by citizens of the county. His earnest application to the work incumbent upon him as a member and chairman of the local draft board and his patriotic zeal in other war activities especially have called forth unstinted praise.

NEW YORK, Nov. 13.—Germany's appeal to America for a modification of the armistice terms as a charitable act to save the German people from destruction, is part of the new posture of Germany's foreign policy. It is a policy of double-dealing between American and the European democracies.

CROP REPORT FOR MONTH OPTIMISTIC

Idaho Field Agent Cites Increase in Corn and Spud Yields

Showing an increase in the corn crop, a bigger yield per acre of potatoes than was made in 1917 and a splendid prospect for this season's sugar beet production, the following crop report for Idaho for the month of November has been issued by Julius H. Jacobson, Bureau of Agriculture, Idaho, field agent for the department of agriculture bureau of crop estimates.

The average yield of corn increases each year as it becomes evident that the crop can be grown successfully in certain sections of the state. In a large part of the state an increase of the highest quality can be grown, while Canyon, Ada and Twin Falls counties particularly, produce excellent yields. The past year was very favorable, an average yield of 37 bushels being secured, compared with 31 bushels last year and a ten year average of 31.8 bushels. The quality is reported as good.

Reporters have been rather pessimistic all season due to the generally poor stands secured last spring. This year, however, together with unusually favorable weather seems to have produced heavy yields of a high per cent of marketable tubers. In the commercial districts of the Snake river valley all the way from Canyon county to Bonneville county, the out-turn has been good. The crop is practically all harvested, having been accomplished before the weathering frost occurred. A preliminary average yield of 185 bushels of marketable potatoes is reported for the state, indicating a production of 5,180,000 bushels, compared with a yield of 150 bushels last year and a production of 6,084,000. The low average yield last year was caused by the severe frost damage of October 18 and 23. Reports indicate that 70 per cent of the potato crop is grown for market in this state.

For the United States the average yield is 88.4 bushels per acre with a preliminary estimated production of 500,101,000 bushels, compared with 425,530,000 bushels last year.

Only 15 per cent of a normal commercial crop of apples is indicated, which is equivalent to 330,240 bushels. Production of commercial and commercial grade sixth normal is 75 per cent grain and 118 per cent forage. This is due to an increased acreage and yield per acre. The season has been generally favorable in the St. Anthony district, but prolonged drought in the Snake valley did much damage.

Splendid growing weather the latter part of the season did much to injure the tomatoe buds. Wet weather has interfered with digging, but all the supply is ready to supply on hand to keep up the demand.

SLAVS STRIVE TO SAVE BABIES FROM FAMINE

(United Press Staff Correspondent) BOME, Italy, Oct. 5.—(by mail)—Forty thousand babies from Austria's famine stricken provinces of Bohemia, Galicia, Herzegovina and Istria, are being fed and cared for by the two more fortunate sister Slav provinces of Croatia and Slavonia. Details of this latest effort on the part of the Slav provinces of Austria to sustain each other until an allied victory is proclaimed by a national peace conference have just been received by Dr. Ante Trumbic, who, representing the Slav provinces of Austria, signed at Corfu on July 30, 1917, the pact with Serbia providing for a single united South Slav nation following the war. Croatia and Slavonia rank as two of the most fertile provinces of Austria, and despite the ever increasing scarcity of food that exists throughout the nation, monachy, these two provinces continue to produce food for their people. Through their local diet they therefore proposed to the Austrian-Hungarian government that they be allowed to succor the other Slav provinces of Bohemia, Dalmatia, Herzegovina and Istria. The only condition they demanded was that in recognition of this they be exempted from military requisition of their food products.

The proposition was turned down by the Austrian-Hungarian government, whereupon the two more fortunate provinces of Croatia and Slavonia began warily gathering together all the babies and little children from the other Slav provinces. No distinction was made either on religious grounds or the grounds of diverse branches of the Slav race. The children taken were distributed amongst the families of Croatia and Slavonia without religious or other distinction. Catholic children often being taken into orthodox families and vice versa. All are now being fed and educated towards the common end of saving the greatest number possible of the Southern Slav race, which has had the most disproportionate losses in the present war, for the future independent Slav state.

TOURISTS WILL BE READILY ABLE TO IDENTIFY OLD ROUTES OF AMERICAN SOLDIERS LEAVE ROUTES WELL MARKED WITH SIGNS WHEREVER THEY HAVE BEEN FRENCH GUIDEPPOSTS ARE SELDOM SEEN NOW

BY FRANK TAYLOR, U. P. STAFF CORRESPONDENT. WITH THE AMERICAN ARMIES IN FRANCE, Oct. 10.—(By mail)—Tourists along the front will never have trouble locating the routes over which the American armies traveled, after the war. Everywhere the Americans have been they let signs lined with signs, telling how to use the route. If used to be that French signs gave you instructions about the road, and you usually guessed what they meant. Then the American military police got busy, selected some sign painters, and now you have road signs in good old Yankee style. 'Do your bit—keep to the right,' is the most frequent notice in huge letters. The French sign 'Hold to the right,' doesn't give half the appeal.

No Boom for Bochs. 'Keep 'em rolling along—don't let the Bochs stop.' This is the American translation for 'fechtlos' stop here. 'Get trucks out of the roads' prevents anyone from making repairs in the middle of the road.

'Obey your converse' keeps the 427th of trucks from preventing faster machine passing. As specified in the manuals save that will give room to pass 'one-way' roads are established by the military police when routes too narrow to permit two lines of traffic. 'Historical' routes allow only automobiles and trucks privileges of passing, horse drawn vehicles having roads of their own.

Keep Off Roadside. 'Don't walk in the middle of the road,' is a pointed suggestion to foot travelers who show tendencies of following that popular European habit. 'No lights out' warns you that Bochs aviators can be observed in the army doesn't care so much whether the Bochs hit you but doesn't want roads blown up as the result of careless lights. These are only a few of the signs of friendly advice which the army is leaving as a mark of its track.

NAME SPRAGUE SHERIFF WHEN BECK RENIGS

Commissioners Cast Unanimous Vote for Officer-Elect When Withdrawal Breaks Deadlock of 27 Hours Duration

Withdrawal by John M. Beck, a former deputy sheriff, of his petition for appointment to fill the unexpired term of sheriff of Frank M. Kendall, resigned, at 2 o'clock Tuesday afternoon, broke the deadlocked vote of the county commissioners on the appointment of the new sheriff, and the unanimous vote of all three members of the board was cast for A. N. (Dol) Sprague, sheriff-elect.

Mr. Sprague was in Duhi at the time the appointment was made, and was not sworn in as sheriff until this morning. Governor C. C. Croby, under the law, served as sheriff from the time Mr. Kendall's resignation was accepted by the commissioners at 11:15 o'clock Monday morning until Sheriff Sprague took the oath of office.

Explanation Beck's Little, if anything, is given out in explanation of the refusal of Commissioners Carlson and Brewer to vote for the appointment of Sprague after Kendall's resignation had been accepted on Monday. Carlson said Tuesday afternoon that "Kendall was at the bottom of the trouble."

It had been generally understood and had been given out by Kendall when he filed his resignation some weeks before the election, that whoever should be elected sheriff would be appointed his successor. There was no indication of another arrangement until Beck's petition was filed on Monday, the date of the Kendall resignation. Carlson and Brewer voted against the appointment of Sprague, Moore voting for it. On motion made by Brewer to appoint Beck, Moore voted no; Brewer yes, and Carlson refused to vote.

Withdrawal Once Before Beck is Carlson's brother in law. He was appointed a deputy sheriff in July last year by Kendall and served in that capacity until recently when his resignation was demanded and received by Kendall. Beck was a primary candidate for the democratic nomination for sheriff up to the last day of filing nominations, when he withdrew from the race in favor of U. S. McGraw who was nominated and defeated by Sheriff Sprague.

SHERIFF A. N. SPRAGUE MAKES APPOINTMENTS

Retains W. B. Lawrence and George F. Huffman in Office and Adds F. O. Herriman

A. N. (Dol) Sprague, sheriff of Twin Falls county, after taking the oath of office this morning, appointed as his deputies W. B. Lawrence and George F. Huffman, who were deputies under the administration of Frank M. Kendall, resigned, and also F. O. Herriman, a deputy sheriff in the office under the administration of H. C. Van Anken, predecessor of Mr. Kendall. Deputy Mr. Herriman has been serving as deputy sheriff in charge of the guards at the Miller dam. He will be in the office here in the future.

Sheriff Sprague announced also the appointment of E. B. Sherman of Duhi, as deputy to represent the sheriff's office in the west end of the county.

Yanks Knock 'Em Down and Pick 'Em Up on Berlin March

War is a tear down-build up game to win. First great machine, of destruction are turned loose, then when the point is carried—the victors move up and back breaking laborers are in order to make the place habitable again. The Yanks in France illustrate this point in new pictures just received from the great battlefield northwest of Verdun. On the left is one of the big Yank guns which has pulverized all their defenses upon which aimed. It is the heavy artillery of this type which demolish villages and drives the Hun back as is that on the right. The Yanks shown here have just captured this important point on the Meuse front and are here making the road passable for the big guns, supply and reserve trucks which will soon rumble up—and all headed toward Berlin.

O. T. ANDERSON WINS CHAPLAIN COMMISSION

Former Pastor of Twin Falls Baptist Church Assigned to Military Duty

Rev. Orvis T. Anderson, formerly the pastor of the First Baptist church, who left here last fall to enter a Y. M. C. A. work at Camp Lewis, Washington, on November 7, completed a course of training for army chaplains at Camp Taylor, Louisville, Kentucky, and has been commissioned as a first lieutenant and chaplain in the United States army. He is to report for duty on or before November 25 at Camp Kearney, California.

In a letter received here Tuesday, Chaplain Anderson says:
"I have been interested to know that the influenza epidemic which was so very serious in Camp Taylor most of the time I was there is getting much better. It seems now that I might soon have run its course. I did not get it, though I had to help much in the base hospital among the patients during the worst stage of the epidemic.
"I shall be glad to have the names of any Twin Falls men who may be in Camp Kearney after my arrival, and it will be a pleasure to me to serve them in any way in which it is possible."

The Girl behind the Man behind the Gun

TWO million men are in France and two million girls are making munitions here at home. For every fighter there is a woman worker. We are giving our daughters as well as our sons.

England's women have formed this second line of defense. So have the women of France. Now American girls have taken their places at machines as new to them as trench-fighting was

to their husbands and sweethearts and brothers.

And this creation of an industrial army has brought about new conditions where the work of these United War Work organizations fills a vital need.

Think of the thousands of girls who are cheerfully giving up their homes to live in crowded centres. Think of their loneliness, their fatigue, their lack of wholesome diversion and recreation if it were not for the provision that is made by these organizations.

Think of the danger in social situations created by this sudden lifting of restraint. Think how ideals could become blurred and standards lost in the whirl of changed conditions. Think of the girls who are risking their lives every hour of every day as they work with high explosives.

But this army of women has not been forgotten. By emergency housing, by clubs, by bureaus for foreign-born women, and by hotels and social

centres the new problems are being met.

Just as the nurse or telephone operator who goes to France finds that home surroundings have been provided for her in twelve hotels and sixteen social centres over there, so the munition worker here at home finds that she has been remembered.

She is risking her life and her country is doing all it can to show its gratitude. When you think of our steady supply of shells streaming overseas, think of the women who are sending them. Is anything too much to do for them?

Why you should give twice as much as you ever gave before!

The need is for a sum 70% greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000.

By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved.

Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their:

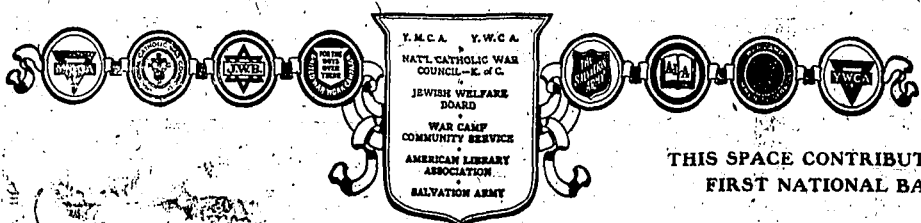

3600 Recreation Buildings	2500 Libraries supplying 5,000,000 books
1000 Miles of Movie Film	85 Hostess Houses
100 Leading Stage Stars	15,000 Big-brother "secretaries"
2000 Athletic Directors	Millions of dollars of home comforts

When you give double, you make sure that every fighter has the cheer and comforts of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theatre, a cheerful home, a store, a school, a club and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs.

Now give to maintain the Morale that is winning the war!

Huge Fires Taken To Be Celebration

German Front Near Conflans in Flames But Little Uncasiness Is Felt

By WEBB MILLER

WITH THE AMERICAN ARMIES IN FRANCE, Nov. 12 (Night)—Huge fires were visible tonight in the direction of Conflans, behind the German line. At some places the Germans remained facing the Americans waving their hands toward our lines and strutting in the open fields without guns.

The second army reports "heavy shooting and shelling from the enemy lines all night, and they sent up flares and rockets."

The approximate enemy line, as given to American officers, shows our troops advanced considerably during the last hours before the armistice.

The huge fires behind the German lines are accepted as being fires in celebration of the armistice, rather than the destruction of materials.

Explains Action On Questionnaires

Provost Marshal General Crowder Issues Statement to Guide Draftees

WASHINGTON, Nov. 13.—To clear up confusion regarding the handling of draftees' questionnaires, Provost Marshal General Crowder today issued the following statement:

"Draft registrants, who on September 12, 1916, had reached their thirtieth birthday, must return their questionnaires to their local boards, although it is not necessary that they fill out the questionnaire. This was provided in the following regulation of the order under the title of the Provost Marshal General today. These men between the ages of 19 and 35 inclusive, who have received their questionnaires, must fill them out and return them."

RESTORE ORDER BEFORE PEACE CAN BE SIGNED

consider favorably the supplying of foodstuffs to Germany and to take up the matter immediately with the allied government, provided he can be assured that public order is being maintained in Germany and that an equitable distribution of food can be clearly guaranteed."

Thoughts Fixed On Conference

WASHINGTON, Nov. 13.—President Wilson and Allied diplomats are exchanging views on the time, location and details of the forthcoming peace conference. Appeal of Germany for an early conference on peace terms that also may be aided in stabilizing her new government and reducing the possibility of civil revolts, are the subjects returned, occupies first importance in the internal situation today. The President held that order must be restored in the central powers before there can be a peace conference. Hence officials here believe it will be two or three months at least before the conference can be held—probably longer.

Meanwhile, however, the blockade article in the armistice terms has been amended to include necessary provisioning of Germany during the armistice. In reply to Dr. Sol's appeal for mitigating the armistice terms, it is likely President Wilson shortly will assure the German government that a helping hand will be extended constantly in assisting Germany to self control.

Assistance will be forthcoming quickly because it is the purpose of the Allies to check anarchy in the central powers and prevent its spread.

Will Give Them Time

One of the significant factors in the present situation is the decision not to force the Germans out of Russia immediately.

With anarchy already prevalent in Russia, it is held that quick removal of the Bolsheviks in Russia, while adding to the number of malcontents in the home-going armies.

Hence, portions of Russia and parts of the former Austro-Hungarian Empire, the Slavs, Poles and Balkan peoples are consolidating and stabilizing their front and peoples in anticipation of their coming toward it the world peace conference.

Four Important Events

Four important events were announced in diplomatic circles here today. All indicated the sincerity of the nationalists of middle and southern Europe in their bid to the extent for full recognition of their rights and the righting of past wrongs.

These events were: Appointment of General Conando as the new Romanian premier; conference of Count Károlyi, Hungarian minister and Serb leaders at that grade. Election of T. G. Masaryk, president and departure of the Yugo-Slav delegates for Paris. Condo is an ardent friend of the Allies and has been instrumental in leading Rumania into the war.

Group of Small Governments

With the abdication of Emperor Karl of Austria, the old dual monarchy and Balkan nations is expected rapidly to form into a group of small stable republics and empires. To this end there will not be long deferred, is the expressed hope and conviction of President Wilson.

Meanwhile there is another important problem confronting the Allies at the peace conference. The inter-Allied labor conference held at London recently adopted resolutions demanding representation of labor at the convolve. President Wilson is understood to favor this.

BRITISH PRESS GLAMOROUS FOR KAISER'S BODY

(Continued from page one)

that of humanity and the new Germany. It is the war against a repetition of the old and new against a repetition.

The borough council of Deptford, Westminster Gazette announced, has adopted this resolution: The future of civilization requires punishment of German authorities from the former Kaiser down, who ordered and permitted specific violations of the law.

A copy of the resolution was sent to Premier Lloyd George and members of parliament.

Bring Him to Justice

"It is our business to demand the Dutch surrender of the former Kaiser into our keeping," said the Express. "Wilhelm and his tribe must be brought to judgment or, at least, held for safe keeping."

Commenting on the armistice, London newspapers agree in the most emphatic terms that it is "a victory for fool." They refrain from boasting and point out that while the armistice undoubtedly is severe, Germany, through lies and atrocities, has made her own hell and declares that she must live in it. The hell given by the Allies is particularly emphasized in expression of gratitude.

Regarding Foreign Secretary Sol's appeal to President Wilson to allow that the armistice provides the Allies shall feed Germany. "Blood and imperator had brought to the verge of ruin, the Allies are at last victorious, with the United States beside them," said the Chronicle. "The liberties of the world are saved."

Deaths

Morris Levin

At a local hospital where he had been brought on the Thursday before, suffering from pneumonia following influenza, Morris Levin, merchant and master of the Masonic lodge at Eden, Idaho, died at 9 o'clock Monday morning. The remains were taken Monday evening to the former home in Salt Lake for interment. Mr. Levin leaves his widow and two little children. Her brother is in the military service in France, and the governor has been asked to secure, if possible, his discharge from the service to assist his sister in the management of the business interests left to her.

Alton E. Swanson

At his home near Artesian City, Alton E. Swanson, 16 years old, son of Mr. and Mrs. Victor G. Swanson, died Tuesday morning from pneumonia following influenza. Funeral services, conducted by Rev. A. W. Harshorn, pastor of the Hansen and Murtaugh Methodist churches, will be held today with interment at Artesian City. Alton was the second child and oldest son of Mr. and Mrs. Swanson. The older daughter was recently married and now lives in San Francisco. Antecedent to the death of Alton, every member of the family remaining at home, including two younger children, were victims of the influenza. The family came about three years ago from New Peru, Idaho, to make their home on a homestead at Artesian City.

J. F. Dewey

The remains of J. F. Dewey, aged about 30 years, who died Monday morning at a local hospital from pneumonia following influenza, will be taken to Oregon, where a sister resides, for interment, according to word received this morning by C. J. Crosby, undertaker, who has charge of the remains. A. K. Eggleston, Ferguson, father-in-law of the deceased, is to be here today to make arrangements for the transfer of the remains.

Grover Kano

A victim of pneumonia following influenza, Grover Kano, aged about 40, died here Tuesday night at a rooming house. Death resulted four days after his arrival here from Burlington, where he had been employed as a carpenter. He was critically ill when he came here. The remains have been taken to the Crosby undertaking establishment, and a sister, Mary Kano at Emeryville, California, has been contacted. Kano's registration card was found in his pocket showing that he had registered September 12. The report of the local board on his physical examination indicated that he was unarmored.

SMOOTH RETURN TO PEACE BASIS IS PRINCIPAL AIM OF GOVERNMENT

the various problems presented by the cessation of hostilities. Of course, some general demobilization plans were made when the war started, but these are insufficient.

No Hurried Action

The only policy thus far decided is that nothing shall be done abruptly on a very hasty to meet war conditions. The return to a peace basis is to be made as smooth and gradual as is possible. The stopping of the draft machinery was the first step. Orders to prevent launching of work already contracted for, but not actually begun are going out.

Working Around the Edge

"So far, we are working around the fringe of the program; we have not tackled the heart of it," said Baker today.

He is studying the best method of sending the soldiers to their homes. Those chiefly needed in industries will probably be among the first to return, though Baker made it clear that so many considerations enter into the problem that nothing definite has been worked out. General Pershing and General Bliss in Paris are working on this phase of the problem also.

Study on Student Army

Baker has several civilian aides as well as the general staff working on the future of the student army training corps, which controls practically every big school, college and university in the country. He said today that though it is too early to announce a victory, the aim is to return the schools to a peace footing at the earliest possible moment without doing it so suddenly as to put any of them out of business because of the changes from "war spaces" to their normal peace curriculum and the removal of the army students.

RECOUNT IS ASKED FOR

NEW YORK, Nov. 13.—Gov. Whitman and the republican committee have been granted an order in the supreme court directed to democratic candidate, Alfred E. Smith, to show cause why there should not be an examination of the ballots cast within the first judicial district, which includes the Boroughs of Manhattan and the Bronx. The order was made returnable Friday morning.

Americans, Soldiers and Civilians, Take Prominent Part in Big Celebration—Business Closed Everywhere—Old Songs Sung to New Words in General Joy of the Hour

(BY WM. PHILLIP SIMMS)

PARIS, Nov. 13.—(Delayed)—Paris was wearing her heart on her sleeve today as at a staid. Every soul was out of doors celebrating the grandest day in the nation ever knew.

From noon the sidewalks overflowed and the boulevards became a solid mass of holiday celebrators. The windows on both sides of the street were packed with onlookers.

Dancing in the Streets

There was dancing in the streets here and there. Taxis were unable to navigate. The boulevard taxi kings who detest the like the Kaiser, girls and boys accompanying them for joy rides all over the city—except where traffic congestion forbade. Each taxi was packed even to the running boards.
