

SERGEANT HOLDS UP THE GERMAN IMPERIAL PARTY

Kaiser Remonstrates With Soldier at Holland Frontier But of No Avail—His Majesty Simply Had to Wait

GERMANS OBLIGED TO GIVE UP THEIR ARMS

Commandant Summoned With Sustains Dutch Sergeant in Argument With Former Emperor of Germany

AMSTERDAM, Nov. 18.—The first one who moves will be shot" was the ultimatum of a Dutch sentry when the former Kaiser and his party threatened to enter Holland without observing any of the international formalities.

Sergeant Diecker, the soldier who issued the ultimatum on November 17, was interviewed by the United Press today.

"I was on duty when I saw the imperial case approaching as though they were going to cross the frontier," said Diecker.

"I shouted, 'stop!' immediately the whole procession halted. Some officers came forward and asked to be allowed to pass.

Wilhelm Objects to Orders

"You may pass without arms," I answered. I recognized a man coming from the second carriage as the Kaiser. He said:

"You must allow us to pass without further fuss. The government knows who we are."

"Very good," I said, "but I don't know who you are. I must do my duty and disarm you all."

"German officers are not going to allow themselves to be disarmed by a common sergeant," the Kaiser said angrily.

Sends for Commandant

"Very good," I replied, "but you are going to remain right here until the commandant at Maarsdieck has been notified. The first one who moves will be shot." One of my men telephoned the commandant, who arrived in twenty minutes. In the meantime, the men waited, rifles in hand, while the German walked nervously to and fro. When the commandant came up, the Kaiser told him of my opposition, saying:

"That is a good soldier; he might have been a German."

"The whole company then gave up their arms. I knew it was the Kaiser, but if he had moved, I would have shot him."

SUPREME COURT WON'T CONSIDER MOONEY APPEAL

Plea Based on Failure of California Supreme Court to Go Behind Record of False Testimony is Denied

WASHINGTON, Nov. 16.—The supreme court today declined to review the case of Thomas Mooney, San Francisco labor leader, convicted of murder in connection with the San Francisco predecessor day parade.

While the court handed down no formal opinion in the Mooney case the denial was based on the fact that the court could find no federal question to be involved.

Mooney based his plea on the fact that the California supreme court refused to go behind the records of the lower court which concerned on false testimony.

Sure Enough "High-Placed" Is Express

AMSTERDAM, Nov. 18.—The Telegram stated today that a German airplane passed over Zevenaar Sunday, carrying a "high placed" message, believed to be the German emperor's.

Zevenaar is a small village 58 miles southeast of Amsterdam.

NO FIGHT WITH LABOR DECLARES PRESIDENT BARR

Head of National Founders Association Disclaims Intention to Open Controversy—Problem One for Government

NEW YORK, Nov. 18.—The manufacturers do not "intend at this time to enter into any wage controversy" with organized labor, as this is a question that must be solved in the reconstruction period President William H. Barr, of the National Founders' association declared in a statement made public here.

President Barr issued the statement in reply to the announcement made by President Samuel Conners of the American Federation of Labor, that labor will not permit wages and hours of work to go back to a pre-war basis.

Advocate Cooperation

"If any man or set of men assume to think the manufacturers intend at this time to enter into any wage controversy they are quite mistaken," said Barr. "On the contrary, the present line is one when all possible constructive emergency should be utilized for cooperation and not strife. Perhaps the country can maintain its industry and secure its share of world trade on an eight-hour work basis. If so, well and good."

Barr also declared that the manufacturer is unquestionably most "deeply concerned in working out the great common industrial problems that those individuals and organizations whose principal efforts are confined to vituperation and reduction of output."

GREAT WELCOME AWAITS WILSON FROM PARISIANS

Hailed as Man of Peace and the World's Exponent of Policy of "Live and Let Live" Idol of French People

MAY ATTEND ONLY OPENING SESSIONS

Peace Conferences May Not Last as Long as Expected—Allies Will Discuss Terms and Germany Must Accept

PARIS, Nov. 18.—A reception unparalleled by any known in history awaits President Wilson in Europe. The French call him the man of victory, the man of peace and the man who won liberty for mankind. He has become more than a personage. To the French, he is a symbol of the world-wide party of "live and let live."

It is not expected here that he will remain longer than the first sittings of the peace conference, which are expected to begin in the middle of December an ideal for some time. (No official word of any kind has come so far to indicate that President Wilson is going abroad, but the belief that he plans to make the trip, appear to be firmly fixed in Europe.

Allied Troops Move Ahead

The actual conference, it is predicted here, will be shorter than generally thought possible. At the preliminary sessions, the Allies will agree on just terms to Germany and at the regular meetings it will only remain for the Germans to accept these and discuss the details.

The Allied armies of occupation are moving methodically on toward the Rhine. Few troops but by General Mangin are expected to enter Metz next Tuesday. Americans will participate in the entry into that fortress city.

PROGRESSIVES START FIGHT ON OLD GUARD

Democrats May Form Coalition With Progressive Republicans to Defeat Penrose-Lodge-Warren Control

WASHINGTON, Nov. 18.—Senate progressives today opened their fight to prevent the Republican "old guard" from monopolizing power after March.

Senator Norris, Nebraska, introduced a resolution to amend senate rules so that the chairman of any of "big eight" senate committees can not be made a member of any other of the "eight."

The eight committees are finance, foreign relations, military affairs, naval affairs, appropriations, interstate commerce, judiciary and postoffice, upon which will rest responsibility for formulation of reconstruction legislation.

Will Consider Rule

Vigorous efforts have been made to prevent Norris going ahead with this rule fight, since he gave notice last Friday of his intentions. But Norris refused to listen and today had the bill introduced in the senate committee, which is controlled by Democrats.

Ordinarily, this committee would act upon pigeon-hole a rule proposed by a Republican, but as an element of Democrats is eager to form some sort of coalition with the "progressives," it will hold the balance of power in the next session, it is expected the rule will receive favorable consideration.

Fight Penrose-Lodge Elements

If it does not, Norris will call it before the senate. In that event, he is sure of considerable support. It is stated by the author of the progressive roll in congress against possible control by Penrose, Lodge, Warren and others. The fight now centers around Penrose, who is in line for the chairmanship of the powerful finance committee, according to the progressive group. Some Republicans, therefore, are seriously considering the advisability of urging Penrose not to insist on the finance chairmanship, it is stated.

At a caucus this week, Republicans discussed ways of meeting the "progressive" move and hopes are held out for an amicable solution.

GOVERNMENT-BUILT SHIPPING TO BE DEVOTED TO INTER-AMERICAN TRADE

WASHINGTON, Nov. 18.—Approximately one-third of the ships built and building by the United States shipping board will be utilized in trade between the United States and the western hemisphere.

It was learned from high official sources today that, of the 25,000,000 ton ship program, the shipping board plans to turn 8,000,000 tons into Latin-American trade channels.

Plans to take care of traffic between the two continents comes closely on the heels of an announcement by the United States High Commissioner, "that commercial advice agents" will be sent to South America as the connecting link for business. It provides also a clear outline of what the government expects to do in bringing the nations of the two continents more closely together commercially.

METHODICAL PRECISION MARKS ADVANCE OF OCCUPYING ARMIES

Enemy Retirement and Allied Forward Movement Goes Like Clock-Work—Signs, Flags and Arrows Placed by Allied Engineers Direct Advancing Forces—German Forces Comply With All Provisions of the Armistice

ENEMY OFFICER REMAINS BEHIND IN CHARGE OF 42 GUNS FOR THE ALLIES

WITH THE AMERICANS ADVANCING TOWARD THE RHINE, Nov. 18 (By Courier Joe Verduin and Bar Le Duc).—The third army resumed its advance into German territory at dawn today. When the march began, the left wing of the Americans rested on the Franco-Belgian frontier, while the right wing was near the German border in the Metz region. The American troops had camped during the night an average of nearly ten miles within the former German positions, along the general line of Ecouviez, Sorbent, Gouraincourt and Mars-la-Tour, a front of about fifty miles.

In their first day's march, the Americans reclaimed nearly 200 square miles of French territory. Most of the towns, which had been badly shot up, were deserted by the Germans only a few hours before the Americans reached them. The Germans had not blown up any of the bridges or roads.

The few inhabitants hailed the Americans with delight. The advance proceeded smoothly, averaging three miles an hour.

Signal corps men were kept busy bringing up new wires. The troops were fully equipped, wore their tin hats and carried gas masks.

Observe All Precautions

The infantry was in the lead, followed by machine guns, artillery supply trains, and ambulances. Each division was about thirty miles in length. All ordinary war-time precautions were observed in last night's camp.

The army's advance is in the direction of Louvigny, Briey and Audun, all of which lies close in front. Laborers are repairing the German built railroads. After crossing with the "old guard" into the Metz region, the advance proceeded smoothly, averaging three miles an hour.

SETTLERS WILL VOTE ON SALMON DISTRICT PLAN

Proposition and Selection of Five Directors to Be Submitted to Election on Wednesday, December 18

Wednesday, December 18, is the date for the election on the proposed Salmon River irrigation district, as determined Saturday by the settlers through the Salmon River Settlers' association, and ordered by the board of county commissioners. It is the sense of the directors that the proposition should carry. J. R. Bethwell, attorney for the settlers' association, stated this morning.

Very legitimate complaint growing out of the action of the county commissioners in adding 180 acres to the originally proposed area of the district, to include 3000 acres, and will be adjudicated in the court after the formation of the district, Judge Bethwell stated. The regular order in the organization of the district provides that the size shall be determined by the district court, he added, and nothing is to be accredited by the voting of the district at the present time.

Polling places will be open between the hours of 8 o'clock a. m. and 7 o'clock p. m. on the day of the election in each of the five divisions provided for as follows:

Division No. 1, Amsterdam school; No. 2, Hollister school; No. 3, Haggard school; No. 4, Berger school; No. 5, Allendale school. All residents within the proposed district are qualified to vote, and no previous registration is required. Each voter, however, on the day of election, must subscribe to an oath that he is a resident of the proposed district and a qualified voter.

Not only the proposition of forming the district will be submitted at the election, but choice of a director from each of the five divisions within the district is to be made at this election. The directors are to be selected by ballot in each of the five divisions will cast his ballot for each division.

Preliminary to the election, a mass meeting has been called to be held at Hollister, at 8 o'clock in the afternoon of Monday, November 25. If the board of county commissioners continues in effect at that time, the meeting will be held out of doors. Otherwise it will be held in the auditorium of the Hollister school building.

It is regarded as likely that candidates for the positions of directors will be announced and may be nominated, at this meeting.

# NAVY DEVISES GUN WITH RANGE OF 100 MILES

### Would Out-Shoot the Famous Weapon Used Against Paris — Psychological Effect Main Purpose—Other Guns

WASHINGTON, Nov. 18.—Had the war continued, the United States would have had a long range gun shooting much farther than the Tusten gun, the United States proposed to make, would have had a range of probably 100 miles, but whether it will be developed now that the struggle is over is uncertain.

#### Navy Conception

Like the mounting of big fourteen-inch naval guns for front warships, this long range weapon was to be the product of navy brains. Not that production men believed such a weapon to be of military value but they did agree that it might have psychological effect.

The gun is understood to have been planned along lines similar to the German machines. It was to be a gun within a gun, in other words, a sub-submarine gun.

#### A Gun Within a Gun

The explosive discharge would cover the area of the bigger gun, but act from a smaller tube within, thus producing a big power on a comparatively small projectile.

Ordnance officers say that the German gun and this one are both "breakers" without sufficient ability to destroy the enemy to make them militarily worth the cost.

The naval ordnance experts not only planned to develop this weapon, but they did extraordinary work on discharges, rocket flames which would light up enemy craft without searchlights, and an aeroplane gun firing from both ends.

In aircraft, the navy was successful. One of its craft has a span of 125 feet, not greater than the mammoth Handy-Palge machine recently exhibited before President Wilson here.

Whenever we get of such things we owe it to us when we are most self-forgetful, and most absorbed in the service of our kind.—Edward Judson.

#### Old Chinese Industry

Experts differ as to how long the Chinese began to make rugs. The great ones seem to think it is one of the native arts of China and others maintain that it is acquired. Nevertheless, it is safe to say that, like the other arts of the Flowery Republic, Chinese rugmaking is of very great antiquity.

## THE ALLIES' HARVEST MOON

## NEARLY TWO MILLION MEN IN THIS COUNTRY MUST BE FREED BEFORE TROOPS ARE RETURNED FROM OVER-SEAS

WASHINGTON, Nov. 18.—War Department authorities are giving consideration to the second phase of demobilization—return of divisions from abroad.

It is estimated that it will be some time in January before the government completes its task of freeing the 1,700,000 men in this country, hence, it is doubtful now if any appreciable movement of troops from over there will commence before that work is done. Intimations have been current that the department proposed to bring

a few divisions home by Christmas but General March thus far has not taken the public into his confidence on this point.

The New England division, mentioned as a possible Christmas present for the nation, is named in unofficial messages as being in the army of any occupation. This group, now reported to be ten divisions, may have to be increased later, and it is quite likely that the units now engaged therein will be changed from time to time, just as in battle.

#### Such Demobilization Plans

The work of freeing men in this country will be hurried as much as possible. The demobilization of development battalions, the first task undertaken, is now in progress.

When the rainbow division comes home, it will have to be distributed all over the country, because of its national character. This national tour idea may be coincident with the "home coming loan" to be launched early next year, as the fifth war loan.

## SENATE COMMITTEE WILLING TO REVISE

### Changes in Revenue Bill Now Expected to Out of Total Materiality

WASHINGTON, Nov. 18.—The senate finance committee agreed today to revise the revenue bill. As passed by the house, the measure was drawn to bring in more than \$8,000,000,000. Changes already made by the finance committee have reduced the bill approximately to \$6,000,000,000.

The committee decided to ask the treasury experts to furnish information relative to the proposed change in the excess profits tax on corporate partnerships and individual incomes taxes.

## THE UNIVERSAL CAR

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; any one can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

## Three Tornadoes Hit In Space of An Hour

### World's Record Believed Established in Matter of Storms — One Woman Killed

PRAGUE, Okla., Nov. 18.—A world's tornado record was believed established here today. Three twisters "hit" within an hour late yesterday. One person—a woman—was killed and thirteen were injured.

The first twister hit the town, demolishing twenty-two buildings, but passing between two school houses in and around which were 150 children. The buildings are only a block apart. A half hour later, a second cyclone formed over the town. It did considerable damage in rural districts.

A third, fifteen minutes later, did much damage near the village.

### Believed To Have Been Swept Ashore Off Cape Race

ST. JOHNS, N. B., Nov. 18.—Consular and other craft are trying today to locate the British steamer Casapedia of the Federal Line, which was reported in a radio message to be in a sinking condition off Cape Race.

The wireless gave no particulars. It is thought here that the ship was damaged in the hurricane which swept this coast during the last twenty-four hours.

## SOCIALIST PEACE RALLY MAY LEAD TO PROSECUTION

### Berger Called Good Socialist "Because He Can Show His Indictments" — Other Red Utterances Are Made

CHICAGO, Nov. 18.—Notes taken by government agents of addresses at a socialist "peace rally" here yesterday were to be presented to United States District Attorney Clegg today, according to reports. William Brodsky, defeated socialist candidate for senator from Illinois and others spoke before 10,000 socialists.

"All socialists are pro-bolshevik," declared Berger. "Glad by your color—your flag—your ideas, and by your flag, mean the international flag." When cheers and cries interrupted the speaker, he said, "I am in no way opposed to our flag," glancing at the stars and stripes. "At the same time the international is the big flag of the world."

#### Radical's War Work Campaign

Berger was introduced as a man who could qualify as a good socialist, "because he can show his indictments." "I can show four indictments," he said. Berger is under indictment, charged with violations of the espionage act of the war.

Irwin St. John Tucker "explained" the United War Work campaign by saying that contributions were sought to keep the soldiers in France from becoming socialists.

"The soldiers are in danger of becoming intelligent," he said.

# DECLARES DAY OF BIG SHEEP OWNERS PAST

### E. F. Rinehart, Field Animal Husbandman, Says Industry Is Not Thrifty But Holds Out Much for Encouragement

Contrary to the popular opinion, says E. F. Rinehart, field animal husbandman of the University of Idaho, is not on the range as many sheep owners in southern Idaho in fall of 1919, the sheep industry is not in a thrifty condition.

Mr. Rinehart argues, however, that at the present time one of the best farm investments is either sheep or cattle. A high percentage of the Idaho farms are in an unbalanced condition with a large proportion given over to the production of feed and food crops, he says. The time is soon coming when a realization of the situation will lead to a change, he declares, unfortunately instead will be the farm without livestock.

#### Range Sheep Pasting

Following are extracts from Mr. Rinehart's report:

In spite of the need for more sheep and wool, our sheep are rapidly decreasing. A conservative estimate is that there will be 500,000 fewer sheep overwintered in Idaho this year than in the past. The situation is due to a lack of profit and a general feeling of discouragement. Among the main reasons for the present condition, are the enrollment of the range, heavy losses on the range, increased expenses and reduction of loans.

#### Profit Is Unusual

Contrary to the popular opinion, the sheep industry is not in a thrifty condition. During the past few years, the wool has kept its price and kept the cost of bands of sheep and kept account of all expenses. Only with the best of success, involving a certain amount of good luck, has any profit been made this year. There is a general feeling among the sheepmen that the wool has the value put in sheep would be a better investment in farm lands, or even loaned out on interest.

#### Cause of Decline

This condition has arisen not because of a surplus of sheep or a lessening of the demand for the products of the industry but because of the action of depending upon a few men to carry on the industry in this state. The demand for the products is so great that there is no reason or no excuse for a slump in the price of sheep.

The need for more sheep and wool has never been greater than at the present time. The number of sheep in the United States is sufficient to supply only one-half of the wool needed in normal times. Each soldier needs sixteen times as much wool as the average civilian, hence with 1,000,000 men under arms there is an additional requirement for 1,800,000 pounds of wool.

In times of peace the wool is used time and again in various forms of shoddy. In the case of an army in the field much of the wool is withdrawn from future manufacturing.

#### Future Requires Wool

The return of the soldiers to civilian garb will require more wool. Never was the world supplied enough wool for all to be well clothed. At the present time the situation is more acute. The drop in sheep is not due to a surplus but to the failure of many to bear their share of the burden.

In sections of the state a large percentage of farmers are keeping animals. The sheep in the farms and special mixed grass pastures are provided or use is made of the ditch banks. Field investigations show that in most cases the ditch banks have as high a carrying capacity as the pastures. Where use is made of the waste feed on ditch banks and in closing up the fields after harvest, the sheep are carried at less expense on the farm than on the range. A survey of the farm that carries sheep in this way shows that the sale from the profits the sheep are an actual benefit. Considering the value in destroying weeds and the good profit returned from the waste feed it is unfortunate that only three sections of the sheep in the farms awake to the value of sheep on the farms.

#### Present Time to Buy

Thousands of good ewes have already been sent out of the state. Many of these will be slaughtered. Thousands more are for sale. They are moving rapidly. Now is the best time to buy a flock for the farm.

#### Comb Old Toilet Adjunct

Combs have been used to the toilet since very ancient times. The Greek, the Egyptian and the Roman ladies used them to arrange and hold up their hair; the ladies among the Swiss lake-dwellers seem to have been familiar with them. Some of these were made of wood, some of bone, of horn or of ivory. Specimens have often been found in recent years.

If you can do anything useful in an efficient way you can find work.

## Pied Piper Would BE WELCOME HERE

### Twin Falls Housenoses Complain of Epidemic of Mice — Trap Supply Short

Twin Falls has another sort of epidemic that few persons have remarked as being so widespread as it is and that is the mouse pest. The town has scarcely enough traps to supply the demand of thirty households. In case of the trap being overrun it seems we shall have to wait the arrival of a second Pied Piper or see our winter food supply spoiled by the rodents' nibblings.

## FARM BUREAU LEADERS MAKE PRODUCTION PLANS

### Agricultural Extension Workers and Organization Executives in Conference at Burley

A district conference of the county agents and farm bureau executive committee is in session today in Burley to outline the war production program for the coming year. In its application to southern Idaho, in attendance from Twin Falls county are County Agents Donald McLean, Mrs. G. H. Brown, home demonstration agent, Miss Hannah M. Spence, boys' and girls' club leader, and county farm bureau organizations and M. A. Thomas and Frank De Klotz, members of the county farm bureau executive committee.

## BUHL SUPERINTENDENT ENTERS Y. M. C. A. WORK

### C. G. Manning Is Directed to Report at New York to Take Up Duties Overstate

BUHL.—Superintendent C. G. Manning received word Tuesday to report immediately about possible time to New York and from there to France to engage in the Y. M. C. A. work for which he made application some time ago, says the Buhl Herald. Mr. Manning had been spending the order as he had received a letter last week telling him to hold himself in readiness to go at any minute.

Mr. Manning applied for the position as "Y" secretary last July when the war seemed at its most critical stage. The application was sent to headquarters in the east and acted on. It was not until last week that he heard any word in regard to when he would be called.

Mr. Manning has served as superintendent of the schools of Buhl for the past three years, in which time he has always taken an active part in local affairs and an especially active part in war work since the spring of 1917. He has always been called upon to serve on important committees in community welfare work because of his willingness to serve and his enthusiastic manner in entering upon the work. He is exceptionally well fitted for the job at New York. Mr. Manning will leave next Wednesday for New York. Mrs. Manning and children will remain in Buhl until he returns. He goes from Buhl with the best wishes of the community and the members of a safe voyage and a safe return.

## BLOOD POISONING

### Hamm's Wizard Oil is Safe First Aid Treatment

How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut? Hamm's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection.

It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for stiff neck, sore feet, cold sores, canker sores, caracine and toothache.

Get it from druggists for 35 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Wafers, pleasant little pink pills, 30 cents. Guaranteed.

## NOTE BRINGS RELIEF TO ANXIOUS PARENTS

Mr. and Mrs. R. Kendall of Murtaugh Hear from Bob in War After "Right Week's" Leave

(Special to The News)  
MURTAUGH.—The arrival last week of a letter from their son, Bob, in the military service overseas, after a period of eight weeks during which he had heard nothing from him, brought a full measure of relief to Mr. and Mrs. R. Kendall of this place.

Among the Murtaugh victims of influenza are the following: W. E. Beers, Mr. and Mrs. Higgins and baby, Leo Joly and little daughter, Dorothy.

Robert Hill of Carey, who is planning to winter his sheep in this vicinity, was here last week arranging for the removal of his family to Murtaugh to make their home there.

Mr. and Mrs. Joe Adamson are the proud parents of a baby boy, born Wednesday evening, November 13.

A light snow fell here Friday evening.

AMERICA-DEBATOR

Now that American fighting men are actually on board ships returning from the battlefields, overseas to their native soil brings to the public consciousness a deeper sense of the responsibility of the nation in respect to these men.

Recognition of this responsibility has come long before this to various agencies among the most active at home in the prosecution of the war, and notably to the National and State Councils of Defense.

A committee appointed by the Idaho State Council of Defense, in a report made lately, recommends in this connection, the creation of special military or rehabilitation committees charged with the duty of welcoming home all disabled soldiers and sailors, recording their discharge papers, and seeing that they are given suitable employment. It advises further that these committees be charged with the duty of making surveys for such men and incite among employers the policy of giving returned soldiers and sailors opportunity to work at a profitable vocation.

It is not, enough that these men should be given—as they will be—royal welcomes upon their return. They must have also employment in keeping with their ability for they have to return to civilian life.

In the undertakings of the Councils of Defense and other organizations in the purpose outlined in the recommendations of the committee, hearty endorsement and cooperative work will be given by every loyal American.

America has sent her best blood to fight the battles of human progress, and America will welcome with outstretched arms the return of those men who are so dear to her.

The returning fighting man will not ask nor want to be dismissed. What he wants and what he will demand is his opportunity to resume the place he has left temporarily to become a warrior. And grateful America is thinking about to anticipate his wish and faithful reward.

It remains only for these organizations which are engaged in the work of preparing themselves for the returning fighters to see to it that the wishes of the fighting men are given precedence in their plans, and that care is taken to prevent needless duplication or lack of harmony in their work.

Firms Funds Well Guarded. Six Chinnemen were at one time travelers in business in San Francisco, via Waller, Newton of Seattle. "I, editor of the firm, after visa efforts to collect what was due him, found out that the money was in the safe, but that the strongbox had six different locks. Each member of the firm had one key, and it was necessary to have a unanimous agreement among them before the money could be taken from the safe.

No Such Luck. A famous British general possessed of literary leanings, in the course of a address in Edinburgh some years ago, had occasion to remark that he had kissed the "muse." The printer, thinking he could more accurately estimate the probabilities, made it appear that the gallant soldier had kissed the "muse" in the letter of congratulation, almost in a spirit of reverence, the general used it clear that he had not such luck!

Makes Use of Vacation. A. B. Anderson, manager of the Chamber of Commerce, has made splendid use of his enforced vacation. The building has been redecorated both inside and out. Stencil designs in brown and green paint the front and side walls make the room very much more cheerful during intermissions. The front of the theatre looks very fresh and new for the reopening. Mr. Anderson says that in all possible cases the big pictures that he has contracted for will be shown. Many pictures which would have been of great interest before the armistice, will not be shown where the ban is lifted.

With Hosts and Hostesses

Mrs. Ebeauer had a few friends in on Friday evening for Miss Gladys Terhune who is leaving Twin Falls soon.

Mrs. Ruth Youngs enjoyed a unique celebration of her birthday last evening. Miss Ruth was fourteen years old and in honor of the event her mother served a delicious dinner with the usual birthday cake to the teachers who boarded with the family.

A very pleasant dinner party took place at the Rogerson Hotel on Saturday evening in honor of Laurencia LaMay of Jerome. A delicious dinner was served for the following persons: Misses Laurencia LaMay, Helen Strobeck and Mrs. Lee Holcomb, Messrs. Wendell Lamareux, Lee Holcomb and Vaughn Lamareux. Mr. Vaughn Lamareux was the host for the party.

On Sunday evening a number of young gentlemen entertained at a beautifully appointed table in the Rogerson dining room. Those present were: Misses Beatrice Cox, Priscilla Munson, Myrtle Clear, Irma Spelling, Margaret Bennett, Hazel Holden, Gladys Chase, Frances Hild, Anabel McMaster, Adell Robinson, Dorothy Ford, Dorothy McNeill, Messrs. Leland Bennett, Bruce Wilker, Oscar Neuman, Roy Leddon, Arthur Beckwith, Ralph Glasgow, Arthur Smith, Cady Kramer, Vaughn Fried, Vernon Walters, George Chandel, Gale Chapman.

Mr. and Mrs. Granville Haight entertained delightfully on November fifteenth at dinner in the J. B. Perrine home. The affair was a celebration of the anniversary of Mr. and Mrs. Haight's birthday and their wedding anniversary. The table was beautifully decorated with yellow chrysanthemums for the centerpiece and hand painted yellow chrysanthemum place cards were painted for the occasion by little Burton Perrine. After dinner the guests played cards. Mr. and Mrs. Baumgardner, Mr. and Mrs. Leo Stettler of Kimberly, Mr. and Mrs. Willard and Mrs. Fred Wilcox and the hosts were seated at the table.

Deaths

One Elison. A victim of pneumonia following influenza, "Gus" Elison, 21, who was honorably discharged two years ago from the United States army, died Saturday night at a local nursing home. The remains are at the Grossman & DeWitt undertaking establishment, awaiting funeral arrangements. Deceased was born in Stockholm, Sweden. It is understood that he was relative to a family in Twin Falls, with whom local authorities are endeavoring to communicate. He had been in Twin Falls but a short time, being employed as a cook at the Palace Cafe. He worked during the summer in Jarlidge, Nevada.

Barille Calico. A victim of pneumonia following influenza, Rev. A. H. Harbison of Hansen, will have charge of the services. Interment will be made in the Twin Falls cemetery.

Funeral for Mrs. Bradley. Private funeral services were held Saturday evening at the County Chapel for Mrs. Jennie Elizabeth Bradley, mother of James G. Bradley, cashier of the Twin Falls Bank & Trust Company, and of Mrs. Marina E. Tucker of Twin Falls, who died early Saturday morning at a local hospital after a lingering illness. The services were conducted by Rev. Asher H. Brand, pastor of the First Presbyterian church. A vocal number was sung by Mrs. Jennie Smith, accompanied by Miss W. C. Peasdale. The remains were taken by Mr. Bradley to Mrs. Bradley's former home in Hot Springs, South Dakota, for interment.

Funeral for Mrs. Cooke. The remains of Mrs. Myrtle Virginia Cooke, 53, wife of E. V. NOTICE OF TEACHERS' EXAMINATION

Examinations for all classes of certificates, both state and county, will be held beginning the third Thursday in November—November 21-22-23, 1918. All persons not holding valid certificates who expect to teach in Twin Falls County, will present themselves for examination at this time. Examinations will be held at the office of the County Superintendent.

In case the health conditions are such that the above examinations cannot be held, teachers will be notified in advance of any change of date. (Signed) BRITTONMART WOLFE, County Superintendent.

NOTICE OF TEACHERS' EXAMINATION
The regular teachers' examination scheduled for November 21, 22 and 23, 1918, is indefinitely postponed by order of the state department of education. Notice of new dates for the holding of same will be given in time for the county superintendents to make the regular fifty-day announcements as required. (Signed) BRITTONMART WOLFE, County Superintendent.

DOINGS OF THE VAN LOONS

There seems to be a flaw somewhere

TWIN FALLS IS OVER TOP BUT COUNTY LAGGING

Drive Made Saturday By Young Women Teachers Results in Raising of City's Quota for War Work

As a result of the work Saturday of young women teachers serving as members of teams in the Twin Falls last week, a total of \$2,527 was collected for the United War Work campaign fund, and the Twin Falls district is now safely over the top. Other districts in the county are lagging, as work to effort to meet their quota Saturday night. This campaign has been extended to continue throughout Monday and drives are in progress in Hansen and elsewhere.

How They Stand

Table with 2 columns: Name, Quota, Subscriptions. Includes Twin Falls, Piler, Kimbert, Hansen, Murtagh, Hollister, Rogerson.

ADMINISTRATION TAKES OVER EXPRESS COMPANIES

Director General McAdoo Adds Thirty Thousand Employees to His Payroll at Noon Today

WASHINGTON, Nov. 18.—Director General McAdoo added approximately 30,000 employees to his payroll at noon today.

American Officers Motor to Brussels

BRUGES, Belgium, Nov. 18.—Thirteen American marine officers returned here today after having returned to Brussels from the trip they passed months of German service, who smiled. The Americans brought back in their car two British prisoners they found walking along the road.

Made Quite a Difference.

The meaning of a paragraph depends very much on the punctuation. An editor wrote "When Mrs. Jones lectured on Dress she was nothing that was remarkable." How the comma placed in the "of" clause came to the conclusion that this should read "When Mrs. Jones lectured on Dress she was nothing that was remarkable" remains a mystery.

Diplomacy Wins.

Frank speakers for whatever they may trust themselves should remember that certain kinds of phrases bring a lot of needless and often pain to others, and those of us who stop to think at all will admit that it is by far the better part of valor to refrain from telling everyone at all times just what we think. We should study the temperaments of the persons with whom we come in contact, and while before we may express ourselves freely and without reserve, we must in the presence of others be most careful and guarded in our remarks.

Trust Always Wins.

Of this truth we may rest assured. The crafty person never gets into trouble. She may go anywhere, mingle with all types of people, and then pass on leaving only a most favorable impression in their minds. Therefore, the truly practical one will gladly put herself out a wee bit in order to retain the good will of others. For this attitude will not only help her immensely, but will certainly make easier and smoother the way of all with whom she comes in contact.

Figures Never Lie.

It is amusing, though, how much printed figures can lead the imagination astray. Our good lady came to sell a quite modern coffee pot, with the catalogue number, 1431, stamped on the bottom. Now, this coffee pot was worth, perhaps, a dollar and a half, and she asked five hundred for it because it was made "before Columbus discovered America."—Alice Van Leer Carrick, in the House Beautiful.

METHODICAL PRECISION MARKS ADVANCE OF OCCUPYING ARMIES

(Continued from page one)

was the advanced zone, the roads improved and the going was fine. In withdrawing the Germans abandoned quantities of material, guns and ammunition, in accordance with the provisions of the armistice. At Spincourt, a German officer remained to turn over for 1543 guns, including two of 15-inch caliber. This is the largest cache of gun mentioned in any dispatches. He received a receipt.

Prisoners Returning

Thousands of released prisoners on the verge of starvation, streamed back into the American camps. They included Russians, Rumanians, Italians, Belgians, French and other Allied Americans. They were picked up in trucks and sent to the rear.

Training Schools Continue

Training schools for officers are in progress here, with actual setting up of new machines, while recruits were being drilled to handle tanks in battie formation. Aviators also were trying out new planes and practicing machine-gun fire.

Love Letters in Hymn Book.

A pair of lovers who had been forbidden to attend the same church, and their plan was the exchange of hymn books. As the young man was an officer of the church he did this little job before service. Most delightful and sufficient love letters could be placed together by following certain lead-pipe marks, and in order to elude even a Sherlock Holmes of the household, the letters were made to read from the end to the beginning of the book.

Keep Curb on Speech.

Most of us say a great deal more than we mean. We have a way of accentuating things just for the sake of the picturesque. There is no reason why we should talk about our own affairs and less reason for talking about our neighbors. It is a mighty safe rule in business, as in life itself, to say only the pleasant things and keep the unpleasant things in the background—or better still, not to recognize them at all.

Piano Playing.

No instrument has such a vast literature, as rich and voluminous, as the piano, and more people are teaching and studying it than any other instrument. The reason that, in spite of its popularity, there are only few who play it well and artistically is that the majority of people consider piano playing more as a means of amusement and a pleasant diversion than as a medium with which it is possible to produce the deepest feelings and the highest art.

Barnacles on Warships.

Warships have to be cleaned on the outside. On one ship about 200 men worked all day scraping off 100 tons of barnacles and plant growth. This tremendous quantity of sea life had accumulated in less than two years, during which time the ship had traveled many thousand miles. The weight of the barnacles was so great that from 25 to 40 per cent more coal was consumed in maintaining the normal speed of the boat.

BULL WOMAN HURT WHEN RACING CAR OVERTURNS

Mrs. Ward Sommer Receives Injuries in Automobile Accident—Is Recovering

(Special to The News) BULL.—Mrs. Ward Sommer is recovering from injuries received in an automobile accident which occurred last Saturday evening. The accident resulted from a race between Ward Sommer and his brother. Mrs. Sommer received a broken leg and several cuts on her head. The car, an Overland, was badly damaged.

What Lieut. Dawson Says of the Y. M. C. A.

Lieut. Coningsby Dawson, Fighting Author, Makes Stirring Appeal for Y. W. C. A. Lieut. Coningsby Dawson, who wrote "They Don't", says of the war work which the Y. W. C. A. is doing: "You at home cannot fight with your lives, but you can fight with your mercy. The Y. W. C. A. is offering you just this chance. It partitions the women's support trenches, which lie behind the lines. It asks you to supply them with millions of mercy that they may be passed on to us. We need such supplies badly. Give generously and we may the sooner defeat the Hun."

Heat Stains on Wood.

To remove white stains made by heat or water from varnished surfaces one method is to apply oil of salt. Leave for half an hour, then wipe dry with a soft cloth. Another way is to write a cloth out of boiling water. Place on the spot for an instant; remove and rub dry with a soft dry cloth. Still another way is to use alcohol or kerosene. Apply this quickly, then rub off.

Greenland Rich in Metals.

Greenland, that huge Danish territory, long copper, lead, silver, tin, Plakes of absolutely pure silver have been panned up in crevices along the cliffs. Mugs of almost pure iron were found in Greenland. One which was brought to Europe was six and a half feet long by five and a half thick, and weighed 30,000 pounds.

Many Mothers Ignore Science.

The doctors say we must not, but what harm does it do to rock a baby? It brings sleep and it brings milk, so no mother ever rocked her child without a lullaby accomplishment. It's all gone, however, because stately science has said that it must go. The only lullaby that has a chance today in the one who is born at sea on the first day of a long voyage.—Exchange.

Many Qualities Needed.

Patience, kindness, generosity, humility, courtesy, unselfishness, good temper, guilelessness, sincerity—these make up the supreme gift, the stature of the perfect man. You will observe that all are in relation to life in general to the known today and the near tomorrow, and not the unknown eternity.—Montreal Herald.

MERCY MUNITIONS NEEDED IN-TRENCHES

Lieut. Coningsby Dawson, Fighting Author, Makes Stirring Appeal for Y. W. C. A.

Lieut. Coningsby Dawson, who wrote "They Don't", says of the war work which the Y. W. C. A. is doing: "You at home cannot fight with your lives, but you can fight with your mercy. The Y. W. C. A. is offering you just this chance. It partitions the women's support trenches, which lie behind the lines. It asks you to supply them with millions of mercy that they may be passed on to us. We need such supplies badly. Give generously and we may the sooner defeat the Hun."

Heat Stains on Wood.

To remove white stains made by heat or water from varnished surfaces one method is to apply oil of salt. Leave for half an hour, then wipe dry with a soft cloth. Another way is to write a cloth out of boiling water. Place on the spot for an instant; remove and rub dry with a soft dry cloth. Still another way is to use alcohol or kerosene. Apply this quickly, then rub off.

METHODICAL PROVISION MARKS ADVANCE OF OCCUPYING ARMIES

(Continued from page one) were the advanced zone, the roads improved and the going was fine.

In withdrawing, the Germans abandoned quantities of material, guns and ammunition, in accordance with the provisions of the armistice.

Orders "Forward March" Major J. Lee Wall, of Lexington, Va., commanding a battalion of the first division, led his men up to the line at 5:30...

The various divisions followed eight main roads toward Luxembourg. The Vanguard of the first division occupied Blainy at 6 o'clock.

All day long the roads to Luxembourg were marching troops flying rapidly over the surface with lock-step precision.

Prisoners Returning Thousands of released prisoners on the verge of starvation, streamed back into the American camps.

Every detail of the advance was carefully planned. Engineers had carefully mapped the routes.

With the exception of those units actually engaged in the advance, the American armies are functioning as one unit.

Carpeters are finishing barracks which were under construction, the signal corps is still building telegraph and telephone lines, and railroads are being laid.

Training Schools Continue Training schools for officers are in session. I saw a tank outfit setting up new machines, while recruits were being drilled to handle tanks in battle formation.

The doughboys already are speculating on when they will be sent home. "When do we go home?" is the question most frequently on the lips of doughboys and officers.

The next most frequent question is "How will the last shot of the war be fired?" Of course, every man at the front has the distinction.

American military officers Saturday were completing the work of renovating Stenay, which was occupied just five minutes before hostilities ceased.

When I was in Stenay Saturday I visited the last shot of the war. The former Crown Prince occupied the Verdun offensive. It had transformed into a German headquarters.
