Triumphant March of Yankees Toward the Rhine Continues—Germans Give Up Millions of Dollars Worth of Guns, Materials and Ammunition

HUNDREDS OF CARS, SCORES OF LOCOMOTIVES AND 3,500 MACHINE-GUNS TURNED OVER TO ARMY OF OCCUPATION

PARIS, Nov. 10.—With General Petain leading and Generals Castelnau and Mangin following, the French will enter Metz today. The city has been gaily decorated for the event.

Next Sunday or Monday, Marshal Foch and Generals Petain, Castelnau and Gouraud will enter Strasbourg.

By WENB MILLER

WITH THE AMERICANS ADVANCING TOWARD THE RHINE, Nov. 10 (10:10 a. m.)—Upon the general line attained in its second day's march the third army was resting today, awaiting further orders. The interval was being spent in organizing lines of supply and communication, and bringing up supplies for the next phase of the advance, which will begin shortly.

Engineers are rebuilding miles upon miles of railway. Six thousand were working today on a three-mile stretch toward Metz. Columns of trucks, miles long, were hurrying up reserve supplies and new divisions were moving in behind the advanced units, occupying the track area.

In every town the Americans are finding German material. At Vitton, in Belgium, the Germans left a hospital full of wounded, including some Americans. A German staff was still in charge. The city was undamaged, shops were open and well stocked. The Americans, who entered on the heels of the Germans, were enthusiastically welcomed.

At Tellencourt, an airplane was found full of damaged mines. Some of them had been maliciously injured.

The American third army advancing with machine-like precision, had completed the second day's march toward the Rhine tonight. It halted on a general line 15 kilometers, more than nine miles ahead of the positions occupied last night.

So far as can be observed, the Germans are carrying out the terms of the armistice in good faith. Yesterday they surrendered millions of dollars worth of materials, guns and ammunition. At several places they turned large ammunition dumps over intact. At Boulogny, several hundred cartloads of iron, cement and steel rails and 22 guns fell into the hands of the Americans. I rode more than 60 miles parallel to the line of the advance. I found a network of light railways, all in good working order and with bridges, tracks, telegraph, hundreds of cars, scores of locomotives, 3,500 machine guns, thousands of rifles and various other materials were surrendered. At many other

COPENHAGEN, Nov. 10.—In compliance with armistice, the German dreadnaughts Bayern, Grosser Kurfurst, Kronprinz Wilhelm, Markgraf, Kaiser and Koestig Albert, and the battle cruisers Seydlitz and Moltke, left Kiel on Sunday en route to the North sea.

British admiralty reports said the German fleet was to leave its base at 5:30 yesterday morning. Unofficial advisers late yesterday said the enemy ships would not leave until Wednesday morning, and would surrender Thursday morning.

The ships named in the above dispatch are only a portion of those to be turned over to the Allies.

TWIN FALLS MAYOR STRICKEN BY DEATH IN MIDST OF USEFUL LIFE

Frank F. Bracken, President of Idaho State Bank and Head of Municipality, Joins Great Majority—Lives to See Many of Ideals of Public Welfare Fulfilled—City Loses Community Leader and Citizens Mourn True Friend

Frank F. Bracken, president of the Idaho State bank and mayor of Twin Falls, and chairman of the county council of defense, died at 1:40 o'clock Tuesday morning at a local hospital, where he underwent a surgical operation at 2:00 o'clock Monday afternoon. Death was a result of perforation of the intestine from an ulcer, causing 88 hours of suffering. Mr. Bracken was stricken at 9 o'clock Friday evening last, while he sat in conversation in the lobby of the Perrigo hotel.

Mr. Bracken had been in poor health for some time. "The last four years of his life have been spared to Mr. Bracken through surgical skill," Dr. C. R. Scott, a business associate and intimate friend of the family, said this morning.

Arrangements for funeral services are incomplete as yet.

Two Sons in Service
Mr. Bracken was 53 years of age.

He leaves, besides his widow, his four sons, two of whom are in the military service overseas. First Lieutenant Leo P. Bracken is with the American Expeditionary forces in Siberia, and Craig T. Bracken is with the motor transport service in France. John Bracken is superintendent of schools in Duluth, Minnesota, and the youngest son, Eldon Bracken, is here.

Mr. Bracken, with his family, came to Twin Falls in the fall of 1913 from Haverhill, Kansas, where he was for twenty-three years head of the First National bank. In February, 1914, Mr. Bracken, with local associates, founded the Idaho State bank, with which institution he was actively identified up to the time of his death.

In 1915, Mr. Bracken was elected a member of the Twin Falls city council. He was appointed chairman of the finance committee and served with

WASHINGTON, Nov. 10.—America's ideals for a lasting peace will be propounded at the great peace conference by President Wilson in person.

Sweeping aside all precedents, the president has announced he will sail for France early in December to actively participate in the convocation at Versailles.

Only unlooked for developments in Central Europe will change the plan to have the peace conference in mid-December, and the domestic situation here is expected to raise no obstacles in the path of the president's plan to attend.

Participate At Opening
While the president will be unable to sit in at the entire conference, he will participate in the discussion and settlement of the main features of the peace treaty. Thereafter he will turn the conduct of America's part in the conference over to the United States delegates, who will accompany him.

The president is now giving much thought to the personnel of the delegation. He would prefer to have it made up largely from his own official family—members of his cabinet, of whom those most influential in assisting him to shape the foreign policies of this government have been Secretaries Lansing, Baker and Houston.

There will be one Republican at least in the delegation. It is pointed out by his advisors that he must select a Republican who has shown sympathy with his fourteen principles of peace which have been adopted by the Allies since their.

GENERAL PETAIN NAMED MARSHAL

GENERAL HENRI PHILIPPE PETAIN

PARIS, Nov. 10.—General Henri Philippe Petain, commander-in-chief of the French armies, has been appointed a Marshal of France. It was announced today.

Petain was a colonel at the beginning of the war. He distinguished himself during the retreat from Charleroi. He was in command of the French armies that opposed the German drive toward Verdun in February and March, 1916. In May, 1916, he was appointed to command the French line between Soissons and Verdun. He was made chief of staff of the French armies April 29, 1917, and became commander-in-chief on May 14 of the same year. Petain is sixty years old.

PROGRAM WORKING OUT WITHOUT HITCH

SUMMARY

THE Allied armies of occupation have advanced an average of twenty to twenty-five miles from the lines established at the close of hostilities. It was indicated in official and unofficial reports today.

The general line now held by the Allies apparently runs as follows: Antwerp and Brussels (occupied by the Belgians); Hat, Senefels, Charleroi and Fioresnes (occupied by British); Marleburg, Fumay and Florenville (occupied by the French); Zeala, St. Lager, Athus, Audun-Le-Roman and Driey (occupied by the Americans); Gravelette, Chateau-Salins, Douzas, Saarburg, Markirch, Colmar, Neu Breisch, and the line of the Rhine to the Swiss border (occupied by the French).

The greatest distance traveled was by the Belgians, who marched twenty-five miles to occupy Antwerp. The Americans advanced twenty-two miles to Athus, and the British and French moved forward twenty miles each, to Florence and Neu Breisch respectively.

The French are now in German territory on the whole line from the Metz region southward. A slight advance by the Americans will carry them across the German border from the Luxembourg frontier southward into the Metz region.

AMSTERDAM, Nov. 10.—"If the enemy sees that anarchy prevails, he will dictate peace conditions which will destroy German economic life," Chancellor Ebert declared in an address to the workmen and soldiers at the Reichstag, a Berlin dispatch reported today.

"We do not want a 'Red Guard' democracy will march on only if its head is untouched," Ebert stated. "According to the Weimarer Zeitung, Ebert stated that the constituent assembly will be summoned as soon as possible after the election to be held in January."

NO RELIEF FROM HIGH COSTS YET

President of Chicago Bank Says Country Faces Another Year of Stiff Prices

CHICAGO, Nov. 10.—Another year of high prices and taxes faces the American people, in the opinion of David B. Forgan, president of the Chicago National City bank. He predicted today this period of adjustment will be followed by a step toward normalcy.

Forgan did not see immediate relief following the expiration of the adjustment year, but rather expected the normal state to be reached gradually.

Their Lessons Will Help
"It is most essential that the government see that its compelling all war contracts and its 'disinflation' contracts will do little, but partially help," Forgan said. "What is needed—more war work, but not a double price for some industries—since there will be no decrease in war contracts until the end of the year."

Forgan predicted that the government will have to continue to issue war bonds and that a general lowering of living conditions will produce a surplus of money for manufacturers now compelled to return to a peace basis. Forgan believed that the government will have to continue to issue war bonds and that a general lowering of living conditions will produce a surplus of money for manufacturers now compelled to return to a peace basis.

HEAD OF LABOR BOARD RESIGNS

Frank P. Walsh Submits Resignation—Rumored Taft May Also Step Out

WASHINGTON, Nov. 10.—Frank P. Walsh, Joint Chairman of National War Labor Board, today tendered his resignation to President Wilson.

Walsh declared that he found it imperative to return to his legal practice at Kansas City.

It was reported today that former President Taft, the other joint chairman, also might resign, both of the men having taken up their duties only for the period of the war.

It is likely the President will convene the board under a chairman or formulate a new one to take care of war problems growing out of readjustment period.

HOOVER MAY GO TO BERLIN TO FEED POPULACE

Reported That American Food Administrator May Be in German Capital Within Next Two Weeks

By JOHN DE GANDY

PARIS, Nov. 19.—That Herbert Hoover will go to Berlin within two weeks to study the German food situation—first-hand, was the belief expressed here today.

The plan of the Germans that continuation of the blockade will cause great hardships owing to the food shortage, is expected to be thoroughly investigated by competent Allied authorities under Hoover's direction. Should the blockade be lifted, it is pointed out, the entire food distribution system of the world would be disrupted, as the Germans would be enabled to go into the open market and bid against the Allied and neutral countries.

In military considerations, it is pointed out, the blockade is therefor not so much a guarantee of Germany will take her place in the food line with the rest of the world.

FORD GETS PEEVED WAR FUND SOLICITATION

Objects to Method Only, He Explains—Promises a Job to Every Soldier Who Needs One

NEW YORK, Nov. 19.—Henry Ford today explained his action in leaving the Metropolitan Opera house last night when he was persistently solicited for the United War Work Fund at the Lambe-Friars Frolic.

"It was simply my method of getting money, that I resented," explained Ford. He said that he had contributed liberally to the fund and did not propose to be made the victim of a "hold-up."

He also stated that he was going to give a job to every returned soldier that needs one, and was also going to give a job to every returned soldier that needs one.

Ford withdrew from the opera house shortly after the opening of the frolic when he was informed by United States Marshal McCarthy that it was the Marshal's intention to get \$5,000 from Ford or "black jack him."

COMMISSION DATES FROM DAYS AT FRONT

Arvin D. Bounds of Twin Falls Is Promoted to Rank of First Lieutenant of Artillery

Arvin D. Bounds, son of City Treasurer and Mrs. H. E. Bounds, who is assigned to duty as an artillery instructor at Camp Meade, Maryland, has been promoted from the rank of second lieutenant to be first lieutenant from July last when he was in action with an artillery regiment on the western front in France.

Lieutenant Bounds had completed his second term of enlistment in the Twin Falls unit of the Second Idaho regiment when that organization was called into service July, 1918, on the Mexican border. He resigned and was appointed as a corporal and sergeant during the border experience and until the first officers' training camp at San Francisco which he attended as a candidate from the Twin Falls unit, then stationed at Alvary, Idaho.

He was commissioned as a second lieutenant shortly before embarking for foreign service. He spent 60 days in actual fighting on the western front before being returned to the United States in the capacity of an instructor.

MOUNTAIN VIEW GIRLS OUTDISTANCE BOYS

Report Subscriptions to United War Work Fund of \$50 Out of \$100.00 For District

The Victory Girls of the Mountain View school district are champions of honor over the Victory Boys of that district in the point of the amount of subscriptions raised for the United War Work Campaign fund last week. A total of \$102.50 was raised in cash and pledges among the Victory Boys and Victory Girls of this district, according to reports made Saturday to Miss Dittmar Wolfe, county superintendent, who had charge of the campaign in this county among the future citizens.

Of this amount, the Victory Girls raised \$50 in cash and \$27 in pledges. The Victory Boys raised \$27 in cash and \$18 in pledges.

The captain of the Victory Girls of the Mountain View district is Miss Yolma Davidson. Raymond Russell is captain of the Victory Boys in this district.

Out of 12 boys asked to subscribe to the United War Work Campaign fund by Ralph Conant, captain of the Victory Boys in the Popular High school, only 10 boys in this amount Saturday to Miss Wolfe.

EPIDEMIC IN MINNIDOKA

(Special to The News) HUBBERT—The week ending November 11, there were 120 new cases of influenza in Minnidoka county.

Did one of these 200 letters come to you?

A DUSTY courier slid off his motor-cycle at the big double hut in a French town and tramped up to the canteen.

"Got a note for the secretary from my commanding officer," he said. He handed a piece of paper across the counter to a smiling middle-aged man.

This is the note the Secretary read:

We landed here three days ago—miles from anywhere. Can you send us some supplies, especially writing paper? This is the first chance the boys have had to write home and we have no paper to give them.

The older man looked up and grinned.

"Got you away off in the woods, have they?"

"I'll say they have!"

"Can you carry anything?"

"All you'll give me!"

From the shelves the secretary took big packages of paper and envelopes.

"Too much?" He asked.

"It will be gone ten minutes after I get back!" said the boy.

"Tonight," the secretary went on, "I'll drive out a truck with more supplies and a man to stay with you. And tell the boys that if their letters are finished, I'll bring them back with me tonight, and get them into the mails."

An hour later that motor-cyclist whizzed into camp, loaded down with writing paper, and in ten minutes letters were being written to 200 American homes.

The United War Work organizations know what letters mean to American soldiers. They know that fighters want to get letters and want to write letters.

So in every hut and on every ship your boys find writing paper, envelopes, ink, pens and pencils, and tables where they can get off by themselves and tell the folks back home how things are going.

Millions of sheets are given away free every week to American boys overseas. That is why the letters you get from your boy are written on the stationery of one of these organizations. It is one of the plans to bridge the Atlantic. Help keep the letters coming!

Your dollars will supply a whole Company for several days. Dig deep today; help to bind together France and here.

Why you should give twice as much as you ever gave before!

The need is for a sum of 70% greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000. By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved.

Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their:

3,500 Recreation Buildings	2,500 Libraries supplying 5,000,000 books
1,000 Miles of Movie Film	85 Hospitals
100 Leading Stage Stars	15,000 Big-brother "Secretaries"
3,000 Athletic Directors	Millions of dollars of home comforts

When you give double, you make sure that every fighter has the cheer and comfort of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theater, a choral home, a store, a school, a club and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs. Now give to maintain the Morale that is winning the war!

YANK LAUGHTER RINGS OUT ON BLOODY FIELD

Report Soldier in Letter to Mother Says Enemy Headling Flight Touched Sense of Honor.

(Special to The News) RUPPERT—The American sense of humor is never failing. It crops out in the American fighting man in the midst of the severest fighting. Private Elmore Marshall, who enlisted in April, 1917, and who has been in France since February, in a recent letter to his mother, Mrs. Lyan, of Ruppert, gives the following:

The Germans were making a stiff resistance against the French, and the French, fearing for the security of their lines, dispatched a messenger to summon American reinforcements. There was more of the regiment sent. The French and Americans went on to the top and sent the enemy fleeing before them.

The author cut the article out and sent it to the "Editorial." "The other 'Balzac' instead of the works of Zola he substituted the works of Tolstoy and Balzac. The editor accepted both articles.

Many Have Felt the Same Way. Nothing is to be said in commendation of the spirit of the man who recently advertised in a London newspaper: "Loud, second-hand gramophone, wanted for repairs." Such circumstances certainly constitute one of the things which will be to be "seen to" sooner or later.

GIVES RECIPE FOR FUEL CAKE

Not to be Eaten but Burned. The English Know All About It

WASHINGTON, Nov. 19.—Make your own coal and help win the war! This is what they are doing in England, the department of commerce has announced. It's all very simple. Sweep up the coal dust, mix the cinders, sawdust, fine chips and any of the dust that accumulates in the cellar. Add a little of the cement and some water. When mixed, pack in small flower-pots, or other convenient molds. Fuel cakes, made in this way, should be dried for a week until thoroughly hardened. The English have learned. When made properly, they will burn and give much heat.

PRESIDENT OF MORMON CHURCH ANSWERS CALL

Joseph F. Smith Dies at Home in Salt Lake City After Lingering Illness Following Paralytic Stroke Last April

SALT LAKE CITY, Utah, Nov. 10.—Joseph F. Smith, president of the Mormon church, died here today after a long illness, following a paralytic stroke suffered last April. He was 86 years old.

Ever since he suffered the stroke of paralysis, the Mormon leader had been confined to his home, except on one occasion when he addressed a church conference.

Nephew of First Prophet—Joseph F. Smith was a nephew of Joseph Smith, the original Mormon prophet. He crossed the plains in an ox-team and settled in the valley of the salt lake in 1818.

Smith became president of the Church of Jesus Christ of Latter Day Saints in 1845, following the death of Lorenzo Snow. Prior to that he had held many important posts in the church organization, including that of missionary to Great Britain.

RAID ON MEXICAN RESORT YIELD'S BAG OF PRISONERS

County and City Police Officers Pat in Bury Day With Boose Law Violators and Others

Twelve Mexicans and two white women were arrested Monday by Sheriff Ar. N. Sprague, Deputy G. P. Huffman and City Officers Frank Ham and R. P. Holman, in a raid on the Mexican boarding house on Main avenue east, reported to be a disorderly house. The prisoners were lodged in the county jail overnight and held before Police Judge W. J. Smith this morning.

Other offenders caught in the officers' drug net Monday included the owners of twenty-two pints of whiskey unaccounted in a residence across Rock Creek by Chief of Police William Taylor and Deputy E. H. Lawrence, and a drunk incarcerated by Officer Redmond.

The officers are investigating the wreck of two automobiles at the sugar factory Monday, caused by the driver's care of one car, with a quantity of booze in his possession, driving into another car standing there.

LABOR TO MAKE LAST ATTEMPT TO SAVE MOONEY

May Call General Strike as Protest Against Governor's Refusal to Accede to President Wilson's Appeal

SAN FRANCISCO, Cal., Nov. 10.—Labor organizations here started today their final effort to save the life of Thomas J. Mooney.

The official central labor council called a meeting for Wednesday to consider plans for a general strike as a protest against Mooney's execution.

Similar action was anticipated immediately from the San Francisco labor council and other organizations on the coast.

Mrs. Mooney today declared her belief that labor organizations will save her husband's life.

Wife Pleas Hope to Unions

"I can't believe they're really going to hang Tom for something he didn't do," she said. "I still have faith in labor. I don't believe the working men of this country will allow it. Labor is his court of last resort, and I feel that somehow, some way, the organized workers will bring pressure to bear on Governor Stephens to answer President Wilson's appeal for his life. I can't give up hope yet."

Mooney is sentenced to be hanged December 13.

He issued a statement from his cell in the condemned row at San Quentin penitentiary today reiterating his belief that he will be saved from the gallows despite the refusal of the United States supreme court to review his case.

Mooney Makes Statement

The statement follows: "The highest courts of the land; the supreme court of the United States, the supreme court of California, the appellate court of California and the superior court of California, have examined a correct district attorney case and returned testimony and can conceit and suppress material evidence to convict an American citizen. These courts have further said that a citizen so convicted is without remedy so far as judgment is concerned. Then they wonder why some workers become infected with Bolshevikism."

Case Out of Courts

"My case is now finally out of all courts and in the hands of Governor Stephens, on my petition for a pardon, which petition was filed with Governor Stephens on March 20, 1915."

"The labor movement of the entire world has petitioned President Wilson and Governor Stephens protesting against the foul methods used by the chamber of commerce through District Attorney Fickert."

"President Wilson has three times asked Governor Stephens to make it possible for me to be tried on one of the remaining indeterminate still pending, involving identically the same charges as the one on which I was unjustly convicted. I have at the slightest notice what he will do, but I have confidence that it is never too late for the solicitor of labor to right the terrible wrong. I know they will."

"Fraternal greetings to the organized workers everywhere who have signed."

(Signed) "TOM MOONEY."

Wonderful Giant Squid

The giant squid is the largest animal in point of length that exists or ever did exist. It destroys its prey by engulfing it in its huge muscular arms, while it blackens and poisons the water with its ink fluid. It is a relative of the octopus, which is also furnished with arms, but the latter creature is smaller and considerably different in structure.

"A wet moon" is when one horn of the crescent of the moon is a more lustrous than the other, like a bowl turned up on edge and unable to hold water. The wet moon is a popular but fallacious sign of coming wet weather.

RUMOR OF THREAT TO GERMANY IS DENIED

State Department Says Story Results from Garbled Report of President's Last Note to Germany

WASHINGTON, Nov. 10.—President Wilson has not threatened Germany with a resumption of hostilities if order is not restored there, the state department said today.

Stockholm reports that such a warning had been sent through neutral channels are believed to have arisen from President Wilson's recent note to Germany, published in full if order is restored and maintained."

Whether Germany is purposely garbling the president's message is not known here, but today's report is the second garbled one to come out of Germany.

The first report said that the president had demanded that order be maintained and the Bolshevik kept out of Germany.

DEVELOPMENT OF RESOURCES—WILSON THEME

President to Outline Policies of Remainder of Administration to Equalize Distribution of Wealth and Employ Soldiers

WASHINGTON, Nov. 10.—When President Wilson delivers his annual message to congress early next month, he will sound the keynote of his leadership for the remaining two years of his term.

"The outstanding theme of the president's message will be development of America's resources—land, water power and minerals and provision for distribution of these resources such as will insure fair share to rich and poor alike."

Work at Warrent

By one usually well advised, it was indicated today that he would advocate the following in his message as measures to insure employment for the millions returning from war zones, camps and was industries:

Continued unification of railroads and canal systems to insure facilities for all alike.

Protection of the American merchant marine—either by subsidy or government ownership.

Increased facilities for vocational education.

Unification of telephone and telegraph lines under government control.

Develop Water Power

Government development of water power and mineral lands.

Increased building of good roads, forestation and reclamation of land under government direction.

Improvement of harbors rivers and ports.

Improvement in housing conditions for working men.

A new child labor law.

The president is expected to indicate plainly his sympathy for a general eight-hour working day and non-derogation of wages while living costs continue at a high level.

Poor Pattern

The trouble with the average self-made man is the poor selection of his associates.

BILL'S STATUS NOT ACCEPTABLE TO THE FRENCH

Angry Because Man Responsible for War's Horrors That Have Involved World Enjoys Hospitality of Holland

PARIS, Nov. 10.—French newspapers insist that more light be thrown on the status of William II, Hohenzollern.

"I am anxious to know whether the 'Dutch scandal' will keep up."

"It is certainly revolting to see the man responsible for everything comfortably adjusting himself to a purely political 'abolition,'" says L'Intransigent. "It is also revolting to find Holland offering facilities to an ex-roy who thus is nominally placed to conduct intrigue and propaganda efforts without real merit."

BROTHERING AID ALL PRECEDENT, PRESIDENT CONFIRMS REPORT

points there were similar scenes. Most of the towns are undamaged, or only slightly. The Germans withdrew far ahead of the Americans, only a few enemy officers remaining to surrender.

and others, joined in the attack upon these principles during the recent campaign. Neither Chas. E. Hughes or Mihi Hunt, however, shared in these attacks and it is possible one of these may be selected by the president as the Republican representative. There is no love, on the other hand, that he may select his man from the progressive wing of the Republican party and in this connection, Senator Borah, Idaho, is mentioned.

If the president goes, he will deliver his annual message to congress outlining his policies of reconstruction. It is pointed out by his friends that he will be back from the conference in ample time to take up personal charge of his proposed legislation if necessary.

Few Will Be Shown

Today there was a flood of appeals by senators and others to be taken along on the mission. Friends of Senator Sullaby, original proponent of the senate, are urging the president to name him as a delegate. They point out that Sullaby is a member of the foreign relations committee and that President McKinley appointed Senator Fris, then president pro-tem of the senate, as a peace negotiator after the Spanish-American war.

Since the United Press first reported the president was planning to go to the peace conference, there has been much discussion throughout the nation as to the advisability of his leaving Washington at this time.

The president holds that of all the world problems, none is so important as that there should be no more war. His main object in Germany is to facilitate the formation of a league of nations, the legs upon which this league is founded, he says, must be included in the peace treaty and hence become the basis of the settlement of all international differences.

While the league has been more or less hazy, his general outline has been thoroughly discussed by the inter-allied diplomats. It is to be a supranational authority to which every independent state will be pressed to submit and which powers will assure protection to all states, great and small alike.

Settle All Disputes

The league implies formation of international high court for settlement for all disputes between states. Refusal of any state to accept arbitration or submit to settlement would imply deliberate aggression under the proposed rules of the league, and all other nations in its personnel would then take common cause against the offender, using economic or military disciplinary measures. The league would determine armament limitation, military training and war manufactures. One idea advanced is to have all armament works under the government, thus abolishing profit-making armament firms whose pecuniary interest may rest in war scares and progressive competition in preparation for war.

In conjunction with the league, there has been strong play by international labor leaders for the formation of an international legislature in which representatives of every civilized state would have an allotted share in developing international legislation, such as minimum wage, child labor and other international laws advocated by labor.

May Be First President

Since President Wilson fathered the idea of the league, and his belief in it to be the most important thing to come out of the peace conference, there is a strong belief among diplomats here that he will be made the first president of this great international organization.

credit on other important assignments as councilman.

On April 11, 1917, Mr. Bracken was dominated by the unanimous vote of nearly 500 citizens assembled in a convention as candidate for mayor and in the ensuing election, May 24, he was elected mayor, receiving 1422 out of 1879 votes cast.

Cherished Plans for City

Mr. Bracken's administration as mayor has been characterized by successful accomplishment of important undertakings, including the improvement of the municipal waterworks system. He was one of the council which brought the waterworks for the city, and the perfecting of the system was a subject near to his heart. He also had given much attention to the project of securing a municipally owned and operated power plant to the city, and entertained plans for the accomplishment of this end which were held in abeyance during the continuance of the war.

Fulfillment of Pledge

His administration of the office throughout was in fulfillment of his promise made to all of the people of Twin Falls when he was elected mayor. "I will try to the best of my ability to serve all of you during my term of office."

Public interests were always the interests of Mr. Bracken. In Kansas, he served for thirteen years as a member of the school board, as a territorial elector in 1900, he cast a vote for McKinley and Roosevelt. He was a member of the Presbyterian church and of the Odd-Fellows lodge.

His judgment was sought after and heeded by the men of affairs in every community in which he made his home.

Great Loss to Community

In the loss of Mayor Bracken, Twin Falls loses a most valuable citizen and community leader, and every resident of Twin Falls mourns a true friend and capable advisor.
