

SHOWDOWN ASKED FOR ON PEACE

Senator Johnson Demands Full and Free Discussion of Terms of Pending Conference

By L. C. MARTIN
WASHINGTON, Nov. 28.—Asking the administration for "repression and suppression" for "promising news" during the war, Senator Johnson called upon the nation to throw off stagnation of thought and openly discuss peace problems and the future of the country.

Johnson's attack was in the form of a written statement, by which he aligned himself with Senator Borah and other "progressives" who are demanding "free and open discussion of peace terms."

While echoing the loudest sentiments of democracy and freedom for all other nations, the administration with its iron hand, destroyed the right of the press and freedom of speech at home," said Johnson.

Unhealthy and Dangerous
By repression and suppressive measures, the thought of the nation was made stagnant and no loyal expression which did not yield a ready acquiescence was permitted or tolerated. In a republic arrested or expressed opinion, or stagnant thought are unhealthy and dangerous things.

"The result of the recent election in my opinion, was due to the policy this adopted to itself 'omniscience' and to its iron hand, destroyed the right of free and decent expression. A repressed and oppressed people, forbidden for many months interchange of thought, found the only mode of expression in the ballot box and there expressed themselves."

REAL PROGRESS IS CONSPICUOUS BY ITS ABSENCE

German People Engaged in Series of Governmental Experiments in Vague, Indefinite Way

NEW YORK, Nov. 28.—Germany's adoption of the soviet form of government shows no more evidence of being the outcome of the true revolutionary spirit than the camouflaged democratic machinery of Chancellor Ebert. Germany appears to be too busy today with rest thinking about democratic regeneration. The mechanical substitution of the soviet for the previous authority of the Ebert ministry has more the character of a personal problem than of a national issue, leading the mind experiment. True conversion to democracy is yet to come to Germany. It is impossible to believe that a sincere change from military ambition to the pure ideals of freedom can be made in a nation so spiritless as this.

In Theoretical Revolution
The Germans are endeavoring no more than a theoretical revolution. They are suspiciously testing various experiments in democracy, without giving heartfelt support to the basic democratic principle. It is the most extraordinary procedure in government, leading the world has ever seen. After each new

FORMER GERMAN LINER WILL CARRY THE PRESIDENT AND PARTY TO SESSION

On or About December Third Is Date Fixed for Sailing of American Group to Take Part in Peace Conference

WASHINGTON, Nov. 28.—According to the plan now, President Wilson will sail for France on the former German liner George Washington about December 3.

Germany Today Is Practically Without Leader

Bolshevist Movement Steadily Growing—Days of Ebert Believed-Numbered

By ED. L. KEEN
LONDON, Nov. 28.—Germany is practically without a leader, the latest advices indicate.
Although the power of Karl Liebknecht, head of the Bolshevist movement, is growing, it is not believed that Chancellor Ebert has yet been overthrown. So far as is known, he still heads the government in Berlin, although actual control is maintained by the workmen and soldiers.
As a result of the situation in Germany, the Express points out that unless responsible authorities sign the peace pact, the Allies may be forced to occupy the country, or continue their blockade until a viable government is established.
German newspapers declare the interior of Germany, including Germany-Austria, is united against the Bolshevist element in Prussia, particularly in Berlin. Many states are hurrying plans for the establishment of independent republics.

German newspapers declare the interior of Germany, including Germany-Austria, is united against the Bolshevist element in Prussia, particularly in Berlin. Many states are hurrying plans for the establishment of independent republics.

Objects to Clipping of German Wines

General Von Winterfeldt Makes Latest Complaint to Armistice Terms

LONDON, Nov. 28.—Another German protest against the armistice conditions has been sent broadcast by the Kaiser wireless. General Von Winterfeldt issued this latest complaint. He objects to the German army being rendered powerless, saying:
"It can only be assumed that it is the intention of the high command of Allies to completely dissolve and destroy an army which during fifty months has gloriously made a stand against superior numbers; and whose front at the cessation of hostilities had not been broken through."

Fortune in Gold Bullion Missing

Strong Box Mysteriously Disappears Between Anchorage, Alaska and Seattle

SEATTLE, Wash., Nov. 28.—Gold bullion valued at \$31,000 has mysteriously disappeared somewhere between Anchorage, Alaska, and Seattle.
The gold, according to officials, was delivered to the Alaskan Express Company in Alaska in a strong wooden box, by N. D. Bolwell, general manager of the Gold Bullion Mines and consigned to the First National Bank in Seattle. It was signed for by the manager of the Pacific Steamship Line, Admiral Watson, although he is not sure it was actually taken aboard. When the Watson docked here the box containing the bullion could not be found.

Holds Jobs Open For Fighting Men

New York Rapid Transit Company Announces Policy—Keep Some Women

NEW YORK, Nov. 28.—Columbia Rapid Transit announced today that 2,426 employees of the company now in the service of the army and navy will be given back their former jobs upon their return.
More than 1,000 women now employed will also be retained, the company's statement said. They will be used in various departments for the lighter duties.

Wilson's Residence In Paris Selected

PARIS, Nov. 28.—The home of Prince de Saxe-Coburg and Gotha, President Wilson's residence during his stay in Paris, is undergoing changes to harmonize with his personal tastes and habits.
The German peace delegates will reside in environs of the city.

LABOR USING EVERY EFFORT TO SAVE LIFE

Serious Situation Believed to Threaten Country in Event Sentence of Death Is Carried Out

SAN FRANCISCO, Calif., Nov. 28.—Seventeen days yet to go before Tom Mooney hangs. All other developments in the Mooney case were favorable to him for that fact today. When Mooney hangs, the Bolshevist element in America will make him its martyr and will make a great play to win union labor over to Bolshevist methods. This fact was undoubted today.
Union labor, fearing this development, is making every effort to save Mooney, although Mooney's style, himself, as "labor agitator" instead of union leader. Union leaders trust their efforts to save Mooney are based upon a desire to see justice done rather than to save one of their number.
Many expert Governor Stephens to get, granting a conditional pardon which would allow Mooney a new trial for murder on one of the nine judgments springing from the preparedness parade bombing, July 22, 1918. These men held their belief upon the theory that Governor Stephens will be unwilling to assume any partial responsibility for the turmoil into which the hanging of Mooney would throw American labor.

Others, who declare Governor Stephens has expressed himself unreservedly against a pardon for Mooney, believe he will "stand pat," and let Mooney hang. Among those who are a small element, who believe President Wilson, the emergency, would step in, taking advantage of the war emergency to save Mooney as commander-in-chief of the army.
Unions Fear and Against
From all parts of the country came telegrams today from labor councils and unions stating that general strikes would be begun on November 2, or earlier, in protest against the Mooney hanging. These telegrams piled upon scores of similar ones received early, gave visible testimony that labor will make Mooney's case its own.

In striking contrast to this was the action of the San Francisco labor council, which Friday night voted against a Mooney strike. The council's action, however, did not "hold the machinery of the war" to stop the strike December 9, and telegraphed President Wilson, asking him to intercede once more for Mooney.

(Continued on page four)

SITUATION IN CHILE IS NOT VITAL AS YET

State Department Is Keeping Close Watch on Developments in Dispute With Peruvian Government

WASHINGTON, Nov. 28.—The American government has under consideration the whole Peruvian-Chilean dispute, according to state department information today. American officials in the two countries thus far have not presented any original data on the affair, but have forwarded general information similar to that contained in press dispatches.
Asked whether the situation had yet come to a point where this government might offer its good offices, the department said today that the whole situation—particularly with respect to the proffer of good offices—was being studied. Secretary of State Lansing and the Peruvian minister have had several consultations of late and it is assumed that the government is thoroughly posted as to Peruvian-Chilean claims in the situation.

This nation, naturally, is interested in avoidance of hostilities in South America if possible, inasmuch as war there would have a disturbing effect upon Pan-American unity.

AMERICAN PRISONERS LAMING

LONDON, Nov. 28 (4:30 p. m.)—Eight American prisoners already have arrived in Hull by way of Copenhagen. Others will land today, and it is expected that between two and three hundred will reach England shortly.

Stormy Scenes on Floor of Congress After Peace Speech

Second Vice President Condemned as Unpatriotic Because of Views

SANDIAGO, Chile, Nov. 28.—been officially censured by the Second Vice-President Cardenas has Chilean congress as "unpatriotic" because in his speech before that body last night expressing the hope the differences with Peru could be settled without war.
A stormy scene resulted when Cardenas made his address. The members rose to their feet in a body and shouted "traitor!" The meeting broke up in confusion.
The president and first vice-president of congress turned in their resignations because of Cardenas' "unpatriotic" utterances.

Congress reconvened late and passed a resolution declaring Cardenas to be "unpatriotic and unfit to carry out the duties of his office." The vote was 63 to 3.
The members also refused to accept the resignation of the president and vice-president. The Chilean foreign minister has recalled all consular representatives from Peru.

German Governor Flees From Poland

COPENHAGEN, Nov. 28.—General Von Beseler, German governor general, has fled from Poland, it was reported in dispatches received here today.

Ambassador Jusserand To Accompany Wilson

WASHINGTON, Nov. 28.—French Ambassador Jusserand will accompany President Wilson to the peace conference, it was learned authoritatively today.

Italy Claims 700,000 Austrian Prisoners

ROME, Nov. 28.—A total of 700,000 Austrians have been taken prisoner, it was officially announced by the Italian war minister in the Chamber of Deputies today.

Soldiers in Field Want to See Wilson

Yanks Abroad Will Be Greatly Disappointed if President Does Not Visit 'Em

LONDON, Nov. 28.—The United States army in the field is confident that President Wilson will visit it. The men expect him to land at any port and travel to the front in an American train, over American-made tracks, addressing the boys in the American camps before his departure for Paris as a guest of the French government.
This is the Yanks' program. They will be disappointed if it is not realized. They feel they have done the job their commander-in-chief sent them over to do and they want him to be on the fields where they did it. And, then, they very naturally want to see him.
Such a plan would solve the delicate question as to whether he should come first to England or France. It is also felt that his arrival in England at the present time, in the midst of a bitter election campaign would present possible awkward complications.

Look for Clashes Between Russian and Hun Prisoners

Situation Rapidly Coming to a Head as Between Returning Soldiers

COPENHAGEN, Nov. 28.—Clashes are feared between repatriated German and Russian war prisoners in eastern Germany, was reported in dispatches received here today.
Thousands of released Russians are monopolizing the trains en route to their own country, while half a million hungry Germans are hurrying through the snow toward the same railways.

Britons to Extend Boycott of Germany

Englishmen Coming Here to Cement Relationship on Policy

LIVERPOOL, Nov. 28.—The British Tupper and Peter Wright are going to Canada and the United States to cement the relationship with British seamen who are determined to maintain the boycott of German ships and goods until German atones for its crimes," it was announced today.

SCENES OF UNMIXED GAITY MARK PROGRESS OF FRENCH IN ALSACE

German Soviets Give Place to French Infantry Divisions—Aimed Fetes, Dances and Patriotic Programs, in Which Whole Population Takes Part—Food Provided in Abundance

SOLDIERS AND CIVILIANS CELEBRATE RETURN OF DEMOCRACY TO TERRITORY

STRASBOURG, Nov. 25.—(night)—French infantry divisions are taking over Alsation towns controlled by German soviets. They are handling the situation in a most creditable manner, restoring order, providing food for the people, and caring for refugees.
The Alsations are delighted with the French plans of constructive operation. Dances, concerts, fetes, and the informing of soldiers and civilians are accomplishing more in the way of maintaining order than the German "verboten" signs ever did.

The formal entry of French military officials into Strasbourg today, following the military occupation of the French towns yesterday, was enthusiastically hailed by the population.
Marshal Polin was accompanied by General Castelnau and General Gouraud. The Polish, African, colonial, Chassera and Annamites—paraded between two long lines of brilliantly colored Alsatian girls, who were drawn up in front of the famous ninth century cathedral.

Sing Before Kaiser's Palace
Services were held and the Marseilles song before the Kaiser's palace, which was decorated with French and Allied colors. The whole city joined in the celebration. French veterans of 1870, who swung in behind the troops and marched along with tottering steps, were given a wonderful ovation.
A week spent with the victorious French army of occupation in Alsace-Lorraine has provided me with convincing evidence that the people, almost unanimously, are French at heart. This despite the fact that for nearly fifty years they have been under German control and for the last four years have been forbidden to use a single word of French.

The few remaining Germans are rapidly leaving Alsace. They are entirely out of Lorraine.
Services were held and the Marseilles song before the Kaiser's palace, which was decorated with French and Allied colors. The whole city joined in the celebration. French veterans of 1870, who swung in behind the troops and marched along with tottering steps, were given a wonderful ovation.

MORE TRAINS PROMISED IN NEAR FUTURE

Passenger Facilities of Country to Be Augmented Rapidly, Changes to Begin Within Short Time

WASHINGTON, Nov. 28.—More passenger trains soon will be placed in service, officials of the railroad administration announced today. Increasing traffic has placed a heavy burden on the present facilities and officials have agreed upon the restoration of numerous trains and through sleeping car equipment withdrawn early in the war.
Two additional trains will be placed on schedule between Washington and New York before the holiday travel begins.

Both of these, officials said, will be on the Pennsylvania.
At least one continental train will be restored. Five were taken off in the general shakedown of service early in 1918. This resulted in a saving of approximately \$2,000,000 annually in passenger operating costs. Officials would not make public the route of the new train, explaining they were gathering information as to the needs on the four transcontinental lines.

War Mingles With Dignity of Court

Attorney General Moves Admission of Wounded Veteran to Bar

WASHINGTON, Nov. 28.—War mingled with dignity of the supreme court today when Attorney General Gregory moved the admission to the bar of Captain J. T. Watson of Seattle, Washington, who had been in the battle of the Argonne.
Watson was formerly connected with the department of justice.
Admission to the bar of the supreme court on motion of the attorney general is an unusual honor. Usually some other official of the department of justice, or a practicing attorney, makes the motion.

CONFESSION BY HIS WIFE CUTS SHORT AMBITIOUS CAREER OF GENERAL CRIME

Bride of Month Declares Her Husband a Murderer and Gives Details of Tragedy Leading to Death of Bride Tender

PORTLAND, Ore., Nov. 28.—His bride of one month completely confessed to the police early today that John Cyril Lard, an English-Canadian, murdered her husband, W. Fred Lard, on the night of November 15, while escaping from the Interstate bridge leading to Vancouver, Washington. Lard had robbed the bridge tender of \$125. He is in custody today.
Mrs. Lard, a handsome young woman of 24, confessed her husband with the help of a Northern Pacific train in the Seattle yards a month ago.
The officials say he is one of the boldest criminals that ever operated in the northwest. Statements of his wife and papers found among his effects are said to show Lard intended to wage extensive blackmailing operations from a prominent Portland room, under threat of death.
"Ever since the murder, I have trembled for my own life, fearing he would kill me because of my knowledge," said Mrs. Lard.

WARNS PEOPLE KAISER STILL REAL MENACE

Official Organ of Ebert Government Says Gang of Murderers Still Planning to Re-establish Themselves

LONDON, Nov. 28 (11:30 a. m.)—Warning against a Kaiserite counter-revolution, the Berlin Vorwaerts, official organ of the Ebert government, declares:
"That gang of murderers are still planning to re-establish themselves."
The Vorwaerts made the statement in commenting on the Bavarian disclosures of the origin of the war. It pointed out that the German government said it was ignoring of the Austrian ultimatum before it was delivered to Serbia and that it said Vienna was expected to be moderate in its demands.
"The facts are," says the Vorwaerts, "that Berlin neglected Vienna."
"Wilhelm said, 'The enemy attacked us.' This is an infamous lie."
"The Vorwaerts made the statement in commenting on the Bavarian disclosures of the origin of the war. It pointed out that the German government said it was ignoring of the Austrian ultimatum before it was delivered to Serbia and that it said Vienna was expected to be moderate in its demands.

Returning Troops Headed by Workmen

WASHINGTON, Nov. 28.—A member of the soldiers' and workmen's council marched at the head of each regiment of German troops as they entered Berlin, according to advices reaching the diplomatic quarters here today. The first of these troops reached Berlin Friday.
Berlin was decorated with national flags.
The returning troops were given an enthusiastic welcome. They wore the black, red and gold ribbon.

ENGLAND AND U. S. AGREE ON TROOP RETURN

Secretary of War Baker Says Transport Facilities Are Sufficient to Meet Demobilization Needs

By CARL D. GHOAT
WASHINGTON, Nov. 25.—Britain and the United States are in perfect accord as to reduction of use of British tonnage for bringing American troops home. There will be sufficient transport facilities to meet demobilization needs.

These assurances came from war department officials today following Secretary of War Baker's intimation that some of the British ships would soon be withdrawn from the United States transport service. Baker himself said that our own vessels, plus probably some German and some French and Italian tonnage would meet requirements. Other authorities declared that the cut in British aid has not come yet.

Baker said, it was natural for the British to terminate some of the carrying contracts entered into when troop movements were desperately necessary. He pointed out that Britain had her own colonial troops—Cassidians, Australians and New Zealanders, to send home and that they had been aboard longer than our own.

Practically 7,000 men and officers, mostly aero squadrons, casuals, sick and wounded, have embarked from England, and will reach New York the last of the month, according to present schedules. It is now proposed that some of the German ships held in Teuton ports shall be used to carry home our soldiers. It may be that they will take food cargoes to Germany and then stop at France to bring back demobilized men.

In addition, it is anticipated that some cargo ships can slow a small number of men on all homeward trips. For the immediate postwar attention is given to returning of the A. R. P. men who are sick, wounded and "B. E. F. yalecent." But it is anticipated that some of the forces from the eight divisions and other units recently named whose men are being sent home.

As for the British shipping, it is pointed out that it is under charter to the United States. Good rates are paid for its use, but an agreement was made that no profit should be made therefrom.

Baker believes that the increasing output of American tonnage, plus other ships available, will meet American needs as soon as the British reductions come.

OFFERS JOBS TO ARMY MOTORISTS

Postoffice Ready to Take All Trucks and Men War Department Spares

WASHINGTON, Nov. 25.—The postoffice department is ready to take men who have been piloting a motor truck over short holes in France, and give them a job at \$4 a day in his home town.

Of all the plans and schemes for so-called reconstructions in which use of army men and equipment is proposed, the postoffice department's plan alone is complete and ready to be put into immediate operation.

Post Office Gets Trucks

Under the army appropriation bill, army motor trucks at the discretion of the secretary of war, are to be turned over to the post office to be used in broadening the parcels post and city delivery service.

First Assistant Postmaster General James I. Blakelee today said that he is ready to take all the trucks and all the men the war department will turn over to him.

Moreover, he is asking the secretary of war to give him approximately 400 trucks as soon as possible, together with men to run them. The postal service employs 104 trucks on "star routes" connecting all the important cities of the country, from Portland, Maine, to Chicago and from Chicago to New Orleans.

Network South and East

The system now in operation forms a network throughout south and east of the great general post office.

Reports submitted to Blakelee show that the trucks in operation during the month of September earned a net profit of approximately \$3,000 for each route.

The Main Question.
"The way to a man's heart is through his stomach." Wives have been hearing that for years. "But what's the way to his pocketbook?"
Lopville—Conley's Journal.

Subscribe NOW for the NEWS.

HARDER TO "KEEP MOVING" NOW.

The first woman crossing coast-approached traffic, instead of hurrying it. This was because Mrs. Leola N. King, as the cop, made a very pleasing appearance. Mrs. King, the wife of Captain King of the United States medical corps, she has been assigned to a busy corner at Washington, D. C.—the first woman to ever hold such position. As for arguing with the cop—well, she carries the "difference" strapped about her waist—that business-looking army revolver.

BAVARIA SHOWS GERMAN'S GUILT

Make Official Exposés Proving Connivance With Austria to Start War

WASHINGTON, Nov. 25.—Germany's hatched-up plot against the peace of the world is being unfolded by the new Bavarian government.

Wearied of the domination of Prussia over German affairs, the Bavarians, as they are now officially releasing documents detailing reports of the former Bavarian minister to Berlin and showing how Germany conspired with Austria-Hungary to bring on the war.

Thought—War Good Thing

The first summary of these to reach this country shows that Germany, approved Austria's ultimatum to Serbia which started the war—apparently believing the war would be a good thing for the dual monarchy. The action against Serbia, the report shows, was carefully deliberated upon by Germany.

The Bavarian government revolting against the domination of Prussia, and charging the Kaiser's group with deliberately fueling the war, published officially a summary of a report from Leuchfeld, the Bavarian minister to Berlin.

Austria Hoped to

"Leuchfeld informed his government on July 16, 1914, of the plot hatched against peace," the summary of the exposé received in diplomatic quarters here stated. "On July 18, he announced the Austrian ultimatum to Serbia, saying that his deliverance had been postponed to July 23 until Mr. Piliavich and Mr. Viviani were on their way back from St. Petersburg," the diplomatic dispatches stated. "He gave a summary of the note and added that it is plain Serbia cannot accept these exigencies which are irreconcilable with her dignity as an independent state. Berlin fully approves of Austria making use of the opportunity even at the risk of ulterior complications. Mr. Von Jagow, like Mr. Zimmerman, still doubts that Vienna will maintain her obligations to the last. The under-secretary of state tells me that Austria-Hungary, owing to her impetuosity and her delusions, has already become the sick man of Europe as Turkey was before. The Russians, Italians, Rumanians, Serbians and Montenegroans are waiting for this country to be divided, thanks to the victorious intervention."

PETITION FOR FREE IRELAND

President to Be Asked to Use Influence at Peace Table for Erin

SAN FRANCISCO, Cal., Nov. 25.—A petition asking President Wilson to use his influence at the peace table in the United States to the end that the claim of Ireland to be a free and independent nation shall be acknowledged," was presented to the President by Senator Phelan of California today.

The petition is said to have the backing of twenty thousand Catholic priests and prelates in the United States. Archbishop Hanna of San Francisco took a leading part in circulating it.

The President is asked to see Ireland has a place at the peace table and that the influence of the United States be exerted "in such a measure that Ireland stands in a position equal to Poland, Serbia, Belgium and all the wronged nations of the world."

HAS NO FAITH IN NEW GERMAN GOVERNMENTS

London Newspaper Declares Old Bureaucratic Machine Goes on With New Coat of Socialistic Paint

LONDON, Nov. 25.—(British Admiralty Wireless).—"There is as yet no security that the new German government as we see it, will continue," says the Sunday Observer.

"The old bureaucratic machine goes on with a new coat of socialistic paint. Hindenburg is the chief military servant of the new system. A typical exponent of old diplomatic duplicity and craft is still another servant."

Socialistic Peace Assembly

"Above all, we don't know what the German majority think. Before the war, the Catholics and Agrarians had the liberal and radical bourgeoisie had a solid predominance of 3 to 1 over the socialists. Now these former majority parties are all arguing closely and waiting. There has been attempts on the part of socialist groups to postpone or suppress a meeting of the constituent assembly, which was to be fully representative of the whole country. This shows that the socialists undoubtedly dread and fear that in a constituent assembly a strong majority of all moderate or conservative classes would restore a modified monarchy."

"The socialists would have been used in that case to get the best peace terms possible from the allies. Then Ebert and his friends would be kicked out of control unless—which would be quite likely—they joined in changing faces."

Strength as Collateral

"These are perfectly thinkable contingencies. Since the change of heart has not yet appeared in Germany there must be collateral security of iron strength until that change is unquestionably brought about. Otherwise the great war will be only the first of a panic series."

EXAMINATIONS CUT RELEASES

Demobilization of Nineteenth Division at Camp Dodge Proceeds Slowly

CAMP DODGE, Nov. 25.—Demobilization of the 19th division began here today when 285 men were mustered out of the service. It had been expected that 800 would be mustered out daily, but the number was cut down because of the slowness of the physical examinations.

"The men were paid off as they passed the examination and were free to go where they pleased, no special transportation facilities having been arranged."

It has been a year and three months since the first quota of draft men arrived here and since that time 100,000 men have been mustered in.

DES MOINES, Ia., Nov. 25.—Not more than 40 per cent of the original members of the old Second and Third Iowa regiments will be found in those units when they are demobilized with the 34th Division now overseas.

This is the statement of Adjutant General Louis G. Leaser today. General Leaser says the balance is made up of replacement troops from all sections of the country.

PETITION FOR FREE IRELAND

President to Be Asked to Use Influence at Peace Table for Erin

SAN FRANCISCO, Cal., Nov. 25.—A petition asking President Wilson to use his influence at the peace table in the United States to the end that the claim of Ireland to be a free and independent nation shall be acknowledged," was presented to the President by Senator Phelan of California today.

The petition is said to have the backing of twenty thousand Catholic priests and prelates in the United States. Archbishop Hanna of San Francisco took a leading part in circulating it.

The President is asked to see Ireland has a place at the peace table and that the influence of the United States be exerted "in such a measure that Ireland stands in a position equal to Poland, Serbia, Belgium and all the wronged nations of the world."

Policy for 1918-1919

The Cadillac Motor Car Company announces here with its policy for 1918-1919.

Prices will be restored, at once, to the figures which prevailed before Cadillac production was restricted by governmental order.

Decreased output resulting from governmental curtailment necessitated an increase of three hundred dollars on all Cadillac models.

This three hundred dollar increase is now removed on the entire Cadillac line—the readjusted prices to be in effect as of twelve o'clock midnight, Saturday November 16th.

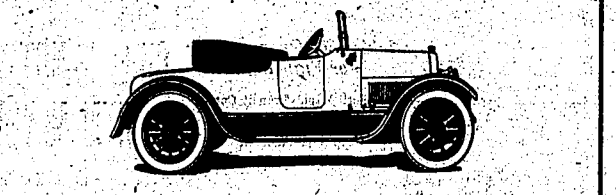

It must be remembered that the Cadillac Motor Car Company has been on an exclusive war basis, and deliveries will naturally be limited, until the factory is restored to a peace footing.

The respect in which the Cadillac is held, the world over, has been greatly emphasized by its splendid performance in war service, and by the further fact that the U. S. Army has adopted the Cadillac as its standard seven-passenger car.

Cadillac capacity has always been swiftly absorbed, but, in view of the facts cited above, prospective buyers will do well to be forewarned against a demand without a precedent.

We assume that peace will shortly follow the signed armistice. In that event the entire capacity of our factory will be devoted to the production of Cadillac cars.

In spite of that fact we do not believe it will be possible to build, during 1919, all the Cadillac cars the world will want.

WORK ON NEW WATER SYSTEM FORGES AHEAD

Delivery to Twin Falls People
of Abundant Clear, Palatable
and Pure Supply Before
Spring Is End In View

Progress in the work of improving, repairing and extending Twin Falls municipal waterworks system has been rapid during the past few weeks. Approximately 2,000 yards of concrete are in place and the job is well advanced to house the filtration plant, has been started. An excellent quality of pressed red brick is being used, and the roof is to be of white asbestos shingles, making an attractive fireproof structure.

Filtration Plant Arriving
The equipment for the filtration plant is arriving and the installation of this equipment will start early in the month of December. It will take about 60 days to install this portion of the system.

The new supply line is now completed from the filtration plant to the city. This line is 12,000 feet long and was constructed in the ditch. It is of the type known as continuous wood stave and is made of redwood lumber banded together by three-eighths inch bands. The space between the bands varies from two to ten inches according to the head of water in the pipe at various points.

The siphon running under Rock Creek canyon has been completed. This connects the supply line with the distribution system in the city. An extra heavy 20-inch cast iron pipe was used for this structure, which is impervious both to floods and to action of the weather. It is buried under four feet of gravel and lies under the bed of the stream.

To Meet Danger Period
Twenty-three thousand feet of cast iron pipe and 23,000 feet of machine banded wood pipe have been laid in the distribution system, and there remain approximately 9,000 feet of cast iron pipe and 10,000 feet of wood pipe to be laid before the system is completed. It is expected that the entire system will be finished before late spring. The greatest danger from polluted water

BUHL GIRL IN CLASS AT ST. LUKES IS DEAD

Ellnor Sandgren Succumbs Suddenly; Had Recovered From Attack of Influenza

BOISE—Ellnor Sandgren, one of the nurses in the training school of St. Luke's hospital in Boise, died of heart failure Sunday shortly after the noon hour, says the Idaho Statesman.

Miss Sandgren, who had been on duty with influenza patients, worked tirelessly until she herself was overcome by the disease. She made a complete recovery from the influenza attack, and was back on duty last week when, on Thursday she was taken seriously ill. Her parents, summoned on Friday from Dubu, arrived Saturday, and their daughter seemed to rally. Her condition was satisfactory Sunday morning until within a few minutes of the collapse which caused her death.

Mr. and Mrs. Sandgren left on the Sunday night train for Buhl, accompanying the body. The funeral will be held at Buhl on Tuesday.

The deceased who passed her 19th birthday anniversary Friday of last week, was just finishing her first year of training for the nursing profession.

comes in the spring, and every effort is being made to provide for Twin Falls a clear, palatable and pure water supply before that time.

NEW YORK TO ENTER ON BUILDING CAMPAIGN

Construction of More Than \$200,000,000 Worth of Dwellings Scheduled to Start Soon

NEW YORK, Nov. 25—Construction of more than \$200,000,000 worth of dwellings is scheduled to begin here just as soon as men and materials, released from war work, are available.

Most of the buildings will be large apartment houses, plants for which have been drawn and ground for which has been ready for many months.

New York's overpopulation and the problem that has grown rapidly more acute since the nation abandoned itself almost entirely to war work. Bents have become so high that efforts were made several times to interest the federal government in rent regulation or apartment house construction.

Within one year from the signing of the armistice housing facilities for at least 100,000 more people should be completed. Construction work then will be at its height, contractors say. Thousands of men, released from war jobs, will be employed in building apartments, and much structural steel and other building materials already bought or contracted for by the government probably will be assimilated quickly in this dwelling construction work.

The price argument, in selling war shanties, has not lost its force. You find it in the ads now, as always.

CHAIRMAN HAYS WASHES HANDS OF EMBROGLIO

G. O. P. National Leader Says
Fuss Between "Old Guard"
and "Progressives" None of
His Affair

WASHINGTON, Nov. 25.—Will H. Hays, chairman of the Republican national committee, has washed his hands of the fight between "old guard" and progressive Republicans over Senator Borah's nomination as chairman of the senate finance committee.

After discussing the situation with both factions last week, Hays virtually announced that the fuss was none of his affair and that it was up to the two sets of Republicans to get together before the present Democratic congress goes out of existence March 3.

"Old guard" leaders declared today that this will be accomplished. "Progressives" including Borah and Kenyon, asserted on the contrary, that there is a "little group" that will stick to the finish of any fight on Penrose, no matter whether it involve separation from the Republican ranks.

Mystery of Letter Cleared
The mystery shrouding a letter written by Borah to Hays threatening to overturn Republican control of the senate if Penrose was made finance chairman was cleared up today when it was learned that Borah after writing the letter, did not mail it. Its contents were communicated to Hays, however, when he and Borah discussed the situation here last week.

DEMOBILIZATION BEGINS AT CAMP GRANT, ILLINOIS

Six Thousand Men in Coast Artillery Companies and Officers in Training School Being Released

MOCKFORD, Ill., Nov. 25.—The Three Hundred and Twelfth, Thirty-Ninth and Fortieth Coast Artillery companies, totaling more than six thousand men, arrived at Camp Grant Monday for demobilization. They will be mustered out at once. Demobilization of the central officers' training school also began Monday.

MEMORIS.

If ever there was a political boom-erang it is Bolshevism, which has brought about the end for which it was sent forth—the destruction of Russia—and is returned now with tragic force to lay waste to the nation that was Ger- many.

Since the disclosures made in a series of documents lately made public by the United States government, there can remain no shadow of doubt but that the Bolsheviks have been doing the work of Germany in Russia—and that, consequently,

These documents show conclusively that the leaders of Bolshevik faction in Russia, have been, in fact, the sub- stituted agents of the Berlin govern- ment.

Special interest attaches to one of these circulars which goes to the staff of the German government in its pre-war period. It is a circular ordering the German government to

parties to the official German agents for the purpose of controlling the loading, unloading, dis- patching and carrying of goods, and of preventing delays, embargoes and difficulties during the loading, unloading and dis- patching of goods.

This circular, it may be noted, was sent over two years before the United States entered the war.

A degree of shamelessness is revealed by these disclosures that is difficult to imagine in connection with the part of the men who have, even if only tempo- rarily, played an important part, even if a destructive one, on the stage of history in modern times.

It would be impossible to imagine a

retention more fitting in the case of the world-outcasts than has, apparently been meted out to her as the inevitable fruit of her evil-doing, in the return to her heart of the plague she set in motion against her northern neighbor.

Santa Claus Will

Manufacturers Report Orders From 50 to 76 Per Cent Over Last Year

NEW YORK, Nov. 28.—Santa Claus will find an abundant supply of toys with which to greet his Christmas of 1918 this year. According to leading toy manufacturers and agents here today the big department stores and retail toy stores throughout the country have placed orders from fifty to seven-ty-five per cent greater than last year, to take care of the huge demand ex- pected because of the ending of the war.

Not only is the United States entirely independent of Germany for its toy supply but it is producing toys far superior in workmanship and strength, said one wholesaler.

So superior are American built toys he said, that many thousands are now being sent to Great Britain, Italy, France and orders have been received from Russia and South America for large quantities.

PLENTY OF BEER FOR LONG TIME

Culture Ceases Amounts to Big Total

CHICAGO, Nov. 28.—You'll have just 31 drinks of beer coming to you after December 1.

On that date, when brewing lapses to a lost art—there will be a national- ly available supply of 10,000,000 barrels of the amber. That means the honest beer drinker has slightly less than a drink per week for a year unless mother, sister, and the preacher waive their per capita.

The ten million barrels estimated by H. A. Koehly, St. Louis, president of the Independent Brewery association means only 5,100,000,000 drinks will be available. Still it's enough, experts say, to occupy the space of two two-story, "block-square" buildings like the city hall with a "collar" sufficient to comfortably lather the face of the Wool- worth building in New York.

DEMAND EXISTS FOR ALL SPRUCE

Lumber President Says Producers Have Booked Big Orders

CHICAGO, Nov. 28.—Just as soon as shipping is permitted on the high seas, America will dispose of all the spruce that can possibly produce, according to Ralph H. Burnside, of Raymond, Wash- ington, president of the west coast di- vision of the national lumber manu- facturers association. Burnside attended a timber convention here.

Already spruce producers have re- ceived orders from abroad for great quantities of the wood and the business offers an outlook brighter than ever before, Burnside said.

Some Men Will Stay Burnside doubted reports that the government expected to dispose of the property in the spruce production busi- ness quickly.

"I believe it will be some time before this property is sold," he said. "As for the men, of course they will be discharged and released. Many of them will choose to stay in the business, for they have found it profitable, much bet- ter than some of them had ever en- joyed before."

"Spruce producers may expect to have difficulties in the early days fol- lowing demobilizations and the return of the plus-out of shipping lumbermen, but I do not see before us any period which need cause us great worry."

SHOW DOWN ASKED FOR ON PRAGE

Decisions Are Momentous The nation, now in the peace con- ference, will have the most momentous decision in its history. No one man within the walls of the conference or parliament

ever had been a time when a republic has so needed the best thought and the best efforts of its citizens. That this thought may not agree with the prevailing thought or with that of those in authority of no consequence. Notwithstanding the re- pression and suppression of recent months, which have made of the greater part of the eastern press the mere servile echo of the administration, un- derstanding that free speech has been practically dead among us, and that our thought has been stagnant for want of expression, notwithstanding the manufacturing of the news of the na- tion by what we have received only what those in authority wished us to receive, this, of all times in our history, is the time when America should in- terchange their thought and should ex- press themselves.

Must Have Public Discussion We can perform no higher duty and render no greater service than publicly to discuss our problems of peace, peace terms, and the future, re- lations between ourselves and other na- tions and the path the republic shall follow in the years to come.

REAL PROGRESS IS CONSTITUTION

(Continued from Page 1)

step, the Germans appear to summon their efficiency experts, who warn them that they must repress all enthusiasm for fear of destroying their capacity for imperial judgment.

No true democracy was ever estab- lished in this typically Teutonic fas- cion. There are many illogical things in democracy. To try to build up a democracy by means of rules, is to de- stroy its spiritual capacity for freedom of thought. Democracy can't be bound by logic.

The Germans are now trying to take this essential characteristic out of de- mocracy. That is why the Germans cannot be trusted by the real de- mocracies for a relapse into the old government is always a logical possi- bility of the present rule.

TO TAKE CHARGE ABOARD WASHINGTON, Nov. 28.—Alfred Ney, a Swiss, has been designated by the Red Cross to go to Germany to take charge of sick and wounded American prisoners who cannot be moved at this time. A central hospital with Amer- ican thought, if possible will be maintained.

ATTORNEY FOR ENDORSEMENT OF DISTRICT PLAN

James R. Bothwell, at Hollister Meeting—Argues Proposition Favors Interests of Project

That the creation of the proposed Salmon River irrigation district, to be voted upon by residents of the Salmon River project on December 18, will serve the best interests of the project is the opinion expressed by James R. Bothwell added, can commit the settler's association, at a mass meeting attended by about 100 residents of the project at Hollister on Monday afternoon.

Creates Legal Entity

Concluding a summary of the legal matters involved in the creation of the district, Bothwell outlined the reasons why the district should be voted.

Creation of the district, he said, will mean the creation of a legal entity to deal with the landholders, the Land & Water company or with interested persons to the project, and will clear the way for the solution of many of the problems with which it is confronted and place it on a basis of permanency and success.

Settlers Must Vote

The directors of the district, Judge Bothwell held, can commit the settlers to no policy or financial obligation except on two-thirds vote of the resident land-owners of the district.

Even the taking over of the irrigation system, as is contemplated in the organization of the district, would have to be ratified by such a vote, he said. Arrangements were made at the Hollister meeting for another meeting to be held at Twin Falls on the five of December, at which the district is to be organized and a committee of consulting and planning candidates from each division to compose the board of directors. These directors are to be elected by vote at large over the district, and are to be named on the day of the election, the question of organizing the district.

MASONS HOLD OBSEQUIES FOR STERLING YOUNG MAN

Employer Pays Handsome Tribute to Memory of Late E. Milton Williams

The funeral services of E. Milton Williams, who died last week, were held at 2 o'clock this afternoon from the Grossman & DeWitt chapel under the auspices of the Masonic Lodge of which he was a member. The parents, Mr. and Mrs. James Williams, and his two brothers, Elias and Walter, arrived Monday from Columbus, Ohio, to attend the funeral services. Other surviving relatives are his wife, Fay Williams, and two children, Joyce and Robert.

E. Milton Williams was born July 4, 1880, at Vanghenville, Ohio, where he lived with his parents, until twenty-one years of age, and as a lad worked in his father's store. In 1907 he removed to the city of Chicago and entered the employ of Marshall Field & Co.

Mr. Williams was united in marriage to Miss Fay Anderson February 11, 1911, and soon after removed to the city of Twin Falls, taking up his abode on work as a dry goods salesman. For the past 4 years he was employed in Hart's store in Twin Falls, where he won for himself a most enviable reputation on account of his uniform courtesy to all patrons of the store. His employer says this tribute to Mr. Williams: "In all the four years of service I never knew Mr. Williams to lose his temper or become the least ruffled over even the most trying situation, and Mr. Williams possessed a most remarkable grace in his manner and was quick to make a slighting remark regarding any customer, whether he succeeded in making the sale or not, and I feel that his passing from among us is one of the greatest losses I have ever had in business."

AB TO GAMBLERS AND BOOZERS

November, 1918, is a great big month. It is said that it is even stirred some of the opponents of bootlegging in Twin Falls to openly gamble, drink and get drunk, if not to bootleg.

I did not see these men do these things, but from what I have read and hear, they have defied the law and humiliated the community.

In the last three weeks I have read of other sports being jailed and fined right along for no worse, and why not these, if guilty?

HENRY J. WALL

1000 tons hay for sale with good water and feeding facilities. Inquire E. B. Larned, Twin Falls.

Local Brevities

Who Sells Farm—George Wise has sold his eighty-acre farm four miles south of town to W. F. Nicholson.

Returns from Wyoming—Miss Electa Nesbit returned from Afton, Wyoming, where she has been nursing a surgical case.

On Farleigh from Camp Lewis—Private Clea Calico spent Monday in Twin Falls from Hansen where he is spending a thirty day furlough from Camp Lewis.

Becomes Teacher's Duties—Miss Nellie Howe returned to Hollister to resume her teaching work there. She has spent her enforced vacation with her parents in Twin Falls.

Back from Jarbridge—W. F. Brackner of Kimberly, county commissioner-elect; James W. Smith and S. G. Hall returned Sunday after spending several days in Jarbridge, Nevada.

Back in Drug Store—Mr. and Mrs. J. MacIntosh who recently gave up their management of the Rogerson Drug Store have gone into the Beall store. They have handled the Beall line before.

Returns from East—J. H. Wise has returned from an extended trip in the east. He was in New York for some time and also Washington, where he saw many of the Twin Falls people who are employed there.

Report Little Influenza—Reports of seven Twin Falls physicians made Monday evening to City Clerk W. A. Minick show that only eight new cases of influenza originating here were encountered by these doctors on that day.

Attends Red Cross Meet—Mrs. C. J. Schroeder spent Monday here in attendance at the meeting of the Red Cross Cabinet. Owing to the prevalence of the epidemic a full representation of the board will be unable to be present.

Attorney Moves Offices—Attorney E. V. Larson has moved his offices from rooms in the Power building to the rooms in the Smith building, over the United Store, Main avenue north, formerly occupied by the marine corps recruiting station.

See for Right of Way—Suit for condemnation of a right-of-way for an irrigation ditch to serve their lands two miles southeast of Kimberly, was filed Monday in district court by A. B. Steinfeld, W. O. Wykeft and Philip Shamburger against Clyde Stragha and his wife.

On Trail of Burglar—The sheriff's office today had an officer on the trail of burglars who forced an entrance through a window Saturday night into the Brunwick pool hall and lunch counter on Main avenue north, taking about \$30 in cash from cash registers in the establishment.

Opens Law Practice Here—Don Henry of Norfolk, Nebraska, a graduate of the law department of the University of Indiana has arrived in Twin Falls to enter upon the practice of his profession here. He has secured offices in room one on the second floor of the Twin Falls Bank & Trust company building.

But But Grateful—William Harkins, contractor in charge of excavation for the improvement and extension of the municipal waterworks system, is nursing a painfully bruised right leg and ribs, but is congratulating himself that he received no more serious injuries as a result of the fall Saturday on icy pavements on Main street of the horse. He is riding pinning him beneath the weight of the animal.

MORTAL REMAINS OF LATE MAYOR INTERRED

Funeral Services Marked By Deep Solonmity—Hundreds Pay Tribute

Expressions of the sense of loss to the community and of sorrow in many quarters characterized the funeral services held here Sunday for the late Mayor Frank F. Bracken. During the funeral services at the home of the deceased, which took place in the Presbyterian church where the body lay in state, the casket was fairly buried beneath a profusion of floral offerings.

The subsequent services, in compliance with the board of health closing order, were limited to members of the bereaved family. Rev. Asah H. Brand, pastor of the Presbyterian church, delivered a memorial address. A quartet composed of Mr. and Mrs. C. M. McCormick, Mrs. W. Zenas Smith and S. L. Johnson, sang "Home of the Soul," and Miss Helene Allmendinger gave a solo, "And God Shall Wipe Away All Tears." Organ accompaniment was played by Austin D. Thomas.

The pallbearers were the following, chosen from among the members of the Presbyterian church, the city council, and the county council of defense, of which Mr. Bracken was a member: Mr. and Mrs. George Mackintosh, Arthur L. Swin, W. H. Eldridge, Stuart H. Taylor and George P. Sprague.

PHILIPPO STELL HAS STORAGE ROOM for hotel hay, straw, beans and grain, at the D. M. Ferry building—(Advertisement.)

Thanksgiving Togs For Men and Boys

THURSDAY will be the greatest Thanksgiving day this nation has known—you will be enjoying a splendid dinner with some friend or will be extending the hospitality of your own home to others. In either event you will want to look your best. No clothing that we know of—and we have been in the clothing game a long time can make you look your best so well as

Brandegge-Kincaid Suits and Overcoats

And the reason is that these clothes are cut to fit your figure, whether you are stout, thin or medium. They are cut by master tailors, thoroughly finished and made of good honest wearing materials. The collar will set snug to the neck. The front will not "break" and the pockets are reinforced so they can not sag—And the prices are reasonable.

For the Boy—

We have a suit for the real live boy—one that will surely hold the youngster who is "hard" on his clothes. They will give you good, satisfactory service, wear well and look well for a long time. You will find here boys' overcoats in the same class.

Don't Forget—

Shirts, Collars, Cravats, Scarfs, Sox (silk and lisle) Hats, Gloves (dress and work) Handkerchiefs, Etc.

It's provoking to find you need one of these essentials when you go to dress for an occasion like Thanksgiving.

Try SINCLAIR'S First IT PAYS

Deaths

Mrs. Earl Pflch
Funeral services for Mrs. Earl Pflch of Kimberly, aged 25, who died Monday at a local hospital from pneumonia, following influenza, were held at 1:30 o'clock this afternoon from the Crosby chapel. Services at the cemetery were conducted by Rev. Elmer Grant Keith, pastor of the Methodist church. Deceased leaves, besides her husband, a sister, Mrs. I. H. Fisher of Kimberly. She was born October 28, 1893, in Nebraska.

Mr. and Mrs. Clifford Johnson are the parents of a new daughter, Mrs. and Mrs. George Mackintosh are the parents of a daughter born November 20.

THOUSANDS IN SERENADE FOR WOUNDED MEN

Debarcation Hospital at New York, With Best Medical and Surgical Talent, Receives First Patients

NEW YORK, Nov. 23.—Debarcation Hospital No. 3—The largest institution of its kind in the United States—is today taking care of its first contingent of wounded American doughboys.

The hospital, in which some of the nation's greatest medical and surgical talent has been mobilized is located in the Grand Central building at 18th street and Sixth avenue.

Thousands of persons literally streamed into the institution, gathering in the streets about it trying to get a glimpse of the wounded veterans. The soldiers were enthusiastic and joyful over the location and waved their hands to the crowds below.

Every comfort and convenience is provided for the wounded. There are accommodations for 4,000 beds. At least 425 of these are occupied. Within ten days, it is expected that the hospital will be filled to its capacity.

Roof Garden and Auditorium
The institution boasts of a number of recreating features, such as no other hospital of its kind has.

There is a roof garden and an observatory. The Roof Garden has provided a recreation auditorium for movies and theatricals. There are billiard and pool tables, bowling alleys and smoking rooms.

Two floors of the great building are devoted to surgical cases. In connection with these all of the latest and most improved surgical appliances and apparatus are provided. Captain R. H. McClellan, of Cleveland, who is in charge of this department, has a large staff of surgeons.

The efficiency of the hospital's equipment is indicated by the fact that 2,000 persons may be served in less than 10 minutes. One hundred operations are completed in the kitchen.

Major W. J. Moenaghan of the medical corps, is in command of the hospital.

Relatives and Friends Welcome
It was announced at the hospital today that arrangements were being made for receiving relatives and friends of the wounded soldiers.

DISCUSSES WORK OF DESTROYERS

Admiral Peoples Tells House Committee, 42 American Boats Operated

WASHINGTON, Nov. 23.—Forty-two American destroyers have operated off Queenstown, Ireland, during the war, Admiral Peoples, Naval Paymaster, told the House Naval Affairs Committee today, members said.

Peoples did not say whether many of the destroyers had been ordered to return as yet. The committee was also told that the division of supply and assembly, headed by Admiral McGrowan, had cancelled contracts totalling \$19,031,000, "since the armistice was signed and total cancellation are expected to reach more than \$100,000,000. Cancellation of contracts will include contracts for 300 flying boats.

McGrowan said his department would need \$400,000,000 for the fiscal year of 1919-'20 and that this estimate was reduced from \$975,000,000. Most of the money will go for pay of the navy.

Spud Growers---Attention!

On account of my family's health I am compelled to return to Idaho permanently and want to communicate with a few good spud growers who will contract to raise a stated number of acres of spuds each season, not to exceed five hundred acres in all. Will guarantee them the market price when loaded, and as further incentive will share with them one-third of my profits, providing they all grow the same variety and grade the way I know brings the most money on the Eastern markets. I will market everything from two ounces up, excepting cuts and those badly sunburned.

As I introduced the Idaho Spuds to Chicago and every other large market east to New York, I know the way stuff should be sacked for the better class of trade that look for quality first, and it is with this trade that I have been dealing the past five years.

With those growers who will contract with me for the coming season, I will agree to go west and assist them to market the balance of this year's crop they have on hand providing there is enough to make it worth while.

Write me for facts and figures and you will readily see the advantage to you of this arrangement. You have all to gain and nothing to lose.

As the number of growers will be limited I will have to consider them in the order their communications are received, so if interested do not delay.

HUNGRY SURVIVORS OF SUNKEN STEAMER LAND

Remnant of Crew of Danmar, Struck By Lightning Off Guam Is Accounted For

WASHINGTON, Nov. 23.—Fourteen men, the hungry remnant of the crew of a sunken steamer Danmar—lately landed at San Jose, L'Orient East Coast of the Philippines, said navy department advices this afternoon.

The story of the Danmar and her crew is one of the most remarkable narratives of ship wrecks in recent months. The Danmar put out at Guam, October 18. Only a few miles off this island, the vessel was struck by lightning, which ignited the gunpowder, destroying the ship. The crew put off in life boats. Thirty-eight days drifted in the open boat, ten days without food and five days without water.

Sixteen of the crew died from exposure and two others drowned while landing at San Jose—180 miles from their starting point.

The other lifeboats were rescued some time ago. This last group accounts for all of the crew.

ITALY TAKES LEAD IN AFTER WAR PROBLEMS
Transition From Mobilized to Civilian Life in Charge of Commission of 700 Members

ROME, Nov. 23.—Italy has taken the initiative as perhaps no other allied country in resolving in advance so far as possible the problems of the transition from mobilized to civilian life and the intractable problems of "after the war."

A commission of 600 members has been working on the steps to be taken for months past and is now holding day and night sessions. These 600 members are divided into 25 sections, each section having exclusive charge of one of the big problems that demobilization will entail.

WAR BETWEEN PERU AND CHILE IS POSSIBILITY

Break in Diplomatic Relations Results From Revival of Dispute Over Lost Province—United States May Mediate

BUENOS AIRES, Nov. 20.—The Peruvian foreign minister has decided to withdraw all consular representatives from Chile owing to anti-Peruvian demonstrations at Iquique, it was announced here today. The trouble arose over the old question of the provinces of Tacna and Arica, which Chile took from Peru.

Bolivia, believed to be in sympathy with Peru, hopes through its pro-Allied attitude to obtain a Pacific port at the peace conference.

"Alsace-Lorraine" of South America

WASHINGTON, Nov. 20.—Hostilities between Peru and Chile appeared today to be a possibility. Peru has withdrawn her consular agents from Chile as the result of popular demonstrations, resulting from a revival of the dispute over the provinces of Tacna and Arica, which Chile took from Peru in 1883. As Peru has no minister in Chile, withdrawal of her consuls constitutes a break in diplomatic relations.

May Go to Peace Congress
It was believed probable here today that the United States and the South American nations will offer to mediate the difficulty so as to avoid actual warfare. It was also regarded as a possibility that Peru and Chile would carry their dispute to the peace congress, on the theory that agreement by nations would require settlement of such matters.

When Peru ceded Tacna and Arica at the end of the four years war in which Peru and Bolivia were completely defeated by Chile, a plebiscite was to be held at the end of ten years to decide the ultimate disposition of the provinces. The plebiscite has never taken place and Tacna-Arica has been the "Alsace-Lorraine" of South American politics ever since.

Relative Strength of Nations
Chile vies with Argentina and Brazil in power as a defiance in South America. It has an area of 299,820 square miles and a population of 3,941,477. Its regular army totals about 20,000, but it has a national militia in which all able-bodied men between 18 and 43 are liable for service. Its navy consists of one old battleship, two armored

LABOR PROBLEM MUCH SIMPLER

New Rules as to Crossing Into Mexico Make it Easier for Farmers

LOS ANGELES, Cal., Nov. 20.—The farmers and the sporting fraternity read different things into the new passport rulings just made public by Immigration Commissioner Conroy in Los Angeles.

The new rulings relax the stringent regulations regarding crossing the Mexican border which were enforced during the war. They do not restrict the number of times a person holding a permit may cross into Mexico and make more simple the obtaining of passports.

To the farmers the regulations meant it would be easier to get Mexican labor but a rather tight situation, particularly in the Imperial valley, would be relieved.

But the sporting fraternity could not see where the new regulations brought any nearer the re-opening of the Ti Juana lower California's Monte Carlo.

cruisers, four protected cruisers, three torpedo gun boats, ten destroyers, six torpede boats and a mine layer. Chile had two big dreadnoughts building in England at the beginning of the war, but these were purchased for the British navy.
Peru has an area of 729,401 and a population of 4,493,201. Its standing army numbers 6,000. Military service is universal and compulsory. The navy consists of one old armored cruiser, purchased from France, three protected cruisers, seven river gun boats, one destroyer, and two submarines.

ENLISTED MEN ARE SEEING RED

New York Police Save Socialist Meeting From Serious Riot

NEW YORK, Nov. 20.—As the result of the outbreak against 12,000 socialists holding a meeting in Madison Square Garden, flying squadrons of soldiers, sailors and marines surged through the downtown streets early today, rough handling all found wearing red buttons, ribbons, or even red neckties.

Many were beaten. The police were unable to stop the disorder. The service men at times were followed and aided by more than a thousand civilians.
The police saved the socialist meeting in Madison Square Garden from a serious riot. When it was learned that the radicals were waving red banners inside the big hall, hundreds of soldiers and sailors attempted to batter down the doors to gain admittance. The police were powerless until a troop of fifty mounted police came to their rescue, and forced the mob back for several blocks.

Feeding of Germans Is Not Up to Allies

Food Blockade May Be Removed After Which Country Must Work Itself Out

DES MOINES, Nov. 20.—The United States and the Allies will not feed Germany. It is probable that the food blockade now in force against Germany will be removed, but that nation will then be forced to work out its own salvation.
This fact was brought out by representatives of the federal food administration for Iowa at a conference of county food administrators and women's committees of Iowa here today. Iowa, however, will be asked to continue food concentration in order to feed the Allies.

Conservation to Continue
-Hulings are expected to be modified from time to time, but the general purpose of urging people to conserve will be maintained.
J. F. Deems, federal food administrator for Iowa, was in charge of the meeting today. Mrs. Beatrice Forbes Bolton Hale, noted conservationist, who has been advocating conservation, bore a personal message from Herbert Hoover, the recent dictagraph expose by John Densmore, representing Secretary of Labor Wilson, as proof that "Fickett caused a condition of anarchy to exist in the hall of justice," quoting Densmore's report.

The grand jury investigation into Densmore's charges, which started last night, adjourned before any evidence was taken. It will resume Friday morning.
Densmore, in Portland, announced he would return to testify before the grand jury.
But some say for the grand jury that it can save Mooney. It is purely

LABOR USING EVERY EFFORT
(Continued From Page 1)
Labor's claim for Mooney's life is based upon its firm belief that perjured testimony of Frank C. Ozman convicted him and that District Attorney Fickett "framed" the case against Mooney in an attempt to vilimize union labor. They point to the recent dictagraph expose by John Densmore, representing Secretary of Labor Wilson, as proof that "Fickett caused a condition of anarchy to exist in the hall of justice," quoting Densmore's report.
The grand jury investigation into Densmore's charges, which started last night, adjourned before any evidence was taken. It will resume Friday morning.
