

HUNS MUST PAY UP TO BITTER END

Lloyd-George Says Expense of War Will Fall on Germany to Per Capita Limit of Population

LONDON, Nov. 29.—(German) must pay the cost of the war to the limit per capita. Premier Lloyd George declared in a speech here today.

"The man who inhumanly treated our men who had been taken prisoner must be held responsible," the premier said, "but it is not our purpose to pursue a policy of vengeance."

Regarding the culpability for the origin of the war, Lloyd George said: "An investigation will be conducted and it will be perfectly fair and strict and must go to the final reckoning. The submarine pirates must receive punishment."

Loos Must Pay

"The principle has always been that the loser pays. We must proceed on this principle in regard to Germany."

"Peace must be merely just. Germany will not be permitted to pay the indemnities by dumping cheap goods in this country."

Referring to his stand in the coming election, the premier said: "I won't lead the government if I am to be subjected to the old party conspiracies and intrigues."

Objects to Order By Admiral Beatty

Commander of German High Seas Fleet Wants Permission to Fly His Flag

LONDON, Nov. 29.—Admiral Von Reuter, commander of the German high seas fleet, in response to Admiral Beatty's order against hoisting the German flag, submitted a protest of the order, according to an admiralty statement. Von Reuter declared that the flag had been flown honorably and maintained the order was unjustifiable and contradictory to international custom.

Replying, Beatty pointed out that a state of war still exists, and that no enemy vessel is permitted to fly its flag in British ports.

MRS. GARDNER REARDED

NEW YORK, Nov. 29.—New York society was surprised today at the announcement of the engagement of Miss Margaret Carnegie, only child of Mr. and Mrs. Andrew Carnegie, to Elizabeth Roswell Miller, T. S. son of Dr. Roswell Miller, former president of the Chicago, Milwaukee and St. Paul Railroad. No date has been set for the wedding.

SAYS WAR HAS PURIFIED LIFE

Dr. Nicholas Murray Butler Treats Topic From New Angle

PRINCETON, N. J., Nov. 29.—The war has distinctly helped the American nation by having "burnt up" many sources and causes of intellectual, moral and social waste. President Nicholas Murray Butler, Columbia university, declared in an address before the association of colleges and preparatory schools of the middle states and Maryland today.

"It has shortened by many years, perhaps by generations, the path of progress to clarity, nobility and more constructive thinking as to education, its processes, and its aims," added Dr. Butler.

Dr. Butler declared that vigorous steps must be taken promptly to make the teaching profession more attractive to men of high competence and ambition. He also stated that politics should not be permitted to influence educational organization and work.

Citizens Pressed For Into Service For Defense of Homes

Villista Attack on Jauros Border Imminent—Border Trouble Threatened

EL PASO, Tex., Nov. 29.—Citizens were pressed into service in Texas today as armed by the Carranza garrison to aid in repelling a threatened attack by Villistas reported within eighteen miles of the border.

Amazons prepared against border trouble were reported in the retreat of a small band of Mexicans, who crossed the Rio Grande near Fort Hancock but quickly returned to their own side at the approach of a United States troop detachment. No shot was fired.

All communication south of Juarez is broken. Mexican telegraph operators refused to accompany a Carranza reconnoitering force which left Juarez to scout ahead of the north. Weather conditions are severe for troop movements. American officers, however, have nothing definite on Villa's whereabouts, but believe he is at Villa Ahumada and may have started north with an attacking column.

Tiny Victim Will Probably Recover

Ten Days Old Child Found in Woods Near Here Has Chance to Regain Life

POMPTON LAKE, N. Y., Nov. 29.—Hope was expressed today that the ten days' old child found in the woods near here by the police would survive the effects of exposure from which it was thought she had died.

When discovered, the child's body was blue. It was removed to the morgue as dead. Examination by the county physician, however, revealed a slight movement by the chest, after an hour of artificial respiration. A fluttering of the heart was observed, and the child is expected to regain perfect health.

ENJOY UNIQUE DINNER

NEW YORK, Nov. 29.—British and American flying officers today enjoyed the distinction of having eaten their Thanksgiving dinner under "first time in history" conditions. They had a turkey with trimmings while soaring 8,000 feet over Elizabeth, N. Y., in Handley-Page bombing plane.

GAMING DEMAND INCREASED

CHICAGO, Nov. 29.—A conference was scheduled today between representatives of real estate agents and 70,000 union janitors to adjust wage differences. The janitors have threatened to strike tomorrow unless they receive an increase of from 93 to 95 a month.

WOMEN WILL HOLD SESSION OF THEIR OWN

Big Peace Conference of Gentler Sex Planned for February Next in Holland—Miss Jane Addams in Charge

WASHINGTON, Nov. 29.—A big peace conference of women is planned for February in Holland, with delegates from all countries, including Germany and Austria.

The session, if finally arranged, will be under the auspices of the international committee of women for permanent peace of which Miss Jane Addams of Chicago is president.

Miss Addams is mainly to move world wife of Assistant Secretary of Labor Post, questioned Secretary of State Lansing today as to propriety of the association. He informed them he had no objection to the meeting, according to Miss Addams.

A meeting of the executive committee will be held Monday in Boston to determine on time and place of the session. As tentatively outlined, the conference would begin the meeting during the fifth week, a general peace discussion. Its purpose, according to Miss Addams, is mainly to move world opinion as to women's position on questions affecting a durable peace.

It has been hoped to have the meeting at Paris, but it is now felt this would be inadvisable as German and Austrian delegates might be deterred from the French capital.

It is recalled, however, that a session in Holland in 1915, about a month after the arrival of the Ford peace bill, Miss Addams pointed out that the committee had no connection, however, with the Ford party, which is made up of New York, and the 11th, 12th, of Tennessee, North and South Carolina, and District of Columbia national army men.

ASKS DEATH INSTEAD OF PRISON LIFE

Thomas J. Mooney Reiterates Innocence and Says Hanging Is Preferable to a Living Grave

SAN FRANCISCO, Calif., Nov. 29.—"I prefer a glorious death at the hands of my judges, (you included) to a living grave. I am innocent."

"I refuse to accept the commutation," said Mooney today. "Workers, I now appeal to you again to act—and the sooner the better."

Mooney declared he believed organized labor would not accept the government's action as satisfactory.

"Labor everywhere, I say to you, as I said to you the night the chamber of commerce returned a verdict of death against me, that my hope is in the solidarity of organized labor."

Thomas J. Mooney dictated this statement at Governor Stephens today in answer to the governor's action in commencing Mooney's death sentence to life imprisonment.

Followed President's Wishes

Governor Stephens issued a statement in which he said his action was taken because of new evidence which would not be considered by the state supreme court, and because of "press requests of the president for commutation."

The governor made public two telegrams sent him by President Wilson in which the president urged commutation of Mooney's sentence, stating that he respectfully suggested the commutation of the death sentence.

LOOK FOR GOOD EFFECT

WASHINGTON, Nov. 29.—Communitarianism of Thomas J. Mooney's death sentence to life imprisonment is regarded here as likely to compose materially the national labor situation.

The determining factor in saving Mooney, the president said that international issues hung upon the disposition of the Mooney case. "That meant the Russian Bolsheviks, and certain anarchist elements in this nation were going to foment serious trouble if the case went the limit."

INVESTIGATE FOOD SUPPLY

PARIS, Nov. 29.—Appointment of allied representatives to go to Berlin and Vienna to investigate the food conditions in the Central Empire is regarded as likely, though all plans are tentative at present.

SEVENTY-SIX NEXT TO SAIL

Well-Known Fighting Division Now Marching to Rear to Embark

PARIS, Nov. 29.—The Seventy-sixth division were the first combat troops to leave France for America. This unit has been used for replacement of the Twenty-seventh and Thirty-first divisions, which fought with the British and which are now marching to the rear. It is presumed they will be the next to embark.

Field Marshal Haig, in special order to investigate the food conditions, completed the work of the Twenty-seventh and Thirty-first.

General Pershing delivered a stirring "Thanksgiving" speech at Chaumont (American headquarters) yesterday. A special service was conducted by Bishop Brent.

The Seventy-sixth division is composed of New England national army troops. The Twenty-seventh division is made up of New York, and the Thirty-first of Tennessee, North and South Carolina, and District of Columbia national army men.

Soldiers Clash With Reds and Hoist Old Flag

Council of Workmen Routed in Pitched Battle by Returning Troops

WASHINGTON, Nov. 29.—Returning German soldiers overthrew the council of Workmen and Soldiers after a hot fight at Leoben, according to diplomatic advice through Swiss channels today.

The troops proclaimed dissolution of the council, tore down the red flag and hoisted the white flag and the population applauded. The Prussian flag was hoisted.

Rebels at Romscheid, hearing of the defeat of their comrades, rushed to the scene in force with machine guns and after a pitched battle in which one was wounded, drove out the Prussians. Additional reinforcements soon taken in defeat of the Reds, who were taken prisoners.

Soldiers Arrest Hun General

COPIENHAGEN, Nov. 29.—General Kniff Von Bostigen has been arrested by the Workmen's and Soldiers' Council at Ulm, following his request that the high command send him two divisions to repulse the "Bavarian revolution," according to the Stuttgart correspondent of the Deutsche Allgemeine Zeitung.

Will Discuss Kaiser's Status

LONDON, Nov. 29.—Premier Clemenceau and President Lloyd George will meet here Sunday on the procedure for deposing that Holland tar the former Kaiser over to the Allies, the Express declared today.

France and Great Britain are understood to have agreed that such a demand be made, and the Dutch government is said to be ready to comply.

The Express said Marshal Foch and Colonel House may attend the conference.

NEW FUEL WILL TAKE PLACE OF OLD GASOLINE

High Cost of Auto Operation Receives Death Blow if Recent Experiments are a Success

WASHINGTON, Nov. 29.—"Liberty fuel" is being developed here and possessing many advantages over that product, has been invented by officers of the war department and is now being produced in large quantities, it became known today.

The fuel is the result of more than five months experiments conducted by Major O. B. Zimmerman and Captain E. O. Wegelsdorf of the research and development divisions of the general engineering department here.

WHEAT SUPPLY IS GRATIFYING

Two and a Half Times as Much Grain on Hand as a Year Ago

WASHINGTON, Nov. 29.—The nation's granaries are well filled with a vastly larger commercial stock on hand than that of a year ago, the agricultural department announced today.

The statement said that commercial stocks of wheat on hand November 1 amounted to 27,925,910 bushels, two and a half times as large as a year ago and an increase of 51,928,017 over the stock October 1.

This stock does not represent the entire commercial stock on hand, nor does it include that held by farmers. It was held by 79,238 firms.

Commercial stocks of other cereals October 1 were:

Corn	17,123,734 bushels
Oats	7,777,281 bushels
Barley	34,462,587 bushels
Rye	15,123,135 bushels

In each case these figures show large increases over last year.

DAHO WEATHER
Cloudy tonight and Saturday.

FREEDOM OF SEA IS BONE OF CONTENTION WHICH MAY BE CAUSE OF CONTROVERSY

Opinion as to Precise Meaning of Phrase Differs Widely Among British Statesmen—Wide Latitude of Thought on Subject Apt to Result in Extended Discussion at Peace Conference

LONDON, Nov. 29.—Definition of the phrase "Freedom of the Sea" is the most important problem before the world today. In its relation to the league of nations it forms the basis for the chief points to be settled by the great forthcoming world peace conference.

Responding to a request for their opinion of this all-important problem, leaders of British thought today revealed a wide divergence of views. Great significance is attached to this fact as a result of the action of the Allies in amending the president's famous fourteen points so as to permit them to offer the peace conference without having been committed to any definition of the four words "Freedom of the Sea" which are destined to become the most vital feature of the new international relationship.

TWO FACTIONS OF WORKMEN IN SHARP CONFLICT

BERLIN, Nov. 29.—The workers' and soldiers' executive council has issued a manifesto in contradiction of the Potsdam workers and soldiers' summer an imperial workers' and soldiers' conference.

"The only stated conference will be held December 10," the manifesto says. The executive council further authorized the members of Chancellor Ebert's ministry to exercise executive power, to be reserved for itself the right of final approval.

Soldiers' Executive Council of Berlin Issues Manifesto in Contradiction of Potsdam Workers' Authority

BERLIN, Nov. 29.—The workers' and soldiers' executive council has issued a manifesto in contradiction of the Potsdam workers and soldiers' summer an imperial workers' and soldiers' conference.

"The only stated conference will be held December 10," the manifesto says. The executive council further authorized the members of Chancellor Ebert's ministry to exercise executive power, to be reserved for itself the right of final approval.

NEW FUEL WILL TAKE PLACE OF OLD GASOLINE

WASHINGTON, Nov. 29.—"Liberty fuel" is being developed here and possessing many advantages over that product, has been invented by officers of the war department and is now being produced in large quantities, it became known today.

The fuel is the result of more than five months experiments conducted by Major O. B. Zimmerman and Captain E. O. Wegelsdorf of the research and development divisions of the general engineering department here.

TWO GREATEST QUESTIONS ARE CLOSELY TIED

League of Nations and Freedom of Seas Regarded as Interdependent and Inseparable

PARIS, Nov. 29.—Realization that the question of freedom of the sea and a league of nations are inseparably related is becoming more evident in the international representative gathering in Paris and the actual peace conference draws nearer.

As the Germans were informed that freedom of the sea is the only question remaining open, this is the question most generally discussed. From the American viewpoint, it links closely with that of a league of nations, one strengthening the other.

SAYS VICTORY WAS COMPLETE

Extent of German Defeat Emphasized by Delegate's Utterance

PARIS, Nov. 29.—The completion of the Allied military victory and the importance of the part played by Americans is emphasized in a remark which it is learned a German delegate made at Versailles today during the armistice negotiations.

"We are unable to move forward or backward," he is quoted as saying. "The Germans admitted that the cutting of their lateral lines of communication and lack of resources had rendered their retreat impossible. Continuation of the fighting would have brought Germany to the verge of destruction."

(Continued on Page 8)

ELECTION IN ENGLAND WILL BE TOUGH JOB

Situation in a Political Sense Presents Greatest Complications Within History of the Empire

By ED. L. KEENE
LONDON, Nov. 29.—Suppose one of the congressional candidates in your district was selected by a Mr. Bryan coalition. He might be either Republican or Democrat, but in any event pledged to support the coalition through thick and thin. Suppose another candidate was selected by the regular Democratic organization and another by Mrs. Carter Chapman Catt. May you could then begin to approach an appreciation of the bewildering of the average voter in the British general election in which the situation is even more complicated.

William Howard Taft and William Jennings Bryan would be no stranger political bed-fellows than Chapman Catt and Mrs. Chapman Catt, who by mutual confession, have formed up a really fine reconstruction program.

Their platform is somewhat shy of details, but the coalition candidates are pledged strictly to support all rewriting measures.

To Pick Likely Winners
Bonar Law is using the regular union machinery. Lloyd George possesses no such organization, but his former backing broken away from the regular liberal party but not from liberal fundamentalists.

The coalition putting up candidates of various tendencies throughout the country, other than Lloyd George Liberal, which ever seems the more likely of success.

In the meantime, Herbert Asquith, former premier, is controlling the old regular liberal party. His position is being maintained by general opposition, leaving it up to the local organizations to decide whether they shall support the Lloyd George coalition candidates or put up their Asquithian liberals.

Labor a Big Factor
The labor party, whose progressive platform is designed to attract the bulk of the workmen's vote is bound to be a big factor, especially in view of the sympathetic attitude of the leading old-time liberal organs, such as the Daily News, the Westminster Gazette and the Manchester Guardian, who are fondly hoping it is possible that a liberal-labor alliance may secure the country from domination of the coalition, which may regard as more Tory than liberal. There is considerable uncertainty regarding the women's and soldier's vote. The latter are likely generally to support the coalition because the present government materially helped them to win the war.

CHICAGO CUBS TO ENTER COAST TRAINING CAMP

Will Take Part in Exhibition Games With Pacific League Teams in Coast Tour

SAN FRANCISCO, Cal., Nov. 29.—The Chicago Cubs are coming to California to train again next spring.

"Doc" Strubb, president of the San Francisco club, made the announcement following the receipt of a letter from Fred Mitchell, manager of the Chicago aggregation.

Exhibition games between the Cubs and Coast league clubs will be played in San Francisco, Sacramento, Oakland, Los Angeles and other cities, that may have teams in the coast league.

Mitchell's letter to Strubb follows: "We will have a surplus of good material next spring owing to the reduction of player limits. We will dispose of several good pitchers owing to the return of Groves Cleveland Alexander to our team. We undoubtedly will train on the coast next spring and you can select players then who I believe will give the best exhibition of the rebuilding of the San Francisco club. You can look them over while we are training."

Strubb conferred with J. Cal. Ewing, president of the Oakland club and Ewing told him that he thought the Pacific coast league should resume operations next spring.

COURT HALTS EFFORTS OF BIRTH AID SOCIETY

CHICAGO, Nov. 29.—Efforts of the "Birth Aid Society" to increase its membership to secure funds for propagating "the white race by encouraging and assisting all persons who desire to increase their children," and "to provide laws for legitimizing children born out of wedlock" were halted here by John E. Madigan, Assistant United States attorney.

Fred's copy of literature ordered by the society was turned over to the attorney, who ruled that such matter should not be allowed privilege of the mails.

Claiming that the white race would soon grow extinct unless aided, and others who desired children, the pamphlet solicited members who would pay \$10 fee for joining the society.

Today's Casualties

MORNING REPORT

The following casualties are reported by the Quartermaster General of the American Expeditionary Forces:

Killed in action	131
Died of wounds	317
Died of disease	302
Wounded severely	29
Wounded (condition undetermined)	21
Wounded slightly	87
Missing in action	231
Total	559

KILLED IN ACTION

Captains

Howard C. Braddock, Mt. Pleasant, Pa.
Geo. S. Butcher, Upper Mont Clair, W. Va.

Lieutenants

FRIDAY—SECTION NO. 2
The following casualties are reported (Continued on page three)

KANSAS WRITHES UNDER EPIDEMIC

Conditions in Native State Are Described by Probate Judge O. P. Duvall

North central Kansas is in the grip of the influenza epidemic, according to Probate Judge O. P. Duvall, who returned Wednesday after spending several days with his parents at Gaylord, and visiting other towns in the vicinity of his former home. The epidemic in this region, Judge Duvall says, seems to be more prevalent than in Idaho. It occurs in the cases of some patients, but there are relatively fewer mortalities. Physicians and nurses are worked to the limit of their endurance, and still many patients are left necessarily without attention.

Guardmen Victims
Judge Duvall notes, as incident to the epidemic in Kansas, the fact that a state guard company from a neighboring town was called to assist in protecting order during the celebration at Smith Center over the signing of the armistice terms. Twenty-eight guardmen were employed. They remained in the town throughout their stay. All of them contracted influenza, and three mortalities resulted.

Lessons Parents Well
Judge Duvall was called back to Kansas by reason of the condition of the health of his father who recently underwent a surgical operation. He left both his parents enjoying excellent health and promised to return for the celebration of their golden wedding anniversary three years from next April.

KANSAS GOVERNOR-ELECT RETURNS FROM WAR ZONE

Henry J. Allen Lands at New York After Eighteen Months on Y. M. C. A. Duty

NEW YORK, Nov. 28.—Henry J. Allen, governor-elect of Kansas, arrived here from Europe on the French liner La Espagne, after an absence of eighteen months in the war zone on Y. M. C. A. duty.

Idaho Must Clear 'Record on War Savings Stamps'

Chairman of State Council of Defense Issues Appeal to Citizens of State

BOISE, Idaho, Nov. 29.—State Chairman J. T. Pence of the Idaho state council of defense, has wired all chairmen of county councils urging the necessity of Idaho clearing her record on War Savings Stamps and that these councils get behind the big drive next week which is designated Honor Week. Chairman Pence says there is some tendency manifested in some quarters to doubt the necessity of completing the War Savings quota.

If our honorable record be maintained, he says, it is vitally important that this 1918 War Savings allotment be met fully, and the government needs the money. It is but meeting obligations assumed at the beginning of the year. There are difficulties to be overcome, but it is imperative that the quota be reached in every county.

Mosaic Law Cited No Figure Here

ST. LOUIS, Mo., Nov. 29.—The Mosaic law was disregarded here today by police Judge Hogan when he discharged Mrs. Mary Bertha Schmidt, manufacturing as a man.

"If a woman can earn \$4 a day by wearing men's clothes instead of \$9 a week as a woman, I say let 'em wear two pairs of trousers," said the judge.

NERVES BREAK UNDER STRAIN

Former Kaiser Declared to be in Bad Shape—Will Seek Treatment

AMSTERDAM, Nov. 29.—Count Wilhelm Hohenzollern soon will leave Amsterdam on parole to undergo treatment for his shattered nerves in a sanitarium near Argeheim, it was unguardedly heard today. He probably will live for some weeks at the home of Dr. Lingheek, at Blauw.

The former Kaiser is reported to be subject to frequent fits of violent weeping. Some days he is unable to write, owing to spells of trembling.

In well informed circles at The Hague, it is expected that the Allies soon will join in inducing Holland to subject Wilhelm, offering him the choice of returning to the German frontier or surrendering to the Entente.

Wilhelm seldom goes outside the castle gardens. During one of his first walks he met an interned German soldier, who refused to salute. The former Kaiser demanded an explanation. The soldier silently produced a small red flag. An attendant asked him if he realized it was the Kaiser who stood before him.

"Damn the liberalized! Six of my brothers died for them!" shouted the soldier.

Since then the former Kaiser has taken no walks, always riding in a closed automobile on his infrequent trips away from the castle.

Allies Agree to Lifting Censorship

WASHINGTON, Nov. 29.—At the personal request of President Wilson it was announced allied governments have agreed to lift all censorship on the peace-conference sent home by the American correspondents who will cover the meeting.

To "finance" a "To Let" advertising campaign you need only set aside—for perhaps a few days—a part of your pocket money.

Reported Harmony Is Not Confirmed

Statement That Differences Between Chile and Peru Were Over Not Credited

NEW YORK, Nov. 29.—No confirmation had been received at the Peruvian consulate here today of the report that the diplomatic break between Peru and Chile had been ended by an apology on the part of the Peruvian government.

Attaches of the consulate declared that they had "little confidence" in the report.

Carlos Castro Ruiz, Chilean consul general in New York, last night authorized the statement that the difference between Peru and Chile had been overcome by an apology on the part of the Peruvian government. He said that this information had reached him in an official cablegram from Santiago.

The apology sent from Lima, Ruiz said, was wholly satisfactory to the Chilean government and "brought the misunderstanding to an end."

Messages received from Santiago, Ruiz added, denied reports that there had been anti-Peruvian demonstrations throughout Chile.

Made to Measure Every Need

Garford Motor Trucks have clearly demonstrated their utility at a time of greatest need and most trying service.

Their stalwart, dependable construction is known wherever conscientious service is demanded. Every owner will instantly recommend Garford reserve power, stamina and economy.

The economy of operation and satisfaction given by Garfords results from a study of service conditions and advising the proper capacity for the particular need and service. This ability to fit the truck to the need is a decided advantage. It has resulted in hundreds of business concerns from Maine to California, standardizing on Garford equipment.

Back of every varying type and capacity from the heavy duty truck with short turning radius and great strength to the lighter types, is a good, sound engineering reason and a carefully figured properly proportioned balance between power and strength of every piece and part.

Every Garford has the backing of an organization with long years of experience, and fully rounded judgment.

Every Garford is sold for service, and backed up with service.

We make it a practice to study your needs. In this way we can advise motor truck equipment which meets them accurately, efficiently and economically.

Urgent demands upon industry point to the advisability of ordering immediately. A call will receive our courteous and prompt attention.

—But the Garford's greatest asset lies in the completeness of the line. We are in a position to measure the truck to the service; and are never forced to recommend a Garford either too light or too heavy for the work to be done.

SAVE THE PEACE

"Still there is always need for vigilance," is the significant remark with which Secretary of Agriculture Hixon concluded a recent interview in which he stated that he was no afraid that the "great thoughtful masses of the American people would be swept from their moorings and abandon their standards and principles for Bolshevism."

The danger would be negligible if Bolshevism came in bottles bearing the skull and crossbones on its labels like the poisons in the family medicine chest, or if it came in red-banded cans like gasoline. But Bolshevism does not come that way. By stirring hate, truth, its adherents would becloud our vision and bring about not world-wide democracy, but world-wide class war.

The days of reconstruction bring peculiar problems. A just and lasting peace will call for world adjustments of the relations of old and new nations, most of them unprepared to grapple with the problems of peace.

As we are called upon to defend the democracy which our soldiers died to save, the dangers that will arise in the period of reconstruction, we must be more conscious of our American ideals and practices than ever.

Taking as our motto the old test of American doctrine, "Liberty and Justice for all," we must be guided by these principles through the trying days at hand and to come, battling with all our might against the sinister forces which would hold the red flag above the Stars and Stripes, and which are to be discarded in any attempt to preach class doctrines, or to weaken the bonds of unity between us, and our Allies, or to countenance a peace which ignores the moral issues of the war.

DISTINCTION AND DIFFERENCE

It should be pretty well apparent to the average man that the practice of Socialism is not what might be termed a popular avocation. Socialism and the philosophy of the same are one thing. The holding of meetings on the subject of the right of the government to back up socialists under the name of Socialism is quite another.

OFFICIALS MAY RESIGN

BERLIN, Nov. 23.—The cabinet is deliberating the question of the resignation of Foreign Secretary Solf, Secretary of State Baumbach and Secretary of Finance Schulze.

Foch Holds the Pass

LACK OF GOOD ROADS IS BURDEN IN GETTING BACK TO PEACE BASIS

Country Cannot Solve Big Problems Unless There Are Suitable Highways to Permit Uninterrupted Transportation—Localities Should Make Plans Now

By G. A. KISSEL, Pres. Kiesel Motor Car Company. The instant the United States entered the world war, the government, through the war industries board and boards and committees, found it necessary for certain manufacturers to turn their facilities and equipment over to the manufacture of supplies necessary for the army and navy.

Two of the country's leading industries that will feel the lack of good roads the most and the quickest, are those of manufacturing and building. Let us take up the former first. To maintain the production necessary to meet the reconstruction demands abroad, material and supplies must be transported to the building sites. There must be no interruption, otherwise production will be delayed.

Getting Supplies Big Problem

Now, with indications that the government will gradually relieve the manufacturer from government work, the question of getting the necessary supplies and raw material for commercial work is an important one. In fact, it will soon be one of the vital problems, and with the railroads being used for military purposes, as well as for the transportation of finished goods for reconstruction purposes, moreover, it will undoubtedly be left to the motor truck to keep our industries, factories, mercantile institutions and dealers supplied with materials and goods necessary to get back on a "peace time" basis.

Here is where the states with good roads are going to forge ahead of those communities with bad roads, and likewise it will be the industries in the former which will have the bulge on those in the latter.

It will soon be a question of not merely the scarcity of available material, but the scarcity of good routes over which they can be hauled to the factories.

In building highways, you are insuring reliable and economical transportation. You are eliminating excessive freight rates, avoiding expensive delays and stopping big motor car and trucking losses, three of which are big factors that enter into the cost of doing business.

Millions for Building In every city and town, building projects that have been held up by the war, will soon be coming to completion. Expenses of hundreds of millions of dollars will be made, providing employment for not only the returning soldiers, but men released by the factories formerly engaged in government work.

THEATRE LIGHTS TO SHINE AGAIN WHEN BAN LIFTS

Playhouses, Long Closed as a Public Health Measure, Resume Performances Under New Regulations

Twin Falls theatres, which have been dark since October 10 in compliance with the board of health closing order, will reopen for Saturday afternoon matinees and regular performances thereafter under the provisions of a tentative decision reached last Saturday by the county and city boards of health, which provisions permit the reopening of the theatres on Sunday matinees and the resumption of seasons in the public schools of the county on Monday next.

Comes Back With Comedy

That picture playgoers who have been so long deprived of their favorite amusement, should be treated to a beauty in the shape of the new play in the opinion of Manager E. E. Anderson of the Orpheum theatre, who announces as the attraction at his theatre for the Saturday matinee and evening performance, a popular comedy, "Fock's Bad Girl," featuring Mabel Normand.

Sacrifice All Bond

The closing order in respect to theatres has involved not only sacrifices to the theatre owners and their employees, but has deprived Twin Falls playgoers of opportunities to see some of the best attractions along the road above and in the realm of Hindon.

Caught With Box Office Receipts

The closing order in respect to theatres has involved not only sacrifices to the theatre owners and their employees, but has deprived Twin Falls playgoers of opportunities to see some of the best attractions along the road above and in the realm of Hindon.

Hold Public Health Paramount

Throughout the period of the continuance of the closing order, the theatre owners have preserved a silence in respect to their own sacrifices, that has been widely and favorably commented upon. They have acquiesced cheerfully in the principle that the interests of the public health are paramount to all others.

It was under the conviction that a strict quarantine of individual infectious patients, which they advocated, would prove the most effective means of establishing control over and stamping out the epidemic here, that the theatre owners laid their claim for permission to reopen their houses before the board of health.

Announcements

The Home Service section of the Red Cross of Twin Falls in the Home Service office, Room 5 in the Power Building each Monday, Wednesday and Saturday afternoons from 2 until 5, asks the people of Twin Falls as far as possible when in need of anything Home Service can do, to call on those days, or telephone to Mrs. O. R. Scott, 355; Mrs. H. F. Allen, 170; or Mrs. D. E. Sweet, 937.

Home Service has been able to give much needed information to the families of our soldiers, and in many ways has been helpful.

Advertisements in the Classified columns of The News. Somebody will want it.

This situation permits every state and good roads association to start to complete roads in each locality before these peace time industrial and building activities have reached their height. I cannot too strongly emphasize the necessity of every community perfecting its roads and improving its highways and byways immediately. It is my opinion that it is just as vital to the welfare of the nation for good roads to be kept in the hands of us to go on with other municipal and national improvements.

The Fellow who argued with Jim the other night

ran up against the shock of his life. Jim knows tobacco. And before he got through, Jim made the fellow admit that Real Gravelly tastes better and gives a satisfaction you can't get out of ordinary tobacco. A small chew of Gravelly lasts so much longer that it costs nothing extra to chew this class of tobacco. If you further—that's why you can get the good taste of this class of tobacco without retro cost.

NEW FUEL WILL TAKE PLACE OF OLD GASOLINE

Exhaustive experiments have proved that the new fuel is adapted to all kinds of motor vehicles, stationary engines and airplanes. Kerosene is the base of the new fuel. Credit for the production of the new fuel is given by Maj. Zimmerman to his colleague, Captain Wolgast, a gas and oil engineer of wide experience and established reputation. "There'll be no more 'gasolineless Sundays' now that 'Liberty Fuel' has been discovered," Major Zimmerman declared in explaining the product. In Complete Substitute "Liberty Fuel" is completely a gasoline substitute said the major. "It is odorless, tasteless and non-corrosive. Tests for corrosion were made in a motorcycle that covered 25,000 miles of variable operation. "It leaves less residue of carbon than any gasoline, requires less air or oxygen for combustion and develops greater horsepower. "The cause of the explosion of 'Liberty Fuel' has been found to be 30 per cent greater than gasoline." The discovery, which ranks with the greatest of the war, resulted after 27 gasoline substitutes had been produced. The base of the new oil is kerosene, Major Zimmerman said.

UP TO EUROPEAN NATIONS WASHINGTON, Nov. 23.—The United States probably will not join with the entente in its reported plan to ask Holland to surrender the Kaiser, according to indications at the state department today.

Up to date TWIN FALLS--IDAHO Progressive

Local Brevities

Betty Blue II—Betty Blue, the 11th daughter of Mr. and Mrs. H. G. Blue, is quite ill.

Returns to Camp—John Wire returned to Fort Rosecrans on Wednesday evening after his furlough of about a week.

Here on Furlough—Clyde Woodhead spent several days this week on a furlough in Twin Falls. He is stationed at Camp Funston in Kansas.

Receives Notary's Commission—Certificate of the appointment of O. A. Paris of Twin Falls, as a notary public, was filed Wednesday in the office of the county clerk.

Farnam Sells Esch—Mr. and Mrs. J. E. Farnam have gone to California for the winter. They sold their 200-acre ranch on the Salmon river tract to A. L. Henry of Twin Falls.

Coming to Twin Falls—Mr. and Mrs. Homer Mills, who have made their home in Rupert for several years, are planning to move here soon to make their permanent home.

Buy's Home Here—T. J. Woods has sold the residence of W. E. Sanger to R. N. Robinson, a cattle man from Portland, who is planning to make his home in Twin Falls.

Change at Ticket Window—The Oregon Shift Line announces a change at the local ticket window—Mrs. Miller, who has been at the ticket window for some months, has turned her work over to H. D. Richardson who takes the place permanently.

Sells Hazelton Farm—Dr. T. O. Hoyt recently sold his ranch of 300 acres to

retol near Hazelton to William Caldwell, a Kimberly farmer. This ranch is all in cultivation and is highly improved. It is rumored that the transaction was somewhere in the neighborhood of \$10,000.

Falls Ill on Journey—M. P. Kenworthy and family are visiting Mrs. Kenworthy's parents, C. A. Ostrander. While the Kenworthy family were en route to Idaho from Iowa, their seven-year-old daughter, Dorothy, was taken ill with pneumonia and arrived in Twin Falls in a serious condition.

Apples for Passport—In compliance with regulations requiring the approval of local boards to applications for passports to enter foreign countries, Juan Sanchez, a registrant in this county under the selective service regulations, telegraphed from El Paso, Texas, Wednesday his application to the local board for its approval to his proposal to return to his native country. The application was granted.

Meets With State Leaders—Mrs. C. H. Brown, home demonstration agent, returned on Wednesday from a two day trip to Boise. Mrs. Brown was in conference with the state leader of women's work in the farm bureau. Mrs. Brown states there is to be a special effort made to get the rural women into the farm bureau work since it is their work just as much as the work of

the men on the farm.

Officers Enjoy Gift Turkeys—Sheriff A. N. Sprague and Deputies W. B. Lawrence and J. O. Herdman feasted on Thanksgiving day on turkeys presented to them by Ed Pagett of Twin Falls, owner of a Ford car, which was taken Saturday night by joy riders, and returned to him Sunday through the efforts of the officers who discovered it after considerable search, standing in the road south of Twin Falls.

Baptist Laymen to Meet—Delegates from Rupert, Oakley, Knal, Piler and Buhl are expected to attend a preliminary conference of the Baptist Laymen of the South Side, to be held at 8:30 o'clock Sunday afternoon next in the Baptist church here. The following speakers are on the program: W. H. Wittry, Postelle; B. B. Greenwood, American Falls; Dr. W. E. Bowler, and Rev. A. R. Meaker of Boise.

MARRIAGE LICENSES

Marriage licenses were issued in Twin Falls Wednesday to the following: Trees Glenn and Jennie Olney, both of Hansen.

Madame A. E. Kelly was one of a party of Twin Falls people who were guests of Mrs. Gus Kuntz of Buhl on Thanksgiving.

WOMEN STAND AGAINST UNWISE SENTIMENTALITY

The National Security League Warns 500,000 Members of Co-operative Bodies to Be aware of Sympathy Appeals

NEW YORK, Nov. 29.—Under the slogan "Carry Out" the National Security League appeals today to the women of America, through the 500,000 patriotic women of the nation co-operating actively in the League's American propaganda, to be on the alert against unwelcome sentimentalism for the defeated enemy and to stand firm for a sense of justice.

The Security League's appeal is made in the form of the following warning sent through Miss Ella V. Leighton, Civic Secretary of the League's Educational Department, to the various important organizations of women of the country comprising a membership of over 500,000. "Close co-operation in the League's work has been established by...

"Do your part to prevent the nation being divided into two warring factions. The allies had taken all necessary steps to this end before the signing of the armistice and the government of Germany knew this when the appeals were sent. Other appeals for the aid of the United States in going back on their armistice bargain and the incident repeats that we receive a food commission 'show an unrepentant foe.'"

HOPE OF WORLD RESTS A RESPONSE OF YOUTH

BOISE, Idaho, Nov. 29.—Although news seems certain the world today faces the most alarming food shortage in history, it is the youth of the world who are doing almost entirely to a lack of farm labor. According to present estimates starvation will overcome many parts of Europe unless the United States can produce a minimum amount of food-stuffs in 1919.

SEEK GOVERNMENT AID

WASHINGTON, Nov. 29.—Mining men from the west and members of the senate committee on mining are pleading with Secretary of the Interior Lane today regarding the chrome ore industry.

UNITED PRESS SECURES PLACE AT PEACE CONFERENCE

WASHINGTON, Nov. 29.—Representatives of the news association will accompany President Wilson's official party aboard the George Washington en route to Europe, it was officially announced today.

GOES TO BULGARIA

WASHINGTON, Nov. 29.—Charles Wilson has been appointed "chargé d'affaires" for Bulgaria. Wilson has been named at the American legation in Madrid and has soon service in Russia.

TO TRAVEL PRINCIPAL ROADS

WEBER, Idaho—Good roads district No. 1 will begin soon to gravel the principal highways in that district. It is estimated that about 1,000 yards of gravel will be used.

Date Is Set For Trial of Berger

CHICAGO, Nov. 29.—Date for the trial of Victor L. Berger, socialist, on the charge of violating the espionage act, was set for December 4. A continuance asked by Seymour Steinman, attorney for the defendant, was granted by Federal Judge Landis. The judge, however, promised to use his influence in having the date hearing before the supreme court December 6, set over in the event that Steinman could prepare for it also.

NAMPA SOLDIER IS MISSING

NAMPA, Idaho—Paul Lockman, a prominent young man of Nampa, is missing from his company in France, according to word received by his parents, Mr. and Mrs. Jacob Lockman. The report states he has been missing since September 29.

Use of Poetry in History

In using poetry to walk backward in history, in what we moderns call the early history of Europe, much that has already been written with poetry and further back, when actual history was not known, when men and women lived in damp huts or palaces, when life was crude and raw and self-sacrificing, it is a way that we may know, poetry was the true means of covering the body and making one's self not only beautiful, but comfortable.

KEPT PLEDGE TO SEND BREAD

American Nation Maintained Allied Loan Through Self-Defeat at Home Table

Since the advent of the latter wheat crop the only limitation upon American exports to Europe has been the shortage of shipping. Between July 1 and October 16 we shipped 838,000 bushels. If this rate should continue until the end of the fiscal year we will have furnished the Allies with more than 2,170,000 bushels of wheat and flour in return.

AVERTED EUROPEAN DESPAIR

With Military Demands Upon Ocean Shipping Relieved, World Is Able to Return to Normal White Wheat Bread.

The result of increased production and conservation efforts in the United States has been that with the cessation of hostilities we are able to return to a normal wheat diet. Supplies that have accumulated in Australia, Argentina and other territories through able markets may be utilized by ship-owners for transport service, and European demand for American wheat probably will not exceed our normal surplus. There is wheat enough available to have a white loaf at the common rate.

So far the year's tale was different only by the greater possible saving and sacrifice were we able to keep a steady stream of wheat and flour moving across the sea. We found our selves at the beginning of the harvest year with unusually short crop. Even the most optimistic statisticians figured that we had a here's surplus of 20,000,000 bushels. And yet Europe was facing the probability of a bread famine with no wheat bread in the most important article in the diet.

All of this surplus had left the country early in the fall. By the first of the year we had managed to ship a little more than 50,000,000 bushels by the close of the fiscal year. The British Food Controller, called that only 10,000,000 bushels before Sept. 1 could be taken the responsibility of assuring the people that they would be fed.

The response of the American people was 83,000,000 bushels safely delivered overseas between January 1 and July 1. Out of a harvest which gave us only 20,000,000 bushels surplus we actually shipped 141,000,000 bushels.

Thus did America fulfill her pledge that the Allied bread counts could be maintained, and already the American people are demonstrating that, with their awakened sense of sacrifice, this year's figures will be bettered.

Our exports since a country entered the war have justified a sufficient made by the Food Aid Administration shortly after its conception, and policies that would cover all the solution of this country's food problems.

"The whole foundation of democracy," declared the Food Aid Administration, "lies in the individual initiative of its people and their willingness to serve the interests of the nation with complete self-sacrifice in the time of a national emergency. Democracy is a discipline, and we can give this food problem for our own people and for the Allies in this way. To have done so will have been greater service than our immediate objective, for we have demonstrated the rightfulness of our faith and our ability to defend ourselves without being frustrated."

Sending to Europe 141,000,000 bushels of wheat from a surplus of 20,000,000 bushels of wheat is nothing but the outstanding effort of the American food army in the critical year of the war.

GREATEST OPPORTUNITY WOMEN EVER HAD

It was given to the women of the country to perform the greatest service in the winning of the war: to help to supply to any women in the history of the world to feed the world and to feed the world in the arts of peace, the practice of simple, homely virtues, the womanhood of a whole nation served humanity in its profoundest struggle for peace and freedom.

FIRST CALL TO FOOD ARMY. This co-operation and service I ask of all to full confidence that America will render more aid and help than any other nation surrender at our position—Herbert Hoover, August 10, 1917.

A year ago voluntary food control was a daring adventure in democracy; during the year an established peopled of democratic efficiency.

You are invited. Come while the coming is good or if you can't come, use the telephone. Your house is sure to be warm and comfortable if you use our coal. Get in and find out just what housewarming means.

There is no better insurance against disease and sickness than a properly wrapped, well ventilated home, store or office. To get the best results for the least money—

Telephone 240 Strobridge Coal and Feed Co.

Best to Face Facts in Life. There are very few of us who find life all that we pictured it in our youth. Often it proves very hard for us, because we insist upon idealizing it instead of taking it as it is. We must not refuse to face facts. It would be very satisfactory and beautiful, perhaps if life could be what we want it. But the truth is that we cannot take it and make it over to our own ends. However, we can take ourselves in hand and set ourselves to life, if we will—Exchange.

Women Live Longer Than Men. Records show that more women live to be centenarians than men. When the census of the United States was taken in 1900, it was found that 6298 persons between the ages of ninety-five and ninety-nine were living, and of this number 8390 were women.

Last by Franks. Found in Street Car—Benevolent man's umbrella, white child's mitt, black lady's veil and many other articles. London Street Railway Company. Advertisement in the London (Oct.) Free Press.

Moon Superstitious. Among the Hindus and Egyptians the moon was worshipped to the moon. De Gobert says: "The pagan moon god crouches under his foot the mouse of the night. When the cat's away the mice will play. The shadows of night dance when the moon is absent."

Gospel Motorwagon. A gospel motorwagon was constructed in 1896 for a New York pastor, in which he preached. It had capacity for ten persons and a folding organ—Chevrolet Review.

It costs more to live—so you must increase your earning power. Why not advertise for a better position?

Ventilate Coal Piles. Unless coal piles are well ventilated spontaneous combustion will follow. To prevent spontaneous combustion, the bureau of mines gives these suggestions: (1) Build a coal bin on dry ground. (2) Store only one size of coal in each pile. (3) Remove fine coal for immediate use if possible. (4) Don't wet and dry the coal alternately while piling. (5) Store the coal in small piles near the place where it is to be stored. (6) Use small bins in storage yards.

WILL VISIT IN CALIFORNIA. BURLEY, Idaho—Barry Dibble of the local reclamation office left recently for a visit in California. He expects to be absent for several months.

WINNER OF BET AGAIN POSSESSES WAGERED AUTO

C. A. Robinson Holds Car Won on Election Result from J. W. Hays, Whose Wife Seeks to Recover It

Former Senator C. A. Robinson of Twin Falls, is again in possession of the Haynes car which he won in a wager over the result of the recent election of J. W. Hays, who was conspicuous locally during the campaign as a member of the nonpartisan league. Under an affidavit of chain of title delivered Saturday by Mrs. J. W. Hays, who claims the car as her personal property, the machine was taken from Robinson Saturday night by Sheriff A. N. Sprague.

On Wednesday within the limit of the statutory time in replevin cases, Robinson filed the bond for recovery of the car. The bond is in the sum of \$4,000 and bears the names of C. B. Booth and L. T. Wright. It was filed by Sweeley & Sweeley, attorneys.

The bond filed by Mrs. Hays in instituting the action for recovery of the car, is in an equal amount, and bears the names of E. H. Bolton, J. W. Hays and Frank DeKloze, J. R. Bothwell and W. Orr Chapman represent Mrs. Hays in this action.

GOVERNMENT LIFTS BAN ON FIREWORKS

Notice of the removal of certain restrictions in respect to the sale of explosives and other materials was received Wednesday by Prolate Judge O. P. Davall, who has been serving in this county as the representative for the special explosives commissioner. The new order will be awarded in respect to materials sold through drug stores and jewelry stores and do not do away with the necessity for securing permits to purchase explosives. The new order provides that the limitations in respect to the sale of explosives used in the manufacture of fireworks where they are not to be used for that purpose; in respect to fireworks, and in respect to platinum, iridium and palladium.

prevent the belligerents from fighting on it. The same action would be possible should a single nation attempt to make war against the league.

Under such an interpretation of freedom of the seas, an international navy is within the range of possibilities. The limitation of armaments, the pooling of the forces of Great Britain and America as the leading naval powers, with contributions from other nations, operating under a unified command would bring such a result.

Freedom of the seas is universal and unqualified in peace times. In case of actual armaments to be sustained almost indefinitely. The sea controls the land and so-called freedom of the seas means military autonomy by land.

BY A. G. GARDNER

(Editor of the Daily News)

Freedom of the seas is universal and unqualified in peace times. In case of actual armaments to be sustained almost indefinitely. The sea controls the land and so-called freedom of the seas means military autonomy by land.

BY OGDONEL J. C. WIDWOOD, M. P.

Freedom of the seas by abolition of the right of capture or destruction of private property at sea in war time and no discrimination at ports between the different flags in peace time. Submarines alter the old situation, but always as a liberal, I support President Wilson.

BY RALPH D. BLUMENFELD

(Editor of the Daily Express)

(Until your abolition war there can be no such thing as freedom of the seas.

67 acres, first-class land, fair buildings, close to station, land all in crop. Price \$100 per acre; \$4,000 cash to handle.

ESTATE OF LATE MAYOR APPROXIMATELY \$50,000

Petition for Letters of Administration Filed by Lieutenant Leo F. Bracken and L. L. Brockbridge.

A petition for letters of administration in the estate of the late Mayor F. P. Bracken, was filed Wednesday in probate court here by L. L. Brockbridge and Leo F. Bracken, oldest son of the late mayor who is serving now as an officer of infantry in Siberia. The estate, according to the petition, consists of real estate in Twin Falls, bank stock and other securities; amounting in value to approximately \$50,000. The heirs named in the petition are the widow and four sons.

WILL RULE TODAY ON LIFTING BAN

County Board of Health Meets to Take Definite Action on Contingent Order

The county board of health convened at 3 o'clock this afternoon with the city public health committee, in the commissioner's room at the court house, to determine upon definite action to be taken in respect to the lifting of the closing order as against theaters, churches and schools. At a meeting Saturday last the board decided tentatively to lift the closing order from theaters on Saturday, from churches on Sunday and from the schools on Monday next.

Physicians to Report
The statement of physicians as to the decline or increase of the epidemic since the enforcement of drastic quarantine regulations instituted on Monday last, is expected to influence the board in its decision today. C. E. Carlson, chairman of the county board, said this morning that he was of the opinion that the epidemic was on the decline in this county.

Schools Stay Closed
Irrespective of the action that may be taken this afternoon by the county board, the Twin Falls public schools will not reopen until Monday, December 2. This is in conformity with the action of the board of education, according to the statement of V. H. Decker, chairman.

Dr. Wily's Sanitarium

Dr. Wily, the famous Chiropractor of Twin Falls, Idaho, has, in the last four months, brought about complete and permanent results in at least twenty or more cases of appendicitis, and has demonstrated beyond a doubt to the people of the Twin Falls tract that he (and his able assistants) can do withelectricity what others do with the knife.

CAUSE OF APPENDICITIS
Let's get right back to the very bottom of the trouble: What is appendicitis? It is an inflammation of the Vermiform appendix, a small worm-like projection from the point where the large and small bowels unite. When the Vermiform in the back, which controls the nerve that runs to the appendix becomes displaced (or substituted) it causes a pressure (or impingement) of the nerve and that in turn causes a closing of the lumen (or opening) of the mouth of the appendix, and thus shutting off the flow of the secretion from the appendix, which is so very necessary to digestion. The closing of this lumen or opening causes inflammation, and soreness, followed by fever and suppuration or collection of pus in the appendix.

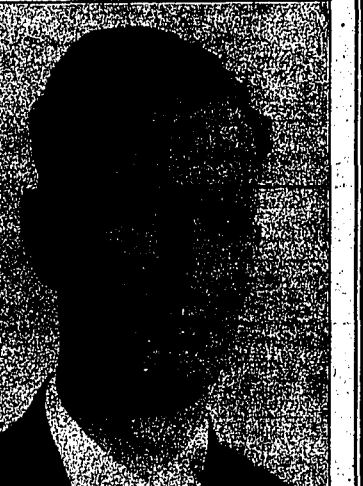

THE TREATMENT
In order to bring about a return to normal conditions we have TWO (and only two) things to do:
First—We adjust (or put back into proper position) the vertebra in the back which is causing the trouble.
Second—Then with powerful currents of high frequency electricity, applied to the appendix and adjacent tissue, we produce an expansion of tissue which opens up the opening from the appendix to the bowels, allows the secretion to flow and the inflammation (at once) begins to subside, and in a few days, from one to three weeks, normal conditions have been re-established and the patient is well.
Now doesn't that sound reasonable?
If you are still in doubt come in and let me furnish you the names of men, women and children who have come to me suffering of appendicitis and are now well and happy and still have their appendix, which is so necessary to normal health.

We have not spared money nor time in preparing ourselves for this special line of work. We have plenty of nice, clean, sanitary beds and the very best nurses that can be found, who are perfectly familiar with every phase of Chiropractic care and treatment, and the care and attention received at my sanitarium while here taking our treatment, is second to none in the state.
However, please understand us. We realize and appreciate fully that there are cases of appendicitis, and quite a few of them too, that have gone so far that chiropractic treatments do not apply. In those cases, no one is more ready nor willing to advise an operation than we are.
I have, associated with me, Dr. Tolford, a chiropractor of long experience, who has been for some years associated with Dr. Eric Juhl, the eminent and renowned physician, surgeon and chiropractor, of Chicago, Ill.
Dr. Tolford knows chiropractic in all of its various and varied phases as but few men do, and his honest,

VICTORY AT LAST

Much and Long-Dreaded APPENDICITIS Has Met Its Master

Dr. Wily, the famous Chiropractor of Twin Falls, Idaho, has, in the last four months, brought about complete and permanent results in at least twenty or more cases of appendicitis, and has demonstrated beyond a doubt to the people of the Twin Falls tract that he (and his able assistants) can do withelectricity what others do with the knife.

earnest, conscientious work is making him extremely popular with my patients and friends, and the work he is doing is little short of marvelous.
If people could only know the wonderful cures that are being brought about through our treatments and habits, not only in appendicitis cases, but practically every form of chronic ailments to which the human body is heir, they would not hesitate to come to us and get well.
We are treating on an average of almost 50 people a day and if we have one single dissatisfied patient (or one who is not getting well) we don't know who it is. Remember this: We charge absolutely NOTHING for examination and consultation. It's perfectly free; and if we can't help you, we will be glad to tell you so. We are too busy to take cases we can't help. So if you are suffering from any cause whatever, don't hesitate to come to see us. We are placing a lot of people on the road to health and happiness and you may just as well be one of the happy number.

REMEMBER THIS: WE MAKE SICK FOLKS WELL—DON'T FORGET THE PLACE
