## REDFIELD WARNS AGAINST ACTION CUTTING DOWN WORKERS' PAY

Secretary of Commerce Advises Speeding Up of Machinery of Production Along Every Line

## CONTENTED LABOR IS NECESSITY OF COUNTRY

Tendency to Take in Trade of World Must Not Be Allowed to Interfere With America's Future

ATLANTIC CITY, N. J., Dec. 4.—"Revert to the temptation to try and harden your wages." This was the advice Secretary of Commerce Redfield had amplitude given in an address before the reconstruction congress, United States Chamber of Commerce, here, today.

"Concentrate your thought, purpose and effort upon output," said the secretary. "Find sales, lay hold upon all that science has said or can say concerning industry." The responsive power of wall paid, contented labor to far-sighted leadership in industry is the greatest force in production, and happy are they who have it behind them.

### Profit Through Service

"Not selfishness, not sheer desire for personal, or even national wealth must control, but a spirit of profit through service. There alone is security."

Redfield said it is important that American labor keep its standards high.

"There is no doubt in my mind," he added, "that America, if she will, there is an insatiable desire at what we Americans will make of her prosperity."

Redfield warned against any attempt on the part of the country to grab all the world trade, thereby becoming rich and fat, but possibly winning at the same time the contempt of the world.

## Allied Countries Look Forward to President's Visit

London Newspapers Say European Governments Literally Desire His Counsel

WASHINGTON, Dec. 4.—President Wilson declined to name a senator as spokesman of the American peace delegation, but said that the choice could not be impartial judges in the great issues of the peace conference. Senator Lewis, democratic whip, declared today in the senate, Lewis' announcement came towards the close of a long-discussion of the president's fourteen-point peace terms caused by a demand for an interpretation of them by the president.

"The public has been given the impression that the president cast a slight upon the senator or indicated lack of respect or indifference in refusing to name a senator as peace delegate," said Lewis. "I am sure the president had neither view; he was in no way animated by indifference or disregard."

The Times says: "The allied governments liberally depict the president's personal conduct in his trip to the peace conference as sacrifice for the Americans, who is one which Europeans deeply appreciate."

"American civilization is felt that Mr. Wilson will use special words to my regards the needs of France and Belgium," says the Chronicle.

## FOOD PRICES RISE RAPIDLY RIOTS FEARED

Situation In Berlin Growing Steadily More Serious—Allegies Blamed for Not Sending Provisions

BERLIN, Dec. 4.—The food situation in Berlin is rapidly becoming more serious. Since Friday the price of an ordinary meal has increased six marks.

The military government of Berlin, commanding 10,000 republican troops, has the only force available to preserve order in case of disorders. In an interview, the commander declared that there should be an outbreak of Bolsheviks in Berlin and Germany, the ten thousand must hold themselves responsible, because they have not fed food.

On the arrival of the Berlin government last Wednesday, of 10,000 men and armament supplies, they arrived permitted to enter the streets of Berlin, evidently food, that did not feed people, were still feeding the population.

## Would Have Allies Ask Surrender of Person of Kaiser

Chancellor of Exchequer Bonar Law Flatly Favors War Lord's Trial

LONDON, Dec. 4.—"We shall do all we can to get the Allies to agree to demand the surrender of the former Kaiser in order that he may stand trial," Chancellor of the Exchequer Bonar Law declared in a speech here today.

"We also propose that an inter-Allied committee shall determine scientifically what Germany will be able to pay in the way of damages."

## Bill Provides For January Election

BRISTOL, Dec. 4.—A bill providing for election in January of a constituent assembly to convene March 1 has been published by the provisional government of German Austria. According to dispatches received here today, this body will be elected on the basis of one deputy for each 40,000 inhabitants. Women will vote, also for the first 24 years of age.

The October 1st manifesto, however, had required a manifesto, according to the republican form of government. This is regarded as a death blow to the Habsburgs' hopes.

## Council Will Order Hindenburg Arrested

OPENBACH, Dec. 4.—The Leipzig workers' and soldiers' council has decided to arrest Field Marshal von Hindenburg and to dissolve the great general headquarters, a dispatch today declared.

Unquestionably there is a shortage and some of the poor are probably suffering; the bulk of the people are not starving by any means, although they are undergoing rather stringent privations, judging from investigations conducted at Treves.

At an ordinary hotel I was able to obtain vegetables, soy, two slices of roast beef, a good helping of boiled potatoes, some meat gravy, and a really palatable coffee substitute, although I got no bread. This meal cost five marks—no beer.

Prices not High

At a second-class hotel I ate pea soup, smoked bacon, beans, sauer kraut and mashed potatoes and got a glass of possible beer for ten marks.

These prices for a meal are double those in America, three or four times above those at the ordinary hotel, however, there is a greater variety of food, which is of better quality and better served.

The laboring classes are undoubtedly under-nourished. Eggs and milk are practically unobtainable, excepting from farmers. There is little butter.

President Unable to Appoint Delegation to Peace Session Senator Lewis Tells Conference

WASHINGTON, Dec. 4.—President Wilson declined to name a senator as spokesman of the American peace delegation, but said that the choice could not be impartial judges in the great issues of the peace conference. Senator Lewis, democratic whip, declared today in the senate,

Lewis' announcement came towards the close of a long-discussion of the president's fourteen-point peace terms caused by a demand for an interpretation of them by the president.

TEANPORT LAYLAND IN NEW YORK, Dec. 4.—The trans- port Layland loaded with homecoming American troops, docked here today. As she came up the North River opposite Hoboken there was a demonstration of whistles and cheering. The George Washington and President Wilson aboard, waiting to east off, joined in the greeting, sounding their sirens.

Diplomatic Advices From Germany Show Adequate But Limited Supply of Food on Hand

By RAYMOND CLAPPER

WASHINGTON, Dec. 4.—Germany's attempt to create "Asian famine" and site disease in Allied countries is exposed in names-of-fact diplomatic advices to our allies.

Senator Smart asked whether the same rule would not apply to President Wilson and Lloyd George.

"No," replied Lewis. "President Wilson goes to give his counsel and judgment, but not to participate in the decision."

Not Disinterested

"That senators who, for eight months have been arguing both sides of the peace question would be in the same position as a man appalled judge to try a lawsuit who for eight months has sat on one side or the other of the case," Senator Smart said.

Towns of Wittlich and Bernbach Reached. Other Places Along the Moselle Valley Occupied

## FOOD PLENTIFUL BUT POOR PEOPLE SUFFER

Horse Meat, Sauer Kraut and Beer Still to Be Had, Eggs and Milk Impossible to Obtain

By WEBB MILLER

WITH THE AMERICANS IN PRUSSIA, Dec. 4.—The American army, marching on the Moselle valley, today arrived within less than forty miles of Coblenz, reaching the towns of Wittlich and Bernbach.

The towns of Dahlen, Eisenach and Siegen were also occupied.

Despite the harrowing stories flowing out of Germany regarding shortage of food during the past few months, these portions of Rhine Prussia which have been occupied by the Americans do not seem to be suffering very severely.

Unquestionably there is a shortage and some of the poor are probably suffering; the bulk of the people are not starving by any means, although they are undergoing rather stringent privations, judging from investigations conducted at Treves.

## PRESIDENT LEAVES FOR EUROPE IN INTERESTS OF PEACE IDEALS

Steamer George Washington Put to Sea Amid Din of Whistles on Land and Water—Will Adhere Rigidly to Fourteen Peace Points as Basis of America's Views on Question of Lasting Peace

## WILL ADVANCE VIEW THAT OCEANS OF WORLD ARE FREE TO ALL COUNTRIES

By ROBERT J. BENDER

HOBOKEN, N. J., Dec. 4 (En Route to France with President Wilson).—President Wilson sails for Europe today to literally fight that America's peace ideals may prevail.

There is no doubt as to his purpose in demanding adherence to the letter as well as the spirit of his fourteen basic principles.

He demands vast reduction of armaments on sea, as well as land, if he believed, and he demands that the commerce of America's ally, the year naval building program may restrict his determination to have other nations scale down, or the United States will scale up.

The president, it is said, regards the danger of militarism as equally great on sea and land. It may be said that he does not favor a joint policy of Great Britain and the United States, but does not favor the superiority of any nation on sea, but believes the seas should be guarded by the whole of mankind.

HOBOKEN, N. J., Dec. 4 (With President Wilson en route to France).—Facing the keenest diplomatic disillusion of his political career, President Wilson, heading the American commission to negotiate peace, started on his momentous journey to France today.

Untrained in the shrewd maneuvers of historic statesmen and inexperienced in world diplomacy until suddenly thrust forward and the spokesman of the associated governments during the world war, the president leaves to guard, it says, the principles for which America fought and which are now to be threshed out at the peace table.

His special train pulled up on the port siding at 7:20, this morning from Washington. About a half hour later the executive boarded the giant liner German liner George Washington, roasting at pier Number 4 and had breakfast. Awaiting the transport was the huge American dreadnaught Pennsylvania, flagship of Admiral Henry T. Mayo, commander-in-chief of the Atlantic fleet, ready for its serious duty of being head of escort ship.

Other escort ships include the destroyers Wickes, Woolsey, Lee, Tarbell and Yarnell. In addition to these 10 other destroyers—the Mahan, Bedford, Breese, Craven, Dorsey, Robinson, Walker, Montgomery, Leander and Parker—which will be met at sea, the president will be accompanied by the battleship Indiana.

Off the coast of France, the presidential ship will be met by two divisions of the Atlantic fleet and escorted to port. Rear Admiral Hugh Rodman

## LABOR STRONG FOR FEDERAL OWNERSHIP

Organizations Expected to Take Prominent Part in Coming Battle as to Control of Railroads

WASHINGTON, Dec. 4.—Organized labor today was moving its forces on Congress for the battle to have the government retain the railroads.

Every indication points to the labor unions as the leader in the government ownership movement.

Members of the house interstate commerce committee are daily receiving government ownership petitions from unions throughout the country.

Representative Keating, of Colorado, of Lynn, Mass., and others who are generally found on the side of labor, have come out for government ownership, with the statement "you can't unscramble the eggs."

Representative Cooper, of Ohio, a former railroad engineer, although not himself a good unionist, has indicated that a heavy majority of the labor forces want the government to retain the railroads permanently.

Brigadier General MacMains, commanding the Army's railroad corps, has indicated a majority of the four railroad companies will be in favor of government taking the railroads.

Representatives of the Brotherhood of Locomotive Engineers and the Brotherhood of Teamsters, the two largest railroads, have probably are in favor of this legislation.

As the president's train passed through the suburbs, little knots of workmen gathered near the tracks and stood silently with bared heads.

Only military and naval men, and a few women, were seen.

AMSTERDAM, Dec. 4 (Wireless via London to the United States)—Former Emperor Karl plans to lead the March elections in Austria at the head of the democratic party.

The former emperor and the grand duke of Austria plan the formation of a constitutional monarchial party which they expect to lead in contesting the elections next March of a new national assembly for Austria. Details of the plan have not been completed yet, but in general, Karl intends to attempt to unite his supporters among the Austrian people and to set up a democratic constitutional monarchy.

## THOUSAND MILES OF TERRITORY ARE OCCUPIED BY YANKEES

Scores of Towns and Villages in Germany Now in the Hands of the United States Doughboys

## NO SIGNS SO FAR OF SLIGHTEST HOSTILITY

Inhabitants Look on in Sullen Indifference, Only Children Manifest Interest in Men in Khaki

By WEBB MILLER

WITH THE AMERICAN ARMY OF OCCUPATION IN RHINEISH PRUSSIA, Dec. 2 (Night).—The second lap of the American occupation of Eichenbush Prussia has ended with the doughboys boys ten miles nearer to the Rhine. They have entered scores of villages and now occupy a thousand square miles of German territory.

The inhabitants of the occupied territory have displayed merelyullen indifference so far. Although the crowds which watched the Americans march through Treves and other towns in Eichenbush, Rheinland, and Westphalia, did not show signs of hostility, excepting the children, the main part of the children, who are mainly in "making faces," at the men in khaki. At one place, bits of coal were thrown at the soldiers. At other places, however, hundreds of children waited on following the doughboys, clinging to the automobiles and shouting remarks at the marchers.

The Workmen's and Soldiers' council of Treves has issued a proclamation warning the people not to charge the American soldiers making pictures. The Treves newspapers briefly described the American entry, offering no editorial comment on it.

Amidst the soldiers in large numbers, the men in khaki, the doughboys whistled and sang merrily. Several times the marching columns were obligingly opened to permit parties of discharged German soldiers to pass.

# SOLUTION OF SHIP TROUBLE IS EXPECTED

Congestion of Commerce With South America Will Probably Be Cleaned Up Within Sixty Days

**WASHINGTON,** Dec. 4.—Relief is in the Latin-American trade situation by January 1 was officially predicted here today. It was learned at the Latin-American bureau of the department of commerce that headway toward solution of the tie-up in commerce between the United States and South and Central American ports is expected before the first of the year.

Full solution of the vexing trade difficulties growing out of shipping shortage and need for the American forces abroad may come in sixty days, it was said.

Urge that "several" countries from America to Africa, Asia, Rio De Janeiro and other ports regarding the continued shortages of American tonnage in the face of the urgent resumption of British and French trade. The explanation was given that the British and French ships were dispatched to South America for necessary food-stuffs and that they carried full cargoes from England and France on the out-going ships.

It has been known today that a triangular ship movement is under consideration by the American shipping and trade officials. American warships would be carried to South America, then the food would be hauled to Europe, and American troops would be returned home on the last leg of the proposed plan.

## To Ask Report of State Department

Light Wanted on Progress of Negotiations With Columbia for New Treaty

**WASHINGTON,** Dec. 4.—The Senate foreign relations committee will ask the state department to report on the progress of negotiations with Columbia for a new treaty of alliance for the defense of the Andes and the Pacific.

President Wilson's request that the Columbia matter be settled will receive immediate consideration. As the treaty now stands, senators republicans refused to ratify it because it expresses regret for the manner in which the Roosevelt administration acquired land and canal rights.

There has been some hitch also over the amount of money to be paid. It was originally \$25,000,000, but an amendment during Secretary of State Bryan's term reduced it to \$15,000,000. Bryan objected to this. Secretary of State Lansing's views are not known.

## Highwaymen Murder Customs Collector

One Hundred and Twenty-five Thousand Dollars Taken in Daring Robbery

**BIGGER,** Dec. 4.—Officials are seeking five highwaymen who escaped to Douglas, Arizona, with \$125,000 in gold taken from Mexican customs collector, Carlos Cangulay, after killing him and two guards and wounding a third guard in Anavachuc Pass, below the border, yesterday.

Cangulay's automobile in which the most ferocious fight was fought was found abandoned three miles from the border line.

The trail of the highwaymen, who crossed to the American side on horses, was then followed to Douglas.

The gold was the proceeds of Capregi's regular military collections which he was taking to Naco for shipment to Mexico.

## Gives Up Life to Nursing Patients

Death Believed Due to Pneumonia Contracted in Caring for Stricken Sailors

**CINCINNATI,** Dec. 4.—Mrs. Edith McRae Scripps, daughter of Mr. and Mrs. Milton A. McRae of Detroit and San Diego, California, died at San Diego yesterday of pneumonia, believed to have been contracted while she was assisting convalescent sailors in that city.

Miss Scripps, who was born in Wyoming, Ohio, a Cincinnati suburb, was the widow of John F. Scripps, former editor-in-chief of the *San Diego Union* of newspapers. He was the second son of W. W. Scripps, newspaper publisher.

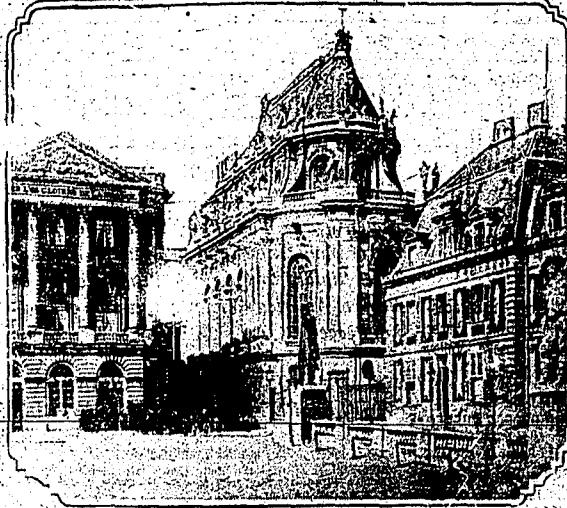

## To Smoothe Peace

**LONDON,** Dec. 4.—A special diplomatic mission to the Daily News in Stockholm filed to the Daily News from Stockholm filed Sunday says that Mr. Ulrikoff has agreed to go to Copenhagen to negotiate a truce, if the Danes insist that she will remain in Scandinavia.

Mr. Ulrikoff stated as saying that she will remain in Scandinavia and that she will remain there until the peace is made.

## Make Huns Return to Right Bismarck's Wrongs

In this famous hall Bismarck, the Victorious, Hun once ground an unrelenting heel upon the vanquished French and dictated a peace which could not last. What is more natural than that sentiment should now come to the fore and implant this same hall, the palace at Versailles, France—just outside Paris—should again be the scene of the peace conference? Only this time the tables would be turned, the great Foch dictating the military surrender of the Kaiser's Hun, while Wilson, Lloyd George, and Clemenceau dictate the terms for an everlasting freedom.

Murder Charge Lodged Against Man Who Killed Woman as She Prayed for Life.

**DENVER,** Colo., Dec. 4.—Pearl Conner, 35, who shot his wife through the heart as she slept, in pleading for her life was booked today on a charge of murder. The bullet in his cheek made Conner an attempt to kill himself.

Conner is not a serious wound.

The shooting took place at the wife's apartment in the presence of their eight-year-old son when Conner failed to dissuade her from her divorce suit.

The couple came here a year ago from Canton, Illinois, and are known in Wichita, Kan., where Mrs. Conner visited friends following a quarrel with husband.

## FINDS YANKS IN BEST OF SHAPE IN GERMAN CAMP

American Red Cross Receives Report on Prison Conditions Which is Highly Satisfactory

**WASHINGTON,** Dec. 4.—"Found 2,300 American prisoners were organized, well clothed, morale excellent" and found the large camp at Rastatt well provided for.

That was the report cableled to the American Red Cross headquarters here today by Gen. T. M. Loyd, of the prison section following his visit to the German prison camp at Rastatt, Baden.

"The German general inspector of the foot-guards army corps," is willing to deliver them at Rastatt railroad bridge at 10 A.M. to the cable address, "and will transfer 180 American officers from Katerbach to Lauter charge during the journey." Recommended that train be ordered to that point immediately so that delivery may be made "forthwith with the probable number of American prisoners."

## AMERICA AMONG NATIONS

There are two important reasons why the voice of America should carry weight in the peace conference. The first is stated by itself, the Germans for eight months, in reply to a question why he had addressed appeals since the signing of the armistice directly to the United States. He explained that the admiral of the United States, fate the conflict was the deciding factor in the war. The second reason was expressed last May by Viscount Gray of England in the statement that "President Wilson and his country had the great advantage of having been for more than two years and a half, before April, 1917, able to observe the war as neutrals, free from the intense anxiety and effort that absorb all the thought and energy of belligerents."

Here are good and sufficient reasons that outweigh any objection, why President Wilson should attend the peace conference in person. Holding more nearly universal leadership over American thought and action than has any other one man, he is the proper spokesman for this nation, at the conference and by virtue of his tremendous influence among Americans, he is the person best suited to bring home to us the lessons that may be taught at the peace table.

In view of the fact, for instance, that England's navy has been an integral part of the empire since the days of the Count of the Saxon Shore in the dawn of its history, and especially in view of the fact that America owes largely to England's navy the safe transport of her fighting men to the foreign battle fields, it is not unlikely that President Wilson's views on the freedom of the seas—whatever those views may be—are to be modified as well as asserted at the conference of the nations.

And President Wilson is the proper individual in these premises to represent the nation both for purposes of independence and being instructed.

WHAT IS THE STATION?

One like in the program of state societies that is most often referred to in communities where the population is agrarian, but which is nevertheless irreparably from the paternalistic scheme is that the state and now the nation must work the program of national socialism following war, vast ownership of railways and so on, or, whether it be guided down is a jump—the conclusion to the same: Federal control of railways and the lines of communication during the war emergency has failed to demonstrate where, under government ownership, the operation of these industries can be expected to bring revenue into the government coffers. On the other hand, the experience has been that the taxpayer is called upon to pay increased taxes to make up the deficits incident to operation under federal control.

In the light of these facts, the evidence is irrefutable that the greater the number of industries taken over by the government, the greater the tax burden upon owners of property to which title has not yet vested in the government.

It requires no very great stretch of the imagination to see where this situation could develop to an extreme, if the "right" never presented any difficulty to the man who has a garden on the opposite side.—Boston Transcript.

## PLATFORM KING TO ATTEND CONVENTION

A. A. Forsho, head of the convention department of National Baptist Laymen's movement, one of the speakers on the program of the laymen's convention to be held in Twin Falls December 12 and 13. Mr. Forsho was a missionary in the Philippines Islands for eight years, and came from a prominent family in New York City to laymen's work. He has been especially successful in working with men and boys.

The question occurs under state ownership, who would determine the wages of the army of employees. On the one hand, every man employed in any capacity would be subject to removal by the authorities at Washington and would be compelled to trim his political sail according. And on the other hand, the administration would be at the mercy of its millions of employees who could tie up the business of the country unless they were allowed to raise their wages at will.

Thus the dilemma would appear with horns.

The country could not prosper under these conditions. Individual initiative and incentive are vitally necessary in this world if we are to reach a higher plane of civilization.

The time for action for or against the adoption of state socialism in the county is now. Congress met and the issue soon of the return to private ownership of the industries taken under control of the state during the war emergency period. Its members should line up on this question at the earliest possible moment in order that the people may know where they stand. It is to be noted in this connection that President Wilson in his message to Congress Monday, delayed no suggestion relative to what should be done with the railroads, but left the matter squarely up to Congress.

BEAVERS FOR CRACKS.

Trunks in furniture may be filled in with beaver. Soften the wax until it is like putty, then firmly press it into the cracks just smooth over with a thin steel knife. Sandpaper over the surrounding wood and work the wax into the wax. This gives wood finish or color, and when the furniture is varnished the cracks will disappear.

BEACON: "You won't bring the bulk in?" "Yeah, I'll catch it in, didn't you, McVey?"

CO-OPERATION.

On a southern plantation were two small negro boys, Berry and Wesley, who did the milking. Wesley was industrious, but Berry was lazy and always tried to make Wesley do the work.

One evening the lady of the house went out to the kitchen and said: "Berry, you bring the milk in." "Yeah, I'll catch it in, didn't you, McVey?"

OLD AND TRUE EXPRESSION.

"The old adage, 'He who sows under them it reaps'; is not known but the sentiment in various forms has been current a very long time," said Latin author of ancient time.

"By union the smaller states thrive,

by discord the greatest are destroyed."

The American author of "The Flag of Our Union" said: "United we stand, divided we fall."

VALUABLE BRICK MATERIAL.

The alums which accumulate at the various mines in the Kold Gold field in India, is now being mixed with clay and made into bricks, instead of being treated as a waste product, and are used extensively in lining circular shafts and other construction work carried on by the mining companies. Later on it was proposed to make brick clay, cement and artificial stone.—Popular Mechanics Magazine.

SCULPTURES FROM HUMAN FAT.

Among your anomalies may be mentioned human-fat toilet soap, known over continental Europe the past century or more and indicated by some medics as a superior emollient. This sounds absurd, but the art of soap making is not particularly noted for its scientific value.

The idea was obtained from the Indian fat of the oil of human fat.

Candles for special purposes have also been made from human fat.—Scientific American.

A NEW DOG.

To a Natal Kaffir belongs the credit of inventing a labor-saving device for chimney sweeping. Instead of the old way, he had been naked to sweep a chimney, which he undertook to do. He was once mounting the ladder to the purpose for the purpose with a couple of fowls under his arms. These he allowed to flutter down the flue, and the job was done.

KEPT PLEDGE  
TO SEND BREAD

American Nation Maintained Alred Loaf Through Self-Denial at Home Table.

## AVERTED EUROPEAN DESPAIR.

With Military Demands Upon Ocean Shipping Relived, World Is Able to Return to Normal White Wheat Bread.

Since the advent of the latest wheat crop, the only limitation upon American exports to Europe has been the shortage of shipping. Between July 1 and October 10 we shipped \$3,080,300 bushels. If that rate should continue, we will have enough of the fiscal year to will furnish the Allies with more than 275,000 bushels of wheat and flour in terms of wheat.

The result of increased production and conservation efforts in the United States has been that with the cessation of hostilities we are able to return to a normal wheat diet. Supplies have accumulated in Australia, Argentine and other belligerent countries available markets may be tapped by ships released from transport service, and European demand for American wheat probably will not exceed our normal production. There is enough available in the world to meet the consumption table.

But last year the tale was different. Only by the greatest possible saving and sacrifice were we able to keep a steady stream of wheat and flour moving across the sea. We found ourselves at the beginning of the harvest year with an unusually short crop. The most optimistic statisticians figured that we had a bare surplus of 20,000,000 bushels. And yet Europe was facing the probability of a bread famine in Europe bread is far by the most important food.

All of this surplus had left the country early in the fall. By the first of the year we had managed to ship a little more than \$100,000,000 bushels by proclaiming the utmost economy at home—by wheatless days, wheatless meals, heavy substitution of other cereals, and by sacrifice at almost every meal throughout the country.

In January the late Lord Rhondda, then British Food Controller, cables that only we sold an additional 75,000,000 bushels. Last July, I could be satisfied with the possibility of assuring his people that they would be fed.

The spokesman of the American people was \$3,000,000 bushels early delivered overseas between January 1 and July 1st out of a harvest which gave us only 20,000,000 bushels surplus we actually shipped 14,000,000 bushels.

This did America full credit.

The Allies, that the Allied bread rations could be maintained, and already the American people are demonstrating that, with an awakened war consciousness, last year's figure will be bettered.

BERGER AGAIN INDICTED

JADISON, Wis., Dec. 4.—Another indictment against Congressman-elect Victor L. Berger, on charges of violating the espionage act, is announced by federal authorities here.

The charges were said to be based on statements printed in Berger's newspaper.

The indictment against Berger and another against Joseph Arnold, a state social leader, were returned at La Crosse, Wisconsin.

# OFFICIALS SAY EPIDEMIC HERE IS ON THE WANE

**Number of New Cases Reported This Week Considerably Less Than Previously—Directors May Require Immunization**

Report leads by attending physicians to City Clerk W. A. Minnick indicate that the influenza epidemic in Twin Falls is on the decline. This, too, is in view of the fact that six new cases were reported Tuesday as against two for the day preceding. The number of new cases reported on the corresponding date of last week was considerably higher.

The county emergency hospital is filled to its capacity of eighteen patients; new patients being received Sunday to take the places of those discharged prior to that time.

Members of the county board of health are of the opinion that the lifting of the closing order has had no effect on the new cases reported the first of this week.

## May Purify Serum

Directors of the Twin Falls school district are considering with the county board of health the advisability of requiring immunization before the same regular routine of pupils before they are permitted to return to school. If this measure is adopted, members of the board of health stated this morning, the rotary will furnish free inoculations to pupils where the expense would be a burden to the parents.

Immunization of the pupils was required by the directors before re-admission to the schools at Hansen, which were reopened last Monday.

## Navy Department Is Now in Control Of Many Plants

**Practically All American Marconi Radio Stations Owned By Government**

**WASHINGTON, Dec. 4.—All the American Marconi radio stations except the four high-power plants, have been bought by the navy department, it was officially learned today.**

At the same time, it developed that the department purchased the great Bayview station recently from the alum property confederate.

With the financial purchases, the American Marconi company relinquished the field of handling ship-to-shore messages.

# PROPOSES BOND ISSUE FOR SPAN ON ROCK CREEK

Councilman E. J. Ostrander Suggests Action for Replacement of Inadequate Structure Serving Important End

Twin Falls citizens, when they cast their votes next spring, for mayor and councilmen, will vote on the proposition of issuing municipal bonds for the purpose of building a new bridge across Rock creek canyon at the southwest end of Main street, if the suggestion made by Councilman E. J. Ostrander at the Monday evening session of the city council is carried into execution.

The building of the wooden bridge now spanning the canyon at this point was one of the first public enterprises undertaken and carried to a successful conclusion by the Twin Falls commercial club and Twin Falls Land & Water company in 1904.

## Invites Doubters to Investigate

In presenting his suggestions, Mr. Ostrander declared that anyone who was not convinced of the necessity for a new bridge ought to spend a few days near it at about noon any day and observe the great volume of traffic passing over it, and then go underneath it and see how it swayed precariously under its burden.

No estimate on the probable cost of a new bridge was offered at this meeting.

## Fee Cost One Man's Job

The editor of the nation to peace resolution incurred the loss of his position to outsize on the city payroll, in pursuance with action taken by the council at its Monday evening meeting when it decided to dispense with the services in the capacity of guard at the Rock Creek bridge of Owen Shriver. He was placed on duty there about eight months ago as a war precaution against the possible interference with the municipal water supply which is brought into the city through a pipe line suspended from the span. The new waterworks system provides for the crossing of the line across Rock creek through a syphon under the bed of the stream.

## Golding After Records

In order that original notes, profiles and other records in connection with municipal improvement work might be collected and filed in the office of the city clerk, City Attorney John E. Davies was instructed by the council on Monday to take up with men who have served the city in the past as engineers, the furnishing of these records. There are, at the present time, City Clerk H. A. McDaniel, reporter, Mr. Davis of the natural in his office; Thomas Charles H. Hull, James A. Bybee and E. V. Berg, the present in-hibitants.

## Would Move Lumber Yard

The council took action in its recent session to provide for steps to be taken by the city looking toward the removal to another location of the Gem State Lumber yards at the corner of Main avenue and Third street west. Mr. Friedman, appearing as a person before the council in this matter, declared that the retail district of the city is advancing in the direction of the location occupied by the lumber yard, and that its removal would be in the interests of the public welfare.

## BEET SEASON CLOSES IN CURRY DISTRICT

Total Tonsage of 30,000 Tons in Gem District This Year  
(Spurred by The News)

CURRY.—The best season closed Saturday at Curry with a total tonnage of 30,000 tons of beets.

The many friends of Mrs. Harry Miller will be sorry to learn of the death of her older brother, in Nebraska. Relative news about Murray will be the subject of a future column.

The sugar beet situation in Curry is not serious. Among those here are Mr. and Mrs. David Harvey and George Salter.

James Bishop spent the week-end at the Murphy home in Twin Falls.

Fred Andrus and Mr. Hoying of Twin Falls have come to the Gem ranchland of Curry, where they will farm next year.

A. C. Peterson has gone back to the boat dump.

W. G. Pond and daughter spent a few days last week with their mother, Mrs. Fannie Pond.

Mrs. Eliza Warrington and daughter, Mrs. Williams, have moved her home, where they will make their home.

L. C. Roberts and family have moved to their ranch east of Twin Falls.

Mr. Ody of Plier was a guest at the J. E. White home Thanksgiving. Mr. Duff returned from a visit at Owyee.

Miss Pearl McMechan was a Curry visitor Wednesday.

Jackie, "the Skipper," we've been arguing with either the clock or the stars, and I'm still not sure which is right. This morning, after a night of sleep by candlelight, I found myself up by two o'clock this morning, having developed a most terrible headache. I had to maintain myself on "Boys' Life" and "European" two-cent comic machines.

### YANKEE ELUDES GERMAN GUARDS

#### Sergeant Paul Cline's Letter After Lapse of Days Brings Relief

After a lapse of 44 days, Mrs. Paul Cline of Twin Falls, has received a letter under date of November 5 from her husband, Sergeant Paul Cline, a member of the Fifty-sixth regiment of engineers, stating that he is Ok now, when he last heard from him before he had been captured in Germany. He escaped, he says, and made his way back to the allied lines, the journey occupying two days and three nights. He was not injured and was not ill-treated while a prisoner, he says, but his clothes were in rags when he made his escape.

Sergeant Cline enlisted in October, 1917, in Salt Lake. He landed overseas in March, 1918, and was assigned

to a train with French troops. He had just been transferred back to the American armies when he was taken prisoner. He was captured by Austrian troops and turned over to them by the Germans when they left the western front.

## PREPARING TO COMBAT "FLU" FOR NEXT YEAR

Medical Authorities Plan Big Convention in Interests of Public Health—Fear Further Outbreaks

CHICAGO, Dec. 4.—Making plans for fighting the outbreak of Spanish influenza, which they say will occur again next year, medical authorities today laid plans for the convention of the American Public Health Association here December 9-12.

Prominent physicians said today that due to the fact that the original date for the convention, having been postponed two months on account of the epidemic last summer, could not be rescheduled, the "this additional knowledge will make the meeting even more significant than would have been the case at that time."

Spain, it is pointed out, is having its second out-break of the disease with an alarming high death rate. Authors here predict that the epidemic may extend far into next year and say that it is up to us to hope that it may appear in various regions in America and other countries as well.

More than 800 mayors and governors have been asked to attend.

Among prominent physicians on the program are E. C. Rosenow, H. E. Hassalline, W. C. Woodward, Surgeon General W. A. Brooks and Assistant Surgeon General A. W. McLaughlin.

### McAdoo May Remain As Railroad Head

Indications Are That He Will Occupy Position for the Present

WASHINGTON, Dec. 4.—It appears likely today that Director General McAdoo had agreed to stay at his railroad task for the time being.

This meant to many observers that the president was about to carry out his congressional suggestion—turning back the railroads, fairly soon, to private ownership, unless Congress delayed a decision at an early session, with the result that an extension of the war would be avoided.

Initially, it developed definitely today that the president's policy is to reduce as rapidly as possible the wartime boards such as the fuel administration, releasing their heads, as he did Fuel Administrator Gifford.

Indications were current today that a new mission to go abroad was in the making.

### City Pays Bill For Keep of Prisoners

Account Rendered By County for Care of Guests for 19 Month Period

At the rate of \$10 per day charged for the keeping of city prisoners in the county jail, the city of Twin Falls, for the period beginning March 1, 1917, and ending November 1, 1918, paid for the board and room of one prisoner for 988 days, or for \$83 prisoners for one day during that period.

A bill from the county in the sum of \$1,200.00 on that account covering that period, bearing the endorsement of Councilman W. H. Bridger, was approved by the city council at its meeting Monday evening, and a warrant in payment was ordered filed.

## CAR LINES ARE TIED UP TIGHT

Omaha Motormen and Conductors Go Out in Body—Set Vice Paralyzed

OMAHA, Dec. 4.—Street car service was completely fled up here this morning. With the exception of mail trains, not a single car was running.

The executive committee of the street car men's union called the strike at 3 o'clock this morning after an all-night session. They claim that 95 percent of the men are out. About 300 men are affected.

The company announced that they would attempt to run cars just as soon as they were given the proper protection.

"The men's belief is that they had been 'double crossed' by Mayor Smith while the latter's attempt at arbitration failed," the mayor, in a statement yesterday declared. "They opposed to the 'closed shop,' which is the principal demand of the union. Union leaders threatened to get out a petition asking for the recall of Mayor Smith.

The street car men are asking for recognition of the union, a \$4 guarantee for extra men on 'switch runs,' a nine-hour day and a substantial increase in wages.

LAND BOARD SELLS STATE HIGHWAY BONDS

Department of Labor Points Out Advantages to Returning Soldier of Keeping Up Insurance

Thousands of Additional Block of \$150,000 Following Sale of \$200,000 Worth Last Week

BOISE.—Another \$150,000 block of state highway bonds was disposed of Monday by the state land board, the purchasers being Clark, Russell and Company, who offered a general interest and principal of \$250. Two hundred and fifty thousand dollars worth of highway bonds were sold last week by the land board. This block, like the others, bears 4 1/2 per cent. interest.

Until recently the board was unable to obtain bids on the bonds, but confidence improved in the market will be in the last few weeks has brought in bonds more favorable consideration.

## KING DECLINES TO BELIEVE IN HIS AbdICATION

Nicholas of Montenegro Willing to Quit If People Desire It But Doesn't Think They Do

By WILLIAM PHILLIP SIMMS  
PARIS, Dec. 4.—King Nicholas of Montenegro does not believe reports that the Montenegrin national council of Montenegro has decided to dethrone him and unit Montenegro with Serbia under the rule of King Peter.

In an interview with the United Press today he expressed a willingness, however, to abide by whatever decision the people of Montenegro might make in the matter.

"I have no confirmation whatever of the reported action of the national council and I do not consider the report serious," he said. "I believe the Montenegrin people do not desire me to go. I am perfectly willing to abide by the decision of my people, but they must first be put in a position where they can speak their will without fear of reprisals."

"I do not think this is actually the case at present."

"The royalists of Montenegro have always listened to the voice of their people and they will continue to do so, I am confident that everything will come out all right."

### MAKES IMMUNIZATION OF PUPILS COMPULSORY

Precaution Is Taken By Hansen School Directors Prior to Resumption of Sessions

The United States reclamation people of Butte, Idaho, have issued an interesting account of its experience in replacing men with women war workers.

The report is accompanied by photographs of women girls, who by the way wear coveralls, caps and very low shoes, and horrors of horrors (for a woman), carry cartridge belts and revolvers (to protect the machinery from German sympathizers)—they are required to do this. Also a picture of women's surveying party dressed in pants, coats, soft felt hats and high boots. These women both as miners and surveyors and helpers have given great satisfaction.

For, we, the surveying women do what has generally been done.

Their work has been very satisfactory and in the spring we expect to employ women in all the pumping stations, also women ditchdiggers, and more women on survey parties. Entrance salaries are the same as men."

## PEACE

Not for ourselves alone, but for all peoples.

This is the peace that is promised the World in the signing of the armistice with Germany.

Peace: for all-sacrificing France, for resolute England, for valiant Belgium, for plucky Italy, for bleeding Servia, for confused Russia, for free America—yes, and even for those who have been the dupes of militaristic despotism.

It is not strange that a song of thanksgiving continues to echo and re-echo around the globe.
