HANSEN FOREGOES ITS CHRISTMAS PROGRAM

Epidemic Flu Dampens on the Holiday Festivities in East End of the County

(Special to The News) Owing to the long siege of influenza, no Christmas program was given in Hansen this year.

SING CHRISTMAS CAROLS AT EMERGENCY HOSPITAL

Buhl Young People Afford a Pleasant Surprise to Patients—Tree Placed on Little Folks

(Special to The News) BUIH—A crowd of young people surprised the patients at the emergency hospital on Christmas eve by going there and singing carols at the windows.

NO DISTANT DANGER

Danger lurks in the shortsighted policy of dismissing the menace of Bolshevism as a hallucination of madmen, that can gain no foothold among men of intelligence.

WOUNDED OFFICERS ARRIVE

NEW YORK, Dec. 28.—The steaming Turrialba arrived today with 91 wounded American officers and a cargo of explosives and munitions.

FULFILL WINS

SAN FRANCISCO, Cal., Dec. 28.—Sam Langford headed today only a good showing against Fred Yukon, in a four round bout here last night, Fulton won a decision.

ANOTHER SOAP FOR MIKES

WILWAUKEE, Wis., Dec. 28.—Billy Mike St. Paul, had another scalp at his belt today. He had Gus Christie, Milwaukee, tugged in every round, after the third of a ten round bout here last night. They fought at catchweight.

POLES AND BOLSHIEVSKI OLASH

LONDON, Dec. 28.—A battle between Bolshievski and Polish forces in the Dombrows district was reported in wireless dispatch from Moscow today. The outcome was not known. The dispatch also stated that Bolshievski had dispersed government militia in the Ashov district.

JANUARY FIXED UPON FOR DEMOBILIZATION OF TENTH

WASHINGTON, Dec. 28.—Demobilization of the Tenth division stationed at Camp Funston will probably occur in January. Chief of Staff March told the United Press today. He explained that an order issued before Christmas requiring that only urgent cases be demobilized bore simply on the immediate present. It was aimed largely at preventing wholesale demobilization for the holidays. The Tenth, he explained, is being kept in camp until among the last, in view of the department's policy of demobilizing complete divisions last.

Getting Rid of It

Mary Elizabeth had been sitting by her mother for a full hour trying with all her might to make a dress for her dollie. Suddenly she heaved a deep sigh and when her mother asked her why she did so she replied, "Why, it 'dies just to let the tired get out."

Stevens, Route 1, 2 miles south, 1/2 mile, Twin Falls.

EAR CLOSING IS ONE OF DRIEST IN SOUTH IDAHO

Total Rainfall for Season is Lowest in Ten Years--Dry Farmers Are Mislead in Calculations

BURLEY The year just closing, 1915, is one of the driest on record in this section of Idaho. The total rainfall falls the first of the year as recorded in Burley is 7.75 inches. The most previous record as an all time for the year 1910 when the total precipitation was 6.89 inches.

The extent of the drought and its most upon dry farm crops and the ranges can be appreciated when we compare the amount of moisture which fell upon this section in 12 1/2 inches. Many of our dry farmers were misled in their calculations by the years 1907 and 1909, when the amount of moisture was exceptionally heavy. In 1907 the record shows 19 inches and in 1909 17 inches. The drought this year has been severe because of the light rain falling 1915, when the total was 10 1/2 inches.

Up to the present time the snowfall in the mountains of Cassia county, which supply the local streams, is considerably more than a year ago. Lack of moisture has made it impossible for the livestock growers to take advantage of the winter ranges on the desert, and the feeding in many places very difficult.

LITTLE SNOW AT LAKE Wells we had a light snowfall here, but water, there was an abundance of snow in the mountains feeding Jackson lake reservoir, but such is not the case here so far this winter. Autos are being run out from the lake with difficulty at the present time, a thing almost unheard of at this season. On December 15, approximately 100,000 feet of water were on the great reservoir, the capacity of which is 200,000 acre feet.

The amount of the storage in the reservoir is as great as usual at this time of year, as it has been the custom to principally with the spring beginning in April. It is felt that the water being so light as to make it difficult to fill the reservoir, yet a flow of the present water will result in a shortage of water on any of the irrigation projects dependent upon the natural flow of Snake river for their supply.

COUNTY'S FARM RECORD GIVEN

Director Harvey Allred Tells Where the Twin Falls Country Leads

Twin Falls county's record for agricultural supremacy is given as follows in the annual report just issued by Harvey Allred, director of the state department of farm markets.

Twin Falls county is situated in the south central part of the state. Twin Falls city, with a population of 7,200, is the county seat. It is one of the most beautiful and prosperous cities of the commonwealth, surrounded in its own county by the largest body of irrigated farm lands in any county with in the state. Twin Falls county has 158,626 acres of agricultural land of an average value of \$1.24.

The irrigated lands in the southern part of this county not covered by water from Snake river, draw their chief supply from Raft river, with its dam and reservoir located in the south central part of the county.

Largest Shipper of All Products Because of Twin Falls county's large water supply it is the largest shipper of all agricultural products combined in the state, and is the largest producer of the following named crops, of which it shipped a surplus out of the state as follows in 1915: 33 cars of clover seed; 70 cars of beans; 913 cars of wheat. Only two counties exceeded it in shipment of apples; only one in shipment of peaches. It ranks the third in shipment of hogs; fifth in cattle and sheep; third in hay and potatoes.

Its total shipments of agricultural products to outside market last year amounted to more than 4,000 cars. Twin Falls is particularly fortunate in being supplied with an abundance of electric power, generated by the great Twin and Shoshone Falls, at its northern boundary on the Snake river. The creamery industry of this county has reached an excellent state of development. The dairymen boast some of the best dairy herds of the state.

Twin Falls county is the banner diversified farming county of Idaho. Banner Diversified County Buhl, with a population of 2,000, has a large, modern cheese factory and creamery, and four elevators. It has been one of the most rapidly growing towns in southern Idaho during the past few years. It is the center of 80,000 acres of cultivated land. Many sheep are here with alfalfa as the chief feed, of which they grow three crops from four to seven tons per acre.

Twin Falls county is rapidly developing into one of the largest sugar-beet producing sections in Idaho. A large modern sugar factory is now operating near the city of Twin Falls.

SPOILED POTATOES GOOD FOR STARCH Starch in potatoes is not destroyed by the common decay-producing fungi or by freezing. It has been found in recent studies conducted by the United States department of agriculture in laboratory tests that it is possible to recover most of the starch from frozen and rotten potatoes, which led specialists of the department to suggest that an attempt should be made to salvage the great quantities of spoiled stock now rejected and dumped on the terminal markets.

THE ROLL OF HONOR

The army casualty lists today contain the names of 920 men. Of these 9 were killed in action, 89 died of wounds, 33 died of accidents and other causes, 70 died of disease, 375 were wounded severely, 87 were wounded undetermined, 115 were wounded slightly, 215 were missing in action. The names of the following men are included: IDAHO LIST

Missing in Action Pvt. Arthur W. Ulrich, Fresno.

CO-OPERATIVE SHIPPING TO AID UTAH HOG PRODUCTION Hog production in Utah recently has received much stimulus because small farmers, especially those some distance from railroads, have been able to get their hogs to market at greatly reduced expense through co-operative shipping. More than 100 farmers shipped 18 carloads to the North Salt Lake stock yards in three months. The hogs came from sections 25 to 30 miles from a railroad shipping point, and in some instances were brought in wagons by the growers to a central point where automobile trucks were used to transport them to the shipping point. Others were shipped by local freight to a central point where carloads were assembled. Each lot of hogs was marked by clipping the hair, and was yarded, fed and sold separately. Shipping expense was prorated, and each owner received an individual check. The plan has not only increased shipments but improved the quality of the offerings, the bureau of markets reports.

COMING TO TWIN FALLS JEROME-Joe T. Krivanek and family will remove to Twin Falls January 1st to take up their home there, near the North Side News. Mr. Krivanek has accepted a position with a Twin Falls electrical company. The family is among the pioneers of Jerome and will be much missed.

LEAGUE PAPER TO START SOON

W. G. Scholtz is considered as Editor of Organ--3000 Subscribers Claimed

NAMPA - The nonpartisan daily newspaper for which league members have been buying stock for the last two months will be launched about February 1 if the machinery can be established by that time, says the correspondent for the Idaho Statesman.

According to leaders in the movement about 2,800 subscribers have been signed up to take the news newspaper towards the 15,000 they expect when the paper starts. A Gas "flat bed" press which eliminates the need of a stereotyping department has been secured.

"Pony" Associated Press service which gives them the use of the service wire part of the time during the day is also to have been obtained. According to present plans no Sunday paper will be issued.

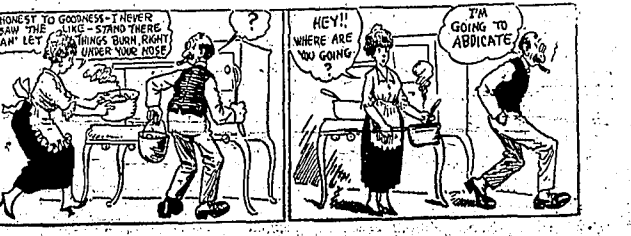

Scholtz Will Be Manager W. G. Scholtz, Idaho manager of the nonpartisan league, has been named as a favorable candidate for editor. It is claimed that Scholtz has a strong backing among farmers in the nonpartisan league that will put him across. No other man has been yet mentioned as possible pilots of the league's newspaper.

Some members of the league said the newspaper will not be paying proposition but rather they are paying a large fund has been provided to protect them against any loss sustained in running the newspaper. It is the general impression that advertising will not be strong at first but that it can be obtained from the different towns in southern Idaho after the newspaper has been started.

Stock in New Paper Members who have subscribed for stock in the newspaper have been notified by some that they had better "forget about the interest" on their investments for a while at least. The Brandt building on First street

IDAHO HOG RAISERS GET UNEQUAL PORK PRICES
Price Fixing Committee Enables Utah Buyers to Pay 1.50 Per Hundred Less Than Middle West
BOISE—Senator Borah is endeavoring to obtain some satisfactory adjustment in prices for fat hogs as between the southern Idaho market price fixed by the price fixing committee of the food administration and the price fixed for Omaha and Chicago markets, which is \$1.50 per hundred less, according to a telegram which he wired in response to a telegram from E. M. Hoeman, hog raiser of Duhl, says the Idaho Statesman.
According to Hoeman, "the few who remain in the hog raising business in this territory are becoming thoroughly discouraged as they cannot afford to feed three cent grain to 14 cent hogs."
He sent the following telegram to Senator Borah:
"Please take up with the price fixing committee of the food administration, and learn if possibly why they permit Utah packers (southern Idaho hog market) to pay for their fat hogs \$1.50 less per 100 pounds than Chicago and Omaha packers. Your efforts toward betterment of conditions will be appreciated by your farmer friends."
Senator Borah's reply was:
"An urging matter upon consideration of the department and will endeavor to secure satisfactory adjustment."

Stinging Criticism.
Said the facetious feller, "These old time school teachers may have had some funny ideas about teachin', but you gotta give 'em credit for knowin' that a good substantial rarer, when rightly applied to a stupid student would make him smart!"
Spoken, or said, mentioned by St. Yank, a G. who had been in a highly ornate plant growing largely in the Indies. From this plant was made the valuable extract or essence or favorite perfume used at ancient baths and feasts.
Suffering Transmuted.
Unhappily in the hunger to get; happiness is the hunger to give. True happiness must ever have the tinge of sorrow outlived, the sense of pain softened by the following years, the chastening of loss that in the wondrous mystery of time transmutes suffering into love and sympathy with others.—William George Jordan.
No Return.
We cannot go back. The old places are not the same if we revisit them, the old pleasures have lost something. If we try to repeat them, the old groups can never be reconstituted in completeness of presence and spirit. Life is a kaleidoscope. It holds many beautiful combinations, but when we have turned one out of sight, no effort will bring it back again.
Copied From Nature.
Ideas for the colors in the best Scotch tweeds are found in the bed of the river Garry, in the Pass of Kilmacranie. Granite, porphyry and Jasper are found there in rich reds, grays and greens, beautifully mottled and mixed in finely contrasted colors. The first order of tweeds sent to London in bulk was six pieces of black and white check made in Peebles.
Concerning Snakes.
Poisonous snakes have diamond-shaped heads about four times larger at the jawbone than at the neck, and smaller to World Wide Magazine. They also have blunt tails. Non-poisonous snakes have sharp heads, which are nearly the same size as the neck, and sharp tails. All snakes, however, are poisonous during the "shedding" period of seven days. They rub their two days before "shedding."

COURT DISMISSES POWER RECEIVER

Creditors of Great Shoshone & Twin Falls Water Power Company Paid
BOISE.—Foreclosure proceedings and other litigations that arose more than four years ago over the Great Shoshone & Twin Falls Water Power company were closed Tuesday in federal court when all creditors were paid their pro rata stipends and Receiver W. T. Wallace, who was appointed by the court November 2, 1914, was relieved of his tasks, says the Idaho Statesman.
Proceedings in the matter were filed April 14, 1914, but owing to appeals that were taken in litigation between claimants, the final settlement was delayed until Tuesday. According to the pro rata statement, first mortgage bond holders received approximately 80 per cent of their claims and the general creditors were given a bit more than 5 per cent of their claims.
Involved in the litigation were power plants on the lower Salmon river, at Shoshone Falls and at other points on Snake river. These properties were sold at a foreclosure sale in January, 1916, to the Electric Investment company for \$2,000,000. Later they were transferred to the Idaho Power company, the latter company receiving possession of the property on February 1, 1917. They have since been operated by the Idaho Power company.
Stockmen Feeding Many Cattle on North Side
Thousands of Tons of Hay in Vicinity of Jerome Sold for Winter Consumption on the Ground
JEROME.—A number of cattle are being shipped to the vicinity of Jerome to be fed on North Side hay during the winter, says the North Side News. W. T. Vanosteter, of Burns, Oregon, arrived a few days ago with a shipment of 500 head of range stuff, cows and young cattle, which will be fed in the Grand View and Appleton districts. Mr. Vanosteter has gone back to Oregon and will return shortly with another large bunch for feeding.
The Craven Live Stock company has bought the hay on Frontiers Hill place east of town, between 2,000 and 3,000 tons, and will ship in cattle enough to consume it on the place. It is understood the price paid per ton for the hay includes the labor of feeding it.
Thomas Brothers & Bush, of Ashlie, arrived last week with a shipment of cattle for feeding here and expect to winter about 600 head. This bunch is fed north of town.
Last summer Frank B. Gooding bought a quantity of hay grown on the Seltzer, Beckelman and Operating company's farm from the company and tenants, but has lately resold this hay to a big cattle outfit which will feed it on the ground, about 2,000 tons.
Get some INFORMATION about it—what it will cost, where it may be bought to best advantage—through reading the ads.

DOINGS OF THE VAN LOONS
IT IS GREAT TO WATCH THE HAPPINESS OF PA. HE IS HAPPY BECAUSE HIS DAUGHTER HAS A BROTHER. HE IS HAPPY BECAUSE HE HAS A SON. HE IS HAPPY BECAUSE HE IS A FATHER.

DOINGS OF THE VAN LOONS
PA EVIDENTLY BELIEVES THAT TRUE HAPPINESS CONSISTS OF BEING CONSISTENT WITH OTHERS.

DOINGS OF THE VAN LOONS
PA'S INTEREST IN THE WELFARE OF HIS FAMILY IS NOT SHARED BY HIS WIFE. THERE'S NOTHING SELFISH ABOUT HIM!

DOINGS OF THE VAN LOONS
COULD A MAN BE MORE RADIANTLY HAPPY THAN HE IS NOW?

DOINGS OF THE VAN LOONS
THIS IS CERTAINLY GREAT! NOW BIMPPIUS WILL BE ABLE TO PAY ME BACK THE MONEY I LENT HIM!

DOINGS OF THE VAN LOONS
THIS IS CERTAINLY GREAT! NOW BIMPPIUS WILL BE ABLE TO PAY ME BACK THE MONEY I LENT HIM!

No, it wasn't exactly what Father was thinking about
