PRICE FIVE CENTS

IDAHO SENATOR WARNS AGAINST UNJUST TAXES

Attacks Secretary of Navy's "Biggest Navy" Program in Speech Before Congress Protesting High Expenditures

DECLARES TAXPAYERS MUST BE CONSIDERED

Thinks Food for Starving Children Far More to the Question Than the Largest Navy for Future Needs

By L. C. MARTIN WASHINGTON, Jan. 14.—Attacking Secretary Daniels' "Biggest Navy," Senator Borah warned today that "this shameless orgy of expenditures may force the people to cry out with the voice of revolution against the madness that is grinding them to powder."

Political Influence

"The political influence," now epidemic in Russia may infect America if more attention is not paid to those who must pay the taxes," Borah said. "I serve notice now that those who undertake to put through this naval program will have to fight every step of the way," said Borah. "I cannot understand the demand for warships at this time. They are instruments of war. Are we challenging or throwing doubt upon the friendship of France or England? Japan is powerful, but our relations are friendlier than for a decade."

Questions Justice

"Above all, is it not a signal act of injustice to the people of this country who have paid taxes and bought Liberty bonds and saved, started and done themselves in the war, while the American taxpayer to have no more place in this program than a coddled peon?" "Are we going on with this shameless orgy of expenditure until the people are forced to cry out with the voice of revolution against the madness that is grinding them to powder?"

Different Plan for America

"The next war will not be between governments or nations but between the governments and the people. The Russian and French revolutions are the legitimate outgrowth of injustice and oppression. There has not been a crime committed in Russia in the last six months that did not have its parent in the oppression of the bloody Romanoffs. We cannot shoot up or kill that kind of movement. You, who feed Russia on something like the bullet that is what the Romanoffs fed the Russians. America should adopt a different plan."

"I know we are very strong, well-poised, liberty-loving people, but we are not immune. The shameless waste of the people in large, unaccountable extortion from their wages, will undermine the noblest institution. Even the structure reared by our fathers will not stand the strain indefinitely."

Must Meet Home Needs

"The people have patiently borne the burdens of the war, but the expenditure now must be based on reason and distributed with economy." Borah quoted reports of children starving in New York. Half the story was not told, he said, adding he had reports from another city showing 100,000 children to be under-clothed and under-fed.

"These are the seeds of Bolshevism," said Borah. "How quickly this political influenza will spread when once hatched in lives of misery and starvation, no one can tell. Now it is time to take notice, to tell the people who have to pay the taxes."

Borah, discussing various proposals for a league of nations, strongly condemned Taft's plan for avowal of nations to enforce peace. Taft's idea of force would mean fastening conviction on the American people in peace times, Borah declared.

Sponsors New Plan of Operation for the State

Governor Davis Responsible for Measure Designed to Co-ordinate Activities of No Less Than Forty-Eight Separate Departments and Place Management Under Nine Heads With Fixed and Definite Responsibility

CABINET MEMBERS TO HEAD BUREAUS

BOISE, Ida., Jan. 14.—The administration's plan for a sweeping change in the state government was launched in the state senate today. It is directly sponsored by Governor Davis, and vitalizes article 4, section 6 of the constitution by conferring upon the chief executive the power and responsibility of confining the principal departments through a cabinet of nine commissioners, at the head of as many bureaus. These departments are made up of a consolidation of numerous present separate government units and abolishing others, principal among which are:

Director of farm markets, state horticultural inspector, fish and game warden, public utilities commission, bank commissioner, insurance manager, inspector of mines, state examiner, industrial accident board, state veterinarian, highway commission, state board of health, sanitary inspector, chemist, highway engineer and numerous boards. It is proposed to go into force and effect from and after March 31, 1919.

(Special to The News)

BOISE, Jan. 14.—Striking right at the heart of his big business problem as chief executive of the state of Idaho, D. W. Davis, the new governor of Idaho, literally rolled up his sleeves and waded in today to make good his promise for a business administration and to put indelibly the stamp of action on his forecast of legislation contained in his message to the legislature.

In one of the most striking comprehensive and most progressive bills ever introduced by a governor of a western state and paralleled by only one other case in the history of state legislation, Governor Davis today introduced a bill into the legislature which takes over forty-eight separate departments of the state government and places them under nine heads, thereby saving the state thousands of dollars and much needless waste of time and energy.

Creates Advisory Boards But the same legislative act will create five advisory boards for the same number of departments which will constitute expert opinion and will through its members reflect the opinions of and represent the public in a way which has not before been accomplished.

"With characteristic business sense, Governor Davis has approached this business problem just as he would reorganize a bank or other business institution, should he be responsible for its success as such," said Speaker M. A. Kiger of the house today. "No piece of legislation presented to an Idaho legislature in the history of the state has before caused the comment heard today. In this comment there was no adverse criticism. All legislators seem to agree that its principle more than stood the test. Many of them know that political scientists held no disagreement about the efficacy of such a plan."

Bill Favorably Regarded

Were the bill to be voted on today in both houses it would pass by acclamation. But that there will be no opposition to its enactment into a law (Continued on Page Four)

SPORT SOVIETS ARE GATHERING

First Delegates Brought Band and Are Ready for a Dance or a Scrap

By H. C. HAMILTON

NEW YORK, Jan. 14.—The baseball sports are gathering. The first delegates are here with a band. They have hired a dance hall or a ring. Either a dance or a scrap will be under full steam with the thottled one.

The new international league, older among the big minors, and a survivor of many a rough passage, ushered in the most strenuous work in the history of baseball by its meeting here today. Following closely in its wake will come the meeting of the National Association of Professional Baseball leagues, which will take up the stinging it laid down in Chicago and will make preparations to blast a hole in the antiquated national agreement under which baseball has been operating.

The minor leagues, said Tinker, will stand fast by their guns, even going so far as to abrogate the national agreement unless their wishes are agreed to. However, the majors have made threats before and the national agreement goes on. Unless they follow their minor league with brave hearts, they will be beaten.

PROVIDE BRIDGE OVER RIVER AT OWLSLEY FERRY

Mrs. White of Twin Falls Sponsor for Measure Carrying Appropriation for Needed Passage of Snake River

(Special to The News)

BOISE, Jan. 14.—Asking for an appropriation of \$50,000, the first bridge bill of the session was introduced in the lower house this morning by Mrs. White of Twin Falls county. The bill provides for the construction of a bridge over the Snake river at Owlsley's ferry, thus connecting the Hagerman valley with the south side of the river and doing away with the ferry service at that place.

(Continued on page four)

WORLD NEWS EVENTS

NEW YORK, Jan. 14.—The next Liberty loan will be for five or six billion dollars and probably for a higher interest rate than any previous loans, it was indicated in a speech here by Carter Glass, new secretary of the treasury.

GENEVA, Jan. 14.—Ignace Jan Paderewski, the Polish patriot, was not badly injured when he was shot in Warsaw according to word reaching here today. Paderewski telegraphed friends that his wounds would not interfere with his work.

WASHINGTON, Jan. 14.—Return of American troops from Europe was demanded in a resolution introduced by Senator France, Maryland. The resolution urged that the peace negotiations be speeded up so that it will be possible to withdraw the army of occupation from Germany without delay.

TOKIO, Jan. 13.—(Delayed)—Japan and America have reached an understanding regarding control of the trans-Siberian railway, it was learned authoritatively today. The foreign office will soon publish particulars of agreement. The allies have given their consent to the Japanese-American understanding.

LONDON, Jan. 14.—No matter which party obtains a majority in the national assembly of Germany, as a result of elections, the soldiers' and workmen's council will continue in power, Hugo Haase, independent socialist, declared in an interview with the Express, published here today. The soviets, he said, control the factories, because of their close understanding with the workers, who have organized political unity in opposition to the bourgeoisie party.

LONDON, Jan. 14.—The Express today declared that the armies will "march straight to Berlin if the armistice terms are not fully carried out," anything else, it declared, will be but a half measure. The newspaper announced the belief that Germany is neither willing nor able to go through with its agreements as set forth in the text of the armistice and points to the failure to deliver promised supplies.

No Real Fighting in Berlin Since Sunday Afternoon

Spartan Revolution Gradually Dying Out—Ebert Government in Ascendency

BERNE, Jan. 14.—There has been no real fighting in Berlin since Sunday afternoon, German dispatches reported today.

The government was said to have ordered arrest of Karl Liebknecht, Rosa Luxemburg, Karl Radek and Felix Dzierzinski. A number of Czech and Russian agitators have been captured.

The above dispatch directly refutes a report circulated yesterday and credited to the Tagliche Rundschau that Liebknecht and several of his followers had been arrested. Previous Liebknecht was reported killed in street fighting. It is evident that he is not only alive, but still directing what remains of the Spartan revolt.

MUST RETURN MEN FOR FOOD

Germany Will be Given Supplies Providing She Turns Over Ships and Prisoners

By FRED S. FERGUSON

PARIS, Jan. 14.—Complete agreement has been reached by the inter-allied food council regarding relief for liberated territories and other affected sections, it was learned today.

The plan includes permission for Germany to obtain food, providing she turns most of her merchant ships over to the allies for various uses, including repatriation of American troops. This is in no way a concession to Germany, but is destined to follow the lines considered by the allies to represent their best interests in maintaining stable conditions in central Europe. The plan has been submitted to the associated peace conference for ratification. The present program provides that the first full session of the peace conference shall be held at the Quai D'Orsay, 2-30 Saturday afternoon. The next meeting of the supreme war council is scheduled for 10:30 tomorrow morning.

FESTIVITIES OUT SHORT

OLYMPIA, Wash., Jan. 14.—All dances planned during this session of the legislature have been called off by Governor Lister and theaters ordered to only permit occupation of alternate seats, to prevent spread of influenza among the legislators.

LEADERS MUST REVISE TACTICS OR FACE MENACE OF BOLSHEVISM

Senators Borah and Kenyon Voice Thought of Progressive Wing of Upper House in Sharp Warning Against Continuance of Party's Policies Not Specially Designed for Benefit of the Rank and File

TERRIFIC JOLT FOR STANDPATTERS IF PRESENT CONDITIONS CONTINUE

WASHINGTON, Jan. 14.—That a new alignment of the people is coming that will sweep away existing political parties unless they face and solve readjustment problems was the warning sounded to democratic and republican chiefs today by Senators Kenyon and Borah, progressive leaders. They cautioned against "ostrich tactics" as a means of disposing of the menace of Bolshevism in the United States. They urged honest, fearless, straightforward tactics by the government and political leaders to cope with reconstruction problems affecting the great mass of the American people.

POLISH AFFAIRS CONSIDERED AT PEACE SESSION

Questions Involving the Fate of Millions of Intelligent People Are Being Studied Carefully by the Allied Nations

By LOWELL MELLETT

PARIS, Jan. 14.—The peace conference is making rapid progress in disposition of vital questions. Yet today revealed new problems that show why the sittings must continue for many months. The principal questions that seem in a fair way of prompt and amicable settlement are Italy's claims to Dalmatia and domination of Syria and France's desire for acquisition of the Saar valley. Either of these matters might well have been the sole issue of a peace conference lasting for months, or in time of peace, cause for war. But both Italy and France are showing an inclination to waive their claims in this regard.

FRANCE AND ITALY SHOW IMPERSONAL ATTITUDES

National Territorial Claims Are Being Waived to Take Up More Important World Questions for Consideration

By LOWELL MELLETT

PARIS, Jan. 14.—The peace conference is making rapid progress in disposition of vital questions. Yet today revealed new problems that show why the sittings must continue for many months. The principal questions that seem in a fair way of prompt and amicable settlement are Italy's claims to Dalmatia and domination of Syria and France's desire for acquisition of the Saar valley. Either of these matters might well have been the sole issue of a peace conference lasting for months, or in time of peace, cause for war. But both Italy and France are showing an inclination to waive their claims in this regard.

Must Recognize Workers' Rights

"Appeals are being made to republican and democratic party leaders to put their respective parties on record for a broad view, governmental welfare policy that will recognize the rights of the workers as they have never been recognized. One of the most conservative men in the republican party discussed the question with me recently, because of requests from his constituents that he get congress busy on welfare legislation. He is a party leader, a presidential possibility. He realizes the menace. But all the party leaders do not."

Suggested Plan

"One—Creating at once a commission on public works to co-operate with the states in pushing necessary public work during hard times and to act as a buffer in absorption of surplus labor in the reconstruction period. This will remove the unemployment menace, which is growing by leaps and bounds."

"Two—Creating a national employment bureau to keep with the states."

"Three—Providing help in establishing homes for workers. Finance this by a plan similar to the farm loan banks."

"Four—Vocational training for all."

"Five—Extending soldiers and sailors insurance to men in industry."

"Six—Establishment of courts of mediation and conciliation 'voluntary.'"

"Seven—Old age, sickness and disability insurance."

Borah Opposed to Force

Borah, a bitter foe to the doctrine of wiping out Bolshevism by repression or force, said: "One hears upon every hand these days the doctrine of force. We are to force peace, and we are to have force to maintain peace, and we are to have force to wipe our labor disturbances. Instead of this force and repression, we are to have cooperation and tolerance. Bolshevism is the fruit of force. We must kick the psychology of war from tactics. If we don't want a terrific jolt from the people."

Outline Basic Principles

"The men who adhere to them will simplify the situation: "One—We must get back absolutely to the constitutional government, to the principles upon which our fathers built and bechew all arbitrary measures."

"Two—We must establish complete freedom of speech and of the press. No man in these times should be embarrassed in the free and open discussion of great public questions upon which depends our whole future."

"Three—The principle of the law of cooperation force that legislation, war and should be substituted for the aid of force and law. Labor must understand that it has an interest in the great industries of the country aside from the mere question of wages."

(Continued on page four)

PEACE DELEGATES MAY BE LIMITED

Plan Proposed to Reduce Proportionate Representation at the Conference

By WILLIAM PHILIP SIMMS

PARIS, Jan. 14.—A movement was under way today to reduce the proportionate representation of small nations at the peace conference, in order to make the congress less unwieldy. Under original scheme proposed by France, delegates were to be apportioned according to the importance of the role their nations played in the war. This apparently has been changed so the various powers will be represented according to the importance of their peace interests.

This would not affect the five great nations—the United States, Great Britain, France, Italy and Japan—each of which would retain five delegates. The other nations would vary between one and three representatives with a tendency toward reducing the number for the smallest allies. The British dominions may each have their own voice in the conference, on the ground that each is a separate nation and sent its own force to France.

IDAHO WEATHER

Tuesday and Wednesday, increasing cloudiness.

REPORTS HAVE KAROLYI AS NEW REPUBLIC LEADER

Cabinet Trouble Is Expected to Result in Resignation of the Ministry and Election of a President for Hungary

ALLIED FOOD COMMISSION ASKED TO INVESTIGATE

Present Premier Is the Only Man Who Has the Confidence of All Factions and Therefore Logical Choice for Position

By EDWARD HING BUDAPEST, Jan. 11 (Delayed).—A cabinet crisis which is hourly expected to result in resignation of the ministry, may result in Premier Karolyi's election as president of the Hungarian republic.

The socialists claim the right to representation in the war and home portfolios. The government has refused to consider their claims and has announced its readiness to abdicate. If the cabinet steps out, a condition will be created which will necessitate election of a president so that authority may be more centralized. Count Karolyi appears to be the only logical choice for that office, as he is the only public man who has the confidence of all factions.

Asks Investigation
The national council was scheduled to meet today. This meeting was expected to bring matters to a head.

Karolyi has asked the allied food commission to make a thorough examination of internal conditions here, claiming that the armistice has been broken through the invasion of "Hungarian territory" by the Czechs, Slovaks and Rumanians. The Czechs-Slovaks have taken Komorn and have proclaimed Hungary as their territory. The Rumanians claim that they even contemplated occupation of Budapest.

Conciliation Is the Attitude of Delegates

Possible Stumbling Blocks Are Being Disposed of by the Allied Representatives

By ED L. KEEN

PARIS, Jan. 14.—The allies are developing a spirit of conciliation in several matters that have loomed as possible stumbling blocks, it was learned from authoritative sources today. This was said to be particularly true of French and Italian territorial claims.

Premier Clemenceau, for instance, was reported as presenting a reasonable attitude toward territorial ambitions. He is not urging France's claim to the Saar valley and is insisting only on some method of guaranteeing the safety of French frontiers. Neither is he pushing the expected demand for control of all Syria. Instead, French claims in this quarter are extremely mild.

Italy's claims regarding Dalmatia are receiving little sympathy and it is believed she is coming around to the point of view of the other conferees, who are making clear that she will not receive certain territories for which some elements in Italy are clamoring. Some other solution of Italy's problems regarding security of the Adriatic is certain to be achieved.

Russian Official Inquiry Predicted

Such Action Discussed by the Allies to Learn the Actual State of Affairs

PARIS, Jan. 14.—Immediate official inquiry by the allies into the actual state of affairs in Russia, was predicted in certain official circles today. It was hinted that such action was discussed at yesterday's meeting of the associated representatives.

British influence was understood to be back of the idea of instituting investigation of the Russian problem. Such an investigation would be conducted by an allied commission and would be pushed as rapidly as possible. This commission would report back directly to the peace conference. The plan had matured to such a point where possible members of the American contingent were being discussed. William Howard Taft and Elihu Root were among the names mentioned. It was impossible to learn what men were being considered for British membership on the commission.

BOTH HEROINES DESPITE WEALTH

Carrying on in their war until asked to discontinue, Mrs. Vincent Astor and Mrs. W. W. Vanderbilt, Sr., two of America's wealthiest and best-known social leaders, have just returned from France. Both "headed back" in a "Y" hut at the front. Both braved dangers and hardships for relief. Both were decorated by the French authorities. They are here seen getting their arm slings off the "beautiful lady," the Statue of Liberty, in New York harbor, as their "vows arrived."

England Wishes Russia Treated as a Free Power

Says the Country Must Not Be Dragged Before the Conference for Judgment

By J. W. T. MASON.

NEW YORK, Jan. 14.—Great Britain's suggestion to American and the allies that the western democracies establish relations with the Bolsheviks at Moscow and with the independent Russian governments at Archangel, Ekaterinodar and Omsk, has remained unknown to President Wilson for a week because of confusion at the state department.

Premier Lloyd George did not communicate his position directly to President Wilson, who was in Italy, at the time, but sent it to Washington, where it was not forwarded to the American peace delegates in Paris.

Action Is Significant

The action of Great Britain in dealing with the matter through the ordinary diplomatic channels instead of making the proposition directly to the peace delegates is significant. It implies that the British government wishes to treat the Russian people with the consideration shown a free sovereign power.

To drag Russia before the peace conference for judgment would create the impression among the Russians that they were to be subjected to the dictates of the western democracies. This is the method that American and the allies intend to use against Germany. If employed against Russia it might unite Russia and Germany against the western powers, as the result of common grievances. This would be a calamity and a danger to the world.

SAYS STATEMENT FALSE

PARIS, Jan. 14.—Secretary Lansing officially denied a statement published in the Toppe that America is ready to send an expeditionary force into Poland. He said the statement was "absolutely false."

DECLARES LEAGUE OF NATIONS UNNECESSARY

Thinks Mutual Purpose Among Allies Constitutes Sufficient Guaranty Against Future War

WASHINGTON, Jan. 14.—"There is no present need of a league of nations' peace," Senator Sterling, South Dakota, Republican, declared in the senate yesterday.

The peace conference should devote its entire energies to determining the loss through pillage, burning of villages and other violations of international law, he said.

"The nations and mutual purposes of the allied states are such as themselves constitute a perfect guarantee against war as between themselves—they are a reasonable guarantee of the peace of the world," Sterling said.

Sterling doubted whether the decision of a league of nations can be made effective against nations not willing to abide by them.

"In the last analysis," he continued, "we shall have to depend on the friendship and good faith of the nations of the world, rather than force our guarantee of peace."

Sterling insisted he was against a league of nations.

WASHINGTON RATIFIES

OLYMPIA, Wash., Jan. 14.—The Washington legislature yesterday afternoon ratified the Sheppard prohibition amendment. The senate acted first. The house quickly followed. The session was unanimous in both branches.

MINORS DEMAND EQUAL RIGHTS

Baseball Revolution Is Predicted by President of Columbus Minor League Club

NEW YORK, Jan. 14.—A baseball "revolution" was forecast yesterday by Joe Tinker, president of the Columbus club of the American Association.

Tinker told the United Press that the minor leagues will demand equal rights with the majors in all baseball matters, particularly representation on the national commission, or will abrogate the national agreement.

Must Revise Commission

"The National commission positively must be revised," said Tinker. "The minor leagues either will accept the proposed one man commission, or will insist that the present body be replaced by a commission consisting of one representative of the minor leagues, one representative of the major leagues, and one man connected with neither. All members would have to be men with no other baseball connections. The national association of professional baseball leagues will stand pat on this."

A three man commission such as suggested by Tinker would mean that the commission as now constituted—August Hornum, John Heider, and Ben Johnson—would be wiped out.

Wants Draft Rule Abolished

Tinker also declared that the minor leagues will stick by their decision to do away absolutely with the draft rule. The minors' demands will be put into concrete form at the meeting of the association's directors here. They will then probably be presented to the governing body of the American Association at the joint meeting of the National and American leagues here on Thursday. The committee to carry the demands to the majors will consist of Tinker, Al Tearnay, president of the Three I league, and Ed Hanlon, president of the St. Joseph club of the Western league.

Would Have Senate Favor Withdrawal

California Senator Asks Passage of Resolution to Withdraw Troops in Russia

WASHINGTON, Jan. 14.—Senator Hiram Johnson, California, today introduced a resolution for the withdrawal of the American troops from Russia.

"It is the sense of the senate," said the resolution, "that American troops be withdrawn as soon as practicable."

Johnson announced he will call it up into this week and demand action on it. He refused to allow it to go to the foreign relations committee, because he said another resolution, introduced a month ago, "has been bottled up by the committee." The previous resolution simply asked information of the state department concerning the government's policy.

LABOR WILL DISCUSS FAMOUS MOONEY CASE

Delegated Hold Convention to Discuss Plans for Securing Mooney's Release from Prison

CHICAGO, Jan. 14.—More than a thousand delegates had arrived today for the opening of the convention of labor men here tomorrow to discuss plans to secure the release of Thomas Mooney from San Quentin, California, prison.

John Fitzpatrick, president of the Chicago Federation of Labor, will open the meeting with a temporary address. The main speech at the first session will be made by W. B. Cookran, New York attorney who defended Mooney in his trial.

Leaders expected two thousand delegates from all states. The delegates, it was said, will represent more than 2,000,000 labor union men in the United States.

TWO AIRPLANE ACCIDENTS PROVE FATAL TO FLYERS

Two Killed in Five Thousand Feet Fall and Another Injured Fatally Just Ten Minutes Later

FORT WORTH, Tex., Jan. 14.—Two flyers were killed, one fatally hurt and a fourth slightly injured in two accidents at Carruthers' field here today.

Lieutenant John E. Garbot, Sheridan, Wyoming, and Mechanic R. L. Quinn, Pittsburgh, Pennsylvania, fell 5,000 feet in a tail spin, and were killed. Two minutes later, Cadet Instructor Francis X. Bostick, Amity, Louisiana, and Mechanic Ralph McIlwain, Oakville, Illinois, also crashed in a tail spin. McIlwain was probably fatally injured, but Bostick only slightly hurt.

ALLIES MUST EXTEND OR WITHDRAW ARMISTICE

Must be Disposed of Before January 17, When the Allied and German Commissions Meet

By LOWELL MELLETT
PARIS, Jan. 14.—Questions connected with the extension of the armistice were expected today to be speedily settled, permitting a definite program for the peace congress to be arranged.

The armistice, which was considered at yesterday's meeting of American, British, Italian and French delegates, must be disposed of before January 17, when the German and allied armistice commissions will meet at Treves. Partial lifting of the blockade of the central powers is understood to be the chief problem connected with prolongation of the armistice.

The meeting yesterday was attended by President Wilson, Secretary Lansing, Premier Clemenceau, Foreign Minister Pichon, Premier Lloyd George, Foreign Secretary Balfour, Premier Orlando; Foreign Minister Sonnino and their secretaries.

OFFICIAL SLIGHTS TO SERVICE MEN CRITICISED

Move Is on Foot in Boise to Bring About a Change to Conform to Governor's Recommendation

BOISE, Jan. 13.—Governor Davis, in his message, recommended that returning soldiers be given employment, not only their old places back but that they be considered whenever jobs were open. So far, however, such little consideration has been given returning soldiers in official circles as to cause considerable comment here.

Several legislative positions and departmental jobs as well have been filled with married women whose husbands are making good salaries, one of them holding a responsible position in a Boise bank.

Quite a few capable young soldiers have been turned down. There is a move on foot to bring about a change. It is pointed out that the example set to private employers is not wholesome.

DEMOLITION OF THE GERMAN TROOPS IS RAPID

AMERICAN HEADQUARTERS IN GERMANY, Jan. 12.—(Delayed)—

About 60 per cent of the German troops have been demobilized since the armistice was signed, it was revealed in statistics compiled in forty towns occupied by Americans.

About 15 per cent of the men who went to war from the Rheinland were killed and about an equal number returned home before the armistice was signed because of permanent disablement.

SERBIA AND MONTENEGRO JOIN STOCKHOLM, Jan. 14.—

The Swedish government has been notified by the Serbian minister that Serbians, Croats and Slovenians in Austria-Hungary would unite with Serbia and that a single government would be formed by Serbia and Montenegro.

BABY CAMEL STARTS LIFE FIGHTING

He was born on active service, this woolly, wobbly-legged camel foal, his mother being in the British transport during the fight for freedom at the time of his birth. Having been born under the British flag, therefore an English subject, his quite naturally could get this Tommy officer to help him in a steady pose for the camera.

Italian Minister Advocates Return of Aegean Islands

Was Howled Down by Hostile Audience While Attempting to Deliver Speech

ROME, Jan. 14.—Italy could relinquish all claims to Dalmatia, the Tyrol and the Aegean Islands, according to Signor Bissolati, who resigned recently as minister of military aid and war pensions.

Bissolati made the statement in a speech, published in Milan newspapers today. He was prevented from delivering the speech at a mass meeting by a hostile audience, which howled him down.

"Returning the Aegean Islands to Greece would gain a faithful friend for Italy," Bissolati declared, according to the printed text of the speech. "Annexation of the Tyrol would prevent unification of the German race, which is one of President Wilson's principles."

"Dalmatia should be given to Jugoslavians in exchange for Fiume, which was not included in the London pact." The newspapers, commenting on the speech, criticized Bissolati for his failure to denounce the imperialistic program of other nations.

REPORT KAISER NEAR INSANITY

Prominent Hollander Declares Wilhelm Is on Verge of Becoming Hopeless Maniac

AMSTERDAM, Jan. 14.—Wilhelm Hohenzollern is on the verge of becoming a hopeless lunatic, according to information brought here today by a prominent Hollander, who just left Count Bentinck's castle, where he was a guest. He declared the former emperor talks continually, his conversation being rambling and erratic. He cannot sleep at night and guards of the Bentinck castle frequently see him walking in the park before dawn. Recently he announced his intention of returning to Berlin and it was with difficulty he was persuaded not to do so. He also is determined at times to surrender to the British.

Bolshevik Guards Approach Warsaw

WARSAW, Jan. 14.—Bolshevik advance guards approached to within 170 miles of Warsaw Sunday, it was reported here today. They have captured Orany and Zakario. The main force reached the general line of Lidia and Baranovichi.

Another Bolshevik army was reported advancing upon Brast-Litovsk from Pinsk.

FLOUR TAKES A DROF

POSTLAND, Jan. 14.—For the first time since war was declared the price of flour dropped here today.

Twenty cents per barrel was knocked off the selling figure. The ban against the manufacture of patent flour was removed today.

G. O. P. RETURNS TO CONTROL OF COUNTY OFFICES

Members of First Republican Administration in Ten Years Are Installed in Offices at Court House

The first Republican administration of all county offices in Twin Falls county since 1908 was installed in office this morning, E. J. Finch, Democrat, retiring recorder, administering to the members of the new board of county commissioners the oath of office which was subsequently administered to the other members by T. E. Moore of Filer, who was elected chairman of the board.

The New Officials

The new county officers are the following:

Commissioners—T. E. Moore, Filer, chairman; William M. Fanning, Twin Falls; W. F. Bracken, Kimberly. Clerk of the district court and ex-officio Auditor and Recorder—C. O. Higgins.

Treasurer—Mrs. Emma Longley Warren.
Assessor—George W. Wilcox.
Probate Judge—F. D. Durall.
Prosecuting Attorney—Frank L. Stephan.
Superintendent of Public Instruction—Miss Britton Wolfe.
Coroner—P. J. Grossman.

The only exception to the occupation of county offices by Republicans is in the case of James A. Bybee, Democrat, who was re-elected county surveyor.

A. N. Sprague, Republican, who was elected to the office of sheriff at the last election, has been in office for some time. He was appointed by the retiring board of county commissioners to fill the vacancy occasioned by the resignation of his predecessor, Frank M. Kendall, effective on November 10.

Retiring Commissioners III

In the next case in line of the new county officers this morning was O. E. Carlson, retiring chairman of the board of county commissioners, who had been confined up to this time for several days at his home with serious illness resulting from gall stones. W. F. Brewer, of Hagerman, retiring commissioner from the third district, was unable to be present, word being received this morning that he is sitting up for the first time after several days illness from influenza.

John F. Hansen, appointed by Recorder C. O. Higgins to be one of his deputies, acted as clerk of the board.

Five of the officials sworn in this morning had been re-elected. Chairman T. E. Moore is entering upon his third successive term as a county commissioner. The others re-elected are Assessor Wilcox, Probate Judge Durall, Prosecuting Attorney Stephan and Superintendent Wolfe.

Change Without Friction

Organizes Stricken Town for Combatting Influenza Epidemic

Captain John E. White of Twin Falls Spends Strenuous Week in Wendell

Captain John E. White returned Sunday evening from Wendell, where he spent the preceding seven days and nights without the assistance of another physician in attendance upon influenza patients and in forming an organization for the care of sufferers of that district. He left today for Hagerman, where he has been called to perform a similar service.

In Wendell, Captain White stated, there were 150 cases of influenza, and the only physician of the district was himself a sufferer from the epidemic. Under Captain White's direction the high school was converted into an emergency hospital with a kitchen and wards for men, women and children. Sixty-nine patients suffering from the disease in a serious form were received at this hospital. Only one death resulted during the week at the institution. On the day of his arrival in Wendell Captain White says there were five funerals and the community was on the verge of panic.

AMERICA PICKED TO FLY ATLANTIC WITH THIS PLANE.

International authorities on air affairs are predicting that America will be the first nation to fly across the ocean in aeroplanes. Here is the biggest aero-boat yet built, the N C 1 from the Glenn Curtiss plant. It has a wing tip of 124 feet and is 70 feet from propellers to tail. It has three engines and in a recent test carried fifty passengers all along the Atlantic coast. It can rise 2000 feet in ten minutes. It is expected to fly the Atlantic.

WOMEN TALK ON VITAL TOPICS

Feminine Visitors at Joint Conference Entertained at Reception on First Day

Mrs. M. J. Sweeley, president of the state federation of women's clubs, and Mrs. H. W. Clutchek, county chairman of the council of defense women's committee, were the speakers at a reception given Monday afternoon in the parlors of the First Presbyterian church for women visitors at the joint conference. Mrs. Sweeley talked on "The Lessons of the Great War for Idaho Women," pointing out the need for intelligent handling of home problems, especially those pertaining to the morals of young men and women.

Child welfare work was the theme of the paper read by Mrs. Clutchek, in which she portrayed the terrible toll taken among children annually by ignorance of the principles of hygiene and child rearing. She discussed also the plan of the government for meeting and ameliorating this condition through community organizations.

Mrs. E. L. Van Riper of Buhl, who was to have spoken on "The Opportunities and Responsibilities of Women in the After-the-War Reconstruction" was a patient in a Buhl hospital suffering from nervous prostration and no speaker was given her place.

Mrs. C. H. Brown, home demonstration agent for Twin Falls county, was authorized to appoint the following committee on resolutions: Mrs. S. H. Bolton, Twin Falls, chairman; Mrs. Stuart, Hagerman, Hansen; Mrs. R. H. Smith, Twin Falls.

A delightful musical program arranged by Mrs. D. E. Began, chairman of music of the Idaho federation of women's clubs, was given. The program included piano selection by Miss Zelma Larimore, vocal solos by Mrs. F. G. Bell, and numbers by a ladies' chorus composed of Mrs. O. P. Durall, Mrs. H. S. Cowling, Mrs. F. S. Bell, Mrs. Zenas Smith, Mrs. F. F. Bracken, and Miss Helene Allmendinger.

Would you like to OWN A BUSINESS

The first thing you must understand before owning a POWER FARMING MACHINERY business is that "There is no excellence without labor." You must WORK for SUCCESS. You must know the business "from the ground up"—know everything about the machine you are to sell, how to operate them, to whom they should be sold, what it will cost you to do business in your own territory, and above all else, you must make up your mind that selling Power Farming Machinery will be YOUR ONLY BUSINESS. It must not be a "side-line." It must be YOUR ONLY JOB.

If you have the DETERMINATION to make good, sufficient capital to get in a sample line of AVERY TRACTORS and pay your living expenses while the business is developing—a building to house the machinery, a small car in which to cover your territory—we will furnish the machinery—AVERY TRACTORS and other Power Farming Machinery, instruct you in their operation, and give you a first-class selling plan, advertising literature and the assistance of an experienced salesman when necessary. We will give you plenty of territory. WRITE US AT ONCE OR CALL SOON.

THINK IT OVER

With the formation of a Workmen's and Soldiers' Council at Portland, Oregon, and with the eyes of every progressive leader of public thought in the country fastened to the problem of Bolshevism at home and abroad, it would seem that the time is almost here for a concentration of attention on the part of the people themselves upon the question of governmental changes for the benefit of the people as a whole.

Up to now the average man has viewed conditions in Russia and in Germany as interesting in the abstract but of little real moment in America. Both countries were too far away, and besides, the common sense of the American people was always to be depended upon for the proper action in the event of any extraordinary doctrine of government finding temporary lodging in America.

Canada is now facing the menace of imported ideas in the way of a revision of national thought. Ideas which have their inception in the doctrine and teachings of Trotsky and Lenin in far off Russia. Portland has her Workmen's and Soldiers' council, North Dakota her Townsleyism, every American city is shot with socialism in one form or another and in every case the moving spirit of the entire program is to be found, in the final analysis, in the world-wide unrest of the great army of workers in this country and abroad.

Bolshevism touched the match to the train in Russia and the aftermath has already rolled over into Germany.

In Canada the movement has reached threatening proportions.

Here are the views of the mayor of Portland as expressed to the members of the Oregon Legislature a day or two ago:

With soldiers being discharged in this vicinity at the rate of 600 a day and with no employment for them, I, W. W. organizers are finding a fertile field in which to spread their propaganda.

In the so-called 'workmen's and soldiers' council' organized here Friday you have as fine a Bolsheviki body as any in Russia. It is dominated by the I. W. W. who have plenty of money from an unknown source and discharged soldiers who are without funds are being fed and sheltered by the organization.

These radicals captured the convention of the state Federation of labor here this week, notwithstanding 60 per cent of the membership of organized labor is loyal. We must meet and put down this Bolsheviki movement immediately or it will put us down.

WHEAT POPPLES BLOOM
In Northern France where crimson popples bloom,
And suffering marks the pathway of the Hun,
The evening shadows lengthen and the gloom
Begins to settle with the fading sun.

Another day has closed; the night birds
Swoop down from their places overhead,
And o'er the hilltop looms the rising moon
To cast its silvery mantle on the dead.

The shell-torn plains are dotted here
And there, with wrecks of battle and of war,
With slabs which stand like sentinels
Atop each martyr's grave a wooden
Croix de guerre
Bestowed by death to mark his resting
Place.

Save for the boom of guns—their thunder
Deep—
No sound disturbs the stillness of the night;
The shifting clouds across the heavens
Sweep
Transparent in their hues of pearly
White.

And soon the dawn; the sun begins to
Peep
Above the eastern hills. The guns still
Bom,
While 'neath the sod undisturbed heroes
Sleep
In Flanders where the crimson popples
Bloom.

Sgt. Julian T. Baber, U. S. A. Rotary Club of Lynchburg, Va.

LEADERS MUST REVISE TACTICS OR FACE MENACE OF BOL-SHEVISM

(Continued from page one)

Four—A system of taxation must be devised equitable and fair between all parties, but always based upon the principle of ability to pay.

Five—The people and the government must get closer together.

Six—The perfectly unconscious waste of money must cease. I do not believe the disposition to waste public money ever had such a hold upon public service as now, and this is practically regardless of party lines.

Seven—The people with oppressive taxes and sterilizing initiative in all lines of industry is one of the things upon which Bolshevism flourishes.

PROVIDE BRIDGE OVER RIVER AT OWSLEY FERRY

Mrs. White of Twin Falls Sponsor for Measure Carrying Appropriation for Needed Passage of Snake River

(Continued from page one)

The bridge would shorten the trip from the entire Twin Falls and Hunt country into Boise and provide an unbroken state highway from the Idaho capital into southern Idaho.

Designed as an emergency measure, a bill was introduced by Mrs. White of Twin Falls this morning, permitting county governments to increase the pay rate of their engineers at will when action is necessary in order to obtain help.

Abolish Capital Punishment
With the idea of abolishing capital punishment in Idaho, a bill was this morning introduced by Mrs. Drake of Payette. The measure substitutes life imprisonment for hanging and makes second degree murder punishable by a term of imprisonment of from 10 years to life.

Representative Foley is the author of a measure providing for the furnishing by the state of free vaccines and serums to all counties, towns and villages, the expense of administration to be borne by the county and paid for at the rate of \$2.50 per person, together with 25 cents per mile in mileage. Another bill aimed at the election of a county commissioner from each of the three districts by the people resident of that district.

Gambling Declared Nuisance
Gambling is declared a nuisance and the county attorney is given new and enlarged powers by senate bill No. 10, introduced this morning.

Membership in the third house is expected to be considerably augmented within the next day or two in connection with the governor's bill to provide for the establishment of a government cabinet of nine heads with power over all the various activities of state government.

A majority of those spoken to regarding the measure as fundamentally sound but giving the bill a strong fight. It will not pass without a strong fight.

With Hosts and Hostesses
Mrs. Charles McElwain entertained a few neighbors in honor of Mrs. Elizabeth Brown on Friday afternoon.

Misses Zella and Frances Kells will entertain their Sunday school classes and a few outside guests on Friday evening.

Miss Ellen Goebel gave a dog on Sunday evening in her room. The guests were Misses Lizzie Smith, Ida Brown, Hildegarde Ott, Adelaide Nichols, Grace Bryant, Rose Murray, Anita Kincaid and Byrd Wall.

SPONSORS NEW PLAN OF OPERATION FOR THE STATE (Continued from page one)

seems certain to observers here. This will come, however, from the office holder who sees his cynosure slipping away, say the political wisecracks. These men, who now hold office and would be displaced under the governor's business efficiency plan are for the most part rather strong politically in their homes.

One legislator from northern Idaho put it this way today: "The fellow from home who holds a job is going to look his legislator to protect his job at the public trough. Ninety per cent of members, yes ninety-five per cent, would not run their own business the way the state's business is run and the public agrees with them. The way I sum it up is that there will be on the opposition side the professional, mercenary politician and opposer to him will be the public and the good. In view of the supreme importance of the measure and the personal pressure of the self-seeking office holder on the legislators, I strongly advise that those interested in the business goal of the state urge their representatives to stand fast on the bill.

What the Bill Provides
The supercession of forty-eight departments by nine.
The saving of thousands of dollars expense.

Making the governor directly answerable to the people for the business efficiency of his administration.

Provision of a cabinet to advise with the governor on all important matters, composed of heads of departments.

Placing of state finances on a sound business basis.

Direct representation of the people through advisory boards composed of nine members to serve without pay for five departments.

To receive expert advice and real public opinion through the personnel of the advisory boards, all the members of which will be public persons.

No addition of functions but a far more rapid attention to public matters.

An elimination of red tape and congestion of public affairs.

Penalty of Failure. Failure to profit from our own mistakes, failure to appreciate that we have made mistakes, failure to heed the warnings of people more experienced than we, always carries with it a heavy penalty that must be paid—Exchange.

JOINT MEETING GETTING UNDER FULL HEADWAY

Twin Falls is Mecca for Farmers, Stockmen and All Interested in Development of the State Industries

HOMES ARE OPENED AS HOTELS, BECOME TAXED

Opening Sessions Indicate Importance of Discussions and Action to be Taken at Big Conference of State Bodies

A stream of farmers, stockmen and men interested in the development of the state otherwise that began on Sunday and Monday is continuing to pour into Twin Falls from various points in Idaho and adjoining states as the joint conference of Idaho agricultural, livestock, engineering societies is getting under full way. The hotels are crowded with convention visitors and the best homes of the city have been opened for their reception.

First Day Proceedings Sessions of the Idaho Society of Engineers and of the State Seed Growers' Association

The Idaho Society of Engineers and the State Seed Growers' association sitting with the State Farm Bureau, opened a reception for the visitors to the women's section under the auspices of the farm bureau women's department and federated clubs was held on Monday.

Admon for Canal Meeting

The state farm bureau and the seed growers met separately this morning, the former in the Lavering theatre and the latter in the Parish hall, where yesterday's joint session was held. Both organizations have adjourned this afternoon for the annual meeting of the irrigation congress and of other organizations.

Important Topics Scheduled

After an informal banquet held this evening in the Hotel Perrine this evening, a joint session will be held in the Lavering theatre, the subjects to be discussed being among the most important that will be presented at the conference. The speakers are Harry Dible, district inspector for the National Irrigation Commission, and Ruppert, speaking on the "Work of the United States Reclamation Service," and Dr. Samuel Porter, of the department of agriculture, on "Preparation of Laws for Irrigation."

Governor Davis Speaks

The seed growers and irrigation congress tomorrow afternoon will meet in joint session to hear the address of Governor D. W. Davis. Wednesday will be livestock day for the farm bureau, and with it the livestock societies, after their forenoon sessions will adjourn for the Sherburne sale.

The Twin Falls County Mutual Fire Insurance Company will hold its annual meeting tomorrow afternoon in the farm bureau offices.

Cable for Hansen Span Is Received

Arrival of Shipment from Wisconsin Puts Nearly All the Material on Ground

A car containing more than one-half of the cable that will be required in the construction of the suspension span Snake river canyon north of Hansen arrived on Monday from Kenosha, Wisconsin, according to R. M. Murray, supervising engineer for the Hansen bridge commission. Practically all of the rest of the material for the span is on the ground and excavation work is almost completed.

Announcements

The Presbyterian Missionary society will meet at the home of Mrs. James McMillan on Second avenue north Thursday afternoon.

Twin Falls Temple No. 21, will hold its regular meeting Thursday, January 16, at 2:30 o'clock, in Moose hall.

To "Finance" a "To Let" advertising campaign you need only ad space for perhaps a few days—a part of your pocket money.

WOOL GROWERS SUPPORT DAVIS

Southern Idaho Association Endorses Executive Plan for Stamping Out Sheep Scab

The Southern Idaho Wool Growers association at its annual meeting held Monday evening in the county farm bureau offices here, went on record in the presence of a resolution in support of Governor Davis' policy for bringing about the eradication of sheep scab in Idaho, and appointed a committee composed of R. T. McManara, Ray E. Brown, J. A. Cron of Twin Falls, and D. F. Detweiler and H. Schlimman of Elmer.

The following were elected to serve with the president and secretary on the board of directors: John St. John, of Boise; W. M. Shotwell, Boise; H. O. Brown, Twin Falls.

An active part in the discussions was taken by O. P. Henderson of Boise, secretary of the state fair association and the Lewiston Northwest Live Stock Show; R. McManara, Ray E. Brown, D. F. Detweiler and C. R. Brannon.

Personals

Mrs. D. T. Wilson spent Monday here from Rupert.
W. A. Goggs left Monday evening for San Francisco.
Mrs. E. Brimhall left Monday evening for a brief visit in Salt Lake.
Mrs. E. D. Weaver has returned from Weiser where she was the guest of her sister.
Mrs. F. E. Neitzler left Monday for Nampa where she will visit with relatives and friends.
Mrs. M. G. Holcomb, who has been here as the guest of her son, Leo Holcomb, left Monday for her home in Los Angeles.

Deaths

Mary Hazel Sturff, infant daughter of Mr. and Mrs. Sturff, living on the Snake river near Cedar Draw, who was born April 23, 1917, died on January 4 after suffering for some time from pneumonia. Funeral services were conducted at the home by T. A. Wainwright, and interment was in the Elm cemetery. She leaves to mourn their loss, her parents, two brothers and four sisters.

Kunkely Funeral Postponed
The funeral of Max W. Kunkely had been postponed from Wednesday to Thursday at 3 o'clock, on account of the arrival of relatives.

Robert McLean
At his home one and one-half miles northeast of Hansen at 5 o'clock this morning, Robert McLean, well known farmer, died from pneumonia following influenza. He is survived by his wife, three children. The children are at the Grossman & DeWitt undertaking establishment. Funeral arrangements have not been made.

Otto Bailey
A victim of pneumonia following influenza, Otto Bailey, well known farmer, died Monday morning at his home, three miles northeast of Hansen. Funeral services will be held at 2 o'clock Wednesday afternoon from the Grossman & DeWitt chapel.

SAYS EPITHET MERELY RETURN OF COMPLIMENT

D. B. Moorman Files Answer in Suit for Damages for Slander Brought by Times Publisher—Presents Counter Claim

Denying that he said, except by way of returning the compliment, to D. M. Denton, owner of the Twin Falls Times and manager of a real estate firm, "You are a thief and a crook in this town and everybody knows it," D. B. Moorman, through his attorney, James H. Wile, Monday filed his answer in the suit for \$50,000 brought against him in district court here.

Moorman asks that Denton take nothing on account of the suit and files a counter claim for rent in the sum of \$50 alleged to be due him for rent on the building occupied by the Denton real estate firm.

Gives Details of Differences
In his answer Moorman sets out in detail the circumstances under which the alleged interchange of hot words was passed last November between himself and Denton.

Denton insisted, Moorman says, that if warranty deed could not be given, Moorman should give a quit claim deed. The deal hung there, Moorman says, until he was asked about it by Keller and Puttella. He told them the situation he says. Later, he avers, he drove his car to the office of Denton who came out on the sidewalk and took him to task for what he had told the prospective buyers.

Moorman, what you told Puttella and Keller about a quit claim deed is a lie; D. B., you are a liar," is the language which, according to the answer, Denton used at that time. Moorman sets out in his answer that he returned in kind, followed Denton into Denton's office where he charged Denton with keeping \$40 out of his rent and keeping back his September rent.

RED CROSS IS A FRIEND IN NEED

Kimberly Branch Opens Hospital in School Building to Care for Flu Patients

Mrs. C. H. Brown, county home demonstration agent, and Miss Anna M. Spence, county home demonstration agent, on Friday and Saturday helping to establish a kitchen in the emergency hospital, which has been opened in the Kimberly grade school building by the Kimberly Red Cross branch for the care of influenza patients.

The committee appointed by the Red Cross to manage the hospital is composed of Mrs. William Van Horton, Mrs. B. B. Denton and Mrs. Arthur Wilson.
Miss Electa Nesbit, of Twin Falls, formerly a superintendent of the Boyd hospital, and Miss Nellie Gallaly, a practical nurse, are assisting Mrs. Van Horton in the management of the institution. Miss Stuart, domestic science teacher, is in charge of the kitchen, with two other teachers, Miss Wood and Miss Arvilly, assisting her. Miss Horch is secretary and bookkeeper.
The hospital is maintained with Red Cross funds. Patients who are able to do so are expected to pay for their accommodations and others are cared for free of charge.

QUILT SALE FOR BENNETT

STOCKHOLDERS VOTE AGAINST RECESS MEET

Canal Users Turn Down Proposition of Hearing Discussion of Irrigation Law and Nominate Directors

Stockholders of the Twin Falls Canal company, at an annual meeting with the smallest attendance of recent years, this morning voted down a proposition to recess to a later date to permit waterusers to attend the sessions of the Idaho irrigation congress, at which proposed changes in the irrigation laws are being discussed. A motion to be considered this afternoon provides for appointment of a committee to investigate this matter and if deemed expedient to call a special meeting to make recommendations to the legislature.

Taylor Out of Race

Candidates for directors have been placed in nomination, including all of the directors now serving except W. O. Taylor, who declined the nomination, and three others as follows: O. M. Etter, Twin Falls; D. F. Detweiler, Elmer; and John Frahm, Hansen. The ballot boxes were declared open at 11 o'clock.

Center Fight on Detweiler

Sentiment expressed among the administration forces is that the fight will be concentrated against Detweiler, who is said to have collected a large number of proxies.

General Manager J. C. Wheeler completed the report of the noon recess of the canal system, the amount of snow is less than one per cent of the area of the project," he asserted. He was applauded as he took his position on the platform and on finishing his report.

Zuck Preparing Officer

Former Senator O. G. Zuck of Kimberly is presiding as chairman of the meeting, and E. N. Day of Twin Falls is acting as secretary. The attendance when the meeting opened was less than 50, but increased to about 250 at noon.

Candidates for directors were nominated by the following: O. M. Etter by D. F. Detweiler; Ivan G. Lincoln by W. P. Alworth; W. O. Taylor by E. L. Chamberlain; J. H. Barker by George McPherson; D. F. Detweiler by Lewis Hill; Claud Brown by Julius Schlake; John Frahm by Herman Thieme; P. A. Kennedy by J. A. Yalton.

Objects to Posting Acres

Objection to the motion that the number of acres owned by each candidate should be placed opposite his name on a blackboard displayed at the front of the hall was made by D. T. Connor of Elmer and E. L. Chamberlain. The motion was supported by H. S. Hebeson, Buhl; J. A. Cron, Twin Falls, and George McPherson, Buhl. It was carried.

Upon completion of the permanent organization the chair was authorized to appoint a committee on the order of business. He named F. E. Chamberlain, Lewis Hill and B. F. McPherson.

Tellers were elected as follows:

J. H. Barnes, Hansen; George McPherson, Buhl; Elmer Aman, Elmer; George Frahm, Elmer; Matthew Scully, Buhl; Gordon Bennett, Buhl.

Stops Reading of Minutes

On motion of George McPherson, who interrupted the reading of the minutes, explaining that he understood that the previous meeting had been declared illegal, further reading was dispensed with.

The order of business adopted provides for this afternoon session the consideration of a report of unfinished business and new business.

Get some INFORMATION about it—that it will cost, where it may be bought to best advantage—through reading the ads.

POLISH AFFAIRS CONSIDERED AT PEACE MISSION

(Continued from page one)

careful consideration. The Polish question has remained involved for many centuries, for the reason that it was never considered from the viewpoint of the Poles' own rights and wishes.

It was clear today, following Secretary Lansing's denial of reports that America advocated rushing troops to the aid of one of the two principal factions in Poland, that the Poles must decide their own destiny. The United States is not prepared to discount the splendid battle carried on by General Pilsudski for the people's rights throughout the world war.

Self Determination
And it is unwilling to allow itself to be frightened by the label "socialist" with his opponents—the national committee—is attempting to fasten on Pilsudski's party. On the contrary, American delegates are taking the view that if the Poles want a socialistic government, it is their right.

Students of European affairs are watching the unceasing efforts of the national committee to control Polish affairs. Possibility of the committee's success was strengthened when Ignace Paderewski went to Poland—ignace alleged intention of overthrowing Pilsudski and setting up a new government. The famous pianist, because of his tremendous personal popularity and unquestioned love of country, undoubtedly is the biggest national figure of Poland. Fear was expressed, however, that he was unwilling to be used as the committee's catalyst.

Polishes Menace Unfeared
The national committee is reported to represent aggressive interests who have been out of touch with the people since the beginning of the war. The American delegation has made it plain that it cannot be swept off its feet by an alarm of a "bolshewist" menace to Poland. It intends to get to the bottom of the case, though it is willing to assist the present government with arms and ammunition, if necessary. There is no reason to fear for Pilsudski's loyalty to the allies, in view of the fact that he was released in November from a German prison.

ENGINEERS AIR VIEWS ON COST OF ELECTRICITY

Project Manager Barry Dibble Gives Experience with Mindoka Government Owned Plant—Cost Is Small

DIRECT ATTENTION TO AFTER WAR PROBLEMS

Retiring President W. O. Cotton Urges Support of Lane Reclamation Bill—Shows Danger in Unemployment

An impromptu discussion of the development of Idaho waterpower by Project Manager Barry Dibble of the U. S. Reclamation service, in which he expounded as erroneous the common opinion that the cost of operation of a plant is practically the whole cost of producing hydro-electric power, was an interesting development of the annual meeting here Monday of the Idaho Society of Engineers.

The engineers of whom there were about 50 in attendance, were welcomed to the Greater Twin Falls club, by former-Senator M. J. Sweeley, and response was made by W. E. Gibson, resident of the Mountain Home Co-operative Irrigation company.

For Reclamation Bill

Retiring President W. O. Cotton of Idaho Falls, in his annual address, called attention to the achievements of the members of the society in the military service, and urged support of the Lane reclamation bill before congress through which provision will be made for the employment and absorption into civil life of returning soldiers and sailors and which will add to the productive territory of the nation an area five times as great as that of the state of Idaho.

H. T. Plumb, chief engineer for the Salt Lake branch of the General Electric company, gave a scholarly presentation of the subject, "The Reduction of Loss by Electrical Process with Special Reference to Possible Applications in Idaho."

Officers Elected

At the business meeting just before adjournment officers of the society for the ensuing year were elected. Officers: President, W. O. Cotton; Vice President, E. B. Darlington; Secretary, M. J. Sweeley; Treasurer, C. N. Little; Secretary, M. D. Badgley; Treasurer, M. D. Badgley, Boise.

A legislative committee to recommend to the present legislature the adoption of a bill defining the status of an engineer and other measure was appointed consisting of W. H. Gibson, Mountain Home; J. C. Porterfield, Twin Falls; D. G. Martin, Idaho Falls.

Appointment was made of the following members of a committee on resolutions to make its report at the conclusion of today's sessions of the irrigation congress: W. O. Cotton; Idaho Falls; Clyde Baldwin, Boise; E. B. Shepherd, Jerome; A. H. Bucklin, Burley; F. A. Wilkie, Boise.

Shows Sources of Cost

Project Manager Dibble's statement in respect to the cost of producing and distributing electricity from waterpower was suggested during a discussion in which E. B. Shepherd of Jerome had ventured the prediction that the development of Snake river would result in the building here of a great industrial empire.

Mr. Dibble argued that the success of such development would depend upon the building of a system of reservoirs to equalize the flow of the stream and would entail other extensive preliminary work.

"The annual cost of operation of the Mindoka power plant of 10,000 horsepower is about \$15,000 for labor and supplies," he said, launching upon a discussion of the cost of electric power. "This item as a matter of fact is a very small part of the whole cost. Depreciation will double the amount of the operating costs and interest on the investment, even at the very low rates the government pays for money, will equal the charge for depreciation. This makes up the cost of power at the plant which is a very different matter from the cost of power delivered. Transmission, cost of transforming and distribution all are expensive, and the cost increases as the points of delivery become more widely separated."

"If Idaho develops its power resources it must, if successful, be with a view of combining all power plants to feed into a common network for distribution to equalize variations. It is a mistake to frequently credit that water power can be developed cheaply. It is frequently possible to develop power cheaper with than with power because of the heavy investment required in the latter undertaking."

Advises Look at Gift Horse

Taking up the discussion at this point, Mr. Plumb asserted that "it sometimes doesn't pay to take what is given to you."

"It is a fact that enormous waterpower is available," he said, "but it is a fact that there is now no cheap way of saving it and attempts to save

NEXT ISSUE WAR SAVINGS STAMPS WILL HONOR BENJAMIN FRANKLIN

Picture of Patron Saint of Thrift to Adorn Government's Baby Securities, Soon to be Placed on Market—Interesting Story of Great Philosopher-Inventor Is Brought to Light by the Action of the Treasury

WASHINGTON, D. C.—The United States treasury, realizing that the name of Benjamin Franklin is synonymous with thrift, has paid signal honor to the philosopher-inventor in the selection of his name to adorn the 1919 issue of War Savings stamps. The United States government has summoned the nation to join in paying tribute to Franklin's memory on January 17. More than 150,000 War Savings societies and other organizations will hold public meetings. Special exercises will be held in the schools throughout the country. The public libraries will make the day a special one. The purpose of this Franklin birthday celebration is to stimulate increased interest in continuing the habit of thrift acquired during the war.

Franklin was a living apostle of thrift and business foresight. For example, a little bit of mathematics he once performed today fits the city of Philadelphia about \$13,000. The money is in a fund known as the "Franklin fund," the nucleus of which was provided by the great pioneer of thrift. Franklin made a bequest of five thousand pounds, known as the "Dr. Franklin Fund for Loans to Young Married Artificers." The bequest was made

in 1790, and in making it, Franklin looked 200 years ahead, estimating what the total would be in 1890 and 1990.

By his process of calculation, Franklin estimated the fund would be 131,000 pounds, or \$965,000 at the end of the first one hundred years, but it fell short of this figure, reaching but \$89,883.59.

Several reasons are advanced for the failure of the fund to reach the amount Franklin had expected in 1890, but the principal one is that the "young married artificers" failed to borrow as often as he had expected, due probably to the restrictions. Later the restrictions were made less drastic in an effort to get the money out to borrowers, with the result that less attention was paid to character and responsibility and frequently the loan and interest were both lost.

Terms Are Characteristic The terms laid down by Franklin were characteristic. They were dictated by sound business judgment. He decreed that the loans should not be more than sixty pounds sterling, nor less than fifteen pounds. Borrowers were required to pay each year interest at five per cent together with ten per cent of the principal until the loan

TO THE DYSPYPTIC

Would you not like to find that your stomach troubles are over, that you can eat any kind of food that you crave? Consider then the fact that Chamberlain's Tablets have cured others—why not you? There are many who have been restored to health by taking these tablets and can now eat any kind of food that they crave.—Adv.

was paid off. It was with the expectation that the entire fund would be kept busy that Franklin made his estimates of what the total would be in one hundred and two years.

Franklin did not intend the entire fund to be continued for loans after 1890; but that in that year 100,000 pounds be turned over to the city of Philadelphia to "bring the waters of the Wissahickon creek to the city and for public improvements, such as aqueducts, fortifications, etc."

In 1907, the board of city trustees, which was custodian of the Franklin fund, turned over the money, about \$133,000, to the Franklin Institute, for use by the latter institution in its fund to erect a memorial building on the new Philadelphia parkway in memory of Franklin.

HANSEN MOTHER VISITS CHILDREN AT UNIVERSITY

HANSEN—Mrs. E. R. Smith, of Hansen, who has been spending the past few weeks in Moscow, Idaho, and Spokane and Elk, Washington, arrived home Sunday. Mrs. Smith left Hansen on December 10 and spent a few days with her children, Hoyt and Marjorie, who are attending the state University at Moscow, and was joined by them in a visit to Mrs. Smith's brother, Earl Griffith, at Spokane. Hoyt and Marjorie returned from Spokane's Moscow on January 6th where they will remain until the end of the school year in June. Hoyt has been appointed to the reserve officers training corps since his discharge from the U. S. A. T. C.

CONFERENCE NOTES

James W. Jones of Salt Lake, sugar plant investigator for the department of agriculture, is one of the most interested attendants at the sessions of the farm bureau and seed growers' association. Mr. Jones is scheduled on Thursday afternoon at the farm bureau meeting, to start a discussion on "Sugar Beets, the Crop and Prices for 1919."

The Thursday evening joint meeting scheduled to be held in the high school auditorium, will be held instead in the Lavington theatre. Mrs. M. J. Sweeley, president of the state federation of women's clubs and Dr. E. A. Bryan, state commissioner of education, will speak on subjects in relation to higher education in Idaho, and H. V. Platy, principal and general manager of the O. S. L. Railway company, will talk on transportation problems up-to-date.

John O. Woolley, head of the agricultural engineering department of the University of Idaho, at 2 o'clock this afternoon will address a meeting arranged by the farm bureau women's department at the America theatre on hot and cold water systems and sewage disposal for farm homes. Rudolph Weaver, head of the department of architecture at the Washington state college, later in the afternoon at the same meeting will give an illustrated lecture on how to plan a comfortable and economical house.

O. L. Waller, vice-president of the Washington state college, who was to have addressed the Idaho Irrigation congress this afternoon on the "Washington Water Code," telegraphed on Monday that he would be unable to be here at that time, and will speak at a later session. Lyfitt Crandall, chief hydrographer for the Twin Falls North Side Lead & Water company, who was to have spoken at the joint meeting last night on the springs in Snake river canyon, but who was compelled to return yesterday to Jerome, will take Mr. Waller's place on the irrigator's program this afternoon.

A Great Victory. "Self-mastery is gained by little victories at a time, and every new victory gives us fresh strength for greater victories in the future."—Exchange.

Reduces Golf Stick Supply. The invention of a golf club with interchangeable heads permits all the strokes to be made with one stick without the necessity for carrying several.

Pointed Statement. "Now, if you have that in your mind," said a professor who had just explained a theory to his students, "you have it all in a nutshell!"

Judging by Appearance. The man who looks like a bank president may be a farmer who has lots of business with banks.—Exchange.

NO GREAT ACT OF HEROISM REQUIRED. If some great act of heroism was necessary to protect a child from a dog, mother would hesitate to protect her offspring, but when it is only necessary to keep at hand a bottle of Chamberlain's Cough Remedy and give it as soon as the first indication of a cough appears, there are many who neglect it. Chamberlain's Cough Remedy is within the reach of all and is prompt and effectual.—Adv.

**ENGINEERS AIR VIEWS ON
 COST OF ELBECTRICITY**

(Continued from Page 6)

It is in many instances would prove more
 costly than the waste. Development of
 small power sites is uneconomical and
 the converting of small power sites into
 big ones is very expensive. It has been
 proven in cases where large steam
 plants can be used as in Salt Lake,
 Portland, Chicago and other cities, that
 electricity can be produced cheaper
 from steam than from water power. It
 is legitimate that water power should
 be developed, but at present electrical
 engineers don't know how to do it
 economically.

Shows Dangerous Alternative

In support of his claim for support
 of the Lane reclamation bill, Retiring
 President Corbin declared:
 "Those who would scruple about
 recommending expenditures at
 higher cost than may prevail when
 normal conditions are here must
 face the far more serious alterna-
 tive of quelling the disturbance
 that is inevitable if there is 'wide'
 spread unemployment."

Achievements And Duty

He pointed to the canalmen, na-
 tional army camps, aviation fields, fe-
 derals, shipyards, and ships in our
 country as well as docks, ports war-
 houses, railroads and railway terminals
 in France as monuments attesting to the
 part played by the American engineer
 in the cause of democracy, and argued
 further that "it is now up to all of us
 to live up to our responsibility; we must
 not leave the world helpless to resist
 the commercial domination of the Ger-
 mans with the support of Russian ma-
 terial."

**"To finance" or "To Let" ad-
 vertising campaign you need only set aside

Optimistic Idea.
 Nothing is so uncertain as the minds
 of the rabble.

For Meditation.
 All great reforms are based on
 broad, generous principles.

Question of Price.
 "You say there's a price on her
 head?" "I should say so. That hat
 she's got on must have cost \$40."

Removable Rubber Heel.
 A rubber heel has been invented that
 can be slipped on and off the high heel of
 a woman's shoe.

Victims.
 Victims are natives in nearly all
 lands and thrive very generally every-
 where, the greater number in the
 shade, but some in the sun.

Snares in Credit Plan.
 It is a good plan to pay cash. The
 people who finance they are getting
 something for nothing, generally pay
 double.—Philadelphia Record.

THE BEST COUGH MEDICINE
 When a druggist finds that his cus-
 tomers all speak well of a certain pre-
 paration, he forms a good opinion of it
 and when in need of such a medicine
 is almost certain to use it himself and
 in his family. This is why so many
 druggists make and recommend Chamber-
 lain's Cough Remedy. J. B. Jones, a
 well known druggist of Cuba, Ky., says,
 "I have used Chamberlain's
 Cough Remedy in my family for the
 past seven years, and have found it to
 be the best cough medicine I have ever
 known."—Adv.

ALL RESERVES OUT TO SETTLE SOVIET RIOTS

General Strike Called Off Saturday and Shops Open—Political Disturbances Make Public Nervous

BOLSHEVIK LEADERS ARE PLACED UNDER ARREST

Alleged Soviet Secretary Says Connected with a Party of Forty-Russian Workers and Is Not a Maximalist

By JAMES I. MILLER
BUENOS AIRES, Jan. 14.—President Irigoyen's action in calling the military forces of 1897 to the colors and asking congress to declare a state of siege was regarded in some quarters today as a move to forestall a possible anti-radical revolution.

The Argentine executive elected by the workers has incurred the constant increasing enmity of the conservative element throughout the country. His opposition has been fanned by Irigoyen's action in practically taking over the government machinery in some of the provinces. Argentine laws permit the president, when dissatisfied with affairs in the provinces, to intervene and displace the governor with his own appointees. The recent elections in some of the provinces went against the radicals. Irigoyen intervened in Cordoba, Tucuman, Corrientes, Mendoza, Salta and Entrerios, where his political opponents were the strongest. His served to crystallize anti-radical sentiment against him.

Troops Inadequate

When Irigoyen's latest move became known, it was felt that his purpose was deeper than a counter-move against continuation of the strike disturbances.

Today this feeling had developed into a belief that the administration actually foresees the possibility of a revolutionary movement. General Dolloplano, who assumed military control of the city when the general strike was at its height, admitted to the United Press that there were not enough troops in Buenos Aires to cope with the strikers. It is reasonable to

assume that the same would apply to a revolution.

Transportation Tie Up

It was learned from an official source today that the federation of railway workers has voted to call a strike immediately, tying up the entire railway system of the country. This would place the government as such a disadvantage that if the anti-radicals really contemplate a revolution, it would furnish them an unusually opportune moment to strike. This would be reflected particularly in the difficulty with which the government troops could be moved.

Meanwhile labor troubles were reported to be spreading throughout the provinces. The steel rail workers in the northern part of the country were said to have walked out. In Buenos Aires the central police station was under attack practically all yesterday and last night. Railway workers besieged the station during the day.

Leader Injured

They were routed by machine guns in the evening. Then the port strikers took up the fight, but also were repulsed.

Pedro Wald, president of the "Argentine Soviet Republic," was officially reported today to have been seriously injured in the struggle preceding his capture. His sweetheart has been arrested as a suspect.

President Irigoyen was reported today to have asked congress to declare a state of siege and call out the reserves of the class of 1897 just demobilized.

There was spasmodic fighting between demonstrators and police late yesterday and during the early hours of the night. The number of casualties could not be learned. While economic causes for disturbance apparently ceased with calling off of the general strike Saturday, the political reasons obviously continued. Most of the shops and stores have reopened, but the public is frankly nervous.

Denies Plot Charges

Sergy Susslow, alleged secretary of that "Argentine Soviet," interviewed by the United Press in his jail cell, denied that he was involved in a Bolshevik plot to overthrow Argentine government.

"I was born and educated in Russia," Susslow said. "I came to Buenos Aires in 1903. I am secretary of a labor society composed of forty Russian workers. I am not a Maximalist. I have no knowledge of Russian affairs. I know Wald. His correct name is Vaidcochak."

Wald is alleged to president of the "Argentine Soviet Republic." It is rumored that he died in jail from injuries received while resisting arrest.

Agitators Leave

Susslow was unable to reconcile the fact that his society was supposed to

have only forty members, while 140 Russians had already been taken into custody. He admitted having formed the acquaintance of two political agitators since the armistice. One, he said, had gone to Chile, the other to the United States.

Susslow spoke very little Spanish. He was reticent in the presence of a police official but spoke freely when alone with the correspondent. Asked about the reported death of Wald, the police said he had been removed to another jail.

Irrigators Favor New Water Bureau

Discussions at Opening Session Show Sentiment in Support of Proposed Law

The Idaho Irrigation congress, convening here this morning for three days sessions in conjunction with the joint institute of Idaho agricultural, livestock, engineering and livestock societies, undoubtedly will go on record before adjournment in favor of proposed legislation at the present session of the state legislature for a creation of a bureau of water rights for the administration of the waters of the state.

The discussions at this morning's sessions, while confined to the topic assigned, were germane to the matter of the proposed change. Following the address of President R. E. Shepherd of Jerome on the "Present Irrigation Situation in Idaho," in which the change was warmly advocated, J. B. True, Myoming state engineer, spoke and a paper by Perry A. Cupper, Oregon state engineer, was read, each dealing with the administration of water in his respective state under a plan similar to that proposed by the congress for Idaho.

HEREFORDS BRING BIG PRICES IN NEBRASKA

Fifty Cattle Sold at Auction by Mousel Brothers Total \$192,250

Proceeds from the sale of 50 registered Herefords by Mousel Brothers at Cambridge, Nebraska, on January 7, amounted to \$192,250, according to a telegram received by Judge D. T. Welby of Castleford from Henry Mousel, his son-in-law. Thirteen ewes of Eben Misch averaged \$5242 each. One bull sold for \$22,000.

ROAD ENGINEER DISCUSSES BIG PLAN OF FUTURE

H. C. Allen, in Charge of State Highway Construction, Declares After War Development in Idaho Unusual

"Idaho Road Work and Plans for the Future" was the subject for the Monday evening meeting of the joint conference of the agricultural, livestock, engineering and irrigation societies of Idaho, held at the Lavering theatre, with H. C. Allen, state highway engineer, as the principal speaker of the evening.

He was preceded in an address of welcome by W. E. Alworth, president of the state farm bureau, who in a few well chosen remarks stated the purpose and object of the joint conference now being held in Twin Falls. "To bring all of the different interests of the state which work toward the future development of the state into closer cooperation with one another," was the keynote of his remarks. Speaking of the part which the agricultural interests of this section of the country have to do with the future development of the state, he said in part that "It is up to the farmer to bring everything which he produces up to a paying basis. The reconstruction period is now on and all things must be made to pay their own way. Wheat last year, owing to the high prices, was put upon a paying basis, and only insofar as all things which the farmer raises, can be made to pay him a legitimate profit, can agriculture be expected to forgo ahead and figure in the development of the state of Idaho.

War and Road Building

"The shortage of labor owing to the causes brought about by the war had a great influence upon the road building of the state, during the past two years, but regardless of the manner in which state highways were hampered through existing conditions, roads have been built, and never before in the history of the state have such extensive plans been laid for after the war developments," said Mr. Allen, in his introductory remarks. "Cost states were even more hampered than were the intermountain states, for the conditions in the shipyards where high wages were paid for the most common labor, made it impossible for contractors

NOW IS THE TIME

To Buy Good Irrigated Land at Valier, Montana

Carey land at \$51.50 per acre; \$8.50 per acre first payment, balance in fourteen equal annual installments, interest at six per cent per annum. Proved up and improved lands \$75 to \$125 per acre; easy terms.

Good water right; good irrigation construction. Maintenance fifty cents per acre per annum. Grow big crops of wheat, oats, barley, flax, alfalfa, potatoes. Good general diversified farming country. All kinds of stock do well. A little 3500 to 4000 feet. No sage brush, good drainage. A going concern—30,000 acres under water. Six banks, sixteen elevators on the project.

Increase in Cost of Water Rights

On April 1, 1919, the price of water rights for the Carey and deeded lands on the Valier project will be increased to \$60 per acre share. Why not make your plans to visit the Valier country now?

Let's Talk It Over

Mr. W. M. Wayman will be in Twin Falls during the sessions of the Idaho Irrigation Congress, January 13-17. His address will be the Perrie Hotel. See him and talk the matter over—he will be glad to tell you all about the opportunities in the Valier country. Send for our illustrated booklet and other literature.

Valier Farm Sales Co. Valier, Mont.

W. M. Wayman, President. C. A. Band, Secretary.
Please send me free literature about the Valier lands.

engaged in road building to get men who would stay on the job. When the armistice was signed the government in Washington began to emphasize the necessity for road construction, Idaho, whose progress was slow, during the war, was able to fall into line and has now some of the greatest plans for this phase of construction that are to be found in the northwest.

Big Boost in Sight

Speaking of financial assistance in the matter of road building, Mr. Allen stated that "Idaho's share of the last federal aid budget was about \$906,000. Under the present proposed appropriation for road building now before congress, Idaho will receive about \$1,125,000 during the next five years. In order that a fair distribution of this money may be made over the state, it has been decided that the population of the state shall decide the matter. A state road tax operating under this plan would cause each taxpayer to contribute as his share of the upkeep of roads one dollar per year, with three

dollars coming from Idaho's share given by the government, as it has been ascertained that the population of the state is about four persons to the square mile."

Mr. Allen stated that at the present time federal aid funds had been used in the construction of the Lost River highway, running from Mackay to Chalils, on the Sawtooth Park highway, and on the Grangeville Park highway. Interesting slides were used to illustrate the speaker's lecture on the roads of the state, showing the wonderful road development in those sections now on the state highway.

COUET MARTIAL MEETS

LOS ANGELES, Calif., Jan. 14.—The highest ranking court martial ever convened in Southern California met at Fort McArthur today to try Colonel Harry W. Newton on charges in connection with the expenditure of \$500,000 at Fort McArthur, where he was acting construction quartermaster. The court was composed entirely of colonels.

ELECTRICITY ON THE FARM

DELCO-LIGHT

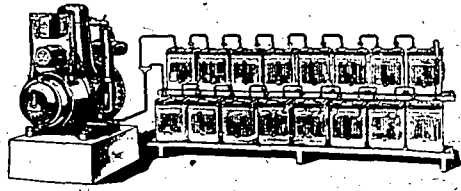

BLAZED THE WAY

Delco-Light has carried the conveniences and labor-saving efficiency of the city to the farm districts. It has proved that electric light and power on the farm multiplies man-power and saves both time and labor. Delco-Light is accomplishing these results today on more than sixty thousand farms. It is a good investment because it actually pays for itself. Delco-Light is a Complete Electric Light and Power Plant;— It furnishes power to operate the fanning mill, grind-stone or washing machine—to milk the cows, operate the cream separator or tumble the churn—to pump fresh running water to all parts of the house and barn. It supplies bright, clean, safe electric light—makes it easy to do chore work after dark without the bother and danger of old-fashioned lamps and lanterns, thus reducing the fire hazard. Delco-Light runs on Kerosene. The same coal oil or Kerosene formerly used in lamps and lanterns now furnishes both light and power.

Thousands of testimonial letters prove these things in actual experience of Delco-Light Users
