

LEAGUE PLANS ALMOST READY FOR ADOPTION

Virtual Completion is Expected By Tonight and Anglo-American Program Seems to Be Most Likely

WILSON URGES HASTE IN ITS PREPARATION

Agreement Has Been Reached on the Principle of Reduction of the Armaments of the Nations

By ROBERT J. BENDER

PARIS, Feb. 4.—The constitution of the league of nations is expected to be virtually completed tonight at the meeting of the special committee having that work in charge.

While several plans have been submitted, it was learned that the joint Anglo-American program will be the crux of the discussion. It includes a score of articles embracing British and American views, with a preamble outlining necessity for establishment of the league.

Armaments to Be Reduced

An agreement has already been reached on the principle of reduction of armaments under the league of nations, according to its relative military functions, compared with other powers. It will not be known for some time what the American naval contribution will be or the size of its standing army.

President Wilson, as chairman of the league committee, continues to urge celerity in preparation of its frame work, that the constitution may be submitted to the general peace congress for discussion and ratification as soon as possible.

A Good Guarantee

Wilson in addressing the chamber of deputies yesterday afternoon emphasized the importance of the league of nations as a guarantee against future aggression toward France.

The special committee which will fix responsibility for the war and its conduct was ordered to complete its work of organization today or tomorrow. Secretary Lansing, who was unanimously elected permanent chairman, yesterday decided upon the appointment of three sub-committees, two for the examination of questions of law and one for the examination of facts.

MANY VETERANS ARRIVE

NEW YORK, Feb. 4.—The White Star liner Cedric arrived today with 3,507 officers and men from France. On board were the 44th regiment C. C. C. complete, regular army, 43 officers and 1,569 men; the 60th regiment O. A. C. complete, regular army; 47 officers and 1,902 men; a casual company of 2 officers and 100 men from Illinois and 133 casual officers, 71 of whom were in the air service.

WILSON WARNS OF GRAVE PERIL

President Says That Many Questions are Still Unanswered

PARIS, Feb. 4.—A warning against a new "eastern peril" was contained in President Wilson's speech before the chamber of deputies yesterday afternoon according to opinion recorded in general discussion of the address today. "I do not need to point out to you that east of you in Europe the future is full of question," he said. "Beyond the Rhine, across Germany, across Poland, across Russia, across Asia, there are questions unanswered and they may be for the present unanswerable."

Wealthy Miller May Receive His Sentence Today

Head of Large Milling Company Is Accused of Sedition and Pleads Drunkenness

PORTLAND, Ore., Feb. 4.—Henry Albers, millionaire miller, may know late today the jury's verdict in his federal court trial for sedition.

Attorney McCann made his closing argument for the defense this morning. United States District Attorney Hainey will reply this afternoon. The case will go to the jury before night-fall.

That Albers made all the bedditious utterances as charged by the government was practically admitted by defense attorney John McCann in his closing statement. He pleaded that Albers was too drunk to realize what he was saying and declared the government had failed to prove Albers tried to hamper America in the war.

Since Albers' arrest, he has been superseded as president of the Albers' Milling company by one of his four brothers. The company has grown rapidly on war contracts.

On the witness stand, Albers admitted he had made his outpour fortune in the United States. The government charges he declared he was the Kaiser's man and said Germany could never be whipped. Albers was born in Germany.

May Ask Houston For Explanation Of New Charges

Congress Told That Secretary of Agriculture Blocked an Investigation

WASHINGTON, Feb. 4.—Secretary of Agriculture Houston may be called upon to answer charges presented to the congress packer probers that he aided the packers by blocking investigation of producers.

According to testimony of E. C. Lester of the National Livestock association, the packers do not desire the producers investigated simultaneously with them. This, it was stated, would have checked them of their contention that the producers, not the packers, were waxing wealthy.

Lester charged that the department of agriculture had refused to appoint investigators. Houston, neither the producers investigated simultaneously with them. This, it was stated, would have checked them of their contention that the producers, not the packers, were waxing wealthy.

Francis J. Heney and members of the senate agricultural committee have openly accused the department of agriculture of being friendly with the packers.

Idaho Senate Premptorily Kills Two Bills Aimed to Care for Needy Soldiers and Sailors of State

REPORTS ADVERSELY ON EMPLOYMENT BILL

Measure Introduced By Senator Judd to Duplicate Statute Declared Unconstitutional Fails to Pass Committee

(Special to The News)

BOISE, Feb. 4.—Two bills aimed to care for indigent soldiers and sailors were preemptorily killed in the Idaho senate this morning when a house bill by Representative T. E. Bennett of Gooding, which had previously passed the lower house, was indefinitely postponed and Senator Judd's bill to provide emergency employment was ordered not printed.

The Bennett bill would have provided a county committee with power to render assistance to indigent soldiers and sailors. The senate bill was passed and made it statute in about the same language four years ago and later declared unconstitutional. Judd made an effort this morning to have the committee's action changed by the senate, but to no avail.

Holds Up Normal Bill

Efforts by Senator Johnson of Nezperce county to have the Iowiston Normal appropriation measure taken out of the finance committee met opposition from Senator Adams, chairman of the committee, who said the committee would send no bill out until it was sure what would have to be appropriated by the legislature. Johnson withdrew his request, fearing an adverse report.

New Soldier Bill

One new bill made its appearance in the upper body. It was by Walter of Boundary and took the place of a former bill providing for the exemption from taxation of \$1,000 in value for soldiers and sailors providing they did not have property worth more than \$5,000.

The house passed the measure which provides for the cooperation of the state with the federal government in reclaiming lands for returned soldiers.

May Present Medals

Honoring soldiers by the presentation of medals to Idahoans in the service is provided in a house bill by Adams creating a commission to design

British International Expert Declares Frankly That America Has More to Lose Than Gain Through Formation of League of Nations, Yet Duty to World Compels American Leadership and Support

GREAT AMERICAN NAVY IS ESSENTIAL TO MAINTENANCE OF THE AGREEMENT

By LOWELL MELLETT

PARIS, Feb. 4.—Success or failure of the league of nations depends almost wholly upon the United States. While America, from a practical standpoint, has more to lose than gain through the league, its duty to the peoples of the world compels its leadership in this international fellowship of nations. This frank statement was made to The United Press today by Major-General Frederick Maurice, British expert on military and international affairs. He was director of military operations for the British general staff, until, when the British were opposing the German drive practically unaided, he made his famous "Where is Blucher?" statement.

SOVIET LEADER SAYS RUSSIANS ARE PEACEABLE

Lenine Declares That His People Want Peace But Will Fight if It is Necessary to Their Safety

NEW YORK, Feb. 4.—The Russian soviet government wants peace and is willing to make concessions to get it but if the allies insist on war the soviets will fight to the end, Premier Lenine declared in a copyrighted interview published in the New York Times today.

Would Pay War Debt

Lenine told Minor that the soviets were often inclined to pay the debts incurred by the old regime if by that means the war can be stopped.

Asked what he thought of Russia's eligibility to the league of nations, Lenine replied that "they are not forming a league of nations but a league of imperialists to strangle the nations."

He added that President Wilson is a shrewd man. Lenine discussed American political, economic and social affairs and then abruptly asked:

Scores Compters

The Bolshevik premier said he wondered "how long Compters can hold the labor unions as subservient to imperialism as he is."

He described the imprisonment of Eugene V. Debs as a "shame" and asked why the American Federation of Labor does not do something about the imprisonment of "Big Bill" Haywood.

Minor himself, explained that Russian industries are again in direct control of the business class through their nationalization. Business and technical experts have been placed in charge of the industries under the name of "people's commissars" he said that the red army is stronger under "revolutionary discipline" than it was under its old leaders.

Strikers of the Silk Factory Show Little Inclination to Mix With I. W. W.

PATERSON, N. J., Feb. 4.—Picketing started here today in the strike of 27,000 silk-workers.

A number of I. W. W. agents were on the ground, seeking to organize the strikers. However, most of the operatives reported for work this morning at 7:30 half an hour late. They found the doors closed against them. Therefore, leaders assert they are being locked out. The men facturers, however, declare it is a strike, not lockout.

LEADERS FACE GRAVE DANGER OVER ENGLAND

Convening of British Parliament for Work of Reconstruction Fraught With Serious Menace

NEW IRISH REPUBLIC ADDS TO COMPLICATION

Lloyd-George Expected to Return for Conference With British Government Officials Latter Part of Week

LONDON, Feb. 4.—The "reconstruction" parliament (convenes today with a large portion of the country's workers attempting to take reconstruction into their own hands. As organization of the newly elected legislative body gets under way, Great Britain and Ireland face the constantly growing menace of a general strike which is frankly admitted by many of its instigators to be the first step toward attempted socialization of the nation's industries under a Bolshevik regime.

Added to this situation was the embarrassing presence of the new "Irish Republic" which was formally declared at the recent Sinn Fein "parliament" in Dublin. That the British government had not evidenced in any way its intentions toward this new neighbor only added to the responsibilities of the new "reconstruction" parliament in the matter.

For a week parliament will devote itself to organization work, including the setting up of a cabinet, holding of contests, etc. It will be formally opened by King George on February 11.

Lloyd George returning. So important are the problems immediately confronting parliament that Premier Lloyd George, despite the urgency of his presence at the peace conferences, will arrive in London the last of this week to confer with parliamentary leaders and direct formulation of a legislative program.

The vital questions which this parliament must face upon its opening are: Ratification of the peace treaty; settlement of the general strikes; definition of its attitude toward the Irish republic; adoption of a general reconstruction program.

Free Trade Questioned

Under the last division is included the problem of import restrictions with possible departure from the "free trade" policy; free land for soldiers; better housing and working conditions and extension and maintenance of the merchant marine.

Parliament will be asked to authorize the building of thousands of cottages within easy access to the industrial regions. These cottages would be sold to workmen on easy payments.

The wage scale, it is hoped, will not be allowed to drop back to its ante-bellum, hand-to-mouth level.

While there will be some difficulty in fixing a minimum wage, it seems practically certain that some figure will be agreed on which will enable all workmen to maintain a much higher standard of living than hitherto has been possible.

BORAH STARTS REFORM MOVIE

Progressives are Planning a Campaign of "America First"—Idaho Leads

By L. C. MARTIN

WASHINGTON, Feb. 4.—Senate progressives are about to take the first step toward realization of the "America First" program.

To return to pre-war democracy, progressives declare it is essential that all extraordinary and autocratic measures be wiped off the law books.

The espionage act is their first target.

Senator Borah, Idaho, is to lead the attack through an amendment to the postoffice appropriation bill which will offer today. Borah proposes to repeal that portion of the espionage law giving the postmaster-general the power to censor mail in the United States.

Borah's fight is not directed against Postmaster-General Burleson personally as so many republicans attack on the measure have been. Borah declares no postmaster-general should have in peace times the power this section of the law gives him.

The announcement was made today from the Fairbanks studio following a meeting with McAdoo, Douglas Fairbanks, Mary Pickford, William S. Hart, Charlie Chaplin and D. W. Griffith are the organizers of the new company.

# RUSSIA KEEPS SILENT ABOUT ALLIED OFFER

### Soviets are Reported Favorable to the Proposition of the Conference Providing It is Preceded By Evacuation

## CATCH MESSAGES GOING TO THE UNITED STATES

### British Declare That Many Physical Difficulties Stand in Way of Present Allied Withdrawal From Archangel

By LOWELL MELLET  
PARIS, Feb. 4.—With the French still silent today on the American proposal for immediate withdrawal of all allied troops from Russia, the British were continuing to prepare for evacuation of their forces whether the French accede or not.

### Soviets Give Terms

While the American proposal, which was exclusively announced by the United Press, was based on political considerations, British acceptance of the plan was influenced principally by the military situation. The American peace delegation, had learned through its agents that Premier Lenin and Foreign Minister Tchitcherin were disposed to accept the associated powers' proposal for a joint conference at Prinkipo, providing the conferences were preceded by complete allied evacuation.

This was said to be the sole reason for the American suggestion which included French withdrawal from the Ukraine. On the other hand, the British already had decided on evacuating northern Russia because of the increasingly dangerous position of its troops in that region.

### Many Physical Difficulties

In British military circles, it was admitted today, that only the question of physical difficulties will determine whether their troops will come out by the end of April or sooner. The Murmansk contingent can be moved immediately with comparatively little difficulty, but in the Archangel district there is already a considerable barrier of ice and it is recognized that a quick movement would be attended with great danger. The troops involved include 4,000 Americans and 20,000 British and Canadians. There are also great quantities of supplies and material in that region which the allies have no intention of abandoning. However, the railway problem has been carefully studied and plans are reported to have been completed, even to the number and size of the ice breakers that will be required.

### Mystery Is Explained

Considerable speculation was caused today by the boast of the socialist newspaper, "Populaire," on Saturday when Foreign Minister Pichon formally refused to forward a wireless to the soviet government for Jean Longuet its editor, the latter's report to the soviets was already in their hands. The mystery was explained when it developed that the Moscow wireless simply "listened in" by the American correspondents who relayed the message to the United States.

### Refuses Recognition

Longuet was asked by the Bolsheviks to investigate the allied proposal for a joint conference and report his opinion to them as to its genuineness of purpose. Pichon, who had previously opposed any form of concession to the soviets, refused to recognize Longuet's status as an unofficial representative of the Bolsheviks, declaring that transmission of such information as Longuet desired was a right invested solely in the governments.

## PLAN TO HOLD A BIG SYMPATHETIC STRIKE

### Forty Thousand Union Workers Expect to Walk Out Next Thursday Morning

SEATTLE, Wash., Feb. 4.—The industrial relations committee issued a statement today declaring that they ceased their efforts to settle the shipyard strike and avert the sympathetic walkout of 40,000 union men planned for Thursday morning at 10 o'clock.

The publicity division of the strike plans committee asserts that Seattle's proposed general strike will be orderly one. The labor force will be divided into a division of law and order which will cooperate with the police department. Thirty thousand shipyard workers are on strike in Seattle.

## KANSAS GOVERNOR SAYS CASUALTIES UNDELY HEAVY

TOPEKA, Kas., Feb. 4.—Governor Henry J. Allen of Kansas today maintained that the thirty-fifth division (largely Kansas troops) had suffered undue losses in the Argonne. In a statement yesterday he characterized as "vague and evasive" casualty figures given out by General March Saturday. Although deaths in the division were fewer than in some of the others, Governor Allen asserted all had occurred in one engagement while losses of other units extended over a number of battles.

### COMPANY MEN HELD

CHICAGO, Feb. 4.—Norman L. Street and George Heidmann, Chicago men of the 13 officials of the Pan-Motor company, indicted here were held to trial today under bonds of \$5,000 each. Ten others will be arraigned at St. Paul. Federal officers said their bonds to be the same, with the exception of S. C. Pandolfo's. Pandolfo will be held for \$10,000, they said.

### WORKERS ARE LOOKED OUT

UTICA, N. Y., Feb. 4.—More than one thousand textile workers were locked out here when the Utica Spinning Company and the Watoot and Campbell Spinning Company, failed to open their gates. Business is slack; it is understood and the operators decided to suspend until the dispute over textile worker's wages and hours are settled.

### FIGHTER DENIES CHARGE

NEW YORK, Feb. 4.—Jack Kearns, manager of Jack Dempsey, today denied Fred Fulton's charge that Dempsey treacherously knocked him out in their bout at Harrison, N. J., last summer, after agreeing to merely box an eight-round exhibition. Kearns said Fulton's attack was a trick to put the Willard-Dempsey fight in a bad light.

### SHOWS PRODUCTION INCREASE

WASHINGTON, Feb. 4.—Following the removal of restrictions on anthracite coal the fuel administration gave figures to show a marked increase in hard coal production. The geological survey however, shows that bituminous production was decreased approximately three-quarters of a million tons below the week ending January 25, 1919.

### GARMENT WORKERS STRIKE

NEW YORK, Feb. 4.—Striking garment workers today threw a cordon of pickets around the clothing factory area in downtown Manhattan and greeted with cries of "scab," non-union employes as they way to work. Strong forces of police were called out to preserve order.

### GERMANY HAS FOOD

WASHINGTON, Feb. 4.—Germany has three and a half months' food in her warehouses, according to an official survey by the Berlin alimentations office, disclosed here in a diplomatic dispatch from Zurich. The food situation is not so precarious as has been reported, it was declared.

### MONARCHIST FORCES WITHDRAW

## POOR FEEL GRIP OF FOOD COSTS

### All the Substitutes of America are Known to the People of the Tenements

CHICAGO, Feb. 4.—Food costs today were drawing a tightening ring around inhabitants of Chicago's "back-of-the-yard" district. With the week-end warning of an approaching blizzard, charity organizations were preparing for unusually heavy demands. "Back of the yards," they are acquainted with all the food substitutes used in America. Numerous settlement houses and charity organizations have prevented introduction of "orb-bell" goods of the central powers. There's no sawdust bread but there is substitute butter or none at all, the cheapest meats of uncertain quality and meager helpings of all foods. Fresh vegetables have been practically unobtainable.

With milk at 14 cents per quart, babies have been fed on the canned product. This is diluted so far as possible and made to stretch over a number of days where dairy milk would sour. Eggs are strangers in this territory, selling now at 85 cents, the price effective throughout Chicago.

### SHOOTING OCCURS IN A CROWD OF MILL STRIKERS

LAWRENCE, Mass., Feb. 4.—Shots were fired when striking textile workers clashed with police near the Everett Mill. There were no casualties. Police said strikers did the shooting. They were unable, however, to identify those who had the weapons. The crowd estimated at 10,000, was dispersed by police reserves. The trouble started when Special Policeman Cornelius Sheehan tried to arrest a striker who refused to "move on" when ordered to do so. Sheehan seized the man. Other officers ran to his assistance as he was surrounded by strikers. A riot call was sent in.

## BALL PLAYER WILL BE RETURNED TO COAST CLUB

CHICAGO, Feb. 4.—Two White Sox recruits of the late 1918 season will be returned to the Pacific coast league, it became known here today. Third baseman Finelli will go to Sacramento and Catcher Devormer to Vernon. Both came to the Sox after the coast league closed shop last season.

## DEPENDANTS IN FORD TRIAL SAYS PROFITS LARGE

DETROIT, Mich., Feb. 4.—Attorneys for the Chicago Tribune being sued here for \$1,000,000 by Henry Ford, automobile manufacturer, for alleged libel said in court today they would show that Ford reaped "a tremendous profit, as big in many cases as the worst of the so-called profiteers in his government work". Arguments were being held today on a motion by the Chicago Tribune attorneys for a change of venue. They contend it would be impossible for them to get a jury in this county that would not be prejudiced.

## COSSACKS REBEL AND SURRENDER TO AMERICANS

VLADEVOSTOCK, Feb. 1.—(Delayed)—The American staff on the Ussuri river front today controls a large body of Cossack prisoners, according to information received by the Japanese staff. The Cossacks under General K. Onikoff rebelled and killed their regiment commander. After a brief period they surrendered to the American staff.

Youthful Veteran of World War Lost Sight and Is Cause of Sacrifice

TROY, N. Y., Feb. 4.—Mrs. Margaret Waugh wants her eyes transferred to the sockets of her son, James Waugh, who entered the army when he was 17 and fought until he was blinded last September.

In making the formal offer of this sacrifice, Mrs. Waugh told the Red Cross she had heard of a rabbit's eyeball being successfully transferred to another animal's head and said she believed it could be done with human eyes.

## MYSTEROUS MAN SHOTS

CHICAGO, Feb. 4.—Police here today sought trace of a desperic burglar drawing a dislodged buggy from which a mysterious man yesterday fired fatal shots at John H. Peterson, moon man, who emptied his own revolver during the duel.

Peterson had closed his saloon and was going home. Within a block of his home a fusillade of shots began passing between the shambling buggy's passenger and Peterson. A moment later Peterson was dead. The slow brown horse's pace did not quicken, but the man escaped.

## THINKS LEAGUE OF NATIONS PLAN WILL BE FAILURE

WASHINGTON, Feb. 4.—Failure of the league of nations plan was predicted to the senate by Senator Moses, New Hampshire. "Just as the congress of Vienna failed to create a confederation in Europe which lasted, so the present peace conference will leave us free from worries like a league of nations," said Moses.

# ADMITS GUILT OF THEFT OF CLOVER SEED

### Clarence Snow of Hansen Tells Court He Took Property of Neighbor and Received Prison Sentence

Clarence Snow of Hansen in district court here Saturday, entered a plea of guilty to a charge of grand larceny, admitting that he had stolen on December 12 twelve sacks of clover seed worth \$800 from Charles Hmann of Hansen. He waived the statutory trial, which sentence should be pronounced, and Judge W. A. Babcock sentenced him to serve an indeterminate term of from one to 14 years in the state prison. When arraigned on the charge previously, Snow had entered a plea of not guilty.

### Ends Long Chase

Snow's arrest in January in Globe, Arizona, marked the end of a long and determined pursuit instituted and carried on by the sheriff's office, a prominent part in it having been taken by Deputy Sheriff P. O. Herriman, who traced the track of the automobile in which Snow was alleged to have taken the seed from Hansen to the vicinity of Hazelton and beyond and back again, and who brought Snow back in custody from Arizona.

### Famous Kaiser Wilhelm Canal

The Kaiser Wilhelm canal was officially opened June 21, 1908. It is a little more than 30 miles in length, and for the eastern part of its course follows the line of the old Elber canal. It is 107 feet wide at the water surface and 72 feet deep at the bottom, with a depth of 29 feet 6 inches. The total cost of the canal was \$39,000,000.

### Reason for Term "Royal"

Naturally there is a good reason for calling golf a royal game, inasmuch as it was the favorite sport of the kings and queens of Scotland and England, as well as the dukes and earls in ancient times. King Charles, King James I, II, VI, Queen Mary of Scots and others were pre-eminent among the lovers of the recreation.

### Hard to Manage

A man who has lately undertaken the management of a certain temperamental star was asked, during the past week, about the young woman's well-being. "How is Miss So-and-So?" ran the query. "I don't talk to her any more," was the answer. "She's under my management now."

### Origin of One Proverb

One obtains historical glimpses in proverbs. The familiar "robbing Peter to pay Paul" is said to derive its origin from the fact that in the reign of Edward VI the lands of St. Peter at Westminster were appropriated to raise money for the repair of St. Paul's.

### Prevention Rather Than Cure

To cure is as expensive as to prevent, and prevention eliminates the loss, as well.

### To THE DYSPEPTIC

Would you not like to feel that your stomach troubles are over, that you can eat any kind of food that you crave? From the fact that in Chamberlain's Tablets have cured others—why not you? There are many who have been restored to health by taking these tablets and can now eat any kind of food that they crave.—Adv.

### Reason Must Dominate Love

Love is altruistic. It springs from our prehistoric ancestors, who dwelt in the cliffs and caves and secured what they desired by brute force. It was not a question of intellect or sentiment at that time. As the human race has advanced intellectually this instinct has become polished, moderated, but the so-called love which actuated the cave man is still the predominating factor of modern society, and until reason displaces sentiment, until intellect displaces instinct, we shall be slaves.—Chicago News.

### Major and Minor Prophets

The major prophets of the Old Testament were Isaiah, Jeremiah, Ezekiel and Daniel. The Old Testament books contain their prophecies. The minor prophets of the group of Old Testament writers from Hosea to Malachi, are so called because of the brevity of their prophecies. Malachi was the last of the minor prophets.

### Friendship and Freedom

There can be no friendship where there is no freedom. Friendship loves a free air and will not be penned up in strait and narrow enclosures. It will speak freely and act so, too; and take nothing ill where no ill is meant; nay, where it is, 'twill easily forgive, and forget, too, upon small acknowledgments.—Penn.

### Color of Pure Copper

The work of a Swiss investigator suggests that absolutely pure copper may have a light gray color like that of most other metals, since it is found that copper which has been ten times distilled in vacuo has only a pale rose color, while the yellow color of gold becomes much lighter under similar treatments.

### Reason for Term "Royal"

Naturally there is a good reason for calling golf a royal game, inasmuch as it was the favorite sport of the kings and queens of Scotland and England, as well as the dukes and earls in ancient times. King Charles, King James I, II, VI, Queen Mary of Scots and others were pre-eminent among the lovers of the recreation.

### Hard to Manage

A man who has lately undertaken the management of a certain temperamental star was asked, during the past week, about the young woman's well-being. "How is Miss So-and-So?" ran the query. "I don't talk to her any more," was the answer. "She's under my management now."

### Origin of One Proverb

One obtains historical glimpses in proverbs. The familiar "robbing Peter to pay Paul" is said to derive its origin from the fact that in the reign of Edward VI the lands of St. Peter at Westminster were appropriated to raise money for the repair of St. Paul's.

### Prevention Rather Than Cure

To cure is as expensive as to prevent, and prevention eliminates the loss, as well.

### To THE DYSPEPTIC

### RELIEF FUND LAGS

With a week elapsed since circular letters were mailed soliciting contributions, Twin Falls county still lacks one-half of the fulfillment of its quota of \$5,000 for the American Committee for Relief in the Near East, according to a count made by the county committee.

According to the last count, the county, outside of the Buhl district, has subscribed \$1,959.51 out of a quota of \$3,800, and the Buhl district, with a quota of \$1,200, has subscribed \$500.

Contributions so far reported average between \$5 and \$10 each. The committee asks for contributions of from \$1 to \$10.

The committee announces that the campaign will be continued until the quota is raised, and if the voluntary contributions and response to the letters of solicitation are insufficient, another means of securing the required amount will be employed.

### Homes Help Community

A wealthy Englishman once said that a good home was an institution for civilizing a community, and instead of surrounding his own home by a high hedge, the latest of fashions, he built about it an open fence, so that whoever passed, rich or poor, might enjoy the beauty of house and lawn and garden. It is a good thing for the girls of today who are to be the home makers of tomorrow, to grow up with the idea that the home owes something to the community.

### The World's Diamonds

Diamonds of the weight of 29.25 tons, of a value of \$1,000,000,000, have been taken from the earth from the earliest time to the present day. These figures, however, only concern the stones before cutting, which reduce their weight by half, but multiply their value by five.

### Twin Falls Trades Council Offers Free Membership to Qualified Soldiers and Sailors

The Twin Falls Building Trades Council at a meeting January 31 adopted resolutions requesting affiliated labor unions to give the initiation fee to all soldiers and sailors who are proficient in their respective trades, and requesting the county farm bureau for its action in posting notices for the "sheepherders and tenders, Bascos preferred," when unemployed soldiers and sailors were walking the streets.

The text of these resolutions which have been made public at the request of the trades council, is as follows:

The following resolutions were passed by the Twin Falls Building Council of Twin Falls and vicinity this evening. A motion prevailed that this body through its delegates request the affiliated locals to give the initiation fee to all soldiers and sailors who are proficient in their respective trade, and that such be inserted as a news item in each of our local papers:

H. C. KENNISON, Recording Secretary.

At the meeting this evening of the Twin Falls Building Trades Council a motion made by Jas. Munn was seconded and carried unanimously that this body go on record as censuring the "Farm Bureau" for their action in posting notices for "sheepherders and tenders, Bascos preferred," when unemployed soldiers and sailors are walking the streets, and that this item be inserted in each of the local newspapers.

### Wisdom of Solomon

In the proverbs of Solomon there is this bit of wisdom: "Though thou shouldst bray a fool in a mortar among wheat with a pestle, yet will not his foolishness depart from him." More than two thousand years of world experience attests the accuracy of the wisdom of the Bible's proverb. Braying the fool in a mortar may not cure him, but it is sometimes the only way of ridding the community of pernicious foals intent upon spreading the contagion of their own folly.

More than four thousand Delco-Light plants were delivered for war work. They were used to supply electric light in camps, storehouses, hospitals, Y. M. C. A. huts, airplane hangars, sub-chasers and other branches of the service.

In Red Cross hospitals at the front, Delco-Light operated life-saving X-ray apparatus.

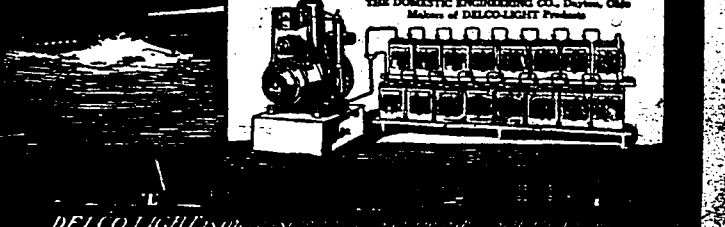

Delco-Light was specified by the Government because it is dependable, efficient, simple to operate, requires little attention, and because it is AIR-COOLED.

The result of Government tests and the satisfactory use of Delco-Light on over 60,000 farms are your assurance that Delco-Light will give you the same dependable service.

It better living conditions, increases farm efficiency, and soon pays for itself in time and labor saved.

A QUEER BILL

An interesting document is House Bill Number 53, recently introduced in the Idaho Legislature as a means of providing a channel through which to approach the creation of the county of Buhl.

The bill provides for an enabling act which would permit of the making of new counties based upon a referendum vote of the people in that portion of the territory designed to constitute the new county.

In commenting on the bill, the Buhl Herald says: Buhl county should be created when a majority of the people living here want it.

But the people remaining in the old county should have nothing to say, legally, so long as the area of square miles and assessed valuation remaining in the old county is well within the statutory limitations.

That is to say, if a man desired a divorce from his wife, the woman should not be consulted in the premises—it might be that the two had jointly contracted obligations remaining to be paid, which obligations were the result of a joint understanding, and the payment of the same based upon the joint earnings and operations of the pair.

The matter of a division of Twin Falls county, possibly the people of the new county should have more of a say in the matter than the residents of the old county, but to lay down the principle that they should have nothing whatever to say is neither just nor equitable.

# EXCURSION TO BE FIRST STEP FOR A CANNERY

### Farm Bureau Women Plan Automobile Trip to Wendell to Inspect and Investigate Community Institution

With a view to establishing in Twin Falls county next year one or more experimental canneries, women of the county farm bureau arranged an automobile excursion to be made on Friday next to Wendell for the purpose of inspecting the community cannery in operation there and conferring with the managing heads of the establishment and with its patrons. The excursion will leave the main business center at 9 o'clock Friday morning and every one interested in the undertaking is invited to make the trip. The tour through the Wendell cannery has been arranged for by E. E. Ellsworth, Gooding county agent.

#### Point Out Benefits

Respecting the field here for a cannery such as is contemplated and the benefits expected to be derived from it, the farm bureau women say in a statement issued today.

The plan is to look over the Wendell plant with a view to establishing one or more experimental canneries in this county. In 1917 we sent out of the county, on a moderate estimate made by one of the biggest growers of the county, \$250,000 for canned fruit and vegetables, while the products here lay and rotted on the ground for lack of containers.

#### To Prevent Waste

It is to prevent the possibility of a repetition of this, and also to provide an easy, cheap and satisfactory method of canning which will relieve women of the extra burden placed upon them in getting this work done at home—that the women of the farm bureau have planned and organized this trip of investigation.

We hear from England and the east that the community kitchen has proved itself such a success that it has come to stay. It has become in many places a money-maker as well as a labor-saver. And it is from this point of view that several men going on this trip have become interested.

## ANNOUNCES LECTURE ON PERSIA WITH PICTURES

Rev. A. H. Brand to Tell Story of Troubled Land at Regular Sunday Evening Service

The following announcement is made of an illustrated lecture on Persia to be given on Sunday evening next by Rev. A. H. Brand in the First Presbyterian church:

The congregation of the First Presbyterian church will have a grand, rare, interesting and educational Sunday evening service, February 12th, when the pastor will give an illustrated lecture on Persia. This ancient land of Cyrus and Darius; of Xerxes and Artaxerxes, the land of flowers and roses, has been in later centuries overrun by the Mohammedans and since the recent war has been the scene of carnage and death. Here many Armenians have been sacrificed to Mohammedan hate. In countless instances only American missionaries have stood between the Turk and thousands of defenseless men, women and children. The story is one of deepest interest to every Christian citizen. About 75 views of the land will be shown. The public is cordially invited. The hour is 7:30.

## Lieutenant Bracken Back From Siber

### Twin Falls Army Officer Leaves Service After Spending Four Months Overseas

First Lieutenant Leo F. Bracken turned Monday to Twin Falls after spending four months in the military service in Siberia. He was stationed at the interior of the country about 100 miles west of Vladivostok. His post of foreign service was marked by hardships, the routine being no ordinary guard duty. He left Vladivostok, returning to the United States January 2, and spent ten days in a waiting for a steamer, landing in Vancouver last Thursday. On his ship he was attacked with influenza from which he is just recovering. Lieutenant Bracken's release from the service and return at this time for the purpose of taking charge of affairs of his father, the late Mr. F. F. Bracken, president of the State bank. Prior to his entrance in the military service in September, 1915, the bank here. He was commissioned at the second officers' training camp at the San Francisco presidio.

FINALLY JARS LOOSE STATE'S APPROPRIATION

Secretary of Hansen, Bridge Commission Journeys to Boise to Unravel Difficulty and Returns With Warrant

After several months of persistent effort the Hansen bridge commission has succeeded in jarring loose from the state treasury the sum of \$20,000 which was appropriated by the legislature two years ago for use in the building of the suspension span across Snake river north of Tinsias.

Says Records Show Nothing Advised Friday by Secretary of State R. O. Jones that his records showed nothing of this appropriation having been made, C. C. Higgins, recorder of Twin Falls county and secretary of the bridge commission, determined to proceed to Boise with the state officials in their search for the missing appropriation. He returned Sunday with a state warrant for the amount, continued search of the records made before his arrival at the capital Saturday having revealed the whereabouts of the appropriation and the fact that it had never been expended upon by the state board of examiners.

Necessity for the money being forthcoming was made urgent by reason of the fact that the county was confronted with the alternative of securing in or leasing and paying interest on deficiency warrants to meet payments on material for the bridge now on the ground. First Efforts Fail As a deputy in the office of the county recorder Captain E. A. Landon last August undertook to secure the payment by the state of the amount of \$20,000 to be used in the bridge. Negotiation to this end continued until October 24, when, in response to Captain Landon's statement that the commission would draw on the state for the amount of the appropriation unless it were forthcoming at once, Clarence Van Dusen, then state auditor, telegraphed his opinion that the money had been held up by the board of examiners for the reason that the undertaking would require the approval of the war industries board to the sale of material for the bridge had been granted some time previously.

Prepared. A train, running on a line which had achieved an unenviable notoriety for slowness and unpunctuality, after losing considerable time in a short journey, suddenly stopped in the midst of fields. "Guard!" shouted a jovial passenger. "I've got that little green flower!" "I afraid you won't find many about here," said the conductor, good-humoredly. "Oh, there'll be heaps of 'em," replied the jovial passenger. "I've brought a packet of seeds."

Polish Up Your Buttons. To restore the fine pearl buttons to their former color and luster, wash in warm water and soap suds, then dry and polish with a nail brush and a cake of nail polish. Now that it is difficult to get the finer quality of buttons, this method is satisfactory—the buttons look like new.

Work and Workers. There is not so much difference in the world's work as the world's people think. There is a great difference what we are doing—so long as it is useful—that counts as the way in which we are doing it. The work of which we are ashamed we either have no right to do, or we are not doing it as we should.

On Loving. "What I can't understand is that if people want to be loved—and everybody does—why in the name of goodness, don't they do a little loving on their own account? You needn't expect to get what you don't give."—"Kitty Canary," by Kate L. Bosher.

Deep Sea Stuff. He looked her on and asked her to sell the fish. "I'll give you what I want. When she said O. K. (or words to that effect) they launched out with a little smack. A wave of color swept over her cheeks and her eyes swam in tears.

Versatile Nut Tree. In addition to nuts used in confectionery the Indian cashew tree yields an insect-repelling gum, a juice that makes an indelible ink and three kinds of oil, one edible and the others used in tan fishing nets and preservative wood.

Golden Obed. Phillips Brooks said: "He who helps a child helps humanity with a distinctness, an immediateness, which no other help gives in any other stage of human life can possibly give."

November the Holiday Month. November is the popular holiday month, 26 of the 30 being held as holidays by some of the different countries. Many come next with 25 holiday days. READ THE CLASSIFIED ADS. Classified Ads are cheap—effective.

Ancient Time Recorders. Perhaps the first reference to attempts to reckon time by mechanical means is found in Isaiah 38-8, written supposedly about 713 B. C., "the sun of Ahaz." Ptolemy says that Alexander invented a sun dial about 550 B. C. The first sundial at Rome was placed in the Temple of Quirinus, about 288 B. C., when time was divided into hours. The clepsidra, or water clock, was the next time recorder invented.

To Keep Cider Sweet. To keep cider sweet place in each barrel immediately on making, mustard, four ounces; salt, one ounce, and ground-chalk, one ounce. Shake well. Or, cider may be preserved sweet by canning in airtight cans after the manner of preserving fruit. The liquid should be first settled and racked off from the dregs, but fermentation must not be allowed to commence before canning or it will not keep.

Rich Rhine Country. Strange to say, the fine grapes are grown on the eastern slopes of the Rhine and the choicest varieties, as Johannisburger and Steinberger, are produced higher up the river, south of the Rhine province. It is, nevertheless, the land of the vine, especially the Moselle valley. The substantial claim of the province is its mineral wealth.

Just Missed Perfection. When Mrs. Leiguty was at the summit of her beauty and fame she met at a dinner an African king who was visiting London. She did her best to please the dusky monarch and evidently succeeded, for he said to her as they parted: "Ah, madam, if heaven had only made you black and fat you would be irresistible."

Active Volcano. The most active volcano in the world is Mount Sannay, it is 17,180 feet high, situated on the eastern chain of the Andes, South America. It has been in constant eruption since 1728.

A Good Fight. A good fight is never for a day alone. It is for many days. And it is not alone for him who bears its utmost stress. No man can live his own life bravely and not be an energy of social good, virtue proceeding forth from him to heal some brother's wounded heart. There is a ridge here for us to pass.—John White Chadwick.

Doing Well. Pat was digging at his field, which turned out a very rough piece of land. A policeman, looking over the gate, inquired whether he would get any potatoes off it this season. "Well," replied Pat rather cheerfully, "I have 50 stones out up to the present."

Clocks That Speak. Clocks without hands or faces are now common in Switzerland. The time-piece stands in the hall, and when a button is pressed, by means of phonographic arrangements it calls out "Half-past five" or "Five minutes to nine," as the case may be.

Dire Day in Russian History. November 30 is the anniversary of the defeat of Peter the Great in 1700 by Charles XII of Sweden. The Russian monarch had 40,000 troops against the 6,000 of his opponent, but the superior generalship of the Swede more than balanced the numerical superiority of the czar.

Eraser Hint. When the eraser becomes well worn it is apt to smear the paper when it is used for writing a letter. To avoid this simply rub a little chalk on the edge of the eraser and no smearing will occur; and the erasure of the letter will be done much more quickly as well as more neatly.

#### One Reason Girls Steal

This bit of philosophy of a young  
girl which was contained in an article  
in the People's Home Journal on the  
value of the probation law: "A girl  
can no more live without a few play-  
ures and pretty possessions than she  
can without food. Take it from me,  
girls don't want to steal. If they knew  
how to earn things for themselves,  
they wouldn't be bad. Some day there'll  
be a way found for girls to earn what  
they need before they get into trouble  
not after. Then the whole world'll be  
different."

#### Good Explanation.

After looking over a vacant house  
which belonged to a young girl, she  
heard them discussing the rooms. All  
the rooms were expensive and rather  
dark, with the exception of the din-  
ing room, which was very small and  
naturally lighter than the others. Will  
she said: "yes, I guess the dining room  
was the lightest because it was closest  
to the windows."

#### Goodness.

I think that most of my readers  
will agree with me that, notwithstanding  
the all-prevalent evil which in a  
thousand shapes haunts the footsteps  
of our race, good is still the mightiest  
power in the world, and, if its mightiest  
strength could be concentrated and  
directed, would go far towards effect-  
ing a reformation of the world.—Sir  
H. Rider Haggard.

#### The Hornpipe.

The "hornpipe" is an old English  
dance peculiar to England. In fact  
one might almost say it was the chief  
dance of the British sailor, and is still  
Modern "hornpipes" are in common  
time and of a more lively character  
than the ancient form. It is supposed  
to have received its name from the in-  
strument which was played during its  
performance.

#### Removing Ink Stains.

To remove black ink stains, the article  
should be washed immediately in  
several waters and then in milk let-  
ting it soak in the milk for several  
hours; the stain will disappear. Wash  
the article immediately in vinegar  
and water, then in soap and water, will  
remove all ordinary ink stains.

#### Passed Away.

Notice in the country store—We re-  
gret to inform our honored customers  
that our good and generous friend, Mr.  
Credit, expired today. He was a noble  
soul, always willing and helpful, but  
has been failing for some time. May  
he rest in peace. Pay cash.—Boston  
Transcript.

#### Chance for Trade in Japan.

The native Japanese door slides on  
a rail or track, and is said to answer  
all purposes, but despite the fact that  
the scheme is perfectly satisfactory  
the importation of door hinges is in-  
creasing. The Japanese are very  
ready to adopt almost any of the meth-  
ods or implements which come from  
the western world.

#### Beginning of Pittsburgh.

November 25 is the anniversary of  
the raising of the English flag over the  
ruins of Fort Duquesne in 1754. The  
place was then named Pittsburgh. In  
honor of Britain's famous prime minis-  
ter. It owes its great growth to its  
proximity to coal and iron fields of  
vast magnitude.

#### Stomach Trouble.

Edna, four-year going next door  
her auntie. She was told by her moth-  
er not to eat anything while there  
as her stomach was upset. When she  
came in she said, "Auntie, mamma said  
I shouldn't eat anything because my  
stomach has tipped over."

#### Passions' Growth.

Let me not forget that the power  
and joy of sacrifice grow upon those  
who exercise it. Pure passions grow  
as well as dark ones.—W. L. Watkin-  
son.

#### Some Facts.

Lants makes the amazing estimate  
that the progeny of a single couple (at  
rates), if undisturbed, would number  
20,000,000 in three years, and this  
number is even beyond the theoretic fig-  
ures.—Scientific American Supplement

#### Appreciated Cuts.

When Mulai Infil, sultan of Moro-  
cco, succeeded to the sultanate he  
found the sacred city of Fez infested  
by rats. Without any loss of time he  
at once nationalized all the cuts of  
horses and issued a command that  
many thousands of them should be  
brought into Fez for service. For some  
time a law has existed in Hongkong,  
making it compulsory to keep cats in  
every house, the number varying ac-  
cording to the size of the house.

#### Don't Tease Child.

Teasing has ruined the disposition  
of many a child. The parents are not  
likely to be guilty of such conduct, but  
older children in the family, or some  
other relative, may make the child's  
life utterly miserable by constant tea-  
sing. A thoughtless adult, intending to  
be playful, will keep a child struggling  
for some object, almost allowing him  
to get it over and over again, only to  
thwart the child's purpose, and so  
causing a wearing irritation.

#### Odd Foods.

Sea urchin eggs are used in Cer-  
lon as we eat raw oysters here. The  
Mexicans use a variety of scorpion,  
after removing the sting, in a speci-  
sort of omelet, to which they add a  
peculiar sort of peppery flavor. I  
large variety of locusts and grasshoppers  
are dried, then cooked, by people  
in portions of India, Arabia and Syria.

#### The Guitar.

The guitar is an instrument of six  
strings, viz. E, A, D, G, B, E. The  
strings, if sounded together, would not  
make a chord according to the rule  
of modern harmony. It is not a diffi-  
cult instrument to learn and its chief  
use is in accompanying another instru-  
ment or the voice in singing.

# MAKES PLANS TO RE-GAIN CONTROL

## Partisans Will Try Again Thursday to Seize the German Government

BRUNNEN, Feb. 4.—The Spartacists will make another attempt Thursday to seize the German government, according to the Vorwarts. Their leaders, the newspaper said, will go to Wilhelmshaven Brunswick and other communist centers to bring their partisans to reinforce the Spartacists in Berlin. The government opponent of the plan, has greatly increased guard about the reichstag building and other public edifices. The new revolt, it was alleged, will be headed by Deputy Hoffmann, aided by Karl Radek, the Russian-Bolshevik leader.

### Plan Timely Setting

The proposed coup is timed with the opening of the national assembly at Weimar. Reports have been received several days past that the Spartacists will also attempt to prevent the assembly from convening. The government is taking every precaution to strengthen the assembly. Several battalions of artillery were added to the garrison there today. Spread of the Spartacist movement in other parts of Germany was indicated by dispatches reporting seizure of the government buildings in Koenigsberg and proclamation of a state of siege in honor by the soldiers and workmen's council. It was reported that government troops offered no resistance in Koenigsberg. Martial courts have been instituted in Thorn.

## FREE INSURANCE FOR COMPANY EMPLOYEES

### National Oil Company Works Out Plan for Benefits of Long Service Men

DENVER, Feb. 4.—Employees of the National Oil company of Denver have been provided with free insurance since January 1 by a new plan formulated by the directors of the company more than one year. The plan provides a liberal annuity and retirement policy designed to reward long service. The insurance is provided, without cost to each and every employe, high or low, who has actively served the company more than one year. The minimum benefit has been placed at \$1000, the minimum at \$3000. It is provided that the beneficiary does not have to be a relative, but any person whom the policy-holder may choose.

## GATCHERE IS PURCHASED

ST. LOUIS, Mo., Feb. 4.—October 19th Mayor of the Boston Red Sox is purchased today by the St. Louis Browns, Business Manager Quinn announced. The Red Sox tried for Dave Brown, but the Browns refused to part with the tall hurler.

## SERVICEMEN AS INDIGENTS ARE NOT CONSIDERED

It is stated that the bill would not be made from captured German arms.

Miller, of Twin Falls, is the author of a bill providing for transfer of war rights which have been made apparent to lands under the Cerdia act.

The bill abolishing capital punishment was killed this morning in the Senate through an amendment which struck out the enacting clause. Several members who favored the bill voted for the amendment, not knowing its purpose.

## Discovery of Rubber.

The rubber tree was discovered by a peasant missionary, Father Mancoelco Vesperanza. He found it while on one of his apostolic journeys among the Guaranis Indians of South America. He gave it the singular name of the seringueira, because he remarked that the savages used the sap of this tree. This hardens quickly, to make rude articles that were shaped like a syringe.

Speaking of Jawbreakers. One is reminded by the word whose origin is celebrated by Descriptus (and which, by the way, is a civilized language is called "ese majeste"), of another esquispaldian term which has one out of style. Canonics tells us that "vermological inexactitudinarian" is the longer and prettier phrase and has been supplanted by a shorter and uglier word.

to use the classified advertising columns—for the expense, as compared with the value of the result secured, is trivial. It would be worth a great deal to you to secure a position carrying a higher salary and better opportunities—and it would cost a trifling sum. It would be worth a great deal to you to find a desirable tenant for vacant property—or to find a purchaser for used articles of value—while the cost would not even momentarily embarrass you. Try them. Results cost but 2c a word.

## Long-Lived Clock.

The life of a clock is much longer than that of any other machinery. The city of Rouen has a great clock, built in the year 1389 and still keeping good time. Except for cleaning and a few necessary repairs it has never stopped during a period of more than five centuries. It strikes the hours and chimes the quarters.

## Valuable Tree.

A wonderful tree, known as the sheba, is beginning to attract commercial attention in western Africa. It supplies the native not only with nuts, which they highly prize, but with a butter that may become an article of commercial importance. It is already exported to Europe, where makers of artificial butter find use for it.

## Paint on Window Glass.

To remove paint or varnish from window glass. Keep the spots moistened till soft, with turpentine and ammonia; then rub with coarse cloth dipped in coarse salt. Or moisten spots with hot soda dissolved in hot water. Then scrape off. The edge of a coin is sometimes used.—Housewife.

## Only American Flag.

There are flags made of red, white and blue stripes, but the American flag has not only the stripes made in certain proportions, and number, but the stars are well arranged upon a blue field in certain proportions in a certain order. No one should mistake such bunting for the American flag.

## Bracelets for Lunatics.

Bracelets have been worn from time immemorial, but few wearers of the golden bands of the present day know that they were once used to distinguish the insane. Before lunatics were confined to asylums they wore an armband for distinction.

## Gold Once Little Valued.

Rev. Dr. W. E. Griffin says that it is historically true that in early Japan there were houses roofed with gold. For centuries, he says, gold had little more value in Japan than in South America when Balboa sought the Pacific. Even until 1839 gold was worth only four times as much as silver.

## Changed Cars.

A little girl was greatly pleased over the opportunity to accompany her mother on a visit to the city, where they spent a few days, and upon her return to her home she said: "Oh, daddy, we had such a nice time; we went in the sleeper and we came home in the sifter."

## Lava Warm After Thirty Years.

Newly ejected lava from Vesuvius has been tested and found to be at a temperature of 1,500 degrees Fahrenheit. On the volcano's slopes lava from various outbursts are definitely isolated, and even now lava thrown out 30 years ago is quite warm.

# Where Beauty Is More Than Skin Deep

**Black Tread Red Sides**

WE never saw a motorist who wouldn't admit that the Black Tread and Red Sides combination in Diamond Tires makes the handsomest tire equipment he ever saw.

But we're here to tell you that you can't see the real beauty about Diamonds—their husky strength and long mileage. You read about it on your speedometer after thousands of miles.

Take our "tip"! Try one Diamond! It'll cost you less than the average tire, and before long, you'll want Diamonds "all around".

Diamond Tubes don't deteriorate while you carry them as "extras." They hold their life for years.

## SQUEEGEE TREAD TIRES

**The Fragrant Weed.**  
The use of tobacco was first discovered in America when Columbus, in 1492, sent his first party to explore the island of Cuba. It was first observed that these herbs were burned and carried by the natives to perfume themselves. It was later discovered that these herbs were also used for chewing, and later as America was opened up and explored, it was observed that they were smoked in large quantities.

**Fault-Finding.**  
Why should we denounce fault-finding because it is not constructive? All of us are continually finding fault, more or less, and on our success in finding the fault and destroying it depends mostly our successful development. So in the end it appears that fault-finding is essentially one of our most constructive activities. One of our worst faults is the hypocritical practice of finding fault with faulty judgment.—F. H. Young in Providence Journal.

**Enough Said.**  
Brother and sister were parted for the first time, he going on a month's trip with their mother and father and she to spend the month with their grandparents. The leave taking was rather strained, as neither one of them quite knew what to say. Finally little brother walks up and putting his arms around his sister said: "Marry, I'm your brother an' you're my sister."

**Real "Handy Man."**  
A Tasmanian Jack of all trades claims that he is a hairdresser, tobacconist, cycle repairer, electrical certified engineer, certificated marine engine fitter for the Derwent, organist and choirmaster, stencil cutter, freeworker, billiard ball keeper, proprietor of a circulating library, and is manager of the local town hall.

**Ever Tried It?**  
Hint the excitement of being in love is trying to make the other person confess it while you assume a careless indifference.—Record.

**Optimistic Thought.**
