

## EUROPE TRIES TO GIVE AWAY HER TROUBLES

Nations Want the United States to Assume the Responsibility of Controlling Part of German Colonies

### MUST PROVIDE FINANCE AND GOVERNING BODIES

Many Difficulties Will Come Before the League of Nations in Its Early Years and Must Be Met With Wisdom

By J. W. T. MASON

NEW YORK, Feb. 5.—Europe is bringing constantly increasing pressure to bear upon America's peace delegates to persuade them to consent to the United States' becoming a part of the league for the administration of part of the former territory of the central powers.

#### Strong Influence Used

Not only are the American peace delegates themselves being subjected to this influence, but persuasion from abroad is being exerted directly upon the American people. Europeans are saying that since President Wilson demands a new form of national administration, which would make the league of nations the guardian of many undeveloped parts of the earth, the United States cannot, in fairness, refuse to shoulder part of the expense and responsibility. Each nation accepting from the league any part of the world to govern will have to finance the government itself and provide the governing officials by its own devices. A new ethical responsibility is mankind will thus belong to this form of administration and Europe is charging that America cannot escape this new moral leadership if President Wilson rejects a sacrifice from the league of nations to spread abroad American ideals.

#### Want America Responsible

European statesmen want the United States to assume responsibility for the government of part of Asia Minor, especially because there are various rivalries among certain old world powers concerning their claims upon Turkey, France, Italy and Greece all have expansionist ambitions in the near east. If the United States were to step in, the other nations would accept America's occupancy as a compromise which would put all of them on an equal plane.

#### Mutual Support

Great Britain wants America to take over the administration of part of Turkey in Asia, because the United States would be a more congenial neighbor for the British than would any other power. Great Britain, in all probability, will be the league of nations' agent in Mesopotamia and perhaps beyond. If American administrators were to be in control of nearby areas, no real difference of ideals would exist to hamper mutual support.

#### Will Meet Difficulties

The league of nations must be prepared to encounter many difficulties in its early years of being. Not the least of these will be the methods to be developed for governing the league's colonies in the interest of the inhabitants thereof. Those nations that are most successful in spreading liberty and freedom as the agents of the league will become the world's most influential inhabitants. A friendly rivalry in democracy among the league's colonial mandatory might in fact become the corner stone of the league's success.

## Neighbors Find Man Murdered By An Axe

Burning Home Contained Body of Owner With His Head Split By Weapon

OURAY, Colo., Feb. 5.—A gruesome murder was discovered here last night when neighbors attracted to the burning home of Sam Lang found his body in his bed, his head pounded and split open. Police today were still without any definite clue to the murder. The body was not injured by the flames. Robbery is believed to have been the motive and Lang's assailant is believed to have set the fire to hide the crime. The bedcovers were found carefully drawn over the corpse.

#### WILL PRESENT REPORT

WASHINGTON, Feb. 5.—The \$6,000,000 revenue bill conference report will be presented to the house Thursday. Representative Kitchen announced today. Kitchen hopes to obtain almost immediate consideration and adoption of the report.

## FATE OF GERMANY WILL BE DEFINITELY SETTLED BY NATIONAL ASSEMBLY

Fate of Nation Rests Largely Upon Outcome of Deliberations of First Congress of New Republic to Be Formally Opened at Weimar—Maze of War Problems Engendered by War Lords to Be Settled by German People

By FRANK L. TAYLOR

WEIMAR, Feb. 5.—The fate of Germany, nationally and internationally, hangs on the results accomplished by the national assembly, which formally opens here Thursday. The assembly, which really is the first congress of the new republic, must untangle the intricate maze of problems brought about by the war; a group consisting largely of farmers, mechanics and other common people must undo the work of Germany's former rulers—the war lords and their junker supporters.

#### Political Sabotage

A minority of disgruntled members have already opened a campaign of political sabotage to prevent the assembly from accomplishing its purpose, but the government, with the vast majority of the people behind it, is determined that nothing shall interfere with stabilization of political and economic conditions and is prepared to go to any extreme to protect the assembly.

#### Weimar was actually the capital of Germany today through the presence of Chancellor Ebert, his cabinet and their entire staff, who have arrived here from Berlin.

Ebert himself will open the assembly Thursday, with an address to the various bureaus, each of which has some particular phase of reconstruction to work into concrete form for presentation to the delegates as a whole. Philip Scheidemann is scheduled to begin the political debates Saturday.

#### Many Grave Dangers

There are many grave dangers in the assembly's work, any of which might disrupt the proceedings. There is the contest between the Prussians and the south German for domination of the new republic. There is the campaign to remove the capital from Berlin preferably to Weimar. There are the political jealousies which will arise when the various factions unite in coalition.

#### Probably the most serious situation confronting the assembly is the breakdown of transportation, the shortage of raw materials and depletion of national funds, all of which combine to render social as well as economic reconstruction most difficult. Every public utility and most private industries are on the verge of collapse, owing to the financial straits of war conditions. The treasury has three million gold marks with which to pay twenty-five million dollars in notes. The railroads and factories have been without adequate repairs for several years.

#### Raw Materials Scarce

There is a lack of raw materials and want of outlet for the manufactured products that are on hand. The workers have demanded better wages. Innumerable cases when they were refused they seized the factories and divided the money in vaults, making millions of dollars on the pretext of "communist" looting.

#### This atmosphere is breeding the communist and Spartacist spirit.

Aside from isolated outbreaks there it a temporary calm, but the radicals claim they lost the national elections only through lack of organization.

#### Return of American soldiers, elimination of militarism, complete removal of repressive measures upon speech and the press, protection and fostering of American business and commerce against any and all foreign aggression and inauguration of a domestic program of betterment for all the people.

#### Senators are Planning a Campaign to Out-talk Bolshevist Propagandists in This Country

WASHINGTON, Feb. 5.—Progressive senators today planned speaking tours after March 5, to advocate a number of measures intended to make the people more satisfied and render it more difficult for Bolshevist propagandists to find hearers.

#### Senators Borah, Hiram Johnson, Kenyon and Poindexter are the ones who will probably do the campaigning.

Borah outlined his message to the people as follows: "You can do whatever you want to do with your government without inaugurating a reign of bloodshed, wholesale assassination and destruction of property. You have the ballot. Upon your use of it depends the measure of your freedom, your happiness and prosperity."

#### These measures these progressives advocate are:

"Return of American soldiers, elimination of militarism, complete removal of repressive measures upon speech and the press, protection and fostering of American business and commerce against any and all foreign aggression and inauguration of a domestic program of betterment for all the people."

#### Association Would Take the Atlantic to the Great Lakes Region

WASHINGTON, Feb. 5.—"Take the Atlantic ocean to the heart of the continent," is the slogan of the Great Lakes-S. Lawrence's idewater association, formation of which will be completed here today.

#### The purpose of the association is to promote the project to deepen or enlarge the St. Lawrence river jointly with the Canadian government by making use of the new Welland canal connecting Lake Erie and Lake Ontario, to enable ocean steamships to move to and through all of the Great Lakes.

## Cruisers Go to Protect Supply Of Foodstuffs

Valuable Cargo Will Be Guarded By British and American Ships

BERLIN, Feb. 4.—(Delayed)—Four British and American cruisers have entered the Elbe, en route to Hamburg, to protect steamers loaded with foodstuffs, it was reported here today.

Several large cambers have left Koenigsburg bound for London. Hamburg is expected to be the central distributing point for food supplied to Germany by the allies.

## PLAN MEANS OF ENFORCING OF LEAGUE ORDERS

Matter of Compelling Obedience to Mandates of Combined Powers Occupies Attention of Peace Delegates

### MILITARY AND NAVAL POLICE IDEA IS UP

Many Schemes Suggested Including That of Organized International Force Under Single Commanding Head

By FRED S. FERGUSON

PARIS, Feb. 5.—The special committee which is drawing up the constitution for the league of nations agreed provisionally last night to the preamble and two of the articles, it was officially announced today. Satisfactory progress is being made on other parts of the draft.

PARIS, Feb. 5.—The peace delegates were working today on the most difficult part of the constitution—the creation of the league of nations—the force with which the league will make its decisions effective. Opinion seemed to be divided as to whether this force should be moral or physical. Many plans had been submitted, ranging from complete abolition of armaments to organization of an international military and naval police under a single commander.

The plan finding the greatest support among responsible delegates, however, provided for no such radical device.

## SOLDIERS' MEMORIAL DECIDED ON RAISING OF FUNDS TO START IN

Mass Meeting of Delegates Representing Majority of Organized Lodges, Clubs, Societies and Associations of Twin Falls County Vote in Favor of Monument at Shoshone Falls

### ELABORATE DRIVE SYSTEM PLANNED ALONG RIM OF SNAKE RIVER CANYON

Initial steps toward the improvement of the state park created ten years ago at Shoshone falls and the erection there of a monument bearing the names of the men of this county mustered into the military service in the war against Germany were taken at a meeting Tuesday evening in the high school auditorium of about 300 accredited delegates from sixty churches, lodges, clubs and other organizations of the county assembled for this occasion pursuant to call of the county council of defense to determine the form of memorial to be erected to honor the service men of the county.

#### Vote Is Unanimous

The suggestion adopted for the memorial, adopted by practically unanimous vote of the meeting, was made by C. D. Thomas, chairman of the delegation from the Elks lodge, who stated that \$200,000 could be raised in the county for the purpose.

#### Creates Association

A permanent memorial association to carry the suggestion into execution was created at the meeting to consist of one representative from each of the various organizations of the county. E. J. Sweeley of Twin Falls, who as mayor from Twin Falls county last year ago, was largely instrumental in securing the Shoshone falls state park, and who was elected chairman of the memorial meeting, is president of the association. H. B. Grant of Twin Falls is secretary. A meeting of the association was announced to be held on Tuesday evening next, in the auditorium.

The meeting adopted a resolution offered by E. M. Wolfe creating a committee to present a request in the form of a bill to the legislature to appropriate \$50,000 for the improvement of the Shoshone falls state park. Under the terms of the resolution, M. J. Sweeley was named chairman of the committee. He was also the other members, E. M. Wolfe and former Senator R. E. Stevenson.

#### Consummation Monument Bill

A resolution proposed by Captain E. M. Sweeley, representing the recently organized Service Men's Club, adopted by the meeting by the name of Governor Davis and by the members of the Twin Falls county legislative delegation condemns the proposal made in house bill No. 46 appropriating \$50,000 to provide for the erection of monuments of uniform type in each county. It is a cost of \$2,000, one half of which was to be paid by the county.

#### The resolution declared that "whether this county or any other county in the loyal state of Idaho is, so lacking in appreciation or in initiative in the proper recognition of the services rendered by her sons in the war against Germany as to be dependent upon quarterly production of veterans' day."

The proposed legislation was referred to by Captain C. L. Longley as the "job lot monument bill" and a measure that was absurd, ridiculous and deserving of no further consideration.

#### Decision Outgrown Arrangement

The meeting was called to order after two numbers given by the Twin Falls band, by E. J. Ostrander, chairman of the county council of defense acting as temporary chairman. N. J. Sweeley was elected temporary chairman without opposition, and H. B. Grant was elected secretary over P. E. Kennison and E. J. Finch.

The report of the committee on order of business consisting of C. D. Thomas, John E. Davison and Captain C. L. Longley was amended on motion of E. M. Wolfe to permit of each delegation casting three votes. The amendment was rendered unnecessary by the unanimous vote on the suggestion adopted.

#### Longley Opposes Discussion

The chairman called upon Captain C. L. Longley to open the discussion. Captain Longley paid his response to what he termed the "job lot monument bill" and declared that there were sure to be almost as many ideas respecting the form the memorial should take as there were individuals present. He said that he personally favored the erection of a memorial building, rather than a monument, but that any suggestion made here would have to stand on its own merits. He declared against the memorial being tagged with other than the memorial purpose. It should be, he said, a structure that could not but embody anyone coming in contact with it with its purpose.

#### Would Typify Ideal

Hal G. Bine, superintendent of schools, a delegate from the Elks lodge, said he had a suggestion toward attainment of a sufficient purpose and for the erection of a memorial "big and broad in its conception."

## WORLD NEWS EVENTS

GENOA, Feb. 4.—(Delayed)—Iron and steel manufacturers here today granted their employes an eight-hour day effective May 1.

LONDON, Feb. 5.—A news agency dispatch from Dublin today reported that all Sinn Feinners interned in England will be released immediately.

OPENHAGEN, Feb. 5.—Marie Theresa, former queen of Bavaria and widow of "mad king" Otto, is dead, according to a dispatch received from Munich today.

MEXICO CITY, Feb. 5.—Ernesto Garza Perez, sub-secretary in charge of the Mexican foreign office, stated today that the Mexican government has recognized Arthur Von Magnus as charge d' affaires for the German government. Von Magnus formerly was employed at the German legation by Von Eckhardt, late German minister. This is looked upon as recognition of the Ebert government.

## Would Let Down Ban on Business Leaders Favor Relaxation to Meet the Unemployment Situation

WASHINGTON, Feb. 5.—Republican congressional leaders today favor relaxation of present restrictive laws on business as a means of meeting the unemployment situation.

They are opposed to the Kenyon bill creating a public works board and appropriating \$100,000,000 to start public work and given man employment.

In spite of the opposition, Kenyon is going ahead. He urged the senate labor committee today to report his bill favorably as an emergency measure. He explained that the \$100,000,000 fund was used only for public works already authorized but held up by the war and now delayed by the cost of materials.

#### ARES LABOR BOARD DEBITION

NEW YORK, Feb. 5.—Bethlehem Steel company, according to an announcement today, has abandoned its policy of refusing to deal with its employes as a body in wage disputes and the war labor board's decisions will be accepted as a basis for settlements.

#### GOVERNMENT TROOPS

WASHTON, Feb. 5.—Government troops have captured the Bremen town hall and most of the public buildings. It was reported in dispatches received here today. The Spartacists are said to be retiring.

#### BIG NAVAL BILL LEADERS FEEL SURE OF SUCCESS

Opposition in the House Failed to Materialize After the Committee Report

WASHINGTON, Feb. 5.—Managers of the big navy bill today were confident they would have their measure through the house by the last of this week and ready for action by the senate.

Long threatened opposition in the house has failed to materialize since the unanimous report by the house naval affairs committee.

#### PROMINENT MAN MAY BE A PROPAGANDA WITNESS

Former Secret Service Head May Be Called in the Bolsheviki Investigation

WASHINGTON, Feb. 5.—William J. Flynn, former head of the United States Secret Service probably will be one of the first witnesses when the senate begins its probe into Bolsheviki propaganda in this country.

The senate committee, it was stated today, also will call upon the files of the war department, designated as secret by Secretary Baker. It was said the secretary has ordered the intelligence section to give no more information to the investigating committee.

# POLE AND CZECH FORCES WARNED BY CONFERENCE

Official Communique Is Issued By Peace Delegation to Quarrelsome Nations on Territorial Disputes

## SETTLEMENT SHOULD BE LEFT TO PEACE MAKERS

Thinks it Necessary to Send a Commission of Control to the Spot to Avoid Further Conflict

PARIS, Feb. 5.—The following official communique was issued on the territorial disputes between the Czechs and the Poles:

"Report of Polish-Czech-Slovakia agreement. The representatives of the great powers having been informed of the conflict which has arisen between the Czechs and Poles in the principality of Teschen, in consequence of which the mining district of Ostrava, Karwin and the railway from Odeberg to Teschen and Jablungkau has been occupied by the Czechs, have declared:

"In the first instance, they think it necessary to remind the nationalities who have engaged to submit the territorial questions which concern them to the peace conference; that they are breaking its decision to refrain from taking as a pawn or from occupying the territories to which they lay claim.

"The representatives take note of the engagement by which the Czech delegates have declared that they were definitely stopping their troops on the line of the railway which runs from Odeberg to Teschen and Jablungkau.

"Pending the decision of the peace conference as to the definite assignment of the territories that part of the railway line to the north of Teschen until the mining regions will remain in the occupation of Czech troops, while the southern section of the line starting from and including the town of Teschen is to be left to the military supervision of the Poles.

"The undersigned consider it indispensable that a commission of control should be immediately sent to the spot to avoid any conflict between the Czechs and the Poles in the region of Teschen, this commission apart from the measure that it will have to prescribe, will proceed to an inquiry of the basis of which the peace conference may form its decision in fixing definitely the respective frontiers of the Czechs and Poles in the contested zone.

"In order to seal the entente between two friendly nations which would follow a policy in full accord with that of the allied and associated powers, the representatives of the great powers register the promise of the Czech representatives that their country will put at the disposition of the Poles all its available resources in the material and will grant to them every facility for the transit of arms and ammunition.

"The exploitation of the mines in the Karwin Ostrava district will be carried out in such a way as to avoid all infraction of private property. While reserving any police measures which the situation may require, the commission of control will be approved to supervise this and if necessary, to secure to the Poles that part of the output which may be equitably claimed by them to meet their wants.

"It is understood that the local administration will continue to function in accordance with the conditions of the pact of November, 1918, and that the rights of minorities will be strictly respected.

"Pending the decision of the peace conference, political elections and military conscription will be suspended in the principality of Teschen.

"No measure implying annexation of all or a part of the said principality either to the territory of Poland or of Czechoslovakia taken by interested parties shall have binding force.

"The delegates of the Czech nation engage to release the Polish prisoners in accordance with the conditions of the pact of November, 1918, and that the rights of minorities will be strictly respected.

## HOUSEWIVES ON TRIAL OF FOOD PROFITEERS

American housewives are now on the trail of food profiteers. Mrs. Ellen Heath, president of the National Housewives League, has issued an order asking all housewives in the land to boycott all retail food dealers who have not reduced prices to conform with the reductions made by the wholesalers. It is reported that great stores of foodstuff are being hoarded in an attempt to keep prices up and save the food speculators millions invested under war conditions.

## WILSON FAVORS NAVY PROGRAM

President Still Advocates the Three Year Building Plan Be Authorized

WASHINGTON, Feb. 5.—The president still adheres to his desire for a large navy and is "insistent and earnest" that a new three year building program be authorized. Chairman Faggett of the house naval committee, told the house at the opening of debate on the new navy bill.

Mr. Faggett said, was the sense of a cable from the president to Secretary of the Navy Daniels and was the chief factor in causing the house naval committee to submit an unanimous report.

He refused to give the text of the president's cablegram to the house but denied the words "fatal to my negotiations" had been used in a way made public today.

"Don't you think the house ought to know the reasons that caused members of the naval committee to change their minds?" Representative Mann of Illinois asked.

Representative Longworth, of Ohio, read from the speech of the president, in which he said that the congress will "know all that I know."

Faggett said that any story that he or any other committee member had a message from the president was inaccurate.

## SENATOR OPPOSES TO PRIVATE OWNERSHIP

WASHINGTON, Feb. 5.—Chaos will result if railroads are turned back to private operation at once, Senator Kellogg told the senate interstate commerce committee today.

He took sharp issue with Director General Hines, who contended that the lower state rates could be set aside by the interstate commerce commission if government control is abolished.

Kellogg held that under private operation, present high state rates ordered by the commission will be abandoned and a severe revenue drop.

## MEASURE FOR STATE WIDE QUARANTINE PASSES SENATE

OLYMPIA, Wash., Feb. 5.—Without a dissenting vote, the state senate today passed the amended measure providing for state wide quarantine of vice disease victims. The bill now goes to the house with the approval of United States public health officers who have been here for more than a week to help iron out objections of opponents.

The measure as passed permits an appeal to the state commissioner of health if the victim believes he is not afflicted.

## AUTHOR'S WIFE IS IN HEALTH SANITARIUM

SAN FRANCISCO, Cal., Feb. 5.—Mrs. Inez Hayes Gilmore Irwin, wife of W.H. Irwin, and the author of a number of well known books, was operated on last night at Adler's sanitarium for stomach trouble following a nervous breakdown.

The operation, physicians said, was a success and her recovery is assured. Mrs. Irwin came here a month ago from New York.

## MANAGER OF FLEET CORPORATION RESIGNS

WASHINGTON, Feb. 5.—Admiral Francis T. Bowles resigned today as assistant general manager of the Emergency Fleet Corporation. It was announced. Bowles will return to private life, taking up work with some shipbuilding corporation.

For eight years Bowles was chief of the division of construction of the navy. His successor has not been selected.

# SENATE FEARS ANTAGONISM OF FARMER VOTERS

### Solons Hesitate About Speaking Convictions in Respect to Application of Provisions of Compensation Act

(Special to The News)  
BOISE, Feb. 5.—When Senator Mason's bill was introduced, it was the workmen's compensation law, he started a battle in the upper house that may have far-reaching effects.  
Mason would strike out "agricultural pursuits" from the list of exemptions and he intends to make a strong fight to have his desires prevail. When the bill was passed at a previous session there would have been a question of its passage had the compromise not been made with the farmers.  
What started the rumpus at this time was the effort of Senator Orms to have livestock interests also exempted as well as agricultural pursuits. The bill is by Porter of Utah who wanted the school teachers and office employees in the select class of those who did not have insurance.  
After the committee of the whole got through with the bill at the afternoon session they had taken out the line which exempted the school teachers and office employees at the request of the author of the bill.

### Favor No Exemptions

It was following that action that Senator Mason made his fight and the senate adjourned in the middle of it to think over for a day what action is best for me to take.

It is certain that a majority of the senate favor having compensation to all classes of workmen. They see in this the only way to build up a reserve and reduce the cost to the employers of labor. But there is the feeling that it may not be best at this time to antagonize the farming element. In other words, the majority is not sure that it wants to be antagonized.

On the other hand, there is not a business man in the senate who does not believe that it would be the right thing for the farmer to keep him protected and with this protection the plan would be better financed. One senator said on the floor yesterday: "I do not doubt that farmers would want this protection if they understood it. They think they must take out a policy every time they hire a man for a few days extra work, but this is not true. They can estimate what their labor bill is going to be for the year and get one policy to cover it. They can estimate the cost them more premium while if they pay out less the money will be returned to them. One accident on a farm might cost the farmer ten times what the policy would cost in ten years. They ought to be in the line."

### Forecast is Difficult

It is difficult to forecast what will be done by the senate on the compensation bill. The bill is being killed for political reasons and through a desire not to antagonize the agriculturist.

## SPEAKS HIS MIND ON COUNTY DIVISION BILL

### Representative Greenwood of Minidoka Makes Brevve Comment on Legislative Act

BOISE, Feb. 5.—Representative Greenwood of Minidoka county did not hesitate to say a lot of things every time the Jerome county bill made its appearance in the house. The bill finally passed Monday with many votes to spare and creates the forty-third county in the state.

Among the charges made by Greenwood are: Bing of politicians wanted the county; false telegrams were sent; large amounts of money were spent in entertainments and "putting it over". He also wanted to know where the money came from and said the legislature was using the same methods as the governing powers in Germany used in Alsace Lorraine.

Despite, however, the strong opposition to the bill, the house lost no time in its passage when Representative Hall moved the previous question.

## AMERICAN AGE IS GIVEN BIG WELCOME AND BANQUET

### BIG FIGHTER MAKES HIS RING DEBUT

OMAHA, Neb., Feb. 5.—Harry Williams, who several years ago held down first base for the New York Yankees, made his debut in the ring here. Williams announced he is ready to take on all comers in the heavy weight class. Williams fought two of the best heavies the Fort Omaha "balcon" school boasts of. Colonel Wuest, commandant of the fort, stopped his bout with Eddie Becker in the second round to save Becker from a knockout. Billy Owen then went on with Williams, but lasted only one round, his seconds throwing up the sponge.

### ARMS INVESTIGATION OF WAR DEPARTMENT

WASHINGTON, Feb. 5.—Investigation of the war department is demanded in a resolution introduced in the house today by Representative Siegel, New York, asking that Speaker Clark appoint a committee of eight for the purpose.

### REPROUDIABLE UNIONS

LEWISBURG, Mass., Feb. 5.—The general committee of striking textile workers here indicated today that it had repudiated the American Federation of Labor and the United Textile Workers of America. Fear is growing that the committee, composed chiefly of radicals of the foreign element, will turn to the U. W. for support and guidance. The strikers are now being led by Kaplan, who has ignored the unions.

### BIG SUM OFFERED

NEW YORK, Feb. 5.—Tex Rickard will offer Jack Dempsey \$25,000 to fight Joe Willard on July 4 and in addition will give him one-third of the receipts for moving pictures of the fight, he announced this afternoon. Rickard will meet Jack Kearns tonight to make the offer. He said the fight would not be held in New York.

### MANY ARE SUBORNED

## TO INVESTIGATE BOLSHEVIK PLAN

### Senate Has Ordered Propaganda of I. W. W. and Others Searched

WASHINGTON, Feb. 5.—For the first time taking official notice of the Bolsheviki propaganda in the United States, the senate Tuesday ordered a sweeping investigation of all Bolsheviki activities. The investigation is to determine:

1. Who is paying for propaganda for the overthrow of the United States government and the substitution of a soviet government.
2. What steps the government has taken to combat this propaganda.
3. What law congress should enact to clean out the Bolsheviki.

The senate laid aside its regular business to discuss Bolshevism and when Senator Walsh, Montana, proposed a resolution directing the "propaganda probes" to continue their inquiry by going into Bolsheviki activities there was not one dissenting voice.

Pointexter, Washington, introduced a resolution calling on the attorney general to report to the senate what steps he has taken regarding activities of the Bolsheviki in Washington, particularly regarding public meetings in a leading hotel and in the Masonic temple at which the Russian soviet government was praised and the American government sneered at.

"This republic is worth all other forms of government," Senator Borah said. "We have got to implant in our hearts and minds the spirit of American free, and that alone will keep us free."

"If we are to destroy Bolshevism and I. W. W. men, let us, every one, when congress adjourns on the fourth of March, volunteer and go on the rostrum and preach republicanism in every corner of the United States and have a revival of faith in our republican institutions."

# PREFERS ROOM OF ALIENS TO THEIR COMPANY

### Seattle Local Board Submits Plan for Deportation of Persons Claiming Exemption on Non-Citizenship

Sheriff A. N. Sprague, as chairman of the Twin Falls county local board, has received from the Associated local boards of Seattle and King county, Washington, a letter setting forth a plan for a nation-wide movement having for its purpose the deportation of all aliens, both declarants and non-declarants who have claimed exemption from military service on the ground of non-citizenship.

The text of the letter follows: To Members of All Local and District Boards:

At a recent meeting of members of all local boards of Seattle, Washington, a resolution was unanimously adopted to initiate a nation-wide movement having for its purpose the deportation of all aliens, both declarants and non-declarants, who have claimed exemption from military service on the mere ground of non-citizenship.

The exemption of aliens was the most exasperating experience of the boards. The action of such aliens was cowardly, disgraceful and unpatriotic. Every such person immediately branded himself as a dangerous and undesirable resident. This country nurtured and protected these ingrates. At the very first test, when this nation faced a crisis, they men were not willing to bear any burdens. For every alien so exempted a good American boy had to go to the front. These aliens remained at home in ease and safety.

### Still Hold Good Jobs

They still retain good jobs to the exclusion of our returned soldiers. Many organizations seem to center all their attention on the aliens who surrendered their papers. You, as a member of a draft board, can see no difference between the alien who has surrendered his first papers and a non-declarant claiming exemption—both of them are the same kind of parasites. A man not willing to fight certainly would not make a desirable citizen. If congress is so intent upon deporting only the alien who surrendered his first papers, the least congress should by statute make it impossible for the non-declarant alien who claims exemption to be naturalized.

Congress is now considering a bill to restrict immigration. We believe that boards should urge congress to prohibit all general immigration for at least a year.

The combined influence of the draft boards upon the question of deporting aliens and upon immigration laws would be tremendous. We suggest and urge that you immediately write to each congressman and senator from your state, urging patriotic and fraternal organizations to do likewise. The high figures of many states are now meeting; concerted action should be brought to bear to memorialize congress along these same lines. Get the newspapers started—do anything honorable to break into print and to keep the agitation going.

Will you not give this your immediate and continued attention? Respectfully yours,  
Members Associated Local Boards of Seattle and King County.

### BILL WILL INCREASE THE PRODUCTION OF OIL

LOS ANGELES, Calif., Feb. 5.—Heavily increased production of oil, particularly in the Kern county, California, fields will follow the adoption of the oil land leasing bill agreed upon by the house and senate conference committee, A. B. Andrews of the Union Oil company, declared today.

The bill will permit development work on existing wells in the naval reserve to be resumed after a long standstill and will probably result in extensive work in disputed fields outside the reserves, Andrews believes.

### MAY FIGHT IN NEW YORK

NEW YORK, Feb. 5.—Champion Jess Willard may meet Jack Dempsey in this city providing the Gibbs boxing bill passes the state legislature, it was indicated by Tex Rickard, fight promoter here today. ### ARRESTS ARE EXPECTED IN CHINESE MURDER CASE

WASHINGTON, Feb. 5.—Police authorities here indicated that before night they may make one or two arrests in the murder of Dr. Wang and two assistants of the Chinese educational mission. Two Chinese whose identity was not revealed were quizzed.

Authorities are inclined to believe a similar murder in Victoria, B. C., of a Chinese educator, links the two cases in what may be a campaign of oriental Bolsheviki opposed to the spread of education in China.

# PLAN MEANS OF ENFORCING OF LEAGUE ORDERS

## Matter of Compelling Obedience to Mandates of Combined Powers Occupies Attention of Peace Delegates

(Continued from page one)

parture. It proposes merely the reduction in each nation's armament to a point consistent with the maintenance of domestic tranquility; the league itself to be the ultimate judge as to the size of the army and navy to be needed by the member nations. The manner of enforcing the league would be left to the individual countries.

### For Volunteer Army

Great Britain and the United States almost certainly would rely on volunteers attracted by good pay. France and Italy possibly would return to conscription on the ground they could not pay wages corresponding to those in the British and American armies. But whereas France had a conscript army of 800,000 before the war, it probably would need only 120,000 per cent of that number under the league. In the case of Great Britain and the United States, the number of soldiers would approximate their former standing armies (200,000 for the British and 75,000 for the Americans). When the central powers are taken into membership, the league would fix the size of their armies.

### How It Would Work

Only great emergencies would be likely to call such armies to distant points. In the event of trouble on the American continent, the United States would be directed by the league to take action. Similarly, European troubles would be settled by utilization of the armies nearest to the district affected. It is believed this plan will meet with the readiest approval of all countries, since it means the least change in present methods and overcomes the natural prejudice which is felt by other countries as well as America against sending troops to distant lands except in the case of the greatest provocation.

### Landmines, Floating Mines

Interchange of views by the various powers indicated one feature of the new "freedom of the seas" laws will be prohibition of floating mines and prohibition of all mines outside territorial waters. Such mines would have to be anchored and designed so they would be rendered non-explosive if they broke free. Three miles limit to territorial waters especially will be extended, however, due to the fact that modern guns, both land and naval, have a greater range.

### WORKERS LOCKED OUT

COLUMBUS, Ga., Feb. 5.—Following refusal of mill owners to agree to an eight-hour day without an increase in wage ratings, approximately 7,000 textile workers today claimed they were locked out. Two mills out of fourteen were operating. The two mills in operation were said to be running on a limited scale with unorganized workers.

## Over a Thousand Arrive on One Ship

### Many Western Officers Were on Board Vessel Which Docked in New York

NEW YORK, Feb. 5.—The transport *Duc d'Anjou* from Marseilles January 20 and Gibraltar January 23 arrived here today with 1,770 troops as follows: Sixty officers and 1,228 men of the 331st field artillery, complete, destination Camp Grant; 8 officers and 595 men of battery E 33rd field artillery; 6 officers and 71 men of headquarters company and 10 men of the medical detachment, destination Camp Dodge; a detachment of 14 men from the 33rd field artillery and 123 casual officers.

### Among casual officers were the following from the air service: Major J. J. Glavin, Det. Mines; Lieutenant C. E. Brown, Lake Forest, Illinois; G. V. Green, Bloomington, Neb.; E. J. Kaizer, Waterloo, Ia.; John Pike, San Francisco, and G. G. Wetters, Chicago.

### Also on board were the following second lieutenants, casual flying officers: E. J. Dickinson, Denver; Len G. Casper, Sioux City; H. W. F. McCalliff, San Francisco; F. C. Maxwell, Chicago, and M. H. Morgan, Chicago.

### Use of Surnames.

The custom of using surnames for Christian names, as exemplified in the cases of Harrison and Mr. Holden, goes back at least three centuries, but the people stuck pretty close to Johns, Edwards and Thomases. In this country we have seen a tendency to use, at baptism, the mother's family name as a middle name for the child. This, no doubt, is leading to more free use of family names as given names. For the most part, however, we are John Henry Smiths.

### Fault-Finding.

Why should we denounce fault-finding because it is not constructive? All of us are continuously finding fault more or less, and our success in finding the fault and destroying it depends mostly our successful development. So in the end it appears that fault-finding is essentially one of our most constructive activities. One of our worst faults is the hypocritical practice of finding fault with fault-finding.—F. E. Young in Providence Journal.

## A Fast Train From Danbury Brings New Spring Hat

### \$3 to \$6.50

A little early perhaps—why should a man wait for Easter when his wife wears Stray in January.

The colors this Spring are Greens, Grays and Browns, with lots of stress on Lonesome Pine shades of Forest Green.

The trims have been changed a bit in flare—and the bands are playing new tunes. The crowns are moulded to a jaunty creasing between the center and wide and the hind centers are humming new songs of Spring.

Still, with all these new added attractions—the price is the same as last year's.

## LEAGUE WILL DECIDE

NEW YORK, Feb. 5.—Hal Chase, president of the national league, will meet today, according to announcements from league headquarters. The case of the Cincinnati first baseman, who charged with gambling, has been under consideration since last week.

## ANYBODY CAN AFFORD

to use the classified advertising columns—for the expense, as compared with the value of the result secured, is trivial. It would be worth a great deal to you to secure a position, carrying a higher salary and better opportunities, and it would cost a trifling sum. It would be worth a great deal to you to find a desirable tenant for vacant property—or to find a purchaser for used articles of value—while the cost would not even momentarily embarrass you. Try them. Results cost but so a word.

## CHARGES OHIO SOLDIERS ARE EXTREMELY MISTREATED

WASHINGTON, Feb. 5.—Senatorial charges that Ohio soldiers of the 88th and 89th infantry regiments, located at Camp Dalmatian, Austria, are ill fed, ill clothed and commanded by drunken officers, will be presented to the house today by Representative McCullough of Canton, Ohio, he announced.

The charges were given McCullough by arrested by Homer E. Black, Canton, Ohio, lawyer, in a letter.

## A FEW LINES OF TYPE

carrying a simple message—in the classified advertising columns—may bring to you a better job, your first position, a needed worker, a tenant, a border. These little ads often seem to be mere barrier tabs, but they are task-doers just the same, and solve problems which otherwise would never be solved. Try them. Results cost but so a word.

WILLARD FEELS VERY CONFIDENT

Whip Dempsey is Sure He Can Under Any Conditions

By H. G. HAMILTON NEW YORK, Feb. 5.—Jose Willard is confident that he can defeat Jack Dempsey or any other man in a bout of any length and under practically any conditions.

That is the word brought back here by Bill Bickard, the promoter who has clipped his own records in signing Dempsey and Willard to battle for the championship.

Richard, however, added that Willard is quite aware that he is not going to box Moran and has started the most serious training since he met and defeated Jack Johnson in Havana.

Bickard is still greatly in doubt as to the probable scene of the bout next July 4. He would like to stage it in New York if the boxing bill now before the legislature passes, but realizes that the public does not desire to see a 30-round affair between the big fellows.

**TEXTILE WORKERS GO BACK TO FACTORIES**

PHILADELPHIA, Feb. 5.—With the exception of about 2,000 textile workers who were locked out here yesterday, the many thousand others today continued their work on an eight-hour day basis. It was stated that a large number of the employers had accepted the 48-hour work pending a decision of the war labor board. No violence was reported and an early adjustment was predicted.

# LEAGUE WOULD ERADICATE ALL NATIONALISM

### Senator Borah Opposes Foundation on the Grounds of Its Effacing Our American Spirit

WASHINGTON, Feb. 5.—General Frederick Maurice's views on the league of nations, as given in an interview with the United Press, were criticized today by Senator Lewis, strong advocate of the league, and commended on favorably by Senator Borah, who opposes it.

Lewis, who professes to have a clear understanding of President Wilson's ideas regarding the league, declared Maurice is wrong in his interpretation of what the United States must take upon itself.

### Bays Country Will Help

Maurice says the United States must be the financial backer of the league, but he is mistaken," said Lewis. "The United States will not, under any circumstances, become money lender to the world in general in peace time. For specific purposes and in cases where the need is well established, the United States probably will use its financial resources to help nations. But the American people should understand this in pledging this as a condition of support of the league. President Wilson did not bind them to assume the money burdens of every needy nation."

### No Military Power

"President Wilson will never consent to the use of American military power, permanently or to any great degree, to make the league a fact."

"The big navy which Maurice says is essential to arm the league for exerting economic pressure may be used for that purpose if at any time circumstances should arise which would make it necessary. Should the league of nations find it necessary to league any nation by cutting off its imports, for a time a navy would be the means used. But before such a step can be taken, it must be approved by the united public sentiment of the peoples forming the league. Our navy is for ourselves primarily."

### Effaces Nationalism

Borah, who opposes the league because, he declares, it means the gradual eradication of national spirit, said of General Maurice's statement:

"This is a candid and most intelligent statement of a very whole man. America is to underwrite Europe financially and to police the world with our military forces. These are the American legions which a league of nations will impose. The hundred millions we voted for food in the beginning and our boys in Russia are but pioneers in policing the world."

# INQUIRY SHORT BUT EFFECTIVE

### Investigation of the American Meat Packers' Activities Will Be Curtailed

LONDON, Feb. 5.—According to plans today, the inquiry into the activities of the American meat packers in this country will be short but effective. It is not proposed to attempt to call any of the American packers or their representatives as witnesses unless they voluntarily offer to testify.

The investigating committee will be formed of representatives from the board of trade and the food and agricultural ministries. The investigation, a high official of the board of agriculture told the United Press, will be informal. They will review in a broad way certain statistics as to meat prices in Great Britain. Few witnesses are expected to be called. A short cut to adjournment will be taken by the probable adoption of the report of the American Federation of packers. The American packers will be given an opportunity, if they wish it, to "read corrections" of the American commission's report but this will not mean the committee will accept the "correction." Findings will be submitted to departmental heads who will formulate a joint report with recommendations as to what action is advisable to parliament. Parliament then may act.

### REPORTS OF I. W. W. FALL PRAT

LAWRENCE, Mass., Feb. 5.—I. W. W. agents were here today making efforts to organize the striking textile workers. The general committee of the strikers has repudiated the local Textile Federation of labor and the local textile workers' unions but has not joined the I. W. W. A. J. Munn, of Boston, leading the agitators, addressed the strikers and said they will "take care of the textile business yourselves." He said his listeners more foreigners and apparently did not understand what he was advocating. There was no response.

# MEMORIAL IS DECIDED UPON BY DELEGATES

### Mass Meeting Representing Majority of Organized Lodges, Churches, Societies and Associations Adopts Plan

(Continued from page one) and purpose as the ideals of the boys who went across the water to fight for our country." Ideas that the memorial should take the form of a library, a Y. M. C. A. or a community recreation center had been discarded "in our thinking," he said.

### Thomas Proposes Plan

"At this juncture C. D. Thomas proposed the plan which was adopted ultimately. He suggested that in the improvement of the park confined wholly to Twin Falls or the county but so broad in its scope as to be of statewide and national importance. "We can do honor to our boys and future generations best at the earliest possible time," he said, "and complete the biggest thing we have ever undertaken to do." He suggested that the building or a road to the park from Twin Falls would follow as a natural consequence in the carrying out of the plan, and proposed that such road should be built north of Twin Falls to the canyon walls, north of Blue Lakes and follow the canyon around to the park, looping back to Twin Falls.

### Best Place for Hun Guns

L. L. Breckenridge, a delegate from the Presbyterian church paid his respects first to the legislative monument plan suggestion in the interests of uniformity that a pot of beans and a piece of hardtack be made a central feature of the design. He said that he favored the plan of improving the park and declared that it would be most appropriate to plant German "howitzers" which he understood were to be brought here, facing the canyon walls at the falls. "They never ran against anything stronger except the American army," he said.

### Gives up Other Ideas

Rev. W. A. Moore of the Christian church, said that he had favored building a library and memorial hall but that it was more desirable to unite all views if possible upon some one plan rather than to unintentionally divide the community and he gave up his ideas for the park plan.

Mrs. E. F. Morse said that the park plan was the one which she and the majority of the boys who have left us.

H. P. Vance, delegate from the G. A. R. post, endorsed the plan of erecting a monument to bear the names of all of the men mustered into the service from the county.

### Would Keep Memory Bright

Mrs. H. W. Clouch said that the Shoshone park plan was the finest, broadest and most beautiful plan that had been suggested. That it was susceptible growth and of additions from time to time was a feature that commended it to her. "While we are building and working we cannot forget the boys," she said.

### A Dream for Years

The opinion of Chairman M. J. Sweely was called for. He said that he had entered the meeting neutral and had tried to remain so. It had been his experience 10 years ago he said, to secure the creation of the Shoshone falls state park of 400 acres, extending west from the falls on the south side of the canyon. Nothing had been done since to improve it. "It has been a dream with me all those years to see the plan carried out," he said.

E. J. Finch proposed, on account of possible inability of many to get to the park, that the monument should be built in Twin Falls where "the poorest child could see it occasionally."

T. C. Macauley replied that any business man could not only see it that every child had opportunity to see the monument, but would make up a party of little folks for this purpose. He pointed out that the memorial was to be not for Twin Falls but for the county.

### Pays Tribute to Bull

Absence of delegates from Filer and Pehl was noted and proposals made. Rev. G. P. Green said the Baptist church that invitation should be extended to these communities to take part in further plans for the memorial. Following the suggestion that the condition of the roads had kept delegates from other communities from the meeting, C. D. Thomas asked permission to explain the attitude of the west end of the county.

"Bull has furnished more men; has lost more men; and has contributed more money per capita for the winning of the war than any other part of the county, he said. "Bull is alright and is with us in this undertaking."

### Others Endorse Plan

Further endorsement of the Shoshone falls park improvement plan was given by the Boy Scouts' spokesman and by W. P. Alworth, president of the farm association. Owen said he had lent to the credit of the boys who have fought for us, and we agreed that a memorial should be built in their honor. To my mind there is no better subject, no better location and no better route to get there than is offered in the Shoshone falls park plan. Prior to the vote which was recorded by raising of the delegates under sus-

penion of the rules. C. D. Thomas was asked to restate the plan, and Chairman M. J. Sweely said, "If the plan can be carried out in anything like the spirit in which it was given birth it will be the finest thing we could possibly do." Mr. Thomas said that the first step would be to beautify the park; then to erect the monument of the type determined upon by the association to bear the names of the service men, and then to build the road to the park at a new 1 1/2 funds were sufficient.

### Some Chance to Succeed

In accordance with the motion of E. M. White, calling for a committee to prepare a bill appropriating \$50,000 of state money to improve the park, former Senator E. H. Stevenson suggested that the committee be empowered to call upon the citizens for assistance in a united effort to secure its passage. "Let us work like a team," he said, "and I am quite sure there is an excellent chance for success."

# Woman would Visit North Pole in Airplane

With the war ended and peace virtually upon us, new and startling performances by inventors of the war will be in order. Trans-continental and across ocean flights by airplane—new altitude records—wireless communications developed to an uncanny degree and other scientific stunts will furnish the news of the day. First is a woman trying for a visit to the North Pole by airplane. Miss Ruth Law, famous American aviator, is equipping a special machine to accompany the Admiral Peary party in a try for a visit to the Pole by the air route. Here is the famous aviator in her machine, ready for a trial flight.

THE application of ink on paper does not make printing, although the product resulting from this sort of operation is frequently marketed under that name.

Printing is of two kinds—NEWS PRINTING and—just printing. We don't want you to take the word of anyone for this—ask the man who uses NEWS printing, or, better still, try some of it yourself, at our expense if you do not like what we give you.

We use only the best of inks and the better recognized brands of paper. Added to these, we offer the skill and experience of capable workmen and the newest and most modern type faces.

Our work must be satisfactory to our customers or it is not satisfactory to us. We never disappoint.
