Scarcity of Food Supplies and Difficulty of Transportation Add to Troubles in Great Strike

SEEVER'S BILL ON CITY BONDS PASSES HOUSE

Measure Permitting Issuance of Municipal Obligations Up to 10 Per Cent of Valuation Now Up to Governor

TAKES LONG STEP FOR PUBLIC IMPROVEMENTS

Representatives Favor Sale of Water Stock and Land in One Parcel and Investigation of Farm Marketing Losses

(Special to The News)
BOISE, Ida., Feb. 7.—With only three votes registered against the measure, Senator Seever's bill providing for a bond issue by cities and towns of 10 per cent on the assessed valuation passed the house this morning. It had previously gone through the senate and now awaits the signature of Governor Davis.

Predicting an era of municipal improvement in Idaho, the bill is considered of extreme importance at this time, when the effort is being made to make as much building activity as possible. The bill was supported by the other members of the Twin Falls delegation.

Committees Report Adversely

Adverse recommendations were given by house committees on three bills at the morning session. These are the Owyhee-Ada county division bill providing for annexation of residents to school district and the measure which would provide a new state tax for schools.

The house passed the judiciary committee bill making provision for the sale of water stock and land in the same parcel, and the Morgan bill which would direct the board of agriculture to investigate cases of loss in marketing of livestock and products.

Amends Highway Laws

The senate passed the bill making it legal for twenty or more to form a highway district. The bill was originally introduced to relieve a district in Blaine county, where a big strip would have been cut out of the state highway without the formation of a district of such a small number of property owners. It is believed, however, that a number of pieces of road improvement will result from the new statute.

In the house the following bills of importance were started:

Oil Controversy May Reach Quiet Adjustment Soon

American Interests and Mexican Government Hope to Make Settlement

By CARL D. GHOAT

WASHINGTON, Feb. 7.—Adjustment of the controversy between American oil interests and the Mexican government is in prospect, according to Ambassador Henry P. Fletcher, now here on leave. He expressed himself today as hopeful of an amicable arrangement recognizing American interests without infringing on Mexico's sovereign rights.

Relations between the two countries he designated as most cordial.

President Carranza, Fletcher declared, is the real power in Mexico.

Fletcher said it is generally understood Carranza will call a special congress session in April or May to take up the oil problem.

SHORTSTOP REFUSES A CONTRACT WITHOUT RAISES

CHICAGO, Feb. 7.—Basing his claims for more money on a comparison with Eddie Collins, Buck Weaver, shortstop, today was a White Sox ballster, refusing to sign with a \$2,000 increase and a three-year clause.

MAYOR GUARANTEES FULL PROTECTION

Seattle Executive Declares Time Has Come for All to Show Their Americanism

SEATTLE, Feb. 7.—Mayor Ole Hanson of Seattle at 11:30 o'clock this morning issued the following proclamation:

"To the People of Seattle: By virtue of the authority vested in me as mayor, I hereby guarantee to all the people of Seattle, absolute and complete protection. They should go about their daily work and business in perfect security. We have 1,500 policemen, 1,500 regular soldiers from Camp Lewis, and can and will secure if necessary every soldier in the northwest to protect life, business and property. "The time has come for every person in Seattle to show their Americanism. Go about your daily duties without fear. We will see to it that you have food, transportation, water, light, gas and all necessities. "The anarchists in this community shall not rule its affairs. "All persons violating the laws will be dealt with summarily. (Signed) "OLE HANSON, "Mayor."

FIRST SESSION OF THE GERMAN ASSEMBLY OPENS

Chancellor Ebert Greeted the National Representatives of His People With Poor Support

By FRANK J. TAYLOR

WEIMAR, Germany, Feb. 6.—(Delayed)—Chancellor Ebert, opening the national assembly here this afternoon, greeted that body as "the sovereign power from which the German people will have self-rule."

The speaker was interrupted often by derisive comments from the opposition delegates and was encouraged only by mild applause from his supporters, though the latter appeared to be greatly in the majority. Once he was forced to pause and plead with the opposition to hear him. In referring to the war, Ebert said it was lost by the Kaiser and his government.

Assembly Gets Busy

The assembly assumed a business-like air that contrasted sharply with the festive appearance of the theater in which the meeting was held. Great masses of flowers brought from Berlin decked the stage, while other parts of the building were buried under a camouflage of flags and bunting. Many of the delegates, however, removed their coats with the air of men about to undertake a task demanding great physical as well as mental exertion. Some of the delegates obviously unused to taking part in public gatherings, were self-conscious and uneasy, responding to the roll call snappily and shrilly.

Cabinet Is Present

The entire German cabinet and its large staff crowded into the rostrum. Distinguished visitors, including President Seitz of the Austrian republic, sat behind the minister. Ordinary spectators were few, owing to the limited capacity of the upper gallery, to which they were restricted. Newspaper correspondents, movie operators and photographers, totalled more than 200. Crowds outside the theatre finally gave up trying to push their way into the almost covered building and gave their full attention to a band concert in a nearby park.

EFFORTS FAIL TO BRING SETTLEMENT OF STRIKE

Silk Mill Employers Refuse to Be Reconciled by Factory Owners

PATERSON, N. J., Feb. 7.—Despite efforts at settlement, the strike of 27,000 silk mill employees was in effect here today. Strikers' families had stopped work in two mills there. The operators stood firm in their demand for a 47-hour week.

Another meeting, in an attempt to end the trouble, was scheduled for tonight.

BROTHERHOODS PROPOSE PLAN OF OPERATION

Big Four Members Outline Ideas of Joint Control to the Interstate Commerce Committee

WASHINGTON, Feb. 7.—Government ownership of railroads with operation jointly by the government workers and railroad officials was proposed today by the big four brotherhoods.

Their plan was outlined to the senate interstate commerce committee today by Glenn E. Plumb, counsel appearing in their behalf.

The brotherhoods' plan provides for: Government ownership with guaranteed interest return, probably four per cent.

Creation of an operating corporation without capital to be controlled by a board of directors, one-third to be named by labor, one-third by railroad officials and one-third by the president of the United States.

Wage disputes to be adjusted by a committee organized on the same basis. Profit sharing by employees out of the net revenue, one-half to go to the government.

Rates to be lowered when the government's share exceeds five per cent of the gross operating revenue.

Plumb opposed creation of a department of transportation under a cabinet officer as proposed by railroad executives.

It would be regulating the people "The interest of capital," he maintained, since it would be enforcing a governmental policy to secure adequate return on capital invested in railroad enterprises.

As to the five-year extension of government control, Plumb proposed original capital of \$100,000,000, approximately 9,900 are out, only the woodworkers and office forces remaining.

SHIP BUILDERS DECLARE STRIKE

Delaware River Yards Threatened by Walkout of Many Workers

TRENTON, N. J., Feb. 7.—A strike that threatens to tie up every shipbuilding yard on the Delaware river, was called at the Merchant's Ship building corporation's plant at Harriman, Pennsylvania, near Bristol, shortly after 8 o'clock this morning. Of the company's 10,000 employees, approximately 9,900 are out, only the woodworkers and office forces remaining.

The ship strikers are the Iron and Steel workers affiliated with the Boilermakers' organization. They walked out when George Clark, a foreman ship fitter, was dismissed following his refusal to resign his union connections.

About a week ago, the corporation, acting under an order said to have been issued by Admiral Bowles, notified its foremen that they must withdraw from their respective unions before February 7. All refused, it is said, and the company picked Clark for a test case. The walkout followed. The case has been referred to the labor adjustment board of the emergency fleet corporation.

SITUATION IS STRAINED IN PORTUGUESE REVOLT

Official Communiqué Says Nothing Has Changed in the Last Few Days

PARIS, Feb. 7.—The situation in the Portuguese royalist revolt is practically unchanged, according to an official communique received from Lisbon today.

"The situation is unchanged in Casella, Porto Garcia and Vila Nova," the statement said. "Train service is normal between Lisbon and Orero. A battalion of marines has started northward toward Oporto. A royalist column has appeared between Santarem and Lisbon dominating that region."

IDAHO WEATHER

Pair and colder tonight and tomorrow.

Copper Miners Oppose Cut of the Wage Scale

Men of the Butte District Will Hold a Meeting to Vote on a Strike

BUTTE, Mont., Feb. 7.—Copper miners in the Butte district will meet tonight at 7 o'clock to vote on a strike.

The five big mining companies yesterday notified the miners that beginning today, their wages would be reduced \$1 a day. They declared production could not be maintained at the present wage scale and at the present demand for copper.

STREET CARMEN DECLARE TRICK CAUSED STRIKE

Union Men Meet With Company Head and Say They Did Not Want to Quit But Were Fooled Into It

TACOMA, Wash., Feb. 7.—Street car employees, who went on strike yesterday afternoon, were expected today to resume work before many hours.

At a meeting last night their representatives declared the action of strike leaders in ordering them out, branding the proceeding as "tricky."

Hold Meeting With Company. A committee of the union car men met with George Lewis, head of the Tacoma railway and power company this forenoon to report their decision and to discuss the question of resumption of car service.

If the men are assured they will be safe from violence, it is said, they will return to work at once.

Business Today Used. "We have not been treated fairly by this bunch conducting the strike," said J. Boone, president of the Carmen's union, "and we are not going to stand for it. The carmen intended to stay on the job, but were tricked into quitting."

The longshoremen, who previously voted against striking, last night changed their decision and voted to walkout, the vote being very close. They were induced to take this action by efforts of a delegation of Seattle longshoremen, it is reported.

The up is complete. Although the general strike ordered by the central labor council did not materialize on the first day of the strike, the strike committee claims that the tie-up today is more complete than had been looked for.

Employees of the city electric light department continued on their job, keeping the city supplied with light and power. The workers received notice from their international headquarters, approving their refusal to strike.

Packers Oppose the Eight Hour Measure

Senate Is Told That an Active Part Was Taken By the Meat Industry

WASHINGTON, Feb. 7.—Packers' actively opposed eight-hour legislation and other bills before the Illinois legislature in 1913 and 1915, Francis J. Heney told the senate agricultural committee.

Letters were also read indicating the packers sought election of a German named Bosche to the Nebraska legislature from South Omaha.

BOILERMAKERS WANT TO ENFORCE THEIR DEMANDS

OAKLAND, Calif., Feb. 7.—Twenty-five hundred Oakland boiler makers struck Thursday to enforce their demands for increased wages. They demand higher pay than that given by the Macy award.

The strikers include drillers, burners, welders, plate handlers, and cranes at East Bay ship yards. The yards will be tied up in a day.

The men asked to be given full mechanic ratings which would cause increases in their wages. Under such conditions their wages would be higher than those granted by the Macy award.

TENSION INCREASING HOURLY BUT ORDER RULES ON STREETS OF CITY

Seattle Police Engage in Elaborate Preparations for Trouble—Three Thousand Armed Men Available for Instant Call—Public Utilities Roped Off Under Guard—Soldiers join Moral Suasion Squad of Strikers

TWELVE COMMISSARIES MAINTAINED BY UNION MEN CROWDED AT ALL HOURS

MAYOR DELIVERS FLAT ULTIMATUM TO STRIKERS
SEATTLE, Wash., Feb. 7.—A flat ultimatum to operate all essential enterprises in the city of Seattle under proffered government auspices unless the general sympathetic strike is called off by 8 o'clock Saturday morning, was handed to the general strike committee by Mayor Ole Hanson today. Mayor Hanson's ultimatum to the union men out on general strike here brought the situation to a critical stage this afternoon. The strike committees went into immediate session.

SEATTLE, Wash., Feb. 7.—In the second day of the first general strike in the United States, Seattle was today probably the quietest city in the country.

Up to a late hour there had been no show or hint of violence. Twenty-four arrests for minor offenses only, since 12 o'clock yesterday established a low record in police annals of the city.

Curious crowds slowly filled the streets, expecting something to happen to break the tension. Despite this, preparations at police headquarters were going forward on a gigantic scale. Eight sticks and guns were

Textile Strikers Is Killed By an Unknown Person

First Death in the Big Mill Strike Occurred Early Today By Gun Shot

LAWRENCE, Mass., Feb. 7.—The first death in the textile strike here occurred early today when Biaggio Ventura, 41, was shot by an unknown man.

It was reported that more workers returned to work at several mills, while others, it was said, planned to resume work Monday. There were fewer pickets about the mills today than on any day since the strike began.

The central labor union here, in communication to the strikers, urged them to return to the mills on the four-hour week basis and to leave the wage dispute to be settled later.

ARMED TROOPS GATHERED FOR EVENTUALITIES

Eleven Truck Loads of Soldiers From Camp Lewis Massed on Outskirts of Seattle—Demobilization Stops

SEATTLE, Feb. 7.—With armed troops from Camp Lewis waiting under cover within and just outside the city, the situation here had reached a high stage of tension on the second day of the general strike, although no violence had been reported early in the day. Eleven truckloads of soldiers had been hurried in during the night. It was unofficially stated, some being quartered in the Armory and some in hastily improvised barracks.

Sailors at Bremerton navy yard are reported standing by under stacked arms and issuance of liberty passes had been stopped.

Following the order from Washington yesterday to stop all troop demobilization, hundreds of soldiers awaiting discharge were today applying for transfer to line companies in expectation of being assigned to patrol duty.

Streets Very Quiet. Meantime the streets were practically deserted, only a few shops attempting to transact business.

The light plant was being operated under police protection and telephones.

Brig-General Hayden, of Camp Lewis, is now in charge of the troops here. Governor Lister, although ill at Olympia, has promised quick aid in case city officials are unable to maintain order.

A wireless equipment has been installed on the capitol at Olympia in order if wire communication with this city is interrupted, Lister may be kept informed.

Orders for the troops contain these instructions: "To protest government

GODFATHER NOW IN DEMAND FOR SMALL NATIONS

Wilson Thinks His Hardest Task Will Be to Convince the People of America of Their Responsibility

By ROBERT J. BENDER
PARIS, Feb. 7.—The impression was growing Wednesday that the United States must assume the role of godfather to many of the small countries and communities, willingly or unwillingly, if the league of nations is to achieve all that is intended. Not only have these peoples begun to look to America as a protector, but the big powers are showing a disposition to regard America as the one nation which can exercise a mandatory over certain territories without engendering international jealousies.

Realizes Tasks
President Wilson appreciates that one of his hardest tasks would be to convince the American people that the United States must be willing to take a large share of the responsibility and expense of aiding small nations. Yet Great Britain, France and Italy certainly are opposed to assuming the whole burden, including military and naval expenses. And the direct appeal of some of the war stricken communities to the United States for protection—including Armenia and Constantinople—puts the question plainly before America as to whether she is ready to support the president's plan for the league of nations.

Will Talk to People
The president is expected to outline the situation fully to the American people after his return from France, probably through an address to congress and possibly later in public speeches in various parts of the country. The first difficulties in formation of the league have been overcome through general acquiescence in its broad principles, but the real test of its success will be in the reports of the committees which are handling actual formation and application of these principles. Despite recent indications that Wilson might not be able to visit England, he is expected to return to the United States before the end of the month.

OPPOSES PROBE OF PACKERS IN GREAT BRITAIN

Swift Counsel Does Not Want an Investigation of the Meat Industry in the British Isles

WASHINGTON, Feb. 7.—Henry Voecker, Swift counsel, protested against a proposed investigation of big packers in Great Britain, when he appeared before the senate agricultural committee yesterday.

England, Voecker said, intends to accept the report of the federal trade commission in as a basis. "This action of the English government," Voecker asserted, "is based entirely on the vicious and erroneous report which the commission put out after an ex-parte hearing."

Ex-Senator Bailey, Texas, was paid \$5,000 in 1915 as fees for legal work in Texas, Voecker testified. Francis Heney read a letter from Voecker assigning to big packers their shares in the expense.

Would Talk Bill to Death
Senators Underwood and Bankhead promised to tack on an Olco amendment to the revenue bill being considered. "It is in case it carried provisions opposed by the packers, according to a letter read by Heney, alleged to have been written by R. C. McManus, a Swift employe, to Henry Voecker."

Charges by Edward C. Lester of the National Live Stock Association, that the food administration was influenced by the packers, were inspired by a personal grudge, William A. Glasgow, of the food administration, told the house interstate commerce committee.

Voecker admitted contributing to the former fund of Joseph L. Taggart, former Kansas City, Kansas, congressman. Voecker said that Taggart's position on the agricultural committee influenced him in part to contribute.

WAGE SCALE MUST BE KEPT UP FOR PRESENT

WASHINGTON, Feb. 7.—The senate committee on interstate commerce today voted to keep the present wage scale for the railroads. The committee reported that the government must be allowed to keep the present wage scale for the railroads. The committee also reported that the government must be allowed to keep the present wage scale for the railroads.

"I can't see why congress should tie its hands for three or five years," Senator Foran, Ohio, said. "I can't see why the reforms you have introduced can't be required of the railroads themselves subject to governmental supervision."

"That is not practicable," Hines replied. "Such reforms would meet with the objections of the public and labor which support the validity of existing capitalization. There would be continued unrest on the part of public and labor on the belief that profits allowed are undue and paying a return on watered capital."

Following up a suggestion by Senator Foran that wage increases must be made, Hines said those must be accepted by the public and the railroads.

It has not been definitely determined whether the president will return to France, yet the Wilson's are "cleaning house" as though they had no intention of coming back despite the fact they would almost certainly occupy the Murat Palace on a second trip.

LONDON STRIKE GROWS SERIOUS

Disturbance Has Reached the Railways and Electrical Workers of the City

LONDON, Feb. 7.—Traffic on the London-Brighton railway was halted today when engineers struck in sympathy with the subway employees. Threats were made of a general strike on all steam railways.

Later, engineers and firemen on the London and Southwestern Railway walked out.

A crisis in the London strikes was expected to be reached today when the engineers and electrical unions were scheduled to walk out. In the case of the latter, the government had taken definite steps toward intervention through an order in council placing the workers under the defense of the realm act. The order provided that any person interfering with the city's electric supply would be subject to six months imprisonment and \$200 fine.

The government, without directly intervening, had also adopted measures to relieve the transportation tie-up caused by the subway strike.

Great numbers of motor lorries have been placed at the disposal of the people who otherwise would have been forced to walk long distances through the slush and snow to their work.

NATION WIDE STRIKE

TERRIBLES ARGENTINA

BUENOS AIRES, Feb. 7.—A nationwide strike was threatened today by officials of Argentina labor federation because of the lockout of Port strikers. Fifty owners declared the port strike illegal and returned to work February 1 had not carried out their agreement.

ON THE BAGGED EDGE

WASHINGTON, Feb. 7.—"Henry Ford came to very verge of disloyalty if he did not go over it," Elbio Root today told the special house committee that is investigating the activities of the National Security League. The attempt to defeat Jeannett Rankin for re-election to congress was a public service, Root stated.

WASHINGTON WINS GAME

DES MOINES, Ia., Feb. 7.—A basket ball team from Washington University won a one point victory over Drake, 32 to 31. The St. Louisans were behind until the last few minutes of play.

MAY SETTLE TEXTILE STRIKE

PATTERSON, N. J., Feb. 7.—The strike of 27,000 textile workers here was expected to be settled this afternoon at a joint meeting of manufacturers and employes' committees, arranged by the United States war labor board.

PRESIDENT GETS READY TO LEAVE

Souvenirs are Being Packed for the Return Trip to the United States

By ROBERT J. BENDER
PARIS, Feb. 7.—They were packing up at the Murat Palace today.

While President Wilson is not scheduled to sail before next Wednesday, his and Mrs. Wilson's gifts and souvenirs were being boxed, preparatory to shipment. The pounds of baggage exhibited merrily, through the ancient house as rare paintings, books, statues, jewelry and cigarette cases were stowed in wooden cases. They weigh hundreds of pounds avoirdupois, and are worth hundreds of pounds sterling.

It has not been definitely determined whether the president will return to France, yet the Wilson's are "cleaning house" as though they had no intention of coming back despite the fact they would almost certainly occupy the Murat Palace on a second trip.

Interesting Letters

The president, despite the long hours he devotes to peace work, finds time to read interesting letters from all parts of the world, many of which he answers personally. One arrived today from Harold H. Rucker, seven years old, of Wichita, Kansas, who said: "I am studying as hard as I can in school so I will be able to do something important when I am a man." The president replied: "I am glad you are beginning early to have an ambition and I hope you will grow up to think of the country you love before you think of yourself."

REPUBLICANS WILL URGE A REVISION OF TARIFF

British Embargo on American Goods Will Be Used as an Argument to This End

WASHINGTON, Feb. 7.—The British embargo on American goods will be used by "high protection" Republicans in congress as an argument for immediate revision of the tariff upward.

Tariff legislation probably will be among the earliest measures presented when the Republicans take the lead in congress. American industry must be helped over the readjustment period and then protected, the Republicans argue. Tentative drafts of a new tariff law already have been made.

ORGANIZER FOR LABOR UNIONS IS THREATENED

Activities of I. W. W. Suspected in Anonymous Letter Received By Moscow Citizen Warned to Leave Before Time

MOSCOW.—A letter, characteristically I. W. W. and bolshevik, written it is believed by a member of the I. W. W. who are regarded as worse than "coolies" in Latah county, has been received by H. H. Stern, local plasterer and member of the American Federation of Labor who has been talking of trying to organize a branch of the order here says the Moscow Star-Mirror.

Stern was employed as a special deputy sheriff here last spring when the I. W. W. threatened to raid Moscow and secure the release of three of their number who were tried for criminal syndicalism. In this he incurred the enmity of the I. W. W. and the letter of warning sent to him refers to him "wearing a tin star and herding his fellow workmen like dumb brutes" and warns him to "get out of the way when the time comes." He is told to "lay off and give the job of organizing the workmen to a real man who can do them when the time comes." Mr. Stern is warned to "get out of the way and you better be getting for the time is at hand." The letter is signed "A TIME-KEEPER." It is written with a typewriter and was mailed at Moscow.

Investigation Called For.

The letter is to be the subject of an investigation. The postal authorities will be asked to take the matter up and the county council of defense and the I. W. W. is also to be investigated. Mr. Stern has a strong suspicion as to the author of the letter and will submit his evidence to these organizations.

The Latah County Protective association is still in force and has a strong organization composed of farmers, business and professional men and property owners of Moscow and Latah county. The organization was formed for the purpose of dealing with the I. W. W. when this organization was strong in this county. It rounded up about 60 of the leaders, held them in stockade here for weeks and several of them were finally brought to trial for crim-

Germans and Poles Sign an Armistice

Warring Nations Sign a Seven Days' Truce on the Silesian Front

BRESLE, Feb. 7.—Germans and Poles have signed a seven day armistice on the Silesian front, which may be renewed automatically, it was reported in dispatches received here today.

The armistice ends one of the independent wars that were threatening eastern Europe. The Poles had announced their intention of occupying Berlin and at one time were reported with 100 miles of the German capital.

DETROIT MAN WINS OVER DENVER MIDDLEWEIGHT

SAGINAW, Mich., Feb. 7.—Tod Block, of Detroit, Michigan middleweight champion, last night tipped over the knockout in the third of a scheduled eight-round fight with Mike Shubert, of Denver, here.

In the first two rounds Shubert had a slight edge. In the third the pair stood toe to toe, slugging away until Shubert weakened. A left to the jaw and a vicious hook to the stomach dropped him for the count.

CHRONIC CONSTIPATION

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation.—adv.

INAL SYNDICALISM AND GIVEN LONG TERMS IN THE PENITENTIARY.

When the trial of these was to have been held last spring the I. W. W. threatened to come to Moscow in force and posted circulars calling upon 2000 members to come to Moscow for the trials. The Latah County Protective association was organized and had arrangements all completed to handle any invasion by the I. W. W. but no invasion was made. The organization is secret and has signals and a complete working program. It will be asked to take up the investigation as rumors have been circulated here to the effect that the I. W. W. are planning an outbreak and the "Time" refers to "the date for this outbreak." The association will be ready to meet any demonstration by the I. W. W.

WOULD CONTROL THE SPARTAGNS

Movement is Under Way to Seize National Assembly and Move it Away

BRELLIN, Feb. 5.—(Delayed).—The government today was understood to have completed its plans for moving to the nation-wide attempt of the Spartacans to seize control, scheduled for tomorrow (Thursday).

Aided by soldier's councils, the Spartacans are expected to begin coups simultaneously in Berlin and Weimar with demonstrations in other centers. A movement is already under way to strike at the national assembly and the present government, which has been moved to Weimar. Soldier's councils have seized the telegraph facilities in Eisenach and Erfurt. In that district a large force of Spartacans and mutinous soldiers were reported yesterday to be marching on Weimar from Gotha, thirty miles to the west.

Meanwhile the Spartacans are reported to have been completely routed in Bremen.

TRANSPORT CHANGES ARE ANNOUNCED

WASHINGTON, Feb. 7.—Changes in courses of transports noted by the war department follows:

The Norfolk, due at New York February 15, shifted to Philadelphia; The Peerless, due February 4 at Newport News, shifted to New York; The El Oriento, due to Newport News February 9, shifted to New York; The Bristol, due at New York February 6, shifted to Philadelphia.

NO EXTENSION OF TIME

WASHINGTON, Feb. 7.—No extension of time for filing tax returns under the new revenue measure will be allowed, Secretary Glass announced today. The first installment of taxes and returns on all taxes must be in the hands of the treasury by March 15, the bill provides. Glass said it had been decided definitely there was no reason to grant a longer time for filing returns.

PRODUCTION

WASHINGTON.—Production duplication costs are a burden on business and therefore return to normal business conditions, according to views of the federal reserve board announced here today.

SAYS OFFICIALS TRIED TO CHEAT

Pair are Charged With an Attempt to Bribe an Army Officer

DES MOINES, Ia., Feb. 7.—Government agents are "running down" tips that army officers and government officials were connected with attempts to defraud the government through the purchase of government stores.

This was the information given out today by United States Commissioner Piper, following the hearing yesterday of Michael Levy and S. D. Brill of Chicago, charged with attempting to bribe Captain L. E. Skinner of Camp Dodge. According to Skinner's testimony the Chicago men, agents of the Michael Tauber Company, gave him \$1,000 in bills to invoice government stores worth \$32,000 at \$12,500, which would have been the Tauber purchase price.

Skinner's testimony also developed the statement that Brill and Levy are said to have told the captain they had a similar arrangement with a Captain Cole at Camp Grant. Skinner also testified that Brill and Levy told him the Tauber company was kept informed of military goods to be sold by Thomas Hartman, said to be connected with government department at Washington. Diphtheria and stenographic notes were brought into the trial by Captain Skinner.

Brill and Levy said the \$1,000 given Skinner was first payment on the sale.

HUN GUNS FOR MEDALS

BOISE, Feb. 7.—A medal cast of bronze for every man who served the state of Idaho during the war with Germany whether in this country or in France will be given as a token of the state's pride in her soldiers and sailors, if the bill by Representative Adamson becomes a law.

The bill was introduced in the house on Tuesday. A companion measure was a joint memorial by the same author asking congress to direct the war department to give the state of Idaho enough captured German cannon to provide the metal for the badge of honor. A further provision is that a commission be named to act on the design of the medal.

WOULD PAY MORE TO STATE COMMISSION

Senator Seaver Leads Opposition to Bill Increasing Rights to Apply to Cities

BOISE, Feb. 7.—At the afternoon session of the senate yesterday, the measure by Armstrong making road by-cases subject to the supervision of road supervisors was passed.

More than an hour's debate on the Nelson bill providing for the increase of the right of eminent domain to cities seeking to buy or to condemn electric light and water plants, resulted in the committee of the whole returning a report that the bill had progressed. Senator Seaver of Twin Falls lead the opposition by taking the position that if it was a matter of rates, that stimulate confidence proceedings, that the power of adjustment lay in the public utilities commission. Senator Nelson argued that the cost to cities for a proper presentation of a case to the public utilities commission was prohibitive.

"We ought to give the public utilities commission more money for their department, so they may do more effective work," said Senator Seaver.

BRYAN ADVOCATES NEW PLAN OF ROAD CONTROL

Restriction of Government Operation and Trunk Lines Is Asked By Orator

WASHINGTON, Feb. 7.—Restriction of government ownership of railroads and trunk lines that will reach all parts of the country was advocated by William J. Bryan before the rivers and harbors congress.

Bryan said that such a plan would give every state an outlet for its products without prejudice and by competition would regulate rates all over the country.

"Such a system would effectively regulate interstate commerce," Bryan said, "and yet would cost but a small sum compared with the nationalization of all railroads. With a bonded debt of sixteen billions which may rise to \$25,000,000,000, the people would hardly be willing to add twenty billions more to pay for all the railroads. The system I propose would also meet the objections made to establishment of a gigantic bureau at Washington with all its political possibilities.

"This plan with the government trunk lines open to all would make each state independent in regard to the railroads within its borders. The government can easily enter into this partial nationalization by appointing a committee to investigate its advisability and reporting before the time for the roads to be returned."

HOUSE PASSES SENATE BILL ON RED EMBLEM

Endorse Measure Making it a Felony to Hoist, Carry or Display Red Flag in Idaho

HOUSTON, Feb. 7.—At an afternoon session the house of representative Wednesday passed senate bill No. 4 by Robertson, making it a felony to hoist, carry or display a red flag or other emblem of anarchy.

The bill had been amended before passage to include any act of disloyalty against the United States or the state of Idaho.

Recommendation was made by the committee of the whole that the bill which provides a twenty-five cent levy per \$100 valuation by counties, be passed.

STAR BOARDER IS BLAMED FOR WRECKING A HOME

CHICAGO, Feb. 7.—The star boarder was flayed as a home wrecker today when Judge Harry Nolan, in the morals court, gave Abe Stelar, boarder, twenty-four hours to pack his things and move.

Stelar, Morris Molin testified, estranged Mrs. Molin.

"As a home wrecker, the star boarder ranks with the worst of them," said the judge.

To "finance" a "To Let" advertising campaign you need only add \$100 for perhaps a few days—just of your pocket money.

A SERIOUS SITUATION

It is not less to be feared than it is to be expected that prejudice rather than a fair and impartial consideration of all the facts involved will shape popular judgment on the threatened nationwide general strike precipitated in sympathy with the striking shipyard workers of the northwest.

On the one hand it is to be expected that there will be quick decision in some quarters that the strike is wholly a manifestation of the spreading of bolshevik propaganda that would upset absolutely the established industrial order, and on the other hand there is a probability that the complaint of the shipyard workers may be regarded as a general voicing of grievances peculiar to certain localities, and as an opportunity to secure amelioration of these grievances.

The fair treatment demanded by the situation is to be expected from those unalterably attached to either of these viewpoints.

The situation to use which exists not only the northwest and the United States but other countries. A thorough understanding of all the facts involved is imperative before any decision is reached, and it ought to be the business of every citizen to arrive at such an understanding.

A REAL PHASE MOVE

In the interests of universal peace it may be safe to discontinue further increase in the navies of the allies, as long as no other nation builds new warships. In fifteen years the navies of the world would thus become obsolete.

Troops in Tacoma Guarding Property

TACOMA, Wash., Feb. 7.—A detachment of 532 men of the First United States infantry and a machine gun company from Camp Lewis were in Tacoma today to guard government property and to hold themselves ready for action in an emergency that may arise as a result of the strike.

The infantry men are equipped with rifles, bayonets and hand grenades of the type used by American troops in France. The machine gun company is equipped with sixteen machine guns.

NATIONS WILL FIND WAYS TO ENFORCE LAWS

No Compulsory Arbitration Measure Will Be Written in Constitution of League, But Other Methods Being Studied

By FRED S. FERGUSON

PARIS, Feb. 7.—While it now seems certain that compulsory arbitration will not be written into the constitution of the league of nations, the league will not be written into the constitution of the league of nations, the league will not be written into the constitution of the league of nations.

Will Settle Differences

Compulsory arbitration means that disputants would be compelled not only to submit their differences to the league but would have to abide by its decisions. As the matter now stands, the league will force submission of arbitrable questions and will prevent recourse to arms until a decision is rendered.

Means of Enforcement

The means of handling refractory nations which should disregard the award of the arbitration board, also remains a mystery. Among the theories advanced in this connection was that the blockade, or at least a boycott would be employed.

Following official announcement that the special committee working on the league constitution was a "think" through its task, it became known that instead of completing the draft this week, as previously announced—a week or ten days would be required to finish the work.

Other Committees at Work

Next to the league of nations, the most important committee sessions now in progress are those of the reparations and newly organized blockade commissions. The economic program for the entire world is involved in these discussions. Not only must it be determined what Germany owes, but also the way of demanding it.

The money will be advanced by various powers in setting forth the problem, however, nations of Europe can pay. This necessitates working out a monetary scheme. She must not only make money in marks but in the currency of the associated powers.

This means that her exports must exceed her imports, the amount of her credits being in proportion to the excess of her exports.

ARMED TROOPS GATHERED FOR LEVENTALITY

(Continued from page one)

water, gas and other public utilities had not been cut off as had been feared last night.

The general tie-up imposed by the strikers in their sympathy walkout with the 30,000 ship yard workers seeking higher wages, had today transformed Seattle, a city of 400,000, from a bustling metropolis into the condition of a country village.

No Street Cars Running

Neither street cars nor jitneys were running. Hotel guests were camping out in their rooms, eating tinned food and depending on native resourcefulness to supply their elementary needs.

Already the city was beginning to have a foretaste of hunger, although the strikers have arranged to feed 100,000 people twice a day in their soup kitchens, according to the commissary committee reports.

There are no butcher or baker—and the candle-stick maker had long since sold out and gone home with the others.

Milk for babies and invalids was being sold under redactors certificates at stations designated by the strikers.

TENSION IS INCREASING HOURLY

(Continued from page one)

property and to assist in quelling disorders if the governor of Washington requires assistance, or if the emergency requires the intervention of troops.

One Street Car On The Job

One street car, a government mail car, piles up and down fourth avenue. On it are prominently displayed signs telling of its duty. Troops guard it. This is the only car on the municipal line, although Mayor Ole Hanson has asserted this line shall operate.

Newspapers were all but paralyzed with the other industries. The Star alone of the three evening papers got out an edition last night. With the newsboys on strike, there was no means to circulate it adequately. The citizens are thus presented with a strike unparalleled in America's history and means of learning details of the trouble are withdrawn.

Only One Newspaper

The Star was the only newspaper being published today, and it was extremely doubtful if that would continue throughout the day.

Sailors and soldiers, most of them discharged men but some still in the government service, were assisting the police regulars in special duties in patrolling streets and outlying districts. These specials numbered about 1,000.

The strikers also had men on patrol, armed, as the strike leaders said, "with moral suasion only." They had been organized under direction of officers designated by Mayor Hanson.

Up to noon Seattle had been in a state of almost complete hibernation, awaiting the clearing up of a situation admitted on every hand to hold cataclysmic possibilities.

Mayor Asks Federal Aid

Senators Poindexter and Jones of Washington said today they are making no efforts to have the federal government take any further steps in the Seattle and Tacoma strike situation. Both received telegrams late yesterday from Mayor Hanson of Seattle in which he declared the report that the strikers had moved the seat of city government to union headquarters was untrue. Hanson declared the government was in charge.

The war department said no instructions were issued to General Morrison to take personal charge of Seattle. Morrison is merely acting under ordinary regulations, it was explained.

Leaves for Seattle To Assume Command

SAN FRANCISCO, Feb. 7.—Major-General John F. Morrison, commander of the western department, is speeding towards Seattle today to take personal charge of the regular army troops there on strike duty. General Morrison left at 10 o'clock last night. He should be in Seattle at 2 p. m. Saturday.

LARGE NAVY BILL FACES VERY STRONG OPPOSITION

Members of the House are loud in their disapproval of the New Program.

WASHINGTON, Feb. 7.—Little navy men attacked the large navy bill today in a way to indicate that the measure is facing stronger opposition than expected in the house.

Representative "Sam" Miller, Virginia, declares that the house was asked to vote a big navy blindly and apparently with this country threatened by no nation of naval strength equal to our own.

We are not building against any nations; we are building for the United States, he gets replied.

Meyer London, New York socialist, declared that the president has been forced to ask a big navy because he had not received support at home for his program of disarmament and league of nations.

ANNOUNCEMENT

To the People of Twin Falls and Adjacent Communities:

On February 15th

We Move to New Location No. 155 Main West Opposite Power Building

The building is being remodeled in order to handle a more complete and better stock of house furnishings. Your patronage is kindly solicited and we assure you of our continued efforts to serve you best in QUALITY, SERVICE AND REASONABLE PRICES.

Wife Summons Aid of Officers When Spouse Burns Pills

Trouble Breaks in Home When Husband Smokes Cigarettes

A trouble call received at about 7 o'clock Thursday evening at the sheriff's office took Deputy Sheriff George F. Huffman and Deputy Sheriff P. O. Heriman and City Police Officer Frank Ham out post haste to a residence in the Golden Rule addition.

The officers found on their arrival an irate wife complaining against her husband smoking cigarettes in the house.

The offending husband was properly admonished by the officers, and advised to repair to the washroom or elsewhere outside the domestic confines when smoking cigarettes.

DEATH PENALTY SURVIVES

BOISE, Feb. 7.—There will be no abolishment of capital punishment in Idaho at least at this session. Opponents of the Drake-Peckham measure providing for its abolishment took a short road to killing the measure when they amended it to strike out the enacting clause.

Much laughter was provoked when it was found that several members of the house who were in favor of the bill itself voted for the amendment and therefore registered their votes against it.

BAKER STARTS INVESTIGATION

War Department Employee Is Charged With Soliciting Fee From Hospital

WASHINGTON, Feb. 7.—Secretary of War Baker today told the senate public buildings committee that the department of justice had been asked to investigate the charge that J. Milton Trainor, a war department employee, solicited \$100,000 as a fee for work in connection with the Chicago Speedway hospital project.

This action was taken, Baker said, when a representative of the inspector-general's office reported that there might be some ground for the charge. The charge was made by William S. Bennett, counsel for the Chicago construction company, which built the hospital.

Senator France said the most searching inquiry should be made to determine whether Trainor asked for the money as a bribe and why the man who decided against the speedy project did so against the recommendations of every governmental agency which had investigated the question for him.

Baker agreed that if a bribe was asked the person asking it should be

punished, and if there was a connection between him and the man who turned down the project the latter also should be punished.

TAUNTS BROUGHT ON ATTACK SAYS WITNESS BERGER

Defeated Candidate for Legislature Gives His Story of Assault Alleged Made on Him By Frank Dolan

Fred W. Berger, Nonpartisan candidate on the Democratic ticket for state representative last fall, testifying for the state in district court here Thursday afternoon in the case of Frank Dolan accused of making an assault with a deadly weapon, declared that he was provoked by epithets applied to him by Dolan on October 26, 1918, to thrust with a pitchfork at Dolan who was seated in an automobile, before Dolan drew a revolver and shot him in the abdomen. He said that he made the thrust at Dolan in a momentary fit of anger "to resent the insult" conveyed in Dolan's words.

Only Three Witnesses

The testimony only of Berger, Frank M. Kendall, who was sheriff when the fracas occurred, and of Mrs. Berger, wife of the complaining witness, only were introduced by the prosecution.

Mr. Kendall testified that after the shooting Dolan had come to his office to give himself into the custody of the sheriff before he had learned the outcome of the shooting. He testified further as to the relative positions of the men when the trouble arose as indicated by an examination of the premises made by himself and others on the following day.

Berger's testimony was subjected to searching cross-examination conducted by Judge E. A. Walters, who with his associate, Shad L. Hodgins, is appearing for the defendant.

Thrashing Crew Tells Story

The defense introduced the testimony of its first witnesses, before the court adjourned Thursday evening. These witnesses were members of a thrashing crew at work in a field on the farm field under lease by Dolan from Berger at the border of which the alleged assault occurred. Berger being there at the time burning weeds along this fence. The dispute which resulted in the alleged assault is said to have arisen over the presence of Berger on the land for this purpose, and the fork with which he thrust at Dolan was one which he was using in that work.

Diagnose on Shots Fired

Testimony of the complaining witness and of the witnesses for the defense varied as to the number of shots fired. Berger stated that Dolan fired only one, while the others testified that two shots were fired, and that Berger fell at the second shot.

The revolver which was used by Dolan, a six-shot gun, 45 caliber, with four loaded cartridges in its chambers, was introduced in evidence, as was the fork used by Berger.

Jury Takes Last Man

A jury in the trial of the case was sequestered at noon Thursday, the last man of the original venire being found qualified to fill the twelfth place in the jury box.

In the prosecution of the case, Prosecuting Attorney Frank L. Stephan is assisted by E. V. Larson.

JURY HOLDS COUNTER CLAIM IS UNTENABLE

Returns Verdict Awarding to Guy Coffey Balance Due on Note Given in Payment for Hay.

A jury in probate court here Thursday held invalid the counterclaim to approximately \$600 filed by the defendant in the case of Guy Coffey against Cyrus Walter, and in its verdict rendered judgement for the plaintiff in the sum of \$370, which amount was claimed by him in the original action as payment due on a note given in payment for a quantity of hay purchased from him by Walter.

The counter claim was filed after a considerable quantity of the hay in question had been consumed, it is alleged, and was based among other claims on the claim that the hay was of inferior quality. It included also claims for the value of a cow loaned and for the use of machinery loaned to the plaintiff. The cost in question is said to have been paid while in the plaintiff's possession.

The trial occupied all day Thursday in the probate court. J. W. Taylor of Buhl appeared as attorney for Coffey, and Walter was represented by W. Orr Chapman.

Ring Causes Boy To Rob a Store

NEW YORK, Feb. 7.—Alfred Binger, 18, wanted a diamond ring by his fiancée in Spokane, Washington, so he and Al Fred Fisher, 17, went after the ring with a couple of revolvers. They shot a jewelry store in Brooklyn, a proprietor went out the back door, shots falling after him.

The pair were caught by the police after a chase.

Mrs. George Leopold was hostess to the Wednesday Bridge Club yesterday afternoon. Mrs. E. B. Cox won the prize for high score, two thrift stamps.

On Wednesday evening Mrs. George Leopold was hostess for three tables at bridge.

ARE YOU AMONG GIVERS, QUERY OF COMMITTEE

County's Quota of \$5,000 Is One-Half Subscribed By Contributions of 537 Persons, According to Lists

Are you one of the 537 in Twin Falls county who have contributed so far \$2,486.81 to the county's quota of \$5,000 for the work of the American Committee for Relief in the Near East?

This is a question which the county committee is asking in an effort and determination to secure subscription of the full amount of the quota at the earliest possible moment.

Contribution have been made the first 10 days of the campaign in this county by only 537 out of 4,000 persons to whom were mailed letters requesting them to give between \$1 and \$10 to the relief fund. The average of contributions has been \$4.

Business Men Waiting

Only three Twin Falls business men were listed among the contributors Thursday morning when E. L. Macvicar, a member of the county committee, inspected the lists. He proceeded to investigate the cause and interviewed several persons to whom letters of solicitation had been mailed. In each instance he found that the matter had been neglected and overlooked but that entire readiness to contribute to the fund existed, awaiting only further suggestion.

The committee has under way a plan to devote one day to a personal canvass among possible contributors to the end that an early and successful conclusion of the campaign may be reached.

Personals

E. E. Fisher of Rupert is here on business.

Ira T. Brown went to Ogden on business last night.

Mrs. C. Dunlap of Kimberly spent Thursday here.

Mrs. C. Keith of Wendell spent Thursday here.

Mrs. M. J. Canton of Hansen spent Thursday in Twin Falls shopping.

Mrs. E. A. Harris went to Burley last night to visit for a few days.

Mrs. M. Clappett of Filer is visiting with Mrs. A. L. Topper for a few days.

L. J. Meredith of Rupert spent Wednesday and Thursday here on business.

Elizabeth, my Dear:

What seems to you the most pitiful thing about the Great War? Oh, I know dozens of facts stand out as heart-breaking, but I think one of the saddest is the significance of the contents of the bundles that the terror-stricken, hurrying refugees carried with them from their deserted homes. And such a very large percentage of these poor, little, hurriedly-made bundles contained photographs.

Photographs—photographs of the village, and the village is lying now in the ruin left by shell fire. Photographs—photographs of the home, and the home was last seen with a backward glance through flame and smoke. Photographs—photographs of him, and he is now asleep under a cross in Flanders.

"Oh for the touch of a vanished hand, And the sound of a voice that is still."

Photographs—the inanimate things that hold the easiest key to the past, that are richest with loving associations, that are among the very dearest of the little priceless, cherished possessions that weave themselves into our lives.

Never before in the history of the world has photography received such a compliment. Oh, I know it has pictured the scenes of battle, I know it has kept an indisputable record of the stirring occasions that are making history, but I am not thinking of that. I am thinking of thousands of frightened people, hastily selecting the little they could carry with them, and their trembling fingers did not fail to find the treasured photographs of the household.

Chosen by those leaving all behind and going no one knew where, carried through cold and heat, through uncertainty and danger, guarded and kept and tear-stained—photographs!

Ah, could anyone imagine a higher esteem, a truer compliment? Photography need never say in the future—The Great War needed me every day in all my thousand phases. It needs me now. The refugees of the Great War come from their burning homes—photographs!

And, as I was thinking of these things, Elizabeth, a letter came from the Dearest Lad who ever wore a khaki uniform and he said, "If you would send me your portrait how I'd prize it." When I read this, I laid down the letter, right then, and phoned to The Bisbee Studio for an appointment.

Lovingly yours,
Mary Lou Granger.

The Girl of the Golden West,
Her Letter—Number 6.

E. E. Babcock of Hollister, is visiting at the home of his brother, Judge W. A. Babcock, for a few days.

Mrs. Francis Johnson and Mrs. Marion Plumb of Murtaugh spent Wednesday and Thursday in Twin Falls.

Mr. and Mrs. H. R. Pettigohn of Murtaugh were here for the concert on Wednesday and remained over Thursday.

Mrs. L. De Spain, who has been here this week attending the Scientist lecture and concert, returned to her home in Burley last night.

The secret of our success

lies right in the fact that we sell clothes that *Won't* come back—to men who *Will*.

A long time ago we found out that the best place to hang up a record was right on the backs of the men who wore our clothes, for a good fit on a fast friend gets into parlors and places where we couldn't buy advertising space for love or money.

In thinking about your Spring suit and the accessories that go with it—just remember that every stitch going north thru our door is calculated to bring you back again—in good humor.

We have just received a new shipment of Hirsch Wickwire Suits for Men

BELOVED SINGER TOUCHES HEARTS OF HER HEARERS

Sweeter Smile and Sadder Heart, Makes Second Appearance Before Local Audience

By JESSIE WARRINGTON

Magnificent in voice and personality, closer to the souls of the people, with a sweeter smile and a sadder heart, Mrs. E. Schumann-Heink, who has been in Twin Falls last night before an audience that packed the theater. Her program was unlike that which she gave here two years ago. That was a classical program of the pre-war days and it delighted the pre-war tastes of the people. Last night's patriotic program found her with an even sadder response in the hearts of the people, for not in any audience in the entire country could be found a heart that throbs with more intense patriotism for America, nor that had ached and feared and hoped more than has the great heart of Schumann-Heink.

Buried Marks of Strain

In her rich velvet gown of red and gold adorned with a service pin, she came to the stage with her commanding presence and an absolutely mischievous smile, the world's most beloved contralto showed not at all the terrible strain of the past year or more. The four stars of her service pin are for her four sons who have been in the service of this country during the war, and her heart has ached and feared and hoped with all the war-torn hearts throughout the country. So her program last night was thrilling with patriotism. Every song, except one in Italian, was sung in English, several of them being the songs she has sung in practically every army camp and military hospital in the United States. The audience sat entranced. Instantaneous applause and gracious response and at the close of the program the great singer responded to the prolonged encore by singing "The Boys Come Home," which she had sung at the entire audience stood and clapped her hands, and she sang "The Star Spangled Banner," led by Madame Heink's ringing voice.

Accompanists Pleased

Accompanying her were Charles Carver, bass soloist, and La Forge, noted pianist. Mr. Carver's voice found an appreciative audience demanding encores. Mr. La Forge is a composer and a musician of the first class. He played the entire program without one sheet of music before him, including several of his own compositions, and his accompaniment he is delightful. "Is he not a wonder?" Madame exclaimed to the audience last night, "he is a great musician, a composer—and what is he not. And I would tell you he is a friend of every soldier boy in every camp for he went with me into them all."

Plans for Liberty Loan

Madame Schumann-Heink and her party came to Twin Falls from Boise and Portland and left this morning direct for Kansas City where they give their next concert. This tour continues close to the date for the next great Liberty Loan, when the Madame again gives all her time and strength, heart and money to the government as she has done in the other loan campaigns and other patriotic drives. In fact, so much is she giving that her friends are concerned for her own well-being. But when she seems to have found the source of perpetual strength that gives her constant buoyancy of both body and spirit. In the length and breadth of this United States there probably cannot be found American-born or otherwise, a more deeply loyal, fighting heart, a more patriotic citizen, nor one that has given more of her strength and money to this country than has Schumann-Heink. And when the government sent her a letter asking her to send in her expense account at the close of strenuous drives she replied that she had none to send, that she was only doing her "bit" for her America and "The Boys."

Enjoys Rare Privilege

It was a rare privilege that was given on Madame's gracious invitation that I accompany her to Twin Falls from Boise. And in her statement on Monday night after the concert, and as we traveled along and she talked to me, I saw the real Schumann-Heink when she was tired and when she was rested; when she was happy and when she was sad, and my respect and admiration took deep and permanent root. Three strong characteristics of her wonderful personality especially impressed me. They were her touching simplicity, her unshaken loyalty and her keen and absolutely mischievous humor. One moment one is quite convulsed with laughter over her witty remarks—the next, fighting back the tears and trying to eliminate a lump in the throat.

Loves the Marines

As we stopped at one station along the Twin Falls branch the Madame exclaimed, "Oh dear, dear, look!" I glanced at her. She was looking out the window, her eyes brimming with tears, her face quivering with emotion, but her lips trying to smile. I glanced out quickly and saw the object of her attention. A marine had alighted from

REV. DUNN FELSLS IT HIS DUTY TO SPEAK

Wants Others to Benefit by His Experience—Gains Fifteen Pounds by Talking Tansie

Rev. J. H. Dunn, pastor of the Church of Christ at 2110 East Second Ave., Spokane, Wash., and residing at 724 West Sharp Street, is still another in this high calling whose deep sense of gratitude and desire to help others will not permit him to remain silent regarding the wonderful benefits he has derived from the use of Tansie.

"Tansie has not only relieved me of my ten years suffering," said Rev. Dunn recently, "but it has built me up wonderfully, as I have gained fifteen pounds in a month's time by taking it. My stomach was in such a disordered condition that I could not eat without suffering great pain. My food felt like lead in my stomach and I would expel sour gas with almost every breath. Those who diagnosed my case told me I had cancer of the stomach, and my worry and physical suffering combined were extreme. My head ached constantly, and I continually lost in weight, strength and energy. I spent around three hundred dollars for medicines of various kinds, but got no benefit and my condition was indeed distressing."

"I finally bought Tansie on the strength of high endorsements and my first bottle made a marked change in my feelings. So I bought another and then others, and now I am just like a new man. Before I took Tansie I could not eat apples on account of the suffering the acid caused me, but now I can eat any number of them. In fact, I can eat just anything now without the least discomfort afterward. A medicine that will help anyone out of such a long term of suffering and set them right is certainly well worth recommending to the public. It gives me pleasure to do what I can for my fellow man, and as Tansie has been of such great benefit to me, and not only to me but also a number of my friends, I can conscientiously recommend it to everybody."

Tansie is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Elmer by A. B. Wood, in Buhl by C. D. Borling Brothers Co., and in Kimberly by A. L. Stowe.—Adv.

Booster Memorial and Loan

Madame known by the splendid memorial planned by this county, as voted at the Tuesday night meeting. I know she would have been enthusiastic for she has much to say in regard to this matter. Emphatically she demands that the boys must be given fitting recognition and bitter and scathing are her denunciations of the communities and people that are dallying with the question and doing nothing, while the transports are almost daily bringing the boys home.

Speaking of the fifth Liberty Loan

to people who wonder if there will not be difficulty in securing the amount, she indignantly exclaims that the people will respond more readily probably than for any previous loan for the reason that the money will go into the reconstruction of the world, helping the blind and crippled soldiers. She has absolute faith in the American people and insists they will do their duty willingly and gladly, without urging.

SALT LAKE PREPARES FOR CROWDS AT MEET

Mountain Congress of Leagues of Nations Is Expected to Draw Out of State Visitors

SALT LAKE CITY, Feb. 7.—Hotels of Salt Lake City are preparing to house a vast crowd of visitors from Wyoming, Idaho and Utah who will gather for the Mountain Congress of the League of Nations to be held at the Utah capital city, February 21 and 22. Already the regional headquarters for the congress in Salt Lake City are receiving the appointments of Idaho and Wyoming congress chairmen of representatives to the congress the list of delegates to be chosen by the governors of the three states is expected to be completed shortly. Chairman John C. Cutler of the congress has announced a number of committees which have been appointed to make arrangements for the Congress.

FOR THE CHILDREN

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effective in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers.—Adv.

NOTED CLUB WOMAN WITH PEACE PARTY

Washington's Birthday Luncheon Planned at Salt Lake to Honor Mrs. Phillip North Moore

SALT LAKE CITY, Feb. 7.—Club women of Utah, Idaho and Wyoming are to be invited to a big Washington's birthday luncheon February 22 in honor of Mrs. Phillip North Moore, president of the National Council of Women. Mrs. Moore is with the party of nine speakers traveling over the United States to attend the nine congresses of the League to Enforce Peace and which will stop over for the Regional Mountain congress at Salt Lake City, February 22. The luncheon will be given by organizations of Utah affiliated with the National Council of Women and by the State Federation of Women's Clubs, at the Hotel Utah, Salt Lake. Invitations will be issued to the Women's representatives which Wyoming, Idaho and Utah clubs will send to the congress.

Mrs. Moore is to be guest of honor at a similar affair to be given at San Francisco by the City Federation of Women's clubs of that city on February 20. This is the third time that Mrs. Moore has visited the west, her previous visits being made while she was president of the national federation of Women's clubs. It is hoped that a large delegation of women will be present at the session of the Congress from the three states in order that the intermountain women's interests in the establishment of a League of Nations may be well represented. The congress is being held to gain support for the establishment of such a league, long advocated by the League to Enforce Peace and now up for discussion at the Peace Conference at Paris.

WEST END PROJECT GIVEN NEW LEASE

State Land Board Approves Contract With E. T. Meredith for Revival of Old Undertaking

BOISE—Construction on a system for watering 8,000 acres of the Twin Falls West End project, which was abandoned several years ago because of lack of water to supply the proposed area of more than 25,000 acres, will begin within a few weeks, says the Idaho Statesman.

Approval of a contract with the Idaho Farm Development company, headed by E. T. Meredith of Des Moines, Ia., for operation under the Carey act, was granted by the state land board Tuesday afternoon.

Two sections are to be furnished between April 15 and September 15 of each year, the contract provides. Holders of contracts under the old system are to be given preference rights to enter the new segregation, or to take preferred stock in the company, the contract provides.

Water for the project is to be taken from Cedar creek and its tributaries, about 16 miles southwest of Buhl. Contracts have not been let, but it is estimated that the cost of the dam, laterals and distributing system will be about \$900,000.

Water is going to be the show project of Idaho," said P. C. Meredith,

who is here looking after his brother's interests. "We're here to make good, and there'll be no repetition of the trouble of the old project."

PROPOSES RESTRICTION OF TRANSFERS OF WATER

Representative Carl J. Miller of Twin Falls County Introduces Measure Bearing on Carey Projects

BOISE, Feb. 7.—Representative Miller of Twin Falls county is the author of an important measure which he presented to the house Tuesday which has an effect in all irrigation districts in the state under the Carey act. The bill provides that where transfer of water rights is made they shall only be to lands within the segregation. It is explained that canals often go through lands that are not part of a segregation and a transfer of rights to these lands would take water rights from the place where they were originally intended.

FEATHERWEIGHT WILL FIGHT

DES MOINES, Feb. 7.—When Jimmy Minor, Memphis feather, tries a comeback against Ralph DeMotte, army champion of Illinois, state legislators will give the bout the once over. It may have some effect on the boxing bill that will be introduced soon.

my well improved 80 acre ranch near Wendell. Price includes 6 cows, 3 calves, steer, 3 horses, 2 hogs, boar. Also all farm equipment, mostly new: manure spreader, wagon, harrow, plow, harness, etc., separator; well with new engine; 25 tons of hay. Price \$185 per acre, and will make easy terms.

LIEDY WITH The Trail-Granzback Realty Co. Jerome, Idaho

LAWMAKERS HEAR NEIGHBOR'S VIEW OF WORK CRISIS

Washington Delegation Calls on Idaho Legislators to Produce Commercial Activity; Forget Taxation

BOISE, Feb. 7.—"Forget taxation. Do today about your appropriations to produce commercial activity, what you would have done on the day the soldier boys were leaving Idaho," is the warning brought to the Idaho legislature on Wednesday afternoon by four members of the Washington legislature.

The special committee met the senate and house in joint session. "This is the greatest crisis in our history. The time has come for the good people to get together," said Senator T. D. Bockwell, head of the Washington legislative committee.

The joint meeting was held for the purpose of impressing Idaho legislators with the economic activity that must be carried out by the northwest states to meet the restless industrial condition that is sure to follow the influx of demobilized men into the northwest states.

Oris at Its Peak

W. W. Condon, former speaker of the Washington house, said that you will have 125,000 men who would be demobilized; that there were an equal number of men who had been imported into this section of the country and were now occupied here, many of whom took the places of soldiers. It was not only the returning soldier, he said, who made our problem big, but also the influx of the trades because of a superabundance of labor, brought the crisis to its peak.

The keynote of the purposes of the visit was sounded by Senator Bockwell when he said, "we do not want the returning soldier to absorb the ideas that some of the workers are trying to disseminate. He does not ask charity. We must give him a job. The states of Washington and Oregon are anticipating a five year building plan and are suggesting to the legislature of Idaho, that a great building plan regardless of its cost, would stimulate every line of commerce and bring to the west, and stifle the viper of Bolshevism. We must keep the stomachs of the soldiers and workman filled."

Suggests Following Lead

The suggestion was made that the state of Idaho follow the lead of Washington and Oregon in creating what is known as the "veteran's welfare commission" with five members, appointed by the governor to serve without compensation. The member of the legislative commission urged that the Washington appropriation of \$500,000 be duplicated and that the commission be given wide powers.

DOLLARS AND CENTS

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.—Adv.

SOVIETS MAY ACCEPT PARIS, Feb. 5. (Delayed)—Acceptance by the Russian soviet government of the associated powers' proposal for a joint conference at Principles was understood today to have been received by the French foreign office. At this time however, no official announcement of its receipt could be obtained.

RECORDS SHOW MANY REASONS FOR BIG TAXES

Treasury Department and Appropriations Committee Tell Congress Why the Revenue Bill is Necessary

PREDICTS TWO LIBERTY BOND ISSUES IN A YEAR

Support of the Government Calls for the Passage of Fourteen Bills for Vast Sums of Money

By L. C. MARTIN WASHINGTON, Feb. 7.—Records of the treasury department and the appropriations committee of the house and senate today show why congress is about to enact the biggest tax bill in history—six billion dollars revenue measure that will take an average of \$60 this year and \$40 next year from every individual of the nation's 100,000,000 population.

These records show that the government will cost the people \$18,000,000,000 this fiscal year and \$10,000,000,000 the 1920 fiscal year. The tax bill now before congress raises only one-third of the amount required for the tax-spending year ending June 30, 1919, and only 40 per cent of the tax expenditures for the tax-spending year ending June 30, 1920.

Bonds Are Having Favorable Reception Where is the rest of the money coming from? There is only one way to get it—bonds. Therefore, unless the tax-spending can be brought to the limits of tax-paying, there will be bond issues not only in 1919 but in 1920.

In 1919 tax spending year congress appropriated more than \$36,000,000,000. But the ending of the war caused cancellation of contracts totalling more than \$2,000,000,000 and a bill in congress cancels \$1,000,000,000 more. The ultimate total of such cancellations will be about \$4,000,000,000, or half the sum appropriated. This leaves \$32,000,000,000 as the net cost of the government this year.

Much to be Raised Of this amount, the pending tax bill is estimated to raise \$6,970,000,000. Some congressmen say it won't raise more than \$5,000,000,000, but if it raises the amount its sponsors hope for, it will leave approximately \$12,000,000,000 unprovided for.

This means two liberty bond issues this year, many members believe. Heavy Tax Next Year Next year the tax bill is estimated to raise a little less than \$4,200,000,000. Senator Smoot says it will hardly raise \$3,000,000,000. But if it comes up to expectations, that will leave nearly \$6,000,000,000 to be raised by more bond issues.

Appropriations for the 1920 tax year bear out the estimate of \$10,000,000,000, which has been made by members of the house and senate and which was forecast by former secretary of the treasury McAdoo before the senate finance committee.

Fourteen Appropriations Congress passes fourteen regular appropriation bills for the support of the government. The fourteen bills will total \$5,507,000,000 for 1920. This figure is obtained from bills already passed and departmental estimates on the others. If the army of occupation is kept in Germany a long time or the total armed strength of the United States exceeds 500,000, this figure will be too low. As much as the army appropriation bill carrying \$1,910,000,000 is based on an army of 500,000.

On the other hand, if the three-year navy program is rejected by congress, that means some reduction as the \$748,000,000 navy bill is included in the \$5,500,000,000. But in addition to these regular appropriations, there are a number of extras, including: Additions to Bill Paying the guarantee price for wheat—\$1,000,000,000 (estimated). Interest on bonds, \$1,000,000,000. Railroads, \$750,000,000. Pay for soldiers, \$400,000,000. Labor department's housing plan (not yet decided) on \$5,000,000,000. Food for Europe, \$100,000,000. Total, \$5,250,000,000.

INDICATIONS STRONG FOR LARGE NAVY BILL

Expenditures of Building Program Hope to See it Pass the House Today

WASHINGTON, Feb. 7.—Indications were that the big navy bill, carrying a three-year building program of ten capital ships and ten scout cruisers would be passed by the house before adjournment tonight.

Little delay now has been preparing for final attempt in an effort to reduce the building program.

Authority With Government WASHINGTON, Feb. 7.—Final authority to fix freight and passenger rates should rest with a federal tribunal, Director-General Hines today told the Senate interstate commerce committee.

GIVES AUSTRIA GREETING FROM GERMAN PEOPLE

First Official Act of the National Assembly Is to Welcome Neighbor Entering the Republic

By FRANK J. TAYLOR WEIMAR, Germany, Feb. 6.—(Delayed)—Official welcoming of Austria into the German republic was expected to be the first official act of the national assembly, following its organization meeting late today.

The assembly then planned to adjourn until Monday, when Chancellor Ebert will formally transfer the government to the new cabinet, which will be formed in the interim.

A caucus held by the majority parties last night revealed that Ebert is the choice for president of the assembly, with Phillip Scheidemann as vice-president.

Assembly Well Guarded The work of the assembly was not expected to be long drawn out, as a virtual agreement on all the more important questions had been reached.

Weimar is well guarded in anticipation of Spartan interruption. In addition to a large force of picked policemen, there are infantry, cavalry and artillery units from the front.

Delegates and other visitors have been assigned to a certain place to eat and another place to sleep. They are provided with table-scuttling by a special allowance of sugar, fats and other food.

A sudden drop in temperature had not affected the ardor of the delegates who hurry about in sleighs, lining up support for their pet projects.

Secretary of War 'Orders Out Troops

WASHINGTON, Feb. 7.—Authorization of federal troops to preserve order in the Seattle strike was expected to be followed today by government intervention to relieve the situation. Baker ordered the commandant of Camp Lewis to furnish as many troops as he believes necessary.

Just what will be the first step is uncertain because of the complicated situation, but the most logical course seems for the labor department to try to get the men back to work through its conciliators.

The war labor board's policy is not to take up a dispute until both sides request it, and Charles Piles of the shipping board is still standing pat on his determination not to deal with the men until they get back to work. Return to work during adjustment of the case probably would be the first demand of the labor board.

BINGHAM MINERS WORK SALT LAKE CITY, Utah, Feb. 7.—

Bingham miners were working as usual today, despite the reduction of \$ a day in pay which had gone into effect. Cattle receipts, 6,000. Sheep, 8,000.

CHICAGO LIVESTOCK CHICAGO, Feb. 7.—Hog receipts, 23,000; market, steady to unchanged. Cattle receipts, 6,000. Sheep, 8,000.

CHICAGO, Feb. 7, 1919.—Hogs—Receipts, 37,000. Market, steady. Bulk, \$17.40@17.95; butchers, \$17.65@18.00; light, \$18.00@18.50; high, \$17.15@17.70; pigs, \$14.25@17.00; rough, \$16.00@16.50.

Cattle—Receipts, 60,000. Market, steady, 10c lower. Beves, \$10.65@10.25; butchers and stockers, \$7.00@15.25; canners and cutters, \$5.85@7.00; stockers and feeders, \$8.25@14.50; cows, \$7.00@15.25; calves, \$5.25@16.75. Sheep—Receipts, 9,000. Market, steady, lower. Wool lambs, \$12.50@17.35; ewes, \$4.50@11.25.

CHICAGO GRAIN OPENING CHICAGO, Feb. 7.—Corn—February, down 1/2c; March, down 1/4c; May, up 1/4c; July, up 3/8c. Oats—February, nominal; March, unchanged; May, down 1/8c; July, down 1/8c. Provisions, higher.

CHICAGO GRAIN REVIEW CHICAGO, Feb. 7.—After a nervous opening due to a general uncertainty to future trends, grain futures on the Chicago Board of Trade took a strong or turn today. Early selling was by sensitive speculators in Argentina, which threatened to tie up South American grain, helped cause the reaction. Provisions were lower. February corn, down 1/2c at the opening, 1/2c 1/4, was up 1/4c. March corn, down 1/4c at 118 1/4, the opening, gained 1/2c. May corn, up 1/4c at the opening, later gained 3/4c at 112 7/8. July corn, 3/8 higher on the opening, 1.09 1/2, was unchanged. February oats, opening late at 55 3/8, up 1/4, subsequently sold at 56 1/8. March oats, unchanged at the opening, 55 1/4, was one cent higher. May oats,
