

ENGINEERS MAY DETERMINE THE STRIKE COURSE

Butte Trouble Now Rests Upon A Pivotal Vote of Some of the Mine Workers on Saturday

LIVING SCALE CAUSES MUCH DISSATISFACTION

Banks Refuse to Cash Any of the City Employers' Checks on Grounds of Financial Crisis

BUTTE, Mont., Feb. 14.—Upon the strike vote of the mine engineers' Saturday will depend whether the strike trying out Butte will be broken or whether it will continue indefinitely.

Mayor W. H. Maloney made this prediction in the course of an extended statement covering the strike situation, as well as the city's financial condition.

Maloney's action as the effect of the strike in threatening to discharge all firemen and policemen at noon of that day because they could not be paid, was one of the outstanding features of the strike.

Butte policemen are still unpaid and apparently will remain so for some time. Business interests refuse to cash their warrants, feeling that the military will police the city. Firemen are being paid, however.

Strike Situation

"The Butte strike situation," said Mayor Maloney, "has resulted in the following conditions:

"Following the cut in wages by operators of the copper mines, amounting to a dollar a day and loss of Sunday work, a certain element claiming to be the only union of miners in Butte picked the strike course and so intimidated miners that they ceased work.

"Black and White Causeworkable

"Since then street car men, machinists and general smaller organizations have ceased work, largely because there is nothing for them to do, in face of the strike of the miners. They will not care to go to work because of the influence of the small numerical opposition.

"All miners' unions declare that the strike was not called by their organization, but by 'mass meeting.' The two central labor bodies, one controlled by the element referred to, unable to declare a strike, voted to instruct delegates to report back to the unions in sympathy with the movement.

"Soldiers Maintain Order

"Since then there have been stationed here soldiers to the number of about a hundred to maintain order, but it has not been necessary to proclaim martial law and the city is free from disturbance of any kind, except of a minor character, and probably will remain so.

"Much importance is placed on the vote of the mine engineers Saturday night. It is believed if they remain firm the backbone of the strike will be broken. Otherwise it will be prolonged indefinitely.

"Everything is Quiet

"So far not a shot has been fired. There have been no street gatherings or gatherings of any kind, save meetings of various organizations. The police have had no trouble and it has not been necessary so far to put on extra men.

"Mining companies defend the cut in wages by citing the cut in price of copper and by declaring that there is practically no market for copper.

"New Wage Scale

"Under the new rate miners would receive \$1.25 per day, which is 20 cents higher than the wage by sliding scale based on the price of copper, as announced by at least one copper company some time ago.

"The reason advanced for the dissatisfaction over the wage cut is that living costs have not been reduced proportionately in connection with this phase of the situation, it may be added that corrective steps are being taken, both locally and by the state legislature.

"City Troubles

"The city's financial crisis was brought about by the refusal of banking and business interests to cash salaries or contracts on the ground that the city had exceeded its legal limit of indebtedness. At the present time, however, the financial condition of the city is better than it has been in twenty-five years.

"At present only about \$12,000 in warrants outstanding are carried by the banking and business interests, as contrasted with as much as \$950,000 in past year.

"With exception of warrants of the June issue, which are 13 months in arrears, all city warrants being dated previous to July last have been called and paid.

"State Wide Difficulties

"Under the present state laws practically every city and town in Montana is in the same shape financially as Butte. The loss from revenue through saloon licenses has lessened the city's revenues approximately \$750,000 per year.

"Banking and business interests have refused to cash any save firemen's warrants, feeling that the military will do the police work of the city."

Alien Agitators Are Arrested By Federal Agents

Miners Continue to Leave the Arizona Copper Districts to Seek New Work

JEROME, Ariz., Feb. 14.—The exodus of miners from the Jerome district continued today, following yesterday's shut down of the "United Verde and United Verde Extension" mines.

Four additional arrests were made by department of justice agents late yesterday. A total of eleven alleged alien agitators now are being held for possible deportation.

Troops continued to guard the approaches to the mines today.

COLORADO CHIEF GETS QUEER NOTE

Blackhand Letter Is Sent to the Governor Demanding Employment At Once

DENVER, Colo., Feb. 14.—A "blackhand letter" to Governor Shoup, threatening to send him by parcel post the head of Police Chief Armstrong unless Denver's unemployed find jobs, was the cause of a half amused search for the sender today.

The letter criticized Armstrong for permitting employment agencies to charge in excess of legal fees. The outline of a life sized hand and a Denver postmark on the envelope drew the police and postoffice investigators had to work on.

INVESTIGATES CHARGES OF EXTORTION THREATS

Strike Committee Tried to Force Business Men to Pay Percentage of the Costs

TACOMA, Wash., Feb. 14.—Prosecuting Attorney William D. Askron is making an investigation of charges that the general strike committee last week used extortion to force Tacoma business men and their employees to pay a percentage of their profits and wages in order to keep operating during the attempted general strike.

Askron said that if it was found there was extortion or that threats of violence were made to secure a percentage of the business he would prosecute under the extortion act.

MORE ALIENS TO DEPORT

TACOMA, Wash., Feb. 14.—Tacoma immigration authorities are preparing for the deportation of a large number of undesirable aliens, as directed by the immigration commissioner, Anthony Caminetti. The majority of these are now in custody.

SEATTLE WOULD CLEAR CITY OF RADICAL GROUP

Thirty-Nine are Arrested As A Result of the Investigation and Campaign Against the Bolsheviks

PROMINENT NAMES ARE MENTIONED AS LEADERS

Vigorous Search Is Being Made For I. W. W. and Other Peace Disturbers and Revolutionists

SEATTLE, Wash., Feb. 14.—Police county and federal officers are strikingly arrested Thursday are John J. Artell, secretary of propaganda of the I. W. W., and William Moran, under-secretary for the I. W. W. defense council. Walker C. Smith, head of the Equity Printing Company, and F. C. Cassidy, candidate for the city council, were arrested several days.

Leon Green, business agent of electrical workers' local number 77, who tried to make Seattle "dark" during the general strike, is sought by the combined civic, county and federal operatives. Walker C. Smith, Artell, and Cassidy, the first three held in the county jail and the latter in the city jail, are charged with criminal anarchy and conspiracy to overthrow the government by means of a revolution fostered during the general strike.

Newspaper Men on List

Aaron Eisenman, reputed circulation manager of the International Weekly, and J. P. O'Donoghue, believed to be interested in the Equity Printing Company, are also held, having been arrested late Thursday.

Suspected Persons

Charged with criminal anarchy, the following persons were scheduled to be arrested in Seattle today:

J. J. Callahan.

E. J. Chamberlain, secretary of the defense council of the I. W. W.

Men who are arrested in connection with the Equity Printing Company, are also held, having been arrested late Thursday.

A. W. Rockwell, J. W. secretary. John Larson, alleged agitator. Leon Green's name is included in the above list, but officers are not at all assured of his capture today.

LEAGUE OF NATIONS DRAFT GIVEN TO THE CONFERENCE

Pueblo Fighter Is Defeated By Man From Coast

Jimmy Darcy of Portland Entirely Outclassed the Colorado Fireman in Bout

PORTLAND, Ore., Feb. 14.—Jimmy Darcy of Portland won an easy six round decision over Jim Flynn here last night. Darcy showed a varied assortment of smashes and jab on his opponent throughout the battle, beating him every inch of the way.

Flynn went down for a count of nine in the second round, wicketed right floored the Pueblo fireman.

Father Time has slowed down Flynn until he hasn't much of his former class. He showed a flash in the first round and landed his one and only clean blow in the sixth.

Muff Bronson knocked out Leo Johnson in the first round, getting credit for one of the cleanest knockouts ever seen here.

Sid Mitchell of Seattle and Kid Herman of San Jose, went six rounds to a draw. Mitchell took control in the second, but made a strong come back.

FIRST WORLD CONSTITUTION IS READ BY PRESIDENT WILSON

Proposed Plan of Organization Provides Stringent Measure Designed to Prevent Future Wars But Makes No Mention of Universal Police Force—Sets Forth Means of Controlling Civilization

EACH POWER HAS FREEDOM OF ACTION TO DECLARE WAR WHEN NECESSARY

BY FRED S. FERGUSON

PARIS, Feb. 14.—The first world constitution was made public this afternoon when President Wilson read the draft of the league of nations organization before the general peace conference.

While not containing provisions for any sort of international police force, the constitution includes stringent measures designed to prevent future wars.

In case any nation makes war without first submitting the questions at issue to arbitration; the following possible courses are open to the league:

FINANCES FOR WORK MUST BE MET BY TAXES

Passage of the Primary Law Is Considered Sure and Other Matters Are Taken Up By Idaho Law Makers

BOISE, Ida., Feb. 14.—With but twenty more working days the legislature of Idaho is facing a stupendous task in getting out of the way all the necessary legislation needed for its approval or rejection.

Primary Law to House

Now that the senate has passed the primary law, as drawn by the special committee, the lower house must turn its attention to the bill. It is expected that the people of Idaho a new law by which they can select their candidates for office and preserve the integrity of the two great parties which have in the past occupied the political arena here.

While the new primary law, as drawn is not exactly what many of the legislators would have wished, it is common belief that it is the best of the evil which disrupted one of the great parties at the last election and sent its voters by the thousand into the ranks of the opposition.

Other than this there is little chance for a change and the bill will go through the house, it is believed, in a strict party vote, the minority not concurring except in individual instances.

Tax Question

But the biggest problem to be met in the next few days is the question of the annual appropriation. Perhaps this matter has been worrying the majority more than any other thing. It knows taxes must be raised largely and it also knows this to be a thing that is often misunderstood.

Problem of Finance

Idaho has grown in the past two years with astonishing speed. The problems of financing have grown out of the war. Labor is restless and the returning soldier must be taken care of. There is not a taxpayer in Idaho who is not a member for public schools and good roads. They both will cost large sums of money, for the government real appropriations grow each year and with the addition to the population of the state the schools and institutions of Idaho grow in corresponding ratio.

Only One Change

When the lower body gets the bill for discussion but one real change is looked for. This may not occur, but it is in line of possibilities. The bill calls for the payment of the railroad fare of delegates to the state convention. Many of the legislators do not look with favor on the provision. They argue that as long as the political parties are not in a position to elect their primaries they should also absolutely eliminate the state from the expense of nominating the candidates and that delegates should either pay their own way to the party to which they belong or do it for them.

Twin Falls Man Active

Representative Miller of Twin Falls was successful this morning in having passed, the measure amending the law to definitely describe an irrigation water right under the Carrie act. This is a conservative measure and is important.

New bills in the house of importance are:

Providing for education of foreign speaking people.

Creation of a committee of five to draw an amendment to the state constitution which would provide for a permanent location of all state institutions.

Improvement of Shoshone Falls Park is suggested in a house bill which would carry an appropriation of ten thousand dollars. Representative Conover is the author.

COAST CITY PREPARES FOR I. W. W. INVASION

Los Angeles Is Ready to Care for the Trouble Makers Enroute From Seattle

LOS ANGELES, Calif., Feb. 14.—Police today were taking precautions against an invasion of I. W. W. and Los Angeles from Seattle.

A number already have been taken from trains at Santa Barbara according to reports to the police.

It is believed they intended to form difficulties in the harbor shipyards if possible.

Los Angeles is ready for any trouble making march of Police Chief Butler. "Agitators might well know Los Angeles will not stand for their trouble making tactics one minute."

NEGRO REFUSES TO FINISH BOUT

Colored Heavyweight Changed His Mind About Fighting Fulton After Third Round

SACRAMENTO, Calif., Feb. 14.—Jim Cameron, negro heavyweight, left down and refused to fight Fred Fulton here tonight after he had been knocked to his knees twice in the third round.

In the first frame Fulton stood off and sparred easily with the scared black man and the fans howled with derision.

In the second, the negro, bravely Fulton's apparent slowness, suddenly smashed him one fair in the mouth.

But Cameron, holding him off, tapped five quick lefts to the negro's jaw, but not hard enough to down the Los Angeles dandy, who has worked in training camps with Jeffries and Langford.

In the third round Fulton settled down to business, although he never really extended himself, and knocked Cameron to his knees with a right cross to the head. Cameron took the count of eight. In a few seconds he was down again with a left to the jaw—and stayed down. Fulton failed to show real class at any stage of the game.

A wire from Jeff Clark, the "Joplin Giant," challenged the winner.

Fire Traps Woman In Her Cottage

SAN FRANCISCO, Calif., Feb. 14.—Burned to a crisp, the body of an unidentified woman was found this morning in the ruins of a cottage in Ocean Beach.

The cottage was discovered burning early this morning and the fire department was called. When they had finally put out all the flames they discovered the body half covered with debris.

It is believed the woman was trapped in the house by the flames.

ATTEMPTS ROBBERY

TACOMA, Wash., Feb. 14.—Charles Latta, a shipyard worker, was shot in the leg early this morning in an attempted motor car robbery at Salmon Beach. Awakened by the noise of the attempted robbery, Chas. A. Meyler, armed himself with a shot gun and fired when Latta and his companion, Andrew Frank of Seattle, were at his approach. Frank was caught.

WORLD NEWS EVENTS

SANTA BARA, Calif., Feb. 14.—William G. McAdoo, Jr., was with his father, former Secretary McAdoo, here today. He arrived late yesterday direct from France, where he had been in service with the army aviation section since early in the war.

SAN FRANCISCO, Feb. 14.—Wireless service from the naval radio station at South San Francisco will be crippled for several months it was announced today, following a fire on the 800-foot tower yesterday. The fire was caused by a short circuit.

ENGLAND NOW HAS BRIDES' SCHOOLS

War Workers Now Out of Employment Will Be Taught a New Occupation

LONDON, Jan. 31.—(By mail)—Schools for war brides and soldiers' fiancées are being planned by the demobilization department.

Domestic science, food chemistry, marketing, and care of children will be taught.

The government will pay all expenses of the pupils.

The schools will be open only to the wives of soldiers who were engaged to marry soldiers. More than 400,000 young women are eligible, it is estimated.

The department officials explain the schools are expected to pay for themselves as social experiments by training women to be helpful wives.

The schools are needed, it is believed, because thousands of young girls left their homes to work in munition factories at a time when they ordinarily would have begun to learn household duties.

Of 1,500,000 women who entered industry during the war, thousands now are jobless through the closing of munition factories. Hundreds are unable to find other employment because the peace industries have not yet got into full swing. The schools are expected to give occupation to hundreds of women who otherwise would have nothing to do.

NOTE DOWN MOVE FOR IMMEDIATE PUBLICATION

Directors of Canal Company Pany Look With Disfavor on Proposal of New Members

According to minutes of the meetings in January of the directors of the Twin Falls Canal company released today for publication, D. F. Detweiler, Filer, and John Frahm, Hansen, new members of the board were unable to secure the adoption of a motion made by the former and seconded by the latter to require the publication of the minutes immediately after each meeting, without waiting to be approved.

The minutes for the January meetings record the action approved by unanimous vote of the directors designating the National Bank of the Republic at Salt Lake, Utah, as the bank in which the funds of the corporation should be kept and authorizing the president or vice president and secretary to borrow from that bank such sums of money as the needs of the corporation demand.

IDAHO WEATHER

Bain or snow tonight or Saturday.

"Another Package From Booth's"

TRAIN SERVICE IS SHUT OFF BY BIG SNOW BANKS

Drifts Ten Feet Deep Block the Transportation Eastward From the Rocky Mountain Section

DENVER, Colo., Feb. 14.—The Pacific coast and Rocky Mountain regions today faced another day of badly interrupted communication with the east. Officials of telephone and telegraph companies, declared conditions have grown worse since sleet and snow storms in Nebraska and Kansas Wednesday night carried down miles of the trunk wires. Inability to get repair crews to the scene owing to stalled trains increased the difficulty in re-opening direct communications. Re-routing via Canada or along the Southern route offered prospects of limited news wire service, although a tremendous heavy file of messages are reported from all relay points.

Railroads Blocked

The railroad companies report heavy snow blocking transportation east of North Platte, Nebraska, and Dodge City, Kansas. Drifts ten feet high have blocked the Santa Fe lines in Kansas.

The Canadian route to Vancouver and down the Pacific coast to San Francisco and across the continent to Denver was reported open this morning. Manager news dispatches were received over this route late yesterday, and a badly congested air Western Union wire was open from Denver to Chicago.

Only one train arrived in Denver yesterday from the east, but had been locally delayed by the blizzard in Kansas.

POSTAGE RATES UP

MELBOURNE, Australia, Dec. 18.—(By Mail)—Australian postal rates have been increased one cent on all letters and letter cards addressed to places outside the commonwealth, and post cards and newspapers exceeding 2 ounces in weight addressed to the United States, the British empire, New Hebrides, Banks and Torres islands.

FARMERS ATTENTION!

Owing to the demand for Sterling Butter, we are in need of more cream. Bring it to the factory and see the uptown station expense.

RHEUMATIC PAINS

Quickly Eased By Penetrating Hamlin's Wizard Oil

A safe and harmless preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for earache, toothache, cramp and croup.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whip, pleasant little pink pill, 30 cents. Guaranteed.

BANDITS MAKE A BOLD ATTACK

Highwaymen Jump Aboard a Street Car and Use Gun and Hammer on Conductor

SAN FRANCISCO, Calif., Feb. 14.—Police are today seeking two masked bandits who held up a Haight street-car at the entrance to the tunnel at the beach end of Golden Gate park late last night and shot Conductor Albert Bonner. Bonner's wound, according to physicians, may prove fatal.

One highwayman with a revolver jumped on the rear end and grappled with Bonner. Another attacked Motor-man J. G. Pinchem with a hammer. After a brief struggle both bandits were forced from the car.

While Bonner was replacing the trolley, which the men had pulled down, one of the bandits fired point blank at him, the bullet entering the abdomen. When last seen the highwaymen were running toward the beach.

Bonner was taken to the emergency hospital and later removed to the St. Francis hospital.

OAKLAND POLICEMEN ARE BEING DISMISSED

OAKLAND, Calif., Feb. 14.—Chief of Police Neidermann believes in the Zodiac. Also in phrenology.

Six Oakland policemen have been suspended already this month for various reasons, but while the chief is punishing them he doesn't blame them.

February is a policeman's one-oo-month," said Neidermann today. "A cover is liable to do anything in February. The fault is in the stars."

MAY NOT TEACH GERMAN

DENVER, Colo., Feb. 11.—Germanium will be banned from Colorado's schools if the house follows the senate in passing the Starkweather bill. It repeals the old law which permitted instruction in all branches in the Tungusku.

FIRST NATIONAL BANK OF TWIN FALLS

DENIES NECESSITY FOR LIBERTY LOAN REMOVED

LOOK OUT FOR CHANGES IN CONSULAR SERVICE

Secretary of the Treasury Denies Rumor of Saving After Armistice Unfounded

President Wilson is Learning Many Useful Things by His Peace Trip

SAN FRANCISCO, Feb. 14.—In a statement sent to Governor James K. Lynch of the federal reserve bank, secretary of the Treasury Carter Glass has exploded the rumor that the saving of more than fifteen billion dollars as the result of the armistice had removed the necessity for another Liberty Loan.

Secretary Glass' statement follows: "A rumor has reached the treasury that a mistake has been made by the authorities, that from \$15,000,000,000 to \$17,000,000,000 has been returned to the treasury as a result of the armistice and that therefore another Liberty Loan is unnecessary. The rumor is absolutely unfounded. I suppose it has its origin in a failure to understand the discussion of the proposed repeal by congress of \$15,000,000,000 of appropriations and authorizations. This does not mean a return of money to the treasury but a cancellation of authority heretofore given by congress to expend money in the future.

"As a matter of fact, the whole proceeds of the fourth Liberty Loan and of all previous loans had, at the time the armistice was declared, been expended or anticipated by treasury certificates of indebtedness issued during the summer and early fall to finance the current requirements of the government and at that time outstanding and unpaid."

PARIS, Jan. 29 (By Mail).—President Wilson is getting a great "close-up" on a portion of his diplomatic service abroad. And it might be said that some of the negatives on the pictures aren't altogether satisfactory. It has been the president's first opportunity to see what some of the embassy and consular officials actually amount to in active service—and if the experiences of the presidential party enroute and in Paris are to be taken as any criterion, there will be shake-ups on this side of the water.

It is no secret that to have something done promptly in the way of having passports arranged and so forth the British have it all over the American officials in Europe. The British have a way of slinging red tape which, up to the present at least, seems a lot get so far as the American officials here are concerned.

On the trip to Rome the American consul at Milan threw up his hands in anguish when called upon to get an automobile to take Mrs. Wilson to the train.

Egyptians Invented Bells. The invention of bells is attributed to the Egyptians, who are credited with having made use of percussion instruments to announce the sacred fetes of Osiris.

I Am Obligated to Sell

WANT VETERANS TO BE GRANTED A CASH BONUS

Soldiers Leaving the Service Need So Many Things that Citizens Request a Large Sum Be Given Them

OLYMPIA, Wash., Feb. 14.—American soldiers are leaving the service with an average of \$7.50 pay in their clothes. They need civilian attire, food and a few days' relaxation at least to say "Howdy" to the folks at home. Unless they are given a lump sum of money to tide them over for this period, it will be a stain on the state. They will not ask for charity.

These statements were made by men back from overseas duty who tried to explain the veterans' viewpoint to the members of the state legislature now considering an appropriation of \$2,500,000, under the Lamping bill, to pay a cash bonus to every overseas man.

Has Many Backers

Organized labor leaders, tax payers' representatives, service men's parents and veterans of the civil and the Spanish-American war appeared to back up the returned soldiers and sailors and urge passage of the Lamping measure. Congressional action, they said, will be too late to accomplish any material good.

A petition signed by every Seattle bank and dozens of big business concerns was presented calling for favorable action on the appropriation.

FAMOUS PRINCE HAS INFLUENZA

Noted Japanese Is Reported Seriously Ill, Having Developed Pneumonia

TOKIO, Feb. 12.—(Delayed)—Prince Yamagata, it was officially announced today, is seriously ill from influenza. Later it was learned pneumonia had developed.

Prince Yamagata is a member of the Japanese imperial family and one of the older statesmen. He is president of the privy council.

During the civil strife that attended the restoration, he took a distinguished part.

Yamagata was commander of the first army in the Japan-China war, but was soon compelled by ill health to return home.

On the outbreak of the Russo-Japanese war he succeeded Marshal Oyama as chief of the general staff.

ROUBOIR BREAKFAST DIDN'T SUIT HUSBAND

LOS ANGELES, Calif., Feb. 14.—(By Mail)—A husband who has to do with Rouboir breakfasts at which the guests wore kimono and bath robes, Lewis M. Turner today held a decree of divorce from Mrs. Jessie Wals Turner, prominent member of the Los Angeles musical colony.

Mrs. Mankus Aldrich, Constance Balfour and other well known musical artists were mentioned in the course of the testimony.

COUPLE ADOPT A MIDDLE AGED WOMAN

LOS ANGELES, Calif., Feb. 14.—Dr. and Mrs. Joseph McDowell Mathews, whose summer home is at Louisville, Kentucky, have completed legal adoption of Mrs. Evalene Mosier Miller, age 35, wife of D. M. Miller, of Seattle. It was announced here.

Dr. Mathews is a former president of the American Medical association. Mrs. Miller for many years spent the greater part of her time as a member of the Mathews household.

NEW HATS ARE GAY WITH ALL VIVID COLORS

Spring With Fruit and Flowers Bursts Forth in Full Bloom on the Ladies' Millinery Now in Evidence

By MARGARET ROHE. (Written for The United Press.) For quite some time the orchard fruit has ripened on our hillsides. But now truck gardens add their charms. And products from the country farms. The new customers cry out: "I don't like the hats that are the best, and carrots, turnips, beet-roots red. Are raised upon their swagger head."

NEW YORK, Feb. 14.—"By their fruits ye shall know them"—scripturally and aptly speaking this is a safe way to pick lots of the new spring hats. As first fruits of the season, the agency little shepherdesses toques, turbans and pokes, vivid with a variegated assortment of orchard and vineyard products, are fruitful of pleasure. The purple of the plum and the grape contrasted with the scarlet of the cherry, the orange of the tangerine, the lemon of the citron and the green of the gooseberry blend into a delightful array of tempting and tasty beauties, served up ereas of the most of the newest vernal cheapness. Charming little all grape turbans combining the colorings of the Muscatel, Tokay, Catawba, Malaga and Concord are worthy of a bacchante's dream. Large, floppy hats of leghorn for later wear also show grape trimmings, but the tiny little shapes of black satin or dark straw wreathed in 37 varieties of berries (straw berries of course on the shapes of straw) seem to appeal most to the feminine taste. They are certainly all to the taste. After all, we may as well use up the grapes and apricots and oranges and cherries and peaches on our hats. From July, first on it will be the only way left for them to go to our heads.

It really looks, however, as if the

House-cleaning nowadays are not what they used to be. Ten minutes each day with the Frantz Premier keeps the home wholesomely clean the year-round. A quarter million housewives have discovered the Frantz Premier way.

Nine Pounds of Sterilized Quail! You may have a Frantz Premier in your home for free trial. Call or phone.

If you are in the market for either a Vacuum Cleaner or a Washing Machine, see us about special terms.

AMERICAN ELECTRIC CO. 205 Main St. E. Twin Falls, Ida.

Crescent Baking Powder

The very best baking powder is the double action. It makes fast when necessary is added in the mixing bowl, and then again when heat is applied. Crescent Baking Powder has this double action and you will find it very easy to permeate the dough mass and make delicious, light and easily digested breads, cakes and biscuits. Try Crescent. You'll be delighted with the results. Your grocer probably has it—if not write us pending his name and address and we will send you the Crescent Cook Book free on request. Crescent Mfg. Co., Seattle, Wash.

SEASON OF THE FRUITFUL HEADGARDEN

With the milliner and the truck gardener thus joining hands, we may soon expect such fascinating vegetable millinery combinations as a perky poke festooned in pickles and parsnips, a turban of turnips and tomatoes or a bonnet of Brussels sprouts. Nor need we be surprised at a sailor strewn with saucily and string beans or even a succishan toque of lima beans and corn.

After sporting some corn on our foot for several seasons this at least ought to be welcome fashion. Such a shift from one extreme to the other hardly would go against the grain. A chequered garlanded in onions and garlic is bound to have quite an air, and a turban shaped hat with its brim full of carrots, potatoes, turnips and onions is a stew chic for words. Surely, from the florists to the fruiterers has been a step for our delectable little milliners and from the fruiterers to the green grocers but another. A hop skip and a jump may lead them next to the butchers and the fishmongers. We yet may see our headgear adorned with something neat in a second joint, a cluster of cutlets or a general sort of shell and interpreted with clams and scallops.

POLICE DOG TAKES LONG TRIP IN AN AIRPLANE. SAN DIEGO, Calif., Feb. 14.—Pin now rides via airplane. Flu is a dog, a former New York police dog with a long record of good service, chasing crooks, who is riding with Major Albert Smith on his trans-continental airplane flight. The major's plane is the only one left out of the fleet of five which left New York for San Diego. It is due at Rockwell Field tomorrow with Flu.

BOHOL ENGINEERS STRIKE. DENVER, Colo., Feb. 14.—Methers formed a new picket line here today in an effort to re-open a score of public schools closed since Monday by a walkout of engineers who failed to obtain a higher wage. The Denver convention of the union decided to picket after the strikers succeeded in persuading strike breakers to leave their posts.

EIGHT-HOUR WOMEN'S WORK DAY IN DANGER

Possible Beheading of Bill Is Indicated in Defeat of Attempt for Recommendation

BOISE, Feb. 14.—If it is not by any means certain that the eight-hour day for women will become a law in Idaho, this is a veritable vegetable sensation. Another snappy little shepherdess poke of shiny, black straw wreathed in tiny scarlet and green peppers, naturally is full of pep.

With the milliner and the truck gardener thus joining hands, we may soon expect such fascinating vegetable millinery combinations as a perky poke festooned in pickles and parsnips, a turban of turnips and tomatoes or a bonnet of Brussels sprouts. Nor need we be surprised at a sailor strewn with saucily and string beans or even a succishan toque of lima beans and corn.

It is probable that the bill will succeed in getting through the house but it may meet death in the senate according to the belief of several prominent members. Yesterday saw another eight-hour bill started in the house when Representative Kent of Boundary county introduced a measure which would give workers in the mining industry the forty-eight hour per week privilege.

You can obtain contracts at Sugar Factory Office, phone No. 4, or call 540 West, or 949, Twin Falls.

TELLS OF HARD VOYAGE THROUGH MEDITERRANEAN

Electrician Nicolas Wenzel of Twin Falls Spends Christmas Day in Taranto, Italy, Where Boat Waits Repairs

Nicolas Wenzel of Twin Falls, electrician first class, aboard the United States ship Western Hope with the naval service overseas, passage from Gibraltar to Trieste, spent Christmas day in Taranto, Italy, where his ship he laid up for repairs and where it is likely to remain for three months before proceeding to its destination, according to word received by Mrs. Wenzel.

Driven Toward Boats. Electrician Wenzel describes in his letter a storm through which his ship was driven in a hopeless condition, for four days after leaving Gibraltar, December 7, toward a long shoal on the coast of Africa. The situation became perilous on the fourth day, when sails had been hoisted in an attempt to steer clear of the shoal after stripping of turbine gears had rendered other motive power practically useless against the storm.

"The skipper had decided to keep what resources we had until it was absolutely a case of last chance," Electrician Wenzel says. "About 10 o'clock at night we reached this stage of the game. It was made known to us by one of the lookouts piping 'Breakers ahead!' We were again 'lucky' for there was a clear sky and a full moon. Otherwise we would have been on the shoal about as soon as we could have made out the breakers.

Success Rewards Effort. "Another chance was taken on our gear at six knots. The sails, which were rigged up in the after-deck this time, were hoisted on short notice, and the boat was in the air. All this was to try to swing over to the starboard side and head the bow into the storm. You should have seen the gang all lined up on the deck striking along the rails or almost anything that was handy, picking out some star to see if we were turning any. Everything holding out this time, we made it in five shape."

CONSIDER PLANS FOR HOSPITAL NURSES' HOME

Commissioners Returning From Boise Take Up Details With Architect

Members of the board of county commissioners, upon their return Thursday from attendance at an annual session at Boise of the County Commissioners' association, met with Capt. E. H. Gates, architect, to suggest minor alterations in plans prepared by him for the nurses' home to be built in the near future on the county general hospital grounds, at an estimated cost of about \$20,000. The proposed building is to be erected for a dual purpose of relieving a crowded situation at the hospital, permitting of the accommodation of a greater number of patients, and of affording a more convenient and comfortable home for the nurses and attendants at the institution.

WHAT FIGHTERS FEAR

American fighting men, and especially those with the army of occupation, are contending against the only attack which they have ever feared, the attack of homesickness. Neither against the onslaughts of the Hun and in pursuit of the fleeing barbarians have they been subjected to the real and superior terrors that homesickness brings in its wake.

In the present situation it is important to remember that the second line of defense, the folks at home, can render effective service to their fighting men. Every agency that makes for healthy entertainment and diversion among the fighting men is to be encouraged to the utmost, and letters from home of the right sort are not the least of these agencies.

APPLAUD RESOLUTION FOR CENSURING BAKER

Idaho Legislators Do Not Favor Honorable Discharges for Evaders of Citizen Duties

BOISE, Feb. 14.—The action of Secretary of War Baker in giving honorable discharges to a number of conscientious objectors confined in government prisons and camps will not be condoned by the legislature of Idaho. On the other hand it was evident when house joint memorial No. 17 was introduced Wednesday that many of the house members favored letting the conscientious objectors go.

ROAD BUILDING CAMPAIGN PLAN TAKING SHAPE

Twin Falls District Commissioners Meet Today With State Highway Engineer—Tomorrow With Road Men

Commissioners of the Twin Falls highway district are to meet here today in conference with H. C. Allen, state highway engineer, to consider with him the district's plans for road improvement during the coming season and to reach an understanding as to what is to be expected from the state highway commission in respect to improvement of the state highway through the district.

CHRONIC CONSTIPATION

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve.

"Finance" a "To Let" advertising campaign you need only set aside—for perhaps a few days—a part of your pocket money.

Twin Falls Homestead No. 1114 meet Friday evening, February 14. All Brotherhood American Yeoman will Yeomen are urged to be present.

With Hosts and Hostesses

Miss Eileen Lewis gave a charming and delightful Valentine dinner on Thursday evening. The dinner was at 8 o'clock. The center of the table was decorated by a bowl of violets, guarded by two kewpies holding red ribbon streamers leading to the baskets of red and white mints at the place of each guest. Four red shaded candles shed a soft light over the table. The guests were, Misses Iris Guthrie, Maxine Billings, Louise McMartin, Helen Lind, Marjorie Baker and Dorothy Merrill. After dinner the guests danced and played games.

On Thursday afternoon, February 13, Della Brock of Kimberly and Earl McEwen of Hansen were united in marriage by Rev. Asher Brand of the Presbyterian church in the parsonage. Mrs. McEwen made her home in Twin Falls for a number of years and is very popular here. Mr. McEwen lives near Kimberly on a farm. The couple went to Kimberly after the wedding.

Dear girl, Elizabeth:

Your last letter contained one request that was really superfluous, for without your asking for it, I intended to send you one of my photographs.

I haven't forgotten all the dear days we had together in school, how you trimmed my dress for the May festival, how your hands led the jolliest applause when my division passed in the Class Parade, how—but I can not possibly enumerate all the kind things you have done for me; every day we were together added to the list.

So of course I shall send you my favorite photograph. Only it is going to be hard, I am sure, to choose, for at **The Bisbee Studio** so many proofs are shown. Each pose seems to have a distinct charm and I kept saying as every single negative was made, "I believe I will like this one best of all."

Having a portrait made at Bisbee's is a very different thing than having a portrait made in the ordinary way at the average studio. Mr. and Mrs. Bisbee thoroughly believe in the personal element in their work. They believe there is no idea of a customer that is too vague or a wish too small to have their personal attention. They believe in special training, in certain and thorough knowledge, in high efficiency and in individual service.

Therefore, when you enter **The Bisbee Studio** either Mr. or Mrs. Bisbee comes to the reception room. You do not find yourself thinking "I wonder if this girl will be able to understand just what I mean?" or "Surely this boy will not be put at any of the work of making my pictures." You know at once that no unskilled fingers will be put at your work or at any other in the place for the reason that no unskilled fingers are employed there. You know that only the most capable of experienced workmen could ever measure up to the standard of this studio—to the standard of the service you are receiving—for you feel from the beginning the ease and confidence that only capable management can produce.

I almost wish I were a photographer, Elizabeth, then I could have made your picture at the crystal shower we gave for you just before I came West. You were charming enough, though, to deserve a higher skill than mine would probably be.

With so much love to you,

Mary Lou Grainger

The Girl of the Golden West, Her Letter—Number 7.

In men's Clothes The difference between a Valentine and a Value

is that one makes love, and the other makes good.

The Valentine, and we refer to the machine made suit, comes to you unsigned, laden with tinselled tones and glittering promises—while the Value, and now we speak of our Michaels Stern suit, goes home signed, and sealed, pledged and perfected by tailors who work by hand, with a song and not by the hum of a Singer.

The hand tailored garment lies smooth and serenely about the neck and shoulders, while the mechanically processed put-together *lies* grossly about everything it claims to accomplish.

CATHOLICS GIVE CONSTRUCTION PLAN TO PUBLIC

Bishops Representing Church in America Stand for Resistance Against Wage Reductions

WASHINGTON, Feb. 13.—An American reconstruction program, surprisingly radical in many of its features, backed by the official approval of the hierarchy of the Catholic church in America, was made public here today.

The program is to be distributed in pamphlet form throughout the country by the committee on special war activities of the National Catholic "War Council." Its significance lies in the fact that it is tantamount to an official pronouncement of the Catholic church in America, as represented by its bishops and archbishops. The committee signing the paper consists of Rt. Rev. Peter J. Mullooly, bishop of Rockford, Ill.; Rt. Rev. Joseph Schrembs, bishop of Toledo, O.; Rt. Rev. Patrick J. Hayes, coadjutor bishop of New York, said to be slated for the office of archbishop of New York; and Rt. Rev. William T. Russell, bishop of Charleston, S. C.

This committee was selected to represent the Catholic bishops of America, and it is generally understood that every line of the pronouncement issued today has been carefully studied and passed upon by practically every notable Catholic prelate in the United States before being made public. The program, therefore, may be said to be an official statement of the attitude of the American Catholics toward social and economic problems now engaging the attention of all thinkers.

In many respects the program resembles that of the British labor party. It endorses many social and economic doctrines heretofore pronounced socialistly by conservative thinkers.

The Catholic program is embodied in a pamphlet called "Social Reconstruction."

The Catholic bishops:

Approve Secretary Lano's scheme for settling returned soldiers on reclaimed lands.

Encourage labor to resist general wage reductions.

Demand maintenance of wartime wage level in all except very few industries.

As cities to correct bad housing conditions.

Suggest that laws be passed to prevent the extortionate practices of monopoly that cause high cost of living.

Suggest that more attention be given to possibilities of government competition with the big monopolies that apparently cannot be controlled otherwise.

Approve co-operative stores, run and owned by working classes.

Demand legal minimum wage high enough to provide not only for present needs of worker and family, but a surplus that shall be sufficient for adequate savings.

Approve social insurance against illness, invalidity, unemployment, and old age, the funds to be provided, so far as possible, by a levy on industry, as in accident compensation.

Favor continuance of life insurance extended to soldiers by the government.

Approve policies of war labor boards, emphasize right of laborers to organize, recognize practice of collective bargaining principle, and ask that the war labor board's activities be continued in peace time.

Endorse movement of labor to obtain voice in management of industries, commonly called "industrial democracy."

Approve vocational training; but not any system of education that would tend to deprive children of workmen of their opportunities for purely cultural training.

Deplore child labor, and approve plan to tax it out of existence.

The foregoing are the chief features of that portion of the program which its framers believe immediately practical. The pronouncement also discusses reforms that should be accomplished as a part of a program projected farther into the future. It says:

"The full possibilities of increased production will not be realized so long as the majority of the workers remain mere wage-earners. The majority must somehow become owners, or at least in part, of the instruments of production. They can be enabled to reach this stage gradually through co-operative arrangements. In the former, the workers own and manage the industries themselves; in the latter they own a substantial part of the corporate stock and exercise a reasonable share in the management. However slow the attainment of these ends, they will have to be reached before we can have a thoroughly efficient system of production, and under the present order that will be secure from the ravages of revolution. It is to be noted that this particular modification of the existing order, though far-reaching and involving to a great extent the abolition of the wage system, would not mean the abolition of private ownership."

"Big business is handling the part of food for thought."

"For excessive gains by a small minority of privileged capitalists, the main remedies are prevention of monopolistic control of commodities, adequate government regulation of such public service monopolies as will remain under private operation, and heavy taxation of incomes and profits and inheritances. The precise methods by which genuine competition may be restored and maintained among business that are naturally competitive, cannot be discussed here; but the principle is clear that human beings cannot be treated as the immense opportunities for oppression and extortion that go with the possession of monopoly power."

DISCUSSES BEET GROWING

The urgent need for an increased production of sugar in the United States is brought about by the war led specialists of the United States department of agriculture to make a study in areas where sugar beets are now grown to determine factors that are favorable to the production of this much needed crop. A report of the investigations has just been published by the United States department of agriculture as bulletin 721.

This bulletin discusses the soils and climate best suited for sugar beets, suitable farm equipment, methods of culture, diseases and insect enemies, farm labor, problems, and other phases that should be considered by the prospective growers.

"KAIBER" PEA CHANGES NAME

The name "Kaiber" is composed of two Scandinavian words meaning "fish of the deep." That derivation is found in the dictionaries, but the term first appears in the ancient legends as "halibutin," which signifies a holy messenger, one who is sent to relieve suffering or save either body or soul.

A POSITIVE MONEY BACK GUARANTEE TO GIVE SATISFACTORY RESULTS with ANY KIND OF BAKING

We don't care what kind of baking powder you are using—we don't care how much you pay for it or how good the results—you'll never know how wholesome and tasty bakings can be until you try Calumet. Nor will you know the meaning of greatest baking economy.

It is more than a claim. It is an uncontested fact. Let us prove it—without risk to you. Let us show you how to secure superior baking results and to save on baking costs. Just ask your grocer to send you a can. Try It. And then if you are not convinced that Calumet serves you better than any baking powder you have ever used—if you are not sure it saves you where inferior powders so frequently cause waste, tell your dealer and he will cheerfully refund purchase price. Order a can today.

Calumet is the product of the largest and finest baking powder factory in existence. Its wonderful excellence has made it the choice of leading Domestic Scientists, eminent Chefs, U. S. Army and Navy and the most popular leavener with America's most particular housewives.

IT'S WONDERFUL SAYS J. A. GREER

San Francisco Man Gains Twenty-Two Pounds By Taking Taniae

"I have already gained twenty-two pounds since I began taking Taniae, and my old time strength and energy have come back to me," said J. A. Greer of 418 1/2 Lyon St., San Francisco, recently. Mr. Greer, who is a valued employee of the Universal Electric & Gas company, has been a resident of San Francisco for more than forty years and is highly respected by all who know him.

"I haven't gotten all my lost weight back yet," he continued, "for I had dropped off forty-seven pounds on account of bad health, but I am still picking up and expect soon to tip the beam at my old weight, which is two hundred pounds, or better. My troubles began years ago, with catarrh of the head; and I evidently swallowed the mucus that accumulated in my throat during my sleep at night, and I would get up in the mornings feeling nauseated and would cough and gag for hours, trying to rid myself of this mucus. Finally, about two and a half years ago, my stomach began bothering me, which started by gas forming on my stomach and a burning sensation all the way up to my throat. I soon got to where I could hardly eat anything without bloating terribly, and suffering intense pain in the pit of my stomach. I not only had pains after eating, but would become dreadfully nauseated and finally I just had to give up meats and everything else except milk and the very lightest of foods. I was also badly constipated and my back, just over my kidneys, hurt me a great deal and my condition kept getting worse.

"I now believe that it was catarrh that caused my stomach trouble and gave me that nauseated feeling all the time, for since I have been taking Taniae I haven't suffered that way at all. My head and throat are not stopped up like they were and I don't cough and gag now at all. And my very first bottle of Taniae relieved me of the gas, bloating and pains, and in almost no time I was eating just about anything I wanted. I have meats every day now—in fact, nothing is barred from my bill of fare—and you may know my food agrees with me if I would not be picking up so rapidly in weight. My stomach seems to digest just anything and I am making up for lost time by eating three rousing meals a day. I never notice the catarrhal trouble any more, have also been relieved of constipation and every night I sleep like a log. Taniae is wonderful, there's no getting around that fact, and I am only too glad to recommend it to everybody."

"Taniae is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Murtaugh by Murtaugh Drug Co., in Filer by A. B. Wood, in Buhl by C. D. Boring Brothers Co., and in Kimberly by A. L. Stone.—Adr.

NOTICE FOR PUBLICATION OF TIME APPOINTED FOR PROVEING WILL, ETC.

In the Probate Court of Twin Falls County, State of Idaho, the estate of Solomon J. Hammel, deceased.

Pursuant to an order of said Court, made on the twelfth day of February, 1919, notice is hereby given that Tuesday, the twenty-fifth day of February, 1919, at ten o'clock a. m. of said day, at the Court Room of said Court, at the Court House in the City of Twin Falls, County of Twin Falls, Idaho, has been appointed as the time and place

for proving the will of said Solomon J. Hammel, deceased, and for hearing the application of Jennie Hammel for the issuance to Jennie Hammel of letters testamentary, when and where any person interested may appear and contest the same.

Dated February 12th, 1919. G. P. DUVALLO (Seal) Judge and ex-Officio Clerk. J. M. SHANK, Attorney for Executrix, Buhl, Idaho.

GRAVES FEAR OF NOTED UNLUCKY DAY FOR FIGHT SACRAMENTO, Calif., Feb. 13.—Braving the jinx sign of 13, Fred Fulton will try to alter his Dempsey luck when he meets Jim Cameron, lanky negro boxer, in a four-round go here tonight.

He figures the mill a probably stepping stone to his ambitions for a championship match with Jess Willard and is going after an early laymaker. Jim Griffin of San Francisco will referee.

AMERICAN ACE IS EXPECTED SAN DIEGO, Calif., Feb. 13.—Lieutenant Colonel William Thaw, famous American ace, is due here on Saturday, when he will assume the duties of executive officer at Rockwell Field, North Island, the big army flying school. Captain Clyde "Baby" King, with Thaw, was a member of Lafayette Escadrille of the French army, before the United States entered the war, reported for duty here yesterday.

City Life. (75) Life is a fierce, constant struggle between neighbors, each of whom is trying to shove the other into the country to raise more produce and lessen the demand for city conveniences, so that living in the city will be cheaper and better.—Chicago News.

How Phrases Originated. The English-speaking people frequently when they see somebody doing something they like, exclaim: "That's the ticket," meaning that it is the proper method to proceed. The real saying is, "That's the ticket," or the right and proper thing to do.

HAS PLAN TO PROVIDE FOR THE BRUNEAU

A. C. Milner of Salt Lake Argues for Adoption by Congress of Financial Method to Make Undertaking Possible

The advisability of adoption by congress of a method of utilizing the assets of the reclamation service as collateral for bond issues thus making possible the reclamation work on a large scale than would be possible under present methods is pointed by A. C. Milner of the Milner Corporation, Salt Lake, in a letter received here by James McMillan. Mr. Milner already has proposed this plan to Director Davis, Commissioner Clay Tallman and several United States senators.

Provides for Big Projects.

"My reason for taking deep interest in having the new plan adopted," he says, "is that congress is afraid that if they grant the \$100,000,000 appropriation desired by Secretary Lane for reclamation and drainage, so many large projects will be initiated that congress shortly would be called upon for further large appropriations to complete projects at times when congress is reluctant to further increase burdens of taxation upon the people.

Indicates Advantages.

"For fear therefore the congress, through its inability to gauge the extent of the financial commitments which it might eventually be called upon to furnish for the reclamation projects which it might initiate, might be reluctant to grant the first \$100,000,000 granted, and might reduce their appropriation to a figure which would not permit of the program being undertaken, I am trying to indicate definitely by figures that the adoption of the plan suggested and the appropriation of \$100,000,000 would relieve congress of further responsibility as to appropriation and would at the same time enable the service to proceed with several such projects as the Brunneau and prosecute the work with great diligence. In which case the Brunneau need not fear competition from feasible irrigation opportunities located in other sections.

"It is important that congress should adopt the new plan of finance if the west is to be materially benefited through government work.

"Great pressure is being brought to bear upon Washington by several western states to induce the government reclamation program on the Green and Colorado and New Mexico, involving about 2,000,000 acres.

Adoption of Material.

"It is essential that you get the credit for interesting the government in the Brunneau or in the financial plan, but it is material that both propositions are fully considered and adopted if the state of Idaho is to be benefited.

Should Present Claims.

"It would seem that the enormous reservoir capacity at American Falls, ample water supply at that point and demonstrated productiveness of southern Idaho soil, coupled with physical conditions favorable to economic construction should be potent advocates for the Brunneau, but these points should be forcibly presented to Washington."

The pastor will preach at Murrain, Sunday, at 7 p. m., Pacific time.

Maglo Guard Against Rattlesnakes.
Camping out in a rattlesnake-infested district with no other protection for one's bed than an encircling horse rope would not give the average camper a feeling of security. A photograph in Popular Mechanics Magazine showed two campers making their bed on the Western plains, surrounded by nothing more stable than one of these ropes, as it is well known in that region that rattlesnakes have an unconquerable aversion for crawling over a rope of this kind.

An Improvement.
"A young Germanman called the other day on a certain financier, who insisted on showing him over his magnificent private house, informing him not only where he purchased every article in it but the price he paid for it. When he had finished he asked his visitor if he would suggest any improvement in the arrangement of the house. "Well," was the reply, "if you were to mark all the goods in plain figures it would save you a good deal of trouble."

Get some INFORMATION about it—what it will cost, where it may be bought to best advantage—through reading the ads.

DOLLARS AND CENTS

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but why not let it be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.—adv.

LEAGUE OF NATION DRAFT GIVEN TO CONFERENCE

(Continued from page one)

failing any such decision of the seat of the league, and any matter within the scope of action of the league affecting the peace of the world may be dealt with at such meetings. Invitations shall be sent to any power to attend a meeting of the council at which the subject of the league and its interests are to be discussed and no decision taken at any meeting will be binding on such powers as invited. The executive council shall enjoy diplomatic privileges and immunities and that the buildings of the league shall enjoy "extra territoriality."

Article IX. All matters of procedure at meetings of delegates or the executive council, including the appointment of committees shall be regulated by the body of delegates of the council and may be decided by a majority of the states represented at the meeting. The first meeting of the body of delegates and the executive council shall be convened by the president of the United States.

Permanent Secretaries.
Article V. The permanent secretariat of the league, which shall constitute the seat of the league. The secretariat shall comprise such secretaries and staff as may be required under the general supervision of a secretary general of the league, who shall be chosen by the executive council; the secretariat shall be appointed by the secretary general subject to confirmation by the executive council.

The secretary general shall act in that capacity at all meetings of the body of delegates or of the executive council. The expenses of the secretariat shall be borne by the states—members of the league—in accordance with the apportionment of the expenses of the international bureau of the universal postal union.

Diplomatic Privileges

Article VI. Representatives of the high contracting parties and of those of the league which engaged in the business of the league, shall enjoy diplomatic privileges and immunities and the buildings occupied by the league or its officials or by representatives attending the meetings shall enjoy the benefits of extra-territoriality.

Article VII. Admission to the league of states not signatories to the covenant and not named in the protocol hereto as stated to be invited to adhere to the covenant, requires the assent of the league in regard to its naval and military forces and armaments.

To Reduce Armaments

Article VIII. The high contracting parties recognize the principle that the maintenance of peace will require the reduction of national armaments to the lowest point consistent with national safety and the enforcement by common action of international obligation, having special regard to the geographical situation and circumstances of each state; and the executive council shall formulate plans for effecting such reduction. The executive council shall also determine for the consideration and action of the several governments what military equipment and armament is fair and reasonable in proportion to the scale of forces laid down in the program of disarmament, and these limits when adopted shall not be exceeded without the permission of the executive council.

Make Few War Implants

The high contracting parties agree that the manufacture, by provincial enterprise of munitions and implements of war leads itself to grave objections and directs the executive council to advise

how the evil effect attendant upon such manufacture can be prevented, due regard being paid to the necessities of those countries which are not able to manufacture munitions and implements of war necessary for their safety.

The high contracting parties undertake in no way to conceal from each other the conditions of such of their industries as are capable of being adapted to war purposes or the scale of their armaments, and agree that there shall be full and exact interchange of information as to their military and naval programs.

Article IX. A permanent commission shall be constituted to advise the league on the execution of the provisions of article eight and on military and naval questions generally.

Article X. The high contracting parties shall undertake to respect and practice as against external aggression the principle of territorial integrity and political independence of all states—members of the league. In case of any such aggression, or in case of any threat or danger of such aggression, the high contracting parties shall meet in conference by which the obligation shall be fulfilled.

League Will Consider War

Article XI. "Any war or threat of war, whether immediately affecting any of the high contracting parties or not, is hereby declared a matter of concern to the league, and the high contracting parties reserve the right to take any action that may be deemed wise and effective to safeguard the peace of nations.

It is hereby also declared and agreed to be the friendly right of each of the high contracting parties to draw the attention of the body of delegates or of the executive council to any circumstances affecting the international relations which threaten to disturb the peace of the good order or the relations between nations upon which peace depends.

Must Submit Questions

Article XII. The high contracting parties agree that should disputes arise between them which cannot be adjusted by the ordinary processes of diplomacy, they will in no case resort to war without previously submitting the question and matters involved either to arbitration or to inquiry by the executive council and until after three months after the award by the arbitrators or recommendations by the executive council they shall not resort to war against a member of the league which complies with the award of the arbitrators or the recommendation of the executive council.

Article XIII. The high contracting parties agree that whenever any dispute or difference shall arise between them which they recognize to be suitable for submission to arbitration and which can not be satisfactorily settled by diplomacy, they will submit the whole matter to arbitration. For this purpose the court of arbitration to which the case is referred shall be the court agreed on by the parties or stipulated in any convention, existing between them.

To Act in Good Faith

The high contracting parties agree that they will carry out in full good faith any award that may be rendered in the exercise of this article, and that the award of the executive council shall propose what steps can best be taken to give effect thereto.

MARRIAGE LICENSES

Marriage licenses were issued Thursday in Twin Falls to the following: Earl McEwen, Hansen, and Della Brock, Kimberly.

PERIODIC BILIOUS ATTACKS

Persons subject to periodic bilious attacks will observe that their appetites fail them just before an attack. That is, they do not really crave food but eat because it is meal time. If they will eat only a light meal and no meat, then take two of Chamberlain's Tablets, the attack may be avoided.—adv.

ALBERTA LANDS

530,000 Dry and Irrigable Acres

Lands are located in Southern Alberta and are among the best in that famous district, 200,000 acres will be under irrigation, the balance is being sold for grain growing.

The lands are being put on the market for the first time and the company is looking for bona fide settlers. All lands within a radius of ten miles or less to shipping point.

Dry lands are being sold at \$15 to \$30 per acre—irrigable lands \$40 to \$60 per acre, which includes water right—operation and maintenance charge \$1.50 per irrigable acre per year—easy payments and low interest. Alfalfa, grain, field peas, potatoes and root crops can be successfully grown.

Write direct to the company for full particulars and pamphlets.

BUHL MAN TELLS WHAT WINS IN IDAHO DAIRY

Gustave Kunze Tells State Association Meet in Boise Good Sires and Bils Are Essential

BOISE, Feb. 14.—"Successful Dairying" is the title of the address made at the annual meeting here of the Idaho State Dairy association by Gustave Kunze, practical dairyman of Buhl, who in 10 years' time built up a herd of 80 high-bred cows from seven head. He moved to Idaho from Oregon 10 years ago and before going to Oregon was a dairyman in Pennsylvania. "I read and heard so much of the irrigated alfalfa country of Idaho that I made a visit to this country; noticed the fields of alfalfa, and said 'here is the stock country.' I immediately moved from Oregon here and I don't think I was mistaken."

Good sires and silos are the principal phases of the dairy industry, says Mr. Kunze, and he recommends the erection of silos which will accommodate the herd on any farm to the extent of its milking a two and one-half-inch layer day from its contents. "I had much trouble with blast in my cows," he said, "and had as many as four cows drop at once while I looked after them. I now feed a small quantity of salt in the morning instead of turning them out to pasture, and have not lost a cow through blast since doing this."

He also suggests the legislature should pass a bill providing for a committee with authority to inspect all bulls in the state and if they are not up to proper standard to prohibit the sale of them by the owner. "If this is done," says Mr. Kunze, "half the problem in the dairy industry is solved."

WAR VETERANS' BAND COMES TO LAGERING

Interesting Aggregation of Fighting Musicians To Be Heard in Concert Here

Each man in the Allied War Veterans' band, which will appear in concert at the Lagering theater on February 15, has more than a share in a fighting son of a gun, mixed in the water and death of a trench raid, and each has brought back at least one "kumara" at the point of a redoubled bayonet. It is a well known fact that during the early days of the war when the allies were tried to their utmost limit due to the shortage of man-power, which was particularly felt by Great Britain and her loyal colonies, that men who were chosen to cheer the regiments on their way to the battlefields of Europe, with their martial and inspiring music, were forced to lay down their instruments and take up the various implements of warfare and thus help to stem the onrush of the Prussian hordes.

In this band returned men will be seen from the various regiments of the allied countries; thus the "Bobby" of the Stars and Stripes, the "Tommy" of the Union Jack, the "Blue Devil" of the Tricolor, and others. Many of the men were soloists of some of the world's famous military bands, and have played before the highest musical critics in Europe and America. They will render a varied program, including standard, classic and popular music, ballads and trench songs, witty monologues, Scotch pipes and dances.

FOR THE CHILDREN

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and, most effective, curing colds, coughs and croup. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers.—adv.

Announcements

The First Methodist Episcopal Church will be the scene of a celebration of the birth anniversaries of Abraham Lincoln and George Washington on Sunday evening. Besides the honor paid to these names, the pastor, Rev. Elmer Grant Keith, will give an anti-Theodore Roosevelt. The choir will render national anthems assisted by a large orchestra under the leadership of Dr. R. A. Parrott. The public will be welcomed to this service.

Under the auspices of the International Bible Students association, W. A. Baker of Portland, is to deliver a free lecture, at 2:30 o'clock Sunday afternoon at the Idaho theatre on "The New Freedom—A New Age Dawning."—Adv.

SUFFICIENT!

He was traveling on a branch railroad in the South. After a series of sudden bumps and unexpected stops he became uneasy.

"Look here," he said to the porter, "is this train safe?"

"Oh sure am," said the porter. "Well, since they're a block system on this road."

"Block system, sah? We hab de greatest block system in de world. Ten miles back we were blocked by a load of hay, six miles back we were blocked by a cow, and I reckon when we get further south, we'll be blocked by an alligator. Block system, hoast—Well, Ah should mist."
