A MATTER OF HONOR

Whatever other judgment may be pronounced in the premises one feature is bound to be common to them all and that is that United States Senators.

The reason given by the Senator for his refusal that he cannot be bound to receive, in confidence what he might make use of in subsequent discussions.

It is unavoidable, and necessary and right that there should be the widest discussion of every detail of the program proposed in the constitution of the league of nations before that constitution either is adopted or rejected.

The proposition is not one to be accepted or rejected on one man's say-so nor will it be. It is inconceivable that there can be entire unanimity of thought either for or against the proposal.

If there is any disadvantage to result from Senator Borah's refusal to take part in the dinner conference, that disadvantage no doubt will react most heavily against the Senator himself.

While many of our familiar comparisons have been scrapped by modern conditions, new comparisons are taking their places—for example: "As quickly over as a movie meal."

So Mote It Be. Sayeth the Apostle of Threescore and Forty Hill, Kum, in his latest exposition: "I, too, believe in human brotherhood; but a good many of the brethren must be policed, and do their duty without fear or favor."

A cheap and effective substitute for putty. It stops the cracks in floors and woodwork, may be obtained by soaking newspapers in a paste made of a pound of flour in three quarts of water and adding a teaspoonful of alum.

For Employers' Consideration. Men can have no hope in their work while they live purely from hand to mouth.

DISARMAMENT BEGINS IN LABORATORIES

International control of every factory and laboratory will be the only complete disarmament of the great French scientist.

ENDORSES POSITION OF MAYOR DURING STRIKE

SALEM, Ore., Feb. 20.—The lower house of the Oregon legislature is on record today as endorsing the stand of Mayor Hanson of Seattle during the recent strike in the Puget Sound city.

COPPER COMPANY WILL ANNOUNCE CUT IN WAGES

REDDING, Calif., Feb. 20.—Wage reductions of 50 cents a day were announced today, effective at once at the Mountain Copper company mines at Keswick and Iron Mountain.

Sponges Strongly Colored

Five scientific sponges have been picked up in Lake Biwa, Japan; the authorities of the lake laboratory at Otsu, attached to the Kyoto Imperial university, are quoted as saying that similar sponges have never been discovered anywhere in the world.

The Dentist's Showcase

"Oh, look at grandma's bite, Aunt Emily," whispered the baby, eyes fixed on the array of false teeth in the glass case.

ROOSEVELT

(Concerning those verses John Burroughs, the famous naturalist, wrote to the Roosevelt Permanent Memorial National committee which, under the leadership of William Boyce Thompson is collecting funds for a national memorial to the great American.

Tell the bells, toll the bells, Solemn and slow, Let the world know A whole nation's woe, Tell the bells, toll the bells, Solemn and slow.

The knell it has sounded, A leader is dead; His brave voice is silent, His great spirit fled, Now, now shall we praise him, Except by our grief, The future his virtues Will carve in relief.

Tell the bells, toll the bells, Solemn and slow; Let the world know Our love and our woe, Tell the bells, toll the bells, Solemn and slow.

—Grace D. Vanamanc

HIGHER IDEALS IN THE AUTOMOBILE INDUSTRY

Prosperity, Apparently Within Easy Reach, Will Prove Phantom to Those Manufacturers Who Continue to Use the Old Tactics

The war has developed new and higher ideals of honor and justice and service in the automobile industry.

George C. Hubbs of Detroit, who has been prominently identified for a number of years with big manufacturing interests, fathers the striking idea of the "automobile ruminance."

"It is my candid opinion that four years of war-conditions have resulted and that usages in both principle and practice, that which was not basically right, has been subjected to needed alteration.

"The industry as a whole has had an opportunity to express itself in new and splendid terms; and as a result of these testings there has evolved a character to the business which is certain to have an important bearing upon future manufacturing and sales methods.

Higher Standards Now. "Just as the war has uplifted our individual ideals of honor and justice and service, so all organized bodies discover that the standards which in the past they have universally been set up by the close associations and mutual dependencies of war times.

"Wages and crop prices have never been as high in this or any other country as they have been in the United States during the past two or three years. In spite of the high cost of living, tens of thousands of people who the purchase of a car was formerly more of a wish than a hope, are now in a position to buy practically any car they choose.

The immediate future could hardly be more encouraging. Anyone who can think straight should add two and two can properly safely that the coming year is going to be one of the best years the motor-car has had.

"There are three things—all of which have to do with common honesty—that will largely determine the future of this business. First, the manufacturer of honest cars. No manufacturer has a right to mislead the public or to force the dealer to compromise his credit by representing a car for something which is secret, or for a car with a permanent success for either a car or a dealer that is not based on probable merit.

"Second, an honest, helpful, absolutely uniform and businesslike relationship between the manufacturer and his dealer. Third, open-and-above-board dealing with motor-car purchasers, with no fictitious allowances on used cars to cover up price concessions; no fictitious claims for depreciation that is charged for in advance in the price of the car.

"The application of simple honesty at these vital points will provide the surest possible guarantee for a healthy future for those dealers and manufacturers who have vision enough and courage enough to follow a straight line.

"The real determining factors for the future are in the ideals (or lack of them) of the men engaged in this business, rather than in certain promising financial or economic conditions."

ASSASSIN'S ATTACK IS EXPRESSION OF BOLSHIEVISM

LONDON, Feb. 20.—The attack on Premier Clemenceau was interpreted by the British press today as an instance of an outcropping of "Bolshievan" throughout the world.

# TELLS STORY OF ALLEGED INJURY DONE BY WORDS

**A. V. Mounce Testifies in His Suit Against W. S. Hyde for \$30,000 Damages on Claim of Slander and Libel**

American, Vespulent Mounce, real estate dealer of Buhl, who is suing Winfield Scott Hyde, another land dealer of the same city for \$30,000 damages for alleged slander and libel, on Wednesday afternoon before the relation of how he had been damaged through an alleged spoken statement of Albert G. Hyde to the effect that Mounce was pro-German and through the written statement attributed to Hyde that Mounce was known in Buhl as the "second knifer." In his answer, previously filed in the court, Hyde denies responsibility for the slander but that he will prove the accuracy of the alleged libel.

The case is attracting wide interest and is being closely contested at every turn.

**Loan Agency Involved.**

According to the opening statement of attorneys for Mounce the statements attributed to Hyde were made on the afternoon of February 6, 1918, at which time Hyde was relieved of the agency at Buhl for a Tacoma building and loan concern, which agency was given forth by Mounce.

Hyde's statement that Mounce was pro-German is alleged to have been made to the representative of the loan concern who relieved him of his position, and the written statement, alleged to have been made in letters to officials of this concern. As a result of these statements it is argued Mounce lost for a time the agency which had been given him. Lost business and standing as a citizen and his health was seriously impaired.

A jury in the trial of the case was seated after about three hours spent in the examination of the witnesses, including in addition to the members of the original panel, ten others called on an special venire.

W. S. Hyde is represented in this case by Turner H. Hickman, E. M. Wolf, and J. F. Martin. Walters & Hodgins appear for Hyde.

## BASKETBALL TOSSERS OF BURLEY TO PLAY HERE

**One of Best Games of Season Expected When Visitors Come Friday**

The basketball tossers from Burley will invade Twin Falls Friday night. The two schools did not meet on the basketball floor last year but the game played here by the two teams year before last has been discussed in high school circles frequently of late. The game ended 27-28 in Burley's favor, it being held by the referee that the goal thrown by Twin Falls as the whistle blew did not count. The matter was referred to the rules committee who ruled that the goal should be allowed, the game by this decision going finally to Twin Falls by the count of 28-29.

The local five have a hard schedule ahead of them as they will play Shoshone and Gooding next week, Burley and Rupert the week following, all the game away from the home floor. It is expected that Friday's game will be one of the best on the home floor this year. The band will occupy its regular place in the gallery.

# REPORTS LACK OF STOVES AND BEDS AT BREST

**Rollo Crater, Returning to Twin Falls After 15 Months Service Overseas, Hints at Embarkation Camp Activities.**

American soldiers awaiting transport home from the embarkation camp at St. Nazaire, France, have wooden beds to sleep on and their barracks are heated with stoves, but these conveniences are lacking at the embarkation camp at Brest, France, according to Rollo Crater, son of Mr. and Mrs. G. W. Crater, and a member of the medical detachment with the 110th regiment of engineers, who returned here Wednesday after spending 15 months in overseas service.

At either camp, he says, there is almost constant rain and resultant mud to contend with.

Mr. Crater was mustered out of the service at Camp Funston, Kan., two weeks after his return to the United States.

As a member of the medical detachment of the Second Idaho regiment, Mr. Crater served with that organization on the Mexican border in 1916, and up until the date of being mustered out he had been in the service with but two months interval for two years and eight months.

Prior to his embarkation from St. Nazaire he was held in quarantine there for two months.

short visit in Piler with friends on Wednesday.

W. M. Worthington of Oakley is in Twin Falls looking after business interests here.

Mrs. H. D. Harvey of Curry is the guest of her mother, Mrs. C. A. Jamison, this week.

M. and Mrs. J. B. Jones of Salt Lake are spending a few days here transacting business.

Mr. and Mrs. J. E. Smith of Roger's son were business visitors in Twin Falls yesterday.

William Martin, a Jarbridge mining man, came in Wednesday for a few days on business.

Mrs. A. M. Wright and daughter, Miss Alice, shopped in Twin Falls from Hansen on Wednesday.

Mr. and Mrs. G. A. Wiseman returned to their home in Hansa yesterday after spending a day here.

Mrs. Vera Butler returned to her home in Hager after a visit with friends here on Wednesday.

Mr. and Mrs. M. J. Bills of Kimberly returned home last night after a five day visit here with friends.

Mr. and Mrs. A. D. Hartley returned to Hazelton last night after visiting friends here for a few days.

Rev. and Mrs. A. W. Hartshorn of Hansen returned home after spending several days here this week.

Mr. and Mrs. James Worthington of Hazelton are visiting friends and transacting business in Twin Falls this week.

Mrs. H. Long and daughter, Miss Eunice, went to Rupert on Wednesday evening to visit friends for a short time.

Miss Ruth Tabbs of Idaho Falls, a former resident of this city, is the guest here for a few days of Miss Harriet Heller.

# All ages meet at the Idaho Dept. Store

Pure worsted suits for men of years of that firm twisted material that accepts a lot of wear as a matter of course—with-out giving any "back talk" in return.

Smooth-finished cashmeres for dignified youths who think so much of style that they wouldn't be without it.

Unfinished effects for the "middle man" who likes a pretty surface and a spunky underneath—and homespuns for the fellow who wouldn't feel at home unless he had something a bit out of the ordinary.

Every cloth and every weave that's good and fine and desirable is here in Michaels Stern Clothes for any man—youth, old, or in between.

## PREDICTS SMALL DANGER OF SHORTAGE OF WATER

**Project Manager Barry Dibble Reports on Improving Snow-fall Conditions**

Sub conditions are improving daily according to information just received from Barry Dibble, project manager for the United States reclamation service at Rupert by the Twin Falls Canal company. Following is his statement:

"The snow conditions are getting better each day. At present we are having quite a storm. The temperature is high, and the snow is very wet containing much water. Following are measurements of snow for yesterday:

Moran 25 inches, Rosseras 24 inches, Blackrock 60 inches, El Shofila 36 inches, Snake River Station 48 inches, Divide in Park 60 inches, Cascade 72 inches. Of course, this is loose snow, not settled. However, it is safe to say that if conditions keep up for a few days, as in the past week, there is not much danger of a water shortage this year. At this time last year, we had 25 inches of settled snow at Moran, and last year was about an average year for snow fall."

## Science

Only things in nature proved, not beyond a reasonable doubt, but beyond any doubt, can be classed under the majestic word science. The slightest trace, or even suspicion, of doubt will exclude instantly any assertion, statement or hypothesis from being placed in a list of laws of nature, and shift them all over to the extensive catalogue of theories.

## Deaths

**Mrs. Florence Cross**

At a local hospital where she recently underwent a surgical operation, Mrs. Florence Cross, aged 28 years, wife of Frank Cross, died this morning at 4 o'clock. She leaves one child, a son aged about 7 years. The remains are to be placed in the Grossman & DeWitt undertaking establishment pending final arrangements to be completed upon receipt of word from relatives elsewhere.

**George Q. Cole**

At the age of 78 years, George Q. Cole died at about 5:30 o'clock Wednesday evening at the home of his daughter, Mrs. O. M. Gant, 516 Second avenue east. Funeral services to be conducted by Rev. L. B. Franck, rector of Ascension Episcopal church, will be held at 2 o'clock Friday afternoon from the Grossman & DeWitt chapel.

**Verness Letch**

Funeral services will be held under the auspices of the L. D. S. church at 2 o'clock this afternoon from the Grossman & DeWitt chapel for Verness Letch, aged 9 years, 9 months and 24 days, son of Mrs. John Christiansen, who died from scarlet fever Wednesday morning at the Christiansen home near Hollister. Interment will be in the Twin Falls cemetery.

## Local Brevities

**Goes to Ontario**—R. A. Bowman left for Ontario, Ore., after spending several days here on business.

**Is Hansen Delegate**—The Hansen delegate to the Home Service lecture yesterday was Mrs. M. Provost.

**Joins Children on Coast**—Mrs. E. Gibbs left for California last night. She will make her home with her children.

**Back from California**—J. Walker Craven has returned from California, where he visited his children for two months.

**Is Mustered Out**—Albert Benoit who has been in Camp Lewis waiting to be mustered out of service; returned to Twin Falls yesterday.

**Back from San Francisco**—Mr. and Mrs. Harry Allen returned home yesterday. Mr. Allen has been in San Francisco on business.

**Back from Springs**—Police Judge J. W. Smith who has been in Nevada Springs, returned home yesterday. His health is somewhat improved.

**Epler En Route Home**—The parents of Lucie Epler received a telegram from his yesterday saying that he had arrived in Camp Dix from France and would start home within a week.

**Leaves Radio School**—Gilbert Younger who enlisted last spring in the army and transferred last fall to the Harvard radio school, received his discharge from service, returned here Tuesday.

**Pioneer Returns**—Charles A. Adamson, a pioneer of the Twin Falls country owning land in the vicinity of Hansen, with Mrs. Adamson and daughter, arrived here Wednesday from Hollister, where he has been for several years in the banking business. He has disposed of his interests in Montana, and expects to remain here.

## Announcements

# TWIN FALLS MAN WINS CITATIONS AND WAR CROSS

## First Lieutenant David A. Bissett is Honored by Belgians and in Reports for Efficiency in Command Under Fire.

According to word received here, First Lieut. David A. Bissett, son of Mr. and Mrs. A. E. Bissett, former residents of Twin Falls, now residing in Seattle, and a graduate of the Twin Falls high school, has been awarded the Belgian war cross and has been twice mentioned in official citations for bravery, in one case the citation being given on account of his handling his company efficiently under fire November 7 and 8.

Lieutenant Bissett was once wounded in action but has returned to duty with Company I, 301st infantry, 12th division, stationed near Le Mans in the vicinity of Paris. He is uncertain whether he will be returned to the United States with this division or be assigned to duty with the army of occupation in Germany.

### Serves on Border.

Lieutenant Bissett probably is one of the youngest officers in the United States army. He was a member of Company D, the Twin Falls unit of the Second Idaho regiment, and served with it on the Mexican border in 1915. He won his commission as a second lieutenant at the first officers' training camp at San Francisco presidio, and was promoted to be first lieutenant before being assigned for foreign service from Camp Lewis.

## One Woman Finds Way to Beat the High Living Cost

### Makes Five Perfectly Good Garments Out of Dosem Flour Sacks at \$1.30 Cost

Mrs. C. H. Brown, home demonstration agent of the county farm bureau, states that the luck home of the High Cost of Living Begey is broken. In one of her recent visits in a rural district she found a very interesting result of the clothing demonstration work done here during the joint conference meetings by Miss Georgin Bell Elwell, of the university extension force, who will be in the county again giving clothing demonstrations and dress making schools in March.

Miss Elwell, in her January clothing demonstrations, showed garments made of flour and sugar sacks, and little garments for children made of bargain purchases from the Red Cross clothing shops.

But the interesting proof of thrift found in a country home recently was a collection of garments as follows: One smart elegant looking pink house dress, apparently made of linen or Indian head. One pink garden hat of same material. One white petticoat, edged with rickrack. Two suits of underwear, also trimmed with rickrack.

These were made from one dozen flour sacks which cost \$1.10, one half-dozen rickrack, 15 cents, one package of Blue, one spool thread, 5 cents. Total cost of five garments \$1.30.

"I went home from that clothing demonstration of Miss Elwell's," said the owner of these garments, "and set to work to see how I could do."

It's hard for even Old High Cost of Living to get ahead of the women of Twin Falls county.

## With Hosts and Hostesses

The teachers of the Bickel school are entertaining the other teachers on the first of March at a colonial party.

The ladies of the Presbyterian church are entertaining at a birthday luncheon for the ladies of the church on Saturday of this week.

Mrs. L. T. Wright was hostess to the Wednesday Bridge club yesterday afternoon. Three tables played. The high score prize went to Mrs. W. Spafford. They will meet with Mrs. W. C. Hill next week.

On Tuesday evening after the concert Mr. and Mrs. Shal L. Hodgins and Mr. and Mrs. D. C. Watson entertained and the members of the Allied Veterans' band of the members of the Allied War Veterans' band. After a delicious supper the remainder of the evening was spent in listening to the stories of the war, told by the returned Canadians and Scots.

The ladies of the Addison Avenue Kennel club meet royally every week at their husbands' club on the lock dinner party St. Valentine's day at the home of Mr. and Mrs. D. B. Churchill. A bounteous repast was spread to which all did ample justice. The table decorations and living profusely decorated with red hearts of various sizes and cunning cupids. The afternoon was spent in social conversation and literary games.

Those present to enjoy this festive occasion were Messrs. and Madames E. P. Dunlap, J. D. Barnhart and son, C. D. Irwin and son, W. A. Howard, D. B. Churchill, Bert Harris and son.

## UTAH MAN IS AUTHOR OF VOLUME ON BEETS

Dr. F. E. Harris, Director and Agronomist of Logan Experiment Station Gives Beets of Study.

There has just appeared from the press of the Macmillan company of New York a book entitled "Sugar Beets in America" written by a Utah man, Dr. F. E. Harris, director and agronomist of the Utah agricultural experiment station. The book is one of Macmillan's rural science series edited by J. C. Bailey, formerly of Cornell university.

Dr. Harris is probably one of the best informed men on the question of sugar beets from an agricultural standpoint in the country. He is a graduate of Utah universities and for several years has been conducting extensive experiments on various sugar beet problems; among the most important is his work on the irrigation of sugar beets. He is a member of the American commercial production of sugar beet seed. Besides his own work he has visited every important beet producing section of the United States and has made a study of their methods and problems. Dr. Harris is also a trained agronomist in other lines. Since he has been at the experiment station he has completed experiments on manuring and rotations, soil culture, alkali, and the irrigation of oats, wheat and potatoes, which have proved to be of great benefit to the farmers of Utah. From this vast fund of information "Sugar Beets in America" was prepared.

The book is written in a very practical way, being intended primarily for farmers and agriculturists, as indicated by such subjects as soils, manuring and rotations, preparation of seed-bed and methods for growing, also a trained agronomist in other lines. Since he has been at the experiment station he has completed experiments on manuring and rotations, soil culture, alkali, and the irrigation of oats, wheat and potatoes, which have proved to be of great benefit to the farmers of Utah. From this vast fund of information "Sugar Beets in America" was prepared.

## EARLY TRIAL SCHEDULED ON REQUEST OF ACCUSED

### District Court in Present Term to Hear Case of H. M. Sims

Trial in district court in the case of Harold M. Sims of Twin Falls, newspaper man and former state representative, and of Miss Ruth W. Berger, is charged with committing a statutory offense, will take place during the present term which is to end about March 1. This was announced Wednesday when the information accusing them of the offense was filed by Prosecuting Attorney Frank L. Stephan. The charge was made first against Sims alone, but was amended Wednesday to apply to Miss Jester who had previously testified for the prosecution. Attorney for Sims announced after the preliminary examination that the case would be brought to trial at as early date as possible.

## BERGER

(Special to The News.) BERGER—James Cleaver and little daughter and his niece of Nampa visited his mother, Mrs. F. W. Berger, at Thursdays Monday. Mrs. Berger returned home with them for a visit.

Nathan Pavey has moved down near Peavey. B. W. Lammers is moving onto the place which he vacated, as he has bought the place.

A. Parrott has been building a barn on his ranch.

Mrs. Gertrude Trout and children of Twin Falls are visiting her sister, Mrs. C. H. Hill.

J. Burton held an auction sale last week of his live stock and farm machinery. He will move to Twin Falls for a new home and later to California as the climate here does not agree with his wife's health.

Miss Bonnie Wygal was out from Twin Falls between trains Friday.

Mrs. Dobbie and daughter, May, were passengers to Twin Falls Monday.

Al Parrott made a business trip to Twin Falls Monday.

## MARRIAGE LICENSES

Marriage licenses were issued Wednesday in Twin Falls to the following:

Carl O. Carlson and Isabelle Barron, both of Bush.

Advertise it in the Classified columns of The News. Somebody will want it.

## ROCK CREEK

(Special to The News.) ROCK CREEK—George Scott has purchased from Vikra Larsen, the property on the corner opposite the Potato ranch and will move his family in before the Shoshone outfit goes on in the spring. Mr. Scott is cooking for the Shoshone Cowboy and Mrs. Scott is at present living in one of the cottages on the Shoshone ranch. As soon as the business is all settled Mrs. Larsen expects to go east for medical treatment and may spend the year at her old home at Blue Mountain, Miss.

Mr. and Mrs. Robert Brose returned from the Lava Hot Springs, Thursday. Mr. Brose received considerable benefit from the trip.

Wes Hyde finished moving his buildings to his new home this week and he and Mrs. Hyde are busy with the remodeling necessary after the move. The family hopes to be ready to move in a short time.

L. P. Larson made a business trip to Kimberly Thursday but found the roads almost impassable because of the mud. Rock Creek roads having a foundation of gravel we hardly realize the condition until we attempt to visit some of the neighboring towns.

Bert Van Eaton and Miss Mary Demores made a trip to Twin Falls Friday.

Mr. and Mrs. Perry Jones and Sgt. Robert Gray were business visitors at Hansen, Tuesday.

Among those who attended the theatre at Twin Falls, Tuesday evening were Mr. and Mrs. D. P. Albee, Mr. and Mrs. L. M. Van Eaton and Joe Albee. Other parties were deterred by the condition of the roads which the constant storms are not improving.

Walter Weighall and Alvin Erickson came over from Oakley Tuesday.

E. P. Larsen took them from here to Mr. Erickson's ranch near Hollister.

To "finance" a "To Let" advertising campaign you need only set aside—for perhaps a few days—a part of your pocket money.

Nothing else like it in Twin Falls. There has never been anything in Twin Falls with the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Alder-ka. ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE, sour stomach, gas or constipation and prevents appendicitis. The INSTANT, pleasant action of Alder-ka surprises both doctors and patients.

## WEATHER REPORT SHOWS DEARTH OF SNOWFALL

### Conditions at Close of January Far from Satisfactory in Idaho

The report on the snowfall in the elevated regions of Idaho during the month of January, 1915, just issued by the department of agriculture weather bureau is summarized with the following statement:

Precipitation was deficient, except in the north, and there was a decided dearth of snowfall in all sections. There was little increase in snow cover; in fact some sections report a shrinkage in the snow fields due to the effects of chinook winds and rain, but in those localities the snow remaining is well packed and has a fairly high water content. Snow conditions at the close of the month were in the main far from satisfactory.

The following statement is made in respect to the situation in the upper Snake River basin:

Burley—Snow not more than 25 per cent normal but well packed and having high water content.—W. M. Campbell.

St. Anthony—Snow, solid and well packed, varies from 12 inches on the foothills to 28 inches in high ranges. This is far less than normal.—Samuel W. Stoddard.

## NOTHING ELSE LIKE IT IN TWIN FALLS

There has never been anything in Twin Falls with the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Alder-ka. # ALBERTA LANDS

## 530,000 Dry and Irrigable Acres

Lands are located in Southern Alberta and are among the best in that famous district. 200,000 acres will be under irrigation, the balance is being sold for grain growing.

The lands are being put on the market for the first time and the company is looking for bona fide settlers. All lands within a radius of ten miles or less to shipping point.

Dry lands are being sold at \$15 to \$30 per acre—irrigable lands \$40 to \$60 per acre, which includes water right—operation and maintenance charge \$1.50 per irrigable acre per year—easy payments and low interest. Alfalfa, grain, field peas, potatoes and root crops can be successfully grown.

Write direct to the company for full particulars and pamphlets.

## REGISTRATION LIST FOR COUNTY AGGREGATES 6806

Number of Drafted Men is 700 According to Figures Compiled by Local Board on Eve of Closing.

In Twin Falls county there were altogether 6806 registrants under the selective military service regulations, according to figures compiled, in anticipation of the closing up of the affairs of the local board, by Clyde W. Simpson, chief clerk. Of this number 700 were drafted into the service. The records of the local board shows also that releases to registrants were issued in the cases of 230 men who enlisted voluntarily.

## SETTLEMENT IS REACHED IN CLAIM FOR DAMAGES

### City Pays to Mr. and Mrs. George D. Wheeler \$450 on Account of Injuries Sustained.

Stipulation of settlement and for judgment of dismissal in the case of George D. Wheeler and Amelia A. Wheeler against the city of Twin Falls, an action for \$10,000 damages for personal injuries, was filed Wednesday in district court here. Settlement in full for injuries received by Mrs. Wheeler when she stepped into an open ditch across Second street west is admitted upon receipt of \$450. Mr. Wheeler was formerly advertising manager for the Twin Falls News and is now manager of the Wood River Times-News-Miner at Halley.

# Keen Farmers Will Appreciate This Farm Land Opportunity

## Capay Grant

To be able to buy, at \$175.00 an acre, the very choicest of land in California, with abundant water, in the very heart of a flourishing agriculture and fruit district, close to good towns, is surely unusual. Such an opportunity is presented now in the fourth subdivision of

# Capay Grant

This is the very cream of the widely famed Sacramento Valley. There is no finer farming country anywhere. It is right in the midst of one of the most intensively developed grain, farming, dairy and fruit growing sections in all California.

The land has been held by an estate and has not been offered to the public until now. The same water system which has proven such a remarkable success in previous "Capay" subdivisions has been adopted for this unit.

### An Electrically Operated Pumping Plant Installed on Every 80 Acres, Pumps Pure, Fresh Water From Its Own Well

Splendid nearby country towns provide ready market for everything "Capay" farmers can produce.

The soil is a rich black silt, absolutely free from gumbo, hardpan and alkali. You can dependently expect big crops. Failures are unknown here.

The climate is fine—pleasant the year around and the whole countryside is settled by a superior class of successful farmers.

There is only a small amount of this land to be sold. It will go to first comers. You will thank us for urging you to act at once. Fill out and mail the coupon today.

The price of the well and of the Pumping Plant complete is included in the price of the land.

BUSINESS MEN ENDORSE PLAN OF THE LEAGUE

Readjustment. Congress Now Convening in Omaha Adopts Many Resolutions of Reform

OMAHA, Neb., Feb. 20.—The Trans-Mississippi national congress today went on record as opposed to government ownership and operation of the railroads.

The convention endorsed the league of nations and believed it to be the duty of the public men of the United States to cooperate in securing and adoption of the constitution adopted in Paris.

Employment of returned soldiers by federal, state and municipal governments. Industrial progress, stopped by the war, should continue.

Good roads. Conferences and mutual discussions for settlement of labor questions.

Believes the emergency fleet should be turned over to private operation.

Declared that federal regulation of business in effect during the war should now be lifted.

That the government should keep its contract with the farmers for \$2.88 wheat.

Recommended that the secretary of agriculture should call together representatives of agricultural bodies for creation of a national chamber of agriculture.

Recommended legislation to develop water power in the west.

Rigid enforcement of blue sky laws. Urged fair treatment of public utility corporations.

Recommended that a budget system be inaugurated by the federal government.

Recommended extension of the Americanization campaign to include all parts of the country.

To carry along the work inaugurated by this congress, a permanent organization is to be formed later in the day.

Attractions of Treves. It is as an ecclesiastical city that Treves is particularly interesting.

Full Explanation. Arnold could not bear to have anything that smacked of femininity applied to himself or his tiny hairbrush.

True Version of Cinderella. Cinderella never had a glass shoe. This is said but true.

Why Swift & Company Handle Poultry, Eggs, Butter and Cheese

Swift & Company went into the produce business because they saw a crying need for the kind of service they were equipped to perform.

The produce business was in chaos. Collecting, transportation, preparation and distribution was hit or miss, with delay, deterioration and loss on every hand.

The farmer was at the mercy of an uncertain, localized market. He had no way of reaching through to the people who needed what he was raising for them.

The consumer had to accept produce that, as a rule, had no known responsible name behind it. He had no way of knowing how long the eggs or the butter he was buying had been lying around in miscellaneous lots in the back room of a country store.

The consumer had to accept produce that, as a rule, had no known responsible name behind it. He had no way of knowing how long the eggs or the butter he was buying had been lying around in miscellaneous lots in the back room of a country store.

Swift & Company's initiative brought system to this chaos. Their organization, equipment, and experience in handling perishable food products were already adjusted to the task.

Now the farmer has a daily cash market in touch with the nation's needs with better prices. Standardization makes better produce more profitable. More consumers are served with better, fresher, finer foodstuffs.

Nothing suffers from this save inefficiency, which has no claim upon public support.

Swift & Company, U.S.A.

Developed From Posing Idea. It was a passing idea which gave to the world the discovery of galvanic electricity, so useful in transmitting vocal or written language.

Motor-Driven Potato Peeler. A machine which will peel 40 pounds of potatoes in three or four minutes.
