

PRINCIPLES OF WORLD LEAGUE ARE TROTSKY'S

Lodge Declares Wilson's Covenant Calls People from Doctrine of Washington to Those of Russian Leader

INSISTS ALL FAVOR A PERMANENT PEACE

Republican Leader will Agree to No Plan Which Promises to Lead Only to Trouble and Dissension

WASHINGTON, Feb. 25—President Wilson's league of nations covenant calls the American people away from Washington's doctrines to those of Trotsky, Senator Lodge, the republican leader, asserted in a speech to the senate today.

Criticism of the proposed constitution, Lodge said, however, does not extend to all plans for a league of nations. "Everybody hates war and longs to make it impossible," said Senator Lodge. "We ought to lay aside once and for all the evil suggestion that because men differ as to the best method of assuring the world's peace in the future, any one is against permanent peace if it can be obtained among all the nations, of mankind."

For World Peace "I will follow any man and vote for any measure which in my honest opinion will make for maintenance of the world's peace. I will follow no man and vote for no measure which, however well intended, seems in my best judgment to lead to dissensions rather than to harmony among the nations to peril, injury, or injustice to my country."

No Misunderstanding Lodge said that it is vital to all the world there should be no foggy meanings, no need for explanations. The agreement, he said, "must be so plain and so explicit that no man can misunderstand it." It is a danger that the very nations which sign the constitution of the league will quarrel about the meaning of the various articles within a twelve-month. It is to be a treaty of collective defense and the result is earnestness and looseness of expression.

No Possibility of Mistake "I press this point because you cannot find world peace upon the cynical 'saw of paper' doctrine so dear to Germany. There is nothing so vital to the peace of the world as the sanctity of treaties. To whatever instrument we are bound, it must be drafted out the provisions of that instrument to the last jot and tittle, therefore, the language in which the terms are stated must be as exact and precise and as free from any possibility of conflicting interpretations as it is possible to make them."

Concerning Monroe Doctrine "The explanation or interpretation of any one of these doubtful passages is not sufficient if made by one man, whether that man be president of the United States, or a senator or any one else."

Lodge directly answered President Wilson's personal explanation of the (Continued on Page Four)

THREE TRANSPORTS ARE DUE EARLY IN MARCH

Idaho Casual Company From Idaho Is Scheduled to Reach U. S. in March

WASHINGTON, Feb. 25—The transport "Blithburg," based at New York, is due March 6, the war department announced today, with casual companies for Ohio, Wyoming, Illinois, Idaho, New Jersey, New York, and Connecticut, 27th and 28th regiments, detachments of the 5th machine gun battalion (2nd division) about 100 men; 25 soldiers' wives; 20 soldiers' wives; 350 caissons, including sick and wounded; making a total of 2,175.

The battleship New Jersey, based at Newport News, is due March 8 with 1,074 troops, including of casual companies for Virginia, Texas, Oklahoma, Mississippi and Nebraska. The transport Acous, St. Nazaire for Newport News, is due March 8 with 3,251 aboard, consisting of the 75th regiment, 22 A. C. main, 1st and 2nd regiments, Grant, Punstun, Gordon, Travis and Sherman; the 131st field artillery, complement (36th division) for Camp Bowie; and a group of casuals.

LUDENDORF DEFENDS WAR COURSE IN INTERESTING PUBLIC DOCUMENT

BERLIN, Feb. 27.—(Delayed).—General Ludendorff today defended his course during the war in a letter addressed to the German people asking them to "clear him of blame."

"I never advocated annihilation of the enemy," he said. "I believed in ending the war with the status-quo of June, 1917, and again with the status-quo of March, 1918. I also advocated peace in the middle of last August, when I realized that it was impossible to force the enemy to ask for peace by further prosecution of the war."

After Bulgaria broke away from the central powers, there was no time to be lost. It is not true that I favored allowing the enemy to dictate the armistice terms, in the hope that such a course would cause the German people to rise and lend their moral strength to their armies' resistance so that the enemy might be forced to offer similar terms.

"I always consulted the voice of the people before taking military action, realizing that the voice of the people was the backbone of our army's morale."

"The Kaiser and the crown prince both agreed last August that it was impossible for us to win. Both of them always loved and ardently desired peace."

WORLD NEWS EVENTS

WASHINGTON, Feb. 28.—The senate today adopted Senator Kenyon's resolution providing for a commission to devise a plan for a national budget system.

PHILADELPHIA, Feb. 28.—Charles Piez, director-general of the Emergency Fleet Corporation, announced today he will resign that office May 1. He announced also that the government has cancelled fifteen ship contracts at the Hog Island yards.

BUDAPEST, Feb. 28.—Former Premier Werkle, former Minister of War Hazai, former Minister of Justice Balogh and former Secretary of State Palovics have been interned on a charge of being responsible for prolonging the war. Troops were sent today to the Salgotarjan coal mines to suppress the agitation by Bolsheviks there.

WASHINGTON, Feb. 28.—The state department announced this afternoon that German minister Von Eckhardt of Mexico City, desires to return to Germany via the United States and that safe conduct will be granted him. The minister will be placed under watch after he comes across the border and will probably sail from New York, though the date is not yet set. The German was recalled after the United States had intimated to Mexico that his activities were displeasing to this government.

REVOLUTION IS GROWING WORSE

Former Opponents Now Join Bolsheviks and Oppose Allied Interference

LONDON, Feb. 28.—Social revolutionaries have joined forces with the Bolsheviks, the former opponents, to oppose allied interference in Russian internal affairs, it was reported in a wireless dispatch received from Moscow today.

The dispatch said that social revolutionary members of the old constituent assembly had arrived at Moscow for the purpose of negotiating with Premier Lenin. They issued a manifesto admitting the charge that the Bolsheviks had accepted money from Germany are false. The manifesto concluded:

"Allied interference in internal Russia is becoming more definite. Although we do not agree with the Bolsheviks on many points, it is our duty to call all citizens, workmen and peasants to cease civil war and unite against the common enemy."

Democrats Offer Welcome to Mann

Representative from Illinois Is Greeted with Cheers as He Entered the House

WASHINGTON, Feb. 28.—When Representative Mann of Illinois, defeated candidate for the republican nomination for speaker, came into the house today, he was given an ovation. Mann, leader of the Democrats, entered the chamber at 10:30 a. m. Members on both sides stood and clapped their hands.

After the applause subsided on the republican side, democrats took it up again. One man on the Lord Dufferin's side, Mann motioned for him to join their ranks. Mann smiled, kissed his hand to the house and took his accustomed seat of the republican side.

Transport Rams a British Freighter

Cargo Steamer Is Badly Damaged by Collision with Returning Vessel

NEW YORK, Feb. 28.—While rounding the Bluff of Liberty late this afternoon, the transport Aquitania, loaded with returning soldiers, rammed and badly damaged the Lord Dufferin, a 2,000 ton British cargo steamer.

One man on the Lord Dufferin's crew was reported killed and several are injured. The freighter, loaded and out-bound was reported in a sinking condition.

SHOSHONE PARK GETS FUNDS BY APPROPRIATION

Over One Million Is Given By State, Ten Thousand of Which Will Go to Aid of Twin Falls Monument

BOISE, Feb. 28.—Cutting fifty thousand dollars from the Blackfoot appropriation budget of the institution appropriated, the appropriations committee disregarded the recommendations of the special investigating committee of the legislature which visited the state institutions and reported on conditions there and add the amount to the Nampa sanitarium budget, through the claim that the feeble-minded should be moved to Nampa from Blackfoot. The bill to relieve the congestion at the latter place. A bitter debate occurred in the house this morning over the bill which came up for final passage. The appropriations total one million thirty-two thousand dollars and includes ten thousand dollars for Shoshone park at Twin Falls. The house passed the bill allowing the state to pay for the payment of part of railroad fare for students at the state university.

Reduces Interest Rate

Interest rate for state farm loans would be reduced from six to five per cent by the house bill passed today. The same action occur in the senate.

Deficiencies of one hundred forty thousand eight hundred forty-eight dollars eighty-three cents, an inheritance from the former administration will be provided for in the appropriations committee bill in the house today.

Efforts to take the bill carrying appropriations out of the hands of the senate finance committee this morning and place them in the sifting committee failed when the upper body voted down a motion suspending the rules and sustained the finance committee in its action in holding bills.

It was Senator Whitecomb, chairman of the sifting committee who made the motion.

A Large Amount

Chairman Adams of the finance committee said it was up to the senate to do as it pleased in the matter, but that the appropriations bills totalled such a large sum that the senate must act. It had been thought best to hold back until the committee knew more about how the money should be divided.

Whether the legal limit of rate of the state should remain at five per cent to be cut to ten per cent is the subject of a bill by Senator Lee which was debated at length at the morning session.

It was said that the state had reached a settled financial condition and there was a demand on the part of the numerous bankers in his section of the state for its reduction.

World League Is Vital Topic to the Ex-President

Former Executive Believes that America Should Forego Her Policy of Isolation

ALABAMA, Ga., Feb. 28.—William Howard Taft, upon arrival here today, announced he had accepted the invitation to speak at the same platform with President Wilson on the subject of the league of nations at New York on Tuesday.

Taft characterized the league of nations as "the greatest international movement since the United States became the United States."

He said that he believed it was up to the United States to decide its policy of splendid isolation, and become a member of the "family of nations."

NO CHANCE FOR RETURN OF RAILROADS AT THIS TIME DECLARES HINES

Director-General Informs House and Senate Committees that Conference with President Results in Determination to Wait for Action By Congress By Way of Disposition of Question

RAILROADS PROCEEDING ON THEORY THAT NECESSARY MONEY WILL COME

WASHINGTON, Feb. 28.—There will be no "immediate or precipitate" return of the railroads to private ownership, Director-General Hines announced today. In a letter to the house and senate committee Hines declared there would be no relinquishment of the roads "until there has been an opportunity to see whether a permanent program of constructive legislation is likely to be considered soon."

REPORTS DIFFER ON ANSWER TO IRISH QUESTION

Borah Becomes Critical Over the President's Reply to the Senators Concerning Ireland

WASHINGTON, Feb. 28.—There appears to be a difference of opinion today as to just what President Wilson said on the Irish question to committee members of congress attending his league of nations dinner Wednesday night.

Some committee members originally gave as their version of the president's expressed view of the Irish problem that it was a question between England and Ireland and not within the province of the league.

The president today denied he told committee members this. Almost immediately thereafter the subject arose in the senate.

Senator Borah asked Senator Hitchcock if President Wilson refused to answer a question about Ireland at the White House dinner.

"There was a question asked but it was not a serious question," Hitchcock replied.

"Did the senator say that president made no response to the question about Ireland?" Borah pressed.

"I do," Senator Hitchcock answered.

Then at the suggestion of Senator William H. Borah, providing the president did say the league had nothing to do with internal and domestic questions.

"The president said the league had nothing to do with Ireland," Borah said.

"The president said the league had nothing to do with Ireland and if that is so the situation is left where it was before."

Hitchcock did not reply.

BAKER ASSERTS PERSHING MADE NO OBJECTIONS

Secretary of War Declares that the General Did Not Refuse to Give the Court Martial Lists

WASHINGTON, Feb. 28.—General Pershing has not refused to obey war department orders number 84, providing review of courts martial by the acting judge advocate in France, according to Secretary of War Baker. After receiving a personal report from Judge Advocate General Crowder, today the secretary authorized an explanation of the situation surrounding the order and this explanation contradicted charges made yesterday by Representative Royal Johnson.

In the first place, it was pointed out, order number 84 was issued September 11, 1918—prior to the recent Campbell court martial revision court controversy. This order provided for a review by Acting Judge Advocate General Crowder, with the A. E. F. This involved a new policy since Judge Advocate General Robert of the A. E. F. ordinarily reviews cases.

Asked Interpretation According to Baker, Pershing questioned the legality of No. 84 and wanted an interpretation of it on the grounds that it was contrary to the orders giving supreme command abroad.

Pershing's request "cannot possibly be construed as being insubordinate," it was stated.

HINES CONFERRED WITH THE PRESIDENT

Relative to disposition of the railroads this night. He addressed letters to Chairman Smith and Chairman Martin of the senate committee on interstate commerce and appropriations, respectively, and to Representatives Simms and Shively, chairman of the house committee on interstate and foreign commerce, and appropriations, setting forth the results of the White House meeting.

"As you are aware," the letters said, "there has been some inquiry as to whether there might be an immediate or precipitate return of the railroads to private management. The railroad administration has indicated that it would not be recommended that any such step be taken."

President's Views "For your further information, I am glad to say that I have now discussed the matter with the president and he has authorized me to state that there will be no sudden relinquishment of the railroads, but further, that it is not his purpose to relinquish the railroads until there has been an opportunity to see whether a definite program of constructive legislation is likely to be considered promptly and adopted within a reasonable time."

Will Rush Bill "Railroad administration officials indicated that they would be prepared to be administered by congress to hurry through the bill providing an appropriation of \$750,000,000 for the proposed improvement program available for use in financing the roads. It was pointed out that unless this money is made available soon, serious trouble is ahead for the railroads' new equipment and manufacturing. Hines was understood to have given information of the present serious condition to the senate appropriations committee early today."

Think Road Will Work Out "Railroad administration officials are going ahead with their plans for additions and betterments on the assumption that the addition to the revolving fund will be granted by congress. No contract will be let, however, until the money is actually available. Hines said that it was not the policy of the railroad administration to authorize expenditure of money for betterments or further capital expenditures without the consent of the railroads affected. This rule will hold so long as the government controls the roads, he said. The government has no right to arbitrarily necessary to the public interest, in which case the railroad administration will use its authority to provide all improvements required to give pre-war service."

CROWDER GOES TO CUBA

WASHINGTON, Feb. 28.—Judge Advocate General Crowder will leave soon for Cuba to assist the government in revising the election laws preliminary to the forthcoming elections, Secretary of War Baker announced today.

NEGRO TROOPS REACH UNITED STATES TODAY

Over Five Thousand Soldiers of Great War Were on Board the Liner Aquitania

NEW YORK, Feb. 28.—The transport Rochembauc, carrying the 102nd engineers, formerly the old 32nd engineers, docked at 3 o'clock today.

The great liner Aquitania came up the bay on her behalf the Rochembauc, she carried 5,932 men, mostly negroes. Among cabin passengers were J. F. Morgan and Mrs. Morgan. The Aquitania received a great welcome. Harbor crews to assist the Rochembauc, the giant steamer, swarmed around her, while those on her decks cheered and waved at the returning soldiers looking down on them from the towering sides of the transport.

Among the organizations on the Aquitania were the 366th infantry; 317th ammunition-train; 317th train head-quarters; 92nd aviation military police; 1st and 2nd regiments, 28th division; detachments Number 60, 70 and 81, 1st company 1215 (Tillamoc).

The transport Lovatania sailed from France for the treaty-ship, only one month for New York, carrying a large consignment of the 27th division, New York troops, according to a war department announcement today.

OUTLOOK BRIGHT FOR THE LEAGUE SAYS PRESIDENT

Wilson is Pleased with the Present Indication of the Support of the People for the League Constitution

WASHINGTON, Feb. 28.—President Wilson's closest advisers today declared the country was showing an increasing disposition to strongly support the league of nations.

This claim was based on reports received from all parts of the United States.

People's Attitude Vital

The attitude of the plain people to ward the league is considered most vital. Supporters and opponents of the plan attach the greatest importance to the reports which are coming in, by wire and mail.

It is understood that the "slumping" of scores of Senator Borah and others, in opposition to the league, will be largely for the purpose of sounding out public opinion in every nook and corner of the nation.

Outlook Brightens

The White House today reflected a spirit of optimism over the situation. Administration leaders were cheered by prospects of a Wilson-Taft meeting at New York on the league. They were encouraged, too, by the return of War Stimson's urging the republican national chairman to back the plan.

Speeding Legislation

While there was a vast jam of legislation on the hill, White House followers anticipated more rapid action today as a result of the Wilson session with legislators. It was pointed out that two houses had more action the past two days than in any recent week.

Before returning to France the president has a group of appointments to dispose of. Vacancies remain on the federal trade and interstate commerce commissions as well as the federal reserve board.

Governors' Conference

Democratic national committee men were to lunch with the president today and discussed the general political situation.

At his conference Monday with governors and mayors, the president is expected to urge stimulation of public works, as a means of offsetting growing unemployment.

Word was expected as to whether ex-President Taft would participate in non-partisan league of peace meeting in New York, March 4, prior to Wilson's return to Paris.

SHOOTING STOPS PEACE DECISION

Attempted Assassination of Premier Clemenceau Delays Consideration of Question

PARIS, Feb. 28.—Foreign Minister Pichon announced today that the shooting of Premier Clemenceau deferred decision on the Russian situation which was under consideration when the premier was attacked last week. It is thought there is reason to believe that agreement on a general policy will be reached soon without great difficulty.

Regarding reparations Pichon said that when it was known that about Germany will be able to pay toward the total claims of the allies, it will be easy to agree on the proportion due each.

GIVES MEXICO A FAIR CHANCE

Council of Foreign Relations Arranges for an Opportunity to Hear Official Spokesman

NEW YORK, Feb. 28.—Mexico is to be given an opportunity to plead her case before the American public at a meeting here March 10, arranged by the council of foreign relations.

The council announced today that it has asked President Carranza to appoint an official spokesman to act as chairman of the meeting and to outline the progress Mexico has made since the overthrow of Diaz, her plans for the future, and her present problems.

Local Mexicans including Rafael Nieto, acting secretary of finance in the Carranza government, have sent dispatches to Mexico City urging Carranza to accept the offer of the council.

LABORITES MUST STOP RADICALS

Official Circles Believe Creation of an Industrial Parliament Would Aid Situation

LONDON, Feb. 28.—The feeling prevailing in official circles today that creation of an "industrial parliament" containing representatives of capital and labor, together with the miners' decision to postpone their strike until March 29, has temporarily averted the labor crisis. Nobly, however, was willing to predict that the situation had been eased up more than temporarily.

REPUBLICANS NOW CONFIDENT

Leaders Declare that Long Step Is Taken Toward Party Solidarity and Victory

WASHINGTON, Feb. 28.—Republicans today were confident they had taken a long step toward party solidarity and a victory in 1920 in the nomination of Representative Frederick H. Gillett of Massachusetts for the speakership of the next house.

Other elections by the caucus were Joseph Rodgers, Philadelphia, sergeant at arms; Tyler Page, Maryland, clerk; Burt Kennedy, Michigan, doorkeeper; and Frank W. Collier, Wisconsin, postmaster.

BOXING ENTHUSIASTS BECOME INDUSTRIOUS

Sponsors of Twenty-Five Round Bill Would Have It Passed Over Governor's Veto

CARSON CITY, Nev., Feb. 28.—One of the most vigorous lobbies in years was engaged here today in an attempt to gather enough votes to pass the twenty-five round boxing bill over Governor Boyle's veto.

As expected, Governor Boyle in a message read to the house yesterday noon vetoed the measure. A motion was then made calling for a vote on Monday to override the veto.

Although the bill was not given a two-thirds majority in either house, those working for it expected confidence today that they could pass it over the governor's veto. They said they already had enough votes and so spoke.

But its opponents denied this. The Reno delegation is especially active for the bill, hoping if it passes, to stage the Willard-Dempsey fight in Reno.

REVOLTS GROW RAPIDLY WORSE AMONG GERMANS

Physicians are Among the Latest to Strike Is the Report Now Coming from Leipzig—Troubles Spread

ZURICH, Feb. 28.—The German cabinet, following a three hour session, decided to take the most energetic measures to suppress the revolution, according to dispatches from Berlin today. It was also reported that an ultimatum was sent to the "illegal soviet government" at Munich.

The situation in central Germany was said to be growing worse, a state of siege has been proclaimed at Alzeichachfenburg. The physicians in Leipzig were reported to have gone on strike. Government officials in Bochum, Herne, Gelsenkirch and Dortmund have formed an "army of general security," numbering 16,000 to oppose the Spartacists. There were some reports, however, that the strike in the Ruhr district is disintegrating and that only 15,000 workmen are remaining idle.

Unofficial reports received, that Spartacists in Berlin staged demonstrations in Woblastraße before the Reichshank and at other points Tuesday evening in which shots were exchanged.

The soviet congress in Munich is understood to have decided to create a provisional council, which will be instructed to form a ministry. The fanatical will be evoked later.

PROGRESSIVES TO CONSIDER A NEW CANDIDATE

Leaders of the Republicans are to Meet Soon to Study the Coming Presidential Campaign and How to Act on It

WASHINGTON, Feb. 23.—Progressive republicans will meet within a few days to consider whom they will back for the presidency in 1920, Senator Kenyon, Iowa, announced today.

House and senate progressives with a few leading progressives not in congress will attend the meeting. The place and place have not yet been decided definitely. The gathering, however, probably will be soon after the adjournment of congress and is likely either in Chicago or Washington, Kenyon said.

Form a Program
In addition to discussing what man they shall get behind for the 1920 campaign, progressives will formulate a program of legislation upon which they will take action in the coming congress, it was stated.

Political gossip has named Senators Borah and Hiram Johnson as possibilities for the regular republican nomination in 1920. Both are progressive leaders of the little group in the senate which holds the balance of power in organizing that body for the next session.

Disapprove Charges
"The progressive meeting will disapprove for all time the charge that jealousy of each other exists in the progressive ranks," said Kenyon today.

"It will be shown that any one of the progressive leaders is ready and willing to subordinate his personal hopes and ambitions in the common good. There is not one of us but would step out of the way of any other if the choice of either will result in the best cause of progress and human welfare."

One effect of the forthcoming meeting, progressives indicated, will be the unification of the progressive forces for their fight for representation in the coming session's organization.

No Retreat
There has been absolutely no retreat or surrender in the fight, Senator Borah declared today.

"There is no change in the situation so far as we progressives are concerned," said Borah. "We are not using up our energy now. The extra session is apparently known to both sides."

Third party talk is not encouraged by progressives. Apparently secession is not in their minds. Some of the influential of them frankly discourage it.

ITALY SUPPORTS NATION LEAGUE

Personal Message from Italian Premier Assures President of Their Favor

WASHINGTON, Feb. 23.—President Wilson today learned from Premier Orlando, was assured the wholehearted support of Italy in the formation of a league of nations.

"In Paris, the heart of heroic France, through the high and persevering desire of a great leader of a great people, the nations who have fought together for the liberty and justice of the world, have also determined together in the sanctity of a solemn covenant and in the name of liberty and justice of all peoples, to establish a league which shall reign supreme over the future destinies of the world."

Humanity's Charter
"To this covenant, which shall be the intangible charter of humanity, Italy, who in the past and in the present has always championed the cause of right and proclaimed and consecrated it with her laws and with her blood, brings the contributions of her assent with fervid expression of deep conviction."

"Our hearts, with sincere faith, celebrate this event, which is and will remain one of the most memorable in human history, and it is fitting that the whole Italian people comprehend and acclaim with joy its high value and its everlasting significance."

Steel Prices are Being Maintained By the Industry

There is No Serious Unemployment Problem in this Field and Prospects Look Good

NEW YORK, Feb. 23.—Steel prices are being maintained and there is no serious unemployment problem in the steel industry, according to Elbert H. Gerry, chairman of the board of directors of the United States Steel corporation.

Gerry presided at a meeting of all directors of the American Iron and Steel Institute which was called to consider general conditions in the industry to consider the plan of Secretary Redfield for lowering prices by agreement among different industries. The Redfield plan was explained before the meeting by George N. Peck, former vice-chairman of the war industries board, who has been named chairman of the new commission to be created under the scheme of the secretary of commerce. The institute directors took no definite action on the plan.

Cruises Overlooked a Bit.
That Robinson Crusoe, in spite of his well known resourcefulness, overlooked a fine business opportunity is shown by the fact that the island of his adventures, Man-a-Tierra off the coast of Chile, is how the seat of a large lobster-canning industry. Crusoe is supposed to think he was doing remarkably well to pick up the necessities of life on that island—and most of them were washed ashore from a wreck at that—but its modern inhabitants do a rushing business in the export of luxuries.

For Outdoor Chess Games.
Chessmen, which range from two to three and one-half feet in height, made of aluminum, collapsible, and packed in a special trunk, have been given to the library of the University of Wisconsin. A Milwaukee man, now dead, designed them for use in public parks, on large indoor or outdoor chess boards, with a view to increasing popular interest in the game.

Environment Counts.
It is not to be wondered at if environment has much to do with achievement. Associate only with those who are full of enthusiasm and determined to succeed. Keep close to people who encourage you. Create peace in the home. Make of it a harbor of refuge, a means of escape from a noisy world. If you will do this, you will soon find yourself well on the road to success.—Fern Howard.

Why Diamond is Prized.
Of practical uses the diamond is not quite destitute—it is, for instance, the best of all abrasives—but these practical uses have almost or quite nothing to do with its popular esteem. That rests first on the poor claims established by coat and scratch, and second, on the survival in human beings of the ancient and savage delight in hanging about and fastening to the body bits of stone and metal that are brightly colored or shiny.

ORIGINAL PARTY TO RETURN WITH THE PRESIDENT

Wilson Party Will Sail for France Next Wednesday, According to Present Plans, to Resume Duties

WASHINGTON, Feb. 23.—President Wilson will sail for France on the George Washington next Wednesday morning, it was officially announced today.

On his return journey to resume his duties at the peace conference the president will be accompanied again by Mrs. Wilson, Admiral Grayson and other members of his immediate party who made the original trip.

Tuesday night he will speak at the Metropolitan Opera House in New York in a final appeal to the country for support of the league of nations.

From the opera house he will go directly to the steamer George Washington, spending the night aboard the vessel, which sails the next morning.

En route to New York Tuesday the president will stop off for an hour or so in Philadelphia to visit his daughter, Mrs. Francis B. Sayre, and greet his latest grandchild, Woodrow Wilson Sayre.

Details of the president's return trip to France were announced today at the White House. He will leave Washington immediately after adjournment of congress on an special train for New York, having luncheon and dinner on the train and stopping only at Philadelphia. The party will arrive in New York about 8:30 P. M. on Tuesday evening, going directly to the opera house.

The president and Mrs. Wilson will not occupy the Murat Palace as their Paris residence until after their return, it being understood that another fine home has been secured for them.

From War Time Economy To Peace Time Efficiency

During war-time we were asked to save. Save labor, save food, save fuel. Every person, young and old, heeded the call and turned their wastefulness into savings. The one big idea was to economize so as to be of service to our country and so doing was one of the means of winning the war.

Now that peace is here we find that we have learned a wonderful lesson. That is to save. Out of that lesson our attention has turned to a plan to cooperate with the people so as to eliminate the overhead expense of merchandising so it will enable us to sell cheaper, therefore making a saving to our customer. Through our efficiency in operating a cash and carry store it will mean a saving of dollars and cents to you. Why go back to the old way of paying enormous prices for service that can no longer be called a service. If you are not already a customer of ours, we ask that you cooperate with us and let us help you cut down the high cost of living.

Taft Will Speak With President in New York City

Big Address on League of Nations Will Be Held Next Tuesday Before Leaving

NEW YORK, Feb. 23.—William Howard Taft today accepted the invitation to speak with President Wilson on the subject of the league of nations at the Metropolitan opera house here Tuesday night.

In a telegram received from Nashville by Herbert B. Houston, treasurer of the league to enforce peace, Taft emphasized his desire to make it clear to the country that the league of nations is a non-partisan issue. He added that he would be very glad to speak with President Wilson here.

OREGON LAWMAKERS CLOSE SUCCESSFUL SESSION OF WORK

Thirtieth Legislature Adjourns After Forty-Six Days of Constructive Action

Salem, Ore., Feb. 23.—The thirtieth Oregon legislature came to a close last night after a session of forty-six days in which it established a record for constructive law making.

The last act of the house was to agree on the automobile license tax bill, which as finally adopted makes the annual license fee on machines from \$15 to \$25.

As a result of the legislation adopted and considering the governmental funds which will be added, \$13,000,000 will be spent in Oregon within the next few years for road building.

TRADE PROSPECTS

That retail prices show a slight stiffening tendency with the general trend of quotations downward for the first time since the falling off in prices commenced and that a more optimistic feeling as to the future exists today than has been the case for some time past are the outstanding features in the current Bradstreet's review of trade.

While reports as to trade and industry have not greatly changed, the more cheerful feeling noted last week, particularly in the territory west of the Mississippi, is fully maintained, says the review, and in addition there are reports from larger eastern centers that price reductions in textiles have seemed to bring about freer trading.

Berlin Will Keep Scars of Battle

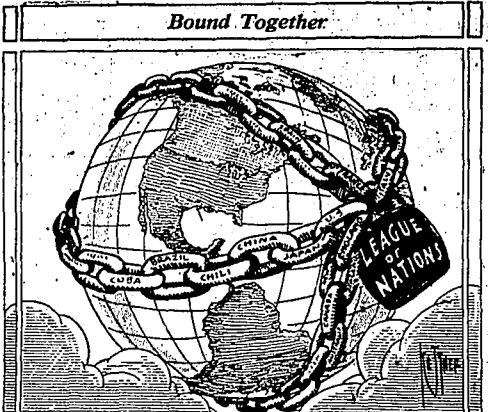

By FRANK J. TAYLOR - BERLIN, Feb. 1. (By mail)—The storm windows of Berlin are among the oddest evidences of the fighting of the revolution. Everywhere where there has been fighting, the window panes have suffered, but Berlin is different.

In towns along the front window panes were no more after the violent bombardments of both armies in Paris and other cities they were badly cracked in as the result of bombing raids, but Berlin's panes merely have holes in them.

As machine-gun bullets flew in every direction they pierced the windows with sharp round holes less than an inch in diameter, around each of which is a flaky fringe. Coming so fast, they did not reach the glass, especially the thick plate glass windows.

In one single pane of Jerusalem street you can count more than three hundred holes in the plate glass pane of a shop store. As yet the plate of glass is not cracked and it is said that it will not keep out wind or water.

PRINCIPLES OF WORLD LEAGUE ARE TROTSKY'S

Lodge Declares Wilson's Covenant Calls People from Doctrine of Washington to Those of Russian Leader

constitution's provisions regarding the Monroe doctrine by saying: "How any one can say that article 10 extends the Monroe doctrine to all the world it seems to me to be a gross act of no more than the differentiation of the American hemisphere from the rest of the world."

"I think this draft Europe will have the right to take part in the settlement of all questions in Europe and Asia and Africa, and of course, shall have the right to take part in the settlement of all questions in Europe and Asia and Africa."

A Grave Situation "Perhaps the time has come when we ought to do this, but I want to warn the American people that they ought never to abandon the Washington policy and the Monroe doctrine without being perfectly certain they earnestly wish to do so."

Lodge declared that the league guaranteed the territorial integrity of all member nations that means armed force. There is no other way, he declared, to make good such guarantees.

Immigration Question Lodge also differed from President Wilson on the subject of immigration. The president told his guests at the White House that the league would not have jurisdiction over immigration questions.

"Are we ready to leave it to other nations," he asked, "to determine whether we shall admit a flood of Japanese, Chinese and Hindu labor? If we accept this plan for a league, that is precisely what we promise to do."

Concluding his speech, Lodge said: "We are asked to depart now for the first time from the foreign policies of Washington. We are invited to move away from George Washington toward the American brought home. It stands the sinister figure of Trotsky, the champion of internationalism."

Germany, Lodge added, should go through a period of probation before she is taken into the league. Provisions referring to "effective guarantees of sincere intentions on the part of the United States joins the league of nations, Senator Lodge declared, taking direct issue with President Wilson, who is convinced there is no consent in the two documents.

UNIVERSITY IS LOOKING AHEAD TO TOURNAMENT

Letters of Invitation for Second Annual High School Basketball Meet at Moscow Are Sent Out.

UNIVERSITY OF IDAHO, Moscow, Feb. 23.—The athletic department is now directing its efforts toward the second annual high school basketball tournament which is to be held here March 24. Letters of invitation have been sent to the various schools of the state.

A committee consisting of students has been appointed to help in making arrangements for the week of entertainment for the high school students that will be here. This committee will work with Coach Bleamaster. It will handle the advertising of the games, and the entertainment of the competing teams. Just what method will be used in distributing the teams among the fraternity houses of the campus is not yet decided.

About 15 or 16 teams are expected to be competing for the cup. Those that have been heard from in the southern part of the state are Blackfoot, Sugar City, Boise, Weiser, and American Falls. In the northern schools New Pines, Lewiston, Moscow, and Coeur d'Alene seem to be holding a good standing.

Three teams from south Idaho will be selected for entry into the state floor with a payment of the traveling expenses. The winning outfit in the southeastern section near Blackfoot, will receive \$100 expense money. The central victor will be advanced \$125, and the runner-up five from the Boise district will receive \$100. All north Idaho entries will pay their own traveling expenses.

Five medals will be given as emblems of honor to the men making the all-time records. A ticket campaign will be launched next week. The season books will sell for \$1. The sale of books will continue until every student in the university is provided with one.

GEORGE WASHINGTON TERRITORIES I am no more disposed to squander than to stint. "Security makes happy homes and sound nations. Instill it deep. It is not the lowest priced goods that are always the cheapest. I cannot enjoin too strongly upon you a direct observance of economy and frugality.

Keep an account book and enter therein every farthing of your receipts and expenditures. Promote frugality and industry by example, encourage manufactures, and avoid dissipation. Reason, too late perhaps, may convince you of the folly of mispending time.

BACK TO THE OLD DAYS "What looks queer?" "What looks queer?" "To admit once that I'm a man of peace."—Detroit Free Press.

part of the proposed members of the league, are vague, Lodge said and suggested more precise definition of such guarantees. "President Marshall ordered the crowded galleries cleared when they broke into laughter at Senator Reed's suggestion that the league might take 30 years to reach an award if it wanted to. The order was withdrawn when senators protested.

National Character "Immigration goes to the root of national character and no nation should be compelled to admit anyone to its borders that it did not choose." Lodge said a judicial body is necessary to determine the meaning of the league constitution, criticizing its vagueness of language.

"When we enter the nebulous region of inferences, we must have a criterion. We must have a standard to determine whether those inferences are correct." He suggested that the document should have been drafted with the ordinary care a clerk uses in drafting a bill for the senate.

MOTION FOR DISMISSAL IN SIMS CASE DENIED

Court Refuses to Hear Proffered Testimony as to Alleged Insanity of Witness

A motion for dismissal of the case of the state against Harold M. Sims, newspaper man and former state representative, who is accused and on trial in district court here for alleged commission of a statutory offense, was denied and overruled this morning by District Judge W. A. Babcock, and the testimony of the first witnesses for the defense was introduced. The motion for dismissal was made on the statement of the intention of the defense to prove that the prosecuting witness, Miss Ruth E. Jester, was and is insane.

Having introduced the testimony of 30 witnesses during two days time, the prosecution rested its case at five o'clock Thursday evening when court recessed until this morning. The prosecution responded in this case this morning to introduce the testimony of one witness who could not be found Thursday. It is stated that all of the testimony for the defense will have been introduced by Saturday evening.

Canning. The French were the first people to preserve fruits and vegetables. This was away back in 1810. The French government offered a prize for the best method of storing foods during the winter months, and among the winners was the canning process. America learned the canning process from France. The canning industry brought the canning industry to be one of the largest and most important in the world, running into billions of dollars annually.

Honduras Attractive. With a population estimated at 600,000 and an area approximately equal to that of Pennsylvania, Honduras has abundant room for development. It has a tropical climate with few of the usual disadvantages. The interior is mountainous and sublimous, with considerable rich land suitable for diversified farming and fruit growing, while all of the remainder, even the deep mountain slopes, is used for pasturage.

How Wind Travels. When you are discussing the wind you must know that a gentle wind travels about five miles per hour, a high wind about 30 to 45 miles per hour, and a great hurricane 80 to 100 miles per hour. The velocity of the earth on its own axis exceeds, it is believed, 1,000 miles an hour. The velocity of the earth around the sun is calculated to be 66,000 miles per hour, and the velocity of the moon to be 2,275 miles per hour.

Washington's Hair in Ring. A signed ring containing locks of hair of George Washington has been added to the collection of relics of Alexandria Washington lodge of Masons, No. 22, in Alexandria, Va. The ring, which was the property of Mrs. Martha Peter, granddaughter of Martha Washington, contains a few strands of Washington's hair—of reddish brown mixed with gray. It is inscribed "A. Hamilton, 1783." Abigail Hamilton was the grandmother of the donor.

Plants Affected by Sun. Some remarkable variations in plant structure and color from exposure to the sun at different hours of the day have been brought to the notice of the Royal Microscopical Society of England by Col. R. E. Dawson. In flowers of the common nasturtium—tropaeolum majus—the low sun of the early morning developed yellow coloring matter, the midday sun developed red and he violets, blue and purples. The color of the foliage and lobing of the leaves also changed.

Preservative Apples. Use dry sand which has been heated and cooled again. Cover the bottom of a stone jar with sand, put in one layer of apples, having the fruit about one inch apart, and so on until the jar is full. The jar must be closed air-tight and kept in a cool place. The sand will keep the apples dry and preserve the flavor.

Warning Had Effect. Helen's sensitive hair was teased about her hair. After patting it for several minutes, she became angry and stamped her small foot, and loudly informed them: "I know I've got red hair and I've got a bad temper to match with it. You'd better remember that." Helen isn't teased any more.

Law of Compensation. The law of compensation is, even in these wonderful modern days, very much in evidence. Most of us—in fact, all of us—receive from the world just what we give to it. Smiles and happy words will fall from other lips to us if we ourselves play the same role; but if we are too busy or too "big" to practice those little courtesies we should not be surprised to see only frowns on the faces we meet.

Politics Figure in Queries for Pastor

Rev. W. A. Moore Is Confronted with Array of Perplexing Questions.

Pastor W. A. Moore of the First Christian church on Sunday evening next, will undertake to tell who should be elected at the coming city election and will tell whether or not he is a socialist, before giving his views on other deep and perplexing questions which have been submitted to him during the month. Among the questions to be answered are the following: What is the church doing to check Bolshevism? What does it mean to fear God? What fault, if any, had Jonathan and David? Was Jesus a member of a union? Is it a sign of weakness to blush? How long may a discharged soldier wear his uniform? What is the test of true greatness? Who is the meanest person in town? Why do most Christians observe Sunday rather than Saturday as a sabbath day? Is a Christian worthy of communion who is angry with some one? Does a man make his thought or does his thought make him? Does Christian Science agree with the Bible? According to the Bible should economic wrong be endured or protested? City election is at hand—what should be elected? Are you a socialist? Will you forgive every kind of sin? Which is the worst sin to dance or to say unkind things against those who do dance? What is the church doing to help labor? Are the rich happier than the poor?

THIRTIETHS BY ABRAHAM LINCOLN

Keep pegging away. Answer with facts, not arguments. Get ready and the chance will come. We all like the man who "sticks through thick and thin." The value of life is to improve one's condition. Nothing is so local as not to be of some general benefit. May the vast future not have to lament that you neglected it. Shall he who cannot do much be for that reason excused if he does nothing? When an occasion is piled high with difficulty, we must rise to the occasion. What is it that we hold most dear? Our own liberty and prosperity. Be a patriot! Don't mar the immortal emblem of humanity, the Declaration of Independence. Every blade of grass is a study; and to produce two where there was but one is both a profit and a pleasure. The hired laborer of yesterday labors on his own account today and will hire others to labor for him tomorrow. Teach economy, that is one of the first and highest virtues. It begins with saving money.

With Hosts and Hostesses

Mrs. Sidney Craig was hostess at a miscellaneous shower in honor of Miss Elizabeth Smith on Wednesday afternoon. Miss Smith with her mother has recently arrived here from Buffalo, N. Y. Her engagement to Eyrin Decker has recently been announced and the marriage will take place quite soon. The guests were Mesdames C. Smith, A. E. Decker, Jerry Biggins, Carson Jones, and Misses Ruth Bolleville, Bernice Kerr, George Lyda, Naomi Eckert and Elizabeth Smith. Late in the afternoon the hostess served a dainty lunch to her guests.

Mr. and Mrs. C. E. Booth gave a delightful dinner dance on Thursday evening. This was the first of a series of such affairs. Dinner was served at 7 o'clock and dancing occupied the remainder of the evening. The dining table was beautifully decorated with a large basket of sweet peas and snap dragons. These same flowers decorated the whole house. Thirty-two guests were present.

Judge and Mrs. E. A. Walters entertained at dinner on Wednesday evening. The guests of the time were Mrs. Sully Van Worman and Virginia McMechen and Mr. and Mrs. E. L. MacVicar. The hostess used sweet peas for table decorations.

Thursday afternoon Mrs. Dean Brown entertained at a Kensington in honor of Mr. Brown's sister, Mrs. H. R. Braden who has recently come here from Salt Lake. The hostess served dainty refreshments at the close of the afternoon. The guests were Mesdames H. H. Darrow, Charles Fogg, Milligan, Henry Thomas, W. A. Finlayson, June Andrew, A. Thomas, J. McClain, A. Ragar and Mrs. George Patrick of La Grande, Ore., who is the guest of Mrs. Andrew.

The Episcopal church held a parish meeting on Wednesday night. The financial reports of the year were read and other business discussed. Dr. Bigger and Dean gave talks on health conditions. Mrs. T. J. Woods and Dudley Watson sang solos during the evening. Rev. L. B. Franck spoke on the church's work for the coming year. After the meeting the evening was spent in dancing and refreshments were served at the close of the evening.

The examiner applies his ear to the patient's chest, closing his other ear, while coins are clinked at the patient's back. The sound of the coins coming through a healthy, normally-aerated lung seems distant and dull, while through an affected lung, through soiled or homogeneous tissue, a clear, silvery, metallic ring is heard. Forests of the Caucasus. The forests of the Caucasus in Russia are estimated at 12,000,000 acres, only in the Black sea territory, which is at the rate of nearly twenty acres to each inhabitant. The forests of western Siberia have been scarcely explored, but they are stated to be 200,000,000 acres in extent, more than half being in an absolute state of nature.—Rocky Mountain Herald.

Elizabeth, my Dear:

Please find your little niece, Fanny Lou, and give her three kisses right on her little rose-bud lips. For she has been weaving a basket at kindergarten and she sent it to me for a birthday gift. Dear little namesake of mine, I shall have to think of something especially nice to take to her when I go back to Virginia.

If she were only here, I know what I would do for her. Just this morning I saw something that almost made me say "Fanny Lou" right out loud. I was at The Bisbee Studio and Mrs. Bisbee was measuring a little girl from her wee little shoes to the top of the ribbon on her hair. There was to be a life-size portrait made of this little girl to be fitted into the wall above the fireplace in her father's den.

"And we want to have the height of the little lady right just to the inch," Mrs. Bisbee said, "and then we can balance the rest of the picture to suit the space required."

It was quite a joyous occasion and when the little tot ran into the posing-room when Mr. Bisbee called her, I asked Mrs. Bisbee to show me some of the life-size portraits of children.

"We are finishing two orders for life-size portraits this week," she said, "and both are really large pictures for the children are nearly five years old and by the time their exact height is shown, with correct spacing above and below, it does make large photographs—and very lovely ones," she added. "Would you care to come down to the press and see them?"

So the mother of the merry little girl in the posing-room went with me, and Mrs. Bisbee showed us the long tables and heavily weighted presses where the large portraits are kept smooth and clean until time for delivery. And how wonderfully fine the pictures were! The little boy had on a most engaging soldier cap and gait but the little girl was oh, so daintily gowned in white and just about Fanny Lou's age. I should think the portraits would be priceless to the children's parents.

I'm going to write Fanny Lou all about it but I wish I could hug her instead.

Your old schoolmate,
Mary Lou Granger.

OBJECTIONS OF FARM BUREAU TO MCGRAW APPEAR

Alworth Tells Union Labor Investigating Committee to Save Its Whitewash—Predicts Vacancy in Office.

The causes of friction between the county farm bureau and the United States employment service office here under the administration of G. S. McGraw, formerly business agent for the building trades council, were warmly discussed by W. F. Alworth, president of the farm bureau, and by C. E. Munson, a member of the executive council, at a meeting Thursday afternoon of the farm bureau committee attended by H. H. Friedheim and J. J. Turner, members of a committee appointed by the building trades council to investigate the general employment office in Twin Falls.

Mirrors Previous Action.
This committee previously met with the county council of defense of which both Alworth and Munson are members. The defense council adopted a resolution endorsing the plan of a federally operated employment service but called for an investigation of the employment service office in Twin Falls.

Says Whitewash Is Wasted.
"You have come here with a lot of whitewash for McGraw, but you had as well use your whitewash on your fences at home because McGraw is going to be removed from his position, Alworth told the members of the investigating committee.

Declarated, It Is His Opinion that McGraw had been appointed to the position through the efforts of certain agitators associated with organized labor who were interested in seeing that he was kept in the office.

Says Help Fallen When Needed.
He criticized McGraw's administration of the office on the ground that during the time when farm labor was most needed, McGraw had sent out labor to other points and that McGraw had sought to discourage laborers from accepting employment on the farms at the wages established by the farm bureau.

In understanding that McGraw's administration is improving in this respect, but that it is now to save his job, Alworth added.

Charges Political Influence.
Munson charged that undue political influence had been brought to bear in securing for McGraw the position of inspector for the employment service in this district.

Alworth took occasion to brand as a "camouflage" the statement put out last fall by union laborers that they would accept employment at \$3 per day per day, says that at the same time farmers were employing men skilled in farming at \$3 per day to do the same work.

Explains Bureau's Position.
He expressed resentment also at the position made by an instance of union labor of a resolution censuring the farm bureau for advertising for a shepherd, "Baague preferred."

In explanation of the action taken by the farm bureau in this latter matter, Donald McLean, former county agent, said that his office had not felt authorized to return to advertise for the applicant.

Say They Are Satisfied.
Both Friedheim and Turner spoke at some length in refutation of the charges brought against them by the farm bureau officials and took their departure with the statement that they were satisfied as to the causes for friction that might exist between the farm bureau and the administration here of the employment service.

Argues for Moderation.
After the departure of the investigators, C. E. Munson, member of the executive committee, stated his belief that a mistake had been made in the position taken by the other farm bureau leaders with respect to the visit of the committee. "The fires of discontent are burning today in England and in Italy and possibly in France as well as in Russia and Germany," he said, "and it is not to be far off how soon these flames may appear in the United States or how far these fires will reach. It should be our part to add no fuel to these flames," he advised.

TO CULTIVATE PROJECT BEFORE SALE OF LAND

Donald McLean, Agriculturist for Roseworth Ranch Company, Talks on Plans

A considerable area of the 8000 acres project of the Roseworth Ranch company, successor to the Twin Falls-West Land & Water company, lying across Salmon River canyon north of the city, will be put under cultivation and in crop this year, according to Donald McLean, former county agent and now agricultural director for the Ranch company, who was here Thursday afternoon at a meeting of the farm bureau executive committee.

This work will be done before any of the land is offered for sale. Mr. McLean stated that the sale of the land under the project, persons who entered into contracts with the Lead & Water company will be first given their choice of locations, but that will remain a considerable area to be disposed of at a drawing to be held probably next September.

The Ranch company has purchased recently a corral of horses from the war department and has in its employment a force of some fourteen workmen.

Mrs. Cummings has leased a farm at Parma.

Mrs. Marian Plumb spent the week end at the Dr. Parrott home in Twin Falls.

DOLLARS AND CENTS

Counting it only in dollars and cents, how much did that last cold cost you?

A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.—adv.

FILER

(Special to The News.)

FILER—George Washington's birthday was celebrated here with a dance at the roof garden. A large crowd was in attendance and all report a good time.

Charles Dodell returned Wednesday on a visit with friends and relatives in Colo.

Mrs. D. H. Davis and children spent Saturday visiting in Buhl.

Mrs. Ida Allen came home the last of the week from Twin Falls where she was attending the home service lectures.

Mr. and Mrs. Larson of Twin Falls arrived in Filer Saturday where they will make their home. They have moved into the house on North street, which was recently vacated by the Gardiner family.

Mr. and Mrs. E. R. Gardener have moved onto a farm near Percy.

Mrs. R. A. Diehl is home after a short visit with friends in Buhl.

The Filer Meat market is building an addition to its place, which will be used for a cold storage room.

Dr. A. A. Newberry arrived here from Portland Monday, to attend to his business interests. Mrs. Newberry and son Wilmer, will come later.

Harry Dickalacker of Twin Falls transacted business here Tuesday.

Charles Morehouse who has been stationed at Camp Lewis since June, received his discharge and arrived here Monday.

Mrs. Ray Taylor and sister, Cassie Jensen, spent Saturday in Twin Falls. Misses Ruth and Bernice Mand of Twin Falls were visiting friends here last week.

J. A. Johnson, E. A. Haug and Dr. Cartney attended the Masonic lodge at Twin Falls Thursday.

CHRONIC CONSTIPATION

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine and their use is not so likely to be followed by constipation.—adv.

NEW SECRETARY FOR HOME SERVICE NAMED

Mrs. Austin D. Thomas to Succeed Mrs. E. L. MacVicar in Important Position.

The appointment of Mrs. Austin D. Thomas to be secretary of the Twin Falls county Red-Cross chapter home service section in the stead of Mrs. E. L. MacVicar, whose resignation to be effective March 1, has been accepted, was announced today by Judge E. A. Walters, chairman of the chapter home service committee.

Mrs. Thomas has been for several months a member of the home service section visiting committee, and is now in the employ of the school board in the Twin Falls schools.

Mrs. MacVicar has served without salary as secretary of the home service section since its organization here about a year ago. She is a graduate of a course in home service training given at divisional headquarters in Seattle and is regarded at divisional headquarters as one of the most competent home service secretaries in the northwest. Before becoming identified with the home service work, Mrs. MacVicar was for some time secretary of the Twin Falls county Red Cross chapter.

It is Mrs. MacVicar's intention to leave in the near future to spend the summer on a visit with relatives in the east and her resignation is offered to permit of this trip.

The Profitable Nickel.

Like the humble cent, the increased coinage of which was recently mentioned in this column, the nickel is in greater demand than ever. That is fortunate, for the face value of these "token coins" is so much greater than the value of the metal they contain that the profit in manufacturing them, together with a slight profit in manufacturing the minor silver coins, more than meets the entire running expenses of the mint.—Youth's Companion.

Relic of Long-Past Age.

While cutting pine in the Lethen headwater area, the shepherds unearthed a horn, which may have belonged to Bos primigenius or Bos longifrons, the wild oxen that roamed over Britain from the glacial age to near historic times. It was found at a depth of seven feet from the surface, and the shepherds also averred that there was a small patch of brown hair attached, which is quite probable, as the peat would act as a preservative.—London Mail.

Skilled in Fine Work.

One of the truest calling for the greatest skill in the making of compasses. This work had never been undertaken by women until dilution of labor became necessary. Of the infinite number of delicate parts demanding absolute accuracy, women have succeeded in making all but two or three, and these will shortly be to their credit.

The Lucky Horseshoe.

The superstitious use of horseshoes as emblems of good luck originated in England in the seventeenth century. They were at first deemed a protection against witches and evil spirits, and were nailed on doors of houses with the horns, sometimes the custom of nailing horseshoes to ships and other sailing craft is still in vogue.

Simply Couldn't Be Done.

Mother knew several practical gifts were to be given Daniel, so she was preparing him in advance by telling him he was to be appreciative of practical gifts as well as toys. "But, mother, I can't do that," he said, "my appreciator said so big that I can be glad for shoes and such things."—Chicago Tribune.

Taboo.

When anything is forbidden, or its exclusion is ordered, English-speaking people sometimes say it is "taboo." The word is derived from a custom once common in Polynesia and New Guinea, the slightest something set apart or prohibited because of its being either sacred or accursed. The system originated in a superstitious dread of the invisible powers of evil.

To Remove Grass.

The following method, described in Popular Science Monthly, has been substituted for the use of ammonia and other light oils: Boil the Paris in caustic soda lye; one pound to a gallon of water; then brush while the articles are hot. Caustic soda is recommended as better than ordinary soda, since it causes the fat or grease to dissolve more quickly.

Recognize Value of Canals.

The canal system in China is the most extensive in the world, with the possible exception of Holland. Wherever the lay of the land permits the Chinese have made a canal. Thus they are enabled to carry the product of their labor to market at a minimum expense.

Step Higher Up.

If all our actions and motives in daily life could be actuated by a sub-conscious and all-perceiving idea of getting ourselves as far along step by step for figurative letters of recommendation as to our ability to capably hold the next trench ahead, how surely would our foes of slackness, dilatoriness and incompetence be routed.

Give Plants Air and Light.

If potted plants are set in jardiniere, be sure no water stands in them so that the jardiniere is large enough to permit circulation of air around it. Plants need light, pure air, and cleanliness as much as human beings.

Daily Thought.

It is necessary that whoever is brave should be a man of great soul.—Cicero.

REPEALS OLD PRIMARY LAW FOR NEW BILL

Launches Another Measure to Provide for a Good Road Program to Be Voted on at Coming Election

(Special to The News) BOISE, Ida., Feb. 28.—Authorizing a bond issue of two million dollars and providing for a referendum vote, a bill was launched in the house Thursday to provide for a good roads program in 1921 and 1922.

Employ School Physicians—The general county physician enabling act which has been the subject of much debate during the past few days was indefinitely postponed with but six-tenths members voting relief measures carrying appropriations of nearly thirty-five thousand dollars were passed Thursday by the house.

Rescues Baker's Act—Recent over the action of Secretary of War Baker in hastily discharging from the army "conscientious objectors" and placing them on the same status with other soldiers who had served their country without objection took concrete form in the Idaho senate Thursday afternoon when that body passed the house joint memorial censuring the cabinet officer. The memorial was unanimously adopted.

Repeals Primary Law—The repeal of the primary law was necessary in view of the passage of the new measure which is now in the hands of Governor Davis.

Oppose Bond Adjustment—Other bills to pass were senate bill number 123 requiring the filing with the directors of all other classes, and a measure providing for an investigation of discrimination in prices because of the freight rates in different communities of the state, were the principal bills passed.

Wired protest from Bonneville and Jefferson counties against the proposed readjustment of judicial districts by the legislature precipitated a debate on Thursday afternoon in which a number of members participated.

Senator Whitcomb of Lemhi county and chairman of the judiciary committee will introduce Senate bill No. 172, has brought measures before the committee of the whole for slight amendments. It proposes to place the newly created Caribou county in the fifth district, Jerome, Bonneville, Fremont and Leon in the ninth and place an additional judge in the sixth district, which would comprise Blaine, Butte, Caribou, Lemhi, Clark, Madison and Jefferson.

Judging Others—We cannot judge our fellow men without in some measure judging ourselves. We are always inwardly judging others for others, and by that very act are forming a code for ourselves. The wrong we see in another may be the sin of his ignorance, but there can be no like excuse for us who have recognized and labeled it.

Eagle's Flight—An eagle has been observed to rise from the ground and completely disappear into the sky within three minutes. Eagles sometimes soar to heights of 15,000 feet or more.

HOUSE CONTROL STILL REMAINS WITH CHAIRMAN

Representative Mann of Illinois Is Leading the House Despite His Defeat as Speaker Candidate

WASHINGTON, Feb. 28.—Control of the republican organization in the house today remained in the hands of Representative Mann of Illinois, despite his defeat for the speakership by Representative Gillett of Massachusetts, it was learned today.

After Gillett's election, it was learned today, Representative Winflow, Massachusetts presented a proposal for a committee on committees of seven to restore order until Winflow had withdrawn his motion.

There were shouts of disapproval, members said today, and Representative Winflow, in the chair, was unable to restore order until Winflow had withdrawn his motion.

Offers Counter-Proposition—Mann then came forward with a counter-proposition to compose the committee on committees of nine men from each republican state with the power to cast as many votes as his state had republican members.

Not Manly—A woman invited Ed to come and see her. He asked if she had a little boy to play with him, and she said no. He then asked if she would like to see a little boy, and when she said yes, Ed replied: "My mamma will tell stork that brought me to her to bring you a little boy."

White Paper—The white paper of which newspapers are made is 98 per cent spruce wood that has been reduced to a pulp and then converted into paper. No other wood is as available for this purpose, and in making newspaper, cardboard and other papers and paper products this country consumes 20,000,000 cords of spruce wood yearly.

STRIKES AT SYNDICALISM—MADRID, Feb. 27.—(Delayed.)—The cabinet resolved today to suspend constitutional guarantees throughout Spain as the result of the spread of syndicalism (belief in sympathetic strikes). The syndicalists are alleged to have captured practically the entire industrial organization of the country.

FLYER IS KILLED—COBLENZ, Feb. 28.—Major H. B. Anderson, commander of the observation group of the Fourth Corps, was killed today while flying a Fokker machine surrendered by the Germans. He attempted to reach the Koblenz field despite motor trouble but his plane crashed.

STARTS CRIMINAL PROSECUTION—BUDAPEST, Feb. 26.—(Delayed.)—The Hungarian government planned today to start criminal prosecution of officials responsible for the war. The first to be tried, it was said, will be former Chancellor Berechold and Count Forgach. Berechold is understood to be living in isolation at Lake Thun, Switzerland.

VERIZAN STATESMAN DIES—PASADENA, Calif., Feb. 28.—There will be no public funeral services for George F. Edmunds, veteran American statesman and former U. S. senator from Vermont, who died last evening at his home here. Miss Mary Edmunds, his daughter, said today the funeral would be private. No time has been announced.

HARBOR STRIKE PENDING—NEW YORK, Feb. 28.—Unless President Wilson intercedes, New York harbor will be tied up by a strike of marine workers tomorrow, according to Thomas L. Delahanty, president of the Marine Workers' Union today. The men met here this morning to decide on whether a general strike order will be issued, effective at midnight tomorrow.

DEMONSTRATES OPERATION OF WORLD LEAGUE

The Present Dispute Between Italy and the Jugo-Slavs Shows the Way the New Organization Would Work

BY J. W. T. MASON—NEW YORK, Feb. 28.—A practical demonstration of the way the League of Nations would operate to prevent war is being given by the peace conference in the dispute between Italy and the Jugo-Slavs.

Under ordinary circumstances Italy and Jugo-Slavs would now be at the diplomatic breaking point, with hostilities inevitable.

Urges Drastic Measures.—The Slavs are reported to have ordered the expulsion of an Italian military mission from their territory and agitators in the new Adriatic nation are urging their fellow countrymen to carry their quarrel against Italy to the battlefield. The Italians are said to be refusing to permit relief supplies to pass into Jugo-Slavia as a precautionary measure of self-protection.

This situation is the common one of a double defiance which, under the rules of the old diplomacy, made war inevitable. It is a situation that the league of nations must have the power to settle amicably if the league is to be an improvement over the former system of international relations.

Refuse Mediation.—This is now being done. The news is being permitted to leak out of Paris that intimations have been conveyed to the Italians and Jugo-Slavs that the allies are prepared to exercise economic pressure against the belligerents if hostilities are begun. Italy has declined to accept American mediation in the dispute and therefore in the position of a country that has refused to arbitrate its claims, according to the rules of the league of nations.

Under the courses of the league's procedure, an attempt is being made to isolate economically the belligerent nations. Such is the plan which the peace conference has prepared to accept. Its effect is becoming apparently in the spirit of self-restraint that is beginning to show itself at Rome. If the power to withhold supplies were not in control of the peace delegates, they would reason to believe Italy would now be preparing to send an ultimatum to Jugo-Slavia as preliminary to fighting for the mastery of the Adriatic. But the peace conference for the present has averted this outcome by using the identical powers that are to be given to the league of nations.

Aid in Self-Mastery.—It is a good practice for people to make a practice of doing something every day for their development, that they don't want to do, and then to deny themselves every day something they want. This should not be for a day, a week or a year, but a life work. In the mastery of any man become master of himself.—Dr. J. H. Tolson.

It Would Be a Picture.—Picture—if you can—the baffled and crestfallen expression on the face of a plumber who has just received his first bill for automobile repairs from a confirmed garage man.—Buffalo Express.
