

SENATOR BORAH HEADS LIST OF OPPOSITION

Series of Speeches in an Attempt to Defeat the League of Nations Begins Tonight in New York

BY L. C. MARTIN
 WASHINGTON, March 6.—The nation-wide campaign of the "senate 37" against the league of nations constitution begins tonight in New York.

Senator Borah, leader of the opposition, will speak before the society of arts and sciences there. On Saturday he will speak in New York. Borah's speeches are the first of a series to be made in practically every state, in opposition to the provisions of the league constitution as drafted at Paris.

Every senator who joins in the campaign with the possible exception of Borah, plans to make it plain to his audience that it is not a league of nations in opposition, but that the league as outlined in the tentative constitution.

Opposes Any League
 Borah is opposed to any league on the ground that it is America's business to stay out of permanent alliances with foreign nations.

The other senators who signed the "round robin" presented to the senate by Senator Lodge favored worse organizations upon some which will make impossible European interference with the Monroe doctrine, American commercial interests and American sovereignty. Most of them think such a league can be formed. They are willing to accept the present constitution as the basis for its organization. What they insist on is modification of the constitution to meet objections, they point out.

They will emphasize to the country in the next few weeks this one point, many of them said today.

"President Wilson is trying to force on the United States his league of nations. We favor a peace league but it is our right to point out and our duty to study the dangers that lurk in the proposal as submitted."

There is no disposition to attack President Wilson except by pointing out that he, while inviting discussion, stated last week going back to France that the constitution did not need amendment.

Bases of Campaign
 The whole campaign is to be based, republicans say, on the point above outlined with these additional ones:

The sponsors of the proposed league have no more authority for declaring the league will not interfere with the Monroe Doctrine and American rights than its opponents have for asserting it will interfere.

That President Wilson said there was a reason for every provision but in his two speeches in this country, and his talk with congressmen, did not reveal one of the reasons.

Says League Will Fail
 That the proposed league will fail because it tries to do more than the world is ready for now.

That Europe is counting on America bearing the burden of military and economic of making the league a success.

In addition to Borah, Senators Reed, Lodge, Knox, Cummins, Pounder, Sherman and Kenyon are practically mapped out speaking tours. Reed, a democrat, is not among the 37, nor is Kenyon, a republican. Others of the 37 have received invitations to speak and all will take some part in the country-wide debate.

PROHIBITION WILL HAVE NO EFFECT ON AUTO RACES

Event Will Have Usual Attendance Is Now Being Predicted By Officials

INDIANAPOLIS, Ind., Prohibition will not seriously interfere with the attendance at the 500 mile auto race at the Indianapolis speedway to be held May 31, in the opinion of officials of the company today. They agreed that some of the patrolage which helped to make races in former years a success, would probably be missing because of the dry territory, but this will seriously cut down attendance it is believed.

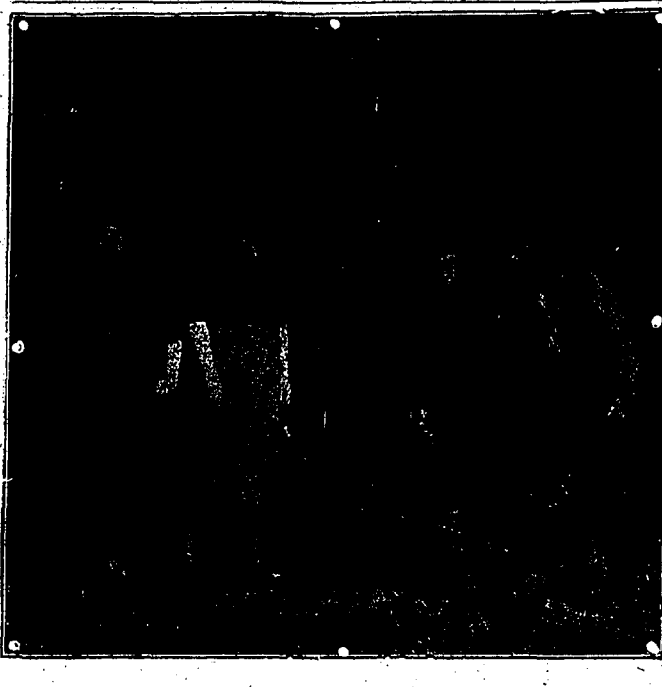

Theodore Meyers, manager of the speedway, stated that plans are going forward for the classic event to be staged as usual this year. It will be the first auto race in three years on the local speedway, all contests having been called off during the war.

PRESIDENTIAL SHIP HAS FINE NEW EQUIPMENT

New Wireless System Which Will Communicate Across Atlantic Is Installed

BY CARL D. GROAT
 ABOARD U. S. S. GEORGE WASHINGTON, March 5.—(Delayed)—President Wilson intends to devote most of his time on the voyage to Brest to getting a much needed rest. He will do only routine work. He attended the movies tonight but retired immediately afterward. In addition to being equipped with a new wireless plant by which contact can be maintained with both sides of the Atlantic throughout the trip, the George Washington has a long distance wireless telephone apparatus with which experiments will be made. The navy's new radio compass designed for determining the ship's position in a fog, insures her safety.

LAVERING THEATRE TOMORROW NIGHT

PARTS OF PEACE TERM COMPLETE

Military and Naval Terms are Expected to Be Finished at Today's Session

BY FRED S. FERGUSON
 PARIS, March 6.—Military and naval terms of the preliminary peace with Germany were expected to be practically completed at today's session of the supreme war council.

It was believed in certain official quarters that they would be given definite outline, preparatory to their ratification by President Wilson, Premier Lloyd George and Premier Orlando.

Lloyd George, lunching with Colonel House today, was to be apprised of the work accomplished during his absence in London after which he was to join the other conferees at the Quai d'Orsay.

The question of readjusting Germany's frontiers was expected to be taken up tomorrow.

Food relief for central Europe occupied the bulk of the council's discussions yesterday. It was also brought out that lack of adequate transportation is seriously interfering with distribution of food supplies in Aumania and the Czecho-Slovak republic.

BASEBALL TEAM WILL TAKE AN AERIAL EXPEDITION

Manager Has Invited Whole Crew to Attend Him in a Flying Stunt

NEW YORK, March 6.—John J. McGraw of the New York Giants has often been "up in the air" but he has never before volunteered to take his entire team with him on his aerial expeditions. Usually when McGraw's balloon ascensions occurred on or near the evening lines he impressed it upon his teammates that they must keep their feet on the ground and play ball. If anybody "went up" John usually said he would do the ascending. But McGraw has changed. Today he wants the entire crew to fly with him. However, he will use airplanes.

McGraw has received and is considering an invitation from J. P. Davis of the Curtis Airplane Corporation, in which the giants' leader is urged to fly to Philadelphia with his teammates for the opening game on April 25. McGraw has indicated his desire to accept the invitation.

Father Pleads Defense of His Young Daughter

Man Accused of Murder Gives as His Reason for Act that He was Saving His Child

CHICAGO, March 6.—Self-defense was the plea today by which J. Norman Cook, former private detective, hoped to acquit himself of the charge of murdering William E. Bradway, clubman, whose attentions to Cook's daughter, Norma, is the focus of the case.

Taking the witness stand for himself yesterday, Cook declared he had stabbed Bradway to death last August after he himself had been threatened. In addition to the self-defense plea, Cook testified that he was trying to save his daughter from harm by the infatuated and ambitious man about town.

The defense expected to close its case today with character witnesses.

Packers Think Prices Will Not Rise Again

Many Believe There Will Be a Drop in Market Instead of Predicted Soar

OMAHA, Neb., March 6.—Local packers disagree with the government price-fixing committee that the price of hogs will rise now that the government price fixing is at an end.

Both M. R. Murphy, general manager for Cudahy and R. C. Howe, manager for Armour and company here, believe prices will fall in the near future. They point out that the yield of hogs this season has been the greatest in the history and say there is still many hogs on the farms in this vicinity because of car shortages and embargoes on various yards.

Other live stockmen at South Omaha yards say they expect hogs to go as low as twelve cents shortly.

Steel Industry Delegates Meet for Conference

Men From All Parts of Country Gather to Consider Stabilization of Prices

NEW YORK, March 6.—Steel men from all parts of the United States assembled here today to consider Secretary of the Commerce Redfield's proposal with reference to stabilization of prices in the steel industry. The men gathered in response to a call sent out by the American Iron and Steel Institute.

George N. Peck, chairman of the industry's board of the department of commerce, expressed his approval of the manufacturers to stabilize details of Redfield's plan. Among the leading steel makers at the conference were Judge Albert H. Gary, chairman of the United States Steel corporation; Chas. M. Schwab, J. A. Topping, F. A. Campbell and S. P. Kar.

A wonderful future for thrifty farmers on Capay Grant

It is only the farmer who has actually visited the famous Capay country in the fertile Sacramento Valley who can properly appreciate the charm and attractions in this wonderful farming country. No ordinary picture can begin to portray those gifts of nature which are so bountiful here.

The farmer who drives his stake now at Capay, though he gets in on the ground floor, has none of the hardships of pioneering ahead of him. The country all around is highly developed. Some of the most remarkable crop records in all California have been made in this immediate territory.

The wonderful orchards, the magnificent grain, dairy and stock farms on all sides show the prospective purchaser just what he may expect. The climate is delightful. None of the ravages of frigid winters to combat—no snow to shovel.

The fourth subdivision of this famous Capay Grant, now open to purchase, brings one of the greatest farmland opportunities ever offered in California.

The soil is a rich, black silt, the very finest kind of land conceivable. No hardpan, no gumbo, no alkali. For grains of all kinds, for alfalfa, for deciduous and citrus fruits it is unexcelled anywhere.

The Water Situation is Ideal. Every 80 acres has its own well and its own electrically operated pumping plant, all of which are included in the cost of the land

\$175 An Acre (Easy Terms)

Splendid markets, thriving towns are close by in almost every direction, reached by splendid highways. San Francisco is only six hours away.

The opportunity is so unusual and so limited that quick action is necessary to secure acreage. Investigation will involve no obligation. Use the coupon.

Mediators Fail to Make Peace in Harbor Strike

No Agreement is Reached Between Strikers and Boat Owners is Late Report

NEW YORK, March 6.—Boat owners having been held responsible for the harbor strike here upon the federal mediators who failed to effect a settlement, little hope was held out today that a satisfactory agreement soon would be reached between the striking harbor workers and employers. The owners declared that as they accepted terms of the original war labor board award and strikers refused to submit to this award, they would reject any further attempts at arbitration and ask that the government enforce the award of an eight-hour day without a wage increase.

Meanwhile, this port continues tied up. Save for occasional ferries manned by non-union crews, harbor traffic was at a complete standstill.

Ford's Income Tax Less Than Usual

Great Manufacturer Only Made a Little Over Twelve Millions Last Year

DETROIT, Mich., March 6.—Henry Ford only made upwards of a dozen million dollars last year and therefore the income taxes he will pay in the next few days will be less by a million or so than last year, it developed here today.

For the past few days a large staff of accountants, attorneys, clerks, and stenographers have been hard at work figuring up Ford's debt to the government and today the job was far from completed.

It was estimated Ford's income taxes will amount to around \$6,000,000.

PORTLAND BOYS ARE WELCOMED TO THEIR HOME

Greeting Extended to the Returning Service Men Whole Hearted and Sincere and Loud.

PORTLAND, March 5.—Four hundred seventy conquering heroes returned to Portland today and were given a welcome that was whole-hearted and sincere as it was loud.

The men are members of the Sixty-ninth artillery, many of them originally being members of the Oregon coast fireboats.

Fireboats sounded their sirens when the train approached the Union station at 8 o'clock this morning. It was the signal for every noise-making device in the city of Portland to be turned loose.

Relatives and sweethearts of the artillerymen were allowed an hour in which to visit with the boys at the station, after which the ranks formed for a parade which traversed Sixth street to Morrison, Morrison to Third, and then along Third to the auditorium, where a big "chow" had been provided.

It was followed by a general pep-crowd with a few welcoming addresses.

Red Cross workers, the Matronal guard and band, and Salvation Army girls appeared. The parade, which was seen on the sidewalks or in buildings affording a good view of the paraders.

The doors of all theatres and clubs of the city were thrown open to the members of the Sixty-ninth during the afternoon. Those who cared to make the trip were taken in automobiles over the Columbia highway.

The evening entertainment included a dance, with music and many girls provided.

The Sixty-ninth will leave Portland at 2 a. m., Thursday morning for Seattle where another monster celebration awaits the boys, many of whom hailed from the state of Washington.

MANY CZECHS WERE MARTYRS IN WAR

By FRANK J. TAYLOR.

PRAGUE, Czechoslovakia, Feb. 5 (By Mail).—The "passive resistance," as the war time opposition of the Czech-Slovak people to the old Austrian-Hungarian government is called, was an exceedingly effective means of fighting the Hapsburgs, as after-the-war revelations show.

Though the Czech-Slovaks were suppressed to completely to revolt with force until toward the end of the war, they refused to fight.

Thousands escaped and joined the Russian, Italian and French armies, and against these countrymen the conscripted Czech-Slovaks refused to fight.

They were drafted into the army, and in many cases sent to the front. At the first opportunity they surrendered in groups.

From Prague an organized system of arranging surrenders was conducted. Representatives were sent out to show soldiers at the front how to surrender in groups without being killed.

In a military way the "passive resistance" of the Czech-Slovaks was disastrous to the Austrian army as the chemist, Yiro, according to officers who had to deal with the Czech-Slovaks. The Czechs demoralized any unit that was attached to, and had to be guarded continually.

Hundreds of Czechs refused to answer the Hapsburg call to service, and hid in cellars and in small towns or in the country year in and year out.

They were able to organize resistance to the Austrians but the revolts failed for lack of supplies.

Within the Czech-Slovak areas the people refused to subscribe to Austrian loans, and hid their money, gold and silver, and refused to work for the new republic.

When the Germans and Austrians demanded food, the Czechs hid it. They refused to work in factories used for war material manufacture.

They refused to do any war machinery, to help the allies. Thousands were imprisoned or killed for pro-ally efforts.

There are thousands of martyrs of Czech-Slovak "passive resistance."

Monkeys Use Flits. Bruehm, in his "Thierleben" tells how certain kinds of monkeys emphasize their feelings by striking with their fists.

When angry or excited they bring their fists down upon the ground with all their might. They are not content with merely banging their fists upon the table with their fist. They have this excuse: the are looking for a stone or stick with which to crack the skull of their descending fellow-monkey.

Long-Distance Talkings. Eighteen miles is said to be the longest distance on record at which a man's voice has been heard. This occurred in the Grand Canyon of the Colorado, where one man, shouting the name "Bob" at one end, was plainly heard at the other end, which is 18 miles away. It is recorded that at Gibraltar the human voice has been heard at a distance of ten miles.

Wisdom of Our Ancestress. Tell me whether it is right or wrong: If rights will let it; if wrong I will not. But never let me hear the word expedient.—Queen Victoria.

But Not Quite. "Father, what is a glutton?" "A glutton is a grown man who can eat almost as much as a small boy."—Life.

Prince Invents Labor Saving Letter Sign

LONDON, Feb. 20 (By Mail).—Prince Nicholas of Bumania, now attending Eaton, England's famous preparatory school, has solved the problem presented by the necessity of writing that weekly letter home.

American boarding school boys might take a tip from him. By adopting the prince's system they will find unnecessary long hours of pencil biting and wearisome concentration on the question of what to write to interested dad and mother.

The prince keeps a daily log of his doings. It is written in duplicate with a sheet of carbon paper. At the end of the week the paper need only tear off two sheets, place them in envelopes and mail them to dad and mother. In his case dad is King Ferdinand I and mother is Queen Marie.

Prince Nicholas, however, in addition to sending the diary sheets, mails frequent letters home.

The prince, who is 15, is democratic and wants to be treated as Eaton just parity school student. He is of sturdy build and is anxious to learn English sports. He speaks English without a trace of accent and is of English descent, since his mother is the granddaughter of the late Queen Victoria and the daughter of the English duke of Saxe-Coburg and Gotha.

But Not Quite. "Father, what is a glutton?" "A glutton is a grown man who can eat almost as much as a small boy."—Life. We are again making stockfeed. The Twin Falls Flour Mills. (Adv.)

PORK EMBARGO IS NOW LIFTED

Unfixed Hog Price Means that Commodity Will Soar for Several Years to Come

CHICAGO, March 6.—The balloon has been cut loose, according to experts today, commenting on the unfixed hog price. Packing house officials said they expected immediate advances in live hog prices to set market far above the \$20 record set last winter.

"Prices will be up for two or three years to come," said F. W. Waddell, head of Armour and Company's pork and provision department.

"Lifting of the embargo on pork exports, of course, opens much new territory. There isn't enough pork on hand to meet the demand. The live hog supply in this country is exhausted. The farmer used his hogs to market while the food administration had a fixed price for his animals.

Live hog prices have advanced in the last week in the belief no price would be fixed.

Grains, slowed up in a nervous market here, were expected to react today to the hog price announcement. Sharp rises were predicted from the opening of the markets. Charges that the farmer, sure of a high price for what, has neglected corn, necessary adjunct to the pork business, were made by meat experts.

Unofficially some startlingly high prices were named as possible records for both grains and meats.

Involves Company in Great Litigation

Million Dollar Suit is Brought Against Central Steel Company Officials

CANTON, O., March 6.—The million dollar suit instituted by W. B. Andrews against officers and directors of the Central Steel company, a subsidiary of the Bethlehem Iron and Steel company, resumed trial today after a two-day adjournment. Andrews is seeking compensation to the treasury fund of approximately a million dollars paid out during 1918 and 1917 on bonuses in which three officials of the company shared to greatest degree.

The suit is regarded as important in that it may determine the quality of large bonus awards which of late years have become part of large industrial operations.

DOUGHBOYS DON'T SPEAK TO GERMANS

COBLENZ, Feb. 10. (By Mail).—Many Frenchmen and Americans are said to be worrying over rumors that the Americans are fraternizing with the Germans. That many of the boys from the states speak German just as some Rheinlanders speak English; that the Germans give the Americans warm rooms, comfortable beds, black their boots and see that they get canteens. "Well, there may be rumors of fraternization, but they are rumors only," said General Dickman, commander of the American sector, to a correspondent of the United Press at headquarters here.

"If an American speaks to a German, man or woman, he is arrested. The only exception is in the case of children. There is an abhorrent lot of little folk in the hearts of the American soldiers, and all the regulations in the world will not prevent them from playing with the kids." The general was asked if the Germans are short of food in the American sector.

"They seem to have plenty of it," he answered. "Vegetables are common and cheap, the only shortage being in fats and milk."

"In one town where there was a complaint from the Germans that they had no livestock or fowl, we noticed a few chickens. That is why the German man who they did not eat the chickens. He caught one and showed a number on its leg. The systematic German authorities made the owner of the chicken responsible for the capture of the fowl."

"There is plenty of game in the forests, wild boar being good table diet, also breeding rapidly. The American soldiers were potting this game when we issued orders prohibiting them from shooting it."

General Dickman has not had the slightest trouble with the Germans since the occupation. Local German functionaries are holding down their jobs as usual, burgomasters being held to a strict accountability for everything that transpires. These officials issue safe conduct passes, but only in cases where their names have been found. Two well known Berliners came to Coblenz under assumed names. The American intelligence service discovered the deception in 23 hours, the burgomaster was brought up on charges, and fined 1500 marks.

Half a dozen trunk lines only are permitted for the telephone. Messages are held in restricted to business calls. If there is an abuse the headquarters knows it immediately. General Dickman has a direct wire to Berlin.

Americans are not overcharged in stores here. General Dickman will not permit it.

In some of the smaller towns where preliminary billeting lists were scrutinized it was seen that nearly all of these were in the "dollar" class or poorer homes. In such cases the burgomasters were instructed that if the wealthy tried to escape having American billeted with them, the American soldiers would be placed in each of their houses.

There was no more reluctance to receive American troops.

BOND ELECTION OFFICIAL CALL IS AUTHORIZED

Twin Falls Highway District Commissioners Make Formal Announcement of Submission of Issue to Voters

Issuance of the official notice of the Twin Falls highway district \$1,250,000 bond election, Tuesday, March 18, was authorized at a meeting here Wednesday afternoon of the commissioners of the district.

All of the legal proceedings required as preliminary to the issuance of the notice and arrangement for the election were adopted by the commissioners at that time, the bond being authorized in the premises by the Sweet, Causy, Foster company of Denver, to whom the contract for this work was recently awarded.

Bond Twenty Years

The proposed bonds are to be payable within 20 years of the date of issuance and to bear interest at a rate not to exceed six per cent per annum. They are to be issued for the purposes, according to the notice of election, "for the construction, improvement and repair of any of the highways within the district, for the purchase of material and machinery therefor, for the necessary expenses of the district in connection therewith, and for any or all of such purposes."

Residents of the district who are qualified as voters at a general election are qualified to vote in the bond election, according to the advice of the commissioners.

New Precincts Created

The commissioners directed attention to the fact that the voting precincts at this election do not correspond with the precincts for the general elections, and decided to publish in the near future a map showing the boundaries of the precincts for the bond election.

Except in Twin Falls the voting places designated are the school houses in the various precincts. Voters in Twin Falls precinct number one will vote at the Johnson Auto Sales company saleroom on Shoshone street east, and those in Twin Falls precinct number two will vote in the commissioners room at the court house.

Judges of Election Named

The following are the judges appointed for the election in each precinct: Murtaugh—B. F. Jain, R. J. Day, J. I. Tolman; Hanzen—A. Felton, Sturgeon McCoy, Elmer Sevay; Kimberly—Noah Swearingen, D. T. Turner, M. E. Eden.

Rock Creek—B. Stricker, Nephel Larson, J. H. Huxley; Hollister—George A. Salley, W. H. Craven, W. F. Klumeyer; Rogerson—J. B. Langford, W. H. Felte, W. H. McMillan; Berger—Hjalmar Erickson, J. M. Pierce, Fred Bergery; Riverdale—Louis J. Wells, Minnie Clausen, Frank Lisle; Twin Falls No. 1—W. B. Easterly, J. C. Maxwell, William Graham; Twin Falls No. 2—G. D. Aiken, B. S. Brainard, F. B. Cox.

RED CROSS CHAPTER HAS NEW SECRETARY

Mrs. Austin D. Thomas Is Selected by Executive Board to Succeed Mrs. M. C. Mitchell, Resigned

Mrs. Austin D. Thomas was elected at a meeting Tuesday evening of the executive committee to succeed Mrs. M. C. Mitchell, resigned, as secretary of the Twin Falls County Red Cross chapter. Mrs. Thomas also recently was elected secretary of the Red Cross home service section to succeed Mrs. E. L. Macvicar, resigned. Mrs. Mitchell, who has served as secretary for the chapter for several months, tendered her resignation in view of a visit which she expects to make in the near future with relatives in the east.

CALL BIDS FOR EXCAVATION

Bids will be received by Wm. G. Read, at his office in I. D. Bldg., until Monday, March 10th, for excavation of full basement, 125-025-0x10-0, on lot 3, block 104, Twin Falls, next to Big White Store. All material to be hauled off the premises.

GIVES SERVICE MEN ADVICE ON SECURING BONUS

War Department Issues Statement Setting Forth Procedure for Discharged Soldiers in Collecting Cash

Soldiers who have left the military service without receiving payment of the \$80 bonus authorized by recent act of congress are directed by the war department in a communication just received by the Twin Falls office of the United States employment service, to apply to the zone finance officer at Washington, giving certain required information for this bonus. It is estimated that at least 1,250,000 persons have been discharged from the service who are entitled to the benefits of this act.

Here is the statement of the war department in this regard:

Section 1406 of the revenue act approved February 24, 1919, authorizes the payment of a bonus of \$80 to officers, soldiers, field clerks and nurses of the army upon honorable separation from active service by discharge, resignation, or otherwise. This bonus is not payable to the heirs or representatives of any deceased soldier.

Those who are discharged hereafter will receive their bonus on the annual roll or voucher upon which they are paid their final pay.

Those who have been discharged and have received their final pay without the bonus should write a letter to the Zone Finance Officer, Lemon Building, Washington, D. C., stating their service since April 6, 1917, the date of last discharge, and their present address to which they desire their bonus checks to be sent, and inclosing with this letter their discharge certificate or military order for discharge or both, if both were issued.

Upon the receipt by the Zone Officer, Washington, D. C., of this information and the soldier's discharge certificate, this officer will cause checks to be drawn and mailed to the claimants in the order in which their claims were received by him. The discharge certificate will be returned to the soldier with the check.

It is estimated that at least one million and a quarter persons have been discharged from the service who are entitled to the benefits of this act, and while payments will be as expeditious as practicable, it will manifestly take considerable time to write and mail this many checks.

Values of pronounced merit in Dresses for Morning and Afternoon Wear

Women's Gingham and Percale Dresses

With the coming of Spring you will surely need some new house dresses. Gingham bids to be as popular as ever. We have an exceptionally attractive line of both plain and fancy gingham dresses, as well as percale dresses at reasonable prices.

Seats On Sale Now, Majestic Pharmacy

With Hosts and Hostesses

A reception was given Tuesday evening at the Baptist church in honor of Mr. and Mrs. William Cheek, who are leaving soon to make their home in Hollywood, Cal. A program was given consisting of a piano solo by Mrs. Carl Benson, reading by Miss Lotia Sparks, a solo by Mr. Wood, a reading by Miss Esther Briggs, a solo by Miss Junetta Dean and a piano selection by Miss Summers of Filer. Mr. and Mrs. H. B. Beatty and Mr. McHaffey spoke of the work of Mr. and Mrs. Cheek in the church and community. As a token of their appreciation a picture of the old church and a silver berry spoon were given to Mr. and Mrs. Cheek. A supper was served at the close of the evening's entertainment.

To "finance" a "To Let" advertisement campaign you need only set aside for perhaps few days—a part of your pocket money.

Mrs. Wilbur Bolpus of Buhl came here Wednesday evening to visit her parents, Mr. and Mrs. T. P. Warner.

AGE OF HORSE IS NOT PASSED IN TWIN FALLS

Residents of Suburban Districts Turn to Old Dobbin to Negotiate Roads Impassable With Their Cars

Usefulness of the horse in the Twin Falls country cannot be wholly passed, and an adequate system of hard surfaced roads is built.

With roads from Twin Falls in every direction practically prohibiting other than horse-drawn traffic through their mostly double, the automobiles remain in the garages at many suburban homes, while Dobbin takes his place once more between the shafts of the buggy or buckboard kept only for use in traveling the roads of the Twin Falls country in the winter and early spring seasons.

More horse-drawn vehicles have appeared on the streets of Twin Falls in the last two weeks than have entered the city during a period of several months preceding.

A farmer residing within two miles of the city drove a horse and buggy into Twin Falls this day, leaving a powerful automobile at home in the garage. He said that he was afraid to attempt the trip in the car, because he had to get back home the same day.

Officer in Straits

Deputy Sheriff P. O. Herriman was called upon Wednesday to serve some papers in a civil case out at a distance of some six miles from Twin Falls. He interviewed a number of the owners of auto livery services, meeting with flat refusals in all but one instance among them to attempt the trip under any consideration. One driver said that he would attempt the trip provided he were assured of payment of what the trip was worth. In explanation, he said that the price might be the regular fare, and it might be the price of a new car.

The officer finally secured a team and buggy and drove out through mud holes, spending the greater part of the afternoon in the service of the papers.

All for Road Bonds

Out of 50 farmers interviewed during the past week not one has expressed opposition to the \$2,500,000 road bond issue to be voted upon March 18. On the contrary unanimity of opinion in favor of every possible move to better road conditions has been marked.

ROCK CREEK

(Special to The News)

ROCK CREEK—Monday evening while Forrest Edminister, who is renting the Ashdown ranch, was away for a load of hay, the barn caught fire and had gained such a headway that it was discovered that it was impossible to save the building. Several of the neighbors living at a distance, saw smoke and also flames but thought it was burning away and paid no attention to it until the barn was wrapped in flames. Ed Owens saw and realized the trouble and hurried to the assistance of Mr. Edminister, who had also arrived at the time the fire broke out with his hay, they succeeded in saving his car, a set of harness and eight sacks of wheat, but the barn was a total loss. It is not known how the fire originated but the popular belief is that a spark from his pipe had been smoldering in the barn before he left and a puff of wind had fanned it to a blaze.

The Stock Growers' association met at the hall Tuesday for their regular spring meeting. At this meeting all questions pertaining to the coming roundup are settled and other business disposed of. As there was only a small attendance the old officers will hold over. H. P. Larsen being elected as director to fill the place of one absent. H. P. Larsen and George D. Crayth left Tuesday evening for Burley on business of the association.

Among those who attended the piano recital at Twin Falls Monday evening were Mr. and Mrs. Bernard Stricker, Mr. and Mrs. L. M. Van Eaton, Mrs. C. J. Demore, Miss Gladys Stricker and Hollis Stricker. They found that the roads grow worse as they approach Twin Falls and the last few miles were almost impassable for a car. The roads around Rock Creek are now fine and hard except the one running north and south through the Broken Creek canyon, and the people had no idea what they were to encounter before reaching their destination.

EQUITY BOOSTS CAPITAL

NAMPAA, Idaho—The capitalization of the Farmers' Society of Equity of Nampa was increased from \$20,000 to \$100,000 in amendments to their articles of incorporation filed with the county clerk at Caldwell, February 20. The name of the company was also changed in the articles of incorporation from the Farmers' Society of Equity to the Idaho Equity Exchange. Directors named in the past have been chosen annually will from now on be elected for a term of three years and four of them elected each year.

Work has already commenced on the Equity's new building on Ninth avenue and First street which will cost in the neighborhood of \$25,000 and will be finished in time to handle the summer and fall business.

Plans of the Equity's new 100-barrel flour mill, which will cost \$50,000, are said to be progressing rapidly and it is believed that actual construction of the mill will soon start.

We are again making stockfoot. The Twin Falls Flour Mills. (Adv.)

RED CROSS TREASURER REPORTS FOR FEBRUARY

Financial Statement Shows Twin Falls County Chapter With Balance of \$14,000 After Spending \$2,172.95

Having authorized expenditures during the month of February in the total sum of \$3172.95, the Twin Falls County Red Cross chapter entered upon the month of March with a balance on hand of \$14,051.70, as against \$10,859.08 on hand February 1, according to the report of Treasurer H. R. Grant just issued.

The largest item among the expenditures for the month was \$1277.19 for materials and supplies purchased. There was expended by the home service section for relief \$184.39, and for expenses \$180.10. Toward the expense of maintaining the emergency influenza hospital at Kimberly there were contributed \$437.74.

Contributions and gifts to the chapter during the month amounted to \$173.05.

Excellent hog feed for sale. The Twin Falls Flour Mills. (Adv.)

New Vegetable Wax From Ecuador

From prehistoric times the Indians of Ecuador have utilized a wax found on certain species of tall palms for making candles, says the Scientific American. This wax occurs on the tree trunks in granular form, each tree furnishing about fifty pounds. The trees grow in great numbers on the mountains along the coast. Samples of this wax were sent to France and Germany, from which countries favorable reports and an offer of 120 cents a pound were received.

Value of Happiness

Make persons happy and there will not be half the quarrelling or a tenth part of the wickedness there is.

BOARD APPROVES CHARGE OVER SETTLER'S PROTEST

Holds Assessment Levied By Salmon River Canal Co. Valid for Present

The maintenance charge for 1919 of \$1.25 per acre assessed by the Salmon River Canal company was approved Tuesday by the state land board over the protest of members of the Salmon River Settlers' association.

The petitioners objecting to the including of costs of alteration and repair work at the check basin were denied by the board, and this item approved as a proper maintenance charge. This item, however, is not to be made definite and final, until further determination is made during the coming irrigation season by measurement of the water losses in the check basin. If it is then found that it is not a proper construction item, and not a proper maintenance charge, the amount expended upon the check basin is to be credited as payment on water contracts.

JENNEMA CREAMERY TO BUILD

NAMPAA—The Jenness Creamery company of Nampa will build a modern creamery here this spring at a cost of \$20,000, exclusive of the cost of machinery. The building will be located on Ninth avenue and First street and will be built as soon as the plans are completed by Lee E. Cooke, architect.

HOLSTEIN COW BRINGS \$314

MERIDIAN, Idaho—An extra fine Holstein cow brought the handsome price of \$314 at the sale held at the ranch of Col. Elias Marsters, near here last week. Another cow of the same class brought \$300 and the herd commanded an average of \$228. The sale was conducted by Leo Marsters.

ALBERTA LANDS 530,000 Dry and Irrigable Acres

Lands are located in Southern Alberta and are among the best in that famous district, 200,000 acres will be under irrigation, the balance is being sold for grain growing.

The lands are being put on the market for the first time and the company is looking for bona fide settlers. All lands within a radius of ten miles or less to shipping point.

Flat lands are being sold at \$15 to \$30 per acre—irrigable lands \$30 to \$60 per acre, which includes water right—operation and maintenance charge \$1.50 per irrigable acre per year—easy payments and low interest. Alfalfa, grain, field peas, potatoes and root crops can be successfully grown.

Write direct to the company for full particulars and pamphlets.

Canada Land & Irrigation Company, Ltd.

MEDICINE HAT, ALBERTA, CANADA.

NEW CHAIRMAN NAMED BY RED CROSS BRANCH

Miss Jane Maxwell is Elected to Succeed Mrs. G. D. Aiken as Official of Twin Falls Organization

Miss Jane Maxwell is vice chairman of the Twin Falls branch of the American Red Cross, being named at the regular monthly board meeting to succeed in that position, Mrs. George D. Aiken, resigned. At the same meeting, Mrs. V. H. Ormsby was appointed chairman of the knitting committee. Reports of auxiliaries presented at this meeting showed increased activity generally with the passing of the influenza epidemic, Berger being the banner auxiliary.

Excellent hog feed for sale. The Twin Falls Flour Mills. (Adv.)

"Listening In" in Egypt

Mohammedans in Egypt are "listening in." The attendance is steadily increasing, and one Sunday four Mohammedan professors were at the preaching service and 15 Mohammedan boys came to the Sunday school for the first time. Their fathers stood outside the window to ascertain what the teaching might be. A number of them were thus listening out of doors.—The Christian Herald.

To "finance" a "To Let" advertising campaign you need only not ask for perhaps a few days—a part of your pocket money.

Local Brevities

On Business Trip—L. T. Wright went to Boise on business last night.

Banker in Boise—Carl J. Hahn left last night for Boise where he will be several days looking after business.

PEERLESS

Two-Power-Range

EIGHT

Modern Lightness—With Stability

THERE is much to be said for the closed car bodies that set the first high standards of coach building applied to motor cars.

Peerless leadership in Closed Car construction was established in the early days of the industry.

There is much to be said for newer methods—where they work real improvement.

The Peerless Closed Cars of today embody those fundamental principles developed by the old master coach builders, combined with all that constitutes genuine improvement in modern methods.

The result—modern lightness with stability.

Mounted on the famous Peerless light chassis, with its two separ-

ate and distinct ranges of power, the Peerless Closed Cars of today maintain their leadership.

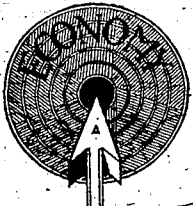

In substantial comfort they are not to be surpassed.

In operation they give the most distinctive performance yet attained by motor cars.

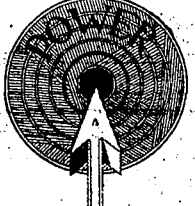

The "loafing" range offers the acme of soft, smooth, efficient, economical application of power.

The "sporting" range releases an abundance of power for emergencies and speed which few cars now possess.

Let us show you its remarkable range of performance—those contrasts of opposite virtues which have made the Peerless Two-Power-Range the distinctive motor car of the day.

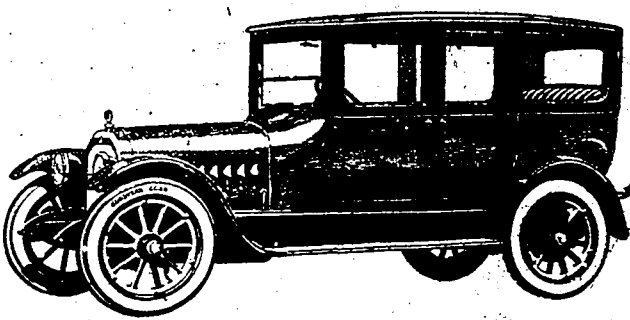

The Loafing Range

The Sporting Range

7 passenger Touring \$2750 4 passenger Roadster \$2750 4 passenger Coupe \$3120
7 passenger Sedan \$3120 7 passenger Sedan Limousine \$3720

Cultivate Your Aspirations.

Very few people are satisfied with the work they are doing. Many of them have aspirations for something better, more congenial. If you have any natural leaning toward a higher grade of work, say Physical Culture Magazine, don't strive to put it out of your mind, but try to keep it very much in your mind and may indicate a field for which you are especially gifted. If you have any ambitions, cultivate them. It is only those who dare to follow the guiding star of destiny by encouraging and cultivating these aspirations who ultimately move forward to their realization.

Self-Pity; Self-Praise.

Half the world is gnawed by the beast Self Pity and the other half is bitten by the beast Self Praise. It is better to chain both these animals and go out and work than to succumb about self. All this concerns about self is the uniformity which dogs the man who has not related himself to the one universal law.

FARMERS ATTENTION!

TRUST BLDG.

Use Language Carefully.

Men should not say more about their neighbors in their absence than they would say to them if they were present. This is safe from a standpoint of future tranquility and it is sound ethics. The same holds true with writing communications for publication. Whatever cannot be said over your signature should not be said at all—Exchange.

Where Happiness is Found.
Happiness says that happiness is all good—epigrams.
Why for the first time we had happiness where we look for it—Exchange.

Lumber Preservative.

It has recently been discovered that gum lumber when immersed in pure gummy spirits of turpentine lasts many years longer when exposed to open air. The usual method of treating the lumber is to give it three coatings and allow it to thoroughly dry after each one.

MAP OF TWIN FALLS COUNTY SHOWING PUBLIC HIGHWAYS IN TWIN FALLS HIGHWAY DISTRICT
Scale 1" = 3 MI. January, 1919
CITY POWER BUILDING
TWIN FALLS - IDAHO

The commissioners of the Highway District have been working over the road proposition and particularly as to the location of the roads to be improved for the past month, and the map showing the classification and location of the roads is the result of their work.—adv.

THE two foremost questions regarding the proposed highway bond issue in everyone's mind are "Who is going to spend the money?" and "How much will this bond issue cost me individually?"

Answering the first question, the board of highway commissioners consists of C. B. Chamberlain, of Twin Falls, A. E. Larson, of Hollister, and J. M. Steelsmith of Kimberly, who were appointed by Governor Alexander, and serve for four years, without pay, except that they are allowed their expenses while coming to meetings for which Mr. Steelsmith and Mr. Larson put in a bill of 10 cents per mile. To date, the total warrants charged to the commissioners' expense account do not amount to \$40.00 in all. Stuart H. Taylor, secretary-treasurer, in charge of records and finance, draws \$50.00 per month for his services. The road director, W. L. Johnson, in charge of all construction and maintenance of roads and bridges, gets a salary of \$200.00 per month. The office force at present consists of one office man at \$125.00 per month, a draughtsman at \$35.00 per

week, and an engineer at \$35.00 per week. A large percentage of the engineering work now being done, of course, is in connection with the bond issue, and the laying out of a permanent system of highways. If the bonds do not carry, this force will be materially reduced. If the bonds carry, it will, of course, be necessary to have some additional office help, and a number of engineers, foremen, inspectors, etc.

The money received by the highway district is divided among all banks within the highway district and will be apportioned to such banks on a basis of valuation of the particular section, as nearly as possible. The Twin Falls banks may have a larger share than this because they will be used for checking accounts. All banks who receive money of the highway district will pay 2 1/2 per cent interest on daily balances in such funds.

A strict account is kept of the disbursements—all money spent being divided into 10 principal accounts known as equipment and plant, salaries, com-

missioners expenses, office expense, including engineering and legal expenses, road maintenance, road construction, bridge maintenance, bridge construction, autos and trucks and state highway. These heads are again divided as to labor and materials used so that exact information can be given at any time as to where the money goes and what for. This same plan of classification will be followed out with the bond money.

Answering the second question as to individual cost:

The Twin Falls highway district includes in its boundaries 190,942 acres of tillable land. If the whole bond issue was charged directly to the land it would only amount to \$6.50 per acre. This would be further reduced by the property in the towns of the district which is not included in the acreage. Are not good roads worth \$6.50 per acre to any farmer on the tract?

When taking into consideration the assessed valuation of the town and villages in the Twin Falls highway district which amounts to about \$5,000,000, or one-third of the total assessed valuation of the district, this cost per acre will be reduced to about \$4.50.

Those bonds will probably draw 5 or 5 1/2 per cent interest per annum. Figuring 5 1/2 per cent on annual interest charge will be \$68,700.00. The county assessor figures that the Twin Falls highway district's share of the auto tax collected in the county will be \$33,000. This applied to this interest charge (which would be proper) would leave a balance of \$35,700 to be raised by taxes. To raise this amount would mean a levy of approximately 2 1/2 mills. This would mean a tax of \$2.50 per \$1,000 of your assessed valuation. If the whole amount of interest was raised by taxation, a 5 mill levy would more than cover.

Our assessed valuation this year is \$1,000,000 more than last year and there is no reason why it will not increase in the same proportion each future year. This increased valuation would bring in an enough more each year so the 5 mill levy for interest could easily be

Though, too, with hard surfaced roads, our maintenance charge would decrease by a large percentage. As a result of the installation of good roads, the levy for general road purpose will be cut, as not nearly so much money will be needed for upkeep.

At the end of ten years, the district will have to levy for a sinking fund to retire these bonds at the expiration of twenty years from date of issue. By that time, our auto license tax, which in all probability will increase each year, together with a levy not more than is now required to meet interest on bonds should care for this sinking fund, as the road improvements contemplated will no doubt increase land values and consequently assessed valuation to a point which ought to yield the necessary revenue. There is no doubt but that during the next ten years a considerable number of additional acres in the district will be under cultivation, and of course we will benefit by the increased valuation of such lands.

State and Federal Aid to Twin Falls Highway District

One-half the cost of the construction and maintenance of the east and west state highway will be borne by the state and federal government.

The highway commission hopes to have the north and south highway designated, extending from the present east and west highways to the Nevada state line, and to receive state and federal aid on this road to an amount equal to 50 per cent of the cost of construction and maintenance.

Under the apportionment of state highway funds recently made by the state highway engineer the Twin Falls highway district will receive approximately \$25,000.00 to aid in work on the state highway. This amount is all we will receive from the state direct, and if bonds are voted, the state will be able to secure from the federal government an additional amount equal to one-half of the cost of the construction and improvement on the state highway within this district.

Our assessed valuation this year is \$1,000,000 more than last year and there is no reason why it will not increase in the same proportion each future year. This increased valuation would bring in an enough more each year so the 5 mill levy for interest could easily be
