# YOUNG WOMAN ENTERS RING WITH BOXERS

### Husky Girl Takes Training in Art of Handling Her Fists to Best Advantage; Challenges the Male Fighters.

PHILADELPHIA, March 23.—Women will never attempt to meet the boxing champions from the hunkster sex. It wouldn't be fair to the men.

The United Press had this on no less authority today than Miss Vera Boehm, champion woman lightweight boxer of the world.

"A man wouldn't have a chance in the world in the ring with a woman," she said. "You see, all she has to do would be to use her eyes, and other feminine wiles, and the poor man would be helpless. And the sight of a woman in gymnasium costume might distract his attention."

"Besides," she added, "the innate chivalry of a man would prevent him from hitting a woman, hard—especially if she smiled."

Miss Boehm was asked if she thought women would ever engage in professional boxing contests among themselves.

"No, it wouldn't be interesting from the spectators' point of view," she replied. "Almost any woman, if she has a good hair curling, would give a man a fight. I can say that any one would get any particular enjoyment out of watching a couple of women box. And, most likely, if they got many they would wear out about once and start pulling hair."

All of which appears to dispose of professional boxing for women. But when regarded purely from the standpoint of a science and exercise, Miss Boehm believes boxing is a class by itself. No other exercise, she said, tends to develop the muscles so evenly and accentuate grace, agility and poise. It is particularly beneficial to women, as it brings into play muscles they never knew they possessed. It is hard for them to keep at it for more than two weeks to a month just to be able to assume the proper boxing pose.

Miss Boehm became a boxer by accident. She was born in Baltimore, February 15, 1895. Six years ago, while earning her living as a trained nurse in New York, she became a victim of a nervous and physical breakdown. After vainly trying every other method to restore her health she consulted a physical culture expert. The latter happened to be a former professional boxer. As a part of her training, he induced her to take up the art. She became interested, then an addict. In a short time she learned all he could teach her.

Jim Corbett, former heavyweight champion of the world, frequently patronized Miss Boehm's gymnasium. Interested in her efforts to perfect herself in his old profession and taught her from his store of ring lore. Eventually Miss Boehm became a professional athletic director, teaching women all forms of physical exercise, but always stressing the importance of the included mitt.

Boehm has boxed private exhibitions in gymnasiums with two top-notch lightweight, Johnny Dundee and Charley White. They do any business entitled to a draw. Dundee says she "sure slings a wicked left." That's Miss Boehm's favorite punch—a straight left—and her speed and long reach enable her to land it often. Her next best blow is a right uppercut.

Just now Miss Boehm is spending a few minutes each night playing the role of athletic director in a popular musical comedy. It is her first theatrical venture. She was interviewed while standing in the wings, waiting her cue to go on. She wears a gymnasium costume, the reporter agreed that she might distract a male opponent's attention.

## PREDATORY ANIMALS ARE RESPONSIBLE FOR LOSSES

### Forest Service Explains Reasons for Its Campaign to Clean Up Range

OGDEN, Utah, March 23.—An explanation of why the federal government is expending funds in the control of livestock disease in the eradication of poisonous plants from national forest ranges, and in the extermination of predatory animals throughout the western states, is given in some statistics recently compiled by the Ogden office of the forest service. During the fiscal year which ended June 30, 1917, 3187 cattle and horses, worth \$200,000 and 40,223 sheep worth \$233,000 were lost through predatory animals, disease, poisonous plants and other miscellaneous causes within the national forests of the intermountain district. The fact that this loss, amounting to three-quarters of a million dollars in a single year occurred upon grazing lands which admittedly are superior to those comprising the open public ranges, gives some conception of the hazards attending the production of livestock in the west.

Lightning Also a Factor.

Predatory animals took the heaviest toll from the range flocks and herds, killing 273 cattle and horses, worth \$12,650, and 51,818 sheep worth \$289,560. The next most destructive agency was the poisonous plant which killed 2130 cattle and horses worth \$100,050, and 7512 sheep worth \$95,956. Disease accounted for a loss of 368 cattle and horses, worth \$18,400, and 503 sheep worth \$660. Miscellaneous causes including lightning, floods, hogs, etc., accounted for the remaining 1407 cattle and horses worth \$70,350 and 10,298 sheep worth \$133,874. Lightning was particularly destructive, causing heavy losses due to the contraction of stock at points struck by lightning.

## LOAN CONFERENCE IS TO BE LARGELY ATTENDED

### Allotment of County Quotas One of Most Important Matters

BOISE, March 23.—The conference here Saturday between county chairman and the members of the state committee of the Liberty Loan is going to be well attended in the opinion of Montie B. Gwinn, state chairman. Mr. Gwinn has been advised by the majority of the chairmen that they can be present.

The allotment of county apportionments promises to be the most important matter to come before the conference, but other matters of concern to the chairmen are to be taken up and threshed over. The morning session is to be given over to these problems and to talks by Senator John F. Nugent, a member of the senate finance committee, and a speaker from the coast.

A luncheon will be tendered the visitors at the Owyhee hotel at the noon hour. Short talks will be made at that time by Gov. D. W. Davis, Rev. Wilkie Martin and former service men who have been discharged from the army. The afternoon will be given over to the discussion of the county apportionments.

New Chairmen Named.

New chairmen to replace those who have resigned since the last drive and for the new counties recently created by the legislature are announced by the state committee as follows:

Ezra P. Monson, Franklin, Franklin county; D. T. Murphy, Dubois, Clark county; John J. Quinn, Idaho City, for Boise county; William Wallin, Pocatello, for Blaine county; W. F. Morgan, Caldwell, for Latah county; E. P. Armstrong, Halley, for Blaine county; and Anderson, Nezperce, for Lewis county.

# WOULD SPREAD DOCTRINES IN ALL COUNTRIES

### Lenine Urges Hungary to Invade Austria With Bolshevik Army—Will Send Aid From Forces of His Own Crowd

BY FRANK J. TAYLOR

BERLIN, March 27.—(delayed)—Premier Lenine has wired the Hungarian soviet government urging that it send a Bolsheviki army against Vienna, according to a dispatch received from Budapest to a dispatch received from Budapest to Vienna.

Lenine is expected to finance a Hungarian expedition against Austria to the extent of \$20,000,000.

Dismissing the Spartacists planned to arm several thousand Russians in little time tomorrow, American rushed the prisoners aboard trains tonight and are scattering them in other prison camps throughout Germany, in charge of Americans. This action is believed to have nipped a Bolsheviki plot to follow Hungary in declaring a soviet republic.

Threatens Revolt.

Spartacists in Spandau (nine miles west of Berlin) who had been threatening to revolt, took no action following the removal of the Russians.

"The dispatch does not indicate what Americans participated in averting the alleged Spartacist plot."

Radicals in other parts of Germany have begun to take matters into their own hands. In Wurtemberg they have declared a general strike to force the government to accept socialization of industry. Leipzig is said to be under the dictatorship of five committees. The Bavarian government has ordered factories in that state to begin production on a communistic basis. Soviets in Saxony have ordered the factories there to begin communizing, the same as in Bavaria.

## SOVIET REVOLUTION IS REPORTED AS GAINING

### Trotzky Announces Trouble Is Spreading Rapidly Throughout Galicia

COPENHAGEN, March 28.—War Minister Trotzky has announced in a wireless statement that the soviet revolution in Galicia is gaining headway, a Vienna dispatch reported today.

The uprising started in Drohobycz (forty miles southwest of Lemberg) last week, and is spreading rapidly to the surrounding districts. Polish troops in Lemberg are alleged to have joined the revolution and declared a general strike.

# JAPS VALUE GOOD FEELING OF YANKS

TOKIO, Feb. 20 (By Mail).—The Japanese people beyond a doubt, consider the more friendly feeling which has grown up between their country and America as one of the most important and most welcome of all the by-products of the war. Accordingly each bit of evidence of better feeling and understanding on the part of citizens of the United States is regarded with no little satisfaction. The following, from an editorial in the Asahi, one of the most influential newspapers of the Japanese capital, is a sample:

"According to a report recently received from Honolulu, a judicial authority in Hawaii openly declared in the course of his explanation regarding the new American naturalization law, that the Japanese subjects enlisted in the American army should be legally granted the right to naturalize and become American citizens. The fact is an indication of a great change in the public opinion of America, which was formerly antagonistic regarding the naturalization of Japanese."

"Another sign of pro-Japanese sentiment in America is the reported proposition to revise the anti-land law of California. According to a report from San Francisco, a bill is to be presented shortly before the California legislature regarding the extension of the law to the Japanese. The farmers in the state, who since the promulgation of the present anti-land law in 1913, have been suffering from great disadvantages due to the extremely short tenure of their lands. In fact, until recently, no one could imagine

that such a radical change of public sentiment could possibly take place in California, which was popularly regarded as the hotbed of the anti-Japanese propaganda in the United States."

"Japan is now going to propose as one of her peace terms the recognition of the equality of races, and war-exceptionally pleased that the proposition may possibly be accepted by the allied leaders, especially by President Wilson and other American delegates who are exerting themselves for the establishment of a league of nations based upon the spirit of righteousness and universal brotherhood. The growth of friendly feeling toward the Japanese in America is welcome, as with their backs to the leaders of Japan may be able to act faithfully and fearlessly in accordance with their conviction and faith."

THE RIGHT WAY

The organization of the Idaho Reclamation Association formed for the purpose of securing government recognition of the claims of Idaho to government reclamation of lands in the interests of returned soldiers constitutes a distinct step in the right direction.

There is no gainsaying the fact that in handling of a matter as far reaching as this, individual efforts amount to very little. The solidification of the sentiment of all Idaho back of the proposition, on the other hand, is a very real and tangible thing.

To date, Secretary Lane has proposed that a fund amounting to one hundred million dollars be appropriated with which the work of reclaiming now useless lands may be undertaken.

In this direction Idaho offers a fertile field. The Bruneau project is perhaps the principal body of land which suggests itself for reclamation, but there are others well worthy of consideration.

COMMENT, BY AND LARGE

Pertinent paragraphs on current events, official acts and the general trend of events, at home and abroad. Edited by Captain C. L. Longley.

DEADLY DANGER OF DELAY.

Who has failed to feel a thrill of an eagerness, or a moment of depression upon reading the head lines carried over the European news despatches during the past few days? "Huns May Yet Negotiate Peace," "Germany and Bolsheviks May Defeat Peace Plans," "While Conference Talks Soviet Leaders Act," "Such are the ominous incidents that threaten peace from the special part of the world where the 'Peace of the World' was to have been dictated and enforced by a distinguished gathering known as the 'Peace Conference,' and which has now been assembling, talking and adjourning in the city of Paris from day to day to something over three months.

It is also made very evident that grave concern over the situation is being felt in France and England, and has even penetrated the remote chambers of the conference itself. The London Post plainly accuses the conference of delaying peace "while its idealists on following the will-o-the-wisp of 'peace at any price'."

The dangers attendant upon delay on the part of the peace conference have been pointed out in the United States. Months ago Senator Knox and other able, experienced and far-seeing American statesmen (no one of whom, however, is a member of the conference) called it to public attention, and submitted the self-evident claim that the first and most important of these is "the necessity of making peace—that is, following the requirements and inhibitions of the armistice already agreed upon between France and Germany."

Does anyone think it Manager, I expect that at least 1000 persons will respond favorably to the foregoing stirring appeal. If so, that one is acquainted with the patriotism, the civic pride and the enthusiasm of our people.

# PURCHASERS OF ROAD BONDS ASK FOR CONCESSION

### Buyers of Highway District Issue Asks Commissioners to Retire Securities as Due Over Nine Years Period

Under the terms of a contract submitted late Thursday, the commissioners of the Twin Falls highway district by the purchasers of the district's issue of \$1,250,000 worth of bonds for carrying out an extensive road building program, \$500,000 worth of bonds will be delivered during the period beginning April 10 and ending May 1, and the remainder of the bonds in blocks of \$250,000 will be delivered on the first day of each month thereafter, so that delivery will be completed by August 1.

Delivery is to be made to the purchasers at The Continental and Commercial National bank of Chicago.

The bonds will mature serially, \$125,000 becoming due on March 15 of each year from 1930 until 1939, and the district agrees to retire the bonds as they become due, surrendering the right of prior payments, if a provision of the contract to this effect is approved by Charles E. Wood of the firm of Wood & Oakley, attorneys Chicago.

In the event of the refusal of Wood to approve this provision, retirement of any part or all of the issue may be made at any time by the district.

### Purchasers Privileged

In the event the serial bonds proposition is approved, the purchasers have the privilege of taking up and paying for bonds of this issue in any amount of maturity by paying in addition to the contract price interest at the rate of one per cent per annum from the date of taking up until the date of the maturity of the delivery period.

If the bonds remain lodged in the bank after the maturity of the delivery period, the purchasers agree to pay to the district one-half of one per cent interest per annum on the bonds so lodged from the date of the maturity of the delivery period to the date upon which they are taken up by the purchasers.

The purchasers are not required to take up and pay for bonds until such time as the district may require such bonds to be taken up, subject to the foregoing provisions.

## Attended The Methodist Church Last Sunday Evening

The Pleasant Sunday Evenings at the Methodist Church are increasing in interest. Last Sunday the auditorium and annex were both filled to the doors. The Missionary Program was most impressively given and will not soon be forgotten.

Next Sunday evening will be devoted primarily to music. At 7 o'clock the orchestra will render appropriate selections. It will be followed by a varied program by a choir which will be worth coming miles to hear.

Dr. Terney, President of Gooding College, will give a short talk—he is a most forceful speaker.

If you have not yet attended these services, plan to be there Sunday evening and you will understand why the crowds are filling the church.

# COLLEGE FUND WORKERS MEETING WITH SUCCESS

## Dr. W. H. Ewing of Boise Arrives to Assist in Campaign Here

Dr. William H. Ewing, Boise district superintendent of the Methodist Episcopal church, arrived here Thursday, having cancelled his quarterly conference date in the western part of the state, in order to assist in the campaign here to raise the \$23,000, three years' old pledge of the Twin Falls Methodist church for the Gooding college, and to take part in a similar campaign to take place next week in Blackfoot.

Without exception the workers engaged in the drive here which opened Thursday report meeting with many friends of Christian education who are ready to provide for Gooding college they plan for their philanthropic work and for the upbuilding of this part of the state.

Yesterday afternoon Dr. Ewing, with Rev. Clyde L. Walker of Union, Oregon, and Rev. Elmer Grant Keith of Twin Falls, called on a number of people on the Kimberly road. The Kimberly Methodist church made its contribution by lending its pastor, Rev. Mr. Mignon with his automobile to pilot Rev. John Ross of Kuna, around in the north and east sections of the city, while Rev. W. J. Douglass of Gooding, Rev. H. J. Richards of American Falls, Secretary J. Wesley Miller and President Charles Wesley Tenney worked in closer in the business section.

This evening President Tenney will go to Pocatello where Gooding college will be represented in the southern Idaho declamation contest with the Idaho Technical Institute, Albion state normal and the college of Idaho. He will return to Twin Falls to speak in the Methodist church on Sunday evening on "Life Service." At that time it is planned to make a formal announcement of the result of the drive here.

Headquarters for the drive are open in the LEAGUE PERRINE.

CHICAGO, March 28—If club owners in the western league will vote to reinstate E. W. Dickerson, former president of the Chicago Cubs, they will head of the circuit, will not stand in the way.

# DECLARES NEWSPAPER IS NOW NONPARTISAN

## Long Delayed Deal Between Organs of County Reported Finally Consummated

The deal between the Twin Falls Times and the Non-Partisan Journal of Filer has finally been consummated, says the Twin Falls Chronicle of this week. The Times has taken over the subscription list of the Non-Partisan Journal under the merger.

The plant, for which the Times had no use, has been divided. Part of it has been sold to a gentleman from Missouri, who will run a community local paper in Filer. The rest of the plant will be disposed of to other parties and may go to Buhl where a new paper is to be launched.

Thus is completed the deal by which the Non-Partisan league in the county unites its full strength behind one newspaper, and disposes of the weekly organ in Filer.

Some weeks ago The Chronicle published a statement issued to the shareholders of the company owning the Non-Partisan Journal, in which the merger with the Twin Falls Times was announced. Following that publication—denial was made by The Times, but verification now comes in the actual merger. The Times taking over the subscription list of the Journal. What other support the league is to give to The Times is not at this time made public.
