

INTEREST RATE ON BOND ISSUE IS INDICATED

War Finance Corporation Gets Higher Rate Than Any of Liberty Loans Which Predicts Trend of Campaign

WASHINGTON, April 1.—Announcement of five per cent interest rate on the \$200,000,000 war finance corporation bond issue caused much financial speculation today as to its effect on the Victory loan. This rate is three-quarters per cent higher than any Liberty bonds have carried. It is equalled only by farm loan board loans. A few officials thought the five per cent rate might be indicative of the interest to be offered with the Victory issue.

Indicates Loan Rate Opinion was freely expressed in official quarters that coming just before the fifth grand government loan, the Liberty corporation interest rate hardly be placed three-quarters per cent above that of the popular issue without disquieting effects. These officials hold that the war finance corporation's \$200,000,000 in one year "fives" will prove so attractive as to absorb much ready money that otherwise would have gone for Victory bonds. They point out that the market will be more settled a year from now when the war finance paper matures. Hence the "safe investor" will take on all these bonds that he can carry.

Aid to Railroads Railroad administration officials said the money obtained through sale of the war finance bonds would carry the roads to May 15 without outside financing. The finance corporation already has begun to receive subscriptions on the bonds issued last night.

CALIFORNIA UNITS REACH UNITED STATES

San Francisco Mayor and Friends Go Out to Welcome Home Their Heroes NEW YORK, April 1.—The transport Kentuckian, with 1,300 officers and men from St. Francis, nearly 1,600 of whom are from San Francisco or adjacent points arrived here this afternoon. Mayor James Rolph, Jr., of San Francisco, and a large delegation of California residents, went down the bay on the municipal tug patrol to meet the transport and extend a greeting to the returning heroes.

SEATTLE OWNS CITY RAILWAY

Traction System Is Now Possession of Municipality Which Will Operate It SEATTLE, Wash., April 1.—The city of Seattle is today owner and operator of the city trolley under the direction of the city board of directors. Final details of the \$15,000,000 purchase were cleared up last night. The city began operation at 11 p. m.

Express service will cut down the time from the center of the city to practically all the outlying residential districts in many cases as much as fifteen minutes. It will be the greatest improvement in the operation of Seattle's traction lines.

This, according to Thomas F. Murray, superintendent of public utilities, together with the installation of safety devices in the street trolleys to make possible speedier loading, will be the first important changes in operation of the street railway systems. At 11 o'clock last night, according to a final agreement between the city fathers and officers of the Pugen Sound Traction, Light and Power company, all the physical equipment of the street railway in the city became the property of the city of Seattle for a consideration of \$15,000,000. Every street car in the city is being operated by the city today under the direction of Thomas F. Murray, who has been appointed in charge of all traction lines.

California Mayor Receives Letter Threatening Life

Stockton Executive Is Made Object of Third Message of This Sort Recently STOCKTON, Calif., April 1.—Mayor Oullahan today received a threat message written on heavy white paper and in pencil. The envelope bore a Stockton postmark and was mailed yesterday.

Mayor Oullahan attaches no importance to the letter, which he said would be the work of some misguided person. He has turned the letter over to the police.

Territorial Claims Are Being Discussed

Berne, April 1.—The German foreign office is carefully considering the allied territorial claims, together with the points where the indemnities claimed can be reconciled with President Wilson's fourteen points, a Berlin dispatch reported today. The German financial commission, which will go to Versailles, it was announced, will be fully occupied with the study of the allied financial status and discuss the propositions regarding exportation of German merchandise.

Cannot Bar Japanese From American Army

WASHINGTON, April 1.—Japanese cannot be barred from the American army, according to a ruling of the judge advocate general, made public today. Taking of the oath, however, does not make a Japanese citizen and he cannot be naturalized in the United States, even though he may enlist in time of war, the opinion stated. The case arose when a recruiting officer refused to administer the oath of allegiance to a Japanese. It was held that there is no statute providing for exclusion of the Japanese and that he should not be barred.

CAPTURES MEMBER OF COUNTERFEIT GANG

Police Believe Man Arrested for Wearing Navy Suit Unlawfully Is One of Famous Band SAN FRANCISCO, April 1.—Federal authorities today believe that in the arrest of La Verne Conley here they have captured a member of the famous "Gouffar" gang, a "Yard counterfeiter." They first investigated this theory when a tiny tattoo mark was found on his thumb, a sign say federal sleuths, worn by all of the gang.

FLYER COMPETES WITH FORD FOR INVENTION

Real Flier of Air Is Designed and Flown by American Aviator SAN FRANCISCO, April 1.—Harry Christofferson, aviator and designer, claims to have created a real flier of the type which he has already designed and flown, costs about \$400. With all equipment the plane weighs 250 pounds. The wing spread is 25 feet.

Christofferson flew his machine for the first time yesterday. It will make 110 to 120 miles an hour in the air, which, according to Christofferson, is the speed for beginners, enabling them to make practice flights without coming to harm. A motorcycle engine is used.

FREE PACKERS FROM CONTROL OF FOOD BOARD

President Wilson Signs Proclamation in Paris, Releasing Meat Industry From Federal Licensing Restrictions

WASHINGTON, April 1.—The packers were freed from the federal control system by a presidential proclamation today. The proclamation provides that all persons, firms, corporations or associations engaged in importing, manufacturing, distributing, packing, canning or curing beef, pork, mutton or lamb have been released from license by the food administration. The license system by which the packers' business in foodstuffs could be discontinued by the food administration it was possible to prevent huge war profits. Complete freedom will be restored to the packers and the food administration continued throughout the war, officials said, and it was never necessary to use extremely severe measures of the license system in connection with many of the large concerns.

Control Packers Congressional authority for the license system was given in the Lever act. By means of the license system of profits, this act provided that through the license system the packers could be controlled in the following respects: Hoarding, unfair practices, extortionate charges, refusal to receive shipments except for good cause and wasteful practices.

Food administration officials today extended the license system. In their opinion, it will have little effect on the food market and will not bring increased prices. The action today removed all the food regulations by the food administration. The enforcement division of the food administration is still empowered to inflict penalties for violations of the few remaining restrictions.

Wants Capital of League of Nations to Be in Brussels

King Albert of Belgium Reaches Paris by Way of Air Route to Make Petition PARIS, April 1.—King Albert arrived here from Brussels in an airplane today. The purpose of personally appealing to the peace conference to make Brussels the seat of the league of nations. COMBAT BOLSHEVISM BY FAVORING WORKER

Vice President of Shipping Board Says Laborer Must Have Active Interest INDIANAPOLIS, Ind., April 1.—Howard Conoley, vice-president of the shipping board, told 550 business men of Indianapolis today that the American laborer must be active in the United States can be headed off by giving the workers an active interest in the industries where they are employed. Conoley spoke before a luncheon of the National Metal Trades association. He said that Bolshevism in the United States reached its peak in the recent Seattle strike and that the intelligentsia of the American working man is too powerful for the Russian idea to combat. Conoley advised employers to cease thinking in terms of pay and hours and make an effort to stimulate their interest in the work.

THINK JAPANESE WANT TERRITORY

California Senator Declares Nipponese Are Like Kaiser in Ambition to Conquer SACRAMENTO, Cal., April 1.—"The next war will be fought on the Pacific. The Japanese have that lust of world empire, similar to the Kaiser, to reach out and conquer other lands," U. S. Senator Charles McNary, addressing a joint session of the legislature. Phelan told of the Japanese land laws barring foreigners, and excluding Chinese and Japanese from their lands. "If they do that they cannot come into contact with clean hands and complain of American barring them from this country. They are Japanizing the Pacific coast," said Phelan, "and wherever else they feel it is desirable. They are evading the land laws with corporations and trusts. The result is a landless class, with stupid white men as figure heads."

WAIT ADVICE FROM MEXICO ON LAND SALE

Japanese Are Confident that Concessions in Lower California Are Not in Conflict With Monroe Doctrine

WASHINGTON, April 1—While awaiting official word from Mexico regarding the reported land concession in lower California to Japanese interests, diplomats, officials and members of congress today discussed the situation at length.

Mexican and Japanese diplomats continued to minimize the importance of the alleged Mexican land concession. They insist that the concession is in the action serious danger. Some of the latter who are opposing the proposed league of nations say that the concession would be a violation of the Monroe Doctrine in whatever league may be formed.

Attempts are Malicious

Mexican Ambassador Bonillas, in an interview today, indicated the "tempt" to create ill-feeling between the United States and Mexico through the "Japanese bugaboo" as grounds for malice.

Regarding the report that Mexican land is being confiscated by the government and sold to the Japanese, Bonillas said:

To Till Vacant Land

The negotiations would go through local, state and federal channels and would become publicly known. Much American land in lower California has been unattended for many years. Permission to till all vacant lands has been given residents of the state by executive order. This order in no way affects the title of the owner to the land, but some evidently believe that it means confiscation. The Mexican embassy has received no confirmation of the Mexico City announcement of acquisition of the Japanese corporations for agricultural concessions in lower California.

Become Citizens

Ambassador Bonillas, however, saw no menace to the Monroe Doctrine or defiance to the United States in such proposals. He pointed out that the Mexican constitution permits Japanese immigrants to acquire the Mexican property as do all the other Latin American republics.

As showing how groundless fears of a Japanese seizure of the California Bay incident in which Japan was reported to have attempted to obtain a coaling station in Mexican Pacific waters. The report is based on no other basis in fact than the employment of Japanese fishermen by a Mexican fishing corporation.

The League

Meaningful senate league of nations opponents today declared if the new league reports that these sales or concessions are actually granted or even if they are done out of the way, they will be used as one of the main arguments against the league of nations covenant as submitted by President Wilson.

Senators were very bluntly commenting for direct quotation, pointing out that news from Mexico in the past has often proven inaccurate on closer investigation.

A Sure Way

The argument that is being tentatively prepared, however, runs along the lines that the Monroe Doctrine is now in existence in the only sure way of combatting "peaceful aggressions" on the American continent.

Under international law, Senator Borah, of Idaho, says that Mexico has a right to sell lands in Lower California or anywhere else in Mexico.

Under the league of nations covenant, however, any such sale to the United States would have to go to the league's executive council, or whatever body was set up to decide disputes and with out special request to the Monroe Doctrine there would be absolutely nothing to prevent the council deciding adversely to us.

PEACE CONFERENCE MAY RECEIVE BOLSHEWIKI

Certain Conditions Will Be Demanded Before Recognition of Radicals

LONDON, April 1—The Paris correspondent of the Daily News said today that allied statesmen have submitted a proposition to the Russian soviet government whereby the Bolsheviki would be admitted to the peace conference under certain conditions.

According to the correspondent, the Bolsheviki would be required to cease all propaganda, discontinue their fighting and allow certain parts of Russia the right of self-determination.

Premier Lenin is understood to be agreeable to the people, the correspondent said.

How to Capture Beaver.

An compared with the otter or mink, the beaver is a very slow mover. He crawls from log to log, and he is usually only his webbed hind feet for purposes of swimming. It is easy to capture him in a canoe if you can find him in shallow water. He is a most determined fighter, but clumsy and easy to handle. If he could get hold of you, with his teeth he would almost take a leg off you. He would not take him sharply. The way to seize him is by the tail.

RESUMES PROBE INTO PARDOON OF CRIMINAL

After Recess of Three Days, House Investigation Committee Takes Up Work

DES MOINES, Ia., April 1—The probe into the pardon of Ernest Rathbun, sentenced to life imprisonment on a state prison charge, is resumed this afternoon, after a three-day recess.

The house judiciary committee is anxious to finish the investigation as soon as possible, and it is expected that there would be no more "long winded" testimony though the examinations would be as thorough as ever.

It was again announced today that J. C. Myers, counsel for the committee, would not sum up the evidence for the members nor make recommendations for a decision.

This, according to Chairman Harington, is unnecessary because most of the committee members are lawyers and will be able to weigh the evidence presented.

FLYER PREPARES FOR OCEAN TRIP

Aviator to Attempt Flight Across Atlantic Will Start Soon From America

ST. JOHNS, N. F., April 1—Pilot Hawker, of the Sopwith airplane, with a crew of two, is preparing to fly from New Foundland to Ireland, later today he expects to start, not later than April 10.

Both Hawker and his navigator are confident, but they express absolute confidence in the success of the venture. They feel sure the Sopwith plane will be the first to fly across the Atlantic.

The machine was taken to the flying field in sections and now awaits arrival of mechanics en route here and who are expected to be on the ground some time before the pilot starts. There are no other flying machines in the world in the ice off Low Point ever since March 24. There is no immediate indication of the vessel being reached unless the land channel will bring creation of the airplane considerably, but will not cause the start of the flight to be postponed later than April 10, Hawker insists.

DANZIG BECOMES CHIEF QUESTION

Germany Discussed Problem of Allowing Polish Troops to Land at This Port

By FRANK J. TAYLOR
BERLIN, (Special Correspondent.)—The Danzig question has become the most important issue in Germany. The government has taken the position that the Germans trouble with the Polish army to Warsaw by some other route than Danzig. Anti-Polish demonstrations have occurred in Berlin, Weimar, Breslau and Danzig.

The old threat of Bolshevism is reiterated, many conservative leaders declaring that if the government gives in to the allies a new radical uprising may be precipitated.

Situation Critical

The German armistice commission has suggested that the Polish troops land at Gdynia, Libera, or Konigsberg, instead of Danzig. The situation in the latter city is said to be critical owing to the antipathy between the German and Polish residents. The Germans there declare they will resist every effort to make Danzig Polish.

American returning from Danzig report the Polish element is prepared to revolt and declare the city Polish as soon as General Haller's troops land.

Reports from various sources agree it is impossible to land Polish troops en masse through Danzig, so long as both elements are at sword points. The Germans anticipate the trouble will lead to actual warfare with Poland if the Poles attempt to seize the port.

Field Marshal Von Hindenburg has spent the last week personally inspecting the Polish front. His army totals 1,000,000. It is greatly outnumbered by the Poles, but the Germans are believed to be more effective in actual fighting, owing to their superior equipment and greater experience.

HUNGARY WOULD UNITE WITH GERMAN NEIGHBORS

ASK APPROVAL OF AMERICA TO LEASE HOLDING

California - Mexico Company Will Not Dispose of Concessions in Peninsula Without Consent of Government

WASHINGTON, April 1—The proposed sale of Mexican lands in Lower California to Japanese interests appears to be merely a private transaction without international significance, officials here believed today.

In the absence of any official announcement on the subject, the view conveyed by officials today was that it is not clear that a careful plan of aggression by some foreign government was behind such news as are reported going on in Mexico, the United States government might not interfere.

Advice at hand here, it is understood, indicate that neither the Mexican or Japanese governments are involved in the deal in Lower California.

LOS ANGELES, Calif., April 1—Announcement by President Harry Chandler of the California-Mexican Land and Irrigation Company that it has a \$800,000 acre of Lower California land will not be sold to Japanese interests without the approval of the state department was looked upon here today as somewhat surprising, the situation caused by reports that the land would be sold to Japan.

Chandler's statement said his company's position on the reported sale—he denied the sale had been actually made—now is the same as in 1917, when Japanese were negotiating to lease a portion of the tract. This position was set out in a letter to the state department saying:

Arise No Agitation

"While my company is anxious to secure three million acres, simply financed, to help develop our property in Mexico, we are, first of all, American citizens and don't wish to make any one who could bring the situation a question which always appears to be a subject for agitation between the two countries. We will not under any circumstances consider making any sale of this kind which international is probable, until we first authoritatively are informed that such an arrangement will be entirely agreeable to the government of our country."

Danish Reports

Denial is made by Chandler that the company held any grant or concession from the Danish government. The minister of the interior is reported in press dispatches to have said:

"The reference by the Mexican official to the Danish government in connection with the sale of these lands must refer to lands adjoining ours which were secured by a Mexican syndicate headed by J. P. Morgan at about the same time that our lands were purchased from the Mexican government," the statement said, "Their titles were secured through concession which provided for special colonization efforts."

RESUMES TRADING WITH SEVERAL FOREIGN STATES

Grants License on Commodities Intended for Internal Consumption Only

WASHINGTON, April 1—What appears to be an important step in the policy of re-creating the further spread of Bolshevism in Russia was taken in a multiplicity of announcements today by war trade board and the federal reserve board. Resumption of trade with Finland, Estonia is provided in new war trade board regulations, granting licenses on commodities intended solely for internal consumption.

Restrictions are provided in new transactions with Estonia, Lithuania, Lithuania and Poland were removed by the federal board.

It was further announced, will continue as chairman of the sugar board until all sugar contracts are completed, and as chairman of the grain corporation until July 1, after which Barnes will become responsible directly to the president.

Hoover will remain a director general of relief work on behalf of the allied states. The American government until next summer's harvest in Europe when it is expected the food crisis will be passed.

SOVIETS PLAN NEW CAMPAIGN

Calling of Another General Strike in the Rhineland Is Beginning of Trouble

By FRANK J. TAYLOR
BERLIN, (Special Correspondent.)—The general strike declared in the Rhineland by the soviets for tomorrow is regarded as the possible beginning of a new campaign to overthrow the present government. Its full extent will not be certain before it actually gets under way.

Among the demands being made by the soviets are:

- Disarmament of all troops.
- Freedom of the proletariat.
- Freedom for all political prisoners.
- Immediate and close relations with Bolsheviki in Hungary and Russia.
- Workers in Berlin were today told over the government's arrest of Ernst Thälmann, leader of the city's soviets.

In a charge with investigating the Spartacist disturbances in January, the soviets claim his arrest was the result of government's fear of further opposition.

Platform Goes DOWN INTO RIVER

Patrol Bridge Collapses With Crowd of Spectators Watching Ship Launching

BOSTON, Pa., April 1—Four bodies were thrown from the waters of the Delaware and many searching parties are dragging for others buried into the river later yesterday when a platform on which they were viewing the launching of the cargo carrier—Waukau, collapsed.

The number of missing is variously estimated at from twelve to eighteen. Police are searching diligently in checking up the list of missing as some of those on the platform were spectators and others workmen of the merchant ship building yards where the accident occurred.

The structure known as the patrol bridge, gave way under the weight of more than two score men. Twenty-eight living persons were taken from the river soon after.

The Waukau hid the patrol bridge from view of many spectators gathered on the river bank. Several minutes elapsed before they learned of the disaster. Meanwhile the vessel was launched on time.

Police believed the section of the \$300 ton ship as it struck the water may have drawn some of the bodies far into the channel. Police launched a search for the bodies between Philadelphia and Trenton.

PRESIDENT IS LAST HOPE OF EUGENE DEBS

It Is Not Known Whether Socialist Leader Will Appeal to Executive for Clemency in Case of Espionage Conviction

WASHINGTON, April 1—President Wilson alone can stay the hand of the law which has ruled that Eugene V. Debs, socialist leader and several times candidate for president on his party's ticket, shall go to jail ten years for the violation of the espionage law.

The supreme court by refusing yesterday to grant Debs an appeal from the court's own decision against him, has left him no other recourse, says the president. Whether the socialist leader will appeal to the president for clemency is unknown here.

With threats by Debs' followers that there will be strikes, a Bolshevist uprising and other disturbances if he goes to the penitentiary, his case has aroused widespread interest.

To Attorney General

The president, of course, cannot act until Debs or some one representing him, formally presents an appeal for pardon. This goes first to the department of justice, where the attorney general studies the case and makes recommendation either for or against pardon or reduction of sentence. The president then acts.

It was stated in the department of justice today that in late the president has acted on 32 espionage cases—most of them minor ones—and in a majority of the cases he reduced the sentences.

GOVERNMENT ATTACKS BIG TRUST COMPANIES

Oorn Trustees Concern Decides to Accept Decision of Lower Courts

WASHINGTON, April 1—The government's war trace with big business companies is not over. A new campaign of federal action against "trusts" was indicated today, following a statement by Attorney Palmer on the dissolution of the Corn Products Refining company, found guilty under the anti-trust law.

Palmer said that the action of this company and a similar procedure by the Harvester Trust last November "should go far toward clearing and settling the law on this important question."

CANDIDATES FOR MAYORALTY ARE OFFERING PLEAS

Five Men Who Hope to Become City Executive Leave Case in Hands of People of Lake City Today

CHICAGO, April 1.—Appealing to every passion and prejudice imaginable, workers for five mayoralty candidates today put the decision up to the people of Chicago. The fight has between William Hale Thompson, Robert M. Sweitzer and MacLay Hoyne. The exciting campaign ended last night in wild scenes in various parts of the city, but magnified many times in the downtown district where thousands from outlying precincts to join the tumultuous business district into a bedlam.

Near Riots

Clashes were numerous and hostilities finally became so bitter that stink bombs were resorted to. Banners were torn down resulting in numerous fights between rival supporters, and men and women shouted themselves hoarse from scores of hand wagons that paraded the loop district until far into the night.

To prevent recurrence today, Chief Police Garrity has ordered his men to patrol the 221st voting precincts and guard crowded sections of the city. Candidates' managers freely predicted that no less than 700,000 of the registered vote of 1,000,000 will be cast. It was pointed out that no previous campaign had been so bitter.

Last hour predictions of pluralities issued from each camp ran from 75,000 to 125,000.

Mayor William Hale Thompson, republican nominee for re-election declared he will receive 50 per cent of the vote and will be given a plurality of 150,000 votes.

Predicts Success

Robert M. Sweitzer, democrat, will be elected by 100,000 according to predictions of his campaign managers.

MacLay Hoyne, independent republican, claimed election of 125,000.

John Fitzpatrick, labor candidate, and John M. Collins socialist, claimed victories by from 50,000 to 75,000. Fitzpatrick said he will receive 225,000 votes.

A vote was to be taken on the liquor question for Chicago. "Prigs" refused to take part in the campaign, considering it a dead issue.

The polls opened at 6 a. m. and will close at four p. m.

Following up a strong campaign for Fitzpatrick, labor party workers directed sixty local unions had ceased work for the day to picket the polls and "see that labor is given a square deal." The picketing, anti-stopping of work was not to be considered a strike, it was said.

The mayor candidates are: William Hale Thompson, republican; Robert M. Sweitzer, democrat; MacLay Hoyne, independent; John Fitzpatrick, labor party candidate, was expected to poll 60,000 votes. John M. Collins is the socialist candidate and Anselm Cern, the socialist-labor candidate.

Clear mild weather brought out a heavy morning vote, officials at polling places predicted the vote would approach 90 per cent of the total registration. Each candidate was enthusiastic, declaring the heavy vote was favorable.

The Chicago board of trade took a holiday.

Great Expression.

All great expression, which on a superficial survey, seems so easy to make as so simple, furnishes, after a while, to the faithful observer, its own standard by which to appreciate it.—Margaret Fuller.

CHICAGO LABOR GOES TO POLLS

CHICAGO, April 1.—Chicago labor declared a holiday today to see that the city gets the right sort of mayor. Wherever it could be done without too severe a jolt to industry union men absented themselves from their tasks to vote for John Fitzpatrick, the new "labor party" candidate for the chief executive's job.

RAISES TEN THOUSAND A MINUTE FOR FIGHT

Pocattello Launches Vigorous Campaign to Get Championship Fight.

POCATELLO, Idaho, April 1.—Ten thousand dollars a minute; over \$100 a second, is the record established by Pocattello business men Saturday afternoon when they in just over an hour raised \$100,000 to guarantee to Tex Rickard, manager of the Willard-Dempsey boxing contest, staged for July 4th and to be held at Pocattello, that that sum will be taken in at the gate on the day that has gone down in history as one of the greatest that our country has ever been called upon to celebrate.

Not unlike the effort put forth by those patriots of '75 that made the Fourth of July famous, this effort being put forth by J. Robb Brady and other business men of Pocattello and the intermountain west to bring to this country the greatest influx of new people and capital in the shortest possible time that such a gigantic proposition could be effected.

Plans which were given birth at a meeting held recently at Pocattello and attended by over 100 business men of the intermountain country are rapidly being materialized and the raising of the necessary guarantee money is the first step in the program of events which when completed will startle the United States into realizing that this country, while the newest, is wider awake to its own needs than any other country in the nation.

The second step which, at the present time, is about accomplished will be the raising of \$500,000 and a delegation of men sent to confer with Rickard and make a personal attempt to secure the match. This delegation will be headed by J. Robb Brady, president of the Pocattello Athletic club and chief backer of the campaign now on, while the personnel will be made up of influential business men from the intermountain country.

APPOINTS SUCCESSOR TO PRIVATE SECRETARY

Man of Idaho Falls Takes Place of Governor's Aid Who Gets New Position

BOISE, April 1.—Governor Davis has named Frank W. Brown, of Idaho Falls, to succeed J. K. White. Mr. White is to be named commissioner of public welfare. Mr. Brown is a newspaper man who came to Boise from Idaho Falls, where he was in charge of the Idaho Falls Register for a time and during the recent session of the legislature served a number of newspapers as a representative of the state.

IMPROVEMENT IS BEING PLANNED

Public Works of All Kinds Are Receiving Attention Throughout the Entire State

BOISE, Idaho, April 1.—The development spirit is abroad in Idaho to a surprising degree. The people of this state, according to authentic reports from every section, realize that upbuilding has been neglected and appreciate the menace of further non-action.

The only criticism of the legislative development program is that the body did not go farther, especially with road appropriations.

"If they were afraid of democratic opposition," one leading democrat said publicly here the other day, "their ears are wounded." The vote in the legislature shows the democratic members favored a liberal construction policy. The democrats wanted to appropriate more money for the highway avenue, open bond issues, but the constitutional limit had been reached. Republicans and democrats alike in the legislature wanted to authorize more bonds for high buildings, but it could not be done.

The legislature, facing the constitutional limit, adopted a constitutional amendment to be voted on in November, 1923, authorizing \$2,000,000 for road work in 1921-22.

The legislative appropriation just made for roads is \$100,000 in road numbers. This for the whole state of Idaho for two years. The comparative smallness of the sum, in view of the fact that some districts have voted almost as much bonds to be applied in one year. An example is the Twin Falls highway district, which has voted \$1,250,000 by almost a unanimous vote.

The same sentiment for public improvements permeates the entire state.

SAN FRANCISCO PORT NOW FREE TO OFF-SHORE SHIPS

SAN FRANCISCO, Cal., April 1.—The port of San Francisco today became free to all foreign and off-shore ships.

The move is expected greatly to increase the business of this port with trans-Pacific ports.

Commerce with the Hawaiian islands and Alaska and the Atlantic seaboard will be consolidated off-shore or foreign trade.

The action eliminates entirely the dockage rate and cuts 50 per cent off the wharfage charges of ships having regular berths. "Tramp" ships are free from all dockage charges.

Rates for fresh water were also cut from \$150 to \$38 for 100,000 gallons—the average amount for ordinary cargo ships.

CLUBS WILL CHANGE WITH PROHIBITION

SAN FRANCISCO, April 1.—Club life, a big feature here, may become extinct with total liquor prohibition, according to officials of the social clubs.

The war tax on dues of 15 per cent will be a contributing feature to the demoralization, it is believed.

With the passing of time, it is said, the one biggest incentive to the social club will go out also. Then, the bar has been the chief financial support for the average club.

The Bohemian club, University club, Olympic club and the Union league all take a serious view of the future.

STEAMER IN DISTRESS

BOSTON, April 1.—The first naval district today received a wireless message from the coast guard cutter Osage, stating that it was standing by the distressed Norwegian Steamer Ocean, 150 miles off Cape Cod.

WORKERS OPPOSE ANOTHER STRIKE

Seattle Shipyard Unions Will Cause No Action in Proposed Coast-Wide Move

SEATTLE, Wash., April 1.—There will be no shipyard strike in Seattle today, April 1. Despite the fact that metal trades council has been voting on the April 1 coast-wide strike proposition during the last week, no immediate action is contemplated.

The result of the vote will not be made public until Friday night at a meeting at the labor temple.

Ballots cast during the last week will be taken to Portland to be officially checked by committees of the Pacific coast district council.

In the meantime, local metal trades officials are awaiting the return of their delegates from the Washington (D. C.) wage conference, who wired Saturday asking that no action be taken before their arrival.

GETS MORE GERMAN SHIPS

WASHINGTON, April 1.—Four more German passenger vessels have been put into commission by the United States, a navy dispatch stated today.

The steamship Cleveland, commissioned a few days ago, has been named the Mobile, because the navy already has a vessel registered as the Cleveland.

HOLDING UP AGREEMENT

WASHINGTON, April 1.—Lower price agreements of the industrial board with several industries are being held up by the failure of the railroad administration to definitely state whether it will make purchases on the basis of the prices agreed upon, it was learned today.

MAYORS ARE ASKED TO AID BUILDING MOVEMENT

Own Your Own Home Campaigns Are Started in Twenty Cities.

WASHINGTON, D. C., April 1.—Mayors of cities everywhere in the United States are asked to co-operate with the United States department of labor in its nation-wide "own your own home campaign," which is being conducted for the following reasons:

First. Work must be provided for returning soldiers and sailors and for labor turning from war to peace industries.

Second. Immediate stimulation and resumption of home-building activity is necessary to meet the demand to present the shortage of dwellings at not less than 500,000, and it is probably even greater than the half-million figure.

Home building virtually ceased with our entrance into the war. Its resumption means local benefit and profit.

Third. Home ownership makes for better living conditions, thrift and increased efficiency. It provides comfort for the busy years of work and assures a safe harbor in old age.

Fourth. The immediate future holds no promise of a reduction of the price of building materials. To delay important and necessary building in the expectation of a decided fall in prices seems ill-advised. Prof. Irving Fisher, of Yale university, a foremost authority, has stated:

"We are on a permanently higher price level, and the sooner the business men of the country take this view and adjust themselves and the nation from the misfortune that will come to us if we persist in our present false hope."

The United States department of labor has prepared a manual of information telling how to proceed in the formation of local "Own Your Own Home" organizations. These local organizations have been formed in 20 cities, where the work of stimulating building is already bringing about satisfactory results.

PROTESTS INCREASE

PORTLAND, Ore., April 1.—Commercial interests of this city today are considering a proposal to unite in a protest against the 20 per cent increase in telegraph rates and demand an investigation of the alleged necessity for the advance. There is strong sentiment here for materially cutting down on the use of the telegraph wires by all business interests.

CHURCHES FORM SERVICE LEAGUE

Organization Is to Protect World Faith and Combat Menace of Bolshevism

NEW YORK, April 1.—A league of churches for the protection of the world's faith, to combat Bolshevism and to combine the 41,000,000 church members of the United States into a brotherhood for inspired public service, is the object of a campaign being started today.

Back of the movement are a number of eminent divines, especially of the Episcopal faith. As a move toward such unity, Bishop H. David Bree of the Protestant Episcopal diocese declared that he would invite a Catholic priest to conduct one of the holy week services at the Cathedral of St. John the Divine.

The Perfectly Dressed Woman Shows Individuality

The perfectly dressed woman doesn't always create the greatest interest in herself—but it's a pretty keen satisfaction she has every minute in knowing that she is perfectly gowned.

Our stock of REDFERN garments permits of a sufficiently great latitude in selection of style and color to give every buyer individuality in her dress. We have a display that insures you the suit or coat that you want, if you will come while the stock is complete. But of course, we can't promise how long it will be complete.

This label is a little thing to look for, but it means a great deal to every woman who wants quality and workmanship as well as style in her garments. See that your garment has the REDFERN label.

THE BUILDERS' POSITION.

It would be difficult to overestimate the salutary effect upon building programs in Twin Falls and vicinity...

In view of the not too promising outlook for any radical reduction during the coming year in the cost of living...

THE PUBLIC MARKET

Within the very near future an interesting experiment is to be made in Twin Falls. An attempt will be undertaken to see if the old law of supply and demand will assist in helping to solve the high cost of living problem via the route of the public market.

For a good many years past The News has been a consistent advocate of the soundness of the principle underlying the successful operation of a public market.

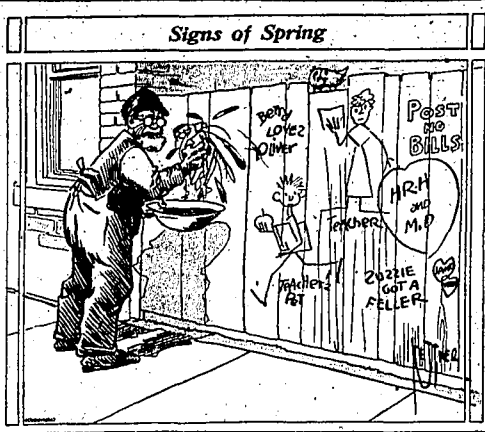

Time was when the public market, people with eggs, butter, poultry and produce of all kinds to sell were enabled to dispose of it, practically without cost, for cash, in those who were in need of such things, in other words, to the great army of housekeepers and general consumers of farm and country produce of all kinds.

But of recent years the public attitude on the subject of prices has undergone a change. The average housewife, out shopping for the day or the week's food supplies, has grown used to the idea of buying something more than merely the goods.

is to follow the ordinary lines upon which the success of the movement was originally established, and it is a question if the saving of a very substantial sum of money in the course of a few months shopping would be regarded as compensation for the loss of the things she has grown used to having.

There is no earthly question but what a very substantial saving will be possible in the operation of the household by means of the public market but there is a very real question as to whether the average householder cares enough about the whole matter of saving to take full advantage of the opportunity.

The advantage to the seller is not nearly as marked as in the case of the buyer, yet each upon the conclusion of each and every transaction is not without its compensations. As a rule the freshest and best of produce of all kinds is to be found at the public market. Generally this is the only kind that will hold its own with the great bulk of the offerings. The stock is too easy of inspection, the temptation to pass on to the next table too simple of accomplishment to permit of much opportunity for the sale of an inferior article in competition with one of first grade quality.

As before stated, the experiment is well worth watching, and it would be a pity indeed if the thing is not given the most thorough try-out by trying it out. There is no question but, by all the rules it ought to succeed and succeed well, but it is also true that there is a mountain of superficial prejudice to be overcome before complete success will be attained and it may take quite a long time to get the proposition established on a basis which will make for it a fixed place in the community life of the city.

Built for Giant. Gardner's, Mass. has in one of its parks what is believed to be the largest chair in the world, made for actual use. It is 5 1/2 feet square at the base, and 12 feet in height. The seat is six feet from the ground, so that those who wish to sit in it have to literally climb up to their chair, like children. The chair weighs 1,200 pounds. It was presented to the city, and is an object of considerable attraction to strangers.

Childish Deductions. Mary and her little brother, Billie, were standing in the parlor of a big hotel. Much awed at their luxurious surroundings, they were gazing about when Billie's glance fell on a picture of Marie Antoinette. Edging up to Mary, he whispered: "Why, that lady?" To which Mary replied in a confidential tone: "Why, she's the one that owns the furniture."

Hand Plow Built From Bicycle. A farmer in California had no hand plow, so he proceeded to improvise one, says the Popular Science Monthly from an old bicycle frame. The bicycle handle-bar was taken off, turned backward and set solidly in the frame. The wheel was taken from a large gate valve. The plowshare is attached to the frame by a U-bolt.

LIBERTY LOAN LEGISLATION. A new demand for the immediate convening of a special session of congress is based upon what appears to be an exceedingly important consideration, and one which needs specifically directed.

The new development comes in a communication from United States Senator W. M. Calder of New York, to the effect that the public attention which the latter is urged to call to our peripatetic president advising that unless a special session be called at once and measures taken to restore at once the issue of the bonds, which have been depreciating, to substantial normal value it will prove impossible to secure popular subscriptions to the forthcoming issue.

PUBLIC FORUM. CRITICISM. Editor "Twin Falls News," Twin Falls, Idaho.

Dear Sir: I have read your article entitled "Idaho Soldier in France" and some criticism which appeared in one of your late issues.

As before stated, the experiment is well worth watching, and it would be a pity indeed if the thing is not given the most thorough try-out by trying it out. There is no question but, by all the rules it ought to succeed and succeed well, but it is also true that there is a mountain of superficial prejudice to be overcome before complete success will be attained and it may take quite a long time to get the proposition established on a basis which will make for it a fixed place in the community life of the city.

FILTERED WATER TO RUN THROUGH NEW MAINS SOON

Supervising Engineer Carl E. Painter Promises Council City's New Waterworks System Completed in 5 Weeks

Filtered water will be delivered within the next five weeks through Twin Falls new municipal waterworks system which will be completed, as expected by that time, according to the statement before the city council at its meeting Monday evening of Carl E. Painter, supervising engineer for Burns & McDonnell, under whose direction the boys team, for which \$375,000 worth of bonds was voted, is being built.

Mr. Painter at this time advised the installation of a gasoline motor to be used in the operation of the filtration plant at such times as electric power might fail. The recommendation was referred to the water committee with power to act.

The filtration plant Mr. Painter reported, is nearing completion, sand from Minnesota and gravel from Montana to be used in the filtration process are in transit, and the city clerk was instructed by the council to purchase at once a carload of aluminum sulphate which is to be used in the purification method.

Takes No Action on Road

The council took no action on the request of C. H. Hempleman and others for an appropriation of approximately \$700 for pavement of the road between the site of the old and new filter beds over a distance of five-eighths of a mile. The petitioners have subscribed about \$1,750 toward the expense of this work.

Disappoints Carnival Man

Another request on the part of the manager of the Bergstrom carnival company for setting aside of the provision of the ordinance requiring carnivals and similar shows to hold their performances west of Back Creek was denied by the council.

The council adopted the sprinkling ordinance for the current year over four protests offered.

Proposes New Plumbing Rules

Alvin W. Murray, plumbing inspector, was directed to confer with City Attorney John E. Davies, relative to a proposed revision of the plumbing ordinance to provide for repeal of the perpetual license plan and new filter beds to maintain shops here and providing for examinations to be held under the supervision of the plumbing inspector to determine the capability of applicants for plumbing licenses.

In the absence of Mayor Arthur L. Swim, who was in Idaho Falls in attendance at a meeting, considering the improvement of the Yellowstone park highway, W. H. Eldridge, as president of the council, presided at this session.

said a customer of ours in discussing the new Spring styles—and we had to admit that he would—NOT.

His build wouldn't harmonize with the tune of a fitted waist in the first place and his wife wouldn't let him in the house if he tried to make it.

BUT WHY WORRY? All the new clothes are not close cut.

Our stock of "loose backs" is fully as large as our selection of "Waist lines."

BUILDERS ASK NO INCREASE IN WAGE SCALE

Trades Council Guarantees Efficiency of Members and Promises No Let-up of Work on Account of Strikes.

Not only does the Twin Falls Building Trades council demand no increase in wages for the year beginning May 1, but it agrees not to quit work on account of a strike, guarantee the efficiency of its members and in co-operation with the federal employment service office which is kept open here largely as a result of its efforts, it gives assurance of ability to provide a sufficient supply of building crafts labor of guaranteed efficiency to meet every demand of a local building campaign during the year.

Corrects False Reports.

This is made known in the statement of George E. Bowen, business agent for the Building Trades council, in respect to the wage scale adopted by the members of the affiliated unions for the coming year and in answer to groundless reports to other effect said to be current on the streets. Only the plumbers and the electricians embody provisions for higher wages than provided in last year's schedule, but the increases already have been approved by the employers.

How Efficiency is Guaranteed.

Efficiency of the members of each union affiliated with the Building Trades council guaranteed under the requirements of each union providing for periods of apprenticeship at the end of each of which the applicant for membership undergoes rigid examination as to its qualifications. The efficiency of the successful applicant for a journeyman's card is vouchered for by three journeymen who are liable under union rules to pay fines of \$25 each upon proof submitted that the applicant is not efficient.

All of the unions affiliated with the Building Trades council, since the signing of the armistice, have had a service men have conducted courses of instruction for returned soldiers and sailors to assist them in becoming proficient in holding a journeyman's card.

Why No Strikes Occur.

In reference to the no-strike guarantee, Mr. Bowen cited provisions of union rules requiring the submission of disagreements to arbitration committees and to general conferences and providing that work shall not be discontinued until final decision of the controversy, a process that would require several months to work out, "I couldn't bring about a strike on a skyscraper," he said.

Scale for Coming Year.

The following is the scale of wages adopted by members of the Building Trades council to take effect on May 1 and to continue until March, 1920, the eight-hour day being stipulated in the case of all except teamsters who work on general contracts.

Carpenters, \$6.50; plumbers, \$7.50; electrical workers, \$7.50; sheet metal workers, \$8; painters and decorators, \$6; lathers, \$7.50; bricklayers, stone masons, plasterers, marble setters and the setters, \$8; cement finishers, \$7; common laborers, \$4; concrete wheelers, \$3; brick wheelers, \$3; brickmen and hod carriers, \$3; teamsters, \$4.50.

Airplanes Will Help Surveyors.

In the arid wastes of Australia, where travel is exceedingly difficult and painful, and in like regions in the deserts of Africa, airplanes will make it easy to survey more square miles in a month than could be done by means of any land vehicles in a year. It will be possible to get a true bird's-eye view of every part of the earth's surface. No dangers involved in such work are likely to be met. Men have faced and survived the perils of aerial fighting.

Novel Dance.

The word "ball," as applied to a dancing party, came to be used in the first instance from an ancient "ball play" given in church by the men and choir boys of Naples, during the Feast of Fools at Easter. At subsequent dancing parties in Naples the dancers threw a ball at one another to the sound of their own singing. They whirled about in measured time, and the sport consisted in catching hands in time to catch the ball.

Possibly He Had.

A strange bequest was that of Jabez Hollister, an Englishman, who left a set of albatross toothpicks to his sons "in order that they might never have occasion to sit in a dentist's chair."

LAUNCH MOVE TO SURRENDER TOWN CHARTER

Disinclusion to Pave Streets Is Said to Be Motive Behind Petition for Disincorporation of Kimberly.

(Special to The News)

KIMBERLY—Disinclusion on the part of some citizens of Kimberly to have the cost of paving about one mile of the state highway extending through the corporate limits of the village to connect up with paving to be done on the highway up to the village limits by the Twin Falls highway district is said to be responsible for circulation here of a petition addressed to the members of the board of village trustees asking them to call a special election for submission of the question whether or not the village of Kimberly shall be discontinued under the provisions of Idaho session laws of 1909.

Two-thirds Vote Required. The petition, which must bear the signature of one-half of the number of voters at the last municipal election before being considered by the trustees, is said to have been signed by less than 20 citizens of Kimberly. A two-thirds vote in favor of disincorporation is required. In the event disincorporation is voted, all of the public property of the municipality must be turned over to the county and will soon be installed in the affairs of the municipality from that time on are to be administered by the county commissioners.

The event disincorporation is not voted at the election the question cannot be submitted again for a period of two years.

SUPERVISOR TO MAKE STUDY OF ROAD METHODS

W. L. Johnson Is Sent by Highway District to Inspect Rock Crushers and Quarry Methods in Other States.

W. L. Johnson, Twin Falls highway district supervisor of highways, will leave on Wednesday to spend about two weeks inspecting rock crushing and quarry methods and hard surfaced roads in Utah, California, Oregon and Washington, with a view to getting information of methods to be used in carrying out its road building program for which \$1,250,000 worth of bonds were recently voted and sold.

Within the next four weeks, Mr. Johnson stated today, contracts will be let for construction of crossings and grades on the roads to be hard surfaced this year in the district. All the present time several parties in the field blocking out the work in advance of the construction outfit.

Our Kind.

Said the facetious fellow: "Some day a festive 'cuss' is going to get cute, and instead of putting in his will 'I hereby bequeath all my property, real and personal' will get a posthumous giggle by saying 'real and imaginary.'"

Ho Who Tolla.

The average man does not love work for its own sake. This is a truism, and a truisim rather mildly worded, unless an exchange. And yet we are convinced that real laziness, real disinclination to bodily or mental effort, is one of the rarest things in the world. Chances of it are unquestionably known to the medical profession and to the poorhouse authorities, but when the cause is not hookworm or paracina, it is usually a too enthusiastic thermometer.

Making Nails.

An excellent illustration of the difference between the old and new methods in the ordinary common nail. Formerly the metal was cut into strips and then forged into shape with hammers, and an expert took about one minute and a half for each nail. Today they are made of steel and are lighter and stronger. Strips are cut with steam shears and fed into automatic machines. One man tends three machines, dropping a nail every second.

Youthful Mothers.

Some of the world's notables have been born of parents well over thirty years of age. Conversely great numbers of them were born of youthful mothers. Abraham Lincoln's mother was only twenty-five at the time of his birth. Napoleon the Great was born of parents twenty-three and nineteen years of age, respectively. The mother of Pasteur, undoubtedly the greatest of the modern profession and steam shears and fed into automatic machines. One man tends three machines, dropping a nail every second.

How Diphtheria is Contracted

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent, you should take him to school and keep him of the streets until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted.—adv.

PUBLIC NOTICE OF SCHOOL BOND ELECTION IN INDEPENDENT SCHOOL DISTRICT NO. 1, TWIN FALLS COUNTY, IDAHO.
Public notice is hereby given, according to law and the requisite action of the board of trustees of Independent School District No. 1, Twin Falls County, Idaho, that a special school bond election of said district will be held at the High School Building in the city of Twin Falls, in said district on Saturday, the 12 day of April, A. D. 1919, between the hours of one o'clock P. M. and five o'clock P. M. at which election there will be submitted to the qualified electors of the State of Idaho who are resident freeholders or stockholders of the district the following question for their vote and determination thereon:

Question submitted:
Shall the Board of Trustees of Independent School District No. 1, Twin Falls County, Idaho, be authorized to issue the negotiable coupon bonds of the district in the amount of One Hundred and Fifty Thousand Dollars (\$150,000), bearing interest at the rate of five and one-half (5 1/2) per centum per annum, said bonds to bear date the first day of April, A. D. 1919, to be due and payable twenty (20) years from their date, and redeemable as follows: \$35,000 April 1, 1920, and \$15,000 April 1 of each year thereafter; for the purpose of providing and improving school houses, and grounds, and furniture, apparatus and fixtures, within the said district?

Each qualified voter shall vote upon said question by secret ballot whereon shall be written or printed the question also submitted and shall indicate his approval or disapproval of the question submitted by placing a cross (X) opposite the words "Yes" on his ballot which expresses his choice. The polls for the reception of the ballots cast upon said question will be open at said date and at the place aforesaid, be opened at the hour of one o'clock P. M. and will remain open until the hour of five o'clock P. M., of the same day, when they shall be closed.

PEACE MEETING IS DELAYED BY MANY PROBLEMS

Questions of Grave Importance Are Encountered at Conference Resulting in Prolongation of Sessions.

PARIS, April 1.—Despite President Wilson's impatience at recent delays, there was strong opinion in the "big four" was still encountering bars to progress when it resumed its session today.

Separations, the French territorial claims and the Hungarian situation were understood to constitute the principal subjects for consideration.

The more of the more optimistic delegates believed the relations question would be rapidly cleared up, barring unforeseen changes in the present demands of various interests.

Other, however, declined the matter of negotiation, was still far from settlement, although admitting there seems to be a tendency to square all demands with Germany's ability to pay.

The "little five" or foreign ministers council, was called in to discuss the relations question, if any, were not revealed.

The French have succeeded in bringing up the question of the left bank of the Rhine before the "big four", this matter also was considered at yesterday's session but as in the case of other matters no statement was made regarding what happened.

Essential Wilson's closest friends have stated that he would probably do the world the causes and sources of delay in the peace work if speaker's address were not forthcoming.

Wilson's warning to his conferees regarding delays is understood to have taken the form of a speech, in which he told them that the world's peace, facts, action and results. He is said to have declared he expected they would get his view point and achieve results.

The president's speech followed a long address by Premier Clemenceau regarding French territorial claims. Afterward the conferees settled down to work and are reported to have accomplished more in the last half hour of the session than in several days preceding.

Consolation. A young confessor was preaching his trial sermon in a church in one of the inland villages of Scotland. After finishing the "discourse" he leaned over the pulpit and engaged in silent prayer, an act which brought the congregation, who were unaccustomed to such procedure. Suddenly the young preacher felt someone slapping him gently on the shoulder, and on turning around he beheld the deacon who said: "Hoot, mon, dinna tak' it to me ye'll be in heaven; ye'll maybe do better next time."

Governance of Chinese. It is acknowledged that the Chinese are very skillful in making confectionery and possess the reputation of having many secrets. They are able to empty an orange of its pulp entirely, to fill it up with fruit jelly without one being able to find the smallest cut in the rind, or even a tiny hole. Indeed, they even empty an egg in this manner and fill it with a sort of almond nougat without one being able to find the slightest break or inclusion in the shell.

An Immense Diamond. A big diamond has been found in a mine in Griqualand West (South Africa). The stone is amber colored, and weighs four hundred and forty carats—about a quarter of a pound. Although this is not a record as regards weight, it is the largest that has ever been found in that section of the country.

Burials on Hilltops. Buffalo Bill is not the only celebrity to be buried on a hilltop. Cecil Rhodes and Robert Louis Stevenson are both buried on high points. The empire builder lies on a kopje in Rhodesia, and the aviator on the highest part of his beloved Samoa. Lord Dacre is supposed to have been buried on horseback in Saxton churchyard.

Chicken Mystery. Pearl and Stanley, six and four, respectively, had buried a dead chicken in their garden. A week later one of curiosity they went to dig up the bird in the wrong place, and did not find it. Excited, they ran together to mother and cried, "Ma, that chicken must have gone to heaven, because it isn't there any more."

Keep Friendship in Repair. Dr. Samuel Johnson said: "A man should keep his friendship in repair." However, his biographer, reports him as saying: "A man should not make his acquaintances; as he advances through life, he will soon find himself left alone. A man, sir, should keep his friendship in constant repair."

Little Telegrams

FORBIDS SEARCH OF VEHICLES WASHINGTON, April 1.—Military forces along the Mexican border are authorized to search automobiles for munitions, according to a ruling of the judge advocate general of the army published here today.

SALES FOR HOME NEW YORK, April 1.—An official telegram from Rome, to Italian consular general here today, says the 32nd United States infantry composed of Ohio and Pennsylvania drafted men, has sailed from Genoa where gold medals was presented to the entire regiment for valorous fighting with the armies of Italy.

DIMMESSES COMPLAINT WASHINGTON, April 1.—The federal trade commission has dismissed its complaints against Morris and Company, makers of clothing, for selling army camp unfit meat. The fact that Morris and Company made good all the morale claims, and the fact that there was no danger of recurrence of the offense, caused the board to decide that further action was not necessary.

Johnny's Essay. A boy with the snouts of twelve winters on his head was responsible for the following "howler" in a Latin essay. Among celebrities occurred the names of Copernicus and Galileo. The view of these worthies taken by our youthful writer was as follows: "Copernicus is a mixture of copper and nickel. Galileo cured for none of these things."—London, Tit-Bits.

Big Sunflowers. Giant sunflowers that grew in a garden at Lindford, Wales, were raised from a seed brought from Australia. One and one reached the extraordinary height of 22 feet. It held only one bloom, which was 14 inches in diameter. The giant entirely dwarfed its English cousins close by.

First Submarine Cable. The first submarine cable was one that made communication possible between Cuba and Boulogne, on one side of the English Channel, and the other side of the English Channel, and the experiment was commemorated upon by the London Illustrated News in its issue for August 18, 1840.

Small Proved It. Jack was fond of toilet water and was always good to make a trip to the barber shop. One day after having shaved he felt as much as the feeling of he got a good haircut, and he jerked off his cap and said: "Till say I did. Just smell it."

Our Heroes. Man's great actions are performed to minor struggles. There are noble and mysterious triumphs which no eye can see, no tongue can utter, and no flourish of trumpets salutes. Life, misfortune, isolation, abandonment, and poverty are battles which have their heroes.

Was in the Name. The strolling company were playing "Hamlet," but they were afraid that Shakespeare's great tragedy would not sufficiently attract, so they conceived the bright idea of altering the title to "How a Steppather Was Paid Out." The result was a crowded house.—London Tit-Bits.

Depend on Her. Mistress Deed's cooking has many friends coming to dinner today. Mary says: "I want you to do your very best." Cook—"You can depend upon me, m'm; I've got some friends of me own comin'."

Conscience. A very strong feeling makes to itself a conscience of its own—has its own pity; just as much as the feeling of the son towards the mother, which will sometimes survive amid the worst fumes of depravity.—Exchange.

Test of a Good Husband. Our position is simply this: That no man is a good husband who doesn't know when he comes home that the sitting room curtains have been moved to the dining-room.—Dallas News.

Instinct. Mrs. Van Speederly (crying at her crying infant)—"I wonder what ails it? If it was an automobile I could tell in a minute, but babies are so different."

A Matter of Understanding. The fellow who doesn't understand how the other fellow succeeds probably can't understand his own lack of success.—Exchange.

To Save Shoes Soles. A cobbling party on the secret that if about once a month the soles of shoes are treated to a coat of linseed oil they will always outwear the uppers.

Sand in the Lantern. If Japanese lanterns have a little sand put in the bottom there will be small danger of their catching fire, as the sand gives weight and holds the candle firm.

Revolutions. Revolutions are not made; they come.—Wendell Phillips.

WORLD'S SPORTS NEWS

PUT ON EXHIBITION DES MOINES, Ia., April 1.—Jack Dempsey, challenger for Jess Willard's crown, will show here April 25, it was announced today. He will mix with his sparring partners. It will be his only stop in Iowa, his manager announced.

GETS EYE HURT JACKSONVILLE, Fla., April 1.—Walter Pyle is wearing a shanty over his left leg today. Ping Boddy's liner took a wicked bonum in yesterday's 5th round, which will mix with his sparring partners. There were no other casualties.

PLAYS PRACTICE GAME SAN ANTONIO, Texas, April 1.—Two teams from the St. Louis Browns will play daily practice games until the regulars take on the San Antonio Bronchos next Saturday. The first game battle was staged yesterday. It was a 3 to 2 tie in seven innings.

TO TEACH DOUGHOYS SAN FRANCISCO, April 1.—Jack Barry, veteran major league baseball player, at present a secretary for the Knights of Columbus, left San Francisco yesterday for France. Barry will show the doughboys in the army of occupation the fine points of the game.

PUT ON DOUBLE HEADER ST. LOUIS, Mo., April 1.—The Cardinals put on a double header today. This morning they went through an early morning practice at Francis Field. This afternoon they are scheduled for a live lining practice game with a local semi-pro club.

MAKES BID FOR TEAM GAINESVILLE, Fla., April 1.—Ocala, a neighborly neighbor, to this sleepy town where they haven't even turned the clocks ahead, is making a bid for the Glants next spring. Ocala wants to get foot, pay all expenses, furnish a park and give McGraw a bonus of \$2,500 next year.

WANTS ANOTHER PLAYER NEW ORLEANS, La., April 1.—Indian Manager Fohl would like to have another southpaw to share the portable bullpen with pitcher Fred Goetz. He has his plans for recommending Charlie Janney, utility outfielder, into a pitcher. Janney pitched good ball for Buffalo six years ago.

PRACTICE IN OMBREY WAXAHACHIE, Texas, April 1.—Not that the Reds already are counted as dead for this season, but Manager Pat Moran could find no other dry spot on which his squad could practice so he worked his men in a remedy yesterday. Ivy Wingo, Red holdout, is expected to join the team today.

PLAYER IS INJURED JACKSONVILLE Fla., April 1.—Wilbert Robinson is rebuilding the dodger infield as a result of Ray Schmandt's injury. Schmandt, lately signed by Frank Brazil yesterday, will be out of the game at least six weeks. Brazil probably will fill the gap, incidentally leaving first base unprotected.

ADDS ANOTHER MEMBER MINERAL WELLS, Tex., April 1.—Arthur Hardy, Savannah, Georgia, a catcher, was added to the Glants' White Sox line up today. With the team split two ways, Gleason found there was too much work for one receiver on the second team. Yesterday the regulars beat the seconds, five to one.

MANAGER TEACHES BASE RUNNING TRICKS

TABADENA April 1.—Tricks at base running were being taught the Cubs here today by Charlie Pyle. Manager Mitchell put Pyle in charge of the drillers yesterday.

GALE OVEZE CITY IS CAUSE OF POSTPONEMENT

MACON, Ga., April 1.—The Tiger's hope to get in a practice game today to make up for the one they were forced to pass up yesterday because of a gale which swept the city. This is the last week here for the Detroit team.

WINS DECISION LONDON, April 1.—Jimmy Wilde, British flyweight champion, after defeating Joe Lynch, American aspirant six-foot rounds, drew a referee's decision in their fifteen round bout here last night. Odds 3 to 1, on Wilde at the beginning, became even money by the fifth round when the American had Wilde groggy after severe punishment.

NEW OFFICIAL ON BOARD OF BANK & TRUST CO.

Carl Hahn Retires on Account of Ill Health—J. S. Bussell Elected Vice President

At a meeting of the directors of the Twin Falls Bank & Trust company held this morning, J. S. Bussell, formerly head of the Bank of Rogerson, was elected vice president to fill the place of Carl Hahn, whose resignation was accepted by the board. J. G. Bradley will continue to serve as cashier of the institution.

Mr. Hahn, who will continue as a director of the bank, has been accepted with the concern since its inception in Twin Falls in 1904. He retires because of continued ill health, in the hope that a change of environment will be of benefit.

J. S. Bussell has resided at Rogerson since 1910, when he organized the Bank of Rogerson and has ever since continued as the head of that institution. He will move to Twin Falls and enter upon his active duties at the bank at once.
