Japanese Plans Are Only Obstacle to Independence of Islands Under American Protection

JAPAN DENIES INTENT TO EXTEND DOMINION

Republicans Charge Special Agents Are Abroad in Country and This Is Result of Democratic Control

WASHINGTON, April 5.—The Japanese "Bugabo" is looming up as the determining factor in the question of independence for the Philippines and other American insular possessions...

Protection Guarantee

"Whether President Wilson will recommend independence of the Philippines will depend upon what guarantee of protection against foreign encroachment can be given as a result of the peace conference and the league of nations..."

"The people always have had no idea other than to grant the islands independence... but the time for this step can not be forecast by any man..."

"Japan has no designs on the Philippine islands except to extend her commerce... The Manila mission here, making independence..."

"The islanders propose to effect the possibility of Japanese aggression, it was learned today, by submitting, if necessary, to a limited American protection..."

Stable Government

American government officials charged with supervision of Philippine affairs are confident the present government is stable and could separate without American intervention...

"President Wilson for this reason, is expected to encounter stubborn republican opposition at the outset if he moves in the direction of Filipino independence..."

Propaganda Agents

Republicans have long charged that Japan has worked under cover of the democratic control of the islands to honeycomb them with their own agents...

"The Filipino mission will tour the country and make speeches in behalf of its independence..."

ST. JOHNS, N. F., April 5.—Five men were reported killed today when the boilers of the steamer Cape Breton blew up four miles off the Narrows. Chief Engineer McArthur, two firemen and two trimmers were the victims. Others were injured. The ship is now burning. Rescue vessels have put out from this port.

SACRAMENTO, April 5.—By writing his name, Governor Stephens can get one million dollars for California. That sum is in a fund appropriated for state defense during the war and never expended. Senator Benson is author of a bill to turn the money back into the treasury. The measure has passed both houses and is before the governor for approval.

ARMY FIGURES SHOW RATE OF DEMOBILIZATION

General March Today Announces Relative Strength of Allies Compared to That of Enemy Countries

EXPEDITE RETURN OF TROOPS FROM OVERSEA

Resumes Enlistment in United States to Replace Army of Occupation Now Serving in the Rhineland

By RAYMOND CLAPPER

WASHINGTON, April 5.—Indefinite prolongation of the enemy after application of Marshal Pichon's armistice rules. General March today revealed that allied military forces now total 1,200,000 men as against a total of 1,200,000 ill under arms in the central powers.

Allied demobilization has been only 25 per cent, he said, while the central powers have been enabled to reduce 55 per cent of their strength at the time of the armistice.

Troop Movement

General March also announced his plan of bringing 310,000 men home monthly instead of the 200,000 originally planned. This rate of return will exceed the rate at which American soldiers were sent to Europe when the transport facilities were at their best.

Total Discharges

Total discharges from the army since the first four days of April, 7,640 soldiers called for home during 1918 were 1,532,497 men and 91,674 officers, March announced.

The army strength on April 1 was 2,055,718 which is 44 per cent of the American strength on November 11.

General March discussed reports of laxity of medical officers in the A. E. F. in dealing with typhoid fever.

Only 90 deaths from typhoid were reported from the A. E. F. in 1918, he said, which had been given to General March when that when the armistice was signed, Germany had 1,500,000 men under arms.

General March explained the executive order relating to aircraft today was only intended to transfer powers, which had been given to John D. Byrd, as head of the aircraft production board, to the air service of the army.

Recruiting is lagging in a rather disappointing manner but General March is hopeful that as soon as the recruiting party gets under way volunteering will increase.

Enlistment Resumed

Since February 28, when enlistments were resumed by the army, 1,200,000 men, General March explained that much of the time has been spent in...

To News Readers

The first annual birthday of the Daily News will be celebrated on Monday, April 8, by the taking over of the full day leased wire service of the Associated Press, in lieu of the United Press.

The News takes this step in the interests of a better, stronger and more nearly representative newspaper for the Twin Falls country. The Associated Press is, and has always been the last word in the way of accuracy and reliability in the matter of press dispatches, and the securing of its service for the Daily News may be accepted as the best of all evidence of the determination of the Daily News to give to its readers the best newspaper which it is possible to build, now and hereafter.

PEACE PLANS IN HOPELESS MESS

Delegates Feel Their Particular Ideas Are All Gone to Naught Toward Settlement

By LOWELL SELLETT

PARIS, April 5.—Yesterday was the peace conference's "Black Friday."

Every person who has had a solution for any of the questions worrying the conference—whether affecting Germany, Russia, Italy or France—appeared utterly hopeless of seeing his solution applied.

It was not the effect of the weather, for the sun bathed the quai d'Orsay, Hotel de Ville, "White House" and the international centers implacably.

"Everything has gone to pot," said a British statesman, whose name is known to every American newspaper reader.

The whole question of reparations is up in the air," said another whose work keeps him in touch with British, American and French leaders.

"It's all off again," said another, who has been plugging away for weeks in the solution of the Russian problem and had reason to yesterday to believe it was being worked out.

In the meantime the Italians renewed their talk of withdrawal, but only succeeded in obtaining the suggestion that other nations be in better position to withdraw than Italy.

The Greek identified as the day progressed. By dinner time President Wilson had been snuffed into the "Lullaby" of the League of Nations.

Reports on the Fringes were gravely shaking their heads and speculating on what would happen "if the worst came to the worst."

Labor Crisis of Great Britain Is Believed Averted

Industrial Trouble of England Is Checked by Agreement Reached Last Night

LONDON, April 5.—The industrial crisis which has threatened Great Britain for many months was believed today to have been successfully averted by the program agreed on late yesterday at a joint meeting of workers and employers representatives.

The program, based on the report of the committee appointed at the industrial congress five weeks ago, provides: Formation of a national industrial council.

Forty-eight hour week for all industries.

Universal minimum wage.

Provision for maintenance of the unemployed.

Raising the age for child labor.

RESTORE SUMMER RATES FOR PLEASURE TRIPS

Low Fare for Excursions Is in Effect From May 30 to September 30

SAN FRANCISCO, Calif., April 5.—Recreation and summer trip summer fares for practically all summer resorts, effective May 30 to September 30, inclusive was announced today by F. E. Satter, assistant traffic passenger manager for the United States Railway Administration.

The rates apply to practically all summer resorts to which summer tickets sold in the past, said the announcement.

There will be two general classes of fares:

1—For tickets limited to three months—reduction of 20 per cent from double the one way fare.

2—Tickets limited for 15 days, sold Fridays and Saturdays—reduction of one third the double one way fare.

Fifteen day tickets will not be sold to points more than 400 miles distant.

PARIS DESPONDENT OVER FAILURE OF CONFERENCE TO TAKE ACTION

Even Conservative French Journals Adopt Downright Pessimistic Attitude on Long Drawn Out Delays on Part of Big Four

CONTINUED DEADLOCK MAY RESULT IN POSTPONEMENT OF DETAILS OF PEACE

By WILLIAM PHILIP SIMMS

PARIS, April 5.—Even the conservatives of the French press, exasperated by lack of the most remote scrap of conservative news from the peace conference were slipping deeper into the slough of despondency today. Nevertheless there was a general feeling that the day is almost at hand when some sort of decision must be announced.

Girl Accused of Murder Is Calmly Waiting Her Trial

Young Woman Who Fed Her Rival Poison to Get Rid of Her Will Answer Charge

SEATTLE, Wash., April 5.—Ruth Garrison, the girl who declared she mixed strychnine in a fruit cocktail for Mrs. Grace Strain, Tuesday, March 10, at the Bon Marche lunch room and calmly watched the wife of her lover die in agony, will face a jury in Superior Judge Tallman's court May 5.

Date the trial was set today by John D. Carmody, deputy prosecuting attorney in spite of the opposition of the girls' attorney. An effort may be made to have the trial date changed, as one of one of the Garrison attorneys has another case for the same day.

Meanwhile, Dudley J. Storms, the former deputy sheriff, who says Ruth Garrison wanted, in the jail at Okanogan waiting trial on two charges growing out of his friendship for her.

Salvatore Barzini, member of the Italian delegation, told a newspaper man last night that the actual question of withdrawing had not come before the delegation. He said, however, that the time might come when the Italian delegation would be itself compelled on this or some other question to determine whether its presence in the conference is compatible with the problem provided by Italian public opinion.

Yet these four, the cynics continue, must express or assist in any kind of determining the fate of the world. One criterion will be whether they marked they had not got anywhere. "My faith, but perhaps its a good thing they haven't."

COMPANY DENIES MEXICAN RUMOR

California Land Men Declare Confiscation of Property Is Mistake

LOS ANGELES, Cal., April 5.—The announcement from Mexico City that the lands of the California-Mexican Land company have been confiscated is a mistake, declared President Harry Chandler of the company when the United Press apprised him of the announcement today.

"Our lands begin with, amount to approximately 880,000 acres, and not the vast acreage referred to," he continued. "Our property is located in the extreme northwest portion of the California-Mexican. Furthermore, there are no strikes in our title. We acquired it by straight purchase. Neither the company nor our predecessors in the title have any contract or agreement, nor is a concession involved."

"Some of our property was acquired through the title of the interest, but the land which is involved in this confiscation order, I am certain, includes property held by others, which was actually sold to the company. It is of interest."

WIFE GETS PROPERTY

TACOMA, Wash., April 5.—Besides an absolute decree of divorce Mrs. Alice Elmore was today given the following: The custody of three children, 195 dollars and 36 cents.

In addition to this price for being cruel, C. D. Elmore must pay his former wife \$50 a month alimony.

GIRL DECIDES TO RETURN TO PARENTS

Runaway Daughter Will Go Back to Her Mother If No Charge Is Made Against Man

SAN DIEGO, Calif., April 5.—Jose Cardenas, central American bus boy who was arrested here following his elopement with Miss Frances Gray, Chicago girl, from Pasadena, has not only lost his would-be-bridal, but is also in the toils of the law.

Although the girl agrees to return to her mother, the condition that no charges be preferred against Cardenas and Geo. H. Gray on that warrant would be sworn out against the youth today, Cardenas is suspected of complicity in recent Pasadena burglaries.

PORTUGAL SEES FIRST REAL GAME OF BASEBALL

Great American Sport Is Given Its Introduction to Distinguished Guests

LISBON, April 4.—(Delayed)—Captain A. G. Bennett, Major and Adjutant General Bramard, American military attaché here, arranged a baseball game yesterday between the crews of the submarine chasers Leontina and Warrant. It was the first game ever seen in Portugal.

The Leontina club won, 10 to 2. President Castro was officially presented at the game the receipts of which were given to the institute for re-education of war cripples.

FORCE GERMANS TO LET TROOPS LAND IN DANZIG

Marshal Foch's Demands for Freedom of German Ports for Disembarkation of Poles Is Allowed by Commission

SIPA, April 4.—(Delayed)—Marshal Foch not only forced the Germans to withdraw their objections to Polish troops landing at Danzig, but obtained additionally the right for them to disembark at other German ports, it was announced today by the British commission for the arrival of the troops in Poland it has been decided to employ other lines of transport proposed by the Germans. These dispositions are entirely in accord with the wishes of the allied governments.

At Other Ports

Employment of "other lines of transport" means the allies will use Koenigsberg and other ports which the Germans had originally suggested as substitutes for Danzig.

The agreement stipulates that General Haller's troops shall have access to Poland by way of the Danzig-Koenigsberg railway, but if they have difficulty encountered in this route, Foch reserves the right to lead the Polish soldiers at Danzig.

# CANCELS GRANT IN MEXICO TO COAST COMPANY

### Declaring that Stipulations of Contract Had Never Been Carried Out, Agreement Is Revoked

MEXICO CITY, April 5.—On account of failure to comply with the original stipulations, the government today announced cancellation of the concession to the California-Mexican land company of Los Angeles. The concession granted the company 100,000 acres in California, aggregating 13,486,355 acres in the northwestern portion of this territory, between the 29th and 32nd parallels. A large portion of the property was in the delta of the Colorado river and the extension of the Imperial Valley of California.

The tract was granted to General Andrade, Mexican, by President Diaz upward of forty years ago, under the stipulation that the land would be colonized by the settlement of a certain number of families annually. This agreement was never carried out, the government contends and the land was devoted to cattle and other livestock.

Shortly before the Madero revolution, the tract passed into control of the company in which the late H. G. Olin of the Los Angeles Times and his associates were interested, it is declared. Subsequently the government availed itself of the loophole in the law and improved on a large scale, without being colonized.

The government declared these improvements will be appraised and the lands made revert to the Mexican nation.

It is planned to begin actual colonization immediately.

Other extensive grants to foreigners covering the bulk of the peninsula of Lower California were cancelled twenty years ago on the same ground as that given in the present instance. The government announced that under the terms of the present Mexican constitution, no land has been or will be granted to foreigners.

It was reported that the California-Mexican Land company of Los Angeles intended to sell a portion of this territory to Japanese interests that caused the recent discussion over such a sale and provoked, much excitement on the Pacific coast.

# Peace Proposals of Germans Show Idea of Justice

### Foreign Minister Writes Document Setting Forth Demands of People on Settlement

COBLENZ, April 4.—(Delayed).—Information was said to be in the possession of American army officials that Foreign Minister Brockdorff-Rantzau proposes to insist on the following principles for Germany:

A negotiated peace. Union of Germany with Austria. Admission of Germany to the league of nations on the basis of equality. Return of the German colonies or their value deducted from the indemnities. A referendum of Alsace-Lorraine.

The Soviet government today promulgated a new electoral law giving all workers of both sexes over the age of 18 the right to vote.

The law also divides employers, merchants, clergymen, monks and persons living on incomes of the franchise.

All building materials have been seized by the government, insurance companies have been socialized and the universities are being re-organized.

# CONDITION OF WILSON BETTER

### President's Health Is Improving But He Must Remain in Bed Until First of Week

By CARL D. GROUT  
PARIS, April 5.—President Wilson rested well last night and his condition is now improved, Admiral Grayson, his personal physician, announced today.

Grayson said the president however, has been ordered to remain in bed today and probably tomorrow.

It is anticipated that the president's condition will not develop into anything more serious. Despite rumors which have been in circulation since he was taken to the hospital, there are no symptoms of influenza so far.

Wilson's absence from the peace conference at this time is deplored by all delegates, but they agree there is nothing to be gained in taking chances with a severe cold. The belief prevails that the president will be able to resume his work Monday.

# BRITISH LEAD FOREIGN TRADE

### Great Britain and Dependencies Head List of Purchasers of American Made Goods

WASHINGTON, April 5.—Spending more than one billion dollars a year on goods made in America, according to United States commerce department reports, the British dependencies are paying into the pockets of American exporters nearly one-sixth of the \$20,000,000 that is flowing daily to the United States from foreign customers.

Canada spread her purse wide open in January and spent nearly \$58,000,000 across the border. Some other British possessions and their average monthly purchases are:

East India \$3,000,000; West Indies \$2,000,000; \$60,000,000; New Zealand and Labrador \$97,000; Guiana \$654,000; Gibraltar \$500,000; Egypt \$720,000.

# HUNGARY ASKS WANDERERS TO RETURN HOME

### Foreign Minister Sends Message to Those Who Have Come to America Telling of Advantages of New Republic

BY EDWARD BING  
BUDAPEST, April 1.—(Delayed).—The new Hungarian soviet government through Foreign Minister Bela Kun, today issued an invitation to Hungarians in America to return and enjoy the fruits of the communitarian revolution. He said they would find here a "socialistic fatherland."

Bela Kun also declared that Hungarians want peace with the world and will fight to maintain it.

Peace is Policy  
"Our foreign policy is one of peace," said the foreign minister. "We mean this sincerely. But as we have done away with imperialism, we shall not bow to it again."

"Our internal policy is the basis for our foreign policy which relies entirely upon international solidarity of the working class."

"We have the friendliest feeling toward all nations, especially America which is showing the most impartial and just attitude toward every country. To the Hungarians living in America, I send this message:

Message to Hungarians  
"The circumstances which force you to emigrate have disappeared. You will find here a socialistic fatherland, offering a home to workers, while the old Hungary had a home for no workers."

"We have the warmest feeling for the German proletariat, which taught us the theory we have put in practice. Nothing binds us to Russia except the international solidarity of the working classes."

"I sincerely hope all pending questions with the entente will be settled peacefully. But the illusion entertained a spirit like that of General Hoffman at Brest-Litovsk—basing their action on the power of the sword—the population will rise in arms just as the Americans did in Washington's time."

"Every workman in Hungary now enjoys the greatest freedom. There is no exploitation of men by men. You ask whether establishment of our system may not be interpreted as a political maneuver against the allies. I reply we were working for this system long before the allies started their maneuvers against us."

"Our program provides for monopolization of internal commerce by the state. Internationally, it is free trade; the exchange of goods on a consensual basis."

"The misery in Russia has deliberately been greatly exaggerated. Colonel Robins, of the American army, whom I met there, can corroborate this."

(Bela Kun formerly was an aide to Leon Trotsky.)

"We will try soon to send our representatives to the foreign governments, including the allies."

# Indians of Alaska Suffer From Flu

### Entire Colony Are Stricken With Disease But Are Cared for by Commission

ANCHORAGE, Alaska, April 5.—The Alaskan engineering commission during the recent influenza epidemic, spent thousands of dollars in providing food and medicine for suffering Indians along the line of the government railroad. The total deaths among the natives was 31. The entire Indian colony at Quetana, a station 103 miles north of here, were victims of the "flu" but due to the efficient work of the commission, only two succumbed. Employees, in many instances, acted as nurses for the Indians.

# Last of Americans Depart From Italy

### Final Detachment of Troops Sails for Home Bearing Many Honors

GENOA, April 4.—(Delayed).—The Italian steamer Dante Alighieri left today with the last detachment of American troops. They were given military honors by a company of infantry and a regimental band. General Gougeon and Mefferd, Admirals Martin and Bell, the Prefect and the Mayor wished the Americans bon voyage.

The Dante Alighieri is a steamer of 5,471 tons, built in 1897.

# SUPPRESSIVE MEASURES PREVENT ANY VIOLENCE

### Government Starts Strict Action Against Strikers Thus Avoiding Demonstration

By FRANK J. TAYLOR  
BERLIN, April 3.—(Delayed).—Prompt suppressive measures by the government have so far prevented any violence in connection with the strikes here.

The renowned Augusta regiment was surprised and disarmed by government troops this afternoon. It was reported the Augustines planned to join the Spartacists. They offered no resistance to disarmament.

The general strike continues to spread and reports have been received of occasional clashes between the workers and soldiers. Several persons were killed or injured in riots at Esslingen.

# NO AGREEMENT ON PRICES YET

### Representatives Will Attempt to Reach Some Sort of Settlement Today

WASHINGTON, April 5.—Fear that the industrial board's price agreements offered an obstacle to government prosecution of "trusts" may cause a radical change in plans for lowering prices, it was learned officially today.

A direct ruffled on the point from Attorney General Palmer may be a deciding factor in the dispute between the railroad administration and the industrial board which has caused a serious breach in the president's cabinet.

It is believed that Palmer may decide the present working of the industrial board violates the anti-trust laws.

The president, it is believed, may decide on a "hands off" policy in the squabble and will ask that it be settled without direction from him.

Efforts will be made to reach some sort of a working agreement at a conference of the board and representatives of the railroad administration scheduled for this afternoon. One result may be the reopening of the prices of steel rails.

SOLDIER FINALLY BECOMES LISTED WITH CASUALTIES  
After Years of Service, Veteran Succumbs to Wiles of Cupid's Smile

TACOMA, Wash., April 5.—After serving 30 years—through four wars—Lieut. William Tyree has finally been recorded in a casualty list.

Tyree had gone through all previous engagements unscathed, and had won numerous medals for conspicuous bravery, but finally succumbed. However, his friends are rejoicing for the casualty list on which his name has been entered in Cupid's.

# PRISONERS NOT BADLY TREATED

### Personal Investigator Tells Story of Men Captured by Bolsheviks of Russia

PARIS, April 5.—Lincoln Steffens, writer and personal investigator, who recently returned from Russia, said today that some American soldiers captured by the Bolsheviks informed him they were "better off than those not yet captured."

"I don't believe the capture of American or British soldiers means the untold horrors that have been hinted at," said Steffens.

"I saw several American prisoners taken on the Archangeal front when I was in Moscow week before last. I asked them how they were being treated and they said they had no complaint. I talked with them privately, and they said since they have full freedom of the city, being required only to return to their barracks by 9 P. M."

"They said they had not received enough food but that they got as much as their guards got and when guards got an extra allowance, they likewise got more to eat. Some of them said we are better off than the fellows who have not yet been captured."

COST OF LOVING HIGHER, BUT STILL THE BELLE IS RINGED  
NEW YORK, April 5.—In the spring time young men's fancies lightly turn to thoughts of love, etc., etc., but, Oh, Boy! these thoughts are now expensive.

As a preliminary in the courting days of ten years ago, a fellow could take his best girl a bunch of carnations, a dozen or so, at about two cents apiece and a 50-cent box of candy with lace decorations on the box, gilded tongs, candle cherries and everything. Today carnations are offered at \$1.50 the dozen (\$4 at Christmas or other holidays). A plain box of candies are sold by confectioners to be worth from a dollar up.

On another night in the week, he of

ten years ago might have taken her to the theatre for "ten, twenty or thirty" if she was fond of the real old-fashioned drama. Or, if high-browed, a good seat could be obtained for 75 cents.

He couldn't have found a motion picture house charging more than 5 or 10 cents. Now the prices range from 30 cents to \$2 for a seven-rod movie.

After the flowers, candy and theatre stage is well passed, the engagement ring problem looms. There was a time, a decade ago, when one might have possessed oneself of a real honest-to-goodness diamond of one carat caliber for \$100. Today they glint out of the jeweler's window, nestling in lined boxes, shaded by cards bearing the figures \$250. Some justly attract your attention to the fact that \$250 might beguile them from their resting places.

As to furniture and rent, when the engagement ring episode is over, well, that isn't standardized so closely, and if you are at that stage go shopping and find out for yourself.

At the same time, love is about as optimistic as ever and there is no falling off at the marriage license window.

# COUNCIL MAKES NEW RESOLUTION ON AMENDMENTS

### Colonel House Represents Wilson at Meeting Owing to Severe Cold of Executive—Adopts Another Method

By FRED B. FERGUSON  
PARIS, April 5.—The "big four" resumed its sessions today in a room adjoining that occupied by President Wilson in the Paris "White House." The president, who is suffering from a severe cold, was still confined to his bed by Rear Admiral Grayson's orders. Colonel House represented him at the "Big Four" which held its meeting in the president's residence in the interests of economy of time. His colleague's theory was that if any points came up on which his advice was needed he could be easily consulted.

#### New Resolution

A new resolution adopted by the "Big Four" became effective today. This provides that all delegations shall turn in completed subjects intended for incorporation in the peace treaty to the central committee. Premier Clemenceau instructed the French to follow this course while the others already had embraced, so that the frame work of the treaty shall be constantly under construction.

#### Creating Sensation

Italian agents furnished a diversion to the usual routine yesterday by scurrying over Paris and making sure that everybody knew the Italian delegation would go home Monday unless they got their way. This, coupled with the statement that the Italians were the only ones excited by the announcement. It is also a fact the delegation have been thoroughly impressed with the idea that Italy must have Vienna, the alternatives named ranging from overthrow of the Orlando government to outright revolution.

#### No Course Decided

It can be stated on high authority, however, that no one in a real position to speak over told the "big ten" or any other body that the Italian delegation would withdraw from the conference. In the past it has been pointed out that Italy is hardly in a sufficiently independent economic and financial condition to withdraw, and such a course could scarcely be regarded as politic. There is no doubt the Italians regard the Plims question very seriously. They estimate the fact that 28,000 of the city's 50,000 inhabitants are Italians. They also refuse to negotiate in any way with the Jugo-Slavs still regarding them as enemies.

#### American Delegates Have No Official Information Concerning the Situation in the Archangel Region

American troops in that sector are under British command.

#### Investigate Conditions

Americans here communicated with British military officials but were told that no one knew the source of a story published of impending disaster in northern Russia. They are investigating.

Officers of the American army have never been enthusiastic over Archangel affairs and as soon as the ice breaks up the Bolsheviks will have to move fast to beat the American forces to the sea. Two companies of American engineers are now en route to Archangel to repair the railways and facilitate the troops withdrawal.

# PEACE ARMY TO HAVE AVIATORS

### Twenty-One Aero Squadrons Will Be Retained as Part of Military Organization

WASHINGTON, April 5.—Twenty-one aero squadrons will be retained as the flying arm of America's peace army, the war department announced today.

Demobilization will continue, it was announced until the called personnel is cut to 15,000.

The following aero squadrons will be retained in service, it was announced: Pursuit squadrons 27, 34, 95 and 137. Bombardment squadrons (day) 11, 20, 96 and 166.

Army observation squadrons 9, 24 and 91.

Army artillery squadrons 99, 135 and 275.

Corps observation squadrons first, 12, 56, 88.

Surveillance squadrons 8, 90 and 104. Men in these organizations who were enlisted or drafted, for the emergency, will be discharged without delay upon their return to the United States if they so desire and are eligible for demobilization stated. Their places will be taken by volunteers.

All orders for liberty twelve motors have been completed, the department stated today. A total of 20,478 were produced. Cancellations and suspensions of contracts by the air service up to March 22 totalled \$493,242,379.

# No More France for This Oregon Soldier

ASTORIA, Ore., April 5.—"Don't talk France to me!" That was the first request Sgt. Edward Willikson made to his friends when he was welcomed home from Camp Lewis, where he was mustered out of the service.

"That country may be all right for a Frenchman, but for a free-born American citizen—nothing doing," the former soldier said.

"All that talk about 'Sunny France' is a myth. To be sure the sun does shine once in awhile in summer, but talk about rain—why Oregon isn't it. And the mud, it's a caution. We spent eight days in Brest, and you can rest assured that all you have read about the place is true."

"I'm not the only one who has this opinion of France, for every mother's son over there is longing for the day when he can get back to 'God's country.' That's about all they talk about."

# PEACE OFFER OF RUSSIANS IS ULTIMATUM

### Lenine Proposal Constitutes a Final Decision of Bolshevik Forces to Act in Matter of Allied Intervention

BY LOWELL MELLETT

PARIS, April 5.—Premier Lenine's informal peace proposal to the allies is virtually an ultimatum, it was learned from an authoritative source today.

The Russian Bolshevik leader is known to have suggested a time limit for acceptance of his offer, beyond which he would not undertake to abstain from consideration of Chancellor Scheidemann's proposal as conveyed to Foreign Minister Trotsky. The time limit is understood to be a matter of only a few weeks.

The German government was reported unofficially recently to have sent Karl Kautsky to Russia for the purpose of studying the situation there and possibly effecting an alliance between Germany and Russia.

#### No Formal Offer

The recent statement in the house of commons by Andrew Bonar Law, the spokesman for the British government, denying the allies have received a formal peace offer from Russia, is technically correct. The fact remains, however, that the peace conference has a definite statement of Russia's position bearing Lenine's signature. This, in effect, a concrete declaration of terms of peace to which the Russian soviet government would be willing to listen—and as such, may be considered an actual offer on Lenine's part.

William Bullitt, official agent for the American delegates, who brought the document from Russia to Paris, obviously is not qualified to negotiate with the

allies for the Bolsheviks. The proposal, however, is in the allies' hands, for them to take or leave, as they see fit.

#### Focus Attention

Further, it is possible to assert that it has not been read with entire lack of sympathy.

There is reason to believe that the soviet, with which not only Lenine's statement, but the reports of Bullitt and L. Steffens, unofficial observer, are guarded, is due to a desire to keep attention focused on peace with Germany thus avoiding discussions with possible acrimonious debate regarding Russia, which might delay the German peace program.

# THREE TRANSPORTS ARRIVE IN PORT

### Several Thousand Infantry Men, Aero Squadrons and Artillerymen Land

NEW YORK, April 5.—Three transports arrived today with several thousand infantrymen, members of aero squadrons, artillerymen and casuals.

The Cruiser Frederick brought in 28 officers and 1,535 men of the 337th infantry, all companies and the medical detachment, from Camps Carter, Bowie, Dix, Lewis, Beauregard, Pike and Sherman. There were also 37 casual officers aboard.

The Arizona arrived with the fifth corps artillery park, mobile ordnance detachment, park battery, track companies A, H, D, E, F, and medical detachment, headquarters motor section and park headquarters, 17 officers and 712 men; the following aero squadrons: 640th, 257th, 101st, 43rd, 37th, 174th, 172nd, 10th, 21st, 30th, 31st, 32nd and 33rd and one casual officer.

From the Ilona from Marcellus March 24 were 875 officers and men of the following special casual companies: 1927, 1040, 2408 to 2410 inclusive, 2425, 2431 to 2437 inclusive, 2442, 2443, 2444, 2445 and 2402 and regular casual companies 2403 and 2422.

There's real satisfaction in buying branded and trade-marked goods whose standards of quality never deteriorate—even though, as in war time, the selling prices sometimes fluctuate slightly.

# FRIENDS WILL CERTAINLY DROP IN ON YOU THEN

LONDON, March 20 (By Mail).—Passenger-carrying airships will be able to "drop you where you like" by means of a new parachute capable of holding half a dozen persons, according to British army specialists, who have been experimenting. The parachute, which is ribbed silk, has a diameter of 50 feet, and has a basket for alighting travelers, instead of harnessing them with ropes.

An experienced aeronaut will accompany each "cargo" to guide the parachute to a safe landing place, experiments having proved that it is possible to steer this new type of parachute. The preliminary high velocity "drop" while the silken canopy unfolds, which was such a nerve-racking part of the old method of descents, is eliminated by stretching the ribs of the canopy before parting company with the airship.

# GOODING PLAYS TWIN FALLS FOR CHAMPIONSHIP

## Burley Is Matched Against Local Second Squad for Consolation Trophy in South Central Idaho Tournament

In the final contests this evening of the south central Idaho high school basketball tournament opened here Friday evening, Gooding will be matched against the Twin Falls varsity squad for the championship cup and Burley will play against the Twin Falls second team for the consolation cup. The games scheduled for Friday afternoon and Saturday afternoon have been omitted owing to the fact that Rupert and Heyburn dropped out of the contest, leaving only four teams as contestants.

The preliminary contests Friday evening resulted in a victory for Gooding over Twin Falls second team by a score of 44, and for Twin Falls varsity squad over Burley by a score of 40-22. Gooding, forward, was easily Gooding's star. He made 32 of the 44 points credited to that team. Gooding's lineup included Eubanks and Boelter, forwards; Gooding, center; Venneman and Milledeworth, guards. Milledeworth substituted for Venneman in the second half.

Twin Falls second team lined up as follows: Tessler and Venneman, forwards; Ayotte, center; Steens and Putzier, guards; Cole and Stewart, substitutes. Cole entered the game in the last half and made two of the three points credited to the team.

### Game Close Throughout

The Twin Falls varsity-Burley game was snappy and hotly contested from start to finish, displaying more than evenly matched players on either side. Newman made 20 points for Twin Falls. Canine bore the main responsibility for Burley's game, making 18 out of its 28 points.

Twin Falls played Newman and Parsons, forwards; Glascock, center; Carter and Hval, guards. Reid was barred for four personal fouls and Pize went to his stand. Krenzel substituted for Parsons in the second half.

Burley lined up as follows: Canine and Johnson, forwards; Davis, center; Robertson and Jack, guards. Larson played for Robertson in the second half. Lieutenant Leo P. Bracken refereed the first game and George B. Deenan of the high school faculty, the second. The final contest this evening will begin promptly at 8 o'clock on the high school gymnasium floor.

## TESTIFIES AS EXPERT IN TRIAL FOR MURDER

## HORSES LOSES ITS LIFE ON BLUE LAKES GRADE

### Car Descending Canyon Road Crashes Into Trees Coming Up Breaking Leg of One of Lead Team

A Chevrolet car descending the Blue Lakes grade on the west side of Snake river canyon Friday afternoon crashed into a four-horse team pulling a wagon up the grade. The leg of one of the horses of the lead team was broken in such manner that it was considered impossible for it to recover. The animal was killed where it stood, and the wagon proceeded on the grade drawn by the three remaining horses. The driver of the car is said to have explained that he expected the wagon to turn to the inside or left of the road, whereas it actually did turn to the right. The names of the persons involved in the circumstance have not been ascertained.

# RUSSIA FEARS ECONOMIC RUIN BY BOLSHEVIKI

### Food is Plentiful But No Means to Transport It Is Causing Extreme Suffering in Great Centers of Population

LONDON, April 5.—Despite the fact that the people of Petrograd, Moscow and Kiev are starving, there is plenty of food in Russia now, according to information received by the British government today.

The difficulty, advisers said, is inability to obtain sufficient transportation facilities for food. Only four thousand locomotives in Russia, only four hundred are in condition to use, it was said. Rolling stock is in a state of dilapidation.

#### Hoarding Crops

Peasants suspicious of present currency, are hoarding their crops. Some are said to be guarding their stores with machine guns. The country districts, however, are greatly in need of clothing and other articles and it is believed that can be induced to exchange food stuffs for articles they lack.

There is an evidence of nationalization of women actually being carried out, except in two or three instances, according to the government's information. The soviets themselves opposed the plan.

#### Economic Ruin

Covering the period from the summer of 1918 to the present, the book describes the economic ruin the Bolsheviki rule is said to have caused in Russia and the slaughter during the "reign of terror." One statement recounts how regimental bands often played lively tunes during executions.

The book contains conflicting reports regarding the death of the former czar, but the bulk of the evidence indicates he is dead.

A report received today by the war office stated that five Bolsheviki attacks on the Archaigal front, east of Baku were repulsed March 31. A captured register under the attacks were intended to be decisive.

## STATE READY TO LOAN LARGE SUM OF MONEY

C. A. Ehmer, Head of Department of Public Investment Is Ready for Business

(Special to The News)  
BOISE, April 5.—The department of public investment, which has control of the investment and collection duties formerly held by the state land board and register of that body, states that on the first day of April there was deposited to what might be called the credit of the loan and investment accounts about \$300,000, which the department is anxious to get invested in mortgage loans, on improved farm lands and such school lands as are permitably loaned on.

During the last two months of last year and in January, 1919, loaning on farm lands was almost wholly discontinued. In February and March a number of loans were made aggregating something like \$100,000. Applications for loans to the amount of possibly \$75,000 to \$85,000 are now in process of appraisal, and school bond offerings will be made this month of possibly \$150,000.

Regarding farm loans, the policy of the department whenever money is at hand will be to make speed in investment and determination, so that those who ask for loans will not be subjected to wearisome delay.

## BAVARIA ANNOUNCES SOVIET REPUBLIC

Head of Armistice Commission Receives Wireless of New Move in Munich

SPA, April 5.—Mathias Erzberger, of the German armistice commission, today received a wireless message announcing proclamation of a soviet republic in Munich.

Establishment of a soviet republic in Munich probably means a communist government for Bavaria. Unofficial reports have been received of the presence of Bela Kun, foreign minister of the Hungarian government in Munich where he is said to have been negotiating for an alliance of the Hungarians and Bavaria with the soviets.

At the time of the assassination of Kurt Eisner, Bavaria was temporarily in control of the communists, but the soviets gradually assumed control of the republic.

#### CELEBRATES GREAT DAY

SAN FRANCISCO, April 5.—For the first time since the entry of the United States into the world war, exactly two years ago tomorrow, the presidio will be thrown open to the public in celebration of declaration day. A crowd of 100,000 is expected to attend the ceremonies. The greatest aerial program ever seen in San Francisco is scheduled.

To "finance" a "To Let" advertising campaign you need only set aside a few dollars a few days—a part of your pocket money.

## START CAMPAIGN TO SECURE BOUT

### Brady Attempts to Interest Fight Fans of California in Behalf of Gate City

POCATELLO, Id., April 5.—Declaring Californians are "the world's greatest fight fans," J. Robt. Brady, local capitalist, began a systematic campaign today to swing them under the Pocatello banner for the Willard-Dempsey fight.

Special preparations are being made to take care of Californians in the best possible manner if the Willard-Dempsey fight is staged at Pocatello July 4," said Brady in a statement to the United Press.

Special trains will be run and everything done to add to the pleasure of Californians. Twenty-seven hundred sleepers and seven hundred diners can be parked at Pocatello, D. S. Spencer, general passenger agent of the Oregon Short Line, has assured me. There will be ample accommodations and a special train service will be put on to Yellowstone Park, Twin Falls, Arrow Rock Dam, and other scenic attractions.

"There will be plenty of fishing and the July weather will be ideal."

## SECOND ANNIVERSARY OF WAR APPROACHES

### On April 6 We Celebrate Day of Decision of America to Fight for World Freedom

NEW YORK, April 5.—Two years ago tomorrow (April 6) the United States declared war on Germany and entered the political arena of Europe to settle the future destiny of the world.

The American armies won the war against Germany but the victory which the United States wished to gain for civilization has not yet been realized. The past two years have revealed that most of Europe is from Missouri. The Europeans are taking nothing over and are willing to admit future wars may be improbable only if they are allowed to keep themselves heavily armed to prepare for the war. The two years have introduced America to Europe, but at the same time they have introduced Europe to America, and the surprise is mutual. No longer can Europe refer to America as the land of the almighty dollar, and let it go at that.

The profoundest fact of the past two years is the emphasis that has been thrown upon America's internationalism. The encouragement of idealists since the signing of the armistice terms has not been due to any reaction within the United States, but to a grasping after material spoils which has characterized certain statesmen on the continent of Europe. The two years have witnessed one of the most amazing changes in history as to the attitude of Europe toward the United States. During the critical weeks previous to America's declaration of war, the allies were saying all they wanted was America's moral support. After the United States became a belligerent, Europe pleaded for millions of American troops, and now that the war is over suggestions are being made in Paris and Rome that the war debts be pooled so that the United States shall take over a large part of the financial obligations of the allied nations.

America's experience as a world power has demonstrated during the past two years that Europe is more keenly aware to material advantages than the United States ever was. The exhaustion of the European countries accounts for much, but by no means for all of their efforts to get all they can out of the peace treaty. The old diplomacy of loot is far from dead.

This means that events of the past two years, and especially the most recent months, have proved that the leadership of the world, if there is to be a new civilization, must pass to America. The European diplomats admit as much when they confess that there can be no league of nations without the United States. Europe is still the home of quarrelling statesmen and of international rivalries. The United States has none of the ferocious instincts of future disputes which are not settled in Europe. For two years, America's prestige has constantly risen abroad largely for this reason. It is impossible to avoid the conclusion that, hereafter, Europe must turn more and more to America for inspiration and direction in the remaking of the world.
