PRICE FIVE CENTS

RADICALS MAKE MANY DEMANDS WITH THREATS

Strike Situation Is Not Improving Throughout Germany, With Government Forces Pondering Best Course

THREATEN TO WITHHOLD ENTENTE FOOD SUPPLIES

Many Seem to Favor Soviet Government of Bavaria but Bourgeois Hold Firm Strong Opposition to Plan

(By Associated Press) DUESSELDORF—Radical demands have been formulated by the workers of the workers' organizations in the political general strike. The demands include the immediate release of political prisoners, the elimination of "class justice" and the abolition of the military forces, coalition with the Russian soviet government and the surrender of the Sbert-Scheidemann government to the council of the people.

Threat that the newly arrived supply of food from entente sources would be held in the event of a strike is met by the counter threat that the food will not resume work until the food is forthcoming.

ESSEN—The strike situation here shows very little change today. The street car employees voted to join the Krupp workers, so that the city's transportation system is at a standstill. Essen also is without lights because of the strike of the electricians.

In the industrial district as a whole there was an increase yesterday in the total number of strikers.

BERLIN—There has been no definite news received from the situation in Munich since the reports were received of early exciting occurrences. From such news as has reached Berlin, however, it seems probable that a soviet government has not yet been proclaimed in any way that can be regarded as official or binding.

The proposals of the plan met with strong opposition in two quarters. The Bavarian diet, it is true, can hardly be expected to meet government but the support of the troops in Munich (who were reported in Munich dispatches Saturday to have expressed sympathy with the soviet cause) does not mean that their intention to maintain neutrality although they would not protect the diet building which is armed with machine guns.

Meets Opposition The proposals of the soviet idea, however, have met with great opposition on the part of the bourgeoisie, on the one hand, and the peasants on the other hand. The peasants have been urged to join the soviet government but they would refuse to deliver in case a soviet government were proclaimed.

The unexpected opposition to the establishment at present of the soviet form of government manifested by Bavaria is most of the independence in Berlin, has not been without its effect, as he holds great influence in certain radical circles. The peasants league likewise is opposed to the plan for increasing the government and it is both politically and economically a strong factor in Bavarian life.

The rumor spread broadcast yesterday that the government had decided to move to Bamberg in northern Bavaria, has been officially denied.

RESERVE OFFICERS MAY GO INTO REGULAR ARMY

Ensigns May Be Transferred for Temporary Service to Navy Under New Bill

(By Associated Press) WASHINGTON—Officers with the rank of ensign of the line in the naval reserve force, whether on active or inactive duty may be appointed for temporary service in the regular navy under a bill published today by congress. These still on active duty must be recommended by their commanders or commanding officers and those on inactive duty may apply direct to the bureau of navigation.

BUDAPEST COMMUNIST GOVERNMENT REPORTED OVERTHROWN AND FOREIGN MINISTER BELA KUN ASSASSINATED

VIENNA.—The Hungarian communist government in Budapest has been overthrown, according to rumors current in official circles, the newspapers say. Bela Kun, the foreign minister, is reported to have been assassinated. The reports do not say whether the attempted revolution in Budapest was organized by the communists or the bourgeoisie parties.

The communist government in Budapest was on that day Bela Kun, in a statement, said that General J. C. Smuts, the chief allied representative of the various states of the old Austria-Hungary, had proposed a conference to discuss boundary and other matters. Recent reports from Budapest and Vienna that the communist government was not meeting with success in carrying out its measures in office Saturday and Sunday had been made to the effect that the communist government had been overthrown, at least in the Hungarian capital.

CONDITIONS ARE SHOWING CHANGE

Improvement Begins to Be Manifest Along White Sea Base of Operations

(By Associated Press) LONDON—There has been an improvement in conditions at Kaula, on the White sea side, it was announced in an official dispatch from Murmansk under date of April 6.

A rising of the Finns, Karelians and Bolsheviks had been planned on a large scale, the account states, but the arrangements that require elements for the allied troops were on the way and that other military preparations had been taken to meet the situation have overruled leaders for the time being.

The leaders of the Finns, Karelians (among which, according to recent London reports a defection had been threatened) have signed an agreement to the effect that they will in the future comply with the wishes of the commanding officer. This, says the dispatch, does not imply that the danger has completely passed, but it is a step in the right direction.

WARREN FRENCH AID

PABIN—Moria Ravinkoff, former Russian minister of war in the Kerensky cabinet, in a statement today expressed the hope that the plan for the creation of a "Bolshevik-Polish front" against the German general to support the Bolsheviks would be realized. He said that the Bivas alone could not accomplish the task and that the Bolsheviks of Poland had organized a 4,000,000 men joined with the Army of Admiral Kolchak and General Denikin would suffice.

DECLARES IDOL WORSHIP IS RELIC OF DARK AGES

Ask Aid of United States to Enable Them to Take Their Place Among Civilized Countries of Asia

(By Associated Press) WASHINGTON—Dr. Seungman Nien, who, according to cable dispatches from Shanghai has been named secretary of state of a Korean provisional revolutionary government established in Manchuria, issued a statement here today in which he declared it the intention of the leaders of the movement to make a Christian country of Korea, "one that is free of Japanese domination." "This," said the statement, "would make Korea the first independent country in Asia to become Christian. Koreans will not stand for a healthy autocratic government like that of Japan. They have been trained under American Christian influence, and the leaders are all imbued with American democratic ideas. Seven of the eight members of the cabinet of the provisional government are Christians and our government will naturally follow the American form of government as nearly as it can be done."

Koreans are united in their demand for democratic Christian government like that of the United States. Hatred of idolatry is in the air, and the detestation which Koreans feel for the Japanese authority, which requires worship of the mikado's image. Hundreds of times have Christian students in Korean schools been forced to the public celebration of the mikado's birthday refused to bow their heads before this image because it is against the teaching of the second commandment and for their conscience sake suffered arrest and torture.

American Aid "Our America should help our cause for her own sake. Korea is the natural buffer state in the east, situated between Japan, China and Asiatic Russia. Like Belgium, for this reason, she has always been the battlefield of her neighbors. Her independent existence, until ten years ago, when Japan treacherously annexed her in spite of her solemn treaty and pledged to protect her political independence and territorial integrity.

The Koreans are known as men of the pen, while the Japanese are men of the sword. If only the Koreans are given the opportunity to develop themselves without outside interference, they will produce a new model of Christian civilization in Asia.

FRENCH CLAIMS GET FAVORABLE ATTENTION

Demands of Security, Reclamation and Special Indemnity Seem Likely to Get Results

(By Associated Press) PARIS—An extremely optimistic impression prevails regarding the settlement of the claims of France, also the questions of her security against future aggression and the neutral zone of the left bank and of part of the right bank of the Rhine. This is voiced today by the Petit Journal.

The belief prevails, the newspaper adds, that Premier Clemenceau's viewpoint regarding reclamation of the lost territory and special indemnity for pensions for cripples and war widows will be upheld.

Three of them fulfilled the pledge, but when the name of the fourth was called, a gray headed man stood up to explain his son's absence. He explained that the boy had been killed in action.

Polish Premier Declared His People Regard This Matter as Settled Long Ago

(By Associated Press) PARIS—Ignacy J. Paderewski, the Polish premier, declared today that the Poles were bitterly disappointed at the recent announcement of the re-opening of the Danzig question, which had been regarded as settled. Paderewski, who was born in Warsaw, M. Paderewski said, showed great anxiety over the state of affairs and a fear that serious results might follow unless the question was assured that Poland was really independent of Prussia and Germany and would have access to the sea through its own port of Danzig.

YAGUI INDIANS ON WAPATH, CROSS LINE, SECURE ARMS AND AMUNITION

(By Associated Press) NOGALES, Ariz.—Yagui Indians yesterday crossed the boundary from the state of Sonora, Mexico, into the United States, obtained a large amount of arms and ammunition and then crossed into Mexico, headed, it is believed, toward Nogales, Sonora. This information was brought here today by Mexican officials. The Yagui Indians, C. Carman, United States army commander here, for assistance to stand off the Yaguis, who the Mexicans fear, intend to attack Nogales, Sonora. As a measure of precaution Colonel Carman has ordered a mounted detachment of the 25th infantry to Lochiel, Ariz., though he stated that he believed the affair had been much exaggerated. In the meantime the streets of Nogales, Sonora, are filled with heavy armed Mexican soldiers, and excitement prevails in expectation of the Yagui attack.

MEMBER OF ASSOCIATED PRESS

The Associated Press is exclusively entitled to the use for republication of news dispatches credited to it, or not otherwise credited, in this paper, and also the local news published herein. All rights of republication of special dispatches herein are also reserved.

The News made a change in its columns today by the addition of three words. But with those four words, 'By Associated Press.' The News has added to its staff more than a regiment, indeed almost an army of men; has made available to its readers the activities of more than eleven hundred of the best newspapers in the United States; has made subservient to it more than 50,000 miles of leased telegraph wires, manned by the most skillful and painstaking operators in the world; has affiliated with itself a corps of correspondents at Washington and at the capitals of most foreign lands and has put itself in touch with ceaselessly vibrating wires which minute by minute through daylight and darkness throbb with the world's most important happenings.

That change accomplished a great deal, an amount scarcely to be thought possible for only four words. But consider what those words mean. They mean that the News is now a member of the greatest news gathering and distributing organization the world has ever seen, The Associated Press. They mean that as one of more than eleven hundred leading papers of this country, The News is now entitled to the fruits of their individual activity and genius. Each piece of news gleaned by any of these publications is at the disposal of The News, and if of sufficient importance will be printed in these columns.

This is a service which money alone cannot buy. The Associated Press is not a profit-seeking nor a profit-making organization. It is an association, as the name implies, for the mutual benefit and primarily for the interchange of news among its members. At the same time so elastic is the basis of the association that more—much more than a mere exchange of news is effected by the organization. To make it a more efficient servant of its member papers, The Associated Press has established a staff of experienced newspaper men at the principal news centers. These men are ready at a moment's notice for emergencies. A flood, an epidemic, a great disaster, a threatened border, a world war and men skilled in getting news, in feeling news, in transmitting news are speeding to the scene. In foreign fields a trained corps of correspondents looks after the interests of the eleven hundred odd members of The Associated Press and wherever there is news sees to it, with the certainty born of long experience, that no item of interest shall go unrecorded. Trained for years along lines of absolute impartiality, serving a membership as varied in opinion as its numbers, the correspondents of The Associated Press permit no trace of partisan feeling to distort their dispatches. Clear, concise, quick statement of fact is their constant aim and achievement. Membership in this great organization is not contingent on a fixed price. In addition to being assessed a share of the expense of conducting the enterprise The News has assumed the responsibility of faithfully and accurately reporting, for the benefit of its fellow members, all the important happenings in this locality. Failure to perform this duty would blot out the three significant words from its columns and show it unworthy of a place in the membership of the association. The chalk line of truth is the measure of responsibility of all the members of The Associated Press. Each must see that line. Each item going from us to the other members, or coming to us

from them, must carry with it the certainty of accuracy. Only thus can the co-operation which is the base, be effective, and only thus can the accuracy which is the foundation stone be established in the service hearing the guide line "By Associated Press."

WANTED-ACTION

Idaho people are inclined to regard the scarcity of employment situation as a sort of bugaboo with which to frighten children. A fact due largely to existing conditions in Idaho. In this section in particular there is little to worry about for a long time to come. Road construction alone takes care of that, added to which there will be building activity and plenty of it in the various towns of Southern Idaho at no distant date.

But the labor situation over the East and Middle West may be regarded as a very real menace to the continued prosperity of the nation. There conditions are not improving, in fact, from all the information available it would appear that they are growing steadily if gradually worse.

It is a question if there can be any permanent sectional prosperity if labor conditions are abnormal over the rest of the country. There is room for doubt if any given part of a country can prosper indefinitely if other parts of the country are facing a lack of employment and a shortage of money. The fact that nearly every town in Idaho today stands on the threshold of an era of development which gives promise of being the biggest thing of the kind, perhaps in the history of the state, need not blind our eyes to the gravity of the situation which exists over the country as a whole. Idaho, as matters now stand, has much to be thankful for, but Idaho in the long run will be in little better case than any other state unless general conditions improve.

It is quite likely that Congress will be enabled to take certain steps calculated to relieve the situation—but Congress is not doing business just at present.

COMBINES 76 SUITS TO SAVE DOCKET FEES

Complaint in Tax Foreclosure Case Is Lengthy Instrument. Seventy-six tax foreclosure suits are combined in one complaint over 200 pages in length filed Saturday in district court here by James H. Wise for C. M. McCormick against Mark M. Murtough and others. Present provisions of the state law, which will be superseded next year, required the filing of a suit in such cases this year or before April 8. The property against which foreclosure proceedings are brought in this case are numerous lots upon which delinquent tax certificates were obtained by McCormick. In filing one of the suits under one head, docket fee of \$10 in each suit amounting to \$760 has been reduced to \$10 fee for the one complaint.

C. J. Hahn, the Twin Falls Bank & Trust company, and the Twin Falls Coal company, as the initiators of subsequent liens against the property, are named as nominal parties defendant.

There's one way of settling an argument which usually satisfies: Try the thing out, test the policy by dispute. If you are not convinced that it will pay you to study the ads in connection with your buying of home supplies, at any rate test the matter.

LOCALS DEFEAT GOODING SQUAD FOR FIRST CUP

Twin Falls Wins South Central Idaho Basketball Championship—Burley Takes Consolation Cup in Tourney Here

The Twin Falls high school varsity team won the south central Idaho basketball championship from Gooding high school's squad in the final contest of the third annual tourney played here Saturday evening. The score was 32-27. Burley defeated Twin Falls' second team, 36-18, for the consolation cup.

The championship game was fast and furious from start to finish. Gooding led at the close of the first half 15-14. Twin Falls staged a winning rally in the second period and led from that time on until the final whistle.

Gooding's squad was held in considerable respect by the local players on account of their previous defeat by the visitors on Gooding's floor. Victory resulted on the efforts of the Twin Falls players as a result of top notch playing by every member of the squad. Gooding, as center for the visitors, bore the heavy responsibility for their game, scoring 21 of the 32 points scored to their account.

Lieutenant Leo F. Barken referred a close game and changes in the local lineup resulted principally from eliminations by the full route.

The Linup. The Twin Falls line-up was the same as entered in the preliminary contests against Burley Friday. Neumann and Kregel as forwards made 19 and 4 points respectively. Glasgow, center, was credited with two baskets. Carter and Reed played guards, Carter scoring four points. Fix took Kregel's place in the last half. Putzier went in in lieu of Fix. Parsons took Neumann's place and made three points.

Gooding played Boelter and Eubanks, forwards, the former making 6 points, and in free throws. Glasgow, play-center and scored 21 points. Venneman and Middeworth played guards, Huddison was put into the game in the last half in Boelter's place.

Consolation Contest. In the match for the consolation cup, Burley played Canine and Johnson, forwards, Davis, center, and Hoyer, guard. Canine scored 16 points, Johnson 12. Twin Falls' second team, lineup with Cole and Yechem as forwards, Ayotte, center, and Parsons and Stearns, guards. Yechem added 12 points to the score, Ayotte 1, Tessie took Cole's place in the last half.
