FRENCH FAVOR FULL PAYMENT OF WAR DEBTS

Members of Chamber of Deputies Protest Against Peace Conference Letting Germany Off Too Easily

COMPLETE RESTITUTION IS DEMAND OF FRANCE

Writer Declares All Proposals Offered by His Countrymen Are Rejected by British and Americans

(By Associated Press) PARIS.—Three hundred members of the French chamber of deputies have signed a manifesto associating themselves with the resolutions signed Thursday by the members of the senate in which hope was expressed that full restitution would be exacted from the enemy and that the full cost of the war would be imposed on those responsible for the greatest crime of history.

This is taken by many observers, including French newspapers as another sign of the growing discontent with the peace conference and its work.

"Perkins," writing in the Echo de Paris, warns the council of four that the parliament in London, Paris and Washington, not to speak of others, will not accept "a peace treaty blindfolded."

The preliminaries are being elaborated in secrecy. The council of nations decided to make the league of nations the keystone of their work but at the latest meeting of the league commission as before, all amendments likely to give it bones, muscles and nerves, notably those offered by the French, found no mercy in those great doctrinaires, President Wilson and Lord Robert Cecil.

Aviation Experts Prepare for Race Across Atlantic

Flight Over Ocean Takes on Appearance of Real Sport With Assembling of Machines

(By Associated Press) ST. JOHNS, N. F.—With two airplanes on the ground and two rival camps of British aviation experts hurrying to put the machines in perfect working condition, preparations for the trans-Atlantic flight took on the appearance of a real race today.

The Sopwith airplane which arrived yesterday from the mainland, had been unpacked and mechanics began assembling it on the shore of Quill Vidi lake. Major C. W. F. Morgan and Lieut. F. P. Hayman, air pilots who accompanied the machine, said they hoped to have it ready for a trial flight within three days.

General March Gives Figures on Demobilization of Service Men Up to Date

(By Associated Press) WASHINGTON.—Demobilization has reduced the total strength of the American army from 1,100,000 to 1,000,000, according to a report today by General March, showed the aggregate strength on that date to be 1,000,000.

November 11th, 686,114 men have sailed for home, and up to April have been returned to civil life, 1,701,409 officers and men, 50 per cent of the officers and 40 per cent of the men who were in the army when the armistice was signed.

BOLSHEVIKS ARE BENDING EVERY EFFORT TO WIN

Propaganda Among Allied Troops in Siberia Shows Effects in Reported Mutiny of American Soldiers

(By Associated Press) WASHINGTON.—Company 1 of the 33rd Infantry division left today by General March as the unit which recently refused to return to front line trenches in the Archangel sector when ordered to do so by officers.

A supplementary report to the department on the incident said it was worthy of note that the questions put by the men of company 1 to their officers were "Is there any chance of the return of our country to the conditions which Bolsheviki propaganda advised that they put to them."

The department has not received copies of the Bolsheviki leaflets containing these questions and General March said he was extremely anxious to secure one. "In my long service," General March said, "I do not recall another instance where American soldiers did not want to fight."

While the actual situation of the small commands of the expedition in North Russia is not known, General March said the reopening of communication to the south over the Ondra bridge solved any military question since it afforded a direct line for supplies and reinforcements.

LABOR PROGRAM CONTAINS PLANS OF NEW FREEDOM

Political Party Recently Organized Announces Platform From Which They Will Attempt to Create Industrial Equality

(By Associated Press) SPRINGFIELD, Ill.—The labor party of Illinois today issued the following statement of its convention:

The labor party is destined to usher in the new day of freedom in the United States—freedom from the grind of poverty; freedom from the ownership of government by big business; freedom of the men and women who buy food and clothing and pay rent, from exploitation at the hands of the money kings of "kingdoms, America."

Organized workers are members of it. Unorganized workers are members of it. Clerks, housewives, newspaper men, farmers, school teachers, storekeepers, belong to it.

The party advocates the following program to which it pledges itself: Democratic control of industry and commerce for the general good of those who work.

The freedom from economic hazard which comes with a minimum wage based upon the cost of living.

A maximum working day of eight hours and abolition of unemployment by reducing the hours of work still further as necessary to permit all who are able to work to do so.

HOOVER BUYS NEW HOME FOR GREGG SCHOOL

Purchase by Founder of Business College of Building Formerly Occupied by Postoffice Is Announced.

Purchase by M. S. Hoover of the building on Main avenue now formerly occupied by the postoffice, was announced this morning. The consideration was \$15,000.

The second floor will be occupied after June 1 by the Gregg Business college. It has been occupied for several years by the Knights of Pythias, Moose and Eagle lodges, under lease to the Moose lodge which has expired.

Believes in Twin Falls. Speaking this morning concerning the transaction, Mr. Hoover said: "We believe in Twin Falls and in its future and are here to host one of the best towns in the United States."

Unarmed People Attacked. The cablegram reads: "Japan began massacring in Korea. Over 3000 unarmed people killed at Seoul during three hour demonstration on twenty-eighth. Japanese troops, fire brigades and civilians are ordered shooting, beating, hooking people mercilessly throughout Korea. Killed several thousand since twenty-seventh."

Churches, schools, homes of the laboring class destroyed. Women naked and beaten before crowds, especially leaders' families, the imprisoned being severely tortured. Doctors are forbidden caring the wounded. Foreign Red Cross urgently needed."

Source Said Reliable. The information in this cablegram came from a native pastor known to be reliable, and in touch with the situation, according to an official of the Korean national association.

Japanese Official Speaks. T. Ohta, consular general of Japan here, commenting on the Korean situation, gave the Associated Press this statement:

"During the first stages of the Korean situation, if the activities of mobs were not so serious, their demonstrations were confined to the cities and towns and the authorities entrusted the local police departments to control them by means of apprehending the ring leaders and dispersing the crowd. The mobs, however, taking advantage of the lenient attitude of the government, have increased their activities until they amount to lawless outrages and have increased the area of their operations over the greater part of the country."

"Under these circumstances no one expects that the military forces will restore order. If the government allows the riots to take their course, the outrages will not only increase but the movement will eventually ally itself with Bolsheviki forces now in control of the great part of Siberia to which Korea is adjacent."

"Impelled by this situation the Japanese government has now decided to send to Korea a military contingent consisting of six companies and four hundred gendarmes, hoping thereby to restore order and bring back property to the people as soon as possible."

# USE AIRCRAFT FOR FIGHTING FOREST FIRES

## Army Planes and Captive Balloons to Cover Portions of National Forest of West, Filling Important Place

ODDEN, Utah, April 12.—Army airplanes and captive balloons will cover portions of the national forests of California, Arizona, New Mexico and other states this summer, to aid in detecting and suppressing forest fires. In compliance with an order from Secretary Baker directing the air service to cooperate with the forest service in this work, conferences are under way to determine where and to what extent the air scouts will supplement the forest rangers.

That there is a distinct and important use for aircraft in the protection of timberlands is regarded by the forestry officials as beyond doubt, but experimental trial of methods and possibilities will have to be the first step. This is what is now being planned for the coming fire season. Existing airplanes and bases possessed by the army will be utilized for the experiments. Examples of such bases, near enough to national forests to be used advantageously, are the flying fields at San Diego, Riverside and Arcadia in southern California. Other points in the west and in the east are under consideration.

### Bombs as Extinguishers

One of the interesting possibilities to be tested is bombing fires to put them out. It is believed that bombs charged with suitable chemicals can be used with good result. Plans are being tested in transporting fire fighters by dirigibles from which ladders can be lowered to the ground.

The chief use of the aircraft this summer, however, will be for fire detection. At present the forest service relies for this partly on patrol, usually by men on horses, motorcycles, or railroad conductors, and partly on watchers stationed at lookout points. Aircraft have many points of obvious superiority for both classes of detection work.

Incidents in a very broken country, cut up by deep canyons or whose mountain ridges obstruct the view, or in a flat country that affords no good points of vantage, are often overlooked. To pick up fires quickly by the rising smoke or to locate them accurately. For precise location the system in use depends on triangulation through reports telephoned from separate observation points. Airplanes would use wireless in reporting fires, as they have done in communicating with the artillery, and would be used in the same way that quaffo in war is directed to a particular spot or object.

### Flyer's Training School

From the army standpoint, the use of aircraft in protecting the national forests affords a valuable opportunity for training fliers and developing further the possibilities of aircraft and the art of flying.

# FIGHTING BANDITS IS GOOD POLO TRAINING

## Cavalrymen With American Border Forces Carry Off Honors in Signal Style

(By Associated Press) SAN FRANCISCO.—From fighting bandits on the Mexican border, in which a number of the outlaws were killed, to playing polo in the mountains of the Dol Monte tournament all within a week, was the unique experience of Captain Kleopeter of the Eighth United States cavalry team.

The hard riding cavalrymen, were the feature of the tournament and their rugged, hardy appearance at once made a hit with the crowds on the side lines. They had little difficulty in winning from the San Mateo Junior Four in their first game. The other members of the team were Major J. S. Tate, Major Henry M. Anderson, and Lieut. P. E. Upton.

The difficulties under which the cavalrymen practiced in order to develop teamwork may be gathered from the fact that they are stationed at different camps from 15 to 90 miles apart and their playing ground was a stretch of sandy desert.

The quality of polo which has been displayed on the Pacific coast up to date at Coronado and Del Monte is indicative of the fact that it has suffered little or nothing as the result of the comparative lack of playing occasioned by the world war. Both riders and their mounts have made impressive showings.

Many of the stars of the American polo fields now are on the coast and their participation has made for the excellent polo shown. Not the least interesting figure in this connection has been Fossil Keene, a veteran of many contests historic in the annals of the game. Keene was not among those listed in the roll of players but on several occasions he took to the saddle and showed his old time mastery in the handling of both his mount and his mallet.

# GENERAL MEETING IS REPORTED QUIETING DOWN

## Forces in Archangel Become Restless Over Delay of War Department

(By Associated Press) WASHINGTON.—There were no additional reports at the war department early today on the situation at Archangel where a company of American troops were being held captive in a threatened mutiny, refusing to obey orders to entrain for the fighting lines until appeal to by their regimental command. A dispatch of news since the report made public last night after Associated Press dispatch from Archangel had described the incident, was regarded as a favorable sign.

It was assumed that the "general mutiny" which the members of this one company said would develop unless prompt assistance came from Washington, that the American forces in northern Russia were to be withdrawn, could not have materialized without Col. George P. Stewart, the American commander, having reasons to rush through a report.

It was noted in an official statement given out last night by the war department that the mutiny at Archangel, the company continued to refuse to obey orders until Colonel Stewart had taken personal charge of the situation. It appeared possible to some officers here that the entire situation had been created by this man. A single agitator, it was said, can do much to upset a command, and the fact that Colonel Stewart had taken personal charge of the situation, was regarded as a favorable sign.

It was recognized by officers that the situation of the American forces in northern Russia was particularly unpleasant. Weather conditions are trying. There is little of dash about the work there that characterized the war in France, and reports from home tell of the return of the army to civil life and of the receptions, parades and celebrations of victory. The whole picture is one well calculated, it is said, to make the troops homesick and many victims of Bolshevik arguments or similar agitation in their own ranks.

Not Regular Soldiers The units at Archangel are not seasoned regular soldiers. They are selective service men, but in the past they have shown a very high quality of morale in facing the unpleasant task before them as long without organizing manifestation discontent. Even now, officers argued, the mutinous company probably would show a material change of heart if a general attack on the Bolshevik forces which are harassing the command was undertaken.

No uneasiness is felt regarding the American contingent in Siberia which is largely composed of old time regular units from the Philippines. The percentage of professional soldiers, it is thought, is so high in Major General Graves' command that it is highly probable an agitator could gain a hearing among the men.

# PACKERS GIVE PRICE SALES

## Declare There Will Be No Letting Down on Costs Until Europe Is Fed

(By Associated Press) CHICAGO.—The American Meat Packers association in a statement issued today declares that lower prices for meat may not be expected until the war-stricken countries of Europe are enabled to resume their quota of production.

Packers' Statement. "The high prices are caused largely by heavy demands rather than any control aimed to stimulate production has recently been illustrated very clearly in the case of hogs. When the minimum price for hogs was removed, the food administration predicted that the prices might go still higher. The prediction is now being verified.

Prices Continue Up. "High prices continue for a long time. Each day that brings final peace nearer means a greater call on this country for meat. The supply of meat is dependent first of all on the supply of livestock. European herds have been reduced by war.

"Livestock on farms in the United States at the beginning of this year exceeded the number at the beginning of 1918 by 1,000,000 cattle, 4,233,000 hogs and 965,000 sheep. "But the armistice, instead of having reduced the demand for meat, has given us more than 200,000 additional mouths to feed, either wholly or in part. As shipping becomes available, an increasing number of hungry nations will be accessible for provisioning."

# ROCHE HELMETS ATTRACT AMERICANS AS SOUVENIRS

## Soldiers Snowball German Policemen and Chase Them to Get Their Headgear

(By Associated Press) PARIS.—When German officials in the cities occupied by the Americans issued orders for policemen to don their pre-war uniforms they did not realize what an attraction boche helmets have for Yankees.

German policemen were rushed all along the Rhine by Americans who could not resist the temptation to capture helmets from the heads of live Germans. As a consequence of the onslaughts made upon the policemen, American officers and German officials to discontinue the use of helmets. Ordinary caps are far less attractive than helmets as targets for snovballs and pellets. German policemen are now able to walk their beats in safety and quiet.

# LOCOMOTIVE TURNS OVER IN FOURTEEN FOOT DRIFT

## Engineer Is in Hospital Suffering From Burns and Fireman Is Dead in Accident

(By Associated Press) DENVER.—J. M. Hinchey, of Oakley, Kan., engineer of a Union Pacific railroad snow plow special, wrecked at Colby, Kan., yesterday, was brought to a Denver hospital today, suffering from severe scald wounds. Charles Gowdy of Plainville, Kan., his fireman, was killed when the locomotive in which they were working was overturned in striking a 14-foot snow drift in a cut near Colby. Robert Burnett, a fireman, of Sharon Springs, Kan., was slightly injured.

# FLOATING MINES MENACE TRAVEL

## Dardanelles and Sea of Marmora Reported Full of Old Engines of War

(By Associated Press) CONSTANTINOPLE (Correspondence of The Associated Press).—Floating mines in the Dardanelles and Sea of Marmora still constitute great danger to navigation. Several ships have been lost since the armistice through mine explosions. The armistice required Turkey to indicate all mines but it has not been possible in all cases to give their exact positions. Minesweepers have been at work for some time, but naval authorities say it will be many months before the vessels can proceed through the straits with safety. No navigation is permitted at night. On passenger vessels lifeboat drills are held regularly, just as in days when submarines menaced the seas.

Even in the broad stretches of the Aegean sea the greatest precautions are taken against floating mines. In certain areas passengers are required to wear life preservers, and narrow lanes of travel have been marked out for pilots to follow. But it is in the Black sea that the greatest danger exists. Not only are there numerous floating mines there, but extensive unmarked mine fields laid indiscriminately by the Germans, Russians and Bolsheviks. They are a constant menace to shipping. The steamer bearing the American Red Cross mission to Humanium narrowly missed a floating mine while proceeding to Constantia. Often these mines are carried down by the swift current in the Bosphorous straits to the Sea of Marmora, where they are an ever-present danger to the hundreds of naval and merchant vessels.

Naval authorities say it will be several years before the waters of Europe are entirely free of floating mines. Many of the German mines destroyed by allied travelers were found to have been mined by soap. When the report of the mines broke from their anchorage and drifted in many cases to the main line of steamer travel.

# ASPIRANTS TO CITY OFFICES ARE LINED OUT

## Crom and Eldridge to Run for Mayorship—C. Fahrmey Added to List Backed by Local Labor

### THREE-CORNERED FIGHT IN BOTH CITY WARDS

#### Labor Puts Soft Pedal on Reform Movement Which Some of Crom's Backers Will Insist Upon

For Mayor—  
**W. H. Eldridge**  
**J. A. Crom**  
 Councilmen, first ward—  
**L. L. Breckenridge**  
**E. J. Ostrander**  
**C. Fahrmey**  
 Councilmen, second ward—  
**C. B. Channell**  
**O. S. McMartin**  
**H. C. Keniston**  
 City Clerk—  
**W. Minnick**  
**W. B. McCracken**

With the filing of the petition of nomination of J. A. Crom last evening, and the withdrawal of the candidacy of O. J. Johnson, manager of the Ryan Fruit company, the atmosphere surrounding the forthcoming city election is clarified to a point where an unobscured view of the field is possible. There is no designation of tickets by name. The situation presents a fight clear down the line, with the endorsement of labor going to Crom, Keniston and Fahrmey for mayor and councilmen and to W. A. Minnick for city clerk.

**Labor Holds Session**  
 The most important meeting of the forces of labor so far during the campaign was held last night at which time labor's candidates were definitely accorded the pledged support of the members of the building trades council, an representative of labor as a whole. In discussing the matter this morning, George Bowen, spokesman for the trades council said, "Labor has endorsed Mr. Crom for mayor and Keniston and Fahrmey for councilmen. These are all good, clean moral men and worthy of support. Our endorsement of Mr. Crom was not made on the basis of any promised reform movement of any kind. It is true that there has been much talk of vice conditions in Twin Falls, but personally it is my honest conviction that there is not a cleaner town to be found anywhere than Twin Falls. Let us not be interested in the matter of prosecution on suspicion, but if improper conditions can be shown to exist in the city labor would be the first to condemn such conditions."

**Expect Vice Squad**  
 It is understood that Mr. Crom's backers are depending upon his record as an anti-vice crusader, based upon his sponsorship of the champion grand jury investigation of a few weeks ago, to attract for him the support of the more radical among the supporters of the grand jury movement. This element, with such part of the labor vote as he will get, is looked to elect him. It is understood that a definite plan of campaign is now being worked out in the interests of his candidacy and that of Keniston and Fahrmey, and that it is quite likely that this will take about the same form as that of two years ago when the present chief issues with aidlights supplied by minor items designed to provide material for warfare.

It is understood that Eldridge, Channell, Ostrander, Breckenridge and McMartin will make the race simply on their records as citizens with the best interests of the city at heart, and that there will be little if any active campaign on their part.

### MAT CHAMPION WINS AGAINST CHALLENGER

Ad Santel Beats Jack Burns in Match at Buhl, Challenging First Fall in 29 Minutes and Second in 24.

(Special to The News)—  
**BUHL**—Ad Santel of San Francisco, light heavyweight wrestling of the world, won a finish match before a large crowd in the St. James hall Friday evening from Jack Burns, his challenger. The champion secured his first fall in 29 minutes and pinned the shoulders of his hunky opponent to the mat for the second time in 24 minutes. Santel weighed in at 187 pounds and Burns at 193 pounds. Tom Parks of Buhl refereed the match. Burns several times took the champion in uncomfortable positions but was handicapped by his surplus weight. "I am carrying 20 pounds of fat," he declared. "I intend to go into training right and challenge the best wrestler in the world. I believe that I can make a better showing against him."

POLITICAL POT IS SIMMERING

Crom Not Yet Filed for Mayor, Balance of All Nominees Officially in Race

City politics held the floor at a meeting in Union hall Thursday evening of the Twin Falls Building Trades council which has already nominated J. A. Crom for mayor and H. C. Keniston for councilman from the second ward, besides endorsing W. A. Minnick for re-election city clerk, and, in pursuance of its program of retaliation against the nomination Wednesday of a complete ticket excluding its candidate for councilman, is expected to place a complete ticket in the field.

No information as to the proceedings of Thursday evening's meeting would have given out by George E. Bowen, business agent for the trades council, who stated that the steps taken were merely tentative and that as soon as any definite action were taken a statement would be forthcoming.

Crom Not Yet Filed. The nomination of J. A. Crom for mayor had not been filed in the office of the city clerk at noon today.

H. C. Keniston's nomination was the first placed on file. Other nominations by petition filed in the city records Thursday were those of William H. Eldridge for mayor; E. J. Ostrander and L. L. Breckenridge for councilman from the first ward; C. H. Casmal and C. S. Martin for councilmen from the second ward; W. B. McCracken and W. A. Minnick for city clerk.

Social Notes

On Wednesday at high noon Kathern Nicholson and Charles Kevan were married at the home of the bride's parents, Mr. and Mrs. W. W. Nicholson, by H. L. Caldwell of the Knoll Baptist church.

The ceremony took place under an archway covered with orange blossoms and smilax. The bride was charmingly garbed in gown of white pussy willow tulle and carried a shower of white bridal roses. The bridesmaid, Miss Merle Glavin, wore blue pussy willow tulle and carried an arm bouquet of pink roses. The bridegroom was attended by his brother William Kevan. The house was beautifully decorated in green and white. The table where the three-course luncheon was served at the conclusion of the wedding had a lovely basket of carnations and ferns for the centerpiece. Bowls of white carnations formed the decorations for the rooms. Mr. and Mrs. Kevan are spending their honeymoon in Salt Lake and will be at home on their farm near Jerome after the first of May. The guests were Mr. and Mrs. Walter Nicholson, Mr. and Mrs. William Nicholson, Mr. and Mrs. Warner Nicholson, Robert Nicholson, Mrs. Anson Fish, Mr. and Mrs. Arthur Berry, Rev. and Mrs. H. Caldwell, Misses Merle Glavin and Fern Kevan and William Kevan and Ronald Kevan.

Judge O. F. Duvall Awards \$75 Out of \$117 Paid for by Local Concern Against Contention.

In the case of the Idaho Auto & Supply company against Erhardt Herbat, wherein the claim of the plaintiff for recovery of \$117 on account was resisted by the defendant because of alleged lack of authorization for some of the work done by plaintiff on his car, Probate Judge O. F. Duvall Friday afternoon rendered judgment awarding to the plaintiff the sum of \$75. The trial of the case occupied almost all day Thursday in the probate court. The plaintiff was represented by A. B. Wilson and the defendant by Capt. E. M. Sweeley.

PRODUCE FIRM CONSIDERS OPENING BRANCH AT FILER

FILER.—Robert Hellewell, district manager for the Adams Produce company, contemplates opening a branch house at Filer, says the Filer Record. He is here now with three crews of men and three balers preparing to bale 1000 tons of hay which he bought in this section and which will be shipped to the Hansen Live Stock company, with whom the produce company has a contract to feed 7500 head of cattle. The hay will be shipped at the rate of eight cars per day. Three big trucks and trailers are used to haul the hay and each crew has a cook house mounted on trucks. An additional truck and baler have been ordered for service here.

Natural Gas. Natural gas is probably formed in the earth by a process of natural distillation from the animal and vegetable remains of past geological epochs, and is nearly the same product as is distilled from coal in the retorts of gas factories, only instead of the heat of fires, the internal heat of the earth, aided perhaps by chemical decomposition, has caused its formation on a magnificent scale.

# NONPARTISANS SPONSOR NEW UNDERTAKING

### League Experiments in Newspaper World Take Another Twist With Adoption of Morning Publication

(Special to The News.)

BOISE.—The Nonpartisan league experiment in Idaho took a new turn this week when there was lead into the glare of the public spotlight another child of its adoption and creation the Idaho Free Press being daily Idaho politics records its birth on Wednesday, April 9. It is to be the banner under which this new organization in Idaho politics hopes to reach the coveted goal of control of the state government, particularly the legislature. Nampa was selected as the home for the paper.

The fact there has been added to the growing census of newspapers in this state another daily would attract no special attention ordinarily, for papers have come and gone in Idaho and not a few of them have been dailies. But the Press represents a new element that party leaders realize must be contended with. To them it is looked upon by a majority which if it is to be successfully maintained must have behind it considerable capital—financial backing which may or may not be a paper. It cannot be said that the years when it has been scattered at the general election by the defeat of some candidates at the hands of the republicans. They know there is still a bitter fight ahead for control of the big thing that really matters politically—the state government. Both the republican and democratic parties offered to pass legislation that the leaguers wanted. The republicans went into power and did so. There was serious disintegration among the leaguers at the general election. Their ranks were shrunken and their efforts have been made to rally league members to the cause. The daily paper represents one of these efforts—the most costly that has been taken by the leaguers to date.

In its humble call to the rank and file of league members the Press makes this opening editorial announcement, giving a hint of its line of attack:

**After Old Enemies.**

"There are men in Idaho and other states who enjoy unjust privileges. They have grown rich at the expense of others. They are increasing their rights and power by oppressing their fellow citizens. Such men seldom like to see the truth in print. They frequently use desperate means to keep it out of print. The Free Press does not expect to consult the wishes of privilege or the owners of privilege. It will print the truth whether they like it or not."

"There are a number of unjust laws on the statute books of Idaho and other states. Some of them are old; some of them have been passed quite recently. The unjust laws that have come down from former days were enacted by old time privilege to oppress the people. The unjust laws that date back only the last few years were enacted by the legislature to oppress the people. The Free Press will print the truth about such laws."

"Our enemies are those who pray upon the helpless, who oppress the innocent, who claim the mind of man. Our friends are those who strive for a better world."

**Organization Going On.**

While the next Idaho election is months off—in fact over a year, the activity of the leaguers and the venting into the newspaper field is not only of some little significance. It is apparent to party leaders there is going to be a lot of quiet organization work not only on the part of the leaguers but among those promised in directing the affairs of the other parties from now on. It is estimated that the league will vote to see the state whole converted to its standard

of principles and party policy. The republicans and democrats will strive to hold the state within their columns. The leaders of these two old parties are confident that the leaguers can never win in Idaho—that is, so far as capturing the state is concerned. They believe that their parties will keep afloat of the times and meet the demands of a majority of the people. However, organization is found to be necessary. The republicans have decided to maintain state headquarters from here and meet the demands of Burrill of American Falls, former clerk of the house of representatives, in charge.

# YOUTHFUL BAD MEN ARE TAKEN AFTER PURSUIT

### Pair Accused of Burglarizing Rogerson Mercantile Store Nabbed by Deputy Herriman on House Creek

Jesse Smith, 20, and Elvin Bess, 22, claiming their homes near Burley, who are accused of burglarizing the Rogerson Mercantile company store at Rogerson on Tuesday night, were arrested Thursday morning by Deputy Sheriff P. O. Herriman at a deserted cabin on House Creek in Owyhee county, some 30 miles from Rogerson, where they were preparing breakfast when the officer overtook them. They were brought to Twin Falls, arriving here Thursday evening, and are lodged now in the county jail awaiting hearing on the charge. The sheriff's office expects them to plead guilty to the charge.

**Sought Bigger Game**

Until the men were actually taken, Deputy Herriman, who started on the pursuit early Wednesday morning, believed with reason that he was on the trail of two of the most notorious burglars who escaped recently from the Lincoln county jail at Shoshone and who have so far evaded pursuers. The pair, who were described in newspaper and photographs of the fugitive gang. Three ranchmen whom he interviewed on the trip from Rogerson to House Creek, said that they could identify at least one of the men of whom he was in pursuit as one of the burglars.

Deputy Herriman continued the search with Frank Hink and Chester Brackett, stockmen of the Three Creek region, whom he deputized.

**Interrupts Breakfast**

When the trail lead to the cabin in which the youths were taken, Deputy Herriman stationed his aids at some distance from the building and proceeded alone to the door. His advance was unnoticed until he reached the door which almost immediately sprang open. The youths were armed with a revolver of large calibre, but offered no resistance. A considerable amount of the property, which it is said, consisted of some one hundred ranchmen along the route, followed by the youths complain of theft at their hands of provisions and other articles. They were travelling on foot, and it is supposed that they had in view the theft of horses with which to continue their journey.

The youth who gave his name as Smith, it is said, came here from LaMar, Missouri. Bess is said to have roided for some time in Twin Falls, and to have taken part in broncho busting contests here.

# WIRE SERVICE GIVES REASON FOR INCREASE

### Control Board Tells Why It is Necessary to Raise Rates on Telegraph to Keep in Field With Competitors

(By Associated Press.)

WASHINGTON.—In making available today the reasons which govern figures upon which is based the increase of telegraph rates, the wire control board directs attention to the fact that while the increase in prices of products and service of various industrial and mercantile corporations have increased 100 per cent, telegraph service has been rendered at pre-war prices throughout the period when industrial and business profits were unprecedented. "The increase of 20 per cent in telegraph rates," says the statement, "should be considered in comparison with the 100 per cent increase in other prices, and it is less than that found necessary to add to the railroad freight rates and is no greater than has been made generally in other public utility rates in order to obviate financial collapse."

**Compares Services**

Discussing a comparison of the self-contained operations of the Postal company with the smaller proportionate earnings of the Western Union, the statement declares that during the six months from August, 1918, to January, 1919, Postal carried only about one-fourth of the business of the country, limited to profitable fields, while the Western Union carried five-sixths of the business, such of which exist outside of profitable fields, but which gave a service necessary to maintain the requirements of the public. During the same period, the Postal carried only about one-twelfth of the business of the country at an approximate 40 per cent of the volume rate and claimed by both companies to be a loss of 50 per cent of the operating costs. In this connection, the board says it informed instructions were issued by officials of the Postal directing their subordinates to avoid government business whenever it could be done.

**Increase of Costs**

After citing figures to show the enormous cost in wages and material occasioned by the increased scope of operation of the Western Union and declaring that the purpose of the wire board is to make the lowest rate that will maintain service required by the country, the statement continues:

"In making a rate schedule to maintain the telegraph service of the country, discrimination could not be made between two companies performing this service. The fact that the Postal company could continue to carry business at the old rates and still earn its compensation is of practically no significance in constructing a fair schedule of rates for the country as a whole. The Postal system reaches only a fraction of the points at which telegraph service is rendered and at the points which it does reach it could not carry one-half the business offered. Sound public policy dictates a schedule of rates which shall give all the people telegraph service."

# LOCAL SCHOOL NINE WINS ITS INITIAL GAME

### Twin Falls Team Defeats Rupert With One-Sided Score in Opening Contest of Season —to Play Boise

The Twin Falls high school baseball team, which is to meet the Boise high school team in a series of games to be played here at Boise two weeks hence, won its initial game of the season which was played here Friday afternoon at the first high school ground here. The score was: Twin Falls, 14; Rupert, 2.

Twin Falls counted four runs in the first inning, one in the third, two in the fifth, two in the sixth, four in the seventh and one in the eighth.

Rupert scored in the first and ninth innings. In the first, Romsbury walk-off was advanced to third when McNitt lined out a two-bagger and came home on Craven's duplication of the performance. McNitt came home in the second on a drive sent up by Craven and McNitt.

# WIRE SERVICE GIVES REASON FOR INCREASE

### Control Board Tells Why It is Necessary to Raise Rates on Telegraph to Keep in Field With Competitors

(By Associated Press.)

WASHINGTON.—In making available today the reasons which govern figures upon which is based the increase of telegraph rates, the wire control board directs attention to the fact that while the increase in prices of products and service of various industrial and mercantile corporations have increased 100 per cent, telegraph service has been rendered at pre-war prices throughout the period when industrial and business profits were unprecedented. "The increase of 20 per cent in telegraph rates," says the statement, "should be considered in comparison with the 100 per cent increase in other prices, and it is less than that found necessary to add to the railroad freight rates and is no greater than has been made generally in other public utility rates in order to obviate financial collapse."

**Compares Services**

Discussing a comparison of the self-contained operations of the Postal company with the smaller proportionate earnings of the Western Union, the statement declares that during the six months from August, 1918, to January, 1919, Postal carried only about one-fourth of the business of the country, limited to profitable fields, while the Western Union carried five-sixths of the business, such of which exist outside of profitable fields, but which gave a service necessary to maintain the requirements of the public. During the same period, the Postal carried only about one-twelfth of the business of the country at an approximate 40 per cent of the volume rate and claimed by both companies to be a loss of 50 per cent of the operating costs. In this connection, the board says it informed instructions were issued by officials of the Postal directing their subordinates to avoid government business whenever it could be done.

**Increase of Costs**

After citing figures to show the enormous cost in wages and material occasioned by the increased scope of operation of the Western Union and declaring that the purpose of the wire board is to make the lowest rate that will maintain service required by the country, the statement continues:

"In making a rate schedule to maintain the telegraph service of the country, discrimination could not be made between two companies performing this service. The fact that the Postal company could continue to carry business at the old rates and still earn its compensation is of practically no significance in constructing a fair schedule of rates for the country as a whole. The Postal system reaches only a fraction of the points at which telegraph service is rendered and at the points which it does reach it could not carry one-half the business offered. Sound public policy dictates a schedule of rates which shall give all the people telegraph service."
