FIVE STORIES TO GO UP FOR W. H. ELDRIDGE

Decision as to Class of Construction and Character of Structure of New Building Definitely Reached.

FINANCIAL MATTERS ONLY HOLDING BACK THE WORK

Brick with Terracotta Trimings to Be Employed and Block to Be Thoroughly Fire-proof Throughout.

If the Eldridge building is erected at all it will be of five stories, brick with white terra cotta trimmings, with a main store room fronting on Shoshone street, 50 feet front to be occupied by the Eldridge clothing store and two other rooms fronting on Second and Avenue East. The entrance to the upper stories will be by means of that now in use in the Guthrie building adjoining.

Five Stories Decided On

The determination to erect five instead of four stories was reached by Mr. Eldridge after an exhaustive study of the situation by himself and Burton L. Moore, architect. Every phase of the matter was gone carefully into, every possibility discounted and every feature carefully weighed in the light of the present conditions and future growth.

Tank Attempts to Scale Sides of Pike's Peak

Bullet-Scarred Battle Machine Will Make Try at Climbing America's Noted Mountain

(By Associated Press) COLORADO SPRINGS.—The bullet-scarred battle tank which is to attempt to scale the snow and ice-covered slopes of Pike's Peak left Colorado Springs in its hazardous journey sharply at 10:45 o'clock this morning. The departure was witnessed by a large gathering of residents.

Mrs. Florence M. Stone, state chairman of the Woman's Liberty loan committee, christened the tank "Little Tok" in breaking a bottle of water, taken from the springs at the base of the peak. Her husband, Lieut. Zebulon M. Pike, the first American to attempt to ascend the peak.

CONFERENCE DECIDES ON METHOD OF PAYMENT TO SATISFY ALLIED CLAIMS

First Five Billion to Be Paid in Cash or Its Equivalent by May First of 1921; Balance in Bonds to Bear Graduated Interest Must Be Issued at Once

FURTHER PAYMENTS AS INDEMNITY FOR ACTUAL DAMAGE TO BE SETTLED LATER

(By Associated Press) PARIS.—Germany under the peace treaty must pay \$5,000,000,000 in cash or the equivalent in commodities before May 1, 1921. She must also issue immediately to the allied and associated governments twenty billion dollars of interest bearing bonds. The interest on the bonds until 1926 will be either two or three per cent and after that date will be five per cent, according to the present plan.

JAPANESE TROOPS POUR INTO KOREA

(By Associated Press) TOKYO, April 8.—The Japanese war office announces that it is reinforcing its garrison in Korea by six regiments of infantry and 100 gunnery, because the riots there have assumed a dangerous character and extended to all of Korea.

The riots, the war office announcement says, have spread greatly in the last few days and the rioters concern and threaten persons engaged in legitimate occupations. The announcement continues:

"If positive action by the imperial troops is withheld too long there is danger that Koreans connected with the Russian Bolsheviks will take advantage of the disturbances and expose the people to further unrest."

PLANES AWAIT FAIR WEATHER FOR STARTING

Machines Are Held at Dromes Until Rains Cease and Heavy Fogs Lift Sufficiently to Enable Them to Leave

(By Associated Press) ST. JOHNS, N. F.—Harry G. Hawker and Lieutenant Commander Grove, the Sopwith biplane team, went to the airfield today and in view of the conditions anticipated that the start of the trans-Atlantic flight for the next few hours at least was doubtful.

FUNDAMENTALS OF PEACE ARE MEETING FAVOR

Council of Four Finally Determines Upon Vital Points of Treaty Which is to Be Presented to Germans

(By Associated Press) LONDON.—The main items of peace with Germany have been substantially agreed upon by the council of four, the Paris correspondent of the Sunday Observer understands. The only problem which they have not yet approached is that of the Bohemian border, he says.

"The question of Danzig will likely be settled by setting up a kind of autonomous Danzig territory, which including it in the Polish customs area."

The correspondents understand that the council of four seems to have agreed to the proposal originated by Premier Lloyd George which essentially consists in giving France ownership of the Saar coal mines while making the district a neutral state under the league of nations. The questions of reparations and disarmament in the Rhine region, he says, seem also to have been more or less settled in their broad outlines.

ASSIGNS QUOTA FOR BIG LOAN

(By Associated Press) WASHINGTON.—Federal reserve district quotas by percentages and the amounts were announced today as follows:

New York 100 percent 30 1-2; amount \$1,250,000,000; Chicago per cent 14 1-2; amount \$650,000,000; Cleveland per cent 10; amount \$450,000,000; Boston per cent 13; amount \$75,000,000; Philadelphia per cent 8 1-2; amount \$375,000,000; San Francisco per cent 6 1-2; amount \$300,000,000; Richmond per cent 4 3-4; amount \$210,000,000; St. Louis per cent 4 1-2; amount \$195,000,000; Kansas City 4 1-2; amount \$195,000,000; Minneapolis per cent 3 1-2; amount \$187,500,000; Atlanta per cent 3 1-2; amount \$187,500,000; Dallas per cent 3 1-2; amount \$187,500,000.

Establish Old Border

"Those who believed he would try to annex to France the whole or part of the left bank of the Rhine entirely misunderstood his intention," the correspondent declares. "Truly enough, when the question of the western border of Germany came before the council of four, he asked at first for a rectification of the frontier which had been established in 1870."

CONFERENCE IS ASKED TO HELP STEM DISORDER

(By Associated Press) PHILADELPHIA.—A petition filed by Kyu Sik Kim, the Korean delegate at the peace conference in Paris, urging the support of the allied representatives to check the massacres in Korea, is meeting with sympathetic treatment, according to a cablegram received here today. The Korean congress which held its opening session here today.

DENY BRITISH PURCHASE MEXICAN OIL HOLDINGS

Report of Government Acquiring Interests in American Country Are Unfounded

(By Associated Press) LONDON.—A report that the British government had acquired control of the Cowdry oil interests in Mexico is met with a denial issued by Reuters limited today.

It was officially announced in London on April 12 that the royal Dutch Shell oil interests had acquired control of the Mexican Eagle Oil company, an important member of the Lord Cowdry group of oil holdings. It had previously been reported that the British government was taking over its citizens' holdings in the Royal Dutch Shell group, but there has never been any definite statement to the effect that the government had acquired control.

IDAHO WEATHER

(By Associated Press) Tonight and Tuesday fair; freezing temperature tonight.

To Run Fifteen Years The funds will be payable in installments during a period of fifteen years. They probably will be kept in the control of a central commission of the allied and associated governments so that they shall not be marketed in quantities sufficient to break the price.

Other Payments Later

Germany also must obligate herself to pay other amounts for damage done, appropriate to her means, to be determined by a mixed commission of representatives of the allied and associated governments and of Germany, which shall report before May 31, 1921. The exact amount of the bond issue will be determined later according to the kind of money in which it must be paid. If the money is in gold, the sum will be larger than \$20,000,000,000 at the rate of exchange before the war but that is the general nominal sum. These bonds amount to \$5,000,000,000 each and \$20,000,000,000 in bonds are not all that Germany will have to pay. They are the minimum.

ATTACK SPARTANOS DUISBURG.—On Saturday night and Sunday morning government troops attacked Spartan forces entrenched in the Oberkirch quarter in the southeastern section of the city and after a violent bombardment with artillery and machine weapons, ejected them.

SOVIET FORCES FLEE

BERLIN.—Government troops sent against the Brunswicker forces are reported today from Magdeburg to have come into contact with the outposts of the Brunswicker communist forces. The outposts fled before the advance of the government contingent.

LEGISLATORS NOT BARRED

BOISE.—Attorney General Black has handed down a decision to the effect that members elected to the legislature may be candidates for city office. Representative Hoff of Bear Lake county came under the ruling with Senator Mason of Shoshone county. The decision is a candidate for mayor of Montpelier and the latter for mayor of Kellogg.

Korean Delegate at Peace Session Files Petition in Matter of Japanese Treatment of Countrymen

(By Associated Press) PHILADELPHIA.—A petition filed by Kyu Sik Kim, the Korean delegate at the peace conference in Paris, urging the support of the allied representatives to check the massacres in Korea, is meeting with sympathetic treatment, according to a cablegram received here today. The Korean congress which held its opening session here today.

The cablegram reads: "Petition filed meeting with sympathetic treatment. Tell congress I join with them in earnest prayer for its success. Only sacrifices will bring desired results. Stand firm against the allied representatives. With this determination we will win."

"Appeals from Korea have reached us for assistance from the American Red Cross for the wounded and killed. Medical attention refused them. Please see what you can do."

REPARATION OF GERMANY FIXED IN PEACE TERM

Amount of Damages to Be Paid by Enemy Is Finally Adjusted by Council in Charge of Financial Plans

(By Associated Press)
PARIS—Alarmed by the result of the bye election at Hull last week, Premier Lloyd George of Great Britain, according to the Echo de Paris, has secured the council of four to re-arrange completely the financial plan to be incorporated in the treaty of peace. Instead of a payment of twenty-five billion francs, the amount of annual payments to be fixed by a commission, it has been decided to fix at once the amount which Germany will have to pay within fifty years. This amount is kept secret but is estimated by the newspaper that a figure of 250,000,000,000 francs has been agreed upon, which includes all war damages as well as the cost of pensions.

First Installments

Fixing the total sum will have the merit of facilitating treasury operations and the carrying out of mutual measures for assistance among the allies. The first installment of twenty-five billion francs will be made in eighteen months, the newspaper declares.

Other newspapers however do not say any such change in the terms but all information in French quarters agree in regard to the sum. It is said that it is settled the mines will become the absolute property of France and will police the region. The region, however, will be administered by a sort of directorate under auspices of the league of nations. This directorate will consist of one inhabitant of the zone region, one Frenchman and three nominees of the league.

Over Long Period

The regime, it is said, will last for fifteen years, when a plebiscite will be held and in the event that the inhabitants elect to return to Germany the nation will be obliged to buy back the mines, paying in gold.

To carry out this task would be no mean feat, especially since the Echo de Paris and Le Journal who declare it to be simply a repetition of the Tanager regime, which they say has been seen to be the equivalent of "most complete inertia."

General Disaffection

Neither are the critics satisfied with the plan for military occupation of the left bank of the Rhine, although the mistake is not followed have not been finally decided upon. It is stated in French quarters that this will be entirely in the hands of French troops who will guard the bridges and railroad junctions. In addition there is to be a new thirty mile neutral military zone on the right bank of the river, it is said. These two measures will be taken only if Germany, the French troops being progressively withdrawn as installments of the debt are paid by Germany as was done by that country with the French in 1871.

"Portinari," writing in the Echo de Paris maintains that if France is left to "guard alone the common good of civilization she ought to be backed actively by a defense with England and America which is clearly defined in detail."

EGYPTIANS ARE QUIETING DOWN

Official Statement of General Allenby Contains News of Beginning of Peace

(By Associated Press)
CAIRO—An official statement issued at the headquarters of General Allenby, special high commissioner for Egypt and the Sudan today reads: "Since noon yesterday quiet has prevailed throughout Egypt. An attempt on Thursday to tamper with a railway resulted in five arrests, while attempts to interfere with telegraphic communication resulted in the village of Beni Sembil being surrounded and given three days in which to produce the guilty persons. On Friday two rioters were killed and one was wounded when they were caught cutting telephone wires near Queens."
"Four hundred persons have been arrested in connection with recent rioting."
"Apart from collisions with mobs on April 8th, 9th, 10th and 11th, four officers and fifteen men have been killed through attacks on individuals. The police report the civilian casualties for the 24 hours ending at noon on Friday as being three killed and 15 wounded."

COAL OWNERS AGREE ON WAGE INCREASE

Government Sanctions Raise in Prices to Consumer and Higher Pay for Miners

(By Associated Press)
MELBOURNE.—It is stated that the coal owners have agreed to increase miners' wages 2 1/2 per cent and that the government has sanctioned an increase in the price of coal. The premier of New South Wales objects to the new arrangement, saying it would cost New South Wales 100,000 pounds sterling annually. Acting Premier Watt of Australia, however, says the coal shortage is grave and opposition by New South Wales is in the most serious dislocation of the industry Australia has ever seen.

DICTATOR TRIES TO OUST SOVIET

Attempts to Remove New Republic From Capital Are Reported as Progressing

(By Associated Press)
MURMUR.—A report from third army headquarters at Murmansk says the garrison has established a military dictatorship in support of the Hoffmann ministry, which the soviet regime seeks to oust from office. Action to remove the capital from soviet control is progressing favorably, it is said.

Dr. Adolf Lapp, who was appointed commissioner for foreign affairs in the soviet government on April 9th, has been replaced in an insane asylum, according to report. When his appointment to this office was announced, it was said that he and other officials had been confined in an asylum for mental derangement. Dr. Levien, leader of the independent sovietists, is believed to have fled, and sixteen soviet leaders, including Herr Kanner, Herr Wagner and Herr Niessmann, members of the soviet ministry, are said to have been arrested.

BRITISH REVIEW LATE ELECTION

Papers Declare Electors Have Been Fooled Into Voting and Are Highly Displeased

(By Associated Press)
LONDON.—In commenting upon the result of the Hull, Bye election last week in which the coalition, or government candidate was defeated, the Daily Express writes: "We have faith in David Lloyd George and Andrew Bonar Law as the heads of the government but no belief whatever in the abilities of several of their colleagues or in the political views of these gentlemen are forcing on an unwilling people. The country is crying out against the men who want to carry the spirit and methods of the war administration into an era of peace."
The Daily News, finds in the result a definite pronouncement against conscription.

Electors are Displeased

The Manchester Guardian declares the electors think they have been fooled and don't like it. There was a great deal of humbug and pure demagoguery at the general election and un-likely and untrue promises were made in more ways than one responsible for these things. Germany which was to pay all, will pay something, if we are to believe the German state holding together, but not a tithe of what the electors were encouraged to think who would be made to pay."
The Guardian also accuses the defeat to the disillusionment over the punishment of the Kaiser and the abolition of conscription.

MORE IRON CROSSES

(By Associated Press)
COBLENZ.—Iron crosses still being awarded to German soldiers in various parts of the country. Newspapers in the American occupied areas as well as those published in unoccupied Germany every few days carry notices to the effect that word had been received from the war ministry that a soldier has been awarded the iron cross for some act of gallantry during the war.

NEW COVENANT IS CRITICIZED VERY HARSHLY

British Papers Find Fault With League's Revised Draft, Many Picking Flaws With Added Amendments

(By Associated Press)
LONDON.—The summary of the amended covenant of the league of nations evokes no enthusiasm in the London morning newspapers and it is declared by some commentators to be less satisfactory than the first draft. The Chronicle, for instance, points out certain points which it thinks make the new draft "distinctly and perhaps decisively inferior to the old."

The newspaper condemns the policy of requiring unanimity for the decisions of both the council and assembly and also condemns the terms upon which the covenant may be amended and permission given to nations to withdraw on two years' notice. It regards the covenant as unharmed by the Monroe doctrine amendment, which it believes should facilitate the admission of the United States to the covenant.

Finds Small Favor

The Daily News, which is a warm champion of the principle of the league, objects to the constitution of the new council, which, it says, "will manifestly be controlled by prominent representatives of the five great powers when they are in agreement," and it fails to see how the four representatives of other powers chosen for the council can have much independence. The newspaper does not express any great confidence in the efficiency of the league in any case.

The labor newspaper, the Daily Herald, says the summary does not indicate much improvement on the original draft. It declares that from a democratic viewpoint "the league is still an alliance of states and not a union of peoples."

Criticizes Monroe Doctrine

The Post, which is an opponent of the league and a severe critic of President Wilson, refers ironically to the "new garden of Eden" in which "the Monroe doctrine will be the place of the tree of knowledge of good and evil," referring to the "fruits of the western hemisphere being forever forbidden as signatories of the league."

Attributing to President Wilson personally the nature of the draft to which it most objects, the newspaper says that "posterity will place him with Muttetich and Castlereagh as one who worked for the confusion of other nations and the greatness of his own." It concludes by declaring it monstrous that such a covenant should be signed without first fairly being considered by the public and parliament.

WEATHER CONDITIONS ARE UNFAVORABLE TO FLIGHT

Low-Lying Clouds Over Atlantic and Heavy Rain Delay Preparations for Trip

(By Associated Press)
LONDON.—The air ministry reports but little change in weather conditions over the Atlantic route. Variations in barometric pressure were very pronounced this morning with large areas of low clouds and heavy squalls of rain and no change in the very unfavorable condition is likely to occur at this end of the route during the next twenty-four hours.
Conditions over New Foundland are more stable and show no signs of becoming worse.

FORCES PREPARE FOR ASSAULT OF SOVIETS

Troops Are Gathering at Bank of Elbe River in Anticipation of Coming Attack

(By Associated Press)
BERLIN.—A Dresden dispatch to the Vossische Zeitung says that an assault by soviet forces on the citadel in the Neustadt section of the city on the right bank of the Elbe, is expected. Frontier troops and soldiers from Pirna, eleven miles southeast of Dresden, have established themselves near the Catholic church to defend the northern end of the Friedrich Augustus bridge. Some of the Jaeger and Grenadier troops are reported to be unreliable, their arms having been distributed among the insurgents.

SOCIALIST WILL NOT BE FREED

Spartan Prisoner Will Be Held in Jail, Federal Officials Inform Communists

(By Associated Press)
BERLIN.—The soviet congress was informed today that George Leidebour, who is confined in a Berlin jail and whose release was demanded on March 30th by the communist workmen's council will not be liberated.

The independent socialist newspapers print an attack written by Leidebour, while in jail upon Herr Heine, Prussian minister of justice, accusing him of mistreating Spartan prisoners in the March jail. He declares himself in daily fear of being murdered and that Karl Radek's life was in constant jeopardy while he was in prison. Leidebour claims that he has heard the groans of arrested Spartan adherents, who, he says, were being "done to death in some hidden recess of the prison." He declares that he has also heard rifle fire "indicating wholesale executions" there.

TREASURY DEPARTMENT GIVES LOAN FIGURES

Official Statement of Coming Victory Campaign Is Announced Today

(By Associated Press)
WASHINGTON.—Quotas of most communities of the Victory Liberty loan will be three-fourths of the quotas in the fourth loan. The treasury explained today, since the \$4,500,000,000 total is three-fourths of the six billion quota of the fourth issue. The goal assigned each community and state is left, however, to the federal reserve district loan organization and is not determined by the treasury.

Quotas of the twelve federal reserve districts are the same in percentage as in the last issue and consequently the amount for each will be three-fourths of the shares in the fourth loan drive. The interest rate of 4 3/4 per cent is the highest borne by any of the war loan issues but is lower by a quarter

AN OPPORTUNITY.

Twin Falls tomorrow evening, when the fire-spitting tanks backed by hundreds of service men of this vicinity pass up Shoshone street, will see an approximation of the conditions under which those men fought, or were ready to fight to the bitter end for the principles for which this nation stands.

Twin Falls thereafter will witness for the first time in its history the presentation of the military ceremony known as "retreat" which takes place every evening at sundown in every camp or post where soldiers of the United States are stationed, during which time the soldiers stand at rigid attention while the flag is lowered and the band plays the strains of the National air.

Either of these demonstrations which mean much to the man who has worn his country's uniform, is an exemplification of their devotion to the honor of the Nation for which they have given largely. Either is of a nature and importance that cannot fail to be imparted somewhat to those who merely witness them.

It is impossible that these demonstrations, serving to indicate the devotion that characterized the men who responded in prior and sterner demands of the Nation, should leave those whose response is to be measured by other standard, cold and unheeding of the present National demand.

Twin Falls, without these demonstrations, undoubtedly would again have contributed the full measure of her portion in the fulfillment of the present demand. With these demonstrations, the discharge of this obligation should and will become more generally regarded in the light of the privilege which it is.

ACCURACY IS KEYNOTE OF DAILY WORK

Thirst for Knowledge Can Only Be Satisfied When Information Provided Is Known to Be Reliable

The thirst for knowledge, absolute, accurate knowledge, of what is happening and what men are doing is as old as humanity. Means for satisfying that desire were inadequate for centuries and the often repeated cry "I want to know," found no satisfactory response.

Today that condition has virtually disappeared and almost instant knowledge of great occurrences throughout the civilized world is at hand, daily, under the caption "By The Associated Press."

The readers of newspapers perusing a three-line bulletin or a column article with the words "By The Associated Press," above it have certain assurance that the statements there made are correct.

There are good reasons for this assurance. One of the foundation stones of the Associated Press is accuracy. It was in the first instance intended to be the first to announce an important event this organization never hesitates to sacrifice speed to accuracy. Nothing is guessed at. No matter how probable a rumor may appear it is classed as a rumor until its accuracy is definitely established. When the fact is made certain it is announced without hesitation, no matter how strange or improbable it appears.

A case in point was the bombardment of Paris by German long distance guns. The Associated Press men in the French capital obtained definite knowledge that shells and not aerial bombs were doing the deadly work. Military authorities scoffed at the idea of such tremendous range, but The Associated Press flashed across the sea the positive statement that long distance shelling of Paris had begun and the news was read by millions in America before more than a few hundred Parisians were aware of the nature of the new terror.

Rumors Discarded peace, so widely heralded that they threw the nation into a delirium of joyful celebration, which for a time disrupted business, were classed as their proper value by The Associated Press, which promptly and authoritatively notified the waiting world when the armistice was signed, no matter how long the cessation of the world war was determined.

The peculiar formation of The Associated Press, a co-operative organization of newspapers allied for efficiency in news gathering and distributing with no financial profit in view, itself makes for accuracy. Over eleven hundred pairs of editorial eyes each day inspect the lines of copy and before they are in type. A thousand different interests observe each statement sent forth. Each sentence, each word is read by a criticism more intense since it comes not from one point alone, but from every angle.

The critics are of different shades of political belief, of economic opinion and of religious thought, and no higher nor more convincing proof of the solid foundation of accuracy which the words "By The Associated Press," above the lines of copy, can be sought than the fact that even through a heated political campaign reported day by day, the statements of The Associated Press go unchallenged.

"I won't believe it until The Associated Press says so," has become more than a saying; it is a maxim among well informed readers.—Trinidad, Col., News.

GRAIN REVIEW
CHICAGO—Wet weather likely to interfere with the crop movement had a bullish effect today on corn. Opening prices which ranged from half to 1 1-2 cent higher with May \$1.50 to \$1.59 1-2 and July \$1.52 to \$1.62 1-2 were followed by a moderate reaction.

Apprehension that continued rains meant serious delays to feeding gave independent strength to oats. After opening quarter 3-4 to 1 cent higher with July .67 3-4 to .68, the market held firm at near the top of the initial range.
Herk and lard ascended to the highest prices ever known, pork going above \$51 a barrel and lard above \$30 cwt. for May delivery. Urgent export demand together with decreasing supplies of hogs was said to be responsible.

GRAIN REVIEW.
Record breaking prices for provisions counted somewhat as a bullish factor in the corn trade. Corn closed strong at 1 1-2c to 2 7-8c not advance, with May \$1.50 1-4, and July \$1.53 3-8 to \$1.53 1-2.

WOMEN OF WEST SOLIDLY BEHIND CONSUMER WEEK

Mrs. Robert W. Spangler, Here in Interests of Magazine and Home Products, Hints at Talk to Boise Clubs.

In the interests both of "Western Consumers' week" and of the New West Magazine for which she is securing data on Twin Falls for the special good roads and touring number to be distributed at the annual M. Spangler convention in Salt Lake in May, Mrs. Robert W. Spangler of Salt Lake, spent the week and here leaving this morning for Pocatello where she will attend a home products convention given Tuesday by the Commercial club and Women's clubs of the city, and for Boise where she is to be the guest on Thursday of the Commercial and Women's clubs and to talk on "What Western Consumers' Week Means to the West."

Starts in Twin Falls
Along the line of what she will say to the Boise clubs, Mrs. Spangler gave out the following statements: This week, as a western club woman will celebrate the sixth year of its "Western Consumers' week" which had its beginning in the domestic science department of the Twentieth Century club of Twin Falls, Idaho. Each year one or more of the western states have joined with Idaho in observing this week, until today we have Colorado, Montana, Nevada, Oregon, Washington, Arizona, Wyoming and Utah all celebrating with us.

The women of the west are loyal and are standing united in the part they play in its upbuilding will be demonstrated this week. During this week we will urge consumers to ask for western brands, our own state first.

Furnish Soldiers Jobs
Last year we called it Western Women's War Service week and in all our contributions and help we followed the requirements of the our administration. This year our greatest incentive for observing the week is to help find employment for our returned soldiers. This is one of the greatest problems near to the hearts of every one of us.

Let us not be in a hurry to build monuments for our departed. Rather let us first take care of the living, then we will be better prepared to build monuments worthy of the boys who have fought and died for us. The memory of their brave deed will never be forgotten. How can we as women, as housewives help?

How can we provide employment?
Get Western Brands.
During the war many of our manufacturers greatly increased their output by building additions to their factories, installing new machinery, in order to help the government feed and clothe our army. Today many of these war orders are being cancelled. We must not permit our manufacturers increased output of last years decisions to leave labor to be employed or a less demand for the farm products. We can help keep these factories running at full capacity and encourage new industries by asking and insisting on getting western brands.

Just think what it would mean if every man, woman and child next week will ask for Idaho products and western brands. Why it would create such a demand that it would clear the shelves of every retail store in the state. The merchants will be astounded. They would send a rush order to the wholesaler who in turn would send a rush order to the canners for next season's output. The canner would increase his capacity and the farmer. All other manufacturers would prosper likewise. More help would be employed and the good work would spread that the west is prospering, her farmers are prosperous, and her returning soldiers are fast being absorbed in its industrial prosperity.

Can we do this? Of course we can if every man and woman pledge their support.
What is a Slacker?
We have been so used to the word slackers to those who neglected to do their duty during the war that I sometimes wonder if it should not still be applied to those who shrink their duty in helping solve the present problems. And just what terms should be used for the man or woman who comes to the west to make their home where the spirit of co-operation is in helping "build the west" and then continue to send their money to eastern mail order houses instead of helping build up their own town and community. Surely they cannot be called "Slackers" ("a buildge of the west.")

I have often been asked by representatives of eastern firms if I thought we were playing fair in recommending only western goods during the war. My answer has always been self preservation is the first law of nature—we seek first to preserve our state and our town and state and state and state per if our nation is to prosper, and if the eastern manufacturers want our trade let them build branch houses and factories in our west—we our products and labor and we will consider them a western firm.

So this week we are all going to be salesmen, we are going to sell prosperity to our state, our west.
This is a co-operative matter calling for the support of every citizen. It is the spirit that has builded the west—the spirit that is to carry us on to greater things.

GARDENING GETS BOOST FROM TWO NEW ENTERPRISE

Produce Men Hear Proposition of Dehydrating Company Officials—Will Ask Lot for Public Market.

The market gardening industry in the Twin Falls district will receive a distinct impetus this season from two causes. The first cause is the opening here of the plant of the Twin Falls Dehydrating company which will be in the market for various kinds of fresh vegetables and fruits. Initial steps toward the establishment of an official market for the sale by producers to consumers of garden truck and farm produce market, the second stimulus to the industry.

An Initial Step
The truck gardeners of the district will ask the city administration to furnish a lot upon which they may stand with their wagons and sell their produce, each man for himself. This is the decision reached at a meeting Saturday afternoon in the county farm bureau offices here of about 20 produce growers. It is regarded as the initial step toward the establishment here of a more pretentious municipal market system.

Assurance that this request on the part of the growers will be granted already has been indicated by members of the present city council before whom the matter has been presented previously.

Ready When Berries Ripen
The produce growers on this occasion also met with James McMillan, president, and E. H. Guthrie, manager of the Dehydrating company. They stated that their plant with a capacity for handling 20 tons daily of raw material would be in operation in time to take care of the early berry crop and that thereafter they would be in the market to purchase potatoes, sweet corn, string beans, onions, and various other vegetables together with all sorts of fruits.

The Dehydrating company has decided against a policy of contracting for its raw material, the officials said, in order to permit of the widest opportunity to growers to dispose of their produce at this market.
In connection with the dehydrating plant, equipment for the manufacture of cider, jelly and apple butter has been installed. The dehydrating plant is situated on the corner of Wall and Third streets south, where the officials stated, representatives of the company would be glad to meet with garden truck and fruit growers.

DEALS PRISON TERM TO MEXICAN HARNESS THIEF

Judge W. A. Babcock Pronounces Sentence on Lopez for Heavy Pile of Youth.

Sentence of imprisonment of from one to fourteen years in the state penitentiary was pronounced Saturday by Judge W. A. Babcock in district court here upon M. Lopez, a Mexican, who had a week previously entered his plea in this county to the charge of stealing a set of work harness on the night of March 28 from Quincy Foster of Curry. Lopez was arrested on the following day a few hours after the cache in which he had stowed the stolen harness was unearthed by Deputy Sheriff J. O. Herriman.

CLAIMS RABBIT POISON CAUSED HORSES' DEATH

A. L. Hammond Sues Owner and Tennant for Damages.

Poison for jack rabbits put out on a partially unfenced tract in Cassia county owned by C. E. Potter of Twin Falls and leased to Geo. Hedley, caused the death of three horses owned by A. L. Hammond and valued at \$450, according to a complaint in a suit filed in district court here Saturday by Hammond through his attorney, Homer O. Mills, against Potter and Hedley.

The complainant recites that the poison was put out on bits of hay; that Hammond's son fed the horses the hay, causing the death of three of them.

VITAL POINTS OF PEACE ARE TAKING SHAPE

Monroe Doctrine Now Incorporated in League Meets Objections of American Critics, French and Japs Come Later

(By Associated Press) PARIS—The status of the American, Japanese and French amendments to the covenant of the league of nations has been definitely established so far as the league of nations is concerned. The French and Japanese, however, have both made reservations which entitle them to renew, at a plenary session of the peace conference, the questions involved in the amendments so that the final decision is still open.

Taking Shape

As to the affairs of the peace conference as a whole, they are shaping themselves now with the league of nations question and early vital points in the peace treaty are virtually disposed of, so that the date when the enemy delegates shall be summoned to Versailles has been definitively set. The summing up of the peace conference as it will be called, instead of peace "conference" after the enemy delegates are admitted, will, according to the present understanding, occur between April 20th and May 6th, and it is considered not improbable that definite date may be announced by Premier Lloyd George when he arrives at the British house of commons the coming Wednesday.

No Extended Discussion

Indication are that the Germans will be given opportunity to discuss the peace terms before the congress, but that no extended discussion will be permitted, two weeks being suggested as the outside limit for the sessions to be held at Versailles. These sessions, it is expected now, will be presided over by President Wilson, who is said by those close to him to feel that the progress made toward concluding the peace issues that he will be able to remain for the Versailles meeting.

Chief Questions

The chief question as regards the peace terms remaining to be settled, now that the Saar valley and reparations problems have been definitively settled, is virtually all their details, is that of the Rhine frontier. The council of four is likely mainly to occupy itself with this question during the present week. The chief question is the one which has been the subject of contention upon the French contention for security from a military standpoint, the French attitude being indicated as a determined one on this point.

Future Aggression

It is understood also to have been largely France's fear from a military standpoint of another German attack that influenced her representatives in their sustained opposition to the Monroe doctrine amendment to the league of nations covenant. The argument was that if the Monroe doctrine principle were given an European application the effect might be that the United States might be kept from coming to France's help in the event of a future German aggression.

KOREANS WANT FREEDOM FROM JAPANESE RULE

Delegates Representing Three Millions of People Outside Native Country Gather to Assist in Gaining Independence

(By Associated Press) PHILADELPHIA—One hundred delegates including several women and representing the three million Koreans outside Korea assembled in congress here today. Their mission is to assist the independence movement in Korea and secure freedom from Japanese rule.

Facts Not Known
"The facts of Japanese oppression of Korea," said Bryan, secretary of state of the Korean provincial government in Manchuria, who is a delegate to the congress, "are not known to the American people. I speak for her own sake, as well as for the sake of the peace of the world and the principle of justice to strong and weak alike, should know the kind of ally she has in Japan."

More Camouflage
"The Korean congress will do a great service to America by publishing the truth about Japan," whose devilish policy has camouflaged the imperialistic ambition and underhand diplomacy employed by the "Prussia of Asia."

"We hope the American public will take advantage of these sessions to be present at our meetings."

INHERITANCE TAX PROPOSED

(By Associated Press) JUNEAU, Alaska—(By Mail)—Inheritance tax on bill submitted to the territorial house by Rep. A. J. Nordale of Fairbanks. The bill provides for the following tax: On estates over \$10,000 and up to \$20,000, 2 percent on estates between \$20,000 and \$30,000, 2.5 percent; on estates between \$30,000 and \$50,000, 3 percent; on estates over \$50,000, 4 percent.

ALASKA PRODUCTION OF GOLD PROMISING

Fairbanks Fields Give Assurance of Greatly Augmented Output This Year

(By Associated Press) FAIRBANKS, (By Mail)—Considerable progress in the quartz mining activities of this camp in the outlook for the year 1919, with a resultant increase in the production of gold, according to mining authorities. In the Ester district, prospects are especially promising. There several satisfactory quartz veins have been discovered made at the Eva mill, as a result of which it is said at least two more mills will be shipped in "from the outside" upon the opening of navigation in the Smith, Mollawik and other claims on Eva Creek, much development work has been conducted during the winter, and a number of claims have been located and are now ready for the first spring runs of the mills.

NORWEGIAN SHIPPERS ARE LOSING ALL THEIR FAITH

American Methods of Settling for Requisitioned Merchandise Roudly Denounced

(By Associated Press) CHRISTIANIA (Correspondence of The Assoc. Press)—The Norwegian Americans to come to an agreement with Norwegian shippers, regarding the requisitioning of shipbuilding contracts with small nations and unanimously for years caused a steadily increasing bitterness among business men is now coupled with distrust as to the American government's methods of dealing with small nations and is being severely criticized by the whole Norwegian press.

In answer to the criticism, the American public has issued a statement defending the United States shipping board's unwillingness to meet the Norwegian demands for payment of contracts at market value. It is stated that the American shipping board offers to pay only for material and steel on hand when the United States government requisitioned the ships under construction.

The Morgenbladet, whose editor is a member of parliament, denounces American methods and declares that American shippers are not entitled to the whole contract, especially as Norway's rights are, he says, protected by the treaty of 1827.

It is further stated that the \$12,000,000 offered for settlement only covers half the cost of direct initial outlay by Norwegians, and only a quarter the cost entailed at the time of requisitioning the ships. "This, it is charged is contrary to the way America settles for British contracts requisitioned in the United States.

"The American government has a decision she cannot prevent Norwegians from calling this procedure unfair and unbusinesslike," the Morgenbladet adds.

ATROCITIES OF RUSS SHOWN UP

Bolshevik Victims Tortured—Various Cruelties Practiced On Helpless Prisoners

(By Associated Press) LONDON—Reports of Bolshevik atrocities in the Perm district which have dealt largely in generalities now have been supplemented by statements of results of an investigation by Siberian authorities which British officials regard as authentic. They deal with 123 specific cases of death and torture and the examination of 35 bodies of persons alleged to have been killed by Bolsheviks.

One of the worst cases described is that of a girl of 19 years who was taken in December, 1918, with espionage. She was tortured by being pierced 13 times in the same wound with a bayonet. She lived, however, and has made an appeal to these officials.

One group of 22 were killed at Irbit by Letis and afterwards the Bolsheviks continued to take ransom money from the relatives of these prisoners, whom the crime was concealed, it is asserted.

At Ekaterinburg 18 persons were shot at the sewerage dump on January 23, last, despite protests of consuls there, says the Siberian report. The consuls were told that the victims met death in revenge for the killing of one Malshoff who lost his life in a battle with the Czechs.

Of 300 priests in the Perm diocese, the report says, 46 have been killed. Two monks and three nuns were killed.

Examination of the 52 bodies, the authorities say, shows a preponderance of bayonet wounds in the back but in other instances mouths were slit, fingers and hands cut off and the heads of the victims smashed.

URGES TEACHING OF ENGLISH LANGUAGE

(By Associated Press) WASHINGTON—Exclusion of all spoken English from the public schools as the most essential element in the development of the American consciousness, was urged by Mrs. George T. Fisher, general president-general of the Daughters of the American Revolution in an address today at the opening of the 25th annual congress.

The American people are strongly affected by food and clothes, Mrs. Fisher said.

"The kind of an American consciousness can you grow," she asked, "in the atmosphere of sauerkraut and limburger cheese, or what can you expect of the Americanism of the man whose breath reeks of garlic?"

PREPARING FOR RECEPTION OF VICTORY TRAIN

Twin Falls to Stage Elaborate Demonstration with Assistance of Returned Service Men in Interests of Loan.

Twin Falls is preparing for a great demonstration here tomorrow evening on the arrival at 7 o'clock of the Victory special train laden with trophies from European battlefields and carrying returned soldiers and speakers touring the state in the interests of the forthcoming Victory Liberty Loan.

A call for assembly of returned soldiers, veterans and patriots to take part in the march behind the fire spitting tanks up Shoshone street and in the military ceremony known as "retreat" will be stopped in the city park following the arrival of the train has been issued by a committee of the Twin Falls Service Men's club composed of Captain E. M. Swooley, Carl L. DeLong and J. P. ...

Local Itinerary

The Victory special is scheduled to leave Kimberly at 4:15 o'clock p. m. after 15 minutes' stop there, and to arrive in Buhl at 5:15 o'clock to remain there until 8 o'clock. The service men who are to accompany the train to the west will be expected to assemble here at 4 o'clock.

The special will arrive in Filor at 6:30 o'clock for a 30 minutes' stop and arrive in Twin Falls at 7:30 o'clock, remaining here until 11 o'clock.

It is expected that between 300 and 500 returned service men will accompany the railway station here at 6:45 o'clock, where Captain P. W. McRobert will take command. Behind the tanks spitting streams of blank cartridges and the detachment of its fortyseven accompanying the train, with the Twin Falls band, high school band, veterans of the G. A. R., high school band and other military organizations, the service men then will march up Shoshone street to the city park where the ceremony of "retreat" will be staged, the men standing at attention while the flag is lowered to the strains of the "Star Spangled Banner."

The speaking, according to present plans, will take place at railway station after the march, and the trophy train will not be opened until the exercises are concluded.

Through Avenue of Flags

The street along which the march will be made is being decorated today with a profusion of flags strung out from second story windows and suspended over the center of the thoroughfare.

FUNDAMENTALS OF PEACE ARE MEETING FAVOR

(Continued from page one) would amount to re-establishing the French border of 1914. To understand such a demand it must be recalled that the comparatively small district extending between the border of 1870 and the border of 1914 includes places such as Sarrelouis, where 80 per cent of the inhabitants are said to be in favor of reunion with France.

With No Annexation

"Still, an objection was raised inside the council of four that such a step might be interpreted as amounting to annexation, the French government made it clear on March 28 that it did not wish to maintain its demand if Great Britain and America deemed it objectionable. Since that date, France has confined itself to claiming that the end of the Saar valley was due to France as reparation.

"This principle was agreed to by all parties, as it recognized that the transfer of the Saar to France was compensation for the havoc deliberately wrought in northern France by the Germans.

The solution of the Saar problem was suggested last week by Mr. Lloyd George. It consists in giving the Saar a kind of autonomy resembling that of Luxembourg, but in which the territories would remain free from either the French or German administration, the political status of the district being, besides, guaranteed by the league of nations. That suggestion was carefully worked out by a sub-committee. The scheme was laid before the council of four early last week and heartily supported by Lloyd George."

FINISH PLANS FOR NEW HOME FOR AUTO FIRM

Magel Brothers, Distributors of Haynese and Cadillac Cars, to Build Large Sales Rooms and Garage

Architects' plans are practically completed and within the next 10 days the contracts will be let for the construction of Third avenue north between Shoshone and Second streets of a two-story brick building 135x125 feet with basement, to be occupied with salesrooms, warehouse rooms and a garage by the Magel Brothers, distributors in this district for the Haynese and Cadillac cars.

Engineer E. V. Berg is at work today surveying the site of the new building which comprises five 25 foot lots fronting on Third avenue north. The Magel Brothers nearly two years ago at about the time they moved into the building then completed for their occupancy on Second avenue north.

Frank Magel this morning said that plans for the new building had been in process of completion for several weeks but that he had requested that no announcement of the intention of the firm in this direction should be made until there should be tangible evidence of its purpose to carry these plans to fulfillment.

On the first floor, Mr. Magel said, there will be provided handsome decorated and finished floor showing room, a large storage capacity for about 50 cars, and garage rooms fully equipped for custom work. Additional storage and parking space will be provided on the second floor, and in the basement which is to be 40x100 feet, a large supply of tires, automobile accessories and parts will be carried.

HUGE CROWDS GREET TRAIN AT ALL STOPS

Victory Loan Special With Its Grosseome Relics of Battlefields Attracts Thousands of Curious

SHOSHONE—Kuna, Glenns Ferry, Hammett, Mountain Home, King Hill, Bliss, Gooding and Shoshone turned out immense crowds today to greet the Victory Loan special touring Idaho with its gruesome relics fresh from the battle fields of the great war. State Chairman Montie B. Gwinn estimates that fully 30,000 people went through the exhibit and listened to the Victory Loan speakers in the southern Idaho towns visited today. Gov. D. W. Davis is with the special and addressed the people in each town visited. Chairman Gwinn, train officer of the day, Capt. Edgar T. Hawley, recently returned from overseas where he was in the air service and Private Bates who saw service on five battle fronts in England and Shoshone turned out the great crowds that gathered to see at first hand the instruments of destruction the American lads faced to conquer German militarism.

Local speakers of the day were Will H. Gibson of Mountain Home, H. H. McMaisters of Glenns Ferry, and Mayor John Thomas, prominent banker of Gooding and Gooding county. Mr. Thomas spoke at Gooding and guaranteed the support of the banks of Gooding in the Victory Loan drive. "We don't want to make a cent on this loan," he told his audience, "and we will carry you as long as you want us to on these bonds. All you've got to do is to come in and make your subscription. The banks of Gooding county will stand with the people of Gooding county to the limit on the Victory Loan drive. There is no debt on our part to prevent one cent in the handling of this loan."

Governor Davis spoke at every town visited and notwithstanding several spring rains and mud, places where he remained in every instance until the train was forced to leave to maintain its schedule.

CHURCHES PLAN SERIES OF PASSION WEEK SERVICES

Business Men and Public Invited to Take Part in Noon Hour Meetings in Masonic Temple.

The pastors of the Christian, Baptist, Presbyterian and Methodist churches announce a series of 30-minute services for Tuesday, Wednesday, Thursday and Friday of this week to be conducted in Masonic hall beginning at 12:35 p. m., and closing promptly at 1:35 p. m. These meetings will be fresh, enthusiastic and devotional. The working and business men of the city are urged to plan their noon hour, making it possible for them to attend. The general public is urged to attend these meetings celebrating the anniversary last days of our Lord on earth.

ATTEND CONVENTION

WASHINGTON—Probably 1,500 delegates were on hand today for the opening of the twenty-eighth annual congress of the Daughters of the American Revolution at Memorial Continental hall.

Thirteen Bottles on Thirteenth Day Unlucky Situation

Bert Kelso, Lately Released From Custody on Booze Charge, in Again

Arrested here on the thirteenth day of April with 13 pints of whiskey in his suitcase as he got off the train arriving here from Salt Lake, Bert Kelso, colored, is a prisoner in the county jail, charged with illegal transportation of intoxicating liquor. Nine days before his arrest Kelso had been released from custody here at the expiration of a 60-day term in the county jail upon conviction at the February term of district court on a charge of illegal sale of whiskey. Kelso denied the ownership of the suitcase in which the booze was found Sunday. Other articles in the suitcase, however, were identified as his property.

Her name was on the index—the little brown tab that pointed to a chapter of hideous crime! She was hunted by men and haunted by women. Cold, piercing eyes trailed her every move; mocking, sneering, taunting voices leaped up like a bolt in the night and bellowed:

"THERE is the woman—the woman on the index—SHE is the guilty one!"

Oringing, croning with the fear of it all; clinging to the straws of last hope, she kept on, DEFYING grim fate and DARING the green-eyed monster to rob her heart of all that she held dearest—the faith and devotion of the man she loved!

Then the startling climax! The stare of suspicion vanished and the merciless hearts again flowed with the red blood of human souls, for she WON the struggle for the right to love and she trapped the mongrels that would despoil the most noble cause in all the world...
