PREMIER ASKS FOR FREE HAND AT CONFERENCE

Lloyd George Wants Critics to Let Alone Those at Peace Table Who Are Doing What They Think Best For World

LEAGUE OF NATIONS IS GREAT ACCOMPLISHMENT

Praises Efforts of Labor Leaders and Declares He Hopes to See Many Benefits of Weeks of Hard Work

(By Associated Press) LONDON.—The allied representatives in Paris have arrived at a complete understanding on the great fundamental questions that would effect peace with Germany. Premier Lloyd George declared, in addressing the house of commons today. The allies had formulated their demands, and he hoped that by the end of next week they would be presented.

Makes Vigorous Attack The premier made a vigorous attack upon those who had "attempted to sow dissension, distrust and suspicion" between the nations whose cordiality and good will toward each other was essential. He could not conceive of a worse crime, he declared, at a time when nothing could save the world but keeping the nations together.

It is not true that the United States and Europe have been at variance, Mr. Lloyd George declared, adding that no one could have treated more sympathetically the peculiar problems and special susceptibilities of Europe than President Wilson. The premier deplored among the delegates.

Complete Agreement The delegates, said Mr. Lloyd George, had never forgotten what France had gone through and they had not forgotten to what she was entitled—not merely in territory against which she had the German attack, but to feel a sense of security against it. The conference had come to a unanimous conclusion on all the questions before it, including a decision that to publish the peace terms before they were discussed with the enemy would be a first class blunder. Their preliminary agreement, he contended, could only serve to encourage the resistance of the enemy.

Makes Germany Pay Mr. Lloyd George denied that he was trying to escape the declarations he had made during the general conference. The declaration regarding making Germany pay, he declared, had been concurred in by all the party leaders. The premier said he had not come to the house of commons to raise for any pledge he had given.

Every Pledge Fulfilled "I am here to say that every pledge we have given is incorporated in the demands put forward by the allies," he asserted. "We stand by them because we believe they are just. We want a peace which is just and vindicative. We want a stern peace because on the occasion demands it, but it must be designed not to gratify vengeance but to vindicate justice. Every clause and every word of the conditions must be justified. Above all we want to protect the future against a repetition of the horrors of the war."

The premier said he was going back to Paris, if the house wanted him to go. Whoever went, he declared, must have the full confidence of the government and carry out his pledges to the utmost of his power and conviction. Time is Justified With almost every nation in the world engaged in considering these problems, the premier declared, the delegates were justified in talking some time for their work, as a blunder might precipitate a universal war which might be either near or distant. After his reference to this point, which he characterized as the time-saving process of building up the language of peace, and his appeal for freedom for the future, the premier went on to further harping, he continued along this line to point to the dangers of not allowing the conference the calm deliberation they require.

Full of Perils "It is full of perils—perils for this country and for all lands—perils for the peace of the world," he declared. He begged that the men who were doing their best should be left in peace or else other men be sent to do the work. The delegates were dealing with many nations, most of them with problems of their own, each with a different point of view and it required a certain patience and tolerance which could be commanded to prevent the varying interests developing into conflicting interests.

The premier said he believed the conference had surmounted these difficulties but it was not an easy task. Not Even Discussed After saying that there was no question of recognizing the Russian soviet government, that such a proposition had never been discussed or even proposed, the premier said it was a fundamental principle of British foreign policy never to interfere with the internal affairs of other countries. Navy Commander Answers Strike Announcements

Plans to Tie Up Traffic Completely Are Frustrated by Official's Determination

(By Associated Press) WASHINGTON.—Transports will be operated in an out of New York harbor "if it requires the entire United States navy," it was stated officially today in connection with plans of harbor, explaining that he considered it with the announced intention of tying up traffic completely. As to the effect of the strike upon government shipping generally and public utilities, the navy would not concern itself at least until other governmental agencies have been utilized. Assistant Secretary Roosevelt stated this policy today, explaining that he considered it improper for the navy department to interfere before the railroad and fuel administrations had been approached by boat operators to obtain fuel.

FRENCH UNIONS WILL ATTEMPT DEMONSTRATION

Laborites Will Hold Festival on May Day to Show Their Power in Matters Pertaining to Their Organizations

(By Associated Press) PARIS.—If the decision of the six important unions in France is adhered to, May 1st will be observed by a general abstention from work. The delegates of these unions—the railroad workers, miners, dock workers, metal workers, sailors and general transport workers—on a meeting yesterday decided to unite in efforts to obtain recognition of the demands of the workers, especially an eight hour day and increased wages. Delegates recognized that the demands of individual unions had been satisfied in many cases but decided that the members of the unions should not work on May day in order to show the power of the organized working classes and the spirit of solidarity with the unions in less favorable positions.

WORLD NEWS EVENTS

WASHINGTON.—Distinct improvement in the general peace conference situation was reported to the White House today from Paris. It was indicated that excellent progress was being made toward concluding the negotiations.

PARIS.—It is understood that a policy concerning the manner of dealing with conditions in Russia has been formulated by the allied and associated governments. Announcement of this policy, it was thought, would be made before the day's close.

COLORADO SPRINGS.—The attempt to ascend Pike's Peak in a battle tank was abandoned today. The tank broke down late yesterday at an altitude of 11,200 feet and owing to the difficulty of repairing it at that point, the attempt to reach the top was given up.

LONDON.—Complete anarchy reigns in Munich, according to a Copenhagen dispatch to the Exchange Telegraph company. All work has ceased, trains are not running and robbers are looting houses and threatening the banks, the dispatch states. The first infantry regiment is said to have joined the Spartacists.

MINISTER DENIES REPORT OF WHOLESALE EXECUTIONS

Soviet Official Declares Reports of Killing Are Absolutely Unfounded

(By Associated Press) COBLENZ.—A Vienna dispatch to the Acht Uhr Blatt of Berlin says that Herr Boehm, a member of the soviet ministry at Budapest has arrived there and has declared that Archduke Joseph, Dr. Alexander Wekerle, former premier and Baron Joseph Stepienik, minister of commerce, have not been executed as was reported yesterday in Berlin. The archduke is said to be at the hands of the Russian forces. Dr. Wekerle and Baron Stepienik are securely guarded in the prison at Budapest.

WILL FIGHT FOR CLAIMS

(By Associated Press) ROME.—Representatives of twelve cities of southern Italy held a meeting here yesterday at which they expressed support of Italy's territorial claims before the peace conference was expressed. The congress sent a telegraph message to Premier Orlando announcing that the members of the gathering were unanimously determined to fight for the granting of Italy's territorial demands.

PEACE TREATY DOES NOT GET GERMAN FAVOR

Newspapers Comment on Terms of Settlement Declaring Them Unjust, Harsh and Altogether Unsatisfactory

WILL RECOGNIZE NO PACT WHICH MEANS VIOLENCE

Question of Saar Valley Arouses Deepest Resentment Among People Who Declare Against Payment of Indemnity

(By Associated Press) BERLIN.—Semi-official French announcements of the conditions to be laid down in the treaty of peace are denounced by the German press. Prince Liechtenowky in an article in the Tageblatt declares France "forgets that instead of leading to disarmament, an unjustly started peace will bring forth only fresh armaments, throwing into the shade all former armaments, because if mangled fiat peace can be maintained only by the mangled fiat."

Cannot Be Starved Declaring that a peace of violence must be absolutely rejected, he concludes: "Nobody can recommend the war against us. Neither can we be starved out, without the common enemy, communism and terrorism, throwing all mankind back into its primitive state."

"No German government can sign such terms," the Vorwaerts declares. "The entire statement must themselves settle with the inhabitants of the Saar valley, who are thoroughly German and they may find that the sums proposed as indemnity can not be extracted, even if the last sheet is taken from our beds."

Local Answer says: "No more shameless mockery of President Wilson's 'fourteen points' can be imagined than the proposed solution of the eastern question." The solution of the Saar question which is proposed means the covering of naked annexation with a fig leaf, says the local paper. Mr. Wilson seems to have approved of a plan that would be the most tremendous political defeat he could experience."

EXACT DEMANDS OF ALLIED GROUP TO BE PLACED BEFORE GERMANY FIRST

Petitions President For Recognition of Korean Government

New Provisional Form Supporters Ask Wilson to Give His Aid to Cause of Freedom

(By Associated Press) PHILADELPHIA.—A petition for the recognition of the provisional government of the Korean republic was sent today to President Wilson and the associated governments at Paris by the Korean congress in session here. It is the hope of the Koreans that the peace conference will take action on their claims in the near future. The Rev. Floyd W. Tompkins, of Philadelphia, announced to the congress that the federal council of Churches in America had petitioned the allied representatives to urge the recognition of religious liberty in all countries directly or indirectly affected by the decisions of the conference.

Negotiations Are Complete Between Associated Powers

Allies Are Reported in Perfect Harmony With Entire Understanding on All Sides

(By Associated Press) PARIS.—The negotiations between the representatives of the allied and associated governments virtually ended yesterday, the Echo de Paris says. It learns from an authoritative source, the newspaper adds that at no time has the understanding between France and the United States been closer and that the French government is completely satisfied with the attitude of President Wilson. The article says that the final agreement on the frontier between Jugo-Slavia and Italy will be incorporated in the preliminary peace treaty with Germany.

Approve Plans For Owsleys Ferry Span

State Highway Engineer and Federal Bureau Endorse Specifications

(Special to The News) BOISE, Idaho—Plans have been approved by State Highway Engineer Allison for the construction of a bridge costing approximately \$62,200 across the Snake river between Gooding and Twin Falls counties. Approval has also been given by the federal bureau of reclamation, which has the project as one of three spans which will unite the Idaho-Pacific highway. One of the spans will be 200 feet in length.

IDAHOANS ARE MADE WELCOME IN NEW YORK

Wounded Service Men From Gem State Are Provided With Comforts Through Agency Recently Created

(Special to The News) BOISE, Idaho—Idahoans who wish to show some act of kindness to Idaho boys in hospitals in New York city can do so through the designated American troops in the vicinity when a, or Nancy Ellen Watts, who has opened an Idaho room in the Hall of States. Writing to Governor Davis after having the office open one week she says: "From the first day each day has brought more visitors from our boys from the hospitals to whom I have written. Many are boys who have heard of the Hall of States and are all happy to know they really have someone to write to."

"I try to keep cigarettes, candy and fresh flowers ready for them. I am in need of papers from various parts of the state, and have written to the commercial club asking them for a box of apples. They would make the boys so happy, especially those in the hospital."

"We hope now that it will be possible to arrange for a visit to our great ship 'Idaho' with Judge Dietrich to lead the party. If you have any other suggestions, please let me know. I would be glad to receive them. I am gradually finding a little group of people who will help me entertain the 'Idaho' boys."

WAR COST WILL NOT BE ANNOUNCED TO WORLD TILL GERMANY APPRISED

Eyes of Europe and America Focused Upon Session of Teuton Representatives with Peace Conference Delegates, to Be Held at Versailles April 25.

MINOR DIFFERENCES BEING ADJUSTED TO SMOOTH WAY FOR MAIN GATHERING

(By Associated Press) DETAILS of the procedure to be observed at the historic meeting of allied and German representatives at Versailles a week from Friday are being worked out by the allied delegations to the peace conference. It is improbable that the world will know the exact demands of the associated governments until after the Teutons have been formally apprised of the price of peace.

GERMAN CLAIMS ARE DISCUSSED BY CONFERENCE

Question of Island Possessions in Antarctic Ocean Is Considered by Foreign Ministers at Session of Peace Meeting

(By Associated Press) PARIS.—The council of four today discussed questions relative to Schleswig-Holstein, Heligoland and the Adulatic. When the British in question, the foreign ministers met and considered claims which have been made by Germany to holdings in islands in the Antarctic ocean. The foreign ministers also took up the draft of articles for the peace treaty providing for the recognition by Germany of the British position in Egypt and the recognition of the Italian rights under the Suez canal convention; the acceptance by Germany of allied prize court decisions, and likewise the agreement with the future status of Morocco.

President Wilson finished the day by a series of calls at the American hotel. When he returned to the White House, Col. E. M. House, among others, discussing with them phases of the situation in which they are particularly interested.

Putting Snake River Right on the Maps

Government Surveyors at Work Here Correcting Errors Previously Made

Frank S. Spafford, assistant supervisor of surveyors, is here from Boise to supervise the resurveying of Snake river near this city. The government has two surveyors and a crew of about 10 men at work. Surveys at the point where the work is in progress were formerly made by a private company, according to the government officials, and at some places the Snake is placed on the map two miles away from its bed.

TO ALTER CONSTITUTION

Movement Under Way in Sweden to Further Ends of Democracy

(By Associated Press) STOCKHOLM.—A movement is under way in the Swedish parliament to place the government of Sweden on a more democratic basis. It is so altering the constitution as to give parliament direct control of the nation's foreign policy. A committee of the riksdag has proposed that the contents of all treaties should be communicated to parliament, and it is expected that these recommendations will be adopted.

SUPPRESS RIOTING

(By Associated Press) LONDON.—Prompt measures taken by the Indian authorities to deal with the disturbances that occurred at Bombay, Ahmedabad and other points here have resulted in the restoration of order everywhere, says a news dispatch from Bombay filed Sunday.

(By Associated Press) WASHINGTON.—During March 183,946,000 was lent to 4,300 farmers by federal land banks on long time farm mortgages, according to the monthly statement of the farm loan board. The federal land bank of Omaha leads in amount of loans issued, \$4,585,000.

Notify All Countries It seems, however, that not only all the allied governments but the governments of all countries which severed relations with Germany, will be informed as to the details of the proposed treaty. For this purpose a secret plenary session of the peace conference may be held before April 25.

Italian Trouble Up? The council of four is at present devoting itself to efforts to settle the controversy of Italy and Jugo-Slavia relative to the eastern shore of the Adriatic. In Berlin, it is declared in a semi-official French news agency dispatch that the Schleswig-Holstein problem, in which Denmark and Germany are at odds, has been adjusted by the arrangement of a referendum to the people of the province.

Fighting at Munich Violent fighting has occurred at Munich between German government and soviet troops, the latter seeming to have won an almost temporary victory. It is probable, however, that the battle will be renewed, the government forces having been reinforced. Government troops also have been engaged in quite serious fighting at Magdeburg where radical elements which have been in control for the last few days are reported to have been defeated. Labor troubles are still prevalent throughout western Germany.

Czech Forces Cross Line Czech forces are reported in dispatches from Warsaw to have crossed the line demarcation fixed by the allied nations in Silesia where the Czech and Poles claim territory. A clash along the Polish frontier is said to have resulted in casualties. Meanwhile the first detachment of General Haller's Polish troops has started from France on its way across Germany to Poland in accordance with the recent agreement between the Germans for the forwarding of this force.

GRIEF BESETS EARLY HISTORY OF NEWSPAPER

Dissatisfied Minority Stockholders Make Demand for Records of Nonpartisan League Daily Organ

(Special to The News) BOISE, Idaho—Grief is coming early to the non-partisan league newspaper, the Free Press, now being issued daily at Nampa. Dissatisfied minority stockholders are demanding the records of the W. G. Schultz, with court litigation unless he turned the records of the paper over to them for investigation, has completed the first part of his wish. Court demand was made for the records by the stockholders who claimed the right to go into them.

Schultz Changes His Mind At first Schultz refused to give them up but when it was evident that the stockholders were preparing to go into court to force him to comply with their demands, he changed his mind. He filed the records and the court demand was now being made of the books. The first audit was made by Clarence H. Bunker, former state auditor, but it was not satisfactory to the faction among the stockholders that is fighting Schultz, so a second audit is to be made.

World Trade Expenditures In the meantime Schultz is busily engaged getting out a morning newspaper, but says he is being hampered by a few without good reason. The reason for the delay appears to be particularly interested in the manner in which stock was issued and what became of the proceeds. They require to be set out, hence the determination to probe.

ANTWERP GAINS STEADILY UPON FORMER RECORD

Extensive Diamond Cutting Trade, Shattered by War, Is Now Coming Rapidly to the Front

(By Associated Press) LONDON—Antwerp, which lost its extensive diamond cutting trade while it was occupied by the Germans, is rapidly recovering its place through the return of thousands of diamond cutters who sought refuge in England and Holland.

When the city fell into the hands of the Germans, many of the diamond cutters, brokers and polishers fled to England and Holland. Most of them were Jews. They were quickly absorbed in the diamond trades of the countries to which they fled, and many of them settled at Hatton-Garden, set up business and quickly became prosperous.

Many Return to Antwerp

With the armistice many of them returned to Antwerp, but others remained and their efforts aroused the burgomaster of Antwerp who wanted the industry restored to its old basis. Tempting offers were made but masters and men among the Jews declined all offers unless they were recognized as of Jewish nationality instead of as citizens of the countries in which they were born. The question went before the authorities in Brussels and the demand of the men was granted.

It is stated in London that diamond merchants and workers of all nationalities except German and Austrian Jews are now to be admitted to Antwerp, and hundreds of them are hurrying to the city. Their former houses are to be restored to them and their furnishings and equipment carried off by the Germans are to be replaced by the authorities.

After Diamond Bargains

Before the war, the Saturday night bazaar at Antwerp was crowded with London brokers and merchants, their pockets filled with money with which to buy Antwerp diamonds. Sunday and Monday would be given over to bargaining and Monday would see the same crowd on their way back, their pockets filled with diamonds instead of money.

It will be several months before shipping arrangements will be such as to permit Antwerp to entertain buyers in considerable numbers, but diamond authorities are of the opinion that before autumn comes the city will have firmly re-established its profitable premier industry.

SOLDIER VOTE TURNS COURSE IN ELECTION

Troops Are Overwhelmingly Against Prohibition Measure in New Zealand, According to Ballots Already Counted

(By Associated Press) LONDON—The vote of New Zealand soldiers has wiped out the prohibition which was rolled up in that commonwealth on April 11, according to a dispatch to the Central News from Christchurch.

In the New Zealand election the prohibition forces claimed a majority of more than 12,000 votes. It was announced at that time that the ballots cast by 40,000 soldiers had not been counted. An indication of the trend of the soldier vote was given, however, when New Zealand soldiers in England voted the anti-prohibition measure by 15,880 votes out of approximately 20,000.

TRANSFER CAVALRY TO MEXICAN BORDERLINE

Soldiers Who Guarded Texas Frontier Are Now Sent Back to Duty at Fort Bliss

(By Associated Press) MARFA, Tex.—After a year and a half of history making service guarding the Big Bend border of Texas, the Eighth United States cavalry has been ordered to return to Fort Bliss, Tex., where the regiment was stationed in the permanent post prior to marching to Marfa for duty in the Big Bend.

During the time the cavalry command has been patrolling the great reaches of arid waste, a battle has been fought at Cijanga, opposite Presidio, Tex., many raids across the border have been made and punitive expeditions followed. Men were killed and many of the bandits. The most recent one was the Boidosa raid on the Nueces ranch, March 22, when Captain Kiefer's troop of 100 men pursued and killed five cattle thieves.

Col. George T. Langhorne, district commander, also led an expeditionary force into Mexico after the Glen Springs raiders in May, 1916, and has directed the many raids, including the one after the Britz ranch raiders on Christmas day, 1917.

UNITES SCHOOLS IN BIG PRO-AMERICAN DRIVE

National Security League Organizes Teachers and Students to Combat Bolshevism.

(By Associated Press) NEW YORK—A comprehensive plan for combating the menace of Bolshevism in this country through a new medium, the youth of the land in the high schools and universities, was announced today by the National Security League in a statement in which it sets forth widespread preliminary results. The league declares that the campaign is based on the principle that the best antidote for Bolshevism is Americanism, and that Americanism is purely a question of education. The league is carrying forward this Americanization doctrine in various ways, one of the principal of which is the promotion of a nation-wide celebration of the birthday of the American constitution on the 100th anniversary of the signing of the declaration, the league is engaged in a great campaign of constitutional popularization and interpretation, which is being conducted through a notable committee headed by Dr. David Jayne Hill, historian and diplomat.

NAME PERSHING FOR ROAD PLAN

Transcontinental Road Connecting East and West Projected

(By Associated Press)

WASHINGTON, D. C.—General Pershing's service to his country is to be commemorated through a notable daily remembrance on the part of traveling tens of thousands and will be the highest tribute that a nation could pay to a hero. Plans outlined by the United States department of labor are carried through. According to these plans a Pershing highway across the continent will be built. From New York to San Francisco, touching various places connected with the life of the commander of the American expeditionary forces. In its course of 3,000 miles it will cross the ribbon of smooth macadam connecting many states and binding their diverse interests closer together by means of more intimate contact. It will be a highway of smooth roads, of automobiles and airtrucks, which are to be more and more employed for long-distance transportation.

Temporary Association Formed

A temporary association has been formed, and it is believed that all the states to be traversed will cooperate readily. A meeting for preliminary work was held in Lincoln, Neb., since then definite plans is reported.

Since the war ended public interest has been focused on rethinking in the United States as never before, also to offer a number of returning soldiers until they can find their right places in the reviving industries of peace. The idea of giving buffer employment to great numbers of returning soldiers until they can find their right places in the reviving industries of peace has been taken up by congress to pay the federal government's proportion of state road-building projects now aggregating \$45,500,000, and in addition \$200,000,000 probably will be available in the next three years.

Nearly 800 road projects have been approved in various states, and \$21,000,000 is now available for states ready to work according to plans approved by the federal government. Naturally it will be necessary to obtain the approval of the states. The Pershing highway will be in many places merely waiting for links that must be supplied and an official change of name.

Nebraska Takes Lead

Nebraska, which has taken the lead in presenting the idea of the Pershing highway, has 13 road projects, covering a mileage of 382.2, approved. The estimated cost is \$609,401.43. Of this amount there is available federal aid amounting to \$320,206.44. In this connection it is interesting to know that New York, the state from which the Pershing highway would start, has received federal approval for 13 projects of 61 miles, estimated cost \$1,201,855, while California, in which it would end, has six projects, covering 90 miles, estimated cost, \$1,290,615.84.

Conference Has No Direct Information

No News of Doings in Bavaria Has Reached Peace Congress—Sending Mission

(By Associated Press) PARIS—Direct news from Bavaria still is lacking in peace conference circles. The overnight developments reported in the press, however, caused many to believe that the situation would be able to control the situation. An American mission comprising Messrs. East and Robinson, of the War Department, with a force of clerks, will leave tonight for Berlin for the purpose of keeping the American peace delegation informed of events.

URGES PUBLIC OWNERSHIP OF TIMBER LANDS

Chief of United States Forest Service Advocates This Method to Aid Lumber Industry Regain Its Stability

(By Associated Press)

CHICAGO—Immediate federal and state legislation centering chiefly in public ownership of the nation's timber lands was advocated by speakers at the opening session of the American Lumber congress today as the most efficient means of stabilizing the lumber industry and preventing a shortage in the national lumber resources which was characterized as "rapidly becoming international in its seriousness." United States Forest Service, chief of the United States forest service, told the congress that unless immediate steps are taken on the part of the public to conserve America's forests it would soon be impossible for the lumber industry to regain its former stable condition.

Colonel Graves declared that the chief cause of the present erratic condition of the lumber industry and the danger of a serious shortage of lumber almost entirely in the private ownership of forests.

"The public must take an immediate interest in the timber lands," he said, "and federal and state legislation is enacted which will make for permanent mills, forest development, place timber on the market only as needed, and adequate forest protection and an easy renewal after logging," he declared.

FRENCH DISCUSS SETTLEMENT OF RHINE QUESTION

Press Comments on Wilson's Attitude in Regard to Disposition of River Valley

(By Associated Press)

PARIS—The Petit Parisien, commenting upon the settlement of the question relative to the left bank of the Rhine by the council of four, says: "Not the least interesting feature of the prolonged discussion was to see President Wilson apply himself passionately to the task of solving the problem and still not injuring the rights of France. He uttered a phrase one day which France ought to know: He declared with an accent coming from the heart: 'It would be the sorrow of my life if the great peace we are making should be jeopardized by any difficulty between France and America.'"

"The man who threw his country into the war for France remains our great friend."

BUILD BARRAGES OF ADOBE

EL PASO—The United States army on the border has taken a leaf from the Mexican's book of living. The new Seventh cavalry cantonment which is to be built on the Fort Bliss reservation will be constructed of adobe blocks like those used throughout Mexico for home building. The adobe is recognized in the southwest as an ideal construction material—warm in winter and cool in summer.

MOVING PICTURE MEN TRYING OUT AIRPLANES

Many Successful Photographs Already Taken from Seats of Flyers.

LONDON—(Correspondence of The Associated Press) Aircraft development during the last few years has thrown open to the moving picture man an entirely new field. It may be some years yet before flying comes within the means of the ordinary person as a mode of travel but, through the film he may experience some of the artistic joys of aviation.

Already a certain amount of aerial cinematography has been carried out successfully—enough, at least, to measure its possibilities. In the near future, it is expected that magnificent mountain scenery will be photographed from aircraft, not only in Switzerland and in the United States, but in Abyssinia, the Himalayas and other less explored regions of the world.

The whole of a wonderful flight from San Francisco to London or from London to India or to Australia, may in time, be shown to the public.

REPORT SHOWS LARGE DEFICIT

Books of Railroad for Year Just Past Record Decrease in Balance of Large Sum

(By Associated Press)

CHICAGO—The report of the Chicago, Rock Island and Pacific railroad for the year ended December 31, 1918, as made public today, shows a deficit, after all charges of \$1,185,791, compared with a balance of \$7,227,245 for the year 1917.

The total railway revenues for 1918 were \$104,289,565, an increase of \$14,189,843, compared with the previous year, while the operating expenses increased \$73,604,222.

From a 70 per cent return of the government of \$15,565,591 for the year 1918 the company was not only enabled to pay the full year's dividends on its seven and six per cent preferred stock, but was left with surplus earnings of \$1,185,791, or 1.55 per cent on its outstanding common stock.

LEMAN, France.—A great rifle and pistol match for American soldiers was held here in May, 1918, the 'Auvours rifle range. One soldier from each infantry and engineer company and one from each cavalry troop will take part in rifle contest. Four soldiers representing each infantry and artillery regiment, two from each engineer regiment and one from each cavalry regiment will participate in the pistol contest. Medals and trophies will be awarded.

ONE MAN CAR IS NOT ACCEPTABLE

Boise Traction Employees Protest Vigorously Against Proposed Move

(Special to The News)

BOISE—A protest against the proposed operation by the Boise city and interurban railways of one-man street cars was filed today with the public utilities commission by the Amalgamated Association of Street and Electric Railway Employees of America on behalf of the employees of the Boise companies, many of whom would lose their jobs if the application of the company were granted.

The company claims such reduction necessary to meet necessities of the revenue to meet operating expenses. It argues that the increasing use of automobiles has cut deeply into its business.

The company operates lines throughout western Idaho, and interest centers on the case both because it is unusual in the west and because of the widespread interests served by the lines.

A Return to Elegance

Lace is back, better and more beloved even if a bit scarcer than it was before the looms of northern France were stilled.

One small bit of Lace may inspire a whole gown. And, again, many of the Laces are sufficient unto themselves to make up the entire style over a sub-frock.

Fashion's forecast of Spring frocks speaks of the use of "Lace in profusion."

We have been most fortunate in obtaining fancy and more ordinary laces. Underwear requires just the right kind of lace and we've prepared for that or may be some would like the real hand made cloney from China—that we have.

Laces for underwear and outer wear are assembled here "in profusion" for your inspection.

If you're not buying here you're losing money.

THE VICTORY LOAN The Victory Loan will be subscribed in the Twin Falls country with less hanging back than has been incident to any of the preceding Liberty Loans; and the Twin Falls country has not yet been accused of lagging in respect to performance of any patriotic duty.

If there were any remaining doubt as to the success of the Victory Loan campaign in the Twin Falls country, that unworthy doubt was effectually dispelled and put to rest last evening by the remarkable demonstration that greeted the arrival here of the war trophy laden Victory special train touring the State in the interests of the Loan.

It is impossible that anyone could see for himself the mighty engines of destruction with which our fighting men worked and against which they stood and fought successfully without a heightened appreciation of the great cost at which the cause of humanity has been vindicated in the war just closing.

TEN THOUSAND GREET VICTORY TRAIN ARRIVAL

Demonstration Staged in Interests of War Loan Brings Out Biggest Crowd in City's History

MARCH OF RETURNED SERVICE MEN FEATURE

Great Assemblage Through Streets and Station Grounds Inspecting Trophies and Hearing Speakers

An assemblage of 10,000 people, probably the largest crowd ever gathered on one occasion in Twin Falls, thronged the grounds of the railway station and lined Shoshone street from that point to the city park Tuesday evening to celebrate the arrival here of the Victory special train laden with trophies from European battlefields and carrying returned soldiers and speakers touring the state in the interests of the Victory Liberty Loan.

Many Veterans in Line. About 250 returned soldiers, sailors and marines, including 12 commissioned officers of this country, and members of the Grand Army of the Republic, Boyd hospital nurses training unit, high school cadets, Boy Scouts and the Twin Falls high school band were assembled under the command of Capt. P. W. McElbergh at the station when the special pulled in at 7:30 o'clock preparatory to the march to the park where the military ceremony known as "retreat" was observed by the service men.

The arrival of the special was signaled by explosion of several aerial bombs. Headed by the bands, the march proceeded at once through the street lined with people and overhung with hundreds of flags to the city park, where after a bugler had sounded "retreat" and while the bands played the Star-Spangled Banner, the officers of the high school cadets and the Boy Scouts, the cadet battalion standing at present arms and the service men at attention.

The trophy train was opened at 8 o'clock upon the return of the units participating in the march. Those who inspected the trophies displayed in the baggage car formed in a long line which snaked their way down the train for more than three hours. Others gathered around the flat cars on which were displayed German and French artillery of the war, together with gas, poison, bombs, aerial bombs and other engines of warfare. The French whippet tank brought here on the train was in no condition to lead the march, but it was brought out at its rear showing plainly how it had been put out of action. It was the first tank ever seen here and while the big guns claimed a full measure of attention, the whippet tank was the center of a never-diminishing crowd.

Soldier's Strange Plea One of the most popular of the speakers who addressed the crowd from the flatcars, among whom were Gov. D. W. Davis, Senator Lloyd Adams of Borah, and Senator B. G. Owen, state chairman of the Victory Liberty Loan committee, was Pvt. Bert Bates, a former newspaper man of Roseburg and Pendleton, Ore.

"It cost 40,000 good American lives to bring these trophies back to America," Bates said. "Every soldier who went to France, every soldier who was or is in the service is a booster for the Victory Loan. Thank God it is a Victory Loan instead of another Liberty Loan. If it were another Liberty Loan, it would mean that out on the Argentine, Flanders and Champagne fronts thousands more of American lives would be sacrificed. The men who did the fighting would subscribe every dollar of the Victory Loan, if they had the money."

Praise for Demonstration. "This is without doubt, the best meeting we have had yet," Governor Davis said. "As usual Twin Falls has demonstrated that she is on the map," said Chairman Monte B. Gwinn. Both speakers, each full of their heroes to subscribe for Victory bonds, and expressed confidence that the issue would be overabundant, with Idaho reaching her goal early in the campaign.

opening their explanations with interesting bits of anecdote and hints at their experiences overseas.

In the baggage car where thousands stood in line waiting for hours, where they displayed the smaller weapons, machine guns, rifles, bayonets, trench knives, together with a collection of helmets and gas masks.

Big Guns Attract Interest. On the flat cars besides the whippet tank and another tank known as the mosquito tank were a dozen or more field guns, including the German 77 millimeter gun, French 75 millimeter gun, and a 150 millimeter howitzer.

The latter gun is of about the same calibre as the one used by the men of Company D, Twin Falls unit of the Second Idaho regiment, converted into an artillery unit and now with the army of occupation near Coblenz, Germany. The barrel, however, is about one-half the length of the gun used by the Twin Falls artillerymen.

Not all of the returned service men of the Twin Falls country took part in the march and ceremony, many of them being observed standing with members of their families along the line of march. The assembly of the service men, however, was the first ever held here, and served to stress a realization of the size of the contribution of her sons made, by the Twin Falls country.

Nurses Take Part. An interesting feature of the march was the appearance of the nurses training corps from the Boyd hospital, the members of which, several of whom came from the Pacific coast points, and carrying orders for training for overseas service. When the armistice was signed they chose to remain here and finish the course.

SCHOOL BOARD PLANS BUILDING FOR THE FUTURE

Negotiates Purchase of Six Lots on Second Street North Opposite High School for Later Requirements.

With a view to securing now a site for a new building which is likely to be required in the not far distant future, the trustees of the Twin Falls district, who are now entering upon a building campaign involving the expenditure of \$150,000 to provide a junior high school addition to the present high school building, are negotiating the purchase of six lots opposite the high school on Second street north between Fifth and Sixth avenues. One of these lots has been held for several years by the Twentieth Century club which has been holding it with a view to constructing a home for the organization on it. At its meeting Tuesday, the club voted to sell the lot to the school district.

Plans for the sale of one acre of ground and several lots owned by the district in the vicinity of the Bickel school also are said to have been matured.

Praise for Demonstration. "This is without doubt, the best meeting we have had yet," Governor Davis said. "As usual Twin Falls has demonstrated that she is on the map," said Chairman Monte B. Gwinn. Both speakers, each full of their heroes to subscribe for Victory bonds, and expressed confidence that the issue would be overabundant, with Idaho reaching her goal early in the campaign.

Capt. Edgar T. Hawley and a dozen returned service men, most of whom are high men, examined the various engines of warfare exhibited. Inter-

SMALL BOY IS FOUND AT NIGHT FAR FROM HOME

Five-Year-Old Paul Barnhill Makes Long Trip While Officers Join Anxious Parents in Search

At the farm home of E. R. Butler, five miles south of Hagerman, Paul Barnhill, 5-year-old son of Frank Barnhill, 631 Blue Lakes boulevard, who had been missing from his home since 6 o'clock Tuesday afternoon, was found at 3:30 o'clock this morning.

Mr. Butler communicated by telephone with the sheriff's office at that hour and the anxious father who had spent the whole night searching for the child, with Deputy Sheriff George E. Huffman, drove out to the farm and brought the little wanderer home.

"I climbed into a car and rode till I thought I was almost home," Paul said. "I kept looking for our house. After a while I saw a high building. It looked like the sugar factory. The people in the car put me out there. I walked and walked. After a while I came to this house. The lights were out and I thought nobody was at home. I couldn't get in at the door. I went back to the pump house and crawled into a barrel. I went to sleep, but after a while I got cold. Then I saw a light in the house. I went to the door and this lady took me in."

Officers, who, with the father, searched a greater part of the night for the missing boy are unable to add anything to his story. The question of how he reached Hansen, to which he evidently refers in his mention of a high building, remains a mystery.

"The Woman on the Index"

PAULINE FREDERICK in **"THE INDEX"** Goldwyn Pictures

A woman's struggle for the right to love! Hunted by men, haunted by women—she played the game and won! Acquitted—and then branded by the dreaded knowledge that her name had been written in the police index of crime. A thrilling drama of the woman who trapped the trappers. Crossed identities—and the tall-tale story of conscience. WHO IS SHE? WHAT DID SHE DO? WHY WAS SHE TRAILED? Is the woman on the index to be hunted by men and trail-

ed by women ALL her life! Are holy fingers of accusation to cross her path at every turn? Will she NEVER have the right to love? "The Woman on the Index" is from the great stage success of the same title, by Lillian Trimble Bradley and George Broadhurst, it played to "capacity" for a five-month run at the 48th Street Theatre, New York. "hit" of last season.

Beautiful Pauline Frederick, undoubtedly the screen's foremost emotional artist, is appearing in her FIRST production under Goldwyn Star Series plan; a big, modern drama of mystery and romance in which Miss Frederick has the most appealing and powerful role of her career. Men may love and men may hate, but she had faith forever.

The strange case of the woman who would not tell. Married into the best society, the wife of a powerful diplomat—and ordered by the Secret Service chief to sacrifice her home or face exposure.

ROAD BUILDING IN TWIN FALLS GETS ATTENTION

Department of Labor Information and Education Service Points to Local Record in Press Bulletin

Through the medium of the United States department of labor information and education service which serves practically every newspaper in the country, the American people generally will be apprised of the remarkable work in Twin Falls county on the \$1,250,000 road bond issue.

Reference to this fact is made in the current bulletin issued by this service in the following article: Idaho and Utah are leading the western states not only in the amounts of money to be expended in public works but in the speed with which they are preparing to employ large numbers of men. Cities and counties are competing for the distinction of providing most generously for the employment of returning soldiers, the United States department of labor announces through its information and education service. Twin Falls county, Idaho, carried its bond issue of \$1,250,000 for road work by a vote of approximately 15 to 1, the count showing that in the 3000 ballots cast last Tuesday afternoon, 2000 votes were against the project. It is estimated that at least 80 per cent of the bond money will be expended for labor in the district.

Utah county, Utah, which had planned for a \$600,000 bond issue, increased the amounts to \$850,000. Of this amount \$250,000 will be used to pay for the expenses of a joint city and county building and the remaining \$600,000 will be expended for the construction of concrete roads.

The state legislature of Utah increased its contemplated road bond issue from \$3,000,000 to \$4,000,000, and an extensive system of highways will be developed.

"The department of labor need entertain no fears concerning conditions in this section of the country," a business man writes to the editor of the education service department. "All bond issues seem to be carried by large majorities. The work that is being planned for the coming year for the quiring more labor, we feel than we will be able to secure. The only serious handicap in the exceedingly high freight rates. Many small cities have announced their intention to pave their streets."

BLOOD POISONING

Hank's Wizard Oil a Safe First Aid Treatment
How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut? Hank's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection. It is soothing, antiseptic and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as effective for the same ailments in cold sores, cancer sores, carbach and toothache.

QUITS FARM BUREAU TO COACH BEET GROWERS

James Fitzgerald Succeeds E. L. Tolman as Amalgamated Company Field Agriculturist

James Fitzgerald, a pioneer of the Twin Falls country, who has been for several weeks labor agent in the office of the county farm bureau here, on Tuesday resigned that place to enter employment of the Amalgamated Sugar company as field agriculturist in the west end of the county where about 1000 acres of beets are to be grown this season. Fitzgerald is a new citizen, happily succeeds E. L. Tolman, who is transferred to the North Side field. His work at the farm bureau office will be carried on for the present by E. E. Crabtree.

P. S. A. Bickel of Twin Falls Receives Letter From Sister Now in Berlin

One of the few letters which has been smuggled out of Germany since the war was received by Paul S. A. Bickel of Twin Falls from his sister, Beatrice, who writes from Berlin, the letter coming by way of Switzerland. It is dated March 25, 1919, and gives some little hint of conditions among the better classes. She says:

"I'm trying to send this letter to you. I don't know if it will ever reach you. A friend of mine sent a message to Nelly from Holland, but I never heard from Sis. I shall not write about everything here, you would not understand what it all meant and we, ourselves, hardly realize how miserable we are, as we have been well trained to endure. Neither may I write about things in Cassel or what Hoffs will be able to do later on. I have had three pieces of chocolate in five years. Ten is 80 marks (\$18.40 a pound).

"I wonder how you are all faring. If you don't send Wilson back here without harm there will be an end of chaos and wars for the next 30 years, and you will be sorry. The only help for Europe seems Wilson's alliance. I hope you will be spared Bolshevism although you will never be put to the suffering that is going on here.

"Try and be happy and never mind the rest of the world. Give my love to all the Bickels. Shouldn't I like to get them.

Prices Are Staggering.
"Butter here is worth 50 marks (\$6.00) a pound, dress goods, the flimsiest kind of cotton, 30 marks a yard, and no shoes and goods to be had at that price. Silk is from 50 to 300 marks a yard, etc. I have had three pieces of chocolate in five years. Ten is 80 marks (\$18.40 a pound).

PIERCE'S PORK AND BEANS

They're Absolutely Great

"You don't know beans 'til you've tasted Pierce's" — but since you do taste Pierce's, you'll never forget the tender, cooked-just-right, wholesome savoreness of them.

The rare combination of selected beans, pigweed, succotash, tomatoes, onion sauce and choice slices of pork have made Pierce's Pork and Beans preferable to foods that cost much more and have less nutritive value.

PREMIER ASKS FOR FREE HAND AT CONFERENCE

(Continued from page one)

government of Russia was a matter for the Russian people. It was at this point that the premier declared that it was not the duty of the British government to commit the country to gigantic enterprise in order to improve Russian conditions, much as the government deplored those conditions, pointing out that Russia was a country very easy of invasion but a very difficult one from which to withdraw.

Leave Russia Alone "I would rather leave Russia Bolshevik until they see their way out of it rather than see Great Britain landed in bankruptcy," explained the premier, who added that this would be the surest road to the spread of Bolshevism to England. "My earnest conviction is that military intervention in Russia would be an act of the greatest stupidity," he declared.

They raised arms at our investigation and largely at our expense," he added, "but that was absolutely sound military policy, because without those organizations the Germans would have secured all the resources which would have enabled them to break the blockade."

Redemption "Bolshevism," continued the premier, "had threatened to impress by force of arms its domination over those populations which had revolted against it and it would have been an act thoroughly unworthy of any great land to say to those populations, 'we are exceedingly obliged to you; you have served your purpose and we need you no longer,' and have left them to the Bolshevik troops. It is our duty, since we asked them to take this step, to promise them support. We are not sending troops, because every Russian thought that if Russia were to be redeemed she must be redeemed by her own sons, and they asked that they be supplied with the necessary arms."

despair, he said, of a solution being found.

Bolshevism on Wane After declaring that reliable information showed that although the Bolshevik armed force was apparently growing, "Bolshevism itself was gradually waning and breaking down before the relentless force of economic facts," the premier said that when Bolshevism disappeared then would come the time to re-establish peace with Russia.

"We must have patience," he warned, "because we are dealing with a people mis-governed for centuries. There are unmistakable signs that Russia is emerging, and when she is once more sane and normal the allies should make peace with her."

In answering a question propounded by John R. Clynes, labor leader, whether or approaches for peace had come from Russia, the premier said: "We have had no approaches of any sort or kind. None have been put before the conference. I have only heard reports that others have proposals which they assume come from authentic quarters."

Questions that have never been heard of before the war had nearly produced a conflict between two of the allied states, Mr. Lloyd George continued, and there were a number of such questions. But, he added, after all it was quarrels over small states which had made the great war. He spoke of the difficulties in the Balkans and added:

Cut Into Small States "One of the features of the present situation, owing to the breaking up of the central empires, is that central Europe has been Balkanized into small states. Care must be taken lest causes of future unrest be created by the settlement made."

The question of Russia was one of the most complex problems ever dealt with by any body of men, Mr. Lloyd George pointed out. One difficulty was that there was no Russia. "There is an organization controlling central Russia but there is nobody who can set it in motion as the fact government for the whole of Russia," he declared. "Even if we could under the circumstances recognize the Bolshevik government, we cannot recognize it as the de facto government in Russia. It is just like a volcano which is still in eruption, and the best we can do is to provide security for those dwelling on its remote and most accessible slopes, and arrest the flow of lava so that it shall not scorch other lands."

LONG-DRAWN "The situation in the house of commons today is previous criticisms of his activities at the peace conference in Paris, Premier Lloyd George said the situation was still full of peril for all countries. He pleaded that those who were trying to do their best be let alone."

No conference in history, said the premier, had been faced with problems of such variety, complexity, magnitude and gravity. The congress of Vienna which was the nearest approach to it, took eleven months for its work, but that congress, Mr. Lloyd George pointed out, sank into insignificance as compared with what had been settled by this conference. "I would rather leave Russia Bol-

shevik until they see their way out of it rather than see Great Britain landed in bankruptcy," was one of the premier's declarations.

"It is not true that the United States and Europe have been at variance," the premier declared. He deplored attempts to sow dissensions among the delegates.

No Intervention Mr. Lloyd George said that it was his earnest conviction that military intervention in Russia would be the greatest act of stupidity.

The premier said reliable information showed that while the Bolshevik force was apparently growing, Bolshevism itself was gradually waning—breaking down before the relentless force of economic facts.

In his reference to his league of nations deliberations, Mr. Lloyd George said the conference might have taken more time, but for the fact that it was setting up a machinery capable for adjusting and correcting possible mistakes.

Conference Works Hard "And that is why the league of nations, instead of wasting time, saved time," he added. The conference had to shorten its deliberations, continued the premier, because while it was trying to build, in many lands the foundation of society was tumbling into the dust. "No body of men worked harder or in better harmony than the peace conference," he asserted, and he doubted whether any body of men ever worked under greater difficulties.

Stones were clattering on the roof and wild men were screaming though the keystone while the enormous issues depended upon them which required calm deliberation," the premier said.

He asked for the opportunity for such deliberation for the rest of the journey, which was not at an end. The time spent by the peace conference in framing the league of nations plan saved time instead of wasting it, Mr. Lloyd George declared, as the league premier provide a means of adjustment of possible errors.

Deplorable Condition Much as the British government deplored the conditions in Russia, the premier continued, it is not its duty to commit England to a gigantic enterprise to improve conditions in Russia. He added:

"Russia is a country very easy to invade and very difficult to get out of."

There was no question, he continued, of recognizing Russia as a belligerent. The reason assigned was, he was told, that he must not expect criticism until the house was informed what the peace delegates were doing.

The premier said he should not have thought that, in such quarters, facts would be regarded as the slightest basis for criticism, but he was fully aware there was a great deal of impatience in the world, and he proposed to ad-

dress himself to the real, sincere, honest impatience which was felt in all lands.

The premier paid tribute to George Nicol Barnes, the labor leader and those associated with him in the plan for international arrangements of labor. "Then," he added, "there is the great organization, a great experiment, but an experiment upon which the whole peace of the world hangs—the society of nations."

ORDINANCE NO. 249 (Continued From Page 7)

of said proposed improvement shall be taxed and assessed upon all property in said improvement district in proportion to the number of feet of such lands and lots fronting thereon, or abutting, contiguous or tributary thereto, and in proportion to the benefits derived by said improvement. All the property within said Improvement District to be assessed as aforesaid for the cost of said proposed improvement except that the expense of the improvement is the space formed by the junction of two or more streets or where one main street terminates or crosses another main street, and also all necessary street crossings or cross-

ways at corners and intersections of streets, and the expense of making and repairing sewers, shall not be included in said assessment but shall be paid by the City of Twin Falls. When work is done on one side of the street, on one side of the center line the property on that side only shall be assessed. The total cost and expense of said improvement, according to the estimate returned by the City Engineer is the sum of Five Hundred Eighty-two Thousand Five Hundred Dollars (\$582,500.00) divided as follows: Foot frontage 115,000.00 Intersections 467,500.00 Total \$582,500.00
