## DEMAND REMOVAL OF BURLESON IN INTERESTS OF DEMOCRACY

### New Phase of Telephone Strike in Boston Brings About Curt Request for Presidential Action

(By Associated Press) BOSTON.—The telephone strike assumed a new phase today with the entry into the fight of thousands of men, members of unions affiliated with the telephone operators in the general organization of the New England joint council of electrical workers.

The girls operators halted the new support with alacrity and promptly announced that the dispute now had gone beyond their authority to settle and that Postmaster General Burleson would have to deal jointly with them and the general body. They claimed that the greater number of the 12,000 cable splicers, test room men and other associates had joined them and that further support would be forthcoming.

Other Unions Interested

The appeals of the girls for sympathetic action have not been confined to telephone employees. Favorable responses have been received from other Boston labor locals and the situation is threatening.

Another appeal was made to President Wilson this afternoon. Frank J. Finnegan, president of the democratic club of Massachusetts, and eleven members of the legislature cabled to Paris a request that the postmaster general be removed from office. The message read:

"Burleson wrecking the party. Remove him and settle this strike."

## MAJORITY FAVORS STRIKE

SPRINGFIELD, Ill.—Overwhelming majorities favoring the calling of a national strike of more than 150,000 electrical workers in the United States, are being received here, according to J. F. Noonan, acting president of the International Brotherhood of Electrical Workers, whose headquarters are located here.

"The whole responsibility, if the strike becomes effective, will rest with Postmaster General Burleson," Noonan said today. "He has refused time and again to recognize the telephone employes union, even after President Wilson has turned out requests over and over. I personally have appealed to him twelve times, but he has taken no action. We appealed to the war labor board and the department of labor, and feel sure that we would find what they could in our behalf."

## Majority Favor Walk Out

Mr. Noonan said the official canvass of the vote of the 14th national convention of the strike question will not be completed until May 11, but from present indications of the vote received from a large number of states, the great majority are in favor of the walk out.

There are 150,000 members in the international brotherhood of electrical workers, which include linemen, trouble men, splicers, installers and telephone line telegraph operators.

## NATIONAL GUARD TROOPS ARRIVE

### Men of Western States Arrive From Bordeaux on Sierra Today

(By Associated Press) NEW YORK.—Bringing more than 1,200 officers and men of the Fortieth division (former national guard) of California, Nevada, Utah, Colorado, New Mexico and Arizona, the steamship Sierra arrived here today from Bordeaux.

From Bordeaux, Headquarters company, medical detachment and companies A, B, C and D of the 144th machine gun battalion, 25 officers and 600 men will be demobilized at Camp Kearney, Grant, Dodge, Hancock, Sherman, Lee and Dix. Headquarters and sanitary detachments and companies A, B, C and D of the 145th machine gun battalion, 20 officers and 320 men will be demobilized at Camp Kearney, Bowie and Foston. Meanwhile these western troops will go to Camp Mills, New York.

The Sierra brought altogether 1,600 troops, including three officers and 252 men convalescing from wounds or illness, and balloon, medical and other casuals.

## TO DECIDE ON LEAGUE

(By Associated Press) GENEVA.—The Swiss government has issued an official note saying that the Swiss people will be called to decide by a referendum whether the confederation will join the league of nations. A message on the subject will be presented before the federal assembly during the June session.

## German Agent Fires Troop Ship With 2,000 American Soldiers on Board

(By Associated Press) BOSTON, April 17.—A German agent, allowed on the transport Patricia to look out for German property, attempted to set fire to the vessel last night as it was nearing Boston with more than 2,000 American soldiers, according to Major Frank W. Cavanaugh of the 102nd field artillery, one of the officers on board.

The man had been locked in a stateroom because of his actions. When a guard left the room, the German, whose name was given as Fisher, is alleged to have manipulated electric wires in such a way as to start a blaze in the stateroom. The guard found a lively fire burning when he returned.

Members of the crew extinguished the fire and Fisher was placed in irons. The German was one of five of his countrymen placed on board the Patricia by consent of the allied governments to watch the Hamburg-American line's property. He was formerly a second officer on a German merchant ship.

The Patricia is one of the first German merchant ships turned over to the allies.

## BOLSHEVISM IS GIVING WAY TO ANOTHER FORM

### Lening and Trotzky Are Attempting to Reach Agreement with Moderate Elements Throughout Russia.

(By Associated Press) COPENHAGEN.—Bolshevism in Russia is giving way to a "new bourgeois" according to the director of the Moscow Red Cross committee who has acted here. Premier Lening and War Minister Trotzky are trying to reach an understanding with the moderate elements in Russia.

The situation in Petrograd, the director of the Red Cross committee said, is becoming "anti-Bolshevik" outbreaks have occurred there. In February there were 83,000 deaths in Petrograd compared to 122,000 in January.

## Trial of Mayor of Los Angeles in Court Today

### City Executive Accused of Taking Bribe Faces Criminal Prosecution for Acts

(By Associated Press) LOS ANGELES.—The trial of F. T. Woodman, mayor of Los Angeles, on a grand jury indictment charging in effect that he had accepted a bribe for protecting certain forms of vice, began today in the criminal department of the superior court here.

Six women were in the first panel of jurors. Counsel agreed, when questioned by the court on the probable length of the trial, that two days or more would be needed to secure a jury, but that the evidence would probably be brief enough to permit the case going to jury before May 6, the date of municipal primary election at which Mr. Woodman is a candidate for re-election as mayor.

## LEAVE FOR CAMP

CAMP MERRITT, N. J.—A detachment of one officer and 25 men of the 33rd infantry, 9th division, left here today for Camp Taylor.

## WORLD NEWS EVENTS

(By Associated Press) CHARLOTTE, Mich.—Charlotte is the first Michigan city, if not the first in the country to subscribe its full quota for the Victory Liberty loan, \$75,000. Efforts will be made to triple the quota.

BERLIN.—Large forces of Bavarian troops, with artillery and mine throwers, began an advance on Munich yesterday morning, according to the Tageblatt, but it is unknown whether a decisive battle has as yet been fought.

STOCKHOLM.—The Bolsheviks are carrying out a rapid and systematic annihilation of all the Bourgeoisie elements in Riga, according to reports from Libau. The victims are taken to the island of Hasen in the Dvina river and are said to number seventy thousand, including women and children.

LONDON.—The prestige of the Paderevski government in Poland has been affected seriously by the position of the allied and associated powers regarding the transport of Polish troops from France to Poland, according to advices received here. Local fighting continues on the borders of the Posen district and has spread to the borders of East Prussia.

PARIS.—Germany intends to claim an indemnity from the allies, according to the Frankfort Gazette. It says the German negotiators at Versailles will ask payment for damages sustained from aerial attacks, from the occupation of German territory by the allied troops and for the delay in concluding peace, causing a prolongation of the Bolshevik and Spartacan trouble.

MEXICAN REPRESENTATIVE DOES NOT BELIEVE REPORT

### News of Death of Rebel Chief in Mexico Is Discredited by Officials in New York

(By Associated Press) NEW YORK.—The press reports received in Vera Cruz saying that General Aureliano Blanquet had been killed in a fight near Chavasta were discredited today by Roberto Gayon, the former Mexican war minister's representative here. He said that he had received last night a cable message from General Blanquet stating that he had arrived yesterday at Huasteca Vera Cruzana, a mountain village 25 miles from the place where he is reported to have been killed. The message, according to Gayon, said that the general was well and mentioned an address to which mail could be sent. Gayon expressed the opinion that the reports were due to propaganda spread in Mexico by General Blanquet's enemies.

## SWITZERLAND DECIDES TO RECOGNIZE NEW GOVERNMENT

(By Associated Press) BERN, Switzerland.—The Swiss federal council, it is reported, has decided to recognize the new German government on the ground that it was elected legally by the national assembly, which was chosen by the votes of the people.

The report has caused a sensation in political circles here.

## SOVIETS GAIN FROM FORCES OF BOLSHEVIKI

### Successes Continue All Along Western Front for Opponents of Lening Forces Who Are Being Driven Inland.

(By Associated Press) LONDON.—Continued successes for Russian soviet forces along most of the western Russian frontier from the Baltic to the Black sea is claimed in a Russian official wireless dispatch received here today.

West of Prokhorov, the Bolsheviks have taken Volkovsk, on the former Russian-German frontier and within 25 miles of Tarnopol.

In the Crimea soviet forces have crossed the Salt lakes and advanced in the direction of Simferopol, the capital of the Crimea.

## SAYS MISSIONARY SHOWS INTEREST IN AFFAIRS OF BULGARIANS

### Commissioners of Foreign Missions Investigating Charges of Pro-German Activities on Part of Church Worker

(By Associated Press) BOSTON.—The American board of commissioners for foreign missions is investigating the conduct of one of its missionaries who is reported to have been active in Bulgarian activities. The matter was brought to the attention of the office of the board here by the state department. It is made known that definite and decisive action will be taken if necessary.

The accused missionary is said by the board not to be new in Bulgaria.

## Statement is Misleading

In a statement today Dr. William J. Strong, secretary of the educational department of the American board, declares the reports from Washington yesterday misleading and in most of its charges untrue. This report was that the board had been advised by the state department of formal charges of pro-German activities and political interferences, to further the cause of Bulgaria and northern Persia. A specific charge was that the missionaries had used funds designed to aid war sufferers, to further the cause of Bulgaria and indirectly the cause of Germany and Austria-Hungary.

Dr. Strong pointed out that the American board had no missionaries in Persia and he added that no charges of pro-German activities by the American board of missionaries had been forwarded to the board by the state department.

## President Wilson Has Busy Day at Paris White House

### Secretary Baker and Herbert Hoover Call Upon Executive—Honors Bestowed

(By Associated Press) PARIS.—Secretary of War Baker was the guest of President Wilson at the executive mansion here today. The president also received Herbert C. Hoover, the food administrator, and two having a brief conference. During the day President Wilson was extremely busy. He had several important charges of affairs of San Marino called at the presidential residence and handed the president a certificate of honorary citizenship conferred upon him by the little republic.

It is understood that the purchases of second annual war contracts for wooden ships which were let up to August 31, 1918 called for an expenditure of approximately \$163 a ton. On the basis of the sale today indicates a loss of \$20 a ton from the cost production during the war, a total on the 67,000 tons sold of \$1,340,000. Chairman Hurley is stated that in the sale or operation during peace of the fleet built during the war, a substantial writing off would be necessary to allow for the increased cost of materials and labor while the war was in progress.

## EMPEROR SAYS CONCESSIONS MUST BE MADE

### In Summer of 1917 Austria Saw Her Defeat Loom Before Her and Asked Advice of Crown Prince.

(By Associated Press) BERLIN.—The Vienna correspondent of the Zeitung Am Mittag says that there has been published in a letter alleged to have been written by former Emperor Charles of Austria to the former German crown prince. The letter, it is stated, was dated August 20, 1917, and among other things said:

"Bulgaria is on the point of dropping out of the war and the situation demands that peace should be concluded before we have to make any concessions that we could win over an opponent if Germany would be willing to make certain territorial sacrifices of Austria. I do not want to myself bear the lion's share in this direction."

Pointing out that Austria in 1915 offered to Italy to avoid Italy's entrance into the war, former Emperor Charles proceeded:

"Germany is in a similar but far more helpless position, as he sits on the throne, have the right to throw a weighty word into the scale. I beg you to unite your efforts with mine to end the war quickly and honorably."

## LEGISLATIVE COMMITTEES ATTEND FUNERAL OF MEMBER

WASHINGTON.—Committee representing the senate and the house left today for Kansas City where they will attend next Sunday the funeral of Representative Borland of Missouri, who died recently while in Europe. The senate was represented by Senators Myers of Montana, Robinson of Arkansas and Jones of New Mexico, while the house committee was composed of the Missouri delegation of the last congress with the exception of Spencer Clark who will attend next Sunday.

Representatives Deussen of Illinois; Evans of Montana and Reavis of Nebraska.

## ACCEPTANCE OR REJECTION OF THE TERMS TO COME BY MAY FIFTEENTH

### Stephen Pinchon, French Foreign Minister, Stands With Lloyd-George on Determination Not to Divulge Details of Program Mapped Out for German Consumption

(By Associated Press) GERMANY will be forced either to accept or reject the allied peace terms by May 15, according to reports printed in Paris and it is indicated that no reply is expected before May 6. The refusal of Stephen Pinchon, the French foreign minister, to divulge the details of the provisions of the proposed treaty while speaking in the chamber of deputies yesterday, and the failure of Premier Lloyd George to speak in more than general terms before the house of commons indicates that no intimation of the terms will be made public at present.

## Establishes New Record in Flight Across Continent

### Aviation Officials Claim Honors for Transcontinental Airplane Travel

(By Associated Press) AMERICUS, Ga.—A record for the transcontinental flight was here today claimed by aviation officials of South or field for Major T. J. Macaulay, of Port Worth, Texas, who today flew to Jacksonville, Fla., on the last leg of a Jacksonville to San Diego flight. Major Macaulay left here early today, arriving at Jacksonville at 8:40 o'clock and returned here at 11. He left soon after for Port Worth.

According to Southern field officials, Major Macaulay traveled from San Diego, Cal., to Jacksonville in 10 hours flying time an average of 137 miles per hour. He made four stops, at Tucson, Sweetwater, Port Worth and Americus.

It was announced at a meeting of the council of ten in Paris yesterday afternoon that various articles of the pact now are in the hands of the drafting committee and that the remaining articles would be disposed of today. Norway and Switzerland will act as agents of the allied and associated governments in feeding Russia, it has been agreed at Paris. Representatives of France have made reservations on the subject and these will be considered today. The plan is opposed by Russian elements opposed to the Bolsheviks, but it is said to be probable they will ultimately acquiesce in the allied decision.

## Ask Independence

Albania has applied to Premier Clemenceau, as president of the peace conference, asking for confirmation of the complete independence of that country. It is stated that there is a possibility that the United States should assume control of governmental affairs, at least, until the little country of Albania has a political organization.

## BEGINS SALE OF MERCHANT FLEET TODAY

### Transfer of Fifteen Wooden Ships From Government Possession to Control of Private Interest Marks Start of Deal

(By Associated Press) WASHINGTON.—Sale of the war-built merchant fleet was begun today by the shipping board with the transfer of fifteen wooden steamships to Nædreman Steamship company of New York in the transatlantic trade. Five vessels. This is an average of \$145 per deadweight ton.

Idea of Operation

This fleet is to be operated by the Brooks steamship company of New York in the transatlantic trade. Five of the fifteen will be operated out of New York. Five out of Havana and five out of New Orleans. Deliveries will be completed within a short time.

The basis of the sale today indicates a loss of \$20 a ton from the cost production during the war, a total on the 67,000 tons sold of \$1,340,000. Chairman Hurley is stated that in the sale or operation during peace of the fleet built during the war, a substantial writing off would be necessary to allow for the increased cost of materials and labor while the war was in progress.

## FAVORABLE WEATHER

ST. JOHNS, N. F.—Weather conditions favorable for flying prevailed here today. Captain Frederick P. Rayburn, British aviator and Harry G. Hawker, his Australian rival for the trans-Atlantic flight honors, looked to incoming weather reports for word as to whether the flight would be permitted to "hop" soon.

## VIENNA—The spread of Bolshevik propaganda westward is being greatly favored by the laxity of frontier regulations, the least guarded being those of Poland. Trains are arriving at the frontier from Germany from the east carrying numbers of agents supplied with all sorts of false passports and false money.

Guarded Frontiers

The observations of the correspondent show that the best guarded frontier apparently is that of East Prussia, where the Bolsheviks are made to understand they are not welcome. Trains from Germany into German Silesia and Bohemia, however, are filled with non-descript individuals from Russia whose papers are either not examined at all or looked over most casually. The same is true of the same as regards the trains entering Hungary by way of the Ukraine and East Galicia. It is even known that notwithstanding the Italian restrictions, entrance to Italy is not difficult.

## False Passports

The falsification of American passports is declared to be so common that the representative of the American diplomatic service, here attached to the Spanish embassy, states that it would be advisable to increase the difficulties of fraud by requiring the applicant of such passports to all original United States passports, as is in effect, it is claimed, to substitute new photographs and imitate the signatures.

It is understood that the purchases of second annual war contracts for wooden ships which were let up to August 31, 1918 called for an expenditure of approximately \$163 a ton. On the basis of the sale today indicates a loss of \$20 a ton from the cost production during the war, a total on the 67,000 tons sold of \$1,340,000. Chairman Hurley is stated that in the sale or operation during peace of the fleet built during the war, a substantial writing off would be necessary to allow for the increased cost of materials and labor while the war was in progress.

# MEXICAN REBEL ENDS CAREER IN PITCHED BATTLE

## Famous Chief of Anti-Government Forces Meets Death in Skirmish With Federal Troops Yesterday

(By Associated Press) MEXICO CITY—General Aureliano Blanguet, war minister in President Huerta's cabinet, was reported to have landed in the Vera Cruz region for the purpose of starting a revolution against the Carranza government, was killed yesterday in a fight near Chavastilla village, according to press reports from Vera Cruz, which quote a report from General Francisco L. Urquiza, chief of military operations.

**Killed in Battle**  
According to telegrams given out by General Urquiza, the commander in the region of Chavastilla, General Guadalupe Sanchez, met a party of rebels under Blanguet yesterday afternoon, defeating them. The dead body of General Blanguet was found later. General Sanchez telegraphed that he was bringing General Blanguet's head to Vera Cruz to establish the identification.

General Francisco Alvarez was taken prisoner together with the family of Pedro Gavay, one of the most active lieutenants of Felix Diaz. Vera Cruz papers have recently been printing numerous stories regarding General Blanguet's proposed revolt. These stories have been published in the United States but General Blanguet's claim that he had forty thousand men, with an airplane and an airplane and that he was allied with other factions, has been scouted officially. The band which General Blanguet was leading when he was killed was small and was poorly equipped, it is reported.

**Begets Career Early**  
While only a youth, General Blanguet was a member of the firing squad that put to death Huerta's minister at Queretaro. Rising in the government service he became minister of war under President Huerta, being the man who personally arrested Leon F. Escobedo Malero when Huerta seized the reins of government. It was charged that he was involved in the later assassination of Malero.

When Huerta fled from Mexico General Blanguet accompanied him. Recent reports received here stated that he was operating a motion picture theatre in Brooklyn, New York.

**Goes To Indies**  
General Aureliano Blanguet sailed from New York for a port in the West Indies January 8. He was provided with passports and credentials but the fact of his departure was known to only a few of his intimate friends. He was accompanied by General Juan Montano and Brig. Gen. Enrique Gonzales, with some minor officials.

The party landed at an unfrequented Mexican port late in March and was met by a guard sent by Felix Diaz and was escorted to Teapalaco, the headquarters of the Diaz forces. Since that time there have been reports of negotiations by General Blanguet and his chief, Senor Diaz.

General Blanguet was 71 years old.

# SOCIALISTS ARE NOT SATISFIED

## Members of Chamber of Deputies Are Displeased Over Secrecy of Peace Terms

(By Associated Press) PARIS—Albert Boudon, socialist member of the chamber of deputies from the upper Garonne, is reported by Le Journal to have proposed to his socialist colleagues that they receive in a body as a protest against the attitude of the government in declining to outline to the parliament the details of the peace preliminaries until the treaty had been signed. The socialist group in the chamber of deputies will take up the question today for decision, it is added.

The question of confidence in the government came up in the chamber of deputies Wednesday on the question instanced in the foregoing dispatch and the government was sustained by a vote of 334 to 166, the chamber defeating also a demand for a secret sitting by 341 to 183.

## Pledge of Valuable Woodlands for Gold to Buy Food Is Offered Italians

(By Associated Press) BERLIN—The communist government in Munich is reported to have opened negotiations with Italy by which valuable woodlands belonging to Munich would be pledged for a loan of one billion marks with which to buy food. Late in March the former Bavarian government of Premier Hoffmann and the Italian government were reported to be negotiating in regard to the delivery of food to Bavaria. Apparently the communist government is attempting to reopen these negotiations.

# BOLSHEVIKI COMMIT WHOLESALE MURDERS

## Eighteen Hundred Persons Are Massacred at Ufa by Blood-Thirsty Russian Gangs

(By Associated Press) LONDON—Eighteen hundred persons, including 400 women, were murdered by the Bolsheviki at Ufa, according to a telegram from Omsk received in official quarters here. Ufa, one of the principal cities in the Orenburg district near the Siberian border, was taken by the Bolsheviki early in this spring but late in March was recaptured by forces of the Omsk all-Russian government, which have continued the press based on the Bolsheviki in this region. Dispatches from Omsk, dated April 5 and received on Tuesday announced the massacre by the Bolsheviki of more than 2,000 civilians in and near the town of Ota, to the north of Ufa, in this district.

# IMPEACHMENT OF GOVERNOR IS DEFEATED

## House Judiciary Committee Passes Resolution to Censure Executive For His Actions in Pardon Affair

(By Associated Press) DES MOINES—Gov. W. L. Harding was censured by his action in the Rankin pardon case in a resolution adopted by the Iowa house of representatives early today, marking the defeat of efforts to impeach him. With the case of the chief executive disposed of, the house turned its attention to the phase relating to Attorney General H. M. Sawyer, and before the forenoon session adjourned it was indicated prompt action was likely in his case.

**Two Recommendations**  
Two reports of the judiciary committee were before the house regarding Sawyer—the majority report recommending his exoneration and the minority recommendation for his censure. There was no early indication which would prevail.

The deciding vote on the Harding case came a few minutes before 1 a. m. The minority recommendation for censure of the majority report urging impeachment—seventy voting for and thirty-four against the substitution, with four members absent or not voting.

Immediately after the substitution resolution had been adopted, the minority report—in the guise of the majority report—was substituted for the majority report, terminating the legislative inquiry into Harding's part in the now famous pardon case.

Governor Harding, confined to his bed with diabetes, seriously ill, heard the verdict of the house within a few minutes and almost immediately gave the following statement to the Associated Press:

**Political Troubles**  
"I am pleased over the result of the vote in the house. No man in Iowa has so long and so strenuously suffered political persecution than have I. My enemies are well known. Their hand is not covered and soon or later their conspiracy will be laid bare to the people of Iowa."

When the record in this alleged conspiracy is finally made, the governor continued, the name of a Des Moines newspaper publisher "will stand as the chief conspirator."

# LOOK TO GERMANY FOR THE NEW WINE MARKET

## American Prohibition Has Had Effect on French Growers of Grapes.

(By Associated Press) PARIS—The American prohibition upset France's wine trade. The American market for wines closed the French exporters of champagnes and other wines seek another market. This will be found in Germany, according to Lucien Fontaine of the Paris Chamber of Commerce.

"If there is not sufficient market in Germany, we can go to Holland, Denmark, Austria and the Balkans," said M. Fontaine. "We can find the market for the suppressed American outlet in Europe."

"The exportation of wine is not going to be such a hard problem to solve at this time for we have not been producing nearly as much wine during the war as we were before."

The situation at Smyrna where the Turks and Greeks are ready to spring at each other's throats, is typical of the situation throughout Turkey. Bands of brigands are dominating the country, even within a few miles of Constantinople and are committing atrocious murders.

# SHARP REDUCTIONS IN YOUR SHOE BILLS

"A constant 'hiker' over all conditions of roads, my shoes were based on my feet until I discovered Neolin Soles. And as for wear! Neolin Soles give twice the service of soles I formerly used," writes H. Noyes Collinson, Hazleton, Pa.

This long service means sharp reductions in those big shoe bills, for it is because of worn out soles that most shoes are discarded. Buy Neolin-soled shoes, not only for yourself, but for the whole family, children included. Also, take your old shoes to the repairman and have them re-bottomed with Neolin Soles.

Remember—Neolin Soles are waterproof, as well as comfortable and long-wearing. They are created by Science to be all that soles should be, and are made by The Goodwear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

# CONDITIONS IN HUNGARY GROW LITTLE BETTER

### Once Wealthy People of Budapest Are Now Reduced to Absolute Poverty and Want While Many Are Leaving

(By Associated Press)  
VIENNA—Reports of the executions at Budapest of Count Michael Karolyi, Archduke Joseph and others are untrue. The city continues outwardly quiet with progress being made toward the nationalization of property. It is estimated there are now twenty naturalized Americans and American wives of Hungarians in Hungary.

Count Karolyi's frame of mind is difficult to gauge and was much downcast when here. His hesitancy was caused partly because he was being restricted in his expenditures. In former times he was accustomed to spending a million crowns annually.

**Leaving Home**  
Count Karolyi's frame of mind is characteristic of all persons in Hungary who have been apprehensive for weeks as to what would happen next. It is a common thing to see a party of men and women walking along the streets or promenades or sitting in the cafes and to see the women burst into tears and then laughingly wipe her eyes. Thus is shown the tension under which people are living who have lost all their property in the hope that came with the end of the war.

**Leaving Country**  
Foreigners, especially Americans, are receiving attractive marriage proposals from families of the aristocracy who expect by this means to save something from the wreck of their fortunes because of the fact that foreign property will be exempted from nationalization. Women who marry foreigners will be enabled to travel freely over the frontiers with their families. There is a disposition on the part of the new government, however, to allow middle class Hungarians to leave, provided they do not take property with them.

**Object Poverty**  
The condition of Vienna is one of abject poverty. Count Alexander Esterhazy, who lost his son in the war and who was with General Pilsudski until the latter went to Switzerland, is finding means of subsistence by selling the furniture in his house here. There has been a recent exchange of visits by officers of the American and German Austria. Minister of War Bohm and Herr Pogany of the Hungarian foreign office are here from Budapest with an army of officers to liquidate the affairs of the two governments.

# GOVERNORS ARE PREPARING FOR STATE HIGHWAY

### Executives Are Working on Plans for Pershing Road in Honor of Nation's Great Commander

(By Associated Press)  
LINCOLN, Neb.—Delegates representing the governors of states lying between New York city and San Francisco, together with representatives of state automobile clubs and highway systems are in Lincoln today to effect a permanent organization of a "Pershing highway" to extend from coast to coast in honor of General John J. Pershing.

Tentative plans, as announced by officers of a temporary organization of the project perfected here a short time ago, provide that the highway will run through cities and towns in which interesting events in the life of General Pershing occurred. Included in the cities on the route will be Laclede, Mo., where the general was born. The highway's permanent officers, it is expected, will be elected late this afternoon.

### Substantial Building Bricks Are Manufactured Out of this and Crushed Slag.

(By Associated Press)  
LONDON—A novel use has been found here for seaweed. Combined with crushed slag and other heretofore neglected waste materials, it is used to make a kind of concrete out of which are being fashioned building bricks and blocks. The seaweed acts as a binding and strengthening element.

Arrangements are being made to put up a large number of houses composed entirely of these blocks, and it is predicted that the material, owing to its cheapness, will aid in solving the housing problem.

Not only the foundations and walls, but the doors, window frames and mantel pieces are to be constructed of the new concrete. The houses are to be made in sections and bolted together. The window frames are a new idea. It is said that the material is so strong that a glass pane in one large pane slips into the slots and the edges of molding are then turned over, so as to grip it. To mend a broken window will be a simple matter and will not require the services of a glazier.

It is said that dwellings made of the concrete will be warm and thoroughly dampproof.

# Alien Travels Rocky Road to Slacker Town

### Patriotic Notaries Refuse to Abet Plea for Military Exemption

(By Associated Press)  
WASHINGTON, D. C.—The records of the naturalization bureau reveal the very rocky road to Slacker-town traveled by a certain neutral alien not long ago.

Under the law, if an alien from a neutral country desires to obtain exemption from military service he may file a certain form from the proper marshal's office with the local draft board. This form provides for the withdrawal of his declaration of intention and surrender of it, and it must be witnessed by a notary. This particular alien made out the form and sailed forth with confidence to find the nearest notary to witness it. At his pilgrimage he found not one man who was willing to abet him.

The sequel to the case is that a local exemption board sent the form in to the naturalization bureau which has forwarded it to the court out of which declaration was issued with a petition for cancellation of the declaration and setting an order forever barring the alien from citizenship as a slacker.

The act of July 9, 1918, apparently provided for such cases, and about 20,000 others of like nature. In this act the naturalization bureau stated that any alien of a neutral country who, having declared his intention, was drafted and would not enter the military service, should be held in his pilgrimage until becoming an American citizen. Under this law the bureau of naturalization is filing petitions in all of the naturalization courts where these declarations of intention were issued, petitioning the court to enter the order forever barring the alien declarant who preferred to recede forever his good faith in securing American citizenship, entering the military service of the country which he has declared his intention to adopt as his permanent home.

# REAL REASON WAS LACK OF LOCOMOTIVES

### Shortage of Rolling Stock and Fuel Responsible for Failure of Russia's Railway Systems.

STOCKHOLM—(Correspondence of The Associated Press).—Passenger traffic on Russian railroads has ceased ostensibly because of the spread of typhoid fever but really because there are no locomotives to spare and because there is a great shortage of fuel, according to J. Hosen, the former editor of the Petrograd, who has just returned to heavy fighting, he has just managed to leave Petrograd, which he said was in desperate straits.

"At the Putiloff works, where formerly 10,000 men were employed, only a very few are now to be seen," said Mr. Hosen to The Associated Press. "Sabotage prevails. Locomotives cannot be repaired nor constructed. The only one of the Bolsheviks is valued at four million rubles."

**Pinewood Comes High**  
"In Petrograd, a piece of wirewood costs four rubles, broad 120 rubles a pound, meat 30, sugar 120 and butter the same. Maxim Gorky, the novelist, has at his disposition 10,000,000 rubles for printing books and supporting artists and actors but no books can be printed as long as paper is five rubles a pound."

"Why the Bolshevik regime has not fallen puzzles everyone, particularly the Bolsheviks themselves. Time after time they have expected their fall and prepared to quit—but each time something happened that improved their chances. The only one of the Bolsheviks was taken by the Czechs, when armed forces threatened from the Ukraine and the Narva and British warships approached in the Baltic, everyone was sure it was the beginning of the end. And then, instead, came the invitation to Princes Islands."

**Not even one percent of the population is in favor of Bolshevism. Bolshevik troops fight without knowing why, but continue for fear of being shot if they disobey. If given an opportunity they desert at once. An example of this was the action of what was considered a model regiment in Petrograd. The men, 1,000 of them, were sent from their barracks to the railway station to entrain for the Narva. When the train arrived there were eight men who had obeyed instructions to entrain.**

"If there is no intervention seen pure anarchy will rule Russia. Trotsky and his followers are the only ones who are sane and real criminals will succeed to the places of power."

A SIDE LIGHT

In the light of the now known facts surrounding the ill-starred general strike at Seattle it is generally conceded that Labor was used as a means towards an end with which Labor as a class was not at all in sympathy.

To just what extent Labor was imposed upon, however is not yet fully clear, but one by one facts float to the surface and upon examination are found to indicate a state of affairs with respect to the whole strike movement which will be news to a good many in every walk of life.

For instance Leon Green, standard bearer of the inner circle, and by many regarded as the pivotal wheel around which the rest of the strike machinery revolved has not been seen or heard of since the collapse of the movement.

Green is a Russian, a Russian Bolshevik from all indications, whose real name is said to be Leon Butouckey. He managed to worm his way into the leadership of a Seattle union and later in person, declared war on the City government of Seattle. He disappeared, as has been said but it would appear that he did not exactly go alone. The Washington State Weekly thus comments on the case of Green:

The unions—some of them at least—are trying to find out what went with him—whether it was \$30,000 or \$50,000.

But they speak of it in whispers, and with bated breath. In the office of the Union Wrecker, Green's name is not uttered aloud. In the headquarters of the Russian Information Bureau at the Labor Temple there is a vacant chair—Green's chair. In the closet is a skeleton draped in crepe and garlanded with poison ivy.

It is now almost two months since this "brother" passed out, and not a word, not a syllable not even a letter of the alphabet has come from him since he was so mysteriously translated to another sphere.

But they should not mourn.

"Brother" Green undoubtedly did well while he was doing. The puzzle some scurrilous souls have set themselves to solve attests that. Even if only the minimum sum went as Leon went he did well. If it proves to be the larger amount, he did even better than well. In the parlance of his envious co-workers, he did damned well. More power to him!

The matter is of interest mainly by reason of the lesson it teaches with respect to the dangers of unknown leadership. Union labor in Seattle is not different to union labor everywhere less and the one great fact about union labor as a whole and the one that cannot be disputed is that Union labor, first and foremost is loyal.

Union Labor never had any use for Green, but Green found a way to betray and profit by Union labor. We are inclined to believe that it would go hard with Green should he fall into the clutches of any one of about ninety per cent of the Union labor membership of Seattle, and this apart altogether from the matter of the mere dollars he is supposed to have stolen.

THE TIME ELEMENT

Occasionally there are times when it would seem that matters are not moving as smoothly as they might at Paris. The average American likes action and he wants it quick, moreover, if he doesn't get it just that way he is going to kick about it.

Possibly some of the criticism about the amount of time being consumed in the fixing of the details of a lasting peace is well based. Perhaps a part of the delay is not justified by all the rules of ordinary business usage. But let it be remembered that the Peace Conference is the biggest single piece of business transacted in the history of any power concerned. In fact it comes very close to being the biggest single accomplishment among nations since the world began.

Here is the way Lloyd-George recently summed it up in discussing the conference with a group of French newspaper men:

This conference had to meet and discuss things under conditions unprecedented in history. All eyes are turned toward it and what is more grave, all ears are glued at its keyhole. Enemy ears tremble with joy when they detect some hesitation. Frigidly ears half hear confused rumors which are peddled far and quickly.

The day does not pass but what some false news here and there takes its flight. Nevertheless, no day passes but that we in silent deliberation feel approaching nearer the great aim, and experience for each other more esteem, confidence and affection. Let public opinion wait a few days. It then will be able to pronounce on facts not rumors.

All of which is entirely reasonable and right. If the kind of a peace the world wants and has a right to expect is to take another six months, that's all right too. When all is said and done, the main danger so far lies in the fact that world events will compel a too speedy ending of the negotiations now in progress.

To "finance" a "To Let" advertising campaign you need only set aside—for perhaps a few days—a part of your pocket money.

Want Hun Tank or Gun for Filer Fair

County Commissioners Make Request for Trophy Through Congressman.

The Twin Falls county commissioners, through Representative Addison T. Smith, will ask the federal government for a captured German gun or tank to be placed in the county fair grounds at Filer. This was decided upon during informal discussion of plans this year for the fair at the meeting Wednesday of the commissioners. In his letter to Representative Smith setting forth the request of the commissioners in this respect, C. C. Siggins, county clerk, says:

"We feel that Twin Falls county has always gone over the top in every war drive, whether for men, bonds, Y. M. C. A., Red Cross or Salvation Army. In fact in all war activities, and while we claim no special privileges by reason thereof, we feel that it would not be out of the way for the county to make this request of the government."

TO THE VOTERS OF THE CITY OF TWIN FALLS

I have been interviewed and requested to state the issues upon which I base my candidacy. The following are a few of the things I stand for:

- 1. Law enforcement: (a) To this end, if elected, I promise to nominate efficient police officers. (b) If elected, I promise to nominate an able, capable police judge; a man whose character will be above reproach. 2. In municipal works, I favor the employment of home labor at a just wage, and that at this time and during our reconstruction period I am firmly convinced that the city government should do all possible within sound business bounds, to give employment and to do all possible in getting employment for the returning soldiers. 3. I believe in fair treatment to the home builder, and the taxpayer, and to that end I demand—that all public moneys shall be of interest in a more efficient manner upon daily business from the bank or banks in which deposited. 4. I am opposed to class legislation, or favoritism of any description, believing that all men stand equal before the law, and that neither wealth nor position should excuse any man for a violation of law or order. 5. I believe in the advancement of public improvements in the most efficient and economic manner. 6. I believe in the future of the City and County of Twin Falls, in the great possibilities of the Snake River Valley; that our home city should be held out before the public as containing an intelligent, moral, God fearing people, a community to which we should invite others to come and locate with their energies and means; that a vigorous and progressive administration can aid enormously in such a work. 7. For the benefit of those who do not know my past record on the subject, I wish to say that I have always stood against the liquor interests, and that at a time when it tried men's souls to stand for the right. 8. Municipal ownership of power and lights.

# FISHERMEN CAN GET BABY FISH FOR THE ASKING

### Hatcheries' Superintendent Advises Twin Falls Sportsmen to Take Advantage of Offer to Stock Streams

Sportsmen of Twin Falls may secure from the state for the making a quantity of baby trout for restocking streams of this vicinity.

This is the information with the advice that advantage should be taken here of the offer given by George H. Jeans, superintendent of fish hatcheries, to Deputy Sheriff Harry G. Dietrich when the officials met this week on a train between Shoshone and Nampa.

The hatcheries superintendent was taking from the Hay Spur hatcheries 14 Milwaukee and Emmet a shipment of 20 cans containing 15,000 live trout of the size known as "fingering." Deputy Dietrich, who once served as chief clerk in the office of the state game warden, states that the fish in this shipment were the finest and healthiest he has ever seen.

It is Deputy Dietrich's suggestion that the application be made by local sportsmen for the delivery of baby trout to arrive here on a Saturday, and that on the following day fishermen who are bound for trout streams of this vicinity shall take out with them cans of the fish and distribute them in the streams visited.

A shipment of baby trout would be available to the Twin Falls district during the middle or latter part of next month.

# BUTCHERS AND BEAUTY SHOP FAIL TO AGREE

### All Sueded Business Neighbors Take Their Troubles to Court.

Merrill Stephenson, Charles Williams and Bert Kester, proprietors of the Central Market at the corner of Gibson street and Second avenue north, at the instance of Louise Puckett and Alice O. Nelson, proprietors of the Shop Aloise, occupying adjoining quarters, must show cause before Judge W. A. Babcock in district court here on May 5, why a restraining order should not issue to prevent them from use of the premises at the rear of these establishments for rendering lard and tallow, smoking meats and making sausages.

Complaint filed in district court here Wednesday by the proprietors of the Shop Aloise through their attorney, T. K. Heckman, is the basis for this order to show cause.

According to the complaint the operations of the market men at the rear of their establishment give rise to noxious and offensive smells which taint and corrupt the atmosphere causing the plaintiffs, their employes and customers, to become nauseated and sick, and injuring their business which is described in the complaint as conduction of a lard and sausage business, in part in which they conduct manufacturing, lard rendering, shampooing and facial treatments, also the sale of ready made garments.

Judgment restraining the defendants from continuing the operation of the lard and sausage making operations to the detriment of the beauty shop and awarding to the plaintiffs damages in the sum of \$1,000 together with their costs in the suit are asked.

# BOLSHEVIK SPY IS NUMEROUS IN RUSSIAN RANKS

### New Army to Assist Allied Forces Permeated With Bolshevism Introduced by Followers of Lenin

(By Associated Press)

ARCHANGEL—While American and other allied troops were waging war against the Bolsheviks on the northern front another war is continuing going on in Archangel—the war against Bolshevism and the agents who are spreading Bolshevism.

Not only all the trouble that has occurred in Archangel, in the way of strikes and sedition, but also the part of some of the new Russian conscripts trained here to fight the Bolsheviks in the first place, when the allies occupied Archangel, it was absolutely impracticable to search out, among the civilian population all the Bolsheviks who remained behind.

Many of the Bolshevik soldiers whom our forces captured at the front, including many who said they were forced to go with the Bolsheviks despite their objections, volunteered, and were accepted, in Archangel, into the new Russian battalions formed here to fight with the allies. Some of these men were sincere volunteers and are doing splendid work at the front. A few others however, became ringleaders, or "agitators," and were aimed to destroy the fighting morale of their comrades.

Many Got Through Lines.

Also, in the territory near the front, which consists for the most part of forests, the Bolsheviks have been able to come through our lines disguised as peasants.

It is a tribute to the allied and Russian intelligence service that the work of these agents has been, for the most part, nipped in the bud.

Realizing the source of most of the labor troubles that have arisen from time to time, the governor general, Eugene K. Miller, has prohibited strikes among workmen employed on war materials.

One of the efforts of the Bolshevik agents has been their attempt to gain sympathizers among the American soldiers. This is done mainly by Bolshevik propaganda which is harmless to the American troops that junior officers commanding detachments along the Entas river in the English sector, on several occasions, accepted armloads of printed matter from Bolshevik officers who came across no man's land to parley with them.

The Americans are short of reading matter down on this sector, which is accessible only by sleds, and the Bolsheviks intend to amuse them with these long Arctic nights. Most of it, written in a flamboyant style apparently by some Russian who formerly worked for the New York socialist newspapers, calls on the Americans to come over and join the happy Bolshevik proletariat and lay down their arms. Much of the propaganda is included in a weekly newspaper printed in English at Moscow.

There is also a pamphlet, written by a former English journalist, which attempts to treat the Bolsheviks as martyrs, to treat their prisoners well, instead of killing them, as the Americans have grown to believe from evidence they have encountered.

In these parleys between American and Bolshevik officers, which are usually on the subject of exchange of prisoners, the Bolsheviks make salutes, although the salute has been abolished in their own army.

Ascension Church to Observe Good Friday

"Olivet to Calvary" Is Cantata to Be Rendered by Choir

At Ascension Episcopal church Good Friday will be observed at 8 o'clock tomorrow evening by the rendition by the choir of J. H. Maunders' cantata, "Olivet to Calvary." The cantata recalls simply and reverently the scenes which mark the last few days of the Saviour's life on earth. The rejoicing of the multitude with hosannas and psalms, the lament over the beautiful Jerusalem, the scene in the temple and the lonely walk back over the Mount at night form the chief features of the first part.

The second opens with the Supper of the Passover at which Jesus gives his friends the new commandments of love for one another as the sign of true discipleship. This scene passes to the infinite pines of the Garden of Gethsemane, the sudden disappearance of the hostile crowd, Jesus forsaken by his disciples, his utter loneliness among the ruthless foes, the tumult before Pilate in the judgment hall, the passage of the cross, the tragedy and the triumph at Calvary.

The personnel of the choir is as follows: Mrs. Emma Longley Warren, Mrs. Marion Tucker, Mrs. W. H. Dwight, Mrs. T. J. Woods, Mrs. A. M. Bowen, Mrs. P. O. Bethune, Mrs. E. T. Provoost, Mrs. Alice Taylor, Mrs. Anna Smith, Miss Ruth Hewitt, A. S. Paulin, W. F.

BERNARDI SHOWS DRAW CROWDS ON FIRST NIGHT

Liberal Patronage Attests Appreciation of Showman's Efforts

A large, highly enthusiastic and without most orderly crowd was out last evening to witness the opening performance of the Bernardi greater show in South Park. Joyful exclamations and liberal patronage attested the appreciation of the crowd of Bernardi's efforts to provide something just a bit richer and bigger and better than anything of the kind seen in Twin Falls before. The various shows have been materially strengthened and the rich appearing riding devices are the last letter in novelty and luxury from New York. A tired but happy crowd filed slowly away at midnight and the management expressed pleasure with the opening reception.

If there's a better value to be had at the same cost, that is important to you. If you study the ads you will ascertain facts of this kind.

# PYTHIANS MAKE PLANS TO MOVE LODGE QUARTERS

## Dispossessed Fraternal Order Negotiates With Masons for Occupancy of Masonic Temple Here

The Knights of Pythias and Pythian Sisters lodges, which with the Moose and Eagles lodges, are dispossessed through purchase by M. S. Hoover of the Gregg Business college, of the building in which they have had lodges rooms for about five years past, are negotiating for use of the Masonic temple as their new home.

In this matter, C. H. Eldred and C. O. Siggins, as trustees, are acting for the Pythians. A definite proposal on the part of the Masons has been made and accepted by the Pythians subject to the decision of the lodge members at their next regular meeting.

In the event the Pythians take new quarters in the Masonic temple, the Knights meeting night which now falls on Tuesday evening, will be changed either to Monday or Friday to avoid conflict with the meetings of the several Masonic bodies.

Arrangements for removal into new homes have not been perfected on the part of either the Moose or the Eagles lodges.

Now is the time to get your screens for summer use. Phone 839, City Bath & Door Factory.

# LITIGANT'S SUSPICIONS ENLIVEN PROCEEDINGS

## Kimberly Man Accuses Attorneys of Attempt to "Blackball" His Money

"You shyster lawyers have been trying for years to blackball me out of this money,"

This was the remarkable remark uttered by W. E. Summers, the defendant in a case on for hearing in probate court here Wednesday which called for winding of the judicial gear of Judge O. F. Duvall's administration for order in the court room, marking one of the enlivening moments in the trial.

Summers was sued in this case by Ben Chadwick for \$120 alleged to be due as consideration for a quit claim deed given in September, 1916, by Chadwick to Summers covering a certain piece of real estate in Kimberly which Chadwick had contracted to purchase at some prior time. Chadwick testified that after taking possession of the place he built a house at a dwelling at a cost of between \$800 and \$900. Then he became sick and unable to continue the payments. He rented the place and was to receive \$100. He collected the rental for a time and later it was collected by Summers. He said that he had agreed to sign the quit claim deed for a consideration of \$125.

Summers denied the agreement as to consideration for the quit claim. He admitted payment to Chadwick of \$15, but said that that was made in full because he was sorry for Chadwick.

H. C. Hazel and Harry J. Benoit appeared for Chadwick, and E. V. Larson for Summers.

## Quartet of Installment Plan Buyers Haled Into Court on Complaints Filed by Filer Dealer

Dealers in Ford's may be induced to sell their cars on the installment plan, but the purchaser must make regular payments or answer to the courts. This was the case Wednesday in a four-count suit instituted by J. E. Reichers of Filer against four defaulting purchasers of Ford's on the installment plan were set for hearing before Judge O. J. Duvall in the probate court here. Service of summons in one case could not be had, and in another, a plea for continuance of the trial was granted. One of the two Ford buyers who appeared closed the account by writing a check for the whole amount due, together with court costs and attorney's fees, and the other satisfied the creditor or as to arrangements for continuance with the installment payment plan.

## Josephine Caudle Finishes Year Without Absent or Tardy Mark

Six-year-old Josephine Caudle was made happy on the closing day Friday last at school in the District of Columbia when she was presented with a diploma in recognition of her record for attending school throughout the entire year without being absent one day or tardy. Little Miss Caudle faithfully trudged the distance of one-half mile between her home and the school every day during the sessions, and her progress at study is as noteworthy as her record for attendance.

# EXTRA REGISTRARS LIST MORE MUNICIPAL VOTERS

## Excuse for Lack of Qualification Narrows as Work Proceeds

There will be little or no excuse for failure on the part of citizens of Twin Falls to comply with the provisions of the new law in regard to the requirements for registration at the forthcoming city election. Four deputy registrars, appointment of whom was authorized by the council Monday, at the close of their first day's canvass, turned in to City Clerk W. A. Minnick the registration certificates of approximately 400 electors, and their work is to be continued until the city is thoroughly covered. City Clerk Minnick today estimated the probable number of voters registered for the election on Tuesday.

The new registration law requires that persons who did not vote at the last city election two years ago, or who have changed their residence from one ward to another since that time must register for the coming election. The registration books at the city clerk's office will be open until 9 o'clock Saturday night next.

# More War Stamps Being Cash'd Than Bought This Month

## Postmaster Figures Close to Keep Specie to Meet Pay Rolls

More war savings stamps are being cashed at the Twin Falls postoffice than are being sold in this county. Owners of war savings stamps aggregating in maturity value more than \$6000 April 1, have presented their stamps for cash refund at the Twin Falls office. Over \$900 was so paid out Wednesday, according to the statement of Assistant Postmaster W. G. Thompson.

So great is the volume of demand for cash for war savings stamps, Mr. Thompson stated, that his remittances to the postoffice for payment for some weeks past have been almost entirely paid in these stamps, and he is kept figuring to keep on hand a supply of cash sufficient to meet the payrolls of the office.

The law requires that ten days notice be given to the postmaster before stamps are presented for cash payment.

## Contributions of Twin Falls County Schools to Fund for Relief in Near East May Lead in State

The report received Wednesday showing the contribution on the part of the Kimberly schools of \$94.05 to the fund for the relief of sufferers in the Near East, bringing the total amount contributed by pupils of the several schools of the county up to \$802.35, probably will place the schools of Twin Falls county at the head of the list among contributors to this fund among the Idaho counties.

Advice received from B. M. McCracken, state chairman for the American committee for relief of the Near East, Miss Britton Wolfe, county superintendent, when the contributions of the schools of this county had reached \$707.33, was that Twin Falls county was leading in the ranking, but at a few days of reaching the mark set by Ada county.

Miss Wolfe has requested the state committee for later statement of the standing of the several counties.

# AVIATOR TELLS OF CONDITIONS IN RED GUARD

## Deserter From Forces of Bolshevik Relates Deeds of Radicals Among Russians Completely Overturning Old Ways

(By Associated Press)

VLADIVOSTOK.—A Russian aviator who deserted the Red Guard army in January and flew into the lines of the All-Russian forces has described the conditions then prevailing in soviet Russia to a member of the British mission here as follows:

The soviet authority had nationalized all supplies including warm clothing which was being furnished only to the Red army. The Bolsheviks were carrying on agitation in all countries as Lenin's only hope for perpetuation of his control and of Bolshevism. Lenin and Trotsky were not in complete accord. Trotsky wished to smash the remnants of the old military regime, including discipline and a measure of discipline. Many Russian prisoners returning from Germany had joined the Red army as their only chance to live.

Church Audiences Limited.

The nationalization of women, he said was untrue. Some churches had been converted into theatres. Only the "intelligentsia" went to church. There were no private stores or shops; all were under the control of the soviet and purchasers had to show cards authorizing them to buy. Army officers had no distinguishing uniform but wore a star on the cap. Officers of the old regime were compelled to act as instructors in military schools, their work being strictly watched by "commissars" and their families held as hostages to guarantee satisfactory conduct.

Power of the railway "commissars" was unlimited. Railways were badly operated. Employees spent much time holding meetings. There was no coal and little wood. Workmen drink all sorts of substitutes for vodka. Moscow was well lighted but most

cities and towns were inadequately lighted.

Active Police Work.

Bolsheviks never entered villages or towns except in parties because of danger of attack upon them by peasants. They had a very active secret police organization.

In Moscow bread cost 100 rubles a pound. Two hundred rubles was an average charge for cab fare.

The peasants would only accept the old issue of currency and would not have Kerensky or Kolchak bills.

**Grain Review**  
CHICAGO—Fresh strength developed in the corn market today owing to continued unfavorable weather for the crop movement. Postponement of the New York harbor strike had only a transient bullish influence. Increasing complaints were received from rural sources that corn was getting out of condition. Opening prices, which ranged from the same as yesterday's finish to 5c higher, with May \$1.58 1-4 to 1.58 1-2 and July \$1.52 to 1.52 1-2, were followed by a moderate general sag and then by a new upturn.

**New York Stocks**  
NEW YORK—(Wall Street noon)—A confusion of buying and selling orders was responsible for the uncertain trend of the stock market in the first half hour of today's trading. American International, bito and leather preferred, tobacco products and United Cigars were the chief features of strength with Baldwin Locomotive and some of the petroleum. United States Steel soon cancelled its very moderate rise and Bethlehem and Crucible steels also yielded to pressure as well as General Motors, Industrial Alghol, and Texas company. Southern Pacific was the only railway issue to show any degree of strength.

**Chicago Potatoes**
