ALL ITALY IS OF ONE ACCORD

Huge Demonstrations of Approval of Orlando's Course Will Greet Premier Upon Arrival at Rome

(By Associated Press) ROME.—The Italic says that because he was acquainted with the President Wilson, the Italian claims, Thomas Nelson Page, American ambassador to Rome offered his resignation. A monster demonstration has been organized to greet Premier Orlando when he returns Friday from Paris. The organizers of the demonstration seek to show the premier that the country is backing the cabinet in its present attitude. There was great excitement among the members of the chamber of deputies and the senate today over the situation in Paris. Many members expressed the opinion that Italy should warn France and Great Britain that they cannot conclude peace without Italy according to the treaty binding the allies.

Whole Country Amused.

Telegrams from cities and villages throughout Italy describe the organization of demonstrations in support of the cabinet. In mid-February, rumors were in circulation that Ambassador Page was to resign. Early in April it was reported from Paris that the ambassador had sent in his resignation, but there has been no official confirmation of the report.

Report of Resignation of Ambassador Untrue

WASHINGTON.—The statement was authorized at the state department today that there was no foundation for a report published in Rome that Ambassador Thomas Nelson Page had offered his resignation upon learning of President Wilson's attitude toward Italy in the peace conference. State department officials said that whatever might be Mr. Page's personal plans for the future, he of course would not consider resigning at this time.

Newspapers Amused.

The reply of Premier Orlando to President Wilson apparently has made a deep impression on the Italian press and virtually every Italian newspaper devotes much editorial comment to the premier's statement. The Popolo Romano says: "Italy replies to a man who is her king and her government, who demands with unwavering tenacity their sacred and inalienable national rights."

After describing the premier's reply as a proud and thrilling document, the Corriere d'Italia says: "The American people cannot be in agreement with a man who so haughtily arrogates to himself the right to decide the fate of Europe."

Not for Wilson Peace.

The Idea Nazionale declares that not one Italian would dare to sign a peace as proposed by President Wilson. It says that President Wilson has perhaps irremediably jeopardized the peace of the world. The newspapers announce that patriotic societies are urging the Italian people to address an appeal to the American people and the American senate and house of representatives.

SOLUTION OF PROBLEM MAY APPEAR SOON

Peace Conference Circles Believe a Settlement of Difficulties Is Now in the Making and Adjustment Probable

(By Associated Press) PARIS.—Peace conference circles were inclined to believe today that an amicable solution of the Italian incident was in the making. Italy would remain friendly. For one thing, Italy has shown less desire to maintain good relations with the allies by the fact that the Italian delegates remaining in Paris will continue to collaborate in the work of the inter-allied commission not pertaining to the actual work of the peace conference.

May Return to Paris

It is thought possible that Premier Orlando may call the Italian parliament together at an earlier date than May 6, as previously fixed and that he may be back in Paris for the opening of the negotiations at Versailles, which will not begin before the first or second of May.

Thousands of Citizens Are Fleeting From City to Avoid Ruthless Treatment of Authorities

(By Associated Press) BERLIN.—Hungary has hermetically closed all her borders in an effort to control the Rumanian invasion and prevent unfavorable news from escaping from the country. Reports from Budapest, therefore are contradictory but all indicate the situation is grave. Soviets' Days Numbered. The days of the soviet government are perhaps numbered. The conditions are said to have sixty thousand colonial troops in Neutze, which are advancing as a Rumanian reserve. The troops are said to be preparing to attack. The people of Transylvania have revolted and are advancing with the Rumanians because of the agrarian measures imposed by the soviet regime.

Bank Note in Budapest

A panic is said to exist in Budapest where the communist authorities are reported to be ruthlessly arresting scores of the bourgeoisie. Thousands of the citizens are fleeing according to reports. The Budapest police have begun a counter revolutionary movement but it is said that all involved have been arrested. Government troops are leaving for the front unwillingly, having in mind the experience of their comrades who capitulated to the Rumanians.

Messengers Are Coming in Advance of Delegation to Make Settlement

(By Associated Press) PARIS.—German official couriers, in advance of the German delegation to the peace conference, arrived at Versailles today. The Germans traveled by special train from Creil, near Compiègne. They were received at Versailles by Colonel Henry and other French officials and taken to the Hotel Des Reservoirs, which has been assigned to the German delegation. The Germans reached Versailles at 10 o'clock. The couriers are Herr von Warandorf, councillor of embassy; Herr Walter, a postal inspector, and Herr Duker of the supply department.

GOLD WAVE SWEEPS OVER ENTIRE EASTERN SECTION

Weather Man Declares It Is Too Early to Have Ball Games and Outdoor Sports

(By Associated Press) WASHINGTON.—A general gold wave, with snow flurries and freezing temperatures prevailed today over nearly all of the territory east of the Mississippi river. Although no April records were broken so far as reports received here in detail, the cold was unusual and will not begin to subside before tomorrow Sunday. Much crop damage was predicted, although high winds last night saved early crops from greater destruction. Too Cold for Baseball. In looking over his map today, the weather man said it was entirely possible for baseball, especially at the end of the season, to be high and rather inland. It is said that it was trying to get yesterday's work of the "Mississippi" river in the south reported that it was more like football weather. The cold, however, will not reach Florida.

ITALIANS LEAVE OTHER NATIONS TO MAKE PEACE

Move of Southern Ally Does Not Mean Cessation of Participation in Making Peace With Rest of World

GREAT BRITAIN AND FRANCE ATTEMPT TO FIND SOLUTION

Council Discusses Japanese and Chinese Problems Without Reaching Any Definite Decision on Final Disposition

(By Associated Press) Although Premier Orlando has left Paris with two other members of the Italian delegation to the peace conference, the latest Paris advices do not give the view that the move means a cessation of Italy's participation in the conference. Italy, if all her delegates leave Paris, will be represented at the conference by Great Britain and France. Attempts Adjustment. Efforts to find some middle ground between Premier Orlando and President Wilson continued during the day yesterday, but there is no indication as to the nature of the advances made by Premier Lloyd George and Clemenceau in their attempt to hold the coalition of the allies intact. The council of three held a meeting yesterday, but the expected decision relative to the rival Chinese and Japanese claims to the former German fortress of Kiao Chau and the Shantung peninsula was apparently not reached.

Approves Danzig Plan

Reports from Paris state that a plan dealing with Danzig, the Polish port of Danzig, claimed by Poland, has been approved. This plan creates Danzig as a free city, under a sort of Polish protectorate. Poland would give the use of the docks and wharves, the control of the Vistula water route and the corridor leading from the former Polish frontier to the sea to Germany. Conditions in Hungary are, according to a report from Berlin, very grave. The Rumanian advance is continuing. French troops adding in the movement. The council of three met at Neustadt on the Danube below Budapest to act as reserves for the Rumanians. The advices state, Czecho-Slovak troops are reported by Vienna to be attacking the city of Wlitz, twenty miles north of Budapest. President Wilson has recognized the British protectorate over Egypt.

(By Associated Press) CAMP MERRITT, N. C.—Eighty-five officers and 3,000 men of the 10th and 302nd infantry, 64th brigade headquarters and the 141st field artillery, left here today for demobilization at Camp Holley, near Grant, Sherman, Gordon, Travis, Shelby, Taylor, Bowie, Lewis, Fort Russell and the Presidio. One detachment of 155 men of the 158th remains to be sent to Camp Union next Sunday to be mustered out.

COUNCIL MEETS THIS AFTERNOON

Remaining Members of Conference Gather to Discuss Important Problems

(By Associated Press) PARIS.—Premiers Clemenceau and Lloyd George and President Wilson, it is announced, will meet at 4 o'clock at 4 o'clock this afternoon. The topics to be discussed at the meeting are not known. The chief interest attached to the afternoon session is whether Foreign Minister Sonnino of Italy will attend and continue the discussion of the Italian problem as he intends to leave for Rome tonight. However, it is not considered likely that he will attend.

GIANT TRANSPORT ARRIVES

(By Associated Press) NEW YORK.—The giant Russian Livestock arrived here late today. It consisted of 12,500 horses. Several units of the forty-second "Rainbow" division were on board including large detachments from the 149th and 150th field artillery regiments, 166th and 128th infantry regiments, 1st and 2nd cavalry, 1st division and 85th brigade headquarters and division military police.

ITALY WILL NEVER SUBMIT TO DOMINATION BY ALLIES

Action of President in Making Public His Position on Fiume and Adriatic Claims Construed by Orlando as Insult to Italian Delegation; Propriety of Injection of Outside Influence into Situation Strongly Questioned.

RIGHTS OF ANCIENT AND NEW ITALY ARE OF PARAMOUNT CONSIDERATION

(By Associated Press) PARIS.—(AP)—A distinctly more hopeful and less irreconcilable feeling prevailed at Italian headquarters today. No longer was there talk of a breach with the peace conference, but instead, it was said: "All may be settled within a fortnight. Premier Orlando has gone to Rome to consult parliament. Thereafter we shall see."

(By Associated Press) PARIS.—In the statement given out today by Premier Orlando in reply to President Wilson's appeal on the Adriatic question, stress was laid by the Italian prime minister upon the question of the propriety of any attempt from the outside to set up opposition between the Italian people and their government. As revealed by the full text of the premier's statement now available, after arguing that such an attempt would virtually mean the ignoring and denying of the high degree of civilization which the Italian people had attained under democratic government, the premier added:

Delegates' Act Causes Concern at the Vatican

Pope Benedict Is Deeply Worried Over Turn of Affairs at Peace Conference.

(By Associated Press) ROME.—The Vatican is deeply concerned over the withdrawal of the Italian delegation from the peace conference. Pope Benedict today had a long discussion of the situation with Cardinal Gasparri, the papal secretary of state, and the latter had an interview with Archbishop Ceretti, the under-secretary of state, who recently visited America and talked with President Wilson. Neither the cardinal nor the archbishop would express any opinion on the subject, saying their information was insufficient as to what the real feelings of the master were, but each expressed the hope that an adjustment would be reached.

BOLSHEVIK ARE NEAR LIMIT OF THEIR CONTROL

Reports Indicate Ebb of Strength of Russian Terrorists and Probable Exit of New Regime Now in Force

(By Associated Press) VIENNA.—The capture of Kiev from the Bolsheviks by partisans of General Petliura, the Ukrainian nationalist leader, is interpreted here as signifying the ebb of the Bolshevik strength in southwestern Russia. As soon as the Bolshevik troops came into contact with the untrained, but determined forces of General Petliura, they deserted the Red standard. Hoping for Ukrainians. It apparently has been the intention of Lenin and Trotsky to hold the Ukrainians until the crops could be harvested and transported to Moscow. Trotsky, as heavily the Red army, used all his skill in attempting to subjugate the Ukraine. The Bolsheviks penetrated the country in four sections. First came agitators and next, marauding bands to strike terror. They were followed by larger bodies of troops made up of foreign elements. Last came soviet troops headed by Bolshevik commissars. Iron discipline was maintained by Chinese assassins who executed all soldiers who revolted.

California Regiment Just Returned From Overseas Marches for Loan

(By Associated Press) EL PASO, Texas.—Wearing their shell trench helmets, horn-bushed shoes and overseas olive drab with the green fir tree of California on their right shoulders, the 36th infantry paraded through the city here today as a part of the Victory loan campaign. The California regiment arrived at an 11 o'clock on two trains in command of Major Borch. The Californians were met at the station by the Victory loan committee and requested to parade in the interest of the Victory loan. Major Borch ordered the men to replace their overseas caps with their helmets and, led by "Bessie", the whippet tank which is here for the loan drive, the California men marched through the city behind a military band. After a night seeing trip over the city the regiment left at noon for Los Angeles.

COUNCIL GIVES DANZIG FREEDOM

In Making a Free City of This Port, the Conference Does Great Service

(By Associated Press) PARIS.—Reconsideration of Polish claims relative to Danzig has resulted in a decision concerning the future status of that city which goes considerably further toward satisfying Polish demands than had been contemplated. The "free city of Danzig" will be created, virtually as an autonomous public within the Polish state, represented in international relations by Polish diplomats. Poland will be guaranteed free use of the Danzig transportation facilities and will be given control of the Vistula water route and freedom to cross, not only through the Polish corridor, but also through German territory, if necessary. Polish control, however, will not extend to the internal affairs of the city. Germany will be guaranteed freedom of passage across the Polish corridor to East Prussia.

PROSECUTION OF CRIMINALS IS UNCERTAIN

Delegates Find It Hard to Agree on Method of Punishing Guilty Parties and Determining Justice of Cases

(By Associated Press) PARIS — It has become known that the American delegates have been unable to agree to certain portions of the report adopted by the majority of the commission on responsibility for the war and as presented to the council of four, the report contains a memorandum setting forth the American reservations.

The Americans objected to the principle that persons accused of offenses against "the laws of humanity" should be subjected to criminal prosecution, contending that the laws and principles of humanity constitute a standard too uncertain to be rightly applied in legal proceedings.

Americans Advance Ideas

The principle that heads of states should be liable to criminal prosecution for breaches of positive law was another point in which the delegates failed to agree with the majority. The American belief in this respect was that the essence of sovereignty lies in the fact that the head of a state is responsible for his illegal acts inasmuch as the people from whom he derives his authority and not to any foreign sovereignty. This contention was not held to apply in the case of a head of a state who is abdicated for any proceedings against such a person would be against an individual no longer embodying the sovereignty of a state nor does it apply to political offenses committed by the head of a state which may be deemed an incident to the exercise of judicial action and punishment.

Delegate Disagree

Holding these views the American delegates were therefore unable to concur in the recommendation for the establishment of a high tribunal for prosecuting commission for the trial of criminal cases, as advocated by the committee. They proposed instead that an international committee of inquiry be created to consider the relative culpability of the authors of the war as well as their culpability as to violations of the laws and customs of war and that enemy persons accused of these latter offenses should be tried by military tribunals or commissions already existing or to be created in different countries. Each of these tribunals will have jurisdictions when the offenses were committed on the territory of the nation or against its property or nationals. In the case of offenses by the enemy affecting more than one country these national courts might unite to form one mixed tribunal.

(By Associated Press) BUDAPEST — The Rumanian bureau at Berne announces that after the visit of General Franchot D'Espèry to Budapest recently, Rumanian troops were ordered again to take the offensive against Hungary. Hungarian Red Guards fled from the city and large quantities of booty were captured by Rumanians.

Elaborate Arrangements Made for Kind of Newspaper Matter for Consumption of Germany

(By Associated Press) ZURICH — According to reports just reaching here from Berlin, the rulers of new Germany resolved to encompass all the efforts of their predecessors in the exercise of official influence over the press.

Immediately opposite the German foreign office stands one of the palaces of the royal house of Prussia, which of late years has been occupied by Prince Frederick Leopold, a cousin of the former emperor. This palace is to become the headquarters of the new press bureau which the government will create soon. It will be more than a mere government department, for it also will contain a club for journalists.

There will be a library, writing rooms, reading rooms, smoking rooms, billiard rooms, a restaurant, an American bar, lounge room and a gymnasium with a telegraph office conveniently attached.

Every conceivable device, it is stated, will be employed to capture and retain the sympathies of newspaper men.

CONDITION IN GERMAN CITIES BECOMES QUIET

Strikes Throughout Country Are Ending Almost as Suddenly as They Began in Spite of Agitation

(By Associated Press) BERLIN — Almost as suddenly as the recent strikes began here, there and everywhere, Germany appears to be quieting again. The coal miners in the Ruhr district are returning to work and yesterday those in the Bussburg and Muehlen districts, as well as half a dozen other places returned to the collieries.

Men Resume Work

The fact that the men are resuming work is remarkable because the communists have urged a continuation of the strike.

A Big Factor in the Situation

has been the distribution of American food, which has proved a special attraction to laboring men.

Modesty Martial Law

The situation in Brunswick has quieted so that the authorities have been able to modify and lighten the regulations incident to martial law. Hamburg is almost the only city with the exception of Munich where matters have not quieted, at least for the moment. Military forces are still in charge at Hamburg and with the police succeeded yesterday in bringing about order after communists had vainly stormed the police station. The communists have been guilty of a number of cruelties at Hamburg, it is charged, as a result of which innocent people have lost their lives.

HEAVY TAXES PLANNED.

(By Associated Press) BERLIN — German pleasure seekers will be called upon to pay a considerable part of the cost of the war through a special amusement tax which will form an important part of the government's new financial policy. The tax will apply to admissions to theatres, concerts, movies and dances. Starting at 10 per cent on the cheaper tickets it rises to 30 per cent on the price of better seats.

The passion for amusement after long years of war is so great that the tax is not expected to discourage attendance at theatres.

Gambling is in great favor in Germany just now, and the playing card tax which in ordinary times would be considered prohibitive is expected to have practically no effect on sales of cards.

PEOPLE DESIRE FRIENDSHIP OF BOTH PARTIES

London Papers Are Cautious in Expressing Any Opinion Regarding Crisis in Peace Conference

(By Associated Press) LONDON — The peace conference crisis continues to be the paramount topic of comment in London's morning newspapers. The support they give to President Wilson's and Italy's views are, respectively, about evenly divided but with two or three exceptions, opinions are expressed cautiously and with a manifest desire to show friendliness for both Mr. Wilson and Italy, and to avoid anything likely to hinder the speedy restoration of harmony.

The Post refers to Mr. Wilson's "wild west diplomacy" and says: "Mr. Wilson's name among the allies is like that of the rich uncle and they have accepted his manners out of respect for his means."

The Express announces that "President Orlando has gone home and we commend his example to Mr. Wilson."

PEACE TROUBLE DELAYS RETURN OF PRESIDENT

Disagreement at Conference Over Italian Claims Will Prevent Wilson Coming Home as Soon as Planned

(By Associated Press) WASHINGTON—Confidential dispatches from Paris to administration officials here today indicated that the crisis brought about by Italy's demands, and the unalterable determination of President Wilson not to become a party to recognition of secret treaties, had so upset the plans of the peace conference that the president's return to the United States probably would be considerably delayed.

Attitude May Change

Belief was expressed in official quarters that Italy eventually would be obliged to recede from her demands, though it was recognized that for the moment Premier Orlando and his delegation were obliged to maintain an unyielding attitude of face reputation at home. The decision of the Italians to withdraw from Paris was forced, according to the view here, by the opposition of Italy to the present cabinet, growing so rapidly under the direction of former Finance Minister Nitti, and Giolitti, also a former cabinet officer.

Government Does Not Withdraw

It was pointed out that the withdrawal of the delegation did not mean the withdrawal of the Italian government from participation in the peace negotiations or from the league of nations. Italy might agree to abide by the decision of the other allies and satisfy herself with a protest against the loss of Fiume. Italy's position, it also was pointed out, is extremely precarious because of the fact that she is almost entirely dependent upon the United States for financial credit, food supplies and fuel.

MEXICANS PLAN BIG BUSINESS

Thirst Parlors Are Opening in Anticipation of Visitors From Across Border

(By Associated Press) JUAREZ, Mex.—New saloons and gambling houses continue to be erected here against the time that the most-part restrictions are removed and Americans may come to Juarez to quench their thirst for "hard liquor" and lighter beverages. On the principal business corner of the town, where the two main streets meet, a large building is being erected with a wine cellar for the use of American saloon keepers who were forced out of business by the Texas state-wide prohibition. A large keno hall for gambling is being built in connection with these saloons and across the street, a beer garden is being established where once the Mexican federal general commanded the defenses of the town from the rebels.

Visions of a rush of tourists to Juarez after the nation-wide prohibition amendment becomes effective July first are being drawn by the curio dealers, gambling house keepers and other men here. However, a movement has been started to have the state of Chihuahua declare Juarez a dry zone to prevent this expected influx of tourists. It is being held that this will give Juarez a bad reputation and attract undesirable characters from the United States.

The Commissioner states that he has not been disposed to interfere with the sale of bay rum for legitimate medicinal purposes, but in view of continued violation of the law, he is forced to place it under a ban. DIRIGIBLE BALLOON IS BIG COMMERCIAL FACTOR

Will Outweigh Airplane When It Comes to Transportation of Goods

(By Associated Press) LONDON—British experts, seeking to forecast the future potentialities of aircraft, seem to agree, that it is to the dirigible of rigid construction, not to the airplane, that one must look for the maximum of commercial usefulness. The limitations of airplanes designed on present principles are as generally known. Technically, it is an accepted fact that an airplane cannot be produced which is capable of transporting commercially adequate loads for a longer non-stop flight than 400 miles. For practical purposes 500 to 600 miles are regarded as the workable limits.

But the prospects of airships are much less easy to diagnose. It is recognized that rigid airships can fly for distances of 2,000 miles carrying a commercial load of approximately fifteen tons and that they are enabled to undertake long flights in 100 miles. Whereas the four-engined giant airplane of 1100 horsepower is able to lift less than four tons and burns twice as much gasoline.

URGES BUILDING ANOTHER CABLE ACROSS PACIFIC

Convention of Japan-United States Society Is Advocating Construction of New Line to Aid in Communication

(By Associated Press) TOKIO.—Construction of a new cable line across the Pacific to insure better communication between Japan and the United States was urged by speakers at a dinner given tonight by the American-Japan society. Many American visitors were guests, including William Potter, of Philadelphia, former American minister to Italy, Robert N. Lynch and Wallace M. Alexander of San Francisco, and Emil Scholz of New York.

Viscount Kaneko urged that there should be another Pacific cable by way of the Aleutian Islands to insure quick communication and to remove the possibility of misunderstandings and nullify the efforts of sensational newspapers and mischief makers to disrupt the cordial relations between Japan and America.

Entertains No Selfishness.

Mr. Potter said he could assure the Japanese that America had no selfish quick communication and to remove the possibility of misunderstandings and nullify the efforts of sensational newspapers and mischief makers to disrupt the cordial relations between Japan and America.

SOCIETY EXPLORES FAMOUS ISLAND OFF ALASKAN COAST

"Valley of Ten Thousand Smokes" Is Visited by Geographic Organization

(By Associated Press) WASHINGTON—Word was received by the National Geographic society that the sixth expedition of the society, headed by Prof. Robert F. Griggs, to explore the famous valley of Ten Thousand Smokes, has arrived at Kodiak Island, Alaska, opposite the extensive volcanic area about Mount Katmai.

Professor Griggs headed the society's first expedition to the Katmai district, in 1915. The following year he discovered the volcanic area there which has been called one of the greatest natural wonders of the world and which has been set aside by President Wilson as a national monument.

This year the party includes chemists, a photographer, a zoologist, other scientific men, and motion picture photographers.

Effort will be made to determine whether Helium, the non-inflammable gas which is expected to revolutionize the science of ballooning, is to be found about Katmai.

WASHINGTON the old fashioned way on a rub board, and for the average family, means pretty much of a day of confusion and hard work, doesn't it? But that's the old way of washing.

To wash the new way, the really economical way, wash day is changed to wash hour.

The

Western Electric Washer and Wringer

will do the hard work of your washing for you. It will save you for half, ten by the saving in laundry bills, and by the saving on your clothes. Wash board rubbing wears clothes out the same as it rubs your knuckles raw.

Galen McMaster, killed on the battlefields of France, would have been interested in the situation which obtains in Twin Falls County today in respect of the proposition of paying for the war; Charlie DeBuisson, who faced and met death for the benefit of those of us who remained at home, might have had something to say on the subject, had he lived to say it.

The quota of subscriptions accorded to this county of the Victory Loan—four and three quarters per cent interest and all the time you need to pay for them—has been fixed at \$220,000. So far, Twin Falls and the Twin Falls county outside of Buhl has raised approximately \$185,000. Buhl and the Buhl section have raised approximately \$50,000, or a total of \$235,000 out of the total of \$220,000.

The campaign must end on May 10, which means that about \$35,000 a day must be raised for each and every day between now and that time.

Of course, eventually, Twin Falls County will raise the money, if not voluntarily, then by solicitation; but Twin Falls County to date has shown a lamentable lack of anything approaching speed in the doing of it.

The government, be it understood, does not want our money, it wants our credit. It wants us to underwrite the gigantic undertaking of paying for the war.

Galen McMaster and Charlie DeBuisson and a host of other boys paid; paid without a murmur; paid with a smile on their lips and a song in their hearts. Paid, to the glory of God and the honor of their homes! And we are only asked to lend.

THE ITALIAN EMBROGOLIO

Through the mass of information now coming in from Paris, one point is clear, namely, that the Italian delegation headed by Premier Orlando is much more increased over the personal equation in the row, than in the matter of the bare question of the justice of Italy's war demands.

President Wilson announced to the world his position on the Fiume and Adriatic questions, and in so doing he necessarily announced his position to the Italian people at the same time.

Here comes the rub. Technically, President Wilson went over the heads of the Italian delegation in an announcement to the people of certain principles, which, according to the views of the Italian delegation, should have come from itself.

There is hope in the situation from two angles. In the first place, the main question is not a question of the rights of nations but a question of the propriety of a certain action by a member of the Conference; and in the second place Orlando himself declares that a solution must be found. In the last point lies the main hope. Given the fact that each member of the conference admits the flat necessity of a solution and such solution is bound to eventually come about.

In the mean time, Italy has moved no troops, notwithstanding her reference yesterday to such possibility. The action of President Wilson, whether one agrees with his wisdom or not, was precisely what might have been expected from President Wilson.

IDAHO TO GO IN FORCE TO SAINT LOUIS MEETING

Plans Are Projected for Sending Delegation of 16 Men From State to Service Men's Association Caucus

Idaho will be represented probably by eight delegates and as many alternates at the caucus of war veterans to meet in St. Louis on May 8, 9 and 10 as a preliminary to the first national convention of a perfected organization of war veterans to be held on November 11 of this year.

It was determined at a recent meeting in Boise of eight members of a temporary state committee appointed by Governor Davis to send the entire delegation of 16, comprising both delegates and alternates, from the state to St. Louis, and if the plan did not prove unnecessarily expensive to secure a special Pullman car to carry the delegation. The car would be used as permanent sleeping quarters by the delegation during the time spent in St. Louis and would thereby save additional outlay for hotel accommodations.

Local Men Going

Both John S. Green and Taylor Cummins who were selected as delegate and alternate respectively, to represent the eight counties of Twin Falls, Cassia, Minidoka, Lincoln, Jerome, Camas, Blaine and Gooding, have expressed their intention of attending the St. Louis caucus.

To Act with Paris Caucus

The caucus of veterans which will meet in St. Louis on May 8, 9 and 10, is not in any sense a national convention of veterans, but is merely preliminary to the first national convention of a perfected organization to be held on November 11 of this year. The duties of this caucus will be merely to adopt a tentative constitution and to appoint an executive committee which will act in conjunction with the representatives of the Paris caucus of March 15 to make definite arrangements for the perfection of the organization of the American Legion.

All officers and enlisted men who have served in the military and naval establishments of the United States at any time between April 6, 1917, and November 11, 1918, will participate in the election of representatives to the November convention. That convention will be composed of delegates from all states duly elected by the veterans, and will have full power and authority to adopt, modify or reject the steps taken by the St. Louis caucus.

The officers of the temporary committee for the purpose of convening the caucus are Lt. Col. Theodore Roosevelt Jr., New York, chairman; Lt. Col. Bennett Clark of Missouri, vice-chairman; and Lt. Col. Eric Fisher Wood of Pennsylvania, secretary. Each state is entitled to a number of delegates to the St. Louis caucus equal to twice the total congressional representation, and an equal number of alternates. Under this rule Idaho is entitled to eight delegates and eight alternates.

Under the direction of the temporary committee Governor Davis named eight members of a temporary state committee to convene in Boise April 19, John S. Green of Twin Falls being one of the number. This temporary state committee was directed to determine upon a method of selecting the delegates and alternates to the St. Louis caucus. It was the first intention of this committee to hold a state convention for the selection of these delegates, but after full discussion it was concluded that such plan was not feasible due to the lack of local organizations in many counties of the state, and the lack of time for the perfection of such organizations and the holding of such convention prior to the date set for the caucus. The committee thereupon named themselves as delegates, also naming eight alternatives, Taylor Cummins of Twin Falls being named as alternate for Mr. Green.

ARRANGE FOR SWIMMING MEET. HONOLULU, T. H.—Arrangements are being made for a big swimming meet to be held in Honolulu harbor May 30-31 under the auspices of the Y. M. C. A. and sanctioned by the Hawaiian Association of the A. A. U. It will be the first swimming meet held in Honolulu in more than a year.

WILL RESUME RACING. JUAREZ, Mex.—Racing will probably be resumed at the Juarez Jockey club plant near here next winter, it was announced by the local representatives of the Jockey Club of Juarez, which is owned by an American syndicate of horsemen. The resumption of normal conditions in northern Mexico, coupled with the fact that saloons may be operated here, is expected to assure the reopening of the Juarez track which has been closed for two years. The double attraction of racing and open saloons is expected to attract crowds of tourists from the United States, the local officials say, and they are already agitating the erection of a large, modern tourist hotel here.

SIX CLUBS IN LINE TO PLAY LEAGUE GAMES

Buhl and Paul Are Admitted at Meeting of Promoters in Burley—Making of Schedule Goes Over

Because of a decision reached at that time to admit the teams of Buhl and Paul into the south central Idaho baseball league to make, with Filer, Twin Falls, Burley and Rupert, six teams in all, no schedule of games for the league this season was formulated at a meeting Wednesday evening in Burley of the promoters of the league.

Another meeting was arranged for, however, to be held on Monday evening next in Twin Falls, at which time it is expected to complete the schedule of games.

The claim of Paul for a place in the league was presented by a committee headed by H. A. Whittier, T. E. Jones and Dr. H. R. Adams. Buhl communicated both by telephone and wire with the promoters. A committee from Rupert and Paul is to meet today with Buhl fans to assist in making plans for the Buhl club.

Organization of the league with six teams is certain to result in a more interesting season, F. B. Mester, who has been active in the organization of the Twin Falls club and of the league, said today.

The prospects for a winning team in Twin Falls were never better than they are this season," he added.

Plans are being made for a practice game to be played here on Sunday next.

The owners of practically all of the largest and best dairy herds of the district were represented at a meeting held Thursday afternoon in the offices here of the county farm bureau at which organization was effected of the Pioneer Cow Testing association which is to succeed the cow testing association existing in this district for several years and which suspended operations last spring when the official tester, L. W. Sharp, entered the military service.

The reorganized association will begin work with about 400 cattle listed for the testing. An official tester who has been designated for the position is expected to arrive here in the near future to enter at once upon the duties of his office.

Officers and Directors.

The officers of the association elected at the Thursday meeting are the following: President, S. H. Kayler, Twin Falls; secretary, Carl D. Irwin, Twin Falls; treasurer, William Shotwell, Twin Falls. These officers with the following who were named at this meeting are to serve as the board of directors: C. H. J. Jemphman, Twin Falls; C. E. Long, Buhl; George Childs, Buhl; A. A. Glodowski, Buhl; C. H. Hardesty, Buhl.

Noel Noyles of Salt Lake, cow testing association specialist of the department of agriculture, who attended the meeting and assisted in the organization presided until the permanent officers were named and Charles H. Bohrer, county agent, acted as temporary secretary.

The constitution and by-laws with the members agreement adopted at the meeting provide among other things that a fee of \$2 per year shall be paid to the association for the cow tested by a member, and that official testing of individual animals for advanced registry shall be made by the official tester at an additional charge.

Fifteen dairymen attended the meeting and others who were unable to be present on account of press of business telephoned their acquiescence in its proceedings and decisions.

How Diphtheria is Contracted.

One often hears the expression "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of the school and keep him at the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted.—adv.

WATER WORKS MAN GIVES OUT FACTS

After Searching for Years He at Last Finds Medicine That Ends Troubles

"I have been trying for years to get something that would relieve me of my troubles and have found it at last in Tanlac," said Alfred Jolly, of 3291 Quitman street, Denver, Colo., and an employee of the water works department of that city.

"For a long time," he continued, "my stomach was in such a awful fix that I could eat hardly a think without being in misery afterwards. Even the lightest foods would blast me up with gas and I was constantly belching up sour, undigested food that at times would almost choke me, and often I would get so dizzy and light headed that I would almost fall down, and I would get so nervous that it was almost impossible for me to rest at night. I suffered agony from rheumatism and was in such a wretched condition that I was hardly fit for a thing.

"After trying nearly everything I could hear of I took Tanlac, and it sure hit the spot and has made a difference in me. My appetite is splendid, my nerves steady, I sleep like a log at night, have gained eight pounds and am in better shape than I have been in years before."

Tanlac is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Murtaugh by Murtaugh Drug Co., in Flor by A. B. Wood, in Buhl by G. D. Bering Brothers Co., and in Kimberly by A. L. Stowe.—adv.

"honest to goodness"

PRODUCTS

Why They're Superior

The pick of the yield from Utah's sunny gardens—the finest that nature has to offer—are the foods prepared for market in the big, sanitary factories of the Goddard Packing Company.

Goddard's Pork and Beans—a delectable combination of tender, meaty beans and fresh western pork, with savory tomato sauce. A mouth-watering treat at any meal.

Goddard's Pickles! What an indescribable, mellow tang they have. Tender gherkins—put up with pure vinegar and rare spices. Chow-chow made of young cucumbers, combined with the best quality mustard and delicate seasonings.

Goddard's Tomato Catsup is in a class by itself. Only select tomatoes are used—luscious, juicy tomatoes, full of their natural, sun-ripened flavor. Delicious spices do the rest—the result, a catsup that is piquantly satisfying.

Goddard's Vinegar is a select product. It's pure and a favorite among western housewives.

Wholesomeness—delicacy—flavor—freshness. All these qualities are possessed by Goddard's superior products.

With three modern daylight factories—located at Salt Lake, Ogden and Provo—our facilities are unequaled anywhere in the world for turning out real "honest-to-goodness" food products.

For sale by all intermountain dealers who feature quality foods.

REAL FACTS OF LONDON TREATY COME TO LIGHT

Newspapers Comment on Situation at Peace Conference and One Tells of Articles in Agreement

(By Associated Press)

LONDON—All the London evening newspapers devote their leading articles to President Wilson's appeal in connection with the Italian situation at the Paris conference and to Premier Orlando's decision to withdraw from the conference. The Westminster Gazette endorses the statement of the American executive, noting that Italy went beyond the treaty of London, in signing Fiume as well as the Treaty and other territory assigned her by the London pact.

Conference Not Bound

"We are obliged to point," says the newspaper, "that in the treaty Fiume was assigned to the Croats. If then the appeal is to the treaty, we are as much bound not to give Fiume to Italy as we are bound to give her the other territories."

If the Italians claim Fiume under the principles of self-determination, adds the Gazette, that principle also applies to the Slav regions which were assigned to Italy under the treaty.

Wants All Benefits

The Evening Standard says it cannot pretend to be convinced by President Wilson's arguments, while the Pall Mall Gazette says that Italy is claiming the fulfillment of the treaty where she is the gainer by its terms and its abrogation where it stands in the way of her full demands.

The Evening Globe, which is strongly in favor of Wilson, says the president has taken up an impossible attitude. It refers to his appeal as an insult to the Italians and suggests that his best course would be "to retire gracefully from a discussion which concerns neither himself nor the American continent."

GOOD REPORTS OF LOAN POUR INTO TREASURY

Many Sections Are Already Over the Top With Others Following Close Upon Their Heels—Some Slow to Report

(By Associated Press) WASHINGTON.—Fear that many people regard the Victory Liberty Loan as certain of success without the usual efforts was expressed today in the treasury's official review of the loan campaign.

There were no additional reports to raise the nation's total subscriptions above \$399,496,000, as tabulated last night.

Explaining that the total reported did not represent fully actual subscriptions, the treasury review said:

"It is impossible to estimate a total amount of all sales but reports from various districts saying that returns were being made slowly by local committees supplied good basis for the belief that the purchases were probably more than the official sales indicated."

Misses Delay Subscriptions

Managers of the Cleveland district reported today that the loan was not going well in mining territory because mines had been closed for months. Industrial centers such as Pittsburgh, however, were doing thriving business. The Cleveland district today reported sales of \$107,380,000. Honor flags have been awarded to 123 committees.

Oklahoma leads other states of the Kansas City district in amount of subscriptions.

Sixteen Indiana counties in the Chicago district have reached their goals. In New England, 89 communities have won honor flags and 61 of these are in Vermont.

Many Cities Over

San Francisco district managers today predicted they would reach \$100,000,000 by the end of the week. Fifteen counties in the Atlanta district have subscribed their quotas. Galveston, Texas, described by the headquarters review as "always one of the first cities to obtain its quota," has passed 100 per cent mark.

Building of Big Theatre Plan Revived

Orpheum Management Announces Purpose to Open Auxiliary Showhouse Pending Completion of New Home

Plans for the building on Main avenue of a three story theatre building, involving a cost of \$60,000 and affording a seating capacity of 900, to be occupied by the Orpheum theatre have been revived according to the announcement made today by the Orpheum management in respect to its plans for occupying the building adjacent to its present location on Shoshone street with an exclusive motion picture theatre pending the completion of the new building.

The plans for the new structure which were projected about a year ago, were abandoned shortly afterward because of war conditions.

Equipment and furnishings purchased for the auxiliary showhouse to be operated by the Orpheum management pending the completion of the new building have been ordered with a view to their fitting and adaptability to use in the new structure.

This auxiliary show house, which has been previously occupied by the Isis and America theatres, has been thoroughly overhauled and remodeled and is to be opened immediately upon the arrival here of equipment now on the road from New York. This equipment which has been in transit for 30 days, and is expected shortly, includes an up-to-date fireproof operating room, two large simplex projecting machines and a modern ventilating system.

All of the exits have been enlarged to nearly double the former size, with big oak and glass doors in front and wide steps at the side at the rear. The elevation of the floor also has been changed, and both the interior and exterior have been redecorated.

Grain Review

CHICAGO—Corn: No. 3 yellow, 1.65 1/2; No. 5 yellow, nominal. Oats—No. 3 white, 70 1/2@71 3/4; standard 71 1/4@71 1/4. Rye, No. 2 \$1.07@1.10. Barley \$1.14@1.27. Timothy \$8@10.75. Clover nominal. Pork nominal. Lard 43.55; Rib 42.50@48.50.

Downturns ensued as a result of profuse trading, but later the market jumped rapidly on account of waves of buying which accompanied word that Europe would again be restricted to war bread. All deliveries of corn touched the highest prices yet this season, July rising 1/4-c to 6 3/8-c at one stage. The close was with at 2 7/8-c to 5 1/8-c net advance, with July \$1.68 1/2 to \$1.68 7/8, and September \$1.64 to \$1.64 3/8.

OMAHA—Corn: No. 2 white, \$1.08; No. 3 white, \$1.06; No. 2 yellow, \$1.08; No. 3 yellow, \$1.06@1.07; No. 2 mixed, \$1.06; No. 3 mixed, \$1.05@1.05. Oats—No. 3 white, 69 1/2-c.

New York Stocks

CHICAGO—Reports of bubonic plague at Buenos Aires brought about a sharp bulge in the corn market today, although previous to this news the initial weakness seemed to be due to talk of possible imports of wheat from Canada. Likelihood, however, that shipping from Argentina would be seriously interfered with, became quickly the dominating factor. Opening prices, which ranged from 7-8 to 30-32c lower with July \$1.62 to 1.62 1/4 and September \$1.58 to 1.59, were followed by decided upturn which carried July and September well above yesterday's finish.

Oats rallied with corn. After opening unchanged to 3-4c lower with July 70 1/8-1 to 70 1/2; the market sagged a little farther, and then made a quick advance.

Provisions were strong from the outset and lard jumped to a new high record, 32c a pound. The reason ascribed was European demand.

NEW YORK—(Wall Street noon)—The noteworthy feature of the morning was the marked falling off of operations, sales declining almost forty per cent below the extensive dealings of recent sessions. A more confident feeling ruled, however, and much of yesterday's loss was recovered. Oils were especially strong, gaining 1 to 3 points, equipments made almost equal advances and shipments responded to renewed buying at gains of 1 to 2 points. Texas and Texas shares dominated the rally, rising 1 to 2 1/2 points. Utilities were heavy, American Telephone and Ohio Gas losing 1 1/2 to 2 1/2 points respectively.

NEW YORK—(Wall Street 10:30 a. m.)—The tone of the stock market at the irregular opening of today's session continued to reflect the confusion of sentiment prevailing in speculative circles, mainly as a result of foreign cables. Short covering was observed

SHIPPING BOARD ASKS FOR BIDS

Program of Disposing of Surplus Calls for Sale of Wood-ven Vessels of Fleet

(By Associated Press) WASHINGTON—Bids for the purchase of 431 wood steamer hulls and 31 wood barge hulls were asked today by the shipping board, as part of its program for disposing of surplus bottoms constructed during the war emergency.

Ship fittings, such as engines, boilers, winches, cables, etc., can be furnished by the emergency fleet corporation to complete the ships if necessary. It was said that the vessels could be converted into sailing vessels or barges or equipped with internal combustion engines if desired, instead of being equipped as steamers.

Bids must be in by May 26 and accompanied by certified check for ten per cent of the amount of the bid.
