COMMANDER OF UKRAINE ARMIES SUGGESTS PLAN

Leader Invites Entente to Settle Disputes and Help in Combating Menace of Bolshevism Among Peasants.

HEADQUARTERS OF THE WEST UKRAINE ARMY, CHODOROFF.—(Correspondence of Associated Press.)—General Pavlenko, commander of the West Ukrainian army, suggests that the Entente Allies aid the Ukrainians to fight the Bolsheviks and that they also settle the dispute between the Ukrainians and Poland over the Lemberg fields.

"It would not be hard to defeat the Bolshevik invaders of the Ukraine if the Allies helped us to organize our resources and organize the West Ukrainian army," said General Pavlenko to the Associated Press correspondent. "I think this would be in the interest of the Allies. We would thus check the Bolshevik invasion of Europe and the Ukraine, which is a rich land and put our people to work growing wheat for Russia and also for Europe."

Holding Army Together
General Pavlenko, in command of the Ukrainian troops which have been fighting the Poles in the vicinity of Lemberg. He is a small wiry Russian with eyes deeply set—a courteous, quiet but eloquent character. It is evident that he is liked by his staff, which is housed in a former school building in Chodoroff. His task of holding together and organizing the West Ukrainian army is an arduous one but apparently does not weigh upon him too heavily.

"The Ukrainians were the first people to begin fighting Bolshevism," resumed the General. "This was long before the Allies thought of doing so, yet such is the irony of circumstances that the Allies call us Bolsheviks."

"The Ukrainians of Russia had for a time a touch of the Bolshevik disease but they are cured of it as they are essentially small farmers and property owners. I speak of Bolshevism as a disease situated in the Ukraine, in that sense, like the influenza. It represents an attractive proposition to poor people harassed by a long war with special hopes for the future."

Fighting Bolshevism.
"If the allies visit us in an organized spirit they will realize that we too are fighting Bolshevism. If they will determine to help in this great fight we can also win. Our arms and munitions will be able to retake Greater Ukraine from Moscow which is bent upon holding all the territory that previously was Russian. We do not advise invasion of Russia by anybody as conditions will right themselves when this mental disease has run its course. There is no danger from Bolshevism in West Ukraine as Eastern Galicia is not held as there are relatively few factory workers. Peasants are never Bolshevists."

"We have been blamed for the bombardment of Lemberg. It is true, but we had no intention of attacking Poland, destroying the Polish army's stores and the railway station. The Poles were seizing it as a military post and we were compelled to fire, but this must not be repeated as we realize that the Poles are using this fact as a weapon to advertise us as Bolshevists."

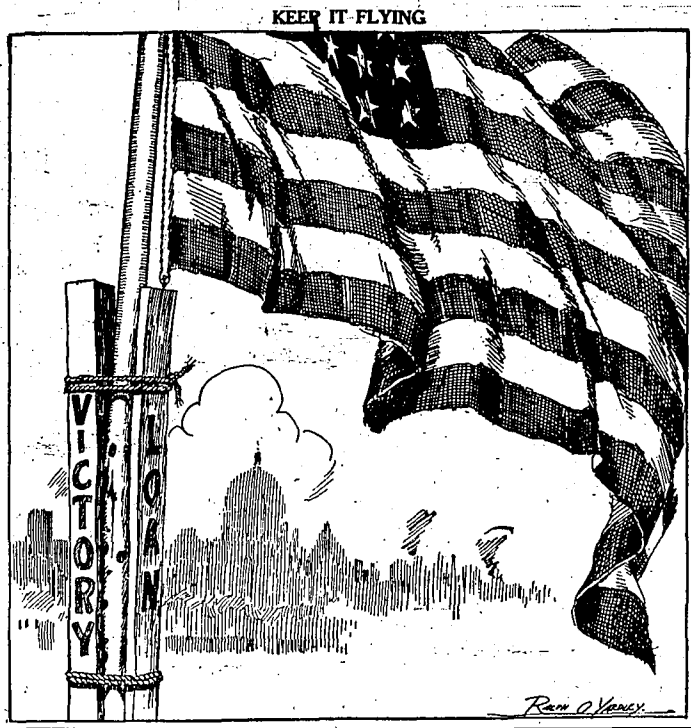

Wanting Independence.
"Nevertheless, it is a right to death in which we are engaged. After four years of war, are ready again to fight because they are mostly sons of peasants and ordinary people who also are regarded as the political and bureaucratic oppressors. The whole Ukrainian people now is engaged in a fight to obtain independence. They may be defeated by the Poles and the Bolsheviks but they prefer death to submission."

"The Russian Ukraine attempted to obtain autonomy first but was denied that from Premier Kerensky but failed. Then it asked Lenine (premier of the Russian soviet government) for permission to become one of the federated states of Russia; but Lenine rejected the plan."

Checking Invasion.
"Now we want separation and complete independence. Our efforts toward that for the past 18 months have been defeated partly by German occupation and partly by General Skoropadsky to whom rallied the Russian refugee army officers and land owners. Now all the Bolsheviks who are the invaders."

After suggesting that the allies aid the Ukrainians to fight the Bolsheviks, General Pavlenko added: "Whether the Ukraine will gravitate to Russian influences again possibly will be determined by what becomes of the Bolshevik government. However, our national spirit and hopes which before the war were uncertain and confused, have been re-awakened after hundreds of years and it is possible we may desire to make our own independent state and refuse to federate with Russia under any conditions since it is quite clear for us to live alone economically. The suspicion—that we finally may return to Russia—also may be entertained about the Poles."

STRIKES ARE SPREADING
BERLIN, (AP)—The strike movement in Upper Silesia is intensified, according to a dispatch to the Yostische Zeitung from Gliwits. There is a general strike at Gliwits. It is said, and the Upper Silesian electric lights and the iron industry is seriously affected, work being suspended in many plants. The strike movement is reported strong among railroad workers.

Alaskan Towns Elect Municipal Officers

Spirited Contests Over Positions Marked Hot Campaign Throughout Territory.

JUNEAU, Alaska, (AP)—By Mail.—Most of the large Alaska towns and cities completed their municipal elections yesterday, some marked by spirited contests.

In Juneau a Citizens' ticket was victorious, electing Edw. Gray mayor. Five councilmen and other officers were chosen also. Edward rejected the race of Mayor Harry Hobbs in another term, electing Al Chamberlain, 181 to 118. Rural registration was 301. Little interest was shown in the Cordova election, where A. J. Adams was chosen mayor and only 40 votes cast for the single ticket in the field. Ketchikan elected R. L. Petty mayor over the incumbent, M. J. Hengeman. The voters also approved construction of a municipal wharf for the fishing fleet. Dr. Wallace Peterson defeated A. G. Shoup for mayor of Sitka by 20 votes, in the town's closest mayoral fight. The total vote cast was 106.

In Wrangell J. W. Pickett, editor and publisher of the Sentinel was elected mayor. Fairbanks gave for Mayor A. L. Wilbur, a vote of 312.

Due to the influenza epidemic, Skagway's election has been postponed. With one ticket in the field, Valdez polled a small vote, electing A. J. Diamond mayor. Douglas voters showed satisfaction with their present officials, so, with the exception of voting in one nominee for the council, the voters paid virtually no attention to any other offices. Thus it is claimed that Mayor Elmer E. Smith and the old council will remain in office for another year.

BLOCKS OUT COAL SUPPLY TO LAST SEVERAL YEARS

ANCHORAGE, Alaska, (AP)—By Mail.—Sufficient coal reserve deposits have been blocked out at the mine operated by the Alaska Engineering Commission at Eka, 58 miles northeast of here to insure the consumption of an adequate fuel supply for several years, Sumner S. Smith, in charge of the commission's coal department, reports. The output, he says, is sufficient to afford not only ample supply of fuel for construction and operation of the government railroad, but also a surplus large enough to protect against interrupted traffic and mine accidents.

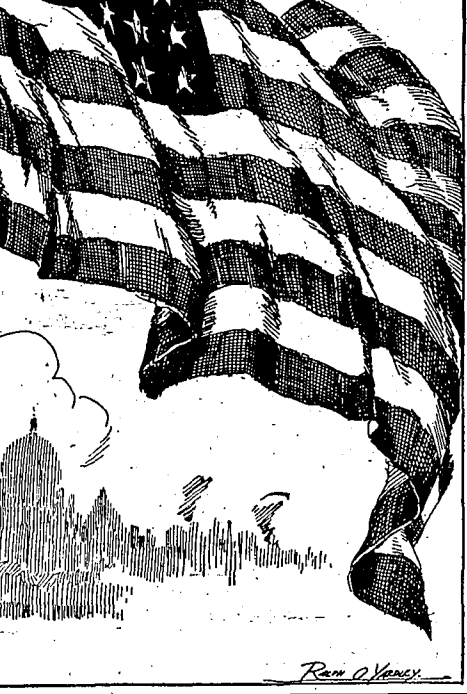

Six different beds of coal of varying thickness are under exploration at Eka, which is located to some extent during the closing stages of the war, has now been perfected to such a point that it is said to be considered the best of its kind in the world. It is claimed that the new gun will fire the 18 1/2 pound shell used in the ordinary quick-firer a greater distance and with more velocity than has ever been attained with a field-gun before. The range increase is said to be more than 3,000 yards over the old field-gun and the new weapon can discharge twenty-eight rounds a minute.

PUREST HO GUN

LONDON, (AP)—A British field gun, which was tested to some extent during the closing stages of the war, has now been perfected to such a point that it is said to be considered the best of its kind in the world. It is claimed that the new gun will fire the 18 1/2 pound shell used in the ordinary quick-firer a greater distance and with more velocity than has ever been attained with a field-gun before. COMPLETES PLAN TO MULCH FIELD

Sugar Cane Land Is to Be Prepared for Use by Covering with Paper Mixture.

HONOLULU, T. H., (AP)—By Mail.—As a result of experiments conducted for three years, a large sugar plantation on the island of Hawaii is preparing to paper 8,000 acres of its sugar cane land, much like a papawhang covers the walls of a room.

To supply material, a paper mill has been erected at a cost of more than \$250,000, manufacturing heavy mulching paper from bagasse, the dry, fibrous refuse of sugar cane after the juices have been expressed. The paper is prepared for use in the fields by being saturated with liquid asphalt.

"The plan is to cover the fields with the mulching paper. The sturdy sugar cane drives its stalks through the paper but all weeds are smothered. C. F. Eckart, manager of the plantation, says the mulching process not only will greatly increase the yield of cane but will reduce field labor costs more than 50 per cent. The covering paper not only keeps the weeds out of the cane but retains moisture in the ground for its nourishment."

Make Thirty Tons Daily
The paper mill will take only 30 tons of bagasse a day, one tenth of the sugar mill's output during the grinding season, and will make only enough paper for the plantation.

L. A. Thurston, newspaper publisher and general manager of the plantation, is of the opinion that the manufacture of paper from bagasse eventually will become Hawaii's second largest industry. "It has long been known that paper could be made from bagasse but low prices did not encourage development of the industry. With paper prices what they now are, Mr. Thurston says there is no doubt why Hawaii can not become a great paper producing country."

TYPEWRITERS IN DEMAND
LONDON, (AP)—British typewriter manufacturing firms are making great efforts to produce a large number of typewriters to satisfy the demand which is at present very great. Plants recently have been largely increased.

A REAL ECONOMY

Because of Extra Wear
There is no better judge of shoe wear and comfort than the policeman who has to see all day long. W. H. Berry, patrolman at Boston, Mass., says of Neolin-soled shoes: "My shoes with Neolin Soles serve me better than any others I have ever used. They keep my feet dry at all times, and do not slip."

When you buy new shoes, be sure they are Neolin-soled, and you, too, will know a better service from shoes. Moreover, these shoes are a real economy because of the extra wear they give. Many good shoe stores carry them in styles for men, women, and children.

And don't throw away your old shoes. Have them re-soled with Neolin Soles. Remember—these soles are flexible and waterproof, as well as long wearing and are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

Middle West Troops Are to Be Released

Assignment to Convoy Is Expected Within a Few Weeks for Many Organizations

WASHINGTON, (AP)—The 89th (Kansas, Missouri, South Dakota, Nebraska, Colorado, New Mexico, Minnesota, and 88th (North Dakota, Minnesota, Iowa and West Illinois) divisions were released on April 25 and April 26, respectively, "for preparation for return to the United States," General Pershing notified the war department today.

Preparation for return is not equivalent to assignment to early convoy, it was explained at the war department, but indicates that such assignment may be expected within a few weeks.

AMBASSADOR PAGE IS REPORTED RESIGNED

American Representative in Italy Is Said to Have Left for Paris

ROME, (AP)—Thomas Nelson Page, the American ambassador to Italy has left Rome for Paris.

An Italian newspaper report from Rome received by the Associated Press April 25 said that Ambassador Page had offered his resignation because he had been made "acquainted with President Wilson's views on the Italian claims." The statement was authorized at the state department in Washington on that day, however, that there was no foundation for this report. It was added that there had been various reports since the armistice that Ambassador Page would resign soon to resume his literary work but opinion on the part of state department officials was that whatever Mr. Page's personal plans for the future might be, he would not consider resigning at this time.

HAWAIIAN NATIVES OFFER SACRIFICE TO SHARK GOD

Because Construction of Drydock Destroyed Home of Monster, People Would Avoid Wrath.

HONOLULU, T. H., (AP)—By Mail.—Because they believed construction of the gigantic drydock at the Pearl Harbor naval station had destroyed its home, a number of natives recently offered sacrifice of a pig and a chicken to the "shark god," one of the ancient Hawaiian deities.

A few number of years ago, hydrostatic pressure wrecked the floor of the drydock when work was first started, many native Hawaiians declared it was a manifestation of the wrath of the shark god, which had been driven from its home, and with the huge basin of concrete now nearing completion, it was decided to offer another minding by making sacrifice to appease the anger of the evicted "god."

The slaughtered pig and chicken were supposed to have been thrown to the sharks of Pearl Harbor, but the natives said that they were rescued and served at a luau (native feast).

LONDON PRESENTS GOLD CASKET TO PRESIDENT

Valuable Box Contains Certificate of Freedom of Great English Metropolis

LONDON, (Correspondence of the Associated Press).—A beautiful gold casket, which is to contain the certificate of freedom of the city of London, to be presented to President Wilson, is now in view at the Bullhall. It is of eighteen carat gold throughout and bears the portraits of King George and Mr. Wilson and figures representing Britannia and Liberty. The arms of the allied countries and of the city of London appear in enamel below the portraits.

The casket stands on a water-gilt plinth which is supported by feet fashioned, according to the arms of the city.

SCIENTISTS STUDY SUN SPOTS AND INFLUENCES

Annual Gathering of National Academy Discusses Subject of Importance

WASHINGTON, (AP)—Sun spots and their influences upon the earth and reports on other scientific researches were some of the topics to come before the annual gathering of the National Academy of Sciences which opened at three o'clock in the Smithsonian Institution here today. Particular interest attaches to the paper to be read by Prof. George E. Hale, a California astronomer, because of his statement, which tells the weather in the sun by a study of sun spots. Professor Hale discovered, and his view now is universally accepted, that a sun spot is a gigantic electric vortex closely resembling a terrestrial tornado but on such a colossal scale that the earth could be dropped into one of average size.

SELLING LOTS IN NEW ALASKAN TOWNSHIP

ANCHORAGE, Alaska, (AP)—By Mail.—Lots in Tallektona, a new town at the present end of the government railroad 113 miles north of Anchorage, soon will be placed on sale at public auction by the Alaska Engineering Commission. Survey of the townsite was made last summer.

Tallektona, a town of about 150 persons now, is the nearest railway point to the Cache Creek and district McGrath, Iditarod, and neighboring places in the interior. By reason of its location it is an outfitting point for miners and interior residents. It is expected that \$25 worth of government land, low appraised value of any of the lots to be sold.

WAR VETERANS ORGANIZE FOR FUTURE WORK

Returned Service Men Form Association with First Meeting to Be Held in St. Louis, Early in May

NEW YORK, (AP)—The American Legion, the proposed veterans' association for men of the army and navy, announced today that temporary secretaries of that organization had been appointed in most of the states throughout the country. The secretaries have been instructed to arrange for alternate caucuses to be held on April 28 for the election of delegates to the national caucus which is to be held in St. Louis May 8, 9 and 10. The number of delegates from each state is to be twice its congressional representation with a similar number of alternates.

The secretaries were instructed also to see that 60 per cent of the delegates to the St. Louis caucus and the state committees should be enlisted men.

The temporary executive committee of the legion has issued a statement saying that communications in regard to the legion hereafter will be attended to by these state secretaries in stead of by Lieutenant Colonel Theodore Roosevelt, the temporary secretary, or by Bennett Clark, vice-chairman.

BUSINESS MEN WOULD SUPPORT FOREIGN TRADE

Commercial Interests Are Determined to Meet Needs of Nations During Reconstruction Period

ST. LOUIS, (AP)—American business is determined to meet the needs of this nation and foreign countries during the remainder of the reconstruction period and after, leaders in finance and industry declared today at the convention of the Chamber of Commerce of the United States.

But to carry out this program, the speakers warned there must be no further delay in bringing about closest cooperation of all branches of finance and industry. Relations between the government and business too, must be such as to instill greatest confidence.

To Develop Foreign Trade

With this cooperation of all forces, America will be able to immediately develop her foreign trade, which was characterized by some delegates as "a responsibility to the rest of the world." International commercial arbitration was a subject which received careful attention.

Business Unemployment Question

But the grain men of the Northwest, the lumber men of the Far West, the cotton men of the South and the industrial leaders of the East all had their problems to place on the big meeting, not out of what they themselves hope to mold a concrete policy for the conduct of the nation's business.

The unemployment question, particularly as it pertains to the unemployed soldiers, will be taken up by the convention. Reports submitted today indicated that the situation had been somewhat relieved by the opening of work for the demobilized soldiers. The soldiers are returning in small groups.

ANTI-BOLSHEVİK FORCES ADVANCE

Leaders Feel Confident With Opening of Spring Troops Will Be Able to Move

PARIS, (AP)—Admiral Kolchak's troops have advanced along the southern branch of the trans-Siberian railroad in eastern European Russia to Kizil forty miles from the city, according to dispatches received by the Russian commissioners in Paris from Omak, the capital of Admiral Kolchak's government.

A slower advance is also being made along the northern branch of the trans-Siberian, where the anti-Bolshevik forces have taken Olzov, east of Viatska. A third column is moving westward midway between these two forces and has reached Saropol on the Kama river. This stream is navigable and flows in the Volga and will be a means of escape from the ice, which is now breaking up, should afford easy transportation to Simbirsk, which is apparently the destination of the central column.

Move With Spruce

Prince Lvoff and other members of the Russian commission here believe that the movement westward will be rapid as spring advances and they expect that the lower Volga valley will soon be under the control of the Kolchak government. It is hoped that the Omak fortress will be taken, thus making it imperative that the Bolsheviks withdraw from the Archaugol section as the railway running north from Viatska reaches the city. It is also hoped that the Omak fortress will be taken, thus making it imperative that the Bolsheviks withdraw from the Archaugol section as the railway running north from Viatska reaches the city.

Attracts Attention

Admiral Kolchak's troops, in all three columns are Russians, all Czechoslovak and allied forces having remained in Siberia. Their excellent fighting had attracted much attention in peace conference circles and is assisting the movement inaugurated some time ago for the recognition of the Omak government by the entente powers and the United States.

Has Important Effect

The capture of Olonez by forces opposed to the Bolsheviks has an important effect on the allied campaign along the Murmansk railroad and through it on the situation in the Archangel region. For several days the forces commanded by General Maynard have been pressing southward along the Murmansk railway and were last reported approaching the town of Ladoga north of Lake Onega. From Ioriente the Murmansk railway swings westward and before it reaches the southeastern edge of Lake Ladoga it becomes within a few miles of Olonez.

Revolt Among Bolsheviks

A Stockholm report Sunday said that a revolt had broken out in Olonez and it is possible that the Bolshevik forces facing General Maynard may be cut off if the anti-Bolshevik advance from Olonez. If the Murmansk railway line can be cleared as far south as Olonez, the allies will be in position to outflank the Bolsheviks south of Archangel, who also are threatened by the Siberian advance in the Viatska region.

HOSPITAL CORPS TROOPS ARE WITH LATE ARRIVALS

Nearly Two Thousand Are Aboard Transport Which Docks This Morning

NEW YORK, (AP)—On the steamship Freedom, from St. Nazaire, 1712 troops returned today, the majority of them members of the 19th, 20th, 25th, 30th, 32nd, 38th, 48th and 70th base hospitals sent to various camps. Units included also the first trench mortar battery (first division, regular army), five officers and 176 men, for Camps Dis, Fenton and Sherman. There were 88 New York casualties.

Bringing 354 casual troops, the steamship Lorraine arrived from Havre. The majority of these were men discharged from service in the United States. One of the casualties are from Iowa and Minnesota and the others are scattered.

Among 2181 troops which arrived today on the steamship Texas from Bordeaux were 88 officers and 1148 men comprising headquarters detachment, field and staff, medical detachment and companies A to F inclusive of the 18th engineer and Camp Kearney.

NEWPORT (NEWS). (AP)—The transport Aeolus, bringing 3,384 officers and men including Brig. Gen. Hubert A. Allen, of Los Angeles, Cal., from St. Nazaire, France, docked here today. Aboard the ship were five officers and twenty men of headquarters of the 50th infantry brigade; 86 officers and 1,118 men of the 149th, 150th and 151st infantry; 139 officers and 400 men of a medical detachment and 108 sick and wounded.

The 139th infantry is a part of the 32nd division, Kansas (regular army troops). Fifteen men in the unit have won distinguished services crosses and twelve the French Cross of War.

BOSTON, (AP)—The transport Protector arrived today from Kansas with more than 2,100 officers and men, including Brig. Gen. William M. Fassett, commander of the first army corps; headquarters of the 149th, 150th and 151st machine gun battalions, detachments of 149th and 151st field artillery regiments and a detachment of the 117th engineers, all of the 42nd (Central Postal Directory) division (regular army troops) and headquarters troop of the first army corps; and other smaller units and cauals.

SOLDIERS FORM ASSOCIATION

COLOGNE, (AP)—German soldiers wounded in the war have begun forming associations in Cologne and other western cities in various parts of Germany. Some of the leaders say the associations plan to eventually take a prominent part in politics. A commission has been appointed in Cologne to consider the formation of such groups for those most seriously wounded. Discharged soldiers reported that the municipal authorities have done little to aid the disabled in their search for work and that many of them were not even receiving their federal wound allowances.

MUST SELL STOK

COBLENZ, (AP)—German officials continue to investigate the cattle and foodstuffs generally throughout the American occupied area. As a rule a farmer found to have three cows is ordered to sell one to the local government. Each farmer possessing one fresh milk cow is required to deliver one pound of butter each week to the government. Similar regulations apply to all foodstuffs, heavy fines being imposed in all cases of non-compliance.

PUBLIC WELCOMES RETURN OF NATIONAL PASTIME

Crowds at Coast League Games Indicate Spirit of America Toward Good Sport

(By Associated Press) SAN FRANCISCO, Cal.—The large crowds attending the games of the Pacific Coast league to date indicate to officials of the organization that the public welcomes the return of the play after a heavy falling off in patronage during the war. Reports from the cities where the opening games were held show that new attendance records were made at every point. In proportion to its population the city of Sacramento, Cal. showed the largest outpouring of enthusiasts. The league's officials are jubilant at the showing being made and are predicting one of the best seasons, from all points of view, that baseball has experienced on the coast.

Coast baseball closed last year during July owing to lack of interest and consequent lack of patronage. Many felt that the game was being questioned whether or not the public is given too much baseball in normal seasons. Some are inclined to believe that a shortening of the season would seem to be appropriate and give an increase in attendance for a briefer period of play. While the brand of game served to the public thus far has been far from perfect, it has been of the variety appealing to the crowds. There has been plenty of batting and many runs made which has furnished a maximum of action.

The two new acquisitions of the league, Portland and Seattle, made the poorest showing during the first week of play but the consensus of opinion seems to be that both clubs have the makings of a good team and that they will be battling for honors with the leaders before long. Seattle was particularly unfortunate in the matter of pitchers, practically its entire staff being out of condition. Some of the critics have claimed the Portlanders are a better team and look for a rapid recovery of its prestige.

The return to the double umpiring system has given general satisfaction and it is hoped that it will be able to have the games played faster as the contestants get settled down to their work.

LAUNCH SINKS IN HARBOR OF HUDSON RIVER

Thirteen Sailors Are Reported Drowned While Attempting to Return to Battleship in Navy Tug

NEW YORK, (AP)—Thirteen sailors returning in a navy launch to the battleship Nevada were reported by the police to have been drowned when the launch sank in the Hudson river. The police said that in the absence of an official statement by the naval authorities they based the report on information from persons who said they witnessed the sinking and heard the cries of drowning sailors. Those witnesses declared that the launch apparently collided with something just before reaching the Nevada and they had a clear view of what was taking place because of the navy searchlights playing on the scene.

There were fourteen persons in the launch, one being rescued, according to police reports. Sailors from the battleship Mississippi said the launch struck a submerged log which they rescued one man and that a crew from the Nevada rescued another. Four men were reported saved by other crews.

It was learned the launch was from the destroyer Bull. Navy officials promised to issue a statement as soon as an inquiry had been completed. Unofficially it was declared that eight men were missing. Michael Marshall, a railroad brakeman who put out in a small boat from shore hoping to effect rescue, said he was told by a navy officer that from 25 to 40 sailors were on the launch and that all except two had been saved.

PLAN TO FEED RUSSIA SEEMS NEAR FAILURE

Unable to Communicate With Bolshevik Leader, Promoter of Scheme Sees Little Hope of Success

PARIS, (AP)—Dr. Fridtjof Nansen's plan for the neutrals to supply food to Russia has not been working so well as making little headway. As yet he has been unable to communicate with Nikolai Lenin, the Bolshevik premier of Russia, and the opposition to the plan among the Russians here as well as the anti-Bolshevik governments and in the French press is becoming more pronounced.

Must Not Hinder Troops

The Russian representatives insist that the armistice which is now making an excellent showing against the Bolsheviks should not be handicapped by movements which tend to encourage the Leninist troops. The Bolshevik premier's reported willingness to recognize foreign debts and to grant concessions in consideration of receiving food supplies and ceasing hostilities is taken by the Russians here as a distinct admission of weakness. They urge that plans for supplying food to Bolshevik Russia would only prolong the ascendancy of Lenin and his associates and prevent a speedy restoration of normal conditions.

Bolsheviks Are Defeated

The defeat of the Bolsheviks at Kiev in the Archaugol section on the Baltic coast and along the two branches of the trans-Siberian railroad is regarded by Nicholas Tchaikovsky, head of the provisional government of northern Russia and his associates as proof that transportation facilities are failing the Bolsheviks and that they are no longer able to shift their armies quickly enough to meet attacks.

WAR ON LIQUOR HOUSES

MEXICO CITY, (AP)—According to Senora Rosa Urs Q. SATISFYING.

Many persons will find satisfaction in the announced determination of the Peace Conference to bring to trial William, late emperor of Germany. It has all along seemed incredible that this arch plotter and scheming bigot should spend the balance of his days in comparative affluence and comfort while over the whole world are to be seen the evidences of the misery his selfish soul calked down upon the face of the earth.

There will be men who deplored the fact that the charge against the late kaiser will not be one of straight, plain, first degree murder, punishable by death. Elemental justice would seem to call for some such action, yet there are reasons why the ordinary scheme of justice as between men does not apply in this particular case.

There is of course no means of arriving at any close idea of the real significance of the charges filed and no way of knowing what the verdict will be. But in history the name of William of Germany will occupy a unique place, no matter what the outcome. In no war within the past century has any titular ruler of a belligerent power been called to the bar of justice to answer to the world for his share in the crimes engendered of his country's warfare.

PAYING FOR IT.

The average man who might desire to buy an automobile, at a cost of say \$1,500, and who, being a man of average means and average investments of various sorts, was offered the same terms upon which he may today buy Victory Bonds, would consider himself very well treated indeed, in the matter of payment.

Unlike the automobile, the bonds will probably command a premium by the end of the first year of ownership. It is perfectly safe to assume that this will be the case because there are features in connection with the issue not to be found in the case of Liberty Bond issues of the past. At the end of a year of ownership, then, the buyer of Victory Bonds has a property worth 100 per cent or better on the original investment, and four and three-quarters per cent interest during the entire period of ownership.

From the standpoint of straight business, it ought not to be difficult for this County to subscribe her quota of Victory Bonds, and yet, here are today's figures:

| | |
|------------------------|------------|
| Amount of quota..... | \$ 820,000 |
| Amount subscribed..... | 283,450 |

Remaining to sell..... \$ 536,550

situation would be required in order to make the covenant effective.

He added that he still believed the league would "thrust us into any mess that may occur in any part of the world," and furnish another element in the delay in bringing about peace. He said in his opinion the unanimous agreement provision is "very vague."

Senator Walsh of Montana, democrat, said he was gratified that the covenant reserved the Monroe doctrine from the authority of the league and said this would have a tendency to disarm many of the critics of the league.

Provide Playground.

The truly normal, mischief-loving youngster (and all healthy children are both) simply cannot live without play. If this is denied him he will droop like a flower transplanted into unhealthy soil. However, if he finds it difficult to keep on friendly terms with his small neighbors his mother must see to it that he has his own playground at home. It won't cost much to fit up such a fairland, and it will prove an investment that will pay back undreamed of returns.—New York Evening Telegram.

of hospital ships, bombardment of undefended ports and sinking of life boats and rafts laden with survivors.

Civilian Crimes.

Offenses against civilian populations of occupied districts prohibited strictly in the American manual include: Imprisoning enemy subjects en masse; expulsion of civilians from occupied territory; use of prisoner labor on operations directly connected with the war; internment under conditions of hardship; compulsory enlistment; debasement of currency; wanton destruction of property; abrogation of civil government.

While the punishment to be inflicted for such violations is not set forth in rules of "land warfare" reference is made to the severe penalties to be inflicted in cases where American officers or enlisted men are guilty of any of the crimes mentioned. It is thought probable that, in cases where a military tribunal representing the United States was sitting, the procedure laid down to govern army court martials would be followed and the penalties in every case would be the same as provided when the defendant is a member of the military establishment of this country.

State Department Gives Plans

The announcement issued by the state department follows:
Following are the proposed articles regarding penalties for insertion in treaty of peace to be considered at a plenary session of conference today, Monday, at 3 o'clock p. m., Paris time:

"Article 1—The allies and associated powers publicly arraign William II of Hohenzollern, formerly German emperor, not for an offense against criminal law but for a supreme offense against international morality and the sanctity of treaties.

Constitute Special Tribunal

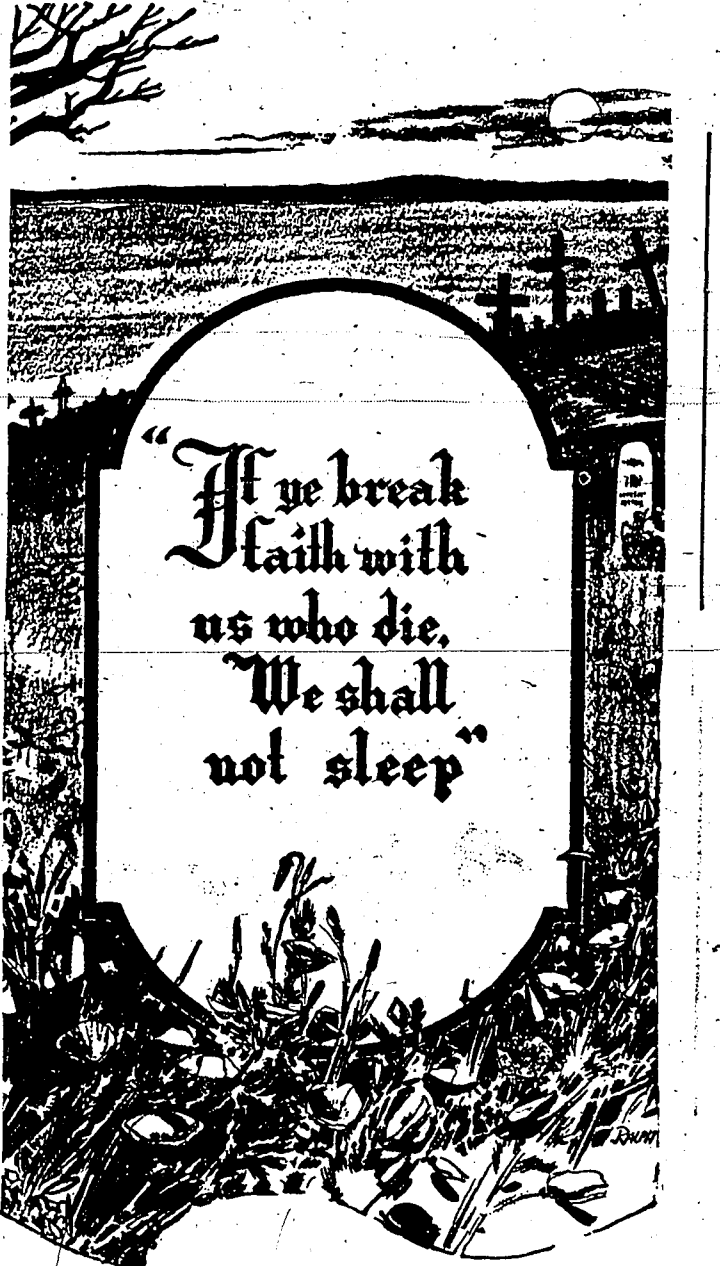

A special tribunal will be constituted to try the accused thereby assuring him the guarantees essential to the right of defense. It will be composed of five judges, one appointed by each of the following five powers: Namely, the United States of America, Great Britain, France, Italy and Japan.

In its decision, the tribunal will be guided by the highest motives of international policy with a view to vindicating the solemn obligations of international under-

takings and the validity of international morality. It will be its duty to fix the punishment which it considers should be imposed.
Surrender Up the Kaiser
The allies and associated powers will address a request to the government of The Netherlands for the surrender to them of the ex-emperor, in order that he may be put on trial.
Article 2—The German government not having insured the punishment of the persons accused of having exercised acts in violation of the laws

and customs of war, such persons will be brought before military tribunals by the allies and associated powers and if found guilty, sentenced to the punishments laid down by military law.
Hand Over Criminals
The German government shall hand over to the allies and associated powers or to such one of them as shall so request, all persons accused of having committed an act in violation of the laws and customs of war who are specified either by name, or by the rank, office or employment which they

hold under the German authorities.
Article 3—Persons guilty of criminal acts against the nationals of one of the allied and associated powers will be brought before the military tribunal of that power.
Persons guilty of criminal acts against the nationals of more than one of the allied and associated powers will be brought before military tribunals composed of members of the military tribunals of the powers concerned.
In every case the accused will be entitled to name his own counsel."

ODD FELLOWS CELEBRATING CENTENNIAL

Lodge Men and Women Gather in Numbers at Buhl Saturday in Observance of Occasion With Elaborate Ceremony

The I. O. O. F. began their centennial week of celebration in Buhl on Saturday. In the evening session on Saturday 500 guests were served at supper by the Buhl hosts and hostesses of the Odd Fellows and Rebekah lodges. Fifty guests from Twin Falls and the same number from Rupert came to attend the sessions on Saturday. One of the most interesting parts of the work was the conferring of the degree of chivalry on seven Rebekah and I. O. O. F. E. The state officers present from the Rebekah lodge were Mrs. Lillian Kangre, of Emmott, state president; Mrs. Francis Crossen, grand secretary, and Miss Leatic Simpson of Boise, and Mrs. Bertha Dowby of Rupert, vice president. The Odd Fellows were George Schweiger of Twin Falls, past grand master; Fredley Hays, Caldwell, banker, deputy grand master, and A. E. Gibson, grand secretary from Caldwell. The Caldwell centennial starts on Monday, while the local celebration of the hundredth anniversary of the lodge will come on Tuesday, when the state officers expect to visit Twin Falls. E. Malory had the distinction to be awarded the veteran jewel in Buhl, he having been a member of the I. O. O. F. for fifty years. He is the fourth Odd Fellow in the state to receive this decoration.

MAKE A CLEAN SWEEP OF TWO GAME SERIES

Boise High School Nine Loses Second Contest to Local Players on the Twin Falls Field

The Boise high school baseball team Saturday afternoon lost to Twin Falls the second of a two-game series played here, giving to the local nine two victories to its credit with which to enter the two game return series to be played in Boise May 9 and 10. The final score was Twin Falls 7, Boise 6. The visitors were close to victory in the ninth when, with Williams on second and London on first, Long smashed a liner over second that Parsons picked out of the air. Two runs at that stage of the game would have won for the visitors. Another fielding sensation was a long and successful chase of a fly made by Kechem just before the Parsons coup.

Coats pitched excellent ball during the earlier innings, striking out nine batters and allowing only two hits. Boise staged a rally in the eighth and hammered Coates for three singles before Pix took his place in the box. It was Neuman's batting that won for Twin Falls.

STANDS IN WITH OREGON MAT-FAN

Ad Gustavo Brings Record Here Against Olson in Finnish Bout

Indicative of the stand in among Oregon mat fans had by Ad Gustavo of San Francisco, who is to meet Charlie Olson of Oregon in LaGrande, Astoria, Klamath Falls, and Baker, winning every bout except one against Ad Santel, light heavyweight champion. Olson's record here is one scoring to him a high degree of favor among local fans. Gustavo and Olson are evenly matched as to weight, each tipping the beam at 160 pounds. Gustavo, who stands 5 feet 10 inches in height is fully three inches taller than the Swede, and claims some advantage on that account. Both wrestlers promise a thoroughly satisfactory bout.

At the I. D. Store you see the fit before you order

You are pleased before you pay and suited before you settle.

If one style isn't becoming—try on another without cost.

Contrast this, with what happens at the Tailor's where you are measured and hemmed, tried-on and postponed, with no definite assurance of a comely fit or a fetching fashion in the finish.

At the Tailor's it takes \$45 and two weeks to turn out a suit that the Idaho Department Store can give you in ten minutes for \$35.

And the only difference in the clothes is that ours are made to fit—and the tailor makes to measure.

High Costs Affect Operation Greater Revenues Required

Changes in Telephone Rates—1913 to 1918 Compared with Changes in Wages and Prices

SINCE 1913 there has been a steady increase in the price of all commodities and the products of industry, which has not been reflected in a corresponding increase in telephone rates. In order to meet the past and present high cost of telephone operation, a revenue in just proportion to the expense must be secured.

The reason is simple. The cost of telephone operation has steadily advanced both because of the increased cost of material and the increased living cost of employees. The consumer has realized the necessity of paying more for rent, for food, for clothing and for transportation. The telephone industry has been affected by the same conditions which have produced higher prices in all of the necessities of life.

Between 1913 and 1918, commodity prices advanced 112%, wages advanced 72% and Telephone rates the country over advanced only 4%. Adequate rates are needed if the service is to be maintained efficiently and on a comprehensive scale, so as to meet the increasing demands of the public.

This company is operating its telephone property under the direction of the Postmaster General for the United States Government and must secure sufficient revenue to cover the cost of rendering the service.

REQUESTS FARM LABOR OFFICE

F. W. Fisher of Buhl, Asks Farm Bureau Directors to Provide for West End.

Having a tribute to the efficiency of the farm labor employment division conducted here in connection with the offices of the county farm bureau, F. W. Fisher of Buhl, at a meeting here Saturday of the county farm bureau executive board, presented a plan and request of the west end of the county for a similar institution to be provided under the auspices of the farm bureau for territory in the vicinity of Buhl. The matter was referred to the board to a committee of its members named at that time. Mr. Fisher is a member of the board.

It is Mr. Fisher's idea that an employee of the farm bureau, giving his time for three days of each week at Buhl can be of material assistance to the farmers of the west end in solution of their labor problem.

The board at the Saturday meeting approved the reports of the secretary of the farm bureau at the extension workers in charge of the work of the farm bureau, and ratified the constitution of the state farm bureau which was adopted at the meeting held March 8 in Pocatello.

Members of the board in attendance at this meeting were W. F. Alworth, president; Mrs. D. C. Sieror, secretary; F. W. Fisher, Frank Doherty, Mrs. Carrie Harper White and Mrs. J. C. Porter, field.

A. L. Stone of the A. J. Brown Seed Co. will have more beans to contract the first of next week. Telephone 226-7—adv.

MAIL AND TELEGRAMS

SMALL ANNUAL FORTUNE

B. F. Goodrich Rubber Company Uses Enormous Sum of Money for This Alone.

Very few people realize the amount of mail and telegrams handled by a big corporation. Very few towns with 40,000 population can boast as many letters, packages and telegrams received and sent every day as can the B. F. Goodrich Rubber company, at its factory in Akron, O.

During the year 1918 the telegraph division of the company received 94,463 messages and sent 61,629, a total of 156,092 messages. The approximate cost, including both those received and sent aggregated the sum of \$23,470. During the busiest month of 1918 a total of 19,008 messages passed through this office. The largest telegram handled contained 1800 words.

On January 30, 1919, the mail division received and handled altogether 17,070 pieces of mail. The postage needed to keep the Goodrich mail going represented a small fortune—the total amount came to \$85,400.

Social Notes

The Parish hall was the scene of one of the liveliest spring parties on Saturday evening when the teachers of the Lincoln school acted as hostesses for the remainder of the teaching corps. The hall was daintily and appropriately decorated in green and pink streamers running from the center out to the walls. The streamers were gathered into a cluster of apple blossoms. The two long tables had pink streamers running from bow to bow, and a number of place. The covers were marked by the blossoms and the daintiest of hand-colored blossom place cards. After the delicious dinner served by the Episcopal Guild, programs in blue birds and spring flower decorations were given to the guests and the remainder of the evening passed delightfully in dancing. Sixty-three guests were present.

Miss Katharine Stoltz entertained at a decorated and candy-making party on Thursday evening. The entire evening was spent delightfully in these amusements. Those present were Miss Bonnie Buchanan, Hazel Hatfield, Irene Hall, Helen Connolly, Pauline Terhune, Goldie Peiras and Messrs. Ross Bates, Layton Reynolds, George Haker, Lewis Herriman and Ralph Ravings.

Mr. and Mrs. Nelson Hayward entertained in honor of Mrs. C. O. Langley, who leaves soon for her former home in Minneapolis on Saturday evening, at their country home. The guests were Dr. and Mrs. Dean, Mr. and Mrs. Ed Watson, B. L. Hodgkin and Mesdames C. O. Langley, Emma Warrick and Miss Nellie Tensdale; Messrs. Hark, Melvin Claar and Lewis Horriam.

On Friday evening, Miss Hazel Hatfield was a charming hostess at a party in her home. The evening was spent in dancing and making candy. The guests were Misses Goldie Peiras, Helen Connolly, Hazel Hatfield, Helen Connolly and Messrs. Dale Starr, Ross Bates, Ralph Ravings, George Haker, Melvin Claar and Lewis Horriam.

The Shamrock club enjoyed their monthly social meeting at the home of Mrs. Shellman last Thursday afternoon. All members of the club were present to enjoy this delightful meeting despite the weather. The hostess served a delicious lunch and the club will meet with Mrs. J. C. Cordis, May 8.

On Wednesday evening of this week the teachers who have taught this year only at the Bickel building, entertained the other Bickel teachers at dinner in the Rogerson at 7 o'clock. The invitations showed dainty spring flowers and were written in clever poetry by the hostesses.

Among the most interesting week-end affairs was the house party given by Miss Ethel Quigley over Saturday. The guests who motored from Twin Falls were Misses Zelma Larimore, Alwilda Oler, Eloise Spafford, Reba Sargent, Pauline Ripley and Mildred Jenkins.

On the occasion of her daughter Elton's seventh birthday, Mrs. M. Dunn entertained at the Bickel building, Saturday afternoon. The time was spent in playing games and at the close of the afternoon the hostess served a dainty birthday luncheon.

RED CROSS AIDS PEOPLE WITH FOOD AND CLOTHES

Cities of Balkans Are Given Comforts of Life by American Relief Organization

SARAJEVO (—Correspondence of The Associated Press)—This little Bosnian city, famous as the scene of the murder of Archduke Franz Ferdinand, which was the precursor of the great war, is now the headquarters of the United States Food Administration and of the American Red Cross, which is extending its activities to every part of the Balkans.

The streets are thronged with people of all nationalities and of all manner of dress. Croats, Serbs, Austrians, Germans, Turks, Italians, Frenchmen, Britishers and Americans rub elbows with one another.

Many Beg for Living The "Turkish" people here really are "Slavs" who embraced the Mohammedan religion. They are noted for their indolence and dirtiness.

The slender minarets of more than a hundred Turkish mosques, give a very picturesque appearance to the city. Nearly one-half of Sarajevo's 50,000 people are of the Mohammedan faith.

Grain Review

CHICAGO, (P)—Prospects of enlarged receipts had only a transient bearish effect today on the corn market. On the decline the fact that the pit became bare of offerings made shorts scarce for protection, and led to a sharp upturn in prices.

with July \$1.68 1/4 to \$1.69 and September \$1.63 7/8 to \$1.64 1/2, were followed by a material advance all around. Oats showed independent strength. Sellers were scarce. After opening unchanged to 1¢ higher, with July 72 1/4 to 72 1/2, the market scored moderate further gains.

CHICAGO, (P)—Corn No. 3 yellow \$1.66 1/2¢@1.70; No. 4 yellow \$1.69@1.68; No. 5 yellow \$1.65. Oats No. 3 white 75¢@73 1/2¢; standard 74¢@74 1/4¢. Rye No. 2, \$1.78 1/2¢@1.81. Barley \$1.17@1.26. Timothy \$8@10.75. Clover nominal. Pork nominal. Lard \$22.50. Ribs \$27.75@28.25.

New York Stocks

NEW YORK, (P)—Wall Street, 10:30 a. m.—The absence of disquieting foreign advices over the weekend gave fresh stimulus to the long sustained upward movement at the opening of today's stock market. Bails and oils were again the outstanding features, the former at moderate advances, while Royal Dutch issues extended last Saturday's substantial gains by additional advances of 4 to 5 points.

Money

NEW YORK, (P)—Mercantile paper: 5 1/4@5 1/2; sterling 60 day bills 4.64; commercial 60 day bills on banks 4.63 1/2; commercial 60 day bills 4.63 1/2-3; demand 4.67 1/2; cables 4.68 1/4. Treasury demand 4.67; cables 4.68 1/4. Liro demand 7.01; cables 7.00. Mexican dollars 77 1/2. Government bonds strong; railroad bonds 74.90. Time loans strong; 60 days, 90 days, 6 months 6 1/2-6 3/4. Call money firm; high 5; low 4 1/2; ruling rate 5; closing bid 4 3/4; offered at 4 1/2; last loan 5.

LONDON, (P)—Bar silver 48 5/8 1/2 per ounce; money 3 1/8 per cent; dis-

unnetted later, heavy selling presumably for both accounts, proceeding under cover of furious activity in a few stocks, notably Royal Dutch, Sinclair, Atlantic Gulf and equipment. Reactions of 1 to 3 points were recorded in some of these groups, while steels and Mexican Petroleum displayed marked heaviness. Among rails reversals of 1 to 2 1/2 points in Southern Pacific, Reading and Texas and Pacific were the chief features. Trading was on a scale almost unprecedented for the current movement. Bids of the low grade rails were active and strong.

NEW YORK, (P)—Copper quiet; electrolytic 15 1/4@15 1/2. Iron quiet; No. 1 northern and No. 1 southern 29 1/2; No. 2 northern and No. 2 southern 28 1/2. Lead barely steady; spot and May 5.00 asked. Spelter barely steady; East St. Louis delivery spot \$6@6.10; May 6.02 1/2@6.12 1/2.

NEW YORK, (P)—(Wall Street 1:30 p. m.)—Prices took another upward trend at midday, although trading remained unsharply. Shipping and metals, especially Marine preferred and Pacific Mail, were added to the list of strong stocks and equipments—and low priced rails and oils extended their gains.

Liberty Bonds

NEW YORK, (P)—Liberty bond prices at 11:30 a. m. today were: 3 1/2's \$98.70; first 4's \$95.80; second 4 1/4's \$93.34; first 4 1/4's \$95.80; second 4 1/4's \$93.84; third 4 1/4's \$95.14; fourth 4 1/4's \$93.38.
