PRICE FIVE CENTS

STOCKHOLDERS JOIN PROTEST AGAINST PAPER

Resolution Passed by Farmers and Owners of Nonpartisan 'Free Press' Condemns Editorial Policy.

MANAGEMENT DECLINES TO OFFER AN APOLOGY

Interesting Situation Develops At Nampa Through Publication of Matter by League Organ.

(Special to The News)

BOISE—Asserting their belief that the editorial policy of the Nonpartisan League newspaper at Nampa the Free Press, is socialist, inflammatory and that the tendency to encourage the "mass" and break down Americanism, 25 representative farmers and business men of Nampa and vicinity met in that city Friday and adopted censuring resolutions that demand a change in the editorial forces of the league publication. Included in the meeting were stockholders in the company owning the Nonpartisan League newspaper.

For some time there have been protests because editorials in the Free Press have been socialist and therefore in their opinions, cultivators of danger. Recently the Free Press published an editorial on Eugene V. Debs, the socialist leader and his plans for diabolical conduct during the war, in which Debs is compared to the Pilgrim Fathers and John Bunyan in an attempt to make a martyr of him. Friday morning the Free Press printed an editorial headed "Bombs and Free Speech." The plain interpretation of which in view of the proletrians was to justify use of bombs. This is charged as a number of people including farmers and stockholders in the institution, that they decided to act vigorously. C. A. Glogie, George Duran, W. E. Thomas, W. W. Lanson, M. T. Moore, G. E. Nettleton, M. N. Baker and others were prime movers in calling the meeting. Petitions were circulated to back up the action of the meeting.

The Free Press this morning repeats the offending editorial on its first page and in the course of a somewhat extended defense of its position declares: "We apologize for nothing it contains. We retract nothing."

The editorial in the Nonpartisan paper said in part: "When excitable men are not allowed to talk with their tongues it is an old lesson in expedience that they will begin to talk with dynamite."

The editorial condemns Judge Landis and the prosecuting attorneys who have sentenced dynamite as an American and adds: "The natural offspring of tyranny is bombs."

The resolutions adopted at the mass meeting brand the editorial and others in the league newspaper as un-American and an insult to the institutions of the republic and protest against such anarchistic attacks on judges who "have done their duty to their country in the prosecution of persons guilty of murder and sedition."

PAGE ATTEMPTS TO REACH SOME UNDERSTANDING

American Ambassador Tries to Find Some Solution to Italian Difficulty.

PARIS, (AP)—The Italian issue is still in the balance with Nelson A. Rockefeller, American ambassador and Camille Barrere, French ambassador, both making efforts at Rome to find by conversations with Premier Orlando, a formula which would break the bread caused by the withdrawal of the Italian delegation from the peace conference. Mr. Padoa has had two more conferences with the Italian premier, who is said to show a disposition to resume relations, but who thinks overtures should come from Paris.

Premier Orlando has written a letter directing an American to make demonstrations, saying the minister of the interior has taken steps to stop them, paying particular attention to manifestations directed against President Wilson.

Italian Situation Is Looking Much Brighter

PARIS, (AP)—The Italian situation took a more favorable turn today. It is indicated that some arrangement would be made for Italy to be represented when the peace treaty was presented to the Germans next week.

Monday Is Date for Arrival of Tank and Clean-up on Bonds

Owing to the change in the tank schedule it is now the intention of the committee to put over the remains of the Victory bond drive on Monday. To this end all block captains are asked to meet with the committee at the high school auditorium Sunday noon immediately after church, to complete final arrangements for the work. C. D. Thomas, chairman of the county Victory loan committee, this morning was advised that the Victory tank to be sent here in the interests of the loan campaign will arrive here Monday morning from Buhl, and that it will remain in Twin Falls all day Monday before sent on to Burley Monday night.

This tank, Mr. Thomas has been assured, will run on its own power and will meet the day plunging over the streets of the city. It is expected to put over the remaining end of the Victory drive in this district on Monday.

PUBLIC DEBT OF GOVERNMENT IS MANY BILLIONS

Loans of All Issues Represent Large Sum with Possibly More to Follow Later in Year Is Planned.

WASHINGTON, (AP)—Public debt of the United States government reported today by the treasury as \$4,824,240,000. Most of this represents Liberty bonds of the first, second, third and fourth issues, the Victory Liberty loan not being included to any great extent. No deduction is made for the \$3,852,000,000 loaned to foreign governments. Consequently the net debt would be approximately \$1,000,000,000.

More Loans Coming. The treasury plans to issue other bonds this year and next year, to meet the big needs of war expenses, but in the aggregate these are not expected to amount to more than \$2,000,000,000, so that the gross public debt of the United States is expected by officials to be in the neighborhood of \$30,000,000,000 when the period of war financing ends.

The treasury now has a working balance of \$1,025,000,000 and it holds \$2,508,699,000 in gold. Silver dollars in the treasury are valued at \$229,711,000 by melting down approximately \$280,000,000 of silver dollars for export to India.

Peace with Austria Is Next Thing to Consider

PARIS, (AP)—With meetings with the German peace delegation under way at Versailles, the question of steps toward making peace with Austria has been taken up. It has been made known the Austrian peace delegation, upon its arrival, will be housed at St. Germain, a suburb of Paris.

WORLD NEWS EVENTS

(By Associated Press)

MADRID—Diplomatic representatives, charged with arranging for closer relations between France and Spain, have started for Paris.

PARIS—The credentials committee of the peace conference will hold another meeting with the German delegates Sunday morning.

LISBON—An attempted military revolt in Lisbon, which had been organized for last Tuesday was broken up by the government. A number of persons were arrested and some have been expelled.

WASHINGTON—Reports from demobilization camps indicate that many men being discharged are investing their \$80 bonus checks in Liberty notes, says a war department statement. In former loans the army has subscribed to more than \$205,000,000 in bonds.

WELSH MAN SAYS FAIR BUT PROBABLE FROST

Predictions for Coming Week Are Generally Good with Colder Nights.

WASHINGTON, (AP)—Weather predictions for the week beginning Monday are: Upper Mississippi and lower Missouri valleys: Generally fair and low temperature; occasional frosts in the north. Northern Rocky Mountain and plateau regions: Generally fair and low temperature; frosts probable except over south portions. Southern Rocky Mountain and plateau regions: Generally fair; temperature below normal first half and normal second half of the week.

ADMINISTRATION POLICY TOWARD ROADS DEFENDED

Controversy Between Government and States Over Increase of Rates Is Subject of Brief Filed Today.

AUTHORITY OF ACTION IS CONFERRED ON PRESIDENT

Wilson Could Not Allow Operation of Railways to Cease Through Strikes or Other Trouble.

WASHINGTON, (AP)—Action of the railroad administration in increasing freight and passenger rates was defended in a brief filed today in the supreme court on behalf of Director General Hines in connection with appeals brought by the government from North Dakota denying his authority to interfere with intrastate freight rates. The case will be argued Monday.

The government brief contended that under the law authority over intrastate as well as interstate freight rates and passenger fares was conferred upon the president, and by his proclamation, delegated to the director general. Nothing to Limit It. "It is not limited to interstate rates or fares," the brief said, "nor can any reason be suggested why it should be so limited. Every consideration which could prompt the president to increase interstate rates must, of course, prompt him to increase those applying wholly within a state; indeed, discrimination in rate making is a violation of the one class without a corresponding increase of the other. Divide Burden. "But if we accept the theory that it was the duty of the president to deal with each state as to the rates within the state, it must follow that the president ought to have made a separate study of all the intrastate operations as to decide how the increased burden should be divided. If the president had undertaken to do this, it would probably have been in 1924 or 1925 before he could have reached a plan that the railroads would accept."

Communists Shoot Princes in Effort to Capture Them

Members of Former Royal House Are Subject to Wrath of Reds in Munich.

BERLIN, (AP)—Among the hostages said to have been shot in Munich by the communists before they overpowered Prince Prince Albert of Thurn and Taxis; Prince von Wrede, Privy Counselor Albert Doerflinger, and Prof. Franz von Stuck. Prince Albert was head of the Bavarian branch of the family of Thurn and Taxis. He was married to Archduchess Marguerite of Austria, and was one of the leading nobles of Bavaria.

RIGHTS AND PRIVILEGES OF GERMAN DELEGATION ALMOST EQUAL ALLIES

Period of Waiting Passed by Enemy Representatives in Long Drawn Out Billiard and Card Games; Tendency of Minor Members to Stray Out of Bounds Leads to Drastic Orders by French Authorities.

DEMONSTRATION BY FRENCH YOUTHS ONLY UNTOWARD INCIDENT TO DATE

(By Associated Press)

PARIS, (AP)—The presentation of the peace terms to the Germans will not take place before Wednesday, May 7, according to present indications at the League of Nations. Important progress on the peace terms has been made, however, in solving problems remaining before the final shaping of the treaty. The Echo de Paris says the council of three yesterday adopted the section of the treaty dealing with Alsace and Lorraine, which are given to the ownership of France. The council also fixed the status of Luxembourg, this newspaper adds, severing the grand duchy from Germany. The newspaper points out that summoning of the Austro-Hungarian delegates seems probable, and says they voice the expectation that an invitation will be sent to Italy, requesting the presence of her delegates.

VERSAILLES, (AP)—The German delegation to the peace congress is rapidly assuming a position of equality, in numbers at least, with the delegations of the allied and associated powers. Twenty more subordinates of the delegation arrived in Versailles last evening and this morning traveling on regular trains under escort. Their arrival brings the roster of the delegation to a total of 218, while still more are expected.

GERMAN DISPATCHES SHOW INCLINATION TO CRITICIZE

Wireless Messages from Versailles Would Have More Notice Taken of Delegates.

PARIS, (AP)—In a German wireless dispatch picked up the first meeting of the German delegates with representatives of the allies is described. The attitude of the French officials is characterized as "cold but correct." The message declares the French and British press treat the arrival of the Germans as a minor importance and adds that according to the Dutch papers the American press has displayed a similar indifference. Hence it is given as the probable date of the signing of the treaty.

Congressmen Says Anarchists Must Have Punishment

Floor Leader Declares Bomb Plotters and All Other Radicals Shall Go.

WASHINGTON, (AP)—If further legislation is necessary to punish bomb makers and bomb sentinels and the advocates of anarchy, Bolshevism and violence, Representative Joseph P. Kamp, Wyoming, who will be floor leader of the republican majority in the next house, today, the new congress can be depended upon to provide it.

Mr. Mondell expressed the opinion that there already was sufficient law on the statute books to deal with such malefactors. "The greatest of all crimes in a free country under a government of free and fair the people such as we should be, is the preaching and practice of the doctrine of anarchy and violence."

FIRS REPORTS SHOW TENDENCY OF CRITICISM

Germans Are Inclined to Get Their Feelings Ruffled Over Absence of Allied Labor Delegates at Conference.

BERLIN, (AP)—First reports from the German side of Versailles appeared today in the Neue Zeitung and the Lokal Anzeiger. The Zeitung, an anti-Communist newspaper, criticized the allied delegations because labor in the German socialist sense is not represented in the delegations of the United States, Canada, South Africa, India or Japan. He adds the German labor representatives were depressed in reading the allied list.

Dictated Peace Is Plain

Count von Brockdorff-Rantzau, the correspondent says, evidently was satisfied with the meeting Thursday because "it removed all doubt about negotiation and exchange on a basis of mutual equality, proving that no dictated peace is planned." The correspondent of the Lokal Anzeiger says the peace terms cannot be returned to the Germans before Saturday because the return of Bremen, Orléans and Foreign Minister Sonnino is expected and the Italian situation must be cleared up first.

CHINESE CLAIM JAPANESE NOW IN THE SADDLE

Disappointment Over Decision as to Shantung Peninsula Openly Voiced Before Peace Conference.

ALL GERMAN HOLDINGS ARE GIVEN TO JAPAN

Strong Plea for Justice Contained in Statement of Delegation from Land of Confucius.

PARIS, (AP)—In declaring its disappointment with the decision of the council of three regarding Kiao Choo the Chinese delegation in its statement today said the decision gives Japan practical control of northern China. The statement reads: "The Chinese delegation has been informed orally on behalf of the council of three of the outline of the settlement proposed regarding the Shantung question. Under this settlement all the rights to Kiao Choo formerly belonging to Germany are transferred to Japan. While Japan voluntarily engages to hand back the Shantung peninsula in full sovereignty to China, she is allowed to enjoy the economic privileges formerly enjoyed by Germany. These privileges, the delegation is informed, refer to the Tsing Tao-Chinan railway, 280 miles long, the mines connected with it and the two railways to be built connecting Shantung with the two trunk lines from Peking to the Yangtze valley. In addition, she obtains the right to establish a settlement in Peking. She and although the Japanese military contingent formerly stationed in Shantung will be withdrawn from Shantung at the earliest possible moment, the employment of special railway police is permitted."

China Not a Party. The Chinese delegation understands the council was prompted by the fact that Great Britain and France had undertaken in February and March, 1917, to support the peace conference by transferring to Japan of the German rights in Shantung. To none of these secret agreements was China a party and was the informed of the contents when invited to join the war against the central empire. The fortunes of China appear thus to have been made objects of negotiation and compensation. She had allied herself with the allied powers. "Apart from this it is at least open to question how far these agreements will be applicable since as China has been the injured party in the agreement of Japan referred to in this agreement appear to be scarcely compatible with the fourteen points adopted by the powers associated against Germany."

Disappointment. "If the council has granted the claims in Japan in full for the purpose of giving the league of nations as is intended to be the case, China has less to complain of, believing as she does, that it is a duty to make sacrifices for such a noble cause. She cannot, however, refrain from wishing that the council had seen fit to call upon strong Japan to forego her claims and to declare her desire for agrarianization, instead of upon weak China to surrender what she bore by right."

"Great will be the disappointment and disillusion of the Chinese people over the proposed settlement."

Business of Enemy Must Revive by Other Means Than Aid from America Declares Financial Delegation.

PARIS, (AP)—Authoritative disapproval of a plan that has been advanced for the rehabilitation of European financial credit was expressed today by the financial delegation. It was made known that the United States would not be a party to any joint action having for its purpose the restoration of German business.

A plan proposed by the British that a German bond issue of \$3,000,000,000 be arranged with Great Britain, France, the United States and the other associated powers was opposed by the financial delegation.

The appointment was to be based upon the relative wealth of the signatories. One of the objections raised was that the failure of any one of the signatories to bear its share would result in increasing the burden and responsibility of the others, thus creating a serious situation.

UNITED STATES WILL NOT HELP GERMAN TRADES

Special Session to Meet in June

Confidential Dispatches Indicate President May Call Legislative Body Soon.

WASHINGTON, (AP)—Intimation that a special session of congress will be called by President Wilson to meet about June 1 is contained in confidential dispatches received in Washington today from Paris.

It was said in authoritative administration quarters that it was quite possible that if the situation in Paris should develop rapidly the special session might meet even earlier than that. In that case, the call would be made by cable.

Today's dispatches made it clear that the president was confident he could return to the United States before the end of this month. IDAHO WEATHER. Tonight and Sunday fair; heavy to killing frost in the morning.

FRANK RESULTS IN SENTENCES AT HARD LABOR

Soldiers Who Went Ahead of Army of Occupation After Series of Adventures Are Given Prison Terms.

COBLENZ.—(Correspondence of the Associated Press)—Two American soldiers who went ahead of the army of occupation during the December, 1918, Rhineland offensive, were sentenced to terms of imprisonment and hard labor in a court martial recently convened to try twenty soldiers at Coblenz. The men, both privates, were charged with desertion in addition to eight other offenses connected with their run away trip.

According to the testimony brought out at the court martial both men spoke a little German and after going ahead of the advancing troops fell in with a number of German soldiers, also deserters. The Germans had stolen a lot of food, wearing apparel and other articles of value and, witnesses said, induced the Americans to assist the Germans in rescuing the stolen property from a cache.

First to Enter City
The two privates, one Richmond and Frank Richards, probably were the first Americans to enter Coblenz, as they were more than a week ahead of the schedule of the first army in its march toward the Rhine. It was in a suburb of Coblenz that the Germans had hidden their booty—in the basement of a German woman's house. In some way the Coblenz police heard of the thefts and for several days and nights had guards watching for the thieves to appear to carry away their loot.

When two supposedly German soldiers appeared one night with sacks and started to pack up the articles and refused to heed repeated German commands to "hand" the German policeman began to fire. One man fell, wounded in the arm, and the other, after a chase, was caught. When the two were taken to the police station it was discovered they were Americans and they were held until officers of the American army arrived. Under the circumstances, after an investigation the Americans decided not to file any charge against the German policeman who had shot Richmond.

FIX SIZE OF GERMAN ARMY

Military Conditions Still Chaotic with Situation Fast Clearing Up.

WITH THE AMERICAN ARMY OF OCCUPATION (Correspondence of the Associated Press)—The strength of the new German army or Reichswehr has provisionally been fixed at 241,500 men, according to information recently reaching American officers in charge of keeping tabs on the demobilization and reorganization of enemy forces. There are to be sixteen divisions and eleven small brigades, the large brigades to have 10,462 men each and the small brigades 5,230 men each. Corps troops are to number 548 and general headquarters troops about 10,000 men, according to the present plans.

Now that the 1899 class of the old German army is rapidly being discharged from all units excepting a few in the guard corps and on the eastern front, there soon will remain in the garisons throughout Germany only two classes of troops—the new and independent volunteer units and the volunteer remnants of the old army units. Some of the volunteer remnants have been planning to combine with the new independent volunteer units for the Reichswehr, but in many other instances it is apparent they are simply drifting, awaiting some decision by the military as to their future. Reports that the war ministry is planning to maintain small garisons in every town indicate the possibility that these remnants are to remain in the old departments, rather than be transferred into the new volunteer units.

Hindenburg Declares German Power Broken

Former Field Marshal Says Militarism is Gone Forever for His Country.

COBLENZ, (AP)—German militarism has been broken, a statement attributed to Field Marshal Hindenburg, reports of whose resignation have been received.

General Greiner, former head of the department of munitions and who has been the field marshal's chief of staff, is mentioned as his chief successor, according to Kollberg reports.

OVER BILLION AND HALF RAISED FOR VICTORY LOAN

House to House Canvasses Are Necessary to Reach Amount of Quota.

WASHINGTON, (AP)—Total subscriptions to the Victory Liberty loan today passed \$1,575,000,000. The treasury renewed its appeal to loan organizations to perfect their salesmanship plans for house to house canvasses next week, the last week of the campaign.

"Very slight improvement of interest was reported from the districts," said the treasury's review. The nation is so far behind schedule on subscriptions that it will be necessary to raise an average of approximately \$500,000,000 a day during the remainder of the loan period to reach the \$4,500,000 goal.

PANORAMA OF VICTORY MARCHES FOR NEW YORK

Army Stages Great Spectacle for Campaign Now Working on Nation's Loan.

NEW YORK, (AP)—One of the most novel and spectacular parades ever held on Fifth avenue, a "panorama of victory" staged by the army in the interest of the Victory loan, thrilled thousands today and brought home many a full realization of America's participation in the war.

For more than four hours, over five miles of march, there was unfolded an ever-changing, vivid picture of the marvels of the mighty army America raised to help defeat Germany.

CHAPLAIN ARRIVES ON MISSION FOR BELGIUM

Veteran of Great War Now Attempts to Show America the Needs of His Country.

NEW YORK, (AP)—Major Pierre Blommont, Protestant chaplain-in-chief of the Belgian army, veteran of four and a half years war service has arrived on a mission from the Belgian government to make known to this country the situation of the Belgian people and their needs in reconstruction work.

BELGIAN GETS SEVERE SENTENCE FOR ACTION

Man Who Sent Birthday Gift to Wilhelm Is Punished by Government.

DUNSDORF, (AP)—Commercial Councillor Underberg, of Moers, Belgium, near the Dutch frontier, instructed his gardener to dispatch a birthday message to the former German emperor.

The latter acknowledged the compliment in a postcard which fell into the hands of the Belgian authorities. Underberg was sentenced to jail with a fine of one hundred francs for carrying on forbidden communication with the former emperor.

UKRAINIANS ARE NOT SATISFIED WITH RESULTS

Impression General that Armistice Proposals by Inter-allied Mission Were Unfair and Unjust.

HEADQUARTERS OF THE WEST UKRAINIAN ARMY, CHODOROFF.—(Correspondence of the Associated Press)—The impression prevails in the Ukrainian lines that the Inter-Allied mission (which visited Lemberg in the latter part of February to negotiate an armistice between the Ukrainians and Poles) was unfair in its proposal for the armistice.

The Ukrainian soldiers were so wrought up over this point that they fired upon the correspondent of the Associated Press who crossed from the Polish to the Ukrainian lines with the intention of proceeding to Stanislaw, the capital of West Ukraine.

It was pointed out by the commander of the troops, General Pavlenko, that while the Ukrainians demanded that their western border extend as far as the river San thus including Lemberg, the entente allies proposed that his troops should give up Lemberg and all the territory they had conquered and retire on a line to the east of Lemberg, not also to surrender the oil basins to the southwest of that city.

Only Two Discussions
"It was stated that the inter-allied mission paid but two brief visits to discuss the subject. First the mission came to deliver a questionnaire regarding a truce which was accepted by the Ukrainians although hostilities were stopped at a moment when the Ukrainians were preparing to take the city of Lemberg.

The Ukrainians were disappointed because when the mission visited them for a second time, on February 29, the allied representatives went only to Chodoroff to meet General Petlura although the mission had been invited to Stanislaw and the Ukrainians had hoped and expected they would visit their capital city.

The talk with General Petlura came to nothing. The Ukrainians declare it was too evident that the mission was prejudiced in favor of the Poles and they add that the Ukrainian officers say their own men would refuse to fight if they were ordered to retreat from positions they had won and the land which they declare is purely Ukrainian.

BUYS AIRPLANES USED BY ARMY

Curtiss Company Purchases Machines Which Aviators of United States Operated.

NEW YORK, (AP)—Purchase from the government of several million dollars worth of airplanes, the majority of them flying machines used during the war, was announced today by the Curtiss Aeroplane and Motor company.

Between 1,000 and 1,200 planes are being taken over. It was stated that some of the machines would be put to novel uses by former army officers and others who plan to purchase them from the Curtiss people. Oil prospectors in Oklahoma and northern Texas want machines in order to speedily reach prospective claims on land where oil is struck in isolated districts. A physician in Nebraska will use a machine to visit patients in seven towns. An Ohio manufacturer will use machines to supervise control of his great cotton plantations in the south.

TWO SENATORS DECLARE PORTO RICO NOT READY

Sharp Division of Judgment Apparent on Part of Country Itself

SAN JUAN, Porto Rico.—(Correspondence of The Associated Press)—That Porto Rico is not prepared for either statehood or independence was the opinion expressed by Senators Barbosa and Giolitti in the course of a debate in the senate yesterday. Senator Barbosa said also that the island is unprepared for immediate self-government.

The debate was opened by an invitation of Senator Giolitti to Senator Barbosa to dissolve both political parties in the island for the purpose of "I invite Dr. Barbosa to dissolve the Republican party," said Senator Giolitti, "and I will do all I can to dissolve the Unionist Party because we are wasting time. It must be understood that both statehood and independence are a long way off. Do you think we are prepared for either statehood or independence?" he asked.

"We are not," replied Dr. Barbosa. "A country which has the number of illiterates Porto Rico has, whose masses are without means of education and whose economic condition is deplorable, is not prepared to be either a republic or a state. We have to prepare our country and provide the means for its being politically, economically and educationally in a condition to enjoy its sovereignty. We are in the position today of a student of medicine who has had two years of his course, who is diligent and ambitious and who wants to graduate as soon as he can, but whose professor has to say, 'continue your studies, you are not yet ready; when you get in your fourth or fifth years your labor will be rewarded.' Gentlemen, you know perfectly well that we are not economically prepared to be either a state or a republic."

"In this I agree with Dr. Barbosa," said Senator Giolitti, "we are not prepared economically for statehood or to be an independent republic."

Senator Giolitti asked Dr. Barbosa if he thought Porto Rico was prepared to govern itself. Dr. Barbosa replied that at the present moment it was not, because self-government signified government of and by the people and for the people, while today it would result in government by a part of the people only, because without preparation the people would be governed by the fortunate few.

WOULD RESTRICT GAS SALE

WASHINGTON, (AP)—Motions were filed in the supreme court today by the states of Pennsylvania and Ohio asking permission to institute original proceedings for the purpose of preventing the state of West Virginia from enforcing a state law which would prevent natural gas from being transported outside the state until domestic needs had been satisfied.

AMERICANS ARE RETURNED FROM BRITISH ARMY

Men Who Fought with English Troops Are Being Repatriated and Sent Back to Their Homes in United States.

WINCHESTER, Eng. — (Correspondence of The Associated Press).—Horn Hill, one of the heights overlooking this picturesque old city, is again an American camp. During the war it was the principal assembly ground for English and American legions on the way to the war. Now it is the clearing station for thousands of battle-worn Americans who are on the way home. They are the men who fought with the British forces.

All the far-flung armies of the empire are contributing to this assemblage. The Americans are coming chiefly from France, where the occupation forces in Germany, but large numbers are making longer journeys. Some have served in Palestine, some in Egypt, some in South Africa and others in India. Many are still in the East and others are with the British forces in various parts of Russia. It is reckoned that it will be six or eight months before all can be brought to England.

Troops Are Repatriated

Meantime, as fast as the Americans arrive in this country they are sent to Winchester and put through the process of demobilization and repatriation. Other camps here are being used to comb out the soldiers who served with the English instead of with their own armies.

The majority of the Americans who joined the British forces enlisted in Canada. Most of these are to be sent back, not to the point of enlistment, but to their homes in the States, a stipulation that was generally insisted upon by Americans when they volunteered their services.

Repatriation machinery turns slowly and there are often considerable delays, as it frequently happens that soldier arrives at the camp weeks before his papers filter through the various channels in which they move. It is only by his papers that a man's identity can be officially established. Great care is exercised in this matter, because the British army there have been many instances of soldiers exchanging names and identification disks.

Might Change Places

If an American serving with a British regiment wished to remain in England and a British comrade wanted to go to America, it would be easy enough, it was pointed out to the correspondent, for them to swap names and disks, and if the real Tommy did not object and did not drop too many of his "H's," the scheme might succeed.

After repatriation, the Americans are sent home as soon as transports can be provided at Southampton, which is only a dozen miles away. Special sailings are arranged for the soldiers who are taking wives back with them.

One lucky Michigan lad now at the camp missed his chance to get away with the last shipload of unmarried men by making a sudden entry into the matrimonial state. A day or two before his transport was to sail he was caught by the afternoon with an American girl he had met in Winchester. She was from Paterson, N. J., and he called her "Jersey."

"Well, this is good-bye," he said as he was about to return to camp. Thinking of home dimmed the girl's eyes. "Go, I wish I was going too!" she exclaimed.

"You mean that, Kid," said the big Middle Westerner.

"I sure do," she replied. Touched by her tears, he made a quick decision. "All right, come along with me," he said, seizing her arm. He knew where a special license could be obtained, and a few hours later they were man and wife.

In telling the correspondent of his romance, the soldier remarked: "I wouldn't leave a dog on this side that good old Statue of Liberty. He meant a special canteen for these homebound bound soldiers has been established at Horn Hill by the Americanized Cross.

TO PROTECT RETURNED SOLDIERS

CHICAGO, (AP)—Authorities in a number of central west cities have taken steps to prevent motorcyclists and automobilists from driving with the mufflers of their motors open. It is declared that the sudden explosions have the same effect as bursting shells and machine gun fire on the nerves of returned soldiers who are suffering from shell shock.

The authorities say that many shell shock victims who had virtually recovered had to return to hospitals as the result of the sudden "pop-pop" of a motorcycle engine behind them.

LABOR CONDITIONS SHOW GENERAL IMPROVEMENT

Reports for Week Indicate Unemployment Is on Wane Throughout Country.

WASHINGTON, (AP)—Unemployment conditions showed an improvement the week ending April 26, on the basis of reports from 38 cities. The Federal employment service reports a thirty-five per cent drop in demand for \$2,600, a decrease of several thousand from the total of the previous week, while six reported a shortage totaling 2,450 and twenty showed an equality of supply and demand.

CROP FORECASTS STORAGE PINCH

Department of Agriculture Urges Preparation to Handle Wheat

WASHINGTON, D. C.—(Special Correspondence).—With a wheat crop over a billion bushels in prospect in the United States this season—the greatest crop the country has ever produced—the need for efforts by farmers and elevator companies to market and store the grain with the least possible loss and congestion of traffic is impressed by the bureau of markets of the department of agriculture. In calling attention to this marketing problem, the department says that every possible measure should be taken to insure the safe storage and handling of this enormous crop.

Last year, with a crop of about 900,000,000 bushels, the rushing of the grain to market immediately after harvest caused a congestion all the way from the farm to the elevator. The result was that the grain was stored in "backed up" after the terminal elevators were full and congested the railroads and all country elevators. The result was that the grain was stored in "backed up" after the terminal elevators were full and congested the railroads and all country elevators.

North Dakota Congestion Encountered

Attention is called by the bureau of markets to the situation that prevailed in North Dakota in the winter of 1915-16, following a crop in that state of 1,200,000,000 bushels. At that time, the congestion of elevators at country stations, due to the inability of the railroads to carry the wheat away as rapidly as the store the grain with the least possible loss and congestion of traffic is impressed by the bureau of markets of the department of agriculture.

Stacking a Partial Solution

In some parts of the country last summer, especially in Indiana, for example, stacking was a feature of crop handling where it never had been before. Stacking is a partial solution to the grain-congestion problem which every farmer can apply. Furthermore, he is likely to be a gainer by the practice, for wheat that awaits in the stack, except during an unusually dry harvest season, will be of better quality than if thrashed from the shock. If stacked at once after harvest, weather permitting, the farmer will get a higher price for the wheat at the thresh and market the wheat at his convenience. There is the further advantage that the wheat will not deteriorate should rains come as it would in the shock. As a marketing proposition, stacking as soon as the wheat has become thoroughly dry after harvest is "good business," particularly with a billion bushels of grain and congested storage facilities in sight.

Offers Plans for Granaries

Farmers should consider the question of providing alternative storage facilities. Provision may be made to store wheat in buildings already constructed or farm granaries and portable bins may be provided. The department of agriculture has specifications for a portable farm granary issued as Markets Document No. 11.

AIR ACTIVITY COSTS HIGH IN FLYERS' LIVES

Mortality Date at Three Big Governmental Fields Reaches High Figure, Official Count Shows

FORT WORTH, (AP)—A hundred and six men were killed at the three big government aviation fields here between November 15, 1917, and the recent close of aerial activities, according to official figures just made public.

In the same period, the three fields now being closed turned out 1,476 finished aviators, most of whom were sent to the western front. A thousand commission aviators were also sent here from other schools to finish their gunnery course at Tullahoma field.

The statistics made public show that during the training period the actual flying hours at Carron field totaled 35,000, at Barron field, 26,000, and at Tullahoma field, 35,468.

The tail spin and nose dive were responsible for a large majority of the accidents according to officers. In the case of Robert East, of Providence, post adjutant at Barron field, fell from the greatest height, 5,000 feet. Two men fell from their planes at great heights because of failure to strap themselves in.

ALL PREVIOUS RECORDS ARE BADLY SHATTERED

Western Clubs This Year Far Ahead of Standing of Last

SAN FRANCISCO, (AP)—A comparison of the standings of the leading clubs of the Pacific Coast league at the end of the first few weeks of play show that the first division teams are far in advance of their percentages of last season. Los Angeles, which went off to a flying start, registered a percentage of 857 as against 385 last year. Salt Lake shows 727 this year as against 385 at the same time last season. With only a comparatively few games played thus far, percentages take decided rises and falls and the losing or winning of a game or two at this time of the year will completely change the complexion of a team's average.

TO ELIMINATE SPECULATION

WINNIPEG, Man.—(Correspondence of The Associated Press).—A bill prohibiting speculation in grain and other food products on Canadian grain exchanges has been prepared by the Manitoba Grain Growers' association and submitted to its parliamentary representative at Ottawa, B. C. Henderson of Macdonald, Manitoba.

LOOK-UP ON RAIDS

LONDON.—(Correspondence of The Associated Press).—Fifty-one places of worship in London were struck by bombs during the various air raids by German Zeppelins and airplanes during the war. Among them were St. Paul's cathedral, Southwark cathedral, Westminster Abbey, the City Temple, Chapel Royal, Choir House and the General Assembly Hall, Mile End. The damage generally was limited to roofs or art glass windows.

REVENUE OFFICERS ARE BUSY WITH FAKE AGENTS

So Many Tax Lawyers and Others Call, Some Form of Regulation Is Necessary.

WASHINGTON, (AP)—So many tax attorneys and other representatives of business interests are in daily conference with internal revenue bureau officials, that the bureau is considering establishment of regulations governing admission of these practitioners before tax agencies. An old law authorizing the secretary of the treasury to establish these regulations has been discovered.

Representatives of business interests of good standing have urged the promulgation of some sort of regulations to discourage the activity of those whom they consider "abstent" agents.

ARMENIANS MOB TURKISH ENEMY

Crowd of Refugees Recognize Hated Director of Deported Men and Pounce on Him.

NEW YORK, (AP)—The American committee for Armenian and Syrian relief has received an account by an eyewitness of the mobbing of Ismail Hissar, B. G. director of deported Armenian refugees at Aleppo under the Young Turk government and said to be responsible for the death of thousands of Christian men, women and children.

"When British forces entered Aleppo, Ismail Bey found it convenient to depart," said the eye-witness.

"It now appears that he had been living in Afion-Kara-Hissar, shelled by friends and carefully avoiding the British soldiers. We arrived in Afion-Kara-Hissar this afternoon in time to see him arrested.

TO BLAME SPECULATION

WINNIPEG, Man.—(Correspondence of The Associated Press).—A bill prohibiting speculation in grain and other food products on Canadian grain exchanges has been prepared by the Manitoba Grain Growers' association and submitted to its parliamentary representative at Ottawa, B. C. Henderson of Macdonald, Manitoba.

LOOK-UP ON RAIDS

LONDON.—(Correspondence of The Associated Press).—Fifty-one places of worship in London were struck by bombs during the various air raids by German Zeppelins and airplanes during the war. The damage generally was limited to roofs or art glass windows.

PREACHING IN GERMAN TONGUE NOT ADVISABLE

Governor Davis, Himself a Native of Wales, Announces Views on Foreign Language Question in Idaho

(Special to The News)

BOISE—The preaching or teaching of the German or any other foreign language, or the holding of religious services in any language other than American, may not be a violation of any law in the state of Idaho, but it is contrary to a law that is greater—public opinion—and should not be attempted. This is the belief of Governor Davis who makes his attitude very plain in answer to a resident of this state of German descent who inquired to learn the chief executive's attitude now that the war is over. The American language and American institutions should be embraced and all sentiment connected with other countries discarded, he believes, to make the true American. In his letter of reply, therefore, he seeks to show the danger of foreign languages and training rather than the English language and American ways. Governor Davis is foreign born himself, a native of Wales, but long ago adopted American in toto.

America is to Blame

"Let me say in the first place that the building up of a country to prosperous and happy conditions is never done without some mistakes and we have found in the course of the past two or three years that America is much to blame for a certain lack of Americanism that has been shown.

"Let me suggest to you that your

parents, and many of your friends sought these shores to divorce themselves from certain institutions and national characteristics which held them down to laws and customs which were irksome to them and to millions of others, and which were thought out and written in the German language. You come to America to enjoy its free institutions and commercial advantages. All of these were formulated in the American language. The greatest principle of the republican government to which your people came to find a refuge is that public opinion always rules in the end. Public opinion today is favorable to the greatest degree to the use of the American language, and rightly so. I feel strongly that every man, woman and child with German blood who came to America to be among its citizens, should utterly and absolutely divorce themselves from the sentimental thoughts of their former country so that they can in reality become true citizens of this country."

WORTH WHILE

Aside altogether from the advantages afforded in the capitalization of a nationally famous scenic attraction, the proposed spanning of the Snake river canyon at Shoshone Falls with a rim-to-rim suspension bridge presents commercial possibilities in respect to which no argument is required to convince the wide-awake farmer and business man.

In the words of T. E. Moore, chairman of the board of Twin Falls County Commissioners, "It will be built, and a better time for its building than the present would be hard to find."

Little if any objection could be mustered against the proposition of raising a fund for financing of the undertaking as a toll bridge, and it seems entirely reasonable to suppose that the tolls in the course of a few years would be sufficient to defray the whole expense involved.

While the matter of bridging the Snake at the falls has been considered to a greater or less extent all during the history of the Twin Falls country, probably no proposition so definite has been presented as that made by Engineer R. M. Murray. The proposition now advanced has an immense advantage over all previous plans in this direction in that it shows the undertaking to be one that is within reach and that immediately.

It is deserving of careful consideration.

MEMORIALS

The thought has been expressed that the possible construction of a suspension bridge over the Snake River near Shoshone Falls might be made to do duty for a Soldiers' Memorial, in lieu of the park and driveway plans decided upon some time ago.

There is something abhorrent in the idea of endeavoring to in any manner capitalize the earnest desires of the people to honor returning soldiers, into a project designed for purely commercial benefit to this section as a whole. Yet, as we view it, there is no good reason why the proposition of honoring Twin Falls County's soldiers should not go hand in hand with that of some form of effort of a purely utilitarian nature.

Something over a year ago an international memorial to be participated in by the United States and Canada received the endorsement of both countries. This memorial is to take the form of a bridge over the St. Lawrence River and the memorial feature of the enterprise is supplied through the construction of a room in each of the two approaches to the bridge, in which will be kept the flags, trophies, relics and mementoes of the armies of the two countries.

There was no thought of commercializing the sentiment of either people, yet the bridge will be a national boon to both. It will be immensely profitable in benefits, direct and indirect. It will cost millions and will return millions.

On a smaller scale the same idea is feasible at Shoshone Falls. A suspension bridge could be built and paid for on a toll system. A trophy room at each end of the structure, or at one end could be included. The entire span could be known as Memorial Bridge, and there seems to be no good reason why such bridge would not be of as much practical benefit to returning soldiers as any park or driveway could possibly be.

with the plans of the Committee having in charge the matter of the park enterprise. The plan has been endorsed and is being pushed to completion. But if a bridge is to be constructed at Shoshone Falls, and it should be, no soldier or anyone else is going to be hurt through the incorporation into the structure of a little of the same sentiment which is responsible for the park and driveway plan.

VETERANS WILL FROWN ON ANY POLITICAL PLAN

Storm of Disapproval on Part of Soldiers Greets Suspicion of Undue Activity of Selfish Sort.

(Special to The News) BOISE—Any attempt to manipulate the organization of World War Veterans in Idaho now being perfected, for political purposes, will meet with a storm of disapproval from the members of that association themselves. This was made plainly evident today when a statement was issued by Mark Shields, who has just returned from a trip over the state with the Victory Liberty Loan train on a mission of organizing the veterans in the various counties. He makes it clear that the veterans generally were surprised over the action taken at Boise a week ago when delegates were named to the St. Louis convention of national war veterans and intimates that any effort being made to draw the soldiers into politics, is his plan to bring about a state convention for the purpose of deciding on a policy to be followed for the organization and who shall represent the soldiers.

Governor Davis' Part At the request of Theodore Roosevelt, Jr., lieutenant colonel, a veteran of the first world war, Governor Davis appointed eight soldiers, both officers and privates, to decide on the manner in which delegates should be elected to the national convention to be held at St. Louis May 8. Lieutenant Colonel Roosevelt had been carrying on negotiations with Major Booth concerning the proposed action. That was the only part the governor played in the matter. The state's chief executive saw the danger of political manipulation and for that reason did not name the eight appointees as delegates. They met here later and with the exception of one, all of the appointees were selected as delegates to the national convention. At the time and the meeting a vigorous protest was registered by one of the appointees against adopting such a policy. He contended that either an election should be held or some system adopted by which delegates could be selected other than by the committee direct.

Regarding the action taken and the situation the war veterans find themselves confronted with, Mr. Shields, who is at present connected with the state liberty committee, in giving the charge of publicity work following his return from France, said: "No Organization Yet "At the present time there is no organization, neither is any individual or group of individuals authorized to speak for the boys as a whole, and I am certain, judge for me, that the soldiers in 30 or more counties, that they are going to resent the action taken by a few men whom it appears have set about to build up an organization which they can control. The former service men whom I met and talked with are agreed that the work of organizing the Idaho soldiers into a committee should be undertaken by a separate group of men to be chosen at a meeting where every county, which has either a permanent or temporary organization, can be represented by one or more delegates."

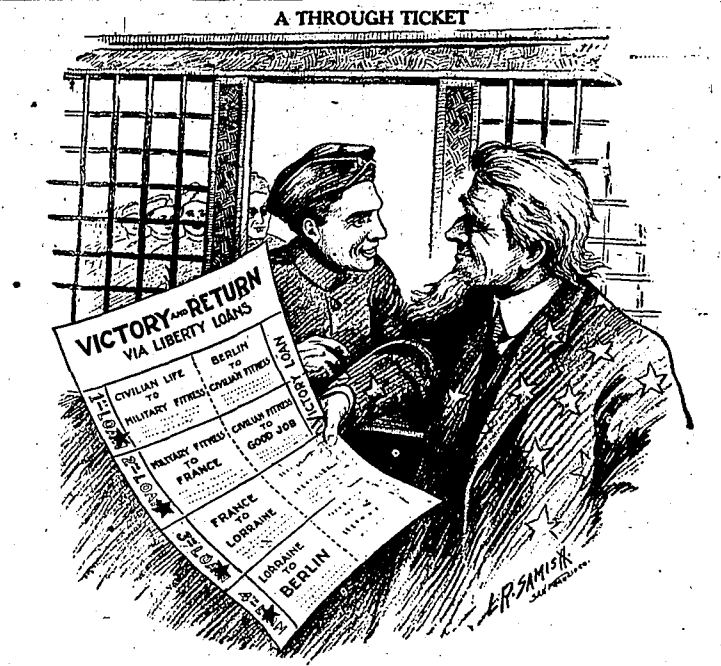

News a Surprise "Announcement that a committee of eight men had met in Boise and elected themselves delegates to the national convention in St. Louis in May was news to the men everywhere and they are going to want to ratify any action taken by those delegates before accepting it, and for that reason I think the demand for a state meeting some time next month is certain to grow."

The boys know the value of a statewide society organized for social and fraternal purposes, but in many places they are afraid of politics and unless assured that there is no person or group of persons will seek to use them for the purpose of furthering personal ambitions they will hesitate to come together. Those fears are not without foundation, but I think all men who have served with the colors will be glad to affiliate with their comrades if assured that the heads of a state organization will be selected by delegates chosen by themselves through their country branches.

"We found permanent organizations of soldiers in many of the Idaho counties and the men throughout the state are anxious to get together and form a strong state organization and I am of the opinion that a meeting will be called at an early date for that purpose."

NO PROVISIONS FOR CABLES PARIS, (AP)—At the meeting of the council of ministers it was decided no provision will be made in the peace treaty for the disposition of the German cables beyond specifying that they are to be left to the Germans and left in the control of the five great powers.

If you know what's advanced today you know what to buy today—where to find it—what it will cost.

LOAN PROCEEDS TO COVER COST OF TRANSPORTS

Demobilization and Return of Troops from France will Require Many Billions of Dollars Before All Are Home.

NEW YORK, (AP)—The money raised from the Victory Liberty Loan will be used to pay for bringing the American troops home from France. As the cost of their demobilization, part of the war insurance claims of the soldiers and sailors, killed or injured in the fighting and will furnish funds for the care of the wounded and for the vocational training of the maimed and other post-war expenses, says a representative here of the Liberty loan committee. "One of the biggest items of expense will be for the transportation and demobilization of the troops, the cost of which, from the time the armies were signed until the army is returned to a peace basis, will amount to approximately \$2,300,273,000," he adds in a statement. There were about 2,000,000 men overseas when the fighting ended. According to the army transportation experts it will cost \$200 a man to bring them from the fighting lines in France and Belgium to their homes in the United States. This will make the total transportation bill \$400,000,000, of which \$125,000,000 represents the fare of the soldiers in France, \$124,000,000 their fare across the Atlantic and \$149,000,000 their transportation from United States ports to their homes.

Takes Long Time "It will take at least ten months, the army authorities say, to complete the demobilization of the troops from overseas. Their maintenance in that period, including housing, clothing and food, will amount to about \$1,000,000,000, of which \$279,428,130 will be for food.

The demobilization, transportation and maintenance expenses of the 1,355,000 soldiers who did not get to France, will amount to about \$920,273,000, bringing the total for the whole army to the figure already stated, \$2,300,273,000, which will make quite a hole in the Victory Liberty loan receipts. "There are about 200,000 sick and wounded soldiers still being cared for in the government hospitals. The per capita cost of caring for these patients is figured by the army medical department at \$725, which brings the total cost of those now undergoing treatment to \$145,000,000. There are eighty army hospitals in the United States. The cost of their operation ranges from a few hundred thousand to a million dollars a year each.

Much Insurance Expense "The amount of war risk insurance the government has outstanding is \$37,000,000,000. The claims already filed amount to \$5,000,000. If all the soldiers, numbering approximately 72,500, who were killed in action, or died of wounds, accident and disease, were insured for the full amount of \$10,000 each permitted under the plan, their claims would aggregate \$725,000,000. Payments on these claims will be made at the rate of \$50 a month to the dependents of each soldier, which calls for the expenditure of \$13,200,000 a year for about sixteen years. However, it is not probable that many of these claims, or of the thousands of others that will be filed by soldiers disabled in the war, will be acted upon in time to make much of a drain upon the proceeds of the Victory Loan. "The federal board for vocational training, which the government has established to care for disabled men after they are discharged from the army or navy, and train them to earn a livelihood, will cost several millions of dollars a year to maintain. Already 12,000 men have applied for training in the institution, and as they are to be paid at least \$65.00 a month each while under-

going training, their pay alone will amount to about \$1,000,000 a year.

"Other expenses to be met out of the proceeds of the Victory Liberty Loan will be the purchase of wheat at the guaranteed price of \$2.50 a bushel, and extension of credit to the countries associated with us in the war to enable them to purchase war material and other property of the United States in such countries which is no longer essential to this government. Funds also will be needed for the upkeep and other expenses of the navy since the signing of the armistice and for the operation of the railroads. In addition to these military costs, the civil expenses of the government are running at about \$2,000,000,000 a year."

We are again making stockfood. The Twin Falls Flour Mills. (Adv.)

Perhaps, in the ordinary course of things, you had not intended to make a trip to a particular store today. Yet such a trip may be highly desirable—on a little thrift journey. See the ads.

Law of Progress. Let us then be of good cheer. From the great law of progress we may derive at once our duties and our encouragements. Humanity has ever advanced; thwarted sometimes by obstacles which have caused it for a time—a moment only; in the immensity of ages—to deviate from its true lines, or seem to retreat; but still ever onward.—Charles Sumner.

DRIVE TO BE LAUNCHED HERE TO SELL BONDS

E. L. Macvicar Takes Charge of Organization of Block Captains Enlisted in Effort to Make Good City's Quota.

Table titled 'Standing of Districts' with columns for District, Quota, and Subscribed. Lists districts like Buhl, Rogerson, Hollister, etc., with their respective quotas and subscription amounts.

With the purpose of reporting to Washington Tuesday night that the Twin Falls district has subscribed its quota of Victory Liberty bonds, an organization of about 300 men, one of whom is to serve as the drive leader in each block is being formed under direction of E. L. Macvicar. The district has a quota of \$456,305. Reports to campaign headquarters today showed that the amount already subscribed in the district is 185,950. A determined effort to make good the balance due is to be put forth in Twin Falls on Monday before the arrival here of the whip-pet tank being sent to south Idaho to stimulate the drive.

A definite work is to be assigned to each block captain each of whom will be given lists of the names of persons residing in his block who have not as yet subscribed to bonds of this issue, and upon whom the captain is expected to call on Tuesday in the effort to make good the quota.

Bede Cottage Sold. Bede cottage, the scene of George Eliot's novel and the original home of "Adam Bede," situated on Boston common, Derbyshire, was recently sold by auction for \$2,675. The cottage still has the building attached which formed the workshop of Adam and Seth Bede.

Awful to Think Of. The whale is said to yield a barrel of milk at a milking. But what happens to the milk if she gets careless with her calf?

SENATOR SAYS WILSON TAKES REVISED VIEW

California Solon Declares President Is Backing up in Stand Against Secret Treaties in Japanese Matter.

WASHINGTON, (AP)—Senator Johnson of California, republican, in a statement today charged that President Wilson reversed his stand upon secret treaties in the Fineso dispute and that he was backing up in his stand against secret treaties in the Japanese matter.

Assignments to early convoys today included: The headquarters and medical detachments and Companies A, B, C and D of the 49th engineers; 82nd company transport corps; 159th aero squadron; 30th company, 4th regiment air service mechanics; 337th bakery company; clothing squad No. 316 and sanitary squad No. 21.

CAMOUFLAGED GOLD FISH

LONDON, (AP)—Camouflaged "gold fish" have been sailing with "gold" in the name, and in the name of gold are being dyed. In about three days the dye wears off.

Before the war, England obtained virtually all its gold fish from Germany.

LEAGUE DRAFT POSSIBLE CAUSE OF PARTY SPLIT

Failure of Republicans to Agree on Covenant Will Mean Rift in Camp of Opponents to World Organization.

WASHINGTON, (AP)—Senator Hitchcock, of Nebraska, retiring chairman of the senate foreign relations committee, in a statement today upon his return from a speaking trip in support of the league of nations reiterated his belief that the amended covenant would be ratified and said he expected the document and the peace treaty to be concluded in its present form.

WILKESBARRE, Pa. (AP)—A

terrific explosion of gas today in the Nottingham mine of the Lehigh and Wilkesbarre Coal company killed a number of miners. Scores of men were caught behind the blast and the Nottingham mine of the Lehigh and Wilkesbarre Coal company killed a number of miners. Scores of men were caught behind the blast and the Nottingham mine of the Lehigh and Wilkesbarre Coal company killed a number of miners.

Rumanians Refuse to Consider Armistices

GENEVA, (AP)—The Rumanian and Czechoslovak governments according to reports received here, have refused to entertain the offer of Bela Kun, the Hungarian foreign minister, to make territorial conditions providing that fighting should stop at once. The Rumanians and Czechoslovak continue the march on Budapest.

SEVERAL THOUSAND MEN REACH UNITED STATES

NEW YORK, (AP)—With 1,613 troops including two officers and 11 men of the 44th aero squadron and casuals from Montana, the cruiser Frederick arrived today from Brest.

NEW YORK, (AP)—John Harland

("Speedy") Rush will act as head football coach at Cornell next fall, according to advices received from Ithaca. Rush will succeed Dr. Albert H. Sharpe, who recently accepted a similar position at Yale.

ST. JOSEPH, (AP)—Hog receipts

4,500; steady to 10 higher; top \$29.35; bulk \$19.50@22.00. Cattle receipts 100; nominal; steers

ALABAMA DOES NOT LIKE ACT OF PRESIDENT

Citizens Protest Against Giving Seaport to Italy in View of Claims Expected from Greece and Serbia.

BOSTON, (AP)—Assuming, upon advices in Paris, that the "Volpna" mentioned in President Wilson's memorandum to Premier Orlando is the Albanian port of Valona, Kol Promesa of Albanian federation Yatra, sent a cablegram to President Wilson yesterday protesting against his statement that there was no objection to Italy's taking the port should be ceded to Italy.

GOLD BATHS LOSING PLACE

Hot Tub Now Popular with Returned Soldiers; British Housewives Disapprove.

LONDON, (AP)—That British fetish, the gold bath, has lost its popularity for many soldiers who have returned from France. The occasional bath they got in rest billets during the war has been replaced by the hot tub bath along with a distaste for cold water. One soldier who compared to a gold bath enthusiast says:

Administration Policy on Roads Defended

Wilson Could Not Allow Operation of Railways to Cease.

(Continued from page one)

Roads were turned over to the president as a war emergency and added: "He could not allow their operation to cease through the disaffection or strike of employes. This court knows judicially that on the day when the director general issued the order increasing railroad rates, he also issued an order increasing the wages of railroad employes. The money to meet this increase must come from some source; it was proper that it should come from the shippers and passengers for whom for the most part, it was incurred; and it was proper, indeed it was necessary, that in distributing the burden interstate shippers and passengers should not be discriminated against."
