### SPECIAL SESSION IS CALLED

**Cable from President Wilson Announces May 19 as Time Set for Convening of Congress for Extra Work.**

WASHINGTON, (AP)—President Wilson issued a cable today for a special session of congress to meet Monday, May 19. Secretary Tamm in making the announcement said it would be impossible to convene for the present to be held on the opening day. The day fixed for the special session was much earlier than democratic leaders had expected.

**To Finish Up Business**  
White House officials said that in naming an early date for the session, President Wilson was guided largely by the advice of Secretary Glass as to the necessity of passing annual appropriation measures which failed in the closing days of the last session.

**No Information Available**  
There was no information at the White House as to the probable time of the return of the president, but some administration leaders believed the president had called the session earlier than had been anticipated in order that congress might dispose of the more important appropriation measures before the treaty was ready for consideration.

**Organization Complete**  
Republicans of the house virtually have completed their organization, but the senate has done no organization work and this probably will occupy its attention for the first week.

**Senator Lodge, the republican leader, today issued a call for the republican conference May 14 to perfect the senate organization, and Representative Mondell, republican floor leader, announced a "conference" of republican house members for May 17.**

**Contents of Proclamation**  
President Wilson's proclamation calling the extra session follows:  
"Whereas, public interests require that the congress of the United States should be convened in extra session at 12 o'clock noon, on the 19th day of May, 1919, to receive such communications as may be made by the executive;

**In Case of Necessity**  
"Now, therefore, I, Woodrow Wilson, president of the United States of America, do hereby proclaim and declare that an extraordinary occasion requires the congress of the United States to convene in extra session at the capitol in the District of Columbia, on the 19th day of May, 1919, at 12 o'clock noon, of which all persons who shall at that time be entitled to act as members thereof are hereby required to take any and every steps they may see fit to take under my hand and the seal of the United States of America the 7th day of May in the year of our Lord one thousand nine hundred and nineteenth and of the independence of the United States the one hundred and forty-third."  
(Signed) "Woodrow Wilson,  
"By the president:  
"Robert Lansing,  
"Secretary of State."

### FUME DISPUTE SETTLEMENT IS GIVEN TO PUBLIC

**City Goes to Italy After Four Years During Which She Builds Port for the Jugoslavs.**

PARIS, (AP)—As a basis of resuming participation in the peace negotiations Premier Orlando accepted a proposal that Italy administer Fiume until 1930, after which Fiume will revert to Italian sovereignty.  
During the Italian administration a harbor for the Jugoslavs will be built at a port lower down the Adriatic coast. The harbor will have railroad communication with Agron and other cities.  
Italy, it is understood, also is prepared to make sacrifices of some of her other claims on the Dalmatian coast.  
The proposal which induced the Italian to return to Paris was made to them by Charles Barrere, the French ambassador at Rome.

### Presentation of Peace Treaty to Be Short Affair

**Session for Giving Terms to Germans Will Not Last Over Twenty Minutes.**

PARIS, (AP)—The session of the peace congress at which the treaty will be presented to the Germans is expected to last twenty minutes. It will be opened by Premier Clemenceau, president of the peace conference whose address will be replied to by Count von Brockdorff-Rantzau, the German foreign minister and head of the enemy delegation. The delivery of the copies of the treaty will then take place.

### CLUBS PLAN FOR BOXING MATCHES

**Only Three Athletic Associations Will Be Allowed to Stage Exhibitions.**

(Special to The News)  
BOISE—Only three athletic clubs in Idaho will be permitted to stage exhibitions of wrestling or boxing on July 4, except where there are to be special soldiers' celebrations, according to a decision reached at an all-day meeting Tuesday here at the state boxing commission appointed by Governor Davis.

Where there are to be soldiers' celebrations special permits will be issued by the commission and a commissioner delegated by the commission will supervise the bouts.  
The first permit issued by the commission was applied for by the Boise Athletic club.

The commission limited all boxing contests to 12 rounds, with the privilege of a three-round savior and prescribed six-ounce gloves to be used.  
Wrestling bouts were limited to two hours duration at the end of which time, if there is no fall, the referee must give a decision on points.  
The names of all referees for wrestling and boxing bouts must be filed with the commission and approved before any bout can be staged.

Contestants must pass a satisfactory physical examination before entering any boxing or wrestling event. Coaching by seconds during the progress of the bout is prohibited.  
There are to be no boxing or wrestling bouts staged on Decoration day, and all contests scheduled for Saturday must be completed by 12 o'clock midnight.  
T. J. Sherlock of Boise, was elected president of the commission. The other members are T. W. Rickard of Pocatello and W. G. Blamater of Moscow. Charlie Bathurn of Boise, was named as temporary clerk.

### BRIEF SUMMARY OF CONFERENCE SHOWS EFFORTS

**Summary of Activities of Peace Delegates Gives Some Idea of Strenuous Labors Required to Settle a War.**

### GREAT MASS OF DETAIL FINALLY CLEARED AWAY

**After Many and Disappointing Plans Are Tried Those Meeting Requirements of Justice Are Adopted.**

The treaty handed to the Germans today at Versailles is the result of the work of the representatives of the allied and associated powers arranged against Germany who convened officially on January 18. The time between the armistice, November 11 and January 18, was occupied in preparing plans and reports in selection of delegates and in their travel to Paris.

### First Act of Conference.

The first act of the peace conference at its meeting on January 18 was to elect George Clemenceau, premier of France, as chairman. On January 21, the conference adopted the proposal that all Russian factions meet on the 15th of February to discuss the Russian situation. Nothing ever came of the proposal. Three days later the conference ordered fighting over disputed territory to cease.

### Plans League of Nations.

The plan for a league of nations was conceived in the conference on January 24 and a committee was appointed to draw up a covenant. Discussion in the supreme council or council of ten which included two representatives from Great Britain, France, Italy, Japan and the United States then turned to the form of the future government of territory freed from enemy rule and on January 30 the conference accepted the plan of mandatories for colonies and backward nations.

On February 14 the league of nations commission reported the covenant it had prepared. The work of the council of ten thereafter was continued, except for the interruption incident to the attempt to assassinate Premier Clemenceau on February 18.

### Breaking Up Councils.

On March 26 in order to speed up the work, the council of ten was broken up in two bodies, a council of four and a council of foreign ministers. The council of four was composed of premiers Orlando, Clemenceau, Lloyd George and President Wilson.

A furor in conference circles was created on April 7 when President Wilson announced the transport, George Washington to come to Brest at once and it was reported the president intended to return home. A statement on reparations and frontier questions.

### ENEMY MUST MAKE FINAL SETTLEMENT

### Condensed Form of Peace Treaty Given to Public

Articles Presented to Committee Are Announced by Government on Information.

PARIS, (AP)—The treaty of peace between the enemy-seized allied and associated powers on the one hand and Germany on the other, was handed to the German plenipotentiaries today.  
"It is the longest treaty ever drawn. It totals about eighty thousand words divided into fifteen main sections and represents the combined product of over a thousand experts working continually through a series of commissions for the three and a half months since the armistice was signed. The treaty printed in parallel pages of English, and French which are recognized as having equal validity. It does not deal with questions affecting Austria, Bulgaria, Turkey, except insofar as binding Germany to accept any agreement reached with those former allies.

### Covenant of League of Nations Is First

"Following the preamble and deposition of powers comes the covenant of the league of nations as the first section of the treaty. The frontiers of Germany in Europe are defined in the second section; European political classes given in the third; the general political classes in the fourth. Next are the military, naval and air terms as the fifth section, followed by a section on prisoners of war and military graves, and a seventh section on reparations, financial terms and economic terms are covered in sections eight to ten. Then comes the section on frontiers, waterways and railways section, the labor covenant, the section on guarantees, and the final clauses.

### Restores Territory to Former Owners

"Germany by the terms of the treaty restores Alsace Lorraine to France, accepts the internationalization of the Saar, and temporarily and of Danzig permanently, agrees to territorial changes toward Belgium and Denmark and in East Prussia, Poland, and Poland, and renounces all territorial and political rights outside Europe, as to her own or her allies' territories, and especially to Morocco, Egypt, Eilat, Libyria and Shantung. She also recognizes the total independence of German-Austria, Czechoslovakia, and Poland. She may have no military or naval air forces except one hundred thousand men including officers; conscription within her territories is abolished; all forts fifty kilometers east of the Rhine are to be dismantled; and all importation, exportation and nearly all production of war material stopped. Allied occupation of parts of Germany will continue until reparations is made but will be reduced at the end of each of three five-year periods if Germany is fulfilling her obligations. Any portion by Germany of the conditions as to the zone fifty kilometers east of the Rhine will be regarded as an act of war.

### Navy Is Reduced to Small Proportions

The German navy is reduced to six battleships, six light cruisers, and twelve torpedo boats, without submarines, and personnel not over fifteen thousand. All other vessels must be surrendered or destroyed. Germany is forbidden to build for export to the Baltic, and must demolish Heligoland, open the Kiel canal to all nations, and surrender her fourteen submarine carriers. She may have no military or naval air forces except one hundred unarmed seaplanes until October 1st to detect mines, and may manufacture aviation material for six months.

### Must Be Responsible for Damages of War

Germany accepts full responsibility for damages caused by allied and associated governments and nationals, agrees specifically to reimburse all civilian damages because of the invasion of Germany, twenty billion marks, subsequent payments to be secured by bonds to be issued at the discretion of the reparations commission. Germany is to pay shipping damage on tonnage basis by cession of a large part of her merchant, coasting, and river fleets and by new construction; and to devote her economic

### WAGES OF GERMANY'S SIN SHALL BE MILITARY DEATH

**When Delegates Sign This "Scrap of Paper" They Will Not Be in a Position to Scorn Its Contents but Must Bow to Will of Entire World.**

### VERSAILLES, (AP)—Germany today was told the terms upon which the allied and associated powers will make peace with her.

These terms were contained in a treaty some eight thousand words in length which was handed to the German plenipotentiaries at a memorable assemblage here, attended by the delegates of the twenty-seven nations which are parties to the peace pact. The document is introduced by an extensive preamble, embodying the assertion of authority upon which the treaty is based.

Immediately following is the first chapter, the covenant of the league of nations, the text of which already has been printed. Of the fourteen principal sections, one contains stipulations with regard to frontiers which materially change the map of Europe. Military, naval and air terms are dealt with in another section, while another is devoted to the subject of reparations. Political stipulations for Europe, on the one hand, and outside of it, on the other, are dealt with in separate divisions of the document.

### CLAUSES COVER IMPORTANT POINTS OF WORLD TROUBLE

**Every Phase of Difficulty Between Associated Powers and Germany Settled.**

Preamble: The preamble names as parties of the one part the United States, the British empire, France, Italy and Japan, described as the five allied and associated powers, and Belgium, Bolivia, Brazil, China, Cuba, Ecuador, Greece, Guatemala, Haiti, the Hejaz, Honduras, Liberia, Nicaragua, Panama, Peru, Portugal, Romania, Serbia, Siam, Czechoslovakia and Uruguay, who with the five above are described as the allied and associated powers, and on the other part, Germany.

**Grants Amnisty to Rebels**  
It is stated that Berlin is in view that on the request of the then imperial German government an armistice was granted on November 11th, 1918, by the five allied and associated powers in order that the treaty of peace might be concluded with her, and whereas the allied and associated powers being equally desirous that the war in which they were so deeply involved should be indirectly or indirectly originated in the declaration of war by Austria-Hungary on July 28th, 1914, against Serbia, and that the German people, and against France on August 3, 1914, and in the invasion of Belgium, should be spared the horrors, just and lawful peace, the plenipotentiaries, having communicated their full powers found to good and due form have agreed as follows:

**League Comes First.**  
Sec. 1.—League of Nations. The covenant of the league of nations constitutes a constituent part of the peace treaty, which places upon the league many specific duties in addition to its general duties. It may exercise its authority at any time for a violation of the neutralized zone east of the Rhine as a threat against the world's peace. It is appointed one of the five plenipotentiaries of the five allied and associated powers its regime, and carry out the plebiscite. It will appoint the high commissioner of Danzig, guarantee the independence of the free city and arrange for treaty relations between Danzig and Germany and Poland. It will work out the mandatory system to be applied to the former German colonies and, in the final settlement in part of the plebiscites of the Belgian-German frontier, and in disputes as to the Kiel canal, and decide the question of the economic financial problems. An international conference on labor is to be held in October under its direction, and another on the international control of ports, waterways and railways is foreseen.

**Must Sign Covenant**  
Membership.—The members of the league will be the signatories of the covenant and other states invited to accede to the covenant of the league of nations without reservation within two months.

A new state, dominion, or colony may be admitted provided its admission is agreed by two-thirds of the assembly.

### FOUNTAIN FOR MEMORIAL FOR VALOR OF BOYS

**Suggestion That Joint State and County Fund Be Used for Engraved Drinking Places Is Advanced.**

(Special to The News)  
BOISE—Erection of a handsomely engraved public drinking fountain to be located at the county seat has been suggested as the form to be taken by the soldiers' organizations to be created by the state and several counties, operating under the terms of a law passed at the last session of the legislature, which appropriated \$50,000 for this purpose available to counties making dollar for dollar with the state. A meeting of the commission appointed by Governor Davis to administer this fund was scheduled to convene here Tuesday, but was not held on account of there being no quorum.

### PROTEST FRUIT HATER

(Special to The News)  
BOISE—A meeting of fruit growers of southern Idaho to convene here on Monday next to take up the matter of protesting to the railroad commission against the proposed increase in freight rates on fruit shipped to eastern markets, has been called by the state public utility commission.

# GERMANY FINDS ENTIRE WORLD DEALING PEACE

## Representatives of Twenty-two Nations Are Facing the Enemy While She Signs Terms Binding Her Good Behavior.

Germany will today receive the terms of peace from the nations arrayed against her in the world's greatest war. This event, which falls on the fourth anniversary of the signing of the armistice, marks one of the historic dates in the giant conflict. It comes 177 days after the last shot of the war was fired on November 11, 1918.

### Face Many Nations.

The German delegates, when they enter the dining room of the Hotel Triannon at Versailles at about 3 o'clock this afternoon will find present the representatives of twenty-two nations. When plans for the presentation of the treaty were decided upon some time ago it was determined that only these nations would have delegates present. It being held that only those nations which had taken an efficient part in the fighting should be present.

It was decided yesterday, however, that envoys of China, Siam, Cuba, Guatemala, Nicaragua, Haiti, Panama, Liberia and Honduras should also be admitted.

At a secret plenary session held at the French foreign office yesterday afternoon a summary of the treaty was read and there were a few questions. Portugal taking exception to some features of the treaty, and with China, Italy, and France making reservations when the reading of the summary had been completed. It is not believed, however, that the objections to certain phases of the treaty will result in the refusal of the president to sign the document, nor will their reservations affect the procedure decided upon in laying the treaty before the German plenipotentiaries.

### Arrangus Wilhelm.

One of the most interesting features of the convention was added to it yesterday when a clause arraigning former Emperor Wilhelm as a suppliant for defense against international morality and the sanctity of treaties" was attached to the treaty together with a provision for his trial by a tribunal composed of representatives of the United States, Great Britain, France, Italy and Japan.

Steps have been taken to meet any refusal on the part of Germany to sign the treaty. Complete economic isolation is one of the principal weapons to be used by the allied and associated governments.

# BIG SCRAP WILL ECLIPSE OTHERS

## All Former Title Bouts Will Fade Before Great Battle Soon to Come.

NEW YORK, (AP)—The Willard Dempsey heavyweight championship fight scheduled for July 15, 1919, is the one topic of discussion among the eastern fight followers during the last twenty-four hours. While there is excellent material for a number of fights regarding the outcome there is no record of warring at this time.

In fact, those who take more than a passing interest in boxing affairs find it difficult to reconcile the idea of a heavyweight championship battle with the twelve round contest which it is proposed to stage. There was much talking of fighting experts' look and consensus at this point and it was the consensus that it was a pugilistic innovation which required time to assimilate.

### No Glamour Appears

The glamour which surrounded the virtual fight to a finish in which Sullivan, Corbett, Fitzsimmons, Jeffries and even Johnson defended their titles, appears to be lacking in this contest. It is also a decided ring novelty for a heavyweight champion to agree to fight a title in a twelve round decision over such a short route. Many expressed the opinion that it showed remarkable confidence on the part of Dempsey to defend such a title in a single round against the rushing tactics of an formidable opponent as Jack Dempsey.

### Short Schedule Battle

With the exception of the ten round decision bout between Willard and Frank Moran in this city three years ago, the longest fighting contest ever held in a title was a twelve round affair and only from a title passing angle there is no record of such a short scheduled battle in the modern history of heavyweight fighting. The fight between John L. Sullivan, championship contests in this class have ranged from twenty rounds upward.

The longest fight for the heavyweight title in the modern history of the sport was a twelve round affair which took place in Havana in 1915. Of these seven title bouts but only one was a double figure rounds and nine went more than twelve rounds before the winner landed the knockout blow.

# BOOZE VENDORS LEARN METHODS OF NEW TRADE

## New and Novel Are the Means Employed by Liquor Peddlers in Arizona, According to Official Reports.

PHOENIX, Ariz., (AP)—"For ways that are dark and tricks that are vain the 'bootlegging' man is peculiar," would be an apt paraphrase of a well known saying. The bootlegging man in Arizona since the state went dry December 14, 1914.

The original "bootlegger," say those who profess to know, carried the whiskey with which he did his bootlegging concealed in flat flasks in the logs of his boots, hence the name. One of those gentlemen, the first to come under the eyes of the officers for many months, was captured in Phoenix recently, but the up-to-date purveyor of alcohol in Arizona resorted to much more elaborate tricks to import or manufacture and sell his wares.

### Investigates Barrel

In Jerome, recently a large and suspicious looking barrel arrived by express, according to a story told by the federal officials. It was heavy and the deduction was that it was full of something. It was investigated on the station platform, but nobody came to claim it. Officers investigated and found it filled with whiskey, so a close watch was set on the barrel, day and night. There it stood for several days until the arms of the law became weary of the vigil and decided to remove it to headquarters for safe keeping.

An outdoor fire traveling by express has been known to bring whiskey into the state and recently a large consignment of "condensed milk" was found to have nothing at all about it but the label, while the interior of the cans were decorated with "old ire."

### Devises New Means

In this instance, grading all the way from a small gas stove with a can and a copper pipe to the modern and fully equipped article have been resorted to. The most elaborate method discovered for years was unearthed in a rail in the Verde district.

To "finance" a "To Let" advertisement campaign you need only set aside for perhaps a few days—a part of your pocket money.

# SWINDLERS REAP GOLDEN HARVEST

## Confidence Men Have Had Flourishing Year and New Methods Show Gains.

CHICAGO, (AP)—The American confidence man reaped a harvest of more than \$10,000,000 last year, according to figures compiled by Chicago authorities. This is the approximate amount actually collected from credulous public by professional confidence operators and does not include the millions gathered in annually by the various stock jobbing schemes.

### Differs from Old Method.

The really successful confidence men of today usually have summer and winter homes, ride in limousines and are aided by richly gowned women, authorties say. They are educated and far more clever than their brothers of old. Their selling schemes, peddling of worthless mine and oil well stock, wire tapping and "fake" sporting events now the hand maidens of the modern confidence man, who matches with the banker, capitalist and lawyer, instead of dealing with the ignorant ruralite. Nearly all the victims of a Chicago gang recently sent to the penitentiary were bankers and business men. The gang's loot aggregated more than half a million dollars a year.

### Victims Fear Publicity

Fear of publicity keeps most victims quiet, thus giving the high class confidence man a certain degree of immunity, authorities say. They add that the confidence man who matches with the banker, capitalist and lawyer, instead of dealing with the ignorant ruralite. Nearly all the victims of a Chicago gang recently sent to the penitentiary were bankers and business men. The gang's loot aggregated more than half a million dollars a year.

### Proves Easy Work

Victims are not really honest at heart, they are enter into schemes to cheat other fellows. The small town banker and business man has proved a shining mark for swindlers. They can't get it into their heads by convincing. It is surprising how many shrewd business men fall into the net."

# SECRETARY IS SORE MEN WILL SOON BE HOME

## Baker Says by August All of Expeditionary Force Will Be Out of France and Safely on Way to America.

WASHINGTON, (AP)—Secretary Baker announced today that by August the last man of the American expeditionary forces will have been withdrawn from France. He said this estimate was based on the movement of 300,000 men a month to the United States.

Already, Mr. Baker said, the American forces in France have been divorced from the army of occupation. Plans have been completed to apply the force in Germany through the ports of Antwerp and Rotterdam, removing the necessity for maintaining the 700 mile line of communication from Brest. The French ports will be maintained, however, for the withdrawal of the A. E. F.

### COTTON SHIPMENT ARRIVES

ANTWERP, (AP)—The first shipment of cotton from the Belgian Congo has arrived in Antwerp. It amounted to about eight tons but it will shortly be followed by larger quantities.

Hitherto Belgian industry had been relying exclusively on imports from America. The first attempt at cotton growing in the Belgian Congo was made during the war, in 1915. Today there are already several cotton plantations in operation in the Manima and Sankuru districts. The 1918 crop yielded about 250 tons.

# TRAFFIC FALLS OFF SLIGHTLY

## Freight Is Not Moving So Rapidly Since Close of War with Marked Slump.

WASHINGTON, (AP)—Falling off of freight traffic this year owing to slowing down of war time manufacturing is shown by a report just issued by Director General Hines in connection with his explanation of the government deficit of \$192,000,000 in operation of railroads for the first three months of the year.

In March the railroads recorded 29,962,000,000 "ton miles" as compared with 37,700,000,000 in March last year. A "ton mile" represents the hauling of one ton one mile, and the traffic units. In February the roads hauled 25,081,000,000 ton miles, as compared with 29,087,000,000 in the same month last year and in January they hauled 23,383,000,000 or more than the 27,919,000,000 of January, 1918.

"It is impossible on the basis of these three months to predict the results for the year as a whole," said Mr. Hines, in a statement.

"On the trip in the west which I have just completed, I found the most pronounced opinion of the part of business and agricultural interests generally which gives a reasonable basis for hoping for an enlarged business that will be relatively profitable to the extent since leading. It should not correspondingly increase their costs."

# AGITATORS ARE GIVEN SENTENCE

## Trouble Makers in Korea Are Sent to Prison for Long Terms for Activities.

SEOUL, Korea, (AP)—(Correspondence of the Associated Press)—Thirty-eight Korean agitators at Pyeng Yang have been sentenced to prison for periods ranging from six months to two years. Similar sentences were imposed upon Koreans by the court at Taihu. About 2,400 agitators who were arrested at Seoul and its suburbs have been released by the police after imprisonment.

A great many public market places have been closed because it was found that disturbances arose on market days.

### PROTECT ANCIENT RUINS

MEXICO CITY, (AP)—The department of agriculture and development has obtained funds for the protection of the ancient ruins of Mitla, located in the district of Tlaxiaco, state of Oaxaca, which have been subject to depredations. A commission of the government bureau of archeology will have charge of the work. The Mitla ruins are among the oldest left by the tribes that preceded those conquered by the Spaniards early in the 16th century.

# GERMAN DEPOT OF AMMUNITION IS EXPLODING

## Belgians Are Rounding Up Prisoners Who Fled After Setting Fire to Enemy Shells and Powder.

BRUSSELS, (AP)—A depot of German ammunition containing shells and bombs of every calibre and many gas shells has been exploding since yesterday morning at the railway station at Groenedael, six miles south of Brussels. The depot has been under guard of 150 Belgian soldiers and 500 German prisoners have been at work near it. It is believed there are many killed and wounded, but the number will not be known for several days.

Many houses in the neighborhood have collapsed and windows and roofs for two miles around have been shattered.

It is reported that while workmen were unloading a wagon filled with shells a detonator exploded in the hands of a German prisoner setting fire to the ammunition. The explosion, these German prisoners broke the barbed wire cordon surrounding the camp and fled in all directions through the woods. Only 150 have been recaptured since. The Belgian guards at the depot deepened in safety. The explosions are clearly heard in Brussels and may continue for days.

# "Fordson" Tractor

Experience has pointed to the small, light Tractor as being the one machine that will fill all varying conditions satisfactorily.

The "Fordson" is constructed to fill this condition. It is adapted for use on small farms, as well as on the largest. It will pull all farm implements and do the work generally done by horses on the farm. In addition, by its belt pulley the tractor will drive farm machinery such as a threshing, ensilage cutter, etc.

This Tractor is designed as a two-plow machine and will pull two 12-inch plows in the stiffest soil.

The fuel consumption varies with conditions; two and one-half gallons of kerosene per acre being a fair average. The amount of ground plowed also depends on conditions; eight acres in ten hours would strike an average.

Let us demonstrate to you the good qualities of the "Fordson" Tractor.

An enlightening article in the current issue of "The Nation" shows the difficulties under which the Orlando administration labors, and indicates the necessity for allowing it to "save its face" and secure some prestige in order to avert its overthrow...

According to this article the upper classes, including well to do Bourgeois, favor commercial domination regardless of the principles of self-determination. These take the lead in opposing the ideas of President Wilson and constitute the active backers of the present government...

This may account for the demand by the Italian government for more than was asked when the secret treaties were signed. Anything beyond what was then secured can be pointed out as a triumph for the administration...

concessions, the allies who opposed granting Fiume to Italy doubtless hesitated to adopt a course which might bring revolution. Hence, an effort was made to secure a compromise which would seem to be a victory for the Italian administration and which would at the same time satisfy the Jugo-Slav demands.

Whether the results will justify the expedients resorted in adjusting the matter time only can tell, but the outcome will undoubtedly extend the lease of life of the Orlando government as several apparently fortuitous events, turned to good account by the prime minister, have done in the past.

REHABILITATION OF BELGIUM

Dispatches today indicate that the spirit of the Belgians is still unbroken and that this people, crushed by years of tyranny, may be found turning to the task of rebuilding their country. They are not fully satisfied with the peace treaty, since they have failed to secure all that they have asked, but they are not discouraged.

On thing can be safely asserted; the rebuilt industrial centers will be modern in machinery and method. It will be recalled that land values in the port of San Francisco were higher after the earthquake of 1906 than before that calamity, and the reason for this was that it was recognized that the industrial plants would be built along modern lines and the productivity of the city would, in consequence, be greater than before that disaster.

A FEW REASONS

A wounded American soldier lying in a hospital in France—a bit restless and suffering occasional pangs of pain from the wounds in his chest and thigh, but mightily cheered by the news that he is going home.

An American doughboy, gripped by homesickness and a longing to get back to civilian life, patrolling his beat on the Rhine or billeted among hostile inhabitants in German cities, wondering when his outfit will get orders to pack up and sail for "God's Country."

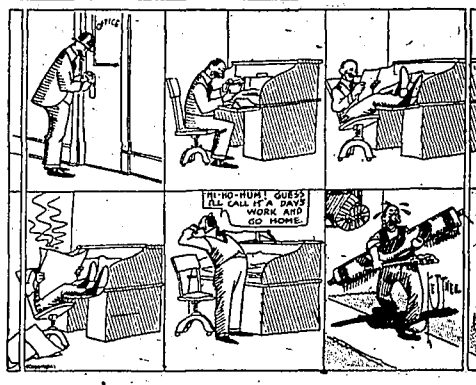

A widow with a gold service flag in the window of her cottage who will be able to live the few remaining years of her life without the necessity of being forced to work because the government pays her a monthly sum out of the life insurance policy taken by her only son before he was killed in action.

There are a few of the reasons why Uncle Sam wants you to subscribe to the Victory Liberty loan.

The ads of the stores are news-budgets. They give you facts as to what is happening in the world of merchandising—price trends and actual selling prices. You must keep in touch with store news in order to be able to judge values.

To "finance" a "To Let" advertising campaign you need only set aside—for perhaps a few days—a part of your pocket money.

Every Phase of Difficulty Between Associated Powers and Germany Settled.

(Continued from page one)

A state may withdraw upon giving two years notice. If it has fulfilled all its international obligations.

Secretary: A permanent secretariat will be established at the seat of the league which will be at Geneva.

Assembly: The assembly will consist of representatives of the members of the league, and will meet at stated intervals. Voting will be by states. Each member will have one vote and not more than three representatives.

Have Representative Council: The council will consist of representatives of the five great allied powers, together with representatives of four members selected by the assembly from time to time; it may cooperate with additional states and will meet at least once a year.

Validity of Treaties: All treaties of international engagements concluded after the institution of the league will be registered with the secretariat and published. The assembly may from time to time advise members to reconsider treaties which have become inapplicable or involve danger of peace.

How System Will Work: The Mandatory System: The tutelage of nations not yet able to stand by themselves will be entrusted to advanced nations who are best fitted to undertake it.

General International Provisions: Subject to and in accordance with the provisions of international conventions existing or hereafter to be agreed upon, the members of the league will in general endeavor through the international organization established by the labor convention to secure and maintain fair conditions of labor for men, women and children in their own countries and undertake and justify treatment of the native inhabitants of territories under their control; they will entrust the league with the general supervision over the execution of agreements for the suppression of traffic in women and children, etc.; and the control of the trade in arms and ammunition with countries in which control is every case the mandatory will render for freedom of communications and transit and equitable treatment for commerce of all members of the league, with special reference to the necessi-

ONE YEAR AGO TODAY

(May 8, 1918) Rain closed the fourth great, Teuton offensive against war-weary allies. Hun artillery hammered allied positions along the front line. Germans slowly forcing broad British and Belgians back across Flanders fields. Rumania withdraws from the war by signing peace treaty at dictation of Germany. Handicap of limited transport facilities prevents larger shipment of American troops, while allies cry, "Hurry!"

How Government is Amended: Amendments to the covenant will take effect when ratified by the council and by a majority of the assembly.

Fixing the Boundaries: Boundaries of Germany: Germany renounces all her colonies, five thousand six hundred square miles, and to Belgium two small districts between Luxembourg and Holland, totalling nine hundred and eighty-nine square miles.

Belgium Gets Her Share: Belgium renounces all her rights in the Congo and the mandate in the Belgian Congo, and to renounce in favor of Belgium all rights of the circles of Europe and Malmedy the inhabitants of which are to be entitled within six months to protect their rights of sovereignty either in whole or in part, the final decision to be reserved to the league of nations.

Renounce Luxembourg Treaty: Luxembourg: Germany renounces her various international conventions with the grand duchy of Luxembourg, recognizes that it ceased to be a part of the German Zollverein from January, first last, renounces all right of exploitation of the railroads, adheres to the abrogation of its neutrality and accepts in advance any interest agreement as to it, reached by the allied and associated powers.

Left Bank of the Rhine: As provided in the military clauses, Germany will not maintain any fortifications or armed forces less than fifty kilometers to the east of the Rhine, hold any munitions nor maintain any works to facilitate mobilization in case of violation, "she shall be regarded as committing a hostile act against the powers who sign the present treaty and as intending to disturb the peace of the world."

Government by Commission: In order to secure the rights and welfare of the population and to guarantee to France entire freedom in working the mines, the territory will be governed by a commission appointed by the league of nations and consisting of five members, one French, one a native inhabitant of the Saar and three representing three different countries other than France and Germany.

By virtue of the present treaty, Germany shall be bound to respond to any request for an explanation which the

council of the league of nations may think it necessary to address to her.

Alsace Lorraine: After recognition of the moral obligation to repair the wrong done in eighteen seventy one by Germany to France and the people of Alsace Lorraine, the territory of Alsace Lorraine by the treaty of Frankfurt is restored to France with their frontiers as before Eighteen seventy-one, to date from the signing of the armistice, and the settlement of all public debts.

Citizenship is regulated by detailed provisions distinguishing those who are immediately restored to full French citizenship, those who have to make formal applications thereto, and those for whom naturalization is open after three years. The last named class includes German residents in Alsace Lorraine, as distinguished from those who occupy the position of Alsace Lorraine as defined in the treaty. All public property and all private property of German ex-owners passes to French with the territory.

For five years-manufactured products of Alsace Lorraine will be admitted to Germany free of duty to a total amount not exceeding in any year the average of the three years preceding the war and textile materials may be imported from Germany to Alsace Lorraine free of duty for a period of five years. Contracts for electric power from the right bank must be continued for ten years.

Will Safeguard Rights

For seven years will be possible extension to the ports of Eibar and Strasbourg shall be administered as a single unit by a French administrator appointed and supervised by the central Rhine commission. Property rights will be safeguarded in both ports and equality of treatment as respects traffic assured the nationals, vessels and goods of every country. Contracts between Alsace Lorraine and Germany are maintained save for France's right to annul on grounds of public interest. Judgments of courts hold in certain cases, while in others, a judicial expropriation is first required. Political condemnations during the war are null and void and the obligation to repay war fines is established as in other parts of the treaty.

Various clauses adjust the general provisions of the treaty to the special conditions of Alsace Lorraine, certain areas of taxation being left to convention to be made between France and Germany.

France Gets Coal Mines

The Saar: In compensation for the destruction of coal mines of northern France and as payment on a loan of reparation, Germany cedes to France full ownership of the coal mines of the Saar basin with their subterranean structures and facilities. Their value will be estimated by the reparation commission and credited against that account. The French rights will be governed by German law until the present proportion of coal production is replaced by the present owners whom Germany undertakes to indemnify. France will continue to furnish the present proportion of coal for local needs and contribute in just proportion to local taxes.

The basin extends from the frontier of Lorraine as re-annexed to France north as far as the town of Wendling on the west valley of the Saar as far as Sartholbach and on the east the town of Homberg.

Government by Commission: In order to secure the rights and welfare of the population and to guarantee to France entire freedom in working the mines, the territory will be governed by a commission appointed by the league of nations and consisting of five members, one French, one a native inhabitant of the Saar and three representing three different countries other than France and Germany. The league will appoint members of the commission as chairman to act as executive of the commission. The commission will have all powers of government formerly by the German empire. France and Belgium will administer the railroads and other public services and have full power to interpret the treaty.

The local courts will continue, but subject to the commission. Existing German legislation will remain the basis of the law, but the commission may make modification after consulting a local representative assembly which will organize. It will have the taxing power, but for local purposes only. New taxes must be approved by this assembly.

# HERE TO HELP IN BUILDING UP POULTRY GAME

### Pren Moore of State University Extension Department, Returns to County to Work with Farm Bureau Leaders.

Pren Moore, poultryman of the state university extension department, arrived here Tuesday to spend an indefinite time in Twin Falls county, devoting the remainder of this week in meetings and consultations arranged by Miss Hannah M. Spence, county club leader, and next week in pursuance of a schedule arranged by Mrs. C. H. Brown, county home demonstration agent.

While here Mr. Moore will give further culling demonstrations with a view to assisting poultry owners in elimination of their unprofitable fowls, and in several instances will check up on the results of culling advised by him on previous visits to the county.

In pursuance of the schedule arranged by Miss Spence, Mr. Moore will speak at a meeting at 2:30 o'clock this afternoon at the Miller high school and this evening at 8:30 o'clock will meet with club members and their parents at a community social at Murtaugh.

On Thursday he will spend the day in the west end of the county, speaking at the Buhl high school at 10:30 o'clock in the forenoon and meeting with poultry club members of the west end in the afternoon.

He will attend meetings on Friday at Mountain View at 10:30 o'clock in the forenoon, and at Curry at 2:30 o'clock in the afternoon.

## Local Brevities

Back from New York—Mark M. Murrigh returned Tuesday from New York where he spent five months on a business and pleasure trip.

Returns from Iowa—J. E. DeWitt, who accompanied the remains of the late George B. Holmes to his former home in Iowa, returned Tuesday to Twin Falls.

Leaving for Coast—Miss Mary Bailey who has made her home in Twin Falls for a number of years past, is planning to leave soon for California, where she will remain.

End Visit Here—Mr. and Mrs. Frank Booth of Wenatchee, Wash., who have been visiting Mr. Booth's mother for the past two weeks, returned home on Tuesday evening.

Return to Jarbidge—Mr. and Mrs. F. E. Barry, E. A. Austin, Mr. and Mrs. J. W. Perry and C. W. McPherson of Jarbidge who have been here for several days returned home yesterday.

Expects a Guest—C. D. Thomas left on Tuesday evening for Thermopole, Wyo., where he has extensive oil interests. He is expecting to find a satisfactory new well by the time he arrives.

Service Man Returns—Matthew Bishop has recently returned from seven months service overseas with the 148th division. He is the son of Mrs. Agnes Bishop of Curry. Mrs. Bishop had one other son, Michael, who died overseas.

At District Meeting—J. W. Jesse, William Baker and Mr. E. Harper left last night for Pocatello where they will attend a district meeting of the Metropolitan Life Insurance company. Representatives from New York will speak at the conference.

Meets with Directors—Judge E. A. Walters returned Tuesday evening from Dillon, Mont., where, with E. E. Shephard of Jerome, manager of the North Side project, he spent several days in attendance at a special meeting of the board of directors of the Twin Falls North Side Land & Water company.

On Extended Trip—Mrs. E. J. Ostrander left Tuesday morning for an extended trip to the east. She will visit in Chicago and later join her daughter, Miss Beatrice, in New York, and they will attend Wellesley commencement before returning to Idaho the latter part of June.

Sounds Bad—Capt. W. B. Clark, a former member of the Twin Falls high school faculty and an officer now of the coast artillery corps, a patient at an army hospital at Fort McDowell, Ga., suffering from "a rather tenacious staphylococcal osteomyelitis of the jaw," according to word received Tuesday by friends here.

Plans Trip Abroad—Mrs. E. L. Bush, who has spent the winter with her daughter, Mrs. Earl Provost, left on Tuesday morning for Topoka, Kan., where she will visit her son and daughter. As soon as possible, Mrs. Bush hopes to secure a passport to join her son who is in overseas service and together they will visit in England, Mrs. Bush's former home.

Mrs. T. H. Mills of Elber came here on Tuesday. She will be the guest of her daughters, Misses Frances and Zelma.

Mrs. J. A. Smith of Buhl, who has been visiting her mother, Mrs. C. A. Idea for the past week, returned home last night.

resources to the rebuilding of the devastated regions.

## Must Accept Pre-war Status of Countries

She agrees to return to the nineteen fourteen most favored nation tariffs, without discrimination of sort; to allow allied and associated nations freedom of transit through her territories, and to accept highly detailed provisions as to pre-war debts, unfair competition, internationalization of roads and rivers, and other economic and financial clauses. She also agrees to the trial of the ex-kaizer by an international high court for a "supreme offense against international morality and of other nations for violation of the laws and customs of war. Holland is to be asked to extradite the former emperor, rious commission for responsible for delivering the latter.

## No Membership to League of Nations

The league of nations is accepted by the allies and associated powers as operative, and by Germany in principle, but without membership. Similarly an international labor party is brought into being with a permanent office, and an annual convention. A great number of international bodies of different kinds and for different purposes are created, some under the league of nations, some to execute the peace treaty, among the former is the commission to govern the Saar basin till a plebiscite is held fifteen years hence; the high commissioner of Danzig, which is created into a free city under the league, and a series of bodies for plebiscites in Malmody, Schleswig and East Prussia; among those to carry out the peace treaty are - the reparations, military, naval, air, financial and economic commissions; the international high court and military tribunals to fix responsibilities; and a series of bodies for the control of international rivers.

## Certain Problems Left for Solution

Certain problems are left for solution between the allied and associated powers, notably details of the disposition of the German fleet and cables, the former German colonies, and the values paid in reparation. Certain other problems such as the laws of the air, and the opium, arms and liquor traffic are either agreed to in detail or set for early international action.

ly. Labor legislation will consist of the wishes of the local labor organizations and the labor program of the league. French and other labor may be freely utilized, the former being free to belong to French unions. All rights acquired as to pensions and social insurance will be maintained by Germany and the Saar commission. There will be no military service, but only a local gendarmerie to preserve order. The people will preserve their local assemblies, religious liberties, schools and language, but may vote only for local assemblies. They will keep their present nationality except so far as individuals may change it. Those wishing to leave will have every facility with respect to their property. The territory will form part of the French customs systems, with export tax on coal and metallurgical products going to Germany nor on German products entering the basin and for five years no import duties on products of the basin going to Germany or German products coming into the basin for local consumption. French money may circulate without restriction. After fifteen years a plebiscite will be held by communes to ascertain the desires of the population as to continuance of the existing regime under the league of nations union with France or union with Germany. The right to vote will belong to all inhabitants over twenty years of age at the date of signature. Voting into account the opinions thus expressed, the league will decide the ultimate sovereignty. In any portion restored to Germany the German government must buy out the league at an appraised valuation. If the price is not paid within six months thereafter this portion passes finally to France. If Germany buys back the mine, the league will determine how much of the coal shall be annually sold to France.

German-Austria. Germany recognizes the total independence of German-Austria in the boundaries traced. Tehecho Slovakia. Germany recognizes the entire independence of Tehecho Slovak state, including the autonomous territory of the Ruthenians south of the Carpathians, and accepts the frontiers of this state as to be determined, which in the case of the German frontier shall follow the frontier of Bohemia in 1914. The usual stipulations as to acquisition and change of nationality follows.

Gives Territory to Poland. Poland: Germany cedes to Poland the greater part of upper Silesia, Posen and the province of West Prussia on the left bank of the Vistula. A field boundary commission of seven—five representing the allied and associated powers and one each representing Poland and Germany—shall be constituted within 15 days of the peace to delimit this boundary. Such special provisions as are necessary to protect racial, linguistic or religious minorities and to protect freedom of transit and equitable treatment of commerce of other nations shall be laid down in a subsequent treaty between the five allied and associated powers and Poland.

Establish Frontiers. East Prussia: The southern and the eastern frontier of East Prussia as Succing (word obscured) Poland is to be fixed by plebiscite, the first in the regency of Allenstein between the southern frontier of East Prussia and the northern frontier of Regierungsbezirk Allenstein from where it meets the boundary between East and West Prussia to its junction with the boundary between the circles of Oletzko and Angerburg, hence at the northern boundary of Oletzko to its junction with the present frontier, and the second in the area comprising the circles of Stuhm

## ATTEMPTS TO REGULATE ASSESSMENT ON DRINKS

### Near Beer and Such Beverages Are Made Taxable Under New Measure.

WASHINGTON, (AP)—Regulation for administration of the fifteen per cent tax on "near beer" and other beverages made of cereals, and the ten per cent tax on manufacture of soft drinks, provide that the assessment is against the original manufacturer in the case of near beer, even though he sells to another concern which bottles and sells the product. If the beverage is subjected in the process to any re-making, sales by the second manufacturer also are taxable. The tax is on the manufacturers' price, not the retail price.

The tax on soft drinks, as differentiated from soda fountain products is on unfermented grape juice, ginger ale, root beer, pop, artificial mineral waters, apple juice, loganberry juice and other fruit juices. The tax is paid by the manufacturer and these articles are exempt from soda fountain taxes.

TWIN FALLS MAN HAS RECORD AS HORTICULTURIST

James A. Waters Uses Two Small Trees as Starting Point in Working Over Orchard to Change Crop Grown.

Probably no Idaho horticulturist in the past year with smaller beginnings, has accomplished more extensive propagation by means of budding and grafting...

With grafts and buds taken from two small trees of this variety purchased at a cost of \$2.50 each last spring he has worked over 250 trees in the orchard...

Purpose of change? Outside of 15 trees of other varieties which have not been worked over, Mr. Waters has converted his entire orchard into trees either the original Delicious or the golden Delicious varieties...

Advantages of Method The advantages of grafting or budding over budding with trees of the same variety and replacing them with another are that the grafts or buds will produce a crop in three years as against seven years required for bringing new trees into bearing...

Save Damaged Trees Since disposing of his nurseries some years ago Mr. Waters has devoted his attention almost entirely to the improvement of his own orchards and those of other orchardists of the Twin Falls country...

SENIOR DAY WAS EVENT OF YEAR

Splendid Program Given by Graduating Class of 1919 Impressive.

The Senior class day was the most successful class event of this year. The Seniors appeared in school this morning dressed in overalls patched in black and red gold on the part of the boys while the girls looked most attractive in aprons and caps which were decorated in the Senior colors.

Between those stunts the Seniors sang songs of their class. The class prophecy, will, history and poem were read, were more cheered than such things usually are as was shown by the hearty appreciation of the audience.

The lunch was served in picnic style on the gymnasium. In the evening the Seniors met for dinner in the cafeteria. After dinner Miss Brown acted as toastmaster during the program. Toasts were responded to by The Honorable Oscar Newman, Gladys Channell, Ralph Glasgow, Lunetta Smith, Marjorie Cox, Thelma Banks, Gilbert Schade and Vaughn Price.

Social Notes

Miss Alice Taylor and Miss Edith Dygert took the scholars of their two rooms in the Washington to the city park for luncheon on Tuesday. The party was given the picnic to the greatest extent.

The teachers of the Washington school will entertain the members of the faculty at breakfast in the Rogerson cafe at 9 o'clock on Saturday morning. This is the fourth and last of a series of parties to be given by the teachers of the various buildings.

Miss Phoebe Bowman entertained at a dinner party on Sunday evening. Spring flowers were arranged. The guests were Misses Ruth Wright, Gladys Smith, Lunetta Smith, Esther Campbell, Sidney Hooper, Joe Arnold, Fritz Larson, Edna Armstrong, Ruth Smith, Ralph Bowen and La Grande Jones.

Mr. M. O. Mitchell entertained a few friends on Tuesday afternoon at her home on Park avenue. The afternoon was spent in sewing and conversation. The hostess served a dainty two course luncheon at the close of the afternoon. The guests were yellow and white. Spring blossoms formed the center piece. The places were marked by yellow and white nut-baskets, place cards in the same dainty colors. The guests were Mesdames L. E. Salladay, W. H. Eldridge, Frank Brounagh and A. R. Scott.

To Remove Paint. Paint stains that are not fresh and have not entirely hardened can be softened by moistening them with ammonia and sprinkling them with a little turpentine. Roll the fabric up for fifteen or twenty minutes or soak it for several hours if necessary and then wash it with warm water and soap and hang it out in the air to remove the turpentine odor.

Tight Lacing. A New York lady while visiting in the West had some experience with a corset. While asleep at a friend's home she was awakened by the lady pulling at the corset by a rather. It was supposed she was crushed, but when they dug her out she opened her eyes and sleepily murmured: "Jane, I feel a little uncomfortable; unfasten my corset."

IDAHO WOULD REACH QUOTA BY EVENING

Chairman Wires Reserve Headquarters That State Will Be Over Top Wednesday and Great Efforts Are Being Made.

(Special to The News) BOISE — Desperate efforts are being made throughout Idaho to finish the state's quota on Victory bonds by Wednesday night and with second place reserve. Butte county reported across the top Tuesday with an over-subscription. Wednesday afternoon and night particularly all counties will observe as a business holiday and a concerted effort be made to finish the loan.

Chairman Gwinn has wired Acting Governor Calkins of the twelfth reserve assurance that Idaho will make good. Chairman Gwinn based his optimistic message on pledges of chairmen of the counties in Idaho with one or two exceptions all have definitely promised to make good. "We will register 100 per cent on Victory bonds," Mr. Gwinn said tonight. "Just as we have recorded full performance in all other bond issues. Idaho cannot fail. The spirit of patriotic devotion to national duty is too deeply rooted in the hearts of her people to permit that result. Every county in Idaho will register its full quota of Victory bonds subscriptions."
