PRICE FIVE CENTS

TERMS UNACCEPTABLE DECLARES CHANCELLOR SCHEIDEMANN WHILE GERMAN ASSEMBLY AND GALLERIES CHEER WILDLY

RESPONSIBILITY CLAUSE IN THE AUSTRIAN PACT

Identical with German Provision Except That Provision for Trial of Emperor is Omitted.

TYROLESE BOUNDARY PRESENTS DIFFICULTY Drawn to Give Strategic Advantage to Italy It Leaves Quarter Million Germans to Italian Control.

PARIS. — In the peace treaty with Austria, now well toward completion, a responsibility clause has been inserted identical with that in the German treaty with the exception that the first clause, providing for the trial of former Emperor William, is omitted. The remaining clause makes provision for the trial of military offenders by an international court martial.

Delimitations of Frontier. The frontier delimitation of the new Austria presents the most serious issue in the drawing of the treaty, somewhat similar to that of the Sorve valley in the German treaty. This is as regards the lower Tyrol, a section of which is detached from Austria and placed within the boundaries of Italy. It includes the cities of Bozen and Merano, and an estimated German population of about 250,000.

Presents Difficulty. The reason for attaching this German speaking population to Italy is the establishment of a strategic frontier giving Italy adequate protection from invasion from the north. The old frontier ran south of the Alps, with Italy on the down slope and Austria on the commanding heights. The new frontier reverses this, giving Austria a narrow strip of approach, while Italy possessed only one main line for mobilizing its defenses. The new status places all these lines of approach under Italy.

In Secret Pact. As has been stated, the frontier line as drawn in the terms to be presented to the Austrians is the one laid down by the treaty of London, although the treaty makes no mention of this fact. Italy sought this line as a permanent strategic defense, secured its insertion in the armistice terms and now secures its incorporation in the treaty.

COTTON DEALERS ORGANIZING FOR EXPORT TRADE

Hundred Million Dollars Payable in Liberty Bonds Will Be Capitalization.

NEW ORLEANS, (AP)—The proposed plan of organization for the American export financing corporation, a pool of export producers and dealers for export trade, as made known here today at a conference of cotton interests, provides for a corporation capitalized at \$100,000,000, to be paid largely in Liberty bonds.

Finn Minister Recognized by United States

Arrives Today to Learn That He Will Be Accepted as Representative.

NEW YORK, (AP)—Armas Saastamoinen, designated by the Helsinki government to represent it in Washington, arrived here today with his family and two secretaries aboard the steamship Frederick VIII from Copenhagen. He learned at the stevedore's office that Secretary Lansing in Paris on May 7 announced that the United States officially recognizes the independence of the de facto government of Finland and that, in consequence, he would be its duly accredited minister in Washington. Mr. Saastamoinen expected to leave at once for the capital.

OLD TROUBLE IS CLEARED UP IN FINAL FINDING

Committee says Nobody in Particular to Blame for Resignations of Sisson and Brannon.

(Special to The News) BOISE—After over a year's investigation and deliberation, the committee appointed by the Congress of Motives of this state to investigate the causes for the resignation of Walter S. Brannon and resignation from the state board of education, and of E. O. Sisson, commissioner of education and Dr. O. H. Brannon, president of the University of Idaho, has filed its report. Politics were charged as injected into the issues that led to these resignations on the part of Mr. Brannon and Mr. Alexander, then governor. The committee is composed of Bertha Stull Green, Irwin E. Rockwell, I. W. English, Allen B. Eaton and George N. Curtis. It is held that President Brannon engaged in controversy that was not "colorful or dignified"; the board of education acted wisely in accepting the resignation of both Dr. Sisson and President Brannon; that there is no direct evidence that Mr. Alexander as governor appointed three new members to the board of education solely to the end that "his own personal prejudices in the matter of the educational institutions might be carried out promptly and unquestionably."

WORLD NEWS EVENTS

OADIZ, Spain, (AP)—Warehouses with two million kilograms of tobacco were destroyed by fire here yesterday.

TETUAN, Morocco, (Havas)—Two aviators were killed here Monday in the fall of their airplane. Both were captains in the Spanish army.

WASHINGTON, (AP)—President Wilson cabled Secretary Tamm today asking him to convey congratulations to Secretary Glass on the success of the Victory Liberty loan.

LAS PALMAS, Canary Island (Havas)—Four people were killed in the earthquakes which shook the island of Fuerteventura several days ago. The bulk of the population of the island has fled. Relief measures have been undertaken.

PARIS, (AP)—Sir Robert Borden, the Canadian premier, is returning to Canada, according to Reuter's Limited, because the political situation there is said to require his presence. Sir George E. Foster probably will take Sir Robert's place as head of the Canadian delegation.

PHILADELPHIA, (AP)—The battleship Kansas, having on board the 147th infantry of South Dakota, passed in the Delaware capes at noon today. The men will disembark in Philadelphia about nine o'clock tonight. Governor Peter Norbeck of South Dakota and a welcoming committee from that state are here to greet the home-coming soldiers.

WASHINGTON, (AP)—Contracts for at least five hundred airplanes of the very latest types would be awarded American manufacturers under plans prepared by the army air service and sent to Secretary Baker today for his consideration. The primary purpose would be to keep the industry in such condition as would insure its rapid expansion to meet the requirements of a national emergency.

REPUBLICANS TO POSTPONE FIGHT ON LEADERSHIP

To Defer Action with a View of Settlement That Would Avoid Split in Ranks of Party

PRESIDENT PRO TEM GOES TO INSURGENTS

Leaders of All Groups Express Belief That Matters Would Be Adjusted by Monday So Organization Could Proceed.

WASHINGTON, (AP)—In arranging today for the organization conference of republican senators tomorrow, leaders planned to postpone action on the contest over the proposed election of Senators Foran and Bennett, secretary and Warren, of Wyoming, as chairman of the Finance and appropriations committees, respectively.

Senator Lodge of Massachusetts, the republican leader, said only routine business was planned. This will include selection of a candidate for president pro tempore of the senate, election of the chairman, secretary and whip, authorization of a steering committee and a committee on committees, to be appointed by the chairman, and selection of senate officers, including the secretary and sergeant at arms.

Lodge Unopposed. Senator Lodge was said to be without opposition for re-election as the conference chairman, and it was expected that Senator Curtis of Kansas, will be selected whip and Senator Wadsworth of New York secretary.

Choice of a president pro tem was a subject of numerous conferences today and it appears probable that the office would go to one of the senators affiliated with those opposing Senators Foran and Warren.

Await Appointments. Differences over the selection of Senators Foran and Warren as committee chairmen, according to prominent party leaders, will await appointment of the committee on committees and its report at a conference later this week.

Leaders in all groups in the party expressed belief today that with subsequent conferences this week the republicans would be ready to proceed with organization when the senate convenes Monday.

FORMER MEXICAN MINISTER ARRIVES

NEW YORK, (AP)—Pedro Lascurain, formerly minister of foreign affairs of Mexico under Madero, arrived here today with his family aboard the Ward line Monterey.

England Agrees to Pay Large Sum to the United States

Differences in Matter of War Material Production Adjusted.

WASHINGTON, (AP)—Officials of the war department explained today that the agreement between the United States liquidating commission and representatives of the British government whereby Great Britain will pay to the United States \$25,500,000 as a final net settlement had to do with final outstanding claims each government had against the other in the production of war materials in the United States and abroad.

Other Bills Due. The agreement does not take into consideration the accrued obligations of the United States for transportation and supplies in British bottoms nor does it include various other co-operative efforts. Separate settlements are to be reached on each of these questions.

German Plan of Settlement Has Many Articles

Exhaustive Document Covers Many Issues Under Numerous Heads.

PARIS, (AP)—The German plan for a league of nations submitted by the German delegation at Versailles and now in the hands of the peace conference committee on the league of nations to which it was referred, contains 60 articles, together with a supplement setting forth the charter for an international labor league. The special aims of the league of nations devised by the Germans are set forth as follows:

- A—Prevention of international disputes.
- B—Disarmament.
- C—Securing freedom of traffic and general economic equality of rights.
- D—Protection of national minorities.
- E—Creation of an international workers charter.
- F—Regulation of colonial questions.
- G—Unity of existing and future international institutions.
- H—The creation of a parliament.

Another provision of the draft reads: "The league of nations shall comprise (a) all belligerent states taking part in the present war; (b) all neutral states included in the Hague arbitration league; (c) all others to be admitted by vote of two-thirds of the existing members. Entrance is reserved to the Holy See."

SHOTS FIRED ON BALLOON WHILE FLOATING HIGH

Four Shots Out of Fifteen Penetrate Bag; All Contestants Reach Ground Unharmed; Weather Was Cold.

AKRON, Ohio, (AP)—All seven of the balloons which left the naval flying field here Sunday afternoon in the first balloon race have made safe landings along the Atlantic, according to word received this morning. The Cleveland entry, the Sherwin-Williams balloon, of which Lieut. Richard Towarth is pilot, was fired upon fifteen times, near Beaver, Pa., but managed to effect a safe landing five miles south of Wilkensburg, Pa. Four bullets pierced the gas bag.

Down in Delaware. The Goodyear balloon, which carried C. W. Seiberling, millionaire rubber manufacturer, made a safe landing on the Atlantic coast near Millsboro, Del. Other balloons were reported to have landed at various places in Delaware, New Jersey and Maryland. Snow and low temperatures were reported by all of the balloons.

Records of flights were not available this morning and the winner will not be announced until these are tabulated.

PEACE NOT TIDAL WORD SAYS AUSTRIAN LEADER. BASLE, Switzerland, (AP)—The peace which Austria would make would not be the final word, Dr. Karl Renner, the Austrian chancellor declared to a crowd of demonstrators outside the city hall in Vienna, says a dispatch from that city.

IDAHO WEATHER. Tonight fair and warmer; Wednesday probably rain.

INDEPENDENT SOCIALISTS ALONE FAVOR RATIFICATION OF TREATY

Denunciation of Treaty Terms by both Ebert and Scheidemann Accepted as Indicating That Signature Will Be Withheld; Berlin Continues Efforts to Delay Final Issue.

CONFERENCE KEEPS TAB ON MOVES OF HUN DELEGATION AND ENTOURAGE

BERLIN, (Monday). — The declaration by Chancellor Scheidemann in the national assembly today that the peace terms were "unacceptable" brought the members of the assembly, the spectators and those in the press gallery to their feet in a hurricane of cheers and applause.

INTERNATIONAL GOES ON RECORD AGAINST LEAGUE

Socialists Denounce Peace Terms and Covenant of Nations in Public Statement Issued in Paris.

SIGNED BY LEADERS OF BERNE CONFERENCE

Oppose Cutting Down of German Armament Without Similar Provision for Reducing War Preparation of Victors.

PARIS, (AP)—The league of nations covenant was described as a league of governments and executives rather than of peoples and parliaments, in a statement issued by international socialists last night criticizing the peace terms and the covenant. It is declared that the covenant seems to be the instrument of a victorious coalition dominated by five great powers rather than an organ of international justice on which all nations ought to find a place. The statement is signed by the following socialists who were appointed by the Berne labor socialist conference to make a study of the covenant and the treaty: Hjalmar Branting, Sweden; Camille Huysmans, Belgium; Arthur Henderson, J. Ramsay MacDonald and C. M. Stuart Bunting, of Great Britain; and Pierre Renaudel and Jean Longuet, of France.

Failure to include Germany and Russia in the league of nations, the statement asserts, must be righted speedily if the league is to be made effective for preventing war. The limitation of German armament without application of restrictions to other nations also is criticized, and it is stated that the labor world is called to the danger resulting from the establishment of the boundaries of Poland, which, it is held, does violence to the rights of people to choose their political allegiance, and by separating German states into two separate parts.

Opposed to Japan. The callous handling over of Shanghai with its resources and forty million to fifty million Chinese, to Japanese economic control cannot be passed over in silence, the statement says.

Regarding the Sarre valley, the statement recognizes the justice of Germany being obliged to furnish France and Belgium with coal and compensation for the destruction of mines, but asserts a suspicion that the arrangements for the administration of the district conceal aims for dismemberment.

Says Italy Did Wrong. The disposal of the German colonies is regarded by the socialists as "imperialism satisfying itself with the spoils of war." The statement concludes:

"This peace is not our peace. The nations are still menaced by the policy of the victors in sharing the spoils without thought of the inevitable consequences."

HIGH SEAS DEFERRED FROM STARTING. CHATHAM, (AP)—Weather conditions this morning were still unfavorable for flying and officers at the naval air station here said there was no likelihood that the hydro-airplane NC-4 would resume its trans-Atlantic flight today. The NC-4 which started from the Rockaway with the NC-3 and NC-1 now at Trepener, N. F., was compelled by engine trouble to put in at this station last Friday. High seas were reported.

With the exception of the independent socialists, led by Hugo Haase, all factions in the assembly arose and cheered vociferously. The assembly is sitting temporarily in the assembly hall of the University of Berlin on Unter Den Lyden.

The chancellor reached the climax of his statement on the peace terms ten minutes after he began. The chancellor paused in his address and then thundered out the word which announced the German government's rejection of the Versailles conditions.

After the chancellor's speech the leaders of the various parties, with the exception of the Haase group, made speeches in which they declared they backed up the government.

The chancellor described the peace treaty as a "dreadful and murderous" document. He said it would make an enormous jail of Germany in which sixty million persons would have to labor for the victors in the war. The chancellor said German trade would be strangled should the peace terms be accepted.

He criticized President Wilson and said that the president by his attitude had deceived the hopes of the German people.

PARIS ADVISORY SUMMARY. Paris advice today indicate brighter prospects for a solution of the Italian problem, which is a pressing one now that the peace conference on the eve of receiving the Austrian delegates. The Austrian peace delegation is on the way to Paris, some members of the mission being already in France.

In Chancellor Scheidemann's statement the possibility of a new government taking office in Germany was discussed, but the chancellor declared it was doubtful whether the formation of a government which would sign the peace terms would be ultra-radical in character.

Solution Is Nearer

PARIS, (AP)—The Italian problem seemed nearer solution when today's conference began among the allied representatives here and it was thought probable that a basis of understanding would be reached during the day.

The Italian representatives are reported to be evincing more of a willingness to make concessions. The discussions of the day began when Premier Deland called this afternoon upon Col. E. M. House of the American delegation.

The council of four held no meeting during the morning. No further communications had been received from the German representatives and the experts to whom the last notes from Count von Brockdorff Rantzau had been referred had not yet reported.

To Receive Page. This afternoon President Wilson will receive Thomas Nelson Page, the American ambassador to Italy, in connection with the Italian question.

The Italian representatives have resumed complete participation in the peace negotiations by appointing a member of the liaison commission controlling all communications with the German delegation.

HINDUS MIKE IN MYSTERIOUS WAY FROM CENTRO

Leave Cotton Fields of Imperial Valley After Visit of Their Native Priests.

EL CENTRO, Cal., (AP)—Hundreds of Hindus who have been employed picking cotton and at other tasks on Imperial Valley farms, have mysteriously disappeared. Several large colonies have been depleted and the few remaining Hindus are the who have had visas which do not expire for several months.

Observers of conditions in the valley believe the concerted exodus was the result of orders transmitted by native priests who have labored among the Hindus for several months past. A score of laborers are known to have departed for jobs in Salt River Valley in Arizona but the destination of others who left or the reason for the exodus is unknown.

Native Priests Come

Several months ago, local residents saw a native priest appear in the Hindu colonies here and at Imperial, Cal. These priests held services for their countrymen, which they told valley people were for the purpose of teaching them Americanism. They soon disappeared, quietly and without any announced destination.

Soon the Hindus in the valley, even those who could read no English, started purchasing copies of a coast daily paper. Often as many as 300 copies of this paper would be sold in one day, where the market before never exceeded 50. As soon as the buying started, it stopped, and the buying ceased.

That a cryptic message of some sort was conveyed through this daily newspaper, advising the Hindus to leave the valley, or perhaps calling them to work—where they would be paid higher wages, is the only theory advanced for their strange action.

Mrs. Wilson Shows Interest in Boys

Wife of President Active in Enhancing the Comfort of American Soldiers.

PARIS, (Correspondence of The Associated Press)—Mrs. Woodrow Wilson is showing much interest in the welfare and comfort of American soldiers on leave in Paris. Recently she visited the American Red Cross tent city on the Champs de Mars where accommodations have been established for 1000 of them.

The wife of the president made a thorough tour of the Red Cross camp, making inquiries of the Red Cross women concerning the preparation of the food and the method of serving. When a canteen loaded with fresh, warm apple pies arrived from a Red Cross kitchen Mrs. Wilson sampled the pastry.

Given a Bouquet.

During her tour a bouquet of flowers tied with the French national colors was presented to Mrs. Wilson. A French soldier with an armless sleeve but a happy smile, made a touching speech. Mrs. Wilson carried the flowers in her arms during the remainder of her visit. She showed an enthusiastic interest in everything, giving special praise and commendation to the recreation huts, where dances are held, the reading and writing rooms, and the arrangement of the fifty large canvas dormitories.

Mirror History.

In the early part of the sixteenth century mirrors first became articles of household furniture and decoration. Previous to that time—from the twelfth to the end of the fifteenth century—pocket mirrors or small hand mirrors, carried at the girdle, were accessories to ladies' toilettes. The pocket mirrors consisted of small circular plaques of polished metal fixed in a shallow circular box covered with a lid.

If there's a better value to be had at the same cost, that is important to you. If you study the ad you will ascertain facts of this kind.

RELEASE OFFICERS SERVING TEMPORARILY

Those in Navy for War Period Will Get Out in Short Time.

WASHINGTON, (AP)—All temporary officers who entered the navy for the war period only will be released within the next few weeks, Acting Secretary Roosevelt announced today. There are more than 10,000 in this status and they will be replaced by reserve officers who are accepting temporary commissions with the agreement to remain in the service until six months after peace is declared.

COLOMBIA HAS BUILDING BOOM

Railroads, Municipal Improvements and Other Constructive Works Under Way.

WASHINGTON, (AP)—Reports reaching Washington through official channels indicate that a great amount of work is being done in the republic of Colombia. Many cities have inaugurated municipal improvements, railroads are being extended and new lines surveyed, terminal facilities in harbors are being enlarged and many new enterprises started. The federal government is offering incentives to new state enterprises and is supporting various movements undertaken by the state governments.

BEEF AND BACON ARE SOLD BY NATION

Impossibility of Exporting Caused Government to Change Its Plan of Procedure.

WASHINGTON, (AP)—A method of disposing of about 100,000,000 pounds of beef and more than 50,000,000 pounds of bacon included in the surplus food stocks of the army has been agreed upon between the war department and representatives of the packing industry. The department announced today that it had accepted the recommendation of the packers that the goods be disposed of for export to relieve the food situation in Europe, but that should this be impossible, the director of sales would control the sale in this country, fixing the price and method of distribution with the packing industry acting as an agent.

Two Year's Production

The main products equal a normal production of over a period of two years. To place this quantity of packed meats on the market at this time, the department's announcement said, would seriously affect prices on both canned and fresh meats.

MEXICAN GENERALS IN HUMBLE WALKS

Serve Now as Drivers of Cabs and as Small Storekeepers

EL PASO, Texas, (AP)—Col. Federico Cervantes' statement on the witness stand in federal court, during his trial on a filibustering charge, that he had been driving a jitney bus in El Paso, was another instance of how prominent and powerful leaders in Mexico were forced to seek any employment possible when driven from their country by its revolutionaries.

Don Casco Lopez, once famous in the Diaz and Huerta military establishment, operates a little, adobe front grocery in the Mexican quarter. Don Juan Ponce de Leon, once brilliant in his uniform as jefe of the police in Juarez, is a night watchman at the electric power plant. General Francisco Castro, former military dictator of a north guards another building at night.

To "finance" a "To Let" advertising campaign you need only set aside for perhaps a few days—a part of your pocket money.

Financial Irrigation

The Federal Reserve System is a great financial irrigation system.

From its twelve great reservoirs (or Federal Reserve Banks) member banks can always get funds to loan to customers during the money drouth before crops are harvested.

UKRAINIANS ASK LINE PROBING

Statement Issued Requesting Investigation of Claims by Allied Countries.

STANISLAU, West Ukraine (Correspondence of The Associated Press)—The West Ukrainian government recently issued a statement asking that a new allied mission come here to study the question of the boundaries between Poland and the Ukraine dispute over which leads to fighting between the Poles and Ukrainians in the possession of the Ukraine and the oil fields nearby. The Ukrainian government also protested against the action of the inter-allied mission for blaming the Ukrainians for resuming the fight against the Poles. It is pointed out by Ukrainians that the mission should have exercised its influence to induce the Poles to retire from the disputed territory. It is thought here that the only way of stopping hostilities would be to clear the disputed region of both Polish and Ukrainian troops and to neutralize the whole of the Ukraine, including the fixing of the boundaries would be the work of many months.

Armistice Proposed.

The armistice proposed by the inter-allied mission which visited the Ukrainian headquarters in the latter part of February and came back to Bukovina, Ukrainians back on a line running from Kaminiano to Halicz and thence westward to Dolina. Even had the Ukrainian leaders been willing to accept such a line, it is stated that they would have disgraced themselves in the eyes of their own countrymen, lost their influence if not suffered personal violence.

From the statement issued by the Ukrainian government it appears that the Ukrainians have little confidence that they would recover territory if yielded at the request of the allies.

Against Poles.

The Ukrainian assembly in January last voted to cast its lot with the Russian Ukraine instead of joining the Poles. The assembly was influenced by the arguments of the Ukrainian Ukrainians would be a rich state if it secured the zinc city of Lemberg as a capital and particularly if it could obtain the oil region near Lemberg.

The Ukrainians hope to make their country one of the most wealthy and prosperous and say this is possible in view of the wonderful black soil of the Russian Ukraine which long has been famed as a wheat and sugar growing country.

Warm Springs in an Alaskan River

Rift Appears Early in Susitna and Closes Very Late.

ANCHORAGE, Alaska, (AP)—Government railroad engineers making soundings for a bridge across the Susitna river 151 miles north of Anchorage have determined that warm springs underlie a part of the river. In the ice of the river early in the spring of each year a rift about 1000 feet long and 25 feet wide occurs, they report, and this open stretch of water does not close until the freezing weather of the following winter. The rift in the ice precedes by nearly two months the movement of ice from the the lower stretches of the stream.

BORAH WARNS LEADERS REVOLT IS IMMINENT

Formal Notice Given Lodge That Fight Will Be Carried to Floor.

WASHINGTON, (AP)—Senators Borah, of Idaho, and Johnson, of California, formally notified republican Leader Lodge today that eight republicans, regarding as representing the progressive group of the party, were opposed to the election of Senators Penrose of Pennsylvania and Warren of Wyoming, as chairman of the finance and appropriations committees respectively, and that, if necessary, a majority of them were willing to record their opposition on the floor of the senate. It was understood, however, that Mr. Lodge told Senators Borah and Johnson that the matter was one for consideration of the republican conference to organize the senate, which will be held Wednesday.

Immediately after today's meeting, Senators Borah and Johnson called a conference of senators for late today to discuss the situation. Those invited to attend included Senators Konyon and Cummins, Iowa; Jones, Washington; McNary, Oregon; McCormick, Illinois, and Norris, Nebraska.

SHIP BUILDING HITS A VERY SWIFT PACE

WASHINGTON, (AP)—Shipbuilding this year has continued the fast pace set during the war. The shipping board has announced that from Jan. 1 to May 7 American yards turned out 204 steamers of 76,000 gross tons, all except 36 of which were of steel construction. April was the banner month the total deliveries being 93 ships of 229,239 gross tons, an increase of 57,000 tons over the record set last October.

WANT ENGLISH TAUGHT IN ALL THE SCHOOLS

WASHINGTON, (AP)—Teaching English to the foreign born was the principal theme of the Americanization conference which opened a four-day session today under the auspices of the bureau of education of the interior department. Commissioner of Education Claxton announced the policy requiring the teaching of English in parochial schools, in a speech on "Education in Americanization."

EUGENE MAN BORN OF TOMBSTONE BY MISREANT

EUGENE, Ore., (AP)—For many years, E. C. Lake, a Eugene marble worker, has had no door to his salerooms, as he thought no one would steal tombstones. Today he reported to the police that a headstone had been stolen. It was a stone without marking, and Lake said he believed the person who took it was preparing for the future decoration of his own grave.

INQUEST HELD OVER SHOOTING

PORTLAND, Ore., (AP)—Inquest into the shooting of Mrs. Edna Tuck, 31, who died of a gun shot wound through the heart will be held here tonight, Coroner Smith announced. Police have arrested Eugene Tuck, husband of the dead woman, and Mrs. Marie Middleton, a lodger in the Tuck home and charged them with murder. Mrs. Middleton left her husband three months ago and since that time had been living with the Tucks, according to the police.

BANKS SCHOOLS OF PRODUCTION

War Garden Literature Distributed Through Financial Institutions.

WASHINGTON, (AP)—Announcement that the war has made the banks of the country headquarters for information on "how to produce food F. O. B. the kitchen and what to do with it after you have produced it," is made by the national war garden commission. Literature on gardens and canning has been placed at financial institutions by the commission for the public benefit. "One would scarcely think three years ago of getting a canning book from a trust company," says the commission, "but now the companies have thousands of them for distribution on request. The books have been delivered by the war garden commission to the banks which see in the victory garden a good citizen and a good customer." Manufacturing concerns, railroads, business houses and other industrial enterprises are co-operating in the victory garden drive of the war garden commission.

WORKERS REJOICE FROM EARLIER WAGE DEMANDS

BERLIN, (AP)—Almost unnoticed amid the excitement incident to the receipt of the peace terms and probably influenced by them, a movement in which the workers are re-energized from their earlier demands for higher wages and are striving to induce the government to reduce food prices, is gradually gaining ground. The latest organization to adopt this policy is the German railway men's association, whose representatives, at a conference with Minister Schmidt, agreed to abandon demands for higher wages if the government would reduce food prices.

CHILI ARRESTS MORE THAN SIXTY OFFICERS

Accused Men Say They Wanted to Save Nation from Government of Proletarians.

BUENOS AIRES, (AP)—Dispatches received here concerning the disbanding in the Chilean army which led the president to place three generals on the retired list say that more than sixty officers of the army are under arrest. Two arrests came after the discovery of secret political activity by army officers.

It was planned, the dispatches say, to establish a military dictatorship on June 1 and to call elections for a new president. The accused officers declare they had no personal motives, but were concerned only "in saving the government from a proletarian movement."

VOLUNTEER CONTINGENTS LEAVE FOR ABRAHAMOEL

LONDON, (AP)—The first contingent of the volunteer army raised to relieve the men who are fighting in rough Russia, left New Castle today for Abrahamoel. Fifteen hundred men including a machine gun company were in the party. Two other contingents will leave for North Russia during the week.

FISHING MAY BEHIND SENTENCE

WASHINGTON, (AP)—Secretary Baker today directed publication of a general army order authorizing General Pershing to "mitigate or remit" any sentence which under the articles of war requires confirmation of the president before such sentence may be executed.

REDS POLLUTE CHURCHES OF RUSS PEOPLE

Disgusting Ceremonies Resorted to in Attempt to Bring Ridicule on Religion; Protest to Be Asked.

LONDON. (Correspondence of the Associated Press).—The Bolsheviks are seeking to destroy religion by bringing it into contempt. According to a message from Reuter's correspondent at Ekaterinodar, they conducted in a church with all ceremonial mock marriage between an aged priest and a mare. The choir was forced under threats of death to sing the Psalms and canticles of the liturgy.

Service Over Dog.
Among the official publications of the Moscow soviet is a parody in verse of the church funeral service, supposed to be performed over the body of a dog. The Moscow soviet also has issued a pamphlet depicting the supposed orgies of priests.

Bayonet a Status.
In another church in the North Caucasus a bayonet was thrust through a ikon in such a way as to bore a hole in the mouth of Christ and a cigaret was put in the hole. Below were scribbled some odious words.

A Moscow dispatch says that the Bolshevik leaders, in order to shake the faith of the masses, have caused the exhumation of the bones of Saint Titon and Saint Mitran.

There is said to be growing movement among the religious elements in Russia, to bring about a protest of all churches of the world, against the Bolshevik violations of religion. The metropolitan of Odessa may go abroad soon on behalf of the protest.

MINE MAPS ARE MADE AS TOYS

Expert Finds Hobby Has Made Him Famous Throughout Entire World.

BUTTE, Mont. (AP)—To have the "toys" which he started making as a means of diversion during his leisure hours, come into demand in remote corners of the earth, and to have them figure in the court in important litigation is the experience of F. A. Linforth, geologist and mining engineer.

In a little engineering supply shop in a corner of his home, Mr. Linforth, a graduate of the University of California, ten years ago began moulding, or folding, to be more to the point, miniature models of mine plans and mining machinery out of various kinds of paper and cardboard. It became hobby with him, and he became so proficient that he was able to reproduce on almost a "watch charm" scale, the vast and complicated inner works of mining plants. His made models of the largest mines of Butte so perfectly that miners could point out the various topes or raises in which they worked.

Made A Map

An exploration company which is building a large smelter in Chile recently requested Mr. Linforth to make a paper mache relief map of the location of the proposed plant and to build on it the smelter. Without even having seen the ground, Mr. Linforth by means of surveys sent him, made a reproduction of the site, hundreds of acres in extent, and built on it the miniature smelter on which the smelter has actually begun construction work on its South American property. This model was made on a scale of 100 feet to the inch.

Miniature duplications of mines have been ordered by mining men to be sent to New York and other large cities in order to interest financiers in properties for which capital is needed. One model of a smelter found its way to the University of Santiago, Chile, with the result that a communication came from this school asking Mr. Linforth to reproduce for it models of certain mines and smelters of the United States. As a result South American mining students at this university have them in their class rooms. Among other models, the Great Falls, Mont., smelter in detail with every piece of machinery in place, and the reproduction faithful to the minutest detail.

Reproduces Mines

In the Montana federal court, a lawsuit involving millions of dollars is at issue and Mr. Linforth's services have been sought to render an examination in the court room, small models of two of the largest mines in the Butte district. When the case comes to trial the court will follow the argument, which involves title to various veins, by having the points mentioned in the testimony pointed out.

"My hobby never can become a business," said Mr. Linforth. "There is not enough mine construction to make it a commercial proposition because in a few weeks I can reproduce the miniature of a plant costing millions of dollars."

Several of Mr. Linforth's associates work with him each evening in his little home factory which is known in most of the technical universities of America and to the majority of the mining men of the country.

AGAINST SYNDICALISTS

JUNEAU, Alaska. (AP)—The measure passed by the territorial legislature against syndicalism and syndicalist activities of any sort, will go to the governor for his signature. The house accepted the senate's action by unanimous vote.

Classified Ads are cheap—effective.

WHALE KILLING SANCTIONED

JUNEAU, Alaska. (AP)—Whale killing in Alaska waters was given the official sanction of the territorial legislature when a memorial passed by the senate asking for abolition of whale killing was rejected in the house.

PRESERVE HATCHERIES

JUNEAU, Alaska. (AP)—Providing for a fisheries commission of five members, the bill aimed to preserve salmon hatcheries, continue experiments in the propagation of fish patrolling of the streams and removal of debris from salmon streams, the Heckman measure was passed by the territorial senate today.

HEADQUARTERS TROPHY ROOM

Reminders of All Big Athletic Events at Fort Bliss Kept by Commander.

FORT BLISS, Tex. (AP)—Col. S. R. H. (Tommy) Tompkins' quarters at the head of officers row in the Seventh cavalry camp resembles a trophy room of a big university. In the pine shack which is the regimental head-

quarters Colonel Tompkins has trophies of all the big army prizefight, basketball games, truck events and swimming contests held here.

These include the five ounce gloves Johnny Sundenberg, the middleweight who claims the honor of knocking Jack Dempsey, heavyweight title challenger, wore when he won the border middle weight championship; the Howe trophy for the best regimental showing in athletics, another cup for the best sprinters and another for the tug-of-war.

Colonel Tompkins is popular with the men of his command and always attends every fight, baseball or polo game, receiving as much applause of the heroes of the contests.

WHEAT CROP UNIMPAIRED

Two Diseases Which Appear in Illinois Have Done but Little Damage.

WASHINGTON, (AP)—Although the two wheat diseases recently discovered in Madison county, Illinois, and which previously were unknown in this country, may cause heavy losses to individual farmers, the losses in the area af-

ected will have no appreciable effect upon the total production of this year's wheat crop, said a statement issued today by the department of agriculture. The first of the two diseases, said the statement, apparently is identical with the "take all" or "white heads" known in many foreign countries. The second is a new smut of wheat. As both pests are extensively known in Australia, federal experts sent to Madison county are of the opinion the diseases were brought to this country in seed shipped from Australia. As a result a nation-wide survey now is in progress to find if either or both of the diseases have been introduced anywhere else in the United States. All grain growers have been urged to help their state experiment stations and the federal authorities in this work and thereby aid in preventing the spread of pests.

It Might Have Been

Instead of Those Rent Receipts You Could Have Owned a Home

What real value, what material benefit have you to show in exchange for *your* rent receipts? None whatever! They are simply reminders of money gone forever—money paid for bits of paper which are now absolutely useless—money you might have invested in a home which would be a comfortable, secure abiding place for life!

Why continue this aimless way of living? Why travel in the rent payers' rut? Why deprive yourself of one of life's greatest pleasures—a home of your own?

Practically the same amount of money you pay each month as rent will build you a home and pay for it! In a few years, instead of having *nothing* in return, you will have a *home*, paying dividends, not only in cash from rental saved, but also dividends of joy and happiness and contentment.

Money put into a home is available at all times. Your property is recognized as stable security in case of any emergency—It serves as valid collateral in all business transactions and can be turned into actual cash if ever the need arises.

Building your own home is not only a sound business investment but it serves as an excellent plan for saving money. The home builder has chosen the best bank in all the world in which to place his funds.

Paying for a home gives you a real reason for saving—supplies you with a tangible object which serves as a check to unreasonable spending and assists you to a firmer financial basis in the knowledge that you have available funds laid aside.

Not only does the home builder save money but *every dollar invested grows into greater value!* When you entirely own your property it is worth much more to you than the actual number of dollars invested. If you have located wisely and built well, you can always sell at a profit. Furthermore, you will have acquired the prosperity habit—the habit of managing your money and getting ahead.

Build Now! Authorities state that you can build as economically today as at any time in the future that can yet be foreseen. Therefore you are only losing by delay. The money you spend in building will prove beyond doubt the best and soundest investment in the world for you.

For any information you may desire on any subject pertaining to locations, plans, materials, furnishings, equipments, costs, information concerning architects, contractors, etc.—call at the Building Information Office. Not a thing to sell but a *great deal* to give away!

ON THIS SPOT.

To make every dollar work, is in the last analysis, the abiding reason why the proposition of "Build Now" is being urged under Government endorsement, in every State and almost every town and hamlet in the United States.

Twins Falls is in a class with the first of the two reasons would apply. Twin Falls is losing prospective citizens every day because no man may rent a home. He may build one, of course, and he does where he is able. But not everyone is able to do this all at once, and in the meantime, the community suffers.

This is the thought which has actuated the little group of Twin Falls citizens responsible for the publicity campaign which opens in The News of today. These men, with The News, believe in Twin Falls. They believe that Twin Falls needs home, and buildings, and then more homes. They consider that the time for civic expansion has arrived.

This is the spirit which builds. This is the attitude of mind which leads to the adoption by the citizens of any community of the program of development which has always constituted the great actuating force in civic growth. This is the view of every growing town in America today.

And this is the motto which The News would suggest as the slogan of Twin Falls through the years of development ahead:

On This Spot, Let Us Build a City.

LET US HOPE GREY IS TRUE PROPHET.

Should the constitution of the league of nations run successfully the gauntlet of opposition in the United States senate and in the other parliamentary bodies of the world, the people will all trust that the prediction of Viscount Grey, that it eventually satisfy those who think it goes too far and those who think it doesn't go far enough, will be verified.

One class of critics insists that it commits the country to a policy which may result in its being compelled to abandon its most cherished principles, another class is just as certain that it is defective in that, they say, it gives no power to the league to enforce its decrees. Members of this class declare that it is similar to the Articles of Confederation and that its history will, therefore, be brief and futile. This class holds that the proposed pact has been borrowed, not from the General Smuts plan, but from the first formal union of American states. One able congressman compared the two documents article by article in an endeavor to prove that such was the case.

There is considerable similarity. Those who argue against the league from this viewpoint make two large assumptions. The first of these is that the result of the adoption of the Articles of Confederation was disastrous. The second is that the history of the league under modern conditions would be exactly similar to that of the pact adopted by the Revolutionary Fathers.

While the Articles of Confederation failed as a permanent system, they were none the less successful, for they led to the adoption of the Constitution, which would never have been formed otherwise. Had no such pact been adopted, the American states would have become hostile nations. As it was, the people learned what was practical and what was not, and were thus enabled to "form a more perfect union."

The incalculable value of the Article of Confederation is now generally acknowledged by students of history. In his work on "Confederation and Constitution," Andrew Cunningham McLaughlin, LL. B., professor of history of Michigan university, says:

This simple arrangement, a confederation of sovereign states, performing certain functions through a body of delegates proved in the course of a short time no inadequate that it is easy to pass these articles with an amused smile at their utter unfitness for the work at hand.

In his introduction to this work Albert Bushnell Hart, professor of history of Harvard, says: "To the years from 1783 to 1790, Flako has given the name of 'The Critical Period of American History,'" yet it seems doubtful whether it was really such a time of such danger of national dissolution as people then and since have supposed. Certainly the trend of this volume is to show a more orderly, logical and inevitable march of events, than has commonly been described.

It goes without saying that the world today is not ready for a super-nation and that it will not be for generations. "The parliament of man" will not meet in our day, but there must always be the hope, should a league be formed that in the event that it should prove inadequate, it will at least make clear what sort of agreement will prove satisfactory. Just as the Articles of Confederation showed the forerunners what was needed.

There is so much in the treaty of peace that requires discussion and consideration that its wisdom or unwisdom cannot be passed on intelligently at once, and the league is bound up in the treaty so that should one fail, both must, at least so it seems. However, mankind will hope that discussion will show both worthy of adoption, for the world has had enough of war for this generation.

TRY THIS.

Time was when "camping out" presented a maze of difficulties to all but the trained woodsman second only to the troubles which might reasonably be a street car conductor to lead a 60-piece orchestra. Beds built principally of boards, mats in the dried eggs, dirt everywhere, and then, more dirt.

Its different now. Camping is, or can be, more comfortable than house-keeping. For a few dollars a man may buy a comfortable take-down bed, to be set up with the auto as a background, a camp cooking outfit which will turn out flapjacks like Uncle used to make and a host of other things, all of which are utilitarian throughout and only slightly less ornamental to boot. Camping becomes a delightful time. Even the kids like it.

To the man of jaded appetite and tired brain, the beauty spots of nature offer a sure panacea for the ills of what ails him. Let him use a few paltry dollars for the things which spell the difference between the old and the new in outdoor life and watch the dividends roll in in the shape of added zest in the game of life, increased happiness and augmented health.

Never was camping out more necessary as a part of the year's program and never was it more easy of accomplishment or more satisfactory in operation.

RUSSIAN BLASPHEMY.

The open contempt for all things held sacred by the human race, for all things to which sentiment appeals, by the Bol-

sheviki is bound to result in a reaction. The flouting of the institution of marriage, the holding of religious services over the body of a dog and other evidences of disrespect for those things which men and women instinctively hallow, recorded in today's dispatches, show the depth to which these creatures have fallen.

It also indicates that these fanatics are near the end of their rope. The Jacobins of the French revolution did similar things during the last days of their domination, though many of them were deists, while the Bolshevik leaders are atheists, and it was only a short time afterwards when reaction against them and in favor of religion swept over that country.

The Russian people are notoriously mercenary and given to sudden changes, and a revulsion of feeling on their part after these excesses is inevitable.

Not a Complete Success. Edward was a timid boy. He tried hard to overcome his timidity, but with little success. One day his father came home and brought him an Indian suit. After Edward had it on his father told him that he would be brave now, for Indians always were. Edward went out in the front yard to show it to a neighbor playmate when the big collie dog from across the street came bounding across. The "Indian" came rushing up on the front porch, crying, and sobbed out: "Take the suit back; it don't work on me."

Not Much of a Pusher.

It was the elevated station at 8:20 on a weekday morning. The advice of the Irish guard who helps close the gates of the rest cars was an education in itself. But he had a competitor in a girl who was doing her valiant best to get on. "Push, push," she urged of a weak little man-culine beside her. In a wish-washy voice he replied that he was pushing. Luck came in the swift report: "You push, you push. You push like a jellyfish!"—New York Sun.

Worthy Mate of Great Writer.

James Russell Lowell's first wife, Maria White Lowell, was also a poet. A small collection of her verses, printed privately by Lowell in 1835, two years after her death, is now almost forgotten. One copy of it is preserved in the archives of the New York public library. She was the daughter of a farmer in Waterstown, Mass. In letters to a friend, when Lowell was first getting acquainted with Maria, he said: "She knows more poetry than anyone I know."

The Candle in History.

The cult of the candle plays a large role in Roman, Jewish and Eastern ecclesiastical history; and many are the customs that have their birth in some magical or ritualistic use to which the candle has been put. In some parts of Ireland, for instance, it was usual on Christmas eve to burn a large candle which no one was permitted to touch except those who bore the name of Mary.

To Make Attar of Roses.

After having gathered a quantity of roses, place them in a jar, then pour upon them some spring water. Cover the top with this muslin to keep out the dust, and expose the jar to the heat of the sun for a few days, until oily particles are observed to be floating on the surface of the water. Take off this oil substance and place it in a bottle. This is the perfume known as "attar of roses."

ADVERTISE that READINESS-TV-BELL into a SALE.

Pierce's Pork and Beans advertisement featuring an illustration of a woman and a can of beans. Text includes: 'Always at your Call', 'At your beck and call—that's one of the nice things about Pierce's Pork and Beans. They're always ready—easy to order from your grocer, easy to serve. Besides, they're delicious—savory and wholesome.', 'You Don't Know Beans Till You've Tasted Pierce's. And a generous use of Pierce's Honny will help you on in health and happiness, too.', 'Satisfactorily Packaged—Wholesomely Backed—By The Utah Canning Company', 'THE DAILNY OF THE ALL', 'ORDERED SINCE 1888'.

FAVORABLE VOTE ON BOND ISSUE IS ANTICIPATED

City Council Designates Date Ten Days After Election for Opening Bids for Municipal Improvement Securities.

Anticipating an outcome favorable to the issuance of \$205,000 worth of municipal bonds for paving street intersections, building a new bridge across Rock creek at the end of Shoshone street and extending the sewer system to be submitted at an election on June 6, the city council at its meeting last evening, designated June 16 as the date for opening bids for the sale of such bonds.

The week of May 18-24 also was designated as clean-up week for Twin Falls, during which time effort will be made to dispose of rubbish accumulated throughout the city either by burning or hauling to the dump grounds. The fire chief is to be instructed to throw up trash in the fire district and burn it.

In lieu of an audit of the books of H. E. Rounds, former city treasurer, the council voted to release the retiring official from his bond.

The council adopted a resolution providing for furnishing water free for a swimming pool to be provided in the new junior high school building; granted the request of W. H. Weaver for permission to retain an air pump at his building on Main avenue and Third street east until such time as increasing traffic should make its discontinuance necessary; referred to the waterworks committee the matter of building a fence around the filtration plant; instructed the city council to draft an ordinance changing the grade of Washington street to permit of the improvement of a triangular park space, and deferred action on an ordinance providing for the abatement of certain nuisances involving a controversy between the proprietors of the Central Market operating a lard rendering plant at the rear of its building, and the proprietors of the Shop Alois occupying quarters in this building.

Opium.

Opium is the dried juice of the white poppy, a flower that grows in many parts of Asia. A few days after the flowers have fallen off the plants men go through the fields in the afternoon and make little cuts in the poppy head. Out of these cuts a milky juice oozes, which dries into a brown, sticky paste. Every morning the men go through the fields again and scrape off this paste, which is then put into jars. Later on it is made into halfpound balls and then packed for shipment.

America's Largest Industry.

The United States' largest manufacturing industry is iron and steel. The pig iron recovered in smelting iron ore amounts to about 25 per cent of the raw material. The equivalent of about 14 per cent is driven off by volatilization in the coking of the coal; in the process of smelting a further 40 per cent escapes in gas, fumes, and dust, and the remaining 21 per cent represents the slag.

Their Surprising Way.

"I was never more disappointed in anybody in my life than I was in my cousin up to Kay See," admitted Gabe Gosnell of Grudge, who was just back from a visit to the Big Burg. "Why, with everything on earth going on and anything you could think of liable to happen at any moment, I'll be switched if they don't poke off to bed at between nine and ten o'clock every night of the world!"—Kansas City Star.

Sacrilege. The Kansas Industrialist says skunk oil and rattlesnake oil are worthless as ingredients for rheumatism and kindred ills. Just how far should college papers be allowed to go in interference with free beliefs founded on the traditions of centuries? Pretty soon these young whippersnappers will be telling us that snakebita amulets ward off neither germs nor devils, and that red heads around the neck won't stop nosebleed.—Grit.

Just a Little Oge. May-ber. While to be sure you believe George Washington never told a lie we always will wonder how he got around it if Mrs. Washington ever asked him if he didn't think her now way of serving parsnips made them perfectly delicious.—Macon Telegraph.

Deaths

Joseph C. Allison. Joseph C. Allison, aged 38 years, a ranchman of the vicinity of Eden, died at about 5 o'clock Monday evening at a local hospital from heart disease from which he was suffering when brought here Sunday for medical attention. The remains are at the P. J. Gramman undertaking establishment and will be taken Wednesday morning by the widow and two children who survive, to the former home in Girard, Kansas, for interment.

When you acquire the habit of studying your buying problems, even though they may be small problems, you will have acquired the habit of thrift, of foresight, of confidence in your own judgment. A study of the ads are essential.

KAMP KOMFORT KIT. Kamp Komfort Kit means a sleep inviting spring bed which is just as comfortable as your bed at home and a water proof tent which is fly and reptile proof. This all folds into a small metal box which is attached to your running board where it is out of the way and handy of access. KAMP KOMFORT KIT means all the same implies. AUTO KAMP KOOK KITS. These are Folding Portable Gasoline Camp Stoves which meet every requirement of the Tourist, Camper, Hunter and anyone who enjoys outing life. They will burn out in the open in a thirty-mile wind or warm your tent on a chilly day. SEE THESE OUTLETS IN OUR WINDOW. DIAMOND HARDWARE CO. TWIN FALLS. GET YOUR FISHING LICENSE EARLY.

Drive Circumstances--- Don't let Circumstances Drive You. Before spring work comes on with a rush consult your building needs. When you have decided what you need in the way of building for efficient work on the farm plan to erect them, is our advice. Don't put this vital matter off another day. Time is creeping. Napoleon's success was due wholly to his fixed habit of always driving circumstances. In other words always having his plans matured ahead of his needs. In no other business is this motto so essential as it is in the BUSINESS of farming. In addition to the necessity for making routine plans the farmer must plan against the elements and the vagaries of nature. THE PROPER INSURANCE AGAINST THE ELEMENTS IS PROPER FARM BUILDINGS CONSTRUCTED IN THE RIGHT WAY, AT THE RIGHT TIME. We can show you the right way! The right time is NOW! CLASS OF '08 TO GRADUATE FROM T. F. H. S.

Dr. E. H. Lindley, President of State University, to Deliver Address on Commencement Occasion Here.

Sixty-eight students will receive certificates of graduation from the Twin Falls high school on Wednesday evening next at the Lavington theatre where the twelfth annual commencement exercises will be held. Dr. Ernest H. Lindley, president of the Idaho State university, is to deliver the address of the occasion. He has announced as his subject, "The New Elements."

Musical numbers by the high school orchestra directed by Miss Jessie C. Simpson, and a group of songs by Miss Marie E. Bohn, accompanied at the piano by Miss Zelma Larnore, will add materially to the program.

The invocation will be delivered by Rev. Elmer Grant Keith of the Methodist Episcopal church, and the benediction by Rev. Conrad L. Owen of the Baptist church.

V. H. Decker, president of the board of education, will present the diplomas.

Among the graduates the following are ranked as honor students according to general average throughout four years in the Twin Falls high school: Harold Steinhilber, Margery Pickett, Beryl Blake, Quick Landis.

The officers of the class are: President, Ralph Glasgow; vice president, Dorothy McMill; secretary-treasurer, Elmer Wyland.

The Class Roll.
Members of the graduating class are: Robert E. Bailey, Thelma E. Banks, Clifford M. Bauer, Erth Beaumont, Albertine B. Bonoff, Beryl Helen Blake, Esther Opal Briggs, Carl Hamlin Brown, Gladys Channon, Harry E. Gator, Robb A. Cole, C. Blanche Cooper, Zella Marguerite Ellis, Frances Goodie Ellis, Frances Field C. Lyseom Fitzsimmons, Philip Fix, Ralph I. Glasgow, Ethel Laurine Gartson, Lorena A. Galois, Ruth A. Harvey, Edith Henderson, Edith E. Henderson, Florence O. Humphrey, Mary E. Humphrey, Ethel Kautz, Quick Landis, George C. Lenox, Alice Lela Lyon, Dena W. Mitchell, Mary Dorothy McMill, Esther M. McMill, Oscar C. Neumann, Nathan L. Parsons, George Roland Parsons, Alice Lillian Perrine, Hazel Isabel Peters, Mabel Gertrude Pettijohn, Margaret E. Pickett, Alva E. Pickett, Richard A. Pomery, Vaughn Arlington Pico, Waldemar Ross, Frances B. Ripley, Minnie Edna Bond, Ethel Aris Rudolph, Gilbert H. Schade, Gertrude Teresa Shurt, Edith Cecil Slater, Benah Smith, Clara Besse Smith, Lucetta Smith, Frances Drury Smith, Marjorie Ellsworth Son, Lettie Sparks, Irma M. Spilberg, Howard H. Steinhilber, Lynn Sherman, Jennie Swan, Sarah A. Swift, Bernice E. Thomas, Joseph E. Treadwell, Benah E. Trueblood, Burton A. Van Tassel, Vernon E. W. White, Edith E. Wolfe, Collette A. Wolfe, Elmer E. Wyland.

SCHOOL WILL INCLUDE POOL

Trustees Accede to Request of Bathing Facilities in New Building.

The junior high school building to be erected as an addition to the present high school building, for the construction of which \$150,000 has been authorized, were recently voted and, in fact, include a swimming pool to be available not only to pupils but, under certain regulations, to the community in general.

This is in accordance with a decision reached by the board of trustees at its meeting Monday evening at which Probation Officer John E. Adams, E. L. Macvicar and Mrs. T. H. Irwin appeared to urge the inclusion of the pool in the building plans.

Coincidentally the city council, upon the representations of Mr. Macvicar, adopted a resolution under which the city is pledged to furnish without cost all of the water necessary for the pool.

The trustee directed architect Burton E. Morse to alter plans for the building which were presented for adoption at this meeting, to provide for the pool. A call for bids on the construction of the building is to be issued in the near future and work is to be started as soon as possible with a view to completing the structure before the beginning of the next school term.

The proposed pool is to be 20x50 feet and graduated in depth from 3 feet to 9 feet, having a capacity of 54,000 gallons. The water is to be changed three times a week.

Births

To Mr. and Mrs. E. J. Murray on Monday, May 12, a daughter.

Local Brevities

Recovering After Operation—Mrs. Walter Blanchard of Buhl, underwent an operation in a local hospital last evening, and is reported as recovering satisfactorily.

Smith to Talk on Reclamation Plans

Congressman to Accompany Twin Falls People on Observations.

Representative Addison T. Smith, who returned Monday to Twin Falls after nearly two years' absence in attendance at sessions of congress and who recently traveled across the battlefields of France and Belgium, is to speak at 8 o'clock this evening in the high school auditorium here on prospects for reclamation legislation and in respect to his observations in France.

Former Twin Falls Man Death's Victim

Arthur W. Jaynes Succumbs at Home in Niagara Falls, Ontario.

Word has been received here of the recent death at Niagara Falls, Ontario, of Arthur W. Jaynes, formerly postmaster at Hollister and up until about six years ago a resident for about two years of Twin Falls. Mr. Jaynes was secretary to L. B. Perrine and was prominent in musical circles. His widow, who was Miss Greer Sprague of Murtagh, two sons and a daughter survive Mr. Jaynes.

STUDENTS WIN SCHOOL HONORS

Letters Are Presented to Those Who Helped Make Great Record.

Students who contributed actively to the splendid record made this year by the Twin Falls high school in fields of athletics, declamation and forensics yesterday received their coveted school letters at a student assembly.

One member of the student body received letters in three fields of activity. This was Walter Krongel, president of the Junior class. Oscar Neumann, Waldemar Bond and Roland Parsons received letters for two activities.

A review of the record made this year by the school shows that out of 18 possible victories in the athletic field, Twin Falls made 10. In the state declamatory contest won first place in the dramatic section and in the district contest Twin Falls won one first and two second places. Twin Falls debating teams won unanimous decisions of the judges in debates against Boise both here and at Boise.

Following a brief introductory talk by Principal M. C. Mitchell at the assembly Monday, Oscar Neumann, who received the school's record in the athletic fields and presented letters to members of the basketball team as follows: Ralph Glasgow, Oscar Neumann, Walter Krongel, Waldemar Bond, Ward Carter, Roland Parsons, and gave honorable mention to Yochem, Putzier and Philip Fix.

Members of the baseball team receiving letters were Philip Fix, Hy-larger, Clifford Fix, Oscar Neumann, Roland Parsons, Walter Krongel, Kenneth Yochem, Robert Putzier, Harry Carter and Eugene Thometz.

Miss Ida Brown, head of the department of public speaking, presented the letters to the following students who won honors in the declamation contest: Dorothy Kenworthy, winner in the state contest; Inez Puckett and Frances Mitchell.

Principal Mitchell presented the letters to the following members of the debating teams: Beryl Blake, Walter Krongel, Theodore Kenelson, Waldemar Bond, Elmer Wyland, Burton Van Tassel.

TELLS WHY HE DOESN'T FAVOR "Y" BUILDING

Rev. L. B. Franck, Former Association Secretary, Points Out Objections to Proposed Institution Here.

PROPOSES EXTENSION OF SCHOOLS AS SUBSTITUTE

Would Put Recreational Activities on Educational Basis and Establish New Department in Local System.

"I am not in favor of a Y. M. C. A." This is the statement of Rev. L. B. Franck, rector of Ascension Episcopal church, who served six months during the war as a Y. M. C. A. secretary in a cantonment in the southern state.

The statement was made in a sermon delivered Sunday by Mr. Franck. He gives his reasons and suggestions as follows:

"I am indeed glad the Y. M. C. A. drive has been called off. The discretion that prompted the postponement of such moment but so inopportunistly begun is commendable.

"I have been asked by quite a number of Twin Falls soldiers, our business, professional and laboring men for my opinion regarding a Y. M. C. A. here in our city, and while giving my private opinion, I have been urged to state my views on the matter publicly.

Although the Y. drive has been called off till this fall, I venture to give my humble opinion along this line at this time, in order that the generous and liberal minded people of this community may be urged to think on this matter carefully and consider it from as many different angles as is possible, between now and this fall. It is not true that when a community has thought carefully on a matter and then gets behind it with a united approval, the result is generally a permanent success.

"To be frank, I am not in favor of a Y. M. C. A., and I believe that I am able to state my reason for this, rather offering something that is destined to become nation-wide in its scope than by merely offering critical and destructive objections.

"The thing that absorbs my enthusiasm relative to what which some of our business men would do through a Y. M. C. A. is the idea—the scientific conception—of putting recreational activities before the community on an educational basis. Many of our biggest men in the field of education are showing us that this is feasible, the logical way, the intelligent method of doing this an important work with the best results. I believe that a recreational department established in the central location of our local system of education based on a twelve months basis and with daily schedules of such a character as to take the place of the Y. M. C. A. at the same time supply the needs of a Y. M. C. A.

"Perhaps the religious claims of the Y. M. C. A. may offer to some a justification for a local association, but there are good reasons for feeling this community that this need can be supplied through other channels, and some of the members of the newly organized executive committee of our local Y. M. C. A. have assured me that they are not particularly interested in the religious significance of the institution.

"According to this plan I can conceive of no advantage that the Y. M. C. A. has to offer, but on the other hand, were we to put our community recreation under the auspices of our system

of education the advantages would be many:

- (1) With the splendid equipment we already have, so centrally located, and with our plans for enlargement of this plant for extensive work already approved by this community, what a greater building, better results and work would be had for the same expenditure.
- (2) With the organization we already have we are bound to have a much better system and a far better efficiency.
- (3) A \$125,000 department for recreational activities in addition to what we already have and have proposed and approved for enlargement for extension work would give Twin Falls a nation wide recognition. What an advertisement of the very best a community has to offer. Could a \$125,000 Y. M. C. A. on the most central and costly spot in the city challenge comparison?

The Americanization of our foreigner and special advantages offered to those who wish them through the night school of the extension work of our system of public education in my humble opinion is one of the greatest things that have been done as a systematic process of making Americans of the mighty multitude of foreigners that come to our shores and as a means of elimination of illiteracy from an American element that is by no means insignificant in number. What would a Y. M. C. A. have to offer compared with what the extension department of the school system is doing already throughout this nation? I have no desire to take any glory from an institution that does such a noble work as that which has been done by the Y. M. C. A. But I do believe that the broadening of the scope of the system of public education is narrowing the usefulness of Y. M. C. A. Now add to the proposed plans for extension work in our central high school the \$125,000 to be raised for a Y. M. C. A. building, and who can fail to see the intention and fall to predict results.

"In the light of democratic principles which would this plan of recreational activities under the auspices of the system of public education mean to the people of our community? In the United States 30 per cent of the people are affiliated with the church in any sense. In order to be a real member of the Y. M. C. A. a man has to be a member of an evangelical church. Allowing conservatively for our fraternal, Unitarian, Scientists, Mormons, Roman Catholics, Jews, we of the evangelical churches hardly hold 20 per cent of our country's population, and when we consider further the small percentage of male membership of our evangelical churches, allowing a general 25 per cent, we should feel horrified to think that about 5 per cent of the men of the nation's male population is eligible to read and full membership in the Y. M. C. A. I presume that Twin Falls is not above the average in this respect, so saying that if our local Y. M. C. A. executive committee puts on a drive this fall and succeeds in raising \$125,000 for the Y. M. C. A. building, given doubtless by the community, this \$125,000 for the building, the annual budgets, the choosing of a site, the style of architecture, the supervision of the institution will be entrusted to—not the small 5 per cent of our male population of this community, but to men, a local board, chosen from this 5 per cent. On the other hand, if we put our community recreations under the control of the institution of public education every American citizen—men and women who have a vote, and not perhaps an alien who claims conversion to some personal dogma of evangelical theology—but every man and woman who has a vote, will have a direct voice in the history of the institution.

"Some wonder how we can secure the funds to put into our system of education such an adequate department of recreational education. Inasmuch as the law puts a limit on bond issues for school purposes and inasmuch as we have reached that limit, there seems to be but one course open, and that is to do what our Y. M. C. A. executive committee contemplates doing this fall for the Y. M. C. A., get out and put on a drive.

"On the contrary, the plan of putting our community recreational activities under the auspices of our system of public education will appeal to the entire school district. It is practical, educational, democratic with some special advantages. Our high school plant is near the business part of the city, the plans of enlargement of our high school plant have been decided upon, and in these plans some provisions are made for some recreational work. It would be most opportune then, it seems to me, to try to carry out the plan here advocated."

GERMANS TAKE UP DETAILS OF PEACE TREATY

Scheidemann Declares Only Party Responsible to Minority Will Sign Proposed Covenant in Behalf of Germany.

BELIEF IN WILSON A LOST ILLUSION

Chancellor Avers Right of Self-Determination Has Been Trampled on by Allied Nations; Opposes Separation.

BERLIN, (AP)—The imperial ministry met Monday to discuss peace terms but no positive proposals have as yet been communicated to the entente. Practical questions and questions relating to territorial concessions which were transmitted to M. Clemenceau, president of the peace conference, today by the German delegation were said to be not of a fundamental character but of an explanatory character.

It is reported that the German democratic and centrist parties have threatened to withdraw their representatives from the government if the treaty is signed. The Neue Freiheit newspaper declares that Count von Brockdorff-Rantzau, head of the German peace mission at Versailles, has informed its representative that it is making every effort to secure the union of German-Austria with Germany.

Change Is Hinted.

LONDON, (AP)—The possibility of a change in the government of Germany as a result of the presentation of the allied peace terms was discussed by Philipp Scheidemann, German chancellor at Berlin last evening, according to a dispatch to the Exchange Telegraph company from Berlin. Scheidemann denounced the peace terms which he said represented a "brutal, dictated peace." It is said. The statement was made to foreign journalists in his "chancellor's palace" and in part follows:

"We thought that we social democrats were strong enough to prevent a peace by violence, but doubted whether the masses in enemy countries would support us because they are less strongly organized than we. Certain circles in England and France are beginning to advise the necessity of a peace in sense. It is too comic when President Wilson's fourteen points are contrasted with the peace terms. They do not mention Mr. Wilson's terms but are just a brutal dictated peace."

Impossible to Comply.

"It is impossible a government might be formed which would sign the peace terms, but it is doubtful whether the allies would be satisfied with such a government. A revolutionary government is out of all question and a communist and independent government would be acting for the people of whom they would represent only a small minority. Even if such a government sign the treaty it would be just as impossible for them to fulfill the conditions as it would be for us."

Have No Choice.

BERLIN, Monday, (AP)—"Even if important changes are made by the negotiations begun at Versailles, there remains no choice but to bow to compulsion and sign the treaty," says an appeal of the central committee of the independent socialist party in the party organ Die Freiheit this morning.

"Not signing," continues the appeal, "means the retention of our prisoners of war, the occupation of our raw material districts, the tightening of the blockade, unemployment, hunger and death in mass. It is the proletarian that would suffer the most terribly from the consequences."
"Peace, as hard and as oppressive as it may be, is a necessary assumption for the possibility of rebuilding our social and economic life in the spirit of the revolutionary proletarian."
The appeal is prefaced by a denunciation of the severity of the peace terms. It concludes with a demand that workers of all countries unite against capitalism for a world revolution.

BERLIN, (AP)—Philip Scheidemann, the chancellor, in his speech before the national assembly here said that the occasion was the turning point in the life of the German people, as the assembly was to decide the attitude toward "what our adversaries call peace conditions."

"The representatives of the nation," he continued, "meet here as the last band of the faithful assemblies when the fatherland is in the greatest danger. All have appeared and representatives of Alsace-Lorraine who have been deprived of the right to be represented here just as you are to be deprived of the right to exercise the free vote of the right of self-determination."

Meet Last Time
"And I see among you the representatives of all the German states, the heads, the chosen representatives of the Rhineland, the Ghar, east Prussia, west Prussia, Posen, Silesia, Danzig and Memel. Together with the deputies of the unannexed regions, I see the deputies of the beleaguered provinces, who, if the will of our enemies becomes law, are to meet for the last time as Germans amongst Germans."
"I know I am in a heart with you in the gravity and sanctity of this hour which should be ruled by only one idea—that we belong to one people and must stand by one another and that we are one flesh and one blood and that whoever tries to sever us is

driving a murderous knife into the living body of the German people.

Would Keep Alive
"To keep our union alive—that and nothing else is our duty. We are pursuing an intention to maintain positions of prestige and no threat for power have a part in our deliberations. Here life is what we must have for fear and action on the side which everyone feels a throbbing hand at his throat."
"Let me speak without tactical considerations. The thing which is at the basis of our discussion is this: (b)k Some of our enemies have begun (Germany renounces). This dreadful and murderous volume by which confusion our own unworthiness, our consent to let ourselves be trampled upon, agreement to let slavery and slavery are to be extended—this book must not become the future code of law."

Lost A Belief
"The world has once again lost an illusion. The illusion in this position, which is so poor in ideas, again lost a belief. What name on thousands of bloody battle fields, in thousands of trenches, in orphan families and among the people of the world, has been mentioned during these four years with more devotion and belief than the name of Wilson? Today the picture of the peace-making at the world pictures him in pale blue the dark forms of our jailers to one of whom, Premier Clemenceau, a Frenchman recently wrote: "The world has been put in a cage on bread and water, but I allowed to keep his teeth, while his claws are hardly out."

Posters Show Condition
"All over Berlin we see posters intended to arouse a practical love for our brothers in captivity. They show sad and hopeless faces behind the prison bars—that is the right frontispiece for the so-called peace treaty, a true portrait of Germany."

Behind Barbed Wire
"Sixty million are behind the barbed wire and the prison bars—sixty millions at hand labor for whom the enemy makes their own land a prison camp. Should the peace conditions be accepted, Germany no longer could call anything her own which lies outside these narrow bounds. Germany has ceased to exist abroad but as if that were not sufficient, her cities there have been from her and her wireless stations can send only commercial telegrams and then only under control of the allies. This world peace is the outer world, for what business can be done under the control of competitors need not to be described."

Treaties to Void
"But this is far from enough. The commission that determines treaties between enemy countries to be null and void except such treaties whose execution is in favor of a government of the allied powers."

Peace with Equality
"What a President Wilson so aptly say? That the first principle of peace itself is equality, equal participation in common benefits."
Here Scheidemann then argued that this principle had been appropriated in the peace terms.

HENRY FORD AN ANARCHIST OF A MODIFIED SORT

Chicago Tribune Explains That It Meant Only He Opposed Measures Necessary for Good of Government.

MOUNT CLEMENS, Mich., (AP)—When on June 23, 1916, the Chicago Daily Tribune referred to Henry Ford, the Detroit manufacturer as "an anarchist," it did not use the term in the sense in which it is known to anarchists, according to Attorney Elliott C. Stevenson.

Mr. Stevenson, one of counsel for the Tribune, which is being sued here for \$1,000,000 damages by Mr. Ford on a charge of libel, made this assertion today to the tallsmen in the jury box in explanation of questions he and his associates were about to ask them in regard to their fitness to serve as jurors.

"It is our purpose to prove that Mr. Ford is an anarchist," said Mr. Stevenson. He then read from court decisions which the Tribune met by the term "anarchist" as defined by various authorities. Some of the definitions were "absence or insufficiency of government," "a state where there is no capable supreme government," "a believer in an anarchic theory of society."

"In our view," continued Mr. Stevenson, "Mr. Ford on March 27, 1916, was an anarchist in the sense that he opposed those common measures which make for a government and the absence of which creates a state of anarchy."

OLD TROUBLE IS CLEARED UP IN FINAL FINDING

(Continued from page one)
incident in connection with the commission may have been all but forgotten. In fact they happened two years ago during the political campaign. At that time Dr. Brannon was president of the University of Idaho and was commissioner of education. It was only a short time later that both severed their connection with the board of education. It was claimed that Brannon had been active in attempting to label political opposition to Governor Alexander and that the greater portion of the university faculty was also active along the same line. After the election the board of education caused a general shakeup which resulted in a number of faculty heads falling.

Get some INFORMATION about it—what it will cost, where it may be bought to best advantage—through reading the ads.

Today's Markets

Sheep—Receipts, 4,000; lower; lambs \$17@18.50; ewes, \$13.50@14.50.

Beats Get Corn
CHICAGO, (AP)—Heavy selling by a big commission house and a good deal of corn market. Dry weather where most needed tended further to depress values. Besides eastern shipping, which was slow. Opening prices, which ranged from 1.2 to 2.14¢ lower, with July \$1.68 1/2 to 1.67 1/2 and September \$1.57 1/2 to 1.59, were followed by material setbacks in addition.
Favorable crop reports weakened the oats. After opening unchanged to 6-8¢ down with July 68 1/2 to 68 7/8¢, the market continued to sag.
Provisions were dull and heavy. The chief factor was corn weakness.

Chicago Butter Up.
CHICAGO, (AP)—Butter, higher; creamery 50¢@52¢.
Eggs—Higher; receipts 49,840 cases; firsts 42@43 3/4; ordinary firsts 41 1/2@41 3/4; at mark, cases included 41 1/2@42; storage packed firsts 44 1/2@44 3/4; Alvs—Higher; flvls, 33¢.

Butter Opens High
KANSAS CITY, (AP)—Packing butter 1 cent higher; 42¢. Other grades unchanged.
Eggs 1-2¢ higher; firsts 42¢. Poultry unchanged.

Chicago Spuds Firm
CHICAGO, (AP)—Potato arrivals 55 cars; sold at 1¢, near weak. Old stock carlot sales, smoked and bulk U. S. grade 1, \$1.75@2.05 net. New stock, jobbing sales, Florida Spaulding Rose 1 1/2 \$1.75@2.25; 2 1/2 \$3.50@3.25 bbl.

Opening Strong
NEW YORK, (AP)—Shares of companies representing the steel, copper and silver industries were again the chief features of strength at the opening of today's stock market, gaining 1 to 2 points. Motors and equipments were not far behind though in less active demand. The food division, leather, tobacco, Atlantic Gulf, American International and Industrial Alcohol also made substantial contributions to the advance, but rails were relatively dull aside from the moderate strength of St. Paul preferred, Southern Pacific and Missouri Pacific.

Add to Early Gains

NEW YORK, (AP)—Steels and copper added very generally to early gains and shipments, also became stronger with rails, low priced issues, such as Texas and Pacific, Pere Marquette, Rock Island, St. Louis and San Francisco, and Pittsburg and West Virginia featuring that group. Among oils the market developed erratic tendencies, selling evidently of professional origin features of strength at the opening. Texas company and Sinclair oil. Royal Dutch shares were striking exceptions, rising 2 to 3 points. Baileys were in order at 3 o'clock when trading assumed broader dimensions, including equipments and investment rails.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds at 11:30 a. m. were, 3 1/2's \$98.70; first 4's \$95.60; second 4's \$91.12; first 4 1/4's \$95.40; second 4 1/4's \$94.10; third 4 1/4's \$95.22; fourth 4 1/4's \$94.20.

Cotton Opening
NEW YORK, (AP)—Cotton futures opened steady; May \$28.35; July \$26.95; October \$25.30; December \$24.80; January \$24.50.
Money Unchanged
LONDON, (AP)—Money and discount unchanged.
London Silver
LONDON, (AP)—Bar silver 55 1/2 p. ounce.
Appropriate Look
Robert had lost his little pet dog and felt bad about it. His father told him poor little Fido must be dead or he would return home. His mother sent him on an errand, when he met a woman friend of his mother's who asked him if he was ill, as he had little to say. "Oh, no," he said, "but my little dog is dead and I am wearing a black look."

Chinese Superstition.
Superstition is rampant in China and when Chen Xing Yin, a trader in Straits Settlements, after his return to Kaping, his own village, proposed to open the lands along Fei Ngo mountain as a field for grazing, his suggestion could hardly be carried out as his villagers bitterly protested against the project on account of their belief in "Pung Shu," a superstition relating to the locations of places.
Scans.
The common bean is a native of South America and was introduced into Europe during the sixteenth century. Now it is represented by over 150 varieties. The big broad bean is probably a native of southwest Asia and northeastern Europe. The broad, but not thick, lime bean, called by some "butter bean," is a pole variety that comes from South America.

Hadn't Got to That.
Phlanthropist Person—"Have you never striven my friend, to attain a higher life?"
Maudie Marmalade—"Well, mister, we ain't got past corned beef an' beer yet, but whether we'll ever reach champagne and chicken I can't bloom' well say."—Sydney Dultett.

If there's a better value to be had at the same cost, that is important to you. If you study the ads you will ascertain facts of this kind.

READ THE CLASSIFIED ADS

Fats in the Body.
Fats in the body occur under the skin in the muscles and around certain organs. They serve as a protection for the body against injury and serve as a stored supply of fuel. In case food cannot be taken. Fats are liquid in the body and are stored in albuminous cells.
To "finance" a "To Let" advertising campaign you need only set aside—for perhaps a few days—a part of your pocket money.

Classified Ads are cheap-effective.

CLOSBOK STORE

TWIN FALLS, IDAHO

Boyd Hospital LABORATORY

Twin Falls, Idaho

Established 1905

A new department of the hospital, fully equipped to lend valuable aid toward making a diagnosis.

Without a proper diagnosis, no disease can be properly treated.

Diseases, such as typhoid, syphilis, malaria, tuberculosis, anemia, influenza, obscure diseases of the blood and nervous system, Bright's disease, and cancer, can be diagnosed by laboratory tests alone.

In nearly every disease known, valuable diagnostic, as well as prognostic aid can be given by careful examination of the blood, urine, sputum, gastric contents, specimens of tissue, such as cancerous and tuberculous glands, bacterial examinations of pus and spinal fluid contents, and inflammatory exudates, such as pus in the lung, etc.

No disease is of such minor importance that the patient is not justified in demanding every means toward an accurate diagnosis.

GRAND OPENING DANCE

AT

Lavering Pavillion

SPECIAL SALT LAKE ORCHESTRA

On with the dance. Let joy be unfolded. Your enthusiasm for dancing has been long pent up. The mood to trip the light fantastic can now be given full sway —so on with the dance."

The Lavering Pavillion will be conducted in a high class manner. No improper dancing will be permitted.

Thursday Evening, May 15
