

# TWIN FALLS DAILY NEWS

VOL. 2, NO. 31.

TWIN FALLS, IDAHO, WEDNESDAY, MAY 14, 1919.

PRICE FIVE CENTS

## REQUISITIONING DETERMINED ON BY DEPARTMENT

Government Will Use Every Emergency War Power to Secure Material for Battle Ships Authorized by Congress

## CONSTRUCTION BEGINS ON FIRST OF JULY

Bids Asked at Time Announcement is Made; Lack of Competition Assigned as Reason Why Step is Needed.

WASHINGTON, (AP)—The navy department has decided to exercise its authority under emergency legislation and requisition steel for battle ship construction. The price to be paid will be fixed later, on a basis of market conditions and quotations rather than on an examination of the steel makers' books.

Decided at Conference. This course was determined upon at a conference today between Acting Secretary Roosevelt and officials of the department at which bids submitted yesterday for 14,000 tons of structural steel were considered. The bids virtually were duplicates of those previously submitted which were rejected as showing that there had been no competition.

Must Start Soon. The fact that two of the four battleships for which the steel is needed are authorized under a provision that actual construction work must start prior to July 1, 1919, prompted the department to resort to emergency powers to obtain the necessary steel.

No decision has been reached as to what companies will be called upon to deliver the steel.

## SIGNAL HONOR ACCORDED TO IOWA SOLON

Senator Cummins Chosen President Pro Tem at Republican Organization Conference—Lodge Is Party Leader.

WASHINGTON, (AP)—Senator Cummins of Iowa, favored by the progressive group, was chosen unanimously for president of the temporary committee at the organization conference today of republican senators. Senator Lodge of Massachusetts, was re-elected party leader and discussion of the controversy over committee chairmanship for Senators Penrose of Pennsylvania and Warren of Wyoming was postponed.

Fight in Absence. Senator Lodge was authorized to appoint a committee on committee chairmanship to report next week to the progressives against election of Senator Penrose to the chairmanship of the finance committee and of Senator Warren to the chairmanship of the committee on the judiciary. The progressives, however, at a meeting before the conference, determined to pursue their opposition to the senate floor if necessary. Some of the progressives said they had reports that the democrats might be asked to cooperate to elect Senator Penrose by assailing themselves when the finance committee is organized and thus offsetting the progressive opposition.

Majority in Conference. Forty-three of the 49 republican senators and senators-elect attended the conference today. The absentees were Senators Cummins, La Follette of Wisconsin, Green of North Dakota, Townsend of Michigan, Leonard of Wisconsin, and Fall of New Mexico.

Other Candidates Named. Beside the president pro tempore, the conference chose its candidates for all other senate offices. George A. Sanderson, a Chicago attorney, was elected to be secretary and David Barry, a Providence, R. I., newspaper man, for sergeant at arms.

Curtis is Whip. WASHINGTON, (AP)—Senator Curtis of Kansas was selected party whip without opposition and Senator Waldworth of New York was again chosen secretary of the conference.

Senator Cummins was nominated for president pro tempore by the progressive group, and was chosen by acclamation. Senator Knox of Pennsylvania nominated Senator Lodge for party leader and chairman of the conference.

Brandegee Recognized. Senator Brandegee of Connecticut, identified with the regulars, will be the chairman of the committee of nine authorized to assign committee places.

## Refer Objections from Germans to Allied Committee

Five Representatives of Great Powers Will Consider Points Raised Against Treaty.

PARIS, (AP)—The council of four of the peace conference appointed this afternoon a sub-committee comprising one member from each of the five great powers (Great Britain, France, Italy, the United States and Japan), to deal with objections and proposals from the German peace plenipotentiaries. The three German notes delivered to the council of four, the Havas agency says, deal with the following subjects: The first, the effect of the peace terms upon Germany's economic situation; the second, the manner in which President Wilson's points are applied, which is protested against; and the third, with the principles of the reparations demands, which are attacked, although it is declared that Germany is prepared to subscribe to them.

## AUSTRALIA CUSTOMER OF AMERICAN YARDS

Modified Order on Shipping Will Permit Construction in This Country.

WASHINGTON, (AP)—Australia may become a customer of American shipyards now that President Wilson has modified the order prohibiting construction in this country for foreign account. Information was received today by the bureau of foreign and domestic commerce that the Australian government desires to place orders here for at least eight ships, to be followed by other orders later.

IDAHO WEATHER. Tonight cloudy; Thursday showers and cooler.

## WORLD NEWS EVENTS

COLUMBUS, O., (AP)—The triennial convention of the Brotherhood of Railroad Trainmen opened here today and will continue twenty-five days.

PARIS, (AP)—The German peace delegation is busy preparing voluminous counter proposals for submission to the allied and associated powers as substitutes for terms of the peace treaty. Several economic sub-committees of the delegation met today, including the one on coal supply.

PORTLAND, Ore., (AP)—Oregon must recruit an army of from eight to ten thousand members before May 25 if the Oregon berry and fruit crop is to be saved. J. W. Brewer, federal farm help specialist, said today. Any person is eligible, providing girls are over fifteen years of age, and boys over fourteen years. All applicants are asked to sign up for a minimum of two weeks work.

CHICAGO, Ill., (AP)—Three thousand milk wagon drivers today went on strike in Chicago, virtually tying up the city's milk supply. Representatives of the drivers, who are asking wage increase from \$26 a week and commission to \$35 and commission said emergency deliveries would be made to hospitals and baby asylums. While the strike had been threatened for several days, the first definite information received by the public was in the form of empty bottles at back doors today.

## Moscow the Object of All-Russian Movement

Operations About to Begin to Capture Ancient Muscovite Capital.

PARIS, (AP)—Plans are being made by the all-Russian government at Omsk to begin an advance on Moscow. Admiral Kolchak, the head of the government, declared in an interview with the correspondent of the Petit Parisien. In discussing the military situation in eastern Russia the admiral said: "Owing to the thaw and the difficulty of moving the artillery forward, a lull prevails. But the operations will be resumed before long and we will try to establish and guarantee communication with Archangel and also with General Denikin in the south.

Capture Supreme End. "The advance on the direction of Moscow will then begin. The capture of Moscow is the supreme end, the political aim, to which our wills must bend. But we must first reach the purely strategic aim which is the destruction of the soviet army. This is the end to which I will devote my attention."

After the final victory, the admiral continued, a national assembly will be called to which Admiral Kolchak will hand over his authority.

BEIGIAN MINERS KILLED BY FIRE DAMP EXPLOSION

BRUSSELS, (AP)—An explosion and fire damp in a mine at Hyon-Ciply, near Mons, yesterday resulted in death and injury to many of the miners. Five dead and seventeen severely injured have already been taken out of the mine.

## CARTHAGE WAS PROTOTYPE OF GERMAN STATE

Paper in C. Propaganda Agency Submitted to Teuton Delegation at Paris.

THE SITUATION IS SOMEWHAT HOPEFUL

Punic Nation Rebuilt After Almost Utter Destruction by Rome After Second War with Germany.

COBLENZ, (AP)—The American military authorities are permitting a certain amount of comment on the peace terms by the newspapers in the area of occupation. The Volks Zeitung of Coblenz, after dwelling upon the severity of the terms, says: "And yet the dangers of rejecting the terms should not be underestimated. Our situation is no more desperate than was that of Carthage at the end of the Second Punic war. The inhabitants of Carthage were stripped of everything which so far as could be foreseen would be of the slightest value to them in recovering their strength. Nevertheless the city found means to rebuild itself."

In the first days after the publication of the peace terms, a majority of the Germans were inclined to take the attitude that the conditions were utterly impossible. They now have had time for reflection and reports from intelligence officers to army headquarters say many civilians are changing their point of view and are taking into consideration what would happen if the German government refuses to accept the allied conditions.

## Austrian Peace Delegation Gets Pleasant Reception

Marked Contrast with Manner in Which German Delegation Was Greeted.

PARIS, (AP)—The Austrian peace delegation arrived at St. Germain-Bellevue at 5:35 o'clock this evening.

The first meeting with the Austrian delegates presented a sharp contrast to the first meeting with the German delegation. The atmosphere of the reception committee was friendly. Chancellor Brenner appeared in the doorway of the car with his hat in his hand and with a congratulatory smile that put the reception committee quickly at its ease. The allied powers to be represented at St. Germain in the negotiations with the Austrians will be less numerous than those at Versailles, comprising only the states which declared war upon or broken diplomatic relations with Austria-Hungary.

## Pairs Ignored on Organization of the Upper House

Republicans Serve Notice That There Must Be Full House at Organization.

WASHINGTON, (AP)—Senator Lodge was authorized by the republican conference to notify democratic leaders that pairs between republican and democratic senators would not be recognized on votes for organization purposes. Republican senators were also instructed to send a similar notice to the democratic senators paired with them. Republican leaders said the effect would be that all members of the senate would be required to be present when the matter of reorganization is brought up.

## \$80,000 Apartment House Is Projected

Chester S. Clift to Put Up Building on Second Avenue North.

Erection by Chester S. Clift on two lots at the corner of Second avenue and Fourth street north of an apartment house involving a cost of \$80,000 is one of the larger building projects of the immediate future in prospect for Twin Falls. Practically all arrangements preliminary to the erection of the building have been completed. It is stated, and construction work is expected to start in the near future. Clift is well known in Twin Falls as a builder of a large number of dwelling houses. The manifest need in Twin Falls for an apartment house of the type planned, he indicated, has induced definite steps toward supplying it by this means.

## Bankers Must Extend Credits Says Owen

ST. LOUIS, (AP)—American bankers must extend credit to business concerns of the country at a lower rate of interest to stimulate industrial activity, United States Senator Robert L. Owen, chairman of the senate committee on banking and currency, declared here today in addressing the Missouri Bankers association. Senator Owen also recommended the purchase of European government bonds by American investors as a means of building up international trade relations.

## Low Wages No Remedy for High Living Cost

SPRINGFIELD, Mass., (AP)—Robert R. Cleland, of this city, president of the National Confectioners' association, in his opening session today, predicted that the cost of living would remain high and costs of raw material would increase rather than diminish, and that no relief could be expected in lower wages. In fact, he said, an effort should be made to maintain the present high wage standard.

## GOES TO REPORT ON SITUATION IN HUNGARY

VIENNA, (AP)—Professor Philip C. Brown, of the American embassy here, has gone to Paris to report to the American peace delegation on the situation in Hungary. He returned yesterday from a visit to Budapest. The Hungarian communist army claims, according to Budapest dispatches received here, that it has captured 100,000 rifles against the Czech-Slovak at Puk, sixty miles north of Budapest.

## SUBSTITUTE DRAFT FOR LEAGUE ARRIVED TOO LATE

WASHINGTON, (AP)—A substitute draft for the original covenant of the league of nations prepared by Senator King of Utah, Democrat, reached Paris is too late for consideration, the senator was advised today by Colonel E. M. House, of the American peace delegation. Colonel House said he was sure that the amended draft as adopted by the peace conference would be regarded by Senator King as a "better document" than the original.

## ITALIAN INSISTANCE ON SECRET TREATY DROPPED BY DELEGATES

Status of Fiume Still Moot Question as Idea of Free City Is in Disfavor—Author Talks in Threatening Manner After Interview with King.

## AUSTRIAN PORTS AND WATERWAYS ARE CONSIDERED BY THE COUNCIL

ITALIANS MOVING MILITARY FORCES LONDON, (AP)—The Italians are landing large military forces at Zara and Sebenico on the coast of Dalmatia, according to a Benter dispatch from Belgrade, the Serbian capital. The troops are being moved eastward and are fortifying the ridges and passes.

PARIS, (AP)—Italian delegates to the peace conference are no longer insisting upon the fulfillment of the secret treaty of London and this part of the controversy relative to territory on the eastern shore of the Adriatic is tending toward an adjustment, according to those who have taken part in recent conferences. The status of Fiume is still being discussed as the plan to make it a free city similar to Danzig has not proved acceptable.

## INTERNATIONAL PEACE MEETING SCORES TREATY

Women's Congress at Zurich Denounces the Proposed Pact of Nations in Strong Resolutions.

## DECLARE IT DENIES SELF DETERMINATION

Deplores Spread of Famine and Pestilence and Urges More Widespread Distribution of Food.

PARIS, (AP)—The peace conference today received from the women's international congress for permanent peace at Zurich the resolution adopted yesterday by the conference, denouncing the terms of peace with Germany. The resolution declares that the terms tacitly sanctioned secret diplomacy. It states, and construction work is expected to start in the near future. Clift is well known in Twin Falls as a builder of a large number of dwelling houses. The manifest need in Twin Falls for an apartment house of the type planned, he indicated, has induced definite steps toward supplying it by this means.

The conference at Zurich also telegraphed to the peace conference a resolution which had been adopted unanimously, deploring the famine and pestilence in central and eastern Europe and urging that the inter-allied war organization be transformed immediately into an international peace organization to deal with food, finance and transport throughout the world. The resolution also urged that relief be organized immediately and that the supply of food and transport is not sufficient, all the countries be rationed. It was added that no luxuries would be transported from one country to another until relief has been sent to all peoples.

Deplores Famine. The conference at Zurich also telegraphed to the peace conference a resolution which had been adopted unanimously, deploring the famine and pestilence in central and eastern Europe and urging that the inter-allied war organization be transformed immediately into an international peace organization to deal with food, finance and transport throughout the world. The resolution also urged that relief be organized immediately and that the supply of food and transport is not sufficient, all the countries be rationed. It was added that no luxuries would be transported from one country to another until relief has been sent to all peoples.

## Mrs. Roosevelt Back from Trip to France

Visits Grave of Her Son; Declines to Comment on Her Trip Abroad.

NEW YORK, (AP)—Mrs. Theodore Roosevelt, widow of the late former president, returned from Europe today on the steamship Giuseppe Verdi which she boarded at Genoa. Mrs. Roosevelt will not discuss her trip abroad, where she visited the grave of Quentin, her aviator son, who was killed in war. Mrs. Roosevelt said she probably would return at once to the Roosevelt home at Oyster Bay, N. Y.

## SURPLUS MATERIAL SOLD BY THE UNITED STATES

WASHINGTON, (AP)—Surplus war materials to the value of \$110,000,000 were sold by the war department during the week ended May 9. The ordinance department disposed of large quantities of ammonium nitrate to the department of agriculture and the allied nitrate commission for conversion into dynamite which will be used largely in clearing land for agricultural purposes and in the construction of roads.

## WAIT FOR NO-4 BEFORE BEGINNING LONG FLIGHT

WASHINGTON, (AP)—While the navy department was informed late today that weather conditions were favorable for the start of the trans-Atlantic flight, it was said that the war planes now a Trepassey bay would not get away until after the NO-4 has arrived. This may delay the start until Friday.

Points Out Alternative BOMB, (AP)—Gabriele D'Annunzio, the author aviator, and Prof. Luissati had a long interview today with King Victor Emmanuel. Afterward Prof. Luissati gave to the American newspaper men a statement setting forth Italy's position regarding Dalmatia. In this statement he said: "I hope that free America will not take the responsibility of appearing like an oppressor to the eyes of the millions of Italians desiring to reunite with their mother country." Prof. Luissati likewise expressed the hope that President Wilson "would not put France and England to the alternative of breaking their agreements (with Italy) or breaking with America."

Summary of Progress. Several additional notes from the German peace delegation at Versailles now are before the allied powers for consideration. Their contents have not been made public. The allied powers also had under consideration the subject of ports and waterways and various details of the Austrian peace treaty now being framed. The subject of the German ships, both "wood hulk" and "iron hulk" type, is being pressed upon the attention of the peace makers. Poland is claiming some of the warships which Germany surrendered.

For Pooling Plan. Today's Paris advice also report renewed efforts by the British delegation to secure the pooling of former German merchant vessels. It is sought to have the ships placed in accordance with tonnage losses by the various nations during the war. This would throw the ships interned in the United States prior to America's entry into the war into the pool, instead of their all being retained by this country.

The leading figures of the Austrian delegation commenced to arrive at St. Germain-Bellevue, near Paris, yesterday in a steamer before leaving Vienna. Karl Renner, chief of the delegation, said that he would do his best to get a good terms as possible, but that a "second peace" could expect but little.

Reject Food Offer. It has been announced that the Bolshevik government of Russia has rejected the offer made through Dr. Fridtjof Nansen, the Norwegian, for the Soviet regime would cease hostilities against other Russian factions. Nevertheless, Dr. Nansen has gone to the house of commons regarding the Premier Lenin, regarding food relief.

Andrew Bonar Law, government leader in the British house of commons, said yesterday that he had not been asked by the allies was contemplated "at this moment." He admitted, however, that British warships were at Helmsingfors, Finland, to act in case of emergency.

Truce is Arranged. It is reported from Paris that the Poles and Ukrainians have arranged for a truce and it is indicated they may join forces against the Bolsheviks.

LONDON, (AP)—Questioned today in the house of commons regarding the Stockholm report that the entente powers are preparing for naval and military operations against Petrograd, Andrew Bonar Law, premier of Great Britain, said a British squadron had been at Helmsingfors for a long time to meet whatever emergencies might arise but he had no definite information as to whether the report is contemplated at this moment.

MOST SELECTED AS A MILITARY ATTACHE OF FOCH PARIS, (AP)—Colonel Bentley Mott, formerly representing General Foch at the headquarters of Marshal Foch has been appointed military attache at the American embassy in Paris, succeeding Major Barclay H. Warburton of Jacksonville, Pa., who is going home for discharge.

DUTCH DENY SAYING THEY WOULD SURRENDER TO KAISER THE HAGUE, (AP)—The Dutch government denies that it has decided to surrender to the German emperor. The question at present, it contends, concerns only Germany and the entente.

# GERMAN PEOPLE HYPNOTISED IS EBERT'S THEORY

### President of Germany Expresses Confidence in Future of His People; Denies That He Will Resign Over Treaty.

BERLIN. (AP)—Declaring that the terms of peace presented by the allied and associated governments to Germany "contemplate the physical, moral and intellectual paralysis of the German people"; that Germans were "hypnotized" and that President Ebert was looking forward to the future "with gravest apprehensions." President Ebert said today that he still hoped that American democracy would not accept the treaty framed at the peace conference. He rejected with disdain the suggestion that the present German government would resign rather than accept or reject the terms, saying that the government would "hold out to the end."

**Worst Ever Proposed.**  
"When in the course of 2,000 years," he asked, "was ever a peace offered to a defeated people which so completely contemplated its physical, moral and intellectual paralysis as the terms enunciated at Versailles?"  
"The German people," President Ebert continued, "is only beginning to wake from the hypnotic slumber which has been lulled because of its solid faith in the sincerity and truthfulness of Mr. Wilson's program and his four-point plan. The awakening will be with gravest apprehensions. In the face of the cold, naked realities we still consciously cling to the name of Wilson and the United States and the conception of the democracy of the league of nations."

**Are Still Dazed.**  
"We cannot believe that this has all been an illusion and that the confidence and hopes of a whole people have been duped in a manner unknown to history. Even now optimists are saying, 'Wilson will not permit it, he dare not possibly permit it.'"

The president added that he and his party could not blame the pan-Germans for the "immoderate haste with which they are now digging up their former speeches and editorials in which the social democratic and liberal parties ridiculed for their belief in President Wilson's program."

"I and my colleagues," he said in conclusion, "upon whom rests the terrific burden of the forthcoming decisions, hope and pray the German people who staged all on President Wilson and the United States shall not find themselves deceived."

**Has Faith in Future.**  
"Notwithstanding the night now covering it, I have abiding faith in the future of the German people and in the unquenchability of its soul. This people, who has given the world so much in science, learning and industry, will come down to this earth to perform a cultural mission to perform and ethical treasures to bestow."

President Ebert closed his statement by declaring the present government would "hold out to the last" and scout the idea that it would "make room for others to accept or reject the treaty."

# SHIPPING POOL WITH BRITONS UNLIKELY

### Efforts to Secure Such Agreement Regarding German Vessels Unsuccessful.

WASHINGTON. (AP)—Officials here do not believe that renewed efforts by the British government to secure an agreement calling for the pooling of former German vessels would be successful. Opposition by the United States when the proposal first was advanced defeated the British plan in the supreme economic council, the decisions of which must be unanimous to be binding, and it was said here today that there was no reason to believe President Wilson had changed his mind on the subject.

**Has Much Shipping.**  
The United States has 654,000 tons of German shipping, including the finest and largest of the former German liners. Approximately 350,000 tons of American shipping was lost in the submarine warfare and the remainder probably will be retained by the United States and paid for in the final settlement of this country's claims against Germany.

# HETMAN ARRIVES IN STOCKHOLM ON WAY

STOCKHOLM. (French wireless service) (AP)—The arrival here of General Skoropadski, former hetman of the Ukraine, is reported by the newspapers. General Skoropadski is on his way to Helsinki, Finland, where it is understood he will take part in a conference over measures to be taken against the Russian Bolsheviks.

# RETURNED EXTRA CHANGE BY MAIL

### Soldier Got Four Dollars Back on Dollar Bill But Sent It Back.

RAWLINS, Wyo. (AP)—Another tribute to the American army man was received recently by Mrs. Beak, retail manager of a local cafe. It was a letter containing four dollars Beak didn't know he had lost. A returned soldier of Astoria, Ore., was the author of the letter which follows:  
"Traveling on a troop train, I passed Rawlins in January. I ate at your cafe and got \$4 change from a one dollar bill. Soldiers are proverbially 'broke' you know, so I regarded it as a God-send. Now I am glad to return the \$4 to you without interest. Thanks."

# LAVA SPRINGS IMPROVEMENTS COMMENCE SOON

### Rehabilitation of Famous Resort Will Start Shortly; New Superintendent Now in Full Charge.

POCATELLO, Idaho. (AP)—Work immediately is to get under way for the rehabilitation of the famous Lava Springs, this county, insofar as the state's interests in the famous baths and medicinal plunges is concerned. The last state legislature appropriated \$50,000 for building purposes, against the previous appropriation of \$200,000 appropriation. Last term the fund was used for the purpose of erecting a house for the superintendent. This season the fund will go toward the improvement of buildings for the public, rebuilding of the side structures, reconstructing the bath house proper, and the addition of a building 10x12 feet, costing approximately \$25,000 and worked out in the shape of an "L."

**Temperature Hot.**  
The temperature of the water of the upper pool is very high, and as this pool has long tested curative properties for such ailments as rheumatism and kindred diseases, special attention will be taken to bring it again into use. It has been abandoned for the past three or four years, as funds were depleted by the Alexander administration for building.

**Approves Bill.**  
Governor Davis, on the other hand, has approved the \$50,000 fund and operations will proceed with vigor. The bill was passed by the legislature. W. L. Ash, took possession of the state plant a few days ago, and will be assisting in the program by Jack Marston, a local contractor, who has been assigned to the project. A special commission to view the property for the commission, and to go ahead with actual construction work. This will not be done by contract, but by direct employment, as the state deems it fit.

**Plans Are Complete.**  
The state's plans are out of the way, and as Lava Springs has grown into a village of some importance during the past three years, and several institutions are in course of construction, including hotels, the state will endeavor to bring its property into popularity and make it a place of enjoyment for the public, as well as providing a space of interest to the sick.

# Bolshevik Meet with a Defeat

### Ukrainians Win Over Reds; Revolt Against Lenin Rule Is Spreading.

VIENNA. (AP)—Russian Bolshevik forces have met with new defeats from Ukrainians led by Sima Petlin. Zelinsky, another peasant leader, is leading fresh revolts throughout the governments of Kiev, Tchernigov and Poltava and the Bolsheviks have been forced to reinforce their troops in these districts.

# BLOOD POISONING

How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut! Hamlin's Wiper will be used to force an effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection. It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, etc. It is as reliable, too, for stiff neck, sore feet, cold sores, cancer sores, caracae and tooth aches.  
Get from druggists for 30 cents. If not satisfied return the bottle and get your money back.  
It is compounded with **hick headache**. Just **Wipe!** Wipers, pleasant little pink pills, 30 cents. Guaranteed.

# STORM MOVING IN WAY OF SEAPLANES

### Good Weather Predicted for Tomorrow; Destroyers Watch Progress of Airmen.

POSTA DELGADO. (AP)—The meteorological ships between the Azores and New Foundland report a storm moving over the course of the American airplane flight today but predict good weather for tomorrow with strong northeasterly winds. It is believed here that the seaplanes will start from Trepansey tomorrow, May 14.

The destroyers which are stretched out at fifty mile intervals along the coast to guide and assist the fliers, will emit heavy black smoke the day of the flight and will burn flares and shoot star shells at night. As no time will be wasted in waiting for the minutes flying distance from a destroyer.

**Land in Bay.**  
The planes will fly direct to Ponta Delgado and land in the bay. If they are unable to complete the journey, however, they will land at Lorta, 150 miles from here, where the cruiser Columbus is stationed with supplies to facilitate the continuance of the flight to Ponta Delgado.

The planes will remain moored here overnight and will be overhauled if necessary before proceeding to Lisbon. Fourteen destroyers will be stationed between this port and Lisbon. Three already are in position and the others will leave here tomorrow.

**NC-4 Leaves.**  
CHATHAM, Mass. (AP)—The naval seaplane NC-4 after a brief flight along the bay, set out today in a northeasterly direction, possibly on her cruise to join the NC-5, waiting at Trepansey, N. F., for favorable weather to start on the projected trans-Atlantic flight.

**Ready to Go.**  
"TREPANSEY," (AP)—Though Commander John H. Tower, chief of the American naval transoceanic flight expedition, was having difficulty keeping in touch with Lieut. Commander A. C. Bond, flying from Weymouth, Mass., in the NC-4, he believed that his associate would attempt a non-stop flight to this harbor.

The crews of the NC-4 and NC-5, anxious to have the NC-4 outfit join them for the ocean cruise, arranged for a scout plane to meet Lieut. Commander Bond at sea and guide him to the moorings here, which the belated plane was expected to reach about dusk.

**Go At 6 O'Clock.**  
ST. JOHNS, N. F. (AP)—American aviation officers established here in connection with the possible trans-oceanic flight of the navy dirigible C-5, stated today that the American seaplanes were prepared for a hop off at Trepansey at 6 p. m. unless unfavorable weather developed.

# "Fordson" Tractor

Experience has pointed to the small, light tractor as being the one machine that will fill all varying conditions satisfactorily.  
The "Fordson" is constructed to fill this condition. It is adapted for use on small farms, as well as on the largest. It will pull all farm implements and do the work generally done by horses on the farm. In addition, by its belt pulley the tractor will drive farm machinery, such as a thresher, ensilage cutter, etc.  
This tractor is designed as a two-plow machine and will pull two 12-inch plows in the stiffest soil.  
The fuel consumption varies with conditions; two and one-half gallons of kerosene per acre being a fair average. The amount of ground plowed also depends on conditions; eight acres in ten hours would strike an average.  
Let us demonstrate to you the good qualities of the "Fordson" tractor.

# MOONEY STRIKE COUNTED JUNE 2

### Officials of Chicago Labor Council Announce Program to the Public.

CHICAGO. (AP)—Officials of the Chicago Federation of Labor announced today that the wages of organized American labor on the "Mooney general protest strike program" will be counted in public on June 2 by the federal intervention committee.

**Accept Program.**  
It was stated that 80,000 organized workers in Chicago have voted to accept the program and that 4,000,000 votes would be cast throughout the country to decide whether the subjects of industry shall remain motionless until Thomas Mooney and Warren K. Billings are released from prison.

**Vote Unanimous.**  
The Chicago stockyards labor council, representing 30,000 workers, voted unanimously for the general strike in behalf of the two men convicted of participation in the preparedness day bomb explosion in San Francisco. Sixty thousand iron and steel workers here also favored the strike, it was announced.

# MEXICAN MINISTER GIVES CREDENTIALS

### Relations with France Resumed After Short Diplomatic Disagreement Over Delay.

PARIS. (AP) (Havana)—Alberto J. Pani, the new Mexican minister to France, presented his credentials to President Poincare yesterday. The presentation was accompanied with the usual ceremonies.

**Ordered to Withdraw.**  
Senor Pani's withdrawal from France was recently ordered by the Mexican government because, it was stated, of the long period he had been kept waiting in Paris without having been given an opportunity to present his credentials. On May 11, however, it was announced by the minister, who was still in Paris, that he had been given notification that he might present his credentials May 13.

# TREATY GAINS A SOCIALISTIC COMMENDATION

### American Pro-war Social Democrats Say It Is Greatest Advance in a Thousand Years of History.

NEW YORK. (AP)—An appeal for support of the peace treaty which is declared to be in accord with President Wilson's fourteen points and to solve "intelligently and humanely" many of the world problems was issued today by the Social Democratic League of America. The league which is described as the socialist organization which supported the war, is headed by Alton J. Benson, socialist candidate for president in 1916. John Spargo, Mrs. Charlotte Perkins Gilman, Charles Edward Russell, William English Walling and J. G. Phelps Stokes.

The appeal declares that the peace conference in a few months "has carried us further along the road to international democracy than we have traveled in a thousand years" and calls on all American socialists and democrats to support the peace treaty and the league of nations.

# POLAND AND UKRAINE THE RUSSIAN KEYS

### Ukrainians Unknown to Many of the Nations of Europe; People Are All Mostly Reliable.

VIENNA, (Correspondence of the Associated Press).—That Poland and the Ukraine are the keys to Russia in the conviction of the Associated Press correspondent who has just traveled over those two countries and interviewed dozens of the highest officers, officials and citizens.

Talk of Poland. There has been more talk than action concerning Poland as a barrier to Bolshevism but there has been not only no talk but some unfavorable action regarding the Ukraine which country apparently is almost unknown to a majority of the people in the outside countries. The Ukraine has been visited in a casual manner by strolling officers and missions. A single American officer who attempted to visit Kiev, capital of the Russian Ukraine, was prevented by the French at Odessa, according to the statement made to The Associated Press by General Potura at his railway car capital on a siding at Proskurov.

Plenty of Food. There is plenty of food in the Ukraine but Bolshevism obtained the upper hand there owing to use of money from Moscow, agitation and the buying of troops which other nations could have been faithful. What is new important is that it should be understood that there really is a national movement in the Ukraine, and that this movement with a little help, allied recognition and moral support, would manfully continue the struggle against the Moscow invaders and aid in preventing the invasion of Rumania, thus closing the Bolshevik corridor to Russia.

Business is Pathetic. The pathetic part of the whole business is that the Poles and others who it is felt here should be co-operating with the Ukrainians spend their time in describing the Ukrainians led by a group of adventurers, particularly with regard to the Ukrainian claim to the oil fields of Galicia. The version told the Associated Press correspondent by an American oil man who has spent 25 years in these countries is that the Polish refinery owners, backed up by Austrian capital, first attempted to seize the oil fields and then turned to the outside to visit the Ukraine seeking unbiased information. The people who occupy what they term West Ukraine, the old East Austrian Galicia province, are actually are as soon as the invaders. For the most part they are poor which is possibly due to lack of enterprise in—the former Russian empire. They are also unlettered. They would be a better off if they were nearer to them. But they have the spirit of their race and desire to be their own masters like the Poles and the Czechs. The latter have understood this fact.

Neither are the people of Russian or Greater Ukraine political adventurers. They are related by race with those of old Easter Galicia at least so far eastward as Follava. As for the independent passed from Lomborg into the Ukrainian army it was apparent that these men were a different race from the Poles; they were cultured but vigorous, hard-minded men determined to hold their soil. As the correspondent went eastward he found more Russian types and manners but many of the men of the Russian Ukraine are as different from those of Greater Russia as daylight is from darkness. This is particularly true of the soldiers who came from the Poltava district. They are men of intelligent, food fighters, kind hearted, openhanded and keenly aware of the wealth and possibilities of their new country and its wonderful black soil which has given the Ukraine the proud name of "Europe's granary."

FINE TOURIST SEASON ASSURED FOR YELLOWSTONE. CODY, Wyo., (P)—With the best tourist season in the history of the Yellowstone National park in prospect, the opening date, according to information received here has been advanced three weeks this year. July 7, was the date originally selected for the opening but a change has been made so that tourists may enter the park on June 30. Special train service has also been arranged by the railroad administration and transportation cars from Cody to the park will be ready before that time. Tremendous crowds are expected to enter the park and already plans are under way for the enlargement of places of accommodation for the visitors.

# MARY O'TOOLE DOTES ON BEING FIRST

Being "the first woman" in many affairs has been Miss Mary O'Toole's specialty. In Wfa. She was the first woman to be naturalized in Steuben county, N. Y., in 1900. She was the first woman to be appointed office county photographer. She was the first woman to be made director of the Washington D. C. chamber of commerce and now she is the first woman to be elected as director in the Citizens Savings Bank at Washington. She is a law graduate.

# IRISH SOCIETY LEADERS DENIED ANY RECEPTION

### Premier Lloyd George Cancels Agreement to Meet Delegates from America Because of Conditions in Ireland.

LONDON, (P)—It was learned last night in official quarters that Frank P. Walsh, Edward F. Dunne and Michael F. Ryan, representatives of Irish Societies in the United States who have been visiting Dublin and other cities in Ireland will not be received by Premier Lloyd George on their return to Paris nor will they be accorded any official or semi-official recognition.

Hasse Declines. According to a Reuter's dispatch from Paris, Col. E. M. House, who had promised to endeavor to arrange an interview between the American delegates and the British premier, has now in view of their activities in Ireland decided not to act as an intermediary.

Attack Premier. The report that the premier had cancelled arrangements to receive the delegates was current in Dublin today but could not be confirmed. Mr. Dunne and Mr. Ryan reached London tonight but neither will make any statement. Walsh remained in Dublin when his colleagues left that city and is expected to arrive here tomorrow.

Attack Premier. Mr. Lloyd George has been subjected to most bitter attacks for his alleged encouragement of the delegates activities, which are regarded as unwarranted interference with British domestic affairs. Even a serious journal like the Spectator has gone so far as to assert that a "dangerous conspiracy" is afoot for committing the premier and the British government to virtual recognition of the Irish republic. Other newspapers complain that the fact that the delegates have fraternized with Sinn Fein leaders has given the Sinn Fein movement new life, besides placing the British authorities in Ireland in an embarrassing position. The question has been asked what would be thought if a British delegation should visit the United States on a mission of a like character.

BELOGAN ORDER FORMED TO AID WAR VICTIMS. BRUSSELS, (P)—The Belgian Order of St. John of Jerusalem, created to aid victims of the war, has opened a subscription to present Herbert Hoover, the food administrator, with an address and a work of art symbolizing the energy he has displayed in securing Belgium since the war began. The Belgian government recently nominated Mr. Hoover "Friend of the Belgian nation."

# IRISH DEMAND RIGHT TO SIT IN CONFERENCE

### Sinn Fein Delegates Present Memorial to Premier Clemenceau Asking Formal Recognition by Peace Delegation.

PARIS, (Correspondence of The Associated Press).—A special appeal in behalf of Ireland was made to President Wilson by Sinn Fein, O'Connell, the Sinn Fein "representative of the Provisional government of the Irish republic," when the Irish delegate laid the Irish memorial before the peace conference. The appeal was contained in a letter to President Wilson asking him to urge the peace conference to invite the Irish national representatives to be present at its deliberations. Mr. O'Connell also urged President Wilson to support the claim to freedom which the Irish representatives wish to lay before the conference.

Refers to Memorial. Referring to the memorial in which he had recited the claims of the "Irish republic" to a right to join the league of nations as an independent state, Mr. O'Connell wrote to the president: "To what has been said in that memorial, urging the justice of letting Ireland's claim to freedom be heard before a political status hateful to her is stamped with the approval and endorsed by the power of the free nations of the world, may I not add that the people of Ireland look hopefully to you in a special degree for countenance and honor, because you are the honored president of that republic which counts among its most loyal and devoted citizens the greater part of the Irish race and because they recognize in you the clearest exponent of principles of freedom the world has seen since the days of Washington."

Latest Experience. "In their latest exercise, last December, of the inherent right of self-determination the Irish people, at this world crisis, have been profoundly influenced and inspired by the words you have spoken, the principles you have expounded, the rules of international conduct you have promulgated and have brought to the nations to acknowledge. In this utterance they have found a source of great encouragement and highest hope. In particular they affirm, in applying specifically to the case of Ireland, the following passage in your speech of September 27, 1918, in New York.

Denounce Militarism. "The issues are these: Shall the military power of any group of nations be suffered to determine the fortunes of peoples over whom they have no right to rule except by right of force? Shall strong nations be free

to wrong weak nations and make them subject to their purposes and interests? Shall peoples be ruled and dominated over in their own internal affairs by arbitrary and irresponsible force or by their own will and choice? Shall there be a common standard of right and privilege for all peoples and nations, or shall those nations choose to which they like the observance of common rights?"

In Clear Light. "In the clear light of these great words the Irish people, filled with hope and your mighty influence to prevent the exception of Ireland from the principles of common justice to which you are rallying the support of the world, to urge upon the conference the duty of inviting the Irish national representatives to be present at the conference at its deliberations, and support the claim to freedom which they are waiting to place before the tribunal of the nations."

WIRELESS WORKED BOTH WAYS. LONDON, (P)—While wireless telegraphy made it possible for German Zeppelin squadrons to approach the English coast at night and often raid London and other cities; it also was their undoing. The British one day captured a German "listening-in" set and immediately so improved upon it that the intelligence department had an instrument which picked up the faintest earth currents and magnified them by a valve amplifier. Lieut. Col. A. G. T. Cusins recently told the story to the Institute of Electrical Engineers.

Let Action Follow Thought. A philosopher once said that there is no value to any thought, no matter how fine or noble, unless it is translated into action. If you feel uplifted by beautiful music, do something that will tally with your mood, and then the music has been worth while. If you read something that is inspiring, at once do something, no matter how small, that is a little different from a little superior to your routine. The theory applies with equal truth to the reading of books as more than a pastime.—Chicago American.

Goat Good Milk Producer. Mr. Winthrop Howland of Redlands, Cal., last year had a Swiss Toggenburg goat, kept on the University of California farm, which broke the world's record as a milk producer, by over 800 pounds. For the period of one year this doe produced 2,941 pounds of rich sweet milk, or more than 24 times her own weight. The period of lactation for a good doe should be from seven to eight months.

Worth It. Tommy (laid up from eating too much dinner)—"I feel awfully sick, na, but it was worth it."—Boston Transcript.

# Losses of Ships in War Are Given

### England Suffered Most and Japan Least Among the Larger Nations.

LONDON, via Montreal, (P)—The ministry of shipping announced today that the number and tonnage of allied merchantmen lost through enemy activity in the war were as follows: Great Britain, 2,107 ships; 7,638,990 tons. France, 238 ships; 697,000 tons. Italy 230 ships; 742,000 tons. Japan 29 ships; 153,000 tons. United States 80 ships; 341,000 tons. In addition to the British ships above twenty British vessels aggregating 95,000 tons were lost on admiralty service. Great Britain desires to have German ships interned during war prosecuted among allies according to law. This the United States will not agree to.

The Scoffer. Maybe one girl in fifty has two men to choose between, but we don't believe the girl ever lived who had her pick of three.—Topeka Capital.

How Do You Find It, Neighbor? Sold the factious fellow, "The hardest thing after you make a payment down is to keep the others up."

# Ready-to-Wear Sales Reductions on Suits of Fashion

The stock has been greatly reduced in assortment by the largest business we ever had, but a few extra good suits are left that have been reduced in price now while a long season is ahead. These comprise tailored suits and more fancy garments—the season's best, many of them extra good. For \$25 to \$35 we are offering some exceptional values.

## We Have Re-marked Many Coats

Remarked them downward. When we reduce a garment it is marked on the ticket—one price to all—no one buys for less than you and our prices are equal to any. Capes, Coats and Dollmans reduced by this remarking comprise many very good garments at five to ten dollars off. Be the first to choose from them.

## Specially Pretty Silk Dresses \$35.00

When we say specially pretty—that's just what they are. These are dresses of latest styles and materials. We think they are \$40.00 to \$50.00 values that we offer for \$35.00. Of course we have others for less but this \$35.00 lot is special.

HOW IT WORKED

This man Erzberger is a real sport. He made a bet along about 1914—but about everything he had or hoped to have, as a matter of fact. Here is the premise upon which Mathias laid his wager.

Germany in the first place, cannot tolerate the presence on her frontiers of so-called neutral states insufficiently strong to preserve their neutrality, or which do not want to remain neutral.

Consequently, Germany must have sovereignty, not only over Belgium, but the French coast from Dunkirk to Boulogne and possession of the channel islands.

France would be helped in making them by decreasing her budget of naval and military appropriations, the reduction to be imposed by the peace treaty being such as would enable her to send substantial sums to Germany.

It would appear that Erzberger did not win, but he was a good guesser at that. Everything happened just as he said it should but it happened to him instead of to the other fellow.

THE POWER OF GOLD

Santieri Nuorteva is the name of the second biggest Bolshevik in America. The first is L. C. A. K. Martens, representative in chief in America of the Russian Bolsheviks.

Recently Nuorteva made this statement: "The Russian Soviet government is prepared to pay for its purchases by placing \$200,000,000 in gold in banks abroad as soon as relations are established."

Its all very interesting, this effort to gain recognition in America for the tottering forces of Bolshevism in Russia, through the back door, as it were, all propositions looking to any form of recognition having been turned down at Washington.

But \$200,000,000 is all too small a price to set upon the thing Bolshevism would purchase of America. Foreign trade of some sort is the only thing which can save the certain downfall of the Lenin-Trotsky regime, but it is not exactly complimentary to American business interests that the agents of this precious pair should assume to buy American favor with contracts for American goods.

NOT NECESSARILY REJECTION.

Although the German leaders intimate very clearly that they will not sign the treaty it is noted that they still continue negotiations and the general opinion is that the German delegates will finally affix their signatures to the proposed pact.

This could only refer to the independent socialists who are in favor of signing. It would be possible, perhaps, for those now in power to resign and allow the independent socialists to temporarily come into control of the government and accept the treaty, thus earning unpopularity, after which they could be thrown out and the other coalition forces could come back into power with the ratification of the treaty an accomplished fact.

On the other hand President Ebert denies emphatically that his government will give way to another. Hence, the only way that it can save its face and still abide by the treaty is to put the blame squarely on the shoulders of the peace delegation at Paris.

The German delegates have been granted power to sign and the blame for so doing could be attached to them. Hence, the threats of Scheidemann and the complaints of Ebert need not be taken as an indication that war will be resumed.

There is something almost comical in the whining of those men who backed a government that was pledged to demand not only the proverbial pound of flesh, but who wanted the scales of justice thrown away and their own estimates of weight taken as the standard.

In estimating the extent and character of socialistic opposition abroad it should be recalled that, according to President Campers of the American Federation of Labor, the French socialist organization is under the control of the Bolshevik element, just at the regular organization of the American socialist party was under the control of the anti-war faction when it met in convention in 1917.

Owing to the fact that families are more active than intellectuals, they have a knack of getting control of organizations in which their followers are in the minority. Hence, the idea that there will be really serious trouble on account of any appreciable body of radical workmen abroad actively opposing the league is probably ill-founded.

That the Germans would depend on such opposition to the extent of inviting the renewal of the war is hardly thinkable; granting the almost unlimited ability of Germans to misunderstand other people.

ACTIVITY IN SHIPPING LINES.

The announcement that American ship yards will be permitted to accept contracts for foreign account so far as can be done without interfering with the building of the American merchant marine, has been received with joy by yards, where the orders had been increased during the war, and from which it was feared many workmen might necessarily be discharged.

American shippers and builders are active in all lines of endeavor. Regarding the return of William H. Avery, adviser of the Asano interests, with a view of extending merger of transportation facilities it is stated that negotiations looking toward the formation of a new \$10,000,000 steamship company by powerful Japanese and American financial interests have been under way for some time, according to general reports from authoritative sources.

the newly constructed steamers at a reduced price. Much of the discussion has centered on the price per ton to be fixed for the purposes of the transfer.

According to the Asahi, a Japanese newspaper, there has been much difference of opinion between the Americans and Japanese concerned in regard to the valuation of the vessels to be taken over by the proposed company. The American promoters are said to have advocated a price of \$160 per ton, which is about the same as the price quoted on the open market in Japan, while the Japanese interests maintain that the value of the vessels built during the war should be put at approximately twice this figure.

Another factor which has entered into the negotiations is the fact that a company under joint management with foreigners cannot hope to secure protection or subsidy from the Japanese government.

Staving Off Old Age.

Among many other extraordinary plans for prolonging one's stay on this interesting planet may be mentioned that of a South African farmer who advised people to eat every day four pounds of bananas steeped in sweetened whisky, and that of a professor in the University of Pennsylvania who believed that much could be done in the way of staving off old age by frequently having one's feet tickled!

Camouflage in Reverse.

Reversal of the camouflage principle, greatly increasing the visibility of its subjects instead of concealing them by blending them with the background, is declared a possible peace development by the naval officer who developed that particular nature-faking system. Since every positive has its negative, color applications opposite to those used for confusing the eye are being studied for a possible standardized system of making distant objects conspicuous.—Popular Mechanics Magazine.

Extracting Salt From Ocean.

Experiments in Norway with a view to extracting salt from ocean water by means of electricity have been successful, and two salt factories will be started for this purpose in the near future. Each factory is calculated to produce 50,000 tons of salt a year for a start, but they will be so built that the production can be brought up to, double the quantity, if necessary. Besides the salt, different by-products will be made.

Showed Greatness in Youth.

At the age of 14, and when a sophomore at Cambridge, Francis Bacon left the university in disgust, declaring that the mode of education was radically wrong at Cambridge, and everywhere else. And Bacon lived to prove that he was conservatively right in his contention. Swift despised his teachers because he knew more than they did, and therefore had difficulty in securing a degree.

Evolution of Heroes.

Great deeds need to be tried upon the shoulders of the whole world, in order to conceive their great ideas or perform their great deeds; that is, there must be an atmosphere of greatness round about them. A hero cannot be a hero unless in a heroic world.—Hawthorne.

Easy Window Washing.

To clean windows slip on hold a newspaper under the sash fasten long enough to dampen it, crush together and rub on the window pane. The window will be cleaned, washed and dried instantly. Should lint remain brush off with a dry cloth. Cotton gloves may be worn to protect the hands.

Daily Thought.

Wisdom is oftentimes clearer when we stoop than when we soar.—Wordsworth.

COMMENT, BY AND LARGE

Pertinent paragraphs on current events, official acts and the general trend of events, at home and abroad. Edited by Captain G. L. Lengley.

GERMANY "TRIMMED" PROPERLY

When a union veteran from south-western districts last year the war between the states he invariably found a cordial and friendly greeting from his former "comrade on the other side." The German people are naturally always resigned; but the "Johnnies" were very fond of telling the veteran from the North a story which ran like this:

"Say, over at the Confederate reunion which took place last year there was one of you fellows who was sure shot up some! One eye was shot out, one ear and a part of a cheek gone and both legs and one arm had to be amputated, and he had to go through the crowd in a wheeled chair, and had a cup with a placard asking alms. Suddenly he shouted after a Confederate who, passing, had dropped a coin in his cup, and holding up a ten-dollar gold piece said, 'Hey, mister, I guess you've made a mistake!' 'Not on your life,' rejoined the fellow, 'it's the first year I've seen a dime since I got up here to suit me, and the money's yours.'"

It may not be likely that any American who reads the drastic terms to which Germany must accede in order to insure peace will be tempted to make her a contribution, but there is no question as to a general verdict that she has been "trimmed" just about right for her answer, that she will not be known for some days; and while it is almost certain that some protests will be made, it is not at all likely that they will be granted; and it is quite certain that in the end she must take her medicine, no matter how bitter!

And bitter it will be certainly be! She will lose her colonies, possessions, and all investments and improvements therein; she will be reduced to a barefooted time to time from France, to Poland, from Denmark—in short from all her neighbors, together with vast public improvements in each of them; she will be reduced to a barefooted time to time from France, to Poland, from Denmark—in short from all her neighbors, together with vast public improvements in each of them; she will be reduced to a barefooted time to time from France, to Poland, from Denmark—in short from all her neighbors, together with vast public improvements in each of them.

The Supreme Court of Minnesota decided against Mr. A. C. Townley on his appeal, and he still faces the prospect of continuing to hinder the prosecution of the war. Mr. Townley may have labored better than he know in organizing the Nonpartisan League; but if that company, chiefly composed of honest farmers and good citizens, must hunt another and more loyal leader—of which purpose there are already portents, especially in North Dakota.

Chin is up in arms over the session of the peace congress of the German holdings in that country to Japan. This is perfectly natural—the session having been made, not in justice, but simply to satisfy the selfish demands of the stronger nation.

Germany is now attempting to assimilate the proposed treaty, and flouts many of its provisions very indignantly. Its delegation has made the declaration that while ready to pay "reparation," they will not pay "indemnity"—construing the latter to be, in effect, punitive damages. This seems a distinction with little difference; but even so, did ever a defendant more richly deserve the limit of the law? One of its delegates has also gone on record as saying, Germany can sign such a peace as permits an opportunity for the reconstruction of her economic life." This is protest against the occupation of her mining districts. "A long and hard struggle," he says, this policy will bring to his country.

One of the great features of the projected junior high school in its much needed public utility—a pleasure-bringer as well as a health-maker, could in no way be so popularized, so made to belong to the people and at their service, as through being an adjunct of our great educational system, and its facilities. The social service of both and the training and improvement of the body, naturally belongs, with that of the mind, to our public schools; and right there is where it will do its most perfect work. The work of the proper management and supervision, this proposed innovation can be made a blessing to the public generally, as well as to the scholars, and become self-supporting besides.

The attainable figures indicate that the government lost only one hundred and twenty-three million dollars in its operation of the railroads during the first three months of the current year. The operating revenues were 2.9 per cent...

greater during March than for the same month last year, but the operating expenses were increased by 22 per cent. At this rate, how long will it require to convince the country of the benefits and advantages of public ownership?

The genuine socialist is a doctrinaire rather than a revolutionary anarchist; but the demonstration on May first in the larger cities seems to have been largely in the hands of revolutionists of one stripe and another—the red badge and the red flag being largely in evidence; and predominant mob spirit it developed into bloody riots in numerous cases. A striking contrast appears, however, between the activities of the mobsters in Cleveland and in New York. In the former city fighting was precipitated by two one hundred per cent American lieutenants, who, seeing red flags worn on army uniforms, first demanded the removal either of the flag or the uniform, and then attempted to enforce that demand. In this case the police were active upon the side of law in Cleveland and in New York, the police were breaking the heads of American soldiers and sailors in the effort to prevent the latter from breaking up a red flag meeting!

Over Bones of Failures.

Epitaphs in the Cemetery of Failure: He lacked tact; worry killed him; he was too sensitive; he couldn't say "no"; he did not find his place; a little success paralyzed him; he did not care how he looked; he did not guard his weak point; he was too fit to be fitted up with a view to providing room for a sort of mecum or trophy hall.

Too Cool for Comfort.

The coldest place on earth inhabited by man is Verkhoyansk, above the arctic circle, in northeastern Siberia. The thermometer there drops to 90 degrees below zero in January, but sometimes rises to 86 degrees above zero in the shade in July, dropping, however, to the freezing point on the warmest summer night.

For Bed, Board and Laundry.

Here is a perfect gem of misapprehension from a woman answering an advertisement for a French governess "an pair": "I know a little English, and could give easy, at once, lessons in French, for which I will be nourished, lying down and bleached, who, I think, are the conditions 'an pair'."—Boston Transcript.

Dates of Western Trading Companies.

The Hudson's Bay company was chartered in 1670 by Prince Rupert and others. The North West Fur company of Montreal was formed in 1770, and the two joined forces in 1821.

The Best Teacher.

He is the best teacher of others who a best taught himself; that which we know and do we cannot but communicate.—Dr. Arnold.

# SENIORS SCORE GREAT SUCCESS IN CLASS PLAY

### Members of Graduating Class Appear to Advantage as Actors; Bronze Tablet for Gold Star Men Left as Memorial.

The Lavering theatre was crowded to its capacity last evening on the occasion of the Twin Falls high school Senior class night exercise.

Presentation of the pennant emblematic of the tradition of the school by Waldemar Bond for the graduates, Walter Krongel, receiving it for the Junior class; presentation by Ralph Glasgow of the memorial left by the graduating class to the school, in the form of a bronze tablet bearing the names of the six former students who had made the supreme sacrifice in the military service, and the staging of the class play were the features of the event. Music for the occasion was furnished by the high school orchestra under direction of Miss Jessie C. Simpson.

Probably the best class play ever given by graduates of the Twin Falls high school is the verdict generally pronounced on the play given last evening by members of the class of '13. Booth Tarkington's *Home* in "The Men from Home," selected as the class play suffered nothing in the presentation last evening by the graduates under the personal supervision of Miss A. Brown, assisted by Miss Vroth Childs.

Because of the prominence of their roles, the parts taken by Miss Ruth Beachcamp, as Ethel Granger-Simpson, Miss Thelma Banks as Countess De Champligny, Elmer Wyland as Daniel Vorhees Pike, and by Joe Swift as the Hon. Almeric St. Aubyn, came in for most generous shares of the praise to which every member of the cast is entitled. Other roles were taken by Miss Beulah Trueland as Lady Cecile, Burton Van Tassel as the Grand Duke, Van-Hill Yasilvitch, Boris Goussas as Ivanoff, Dean Micklewait as Horace Granger-Simpson, George Loney as Ribere, Carl Brown as Marinne, and Oscar Nourmann and Lynn Stewart as carliniers. The play was presented in Italian. The scene was in Sorrento, south Italy, and the time the present.

# LEAGUE OF NATIONS BOSS WITHOUT TRYING

Little did Sir Eric Drummond of England realize that his thoughts, as expressed in the United States, when here in 1913, as secretary to Arthur J. Balfour, a British Foreign Secretary, would reflect back to an appointment to a post of importance in world affairs. It was through that office in London that President Wilson nominated him.

# LOCAL OIL MEN WELL PLEASED OVER SHOWING

### C. D. Thomas Declares Prospects of Local Company at Two Points Were Never Better Than at Present.

That the new Grass Creek oil field is actually one of the most prolific producing sections in Wyoming and that other and adjoining fields are attracting unusual attention because of this fact is the statement of C. D. Thomas of the Twin Falls Oil and Development company who returned from a visit of several days spent in the interest of the latter country.

In discussing the prospects of the oil business Mr. Thomas said yesterday: "The Grass Creek oil field is now the largest oil field in Wyoming, producing in the neighborhood of thirty thousand barrels a day. "The Twin Falls Oil and Development company owns a lease right in the Sunshine field which is about eight miles straight west of the Grass Creek field, and the formation of the two fields are identical. Government Geologists quote the Sunshine field as one of the most in the world. The Twin Falls people have a standard rig on their property and have drilled 1500 feet. They have 300 feet yet to go before they strike the oil sand, known as the Cloverly sand, were forced to close down operations last fall on account of freezing weather. But last Thursday I found the rocks in good condition and water was gushing through the ditch up 60 within a few rods of the rig. Arrangements were made to start drilling at once to the last 500 feet, with every indication of success. If the field should come in it will prove to be one of the largest fields in Wyoming."

**New Field Coming Up.**  
Mr. Thomas, also while in Thermopolis, went out to visit the company's new holdings on Kirby creek. This is a new oil field about 20 miles east and north of Thermopolis. This field was only discovered late in the winter, and has not yet been fully developed. The Twin Falls Oil and Development company has a one-fourth interest in a 160 acre lease in the center of this field. Oil has been discovered and five wells are now in the oil sand. Mr. Thomas was very much surprised to find that three of these wells were in a very short distance of the north line of his 160 acres. These wells are all owned and operated by the Ohio Oil company, and their main camp is just a quarter of a mile north of their 160 acres.

**Many Rigs on Ground.**  
Mr. Thomas states that there were at least eight or ten standard rigs being erected on all sides of their 1600 acres to test out the field for oil. He considers that they have a valuable property and comes back to Twin Falls very much elated over the location of their oil claims.

# MASTER BAKERS END CONVENTION

### State Association Pronounces Meeting Here One of Best in Its History.

The Idaho Master Bakers' association concluded a two days' session here last evening with a banquet at the Palace cafe. The convention was pronounced one of the most successful in the history of the organization. Out of 80 members, only 10 were in attendance, the delegates including every master baker of Boise and representing practically every city in the state.

**Begin Putting Steel in Place on Bridge**  
**Rapid Progress in Building of Hansen Span Promised by Engineer.**

The first stiffening trusses and steel supports forming the floor of the Hansen suspension bridge across Snake river canyon, will be put in place this afternoon, according to the statement of Supervising Engineer R. M. Murray. Tracks on which cars will be operated carrying the elements from the yard in which they are stacked to the point in the bridge which they are to occupy are completed, and the work from this time on will progress rapidly.

# To Raise Funds for Reclamation Lobby

### Local Committee Decides on Sending Delegation to National Capital.

Decision to raise by popular subscription here a fund for the maintenance of a delegation of Idahoans in Washington during the next session of congress to work in the interests of the Lano reclamation plan and the diversion of federal appropriation for reclamation to Idaho projects in accordance with the recommendation of Representative Addison T. Smith, was reached at a meeting of the local committee of the Idaho Reclamation association held at 11:30 o'clock today in the office of Arthur L. Swin.

Committees canvassing for subscriptions to this fund will begin work on Thursday morning.

The members of the local committee are Arthur L. Swin, M. J. Swenley, L. L. Breckenridge, James McMillan, George F. Sprague, J. S. Keel, C. S. McMartin, W. E. Friebe and L. E. Saldady.

# Local Brevities

**Goes to California.**—Miss Esther Anderson leaves today for an indefinite visit in California. She is the sister of A. E. Anderson, manager of the Orpheum theatre, and has recently returned from Washington, where she was employed during the war emergency as a stenographer in the airplane department.

**To "finance" a "To Let" advertisement.**—campaign you need only set aside for perhaps a few days—a part of your pocket money.

# Announcements

Mrs. J. W. Thomas of Hazelton who with her children has been visiting at the home of Mr. and Mrs. Chas. Seckman returned home on Tuesday.

# WOULD EMPLOY DRASTIC STEPS TO GET PAVEMENT

### Opposition to Municipal Bonds Lame in Hope of Securing New Program - Plan of Action Decided Upon.

An attempt to defeat the proposed municipal paving bridge and sewer bonds issue is said to have been determined upon by several property owners of the west and south quarters of Twin Falls as a means of expressing their disapproval of the paving program which provides for practical no paving in these quarters of the city. Reported leaders in this movement are J. N. Clear and D. E. Sullivan. It is their purpose, according to reports, to defeat, if possible, the proposed \$200,000 bond issue at the election on June 6, believing that in the event of the failure of the bonds at this election, another election would be called and that at least one street in these sections will be included in a new paving program.

Dr. E. H. Lindley Meets at Luncheon with Local Business Men.

# SAYS LOBBY AT CAPITAL WOULD BENEFIT IDAHO

### Representative Addison Smith Advises Sending Delegation to Washington in Interests of Reclamation Projects.

That a delegation of Idaho citizens including at least one from the Twin Falls country, in attendance at the next session of congress, will secure favorable action of the national lawmakers on the plan proposed by Secretary of the Interior Franklin D. Lane to expend \$100,000,000 for reclamation projects, and, if the appropriation is approved, can divert a generous share of it to Idaho projects is the statement of Representative Addison T. Smith speaking before a considerable gathering of citizens in the high school auditorium last evening on means to be taken by Twin Falls in securing the development of the Bruneau project.

**Anticipates Appropriation.**  
"I anticipate that the \$100,000,000 reclamation appropriation will be passed by congress at an early date," Mr. Smith said. "There is a very general sentiment in favor of the proposal as a means of securing employment and homes for the returning soldiers. Unless it is passed at this session and unless the Bruneau project is taken up at this time, it seems to me unlikely that anything in this direction will be done by the government for several years. A delegation of Idaho citizens in attendance at congress can be of material assistance in securing favorable action at this end."

"The chief obstacle to securing appropriations in congress for reclamation projects is now, as it always has been, the narrow vision of some of the eastern members. It means nothing to them to be told the fact that the Twin Falls country last year produced \$8,000,000 worth of wheat alone, whereas the whole cost of the Twin Falls project was between \$3,000,000 and \$4,000,000 and that this attitude which a delegation of westerners can do much to overcome and so pave the way for the Lane measure."

Mr. Smith suggested that the Bruneau project, if it is reclaimed under the provisions of the Lane plan should bear the name of the secretary of the interior.

Mr. Smith was introduced by former Senator M. J. Swenley.

How the Cricket Sings. The wings of a cricket are folded horizontally and form when closed slender, thread-like tapering points between the wing covers. It is supposed to be by friction of the wing covers against each other and from a peculiarity of their structure, that the males produce the sound which makes these insects so well known.—Christian Herald.

# HAS SERVICE RECORD WITH GERMAN TRIP

## Private Clarence E. Bowen, Wearing Colors of Rainbow Division, Returns to Twin Falls After 18 Months Abroad

Private Clarence E. Bowen, son of George E. Bowen, business agent of the Twin Falls Building Trades assembly, is the first member of the Rainbow division when it formed a part of the division which occurred in Twin Falls. He arrived here Tuesday afternoon on a furlough of one month, having re-enlisted in the army aviation section and will spend the next two years in a training camp, probably at Riverside, California.

### Sickness Causes Separation

The only other member of the Rainbow division who has returned to Twin Falls is Georgia R. Bybee, son of County Surveyor James A. Bybee, who was discharged after recovering from effects of a German gas attack and returned here some few days ago. Bybee and Bowen were in the same outfit, the 150th field artillery regiment, composed largely of Indiana national guardsmen. Both enlisted in 1917, in Company D of the 150th unit of the Second Idaho regiment, and both were separated from this organization when they contracted mumps and were sent to a hospital at Etampes in France in January, 1918. Bowen served as a member of the supply company of this regiment and Bybee and a member of Battery B.

The regiment was equipped with 6 inch Snyder howitzers, and was on the front line in the Lunneville sector in March, 1918, when Bowen joined it. It took part thereafter, with brief interruptions, in the fighting on the Champagne front, at Chateau Thierry, at St. Mihiel and was in the Argonne Forest fighting when the armistice was signed.

**On Heels of Hun**  
The regiment was one of the organizations selected to follow the retreating Germans out of France and on this mission arrived in Coblenz early in December, 1918.

After being separated from his companions of Company D, later converted into headquarters of the 140th field artillery regiment, Bowen did not again meet with them until during the Chateau Thierry engagement when they occupied adjoining positions.

## Cotton Clothes Have Summer Call

Organies, gingham, chitz, foulards and tafeta are all combined in summer frocks, but the cotton clothes have the right of way. Fashion makers did not hesitate long when rumor said the narrow hobble skirt would not stay—and they bid it farewell in the introduction of these flimsy creations. The gumps, the overdresses and skirts, the puffed sleeves—they are all here as these new summery models show.

### EIGHTH GRADE GRADS TO RECEIVE DIPLOMAS

Union School at Curry Plans Its Graduation Exercises.

A class of six pupils will receive certificates of graduation from the eighth grade of the Union school at Curry at exercises to take place on Thursday evening next. Rev. W. A. Moore, minister of the Christian church of Twin Falls, is to deliver the address on the subject, "The Quest of Life." The diplomas will be presented by Miss Britton Wolfe, county superintendent. Music will be furnished by the Philharmonic orchestra and Raleigh Drake will give a cello solo.  
The members of the graduating class are: LaVerne Parish, Cecil Ed. Glush, Marie Margaret Berry, Kenneth Henderson, Ruby Ellen Bauer, Lavell Jarman.  
On Tuesday evening Union school pupils, in collaboration with the school year, gave a program consisting of songs, recitations, pantomimes and a dialogue.  
The teachers of Union school this year are Mrs. George Patton, Miss Gail Musser, Miss Mary Howe.

### ESTATE DISTRIBUTION MAY BE COMPLICATED

Former Wife of Late George B. Holmes Files Claims After Sister Requests Administrator's Appointment.

Complications in the distribution of the estate of the late George B. Holmes of Twin Falls, Idaho, are yesterday when it occurred in 1901 naming former wife as his beneficiary was filed in probate court here through a Masonic lodge in Iowa. The estate is valued at about \$10,000 and consists largely of money loaned out together with some Twin Falls property.  
Mr. Holmes had been married twice and is survived by both former wives, a sister residing in California, several cousins and a woman in Seattle to whom he is said to have been engaged. At the time of his death search was made for his will but although several positions several wills drafted by him were found, none was discovered properly signed and executed.  
One of these wills would have left the major portion of the estate to the supposed fiancée.  
The will presented yesterday included no request for the appointment of an administrator.  
Acting for the sister, George F. Sprague of Twin Falls, Saturday filed an application for appointment as administrator of the estate.  
Mr. Holmes had been a resident of Twin Falls for about seven years. He had been separated from his second wife prior to coming here.

### Social Notes

P. E. O. held its regular meeting last night. The business portion of the meeting was held in the home of Mrs. H. W. Wilson and the social part at the home of Mrs. W. H. Greenhow. Mrs. J. B. King was initiated into the society at the evening. The evening was a short program was given, consisting of an interesting paper by Mrs. A. N. Sprague and music by Mrs. Wilton Powell. The guests of the evening were Miss Margaret Durward, the supreme president, and Miss Catherine Mann, the state organizer. After the business meeting Mrs. Greenow served a jainty supper to the guests.  
Mrs. George Leopold was pleasantly surprised on Monday evening by a number of her friends. The guests spent the evening in playing bridge and awarded the prize for high score to Mrs. Phil Crow. At the close of the evening a supper which the guests brought with them was served. The members of the surprising party were: Mesdames Willett Vance, F. R. Cox, A. Adams, H. Barger, P. Crow, J. A. DeWent, T. Lawrence, J. C. Conover, Paul Johnson, H. B. Johnson and Miss Hattie Murphy of Pocatello.  
The Thursday Bridge Club was entertaining on Tuesday evening at the home of Mrs. A. Adams. Mrs. J. B. Neuman and Mrs. C. A. Parsons were the guests of the club.

# CONSIDER the FUTURE In Buying a Motor Car Today

A noted authority in a recent issue of Motor says:  
"The work now in progress in some of the leading automobile factories will result in the cutting of car weights to a startling degree. The day of the heavier cars is past; they are to become obsolete. Chassis and motor designs will be altered to lend themselves to simpler and lighter construction.  
"Aluminum and pressed steel will come in for far greater use. Engine and chassis lubrication will be made more certain of operation. The misunderstanding that weight is essential to easy riding will be corrected....."

THE development of the Marmon 34 was along these very lines of scientific construction covering a period of about three years of thorough research, experimenting and testing.  
Without sacrificing strength or durability a car was produced 1100 pounds lighter than the conventional car of similar power and size. The design was greatly simplified; a deep, low-hung pressed-steel frame adopted, and aluminum extensively employed. Its motor lubricating system automatically provides lubrication in proportion to the power being used. The adoption of oilless bearings displaced numerous lubrication points found in conventional construction.

This is the car that demonstrated that low center of gravity, minimum of unsprung weight, perfect balance and centralization of load between the two axles produces riding ease that surpasses cars of much weight. Great economy came with lightness — from 12 to 14 miles on a gallon of fuel, and 40 to 50 per cent greater distance on tires.

Such is the advanced scientific design of the Marmon 34, seasoned and refined by more than three years of brilliant service; a car that enables the buyer to obtain now the construction of the future. Won't you call and let us acquaint you with more of the intimate facts?

Sealed bids or proposals will be received by the undersigned at their office in the Court House, in the city of Twin Falls, Idaho, at the hour of two o'clock p. m., on June 2nd, 1919, for the construction and completion of a Nurses Home building adjoining the Twin Falls County Hospital building.

Needles Long in Use
Steel needles were found among the Kafirs in Africa, and elsewhere, so that they may have had early aboriginal invention in more than one country. The earliest European eyed needles were of bone and ivory, sometimes of bronze. In 1370 steel needles were certainly being made in Nuremberg, possibly in England also, though until 1523 the raw material came from Spain.

Antiquity of the Jews.
Armenian and Georgian historians of southern Russia record that the Jews had settled among them in remote antiquity. They have evidence to prove that the children of Israel had lived round the Black and Caspian seas prior to the destruction of the first temple—587 B. C.—trading in routes and horses with Acco, Tyre, Sidon and other Phoenician cities.

Modern Greek Language.
The language spoken by the educated classes, that used in the newspapers and other modern literature of Greece, differs from the Romic used by the lower classes. The former is distinguished by a greater resemblance to the Greek of antiquity, which renders it easy for anyone who has a satisfactory acquaintance with ancient Greek to read the literary Greek of the present day.

DOINGS OF THE VAN LOONS
I REALLY FEEL SORRY FOR YOU, MRS. VAN LOON. YOU'VE BEEN WRAPPED UP IN HIS LODGE! THANK GOODNESS SOMETHING HAPPENED TO MY HUSBAND. I CAN TAKE CARE OF YOU!
THE MORE I SEE OF YOUR TROUBLE THE HAPPIER I FEEL. THAT O'PHIL NEVER TOOK AN INTEREST IN IT! HE SIMPLY IGNORES LODGES!
YES I CAN CLEARLY TELL WHAT I HAVE BEEN THROUGH THESE YEARS. YOUR ARGUMENTS ARE MOST CONVINCING! I WILL TAKE MY APPLICATION TO THE LODGE!
GANGWAY!
It looks as if the lodge contagion is spreading
