PRICE FIVE CENTS

ADMIRALTY ABANDONS ALL HOPE OF HAWKER

No Word of Any Kind Received from Ill Fated Sopwith and Intrepid Crew; Crews Surround Aidrome.

LONDON, (AP)—(10:56 a. m.)—The weather is so bad off the coast of Ireland that airplanes ordered by the air ministry to search for Aviator Harry G. Hawker's machines are unable to fly. There were "misty" conditions over the coast for an interval during the night. All communication centers in London are silent as to news from Hawker and Lieutenant Commander Grieve. Even the radio which prevailed yesterday and last night have died out.
The opinion held in admiralty circles is that Hawker came to grief soon after he started. It is pointed out that the aviator almost certainly would have sent a farewell message before getting out of radio range had an accident not befallen him in the meantime.
In the house of commons last night Josiah C. Wedgwood and other members severely criticized the government for omitting to provide means for assisting Hawker in his flight across the Atlantic.
Captain Elliott declared the country would hold the government had more lamentably remiss and desperately careless of the honor of the country, "and the life of a gallant gentleman."

EVERETT M. SWEeley

Appointment by Governor Davis as a Member of the State Public Utilities Commission.

SWEeley CHOSEN PUBLIC UTILITY COMMISSIONER

Governor Davis Appoints Former Twin Falls Mayor to Position to Succeed John W. Graham, Recently Resigned.

CAPTAIN SWEeley WILL ACCEPT THE POSITION

Captain Everett M. Sweeley, former mayor of Twin Falls, Idaho, whose appointment to be a member of the state public utilities commission was announced today by Governor D. W. Davis, said: "I will accept the position. I became acquainted with the fact that I was considered as a possible appointee for the place only recently, and I have made no definite plans in regard to the matter."

(Special to The News.)

BOISE—Gov. D. W. Davis today announced the appointment of Capt. Everett M. Sweeley of Twin Falls, former mayor of that city, as a member of the state public utilities commission to succeed John W. Graham, who resigned about January 1 to engage in the banking business in Nebraska.
The governor previously had appointed Lieut. Col. L. V. Patch of Payette, to be Graham's successor as a member of the public utilities commission and the appointment had been accepted by Lieutenant Colonel Patch, who recently returned to Idaho from France where he commanded the 14th Field artillery regiment.
Wilson Becomes Inspector. ... Adj. Gen. Albert H. Whitson has retired to become pure food inspector, a position which he held some years ago, under the department of public welfare, being assigned to the northern Idaho territory.
The governor has appointed Lieutenant Colonel Patch as adjutant general. The three changes in official positions are to take effect immediately.
The public utilities commission, the other members of which are A. L. Freether and George E. Erb of Lewiston, are waiting for Captain Sweeley to qualify as the third member.

GERMAN REPLY TO BE READY FOR DELIVERY

Document Will Follow Berlin Version of the Peace Points That Were Proposed by President Wilson

WILL BE READY TO GO ON WEDNESDAY

Violent Rioting Again Breaks Out in Stettin Conference of Leaders at Spa Say Treaty Proposed is Impossible.

PARIS, (AP)—The German plenipotentiaries will deliver their observations on the peace treaty terms on Wednesday of this week. No extension of time for replying has been given them. The general impression in conference circles is that the Germans will ultimately sign the treaty.

Version Given
BERLIN, (AP)—The German reply to the peace terms will be the work of the representatives of the allied and associated powers Thursday, the Tagesblatt says. The contents of the reply, it is added, will adhere closely to the German version of President Wilson's fourteen points.

The fifteen days given the Germans to make a reply to the peace treaty will expire Thursday.

Violent Rioting
Violent rioting is again reported at Stettin where nine civilians and twenty soldiers have been killed. German troops occupy the station houses in the city.

Agree to Object

COPENHAGEN, (AP)—The conference of German political leaders and German peace delegates at Spa on Sunday agreed that the peace terms were unacceptable, according to a German semi-official statement, and that Germany will leave no stone unturned in an attempt to "find a practicable basis of peace which takes into account our opponents' justifiable demands and those capable of being borne and carried out by the German people."

Idaho Troops Among Arrivals From Overseas in New York

Soldiers from All Over the Union Land in Great Port This Morning.

NEW YORK, (AP)—Nearly 11,000 troops of the American expeditionary force arrived here this morning from France on the transports Siboney, Iowa, Rochemann, Arizona and Scranston. Among them were units of the 41st division.

Virtually all the troops on the Scranston were of the 82nd division from the 32nd infantry, comprising Montana, Idaho and Wyoming.

Among the troops on the Rochemann were Company H of the 162nd infantry, four officers and 247 men of the 41st division (former national guard of Washington, Oregon, Montana, Idaho and Wyoming); the 381st motor truck company and the quartermaster corps of the 393rd and 486th motor truck companies.

IDAHO WEATHER.

Tonight and Wednesday fair.

WILSON RECOMMENDS REPEAL OF PROHIBITION

Seaplane NC-4 Makes Ponta Delgada on Her Trip Across Ocean

Travels at Rate of 85 Miles an Hour; NC-3 Badly Battered Up.

WASHINGTON, (AP)—The naval seaplane NC-4 arrived at Ponta Delgada from Horta at 10:24 a. m., Washington time.

The official report to the navy department from Rear Admiral Jackson shows that the big plane covered the distance of 150 miles in one hour and 24 minutes, or at the rate of more than 85 miles an hour.
The naval seaplane NC-3 will not be able to resume the trans-Atlantic flight. A message to the navy department early today from Admiral Jackson at Horta said the damage resulting from the buffeting she received when forced to land while nearing the Azores had definitely put her out of the race.

TO RETURN WIRES TO THEIR OWNERS

Chief Executive Touches on Liquor Problem, Declares Telegraph and Telephone Lines Will Be Returned to Private Ownership and Asks Revision of Present War Taxes.

NEW LABOR PROGRAM OUTLINED AND NECESSITY OF CO-OPERATION URGED

WASHINGTON, (AP)—President Wilson in his message to congress today, recommended repeal of the war time prohibition law—so far as it applies to wine and beer only; announced definitely that the railroad systems and telegraph and telephone lines would be returned to private ownership; urged a revision of war taxes particularly to abolish the manufacturers and retail sales excises; and outlined generally a program respecting labor.
These were the "high spots" of the president's message cabled from Paris.

Gentlemen of the Congress:

I deeply regret my inability to be present at the opening of the extraordinary session of congress. It still seems to me my duty to take part in the council of the peace conference and contribute what I can to the solution of the innumerable questions to whose settlement it has had to address itself. For they are questions which affect the peace of the whole world and from them, therefore, the United States cannot stand apart.

Deems Calling Duty

I deemed it my duty to call the congress together at this time because it was not wise to postpone longer the provisions which must be made for the support of the government. Many of the appropriations which are absolutely necessary for the maintenance of its varied obligations for the fiscal year 1919-20 have not yet been made. The end of the present fiscal year is at hand; and action upon these appropriations can no longer be prudently delayed. It is necessary therefore, that I should immediately draw your attention to this critical need. It is hardly necessary for me to urge it may receive your prompt attention.

Will Speak on Return

I shall take the liberty of addressing you on my return on the subjects which have most engaged our attention and the attention of the world during these anxious months since the armistice of last November. I should like to discuss the situation which must form the subject matter of the present treaties of peace and of our national action in the immediate future.

Discussion Premature

It would be premature to discuss them or to express a judgment about them before they are brought to their proper forum. The various agreements which are now being sought at the table of the conference, I shall hope to lay them before you in their many aspects, and as arrangements have been reached.

Hesitates to Express Views

I hesitate to venture any opinion or press any recommendation with regard to domestic legislation, while I am abroad. I believe that the question of labor with its intimate touches of information and counsel, which I need, after a long absence from Washington, to seek the advice of those who have remained in constant contact with domestic problems and who have known them close at hand from day to day, and I trust that it will be very soon be possible for me to do so. But there are several questions pressing for consideration to which I feel that I may and indeed must, even now, direct your attention in only general terms.

Speaking Own Thoughts

In speaking of them I shall, I dare say, be doing little more than repeat your own thoughts. I hope that I shall speak your own judgment also. The question which stands at the front of all others in every country amidst the present confusion, is the question of labor; and perhaps I can speak of it with as great advantage while engaged in the consideration of industrial problems. I mean that, alike as I could at home and amidst the interests which naturally most affect my thought, because they are the interests of our own people.

By the Question of Labor

By the question of labor I do not mean the question of sufficient industrial production, which is the question of how labor is to be obtained and made effective in the great process of sustaining populations and winning success amidst commercial and industrial rivalries. I mean that much greater and more vital question how are the men and women who do the daily labor of the world to obtain progressive improvement in the conditions of their labor, to be made happier, and to be served better by the com-

munities and the industries which bear these questions and advances? How are they not to be given their right advantage as citizens and human beings?

Have Gone Too Far

We cannot go any further in our present direction. We have already gone too far. We cannot live our life as a nation or achieve our proper success as an industrial community if capital and labor are to continue to be antagonistic instead of being partners; if they are to continue to distrust one another and strive how they can get the better of one another; or, what perhaps amounts to the same thing, calculate by what form and degree of coercion they can manage to extort, on the one hand, work enough to make enterprise profitable on the other, justice and fair treatment enough to make life tolerable. That bad road has turned out to a blind alley.

It is no thoughtless to real prosperity. We must find another, leading in another direction and to a very different destination. It must lead not merely to accommodation but also to genuine co-operation and partnership based upon a real community interest and participation in control.

Real Community Interest

There is now in fact a real community of interest between employer and labor but it has never been made evident in action. It can be made operative and manifest only in a new organization of industry. The genius of our business men and the sound practical sense of our workers can certainly work such a partnership out when once they realize exactly what it is that they seek and insist upon as a common purpose with regard to it.

Lies Largely with States

Labor legislation lies, of course, chiefly with the states; but the new spirit and method of organization which must be effected are not to be brought about by legislation so much as by the common counsel and voluntary co-operation of capitalist, manager and the workman. Legislation can do only a very little way in commanding what shall be done. The organization of industry is a matter of corporate and

(Continued on page eight)

BUDGET SYSTEM MEASURE LAID BEFORE HOUSE

Representative Good of Iowa Drafts Plan; Would Give Congress Voice in the Expenditures.

WASHINGTON, (AP)—Creation of a national budget system, with the president responsible for compilation of estimates of appropriations needed by the various government departments and with congress given a voice in the expenditure of the appropriations, is proposed in a bill introduced in the house today by Representative Good of Iowa, chairman of the house appropriations committee.

Accounting Department Created

The measure would create an accounting department to be under control of the comptroller general of the United States who would be answerable only to congress and would perform the duties now discharged by the comptroller of the treasury and the auditor of the several government departments.

PROGRESSIVES STAY OUTSIDE PARTY BOUNDS

Kenyon and Jones Decline to Play Organization Game with Lodge Boys in United States Senate.

WASHINGTON, (AP)—The possibility that acute republicans of the progressive wing may take no part in the selection of senate committees developed today when Senators Kenyon of Iowa and Jones of Washington followed the example of Senators Borah of Idaho and Johnson of California, and announced they would not accept places on Republican Leader Lodge's committee on committees.
Lodge Declines to Reconsider.
Borah and Johnson were given places on the selecting body yesterday by the republican leaders but they declined because Kenyon and Jones had been selected for the places by the progressives. Senator Lodge, however, refused to reconsider his selection.
Whole Controversy is an outgrowth of the fight made by the progressive element against the proposed selection of Senator Penrose, Pennsylvania, and Johnson of Wyoming, chairman of two of the most powerful standing committees.

WORLD NEWS EVENTS

WASHINGTON, (AP)—Authority to increase rates between the United States and Canada was asked today by the American railway express company in an application filed with the interstate commerce commission.

WARSAW, (AP)—The Ukrainian offensive against the Poles has been completely broken, according to an official communique issued today. After hard fighting the Poles occupied Balica and Novasiolki. The Ukrainian losses were extremely heavy.

HELENA, Mont., (AP)—The Montana supreme court today upheld the constitutionality of the Montana sedition law. The opinion was rendered on appeal in the case of Benjamin Kahn. Numerous other cases are before the court in which the law is attacked.

LONDON, (AP)—The proposed visit to England of General Pershing, the American commander-in-chief, has been indefinitely postponed. It is inferred here that this postponement is due to the official view that it would be inadvisable for the commander to leave the Rhine until the Germans had signed the peace treaty.

WINNIPEG, (AP)—The central strike committee of organized labor in Winnipeg made public this forenoon in a letter to Mayor Charles F. Gray the terms upon which it will consider a settlement of the general strike. Recognition of all the unions involved and reinstatement of all employees on strike are asked. The announcement does not specifically refer to wages and hours.

SUFFRAGE BILL TO BE CALLED

Will Be Placed on Passage in House Tomorrow; Comes Up in Senate Soon.

WASHINGTON, (AP)—Representative Mowell, of Wyoming, republican leader, announced today that the house today will call the bill for the extension of the equal suffrage constitutional amendment which would be called up tomorrow for passage. His announcement followed favorable reports on the resolution of Representative Mann of Illinois by the house suffrage committee.

Introduced in Senate

A similar resolution was offered in the senate today by Senator Jones of New Mexico, retiring chairman of the senate woman suffrage committee, and supporters plan to urge quick action. This was the first measure to be introduced in the senate at the extreme end of the session, a flood of other bills going over until after the reading of the president's message.

BOLSHEVIKI ARE DEFEATED IN A NAVAL BATTLE

Lose Two Ships in a Conflict with the British Fleet off the Coast of Finland Sunday.

SEVERE DEFEAT INFLICTED ON REDS NEAR TSARITZEN

Estonian Army Advances on Bolsheviki Forces Near Narva and in Neighborhood of Lake Peipus.

OPPENHAGEN, (P)—The Politikon Helsingfors correspondent says that five Bolsheviki cruisers and three British light cruisers were in a naval engagement in the gulf of Finland Sunday and that one Bolsheviki cruiser was sunk with nearly its whole crew. Another was driven aground on the Estonian coast.

Admiralty Reuter

LONDON, (P)—The British admiralty's communique on the Bolsheviki naval engagement says: "Yesterday British light forces in the gulf of Finland, under the command of Sir Walter Cowan, while co-operating with the Estonian army, encountered Bolsheviki naval forces, consisting of destroyers and small armoured craft supported by cruisers. Bolsheviki vessels were chased until they gained the protection of their mine field and shore batteries. "Some of the Bolsheviki destroyers are reported to have been hit. The British forces suffered no casualties."

Defeat of the Bolsheviki by the Estonian army near Narva and a victory over their forces near Peipus were reported yesterday. In both instances many prisoners were taken by the forces of the Red regime. A great victory was reported at Tsaritzen.

KING OF BELGIANS CREATES A GREAT DEAL OF INTEREST

BRUSSELS, (P)—The arrival of the king of the Belgians in Paris to present the case of Belgium before the peace conference created great interest in Paris. The fact that the king made the journey from his capital to that of the French republic by air route made his arrival more spectacular. Few knew that the king had originally intended to go to London that morning but changed his mind at the last moment. Cromber, the young Belgian millionaire aviator, who pilots him in his air trip, has been mentioned in the Press that his motor was running, his propeller just gathering speed when he was informed by the king that Paris and not London was to be their objective on that particular trip.

ALASKA FUTURE HOME OF COWS SAY EXPLORERS

Agitate Raising Muck Oxen on Barren Lands of Far North; Petition to Congress Circulated.

SEATTLE, Wash., (P)—Great plains lying along the Arctic coast in northern Alaska and Canada soon may become America's "cow country," according to Governor Theo. Rigg, Jr. of Alaska and Vilhjalmr Stefansson, Canadian explorer, are advocating the transplanting and developing of herds of muck oxen into the now barren lands of the far north.

Dispatch Received
A dispatch received here from Ottawa said the Canadian government may adopt Stefansson's proposal that an experimental station be established on Melville Island, which lies in the Arctic west of the mouth of the Mackenzie River. Stefansson says there are about 4,000 oxen on Melville Island.

Herds at Melville

Herds later would be moved from Melville Island to the Canadian mainland for breeding and slaughtering, according to Stefansson. Laplanders probably would be secured as "cowboys" to handle the herds.

Canadian Minister Impressed

Arthur Meighen, Canadian minister of the interior is favorably impressed with Stefansson's scheme. It was reported Stefansson recently sent before the Canadian parliament and did of his scheme for domesticating the oxen. He suggested that reindeer also be imported.

Alaskans Interested

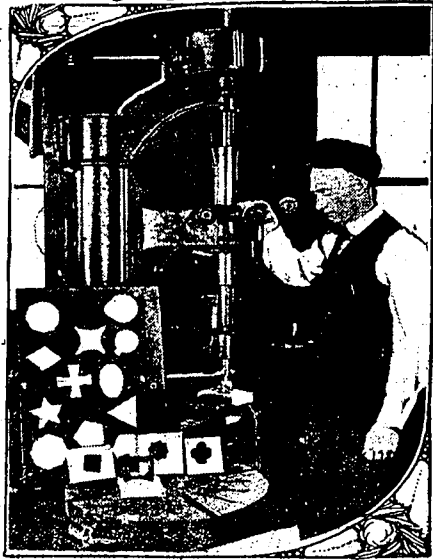

Alaskans interested in the muck oxen proposal have circulated a petition in the north addressed to congress asking that the animals be obtained from the Canadian Arctic islands and to be transplanted in northern Alaska. The Alaskans point to the fact that the government already has introduced 1,250 domestic reindeer into northwestern Alaska. Under Eskimo care these herds have increased at the rate of 20 per cent.

Meat Milk and Wool Furnished

Muck oxen if developed in the far north, will furnish meat, milk and wool. They naturally are weather-resistant animals and can well stand the rigors of the northern climate, it is claimed.

Boring Square Holes Now

Doing the impossible in a task American inventors took on. It was no with C. H. Schmidgall of Peoria, Ill., after fourteen years' effort. He has perfected a bit which will bore a square hole. Then after overcoming the seeming mechanical impossibility, he went several steps farther. He has made bits which bore holes the shape as shown on the metal shell leaning against the machine. The bits are very practical and will bore such shaped holes through metals of several inches thickness.

GERMANY GETS A SQUARE DEAL

Allies Point Out That She Has Many Advantages Under Terms of Treaty.

PARIS, (P)—A reply by the allied and associated governments to the German note protesting against the economic terms of the peace treaty as being calculated to cause the industrial ruin of Germany has been delivered to the German peace plenipotentiaries. The reply declares that the allied and associated governments in framing the economic terms "had no intention to destroy Germany's economic life."

Effect Directly Opposite.

On the contrary, the report points out that in the reconstruction of the world's affairs Germany will have her part in the progressive development but also will share with the rest of the world in the economic losses and disadvantages inevitably resulting from the war.

German Note in Error.

The reply declares that the German note fails to take into consideration the fact that the disarmament of Germany and the end of militarism will relieve the German people of an immense burden of taxation and return to the ranks of useful production millions of men formerly in the army who have been entirely withdrawn from industrial or agricultural activity.

Submarine to Blame.

In reply to the German complaint that the loss of the German merchant marine will throw out of work thousands of German merchant seamen, the allies answer that the destruction of merchant ships, chiefly by German submarines, has had the unfortunate effect of limiting the opportunities for work of seamen throughout the world, the

JAPANESE DENY THAT THEY FAVOR RACE MOVE

Say That Idea of Mongolian Independence Does Not Receive Approval from Them.

TOKIO (Correspondence of the Associated Press)—The Japanese government has issued a denial of reports that Japanese are implicated in the Mongolian independence movement. The statement characterizes as a "gross canard" the charge that Japanese military officers are taking conjoint action with Colonel Semenov and declares that from what Japanese military authorities have ascertained that Colonel Semenov, the Cossack leader, emphatically denied all connection with the independence movement.

Two leaders of the Mongolian independence party arrived in Tokio in the latter part of April to inaugurate a movement for the political independence of Mongolia and Manchuria and to unite those two Chinese provinces in one state.

Get some INFORMATION about it—what it will cost, where it may be bought to, best advantage—through reading the ads.

allied powers being the greatest sufferers.

Think Wilson Wrote Answer.

The reply on the economic objections is regarded as one of the best documents in the exchange of notes. Many persons attribute it to President Wilson.

Will Consume Much Time.

The Germans probably will have until the end of the first week in June to say yes or no regarding their signature of the peace treaty. The German counter-proposals due this week are expected in French circles to be so elaborate and voluminous that the interallied delegates can scarcely finish their consideration before June 1.

Farmers Who Bank Here Have a Friend To Go To

for advice and help when they are not quite sure in their minds about the money end of farming.

And it's because our farmer customers get this help in carrying their financial problems, that they are able to put better attention to carrying on their every day farming.

We'll do this for you too. Make us a call.

TWIN FALLS BANK & TRUST CO

TWIN FALLS, IDAHO.

THINK ZAPATA MADE HIS GETAWAY FROM COFFIN

GUADALUPE, Mexico, (P)—Legends already are beginning to spring up among the superstitious and ignorant Indians of this state regarding Emiliano Zapata, the rebel chief who met death near here on April 10. In an attempt to preserve the chief's body as long as possible in order to give the greatest number of his former followers a chance to see it, it was packed in ice, in the absence of embalming fluids. The ice burst the sides and top of the flimsy coffin and gave rise to superstitious tales that the "Attila of the South," as Zapata was called, was not really dead, but had burst his coffin and escaped.

WILSON FAVORS ELECTRIC PLAN

Cables Approval of Ideas Set Forth by Secretaries Redfield and Wilson.

WASHINGTON, (P)—President Wilson has cabled his approval of a plan submitted by Secretaries Redfield and Wilson for the relief of the electric railway systems of the country now in the hands of receivers or threatened with insolvency. The lines affected include those in New York, Denver, St. Louis, Des Moines and Spokane.

If you can save something, through reading the ads, on half of the things you purchase—what a tidy total of "earned income" this would represent in the course of a year.

EMIGRANTS ARE LEAVING HOMES

Hundreds Start for Southern California Seeking Places to Make Homes.

LOS ANGELES, Cal., (P)—Six hundred families will leave southern Europe to make their homes in Southern California within the next six months, according to announcement made here by steamship agents.

Preparations Made.

The arrival of these families will mark the beginning, it is said, of immigration to California of many large groups of southern Europeans for whose coming here great preparation was made by federal and state officials just before the beginning of the world war, which stopped all plans along that line.

From Many Lands.

Among the first six hundred families to come to this section where they will take up land—homesteading, in some cases, as a declaration to become citizens is all that is necessary for the preliminary filing—will be French, Belgian and even Swiss. The majority will be agriculturists.

There will be no effort to colonize the newcomers, who will make their homes in those sections of Southern California where they find locations to their liking.

Many persons in the French colony of Los Angeles are interested in the movement to bring the southern Europeans here.

DANIEL HAD WRONG SORT OF PHYSIOGNOMY

METZ, France, (P)—In the porch of Metz cathedral stands a statue of Daniel the Propbet, to which a sculptor had given a marked facial likeness to former Emperor William. When the French took possession of the city, they put a pair of handcuffs on the emperor-propbet's wrists, from which hung a placard inscribed "Si te transit gloria mundi."

Now the statue is to be taken away altogether and a new one substituted by a local artist. A fund for this purpose has been opened here.

GERMAN DYES USE CURBED

Only Such as Are Absolutely Needed Will Be Admitted to Country.

WASHINGTON, (P)—The importation of German dyes will be prohibited except to the extent that they are needed in the United States, the war trade board announced today.

To determine the extent the German dyes are needed, the war trade board has appointed an advisory committee composed of eight.

KOREAN REFUSES TO BECOME PART OF THE JAPANESE

Unification Pronounced Impossible; Two Reasons for Opposing Union Given by Committee.

SEOUL, Korea, (Correspondence of the Associated Press).—Unification of the Japanese and Korean races is impossible, asserts the organizing committee of the independence movement in Korea in a statement which it has issued setting forth the grievances of the Korean people against the Japanese.

Two Reasons Given.

Korea is the much older of the two nations for it has a history of organized government extending over a period of 4300 years. During a part of that time Korea sent tribute to the court of China, but this was nothing more than an outward expression of the relation between the imperial families of the two nations. Korea was ever the sole possession of our Korean race and was never under the actual control of any foreign nation or government.

Distinct Race.

"The Japanese nation is an entirely distinct race from the Korean. She is an island people and her nakedness of body and mind could only be covered by the civilization of the west. Korea and from China during the centuries of the past. Her customs, her literature, her very clothing came to her through Korea. Of late years she has added to these the face-features of a western civilization; thus she becomes the white sphinx of the east. She gives no evidence of moral force, her actions toward our nation has proven her to be the embodiment of cruelty. The evidence is the unification of the Japanese and Korean races is an impossibility."

Five Conspicuous Injustices.

What are described as "five conspicuous injustices on the part of Japan toward Korea" are summarized in the statement. The committee asserts that although Korea added Japan in the war against Russia, "the dog has bitten the hand of him who fed it." It is alleged that Japan has broken her promise to pay honor to the formerly imperial family of Korea; that it is impossible for a Korean to obtain fair treatment in the courts when opposed to the Japanese; that the Japanese does not exist and that the Japanese arrested thirty-three men who signed the manifesto of independence on March 1 last.

CONSTANTINOPLE NOW LIKE MODERN CAPITAL

Cleaned Up Spiok and Span by the Allied Forces on Capture.

CONSTANTINOPLE (By Mail), (AP)—Constantinople is being cleaned up by the allies and soon it will be like a western European city. The reorganization of Turkey is commencing with general sanitary campaigns in which the American Red Cross commission to the Balkans has been asked to aid.

Sanitary Engineers.

"American sanitary engineers of the Goethals type are badly needed out here," declared an American physician. "Sewage systems must be installed throughout the Near East in hundreds of towns. Constantinople must be cleaned up like a Swiss housewife's kitchen. Mosquito netting by the millions of bales must be brought over. Local doctors do not believe in the screening of sick beds or of hospital windows. They think to a great extent in their profession. Swamps and unhealthy valleys must be drained. The people must be driven out of the filthy centers of disease into the open country where the sun and air are at them and where they can engage in healthy farm work.

Feelings of Doctor.

"Sometimes," said the Red Cross doctor, "I feel an irresistible desire to gather ten thousand of these unfortunate wretches together, strip them of their crazy-quilt bundles of vermin-infested rags, force them all into a vast petroleum pool, then to a great tank of clean water. I would give them one and all a pair of overalls and a sweater.

Plumbers at Work.

"What the Near East is several divisions of American plumbers, railroad men, sanitary engineers, doctors, nurses, white wings, building contractors, druggist and prescription clerks, farming machine men, carpenters, electric mill operators, army bakers and coat and pants salesmen with East Side experience. The first boatload to leave Toulon or New York should contain the plumbers," declared the physician.

Suggestion for a Camping Trip.

Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it can't be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamships and at such times and places it is most likely to be needed. The safe way is to have it with you.—adv.

SEEKING GOLD IN FAR NORTH

Ship Where Stevenson Once Wrote Now Plows Seas in Search of Treasure.

SAN FRANCISCO, (AP)—There sailed out of San Francisco Bay a few days ago a little company of thirty men whose ship now is pointing toward the Arctic seas. Gold is the age old lure which inspired this adventure, which means cold and loneliness and discomfort. Possibly hunger and death.

On Famous Ship.

The schooner Casco is the vessel which is bearing the treasure seekers northward and in her cabin Robert Louis Stevenson once wrote many a romance which these modern adventurers are likely to parallel. The ship's company includes men who have delved in the earth in all part of the world. On them will devolve the operations required in mining. Men who have sailed the seven seas are on board, and they will see to the navigation. Then there are men who have been successful bankers and business men at several of the latter, rated well fixed in the matter of worldly goods, the adventure impelled rather than any prospect of financial return. But all thirty are shareholders in the Northern Mining and Trading company.

Secret Location Rich.

It is another story of a search for a rich mining area where gold nuggets have been worked in the surface of the earth and where the lodges are incrustated with the precious ore. The location is a secret.

Noted Miner Heads Party.

L. B. McGirk, a mining engineer, who has worked in the mountains of Panama to Nome, is at the head of the party. His office is the musty little cabin in which Stevenson worked. The battered old desk of Robert Stevenson wrote still in the cabin, and speckled by ink stains from his pen.

Wealth Thrust on Them.

It is reported the adventure that led to the new voyage of the Casco was suggested by a man who had told wealth in the Arctic, when he and other members of the crew of a peaching sealer were chased by a Japanese cutter and their small boat was wrecked.

Brought Back Money.

He was starving when natives found him. But he forgot his hunger as his eyes turned on the gold which he had brought through the earth. Without civilization, he says, he returned to equipment with gold worth thousands of dollars.

Follow the Lure.

McGirk and others heard the story. Adventurers banded together, each providing his share of the estimated expense. Some of the thirty sail all they had to get money for the venture. Others, like Albin Johnson, secretary of the corporation, and Emanuel Johnson, the vice president, are rich enough to buy a dozen mines.

Many Called But Few Went.

More than 50 McGirk says, had the money and the desire to go. But no man was chosen unless he knew something of mining. Captain C. L. Oliver, the navigator, is not much of a miner, as the secretary of the company, Hland, who has been stationed at the Presidio for two years, is one of the thirty.

Faithful Dog Companion.

Then came the thirty sail is a dog of the North, possibly a Russian wolfhound. He was picked up at the city pound. His great-grandparents tracked the snow of the Arctic.

Texas Association Fights Oil Fakes

DALLAS, Tex., (AP)—The Texas Oil Investors' Protective association has been organized to combat activities of irresponsible and fraudulent stock selling companies. The association, composed of hundreds of investors, will take action to force dividends from fraudulent companies and salvage from incompetent.

Association officers claim that many companies have squandered funds of stockholders, while many others are failing to pay dividends when production is ample to justify such payment. Public interest was so great after the discovery of new Texas oil fields that nearly every one invested, association officials say. Because of unrestricted stock selling, the situation has become such that it is almost impossible to dispose of stock for the big, unmerciful development enterprise, big oil men.

When you acquire the habit of studying your buying problems, even though they are in small amounts, you will have acquired the habit of thrift, of foresight, of confidence in your own judgment. A study of the ads are essential.

Nibley-Channel LUMBER COMPANY

Monday On Saturday Along Rhine

Monday comes on Saturday—along the Rhine. At least this Yank doughboy in the army of occupation made it so. He wanted to "doll up" a bit on Sunday so he had one of the German peasant women give him instruction in hand laundry work on his clothes—in one of the little streams letting into the Rhine.

TRAINMEN FAVOR PUBLIC CONTROL OF RAILROADS

Would Unite All Railway Workers in One Union; Resolutions Demand Direct Legislation; Reconstruction Outlined.

CINCINNATI, O., (AP)—Resolutions in favor of one big industrial union of all railway workers, of government ownership, and of the initiative, referendum and recall, together with a program for general reconstruction, were adopted by the national convention of the Brotherhood of Railway Clerks here today.

Officers Nominated.

Two men were nominated for grand president, J. J. Forrester, Washington, D. C., and H. C. Degray, Green Castle, Ind. Balloting probably will be tomorrow.

Would Join Canadians.

The report of the committee on Canadian amalgamation recommending that the dual organization in Canada be absorbed through their members joining lodges of the brotherhood was adopted.

Want Higher Wages.

The convention concurred in a resolution to insist upon a 25 per cent increase in wages a penalty rate for overtime on the basis of time and a half for all service over eight hours and time and a half for all Sunday and holiday work.

FOR A WEAK STOMACH.

As a general rule all you need to do to adopt a diet suited to your age, and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.—adv.

MINER BURIES TREASURE IN OLD MEXICAN SOIL

Pursued by Bandits He Hides Fortune; Will Return Later to Hunt It Up.

GRASS VALLEY, Cal., (AP)—"Somewhere in Mexico" \$12,000 in gold bullion is buried, it's whereabouts known only to J. A. Mathis, formerly a miner of Blumas county, north of here, and two companions who aided in securing it. Mathis recently arrived here after an absence of two years. He is going back to find the gold which was buried because the men valued their lives more than the precious ore, the weight of which impeded their progress when chased by Mexican bandits.

Describes His Flight.

Describing the flight, Mathis said: "Two of us slept, while the third stood guard. Before daylight the guard awakened us to hear the hoof beats of approaching horses. Soon three horsemen rode through the chapparal and we could distinguish the high, pointed hats of the bandits. We wasted no time in challenging, but immediately opened fire. Two of the men fell from their horses. The third tried to escape, but he tumbled head long before he had gone far.

Tried to Get Horses.

"We tried to catch the horses, but without success; so after stripping the bodies of arms and ammunition, we started again for the coast. Valuing our lives more than the heavy bullion just then, we decided to leave it behind, and it was buried in the sand and secret markings noted.

Excellent hog feed for sale.

EAGLESON MUST BE IN SUPREME COURT

Called to Show Why He Falls to Issue Notes on Treasury.

BOISE — State Treasurer Eagleson is prepared to appear in the supreme court Thursday morning in response to a citation calling upon him to show cause why he should not issue treasury notes to raise \$1,700,000 to meet the expenses of the state government in highway construction work. The citation is issued on application of Attorney General Black and Commissioner of Public Works Hall. The state's general fund is now so low that these expenses cannot be met. The last Legislature approved the issuance of treasury notes to meet the contingency when it made a two mill levy for the highway purposes. The funds from this source and from general taxation will not be available until next year.

Prospective tenants for your property will get interested in it first through reading about it in the classified columns.

LEWIS HEAD OF IDAHO EDUCATIONAL TRAINING

Washington Teacher Chosen by Board on Recommendation of Commissioner Bryan.

BOISE — M. E. Lewis, superintendent of public schools at Auburn, Washington, has been elected director of vocational education in Idaho and is to take up his duties in that capacity on June 1. The appointment is made by the state board of education through Dr. E. A. Bryan, commissioner. Mr. Lewis will have charge of the administration in this state of the Smith-Hughes funds for vocational education, amounting to several thousands of dollars, while the plan is still in its infancy.

To "finance" a "To Let" advertising campaign you need only set aside—for perhaps a few days—a part of your pocket money.

SIRLOIN

SHOE POLISHES

Save the Leather and Keep your Shoes Neat

LIQUIDS AND PASTES

FOR BLACK, WHITE, TAN AND OX-BLOOD (DARK BROWN) SHOES

THE W. R. DALLAY CORPORATION LTD. SUIV FALLS, I.D.

Do You Pay 66¢ for Sirloin Steak? —or 33 Cents?

We serve all tastes

A recent Government bulletin quoted sirloin steak in different cities at prices ranging from 33 to 66 cents!

We buy live cattle, according to quality, all the way from \$7.00 to \$20.00 per hundred-weight, live weight. Sirloins from these cattle vary greatly in quality.

Some retailers sell 33 cent sirloins. These steaks come from cheaper cattle.

Customers of other retailers demand choice sirloins at 66 cents. These retailers buy meat from higher-priced cattle.

Also, the retailer who carries complete stocks, delivers to your door, and lets you run a charge account, has to get higher prices than the retailer who runs a "cash and carry" store.

We sell beef of a given quality at practically the same price all over the country—except for slight differences due to freight rates.

And our profit hardly affects the price at all—only a fraction of a cent per pound.

Swift & Company, U.S.A.

PIERCÉ'S

Fierce's Pork and Beans are cooked just exactly right. They're meaty and tender and delicious, and yet every individual bean is perfectly whole and plump.

The result is an appetizing, alluring, nourishing dish.

"YOU DON'T KNOW BEANS 'TILL YOU'VE TASTED PIERCE'S"

Fierce's Hominy is a joy to the cook, because it can be prepared in a great variety of ways, and a joy to those who eat because it's always appetizing.

GIVE SNAP AWAY.

While the German delegation is trying to convince the world that the people of Germany are ready to revolt if the treaty should be signed, one councillor quietly lets it be known that the German people will kill them if they do not sign.

He is quoted as saying: "You seem to fear that we will not sign the peace treaty, but we will sign it because if we were to go back without concluding peace, we would be massacred on reaching Berlin."

PAN-AMERICANISM GROWING.

Ever since the days of James G. Blaine, there has been manifested, an especially ardent desire on the part of American statesmen to promote a closer commercial relationship with South America.

Still, the tendency has been towards a closer relationship. In an interview yesterday, Acting Secretary of State Frank L. Polk urged that American newspapers devote more space to South America in order that we may come to understand the people there better.

"The more we know of the other countries of North and South America, the less likelihood there is of misunderstanding. The nations of the world are becoming more and more interdependent daily with the increased efficiency of transportation and communication facilities."

Exchange of news results inevitably in better relations and a fuller comprehension of civilization. Improved commercial relations are accompanied by better cultural relations.

papers of the United States would pay more attention to news regarding Latin America and in a very short time these newspapers could educate the public to seek further information and more news about our neighbors to the South."

MUSSELMAN DELEGATES DISCUSS TURK PROBLEMS

Followers of Islam Who Fought for Allies Wish to Be Consulted.

PARIS, (AP)—Delegations that have been made before the council of four by Edwin Samuel Montague, British secretary for India, the Mahara of Bihar and Musselman delegates from India have, according to the Times, produced an impression which may affect the settlement of the Turkish problem in some particulars.

Although no decision has been taken, says the Times, it appears likely that the plan adopted will respect the integrity of Turkey proper, retaining the notes. A notable feature of this solution the sultan would retain Constantinople and the mandate to assist Turkey would be divided among the British and the French.

GERMAN SHIPPING FLEET A PROBLEM

British Oppose Stand Taken by United States on Intruded Vessels.

LONDON, (AP)—The diversion of German mercantile shipping which has been the subject of considerable discussion in England since the announcement that America was to receive all vessels intruded in American ports, was raised in the house of commons today by Ben Tillett, labor member for North Salford.

Horatio Bottomley, an independent member, asked whether it was not a convenient opportunity for President Wilson to "serve the interests of his idealism, by making no claim for these ships and giving them to those who have borne the heat and burden of the war."

Wilson's Sailing Again Considered

Question Whether President Shall Return Through Antwerp Once More Raised.

PARIS, (AP)—The question of President Wilson sailing homeward from Antwerp again is under consideration. It was the first plan that he should visit Brussels and then proceed to Antwerp in honor the statue of George Washington but the naval authorities enough to accommodate the vessel.

This brought to Paris a delegation from Belgium which claimed that Antwerp harbor was of a depth ample for the George Washington. It was found that the harbor is adequate for the draft of the president's vessel the trip to Brussels will be deferred until a stop can be made there on the way to Antwerp for the homeward voyage.

Seek to Retain Youthfulness. As I approve a youth that has something of the old man in him, so I am no less pleased with an old man that has something of the youth. He that follows this rule may be old in body, but never can be so in mind.—Cicero.

JUSTICE FOR TRAHOERS.

In the course of the magnificent address made to the high school graduates last week by Dr. Ernest B. Lindley, and after having indicated the greatly increased demands upon the pioneers in mental preparation for the exigencies of the wonderful future he took occasion to say that he hoped the fathers and mothers of the land would appreciate the work of the public school teachers and see that they were given at least as great remuneration as that paid to the dog-catcher in Los Angeles.

This very pertinent remark was incidental to the main current of the address, but it is once recalled the fact of having recently read that 50,000 vacancies were existent in the teaching forces of the public schools of the country, and also of having still more recently been told that about one-half of the excellent corps of teachers in the schools of our own city, Twin Falls, were declining to accept engagements for the next year.

Neither of those statements could be true under perfectly normal conditions; and the Literary Digest, in an extremely cogent article entitled, "Justice for the Foster Parents of Our Children," attempts to explain the trouble and to demand a remedy. And the prime and obvious cause, which can be stated in a sentence, is simply this: that, although living costs have advanced 103 per cent since the beginning of the war, the average salary of the 740,000 teachers of America is \$930, or substantially the same as four years ago!

This indictment is made still more forcible by comparison with the wages of other skilled labor, which have been repeatedly raised. In one Illinois town the average wage of fifteen miners for a month was \$217, while the average monthly salary of the same number of teachers in the same town was \$55. In another town a miner—an enemy alien, at that—drew \$2700 last year while the high school principal in the same city was paid \$765. The wages of the employes of the United States Steel Corporation were raised three times during 1918, and averaged for the year the neat sum of \$1950 for each individual—an increase of 115 per cent as compared with 1914.

It is little wonder the ranks of competent teachers are decreasing, and the appeal of the Digest is most opportune. "Never," it says, "has there been a more urgent need for high-minded, great-hearted, splendidly trained, 100 per cent American instructors to drive home the vital lessons that those times hold. Never has the future of the nation been so clearly committed into the hands of the teachers. And yet thousands of men and women of ability who would prefer to teach are reluctantly leaving their chosen calling, forced by the hard necessities of their very existence."

"When we have finished un-imping Europe, there is a great work to be done in this country. To make life pleasant and interesting enough and safe enough so that competent people may dare to raise families, is something that should engage the attention of the wise." The above excerpt is from "Life," a periodical supposed to be devoted to

saying funny things; but it surely is not so very wise and obvious truth in this instance. When we note already extravagant price of such food staples as bread and meat being materially advanced six months after the close of the league of nations should be so intaken with the peace treaty as to make them inseparable when it comes to consideration by the senate. The New York Sun says, concerning this performance, that "in all the manifestations of his (the president's) autocratic proclivities there is nothing which surpasses this." And yet in one of his public speeches the president said, "the people are the sadder and governments must follow the people or be overthrown." The people of America may accept this radical departure from almost every national tradition; but surely they should leave the privilege of exercising an intelligent judgment thereupon!

Speaking of the resignation of Secretary McAdoo, a prominent southern editor declares the real reason to have been "a realization of his complete 'irreparability' of the railroad systems of the country and their rapid drift to bankruptcy;" and adds that "he, in fact, ran away from a confused and costly condition, his own creating, with which he was in duty bound to stay to the end of the experiment. Talk of this rank quitter as a candidate for the presidency—even as a substitute for the third term, is defilement of the grave of democracy." Ex-Senator Bailey does not seem to be alone in thinking the present leaders of democracy have guided it into a political grave yard.

President Wilson now proposed to send his message by cable so read to congress when it convened on the 19th instant—which will make every one remember that the reason assigned by him for not calling into extra session two months ago, in response to an imperative need, was that it was his "duty" to be present at such a time. "Duty" is a evidently best recognized by the president when self-imposed!

Marshal Foch has gone from Paris to the army of occupation along the Rhine in order to be ready for any emergency. Instead of "Johnny, Get Your Gun," the timely tune over the Rhine would seem to be, "Heinie, Get Your Pen!"

The pathetic appeal for mitigation of the severity of peace terms, addressed by the people of Germany to the people of England arrived inopportunely by a day which saw the remains of poor Edith Cavell consigned to an honored resting place in Westminster, amid the tears of the nation!

One of the secretaries connected with the German delegation to the peace congress said, the other day: "Of course, we'll sign the treaty; we are on our back, your knee in our stomach, and your thumbs in our eyes; what else can

we do?" That Heinie actually shows symptoms of lucidity!

Some statistical crank should get busy and compute the floor space now included in Twin Falls garages. "Ten acres," was what one fellow guessed, and he didn't allow for the fact that the Magel Bros. are about to build a new one somewhat larger than any of its predecessors.

Viewing the beautiful and striking ensemble presented by the three score young men and women gathered upon the handsomely decorated stage of the opera house at the high school commencement last Wednesday evening, hearing the fine music made by an orchestra from among their number and appreciating the full meaning and importance of the inspiring scene, the soul there present that did not congratulate itself upon a voice or vote to add needful facilities for the grand educational purpose of our public schools is surely only "fit for treason, stratagem and spoils!"

The records show that ten thousand English soldiers have lost one or both legs in the great war. And thirty-six thousand men fought the great battle of Bull Run.

COUNTY TO SUE FOR RECOVERY OF PLEDGED MONEY

Repudiation by Minidoka Board of Share in Expense of Building Hansen Span May Precipitate Litigation.

Suit in the district court against Minidoka county to recover \$7000 pledged by it to defray a proportionate share in the cost of building the Hansen suspension bridge spanning Snake river canyon probably will be filed in the near future by the commissioners of Twin Falls county as a result of the action taken by the Minidoka county commissioners at a joint meeting in Jerome Monday with the same county board in repudiating responsibility for the payment of this amount or any part of it.

C. O. Siggins, recorder of Twin Falls county and secretary of the Hansen bridge commission, was in attendance at this meeting. It was through his efforts that the Minidoka board on Friday last consented to the plan of meeting with the Jerome county commissioners with a view to dividing responsibility for this payment. It was the apparent attitude of the Minidoka county board at that time that a settlement could be reached if a portion of the amount now assessed against Twin Falls county was created out of portions of Minidoka, Lincoln and Gooding counties after payment of the account was pledged by Minidoka county.

Minidoka Backs Up.
Although the Jerome county commissioners expressed a willingness to assume a portion of the account, the two members of the Minidoka board in attendance at the joint meeting proved obdurate and would have nothing to do with the matter.

The \$7000 in question is a portion of the \$17,000 found necessary to be raised in addition to the \$80,000 raised through voting and sale of bond issues to defray the cost of the span. Twin Falls county assumed payment of the balance of the amount; the Hilldale highway district assumed \$1500 and Minidoka county \$7,000.

Bonds were voted by Twin Falls county and by the Hilldale district each in the amount of \$30,000. Appropriation of \$20,000 to the bridge fund was made by the state legislature in 1917.

CURTAINS AUTHORITY OF MAYORS OF IDAHO TOWNS

Public Not Compelled to Pay Expenses of Private Detectives in City Employ.

(Special to The News)
BOISE—Mayors of cities and towns in Idaho will unquestionably be relieved in the future from taking the responsibility of hiring detectives, independent of the police force to run down bootleggers and others engaged in the violation of the law. The supreme court of this state has handed down a decision involving this issue. It is in the case of Wilbur J. Talo versus Louis Johnson as clerk of Boise.

PROVIDES FOR PROTEST AGAINST GARBAGE HEAP

If any accumulation in Twin Falls of refuse, manure, dirt, waste, rags, casks, unsoiled food or matter, putrefactive, waste paper or old clothes, should prove offensive to any ten other citizens, under the terms of an ordinance passed by the city council at its meeting last evening, complaint may be made by the offended citizens to the health officer and the accumulation will be declared a nuisance rendering its owner liable to payment of a fine in an amount not to exceed \$100. The initiative in such premises also may be taken by the health officer, whose duties are vested in the office of the city engineer.

FIRST CASE OF BABIES THIS YEAR REPORTED

(Continued from page one)
been devised. He also states that rabies develops only as a result of infection and that it is entirely possible that the Bennett case was bitten by a animal owned by W. H. Daves, two miles south of Filer which was examined by Dr. Sullivan and Dr. Grooms on Sunday, May 17, and the case diagnosed as one of rabies. This animal was immediately confined.

Personals

L. L. Forin of Burley is a business visitor.
O. D. Hills of Pocatello is registered in the city.
Grover Newman of Shoshone is in Twin Falls.
B. T. Tillery of Buhl was a visitor here Sunday.
J. C. Moore made a business trip to Hansen Sunday.
Miss Pikel has accepted a position in Cloa book store.
Mr. and Mrs. Stephen M. Smith of Boise are in the city.
Miss Doris Cox went to Buhl yesterday to remain until Tuesday.
Mrs. H. H. Schildman of Filer was a visitor in the city Monday.
J. R. Diebolt of Hollister transacted business in Twin Falls Monday.
L. L. Ormsby, prominent sheepman of Boise, is in Twin Falls visitor.
Frank L. Bryon of Pocatello was a business visitor here Monday.
Marion S. Plumb of Murtaugh was a business visitor here Monday.
Mrs. Edna Deener of Boggorson was a Sunday visitor in Twin Falls.
Mr. and Mrs. John Gourley have been quite ill at their home near Filer.
Mr. and Mrs. Fred W. Frimback of Rupert spent Sunday in Twin Falls.
Miss Hazel L. Bishop has accepted a position at Harts store for the summer.
Miss Britton Wolfe, county superintendent, spent the week end at Rock Creek.
Mrs. W. B. Lawrence and children Burley are visiting her mother, Mrs. Cameron.
Mr. and Mrs. E. W. Grabbill and Mrs. E. W. Sandmyer were Twin Falls visitors Sunday.
Mrs. Tom Reed and son, Ernest, shopped in town Monday morning from their country home.
H. E. Cornell, well known engineer, formerly of Boise, but now living in Boise, was in the city Monday.
George M. Snow of Boise traveling auditor for the Idaho Power company, leaves this afternoon for a few days stay in Buhl.
Miss Susan Sprague came here from Boise Monday and will visit at the home of her brother, George F. Sprague for a few days.
Mr. and Mrs. Wilbur Bolton and children returned to their home at Buhl Monday. They were guests at the T. F. Warner home over Sunday.

Prospects for Bond Election are Improving

Prospects for voting of the proposed \$150,000 municipal bond issue for paving street intersections at the election on June 6, seems to have materially improved as a result of the discussion of the subject had last evening by the members of the city council with members of a committee declared by citizens who are opposing the proposed paving program. Objection to the program is based on the opinion that paving should be done at this time not only within the confines of the proposed ward but also on other streets and avenues and especially along Fourth avenue east from Shoshone streets to Blue Lakes highway, on Sixth street east from Main avenue to Fourth avenue, and on Second and Third avenues west.

Social Notes

The War Mothers held an open meeting yesterday at the home of the Presbyterian church, for all those who are eligible to become members of the organization. The rooms were beautifully decorated with service flags and flowers. The program consisted of a reading by Mrs. Putnam and a talk on the meaning and purposes of the organization by Mrs. T. H. Irwin. Following the program, tea and wafers were served.

Mr. and Mrs. Merrill George Batley and Mr. and Mrs. John Wood Dodge Smith entertained at a dinner dance last night in honor of Miss Veva Amos. The dinner was decorated in floor cloths and bridal wreath. The table had a low bowl of purple and white flowers with mauve and pink streamers leading to each place. The covers were marked with places and the purple and white. After the elaborate five-course dinner the guests spent the remainder of the evening in dancing at the Smith home. Here the same scene in decoration was used. The guest list included Messrs. and Mesdames L. Benussen, H. Baitner, Misses Veva Amos and Byrd Wall, Jack Doran and Wendell Allen.

At the Hotels

ROGERSON—Joe Perrault, Boise; L. Ormsby, Boise; W. W. Statter, Great Falls; F. D. Liddle, Davenport, Ia.; W. Beaton, American Falls; G. W. Wilcox, Lakeview; F. O. Zell, St. Paul; W. J. Elvan, Salt Lake; Charles Chapman, Seattle; Paul Condie, Salt Lake; Frank L. Bryon, Pocatello; O. D. Hills, Pocatello; L. M. Grace, Salt Lake; R. (Cowley) H. H. Cornell, Boise; C. H. Harman, Burley.
PERLINE—F. C. Targa, Chicago; F. V. Smith, Salt Lake; G. A. Glick, Salt Lake; B. Fritz, C. H. Fish, J. Tokro, Tainio, Ogden, Utah; F. H. Bonler; L. Blanner, New York; C. S. Bensch, Portland; George E. Keeler, Denver; J. L. Morrison, Salt Lake; E. R. Thornton, Boise; Barr Mrs. H. H. Johnson, R. Y. Bogard, C. M. Smith, Rocky Bar.

Local Brevities

Leaving for Longmont—Mrs. L. L. Breckenridge leaves Wednesday for a short visit at Longmont, Colo.
Visiting in Oregon—Mrs. C. B. Channel and daughter, Dorothy, left last evening for a month's visit to Hot Lake, Ore.
On Business Trip—E. S. Johnson of the Johnson Auto Sales company, left Monday evening for a business trip to Salt Lake.
On Camping Trip—Miss Mary Benson and Winifred Young left Monday evening for the Magic dam for a two weeks camping trip.
Goes to Palo Alto—Miss Mary Breckenridge who has been a guest at the L. L. Breckenridge home, left for Palo Alto, Cal., Monday evening.
Overseas—Vernon Returns—Robert Alpaugh arrived home today from Fort D. A. Russell after spending over a year in active service overseas.
Spends Sunday Here—James Comstock, secretary of the public utilities commission, spent Sunday in Twin Falls and left Monday morning for Shoshone.
Joins Highway Forces—A. Kaphall, formerly employed by the reclamation service at Rupert, has accepted a position with the Twin Falls highway district. He is to have charge of bridge construction.
Cummins Returns—Taylor Cummins, who attended the national caucus of returned service men at St. Louis at which the American Legion was organized, returned Sunday after visiting for a time with relatives in Ohio.
On Motor Tour—Harvey Coggins, former county treasurer, with his family left this morning on an automobile tour through Great Falls, Montana, Seattle, San Francisco and Portland. They expect to return to Twin Falls in the fall.
Helmske to Build—E. R. Helmske, local manager for the Nibbey-Channel Lumber company, Monday took out a municipal building permit covering the construction of a residence to be erected on Sixth avenue north between Fourth and Fifth streets at an estimated cost of \$2,500.

Arrange Second Meeting

Arrangements were made for a joint meeting of the members of the present program to be held on Wednesday evening next.

Notice to Water Users!

Lawn sprinkling is to be discontinued every other day until further notice, odd numbered houses sprinkle on odd days of the month, even numbered houses sprinkle on even days of the month.
This rule will apply until the new twenty-four inch line is put into service.

A recital given by Miss Alford and her classes will take place in the parlors of the Presbyterian church on Thursday evening, May 22, at 8:30. All music lovers are invited to attend.
ENDORSE RETURNED SAILOR
Electricians Request Appointment of Nicolas Wenzel for City Job.
Request of the electrical workers' union and of the employing electricians for the appointment of Nicolas Wenzel as city electrical inspector was presented to the city council at its meeting Monday evening and has been taken under advisement by Mayor W. H. Eldridge.
Mr. Wenzel has recently returned to Twin Falls having served several months in the navy from which he was furloughed into the reserve with the rank of chief electrician. While in active service he made a trip through the Mediterranean sea, spending some time at an Italian port.
WATER TO RUN IN DITCHES
First Delivery for Season on Salmon River Project Announced.
(Special to The News)
HOLLISTER—Water for irrigation on the Salmon River project on Monday, May 26. This is the statement authorized today by J. C. Porterfield, watermaster for the Salmon River Canal company.
Representative of the Elks' committee before the council.

Every concession except one, asked by the committee in charge of the Elks roundup and patriotic celebration to be held here July 3, 4 and 5, was granted by the city council at its meeting last evening.
The council authorized the closing of certain streets on these days in the vicinity of the corner of Second avenue and Third street east where the Happy Canyon or Victory Gulch attractions are to be staged, provided for police protection of all street concessions which have been awarded by the Elks' committee to Albert G. Beckett, and granted permission to the committee to erect three stands for concessions between the sidewalks and curb at the city park.
The council withheld permission only to the committee to pitch tents in the city park for the accommodation of roundup performers and visitors, suggesting that permission might be gained for the use of grounds north of the high school building for this purpose.
The streets in the vicinity of the Happy Canyon grounds to be closed during the celebration are Third street from the Second avenue south to the alley; and Second avenue from Third street north to the middle of the block. It is proposed to erect seats for spectators within the closed area.
C. D. Thomas appeared as the representative of the Elks' committee before the council.

IDAHOANS AMONG CASUALTIES
Casualty lists reported by the commanding general of the American expeditionary forces for publication today include the names of the following Idahoans: Wounded severely—Lieutenant, Pvt. Cecil R. Welch, Boise; Wounded slightly, Pvt. Fred A. Graves, Gooding; Pvt. James W. McDonald, Bovil; Pvt. Arthur D. Smith, Boise; returned to duty previously reported missing in action, Pvt. Robert Stephenson, Horseshoe Bend.
The best of men sometimes lose their positions. The wisest of them turn at once to the classified.

PAVES WAY FOR CELEBRATION

Council Withholds Permission Only to Pitch Tents in Park.
Every concession except one, asked by the committee in charge of the Elks roundup and patriotic celebration to be held here July 3, 4 and 5, was granted by the city council at its meeting last evening.
The council authorized the closing of certain streets on these days in the vicinity of the corner of Second avenue and Third street east where the Happy Canyon or Victory Gulch attractions are to be staged, provided for police protection of all street concessions which have been awarded by the Elks' committee to Albert G. Beckett, and granted permission to the committee to erect three stands for concessions between the sidewalks and curb at the city park.
The council withheld permission only to the committee to pitch tents in the city park for the accommodation of roundup performers and visitors, suggesting that permission might be gained for the use of grounds north of the high school building for this purpose.
The streets in the vicinity of the Happy Canyon grounds to be closed during the celebration are Third street from the Second avenue south to the alley; and Second avenue from Third street north to the middle of the block. It is proposed to erect seats for spectators within the closed area.
C. D. Thomas appeared as the representative of the Elks' committee before the council.

FINE, CLOSE-IN FARM

One of the most attractive close-in country places in Idaho. 80 acres all in crop, fine new 6-room modern house and otherwise well improved. Only two miles from Twin Falls in splendid location. Price includes crop now in.

IRRIGATED LANDS COMPANY

First National Bank Bldg. Twin Falls

When you remember how you felt about clothes as a youngster, you'll recall that you were really particular. Maybe you were careless—boys mostly are. But it was a satisfaction to be well dressed.

And boys have not changed. So be sure you get one of those nifty All-Wool suits at the Idaho Department Store for that boy of yours.

This store believes that the boy deserves as good a suit as his dad so you'll find the best boys' clothing in America at this store.

Yes, and they keep rafts of hats, neckties, blouses, and all other accessories a boy needs to fit him out just right. Just come in and see how reasonable our prices are, too.

MEMORIAL DAY AT FILER IS G. A. R. PLAN

Dan McCook Post Accepts Invitation; Will Assemble Here to Travel by Motor to Services in Neighboring Town.

Members of Dan McCook post of Twin Falls, Grand Army of the Republic, on Sunday next will attend Memorial Day services at Filer, having accepted the invitation extended by the Methodist Episcopal church of Filer. The veterans of this vicinity will assemble at the corner of Main avenue and Second street south to be conveyed by automobile to Filer on this occasion.

The following notice to veterans has been issued in this regard by Adjutant James M. Hieck:

By invitation the G. A. R. will attend Memorial Sunday services at the Methodist Episcopal church of Filer on Sunday, May 25, at 11 o'clock a. m. We will start from the Idaho Department store corner at 10 o'clock a. m. There will be autos to convey all who wish to go. Let us give Filer a good turn out.

ARE READY FOR ARGUMENT

Attorneys for Plaintiffs in Five Cases File Formal Notice.

Formal statement that they will be ready on May 24 for argument on demurrors in five cases in which they appear as attorneys for the plaintiffs was filed Monday in district court here by Walters & Hodgkin. The cases in question are the following: Thelma F. Laycock, administratrix of the estate of Elvira Laycock, decedent, against Peter Worro; C. McKean and Thelma F. Laycock, administratrix of the estate of Elvira Laycock, decedent, against Peter Worro; C. McKean and Thelma F. Laycock, administratrix of the estate of Elvira Laycock, decedent, against K. A. Owens and Thomas Owens; Adams Produce company against Harry McKinley; J. M. Steelsmith against the Idaho Land & Improvement company, M. F. Albert and W. R. Summers.

ARMENIAN HORRORS ARE ALMOST UNBELIEVABLE

Thousands Absolutely Destitute in Land Ravaged by the Turkish Soldiery.

LONDON (Correspondence of the Associated Press).—"The sights one sees in Armenia are almost beyond belief, and the tales one hears are too heastly to be inventions."

This is an extract from a letter an Armenian medical officer, writing from the base of the Red Army, to a fellow countryman in London. The letter says:

Awful States of Distress.

"It may interest you to know of the awful state of things existing in the country here. Thousands of people are homeless and absolutely destitute. In the town of Erivan alone there are 25,000 refugees. Their country has been ravaged, the houses burned, and the survivors who escaped with their lives have nothing but the rags they are wearing.

Typhus Prevalent.

"I have been sent down here to inquire into an epidemic of typhus among the native population. It is as serious as it was reported to be.

"For months the people have been cut off from all communication with the outside world, with the exception of a small area round Erivan. The whole country has been overrun by its enemies. There are no supplies of any kind and the population is on the verge of starvation, many already having died of hunger."

Yanks Heed Temper of the Wind

"Which way does the wind blow?" is a very important question to American aviators in transatlantic flight. And this is how it is answered: At every landing point along the routes of the great flight this apparatus was hauled from the inside of the airplanes early every morning small rubber balloons (as shown here) were inflated and turned loose to show the velocity and directions of the air currents which might be encountered.

HAS CHANCE TO EXPLAIN HIS SIDE OF SITUATION

E. B. Damman, Accused of Contempt of Court, Is Cited to Appear.

In obedience to an order issued on Monday by District Judge W. A. Babcock, Edwin B. Damman will appear in district court here at 10 o'clock on Monday morning, May 20, to show cause why he should not be punished for contempt of court to show the disregard of an order entered in the district court March 20, 1919, in the case of the Twin Falls Canal company against Edwin B. Damman. Presumption of Damman's contempt of court is based on an affidavit filed by J. C. Wheeler, general manager of the Twin Falls Canal company.

STARTS EXCAVATION ON AUTO FIRM'S NEW HOME

Contractor William Harkins Puts Big Crew to Work Moving Dirt.

On Monday excavation was started by Contractor William Harkins with a big force of workmen for the building to be erected by Hagel Brothers, distributors for the Haynes and Cadillac cars, on five lots on Third avenue north between Shoshone and Second streets, and on the same day a mutual construction of the building was issued on the application of Conrad Magel. The new building, which is to be occupied with sales and store rooms and a well equipped garage, is to be 125x125 feet in dimension and two stories high. It is to be built of brick. The estimated cost is \$50,000.

ABOUT RHEUMATISM

People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of these varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Try it. It costs but 35 cents per bottle. Large size, 60 cents—adv.

IMPORTED DISEASES SWEEP OVER UKRAINE

STANISLAU, Ukraine — (Correspondence of the Associated Press)—Diseases imported from Russia by the way of Kiev and Odessa are spreading to such an alarming extent that the government has closed the frontiers and closely examined civil refugees and other former prisoners of war returning to their homes. An investigation by the International Red Cross Mission shows that possibly twenty-five per cent of the population of Lemberg and other centers of Old Galicia are infected by the various forms of typhus, dysentery, tuberculosis or other infectious or mental and nervous diseases.

Close Contact Bad

The conditions are considerably worse here owing to closer contact with Russia. In one hospital here are 500 cases of typhus and 600 cases of social diseases. For a population of 500,000 there are but sixty physicians. Thus far six doctors have died of typhus and three others are ill. The conditions are made worse by lack of soap, disinfectants, change of clothing and sheets. Virtually all the window curtains have been requisitioned for use as bed clothing or for making women's underclothes.

Drugless Drug Stores

Of a total of 250 drug stores, 300 are without drugs. In the hospitals all kinds of cases are treated in the same way.

Beds Contaminated

These diseases are spreading partly from Russia where it is affirmed that the Red Army is contaminated with social diseases to the extent of seventy per cent. Many diseases also were spread by Russian prisoners who were interned in Hungary and who have returned to Russia since the armistice was signed. Many of these were in a horrible condition. When set free by the authorities and told to go home, they crowded in the trains in such numbers and under such conditions that thousands died of typhus and pneumonia on the way. One trainload stopped here and discharged 300 dead. More than 3,000 such unfortunates now have been buried here.

Dead Arrive on Trains

In one week there arrived at Kiev trains freighted with 600 dead. The diseases are spread partly by vermin. Lack of food is making conditions worse. There is no coffee. Tea costs \$8 a pound, bread fifty cents a pound, sugar \$1 a pound, and coal, wood and soap are so high that it costs fifty cents to laundry one shirt.

DO YOUR BEST

Everyone should do all he can to provide for his family and in order to do this he must keep his physical system in the best condition possible. No one can reasonably hope to do so when he is half sick and half dead of the time. If you are constipated, bilious or troubled with indigestion, get a pack age of Chamberlain's Tablets and follow the plain printed directions, and you will soon be feeling bright and able to do a day's work—adv.

"I know how" leads "I will" to the classified columns.

Permits Water Users to Sprinkle Lawns on Alternate Days

Limitation to Be Enforced Until Completion of New System.

Until such time as Twin Falls new filtration plant is completed and filtered water is diverted through the mains of the new municipal waterworks system within the course of a few weeks' time, lawn sprinkling is to be discontinued every other day in Twin Falls, according to a notice to water users issued today by J. J. Piggerrin, superintendent of waterworks. Under this arrangement, odd numbered houses will sprinkle on odd days of the month and even numbered houses will sprinkle on even days of month. This rule will apply until the new 24 inch line is put in service.

GOVERNOR INTERESTED IN REFORESTATION

Steps Taken to Protect and Increase Area of Timber in State.

(Special to The News)

BOISE — Governor Davis today received from Chief Forester Graves a communication announcing that the government proposes to inaugurate a plan of supervision over private timber holdings as well as over forest reserves, on the grounds that steps must be taken to protect private timber holdings against fire and to provide for reforestation as in forest reserves. The governor is asked to give an expression of his opinion in the premises. Idaho stands fourth among the states in the Union in respect to amount of producing timber.

MAKES APPEAL TO COURT FOR NOTES RETURN

Millner Land & Water Company Charges Two Institutions with Wrongful Detention of Securities Worth \$549,142.

Wrongful detention of \$549,142 worth of notes and mortgages is alleged in the suit instituted in district court here Monday by the Twin Falls Millner Land & Water company, by its attorney, James H. Wise, against the Boise Title & Trust Company and the Daniel Hayes Company of Idaho. Demand is made for the return of the securities or for the equivalent value in cash.

Incorporated in the complaint are copies of 73 mortgages alleged to have been taken by the defendants in the consent of the plaintiff and held by the defendants notwithstanding the request of the plaintiff for their return. The securities in question are notes and mortgages given by landholders of the Hansen Butte district given to secure payment for stock in the plaintiff corporation.
