

JAPANESE ENVOY MISCONSTRUES OUR ASSURANCE

Misinterpretation of Language of State Department Causes Disagreement; Returns to Duty After Leave of Absence

TOKYO, (AP)—It is understood that the forthcoming return of Viscount Ishii to Japan from Washington is connected with a misunderstanding concerning the appointment of a financial advisor to China. The Japanese government appointed Baron Saito financial advisor to the Peking government. Viscount Ishii, it appears, reported to Tokio that Washington had no objection to the appointment. Later, Dr. Redlich, American minister to China, entered a protest.

Had Not Approved
This led to inquiries at Washington and it transpired that the misunderstanding had occurred and that the American government had not approved the appointment. Viscount Ishii, who had the contrary impression, was much embarrassed and requested a leave of absence. The entire question may be explained as due to language difficulty. Viscount Ishii's regard for his very able diplomat and efforts will be made to induce him to remain in the service as Japan's representative at Washington.

MANY HITS SCORED IN PACIFIC COAST LEAGUE

And Fans Seem to Like to See Slabsters Make Long Connections.

SAN FRANCISCO, (AP)—Patrons of the national game who enjoy plenty of hitting and like to see runs scored are being accommodated by the teams of the Pacific Coast league. It has been said that the more perfectly base is played the less action there is and the no hit and no run games are cited. The comparative demonstrations of the coast crowds indicated that they got more enjoyment out of the contests that bring out the hits and runs provided that both teams score and the tally is not one-sided.

Some Had Dances
There have been many games played thus far this season in which from a half dozen to a dozen runs have been scored by the two teams and in many instances first one team and then the other would take the lead only to lose it again in a subsequent inning. With only a run or two separating the teams the issue has been in doubt practically to the last inning.

Galaxy to Twinklers
Contests of this character spell ruin for the pitchers who are anxious to make good records in the "run responsible for" as well as the victories column. This is evidenced by a number of pitchers who have good percentages of games won but who are responsible for many a run. The figures, not including games of the last series for some of these were:
Scotton 19 runs; Bromley 22 runs; Portica 22 runs; Mills 18 runs; Krause, Jones, Smith, Frough and Green are among those whose runs responsible for did not run into the double figures at the time the figures were compiled. Brown and Gardner, the leading pitchers only had 11 and 10 runs respectively chalked up against them.
On the other hand, the batters averages are maintaining plump proportions there being many more men in the 300 percentage class than there was a year ago at this time.

To Call for Bids on Road Building

The Twin Falls highway district early next week will advertise for bids on the construction of seven miles of gravel road to be built east from Holliester, in which district road surveys have been completed by the district.

First Band Concert Is Set for June 5

The Twin Falls band, with 35 members, will appear on Thursday evening, June 5, in the city park in the first of the series of regular open air concerts to be given during the summer months.

AMERICANS PREPARE STATEMENT ON PEACE

Delegation Shows That Much Work Remains to Be Done in Cleaning Up Settlement.

PARIS, (AP)—The American delegation has prepared a memorandum showing the status of affairs before the peace conference on the conclusion of the Austrian treaty. This discloses that a formidable amount of business is still to be transacted, besides the Turkish and Bulgarian treaties covering the whole range of inter-allied subjects. The memorandum leaves no doubt that the conference will continue for a considerable time after the treaty have been signed and President Wilson has left.

REPUBLICANS IN AGREEMENT

Many Leading Senate Committee Memberships Are Disposed of in Meeting.

WASHINGTON, (AP)—An agreement was reached at the important senate committee chairmanships was reported to have been reached by the republican senate committee on committees. Although members declined announcement of the assignments until the report is made to another conference, it was stated authoritatively that Senator Warren of Wyoming, had been selected to head the finance and appropriations committees, respectively, despite protests of republicans. Other important committee chairmanships upon which the committee was said to have agreed included: Foreign relations, Lodge, Massachusetts; military, Coolidge, New York; naval, Pollock, Washington; public lands, Smoot, Utah, and agriculture, Page, Vermont.
Reports of the committee's recommendations indicated that the seniority rule was being followed almost without exception.
Senator Lodge today introduced resolutions for amendment of senate rules in conformance with republican caucus plans reducing personnel of the principal committees to 17, barring senators from more than two of the most important committees and providing for consideration of the annual diplomatic appropriation bill by the foreign relations instead of the appropriations committee.

ALLIED AIRPLANES IN GREAT MAJORITY

Figures Issued Showing Comparative Aerial Strength of Forces When War Ended.

WASHINGTON, (AP)—The airplane strength of the allied armies on the west front when the armistice was signed was greater than that of the Germans by more than two to one, and Italians outnumbered Austrians by four to three in machines according to official reports to the war department. In "balloon strength" the Germans were declared to be superior with 170 craft to 144 for the allies of which the Americans had 23, French 72, British 43, and Belgians 6 in use. Of the airplanes in service, British units comprised 1,758 machines, French 3,321, Americans 740 and Belgian 153.

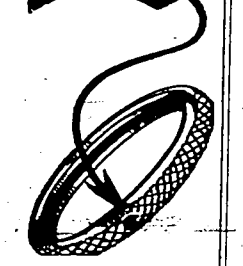

ARGENTINE BEATS CHILE AT THE GAME OF SOCCER

RIO JANEIRO, (AP)—Argentina defeated Chile today in the fifth game of the series of soccer contests to decide the championship of South America, the score being 4 to 1. The final game will be played on Sunday between Brazil and Uruguay.

INDIAN ROBBED STATES SIOUX

Noted Scholar Among Red Men Makes Sweeping Charges Against Agency System.

MINNEAPOLIS, (AP)—Charges that the United States bureau of Indian affairs is "squeezing the blood" from the Indians whose affairs it administers, "stealing whatever they have," and destroying the old high morals of the race, were made by Dr. Charles A. Eastman, president of the Society of American Indians in an address at the "Little Theatre" at the University of Minnesota.
Dr. Eastman, himself a full blooded Sioux and a Dartmouth college man, is in Minneapolis to arrange for the coming meeting next fall of the national inter-tribal convention of the society. World Abolish Bureau
The convention, Dr. Eastman said, will be a protest meeting and will call on congress to abolish the bureau altogether. Two-thirds of the Indians are of the educated type, which he himself represents, he added. Many are well to do, some are millionaires but they never see their money and the agent is likely to be "too busy" to give out the millionaire his \$10 monthly allotment, he said.
"Educated Indians are discriminated against because they 'know too much' and there is no redress, since complaints can be lodged only through the agent," Dr. Eastman said.

MISSIONARIES IN CHINA MAKE STRONG PROTEST

Declare That Treaty Provision Regarding Shantung Will Prove Disaster; Boycott Proceeds.

PEKING, (Friday) (AP)—Foreign missionary organizations here have adopted a resolution which will be called to the peace conference, calling attention to the serious conditions created by the decision on the Shantung question. The resolution expresses the opinion that Chinese dissatisfaction is justified.
The anti-Japanese boycott is spreading, particularly at Shanghai. Japanese authorities have lodged a protest against the use of the term "enemy goods" with relation to Japanese goods.

AMBASSADOR FROM MEXICO LEAVES TO SEE CARRANZA

If you know what's advertised today you know what to buy today—where to find it—what it will cost.

IRISH REPRESENTATIVE QUILTS HOPELESS CASE

One of the Delegates from America Leaves Paris; Others Remain Temporarily.

PARIS, (AP)—Michael J. Ryan, one of the representatives of Irish societies in the United States who have been here in connection with the effort to secure a hearing for the Irish Sinn Fein delegates before the peace conference, left today for America. Frank P. Walsh of Kansas City, and former Governor Edward F. Dunne of Illinois, the two other members of the committee, have decided to remain here for a time to await developments regarding the request that Prof. Edward De Valera and other representatives of the Irish cause be given safe conducts to come to Paris.

AMERICAN MILITARY POLICE FOR BELGIAN CAPITAL

BRUSSELS, (AP)—So many American army officers and men have been flocking to Brussels recently that General Porshing finally decided to assign military police to the Belgian capital area. The office of the assistant provost marshal, Captain George Parker, is in a building at one of Brussels' principal corners and all Americans remaining in the city any length of time are required to register with the American authorities. About two hundred Americans, either on leave, homeward bound, or on duty, pass through Brussels each day. The military police force is made up of two hundred-picketed men from France.

MANY ANIMALS DIE IN PARIS
PARIS, (AP)—One hundred animals in the Paris zoological gardens died during the war. After a bomb from a German airplane made a big hole in the Buco Cuvier, alongside the gardens, the authorities thought it wise to kill the poisonous snakes, lest they should escape and cause a panic.
Later the river Seine overflowed its banks and flooded part of the gardens, and monkeys, antelopes and giraffes developed chest complaints and died. Only the waterfowl flourished, but Coco the baby hippo, the pride of the gardens died—of canni, they say as the gardens were virtually deserted during the war.

The Heel of Achilles in Tires

The weak spot in a tire is where tread stops and sidewall begins.

On any road but smooth, flat pavement, the spurs of the road—stones and broken rock—are constantly jabbing at the Heel of Achilles. And the sides of wagon tracks, when you ride rut, grind wickedly at vulnerable flanks.

Your eyesight tells you that. Now look at the SAFETY TREAD of Goodrich Tires. See how it spreads the Goodrich interlocking safety bars beyond the ball of the tire, and lays extra tread rubber along the sidewall.

Notice, further, how the extra-wide tread carries on up the sides of the tire, extending beneath the sidestripe.

Thus an extra thickness of tough tread rubber fortifies Goodrich Tires at the Heel of Achilles.

Remember, that is one of the many reasons why Goodrich Tires lead in mileage over all roads, rough or smooth.

Buy Goodrich Tires from a Dealer

BAPTISTS FOR LAYMAN PLANS

Unanimously Favor Creation of General Planning Board for Activities.

DENVER, Colo., (AP)—The introduction of the report of the national committee of the Northern Baptist laymen, recommending the creation of a board of managers, consisting of 140 members, representing every activity of the Baptist church, one of the most important recommendations ever made to a similar convention, occupied a greater portion of a long session of the Northern Baptist convention here. The report was adopted unanimously last evening.

Next in significance to this report was the action of the convention in voting, almost unanimously for the establishment of a purely selected by the convention.

Would Start Paper.
There are now several publications scattered throughout the United States, that are recognized Baptist organs, but all are under private ownership and are not responsible to the governing body of Baptists.

No action was taken by the convention on the report of the laymen's committee. It was, however, productive of much discussion. The plan for the coordination of the activities of the church under one governing body, which in turn will be responsible for the conduct of the work of the organizations and will be amenable to the dictates of the convention. All of the societies and organizations under the supervision of the convention will prepare their budgets, and outline their program of activities for each year for the consideration of this board of control.

Transport Arrivals from Brest at Gotham

NEW YORK, (AP)—With nearly 4,000 officers and men of the 7th division and the 25th engineers less company C, and casuals—in all 5,472 troops, including 185 nurses—the steamship Kaiserin Augusta Victoria arrived here today from Brest. Traveling as casuals were Lieut. Gen. Robert Bullard and Brig. Gen. Herman Hall.

Arrived from Bordeaux
The steamship Panama arrived from Bordeaux bringing the 114th base hospital, 42nd ambulance company, detachment of five officers and seven men of the 100th division's headquarters and 71st base hospital, tenth, 99th and 1105th aero squadrons, a casual company of twelve Iowa, and companies of scattered casuals.

Expected Arrivals Announced
WASHINGTON, (AP)—The expected transport arrivals announced today included:

Pastores, New York May 23, headquarters detachment, companies A to D, inclusive, 339th machine gun battalion; train headquarters, headquarters motor and horse battalions and companies A to D, inclusive, 313th ammunition train; headquarters detachment and companies A and B, 313th field signal battalion; headquarters, medical and ordnance detachments, companies A and B, 327th machine gun battalion; detachments base hospitals 54 and 86 and of 20th and 304th engineers.

Mercy, Newport News, May 31, headquarters 176th infantry brigade; headquarters, medical and ordnance detachments, supply, machine gun and headquarters, companies A to M, 351st infantry; two convalescent detachments; and detachment of 88th division headquarters.

Give It a Chance to Work for You

Build a house upon that vacant lot and convert it from an *expense* into an *asset*. Then instead of owning idle land which brings you *nothing*, you will have valuable property which will always be a source of income.

One of the greatest needs of America today is the need of *homes*. Read the opinion handed down by the publishers of the *Atlantic Monthly* on the subject of building conditions:

"The best authorities at this time state that the United States is short on practically all character of buildings. As a whole, this country is Forty Per cent underbuilt."

This being the case, don't you see that you are actually *losing* by not building? Because the demand for homes is so great at the present time, rents are higher than ever before. Why don't you build a house and rent it?

By building on that vacant lot you are increasing the value of all real estate in the neighborhood, your own along with the rest.

Build *now!* Authorities state that you can build as economically today as at any future time that can yet be foreseen.

The Dead Weight of a Vacant Lot

See this vacant lot; perhaps it is *your* lot. In it you have tied some Hundreds or Thousands of Dollars from which you are not receiving a cent of profit. Is it good business to let money lie idle when it can be so easily made productive?

It is actually *worse* than idle money. It is a constant, annual source of loss—an expense. The tax collector attends to that. Is it good business to pay tax on property that is profitless to you?

Furthermore, this city *actually* needs more homes. You are holding a piece of ground which might be turned into some one's residence. To this extent you are under moral obligations to the city to build.

And by allowing your property to lie, unsightly and unimproved, you are hindering the enhancement of property values in your neighborhood. Thus you suffer still another loss.

For any information you may desire, on any subject pertaining to locations, plans, materials, finishings, furnishings, equipments, costs, information concerning architects, contractors, etc.—call at the Building Information Office. Not a thing to sell, but a *great deal* to give away!

SHERMAN OF ILLINOIS

Whatever may be thought of the league of nations, or the particular plan for such league drafted in connection with the peace treaty, the people of the country will not be inclined to endorse an attack of such personal bitterness as that of Senator Sherman of Illinois.

It may be, as some senators say, that the league binds the United States too closely to foreign powers, and that in so doing it makes the covenant a menace which should be rejected.

On the other hand, it may be, as certain other critics say, that the proposed league is a rope of sand, without actual power or vitality, and so full of weakness that it will hold nothing. In this case, it might or might not be the duty of the senate to reject it.

But whatever its provisions, its strong points or its shortcomings, it should be discussed on its merits or demerits. Nobody really believes that President Wilson is a monster whose excesses are liable to be so great that history will forget the crimes of Caligula in considering his greater follies and wickedness.

Recently Elihu Root, former secretary of state, made some searching criticisms of the original pact proposed by the peace council, in which, however, he indulged in no personalities and charged no unworthy motives. The address evidently had some effect, for at least some of the amendments he suggested were later adopted.

A New York newspaper the other day commenting on the present situation, declared that at present the administration was at the crest of popularity and that everybody was taking a shot at the president, but added that such could easily be carried to excess to such a degree as to cause a reaction and warned the critics to take the advice of former President Taft and be reasonable in their censures.

So far as the public is concerned, the synopsis, if fair, would give more people a better idea of the pact than the treaty itself would. The synopsis as

mado public by the allied and associated delegates at Paris occupied approximately fifteen columns of the Daily News. The treaty is eight times as long and would take up about 120 columns, two and a half times as much space as is contained in each issue of this paper.

At the same time, should the full treaty be given to members of congress, more or less intelligent discussion pro and con, would be of interest and enlightenment and would help people to make up their minds on its merits.

ROAD DISTRICT OUT FROM UNDER ON THE HIGHWAY

Director W. L. Johnson Says Responsibility for Present Condition of State Roads Lies on State Commission.

Responsibility for the grading of the state highways within the boundaries of the Twin Falls highway district cannot be attributed to the district administration, according to the statement of W. L. Johnson, district director of highways.

The Twin Falls highway district has done nothing in respect to the state highways for the reason that it expects to secure federal aid in carrying into execution the program under which the state highways would be paved.

Everybody Laugh! The girl that because she is sunbathered, and finds things to enjoy as she goes along, adds enjoyment to others as they go along.

COMMENT, BY AND LARGE

Pertinent paragraphs on current events, official acts and the general trend of events, at home and abroad. Edited by Captain C. L. Longley.

The passage of the woman suffrage constitutional amendment resolution on Wednesday by a vote 304 to 89 marks a revolution in public sentiment not even equalled by that which has taken place in the prohibition question. "The world do move!"

Reading today of the victory and capture of the Gallipoli peninsula on every day of battles, greater or smaller, somewhere in Europe—does anyone for a moment suppose that goes anyone for a moment suppose that the peace would prevail, and caduque, and after the evaluation of the league of nations!

Deeply scolding the giving of the shipping penitents to the Japanese, Senator Polkender said in a good illustration of both the fallacy and the hypocrisy of the league of nations.

And Senator Lodge deliberately and authoritatively declared, at the very opening of the special session of congress, that the new league of nations covenant is more mischievous than the two drivers that it will never see the senate without material amendment—and that "sounds good to father!"

When one reads that twelve hundred bills were submitted for passage in the house alone, on the first day of the extra session of congress, he wonders what would have happened if there had been a couple of months more time in which to consider them. There is no end to the making of laws, good, bad or indifferent—and mostly the latter.

Ladies from New York's upper tenor peddle doughnuts on the streets Tuesday that had been made in Mrs. Vincent Astor's kitchen during the prohibition. The doughnuts may be inferred from the fact that they retailed at one dollar per—proceeds to go to the Salvation Army; and another good one which has the doughnut enterprise has a more practical aspect—the "charity ball" so often resorted to in those altitudes.

If the motive of President Wilson in recommending repeal of the war-time prohibition on beer and wine was to set congress by the ears, he has, unthinkingly succeeded. It is not, however, probable that action will be taken before July 1, after which it will be necessary.

Chairman Hoy announces that no contributions to the over-tenor presidential campaign in excess of one thousand dollars will be accepted. It is possible that some very influential contributors might be permitted to subscribe more than once; but as the mon-

PUBLIC FORUM

DRIVES IN BOHOOLS To the Editor: I want to compliment you relative to your editorial of recent date concerning the public schools.

I feel that your expression on this matter reflects the general sentiment of the public concerning the utilization of the public schools for all sorts of drives.

During the great war, the school authorities of the nation and the great body of American school teachers did everything possible to further all sorts of necessary and essential activities. It frequently happened that the regular work of the schools was given a place subordinate to that of the nation's war work. This was as it should be.

However, the great war is now over and it is the desire on the part of the school authorities, the public school teachers and the school patrons that the great work of the public schools be permitted to go on without interruption.

I am very glad, indeed, to inform you that several weeks before your editorial was written the board of education, by a resolution passed unanimously, prohibited drives in the public schools of Twin Falls. This stand on the part of the board was taken after careful deliberation and came at the close of the year that has been held in the Twin Falls schools during the present year—the Memorial fund drive and the Armenian relief drive.

Yours very truly H. A. G. BLUE, Superintendent of Schools, Twin Falls, May 22.

RED CROSS CALLS FOR HELP WITH FINAL QUOTA
