GERMANS REPEAT DEFINITE REFUSAL

FOREIGN OFFICE ISSUES EMPHATIC STATEMENT OF DETERMINATION NOT TO ACCEPT PEACE TERMS

Situation Pregnant with Serious Possibilities Engendered Through Action of German Government; Allied Nations Now Considering Necessary Alternative in Event That Present Program Is Adhered to.

BERLIN, (AP)—The German foreign office reiterated categorically and emphatically today a statement made on behalf of the cabinet on May 20 that "Germania declines to sign the terms laid before it."
In the meantime, the statement which was given originally to the Associated Press, has been circulated throughout Germany by the official Wolff bureau with credit to the Associated Press.
The original statement was translated from the German into English after the German version had been the subject of a long debate at the foreign office. It was then sent from the foreign office to the correspondent by special messenger. The English version was then submitted to the foreign office for approval. It was stamped by an official with a fluent knowledge of English.

Many Similar Phrases

It has been noted that the preamble to the German counter proposals contained many phrases similar to those of the statement of May 20.

PARIS, (AP)—The allied and associated powers, the Paris newspapers declare unanimously, will accept no important modification of the peace terms as a result of the German counter proposals. The allies also will reject all verbal discussions.

The Echo de Paris says that the answer of the peace conference to the German counter proposals will be very short. The answer will reject entirely all the German suggestions, the Excelsior says. A few points on the detail of territorial clauses, it adds, may receive some teaching.

The greater part of the objections raised in the German counter proposals have, in the opinion of French diplomatic and political circles, already been set forth in separate German notes and duly answered by the allies. Consequently, it is said, there can be no modification of the peace terms and there is no necessity for the verbal discussions in which the Berlin government desires to involve the allied powers.

No Further Notes

The German peace delegation has been notified that the period of delay for presenting observations having expired, no further notes will be accepted.

The German counter proposals were accompanied by a covering letter of ten typewritten pages. The letter appears to be the work of Count von Brockdorff-Rantzau as it is more conciliatory and admits than the counter proposals which were elaborated by the German government. The letter paints a most gloomy picture of the fate to which the peace terms condemn Germany. It refers to the demand for reparations, disavows the treaty made with Russia at Brest Litovsk and it concludes with the following phrase:

"We shall only undertake those obligations which we are sure of keeping, because it is the German people who in the last resort will give us assent to the treaty."

WILSON MEETS MANY CALLERS

While Awaiting Final Presentation of Austrian Terms President Fills Engagement.

PARIS, (AP)—While awaiting the convening of the plenary session of the peace conference set for 3 o'clock this afternoon for the reading of the peace treaty to be presented to Austria, President Wilson filled a number of engagements to receive individuals. The council of four held no meeting this morning. Meanwhile, the Jugoslav delegation conferred with the American delegation. The conference was over the Adriatic question. No decision was reached, the Jugo-Slavs standing firmly for their terms. It is understood that they are less opposed than the Italians at present to give ground in the controversy.

Fight Begun on Venereal Disease in the Gem State

(Special to The News)
BOISE—A vigil in aid of the eradication of venereal disease. Surgeon A. C. Seeley, regional consultant in the northwest for the United States public health service, has been in conference here the past few days with Dr. E. S. Laubaugh, medical adviser with the state department of public health. His trip was in connection with the campaign. The government health service believes that a fight against this disease can be made effective and through the arrangements made here with the department of public health, will proceed to wage war on the disease in Idaho, starting in the immediate future.

Chihuahua Quiet After Dire Alarms Over the Bandits

NOGALES, Ariz., (AP)—Under orders from General Juan Torro, the troop trains which arrived at Nogales, Sonora, yesterday, returned last night to Ortiz, 257 miles south of the border, where the general of the state of Sonora is located.
Torro gave as his reason for withdrawing that Carranza had wired from Mexico City that the situation had quieted in Chihuahua City.

THREE DIE IN EFFORT FOR SPEED

Indianapolis Auto Races Result in Series of Fatal Accidents; Fire Adds to Horrors of Great Motor Event.

INDIANAPOLIS, (AP)—L. Leocoo and B. Bandini, his mechanic, both hurried to death on the back stretch of the speedway when their car caught fire. Following so speedily after the death of Thurman, the accident had a sobering effect on the drivers who slowed down their speed appreciably.

Leocoo's car caught fire while rounding the southeast turn of the track. The machine turned over and the men therein were covered with flaming gasoline. Both men burned for five minutes before guards and spectators extinguished the flames. The burning gas spread over the track and several of the speeding cars were compelled to dash through the blaze. The accident was one of the most serious in the history of the track.

Both Leocoo and Bandini were said to be from Los Angeles. They were running in the ninety-sixth lap when the accident occurred. Thurman Car Wrecked
Arthur Thurman turned over on the north turn on the 44th lap. It was an announced Thurman was dead and M. Mohr, the mechanic, had a fractured skull.

Babbler's car, driven by J. Chasagne, his relief driver, turned over. A Roanoke, mechanic, was injured seriously. Chasagne was only hurt slightly. Thurman, the driver killed shortly before the turning over of Babbler's car, was from Newark, N. J. It was his first race on a brick track.

Various difficulties put the cars driven by Durrant and Klein out of the race also.
After the accident to Leocoo's car the speed became slower. The time for 325 miles was 3:27:07.10, or an average of 59.81 miles an hour. Leaders at that point were Wilcox, G. Chevrolet, Hearne, Cooper, Bollitt, Goux and Alley. Seventeen cars remained in the race when 200 miles was run out of thirty-three that entered the 200 mile race.

Konenkamp Announces Strike for Monday in the United States

Will Absolutely Go Out Unless Union Workers in Atlanta Are Reinstated at Once.

Montreal, (AP)—S. J. Konenkamp, president of the Commercial Telegraphers' union, confirmed here today reports from Washington that a general strike of telegraph and electrical workers throughout the United States would be called Monday unless discharged members of the union in Atlanta, Ga., were reinstated. The union leader, who will leave tonight for Washington, declared the strike had been called to enforce recognition of the right to unionize.

A vote in favor of the strike was taken by the Konenkamp and, the demands, in addition to the right of organization, including the privilege of collective bargaining, higher wages and standardization of pay.

Separate Peace Plan of South Germans

LONDON, (AP)—A number of prominent Germans, chiefly Bavarians, had a conference in Switzerland with representatives of the allied powers, a Berlin dispatch received at Copenhagen and forwarded by the Central News, says, and it is believed that Bavaria and other South German states have been offered peace conditions in case there should be a question of a separate peace. The German government, the report adds, is said to be fully acquainted with the proposed conditions and that severe measures will be taken against the persons involved.

BOLSHEVIKI LEAVE BIG STRONGHOLD IN RUSSIA

Abandon Tskhevo Near Orenburg; Siberian Troops Have Won Victory Over Reds.

LONDON, (AP)—The evacuation of Orenburg, one of the last Bolsheviki strongholds in southeastern Russia, is suggested in a Russian official wireless message received at the British embassy. The message says that the west of Orenburg the Bolsheviki abandoned Tskhevo "under enemy pressure."

The Russian wireless adds that the Bolsheviki drew back their flank to the Orenburg-Smarra railway line.
A telegram from Omsk received in London Wednesday said that on May 25 the Siberian troops of the Bolsheviki government were driven from Orenburg. It was through Orenburg that the Bolsheviki maintained communication with Parkistan and China. From Orenburg the Bolsheviki government was able to join fronts with the Ural Cossacks in the region of Uralisk and thence with General Denikin.

Oakley Company Sued for a Large Sum

Settlers Claim Heavy Losses From Damage Through Lack of Enough Water.

(Special to The News)
BOISE—Claiming \$200,000 for damage to their crops, John Adams and other nearby farmers have filed a suit against the Twin Falls-Oakley Irrigation company. It is claimed that the company failed to furnish one-half acre foot of water for irrigation purposes, but never received it with the result their crops burned up and they suffered heavy losses during the past few years or \$106,275.88 in 1915; \$55,415.90 for 1917; and \$54,323 in 1918.

SWISS PROTEST THE BLOCKADE

Ask for Modification of Rules Which They Say Are Injuring Them.

BERNE, (AP)—The Swiss government today gave out statements in which complaint is made that Switzerland had been unable to obtain from the allied modifications of the blockade of Germany, the maintenance of which, it is said, is putting Switzerland in "a more untenable position."
The statement gives the text of a note which has been sent to the allied governments demanding that the blockade be raised insofar as it concerns Switzerland and saying, in case the request is not granted, Switzerland will find it necessary to recover her liberty of action.

AMERICAN SEAPLANE SUCCESSFUL IN GREAT OCEAN TO OCEAN TRIP

Last Jump from Ferrol, Spain Approximately Five Hundred Miles Made in Just Under Six Hours; Enormous Crowds on Hand to Greet Daring Aviator.

PLYMOUTH, England, (AP)—The American seaplane NC-4, completed her flight from the United States today. She arrived here from Ferrol, Spain, on the last jump of her journey at 2:20 p. m. local time (1:26 p. m. Greenwich time).

ELABORATE RECEPTIONS FORMAL AND INFORMAL PLANNED IN HONOR OF CREW

Keen interest in the event brought out large crowds to greet the arriving Americans, the great wings of whose planes were made out off the harbor at 2:23 o'clock. The NC-4, making a dashing finish, swept quickly landward and three minutes later had settled down on the waters to the accompaniment of cheers from the crowds and salvos from all the steam craft within sight—her memorable trans-Atlantic trip ended.

NEW SOLEMNITY MARKS MEMORIAL DAY OBSERVANCE

Heroes of Earlier Wars Share with World War Veterans in Twin Falls Tribute to Soldier Dead.

With deepened solemnity the first Memorial Day in the history of the great world conflict was observed in Twin Falls, the nation's heroes of earlier wars sharing in the tribute with those who fell in the struggle to maintain the liberties and ideals for which their forefathers fought.

Memorial exercises were held in the Twin Falls cemetery under the auspices of Dan McCook post, Grand Army of the Republic, assisted by Twin Falls post, American Legion, following a parade through the principal streets in which the Boy Scouts, Camp Fire Girls and civic and fraternal organizations joined with the veterans of American wars.

Seven New Graves
The graves of 12 veterans of the civil war and of seven men who died in the service during the world conflict were decorated with a profusion of floral offerings placed at the disposal of the committee for this purpose.

Following an open air concert of one and one-half hours duration given in the city park by the Twin Falls band public exercises were conducted in the ladies of the G. A. R. were held in the high school auditorium.

M'ANDREWS COLLEGE HEAD

Assigned to New Staff Institution to Absorb the Army War College.

WASHINGTON, (AP)—General Merck, chief of staff, announced today that Maj. Gen. James W. McAndrew, General Pershing's chief of staff, had been assigned to head the new general staff college which is to absorb the army war college. The war plans section of the general staff, an early outgrowth of the war, is to be continued as a subsection of the college. Maj. Gen. William G. Hahn, in charge, replacing Brig. Gen. Lytle Brown.

Ownership of Interest Question for Land Board to Decide

(Special to The News)
BOISE—Whether or not the state is entitled to the interest coupons on bonds purchased by state employees on the installment plan, or the bond buyers should secure the bonds on full payment with the interest coupon attached, is the question the land board has been called upon to solve by C. A. Elmer, commissioner of public instruction. He is clipping the coupons and turning the money in to the state. Some of the employees at the state house have refused to accept the bonds without the coupons attached. On May 8, however they have been permitted to receive the bond intact with coupons attached until the last one. The state's interest on the bonds is a second mortgage, permitting them to make monthly payments on the principal.

AMERICAN FEDERATION URGES LANE MEASURE

Representative Says Labor Organization Is Unit for It; Colorado Congressman Talks

WASHINGTON, (AP)—Passage of legislation to carry out Secretary Lane's project for farms for soldiers was urged before the house public lands committee today by Henry Steihs, legislative representative of the American Federation of Labor.

"There is absolutely no division among the three and one-half million members of the American Federation of Labor as to the desirability of this legislation," said Mr. Steihs.

Timberlake Favorable
Representative Timberlake, republican, of Colorado, told the committee "sentiment generally in Colorado, favor of the legislation," adding that the legislature had granted money to be used in cooperating with the government in the development of land settlements.

STRIKES CAUSE MANY GRAVE DIFFICULTIES

BERLIN, (AP)—The ever recurring strikes of miners are causing a catastrophic condition in the Rhensish-Westphalian mining region. One company has declared itself insolvent because of strikes. A cabinet minister recently stated at the soviet congress in Berlin that the demands of the miners had ruined a number of mining companies. Two mining concerns which in November last had a reserve of 15,000,000 marks, now have over-inflated at the banks of 12,000,000 marks and the banks refuse to give them further credit.

SAN JUAN, Del Sur, Nicaragua, (AP)—The Nicaraguan government is disarming and arresting all Costa Rican revolutionists crossing the border from Costa Rica. Lack of ammunition is said to have caused the failure of the rebel invasion of western Costa Rica from Nicaragua.

WASHINGTON, (AP)—General March today warned discharged soldiers against procuring spurious "Victory ribbons" which are being offered for sale by many stores. Adequate supplies of the official ribbon have been ordered by the department and will be distributed as soon as received.

PORTLAND, Ore., (AP)—Horse-drawn fire apparatus will make its last parade in Portland in connection with the forthcoming Rose festival, it was announced by the fire bureau today. Completion of the process of motorizing the entire department equipment is at hand. Most of the horses have already been sold, and the few remaining will be disposed of soon.

WASHINGTON, (AP)—Attention of the war department has been called by the Italian embassy to the omission of any reference to Italian forces in a recent announcement regarding the length of front held by the American and the allied armies in France last November. General March explained today the omission was unintentional. Italian troops he said, were holding fourteen kilometers or two and one-third per cent of the western front.

WASHINGTON, (AP)—Twenty-five combatant and seventeen skeletonized divisions will have been returned home when the movement of Eighty-first and Ninetieth divisions, now in progress, has been completed. In announcing this today, General March, chief of staff, said the expeditionary forces now are practically reduced to the seven regular divisions, four of which have been released for early return. Demobilization of the army, General March said, has returned 2,276,299 officers and men to civil life.

MONDELL ARID LAND BILL IS BEFORE PARTY

All Parties Adjourn Disputes Temporarily to Push Measure Through Congress Early in Present Extra Session.

RECLAMATION ASSOCIATION FOR STATE IS FORMED

Branch One of Three Greatest Projects the Irrigation of Which Is Expected to Help Solve Reconstruction.

(Special to The News)
BOISE.—Politics have been temporarily put aside in Idaho while the state organizes as a whole to secure a fair proportion of the half billion dollars provided for in the Mondell bill, now pending before congress here.

The reclamation of arid, swamp and stump lands. Leading men of the state irrespective of political faith firmly believe that this measure means more to the great northwest than any other measure that has been presented to congress for years. They, therefore, propose to properly carry out the plans of their own state for liberal consideration on the part of those in a position to eventually divide the appropriation.

Organization Formed

It was mainly for this reason that the Idaho reclamation was organized. It has behind it men of prominence in all parts of the state. The general state of organization is being supplemented with contributions from the various counties. Funds are being raised to finance both. A representative delegation of members will be sent to Washington to appear before senators, congressmen and the department of the interior. They will be armed with the necessary data to prove to the powers-that-be at Washington, that Idaho offers exceptional opportunity for carrying out the plan of Franklin E. Lano, secretary of the interior, to reclaim lands for the use of soldiers as future homes.

Struggle of the State

This state has struggled through the pioneering stage of reclaiming its lands. In the north the stump lands have proven to be very valuable for farms and production. The reclaiming of swamp lands there has been extensive, yet in both classes of land there is an opportunity to reclaim many thousands more acres. In the south the arid lands and the claim lands has been more difficult. Yet in face of the setbacks, there is today a great irrigation belt extending from the upper Snake river valley in the eastern section, to the deep canyons of the Snake river in the west. An empire of land has been reclaimed. Some of the earlier projects are failures. They have since been put on their feet. The southern portion has learned by experience that the construction of irrigation water is a scientific problem that only experts should attempt.

West Area Involved

Outside of the irrigated territory there are thousands of millions of acres of land, waiting for the government to put water on them so that they may produce crops and instead of remaining the home of the rabbit and coyote become fertile farms supporting many thousands of people. Much of this land is now covered with sage brush. It is no level as a floor, a gravity system of irrigation will take the water to it. The source of water supply is located in the Snake river and its tributaries. The water from a diversion canal will run the water to the dry lands.

From the standpoint of irrigation, there are three distinct projects in the Snake river basin of southern Idaho. The first of these is known as the Debois project which starts in the upper Snake river valley and sweeps south to Aberdeen and Pocatello. The second is the American Falls-Sunnyside project which traverses the valley in southern Idaho along the north slope of the Snake river from the mouth of the Fremont to Boise. The third is the big Brunneau located on the opposite or the

south slope of the valley from Bull in Twin Falls county, west to Hamedale in Owyhee county and Nyssa on the Oregon side. These three projects comprise about 1,000,000 acres of land. There are in addition a number of bordering projects which could be reached through pumping systems.

Much Vacant Land

The vast area which these projects cover is largely vacant land. Near or within them are small projects now being supplied with water. The general plan of irrigation is to raise the water to the level of the land to be irrigated by catching the flood waters and diverting it into gigantic canals which will skirt the high lines on both sides of the basin and then be directed into laterals which will in turn distribute it to the arid lands. Expert engineers who have gone over the ground, made surveys and estimates claim the proposed plan of irrigation is both practicable and feasible and while the cost of construction will be heavy, the reward will warrant the investment.

May Acquire the Land

The Mondell bill on which the eyes of Idaho business men is focused at the present time provides in substance that the secretary of the interior may acquire by gift, purchase, deed in trust or otherwise, the necessary land for soldier settlement projects. No lands are to be so acquired, however, unless they are over \$100,000 in value, and under which they are to be secured, shall be approved by a representative of the governor in the state in which the lands are located, an approver designated by the federal farm loan board and the secretary of the interior. "Projects," says the bill, "shall be selected with a view to the development of one or more projects in each of the several states in which feasible projects may be found."

Interest to Soldiers

"The secretary may, through agreement with soldiers, make provision for necessary improvements," continues the act, "but the contribution from the fund shall in no single case exceed \$1,200, or in excess of three-quarters of the cost of improvements. That the lands of projects shall be subdivided into farms suitable for the support of a family, and in the discretion of the secretary, into smaller farm workers' tracts."

Eligible as Purchasers

"Soldiers who are not the owners or proprietors of farms or rural homes, shall be eligible as purchasers of a farm or farm workers' tract. Preference shall be given to those who have been employed in the development of such projects and to those applicants with a view of safeguarding the settler and the United States, so far as is practicable, against loss of nature."

"The sale prices shall be fixed with a view of repaying the total cost of each project, and the price fixed for each acre shall be paid by the applicant as nearly as practicable its relative and comparative selling value. Approved applicants shall at the time of entering into the contract of purchase, make a payment of five per cent of the sale price. The balance shall be paid in amortization extending over a period to be fixed by the secretary, not to exceed 40 years."

TWIN FALLS, IDAHO

CABINET PLAN PROVES GREAT SUCCESS HERE

Idaho Benefited by Co-ordination of Department of State Government.

POCATELLO.—Report received from the office of Governor Davis, just received, after a meeting of the new state cabinet, held on Saturday, shows that not only have useless departments been eliminated, but co-ordination and co-operation of other departments is so prompt as to effect a very material saving for the state in even the first quarter.

Worked to Cross Purposes

Formerly state departments were handled by dozens of appointees and there was much conflict. Everything is reduced to nine heads, and each head is held responsible to the governor, and he, necessarily, is held to answer to the people.

The first report of the executive in relation shows business efficiency and quite void of partisan suggestion, and it is generally approved, as the governor is made the responsible head for the operation of each and every division.

EXPERTS STUDY GOLD PAYMENTS

Paris Financiers Would Hold German Money for Gradual World Distribution.

PARIS, (AP)—Economic experts with the allied delegations at the peace conference are making a close study of the disposition to be made of the gold which the Germans are paying for food supplies. This gold is being stored in the Belgian National bank. Realizing there would be a general disturbance of world credits if the gold should be taken to the United States, economists have advanced a plan to hold the metal where it is as security which will be gradually redeemed by shipments of commodities to various parts of the world.

Experts hold this plan will secure the payment of allied debts to America and assist in restoring allied countries to normal conditions of employment. It is said that the payments are rapidly reducing the German gold reserve.

VILLA FORCE AT TONCHI

Foreign Residents Leave on Account of Bandit Troops; Diaz Soldiers in Tepic.

AGUA PRIETA, Sonora, (AP)—Passengers arriving here from the interior of the state report that Villa followers are concentrating in the neighborhood of Tonchi, the railroad junction of the Southern Pacific de Mexico, about 20 kilometers west of the Chihuahua state line.

According to the passengers, all foreigners are leaving that section fearing violence at the hands of numerous bands masquerading under the Villa banner, and as a result mining operations are being paralyzed. It is reported on good authority that a column of two thousand Diaz followers is marching from the territory of Tepic, on the same coast route through Sinaloa to join the Villa adherents in the vicinity of Tonchi.

Mails Suspended

Roberto Valdesquez, ranking high in the councils of the Garzaan regime, stated to the Associated Press correspondent when informed of the information coming from the south, that he had no doubt but what the reports were correct. "In view of the fact that rural government mail service has practically been suspended in that section because of the dangerous roving elements termed Villistas."

WORLD MEET OF VETERANS PLAN OF CANADIANS

Communicate with All Parts of British Empire to Further Interest in Gathering; World Program Contemplated.

WINNIPEG, Man., (P)—Great War Veterans associations of Canada are in communication with like associations in other parts of the British dominion concerning a world convention next year in South Africa, which is regarded as the most central meeting place in the empire.

International Union Plan.
It is understood an international association of war veterans is being considered. Statements have been made that in view of the fact that soldier sacrifices made victory possible, the soldiers should formally outline their views on soldier relief, reconstruction, peace conditions and other measures. The National Union of Mutilated and Restored Soldiers of France has exchanged greetings with the British Great War Veterans associations. The Union is expected to send delegates to the proposed world convention of soldiers who fought for the British Empire. It is possible that other nations also will be invited.

NEW YORK, (P)—Charges that organized attempts are being made to poison American public opinion in regard to Poland and the Jews, in a defense of Polish Jews, but in reality a move to aid Germany, are made in cablegrams sent to President Wilson, General Eliuhski and the "Tadler" owned by the society of Polish engineers and merchants in America and made public here today.

The society protests that until the report of the interior commission now investigating the alleged Jewish massacres is published it is a "gross injustice that such outrageous charges against a whole nation should be made."

CORK WANTS HER OWN UNIVERSITY

Ancient Irish Sea Port Would Be Free from Dublin Control.

DUBLIN, (P)—The National University of Ireland is a federal institution composed of three colleges, in Dublin, Cork and Galway. It was established to meet the claim of the Irish Catholics for university education. The federal system has proved irksome to Cork which now demands that its college be given the status of a separate university.

The Cork claim has united every section of Munster men and the petition in its favor have been signed by the heads of all the religious denominations and the leading men of the province. It involves, however, a new charter from the Crown, and the bulk of Sinn Fein opinion, while in favor of the separate University for Cork, is hostile to the only method by which under present conditions it can be obtained.

CARRANZA WITHDRAWS PERMISSION TO MOVE

Rebels Out Track and Prevent Federal Soldiers from Making Expected Connections

WASHINGTON, (P)—President Carranza has been notified by the American government that permission for the passage of Mexican troops through American territory will be withheld for the present. Carranza had asked to be permitted to move 2,000 men from Agua Prieta to Juarez for operations against Francisco Villa's forces. It was said today that the decision of the government was based upon the belief that the force which it was proposed to move through Arizona, New Mexico and Texas would not be able to furnish protection to American citizens in northern Mexico because the revolutionists had cut the road between Juarez and Chihuahua.

Position May Change.
It was made clear at the state department, however, that in the event there was greater necessity for the presence of the force of 2,000 men immediately south of the border at Juarez than at Agua Prieta in the territory where the Yaqui Indians are becoming troublesome, the position of the United States government might be altered.

Hobby Modifies Ruling.
Governor Hobby of Texas, has notified the state department that he will offer no objection to the passage of the troops through Texas providing guarantees for protection of Americans in northern Mexico can be obtained. Protests, however, are understood to have reached the state department from a number of sources, including senators from the border states, the basis being that the movement of the Mexican troops might result in another raid similar to that on Columbus, New Mexico, after Mexican troops had passed through the United States several years ago.

The situation in northern Mexico was described as somewhat delicate. Villa has become advised of Carranza's request and it is believed he is waiting with sufficient forces to make negligible any effort on the part of the federal troops to go to the relief of Chihuahua City.

FIRST WAR THAT FAILED TO BRING SMALL POX AFTER IT

PARIS, (P)—The world war will be held unique in the history of smallpox because it has not been accompanied by an outbreak of smallpox. This may be due in part to the precautions taken in urging all Paris to be vaccinated or re-vaccinated. At any rate more than 1,347,000 persons were vaccinated during the war, and only 56 cases of smallpox were recorded, of which 29 were fatal.

ROTARY MEET BIG AFFAIR

Tabernacle of L-D-S Church Engaged for Gathering at Salt Lake.

SALT LAKE CITY, (P)—The tenth annual convention of the International Association of Rotary Clubs, to be held here June 16 to 20, inclusive, will be one of the few conventions held in this section of the country that attracts such a large attendance. The use of the famous Mormon tabernacle will be necessary. Already hotel reservations are being made from big delegations from many of the largest cities of the country and the accommodations are likely to be over taxed.

The program for the convention is rapidly approaching completion and several big entertainment subjects are included. There will be a liberal proportion of entertainment after each day's session—the committee having planned several unique "stunts". The program of relations between capital and labor, and "boys work" are two of the vital questions which will come up for discussion, besides subjects of peculiar interest to rotarians.

Noted Orators Coming.
Among the speakers at the convention will be Hon. John Barrett, direct general of the Pan-American Union, who will speak on "Rotary as an International Influence," and Dr. Henry Sturges, president of the University of Washington, to whom the subject of "Capital, labor, Management—and the Public," has been assigned. John Taylor, Utah governor of the Elsworth District Rotary Clubs, will be the principal speaker on rotary ideals.

It has become popular to name rotary conventions and the June convention to be held here this year is to be known as the "Victory Rotary Convention."

Up to date there are five nominations for the presidency of the association, and these promises to be spirited contest for this honor. William D. Biggers of Detroit; B. F. Harris, of Champlain; Estes Smedecor of Portland, Ore.; Albert S. Adams, of Atlanta and Jacob R. Perkins of Fort Madison, Ia., are the nominees.

Atlantic City and New Orleans are contenders for the 1920 convention and it is understood several of her eastern cities will present their claims during the convention.

UTAH CONVENTIONS BEGIN ON SUNDAY

Series of Meetings Will Be Held in Utah Capital During the Coming Month.

SALT LAKE, (P)—June will be the "convention" month in Salt Lake City, from one to two important gatherings being scheduled for every week. The first gathering will be the annual conference of the Mormon church, which opens Sunday, June 1, and lasts for three days. Conferences of different minor societies affiliated with the church will continue until June 8. The annual convention of the Utah bankers association will begin on June 10 and last through the 11th. The following week the annual convention of the International Association of Rotary Clubs will hold the attention of the city. A convention of western district delegates of the American Physical Education society will also be held. The National Retail Grocers association will open its convention beginning June 23 and lasting until the 27th.

States Will Allow Mexicans to Pass

New Mexico and Arizona Willing to Permit Movements Against Villa Bandits.

SANTA FE, N. M., (P)—Governor Larrazo of New Mexico has ordered that the armed Mexican soldiers en route from Sonora to Chihuahua be permitted to pass through New Mexico territory, according to a statement given out at the executive office today. Governor Larrazo is now en route from Roswell to Las Vegas, N. M., where he will arrive tonight.

Arizona Has Not Objected.
Phoenix, Ariz., (P)—R. E. McGillen, assistant secretary of state and acting governor in the absence of Governor Campbell, in New York, and Secretary of State Mit Stimson in Texas, said today that he had taken no action to revoke the permission for Mexican troops to cross Arizona from Sonora to Juarez, telegraphed to the state department two days ago.

Acting Governor McGillen stated that no representations had been made to him against the passage of Mexican troops over Arizona soil. He pointed out further that the request for the permit had come from the state department at Washington and Arizona's acquiescence had been telegraphed to Washington, no dealings having been conducted directly with the Mexican authorities.

DELEGATES OF LUXEMBURG MEET WITH BELGIANS

BRUSSELS, (P)—In accordance with the desire expressed by the Paris Conference that the Belgian and Luxembourg governments sign a declaration of reciprocal economic and political rapprochement, six delegates from Luxembourg have arrived in Brussels.

A WORTHY CAUSE

Again the time rolls round for the annual Twin Falls County Fair, and once more preparations are being made to offer to the people of the county just a little bit better Fair than that of any previous year.

The establishment of a regularly recognized, and thoroughly organized institution of this character cannot be accomplished with a first, second or even a third exhibition. A fair must evolve and grow and gradually take unto itself the characteristics which make for its own upbuilding.

This year there will be several new buildings on the County Fair Grounds. There will be more shade, more conveniences, less dust and a better and stronger entertainment program generally.

The final say as to the success or failure of the County Fair is of course with the people themselves. The Directors, or the Secretary, or the County Commissioners have little if anything to do with it, provided of course that each of these agencies gives freely and fully of the best of which each is capable in support of the institution.

It ought to be exacted that a County Fair is a necessary and a worthy thing and is entitled to the backing and support of the County as a whole.

REITERATION OF GERMAN REFUSAL

Reiteration by the German government of the statement originally given to the Associated Press that it would refuse to sign the peace treaty is undoubtedly worthy of serious consideration.

It is quite certain, of course, that in this event, the allied troops will take possession of the country, and the chances are that there will be no military struggle worth mentioning.

But suppose that Germany refuses to sign and the allies invade the country, complications are bound to follow fast. They and not the Germans will be responsible for doing police duty.

erament simply wishes for a chance to "have its face," it will doubtless be afforded the opportunity, but it is inconceivable that any essential change will be made.

The fact is that while Germany is tied up for a number of years and obliged under the treaty terms to pay what she can toward the reimbursement of Belgium and France for the losses sustained through her wrongdoing, the terms are not final, inasmuch as her regulation will be entrusted to the league of nations, and as they may be modified so as to be made practicable, should they be found impossible of performance later.

Should the German government refuse to sign the treaty its action will be in accordance with a policy carefully studied with a view of forcing the allied and associated powers to assume the responsibility of German reconstruction in the hope of creating dissatisfaction among the allies and discord among themselves.

In this case the victors will be forced to assume a "White Man's Burden," which they cannot consistently avoid and which may lead to consequences unforeseen by them and by the wily German politicians who have at present political control in that country.

STATE SPENDING ON IMPROVEMENT

Many Additions to Institutions; Fish Ladders and Dams Are Requested.

(Special to The News) BOISE—This state is paying the way to spend out thousands during the coming summer and fall in the erection of new buildings at state institutions. On June 10 the contract for the addition to the Idaho State Penitentiary state normal will be let at Lewiston. This edifice will cost \$450,000.

The lakes and streams of northern Idaho are in need of fish ladders for fish dams and screens for milllets and canals in the outlet of the State Game Warden Otto M. Jones who has returned from a trip to that section of the state. They are to be installed first as soon as the high water goes down.

JAPANESE INVESTIGATOR CONSULTS ON SIBERIA

Railroad Must Be Kept Open or Starvation Follows He Declares in Statement.

TONIO, (AP)—T. Matsudaira, chief of the Japanese political department at Vladivostok, who has returned to consult with his home government is quoted by the Asahi as asserting that the best of operation of the Siberian railway is to be borne equally by the allies, not by the United States alone.

The railway, he said, forms the backbone of Siberia, and its destruction would mean the starvation of the troops stationed at Omsk, Irkutsk and other places and also of the Russian population throughout Siberia.

But suppose that Germany refuses to sign and the allies invade the country, complications are bound to follow fast. They and not the Germans will be responsible for doing police duty.

BANDITS BEAT AND ABUSE AN AMERICAN MINER

Engineer of Development Company Attacked by Villa Followers and Mistreated; Red Lopez Headed Company.

AGUA PRIETA, Sonora, (AP)—Barrage and brained about the head and neck and suffering for the want of food and water, Franklin B. Harding, chief consulting engineer for the Chicago Exploration and Development corporation, walked into town during the early hours this morning from the company's properties at Telamur, Sonora, bordering on the state of Chihuahua, about 225 miles south of here.

Early last Tuesday morning the mining camp was attacked by a band of Villa followers and after looting the camp, which was burning, was forced to accompany the bandits into Chihuahua to the pueblo of Mors, where I was given my liberty after being beaten and abused and denied food and water.

All the employees at the mine are Mexicans, including the superintendent, whose attempt to interfere in my behalf was ignored by the leader of the band, which I have learned is a cousin of the notorious "Red" Lopez, who figured prominently in the early days of the Madrazo revolution.

TWO UNIVERSITIES KEPT FROM ATHLETIC CONFERENCE

DES MOINES, Ia., (AP)—Petitions of the University of Oklahoma and St. Louis university for entrance into the Missouri Valley conference again were rejected at a meeting of conference officials held at Ames today. The reason advanced was that these schools do not have complete faculty control of athletics as the conference rules require.

WOULD PAROLE MEN HELD UNDER COURT-MARTIAL

Petitions Circulated to Ask the President to Give Rehearing to Men Thus Convicted Now

(Special to The News) BOISE—Soldiers confined in prison under sentence passed at court-martial will be liberated if the fight that is being waged by Santa Ana Post No. 61 of Boise is successful, for it has passed resolutions and is circulating petitions urging President Wilson to grant a universal parole to men serving a hearing of their respective cases.

Strong Denunciation The plight of these men, besides its blighting influence on the persons involved, is fraught with larger meaning to the future welfare of our country, in that they comprise a large percentage of our world war army, robbed of everything a patriot holds dear and smarting under a sense of the monstrous wrong done them, will be willing and eager recruits for Bolshevism.

FALLS TO DEATH IN ATTEMPT TO WALK PIPE LINE

Marvin Lowe Drowns in Waters of Lake Linden in Fatal Effort to Make Short Cut Across Water.

Falling in an attempt to effect a crossing of a neck at the south end of Lake Linden, Murtagh, on a 12 inch pipe line during a high wind Friday morning, Marvin Lowe, aged 23 years, fell into the lake and was drowned at about 10 o'clock. The body was recovered at 11 o'clock. It was taken in charge by Coroner E. J. Grossman and brought to Twin Falls, where it is held awaiting instruction from T. G. Lowe of Logan, Utah, father of the deceased, who is expected to arrive here today.

The accident was witnessed from a distance of about one-quarter mile by Mrs. Griffith, at whose home Lowe had stopped the night before, and with whose family he was to come to Twin Falls as soon as horses were caught to make the trip. It was in attempting to make a short cut to the field where the horses were pastured that Lowe escaped the crossing on the pipe line. Lowe had been employed on the Griffith ranch, but had subsequently worked for Miller, coming from that place to the Griffith ranch Thursday. In view of the circumstances, Coroner Grossman decided that an inquest would be required.

IRRIGATION SUITS IN THE COURTS OF IDAHO

Government Charges That It Was Intended to Stop Development Irrigable Lands

(Special to The News) BOISE—The United States reclamation service charges H. A. Griffith and others, parties to a suit in which damages against the government for alleged interference with a private irrigation project, in an answer to a suit filed in the federal court that Griffith instituted the action for the purpose of delaying and obstructing the government and to extort money from the United States. The case is one of the most peculiar that has been taken to the federal courts. The lands within the Black Canyon irrigation project are the bone of contention. Griffith claims he arranged to purchase a private project to take care of those and other lands and that he went to the expense of \$25,000 in so doing when the reclamation service bought the lands of the government. In answer to his claim of heavy expenses, the government says Griffith made out no more than \$400 that the project will cost \$300,000 and he has not the funds with which to build it.

BEEF PRICE TO GO DOWN OVER THE PACKERS

Grass Cattle Moving to Market and in a Few Days Consumer Will Get the Benefit in Meat Values.

CHICAGO, (AP)—A decrease in the price of beef is immediately at hand, according to a statement issued today by the bureau of public relations, American Meat Packers association. "Despite the fact that beef already is cheaper than pork, poultry and mutton, it probably will decline further within the next few days," said the statement. "There are several reasons. Cheaper grass fed cattle which hitherto have not been plentiful, are now moving to market. Exports of beef from the United States have practically ceased. The government has stopped buying. It may take a few days for the lower price to reach the consumer. The reason is obvious. It lies in the fact that appreciable time has elapsed between arrival of cheaper steers at markets and the appearance of beef from those steers on the consumers' tables. The retailer cannot now afford to sell until he replenishes his stock of beef at the reduced figures expected.

"But from all indications it seems fairly certain that, although the depletion of European herds and unprecedented demands will hold meat prices above normal, nevertheless a decrease in the wholesale and, subsequently, in the retail price of beef is immediately at hand. It is thought that the consumption of beef then may be greatly increased."

ACTORS AND SINGERS FORM TRADE UNION

PARIS, (AP)—The actors and singers of the Paris stage have decided to form a regular trade union, to be affiliated to the general labor federation and to be controlled to take part in any strike ordered by that body. The musicians, electricians and other employees of the theaters and music halls have been organized for some time. The new union will try to establish a minimum salary of \$4 a day with payment during rehearsals.

ENTOMOLOGIST DISCOVERS APHIS SURVIVING WINTER

Investigator Finds Necessity for Continued Warfare on Posts.

That late grazing is an effective means of combatting the clover aphis pest, but that sufficient number of the bugs have been harbored in vegetation along roadsides and ditch banks to make necessary continued warfare against their depredations are conclusions reached by R. H. Smith, entomologist of the University of Idaho, after an extensive survey of clover fields of the county. Mr. Smith's investigations earlier this spring tended to convince him that few of the aphis had survived the winter season, which was characterized by alternate freezing and thawing. BOOTH TO REPRESENT SIMS

Appearance of Former Local Attorney as Counsel Is Entered.

The appearance of Major C. M. Booth as attorney for the defendant in the case of H. M. Sims, charged with committing a statutory offense, was entered in district court here Thursday after Captain E. M. Bewley, recently appointed a member of the state public utilities commission, had been granted permission to withdraw as Sims' counsel. Captain Bewley represented Sims in the first trial of the case here last February which resulted in no decision being reached by the jury. The new trial which had been set for Monday next, has been postponed until June 9.

MARRIAGE LICENSES Marriage licenses were issued Thursday in Twin Falls by the following: Ora McVey, Hansen, and Iva Agnes Drayer, Kimberly.

ANNOUNCEMENT TO MUCKLESTONE STOCKHOLDERS. Again the Muckleston Oil Company has made good! This time we have more than fulfilled our promises to stockholders. We have acquired an interest in the holdings of the Silver-Bark Oil Company in Block seventy-four, Burkburnett and our No. 2 Well is already drilling on this tract. This acreage is surrounded by the Contractors, United, Golden Cycle, Summit and Haemfa wells and is so situated that we feel confident of big production. Our well in Block forty-one has been drilled to a depth of about sixteen hundred feet. The Rotary Rig is now being removed and it is our plan to complete the well with a Star or Standard Rig. On or about June 1st, 1919, each stockholder will be mailed a complete financial statement to date showing present excellent condition of our affairs. This statement will be prepared and signed by the firm of Davis and Coisar, Public Accountants.

There are a lot of people who believe that fashions in women's clothes are the only kind of fashions that are ever discussed in newspapers, but those people are going to be sharply surprised this time, because right here at this store mere man is coming in for a little attention. With all the attractive, "sure-to-win-you" new clothes this season even those very few men who are careless about their clothes are going to be interested. The man looking for the quiet, conservative style will find exactly what he wants, and the young fellow whose inclinations are distinctly toward the novel fashions will certainly be in clover this season. BUHL RAISES QUESTION OF TAX SHARING

County Records to Be Searched to Determine Basis of Division of Motor License Fees Collected.

The county commissioners Thursday heard the request of representatives of the Buhl highway district for an explanation of the apportionment between the county and highway district of the automobile license fees collected since 1914, and agreed with the district representatives upon an arrangement under which the records of the assessor's office in this regard will be inspected by representatives of either party with a view to determining whether or not the district has received its just proportion of the fees.

The request for the explanation followed the completion of an audit of the highway district accounts made by Edwin A. Wilson of Twin Falls, which revealed the fact that 18 per cent of the motor license fees collected in this county in 1915 was apportioned to the district, but that no means of ascertaining the basis of apportionment in preceding years was available from the records.

The records since 1915, when the county began collection of motor license fees and up to 1918, was brought out during the discussion, showing only the names and residences of the applicants for license without regard to their location in respect to the highway district.

Residence to Determine
It is presumed that the inspection of the records to be made by representatives of the county and district will reveal pretty clearly the place of residence with respect to the highway district of all applicants for motor license.

It was the contention of the highway district representatives that in the event of other solution of the problem, the 1918 apportionment as between the county and district should be accepted as a basis for apportionment of the earlier collections.

Discerns Discrepancy
"It is apparent that there is some discrepancy where the Buhl highway district has 21 per cent of the assessed value of the county, and receives less than 18 per cent of the auto license fee," said Arthur W. Ostrom, attorney for the highway district.

Members of the board of commissioners suggested that the automobile business prior to 1918 probably had been developed more extensively in the east end of the county than in the west. It is regarded as probable that Mr. Wilson will represent the district in the inspection of the records, and that Assessor George W. Wilcox, who has been identified with the assessor's office, for a number of years, will act for the county in this matter.

Woman Named as Holmes' Heiress Not to Be Found

Court Admits Will to Probate But Beneficiary's Whereabouts Unknown.

Probate Judge G. P. Duvall Friday admitted to probate the will made in 1901 by the late George B. Holmes bequeathing all of his property to his former wife, Alma Holmes, and appointed Thomas M. Robertson as administrator of the estate, which is valued at around \$18,000 and includes some Twin Falls property.

The will was filed by a Masonic lodge in Iowa after a petition for the appointment of George F. Sprague as administrator had been filed at the request of a sister of Mr. Holmes residing in California.

Whereabouts of Mrs. Alma Holmes are unknown at the present time. It is stated by intimate friends here of Mr. Holmes that he was married twice, and divorced from both wives; that he had made several wills with one affixing his signature, so far as known to any other than the one admitted to probate, and that a woman to whom he was engaged to be married at the time of his death was named as the beneficiary in one of these unsigned wills.

CZECHO-SLAVS GOT AID FROM WILSON FUND

Five Million Dollars Loaned at One Time; Borah Wants Surplus Supplies Used.

WASHINGTON, (AP)—During discussion of retention of American soldiers in Siberia, General March in the senate today hearing and President Wilson gave \$5,000,000 from his \$100,000,000 fund to the Czecho-Slovaks for their fight against the Bolsheviks, and "later gave them another sum." The money was "virtually a loan," he said.

Bids on Meat Discussed

Disposition of the surplus for which bids have been asked of American hospitals was discussed in the senate today by Secretary Baker declaring no means had been found for disposing of the meat and asking for suggestions by which it can be made available for use by the people of this country.

"I read in the newspapers that people are still dying from starvation in Europe," said Senator Borah, republican of Idaho, "and it seems to me to be the practical thing to turn it over to Mr. Hoover for use there. I don't understand why it should be held by the war department when it could be used to feed Bolsheviks out of Europe. Why should the government retain possession of food that can be used in Europe and can't be used here?"

"From the description of how it is put up," interjected Senator Poindexter of Washington, "I would suggest it be fed to the Bolsheviks. It might be a good way to get rid of them."

Question of Leaving Bodies

Whether bodies of American soldiers should be left in France was brought up by several members.

Secretary Baker said the department had not determined on a definite policy. Personally, he said, he was in favor of placing the bodies in large national cemeteries in France, "where they could rest in the land which they died to save."

"I realize, however," he added, "that many fathers and mothers want to have the bodies of their sons brought home, and are in complete sympathy with their wishes. However, since it would be impossible to start now in returning the bodies, the question can be postponed."

Suggestion for a Camping Trip
Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamships and, as such times and places are most likely to be needed, the safe way is to have it with you.—adv.

BROOKS SAYS TANLAC HAS OVERCOME HIS TROUBLES—FEELS LIKE A NEW MAN.

"My wife obtained such satisfactory results from Tanlac that I tried it myself and I have gained ten pounds and feel like a new man," said J. W. Brooks, traffic superintendent for the Western Union Telegraph Co. at Dallas, Tex., and living at 1722 Hickory street, that city.

"When I began taking Tanlac," he continued, "I was suffering from a nervous condition of stomach trouble, the result of an attack of acute indigestion I had several weeks ago. I had an awful pain across my back, and was so nervous and worried about my kidney that I could hardly sleep at all. I suffered from rheumatism in my legs, my feet would swell and I was tired and languid all the time. I was badly run down, lost weight, strength and energy and none of the medicines I took did me any good.

"After using Tanlac for a short time I began to pick up and kept improving till now my rheumatism is all gone, the pains have disappeared from my back and my kidneys don't worry me like they did. I have a fine appetite and can eat all from indigestion, my sleep is sound and restful and I get up in the morning feeling fine."

Tanlac is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Murtaugh by Murtaugh Drug Co., in Filer by B. A. Wood, in Buhl by G. D. Horing Brothers Co., and in Kimberly by A. E. Stowe—adv.

BREED TO THE BEST

WE HAVE SEVERAL Prize-Winning Percheron Stallions

at your service this season, carrying the best blood lines of the breed. It pays at this time to breed to the best.

CARSINO, No. 109918, twice Grand Champion at the Idaho State Fair; sired by Garnet, the \$40,000 International Grand Champion stallion, Dam by Casino, junior, and Grand Champion stallion at World's Fair at St. Louis.

We stand Carsino at the Fair Grounds in Filer, and stand Dijon and General Wayne at the Luco Horse Barns in Buhl.

Be sure to see our horses before you breed your mares. Take advantage of this great opportunity.
