GERMAN ISSUE DEFERRED FOR ANOTHER WEEK

Reply to Hun Proposals Requires More Consideration; Changes Relative to Silesia and Sarre Valley Possible.

AUSTRIAN OPPOSITION TO TREATY GROWING

Vienna Newspapers Increasingly Hostile to Conditions; Jugo-Slavs Advance Against Austrian Army.

PARIS. (AP)—It is doubtful if the council of four will be able to send a reply to the German counter proposals to the peace treaty's text before the start of next week, according to the Paris office of Reuters' Limited.

Are Taking Shape

Modified terms of the peace with Germany seem to be approximately definite form, according to advices from Paris. Those alterations, it is said, are not planned primarily to make the terms lighter for the victors, but to render them easier of execution. Apparently there is a disposition on the part of President Wilson, Premier Lloyd George and Premier Clemenceau to fix a definite sum of approximately \$25,000,000,000, as the amount of indemnity Germany will be called upon to pay, and it seems possible that the first installment of about \$5,000,000,000 may not have to be paid within two years, as now stipulated, but within four years.

Other Changes Possible

The terms relative to Silesia and the Sarre regions, too, may be altered. There seems, however, to be a general agreement that Germany will not be permitted to enter the league of nations at once. Premier Orlando is standing aloof from these discussions, as Italy's interest is not so much in the German as in the Austrian treaty.

Definite

The necessity for the various nations and especially France, to make definite statements to banking interests concerning the terms likely to be received in reparation payments, in order to arrange for loans, is apparently affecting the council of four's consideration of amendments to the German peace treaty and it is expected to result in the fixing of a definite reparation sum.

The Failure of any plan for an international pooling of war debts, it is pointed out here, is forcing the individual nations to prepare to meet the bankers on a strictly business basis.

Austria Silent Officially. Austria's opinion of the peace treaty was presented at the conference at St. Germain on Monday has not been officially made known to the allies. Advices from Vienna, however, indicate a feeling of official dissatisfaction with their provisions and a chorus of newspaper dissipation. There are

STREET RAILWAY PROBLEM GIVEN TO COMMISSION

President Appoints Representatives of Many Interests to Investigate Conditions and Suggest Improvements.

WASHINGTON. (AP)—The appointment by President Wilson of the federal electric railway commission to investigate and find a solution of the street railway problem over the country, was announced today by Secretary Redfield.

Composing the commission are: Edwin Sweet, assistant secretary of commerce; Royal Meeker, commissioner of labor statistics, department of labor; Louis B. Wright, general counsel, finance department; Charles F. Elmquist, president National Association of Street Railway and Utilities Commissioners; Charles W. Deall, of the treatment of the street railway. H. Gadsden, American Electric Railway association and William D. Mahon, Amalgamated Association of Street and Electric Railway Employees.

The president designated a representative of the American Cities' League of Mayors, but his acceptance has not yet been received.

Mr. Elmquist has been elected chief man of the commission and Mr. Sweet vice-chairman.

DERBYSHIRE HAS PLAN TO RAISE MUCH MONEY

BERLIN. (AP)—Dr. Bernhard Dernburg, minister of finance, has announced a plan to raise for the government seven billion marks annually by means of a "government working fund," according to the Neue Zeitung. Herr Dernburg's scheme provides that each worker in Germany shall labor an extra hour each day for which the employers will pay a proportionate wage plus an amount over and above the normal wage to go to the government.

Small Powers Defeat Efforts to Cut Down Their Armed Forces

Council Eliminates Limitations of Armaments for New Nations from Austrian Pact

PARIS. (AP)—The small powers have won a victory in their opposition to the limitation of armaments of the new states created from the former Austro-Hungarian empire, as incorporated in the Austrian peace treaty. The council of four has decided to eliminate the provisions for such limitations.

The council today gave further consideration to the German counter proposals and to the question of the rights of minorities in the small nations.

MANY DIE IN INDIAN FAMINE

Terrible Condition Due to Failure of Crops Reported by Returning Missionary.

NEW YORK. (AP)—Deaths are occurring in India in appalling numbers because of failure of the crops, according to Rev. Dr. E. A. Hume, who has served the national missionary council of India for 42 years and who arrived here today on his first furlough in eight years. He brought with him a message from the victory to President Wilson.

WORLD NEWS EVENTS

PARIS. (AP)—A deputation of eight members of the nationalist party in South Africa called on Premier Lloyd George today. Their call was in advocacy of the independence of the Union of South Africa.

PARIS. (AP)—In competent circles optimism prevailed this morning relative to the strike in this city and hopes were expressed that the trouble between the unions and the employers would soon be settled.

WASHINGTON. (AP)—Director General Hines left Washington today on the last of a series of inspection trips covering virtually every main line railroad in the United States. He will visit Boston, Omaha, Denver and Birmingham.

SEATTLE. (AP)—James Bruce, alleged Industrial Workers of the World, was found by a jury here today not guilty of the charge of criminal anarchy. The charge was placed against Bruce as a result of his activity during the general strike here in February.

BERLIN. (AP)—An autopsy on the body of a woman found in the Landwehr canal on June first has failed to establish that it was that of Rosa Luxemburg, who was killed early in the present year by a mob. The condition of the body precludes definite identification.

MUST PAY COST OF KEEP Patients at Insane Asylums Held Liable If They Have Property

(Special to The News) BOISE. (AP)—In an opinion prepared on Wednesday for J. K. White, commissioner of public welfare, Attorney General Black ruled that patients at the state insane asylums at Blackfoot and Oregon must pay the cost of their keep if they possess property. The law in question has been in force for many years but so far as known it has never been enforced. The cost of living in the state asylums amounts to \$365 annually, the attorney general says.

MOVE AGAINST JAPAN SPREADS

Boycott Fostered by National Students Organization Is Extending Through China.

PEKING. (AP)—The anti-Japanese boycott, which is being fostered by the national students organization in Peking, is spreading throughout China. The authorities are unable to check the movement, and the minister of education and the vice minister have resigned.

Demonstrations Resumed today in Peking where thousands of workmen are on strike.

The university has been closed and converted into a military camp. The government authorities do not wish to stir the students who enjoy public sympathy and the police and gendarmes experience great difficulty in handling the youthful street orators. A mandate issued by the president yesterday ordering the students to return to their studies has not been obeyed. The students of Peking college appear to be leading the anti-Japanese movement.

COAL MINE EXPLOSION TAKES TREMENDOUS TOLL OF LIFE

TROUBLE ALONG POLISH BORDER IS STILL ACUTE

Sentinel Follows Eastern Germany Against Alleged Encroachment of Territory for Concessions.

BERLIN. (AP)—Another indication of the sentiment in Eastern Germany regarding the annexation of portions of East Prussia to Poland is shown in a bitter protest signed by all the leaders of the leading political parties in the Oletzko district charging the government with neglecting the interests of east Prussia and bartering the province with Poland for more favorable peace terms.

Wants Treaty Line Kept Reports from Paris have been that the peace conference heads were considering alterations in the peace terms presented Germany, so as to provide for a plebiscite in Silesia over the question of uniting with Poland, and likewise for the guarantee to Germany of coal supplies from the Silesian mines.

Packers Would Be Limited to Packing Business by Colver

Head of Commission Would Prevent Extension of Meat Trust to Other Fields.

OINGINNAVI O. William B. Colver chairman of the federal trade commission in speaking before the National Wholesale Grocers association convention here today advocated that the great meat packers of the country be limited to the field of meat packing and to the manufacture of packing house by-products. "The commission has found that a meat trust exists," said Mr. Colver. "But it has found more than that. It finds that these great concerns are rapidly extending their dominion and control over the whole food supply of the nation. Unless some steps are taken of time, unless present tendencies are stopped, when these five concerns or perhaps the one or two of them which may openly or secretly absorb the others, will absolutely dictate to the people of this country what they shall eat and what they shall pay for what they eat."

Alsace and Lorraine Council Holds Meet

STRASBOURG. (AP)—The superior council of Alsace and Lorraine held its first meeting under the new French regime on Monday in the building formerly occupied by the German ministry of the interior. Alsace and Lorraine, Alexander Millerand, governor general, in a speech in which he paid tribute to the people of Alsace and Lorraine, said an abrupt change in the laws of the two provinces was contemplated.

Verdict Stands on Wolf of Wall Street

NEW YORK. (AP)—The conviction of David L. Lamm, otherwise known as "The Wolf of Wall Street," for conspiracy to prevent the transportation of war munitions from the United States to allies, was confirmed today by the United States circuit court of appeals. A similar decision was given in the case of Henry B. Martin, a member of the so-called "labors" national peace council.

Gooding Favors the Lane Land Measure

WASHINGTON. (AP)—Former Governor W. B. Gooding of Idaho testified today before the house public lands committee, endorsed Secretary Lane's project for farms for soldiers and sailors. A similar decision was given in the pending bill were too severe.

Financial Clause of Austrian Treaty Open

PARIS. (AP)—The financial clause of the Austrian peace terms as completed, it is understood, fixes no specific sum in reparation payment. The question is referred to a commission which will determine the resources of Austria and determine the amount and methods of payment.

CHIHUAHUA IS AGAIN REPORTED AS FALLEN

El Paso Paper Has Story; Americans Ransomed; Many Bandits Hanged.

EL PASO, Tex. (AP)—La Patria, leading Mexican newspaper published here, issued an article today saying Chihuahua City was taken by General Villa and Angeles, after only two hours of fighting last Sunday. The information is said to have come by wire from General Villa, who fled from Chihuahua City. It is said Villa executed eight men on taking possession of the city.

NOGALLES, Ariz. (AP)—After being held in ransom for five days by bandits A. D. Aylo and H. Barton, American farmers, having holdings near Nogales, in the state of Jalisco, were released today when the chamber of commerce of that place delivered a sum of two thousand dollars to the bandits, who are said to have departed.

Hanging to Pole. Passengers on the train arriving at the border last night from Mazatlan, said they saw six Mexican bandits hanging from several telegraph poles along the route, and that later they saw between San Blas and Navajo, in the state of Sinaloa.

OVER HUNDRED KILLED AND HURT IN WORST CATASTROPHE IN YEARS

Car of Powder Ignited by Electric Sparks from Trolley Wire with Terrible Results to Mine Shift on Way to Workings.

OVER FORTY BODIES IDENTIFIED AND ALMOST AS MANY BLOWN TO ATOMS

WILKESBARRE, Pa., (AP)—Seventy-eight men lost their lives in the Baltimore No. 2 tunnel of the Delaware and Hudson Coal company explosion and fire today and thirty-one were injured, according to a list given out by the company officials at noon.

Forty-one bodies have been identified and thirty-six remain unidentified. The company's injured list is not complete and it is certain that the number of injured will reach about forty.

Trolley Wire Responsible. A car of black powder attached to a trip of cars on which the men were riding to their chambers in the mine exploded. The trolley wire broke and sparks ignited the powder. Most of the deaths were caused by fire and suffocation.

Today's accident is a direct result of violation of the law concerning explosion in the mine. Permission was given the men to ride the trip to their place of work and a special train was provided. It is a violation of the mine law to carry powder on a train. The law is specific that powder and other explosives must be transported alone. There were a dozen bags of powder in one of the rear cars, all of which exploded.

Bodies Burned to Ashes. Some of the first bodies brought from the tunnel were burning when they reached the surface. Clothes had been burned away and the flesh was missing from the bodies. Water was poured on these to put out the fire. It was such sights as this that made brave hearts turn sick.

At 1:30 o'clock the company officials announced that 71 men were dead and that 35 were at the hospitals. It was stated that the death list will increase.

Survivor Tells Story. Thomas Dougherty, a miner, one of the survivors, was thrown out of a car by the blast and saved himself by jumping into a ditch. He said:

"I was riding along about 50 feet in the tunnel. There was a blinding flash. I was thrown from the car. I saw the water and I hurried in the car. There were men all about. Some I know were dead, others were crying. The flames were terrific. They were all about. We were in a veritable hell. No man could possibly hope to escape with his life unless he got in the water, buried his face and rolled over and over as I did. There was powder in the car. There were about ten kegs and besides there were kegs carried by the men. Of course, I do not know what set them off but I believe that sparks from the trolley wire that sparks ignited the powder."

"Safety First." It seems like the irony of fate that over the mouth of the tunnel in great

VETERANS PASS RESOLUTION ON STRIKE TROUBLE

Returned Service Men of Canada Stand by Law Enforcement; Will Make Demands on Labor Council.

WINNIPEG. (AP)—More than four thousand Winnipeg veterans of the great war, including scores of officers and hundreds of union men, after standing at attention in the auditorium this afternoon and singing "God Save the King," pledged themselves and their resources to maintain law and order in Winnipeg and to stamp out Bolshevism and anarchy from the forces of Winnipeg labor.

Pass Resolutions. The mass meeting was still in session early this afternoon. Resolutions were passed demanding that the authorities immediately arrest and punish all persons responsible for the strike situation in Winnipeg, who have attempted to overthrow constitutional government. Deportation of "all undesirable aliens" also was urged.

Mayor Charles F. Gray addressed the mass meeting and said the city wanted two thousand special constables from the ranks of returned soldiers, "to protect honest labor from intimidation, to provide food for all classes, and to safeguard every branch of municipal and civil life. A roaring response, "We are at your service," followed the mayor's request. The city will pay the constables \$6 a day.

Demand a Statement. The mass meeting decided to appoint a committee to visit the strike headquarters in the labor temple today and to demand that the strike leaders immediately announce their stand on the local food situation and the alien question. It was intimated that if the strike leaders' reply is not satisfactory, the delegation of returned soldiers would take things into their own hands. Military leaders urged the strikers not to visit the temple en masse "today."

Vancover Union Strife. VANCOUVER, B. C. (AP)—Vancover walked to work today, the union street car men having voted to abstain from the strike. Charles F. here in sympathy with the Winnipeg walkout.

Dance Halls and Cabarets closed last night when the strike committee informed union musicians that the permit given them to remain at work in theatres did not include other places of amusement.

The Vancouver Morning Star announced today with a declaration that it would not permit the typographical union to censor the strike news printed in its columns. The newspaper said that it would not handle any news or editorial matter which reflected upon the moves of Canadian labor unions.

WINNIPEG. (AP)—Meeting among returned soldiers' representatives and the general strike of Winnipeg, and particularly the participation of alien enemies in strike, is mentioned as a cause for fear. It was reported that several thousand soldiers intended to march to the trades and labor council this forenoon, force entrance if necessary and demand

BELGIUM YIELDS DEMAND FOR A BIT OF HOLLAND

Accepts Instead Certain Trade Concessions from Netherlands; President Expected to Visit Brussels Next Week.

PARIS. (AP)—In the revision of the treaty of 1839, dealing with the status of Belgium, including her boundaries with Holland, the council of foreign ministers of the peace conference has adopted the principle that Holland shall not have to make territorial concessions. It appears that Holland is willing to grant Belgium certain rights the Belgians are demanding. Wilson to Visit.

BRUSSELS. (AP)—President Wilson will arrive here on June 10 for a two days' visit, according to official announcement today.

PARIS. (AP)—The Brussels advices announced today that President Wilson's entourage there was characterized at the Paris "white house" today as "a mass work." The date for the visit has not been fixed. It was said, but it probably will occur within the coming week.

SUFFRAGISTS ARE TURNING TO THE SEVERAL STATES

Having Won Fight in Congress They Prepare to Carry Country for Equal Rights; Chief Opposition in South.

WASHINGTON, (AP)—With the fight in congress won after nearly forty years of effort, advocates of woman suffrage today are turning their attention to the various state legislatures, three-fourths of which must ratify the constitutional amendment before victory can be won. Realizing that the success and efforts of the leaders in the equal suffrage campaign came late yesterday by the adoption by the senate of the historic Susan B. Anthony constitutional amendment resolution which was adopted in the house May 21. The vote was 56 to 25 or two more in favor than was necessary.

Although supporters of the measure are confident of final success there is a division of opinion among leaders as to whether the ratifications by the states of the proposed amendment should be secured in time for the women all over the country to vote in the next presidential election. Few state legislatures now are in session and many will not hold sessions until next year.

May Pass at Extra Sessions

Because of pressing reconstruction problems, however, special legislative sessions are expected to be called in a number of these states and the suffrage amendment will be considered there. Where none are called for, the suffragists will demand special sessions, it is announced.

Chief Opposition to Ratification is Expected to Come from the Southern States because of the untold disfranchisement of negro women.

Senator Guy of Louisiana, in opposing the resolution yesterday, predicted that 12 states would refuse to ratify the amendment thus causing its defeat.

How the Vote Stood

The roll call of the amendment last night follows:

For adoption: republicans, Capper, Cummins, Curtis, Edges, Ellkins, Fall, Field, Francis, Frellson, Gurnea, Hale, Harding, Johnson, of California; Jones of Washington; Kellogg, Kenyon, Keyes, La Follette, Leavitt, McCumber, McCormick, McNary, Nelson, New, Norcross, Norris, Page, Poindexter, Sherman, Smoot, Spencer, Stearns, Sutherland, Warren, Watson, Total 36.

Democrats: Ashurst, Chamberlain, Calhoun, Harjris, Henderson, McKel, New Mexico, Kitchin, Kitchin, Kitchin, Myers, Nugent, Phelan, Pittman, Randall, Sheppard, Smith of Arizona; Stanley, Thomas, Walsh, Massachusetts; Walsh of Maryland. Total 20.

Total for adoption—56.

Against: republicans: Borah, Brandegee, Dillingham, Knox, Lodge, McLean, Moses and Taylor.

Democrats: Bankhead, Beckham, Diaz, Fletcher, Gay, Harrison, Hitchcock, Overman, Reed, Simmons, Smith of Maryland; Smith of South Carolina; Swanson, of North Carolina; Wood, Williams and Wolcott. Total 17.

Total against 25.

Those paired were: Senators Hall and King for, with Shields against; Calder and Townsend for, with Penrose against; Gerry and Johnson of South Dakota for with Martin against; Gore and Colt for with Penrose against.

Sensors Owen, Robinson and Smith of Georgia were absent and were not paired.

Absentees Two to One For

Of the absentees, Senators Owen and Robinson favored the resolution and Senator Smith of Georgia was an opponent. Including the absentees, 12 senators the actual senate lineup was 40 republicans and 26 democrats for the resolution and nine republicans and 21 democrats in opposition.

Terms of the Amendment

The amendment as it will be added to the constitution if ratified by the states reads:

"Article . . . Section 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex.

"Section 2. Congress shall have the power, by appropriate legislation to enforce the provisions of this article."

All efforts to amend the resolution in the senate failed.

FRENCH GENERAL FORBIDS STRIKE

Mangin Issues Order in Rhenish Republic; Report That Germany Is Out Permanently.

BERLIN, (AP)—A proclamation by General Mangin, commander of the French army of occupation at Mayence, forbidding strikes among the Rhenish republic and threatening leaders of any movement with arrest, was published in the Frankfurt Gazette.

Never Again in Control

MANNHEIM, (AP)—When the project of the Rhenish republic was broached, Marshal Poch, commander in chief of the allied armies, was approached through occupation officials and asked whether the Rhenish republic could work for a republic without the risk of being disciplined by Germany, according to the Neue Baden Landes Zeitung. The newspaper states that Marshal Poch and Premier Clemenceau of France conferred on the subject and sent a reply to the Rhenish republic that "the German government would never again have anything to do with the left bank of the Rhine and hence the propagandists could not be punished."

ALASKA COLLEGE PLAN OPPOSED BY MANY

Residents of Far North Say That Only Book Learning Would Be Given.

SEATTLE, (AP)—Alaska is not to have a territorial college and school of mines for two years, at least, although the plan has been passed at Fairbanks, Alaska, and needs only instructors and pupils and equipment to make it an institution of higher learning.

According to word brought here from the north, Alaska apparently has dropped, for the time, its plans to establish a territorial institution along lines of colleges of the outside states. During the closing hours of the recent session of the Alaska legislature, opponents of the college blocked a measure intended to appropriate \$50,000 to equip the college and pay its expenses.

Alaskans opposing the college claim that nearly all Alaska young men and women who want to go to college desire to attend institutions of the states. It was claimed that probably only the graduates of the Fairbanks high school of which there were seven this year would attend the Alaska college.

Feed Half Nation

Statisticians say the average man consumes a barrel of flour a year, and that Kansas wheat crop will make enough flour to feed the United States for a year. Millers estimate it takes four and a half bushels of wheat to make a barrel of flour (196 pounds). Coupled in bread on the basis of sixty loaves to each bushel of wheat, the estimated Kansas crop would make 13,115,000,000 loaves. At ten cents a loaf, the consumer would pay from two to three times as much for the wheat in the loaf that the farmer receives for the original grain, statisticians point out.

Large Per Capita Return

The estimated Kansas wheat crop, on the government's basis of \$2.26 a bushel, will yield \$315.84 per capita for the entire population of the state. One farmer in Reno county is said to have out 40,000 bushels that will yield around 19 bushels to the acre—a cash value of more than \$1,500,000.

Five government central labor bureaus are working in unison with the state labor department to distribute the harvest labor.

It is estimated that it will take 220,000 hands to harvest and thresh the crop, 150,000 of whom must be obtained outside the present farm forces of the state.

Harvest wages are from 30 to 40 per cent above of a year ago.

When growers conferences have agreed to a scale of 50 cents an hour for laborers, 40 cents for stackers and 70 cents for men with teams, including board and lodging.

FORMER LOS ANGELES MAYOR BRATS INDEMNITY

LOS ANGELES, (AP)—Meredith P. Snyder, banker and ex-time mayor of Los Angeles, defeated F. T. Woodman, incumbent, for mayor in the election yesterday according to returns totalling from 985 precincts out of 755. The vote was Snyder, 41,009; Woodman, 25,620.

Continual drilling on hard ground is sure to have a disastrous effect on the star track athlete.

The men, even though excused from the long, hard hikes are bound to have their muscles tired. It shows in a sprinter's face. Foster goes on to say that soldiering improves and strengthens the "walking muscles" but stiffens and slows up the "running muscles" which the sprinter or runner have in order to attain the fractional parts of seconds required in winning cinder path contests.

That these conditions not only affect the sprinter but the runner is the statement made recently by Earl Craddock, the champion wrestler, who was a sergeant in the American expeditionary force and who recently returned to his country. Craddock said he was overweight and slow and unless he found he could regain his old time form he would retire from the mat.

MORE FISH REPORTED.

SAN FRANCISCO, (AP)—For the first time since the opening of the fishing season reports from the various streams known to California anglers indicate a considerably improved condition for the sportmen. Good catches have become more frequent with the subsiding of the water and larger fish have been caught. There still remains considerable room for improvement but the best fishing is counted on to begin within a fortnight. Salmon are reported running in Monterey Bay off Pacific shores and large catches have been brought in by anglers. Fishermen expect this condition to obtain through August.

JUMPERS GO TO AVIATION.

BERKELEY, Cal. Nichols was recently honorably discharged as instructor in the United States aviation camp near San Antonio, Tex., where he qualified for his present position. His tenure of office began June 1 and he will serve for two years.

KANSAS WHEAT A GREAT CROP

Immense Returns to People of Sunflower States from Its Waving Fields.

TOPEKA, Kan., (AP)—Harvesting of the big Kansas wheat crop, estimated at 218,500,000 bushels, is expected to start today and tomorrow in southeastern counties and reach the great wheat belt of the south central counties by June 20. J. C. Mohler, secretary of the state board of agriculture, estimated that the crop will be far greater than that ever produced by any other state in the union.

Federal department of agriculture estimates indicate that Kansas will harvest nearly one-fourth of the total winter wheat crop of the nation: Nearly 11,000,000 acres were planted under the condition last given by the state board of agriculture was 98 per cent the best condition and the largest average ever recorded. Based on the government's fixed price, Kansas wheat growers bid fair to realize nearly a half billion dollars.

Has Good Effect

"There is not the slightest doubt in my mind that the moral effect of this arrangement is advantageous to justice," Judge Moore said in commenting on the new plan. "To place the witness in this prominent position with every eye in the courtroom focused on him to increase the atmosphere of solemnity and importance that is connected with the occasion. The witness cannot help realizing the dignity of the law and weigh his statements with care."

As a result, all the Denver courts will be arranged according to the new plan.

BOLSHEVIKI CONTROL OF PETROGRAD IS INDICATED

LONDON, (AP)—Bolshevik propaganda was being transmitted today from the wireless station at Tsarskoe-Selo, indicating that the report that Petrograd had been occupied or surrounded was unlikely. An unofficial press report received in Copenhagen Tuesday said that Estonian and Finnish troops had occupied Petrograd, Tsarskoe-Selo is 15 miles south of Petrograd and the seat of a former royal palace.

GREAT BRITISH LABOR MEET CONSIDERS ISSUES

SOUTHPORT, (AP)—The labor conference to be held here June 23, will take up important problems growing out of the war including resolutions calling for the withdrawal of troops from Russia and condemning conscription. One section of the labor element demands that industrial action be taken to abolish conscription.

Other subjects to be voted upon are the control of industry, national finance, education, old age pensions, the settlement of the land question and the delay in providing homes.

FACING COURT ROOM MAKES FOR TRUTH

Few Persons Good Enough Liars to Face Whole Household Say Judges.

DENVER, Colo., (AP)—Few persons are good enough liars to face an entire courtroom and perjure themselves. When every eye in the courtroom is focused on one person, who is seated so that he can return the gaze, the witness will tell the truth.

This fact is declared by Judge Julian H. Moore and Judge Henry Hershey to have been proved in a series of experiments covering several weeks in the Denver district court. As a result, the jury box has been reconstructed so that the jurors sit with their backs to the courtroom; the witness box is on a level with the platform in which the judge sits and the witness is forced to sit where he can see the entire courtroom as well as the judge and jury.

The experiments showed, according to the two judges, that placing of the witness in a chair behind the level of the judge and jury and in such a position that the witness cannot see more than a portion of the courtroom will encourage a psychological effect which encourages a dishonest person in perjury.

As a result, all the Denver courts will be arranged according to the new plan.

QUIZZING FOR A BRITISH BISHOP

Workman Came Right Back at Man of the Cloth on Examination.

LONDON—(Correspondence of the Associated Press)—Bishop Wollaton of Durham, had the unusual experience of being cross examined by workers at a May labor demonstration. The bishop's gaiters and unusual style of hat attracted the notice of the workers and he was immediately surrounded and tickled on various questions.

One woman declares that while supporting conscription and sending boys of 18 into battle, the clergy were careful to take care of their own skins. "Quite a large number of clergy have lost their lives in the war," replied the bishop.

"Why do you support conscription?" the woman said. "I don't support conscription, but we must keep it in force until peace is signed or you will have the Germans on you again," said the bishop. A man then took up the examination by saying, "I want to talk to you as a working man." "I am a working man," retorted the bishop. "Yes, but you get 1,500 pounds a year."

"Well, I earn it," said the bishop. "I work longer hours than you do." "I would work longer hours than I am doing if I got 1,500 pounds a year for it," was the working man's rejoinder.

PAN-AMERICAN CONGRESS FOR NEXT JANUARY

President Wilson to Convene Meeting of Western Hemisphere to Discuss Questions of Vital Importance.

WASHINGTON, (AP)—Announcement that President Wilson will convene the second Pan-American financial conference on January 12, next, on the recommendation of Secretary Olney, was made by Assistant Secretary Rowe, of the treasury department, in his address before today's session of the second Pan-American commercial conference. Necessity of closer financial co-operation between the countries of this continent to assist in the development of their resources in order to supply the needs of the war torn countries of Europe, prompted the calling of the conference. Dr. Rowe said that in the lapse of five years since the first financial conference in 1915 which organized the international high commission, invitations to the conference have been called by the state department to each of the Latin American governments requesting the attendance of a delegation of three, headed by the minister of finance in each case.

Relations Changed

The economic relation between the old world and the new, said Dr. Rowe in his address, now is in large measure revised and to an extent hitherto unknown Europe must look to America for her food and raw material, supplies and for capital with which to rehabilitate her industries. The tendency to selfishness and exclusiveness which, he said, has been a characteristic of the peoples of America must be supplanted, therefore, by co-operative economy and thrift between their countries in the development of their resources and the application of raw materials. The needs of a crippled world today Dr. Rowe said, makes this extravagance an "offense against humanity."

Frank A. Vanderlip, former president of the National City Bank of New York, and Charles H. Stow, president of the Bethlehem Steel Corporation also addressed the convention.

PARIS WALKING SINCE STRIKE

All Lines for Carrying of Passengers Stopped in French Capital.

PARIS, (AP)—Paris walked to work this morning, no subways, trams or taxi buses being in operation because of the strike here.

Reports early this morning seem to indicate that the strike was becoming worse and was showing a tendency to gain in all trades as the day went on, standing differences between the employers and men, even sometimes against the judgment of the strike leaders. Although the number of some 350,000 on strike in the Paris district yesterday, it was said early today that the number might be 500,000 before night. Everything is proceeding with the most perfect calm and there have been no untoward incidents.

The electrical workers in the power station at Votry joined in the strike yesterday, stopping all the street cars. Verrallier and closing down all industries using electricity in the district. By evening, however, the military authorities had taken possession and the current was turned on again.

GREEK FORCES OCCUPY TOWNS

Turks Try to Drive Them Out of One Place But Make Failure.

SALONIKI, (AP)—Greek forces yesterday occupied the towns of Aivali and Baira, on the Gulf of Adramyti, on the west coast of Asia Minor, about 60 miles north of Smyrna, according to an official statement issued at Greek headquarters. A Turkish detachment of troops made an attempt to attack Aivali but were repulsed, losing four men killed. The Greeks did not suffer any casualties. The Turks on retreating set fire to their barracks, the statement says.

AMERICANS LOOK OVER PROSPECTS IN BELGIUM

BRUSSELS, (AP)—American visitors are arriving almost every day to examine commercial and financial opportunities here. American bankers are taking an interest in the work of reconstruction. One big New York trust company already has opened an office here.

SMALLPOX IN CAPITAL CITY.

(Special to The News.)
BOISE—Nine cases of smallpox, mostly among patients coming here from outside towns, are reported by Dr. J. L. Pond, city physician, who is notifying that everyone who has not already been vaccinated for this disease should have it done at once.

WAR ASSOCIATIONS ARE PRAISED IN REPORT

London Truth Gives Credit to Generosity of British People in Struggle.

NEW YORK, (AP)—Indications of the world-wide generosity awakened by the war is given by preliminary reports of the British and American Red Cross. Y. M. C. A., the Order of St. John of Jerusalem and similar organizations which, during the past four years, have done service in alleviating distress and which are now taking part in the work of reconstruction.

A recent issue of London Truth, in commenting on the record of \$75,000,000 war contributions to the Red Cross by the British people during the period from 1915 to the present, said that "this must easily be a record collection for charitable purposes." Admitting that the amount does not equal that raised for the American Red Cross, the Truth observes that the general total of voluntary giving for war purposes in England must have been something without precedent in that country's history.

Laviah in Benefactions.

The British people, it is pointed out, were laviah in their private benefactions, no record of which was kept. From 1915 to the present, for instance, it is said, and that British people clothed more than 300,000 Belgian refugees and Belgian relief was only one of a wide diversity of objects which included the rehabilitation of crippled soldiers, the Blue Cross for war widows and numerous other charities. An interesting feature of the work of the British Red Cross, shown in the preliminary figures, is the low cost of administration. In 1915, this cost was less than three per cent and it fell progressively until, in 1918, it was about one and one-quarter per cent.

American Gives Great Sum.

Contributions to the American Red Cross from the date of the entry of the United States into the war, on April 6, 1917, to the present, are roughly estimated at about \$350,000,000. This amount was raised mainly in two donation "drives" which brought in \$100,000,000 and \$150,000,000, respectively, and the two million "drives" which 42,000,000 membership signatures with a minimum of \$1 each (many were for much larger sums) were obtained.

The cost of the Red Cross, it was stated by an official of the Atlantic division, was entirely defrayed by the Red Cross membership subscriptions and for every dollar contributed \$1.02 was made available for actual relief by reason of bank interest. L. J. Hunter, comptroller of the American Red Cross in Washington, is now at work on receipts and expenditures, it is said and is expected to make an official report in June.

Many millions of dollars already had been raised for the Y. M. C. A., K. O. U., Jewish Welfare board, War of the Community service, American Library association, Y. W. C. A., and the Salvation Army when the "United War Drive" was undertaken last winter. The subscriptions aggregated more than \$800,000,000.

Vast sums were raised in France, Italy, Japan, Russia and other countries, including notable success in the amelioration of human want and woe.

When all the figures are compiled, a charities statistician estimates, it will be shown that the most devastating war of history unleashed mankind's pursestrings in the most remarkable and prodigious manner.

GRANTS PERMIT FOR BOUT.

SELF POISONING VERY PREVALENT

Auto-Intoxication Cause of Most Ill Health and Disease.

Advanced medical authorities assert that auto-intoxication is the foundation of most of the diseases to which the human flesh is heir.

This condition is nothing more nor less than the slow self-poisoning of the vital organs produced by the excessive mental and physical strain which are forced to endure, which renders the organs lame and inactive, and permits toxins—actual poisons—to be generated within one's own body.

Usually the trouble starts in the intestines; sometimes it starts in the stomach, liver or kidneys, but in any case the blame lies with the faulty method of living and may be traced to over-eating, excessive nervous strain, lack of exercise, or other causes. At any rate it is the more important organs that suffer as a result, and when they falter or fail in their duties the body fills up with acids and poisons, and the victim often yields to their baneful influences. Bright's disease, heart trouble, high blood pressure, gaiter affections, and other troubles are frequently the result of self poisoning, or auto-intoxication.

A tired, draggy feeling of the body, a slight nervousness, symptoms of intense nervousness, headache, stomach and bowel troubles, poor circulation, imperfect digestion, constipation and depression are the common symptoms of auto-intoxication, and nine out of every ten of the American people are likely to be so affected.

Tanlac, the powerful reconstructive and systemic medicine designed especially to overcome these very troubles. There is not a single portion of the body that is not benefited by the helpful work of this celebrated preparation which begins its action by stimulating the digestive and assimilative organs, thereby enriching the blood and energizing the entire system. Composed of the most beneficial acids and herbs known to science, it enables the stomach to thoroughly digest the food, thereby permitting the assimilable products to be converted into blood, bone and muscle. It overcomes that great exciting cause of disease, weakness. It renders the body vigorous and elastic, it keeps the mind clear and energetic, and throws off the symptoms of nervousness and indigestion. It builds up the constitution weakened by disease or mental and physical overwork, quickens convalescence of the invalid, and is a sure and unfailing source of comfort to those who are suffering from the effects of nervousness and overwork.

That Tanlac does these very things is proven by the fact that it now has the largest sale of any tonic on the American market. Millions have used it with the most astonishing and gratifying results.

Tanlac is sold in Twin Falls by City Pharmacy, in Rogerson by Thompson Drug Co., in Murtaugh by Murtaugh Drug Co., in Filer by A. E. Wood, in Idaho by G. D. Boring, in Curtis Co., and in Kootenai by A. L. S. Co.—Adv.

NORTHWEST TEAMS SHOW UP VERY POORLY

SAN FRANCISCO, (AP)—The poor standing of the two Northwestern teams in the Pacific Coast league has called forth considerable criticism from both the public and sporting writers. Seattle and Portland, both of whom were elected into the league this season are the fallanders in the percentage column. Also their percentages are exceedingly slim.

To find a capable office helper is sometimes a mighty urgent matter with a business man. The classified always serves him efficiently.

BELGIUM CAN FEED TOURISTS

Most Supplies Plentiful Though Prices Are Soaring, Says Food Minister.

BRUSSELS, (AP)—Belgium is now in a position to feed a number of tourists, owing to a great improvement in the situation during the last few months. Prices are far above the pre-war standard but supplies generally are plentiful, with the exception of certain kinds of meat and milk, the food minister told the Associated Press today. He added that Belgium is now well provided as regards bread, potatoes and wheat.

Since March there has been no limit placed on the consumption of bread, which is now of an excellent quality, being made with 82 per cent of white flour. Belgium is able to export potatoes to France and has a supply of wheat for the next three months, owing to the activities of the inter-allied food commission, under the chairmanship of Herbert Hoover. More shipments from America are being arranged and other supplies will soon be imported.

REDS PAINTED TOWN IN THEIR OWN COLOR

Everything in Budapest Took on Bright Hue While They Had Charge.

PRINCETON, N. J., (AP)—The Communists, or Bolsheviks, painted everything red in Budapest until the paint supply was exhausted, according to an American officer who recently visited that Hungarian city. This fact was mentioned in a letter written by another American officer attached to the peace conference who wrote from Vienna on May 1. His letter, coming through by way of Paris in unusually fast time.

The writer apparently did not proceed beyond Vienna but reached his information concerning the decoration of Budapest with red paint from another American officer who had just returned from that city. The writer said that the American money was worth much more to the people of Vienna than their own paper money.

Money Depreciated.

"The dollar now buys thirty kronen where it used to buy only five kronen," he wrote. "So we Americans are all rich. There are five or six American officers and an American mission in Vienna, and the Americans are well-liked here, getting favors in the hotels, restaurants and theaters. Still people stare at us quite openly when we walk down the street. One sees quite a few German and Austrian officers and soldiers on the street."

There is now, he says, only one way for an outsider to travel to Vienna and that is by the Inter-Allied Express which comes through twice a week to Warsaw and has cars which are dropped off for Prague, Budapest and Constantinople.

BOISE PLANS AUTO PARADE.

(Special to The News.)
BOISE—In honor of the returned service men, the Boise Commercial club is planning a parade of more than 1000 automobiles on Saturday evening, July 5, the last day of Boise's celebration. Prizes will be awarded for the best decorated cars, and special prizes will be awarded for the best decorated out-of-town cars.

The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer:

- To promote the production of live stock and perishables and increase the food supply;
- To reach more people with more and better meat;
- To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;
- To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer;
- To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency and waste; to deal justly, fairly, and frankly with all mankind.

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.

LET ALL VOTE FOR THE IMPROVEMENT BONDS

Ever since the Romans conquered the world and extended their civilization to remote parts of Europe, the value of improved thoroughfares has been recognized as not merely an advantage but as a requisite for the greatest degree of social and economic advancement.

The people of Twin Falls will be called on tomorrow to vote on the question of bonds for street paving and improvements; there should be no question about what the answer will be.

So far as can be ascertained there is no organized opposition to the paving and very little opposition of any kind, but this is a sort of case in which it never pays to take any chances. A county bond issue was lost here last year because a lot of voters refused to believe, in spite of warnings, that there was a possibility of its being defeated.

Good streets will invite people from the surrounding country who are in doubt as to where to go to trade. They will invite pleasure seekers, who wish to see the whole city.

Again, in these days of readjustment there is nothing that makes for harmony between all classes so much as keeping all employed profitably at something which is of common economic and social benefit to all.

Every taxpayer of the city who voted at the last municipal election or who has registered since that time should be on hand tomorrow some time between the hours of 9 a. m. and 7 p. m., and perform the duty that patriotism and self-interest combine to dictate—vote for the pavement and improvement bonds.

The classified columns solve a wide range of selling problems for you.

THE SECRETARY

By MILDRED WHITE.

When John Stewart learned that the great magnate would be unable to leave his home his ambitious heart quickened in triumph that he had been chosen to carry on in the magnate's home that successful man's confidential work.

The man who admitted him led the way down the passage and opened the door to a large room at its end. This room was Mr. Kennedy's home office.

"I am here," she explained, "to take your dictation, acting as private secretary."

"As he fastened the bag John Stewart cast a second look at the girl who was back in the office chair adjusting her typing machine. She was such a slim little creature, the childish naturalness of her bearing seemed to give her the appearance of being a new arrival. He could not but admire the simplicity of her attire, the broad white turned-down collar giving the girl an almost boyish air.

"I'm not very rapid," she confessed. "I hope you think slowly."

"Begin, please," the chosen one said calmly, and John began.

Presently, flushed and laughing, she looked back at him.

"Oh, I will give you a moment!" she begged. "I have to correct another misspelled word."

John wanted to frown; he desired very much to tell this happily unconcerned young person that the purport of his message was no joking matter, and that his own heavily pressed time was not to be squandered. But the magnate's secretary was not to be reprimanded; also there was an appealing expression in the violet eyes raised to his which baffled rebuff.

The manager leaned back in his chair and his impatience changed to amusement at the girl's own merry remarks over her failures.

"I wanted to go to business college," she lamented, "but I had to give it up."

"If your services are satisfactory otherwise," John suggested, "I will pay Mr. Kennedy to spare you for a term of teaching."

"So I told him," she said, a dimple showing at the corner of her demure mouth. "Mr. Kennedy insists that I suit him very well as I am."

The girl must have other valuable qualities, John reflected, or else Mr. Kennedy would not be so tolerant; the young manager grew more tolerant too; in fact, he realized in dismay a disinclination to hurt the stenographer's feelings, which caused himself much secret embarrassment.

"The few hours' daily duty was consummated in order to get possession secretly of some impossibly typed letter, which, stamped and ready to mail, must not be allowed to reach its destination. John was ever permitted to see his employer, all the confidential business being transacted through his incapable though trusted stenographer. And it was, strangely enough, with a sinking heart that he learned of the great man's rapid recovery.

John had sincerely admired his kind manner, but the return to the city office would mean a cessation of John's visits to the home, and these visits had become the nucleus around which his daily life centered. John acknowledged the bewildering fact—love had found him, love for a happily inconsequent little creature with violet eyes and a white linen collar.

As the dissolution of her absence came upon him John desperately decided to put his case before her. Though he knew that she would not return to her work that day a great longing came upon him to be in a place at least that had known her presence.

He rang the bell of the great house door and was admitted by the familiar maid. "This time she bade him wait in the reception hall, and when the door opened again John gasped in surprise. For it was the little stenographer who entered—yet surely not the stenographer. For though the same violet eyes gazed from beneath the soft hair the girl who met him wore a velvet gown with real velvet at her belt.

"Miss Lee," he murmured, confusedly.

"Not Miss Lee," she replied, "that is merely what I thought best to have you call me. My name is Lee Kennedy." She came wistfully closer.

"Will you forgive the deception? When father was taken ill I begged to be of use to him and he consented. After all a name really makes no difference."

John Stewart's face was very white. "Difference?" he breathed, "it just makes all the hard difference in the world to me."

And as they stood facing each other with tragic eyes the girl suddenly put forth a pleading whisper.

"John."

"I'm going now," he said harshly; "if I stay one other moment I'll forget that difference and clasp you in my arms."

"Then stay—one other moment, John," said Miss Kennedy—and he did.

COMMENT, BY AND LARGE

Precisest paragraphs on current events, official acts and the general trend of events, at home and abroad. Edited by Captain C. L. Longley.

A Knoxville paper thinks when Burleson gets through with the telephone system there will be nothing left but the receivers. And, by the same token, the railroads, unless the government soon quits them.

The Germans are complaining because, as they say, the proposed peace treaty robs them of their "honor." The "corpus delicti," in such case, could never be put in evidence!

The Greenville, S. C., paper thinks the millions of bayonet-points of the army had more to do with inducing the British to sign the peace treaty than President Wilson's fourteen paper-points—to which they now ascribe the impelling influence.

And now the auto dealers in the large cities have added aeroplanes to their regular stock, and are selling them hither and yon to enterprising citizens. And men ought to think they must get to heaven before owning a pair of wings.

Repeal of the luxury tax section is opposed by some representatives upon the theory that only costly articles, real luxuries, are affected thereby. But how about ice cream, chewing gum, and tobacco? And what about every-day sort of things through which this cumbersome tax-section sought to take pennies away from children?

The contortions of the small kid when offered his spring portion of sulphur and molasses are nothing to those of Germany when she is offered a "mouth" for the peace treaty. Up to Monday she had neither signed nor refused to sign—just made faces, like the other kid, and whimpered, "Oh, it's too bitter!"

In a recent public speech, Lloyd George gave utterance to the following interesting attention in Germany, in these words: "We say to the Germans, 'Get them, you must sign. If you don't sign in Versailles, you shall do so at Berlin.'"

Only two men killed and two seriously injured at the great Hawaiian auto race Saturday. The winner, it is true, received twenty thousand dollars; but the widows and orphans will get little comfort out of that.

Knowledge of the futility, under existing circumstances, of attempting to receive immigrants from the continent of the Express Company is doubtless what makes the business men of Twin Falls accept the lile they have rather than fly to others that they know not of. The agent of the American Express Company here is both competent and willing, but he is so handicapped by poor location and insufficient help that the service given by that company is most wretchedly inadequate to the needs of this city. Finding the only express office in a busy city of the size of this one closed during business hours while the agent performs duties that should devolve upon an assistant is only one of many instances due to mean and parsimonious management "higher up!"

And now comes that Mexican rubber and mule-skin bandit, Francisco Villa, and with one breath claims the friendship and patronage of the President of the United States, and with the next breath tells us that certain demands of his are "refused" by the government, he will proceed to kill the few American citizens in Mexico left alive; he will continue up to this time. For God's sake, how much must this country endure from that scourge and how long? If nothing else can be done, perhaps President Wilson can do something for the sake of nations, and he might at least send Preacher Heron, who ought to win new laurels in Villatic circles.

SAUCE FOR THE GOOSE, ETC.

It was, undoubtedly, by way of an "object lesson" that a certain newspaper published and printer recently mailed to each of the merchants in his town a circular letter stating that he will shortly be in need of a shirt, a pair of shoes and a hat, and requesting that each merchant furnish him itemized estimates, as follows:

"One shirt with or without collar; also in one, two and three colors. Estimate each way." "One pair of shoes. Estimate for two colors, black or brown. Also give prices, whether high or Oxford and laced or buttoned."

"One hat, soft or derby (estimate for black, brown, green and grey, with and without band, size to be determined later)."

The letter added the fact that the printer expected to place a somewhat larger order in the near future, and that the merchant who made the most reasonable price on this "small initial order" will, as a matter of course, receive special consideration when the larger one is purchased. Some of the merchants to whom these circulars were addressed must have observed something familiar about their manner, style or purpose; and if so, even the "shoe was on the other foot," there is no doubt but that the immediately made and submitted the desired estimates. Or, if they did not do this, it is pretty sure that no similar "bluff" would be made to the printer when the next order for a thousand letter heads and envelopes or a column of advertising became due.

VETERANS PASS RESOLUTIONS ON THE STRIKE TROUBLES

that all aliens be ousted from the Winnipeg unions.

Feeling is Intense. "The soldiers are no increased over the high handed methods of strike leaders and insulting remarks made by James Duncan, the Seattle labor-leader, yesterday that they here threaten to wreck the labor temple and make an example of the leaders," said Mayor Gray. "I shall urge the men to remember that law and order must be maintained."

Called Soldiers Ignoramuses: Soldiers who attended the mass meeting where Duncan spoke yesterday declared he referred to the returned soldiers as a "bunch of ignoramuses."

The returned soldier parade was set for 10:30 o'clock this forenoon. Mayor Gray said that no attempt would be made to prevent a "peaceful demonstration."

Takes Over Milk Distribution: The city today took over the distribution of milk and was arranging to provide for broad distribution if necessary. It was reported that strike leaders were preparing to rescind their order of yesterday ordering all union handlers of footpaths to go on strike.

Mayor Gray said that milk stations would be opened in all public school buildings and that "adequate protection would be furnished." Rumors were current on the streets and in local newspaper offices this forenoon that the central strike committee was considering the advisability of calling off "sympathetic strike" in view of the impending action by veterans.

Requests Made For Protection: It was stated at the board of trade that hundreds of union men were ready to return to work despite contrary opinion as they were assured "adequate protection." The strike situation seemed to be completely reversed. Labor leaders who have publicly and aggressively attempted to combat every federal, provincial and municipal attempt to restore tranquility in Winnipeg were making "for protection," it was learned at the city hall.

TEXAS CONGRESSMAN IS BITTER ON THE UNIONS

Blanton intimates that President Campers is identified with Anarchists.

WASHINGTON, (AP)—Anarchist attempts on the life of Attorney General Palmer and public men, were denounced in the house today by Representative Blanton of Texas, who said he had waited thirty hours in the hope that other members would let the country know what congress thought of a series of outrages against organized government.

Mr. Blanton also made a general attack on labor unions, saying he had been receiving anonymous letters from all parts of the United States "telling me that if I ever opened my mouth against the unions again what would happen to me and my family."

World Open Mouths. "I hope you open your mouths," Mr. Blanton shouted, "and tell these anarchists—I do not care if they are labor unionists or not—that if they do not stop their practices and I hope you tell Mr. Campers that if he does not purge his labor unions of anarchy and disregard of law we are going to catch every one of them, that we are going to catch all the anarchists, though they are members of unions and hang them as high as Haman."

Every real estate dealer helps to make a bigger and finer city. The classified ads, therefore, are city builders.

If we say that our clothes are distinctive, we say the same thing that thousands of other clothiers have said. It is a word that is much over-wrought and in most cases means nothing.
But we mean a lot when we say that Kuppenheimer Clothes are "distinctive." We mean that they have elements of style, definite refinements of tailoring and precise fabric qualities that distinguish them from other clothes—characteristics that set the precedence for clothing value.

BUSINESS MEN LINE UP WITH BOY SCOUTS

Plans for Organization of Associate Executive Committee and Enrollment of Associate Members Endorsed Here.

The Boy Scouts movement in Twin Falls is coming in for a generous measure of attention at the hands of civic organizations and of the citizens generally. Three committees of three members each are to be appointed by W. E. Edridge, president of the Greater Twin Falls club, to serve as an executive and advisory board for the Scout troops in Twin Falls.

Associate Members Sought

In addition a campaign for enrollment of associate members of the Scout organization among the men of the county is to be conducted, during the week of June 18 by a committee named by Roy A. Reed, recently appointed as chairman of the Scout council for Twin Falls county. The members of this committee, in addition to the chairman, are Arthur J. Peavey, E. A. Walters, Hal G. Bue, and J. H. Davis.

Scoutmaster Talks

Plans for the encouragement of the Boy Scouts movement in Twin Falls were endorsed by the Rotary club at its meeting last evening. C. H. Davis, scoutmaster of Troop 3, addressed the Rotarians on the plan and purpose of the movement.

There are 400 Scouts in Twin Falls who are eligible to membership in the Boy Scout troops," Mr. Davis said, "but the actual membership of all three Twin Falls troops at the present time is only 45."

(C. E. Munson and V. H. Decker are scoutmasters of Troops 1 and 2.)

CHAUTAQUA DATES SET

Local Association Organizes and Makes Arrangements.

Friday, June 27, is the date for the opening of the Twin Falls chautauqua course, which is to continue until July 3 and be held on the same grounds used last year, on Second street between the street and in front of the Presbyterian church. At a meeting of the chautauqua association held last evening in the parlor of the Rogerson hotel to make arrangements for the coming course, an organization was effected with the election of the following officers and committee heads: President, W. E. Edridge; secretary, J. C. Beauchamp; advertising manager, W. A. Patrick; chairman of ticket committee, Margaret Edridge; chairman on grounds, J. E. White, C. E. Beck.

OFFICERS TAKE POSSESSION OF WHISKEY STILL

Rude Moonshine Outfit for Conversion of Corn into Booze Discovered in Sage Brush—Evidence Lacking.

The sheriff's office last evening completed the transfer to Twin Falls of a rude corn whiskey still discovered on unimproved lands south of Buhl. Persons suspected of ownership in the outfit are known to the officers but it is considered doubtful if sufficient evidence has been collected by them to secure a conviction. The case, however, has been turned over to the federal authorities and is not yet regarded as a closed affair.

With the still, the officers brought in two quarts of moonshine corn whiskey and they left on the premises two or three barrels of corn mash indicating that the still had been used for some time. The still is a rude affair made of a barrel lined with metal, several logs and buckets and a copper worm.

ROAD DISTRICT LETS CONTRACT ON ROCK PLANT

Retains Salt Lake Firm to Install Equipment at Quarry and Authorizes Purchase of \$50,000 Worth of Machinery

Directors of the Twin Falls highway district yesterday afternoon entered into a contract with the Lynch-Cannon Engineering company of Salt Lake, for the erection and construction of a rock crushing plant with a capacity of 100 tons per hour, for the preparation of crushed rock to be used in carrying out a road building program for the \$50,000 worth of bonds recently voted.

Authorized Purchase
The directors at this time also authorized the purchase of about \$50,000 worth of machinery and equipment for the crusher plant and of rails and ties for building of between 4,000 and 5,000 feet of spur track and siding at the plant which is to be situated on the quarry site of 40 acres south of Twin Falls recently purchased by the district.

Under the terms of the contract the work on the erection and construction of the plant is to begin at once and is to be completed within 90 days at the most. It is predicted, however, that the plant will be in operation inside of 90 days. The contractor is to receive for his services a maximum fee of \$25 on the basis of cost plus 7-1/2 per cent.

Equipment Ordered
The machinery and equipment ordered includes three crushers, one of the jaw type and two of the gyratory type; air compressor, air drills and drill sharpeners, skips and hoists, necessary belt conveyors, screens and motors with an aggregate of about 450 horsepower.

ASKS BIDS ON ROAD BUILDING

Highway District Submits First of Plans for Contractors Proposals.

The Twin Falls highway district today is submitting for contractors' bids its plans for the building of the first stretch of road provided for in its \$1,250,000 program of road building. A stretch of approximately eight miles of gravel road extending north and east of Hollister. The bids are to be opened at 2 o'clock Saturday, June 14, at the highway district office. The estimate that the work involved will include handling of 2000 yards of earth and 1800 yards of gravel per mile and also the clearing and grubbing of 5.5 acres of sagebrush and the average haul is two miles.

BANS SOLDIER PEDDLERS

War Department Takes Steps to Discourage Mince of Uniform.

Col. Arthur Woods, special assistant to the secretary of war, has notified the local offices of the United States employment service that he has asked every state and territorial office to report all licenses issued to discharged soldiers and sailors for peddling privileges. The emergency employment committee of the national defense, for discharged soldiers and sailors will undertake to ascertain whether such soldiers or sailors are peddling of necessity or by choice. If the men are peddling of necessity, efforts will be made to obtain better employment for them. The committee hopes to prevent both the exploitation of the uniform and the superannuation of public neglect, which is held to be suggested by the appearance of service men as peddlers.

SILENCE BODES WELL FOR CITY BOND ELECTION

Friends of Municipal Improvement Program See Only Favorable Indications in Apparent Lack of Public Interest.

In the talk on the street today the fact that only what the issue seemed to be taken place tomorrow on the issuance of \$205,000 worth of municipal improvement bonds seems to cut little if any more figure than if there were to be no election.

Apparent lack of interest in the matter as evidenced by its place in conversation is interpreted, however, as an indication of favorable prospect for approval of the bond issues on all three propositions submitted.

Talk Attended Danger.
Strength to this position is added by the fact that only what the issue seemed to be taken place tomorrow on the issuance of \$205,000 worth of municipal improvement bonds seems to cut little if any more figure than if there were to be no election.

With this threatened opposition won over to the bonds by reason of an understanding reached whereby the area in which paving is to be done is extended to include three or four more streets, common discussion of the proposed bond issue seems to have been dropped abruptly, and this fact is pointed to by those most actively interested in the success of the issue as an evidence that silence gives consent in this case.

Only Success Predicted.
It is not anticipated that an extraordinary heavy vote will be polled at the election Friday, but among the forecasters there remains not one to be heard on the street predicting any result other than that the bonds will be approved on three or four more streets, common discussion of the proposed bond issue seems to have been dropped abruptly, and this fact is pointed to by those most actively interested in the success of the issue as an evidence that silence gives consent in this case.

The polls for the first ward will be open in the municipal waterworks department building at the corner of Second avenue and Second street north for the second ward in the offices of the Johnson Auto Sales company on Shoshone street east.

Starts Proceedings When Japanese Fails to Return Her Ring

Kathryn Redl Accuses Buhl Restaurant of Misappropriating Jewel.

Filing in an effort to redeem after nearly three years her diamond ring valued at \$2,000, Kathryn Redl of Elliot yesterday swore out a warrant for the arrest on a charge of embezzlement of Charles J. Yama, proprietor of the Palace cafe at Buhl, to whom, she says, she pawned the jewel on October 1, 1916, for \$5. Subsequently, she says, she tendered the return of the amount advanced by Yama, but the registered letter in which she inclosed the money was returned to her as having been refused by Yama.

The complaining witness says that she had heard of the Yama establishment for two months and had been led to believe that she could trust him. The case is to be heard, in Probate Judge O. P. Duvall's court.

A BOLT OF RIBBON

By SHIRLEY SYMONDS

Mrs. Beaton was standing in the doorway of their pretty suburban home when her son drove up in his gray roadster. "Oh, Ralph," she called, as he stopped at the curb, "will you get back to the Emporium for a bolt of baby blue ribbon? You can just about make it before they close. One bolt of baby blue--No. 1; can you remember?"

"Sure, mother," responded Ralph, obligingly, "but why don't you jump in and go, too?"

"I can't; I have to prepare supper. Hurry, now, dear, or you'll be too late."

Ralph, grinning good-naturedly, swung the car around and was off to his mother's bidding, while she, with a little thrill of pride, re-entered the home little dreaming that back at the Emporium, Cupid, perched on a bolt of baby blue ribbon, lay in wait for her unsuspecting son.

Life behind the ribbon counter at the Emporium was not very thrilling at least so thought Carol, Warren glancing at the clock which pointed five minutes to closing time. A lonely girl in a strange city, she felt particularly tired and depressed this evening; but when the forelady handed her her week's pay envelope and she returned to her room, she felt suddenly grateful for the position, tiresome though it was. With the small envelope still in her hand she was drawing the cover over the counter when Ralph stepped briskly up and asked for a bolt of baby blue ribbon. She looked at him curiously and the tired expression in her eyes smote him to the heart. At the same time he thought he had never seen a prettier girl. Carol, flushing beneath his gaze, patiently turned to the shelves behind her. "Baby blue--No. 1, the ribbon you want," she called, and Ralph, directly struck with Cupid's dart, and lost in admiration of the small figure before him. Speedily producing the ribbon, Carol slipped it into an envelope and passed it to Ralph in exchange for the proper change. For the first time since she had been so conscious of a queer little flutter about the heart that was most disturbing, Ralph left the store rebelling against those conventions which forbade him offering the little lady behind the ribbon counter a seat in his baby carriage.

"Mother, here's your baby blue ribbon," he heard some child's voice or rather his own, "Supper smells good."

"Why, what is this?" exclaimed Mrs. Beaton, and Ralph, looking up, saw that she held a small envelope in her hand. He saw instantly that it was a pay envelope and remembered seeing it in the hand of the girl who had been behind the ribbon counter. In some way she had slipped it into his package. In his heart he was exulting, for it was a chance to see her again. Explaining to his mother, he appropriated the small envelope, promising to return it to its rightful owner, the next morning. He had not time to do so, however, and wonder of wonders--he was gazing straight at the features of the girl of his thoughts, "Mother, who is this?" he asked excitedly.

"That," replied Mrs. Beaton, looking over his shoulder, "is the picture of my dear home, the little cottage in the country."

"Well," commented Ralph, "if I didn't know that people change some with years I should say that at 6 o'clock tonight she was behind the ribbon counter at the Emporium."

Carol missed the pay envelope directly after Ralph had gone. "What are you looking for?" said a girl across the aisle as she pinned on her hat. "Oh, Minnie, I've lost my pay envelope," said Carol almost in tears. "I can't find it anywhere." "Too bad," said Minnie, "but you had it in your hand when you walked on the next morning, I saw it. Did you anything you got it into his package." "Oh, could I have done that?" said poor little Carol; "but I don't know who he was, and--" It was young Ralph Beaton, the lawyer, informed Minnie, "I know because she saw his picture in the paper when he was admitted to the bar, and I never forget good-looking faces. I should go to his house and see if he has it," and Carol, in her straits, grasped at the straw of hope and decided to follow her friend's advice. It was nearly 8 when she reached the Beaton home and timidly rang the

bell. Mrs. Beaton herself opened the door, and at sight of the girl on the threshold her heart leaped tremendously. Carol tried to speak, but Mrs. Beaton was too much moved to hear her. "Forgive me, dear," said the older woman, "but you do look so much like--" "What you are Annie Gordon, you know," Mrs. Beaton cried, the retreating girl. "Oh, my dear, come in," and Mrs. Beaton almost pulled the surprised girl inside the cheery living room, where Ralph sat by the table reading. Starting up at sight of Carol, he heard his mother say of an sure this is the girl whose pay envelope you brought home tonight, Ralph; and she is also the daughter of my dear childhood friend." There were happy tears in Mrs. Beaton's eyes as she welcomed the shy stranger to her heart and home; and to Ralph it seemed that miracle had been wrought, for the romance begun that evening at the ribbon counter ended very speedily in a pretty little wedding, and as the gray roadster shot forth on a wedding journey no one but Ralph's mother remembered that there was such a commonplace thing in the world as a bolt of baby blue ribbon.

The Way of the Foot.

A fool is one who goes through life with his eyes open, but sees not the things his eyes were intended to see. Instead of passing to one side of trouble, he bumps into it, runs his head into braunails and gets stuck in mire. And sometimes he walks right into the arms of fortune or happens to be Johnny on the spot when favors are being distributed. But his streaks of luck take on a thin as compared with the thickness of his eyes and disappointments that they seem to be hardly worth considering.

Mid-Air Proposal.

The "most remarkable proposal" we know of was made at St. Louis by Charles Kruger, a trapeze performer. One of whose most sensational performances was to catch with his hands a lady who dived through the air from a great height in a desperate "leap for life." One night as he caught her in her downward flight and had her swinging in the air, he proposed to her; and being asked to give up the way he had secured her consent to be his wife.

GORE SAYS FARMERS LACK ORGANIZATION

Oklahoma Senator Declares They Must Get Together to Secure Legislation.

SALT LAKE CITY, (AP)--Lack of organization has made the farmer discontented, asserted Thomas P. Gore, United States senator from Oklahoma, at the meeting here today of farmers from Utah and southern Idaho. The senator was here to deliver the address of the Inter-Mountain Farmers association and was for the purpose of acquainting farmers in the Intermountain country with the proposal to form a national organization of farming interests.

"Agriculture represents the greatest apportion of the most number of people and has the greatest area of any enterprise in the world, but the lack of an organization has made the farmer dependent on the whim of a few speculators," said Senator Gore. "He is no longer independent and is grossly affected by market fluctuations and by changing political and economic conditions."

Must Speak to Congress

"If the farmers of America can speak in a trumpet tongue to the members of congress they will get the legislation they so badly need. In this serious and trying period of reconstruction there is a greater need now for farmers to organize than ever before."

Senator Gore, who is the only speaker at today's session, his meeting adjourned only in order that the speakers could embark on a westbound train. They will speak at Modesto, Calif., on June 6, and San Jose, Calif., June 7.

Eggs on Bushes.

Herring that flock along the coast of southern Alaska in vast "schools" lay their eggs in bunches in very shallow water near wharves, attracting them to floating seaweeds or rocks. It is a habit of which the intuitive Indians take advantage by dipping quantities of brush into the water at the spawning season. Later, they collect the brush and scrape off the fish eggs, drying the latter in the sun for food.

Apache Customs.

In order to ascertain the time of day, the Apache Indians used to stand on which the stars of heaven were sprinkled. As the constellation rose the Indians could tell the hour by referring to the gourd, and by turning the gourd round he could tell the order in which the constellations might be expected to appear.

SENATE FIGHT WAVES FIERCE OVER TREATY

Hitchcock Calls Up His Resolution to Inquire Whether President Gave Advance Copies of Treaty.

WASHINGTON, (AP)—The leak in diplomatic channels which it has been charged copies of the unpublished peace treaty with Germany reached certain interests in New York was the subject of another stormy debate today in the senate.

Senator Hitchcock of Nebraska, in calling up his resolution for a senate investigation of all facts in the case declared the statements of Senators Lodge of Massachusetts and Borah of Idaho, republican members of the senate regarding the presence of copies in New York constituted a "monstrous charge." If this charge had been made in the senate, he said, and not merely in order to attack the treaty, the senators making it would have demanded a senatorial investigation. The speech drew replies from both Mr. Lodge and Mr. Borah.

Anticipates No Opposition
"I presume," said Mr. Hitchcock, "that there will be no substantial objection to this proposal. It is a matter of the most elementary justice that investigation should be had of the charges made upon the responsibility of two senators that copies of the treaty had fallen into the hands of New York interests while being withheld from the senate of the United States."

"The request for this investigation should have been made by the senators who lugged into the senate this resolution. They do not appear to realize the embarrassing position in which they placed themselves by not asking an investigation."

A declaration by the Nebraska senator that Senators Lodge and Borah had "insinuated broadly that the president permitted copies of the treaty to be made in New York city," brought Mr. Lodge to once to his feet.

Denies Making Insinuation
"I said nothing whatever about financial interests," asserted the Massachusetts senator.
"It is possible," replied Mr. Hitchcock, "that there may be some difference between the positions of the two senators in that respect," concluding however, "that the charge involves an attack on the president of the United States of the most scandalous nature. It appears to me that it is a monstrous charge. Men who make such a charge owe it to the public to demand investigation as to how they obtained their information if they had been making it in the public interest and not for the purpose of hurrying the treaty."

Senator Hitchcock declared that the Nebraska senator had "treated the treaty as if it were a mere party document," "that they apparently are in closer communication with enemies of the treaty than with friends of the treaty."

May Reach Vote
A vote may be reached in the senate today on the bitterly debated resolution introduced by Senator Johnson, republican of California, asking the department of state to furnish the treaty with Germany. Several hours of discussion were expected to precede the roll call, however, and supporters of the measure were confident of their ability to bring a vote before adjournment.

Introduced at White House Request
It was stated authoritatively today that the House of Representatives resolution for an investigation of the reported "leak" of copies of the treaty to New York at a request from the White House first introduced yesterday by Secretary Tumulty.

President Wilson is being kept fully advised of the situation in the senate by the department of state. It is believed he has not indicated whether he would authorize the state department to furnish the treaty text to the senate in the event of the passage of Senator Johnson's resolution.

Charges Theft
"If he held the treaty in his hands," shouted Senator Hitchcock, referring to Senator Lodge's statement as made in the senate, "he would have pocketed the goods probably secured by bribery; goods which the American representatives in Paris promised not to make available. It is a strong statement of a senator of the United States to make such a charge and allowing it to go somewhat else."

MAGNATES CONNECTED WITH CHICAGO TRIBUNE

Only Small Shares and Distant Relationship Is Proven in Ford Case However.

MOUNT CLEMENS, (AP)—Denunciation from officials of the Standard Oil company and the International Harvester company were introduced today in the attack on the newspaper against the Chicago Tribune. Editorials which the plaintiff contends show pro-Germanism were the part of the Tribune also were read by Attorney William Lucking.

The depositions were from Frederick David Ashe, who was a director of the Standard Oil company of New York, and from the editor-in-chief of the alleged libelous editorial, "Ford is an anarchist," and who since 1917 has been vice-president of the company; Milton M. Eames, assistant secretary of Arthur H. Corwin, who was vice-president of the Penn-Mex Fuel company in 1915; President Harold F. McCormick of the International Harvester company who was vice-president of that corporation in 1919; George A. Ranney, secretary and treasurer of the company and Mrs. Elmer Medley Patterson, part owner of the Tribune.

Thought Pertinent
The depositions of the officials of the two big corporations were deemed pertinent by the plaintiff. In connection with his charge that the Tribune wanted war with Mexico because it would benefit the Harvester company and the Standard Oil company, the plaintiff charged that a distant relationship between Harold F. McCormick and Colonel R. R. McCormick, who had influence or connection with the Tribune affairs or that he was consulted in any way as to the Tribune policy.

Mr. Ranney deposed that Colonel McCormick was a small stockholder in the harvester company in 1916 and the latter's father, former Ambassador R. B. McCormick, recently deceased, was an investigation.

Pro-Germanism Charged
The pro-Germanism alleged against the Chicago Daily Tribune by Henry Ford, who charged the newspaper for \$1,000,000 damages in a charge of libel, came before the jury in Judge Tucker's court here today in conjunction with the deposition of Edward Goldbeck, formerly a special writer for the Tribune.

Goldbeck's writings were characterized by the counsel for plaintiff as pro-German. Goldbeck, a resident of Stevenson, testified that if he were given the jury in fairness, parallel columns of the Tribune, giving the view of pro-Germanism should be given.

"For every pro-German article you find in the Tribune I can produce ten pro-ally articles—enough to keep you here three years," said Attorney Kirkwood.

Malice Charged
Attorney Alfred Lucking stated the purpose of the deposition, which did not quote any of the Goldbeck articles, was to show that the defendant in printing, June 2, 1916, the editorial head "Ford is an anarchist."

"We charge that the Tribune sought war with Mexico in 1916 for two reasons," said Mr. Lucking. "First, because the paper was pro-German and sought to aid Germany by concentrating American resources on Mexico, thus curtailing shipments of supplies to Germany's enemies and second, because of the selfish interests of the Standard Oil company and the International Harvester company in Mexican oil and steel."

"Henry Ford at that time stood as probably the foremost opponent of war with Germany and it is for this reason that the defendant newspaper attacked him, calling him an anarchist."
Mr. Goldbeck in his deposition said that he had been editor of the Tribune in Berlin and for a time was a lieutenant in the German army. He later became what was called an "oppositional officer," or one who opposed the Kaiser. This attitude, the deposition said, made him uncomfortable for him in Germany and he concluded to "investigate democracy at its source, and to 'catch the spirit' of the 'inferior' people."

If there were a better news service than the ASSOCIATED PRESS, The News would have it.

If for one moment the public verdict as to the superiority of ASSOCIATED PRESS news over all other forms of telegraphed news service, should seem to even waver, The News and the other Associated Press newspapers over the country would be the first to find it out.

There is but one ASSOCIATED PRESS, and The News is proud of its membership therein.

A newspaper does not merely "order" ASSOCIATED PRESS service—ASSOCIATED PRESS service is not sold to the highest bidder or indiscriminately to newspapers generally. The ASSOCIATED PRESS is an ASSOCIATION of newspaper publishers, and to this ASSOCIATION belong the leading publishers of America.

The membership of The Twin Falls News is one of the things which stamps The News with the hall-mark of success. The possession of Associated Press service may be regarded as a credit to The News and to the whole Twin Falls country, and—be it remembered—The News is the only afternoon newspaper in Idaho which gives to its readers the full leased wire day report of the ASSOCIATED PRESS.

There are plenty of news services, but only one ASSOCIATED PRESS.

NEW YORK, (AP)—Japan's aim and motives are being misrepresented in America by "hired" hired agents of China," according to Viscount Ishii, Japanese ambassador to the United States, who delivered an address before the Japanese society. The ambassador reiterated that Japan intended eventually to return the Shantung province to China and denounced an utterly preposterous story which he said was widely published that Japan had persuaded China not to declare war on Germany in 1915 because she apprehended that it would mean the moral awakening of the 400,000,000 people of the Oriental republic.
