

PORTUGAL STIRS IN THROES OF SOCIAL REVOLT

Crowds Shake Capital of Nation; Workmen Throw Down Tools; Prisoners Revolt in Institution.

LISBON — (Correspondence of the Associated Press)—Portugal, especially Lisbon, is in the throes of an incident "social revolution." Since the first day of May, when the young classes made a strong and peaceful demonstration of their force by an immense procession through the streets and in front of the ministries, various threatening events have occurred.

Unsatisfied with the eight-hour day granted by the government, workers "downed tools" and two big fires have destroyed two of the finest old edifices in Lisbon. The first fire occurred in the Postal Money Order department, which is attached to the Bourse, the government offices and the custom house, part of the magnificent arcaded buildings of the principal square of Lisbon, on the northern bank of the Tagus river.

Waterworks Strike
The strike of the Waterworks Company's employes coincided with the fire which broke out in three places simultaneously. The water supply was cut off so that the firemen were helpless when the flames had already taken from the Tagus their base was cut. Many arrests were made of persons suspected of being the authors of this act of sabotage. The incendiaries have not yet been discovered. The government is continuing its investigations and making many arrests. The damage is enormous; a great number of money orders were burned.

Prisoners "Go Out"
On the following day, the prisoners of the ancient and historical Limpopo prison revolted. They smashed furniture and doors with parts of their iron rods and after setting the prison afire with their mattresses they rushed out shouting "vivas" for the social revolution. The old building, which had been a royal palace, built in the 13th century, was soon in flames and part of it was burned. Some of its 730 inmates escaped, but troops were immediately detailed to cordon the neighboring streets and houses and removed to the Monagato fort and other prisons.

There have been various other small fires in public buildings for the past two days, one at the central arsenal. On certain persons have been arrested with firing material in their possession. This has made the government very alert. Bolshavist propaganda has widely spread in the working classes and some of the arrested men turned out to be Russian Bolshaviki.

Minister Quits Job
The minister of labor has resigned owing to divergence of opinion with his colleagues as to the measures that have been taken to quell the agitation among the workers. The ministers have paralyzed business. No electric cars have been running since May 1 and all the municipal workmen are on strike, so that street cleaning, burying the dead, and all other municipal work is being done by civilians and volunteers. It is said that a general strike is being planned, but public opinion is so incensed at the fires that a reaction appears to be taking place. Several societies and associations have made public protests against such extremist acts.

PERSHING LAUDS THE KNIGHTS OF COLUMBUS

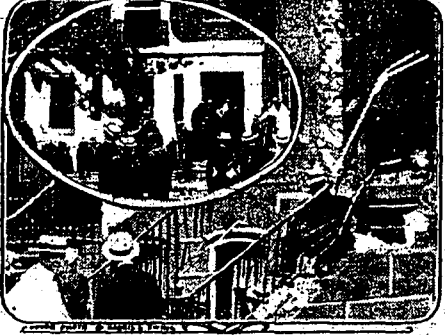

General Sends Message of Praise to Organization for War Work.

PARIS, (AP)—Acknowledgment of the service rendered to the soldiers by the Knights of Columbus has been sent by General Pershing to the headquarters of the organization here. William A. Murray and Edward L. Hearn, general Pershing stated:

"I wish to express through you to the Knights of Columbus my appreciation and that of the officers and men under my command for the valuable services rendered by your organization to the American expeditionary force."
"The active work of your organization in France began early in 1918, was well under way by the spring of that year, and has been increasing in scope ever since. Before the cessation of hostilities your workers were attached to many of the combat divisions and recreation huts had been opened in the principal American concentration centers. Numerous commanding officers have commended the devotion to duty of your personnel, and have testified to their personal and helpfulness among the troops whom they served."
"During the armistice, it has been particularly active in the promotion of athletics, a most valuable factor for health and contentment. It has also contributed to the success of the entertainment program by generous appropriations for musical instruments and equipment of soldier shows; has increased its general recreational activities, helping materially to maintain the morale of the army during the inevitable period of waiting to go home."

Bomb Throwers' Aim is to Kill

Bolshav bomb-throwers in the U. S. find their business very risky. Twenty-four hours after the systematic bomb explosions in the nine big cities, the long fingers of our law had rounded up some of the murderers and had information regarding others. These pictures show the Bolshavik's terror is aimed to kill. The big picture is the wrecked home of Judge C. C. Knott Jr. in New York City. The inset is the home of Attorney General Mitchell Palmer in Washington, D. C.

BULL RING NOW HOME OF OPERA

Carranza Tries to Abolish National Sport of Mexico and Furnish Substitute.

MEXICO CITY, (AP)—The Teatro El Toro, once one of the most pretentious of bull fight arenas, is now the home of grand opera as a result of President Carranza's decree that bull fights should cease. Interposing grand opera, dancers and concert artists have appeared in the arena and it is stated that "these various forms of amusement will be offered until some definite action is taken as to the future of bull fighting." It was in this arena that what is said to be one of the most remarkable spectacles in the history of the sport was staged. A bull El Bonito, known as one of the fiercest fighters, on being brought into the arena charged and killed three horses and injured six humans without being touched by the estoque of any matador. As the bull stood bowing defiance and with one apparently willing to attack him, Miguel Salo, a picador who was a spectator in one of the boxes leaped unarmed into the enclosure. In his outstretched hand he carried two lumps of sugar which he nonchalantly offered to the bull. The animal suddenly ceased its howling and in a few moments deekly licked the sugar from Salo's hand. The latter returned unharmed to his box amid the shrieks of the spectators.

GOLD OF BANDIT WILDLY SOUGHT

Died Leaving Treasure Buried in Mountains and Many Try to Get Hoard.

MEXICO CITY, (AP)—Search for the lost treasure of the bandit Chavez Garcia, who, before his sudden death from influenza last fall, was said to have hoisted large quantities of loot in the mountains of Michoacan, has almost been directed to the location of the treasure still a mystery. It was reported that Garcia buried much of his loot in a labyrinthine cave near Benjamín Michoacan, and the people of that village for years have maintained an enthusiastic but futile search for it. A similar search was made in the state of Durango where Tomas Hernandez was said to have hidden a large amount of stolen goods.

VETERANS GET RAIL RATE

Reduction of Fare Authorized to American Legion Delegates.

(Special to The News.)
POCATELLO, Idaho war veterans attending the American Legion convention at Boise where the state branch will be formed on June 25 and 26, will be given rail rate of one and one-third fare on the certificate plan, according to Thomas Henry Lawrence, Western R. Co. collector, who today received telegraphic advice from Eben E. McLeod, manager of the western passenger bureau of the railroad administration, that the rate for the return trip of veterans will be their straight full fare tickets to Boise on and after June 22. At Boise the return ticket will be sold at half-price. The return limit is fixed at June 30.

DANIELS WANTS INCREASED FUND

Secretary Vigorously Kicks Against Reduction of Aerial Appropriation.

WASHINGTON, (AP)—Appearing before the senate committee today to urge an increase in the appropriation for naval aviation from \$10,000,000 fixed by the House to \$35,000,000, Secretary Daniels vigorously opposed proposals that the air services of the army, navy, and postoffice department be consolidated under a cabinet officer.
"Such a course would be calamitous," he said. "Great Britain, France and even Italy already are ahead of us and we must take great strides forward to maintain our position. Moreover it is necessary for the defense of America that we have an efficient air service."

Returned Minister Praises Y. M. C. A.
Immense Work of Organization During War is Pointed Out at Length.
PITTSBURGH, (AP)—The service rendered by the Young Men's Christian association to American soldiers overseas is characterized as "one of the most wonderful things of the war" by Dr. Alexander, a former secretary and moderator of the Presbyterian general assembly. Dr. Alexander recently returned from France after serving one year as director of religious work both in American cantonments and with the army of occupation.
"In my opinion the money given to the Y. M. C. A., to carry on its work of the association was money well spent," Dr. Alexander said.
Dr. Alexander in his review of "Y" work, says that the organization provided enough baseball equipment for American soldiers overseas to supply both the National and American leagues for 100 years, one item alone being 2,250,000 baseballs.
High points of Dr. Alexander's report on the Y. M. C. A. established about 1700 shops in France, more than 3000 miles from the source of supplies; operated 50 large factories in France where biscuits, chocolate, jams and like articles were produced; conducted 30 hotels and restaurants where American soldiers and sailors were served at 50 per cent of the cost in civilian places; procured 2000 buns, large tents, tent buildings, dugouts and other centers as headquarters for the different units of the army and navy; conducted 920 entertainments. Sixty thousand picture shows were given, 4,000,000 feet of film being displayed, necessitating the use of 800 motion picture machines. Three hundred thousand soldiers have enjoyed recreation in centers established and financed by the "Y." Six hundred educators were sent overseas to establish the University in Khaki. Distributions include 5,000,000 books, 4,000,000 pieces of religious literature, 8000 magazines, 10,000,000 newspapers and 1,000,000 popular song books. Through its banking service the "Y" has enabled soldiers to make 325,000 remittances, aggregating more than \$20,000,000 to their families at home without charge.

KING NICOTINE HAS A FRIEND IN COURT

Pittsburgh Judge Denies Right to Interfere with Personal Habits of People.

PITTSBURGH, (AP)—Plans for a nation-wide anti-tobacco campaign intended to follow the actual promulgation of prohibition were given a setback here today when Judge James P. Carpenter handed down an opinion in common pleas court refusing to grant a charter to the No-Tobacco corporation. The petition was signed by prominent church people and ministers of this and other cities of the country.
Gives Reason
In his opinion Judge Carpenter said judicial sanction in the form of granting a charter was not intended to provide for incorporation of associations for the promulgation and propagation of theories as to effects and consequences of personal habits and immemorial customs, especially if not "contra bonos mores," and concerning consequences of which laymen of equal intelligence differs radically with doctors.
Judge Carpenter declared the organization was political in its aims as its petition stated its object "to secure by law prohibition of culture, sale and use of tobacco."
SOCIETY OF ACCOUNTANTS HOLDS ANNUAL MEETING
LONDON, (AP)—Announcement was made at the annual meeting of the Society of Incorporated Accountants and Auditors, the most important organization of its kind in England, that women are now admitted to the society on the same terms as men. NEW DIRECTORS TO TAKE ACTIVE CHARGE OF BANK

Lawrence Hansen Scheduled for Presidency; A. D. Pollock for Vice President and J. R. Taylor, Cashier.

Reorganization of the Bank of Hansen consequent upon the purchase by J. R. Taylor and A. D. Pollock of the controlling interest in the bank heretofore owned by M. B. Provost, is likely to result, it is stated by those familiar with the transaction, in the election of Judge Lawrence Hansen as president, Mr. Pollock as vice-president, and Mr. Taylor as cashier. Mr. Taylor came here recently from Cambridge, Illinois, where he was engaged in the mercantile business. Mr. Pollock has been a resident of Twin Falls county for several years and until recently a farmer in the vicinity of Berger on the Salmon river project. The Bank of Hansen is capitalized at \$25,000 and has a surplus of \$5,000.

KNOX RESOLUTION LIKELY TO BE ALLOWED TO DIE

Backers Expected to Cease Effort to Push It Through Upper House.

WASHINGTON, (AP)—There were growing indications today that opponents of the Knox resolution will abandon all efforts to force a test vote on the subject in the senate before the Germans act on the peace treaty. Hope of bringing a roll call on the Knox resolution has been abandoned, and some leaders thought it might be permitted to die without even coming formally before the senate floor. It was designed to give notice of opposition to accepting the League of Nations along with the peace terms, and in the general opinion it will cease to serve its purpose after Germany has accepted the treaty.

RELIEF TO BALTIC LAND URGED BY COL. GREEN

Chief of American Military Mission Makes Statement to Baltic Commission.

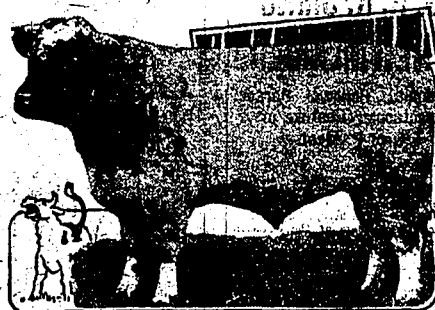

PARIS, (AP)—Colonel Warwick Green, chief of the American military mission to the Baltic states, who left Riga on June 13, told the Baltic commission today that the allies should immediately extend food relief to the Baltic states, and officials to insure the enforcement of the allied ultimatum to Germany. Green stated that the Baltic states were being overrun by the Germans and that the allies should immediately extend food relief to the Baltic states, and officials to insure the enforcement of the allied ultimatum to Germany. Sergeant Testifies That He Saw Large Quantity of Supplies Burned Purposely.

WASHINGTON, (AP)—Congressional investigation of war-time expenditures of the war department was opened today with Sgt. Charles B. Malcolm of Co. L, 23rd engineer, who had returned from France, testifying that he personally had seen large quantities of government property, both old and new, wantonly destroyed by the Germans. The only apparent explanation for burning this property, declared Malcolm, "was that the salvage officer did not care to sort the equipment."

HIS FAMILY SETS SCOTCH SHORTHORN RECORD

William Lookabaugh of Watonga, Oklahoma, sold this Scotch shorthorn bull to William Stewart of Paris, Ill., for \$27,250, record price for this breed. Thirty-eight had brought \$10,000 for an average of \$265.45 each, the previous American record by \$600. A calf less than a year old sold for \$1200. Three of this bull's sons and 12 daughters were in the sale.

SANTA CATALINA WAS ONCE CHEAP

Famous Island Was Purchased for a Horse Saddle and Bridle.

LOS ANGELES, (AP)—Santa Catalina island, off the coast of Southern California, recently purchased by William Wrigley, Jr., of Chicago for \$3,000,000 was once purchased for a horse saddle and bridle. The transaction took place at a litching post in a corral on the site of which now stands a building but a few blocks from the heart of Los Angeles business center.

NEW TANLAC PLANT IS NOW COMPLETED

Magnificent New Laboratory Has Daily Capacity of 36,000 Bottles.

What is said to be one of the largest synthetic laboratories in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, the well known medicine, which according to recent reports is now having the largest sale of any medicine of its kind in the world. The erection of the new plant was made necessary by the rapid growth of the business, as the older plant was found to be wholly inadequate to supply the over-increasing demand which at the present rate of sale will amount to more than five million bottles for the present year alone.

TRAINED HORSES ARE TO FURNISH SPIRITED BUCKS

Elks' Round-up Will Bring to Twin Falls Some of the Best Known Animals in Rough Riding World.

Thirty-five head of spirited horse flesh will be on hand July 3, 4 and 5 to take part in the Elks' Roundup on those three days, and among this number will be some of the famous horses which have taken part in Pendleton Roundups. These horses have been specially trained for this sort of work and they have forced more than one able cowboy to admit defeat.

A contract was placed with Dr. Helms, well known horse trainer and fancier of Medford, Oregon, for a crowd of bucking and racing horses and these horses are already here and training for the roundup.

"Yankee Red," the pride of Burley, will be one of the trained bucking horses seen here during the Roundup. Burley will be further represented in the relay races, as a string of horses is now being trained there.

Names as Indication
If the names of some of the bucking horses have anything to do with their ability, the broncho-busters are going to have a strenuous time at the "aboard." Just imagine what horse must be like when they earn the name of "Wildcat," "Warpath," "Speedball," "Thunderbolt," and "Dynamite." A little tamer in name but just as fire in disposition are "Sunfish Molly" and "Aragowan," the latter winner of second honors at Pendleton last year. "Foncho Villa" will be a number of years namesake of the Mexican bandit chief was once a member of that terrorist's army and was purchased by Manager Adams two years ago at Columbus, O., where he was proving himself a terrorist in his own right.

Last Sunday's game was played here because the Buhl grounds were not finished. The Southern Idaho league schedule provides as so for the following games: Paul at Burley, Filer at Rupert.

YOUTHS TO STAND TRIAL

Trio Accused of Theft of Car at Buhl Faces Grand Larceny Charge.

Irwin Adams and Mori Davis were brought here Tuesday from Salt Lake in custody of Sheriff A. N. Sprague to answer, with John W. Frank, arrested Saturday in Buhl, to a charge of grand larceny based on their alleged theft about June 2 of an automobile owned by William H. Norris of Buhl. The arrest and return of the two youths from Utah followed a court trial which had been made by Frank. The car, it is said, was taken by the trio and driven to the vicinity of Pocatello, where it was abandoned when it parted company with a wheel.

The People Who Make Their Mark are the People Who Own Their Homes

Think of the most substantial people in America today. Are they the migratory kind—the kind who live here today and elsewhere next year? No—decidedly not! They are *home owners*. They have made town and hamlets and cities. They are the backbone of the nation.

tain it with your property as security. This knowledge of financial security eliminates the worry and uncertainty of the future and gives that sense of safety and added strength that has made the people that made their mark.

Look at the home owners in your vicinity. They are looked up to and respected by the entire neighborhood. They bear the impress of esteem and approval which comes of being an established part of the community in which they live.

In building your own home you not only better yourself socially and financially, but you are doing a real duty to your wife and little ones. You are building for their future happiness and safety and protection—preparing a fireside for yourself and family for perhaps a lifetime. It is an established fact that eighty percent of the adult population of this country leave no estate whatever at death. This statement will hold no terror for you when you are living in your own home; you will be content knowing that, if through accident or death your earnings cease, your family will be safe beneath the shelter of their own roof.

There is no reason in the world why you can't also be a home owner! Do you know that it costs no more to build than to rent? It costs less to build in the long run of course. Practically the same amount of money you pay out each month in rent—and sometimes even less—will build you a home and pay for it *entirely*. Then why occupy a home when you might just as easily own that home?

Build now! There is nothing to be gained by waiting. Authorities concede, it is true, that building costs are trifle above normal but they also state that costs cannot be lower for some future time as yet unforeseen.

When you become a property holder—when you live in a *home of your own*—you gain a self-confidence and self-reliance unknown to the renter. You own something of *worth*—something which represents *actual money*—something which is *yours* and cannot be taken from you.

For any information you may desire on any subject pertaining to locations, plans, materials, furnishings, equipments, costs, information concerning architects, contractors, etc.—call at the Building Information Office. Not a thing to sell, but a great deal to give away.

And don't overlook the asset of financial security in home owning. In your own home you have the *finest investment in the world*. Should any unforeseen emergency demand money you can always ob-

If there were a better news service than the ASSOCIATED PRESS, The News would have it.

If for one moment the public verdict as to the superiority of ASSOCIATED PRESS news over all other forms of telegraphed news service, should seem to even waver, The News and the other Associated Press newspapers over the country would be the first to find it out.

There is but one ASSOCIATED PRESS, and The News is proud of its membership therein.

A newspaper does not merely "order" ASSOCIATED PRESS service—ASSOCIATED PRESS service is not sold to the highest bidder or indiscriminately to newspapers generally.

The membership of The Twin Falls News is one of the things which stamps The News with the hall-mark of success. The possession of Associated Press service may be regarded as a credit to The News and to the whole Twin Falls country.

WYOMING GOES DRY ON JULY 1

Strict Enforcement of Law Is Promised in Last Oasis of Mountain Country.

CHEYENNE, Wyo., (AP)—Wyoming, the oasis of this section of the west, will enter the ranks of prohibition states on July 1. Sale and manufacture of liquor within the state will cease on that date regardless of whether national prohibition is effective in the nation.

Under terms of the constitutional amendment adopted by the voters at last November's election, Wyoming would have gone dry January 1, 1920. When the legislature met last January, however, it was deemed advisable to put the state law into effect July 1, this year, at the same time that it appeared national war-time prohibition would be effective. A law was passed by the legislature authorizing this.

Prohibition Commissioner.
In addition to the power placed by state law in the hands of a state prohibition commissioner, there will be a law enforcement league, privately financed and privately operated to enforce the new law. This league already has begun the work of keeping Wyoming free of illegal manufacture and sale of liquor. The league will be chosen prohibition commissioner.

"Not only keeping but commercial traffic in liquor must cease in accordance with the wishes of the people," Mr. Crabbe said in a statement to the Associated Press. "The reform is the largest per capita dry majority of any state in the Union and they are going to see that the law will be enforced. The law as passed by the legislature is one of the most drastic of its kind."

Brewing Soft Drinks.
Saloons in Wyoming now pay a combined revenue of 500,000 for privilege of operating. In the face of the approaching "dry spell" brewers are turning to other lines. Most of them will manufacture "soft" drinks.

Data gathered in the three largest cities in the state—Sheridan, Casper and Cheyenne—show "virtually every barroom and saloon has been broken for by proprietors of candy shops, drink parlors, cafes, music stores and restaurants.

Saloon men are closing up their stocks as rapidly as possible. It is stated with authority that respectable citizens of the state who lay a moderate supply of liquor now for their own use and for July 1 will be arrested, but the authorities have announced there will be eternal and vigilant warfare waged on the man who seeks to buy now and sell later.

Final order for prohibition is at a standstill, the Reed law having stopped much of the importation into nearby states.

REVISED TREATY IS LENGTHENED BY FIVE PAGES

of the Prussian province of Pomerania in exchange for the coast strip of the same province returned to Germany, although the council of four planned for some time to make all Pomerania German on historic grounds.

Some of the changes in the treaty can be indicated only by reference to maps of the largest scale.

Terms of Referendum.
The provisions for a plebiscite in the Silesian regions show that the vote will be taken in virtually all of upper Silesia except small areas in the southwest and northern corners which were awarded unconditionally to Czechoslovakia and Poland respectively. The plebiscite must be held between the sixth and eighteenth months after the signature of the peace treaty on the same conditions as regards the retirement of German armies and officials and the disbandment of workmen's soviets, which were included in the Schleswig-Holstein and East Prussian plebiscite provisions are found in that affecting Silesia.

A significant article of the treaty prohibits political prosecutions by either the Polish or German governments for any activities during the plebiscite in Silesia.

GERMAN CABINET RESIGNS

(Continued from page one)
conference. It is believed to assure the signing of the peace treaty by Germany, as Philipp Scheidemann, the premier, was understood to be the chief opponent to acceptance of the revised peace terms. The early reports stated that Gustav Noske, the minister of defense, was forming a cabinet to succeed the outgoing government.

Previous advices had indicated that four members of the Scheidemann cabinet were insisting upon the signing of the treaty, and it is presumed that this caused the fall of the ministry.

Centrists for Treaty.
LONDON, (AP)—A Reuters dispatch from Weimar states that a meeting on Thursday of the Centrist members of the German national assembly decided by a four-fifths majority in favor of signing the treaty with reservations regarding responsibility for the war and the honor of the German nation.

The German national party, it is stated, is unanimously resolved against signing the treaty with reservations. The national democratic party voted against signing the allied terms while eight of the others voted that the treaty should be signed conditionally.

May Carry Down Ebert.
WEIMAR, (AP)—The German cabinet headed by Philipp Scheidemann, has resigned. It is believed here that the fall of the Scheidemann government may entail the fall also of President Ebert. The national assembly probably will take measures to select a successor to Herr Ebert.

French official information on the German cabinet crisis is to the effect as that received by the German delegation, namely that the Scheidemann cabinet has collapsed. The French advices carry the impression that the national assembly is favorable to the signing of the treaty.

Will Remain in Temporary.
WEIMAR, (AP)—The cabinet, although it has resigned, will continue in office temporarily until President Ebert has been able to form a new one.

COBLENZ, (AP)—Four members of the German cabinet favored acceptance of the revised peace terms, according to the correspondent of the Cologne Zeitung, telegraphing from Weimar. They are: Noske, Ebert, and Eduard David.

Associated Press Summary.
Growing belief that Germany would sign the peace treaty was strengthened today by news of the fall of the Scheidemann cabinet. The press reported that one of the most important German officials in his opposition to the treaty. Paris advices indicate that the cabinet formed by his successor will be one that will accept the allied terms. It is reported that Gustav Noske, minister of defense, will head the new ministry.

From the current German dispatches it would appear that the majority socialists, the independent socialists, and the centrists are in favor of signing the treaty, with the German national and democratic parties opposed to accepting the terms. As the first three organizations form an overwhelming majority in the national assembly, it appears the new cabinet will in effect receive a mandate to meet the demands of the content.

Orlando Still In.
Premier Orlando last night submitted the resignation of his cabinet after the signing of the peace treaty. The resignation of deputies on a motion by the premier for a secret session at which foreign policies would be discussed. The resignation has not been accepted by King Victor Emmanuel, however, and it may be that Signor Orlando will remain in office to carry on the work of the peace conference.

Should he quit, there would be a considerable delay in the settlement of the Adriatic problem. In his address before the chamber prior to the vote, the premier said that the situation at present was grave and that Italy was facing "the most acute phase of the immense crisis arising from the war."

Prepare to Enter Germany.
Meanwhile, the allied forces are prepared for Germany's refusal of the

IDAHO FRUIT HIT BY FROST

May Reports from Boise and Payette Show Considerable Damage Done.

POCATELLO — In Idaho peaches, cherries and apples were hard hit by the low May temperatures in both the Boise and Payette valleys. The frost is reported to have been particularly hard in the Payette valley, and much of the fruit crop is said to have been destroyed, according to the report of the Idaho reclamation service.

In Washington the apples and peaches suffered some damage in the Yakima valley. Winecrops were touched; but the grape crop sustained the greatest damage.

Oregon More Favorable.
In Oregon conditions are reported as very favorable, frost having done little if any damage. The weather has been very favorable to pollinization, and all tree fruits set heavily.

In California no frost injury is reported, but the fruit has been slightly damaged by insect pests, such as earwig and red spider.

In Nevada the fruit crop is reported to be in good condition.

Alfalfa Woeful Appar.

BABY VICTIM OF AUTO ACCIDENT

Five Year Old Evelin McDonald of Buhl Meets Death Under Car Wheels.

Struck down on East Main street, Buhl, at about noon Thursday, by an automobile driven by Lee Hopkins, 15, Evelin McDonald, daughter of J. R. McDonald, a carpenter, of Buhl, died about 20 minutes after the accident from injuries received consisting of a fracture of four ribs over the heart. Mrs. N. I. Jordan of Castleford, in whose family young Hopkins makes his home, was a passenger in the car.

The little girl had accompanied her sister down town and was returning home alone when the accident occurred. The driver said that he saw the child ahead of him on the crosswalk as he rounded a corner turning into Main street. He said that he brought his car to a stop, and then when the little girl stopped he started the machine again. The child started at the same moment and avoidance of the accident was impossible.

Coroner P. J. Grossman, after an investigation of the circumstances, decided that the convening of an inquest was unnecessary.

KEEP PLEDGES SAID PREMIER AND HE FELL

Admission of Orlando That He Desired to Keep Faith with Allies the Cause of his Overthrow by the Deputies.

ROME, (AP)—Remain faithful to our duties toward the allies," was a passage in the address of Premier Orlando today which turned the tide against the premier and resulted in the resignation of the Orlando cabinet. There was a great tumult and cries of "The allies have never been faithful to us. Why should we be faithful to them?"

Signor Orlando's fateful utterance so stirred the deputies that the remainder of his speech received but little attention.

Directed to Accept.
PARIS, (AP)—The Italian delegation to the peace conference has been directed from Rome to accept the proposition for the settlement of the Dalmatian controversy made by Premiers Clemenceau, Lloyd George and President Wilson, according to the Paris office of Reuters Limited.
