ABSENCE OF SPEECHES AND PARADE MAKES HIT

Quick Return to Civilian Life is Fondlest Wish of Men Who Served with Distinction in World War.

In the opinion of 30 men, former members of the Twin Falls unit and head of the second Idaho regiment, who arrived here last evening, no improvement could have been made in the reception accorded them when they set foot on the streets of Twin Falls after an absence of two years during which, as members of the 140th field artillery regiment, they spent four whole months under shell fire and continued in no small measure to the winning of the world war for humanity.

The elimination of a parade in which they were to take part and of addresses of welcome were features of the reception especially pleasing to the returning veterans. Learning of this elimination in the plans before separating from companies going to other towns and states, the Twin Falls men heard expressions of approval of the town giving a reception of the sort desired by all services men. The men expressed pleasure at retaining home.

Soldiers Make "Fade Away" Fired and duty after long, hard fight, the returning soldiers last night were brought to a stop before reaching the station. The band struck up a tune, and a hundred or more like assembled for their initiatory entrance later in the evening fall in line, but there were none of the returning service men to be seen in the line of march. They had been gathered in by relatives and close friends.

Some Are Detained The homesick was marred for some relatives when word was received that 11 of the men expected to arrive with the other members of the regiment had been detained at Camp Merritt through an order transferring men assigned to duty with brigade headquarters to a casual company instead of their homes. Among these were: Richard W. Lawrence, E. Carlson, Chester M. Boone, Harlan E. Bishart, Francis Young.

INTEREST CENTER IN THE PEACE SITUATION SHIFTS TO SENATE

WASHINGTON, (AP)—Signings of the peace treaty with Germany, today, formally bring to a close the world's greatest war. Although technical termination of the war will come to each nation only when the treaty is approved by the ratifying power of that nation, to all intents and purposes the conflict that began in August, 1914, ended when in the historic Hall of Mirrors the accredited peace commissioners affixed their signatures to the treaty. Likewise was brought to an end the armistice granted Germany last November 11.

Portions of the treaty with Austria, yet remain to be negotiated and negotiations with Turkey and Hungary still must be completed, but as to Germany, chief of the enemy powers, only the work of carrying out through the long series of years of the provisions of the treaty will remain. With the departure from Paris tonight of President Wilson preparatory to sailing tomorrow from Brest on the George Washington, the center of interest as regards the treaty shifts to the senate, ratification by which is necessary for formal termination of the war between this country and Germany. Due to opposition to the league of nations covenant—a part of the treaty—and to certain provisions of the treaty itself, the contest in the senate is expected to be long and bitter.

The signing of the treaty must be followed by formal ratification before commercial relations with Germany may be resumed, a spirit of rivalry among the entire allies to file notice of ratification with the French secretary in Paris may be expected to develop. The first nation to present ratification to Germany, therefore, probably will be among those whose forms of government admit of speedy action such as Great Britain, which may ratify the treaty through a mere order of the privy council.

WORLD NEWS EVENTS

CHARLESTON, S. C. (AP)—Nine hundred Germans who have been interned in this country and who have requested that they be returned home, left here today on the army transport Martha Washington. They will land at Rotterdam and proceed to Germany. Some eighteen hundred others are due to leave July 1 on the transport Princess Matolka.

BERLIN, (AP)—German parliamentary circles, according to the Cologne Gazette, have information that the government will shortly request an appropriation of a sum reported to be five billion marks to be devoted to forcing down food prices, the high level of which is believed to be at the bottom of the whole social unrest. On the other hand, according to the same sources, the government proposes to proceed uncompromisingly against all attempts to sabotage the nation's economic revival through strikes and political agitation.

SENATE AIMS TWO MORE BILLS AT ANARCHISTS

WASHINGTON, (AP)—Two more measures aimed at anarchists, bomb throwers and other enemies of law and order were included today by the senate in the country civil appropriation act. WILSON PLEADS FOR ACCEPTANCE OF THE TREATY

President Asks for Ratification of Terms and League of Nations Covenant Without Reservation or Change.

FURNISHED CHARTER FOR NEW ORDER OF AFFAIRS

WASHINGTON, (AP)—President Wilson today urged the American people on the occasion of the signing of the peace treaty made a plea for the acceptance of the treaty and the covenant of the league of nations without reservation or change. His message, given out here by Secretary Tumulty, said: "My fellow countrymen: The treaty which I have just signed, if it is ratified and accepted, will ensure execution of its terms, it will furnish the charter for a new order of affairs in the world. It is a severe treaty in its duties and penalties it imposes upon Germany, but it is severe only because great wrongs done by Germany are to be righted and repaired. It is not a treaty which would change or destroy anything that Germany can do; and she can regain her rightful standing in the world by the prompt and honorable fulfillment of its terms.

Liberates Great Peoples "And it is much more than a treaty of peace which it would establish. It liberates great peoples who have never before been able to find a way to liberty. It ends, once for all, the old and foolish order and foolish small groups of selfish men could use the power of great empires to serve their ambition for power and domination. It associates the free governments of the world in a permanent league in which they are pledged to use their united power to maintain peace by enforcing right and justice. It makes international law a reality supported by imperative sanctions.

It does away with the right of conquest and rejects the policy of annexation and substitutes a new order of world in a permanent league of nations which have not yet come to political consciousness and peoples who are ready for independence, but not yet quite prepared to dispose with protection and guidance—shall no longer be subjected to the domination and exploitation of a stronger nation, but shall be put under the friendly direction and helpful assistance of governments which undertake to be responsible to the opinion of mankind in the execution of their task by accepting the common interest of all nations. It recognizes the inalienable rights of nationality, the rights of minorities and the sanctity of religious beliefs and practices.

"It lays the basis for conventions which shall free the commercial intercourse of the world from unjust and vexatious restrictions and for every nation and for every individual, it will serve to cleanse the life of the world and facilitate its common action in beneficent service of every kind. It furnishes guarantee for the peace never given or even contemplated for."

Impressive Scene Attends Formal Termination of Gigantic Conflict with Setting in Historic Hall of Mirrors.

AERICAN REPRESENTATIVE SIGNS UNDER PROTEST; CHINESE ABSENT

VERSAILLES, (AP)—The treaty of peace with Germany was signed at three o'clock this afternoon in the historic Hall of Mirrors under the watchful eyes of forty-five stalwart American doughboys, French poilus and British Tommies, the real 'artisans of the peace' which has been slowly taking definite form during the long months of the Paris conference.

The ceremony of signing the treaty was shorter than expected as most of the 72 plenipotentiaries had to write their names only twice, once on the treaty and once on the protocol containing changes and interpretations to the present instrument. The convention covering the left bank of the Rhine and the treaties regarding the protection of minorities in Poland, signed only by the delegates of the great powers.

Chinese Are Absent The Chinese delegates shortly before the hour for the signing of the treaty, reiterated their refusal to sign on account of the Shantung question.

The Chinese plenipotentiaries did not sign and their names were written to the president of the conference stating that they would not be present but that they are awaiting instructions from their government.

African Signs Under Protest General Jan Christian Smuts, one of the delegates representing the Union of South Africa, signed the treaty under protest. He objected to certain territorial settlements, making lengthy statements.

Clemenceau First Arrival The peace treaty was deposited on the table in the Hall of Mirrors at 2:15 o'clock this afternoon by William Martin of the French foreign office. It was enclosed in a stamped leather case.

President Wilson entered the hall of ministers at 2:50 o'clock. All the delegates then were seated except the Chinese who had not arrived. The German delegates entered the hall at exactly 3 o'clock.

German Sign First The German delegation was the first to sign, did so at 3:13 o'clock. The American delegates came next, led by President Wilson. The British followed the Americans.

German Signers Follow Americans All the American delegation had finished signing 3:15, immediately after President Wilson.

Protocol Was Signed by All Those The order of signing after President Wilson was Lansing, White, House and Bliss.

Italian Delegates to Arrive Sunday

Makes Farewells to French Nation

PARIS, (AP)—President Wilson today on the eve of his departure from France made the following statement: "As I look back over the eventful months I have spent in France my memory is not of confidences and hard work alone but also of innumerable acts of generosity and friendship which have made me feel how genuine the sentiments of France are towards the people of America and how fortunate I have been to be the representative of our people in the midst of a nation which knows how to show us kindness with so much charm and so much open manifestation of what is in its heart."

"Deeply happy as I am at the prospect of joining my own countrymen again, I leave France with genuine regret, my deep sympathy for her people and belief in her future confirmed; my thought always may be with the association with her public men, conscious of more than one affectionate friendship formed, and profoundly grateful for unstinted hospitality and for countless kindness which have made me feel welcome and at home.

LONDON, (AP)—The anti-Bolsheviki leaders in the Ukraine have been pushing the campaign against the soviet forces, according to a telegram received by the Ukrainian mission here. In the north General Petura has advanced along the entire front and is within 20 miles of Kiev.

The forces under General Grigorief, after occupying Odessa, Kherson and other cities, are marching northward to establish a line with Petura and to begin an offensive along the Danube.

PROPOSES HOME RULE FOR IRISH IN MANIFESTO

Sir Horace Plunkett and Other Irishmen of Dominion League Point Out Disadvantages of Severance from Britain.

LONDON, (AP)—Establishment of self-government in Ireland within the British empire is proposed in a manifesto issued by the "Irish Dominion League" and signed by Sir Horace Plunkett and other Irishmen. The proposal, it is claimed, is a great advance over any previous proposed solution for the Irish question, except that the British connection is maintained. The amount of home rule would not differ in practice, it is said from an independent republic.

The manifesto points out the disadvantages to which a republic severed from the British empire would expose Irish products to possible hostile tariffs, and says that such a position might lose for Ireland her share in any imperial preference which might be established.

Let Parliament Know Irishmen are in the manifesto to unite and to let the British parliament and people know what they desire. The manifesto then outlines what the political status of Ireland would be under the new scheme. Ireland, it is declared, would not be represented at Westminster, but would be a member of the league, and a position of the imperial conference council or parliament which may be established. Ireland would have complete control of her internal government. The naval and military departments would remain as at present, but no body but the Irish parliament would have the power to impose compulsory service on Irishmen, although Ireland would agree to make contributions to the navy, military and diplomatic services.

ADVISES LIQUOR DEALERS TO CONTINUE IN BUSINESS

President of St. Louis Association Would Test Enforcement Law.

ST. LOUIS, (AP)—John P. Panna, president of the St. Louis Hotel and Liquor Dealers, announced he has advised the 600 members of the association to continue the sale of all liquors after July 1 in an effort to test the enforcement of war time prohibition. The decision of the United States court of appeals in New York, modifying the injunction against the sale of alcoholic beverages, he said, would have no effect on the stand of local saloonkeepers, as they expect only a few arrests will be made as a basis for test cases. Approximately 600 saloonkeepers have applied for new licenses to cover the last six months of the year. These applications, however, are being held conditional on the lifting of war time prohibition.

SPEAK FOR PRESIDENT ON ATTITUDE OF PACT

Administration Leaders Say Wilson Will Accept No Reservations.

WASHINGTON, (AP)—Suggestions that President Wilson might be willing to accept certain reservations in the ratification of the league of nations covenant, were advanced by senators opposing the league and promptly discounted by the president's supporters Thursday, when conferences were resumed by senators on the sides in the preparation for the ratification fight. Those who suggested such a development did not profess to have definite knowledge on the subject. They predicted that some changes along the lines laid down recently by Elihu Root were inevitable. Administration leaders declared the president and a majority in the senate would stand definitely for unreserved ratification.

HUN ACTS DON'T AUGUR WELL FOR WORLD SAFETY

French President at Banquet for Wilson Points Out Allies' Duty to Be Vigilant in Enforcing Terms.

PARIS, (AP)—The allies' duty to be vigilant in enforcing the peace terms, and a tribute to American participation in the war, were among subjects discussed by President Poincare at the dinner which he and Madame Poincare gave to President and Mrs. Wilson and delegates to the peace conference at the presidential palace here tonight. President Poincare's speech preceded that of President Wilson who made a formal farewell to France and the French people.

There were present diplomats and delegates from all countries attending the peace conference. President Wilson and President Poincare were seated at the head of the table with Mr. Wilson at the host's left and Mme. Poincare at President Wilson's right.

Want No Scrap of Paper.

President Poincare, referring to the treaty, said: "The treaties once signed must be wholly applied and persistence on our account will be no less indispensable to their execution. The delegates of the victorious countries have not met in order to relax in their hands nothing but a simple piece of paper.

"We want, all of us, as you do, Mr. President, that this peace be not vain words; that it be a fugitive hope and that it will not be a passing flash of joy appearing for one evening in blood-stained Europe. We want, as you do, that the society of nations which will become a beneficent reality. We want as you do, that all the clauses to which our enemies are going to subscribe be loyally observed.

"The disposition shown by violations in advance of a treaty that one is going to undertake to respect, makes it our duty to watch carefully to see that criminal bands do not rekindle sooner or later the conflagration which we have smothered.

"German ships sunk by their crews, French flags burned, and demonstrations before the new Polish frontiers are apt signs of repentance.

Must Remain United.

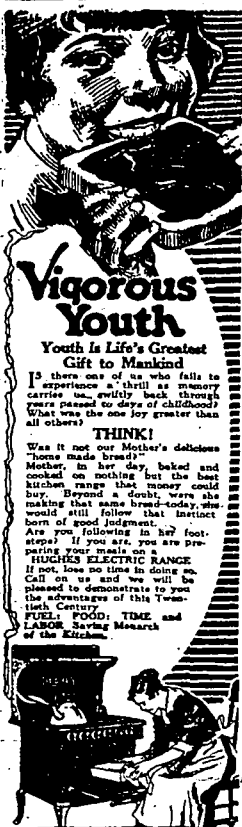

"We must remain together, firmly united, to gather the fruits of the victory that we obtained together."

President Poincare concluded by raising his glass and proposing in honor of President and Mrs. Wilson a toast to the immortality of Franco-American friendships and the indestructible union of the allied and associated powers.

Stockyards Lure Colorado's Hero

Pvt. Jesse Funk Bearing Many Medals Wants Only to Return to Old Job.

COLORADO SPRINGS, Colo., (AP)—Pvt. Jesse Funk of Calhan, Colorado's greatest war hero, is not going into Woodville. Instead, he intends to rest awhile on the Funk ranch and then probably take a job at the Denver stock yards, because he is first of all a cat-hunter. Funk divulged this information last week while he was in Colorado Springs with his father and mother, Mr. and Mrs. Martin Funk.

Funk returned from the service last week. General Pershing has numbered Funk among the 23 greatest heroes of the war. On his breast Funk wears the Congressional medal of honor, the French Croix de Guerre and the distinguished service cross. Since his return, the roads to the Funk ranch have been kept dusty with the visits from congratulatory neighbors who have known Jesse since he first rode a horse.

"What I did any man would do who had the chance. I was lucky to get the chance," he says.

Funk got his decoration for saving the life of a wounded lieutenant under fire. The British and Belgian governments also have awarded honors to him but the medals have not arrived.

"I've had a dickens of a time over these medals," Funk said when asked how it felt to be a hero. "It takes a have to stand up under the welcome staff. I'd rather have those machine gunners shooting at me than to face all these welcomes, newspapermen, photographers and so on."

EUROPEAN SERVICE OFFER IS WITHDRAWN

Improved Conditions Cause of Change of Policy on Army Enlistments.

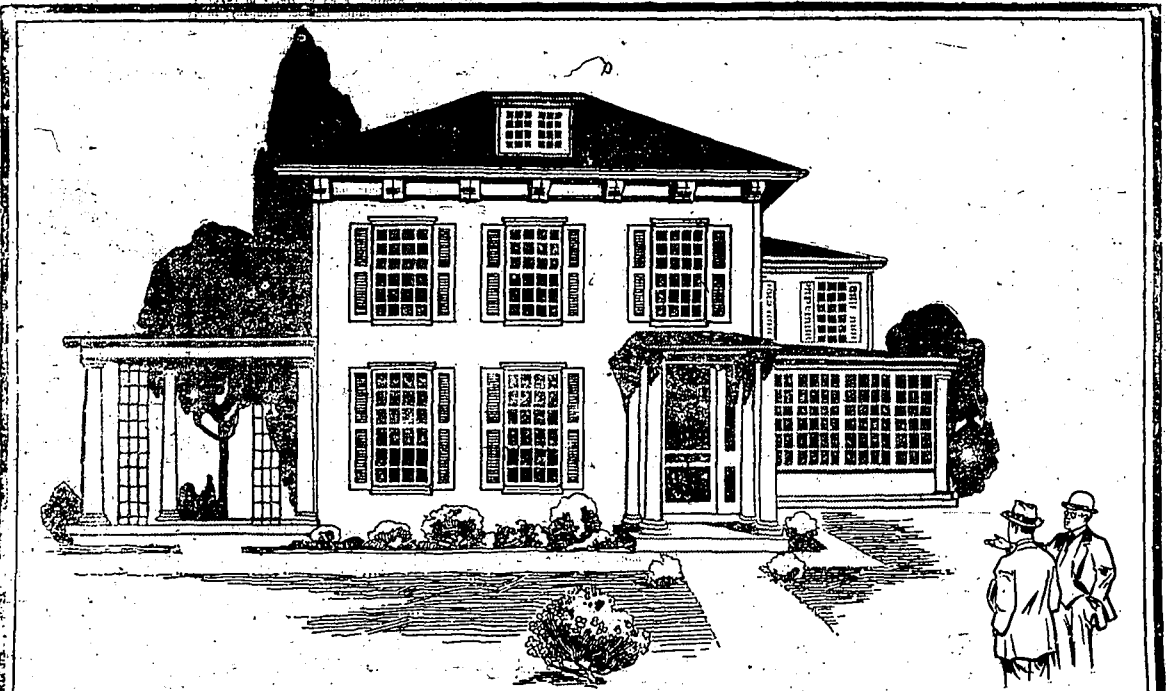

WASHINGTON, (AP)—Offer of service in Europe to recruits obtained under volunteer enlistment will be withdrawn under orders prepared by the war department. The policy of sending regular officers overseas to relieve those in the American expeditionary forces also will be abandoned.

Things Look Better. This action was said today to have

resulted from the improved situation in Europe growing out of the imminent signing of the peace treaty. In the order officers here forecast an early return of all troops now abroad excepting the comparatively small American contribution to the army of occupation.

On Valuing Man. We commend a horse for his strength and sureness of foot, and not for his rich caparisons; a greyhound for his wondrous speed, not for his fine collar; a hawk for her wing, not for her jesses and bells. A Little Thought, A Little Time, A Little Money Will Make an Old House Modern

Are you aware of the fact that a little thought and a little money can turn an old-fashioned, inconvenient, uncomfortable house into a modern, attractive home? It is not necessary to live in a house which does not entirely suit your wishes and needs, when remodeling will make it right.

For a long time you've known that your family had outgrown their home. That question of sleeping accommodations, which has grown to be a real problem, could be easily solved at small cost by adding one or two bedrooms—above a porch, for instance, or by adding an "L".

That little side porch, which is used so seldom could be converted into an ideal sun parlor with a sleeping porch above. Today, more than ever before, the healthful influences of sunshine and air are being recognized. Physicians recommend the "outdoors" as a cure for many ills.

Consider the improvements that can be made in the kitchen. How comfortable it would be to have a little outside kitchen for summer use. It would mean very little expense to close in one end of the back porch for this purpose and it would keep the house much more comfortable on hot days, by eliminating the heat from the inside kitchen.

And there's that dark and gloomy hall corner! Even in broad daylight you nearly always stumble in that hall. By cutting a window through the wall and

perhaps building a little seat beneath it, you'll have a bright, cozy spot which will be the most pleasant, attractive corner in the house.

When you realize the absolute necessity of that hall window you'll probably think of many other places where windows are really needed,—where they would add light and attractiveness.

Just stop a few minutes and look over your home. Perhaps you'll discover the front porch would be much pleasanter if it were enlarged. Maybe there's a walk needed here or a few steps there. Perhaps a roof should be placed above the back porch. The yard would be safer for the kiddies if a fence were built around it. Make a little tour of investigation—you'll find many places where a little thought and money will effect a wonderful improvement in your home.

Make those improvements now. Nothing is to be gained by waiting. Authorities concede, it is true, that the cost of materials is a little higher today than in the past, but they also state that costs will not be lower for some time in the future that cannot yet be foreseen.

Liquor interests throughout the country profess to be greatly encouraged by the action of a common pleas court declaring that a referendum on the action of the Ohio state legislature in ratifying the eighteenth amendment is legal. The wet interests accept the decision as being of national importance.

So little encouragement is coming the way of the wet faction these days that it seems almost cruel to attempt to be grudge devotees of the little brown jug of the medium of joy they may be able to derive from the decision of the coming place court.

To reassure the dries, however, it is germane to state that the case is to be carried to the supreme court. The common pleas court mentioned held that the people are, in reality a sort of third estate in a referendum state. It is on this point that the wets hope to call a referendum in the fourteen amendment states.

Attorneys for the dries do not believe that the supreme tribunal will support the contention. But suppose it does? Will anyone believe that the doctored brewers can muster a sufficient vote in ten referendum states to reverse the legislatures of these states? The majority of these referendum states are in the west, where the great American saloon in time past has been a ruthless and reckless troublemaker. Many of the states have not only voted dry but have absolutely defeated the brewers' proposition for exemption.

It looks as though the hope of the liquor interests for nullification of the eighteenth amendment through the referendum is one of a most forlorn character.

UP TO GERMANY. With all possibility of Germany carrying out the threat not to sign the peace treaty past and gone it rests upon the German people what their future and the future of their country shall be. Germany, through all the bluff and bluster of her plenipotentiaries and military-minded representatives, has never been in position to absolutely reject peace terms, no matter how harsh they might appear to a people so long dictatorial and domineering and even

crucial to its subject countries. The signature is virtually forced by an ultimatum, that ultimatum meaning a lot more to Germany's future than the seeming harshness of the terms of peace.

The German people must decide for themselves what their future shall be; whether better or worse. They can have a better future by proving themselves good losers. Mankind is weary of war and sick of hatred. It longs intensely for peace all over the world, and a new era of international good will. If the German people are sensible they will guide their craft into tranquil waters through a strict adherence to humanitarian and altruistic laws; they will immediately adopt and cling to a more democratic policy in their national government, and a more successful plan toward those who, of necessity, must submit to the rule of the once greatest of all military nations. If the German people would live in harmony with the world they will not only accept in the strictest of good faith the terms of the treaty of peace they must sign, but will set out resolutely in good faith and spirit to win back the respect they have forfeited, and the shattered confidence of civilization.

There can be no doubt that Europe wants Germany as a good neighbor. Those nations who are pleased to term her "arch enemies," England, France and Italy are essentially nations whose basic principles are humanitarian and altruistic, forgiving if, perhaps, not altogether forgetting. Europe and the United States would love rather have a decent Germany in the league of nations, than a bad Germany out of it. But it rests with Germany to win back a place in decent society. This cannot be accomplished on one day or even in a year; but Germany can immediately begin to show good faith and a better disposition. Good behavior will carry Germany a long way in the course of five or ten years.

TERMS IN PENITENTIARY ORDERED FOR TWO-YOUTHS

Auto Thieves Receive Sentences but Servitude Is Suspended During Good Behavior. This morning in the district court John Wesley Franz, aged 18; Irwin Adams, aged 20, and Merwin Davis, aged 16, were presented to receive sentence on a charge of grand larceny. The lads upon arraignment several days ago, admitted guilt. Franz and Adams were sentenced to serve an indeterminate term in the penitentiary, while Davis was ordered committed to the industrial training school. All sentences, however, were suspended during good

behavior. Sentence was pronounced by Judge William A. Babcock.

The three lads, residents of Salt Lake City, this month stole an automobile belonging to J. F. Norris, of Twin Falls, and after using it for their own purpose until it could no longer be used, left the machine by a roadside out in the country.

Reviewing the actions preferred against the youths the court explained that upon investigation he found Franz to have been convicted in a juvenile court in Salt Lake of petty larceny, for which he was ordered committed to the state house of correction. This sentence, it appeared from the evidence, had been suspended. All three lads left Twin Falls today for Salt Lake in care of relatives. They will be required to make regular reports to Salt Lake county probation officers.

In the district court judgment decrees have been ordered aggranted as follows: Against Fred E. Hertz in favor of the Outrander Lumber company, in the sum of \$628.95; against Will McDonald and Mrs. Will McDonald in favor of Asher D. Wilson, in the sum of \$30.15 and costs amounting to \$10.40.

A default divorce decree has been ordered for Boy W. Gager against Hattie May Gager. The complaint charged cruelty and an unrepentable temper. Divorce proceedings were filed in the district court this morning by Robert L. Reed against Fannie Reed, the principal accusations being desertion and cruelty. The bill of particulars recites that the pair married in Ellenaspig, Ark., May 2, 1909, and that six months ago the wife deserted her husband and is now a resident of Seattle.

WALTERS LOSES HORSE, BUHL RESIDENT ACCUSED

J. B. Rice Said to Have Taken Animal from Stockyards and Offered It for Sale

Accused by O. J. Walters, a stock buyer of Buhl, of grand larceny, J. B. Rice, a resident of Buhl, was arrested yesterday morning and arraigned late yesterday afternoon before Judge O. P. Duvall. Defendant entered a plea of not guilty and was ordered to appear for preliminary examination at 10 o'clock next Wednesday morning.

According to information now in possession of the county authorities Rice is accused of stealing a horse from a herd belonging to Walters, and impounded in the stockyards at Buhl. It is alleged that Rice attempted to sell the animal to several persons in and about Buhl.

C. E. Rudy, a livoryman of Buhl, was placed under arrest yesterday on charge of having obtained money by the fraudulent sale of two horses, in which property, it is claimed, he held no legal right. The horses, it is alleged, were picked up as strays, and sold to J. T. Berry for \$25. Later the true owner, C. E. Rudy, and the claim to the horses, provoking the suit against Rudy.

Claiming that there is due them for goods delivered on contract the sum of \$300.43 Gerseth brothers, a mercantile firm of Buhl, has filed suit for judgment in the local court against B. E. Garrison, named as purchaser of the goods. Interest is asked from August 24, 1918.

Person entered in the district court by the Buhl Auto company for a new trial in the action brought by J. D. Moyer and wife of Buhl, was yesterday denied by Judge W. A. Babcock. The motion was recently brought to trial in the district court and judgment rendered the plaintiffs for \$1100, amount claimed as damages on the purchase of an automobile.

LITTLE GIRL WILL PERFORM HORSEBACK FEATS OF DARING

Daisy Parsons, Nine-years-old, Will be one of the Stellar Attractions Among Riders at Coming Rodeo; Child Has a Program of Rare Stunts That Thrill; Parade Promises to Be Stirring Pageant.

Illustration shows Miss Daisy Parsons, 9 years old, performing a thrilling feat on horseback. Miss Parsons is one of the younger riders who will appear in stunts extraordinary during the coming Rodeo.

Hazardous, sensational and thrilling are the feature performances of Miss Daisy Parsons, juvenile daughter of Mr. and Mrs. J. A. Parsons of Walla Walla. This young lady, only just past her ninth birthday, is considered by experts one of the marvels of the country in horsemanship. Her progress consists of all manner of daring feats on gallopers from the standing up stunt shown in the accompanying illustration, to a "back throw" holding herself secure to her mount by means of one foot caught doctoxiously in a stirrup.

Is Riding Prodigy.

Miss Parsons has been riding several years attending all the roundups and wild west demonstrations in the western and northern country with her parents, who, themselves, are famous riders and horse-breakers. Both Mr. and Mrs. Parsons will be entrants in competitive contests at the Rodeo next week. They and their daughter will be seen every afternoon at Roundup park and each night at the Stockade in feature acts.

Intense interest is being manifested in the events of July 2, 3 and 4, as is made evident in the immense number of letters of inquiry received by each post at the headquarters of Roundup Secretary Merla G. Batley. These inquiries come from far and near, and all tell of expectancy with regard to attending the celebration.

Parade Excites Enthusiasm.

From home quarters great enthusiasm is being shown in the coming Independence day parade, an event recently announced by the parade committee. Promise is given that some of the most elaborate, unique and beautiful floats this section of the country has ever seen, will be in the line of march that day. From present indications it is assumed there will be not less than 5000 persons in the procession. The parade is open to all who care to participate, and cash prizes will be bestowed upon those making the best personal, company, fraternal or float entry. A company of Umatilla Indians reached town last evening to participate in the parade and other events which are part of

court that the boy be paroled, to report at stated intervals to John E. Ault, probation officer. Mr. Ault has provided work for Smith.

Fines in Municipal Court—J. L. Hodges and Mrs. McPherson were yesterday arraigned in the municipal court on charges preferred by the police department alleging violation of the ordinance providing a safety zone in the vicinity of all fire plugs. Each admitted guilt and paid fines of \$2.50. T. O. Boyd, Jr., and Mrs. A. L. Skinner were arraigned on charges of driving over a fire hose. The fines in each case was \$10, which was liquidated.

Seeks to Quiet Title—C. H. Browne has entered an action in the district court seeking to quiet title to lots three and four, block 100, Twin Falls township, Twin Falls, Idaho, naming as defendants James L. Pangle, Elizabeth Pangle Murphy, and "the unknown claimants and creditors." In the complaint the plaintiff asks that the defendants be required to set forth their individual claims so that each may be determined by decree of the court.

HOG SHORTAGE IN THE STATE CAUSES WORRY

Federal Officials Will Assist Farmers in Finding Substitute for Wheat as Feed.

That there exists in Idaho a serious shortage of hogs this year is the statement made by G. D. Bishop, in charge of the local branch of the federal bureau of animal industry.

The condition arises out of the fact that last year farmers stripped their herds of swine to a minimum because of lack of feed.

Another scheme in mind of the authorities interested in the growing of hogs as one of the state's prime industries, is the raising of corn in large acreage for feed.

PREDICTS VICTORY FOR JESS IN FIVE ROUNDS

Chief Sparring Partner of Champion Foresees Quick Knockout.
TOLEDO, O., (P)—Victory for Jess Willard with a knockout within five rounds in his heavyweight championship bout with Jack Dempsey...

RITS OF SPORT

Not all of the country is "dry." Yesterday a half dozen major league ball games were postponed on account of too much moisture at the ball parks.
Eddie Cicotte, White Sox star twirler, who has been hitting a steady winning pace since the season opened...

Big Jim Bagby, for years the premier pitcher of the Cleveland club in the American league, just can't seem to get going this year at all.

As the time for the proposed fight for the heavy weight championship of the world nears, and reports from the camp tell of an extraordinarily excellent condition of the present champion...

Apparently the bullish reports telling of Willard's rare ability to "knock 'em cold in a punch" is having effect upon the fight fans. It is expected now that the odds will be nearly even when the battle starts.

From the Dempsey camp a statement comes to the effect that Jess will pursue his usual policy in conducting his fight. That is to say the challenger will come out of his corner fighting. Look for the tipping one's hand for the benefit of an opponent.

SAFE DOOR MAY YIELD CLUE TO MARKET THIEF

Expert from Detective Agency Takes Pictures of Butcher Strongbox Carriers.

In an effort to obtain a definite clue which will lead to the arrest of persons guilty of the safe robbery at the Independent Meat market last Monday, District Prosecutor Frank L. Stephen has resorted to extreme measures and through these confidentially expects to obtain the results desired.

Besides impressing into service experts in the business of tracking criminals Mr. Stephen has arranged for a fingerprint expert and expects shortly to be in possession of a clear impression of the finger marks of the persons who committed the theft.

Yesterday evening representatives of the Bevelers International Secret Service agency, of Poetello, reached Twin Falls at the request of the district prosecutor. With a camera especially adapted to the purpose of photographing finger prints films were made of the entire front section of the safe at the meat market. These films are to be developed and copies of the print sent to the sheriff and prosecutor here for purposes of identification.

Naturally there will be finger impressions developed of persons having a legal right to use the safe. It is confidently expected that other impressions will be obtained that will have direct bearing upon the identity of the person who plundered the market strong box. The camera prints are expected in Twin Falls about next Monday.

In the present moment no clue followed by the authorities has been tangible results, and no suspect has yet been placed under arrest. The market officials have stopped the cashing of checks taken amounting to the sum of something more than \$1,000. The loot included slightly more than \$500 in bills. Little hope of recovering this, or any part of it is entertained.

ELKS TAKE BIG CLASS INTO FRATERNAL FOLD

One Hundred and Fifty Novitiates Now Braided and Equipped with Horns.

Twin Falls lodge, No. 1183, B. P. O. E., has today about 150 members more than were numbered on the lodge roster yesterday. That number of novitiates comprised a class initiated into Elkdom at a ceremonial conducted last night in the Elks' temple.

Among those taken in by the Elks last night were several returning service men, who reached Twin Falls yesterday after the major or coronation at Camp D. A. Russell, Wyoming. They are:

Charles W. Austin, Lynn C. Bagshaw, Ralph V. Elliott, C. A. Elliott, Herbert G. Lautens, Eugene G. Trauder, John H. Sinema, James B. Wynan, Arthur E. Wenzel, Oris Cryder.

The initiatory observances were preceded by a banquet served by the local Elks ladies society in the guild hall of the Church of Ascension Episcopal parish. For this affair the capacity of the hall was crowded to the limit, the guests being besides members of the class and local Elks, scores of members of the order from adjacent towns. Throughout the occasion was one of the most memorable and important engaged in by the Twin Falls lodge.

WILSON PLEADS FOR ACCEPTANCE OF TREATY

(Continued on page eight)

The fair treatment of all who labor at the daily tasks of the world.

Ground for Satisfaction "It is for this reason that I have spoken of it as a great charter for a new order of affairs. There is ground here for deep satisfaction, universal reassurance and confident hope."

(Signed) "Woodrow Wilson."

Congress Hears Message of President.

Official Washington took the signing of the peace treaty quietly. In the senate President Wilson's address to the American people was read by Senator Hitchcock, but it passed without comment. The marine band serenading congress on the capitol plaza was the only sign of celebration.

Although there was considerable comment on the president's address in private talk among senators, few made any expression for publication. Senator Knox, republican, Pennsylvania, and a former secretary of state, who opposed the league covenant declined to talk.

Today's Markets

Grain and Provisions

CHICAGO, (AP)—Actual signing of the peace treaty failed outright today to influence the corn market. Instead, quiet trading was ruled by the necessity of month-end liquidation on the part of the holders of July contracts. This liquidation had a depressing effect on the market as a whole, the treaty signing having been anticipated long beforehand. Opening prices which varied from 1-8 off to 1-2c advance, with September \$1.75 3-4 to 1.75 7-8 and December \$1.53 1-2 to 1.53 3-4, were followed by a slight general upturn and thereby a setback all around to well below yesterday's finish.

In the last part of the session, rallies took place as a result of covering by shorts. The corn market closed unsettled, 5-8c net lower to 3-8c advance, with September \$1.75 5-8 to 1.75 3-4 and December \$1.53 2-8 to 1.53 3-4.

Oats were dull and weak with corn. After opening unchanged to 1-4c lower, including September at 88 7-8 to 89, the vault 50c higher; stockers and feeders market had had a little, and then turned sharply down grade.

Provisions held steady. Higher quotations on hogs together with assertions that export trade would be unchanged were against any decline.

KANSAS CITY, (AP)—Corn, July \$1.78 1-2; September \$1.70 1-4; December \$1.74 1-8.

Butter, eggs and poultry unchanged. Live Stock

OMAHA, (AP)—U. S. bureau of markets—Hog receipts 8,500; 20@35c higher; top \$20.00; bulk \$20.25@20.70; heavy \$20.50@20.75; light weight \$20@20.00.

Cattle 1300; compared with week ago, beef steers 50@75c lower. Butcher cattle 30@50c lower. Cannera steady; steady.

Sheep receipts 1,000; compared with week ago, lambs and yearlings \$1@1.25 lower; sheep \$1.50@2 lower.

CHICAGO, (AP)—Hog receipts 6,000; mostly 15 to 25c higher; bulk \$20.75@21.50; heavy \$21@21.50.

Cattle receipts 1,000; compared with a week ago, good and choice weight steers 25 to 50c lower; yearlings and medium grade light weights 25 to 40c higher; good and choice heifers strong to 25c higher; other she-stock mostly 25 to 50c lower; bulls \$1 lower; stockers and feeders steady to strong.

Sheep receipts 7,000; all direct to packers; compared with a week ago, lambs generally steady; wethers and yearlings mostly 25c lower; ewes generally steady.

Terms May Hasten Hun Ratification

PARIS, (AP)—In the completed peace treaty signed today at Versailles, the newspapers say, were certain stipulations which, it was hoped would hasten ratification of the treaty by the German national assembly.

The Journal says that the allies stipulated that the liberation of German prisoners would be dependent upon ratification of the treaty by the German assembly.

CLEMENCEAU CALLS ON THE GREAT BRITISH

(Continued from page one)

who signed the treaty. The Blaise arrangement was signed by the Germans, Americans, Belgians, British and the French plenipotentiaries.

All of the plenipotentiaries having signed the treaty, M. Clemenceau declared the session closed.

As Premier Clemenceau, President Wilson and Premier Lloyd George emerged from the palace, the great crowd gathered outside, swept aside the cordon of troops, cheering madly.

The three statesmen were swept along by the surging thousands. Many soldiers broke ranks and joined in the demonstration, while gas balloons and low flying airplanes seemed to fill the air.

The German delegates left the hall first, the allied representatives remaining in their seats. Those who had assembled in the hall then went to the terrace to see the fountains playing.

Premiers Clemenceau and Lloyd George and President Wilson were photographed together on the terrace. After the demonstration the three allied leaders left Versailles in the same automobile, the crowds following and cheering.
