WILSON TAKES UP ROUTINE OF OFFICIAL JOB

Spends Forenoon in Conference with Acting Secretary of State Polk and Secretary of Navy Daniels.

HOLDS SELF READY TO DISCUSS PEACE TREATY

Maps Out Extensive Program for Dealing with Accumulated Business Before Setting Out on Tour.

WASHINGTON, (AP)—President Wilson made an unexpected call on Acting Secretary Polk today at the state department.

The president remained in earnest conversation with Mr. Polk for more than an hour.

After leaving Mr. Polk's office, the president walked down the corridor to the office of Secretary Daniels.

After remaining closeted with Secretary Daniels for half an hour, Mr. Wilson returned to the White House.

President Wilson still had before him today appropriation bills passed recently by congress and it seemed doubtful whether any of them would be enacted in this week.

No appointments for Mr. Wilson had been made at the White House this forenoon.

The president's itinerary for his tour of the country remained uncompleted today.

The president's itinerary for his tour of the country remained uncompleted today.

The president has mapped out a definite program for dealing with the matters before him and it was said this would be rigidly adhered to until he started on his speaking tour.

NEBRASKA WHEAT CROP IS REDUCED IN REPORT

Decrease of 25 Per Cent From First Estimate Attributed to Premature Ripening and Heat.

LINCOLN, Neb., (AP)—Nebraska's wheat crop will not meet expectations on yield and quality, according to the first report made public today.

Winter wheat, a few days before the harvest had the appearance of a record breaking crop but the latest reports indicate that there will be 25 per cent less than was expected.

WASHINGTON, (AP)—Germany will need immediately from the United States, owing to department of commerce officials, large quantities of cotton, copper, kerosene oil, and increased amounts of foodstuffs and wearing apparel.

ARMY SURPLUS COUNT DELAYED THREE MONTHS

General March Tells Investigating Committee Accounting Could Have Been Made in February Instead of May.

WASHINGTON, (AP)—General March, chief of staff of the army, told a sub-committee on war expenditures today that the war department's declaration of surplus food stocks could have been made in February instead of May.

In a statement filed by General March of the surplus of food stocks was given as follows: Corn beef \$24,000,000; Bacon \$25,000,000; Beef \$20,000,000; Fresh frozen beef and poultry \$20,000,000; Corn beef hash \$10,000,000; Canned vegetables \$23,000,000; Overalls, adding that in his opinion, Chairman Braxton wanted to know who was responsible for delay in declaring the surplus without which stock counts could not be put on the market.

It was a fair criticism, General March replied, that the substance branch of the quartermaster's corps had been overcautious, adding that in his opinion, a surplus report could have been prepared in February.

Officers of the British steamship Triumph, which arrived here today from London reported sighting the R-34 when a day out from this port.

R-34 TRAVELS 1300 MILES IN FIRST DAY OUT

LONDON, (AP)—The dirigible R-34, speeding eastward across the Atlantic at 12:10 o'clock, Greenwich time, today (8:10 a. m. New York time), had reached 48 degrees north latitude 30 degrees 30 minutes west longitude, approximately 1500 miles from her starting point.

In the first 24 hours of return flight across the Atlantic from Minnoka, the dirigible R-34 covered 1300 miles, according to advices received here.

NEW YORK, (AP)—The R-34 was estimated to be more than half way across the Atlantic at 9 a. m. today, although official advices regarding the dirigible's position were lacking.

GERMAN TRADE WITH AMERICA TO START NOW

Dyes, Chemicals and Potash to Be Excepted in Blanket Licenses Issued, Acting Secretary of State Polk Advises.

ACTION AWAITS ONLY CONFERENCE DECISION

Commercial Intercourse to Be Free Except for Limit of Credits Tontons May Be Able to Establish.

WASHINGTON, (AP)—Trade between the United States and Germany will be resumed immediately, Acting Secretary Polk of the state department announced today.

Secretary Polk made it clear that resumption of trade relations with Germany did not abrogate the trading with the enemy act nor was it to be taken that the state war powers would be separated.

Mr. Polk said blanket licenses would be issued, but that dyes, chemicals and potash would be excepted.

Board Completes Arrangements—All arrangements for removing restrictions on trading with Germany have been completed so far as the American government is concerned.

Virtual Trade Freedom—Mr. McCormick who returned from Paris with President Wilson, said there would be virtually complete freedom of trade, subject to the limit of credits which Germany might be able to establish.

TEXAS NEGROES OPEN FIRE ON WHITE MEN WOUNDING FOUR

Injured Men Are Members of Group Searching Colored Section of City for School Teacher Accused of Defaming Young Woman

MORE THAN 100 SHOTS ARE FIRED IN FIGHT; WHITES BURN 5 HOUSES

LONGVIEW, Texas, (AP)—Four white men were wounded early today when negroes fired upon a group of whites they had waylaid in the negro section, where the whites had gone in search of a negro school teacher, accused of writing the publication in a negro newspaper of statements derogatory to a young woman of this county.

Negroes Hide Casualties.—There were from 12 to 15 white men in the party, and they returned the fire so long as their ammunition lasted, after which they withdrew. It was estimated that from 50 to 75 negroes were in the attacking party.

Search Continues.—Search for two negro ringleaders continued today, but otherwise the city was quiet. It was said the authorities expected no further difficulty in handling the situation.

Governor Considers Sending Guard.—AUSTIN, Texas, (AP)—One negro was killed and several white men were wounded in a clash between whites and negroes at Longview, Texas, today, according to messages received by Gov. W. P. Hobby.

More than a hundred shots were fired during the fight, the message to the governor said and it was reported that white residents were burning the negro houses.

Both sides expected to hold informal preliminary conferences today, preparatory to the initial meeting Monday of the foreign relations committee.

Rotten, Low, Futile Actress Denominates the Drama in London

Miss Lena Ashwell Argues for Apprehension of Neglected Power.

LONDON (Correspondence of the Associated Press.)—The low, rotten, futile, Miss Lena Ashwell, one of the best known English actresses has characterized the drama of today as represented on London's stages...

She recalled that during the war Germany sent Shakespearean comedies to England, while English dramatists were represented in Paris by a revue. At the time of greatest stress none of the men from overseas who came to London had the opportunity of seeing any of the plays which represent England's national ideal...

The point of view of the church was expressed by the Rev. H. R. Le Shopford, who declared it to be "quite monstrous that the Christian church does not possess its own theatre in London, where it might amplify the message it gives from the pulpit."

Calling of his experiences with Shakespearean plays produced in the East End, he said: "The West End does not realize how the poorer people love good plays, and how they are benefited by them more than I. It does not shock him any more than it shocks me. It merely insults his intelligence."

TROOPS LEAVING BANDITS' SIGNAL

Army's Withdrawal Leads to Wave of Train Wrecking in Mexico.

LAREDO Tex. (AP)—Withdrawal of troops from bandit-infested regions in central and southern Mexico to campaign against Villa in the north has caused a new wave of train wrecking and railway destruction in that republic according to stories printed by Mexico City papers received in this city.

The most striking feat of the rebels was the capture of a train from Mexico City to Puebla at a point only a few miles from the latter city by the forces of the former general, Gilrilo Arenas, who revolted about a year ago. One hundred and thirty passengers were seized as hostages among them were American, Charles Chapman. They were driven for hours on foot over rocky trails to the headquarters of the rebel forces in the mountains.

This followed close on the heels of the capture of six well known residents of Mexico City at a picnic resort known as the Desert of the Lions, not more than a dozen miles from the capital. The captives remain followers of Villa. The women of the party back to Mexico City for a ransom of 2400 pesos and released their captives when the money was delivered.

More than 100 followers of Pedro Gaby are reported to have been killed when federal forces recaptured the town of Chocoman, state of Vera Cruz. CURSORY COMMENT CONCERNING CONTEST

Sunday next Twin Falls will host the Rupert club as its baseball guest. Which means this will be the initial joust of the season's tall half. Just what sort of an outfit Tyler Christian will present for public review is a question not yet determined, but here's hoping.

Let's go!

All games scheduled in the National league yesterday were called off on account of rain. The weather man must have found his hitting eye again, for it doubted the district a bit yesterday afternoon.

After panning "Butch" Tyler, the Boss second string catcher all season, the Salt Lake sports writers are now another him with encomiums. "Butch" is hitting the pill some now, and is shooting the ball across the greenward in a manner that makes two catchers on the club one-two many.

The White Sox yesterday took a firm but ever grip on first place, pulling away from the Yankees, who were busy holding the Cleveland Spiders to an even break in a doubleheader.

Hereafter the minor baseball leagues of this country will operate independently of the major organizations. This was made a definite ruling at a meeting of the minors in Chicago yesterday, when all bonds between the two organizations were unclamped by action of the minor league managers.

The National association of baseball leagues, which includes all the lower class circuits in the country, some time ago determined that the major leagues entertain no eleemosynary motives toward the minors, and it was upon this rick that the craft of friendly relationship between the two departments of the national game split. Yesterday's action in Chicago was but a ratification of determined endeavor initiated some time ago.

All of which means that hereafter the majors cannot, any they must not, steal players from the minor circuits by means of the draft law.

FIVE PACKERS CONTROL FOOD REPORT AVERS

Records Show Threat at Freedom of Market of Nation's Provisions Supply, Federal Trade Commission Says.

BRANCH HOUSES LIKE WHOLESALERE GROCERIES

Produce and Deal in Breakfast Foods, Banjo Strings and Washing Powders in Addition to Meat Foods.

WASHINGTON, (AP)—An approaching packer domination of all important foods in the United States and an international control of meat products with foreign companies seems a certainty unless fundamental action is taken to prevent it, the federal trade commission declared today in part one of its report to President Wilson on the "extent and growth of power of the five packers in meat and other industries."

"A fair consideration of the course the five packers have followed and the position they have already reached," said the report, "must lead to the conclusion that they threaten the freedom of the market of the country's food industries and of the by-products of the industries linked therewith. The meat packer control of other foods will not require long in developing."

Urges Publicity a Remedy

Declaring "the history of the packers growth is interwoven with illegal commissions, rebates and with undisclosed control of corporations," the report urged the importance of full publicity of corporate ownership for all industries.

"As to devices for securing control, there does not exist adequate law," the report said. "In its absence unfair competition may run its course to the goal of monopoly and accomplish the ruin of competitors without the secret ownership being suspected and consequently without complaint to the commission. In the absence of such a competitor is in jeopardy so long as he has not the knowledge of true ownership and the public is entitled to such knowledge."

Deal in 75 Commodities

"Alleging that the 'big five' packers—Swift and Company, Armour and Company, Wilson and Company, Morris and Company and the Cudahy Company jointly or separately wield controlling interest in 574 companies, minor interest in 95 others and undeveloped interest in 93—a total of 762 companies—and that they produce or deal in some 75 commodities, largely foot products, the report gives this picture of growing packer invasion in relation to unrelated industries:

Varied Lines of Trade

"In addition to meat foods, they produce or deal in such diverse commodities as fresh tomatoes and seed oil, breakfast foods, vin flax, banjo strings, leather and cotton cord, hair, paper, and washing powders. Their branch houses are not only stations for the distribution of meat and poultry, but take on the character of wholesale grocery stores, dealers in various

kinds of produce and jobbers to special lines of trade.

Dominant Contributing Factor

"They have interests large enough to be a dominating influence in most of the services connected with the production and distribution of animal foods and their by-products, and are reaching out for control, not only of substitutes of animal food, but of substitutes for other lines into which the integration of their business led them. They are factors in cattle-loan companies, making the necessary loans to the growers and feeders of live animals interested in railways and private car lines transporting livestock and manufactured animal products; in most of the important stockyards companies—the public market for the bulk of food animals; and in livestock trade papers on which growers and feeders rely for market news."

"They are interested in banks from which their competitor packing houses borrow money; in companies supplying machinery, ice, salt materials, boxes, etc., to themselves and their competitors; they are principal dealers on the provision exchanges where future prices in standard cured animal products are determined; they are their subsidiary companies deal in hides, oil, fertilizer material and other crude animal by-products; purchase from other packers these crude by-products and themselves carry the manufacture thereof to a further stage than most of their competitors."

West Distributing System

"They are important factors in the leather industry, in oleomargarine and tallow, in cotton seed oil, in fertilizer, in soap, in glue, etc."

"Their vast distributing system, with the advantage arising from the control of private cars, cold storage and a net work of branch houses, has enabled them to extend their activities on a large scale into poultry, eggs, cheese, butter, rice, breakfast foods, canned vegetables, soda fountain supplies and other lines."

"Individuals of the Armour family are owners of grain and elevator companies and J. Ogden Armour is a promoter of the American International Corporation, with its shipping and shipbuilding interests, its import and export companies in various lines. Its interest in a company organized to develop cattle packing, meat packing, quabroche extract and allied businesses in Paraguay, its control of a large meat importing company and a sugar machinery corporation and its minority stock in the United Fruit company."

Swift Grows Fruit

"Some of Swift and company's subsidiaries are growing tropical fruits in Hawaii; a subsidiary of Wilson and Company, Inc., has reached into the salmon fisheries of Alaska, and a Morris concern cans shrimp taken in the waters of the Gulf of Mexico."

Hold Competitors in Hand

"As to financial power, the report said in part: "The packer has drawn to a marked degree upon the banks of the country for liquid funds. To assure himself loans ample to his purpose, this packer has secured affiliation through stock ownership, representation on directors and in other ways, with numerous banks and trust companies. Mr. Armour, Mr. Swift, Mr. Morris and Mr. Wilson are directors in banks of

JAPANESE BANKS BE READY TO LEND MONEY TO CHINA

Financial Advances to Be Used for Building Railroads and Economic Development of Country.

TOKIO, (Correspondence of the Associated Press).—Eighteen principal Japanese banks have organized a financial syndicate for the purpose of advancing to the Chinese government a sum of proposed new four power financial group. It is announced that the Yokohama Specie bank will represent the banking syndicate in conducting negotiations with the Chinese government of the three other powers, the United States, Great Britain and France.

This consortium of American, French, British and Japanese bankers was organized in May last at a meeting over which Thomas W. Lamont of New York presided.

Representatives of the so-called "Big Eight" investors in China, comprising the firms of Mitsui, Mitsubishi, Okura, Kuhnaw, Furukawa, South Manchuria Railway, Sino-Japanese Trading company and the Eastern Asia Industrial companies have submitted a joint statement to the minister of finance and the minister for foreign affairs saying that objects of investments by the new syndicate should be limited to the construction of railroads, the opening of government highways, waterways, rivers and canals. All other undertakings, they declare, should be left outside the sphere of the new syndicate.

It has been stated that the amount of the loan which banking groups of the United States, Great Britain, France and Japan are to make to the Chinese government probably will be about \$100,000,000. The first disbursements of \$25,000,000 each over a period of years. The proceeds of the loan, it has been stated will be used for the building of railroads and for the general improvement of the country. Thirty-seven American banks will participate in the loan.

STORE IS LOOTED; MEXICANS TAKEN

Arrests Follow Burglary of Mercantile House at Rupert; Goods Recovered.

(Special to The News)
RUBEN, Jesus Ochoa and Juandito Hernandez, Mexicans, have been arrested and are being held in jail pending an investigation of suspicious circumstances which appear to implicate them in the burglary of a mercantile store and hardware store last Saturday night. It is reported by the police that some of the goods stolen were for the possession of the men.

Ochoa and Hernandez were arrested with several men in a Mexican rooming house in Burley Saturday and Monday nights. With them were taken E. J. Conroy and Francisco Esten, in whose possession a minor quantity of property stolen from Conroy's store was found. The men explained that the stolen goods were purchased from Ochoa and Hernandez, who resulted in holding the latter two for further investigation. About one-third of the goods taken from the store has been recovered. O. J. Chipps will hold a preliminary hearing this afternoon. The sheriff of Cassia county is still looking for another suspect. Canoy and Estrada have been released from custody but are under official surveillance.

Summer Complaint Quickly Believed.

"About two years ago when suffering from a severe attack of summer complaint, I took Chamberlain's Colic and Diarrhoea Remedy and it relieved me almost instantly," writes Mrs. Henry Jewett, Clark Mills, N. C. "This is an excellent remedy for colic and diarrhoea and should be kept at hand by every family." adv.

affiliated closely with those who are long at the sources of credit in the United States. Being thus allied with the greatest interest at the sources of credit, the packers power is great, not only for financing their own national and international operations, but for "feeling for goods or for ill, the credit of cattle producers and of consumers or customers in any line."

Handle Half of Poultry and Eggs

After reviewing the interest of the packers in the leather, fertilizer, cotton seed oil, grain and breakfast foods industries, the report said:

"The reason why the packers are seeking control of the substitutes for meat—the foods that compete with the meat—is obvious. If the prices of substitutes for meats are once brought under packer control, the consumer will have little to gain in turning to them for relief from excessive meat prices."

"Judged conservatively by trade estimates, the big five handle at least half of the poultry, eggs and cheese in the main channels of interstate commerce."

"Recently big packers began dealing in various staple groceries and vegetables, such as rice, potatoes, beans and coffee, and increased their sales at such a rate that in certain lines they have become factors of great moment."

Operations in South America
Referring to the packers' activities in South America, the report said that from establishment of a single plant in Argentina in 1907 by Swift & Co. the American packers, Swift, Armour, Morris and Wilson, had developed by 1917 until for that year they exported 57.4 per cent of the export of chilled and chilled beef quarters from Argentina and Uruguay.

CAN FRUIT

There has never been a time when the canning of fruits and vegetables was as profitable as it is this year—with all of Europe, and our sister states to the east bidding against us for our foodstuffs. Prices will continue to advance. The advance will be felt as keenly in producing centers as elsewhere. The whole world is especially short on fruits. Can it now—and have it later at a reasonable price.

We will have a quantity of apricots for canning about July 17th. Apricots will be at their best then.

The price for 20-lb. crates will be\$1.60
The price for bushel boxes will be\$3.55

We are taking orders for this fruit now and would be glad to have yours.

DELIVERY

We have made arrangements to deliver all orders of \$5.00 or over without charge. On orders of less than \$5.00 a minimum charge will be made.

SCORES OF DEAD GATHERED DAILY IN CITY STREET

One-seventh of Refugees in Russian Caucasus Succumb Each Month, American Relief Worker Declares.

LOS ANGELES, (AP)—Conditions in the Russian Caucasus were characterized as "unbearable" in a cablegram received here from Dr. H. F. Main, commissioner to that district of Russia for the American committee for Armenian and Syrian relief.

"On the streets of Alexandropol on the day of my arrival 102 corpses were picked up," cabled Dr. Main. "This is far below the average per day. One-seventh of the refugees are dying each month. The total number of refugees is 320,000."

Another Famine Impends

Another season of famine, said Dr. Main, is inevitable unless there is immediate action by some compelling power.

He continued:

"The world appears to be unconscious of the overwhelming human tragedy that is being enacted in the Caucasus. The Turk and his radical followers are carrying forward with growing efficiency the policy of extermination developed during the war by the method of starvation. Starvation is aided by typhus and already cholera is developing widely."

"Alexandropol, a large center, and Etchmiadzin, a small one, are typical. In the one are 68,000 refugees by actual census at our hand and soup rations; in the other are 2,000. A winter of exile in the Caucasus has produced a condition of horror unparalleled among the horrors of the war."

"The question of political expediency," concluded Dr. Main, "should be forgotten in the presence of this catastrophe. These people look to America. Our government is under moral obligations to respond."

PRESIDENT SPENDS EARLY FORENOON ON GOLF LINKS

WASHINGTON, (AP)—President Wilson played his first round of golf to day since his return from Paris. Accompanied by Mrs. Wilson he left the White House early and remained on the links at a country club west of Washington until well in the forenoon.

PAYNE TO SUCCEED HURLEY

WASHINGTON, (AP)—John Barton Payne of Chicago, who was nominated today by President Wilson to be a member of the shipping board, is to succeed Edward N. Hurley as chairman, it was said today in official circles. Mr. Hurley is expected to give up his post next month or early in September in order to return to his private business.

Summer Complaint in Children.

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for many years in my children. It is safe ahead of anything I have ever used for this purpose." adv.

A GOOD BEGINNING.

Aside from its unquestionable rhetorical excellence, the president's message to congress and to the American people delivered yesterday is perhaps more remarkable because of what it left unsaid rather than for what it said.

There is nowhere any disposition on the part of Americans to dodge the issue of international responsibility so ably presented by the president. The sole question that arises, and that must be determined, is whether the acceptance of every provision of the covenant presented by the president is essential to the shouldering of this responsibility.

It is quite necessary to know for instance, whether it is imperative that Americans must pledge themselves to "preserve the territorial integrity and existing independence" of every member of the league, as is proposed in Article 10 of the covenant, in order that the high hopes of men everywhere focused upon these United States may not be disappointed.

This and similar questions will be asked and must be answered before America can be committed to so revolutionary a policy as that proposed for this nation in the covenant.

The president is not justified in assuming, as he did, that the members of the senate "have been daily cognizant of what was going on there—of the problems with which the peace conference has to deal." This in view of the censor's suppression, for instance, of the objections made by General Smutz who signed the treaty under protest.

Proceeding, no doubt, on this erroneous assumption, the president has given us so far an argument that is convincing chiefly to that class of people who will buy in the market whatever happens to tickle their fancy without ever giving a thought to the cost or their ability to pay.

It will be necessary for the president and those of the rest of us who are already committed to the adoption of the covenant in all its particulars to "single for a while with those who 'have kept their eyes too close to the ground' to

see the proposal as its advocates view it and to explain further all of the various effects to be wrought by the new plan.

There is no ground for discouragement in any quarter in the showing thus far made in the presentation of the case for the League of Nations. The inadequacy of this presentation is known to the president himself who declared in the presence of his message that "it would not be possible for me either to summarize or to construe its manifold provisions in an address which most of necessity be something less than a treatise."

In his address the president has most ably laid the foundations for a consideration of the mighty subject and in his attitude at the onset of these considerations there is every reason to believe that this is to be a covenant "openly arrived at" so far as its disposition at the hands of the American people is concerned.

Readers. There are four sorts of readers: hour glass readers, whose reading runs in and out and leaves nothing; sponge readers, who imbibe all but only to give it out again as they got it, and perhaps not so clear; jelly-bag readers, who keep the dregs and refuse, and let the pure run through; diamond readers, who cast aside all that is worthless and hold only gems.

The Making of a Match. Hurry Gets Nowhere. The man or woman who works in a hurry, always at high tension, with no knowledge of the value of relaxation, produces results far inferior to the quiet, composed worker, who knows how to conserve his strength. Date Trees Flourish in Arizona. That dates can be made to thrive in Arizona is being demonstrated by the University of Arizona, whose orchards contain 508 trees, representing 125 different varieties. The fruit is ripened artificially and marketed in the East. Alkaline soil and the available water of the region appear to be well suited to the needs of the date trees, which, it is declared, will bear fruit for 100 years.

Ideal Marrying Age. Interesting points regarding matrimony are raised by a clause in the will of a London magnate. Much of his property is left in trust for his children, the income from their shares to be paid to their mother until each child attains the age of twenty-seven. The maker of the will expressed an "earnest wish and desire" that no child should marry until that age was reached.

Critic Coins New Word. Tired of the hackneyed phrase, a "gripping" story, originated by some weary critic and eagerly snatched up by book advertisers, has remained for a Boston dramatic critic to discover a new term. He has found a play that is "elicting" in its intensity of interest.

Bad Indeed. First lumber—"Yes, I heard you was in the hospital. Was yer very bad?" Second lumber—"Bad? I should think I was bad! Why, a pat o' mine brings me a bottle of beer, an' I couldn't do much as look at it!"—London Mail.

LOCAL BALL CLUB WILL BE REBUILT

Team Management Promises a Better Lineup for last Half Year; Schedule Changed.

That the Twin Falls baseball club will be sufficiently braced in all weak departments to make it a contender for the league pennant the last half of the season is the statement made today by Manager A. L. Metz. "We are going to have a strong team if it becomes necessary to appeal again to the business men of Twin Falls for more cash to re-build the club," Mr. Metz announced.

The manager of the ball club declines today to give the names of players he has signed or with whom he is conducting negotiations, but he stated that a pitcher of merit, not heretofore seen in a Twin Falls uniform, will hurt for the "Twins" in the Sunday game. He stated, too, that another catcher will be signed, as well as an outfielder and one or two men to brace that wobbly inner department.

Revise the Schedule
At a meeting of local ball managers and supporters of the Sublimity league, held in Burley last night changes in the schedule for the latter end of the season were made. The Twin Falls team, under the new plan, will play in Burley next Sunday, instead of Burley in Twin Falls. A new schedule of this season is soon to be printed.

Efforts of the management of the local club to get in direct touch with Tyler Christian have, thus far, proved unavailing. Christian is wanted as a mentor of the team, to coach the men in the gentle art of playing the game to win; to show them how to stand at the plate and at least look like batters; and, above all, to help them keep their "foot out of the bucket." Some of the men are said to have caught severe colds from getting their feet wet in Saturday's game with Rupert. Mr. Metz will continue an active manager of the club.

Singleton Remains
Although reports have been circulated to the effect that "Lefty" Singleton has quit the team official announcement was made today that the great little right fielder is still a member of the Twin Falls club and will be in uniform next Sunday. Leo Barvon has gone to Portland to join his family and engage in a commercial enterprise.

The Twin Falls club has some excellent ball players on its roster who need work outside of playing baseball. It is a fact, according to Manager Metz, that the pay of the players is not sufficient to guarantee them a living, and he desires to locate some of them in positions where by their own endeavors they may add to their weekly stipend. Unless work of one sort or another is provided for these men, some of them star players, their services will be lost to the local club and some other club, whose supporting town is more generously inclined, will profit. Positions may be listed with Mr. Metz at the Clubhouse.

RAINFALL WAS NEGLIGIBLE LOCAL AUTHORITIES AVER

Storms Brought Little Benefit to Parched Lands in This Vicinity.

Storms of yesterday were merely local affairs and fleetingly transient, according to the forecasters and local officials vitally concerned in crop production and land watering. The rain fall, according to these, was of a negligible nature where the need for water is at present vital. Reports from the outside indicate that only a very few widely scattered districts in this and nearby tracts were in any way benefited.

Expectation was that the electrical storm would bring relief from the steady intensity of the heat, but this proved a fallacious hope for from all outside points, as well as in Twin Falls city, reports indicate dense humidity. There are indications, however, that the storm period is not just an ominous and suggestive "thunderhead" appear and low on the horizon at about noon today, suggesting further electrical discharges and precipitation. The office of the Twin Falls Canal company's office the statement is made that no rains to speak of have visited the upper end of the Snake watershed in many weeks, and the rainfall of yesterday had no effect whatever upon the available water supply for irrigation purposes.

EXPERT PARK DESIGNER COMING TO TWIN FALLS

Miss Yoch of Los Angeles Will Make Survey of Shoshone Falls Memorial Site.

One of the first steps toward the improvement of the Shoshone park site was a memorial to the service men of this country, in Miss Florence Yoch of Los Angeles, a young woman who has made an intensive study of this line of improvement work, and who has been highly recommended to the executive board of the Shoshone Falls Park Memorial association.

Miss Yoch is due in Twin Falls on Monday, July 21, and will make an immediate study of the board's plans and proposals, with a view to drawing designs upon which to construct the park improvements.

There is at present a total sum approximately \$20,000 available for the Shoshone Falls park purposes, one-half of this amount is to be raised by the state, and the other half subscribed through public donations. If the services of Miss Yoch are finally engaged by the park association she will be placed in charge of all the land surveying of the site for the Memorial park. C. D. Thomas is chairman of the executive board, Miss Yoch has the recommendation of Mrs. H. W. Clouchek.

Suspects Are Held for Higher Court

Shearers, Alleged to Have Stolen Wool, Bound Over; Witness Denies Statements

W. C. Robertson and B. F. Nichols, shearers recently arrested on charge of stealing a quantity of clips from Joe Bangshead, a sheep man of the Mountain Home district, have been ordered bound over to the district court for trial. Bond of \$2,000 has been set in each case.

Robertson was placed on preliminary trial in the probate court yesterday, and Nichols this morning. In the case of the latter counsel waived examination and the defendant was ordered held under bond.

L. D. Hill, expected to prove a star witness for the prosecution, was introduced on the stand yesterday against Robertson. The witness prior to taking the stand is said to have made an exhaustive statement to the prosecuting attorney fixing guilt upon Robertson and Nichols. On the stand he repudiated all the prosecutor declared he had confessed prior, stating that what he might have said before was incorrect, and that his testimony before the court, then being taken, was true.

Millinery House Claims Damages

City Is Sued for \$6000 Said to Be Lost Sustained When Water Main Broke.

Papers were filed this morning in the district court in a damage action instituted against the City of Twin Falls by the Elite Millinery company, the amount sought in damage is \$6,000, representing loss to store stock. It is claimed. The case is in the hands of Walters & Hodgins.

According to allegations made in the bill of particulars filed with the court clerk, the millinery company suffered the damage claimed when water mains in the alley at the rear of the premises occupied by complainant, burst, flooding the basement of the plaintiff's store and a portion of the first floor. The building occupied by the Elite Millinery company is located on Main avenue north between Second and Third streets west, and was formerly occupied by the postoffice department.

In addition to the principal damages the court is asked to grant the plaintiff relief as is considered equitable in the premises.

Traction Company Is Losing Money

Street Car System Applies for One-man Operation, Showing Operating Deficit.

BOISE — In support of an application for the reduction of car-operating forces the Boise Valley Traction company, before the utilities commission of the state, makes the statement that installation of the one-man car operation would reduce expenses of the company \$12,000, but would still leave the company facing a deficit of \$5,881 per year.

This information was presented by H. E. Dalton, manager of the traction company, who stated that one-man car operation would be more desirable than an increase of car fares per passenger.

Figures submitted by Mr. Dalton showed a cost of 10 1/2 cent per passenger hauled, which could be reduced to 9.0222 cent per passenger by the installation of the one-man operation system.

The Old Name for Windsor.

English royalty has resided at Windsor castle ever since Edward the Confessor built a hunting lodge just at the place where there came a great curve in the gentle river. In his "Child's Guide to London," Mr. A. A. Methley writes that the old name for the place was Windlesora or Windleshore, which may have meant "Windless shore," from the curve of the river at this point. Other say, however, that the word is derived from the Saxon "Windle," a willow tree.

Ple for Breakfast.

Some doctors are discharging and asserting that pie makes a best-case breakfast food. The decision is not as shocking an innovation as it may seem on first reading, for a good many people, who are not doctors, have been eating pie for breakfast many years. If pie is the indigestible thing so many people pretend it is, it looks like good sense to eat it in the morning—if you really have to eat it—and take the whole day for the business of digestion.—Philadelphia Press.

Mrs. Altenburg Says Tanlac Is One of Greatest Blessings of Life.

"I am so grateful for the good Tanlac has done for me, I consider it a privilege to make a public statement to that other sufferers may learn how I was relieved of nearly a lifetime of suffering," said Mrs. J. D. Altenburg, wife of well-known station finisher, 4213 Simpson street, Dallas, Texas, recently. "When you consider that I have been a sick woman these twenty-two years," she continued, "it seems hard to believe that I have been relieved in less than three months, and my medicine that would do that should be praised the world over. Twenty-two years ago, when I was a sixteen year old girl, I had a severe attack of typhoid fever that left me with a serious stomach trouble that has made my life miserable ever since. My food lay in my stomach like lead and wouldn't digest. I had a feeling of weakness—a sort of sinking away hard to describe. My nerves were shattered and at times I couldn't bear to have anybody in my sight. I have had to be constantly moving about the room would irritate me so I'd almost break down and cry. Not a single week passed in all that time that I wasn't sick in bed, and often I was getting up to go to the bathroom and I fell off until I was dreadfully thin, and about the first of this year I was so weak, and rundown my condition was truly pitiable and I had almost lost hope of making any life time of industry and disappointment. I was forever trying all sorts of medicines in the hope of finding one that would give me the blessing of health, but nothing did me any good until I started on Tanlac."

Even Used to Run Away. That even the early horseless carriage retained at least one characteristic of its honorable predecessor, the horse, is quipped by the following item written in 1900. "The claim advanced by the early pioneers that an automobile could not run away like a horse is being disproved by actual experience. Accounts of automobile run-aways are not infrequent in the daily press."—Chevrolet Review.

AMERICAN OPERA MASCAGNI HOPE

Declares Blackman's Music and Ragtime Should Have Part in It.

ROME — (Correspondence of the Associated Press)—Pietro Mascagni, composer, expects a great American opera to be produced by an American composer, with an American theme which shall crystallize America's musical attainments. This work, he said, was shaping itself in the "Gloria America" was now making in her music halls and conservatories.

"I am looking forward with some amount of anxiety to the production of a great musical work in America in the near future," said Signor Mascagni. "There will certainly be produced soon a great American musical composition. I believe it will reflect the life of America. I feel that it will be built up out of the music of America, music which is so popular there. The strains which take the popular ear will repeat themselves in this new work. I am expecting. It will be the expression of America in all her social, economic and artistic life and will be another step and another contribution to the great musical production."

"It will symbolize America, just as Russian music symbolizes Russia, and Italian, Italy."

"The music of the negro is so fascinating," said the Maestro. "I like to hear it so much. I think it, too, will have its part in the musical achievements of America. Ragtime, he said, too would have its great part in American productions."

FORD'S PROFITS CUT FIGURE IN TRIAL OF CASE

Policy to Keep Profits at \$25,000,000 and Cut Price of Cars at End of Year, President of Company Avers.

MOUNT CLEMENS, Mich. (AP)—Edsel B. Ford, president of the Ford Motor company, resumed his testimony this morning in the trial brought by his father Henry Ford against the Chicago Daily Tribune. The elder Ford was in court, ready to follow his son to the stand.

Calls "Profit Sharing" Humbug

The examination was by Attorney Elliot G. Stevenson. The guarantee of \$5 a day minimum wage was put in effect January 12, 1914, witness testified, and the net profits that year were approximately \$30,000,000.

Mr. Stevenson, pursuing his theory that the wage was something that should be called "profit sharing," advised that in 1915, production had more than doubled and net profits were approximately \$40,000,000. This doubling of profits, Mr. Stevenson pointed out, resulted in no change in the incomes of employees and hence he said, "the term profit sharing" was a humbug.

Expansion Cost Price Out

On cross examination by Attorney Alfred Lucking the witness said there was a surplus of labor in 1914 at the wage scale prevailing, notwithstanding which the \$5 minimum was put in effect.

It was Henry Ford's policy to keep profits at \$25,000,000 a year, Edsel Ford said, and to this end it was the custom to cut the price of cars each year. In 1916, however, it was deemed advisable to build blast furnaces and expand otherwise. The price was not cut that year and big profits resulted and are now being used as originally contemplated.

Made Tanks During War

Witness said that during the war he was particularly engaged in the production of tanks for the government. On redirect examination witness said he was a graduate of no school. His schooling since he was 16, he said, was in the Ford factory. His father, he said, is devoting all his time to his tractor plant.

Bureau Building Women's Room

Rest Quarters Are Being Installed at Farm Agent's Quarters for Visitors.

A rest room for women is being constructed in the quarters of the county farm bureau, under direction of Miss Edna M. Ludwig, home demonstrator. The work is being done chiefly by the packers connected with the bureau.

When completed the rest room will be 14 by 20 feet, with a commodious alcove, will be equipped with comfortable chairs and a lounge, together with lavatory service. The room will be placed at the disposal of women from the rural sections, who come to town to do their shopping, for rest and cleaning up purposes.

All of the material for the room has been donated by the Boise-Payette Lumber company.

RAINFALL WAS LIGHT

According to Observer O. C. Koch, precipitation in the past 24 hours has amounted to eleven one-hundredths of an inch, or a little more than one-tenth of an inch. Yesterday's highest temperature was 88 and the highest up to noon today was 92. The highest for the season was 100 degrees in the shade. The lowest temperature since the spring was noted one night last week when the mercury ran down to 38.

"TIPPING" LIKELY TO FOLLOW JOHN BARLEYCORN INTO NATIONAL DISCARD

CHICAGO, (AP)—With the going out of intoxicating liquor, the country is also likely to see the "tipless" liquor according to A. G. Stephens, president of the Ohio Hotel Association, who is in Chicago, arranging for the convention of his association to be held in connection with the Hotel Show here during the week of August fourth.

"I think the day of tips is over," said Mr. Stephens. "With the European source of supply practically cut off, it is hard to get water. So the hotels have been more and more carefully considering mechanical devices to take the place of servants."

"It is surprising to note how many really good hotels have installed coffee makers. I predict that more of them will do so. The caterers, as you know, are being strictly tipless and the dining rooms, where there is service, the movement toward doing away with waiters is making rapid strides. There are all sorts of mechanical devices for this purpose. A mechanical system for checking hats and wraps has already been devised and, I am sure, will soon come into general use."

SPokesman for Packers DENIES REPORT CHARGES

Swift Says Commission Fails to Answer Questions as to High Prices.

CHICAGO, (AP)—Charges against the big meat packers contained in the report issued by the federal trade commission today were denied by Louis F. Swift, president of Swift and company, speaking for his own company and for the other big Chicago packers, Armour, C. M. MacArthur, Wilson and Co., and Cudahy and Co.

Mr. Swift said the report was "merely an attack upon large and successful business organizations and should be rejected by all Americans who are interested in the industrial progress of the nation."

"It is to be regretted that in these days," said Mr. Swift, "when the public feels keenly the present high prices, the government body does not give out facts respecting prices and profits. This has never been done fairly by the federal trade commission as regards the packing industry, although the commission has undoubtedly had the most complete information in its possession."

"The report just issued by the trade commission and its discussion of the number of subsidiary companies and the financial statement of the packers, are classes of business handled by the packers, are not only erroneous, but are entirely immaterial to the real question in which the public is interested, namely why are the prices high?"

Politicians Didn't Pay Here.

Down on Water street, Augusta, Me., the other day, two men met at the corner of the street and they both stepped into the outer edge of the sidewalk to avoid two ladies who they met. Both men said in chorus: "Pardon me," then both sidestepped to the left. When they met again both sidestepped once more, this time to the right, and met again. Then they both stood still, and as one man turned to the right and extended his arms above his head as if to get out of the way of the building, he said to the other man: "Say, when you get by, whistle."—Kennebec Journal.

At the End—Youth.

If I had treated men and women, I should have framed them on a type widely different from that which has actually prevailed—that of the higher mammiferous. I should have made men and women, not to resemble the great apes as they do, but on the models of insects which, after a life as caterpillars, change into butterflies and get the best of their term of their existence, have no thought-but to love and be lovely. I should have set youth at the end of the human span.—From "The Garden of Epirurus," by Anatole France.

Quick Breathing an Anesthetic.

United States scientists who have been conducting experiments in the art of breathing claim to have demonstrated that rapid breathing in itself acts as an anesthetic and renders a person immune to pain as long as it is maintained. Of course, after the rapid inhalations cease the pain will be felt. By a little training, it is said, a person may induce sound sleep by deep and rapid breathing for a few minutes.

Why Should He?—The World is His.

"An Englishman comes into a drawing room as if he owned it. An American comes into a drawing room as if he didn't care, damn who owned it."—London Sketch.

IDAHO INDIANS ACTIVE STOCKMEN AND FARMERS; SOME ARE WEALTHY

BOCADELLO.—Fort Hall within the limits of Pocatello, is the trading post for three tribes of Indians, Bannocks, Lemhis and Shoshones. There are 2,500 of the three tribes on the tract, which embraces many thousands of acres of all kinds. Some live along the bottoms, in wickiups and modern tents, and follow up the old system of the "blanket" Indians. Others are active.

Every Saturday they appear at the historic trading post where they are given their allotment under the supervision of the Major J. Miller, former lieutenant of the post. In early days Captain Bonneville stopped at the site for several days, and Generals Custer and Fremont went through this way.

Today a different condition exists and while some of the older tribesmen live in the primitive way, the major portion furnish supplies along the mercantile line, are active stock men and farmers, and some are wealthy. One of the wealthiest is Idaho, who has his herd of 450,000. He has residence property close to Blackfoot, owned farm land, and knew the details of a bank account. He was a Bannock Indian.

The Word "Magnet."

The word "magnet" is derived from the name of the city of Magnesia, in Asia Minor, where the properties of the lodestone are said to have been discovered. It has, however, been ascertained that the name comes from Magnesia, the name of a shepherd who discovered magnetic power by being held on Mount Ida, in Greece, by his attraction for the nails in his shoes.

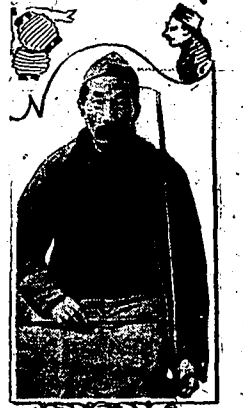

Protect the Milk Snake.

The milk snake, instead of stealing the farmer's milk, makes constant war upon rats who annually cost the country millions of dollars in the destruction of crops. They like to live under barns and porches, and can follow through a rat hole where a ferret couldn't go, and eat the young rats. They eat meadow mice and field mice also.

A Window placard.

"For Rent," does not cost much—as a card. But to rely upon one to find you a tenant, may be a very dear price.

HAS YARD AND A HALF OF FINGER NAILS

The aristocrat and wealthy in China show their social position by growing fingernails, for one cannot work and have long tapering nails. Respecting this, the man, Wong Lee, must be the wealthiest man in China—because he has the longest fingernails in the world. The longest is 31 1/2 inches; the next is 21 inches and the shortest six inches. The first two are protected by bamboo casings.

GERMAN THEFTS ARE DISCLOSED

Cars Billed as Empties Contain Bacon and Tires Going to Germany.

COBLENZ, (AP)—A plot involving wholesale thefts of food, automobile tires and other troop supplies for shipment to Germany has been discovered by army officers here, it was learned today when several Germans who are alleged to have had a hand in the plans were arrested.

The cars of American bacon and three cars of tires and tubes, which were billed through to unoccupied Germany as empties were returned to Coblenz today from the edge of the bridgehead. Officers say that shipments under various pretexts have been going on for weeks and possibly months and they estimate the loss to the army at several million marks.

To Fill Floor Cracks.

A very complete filling for open cracks in floors may be made by thoroughly soaking old newspapers in a pulp made of one pound of flour to three quarts of water, or a less quantity in those proportions. Put one tablespoonful of alum in the mixture and stir thoroughly until brought to a boiling heat. Make the final mixture about as thick as putty and apply with a putty knife. It will harden like papier mache.

See Other Point of View.

Think the troubles and miseries in this life would be smoothed away, if we would put ourselves in other people's places, and try to see things from their point of view. It is the great blank wall of self that hinders us.
