FOOD PRICES IN GERMANY FALL WITH A CRASH

Illiot Dealers Bring to Light Huge Concealed Stocks as a Result of Lifting of the Allied Blockade.

MAD EFFORT TO UNLOAD BEFORE MARKETS OPEN

Tons of Provisions Shipped to Interior from Occupied Territories; Restaurants Strive to Keep Up Charges.

BERLIN, (AP)—Prices on all foodstuffs have fallen with a crash in Berlin as a result of the lifting of the blockade. They began to show weakness when it was rumored that the embargo would be lifted but the real reason came only when illiot dealers with huge concealed stocks brought them out in a virtual panic to unload before competing supplies entered Germany.

The food provisions are being shipped in from occupied territories while everywhere in the city great stores of coffee, cocoa, butter, margarine and other supplies have made their appearance. Coffee prices fell from an average of forty marks to below twenty yesterday and the product could easily be bought for fifteen. Other food prices were dropping rapidly. Restaurants, however, still maintain absurdly high prices and apparently intend to continue to do so as long as possible.

Bureau Releases Leather

The official, central bureau has released sufficient imported leather for the production of three million pairs of shoes in order to restrict the importation of ready-made footwear. The supply will be allotted among the factories throughout Germany.

Reports from the cities near the zone of occupation and the north Baltic coast indicate a general rise in the prices of textiles, due to incoming stocks.

Government Proposes Heavy Tax Levies

WEIMAR, (AP)—It is reported that the government's new tax bill will include a surplus assessment on capital amounting to 30 per cent and also a drastic imperial income tax, the receipts from which will be apportioned among the federated states according to their needs.

SENATORS ASK MORE LIGHT ON TREATY MAKING

Foreign Relations Committee Requests Copies of Any Pacts Affecting Japanese or German Rights in China.

WASHINGTON, (AP)—A request for copies of any treaties affecting Japanese or German rights in China was sent to the state department today by the senate foreign relations committee. The motion is asked for this information to be adopted by unanimous vote, members agreeing that the committee could better consider the Shantung settlement in the treaty of Versailles if it had the text of the Chinese-German convention of 1918, and any other international engagements bearing on the subject.

Passes Over Shantung Matter

No other formal action affecting the treaty with Germany was taken by the committee today. The committee today, nearly all the time being devoted to a continuation of the reading of the text. On suggestion of Senators Fall and New Mexico, a motion of New Hampshire, both republicans, the committee passed over entirely for future consideration part IV, which contains the Shantung provision and certain stipulations regarding Morocco, Egypt, Bulgaria, Turkey, and other territory.

Agrees on Arbitration

Extension of the arbitration treaty with Italy, Spain and the Netherlands was approved by the committee with discussion and without a record vote.

With the senate in adjournment until tomorrow, the foreign relations committee.

HUNGARIAN SOVIET SAYS ENEMIES VIOLATE TERMS

Bela Kun Declares Czechs and Rumanians Disregard Agreement and Military Action Taken is in Self Defense.

PARIS, (AP)—The Council of Five met Tuesday afternoon in its chief topic of discussion being the Russian blockade. There have been proposals that the powers shall allow ships to enter Russian ports under special permits. The United States has consistently insisted that there has been no agreement against Russia except such as is incidental to the embargo on imports of Germany. Consequently, the American delegates were not ready to take any action in the matter until instructions have been received from Washington.

PROHIBITION'S FRIENDS WANT BEER DEFINITION

Anti-Saloon League General Counsel Tells Senate Judiciary Subcommittee Dry Law Advocates Ask Limit on Individual Liquor Stocks, Possession of Bottle Unlawful and Sweeping Search Warrant Powers.

WASHINGTON, (AP)—Authority of congress to fix one-half of one per cent as the maximum alcoholic content of beverages in prohibition enforcement legislation is clear, Wayne B. Wheeler, general counsel of the Anti-Saloon league, declared today before the senate judiciary sub-committee in answering recent statements of Emanuel C. Lerner, counsel for brewers.

To allow the sale of 2.34 per cent beer, Mr. Wheeler, "would keep alive the liquor trade and defeat the purposes of national prohibition. The friends of prohibition do not want a code unless it defines intoxicating liquor."

Thirty-three prohibition states, and thirteen local option states, Mr. Wheeler said, have no limiting alcohol in beverages. He challenged Mr. Lerner, saying to produce any court decisions, legislative or state legislatures, which have an "explicit" home from becoming unenforceable.

Another amendment advocated by prohibition leaders, Mr. Wheeler said, is a provision for seizure of liquors in homes where it is sold illicitly. Two other amendments were urged by the witness. To prevent bootlegging.

FREIGHT PILES HIGH ON PIERS

Three Hundred Coastwise Vessels Tied Up in Atlantic Marine Strike.

NEW YORK, (AP)—Failure of coastwise stevedores to begin work today, owing to the strike of fishermen, oilers and water tenders has resulted in a great accumulation of freight on the piers of the lines affected. It was estimated that 200 vessels engaged in the coastwise trade were tied up here by the strike. Capt. Frank N. Ferris, managing agent of the United States shipping board, prepared lists which show that 150 vessels were tied up although he declared that 76 of this number were awaiting orders.

H. O. EMPLOYEES OUT ON STRIKE

Implement Makers' Chicago Plants Tied Up by Walk-out of Workmen.

CHICAGO, (AP)—Between 8,000 and 10,000 employees of the Chicago plants of the International Harvester company are on a strike today for a closed shop. The trouble began last Monday when 700 workmen employed by the Weber-Wagon works, a subsidiary of the International Harvester company walked out. Yesterday 6,000 employees of the McCormick Reaper works went on a strike.

# MEXICANS HOLD BEER SALE FOR SCHOOL BENEFIT

### Municipalities of State Proclaimed Dry Hit Upon Plan Resulting in Swelling of Public Funds.

DOUGLAS, Ariz., (AP) — Although the prohibition of a proclamation by General P. Elias Calles, constitutional governor of the state, a number of the municipalities of Sonora, Mexico, have hit upon a plan resulting in swelling the public funds.

Special permission is obtained from the state capital for the sale of beer for one day or longer, the proceeds to apply to public debt. Located in Guzman, the largest American mining camp of the state, sales of beer have been held for the benefit of the public school fund, there being no money in the district treasury to pay the teachers.

# TEXAS CLUBMEN TAKE TO TEAS

### Prohibition Brings No Hardships to Members of El Paso Organization.

EL PASO, Tex., (AP) — The El Paso University club, first to ban the club bar when it was organized, and before prohibition was even seriously discussed in Texas, has been the leader in offering a wholesome substitute for the saloon as a social center.

The officers and directors of the college club discovered that the members enjoyed teas as much as did the women's clubs. A series of allied teas were given and, much to the surprise of the entire college community, some of the early pioneer residents not only attended and drank tea but asked for second and third cups and became what was called in the friendly familiarity of the club girl "tea addicts."

Taking this as a suggestion, the teas were made a permanent feature of the club's weekly entertainment program and were held on Sunday afternoons when tea was served around the tables in the grill, the men brought their families and spent the afternoon sipping tea, smoking and listening to a program of music and short entertaining talks.

# AMERICAN SOLDIER NOT HIGHEST PAID FIGHTER

### Official Statistics Show Three British Dominions Allow Higher Pay for Each Grade Than Does U. S.

WASHINGTON, (AP) — Popular belief that the American soldier is higher paid than that of any other country, is erroneous, according to an official statement today by the general staff. It shows the three British dominions, Australia, New Zealand and Canada, pay materially higher pay for comparable ranks than the United States. In instance in the Australian army, a sergeant earns \$72.90 per month, as compared to \$36 in the American army. The other extreme is shown in the case of Japan and Italy, where the private receives \$1.50, 75c and 58c a month, respectively, against the \$2 paid the American doughboy.

# BITS OF SPORT

Sill the White Sox chamber upstairs.

The Salt Lake Bees, too, are doing some job shinning. Herr's men today defeated Portland in a woeful hitting conflict. The count was 10 to 11 in favor.

"Lefty" Leverage seems to have recovered from his "spike-stopping" experience. He twirled a few innings yesterday.

Rain prevented three National league games yesterday. Would some games in the Southern league might get this prevented.

Anyway, it's a long climb from the comfy berth the Cincinnati Reds occupied so long at the bottom of the National league percentage column to where they now perch.

Also, it's a long way to fall, and a hard landing to alight on.

Roger Peckinpugh, Yankee infielder, has displayed the most astounding revival of batting form ever introduced by a big league player in a single year.

In 1918 Peckinpugh's striking average was no more than .231. At the time of writing this he has a slugging mark of .302 and is the leading hit-or-swing in the National circuit.

With the talented, temperamental and tactful Ty out of the game the Detroit Tigers, after a long and lingering loaf far down in the club standings, started on a batting rampage, and won nine games in a row. Cubs returned to the game and the Tigers started downward again.

If record of all continue their ferocious conflict they may come to blows over the question of just when Willard was "out."

Let's hope they settle their differences before Dempsey has his next bout.

Sim Emley, student of human nature and a ball fan, says, "That the ball isn't what with a 'fuel' in his manly is soon separated, wuz all rite as far as he went. Trouble with him was the didn't get fur snuff, or else he didn't speculate on present conditions. Everybody's a fuel nowadays. If being parted from money is a indication."

Likewise Sim says Twin Falls has some good players on the team but they seem to have more worries than a good player should be hardened with. And that's the reason they don't play good ball all the time.

It is apparent that Sim has in mind the players on the team who are trying to stretch an apprentice's wages to meet the demands and exigencies of a grown man's needs.

Manager Metz says he can get more sterling players if somebody will help him find work for them when they are not playing ball.

Anybody got any jobs?

Somewhere in the philosophical records it says something about a guy that has already got everything he needs, and more, he shall get a lot more.

While Jack Dempsey was on his way west the other day a bunch of more-money-than-good-judgment got hold of him and made him take a brand new gold watch as a gift.

And him having the championship and overthing.

# HUNGER KEEPS CHILDREN HOME FROM SCHOOLS

### Nettles Form Principal Item of Diet in Poorer Czech-Slovak Homes Visited by Red Cross Investigator.

PRAGUE, Czech-Slovakia (Correspondence of the Associated Press)—One-third of the school children in Czech-Slovakia are absent from school every day on account of hunger, according to Red Cross investigators' report. Many of the children in the schools were found so weak from lack of nourishment that they could not hold their heads steady. Frequently children had to be carried home because they had not the strength to walk.

Ninety Per Cent Starving. Miss Edith Hoyt, of Washington, D. C., and Miss W. E. East, of New York city, two of the trained social workers sent from the Red Cross into seventeen towns in the Erzberg district, reported that in this section 90 per cent of the children were actually starving. To relieve this situation, arrangements have been made for the establishment of public kitchens throughout the country. The Americans are supervising the work and the distribution of food supplies to them.

"The children were undernourished and backward," writes Miss Hoyt, "both physically and mentally. They showed signs of tuberculosis, rickets and anemia. We went through schoolroom after schoolroom asking, 'How many have had no breakfast this morning?' In a class of 49, 19 did not have any." It was typical of the situation throughout the district.

"Nettles, a weed, form the principal item of diet in the poorer homes, and only one town was visited on any potatoes. We entered many houses unexpectedly, in order to obtain a true idea of conditions.

Undernourished and Gloomy. "Among the school children, rickets—softening of the bones, due to lack of fats—prevails universally. Children of seven are like children of four. Children of ten are like children of six. A normal six-year-old. Their faces are gray with pallor, and abnormally sad and gloomy."

# WHEAT SEARS—HERBAGE CURLS UNDER HOT SUN

### Vegetation of All Sorts Affected by Intense Heat; Mercury Reaches 96 in Shade.

The mercury still climbs. From 88 degrees in the shade last Sunday the temperature in this district has steadily risen until yesterday the mark showed 96 in the shade.

According to Government Observer O. C. Ketch, the hottest period of the day was about three hours after the sun had reached its meridian height. During the preceding night the temperature declined to 49 degrees for the minimum of the 24 hours ending at sunset. From that low mark, however, the ascendancy of the mercury was steady and fairly rapid. At noon yesterday the thermometer registered a mark of more than 40 degrees from the low point. At 3 o'clock the mercury was limply hanging around the high point of the day, with no breeze or sign of to modify the discomfort of the excessive heat.

According to farmers calling in Twin Falls today crops for the most part give evidence of being affected by the intense heat. They say wheat, although promising a fair crop, is beginning to savor under the burning heat of the sun and beans are beginning to shrivel. Potatoes, too, are developing symptoms of suffering from the continued drought.

As a rule, according to agriculturists, two average crops of alfalfa will be cut this year, but the third growth is not expected to provide more than pasturing. Sugar beets are said to be suffering and showing the effects of decreased water supply.

Cutting of barley and rye, and in some instances very early wheat, is progressing in certain sections of the Twin Falls tract. Estimates of yield in these cuttings are gratifyingly high.

# German Opera House Personnel Compels Director to Retire

### Socialist Members of Council Back Employees' Demands for Removal.

BELLEN, (Correspondence of the Associated Press)—The principal character and stage hands of the German opera house of Charlottenburg, after a five days strike, have forced the retirement of Otto Neumann Hofer, its director-general, with whom they have been in conflict for several years. The forces of the opera houses numbering 500 went on strike without warning. Socialist members of the Charlottenburg town council espoused the cause of the strikers and demanded that the board of directors remove Herr Hofer. Realizing the futility of further resistance, he resigned. It was charged that he consistently opposed all social reforms in favor of the employees and was unyielding in his discipline. The incident was one of the most sensational episodes in the history of German grand opera and the occurrence would have been impossible under the old political dispensation.

# PROFITEERS OF ENGLAND SLOW TO TAKE HINT

### One Wealthy Man's Liberal Donation to Government as "Thanksgiving Offering" Demands Without a Parallel.

LONDON — (Correspondence of the Associated Press)—A wealthy man of London, who signs himself simply as "T. S.," has written in one of the newspapers declaring his intention to subscribe to the Victory loan in the sum of \$750,000 and then turn the bonds back to the government for immediate cancellation.

"Today, at the age of 60," writes T. S. "I am faced with another crisis that I must meet. I have been searching. The whole country is exhausted. By a natural reaction not unlike that which led to the excesses of the Restoration after the reign of the Puritans, all classes are in danger of being submerged by a wave of extravagance and materialism.

Galls on Wealthy Classes. "The wealthy classes know the danger of the present debt. Let them, impose upon themselves, each as he is able, a voluntary levy. It should be possible to pass the exchequer within twelve months such a sum as would save the taxpayer fifty million pounds a year. I give one-fifth of my estate as a thank offering to the firm conviction that my legacy shall have such a chance of giving our country that form of help which is so vital at the present moment."

Publication of this novel form of subscription to the loan instantly aroused the public and all sorts of proposals were suggested. The more thoughtful newspapers gave it their unqualified endorsement. Many "profiteers," it was pointed out, could make such a sacrifice without knowing they had diminished their huge fortunes, while other persons of wealth were urged to follow his example as a "thanksgiving offering" because the empire had finally been preserved. But it does not seem popular with the profiteers, since none have taken the hint.

# LABOR UNREST CAUSES ALARM TO JAPANESE

### Leaders Study Means of Meeting Problem of Increasing Tendency of Japanese to Assert Rights.

TOKIO, (AP)—The increasing tendency of the Japanese workers to assert their rights and to interest themselves in socialism is causing leading Japanese to study the means of meeting this problem. It is pointed out that strikes are increasing and that as Japanese labor has no organized voice, the strikes are liable to lead to dangerous violence, as in the case of the rice riots last year.

The Herald of Asia says that there is a considerable element affected by socialist theories, but that being to the severe repression imposed by the authorities there is no means of knowing how far socialism has spread. The journal adds: "That the bacteria exists here, there is no doubt. It is kept under so far, but it only awaits ready to break out on occasion. If socialism cannot legitimately raise its head, then it will try to do so illicitly, and the result is Bolshevism and anarchy."

Proscribing Democracy. The journal recommends immediate and effective improvement of labor conditions in line with the suggestions of the league of nations, political and educational reform, the elimination of bureaucratic methods and a true restoration of the ideal of democracy.

# TRAVEL IN PARK SHOWS INCREASE

### Tourists Flock to Yosemite in Great Numbers; 14,635 Last Month.

SAN FRANCISCO. (AP)—According to the report made public by the superintendent the month of June, 1919, showed a record travel by far into the Yosemite National Park than has ever been recorded for any one month. June, 1919, brought a total of 14,635 visitors as compared with 3,221 for the same month last year, of which number 10,000 came in 2,797 private automobiles as compared with 4,092 people in 1,667 private cars in June of 1918. The total travel to June 30 for the current season was 23,571 in contrast to 12,126 up to the same date last year.

# Popularity of Day for Bath and Feast Is Waning in Mexico

### Newspapers Unanimously Ask for Explanation of Condition.

MEXICO CITY. (AP)—With St. John's Day came and gone again for another year the newspapers of the capital are unanimous in asking why this one time prominent fiesta is waning in popularity. The holiday occurs on June 24 and was early written into the customs of the Mexicans as a day for a bath and for a feast celebrating the nativity of St. John the Baptist.

This year, according to the newspaper, there was a marked decrease in the observance of the day. The bath house which in former years did capacity business from early dawn until noon were not busy. The holiday spirit was lacking. In the Zoocal, the principal place of the city, where on holidays booths are erected for the sale of food, drinks and trinkets, only a thin line of stalls marked the line for promenaders. The decadence of the fiesta was everywhere apparent.

# YANKS WILL LEAD MARCH

### Forces of British to Take Places Behind Allies in Victory Parade.

LONDON. (AP)—A composite regiment of the United States soldiers, 3400 strong, headed by General Pershing, will lead the great victory march through London on Saturday, July 29, according to the completed program announced tonight. The decision to have the allied troops march in alphabetical order as to nations resulted in the place of honor going to the Americans.

After the Belgian contingent, the French, a thousand strong, will follow, and then a small body of Italians, a detachment of Japanese and other allied representatives. The forces of the British empire will march behind the allied contingents.

# MEDICAL RECRUITS WANTED

### Army Begins Campaign for Men for Service in General Hospitals.

WASHINGTON. (AP)—The army medical department is about to begin an extensive campaign for recruits for service in the general hospitals. Authority has been given to enlist men for one year who have not had previous military experience. Young men in towns adjacent to army hospitals will be appealed to in enlist in order that the medical corps may be fully equipped to carry on its work of restoring the wounded.

SAN SALVADOR, Republic of Salvador. (AP)—Mexico has offered the mediation in the Costa Rica difficulty caused by the revolutionary movement from the Nicaraguan border against the government of President Tinoco, but both Costa Rica and Nicaragua have declined the mediation according to advices received here. It is understood that President Tinoco has expressed himself in favor of the friendly intervention of Salvador.

**NO HOME COMPLETE WITHOUT IT**

About the most expediting thing a man can have about the place these days is a thermometer. No two thermometers agree about anything and every machine tells its own story and insists upon its own verdict, and as though to add insult to injury and crown the whole disgraceful record, no thermometer has yet been invented which will stick to its own story for more than five minutes if moved to any other point in, on or about the building.

One of few really satisfactory thermometers ever seen in Twin Falls was one ordered by The News some two months ago. It came plumb in the course, four or five feet of it, resplendent in a shining coat of white enamel with a narrow line of red ink held in place by a glass and running up and down the middle. Upon being removed from its wrappings and given a place of honor upon the wall, it was noted that the ink registered 67 degrees. As it was about 11 o'clock in the morning of one of the hottest days of the summer this was accepted merely as evidence of the efficiency of the cold storage facilities of the local express company. An hour or two later there had been no change and in the ordinary course of events the machine and its vagaries passed into the realm of old stuff as far as The News force was concerned.

With visitors to the office, however, the result was different. Tourists alighted from their cars and after transacting their business stepped up to the thermometer and then proceeded to congratulate the cashier upon having such a nice cool office. Linotype compositors, with perspiration streaming down their faces, staggered out from the mechanical department and after a glance at the thermometer resumed their work with an expression of benevolent contentment marking a countenance so lately transfixed by the anguish of extreme discomfort. Subscription solicitors, fresh from the country in the late afternoon of a torrid day, paused to marvel as to why the added years of a man's life should cause him to feel the heat so thoroughly and so well. It went on for weeks. The thing did yeoman service. Everybody was happy. Then it was discovered that there was a hole in the pipe and a gap in the fluid. The fact of the matter was that the apparatus, as such, had never functioned at all! And in the days which have followed The News has had to buy two electric fans and is threatened with a third.

Doc Parrott had a thermometer which for years took people's minds away from their weather troubles. A few weeks ago a little knot of interested people were observed in lively altercation grouped about the instrument late one night. The next day the machine was found to be broken. It was so badly broken that most of the works were gone. It is still broken.

The News has sent for another thermometer, but it is hardly to be expected that anything like the results obtained with the last will be possible with the new.

**DISCREDITING POLITICS**

It is particularly regrettable, in view of the acceptance by a republican congress of the recommendations of a democrat president in his veto message, that narrow partisanship should be injected by partisan supporters of the president to bring about a situation where important appropriations including granting of funds needed for the rehabilitation of disabled soldiers should be delayed.

the house of representatives when consideration of the sundry civil appropriation bill as amended to meet the objections, raised by the president in vetoing it, precipitated a partisan battle which finally prevented further progress on the measure and ended only when the republicans forced through a motion to adjourn.

Democrats opposed the resolution for immediate consideration of the remedied bill, declaring that if it were adopted and the sundry civil bill would be passed, it would enable the republicans to evade placing themselves on record as being opposed to the president's veto, and therefore, opposed to an increase in the appropriation for the vocational training board.

No sane person believes for a minute that any loyal congressman, be he republican or democrat, would intentionally vote to limit the discharge of the country's first duty to provide for its injured soldiers.

In the light of the attitude taken yesterday by certain democrat representatives, some measure of justification may be found for the earlier expression of the republicans, Mondell, that if the president had remained at home there would have been no need for his veto of the sundry civil bill.

But the country at large is most likely to register only disgust at the whole attempt to mix unworthy political purposes with a matter of so vital importance. It is blind partisanship such as this that degrades the true meaning of the word politics. The sooner such attempts are done away with the better it will be for all concerned.

**THE MAIN THING**

President Wilson seems to have come to one precedent which he deems better honored in the observance than in the breach. It seems that he has determined to cling to the precedent that would forbid a president to enter the halls of congress for a conference with a congressional committee. He is willing, however, to meet with the members of the senate foreign relations committee at the White House for a conference on the peace treaty. He has issued an invitation to democratic and republican senators alike for that purpose, and expressions of the senators indicate that a White House conference or conferences will be held.

Whether the mountain goes to Mahomet or Mahomet goes to the mountain is not, in this instance, a matter of very great consequence. The essential thing is that in the determination of the senate policy in respect to ratification of the treaty and its league of nations

"rider" the benefit of every possible grain of information bearing on the subject shall be placed at the disposal of those for whom the decision remains to be made. And present indications augur well for bringing about such a desirable state of affairs.

**Elephant Supplies Thrill**

Tantor, a huge African elephant, takes one of the leading parts in "The Romance of Tarzan," the spectacular screen version of the concluding chapters of "Tarzan of the Apes," by Edgar Rice Burroughs, which opens at the Gem theatre this afternoon for a run of four days.

The scene in which Tantor makes such an unexpected and thrilling appearance occurs just after Tarzan has engaged in a battle to the death with six giant cannibals who lay in wait along one of the jungle trails to intercept the party of whites, including the beautiful American girl with whom Tarzan has fallen in love.

Exhausted and bleeding, Tarzan staggers away from the glade of death, and is on the point of sinking down into the thick jungle grass, there to become a victim of the first savage black or

beast of prey that comes that way, when he is startled into full consciousness by the trampling of heavy feet close at hand.

The next instant Tantor, Tarzan's mighty friend, comes smashing through the undergrowth. Answering immediately Tarzan's cry of distress, the great beast kneels, and wrapping his trunk about the injured youth, swings him across his neck and marches in triumph with him to the distant beach, where he deposits his precious burden out of harm's way behind some sheltering rocks.

**SENATORS ASK MORE LIGHT ON THE TREATY QUESTION**

(Continued from page one)

Senators had opportunity today to devote several hours to the continuation of reading the peace treaty section by section. It was expected that before night virtually the entire document would be covered for the first time, but with all the actions provoking objection reserved for future consideration.

Several senators were understood to be preparing to take part in the debate on Shantung which began in a stormy session yesterday and will be resumed tomorrow. Senator Sherman, republican, of Illinois, had given notice he would speak tomorrow and it was expected Senator Borah, republican of Idaho, would call up his resolution asking for a copy of a letter said to have been written by General Bliss, Secretary Lansing and Henry White protesting against the Shantung settlement.

# ROUNDUP MADE PROFIT, CLAIM

## Early Statements of Loss Denied in Later Reports Showing Big Net Profit.

Statements thus far obtained relating to the financial result of the Elks Roundup, held in Twin Falls during the early days this month, are at extreme variance. The earlier report indicated a net loss to the Elks of no less than \$4,000. Later statements contradict this in toto.

According to officials connected with the promoting and staging of the Roundup the Elks will not lose money on the venture. One such official declares now there will be no loss, but perhaps a small profit. Another official, equally responsible, and in possession of figure facts, declares the Elks' profit will be in the neighborhood of \$8,000.

### Cuts Figure Higher

A city official, who is close to the officers connected with the directing of Roundup matters, at council meeting Monday night, declared the official figures of receipts and disbursements of the Roundup and the carnival generally will show a net credit of about \$9,000 for the Elks.

Statement was made a week ago in the office of the secretary of the Roundup that by no system of scheming or figuring would give the Elks a profit on the first Roundup venture. It was announced at that time that without considering the war tax, which amounts to approximately \$4,000, the Elks stood on a 50-50 basis as to expenditures and receipts, the war tax representing a total loss.

### Still Getting Claims

No modification of this statement has been made at headquarters, and according to Secretary Merrill G. Bailey, an accurate accounting cannot be made for several days, as bills are still being received.

Meanwhile all structures erected at the fair park for the occasion have been dismantled and the material salvaged. This has been offered for sale, and is expected to yield cash returns netting approximately \$2,000. This is about fifty per cent of the total cost to the purchasers.

### Grain and Provision

CHICAGO: (AP)—Favorable weather and bearish crop reports led to sharp declines today in the corn market. As first harvesters transmit scarcity of offerings made prices harden somewhat. On the bulge, commission houses became conspicuous sellers. Opening quotations, which varied from including figures to 3-4c higher, with September \$1.95 1-2 to 1.96 and December \$1.93 to 1.93 1-2, were followed by a slight additional gain, and then by a check all around to well below yesterday's finish.

Reports that the marine strike had forced an embargo on grain shipments in Baltimore induced considerable selling later, and so too did a new low record price for sterling exchange. Nevertheless, general liquidation failed to develop, and covering by shorts brought about a steep upturn. The close was nervous, 1-2 to 3-8c net higher, with September \$1.96 1-4 to 1.96 1-2 and December \$1.95 7-8 to 1.96 1-2.

Cuts swayed with corn. After opening 18c off to 1-4c advance, including September at 79 to 79 1-8c, the market showed moderate general gains, and then advanced to a new peak. Demand was lacking.

Toward the last, the market rallied to some extent with grain.

### Cash Sales

# UNION HEAD DENIES I. W. W. ASSOCIATIONS

## George Seigerman, in Mass Meeting Refutes Insinuations Against Him.

Emphatically denying he has ever had any association with the I. W. W., and refuting certain published statements inferring that the local of the Cooks and Waiters union harbors members of the I. W. W. organization, George Seigerman, president of the Cooks and Waiters union, last night in a mass meeting expressed sentiments opposed to the principals of the I. W. W.

Mr. Seigerman's statements were made in a public assembly before Mayor W. H. Ehrliche, W. J. Ostrander, G. S. McMurtin, C. D. Thomas, and others. The first named three were called into the assembly to hear a defense of the Cooks and Waiters union and Mr. Seigerman as its head.

The meeting was called as the result of statements appearing in two Twin Falls papers which Mr. Seigerman construed as implying that he and his organization were in league with the members of the Elizabeth Gurley Flynn institution. He pointed out that the papers referred to had, in reporting Monday night's council meeting, credited the chief of police with an inference that I. W. W. agitators were being supported and fostered by the Cooks and Waiters union in Twin Falls. Mr. Seigerman explained that as far as he knew there was no collusion whatever between his organization of the I. W. W. institution, and he pledged his own personal efforts to any government initiated by the authorities to rid the city of any undesirable element that might be congregated within its borders. Mr. Seigerman also pledged loyalty to all the principles of the republic on part of the Cooks and Waiters union.

At the session the question of alleged attempts to break an agreement recently entered into between the union and restaurant, dining room and cafe operators, was brought up. Mr. Seigerman explained that if any attempt had been made it was not sanctioned by the union. He said he could not be sponsor for acts of unauthorized individuals. Considerable acrimony developed during the session, some of the restaurant proprietors coming in for a fair share of the forensic bitterness from the floor. Allegations were made that certain proprietors had attempted to organize a scheme to break the contract entered into between the Cooks and Waiters and the proprietors on June 7.

Taken as a whole the meeting served as a vehicle clearing up some hazy matters connected with the union and the restaurant houses.

# MOURNS EXPORT OF DAIRY STOCK

## Head of State Dairy Association Urges Farmers to Keep Milk Cattle.

Warning against disposal of dairy cattle Gustav Kuntze, president of the State Dairyman's association, declares the bigger profits will accrue to the farmer through the stock than from any other line of pastoral endeavor.

Mr. Kuntze, whose home is in Bull, was formerly head of the Clover Leaf cheese factory at Bull. He calls attention of farmers, dairymen and stock growers to the fact that at the present moment the market price for butter fat at cheese factories, is 70 cents per pound. Pointing to present dairymen conditions and demands he predicts a still higher price for this product.

### Milk Pays.

Cheese factories, Mr. Kuntze explains, purchase whole milk on a basis of the buttermilk product, the dairymen getting the whey back.

"I declare the disposition to denude this country of its fine dairy herds," Mr. Kuntze remarked, referring to the proposal to ship large consignments of milk to European countries. He pointed to the announcement that a shipment of 3000 dairy cows will soon be started across the Atlantic at a French port to help restock that country with milk producers.

### Keep Stock Here.

"Keep American dairy stock at home; we will need every calf and cow in this country at once. I would rather buy hay at \$20 a ton to feed a good cow than to figure on any profit from her sale to foreign countries. To sell such stock is, in my opinion, the biggest kind of a mistake. There is no department on the farm that produces as big a profit to the acre as dairy cattle. Save the dairy herds," Mr. Kuntze urges.

The head of the State Dairyman's

association, came to Twin Falls this morning from a trip to Arco. He reports no crops to speak of in the Arco district, shortage of water being responsible.

# PATRICK ADMITS HE STOLE SADDLE

## Cowboy Is Arraigned in Court and Confesses Guilt; Companion Denies Charge.

In the probate court this morning Arlie Patrick and H. H. Jordan were arraigned to enter a plea to a charge preferred by the prosecuting attorney, Frank L. Stephan of grand larceny. Patrick, consistent with statements made to the authorities upon his arrest, entered a plea of guilty to the charge and was remanded to await trial. Jordan denied guilt and was ordered held for bonds of \$500 to be heard in preliminary examination at 2 p. m. next Monday.

Patrick and Jordan were arrested yesterday by Deputy Sheriff George Huffman upon complaint lodged by Parkwood Lohr, a rancher, who alleged the men had stolen an expensive saddle, riding and roping outfit from him. The men were arrested at the time but a confession, said to have been made by Patrick, observed the third man, who has been released from custody.

# PROMISE PROTECTION FOR GRAIN PRODUCER ON MARKET

NEW YORK, (AP)—License regulations governing dealers in wheat and wheat flour, not under contract control, probably will include a rule which will require restitution to the producer if purchases are made on an unfair buying margin, it was announced by the United States grain corporation in a bulletin sent out today. The regulations, which will be promulgated later, are likely to provide, it was said, a provision that decisions under this rule will be retroactive.

### FISHER IS SELECTED HEAD OF ASSOCIATION

Twin Falls Druggist Elected President of Pharmaceutical Society; Conclave Ends.

Allen G. Fisher, head of the Fisher Drug company of Twin Falls, was yesterday elected president of the Idaho Pharmaceutical association for the coming year. With the election of officer Guyer Hot Springs was named official convention place for 1920.

Yesterday afternoon's business session closed the annual convalescence of the Idaho Pharmaceutical association, which convened here Monday. This afternoon the delegates are spending at Artesian City. At 10 o'clock this morning a special presentation of "The Fight" a government sanctioned picture, production dealing with health and habits, was given at the Gem theatre for the benefit of the druggists.

Besides Mr. Fisher, the officers elected yesterday are: Frank Murray, Twin Falls, vice president; T. M. Starrb, Boise, secretary; C. M. Ienburg, Ashton, treasurer.

### Cats Are in Bad with Health Man

State Commissioner of Public Welfare Sees Utopia in Felinoid State.

(Special to The News.)

BOISE.—"Choose between your cat and the health of your child," is the selection urged upon Idahoans in a statement which has just been issued by J. K. White, state commissioner of public welfare.

"There can be no questioning the fact that feline pets almost invariably spread disease," declared Mr. White Saturday. "Parents who value the health of their children will not permit them the doubtful privilege of coming into direct contact with the bilions of pathogenic bacteria every cat carries."

"I might have more sympathy for the occasional pro-feline individual if it could be demonstrated that there ever has been a case of affection. It is my earnest belief that Idaho's several thousand felines should be exterminated as expeditiously as possible."

"The plea of bird lovers that the cat is a most persistent enemy of feathered songsters should receive consideration, but more important than this argument is the unfavorable fact that cats are hideously insatiable by habit and inclination."

"It is not beyond the realm of probability that Idaho will be a catless state in the not distant future."

### Bulk of Fortune Given to Charity

Late Samuel Kennedy of Nampa Leaves Only Modicum of Wealth to Relatives.

CALDWELL.—Relatives the most unusual case of philanthropy in the history of Idaho came to light during the present week when the will of Samuel Kennedy of Nampa, was filed in the probate court here. Of an estate valued at approximately \$25,000, only \$1500 was left to relatives and other personal beneficiaries.

Of the remainder of the property, which Mr. Kennedy ordered sold without recourse to a probate court order, \$300 of the resultant funds is to be given the Canonburg hospital of Canonburg, Pa.; to the cemetery board of Mingo, Pa. \$400; the Nampa General hospital receives \$1,000; the Children's Home Funding society of Boise will obtain \$1,000, and the College of Idaho \$1,000.

Mr. Kennedy was a well known citizen of Nampa. He died June 11 at Canonburg, Pa., while in the east visiting. Property listed includes five acres of Ada county realty and two city lots in Nampa, which he was profit producing. In addition, he owned personal property including contracts, Liberty bonds, mortgages and other paper, which are estimated to have a marketable valuation of \$25,000.

### STATE DEPARTMENT ABSORBS WAR TRADE BOARD WORK

WASHINGTON, (AP)—The War Trade Board has become a division of the state department in accordance with an executive order. While all functions and records of the board are transferred to the department, this will not affect re-insurance importers or exporters in any way, it is said, as all business will continue to be issued and correspondence conducted in the name of the war trade board.

### A Sweater Smock and Short Skirt

Woman said three years ago that the sweater "would not last," but she now wears the same one in some new form. This is the sweater smock for the first cool days in a bright rose shade in smock model and with monk's cow collar. The nifty suit on the left shows the return of the short skirt after a few weeks' absence, the basketry trimming being the feature.

### Local Brevities

### SCHOOL FOR 200 FATHERLESS GIRLS OPENS IN PHILADELPHIA

PHILADELPHIA, (AP)—The Charles E. Ellis College for the Education of Fatherless Girls is now open. It is located in the beautiful Whitmarsh Valley, four miles north of the Chestnut Hill section of Philadelphia.

Mr. Ellis provided for the maintenance of the college, which he designed for girls what the Girard College does for boys, by endowing it with \$5,000,000. He died ten years ago. Girls who cannot be supported properly under their present living conditions will be given the opportunity for free education. More than 200 can be accommodated.

### WESTERN HARVEST FIELDS OVER SUPPLIED WITH LABOR

KANSAS CITY, (AP)—A warning that the western harvest fields already were over supplied with labor for completing the wheat harvest as far north as the Canadian line, was given out today by the federal employment bureau here. Men still were pouring into the harvest belt, officials said, with little prospect of any employment for the late arrivals.

### THEODORE ROOSEVELT, JUNIOR, TO RUN FOR STATE ASSEMBLY

### MEXICO COMBATS RADICALS

MEXICO CITY, (AP)—Active measures to prevent radicals with anarchistic tendencies from spreading their doctrines in the republic are being taken by the government which already has deported several persons charged with seditious conduct. Federal employers at all ports of entry have been instructed to keep a watchful eye for suspicious persons.

Kindliness Appreciated.

### Grass Fires Scare Residents of Boise

Dense Volumes of Smoke Overhang Outlying Districts Causing Panicky Conditions.

BOISE — (Special)—Grass fires northwest of the city are belching dense volumes of smoke towards Boise, and screen the foothills. It was reported that a dry farmer's ranch, three miles up one of the gulches, was completely destroyed by the fire. Confirmation was not available.

Residents at Twentich and Pennsylvania called the fire department on Sunday afternoon when the smoke poured down from the hills in large masses. Authorities believe there is no danger presented to Boise unless an exceptional strong northwest wind should drive the blaze to the city's outskirts.

The grass fire started about two miles west and three miles north of the city limits and has been steadily creeping eastward, fanned by a west wind, Sunday night the flames were almost due north of town.

### BUNNIES INCINERATED WHEN BUILDING BURNS

Score or More Rabbits Consumed with Barn Which is Totally Destroyed.

BOISE — (Special)—Fire completely destroyed a barn at the rear of 316 South Ninth street Sunday afternoon at 1:30 o'clock. The barn was owned by Mrs. Peter Sanna and valued with the contents at not over \$200. Coal in the barn was not damaged materially but 20 or 30 rabbits were burned to death. Six rolls of bedding were rescued undamaged. Chief Foster thinks the fire was started by children playing with matches.

**To the Woman Who "Never Has Any Luck Putting Up Fruit and Berries"**

How even a Beginner can be Sure of Perfect Results in Making Jams, Jellies and Preserves

Good home preserving is now easy to accomplish. Even the housewife who "never has any luck" with all sugar preserving can put up fruit perfectly if she will first make her preserving syrup with 1/2 Karo (Red Label) and 1/2 sugar—instead of sugar alone.

By this method you can always have the finest, most delicious jams, good clear jellies, and preserves with a rich, heavy syrup.

Karo is a fine, clear syrup, with a natural affinity for the fruit juices.

It blends the fruit with the sugar, doing away with one of the great difficulties of putting up fruit at home, and just about cutting the work in half.

You can depend on it that fruit put up by this method will never grow tough or "candy" in the glass.

For Cooking, Baking and Candy Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

FREE The experienced housewife as well as the beginner will find unusual interest in the new sixty-eight page Corn Products Cook Book. Beautifully illustrated—and suggestions galore for preserving, etc. It is free—write us today for it.

# FORD AFFIRMS AND DENIES HE IS AN IDEALIST

### Millionaire Automobile Maker in Petulant Moment on Stand Admits Truth of One Tribune Statement.

MOUNT CLEMENS, Mich. (AP)—In a moment of petulance while on the witness stand today Henry Ford admitted that he was an "idealistic" man. He subsequently reversed his statement.

This was one of the alleged libelous charges made against him in the Tribune editorial. Attorney C. H. Stevenson, for the Tribune, had been asking questions to establish if possible that Mr. Ford, as a matter of fact, was ignorant of the meaning of the word "idealistic" and that he made the admission merely to stop the examination. Later when formally asked to admit that he was an "idealistic" man he declined to do so.

Mixes Profits with Ideals  
In the course of the examination Mr. Ford defined a traitor as "one who works against the government," an idealist as one "who helps others to make a profit," and, evidently with Arnold Bennett's words in mind, described himself as "a writer."

### BRITISH MAY WITHDRAW ENVOY TO THE VATICAN

Confirmation Is Lacking for Charge of Hostility of Holy See to Allies in War.

LONDON. (AP)—The British government is considering the question of withdrawing its envoy from the vatican, Cecil B. Harmsworth, under secretary of state for foreign affairs, declared in the house of commons today. Mr. Harmsworth added that he had no confirmation of the statement made by Robert J. Lynn, unionist, member of parliament, who had questioned that owing "to the hostility of the vatican to the allies during the war the continued presence of the envoy was causing considerable resentment among many who had lost relatives in the war." Mr. Lynn represents the Woodvale division of Belfast.

Prior to August, 1916, the British government was not represented at the vatican. On August 16, of that year, Count J. F. C. De Salis was appointed envoy extraordinary and minister plenipotentiary on a special mission to the Holy See.

### ST. PAUL RELIEF CENTER

Government Takes Steps Toward Assisting Montana Drought Victims.

ST. PAUL, Minn., (AP)—St. Paul was today selected by the federal government as the center of drought relief activities for Montana and other states which may be affected. A government clearing office will be established at Billings, Mont., where applications from Montana stock men wishing their herds transported to Montana, Wyoming and Michigan will be received and acted upon.

### MINERS DEFEND RIGHT TO VOTE ON STRIKING

Conference Refuses to Authorize Executive to Call Strikes Without Ballot of Members.

KESWICK, England. (AP)—The conference of the miners' federation refused today to authorize its executive to call a strike without a ballot to the members. This was a rebuff for the advocates of "direct action" who backed the resolution authorizing the calling of a strike on any question of national importance.

SPEND VACATION ON COAST  
Miss Hazel Bishop and Miss Eva McDonald have gone to Seattle to remain until about September 1.

### Anti-Soviet Supplies Held Up by Italians

NAPLES. (AP)—The steamer Catholus arrived here from London Tuesday but was stopped by the workmen in the harbor, who refused to allow her to continue her voyage because she carried ammunition. The crew of the Catholus was forced to unload the cargo after which the ship was allowed to proceed.

### Denies Intervention in Mexico Reports

WASHINGTON. (AP)—Assistant Secretary Long of the state department today formally denied reports recently published in South American newspapers that the United States had determined upon a policy of armed intervention in Mexico. The state department has not been advised of the source of the reports.

### KEEN INTEREST SHOWN IN BULL MURDER TRIAL

Large Number of Spectators Present When Grosvenor Hearing Opens in Court.

So great is the interest manifested in the preliminary hearing of H. F. Grosvenor, accused of second degree murder, that the probate court chambers were found inadequate to the demands for accommodations this morning. The court adjourned to the chambers of the district tribunal to conduct the hearing.

Grosvenor is alleged to have caused the death of E. L. Van Ripper, a Bull district farmer. He has been out on bonds of \$7,500 provided by his neighbors. Claim is made that Grosvenor, who is engaged by the Twin Falls land company as ditch rider, and Van Ripper engaged in an altercation over the amount of water supplied from the main canal to the Van Ripper farm. It is said that during this quarrel Van Ripper employed the use of strong language in addressing Grosvenor, the latter striking the farmer on the head with a hatchet and head, causing death which occurred some days later.

A number of witnesses have been subpoenaed for this case, and it is not expected the hearing will be concluded until tomorrow.

### NEED NO LICENSE FOR EXPLOSIVES

Users of Powder Relieved of Obligation to Obtain Permit, Officials Are Told.

Twin Falls authorities, who have had charge of the issuance of licenses for the use of explosives, today received instructions from Clarence Hall, of the license bureau connected with the department of the interior at Washington, D. C., saying that hereafter no licenses will be required for the purpose and handling of explosives.

In his letter of announcement to the local authorities Mr. Hall said: "The explosive regulation act has been removed by act of congress, effective June 30, 1916, licenses are no longer required for persons purchasing and using explosives."

WANTS TO GO TO SCHOOL  
Eugene Richardson, 10 years of age, an orphan who has been the ward of his grand mother since the death of his parents last fall, this morning told the juvenile court authorities he wanted to go to the St. Ann's industrial school and get an education. It is probable the lad's wish will be gratified.

MEXICAN PAYS FINE  
Dominic Gonzalez, a Mexican laborer who was recently convicted of gambling appeared in the police court this morning and paid the fine assessed by the magistrate. He was \$25.00, the prisoner having served one day in jail, thus reducing the original fine of \$25.

### OPENING OF BRIDGE AN IMPORTANT EVENT

### Celebrities of County and State Will Attend Hansen's Crowning Achievement.

All preliminaries have been arranged and a complete program outlined for the celebration at Hansen of the opening of the Hansen suspension bridge tomorrow. The festivities start early tomorrow morning and are planned to continue throughout the day and far into the night.

Hansen's celebration marks the crowning event of a series of important events that seem to lead to the development of the country which the Hansen bridge will serve. It records the completion and opening of an immense structure which for years was only a dream. It marks the reaching of the highest ambition of Judge Lawrence Hansen, for whom the town of Hansen is a living monument. Judge Hansen will be the first, with some other notable, to cross the bridge after the barriers have been removed.

Intense Interest  
The Hansen feat is one that has been looked forward to with intense interest by people in all of the countryside. It is an affair that cannot be considered local only, it appeals to the people of all the county. Every town within hailing distance of Hansen will be represented at the carnival. Twin Falls, especially, will be well represented, and the state, it is expected, will have a less a delegate than Governor D. W. Davis. The latter is expected to present the principal address of the day.

It is in the purpose of the official delegation from Twin Falls to leave with Judge Hansen at 9 o'clock reaching the bridge at about 10 in the morning. The barriers will be immediately removed to permit the car containing the men to cross over. The machine will carry, besides Judge Hansen, members of the Twin Falls county commission, and the Hillsdale highway commission, with State Senator R. H. Stevenson, the latter having been instrumental in procuring the state appropriation starting the fund for the bridge construction.

Immense Structure  
After the official car has passed to the other side of the river the bridge will be ceremoniously and officially pronounced open to public traffic. The Hansen bridge is said to be the highest set swinging structure of the sort in North America. From low water mark of the Snake river at this point to the floor of the bridge the clearance is 345 feet. Its capacity is 160 tons, and it is in length 608 feet from tower to tower.
